

Kracker KrumbS

Odd Bits Salvaged
At Random

(By Aaron Edgar)

Thank you, people. We thank you
ya vurra much!

That was the clean-up campaign
we'd been fussing for—the one the
town had been needing from way
back yonder.

Everyone did a good job. There
was a heap of work and cooperation;
our junk yard was piled
higher by night onto 150 loads of
stuff that came out of our yards
and alleys and off the vacant lots.

With a good weed killing drive
now, our town will look just as it
really is.

We even got the sand and dirt
away from our curbs along our
pavement—by means of the city
maintainer, a mechanical shovel-
loader, some had operated shovels,
etc.

Our curbs and streets could be
kept clean, too—if we had a street
sweeper!

They even started out to mow
the city hall lawn, but they must
have ran out of gasoline, broke the
mower, or something. Anyway, the
job remained only partly done
Monday.

Our No. 4 need for Munday can
well be taken out of the editorial
column, because we had the great-
est clean-up drive we've had in the
ten years of our abode here.

Some more of these needs can
be scratched off as accomplished
before long. Take No. 1 for in-
stance . . .

They've started tearing down the
old high school building and making
preparations for constructing
the modern high school building.
So that need is expected to be met,
maybe during this year.

It will be safe, we believe, to
remove that need from our ed-
page when the contract is let on
the new structure.

And, by the way, the school
board has some good old lumber,
doors, windows, steel roofing,
sheet rock, etc., that's coming out
of that old building—and it's for
sale. Get in touch with Supt. Cox
if you want it.

Then our No. 6 need is about
ready to be taken out as accom-
plished, too. The greatest coopera-
tion among our civic organizations,
we believe, was when three of
them ceased to exist, and the Com-
munity Development Association
was formed.

They've started out with various
forms of action, too—all for the
advancement of—no, not Munday
—but the entire community.

You'll see more action, too, when
a full-time secretary is hired and
he gets on the job and "gets on
the ropes."

The No. 5 need could be accom-
plished this year. The paving part
of it will be—but what about the
drainage? That's a baby that's yet
to be spanked!

Our drainage is needed and
needed tremendously when it rains,
but our No. 3 need—that's the
street sweeper—is needed all the
time. It's our joner, too.

Yep, many of our needs are go-
ing to be met this year. We don't
know about No. 3. If not this year,
it'll be one of our needs for 1949!

Well, we've started a regular
systematic system of garbage col-
lection, and it started next day
following our clean-up drive.

We won't have numerous and
sundry bon-fires in our alleys, now.
They have been combined into one
huge fire out on the dump ground.
Just set your papers and trash
and stuff out early every morning,
and Mr. Hay will pick them up and
haul them away.

Our fireboys ought to welcome
the non-burning of trash in the
fire zones. These trash fires,
which were necessary when no
systematic method of disposal was
had, have been much source of
worry for our fireboys.

And our "fogger" is working,
too. It came in last Friday, and it
didn't remain here idle for long.
City employees have been operat-
ing it early each morning and late
(Continued on last Page)

Returns Of Election To Be Received Here

Hold your "election party" on
the city hall lawn at Munday!
Plans are now under way for
having an election board erected
at the city hall, where complete re-
turns of Knox county officers will
be received and posted in the De-
mocratic primary Saturday, July
24.

A committee from the Commu-
nity Development Association is
working on the plans, and the
committee members want com-
plete returns from the various
voting boxes in Knox county.
These will be posted on the elec-
tion board, and people of this
trade area can keep up with the
election as the returns come in.

All election judges are request-
ed to call in returns from their
voting boxes as soon as completed.
In addition to local races, re-
turns from some of the important
state and district races will be
posted as they are received.

Our Health Officer Says:

The following statement regard-
ing Munday's clean-up drive last
week was issued Saturday by Dr.
D. C. Eiland, city health officer:

"I heartily commend the ef-
forts made by our city officials,
various committees, and the en-
tire citizenship upon their efforts
to make our town a cleaner, more
healthful place in which to live.
But our efforts will be of no avail
unless the town is kept clean every
week.

"We must get rid of breeding
places for flies and mosquitoes to
eliminate health hazards. No
amount of 'fog' from our new ma-
chine will control the fly and mos-
quito problem in a town full of
water puddles without oil, and
where there are open garbage con-
tainers, open privies, hog pens and
cow lots.

"I want here and now to correct
any erroneous impressions that
may exist about an outbreak of
polio in Knox County. We have
not had one case, as yet:

"The way to keep from having
polio is to keep the town clean,
for it has been definitely shown
that this disease is spread by filth.
Place a small amount of oil on
standing water once a week; get
rid of open privies and garbage
containers, hog pens and cow lots.

"Weeds are unsightly, but they
are not health-hazards. They har-
bor flies and mosquitoes, but these
insects do not breed there. Our
fog machine will kill the live in-
sects, but it will not destroy their
breeding places. That is up to us
as individual citizens."

Postal Employees Meet Monday With Goree Postmaster

The Brazos Valley postal em-
ployees association met last Mon-
day evening in the home of Mr.
and Mrs. Buster Chamberlain of
Goree for their July meeting.

In the absence of the president,
Mrs. Claude Norman of Rule, Mr.
Chamberlain, who is vice presi-
dent, presided. W. O. Lewis led an
interesting discussion on postal
laws and regulations.

After the program, a delicious
refreshment plate of punch and
cake was served to twelve mem-
bers. Co-hosts for the affair were
members of the Goree post office
force.

Bridge Wasn't There; Three Go To Hospital

Three local Mexicans had been
to Breckenridge last Friday night,
and were returning by a not-much-
traveled route.

As they came to Wild Horse
Creek, about 11 miles east of Mun-
day, they started to cross the
bridge—but the bridge wasn't
there! The car, a 1936 Ford, plung-
ed into the creek, and the three
occupants were seriously injured,
according to local officers.

The three were taken to the
Knox county hospital for treat-
ment for their injuries.

HOME FROM HOSPITAL

W. E. Braly, who spent several
days last week in the Knox county
hospital for medical treatment, re-
turned home the first of this week.
He is greatly improved, and re-
sumed his duties at the First Na-
tional Bank on Tuesday.

Evangelist

Pictured above is Rev. John
Osteen, evangelist who will conduct
the revival meeting which opens
Friday, July 23, at the Goree
Baptist church. Rev. Osteen is
said to be a forceful preacher and
a leader of unusual ability.

Baptist Revival At Goree Church Opens July 23rd

The First Baptist Church of
Goree will begin a revival Friday
night, July 23rd.

Evangelist John Osteen will have
charge of the meeting. He is a
forceful preacher; a leader of un-
usual ability.

This announcement is a personal
invitation to every one.
There will be a good singing,
spiritual preaching, a friendly at-
mosphere and a cool place to wor-
ship. Our church has installed ad-
ditional fans.

Sound Picture To Be Shown Sunday At Methodist Church

An interesting sound picture,
which is part of the visual educa-
tion course of the Methodist church
of Munday, will be shown at the
local church next Sunday evening
at 6:30 o'clock. The picture is
sponsored by the board of stew-
ards.

Rev. W. G. Barr, pastor, has ex-
cellent projection equipment and
has shown several pictures to local
groups since becoming pastor here.
Regarding the picture Sunday eve-
ning, Rev. Barr says:
"This is a black and white 16-
mm sound film by the Cathedral
Film Co., which is produced to
teach the important subject of stew-
ardship in the church. It is a
story of Christian stewardship and
bears the title, "And Now We
See."

"The picture will be sponsored
by the Board of Stewards in its
presentation here, but is es-
pecially helpful to any church or
organization, whether adults, young
people, or children.

"Every age group in town and
country is invited. The picture is
free—there will be no charge.

The typical American outdoor
girl, Esther Williams, MGM star,
wears a cool, cotton-fresh outfit
for a summer outing. Esther
chooses a solid colored cotton skirt
with a tiny underdruffe and a
blending checked cotton blouse for
a carefree, windblown afternoon.

Bank Deposits Continue High For Mid-Summer

Although somewhat less than
during the peak of the wheat
harvest, deposits in the First Na-
tional Bank of Munday continue to
be high, especially for the mid-
summer period.

The bank's financial statement,
published in response to a call
made by the Comptroller of the
Currency, Washington, D. C., is
published in this week's issue of
the Times.

The statement shows a total of
\$3,907,064.39 on deposit. Of this
figure a total of \$3,727,721.35 are
on deposit for individuals, partner-
ships and corporations.

This shows an increase in depos-
its during the past three months,
there being a total of \$3,699,226.35
on deposit at the time the call
was made in April.

These figures reflect the strong
financial condition of the local
bank, which shows assets totalling
\$4,041,139.43, and the continued
financial progress made by the
community which the bank serves.

Cude Announces For Constable Of Precinct Six

E. J. Cude has authorized the
Munday Times to announce his
 candidacy for re-election to the of-
fice of Constable of Precinct Six,
subject to the action of the voters
in the July 24th primary.

Mr. Cude is serving his first
term in this office, having been
appointed soon after being dismiss-
ed from the hospital after a major
operation. He asks the voters to
return him to this office and stated
that an investigation of his re-
cord, he believes, will merit an-
other term.

During his convalescing period,
Mr. Cude was not able to fully per-
form all duties of office, but since
regaining his health he has given
his time in making an honest and
sincere official.

"I believe that I have sent more
money into the county treasury
during my first term than any of
my predecessors," Mr. Cude stated,
"and this is evidence of the fact
that I have tried to make you a
good constable. If you see fit to
re-elect me, I promise you another
term of honest and efficient ser-
vice. I earnestly solicit your vote
and influence in the coming pri-
mary."

Encampment Of Club Women To Be July 28

On Monday, July 12, a meeting
was held in Benjamin to complete
plans for the Annual Knox-Has-
kell County Home Demonstration
Encampment. Those present in-
cluded members of the committee,
Mrs. J. C. McGee, presiding officer
for this year and Eugenia Butler,
Knox County Home Demonstration
Agent.

Committee chairmen are as fol-
lows: Organization: Mrs. R. M. Al-
manrode, Sunset, Food: Mrs. Lee
Shaulum, Benjamin; Crafts: Mrs.
W. O. Solomon, Truscott; Recrea-
tion: Mrs. Homer Martin, Gilla-
land; Exhibits: Mrs. Billy Hutch-
ens, Hefner; Program: Mrs. Clyde
Taylor, Munday; Registration:
Mrs. F. L. Montanton, Union
Grove.

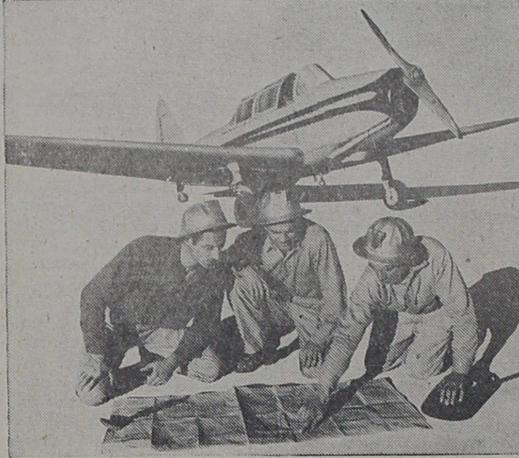

The Encampment will be held
at the Baptist Encampment
Grounds, Lueders, Texas, beginning
Wednesday, July 28, and lasting
through the afternoon of July 29.
Registration begins at 3:00 p. m.

The theme of the Encampment
this year is "To Have a Neighbor,
Be a Neighbor." The program
planned around this "Good Neighbor
Policy" includes songs and
games, the annual Club Stunt Con-
test, with crafts on Thursday
morning, and swimming periods
for those who want a dip, and
time to visit with old acquaintances
and making new ones.

A cordial invitation is extended
to all Home Demonstration mem-
bers, and their friends.

Mrs. M. L. Joyce and son, Joe,
of Albany spent last week here
with Mrs. Joyce's mother, Mrs.
J. B. Bowden, and other relatives.
Mr. Joyce spent the week end here
and his wife and son accompanied
him home.

Vet Hits Pay Dirt—\$40,000

It was just such a World War Two veteran as those shown above
who took \$40,000 worth of tungsten out of a Mojave Desert claim in
one week recently, according to an article in the July issue of Cos-
mopolitan magazine. Where the old-time prospector, crudely equip-
ment, sought only gold, his present day counterpart seeks molybdenum,
titanium, tungsten, beryllium, chromium and a dozen other valuable
metals, and he does it many times with the aid of a small plane and
aerial map as shown above.

Collection Of Garbage Starts Here Friday

Following closely on the heels
of our clean-up drive, Lynn Hay,
who has been employed to be in
charge of garbage disposal in Mun-
day, started his daily rounds of
the business section Friday. He
will make daily pickups in the
business district, and weekly pick-
ups in the residential section.

Business houses are requested to
stop the practice of burning trash
in town, but have this trash in
containers so it can be picked up
each morning. The proper time to
place trash out is early each morn-
ing; do not let it stay overnight
in the alleys.

Here are some pointers given
by the sanitation committee re-
garding disposal of garbage:

Put wet garbage in containers,
with lids. No broken glass or cof-
fee grounds, please. Help Mr. Hay
by separating garbage that can
be used for feeding hogs; waste
table scraps only, no slop or water.

Dry garbage should go in sepa-
rate container—inside alley fence
—handy, so container can be read-
ily picked up and dumped.
If trash isn't put out properly,
it won't be picked up. Tree limbs
must be cut into 4-foot lengths.

The town will be checked at in-
tervals to see how the citizens are
cooperating to keep the town clean.

The committee did its best to
get all trash during the clean-up
drive. If any was missed, Mr. Hay
will pick it up if you call him.

Grandson Of E. R. Hobert Is Polio Victim

Funeral services were held Mon-
day at 3 p. m. at the First Meth-
odist Church in Cisco for Bernard
Odell Plumlee who died in a Lub-
bock hospital, July 3rd. Death
came as a result of poliomyelitis
which affected his legs and lungs.
He was admitted to the hospital
early last week and was placed in
a respirator to facilitate his breath-
ing but failed to respond to
treatment.

Services were conducted by Dr.
Claud C. Jones and Rev. Richard
W. Crews. Pallbearers were Owen
King, George Kent, Vernon Hopea,
Johnny Kent, Frank Judia and Roy
Birmingham of Lubbock.

He was born on August 30, 1924
at Ralls, graduated from Cisco
high school in 1941 and studied in
Cisco Junior College before enter-
ing service in World War II. He
was a student at Texas Tech where
he was completing work on his
degree in electrical engineering.
He was married on July 27, 1947
to Miss Mary Ella Hirm of Child-
ress.

He is survived by his wife, his
mother, Mrs. Cora Plumlee of Cis-
co, his father, W. T. Plumlee of
Cisco and one sister, Mrs. O. B.
Shirley of Eastland.

He is also survived by his
grandfather, E. R. Hobert of Mun-
day.

Mrs. L. S. Partridge of Gaines-
ville is here this week, visit-
ing her sister, Mrs. R. M. Almanrode,
and other relatives and friends.

H. D. Warren, Sr. Dies Wednesday At Home Here

H. D. Warren, Sr., well known
pioneer of this area, passed away
at his home in Munday shortly af-
ter noon Wednesday. He had been
in a very critical condition for
over a week.

Horace Daniel Warren, Sr., was
born in Overton County, Tenn., on
July 12, 1871, and passed away
July 14, 1948, at the age of 77
years and two days. He came to
Texas in 1915 and made his home
near Munday since that time.

He was married to Miss Martha
Wright on November 5, 1892. Sur-
viving him are his wife; two sons,
A. B. Warren and H. D. Warren,
Jr., both of Munday; three grand-
children, Lewis Warren of Abilene,
Mrs. Joe Duke of Munday and
Oma Gene Warren of Munday; one
great grandchild, Jo Ann Duke of
Munday; two brothers, Sam War-
ren of Munday and G. W. Warren
of Amarillo.

He was converted and joined
the Oak Grove Baptist church in
Tennessee.

Funeral services were held from
the First Baptist church in Mun-
day at three o'clock Thursday af-
ternoon, conducted by Rev. Huron
Polnac, pastor. Burial was in the
Johnson cemetery, with the Mahan
Funeral Home in charge of ar-
rangements.

Knox County Passes Quota In Security Loan

Knox County has again "come
through" with the patriotic spirit,
and her people have shown that
they're willing to do their part to
help halt the advance of inflation!

For some time it was feared
that the county would not reach
her quota of \$93,000.00 in the Se-
curity Loan Drive—there seemed
to be a short of "let down" upon
the part of the people. But as the
drive came closer to a close, more
and more people purchased the
Security Bonds—enough to put the
county over the top.

W. E. Braly, county chairman,
stated Wednesday that the county
surpassed its quota by a "consid-
erable margin." He extended his
sincere thanks to all citizens who
cooperated in the purchase of
bonds during the Security Loan
Drive.

RETURN FROM TRIP

Mr. and Mrs. G. C. Conwell have
returned from a trip, first to Lock-
ney and Plainview where they vis-
ited Mrs. Conwell's brother and
sister, then on to Red River, New
Mexico, where they spent four
days trying to catch some moun-
tain trout but did not have any
luck. They came back down the
Rio Grande River to Santa Fe and
Fort Sumner. They saw lots of
snow on the mountains and got up
to 12,000 feet above sea level. They
reported having a nice time but
how the careless weeds did grow
while they were gone—only eleven
days.

Be careful! Observe local and
state traffic laws.

Reburial For Paschal Peysen Slated Friday

Body Of War Hero Is Due To Arrive On Thursday Night

The body of Paschal A. Peysen,
one of the first Knox county youths
to make the supreme sacrifice
during World War II, will arrive
here by train at 8:20 Thursday
night and will be taken to the
home of his sister, Mrs. Clifford
Rhoads, until time for reburial.

Reburial services will be held
from St. Joseph's church in Rhine-
land at ten o'clock Friday morn-
ing, being conducted by Father
Fabian Diersing, O. S. B. Burial
will be in St. Joseph's cemetery at
Rhine-land.

Pallbearers will be Ben Kuehler
Weldon Herring, Philip Homer,
James Carden, Leonard Kuehler,
Chas. Haynie, Jr., John Phillips
and Raymond Carden.

Paschal A. Peysen was born
August 8, 1918, and was 24 years,
4 months and 23 days of age at
the time of his death. He was
reared in Munday and attended
the Munday schools.

He entered the armed service
January 1, 1942, serving in the
127th Infantry, 32nd Division. He
trained at Camp Wolters, Mineral
Wells, and at Camp Roberts, Calif.

Paschal sailed for overseas ser-
vice in April, 1942, and did further
training in Australia. He saw ac-
tion in New Guinea from Septem-
ber, 1942, until his death, January
1, 1943, in the battles of Buna, San
Ananda, The Village, and was
awarded the Purple Heart for mili-
tary merit and for wounds received
in action. His regiment, the
127th Infantry, was given the Pres-
idential Citation.

He is survived by a brother,
Johnny Peysen, and a sister, Mrs.
Clifford Rhoads, both of Munday.

Huge Outlays Planned In Knox For Repairing

An estimated \$153,000 will be
spent in repairing and moderniz-
ing non-farm homes in Knox coun-
ty during 1948, according to a
report just released by the Tile
Council of America.

That sum will be expended larg-
ely on painting, carpentry work,
roofing repairs and plumbing, the
report disclosed. "Greater avail-
ability of building materials will
make possible a record amount of
home improvement throughout the
nation this year," declared Malcol-
m Schweiker, chairman of the
council's residential construction
committee.

About 30 of every 100 homes in
Texas will be painted, either inside
or out, during 1948 and 17 will
have roofs repaired or replaced,
according to the report. Seven
will have plumbing overhauled,
bathrooms tiled or showers in-
stalled and six will have carpentry
work done, the report revealed.
"To meet demands for materials
for both new homes and home re-
pairs, production has been stepped
up in practically every type of
material," said Mr. Schweiker. The
output of ceramic tile for bath-
rooms and kitchens, for instance,
is now at the highest rate in his-
tory, government reports show.

Revival To Begin Friday At Goree

The gospel meeting at the Goree
Church of Christ will begin on
Friday evening of this week, con-
tinuing through Sunday, July 25,
it has been announced by Minister
G. E. McCaleb, who extends an
invitation to everyone to attend.

Evangelist Ernest H. Witt of
Huntsville, Texas, will do the
preaching. Services will be held at
10 a. m. and at 8:30 p. m. each
day. An interesting meeting is ex-
pected under the leadership of this
able evangelist.

MRS. F. E. JETTON IS SERIOUSLY ILL

Mrs. F. E. Jetton of the Hefner
community, mother of Dave Jet-
ton of Munday, suffered a stroke
at her home on Wednesday, at
which time she also fell and frac-
tured a hip. She is reported to be
in a very critical condition.

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially, character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

MUNDAY'S NEEDS FOR 1948

1. A modern and up-to-date high school building, and care for the present and future educational needs of our children.
2. A waterworks system that meets all requirements of health, sanitation and supply.
3. A street sweeper that will keep our pavement clean enough to be recognized as pavement.
4. A clean-up campaign of lasting effect; yes, one that extends even across the tracks.
5. Completion of our drainage and paving program, which will probably be accomplished this year.
6. More activity among our civic organizations, looking forward to, and planning for, a better Munday in the future.

ALL HEALTH HAZARDS NOT REMOVED

Much as our clean-up campaign during last week did to lessen the health hazards in our town and to make it a cleaner, more pleasant place in which to live, all of our hazards are not yet removed.

Munday experienced a very thorough clean-up during this campaign—one of the most thorough in many, many years. Many hazards and unsightly places disappeared, but we must do more than this to keep down flies and mosquitoes.

The entire citizenship of the town, and especially the committees, captains and others who took the lead in this clean-up drive, are to be congratulated upon this civic enterprise. And with a man employed to haul away garbage and trash and cans, and with the burning of trash prohibited within the business district, the town can be kept clean with a little effort.

The fog machine, which was placed in operation Friday, will eliminate our present bumper crop of flies and mosquitoes—but more must be done.

"No amount of fog will control the fly and mosquito problem in a town full of water without oil, and where there's open garbage, open privies, hog pens and cow lots." These are the words of our city health officer. We must get rid of the breeding places; put oil on open and stagnant water puddles, improve our outdoor privies if we can't do away with them entirely; eliminate many pig pens and cow lots in the town, where flies, mosquitoes and other insects breed. Oil should be applied to open water puddles at least once a week.

Everything points to a cleaner, nicer and healthier place to live here at Munday. With proper diligence and the type of cooperation we received during the clean-up drive, our town will continue to be clean. Let's all do our part.

"Every four minutes an American dies of a disease caused by a common cold," says a medical item. It must be awfully monotonous for the American.

The head always starts swelling about the time the mind stops growing.

DON'T TAKE A CHANCE

The National Board of Fire Underwriters has issued a timely warning concerning fire hazards that are especially great during summer and early fall.

The fire rate in vacation cottages and resort hotels runs high—due almost entirely to simple carelessness. Many summer homes are far from fire departments, and once a fire gets going, a total loss often results. The only defense is constant watchfulness. Don't overload electric circuits with extra appliances. Don't use refrigerators and similar equipment which have been out of service for months without oiling them. And—above all—see that stoves and pipes are all protected from wood-work, and that fireplaces are screened.

Keep some sort of fire-fighting equipment ready at hand. If a fire is detected quickly, a garden hose or a hand extinguisher may check it before serious damage is done.

The best part of a vacation is getting out of doors. But, in time, there won't be any enticing out of doors to visit if we fail to control fire. Watch your smoking materials. And never leave a camp fire until it has been thoroughly smothered with water and damp earth.

In short, don't take a chance. Then you'll have a happy, healthful vacation—and so will everyone else.

WHAT PRICE HEALTH

In all probability, no action will be taken on compulsory health insurance by this Congress. And the reasons for that are plain.

First of all, the polls show that the American people are strongly against schemes which would make the doctor subservient to the politician—and, incidentally, cost the workers and employers of the country another \$4,000,000,000-plus a year.

Secondly, the factual testimony in opposition to the plan has been extremely impressive. It has been shown that the American health standards are far better than those prevailing in most other countries, even overlooking the effects of the war.

Third, it has also been shown that the arguments offered in behalf of compulsory health insurance are full of fallacies and misinterpretations. Good medical care—for those who want it—is far more abundant, far more easily obtainable, than these arguments ever admit.

Fourth, the growth of voluntary prepayment plans, which give workers and their families medical care and hospitalization at a low cost, has been nothing short of amazing. The largest of these plans has something like 30,000,000 members. Thus, for a great percentage of our people the problem of paying for care has been solved.

Last, and most important, the experience in other countries is that political domination of medicine is nearly as bad as complete socialization. In both cases, the quality of service nose-dives. Then the people really have a health problem.

The weather hasn't been to everyone's liking lately, but there are not nearly so many complaints as there would be if the government regulated it.

ARTIST KEEPS COOL!

Morie Morrison, nationally known cartoonist, says his formula for successful living is doing work he enjoys. Artist, writer and sportsman, Morrison has made a profession of his hobbies, and combines a rare talent for humorous caricature with an expert knowledge of sports. His recent book, *Here's How In Sports*, has won wide popularity throughout the country as a manual for hunters, fishermen and golfers.

Described by his friends as a good mixer, Morrison turns to his drawing board to illustrate his favorite hot weather thirst quencher, a California Julep. It's made by crushing a few sprigs of fresh mint and half a teaspoon of sugar in the bottom of a 10 ounce glass. Then fill the glass with cracked ice and add 6-8 ounces of Roma Sauterne. Stir and serve garnished with fresh mint.

In November of 1920, I came to Texas. I'd had to sell the paper which I owned up in Arkansas and come to this state to rest in order to build up my health. After riding on the train for almost 24 hours, I prepared to get off in San Antonio. Nearly a thousand miles from home and friends, a stranger in a strange land, I felt lonely, indeed.

Imagine my surprise as I stepped off the train and heard a voice exclaim, "Boyce House, what are you doing away down here?" The speaker was a schoolmate of Central High days in Memphis, Tenn., who was at the station to meet a relative. The sight of a familiar face and the sound of a friendly voice drove away the "lost" feeling.

I have never seen that schoolmate since then.

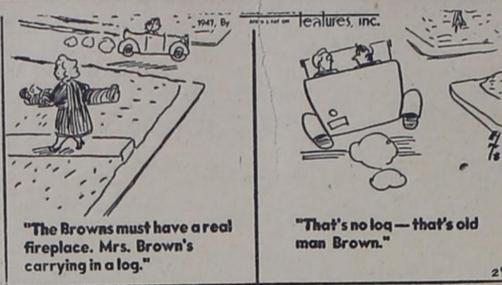

A man living in a small Western city was in Chicago on a business trip. Under the impulse of a spirit of mischief, he entered the telegraph office and sent a message to a man living in his town. The telegram read, "Flee at once; all is discovered. (Signed) You know who."

When the traveler returned, he found that the man to whom he had sent the message had left—and he never did come back!

Jim White was a cowboy in New Mexico. One day, he came into town with a story of a wonderful cave which he said he had discovered and explored.

Nobody believed him, however. It took more than 20 years before he could persuade anyone to go out with him and see if he was telling the truth. At last a group of businessmen yielded and he made good his most enthusiastic

Looking Ahead

PROFIT is a word that folks must utter today in whispers. In fact, it is a nasty word, the way most people use it. And this is a pity. Actually, the word has in it a great measure of progress and once meant the results of that which was "profitable," or usefully productive. But folks today have twisted their ideas on profit around so that the word indicates to them the ability of business to take advantage of somebody, especially the worker.

Our economic processes are interesting and exciting when you understand them. Without properly understanding the ways of money, trade, and commerce, an unthinking person can become a dupe for every ISM that Dr. Utopia has to offer. It is amazing to me that I find young people and a few old ones, too, so taken in by glamorous ideas that have no basis in fact. Some of these folks dream that profit is loot. They look at profit as lacking in morals and as the worst kind of sin.

Way To Progress THE THING that is directly responsible for human progress and human welfare is work. Work is human energy. Without work, and without the pay that people get for their human energy, progress would be at a standstill. But there is something else. The tools, the factories, the land, the buildings—all the things men use in drawing up their human energy—these things are simply human energy stored up for use.

Payrolls and profits: these two items are vital to the well-run business enterprise. Nearly everybody understands already how important payrolls are to the welfare of our economic community. But not nearly so many people understand that profits

also are necessary. In fact, it would be impossible to have good wages without correspondingly high profits. Then, a worker whose company makes a profit is well-blessed indeed.

How To Prosper WHY is that so? Only a business that makes healthy profits can offer steady, good-paying jobs to the community. Only a company that makes sufficient profit can buy modern tools and replace worn-out ones. What worker does not like to operate good machinery? Only a business that makes good profits can afford to plan and to expand its facilities. In other words, all workers who think right about it would want an employer to make good profits.

Many workers think that wages are paid out of profits. This is not so. Money for the work comes right out of sales and goes directly to payrolls, just as money for profit comes out of sales and goes for the use of tools. When profit is high, the chances are that wages also will be good. This is nearly always true unless taxes come in and take too large a chunk, or unless the company is so much in debt that profits cannot be used for new tools.

If I were an employee of a company or working in an industry, I would be very much concerned that my employer makes a profit. I would do all I could do to make a profit for him. Knowing that my chances of having a good job and of growing with the company would depend upon the success of the whole enterprise, I would work hard to keep my employer "out of the red." Then I would know that my efforts really are building a greater America.

J. E. Trainer, Vice President In Charge Of Production, Receives Green Cross Honor For Company For Third Consecutive Year

For the third consecutive year The Firestone Tire & Rubber Company has been awarded the National Safety Council's Distinguished Service to Safety Award, as was announced here by Winston Blacklock, local Firestone store manager.

"It is axiomatic," said Mr. Blacklock, "that the rubber company building the world's safest pneumatic tires should build them in the world's safest rubber factories."

Reduction Shown

Firestone is the only company in the rubber industry ever to receive the award on a company-wide basis. It is also the only firm in any industry to be given the award for the last three years on a company-wide basis. To qualify for the award a company must show a reduction from the previous year in both frequency and severity rates for accidents, and its record must be substantially better than the average for the industry.

In a letter to Glen D. Cross, Firestone safety director, the safety council president said: "As you know, this award is given only to those organizations which have achieved outstanding safety records. Your company has demonstrated its eligibility to receive this third award by maintaining rates substantially below the most recent averages for similar organizations and by showing marked improvement in comparison with the previous year."

Sharp Rate Drop

"The directors and staff of the National Safety Council join me in extending to you our heartiest congratulations," he continued, "and our best wishes for the continued success of your safety program."

Firestone's frequency rate for accidents in 1947 was 2.9 per million manhours worked, representing a 67.5 per cent decrease since 1945 when the first Distinguished Service to Safety Award was received by the company. A decrease of 36.0 per cent has been achieved since 1946.

Miss Jean Ratliff, Miss Frances Hallmark and Bobby Broach were visitors in Lubbock last Monday.

Insured Mortgage Program Will Aid Credit To Farmers

Recent Congressional changes in the insured mortgage program of the Farmers Home Administration will broaden opportunities of farmers to obtain real estate credit, L. J. Cappleman, State Director of the Farmers Home Administration of Dallas, announced today.

An assured market for insured mortgages and an increase of one-half of one percent rate are provided in amendments to the Bankhead-Jones Farm Tenant Act, approved June 19, to encourage greater participation of private capital in the farm ownership program.

Lenders who extend credit to eligible farmers for the purchase, enlargement or development of farms under the insured farm mortgage program may assign the mortgage to the Government and receive payment in full at the end of a specified period established by the Government. The loans will carry an interest rate of 3 per cent and a 1 percent insured mortgage charge.

The credit is extended only to farmers who cannot obtain adequate financing from private or cooperative sources. Repayment of the loans is fully guaranteed by the Government. The loans are limited to 90 percent of the borrowers total investment in the farm and are repayable over a 40 year period.

Since the first insured loan was made last October, 333 loans averaging approximately \$7,000 have been closed or approved. In addition, 9,200 applicants for insured loans have been approved and their applications are being held pending the location of suitable farms or lenders willing to finance the loans with Government insurance. Up to \$100,000,000 worth of loans may be insured in any one year.

Principal activity has been in eight states. Minnesota has closed or approved 31 loans, Kansas 30, Wisconsin and Michigan 27 loans each, Missouri 24, Alabama 23,

FALSE ECONOMY DESTROYING VETS MENTAL CARE SYSTEM

Six thousand war veterans are entering mental hospitals every month, but the vast majority of them could be spared that ordeal were it not for Federal penny-pinching.

While the government squanders millions of dollars teaching veterans how to tend bar or how to dance, a wave of false economy has hit the mental hospitals for veterans, causing a serious curtailment of services, according to an article by Albert Q. Maisel, in the July issue of Cosmopolitan magazine.

More than 475,000 veterans of World War Two have already been adjudged mentally disabled by strict Veterans' Administration Disability Rating Boards, Maisel points out, declaring:

"Of all this great swarm of mentally troubled veterans, the vast majority could be saved from mental disease by modern treatment."

"The Veterans' Administration has proved this. Its outpatient clinics have cleared up thousands of cases, long before they reached that stage of acute mental deterioration requiring hospital treatment. The best hospitals in the veterans' mental-hospital system have been helping thousands of other—more severe—mental cases, discharging these young men back to society in a few months instead of after many years, because they have given them intensive psychiatric and medical treatment instead of mere custodial care."

Statistics showed that after early treatment in clinics was tested, by the spring of 1947 they were saving approximately 3,600 veterans a month from mental hospitals.

"The cost to the government would have been nearly \$2,000 per man. Thus the mental clinics of the Veterans' Administration have been saving the Treasury nearly \$40,000,000 a year," the article declares.

Officials know that at least 175,000 veterans, whose mental difficulties stem directly from their military service and who draw compensation for neuro-psychiatric disabilities, are in need of clinic aid, according to the article, which states:

"Doctors can predict on the record of the past, that at least 43,000 of these men uncared for in the early stages of their mental disorders, will, sooner or later, require prolonged and far more expensive hospital treatment."

Instead of increasing the number of doctors, nurses, attendants and others who care for the mentally-ill veterans, the personnel of our mental hospitals has been sharply curtailed in the last few months Maisel declares.

"Many of the best physicians have already left the veterans' mental hospital service," he states. "Hundreds of employees have been laid off because of an alleged 'lack of funds.' Essential services have been cut and cut again."

Such "economy" is the sheerest kind of nonsense, according to Maisel, who points out that the future cost of this "economy" will be terrific.

"All this may seem to save a few millions now," Maisel asserts, "but like the phoney economies that followed the first World War—the false savings that wrecked our veterans' hospital system once before—these discharges and cutbacks will cost America infinitely more both in money and in wrecked lives than they will ever save."

"Men who could, with prompt and proper treatment, be quickly discharged from these hospitals, begin to linger in them and to deteriorate, solely because reduced staffs cannot adequately protect them from themselves and from difficulties stem directly from their military service and who draw compensation for neuro-psychiatric disabilities, are in need of clinic aid, according to the article, which states:

"We can save most of these men—your neighbors and mine. But we will not be able to save them if we allow our veterans' mental hospitals to starve for funds and physicians—as they are now beginning to deteriorate and starve."

Georgia 22 and Texas 11. Of the lenders, 84 percent have been banks serving rural areas. Other loans have been made by life insurance companies, individuals, state retirement funds, and subsidiaries of farm organizations.

The insured mortgage program is based on experience gained in the making of direct government farm purchase loans to approximately 60,000 farmers, including 8,000 veterans during the past 10 years. Approximately 9,000 of these loans have been paid in full from farm income 30 or more years ahead of schedule.

Congress has appropriated \$15,000,000 for direct farm ownership loans during the coming fiscal year.

In most respects the direct and insured loans are similar. A farm purchased, enlarged or improved with either direct or insured loans cannot have a value greater than the average value of all efficient family-type farms in the county in which it is located. No loan can be made if the total investment of the borrower will be more than the reasonable value of the farm based on its long time earning capacity. All loans are accompanied by supervision in improved

farming methods. A borrower cannot qualify for a direct loan, however, if he is able to make a 10 percent or more down payment on the farm and can obtain an insured loan from other credit sources.

Approximately 70,000 applications are on hand for direct and insured loans, of which 38,000 are from veterans.

Veterans receive preference for both direct and insured loans.

Mr. and Mrs. Orville Couch of Wellington visited with Mr. and Mrs. Wade T. Mahan awhile last Tuesday.

Mr. and Mrs. E. A. Hollar and Mr. and Mrs. Alvin Hollar visited relatives in Dumas over the week end.

Raymond Mitchell, Wayne Rodgers and James Cadwell were business visitors in Austin this week. Raymond and Wayne plan to enter Texas University this fall.

Mr. and Mrs. Alvin Hollar were visitors in Lubbock last Tuesday and also attended to business matters.

Attend Some Church Next Sunday

FIRST METHODIST CHURCH (Wm. G. Barr, Minister)

Sunday School At 10:00 a. m.

J. W. Massey is Gen. Supt. and Earl McNeil is Secretary. The Sunday school staff extends a cordial welcome to visitors and new members.

Morning Church At 10:55 a. m.

Janie Spann is Pianist and Mrs. Oscar Spann will direct the choir. The Pastor, Rev. Wm. G. Barr, will be in charge of the service and will bring the morning message.

Vesper Service At 6:30 p. m.

The pastor will lead in a soul-stirring inspirational service which will be followed by a special sound picture by Cathedral Film Company. The picture bears the title, "And Now We See", and is produced especially for the Church. The public is invited. There will be no charge. The picture is sponsored by the Board of Stewards of the church.

Youth Fellowship At 7:30 p. m.

Both the Intermediate and the Young people will meet for their respective worship and recreational work. Visitors are welcome. First Quarterly Conference, July 21.

Rev. Howard Crawford, District Superintendent of the Stamford District, will be present at 8 p. m. July 21 to conduct the business of the first quarterly conference. The church is urged to keep this date open so a good attendance can be had.

Misses Goldie Marie and Gloria Jean Tidrow of Throckmorton spent the past two weeks here with their mother, Mrs. Bob Billingsley.

Now its proved quality becomes more impressive than ever

...AND CHEVROLET'S LOW PRICES

are even more attractive than in the past!

NOT only does Chevrolet stand out as the first and only low-priced car with all the following major advances which comprise the soundest and best in modern motoring . . . not only does it offer all these major advantages of Big-Car quality at lowest prices . . . but it offers them at prices that are now definitely and decisively lower than those of any other car that even remotely approaches it in quality!

It's the first and only low-priced car with the original and outstanding Unitized Knee-Action Ride. It's the first and only low-priced car with a world's champion Valve-in-Head Engine. It's the first and only low-priced car with the enviable Body by Fisher. It's the first and only low-priced car with the triple safety-protection of Fisher Unisteel Body-Construction, the Unitized Knee-Action Ride and Positive-Action Hydraulic Brakes.

And yet, despite the fact that CHEVROLET AND ONLY CHEVROLET IS FIRST to offer all these major advancements of low-cost motoring, it holds an even greater price-advantage and gives you even more value for your dollars in comparison with other automobiles, today than at any previous time in Chevrolet history!

Compare Values!... Compare Prices!...

CHEVROLET—and Only **CHEVROLET**—IS FIRST!

- Crosley Refrigerators
- Crosley Radios
- Crosley Frostmasters.

— WHY DO IT NEEDLESSLY? —

Krause factory equipped One-Way Plows now have Timken disc bearings and self-sharpening, long life discs. Put these modern improvements on your Krause One-Way and you will enjoy trouble-free dependable service. No tearing down to reroll discs. No tearing down to repair worn-out bearings. Your plow will be ready every day you want it to work.

KRAUSE BEARINGS ARE BEST
Krause Timken disc bearings are heavy duty, self aligning, double dust sealed for rugged service.

Krause self-sharpening discs wear three to five times longer than ordinary discs. A hardfacing alloy is scientifically applied to the inside edge of the blade, making it wear resistant and self-sharpening through the abrasive action of the soil. . . . More plowing with less power.

Save yourself hours of work during the plowing season by installing this new Krause equipment.

"The Farmall House"

KnoxPrairie Philosopher Offers His Cotton Patch As An Experiment On Fight Against The Boll Weevils

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek hits a new low in laziness this week, as his letter will reveal.

Dear editor:
I read in a copy of a newspaper which I borrowed out of my neighbor's mail box due to the fact any subscription expired eight years ago and I haven't renewed as I've been workin on a plan to get some candidate to run on a platform of free subscriptions to everybody on the theory a informed electorate is the hope of democracy, although what you can get out of some papers, if you're broad-ganged enough to stand the personal reference, gives democracy a mighty slim chance, as I

J. A.

started out to say, I read in this paper where some scientists is workin on a plan to control cotton insects by creatin a disease epidemic among them.

Under this method, the epidemic breaks out among the boll weevils say and they're so busy with their own problems they haven't got time to work on the cotton, and all I have to say is I wish them scientists would get a move on.

I don't know whether I'm gonna make any cotton this year or not, but before I touch that field again I'm gonna wait to see what the insects are gonna do. I ain't never got over the fact in 1921 I plowed my cotton clean as a whistle, from daylight to dark, after every rain, and when I finally

laid it by and pulled up to the house with me and my mule both down to skin and bones, I discovered all I'd done was get the weeds and trash out of the way of the boll weevils and leaf worms and flea hoppers, and I wound up the year makin one bale of cotton, that is I estimated it and about a bale as the bottom fell out of the price and hands was scarce and I never did get around to pickin it that year, and the county agent advised me against tryin to pick it the next year, sayin it probably would do the soil more good just to plow it under, and I guess he was right and I may do it yet, if I ever decide to put that field back in cultivation.

But right now, if them scientists want to us my 1948 cotton patch to experiment with, they're welcome to it. If they can cause a epidemic among the pests in that cotton to such a extent the crop will make something, their fortune's made, although understand I'm makin this offer with the understandin if they succeed they have to furnish the cotton pickers too.

Yours faithfully,
J. A.

Dr. and Mrs. J. O. Haymes of Lubbock visited with Dr. Haymes' brother and family, Mr. and Mrs. Lee Haymes, last Thursday.

Uncle Sam Says

Millions of Americans are reeducating themselves to the support of our Government by word and action. Nearly 10 million of them are doing their share through the purchase of U. S. Savings Bonds on the easy, automatic payroll savings plan. They realize that a dollar saved is a dollar fighting against inflation. And some day, these dollars saved, will be returned to them with interest, \$4 for every \$3 invested. These bonds are truly security bonds as they help to stop spiraling prices. You too can become an investor through the steady accumulation of Savings Bonds. If self-employed, an automatic bond buying plan is available to you through the Bond-a-Month plan at your bank.

Mr. Roberts is working with us on a salary basis instead of a commission basis. He doesn't have to slight his work or hurry on the job to be paid. Come in and consult with him.

We back his guarantee of a good job with our guarantee to make you a happy and pleased customer.

It Was A Good Clean-Up Drive, And A Little Effort Will keep Town Clean; Committee Expresses Thanks To All

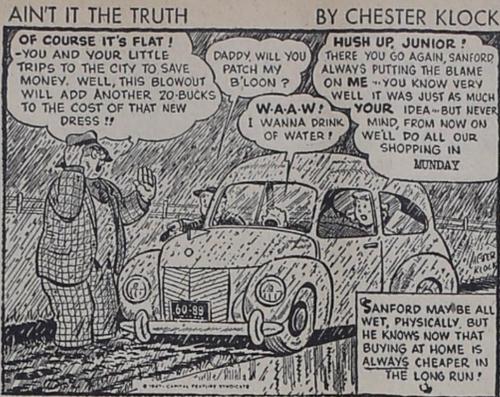

It cost the Community Development Association around \$201.00. Between 130 and 150 loads of garbage, trash, tin cans, wire, etc., were hauled off to the dump grounds Wednesday and Thursday.

The clean-up committee, composed of R. D. Atkinson, chairman; C. R. Elliott and J. C. Borden, are enthusiastic in their praise of the good work done. They want to express their sincere appreciation to everyone for such splendid cooperation, especially those who donated their time, trucks, etc., toward

getting the stuff out of town.

Among those who donated vehicles were John C. Spann and Don L. Ratliff, with their jeeps and trailers, and the following who donated trucks: Farmers Union Gin, West Texas Cotton Oil Co., Doris Dickerson, Kenneth Baker, Aubrey L. Smith, J. L. Stodghill, Winston Blacklock, George Nix and Atkinson's Food Store. Dickerson and Nix also furnished a scoop-loader each.

John Spann, Jr., operated a jeep-trailer deal, too, and did a

Changes Are Made In Distributive Education Classes

Courses are now offered in Distributive Education in Bookkeeping, Accounting, Salesman General and Assistant Manager on a full-time (25 hours per week), or half-time basis (12½ hours per week). The requirements are an interest in one of the above courses, able to attend classes regularly and an honorable discharge. Classes are being held, part in day time and part at night. At the present time there are two classes of distributive education; one in Munday and one in Benjamin.

Whether you are self-employed working for someone else, or unemployed, has nothing to do with disqualifying you from taking any of the above courses if you are interested in that type of training. Wage ceilings have been raised to \$210 per month on a single man;

\$270 per month on a married man; and \$290 per month for a man with two or more dependents. Subsidence allowances are \$75 for a single man; \$105 for a married man, and \$120 for a man with two or more dependents.

Any veteran interested in one of the above named courses may get full particulars by calling at the Veterans Vocational Office. New classes start August 12; sign up now so your papers can be processed early.

BIRTHS:

Mr. and Mrs. W. F. Adkins, Rochester, a Son.

Mr. and Mrs. Rosalie Barnes, Benjamin, a Son.

Mr. and Mrs. A. Shaver, Rochester, a Daughter.

C. R. Elliott was in Stamford Wednesday afternoon to attend a meeting of the Production Credit Association Loan committee.

Mr. and Mrs. Aubrey Brown and children of Lampasas and Mr. and Mrs. B. W. Brown and family of Lometa came in Wednesday for a visit with Mr. and Mrs. Niel Brown and son.

jam-up good job of it, too, just like he used to do in football.

On the committee to secure trucks to help in the hauling were J. L. Stodghill and Don L. Ratliff.

Captains who worked in various areas are: J. K. Jackson, C. H. Mullican, Buel Bowden, Kenneth Baker, Paul Pendleton, Worth Gafford, Gene Harrell, Fred Broach, Lamoine Blacklock, Dick Wardlaw, Ed Jetton, Travis Lee, Rex Howell, A. A. Smith, Jr., Ray Holcomb, J. C. Borden, Homer Linn, J. B. Reneau, Jr., Leland Hannah, O. V. Milstead, A. B. Warren, Winston Blacklock, John Spann, Wallace Reid, I. V. Cook, N. A. Chastain, Joe Bailey King, Walter Rodgers, Chan Hughes and Carl Green. In the colored district were Aime Johnson and India Beal. In the Spanish American district were Nick Navrita and Benito Florez, Jr.

Maybe there were others, but the committee couldn't think of them, so they wish you to accept the "blanket thanks" for your cooperation.

"Everyone cooperated nicely, and we did a good job," the committee said. "We tried to get everything we could find that was in shape to be hauled off, but if we missed you, please call Mr. Hay, who has been employed to do this work, and he will pick it up. Our thanks to the entire town, and especially those who actively participated and cooperated with us in this work."

BIRTH ANNOUNCEMENT

Mr. and Mrs. W. L. Thornton of Goree have received an announcement of the arrival of a grandson, Robert Thornton Allen, who was born Friday, July 9. Parents are Mr. and Mrs. Dick Allen of Princeton, Ill. Mrs. Allen will be remembered as Eunice Thornton.

MOVING TO ANSON

S. T. Easley has purchased a home in Anson, and he and Mrs. Easley will move there soon to make their home.

Casey Nebhut was a business visitor in Lubbock last Monday.

John Michels and Bud Williams flew in from Haswell, Colorado to spend the week-end with their families. They reported a very enjoyable trip.

Goree News Items

Miss Joyce Wynelle Stephens left last Tuesday for Fort Worth where she entered Brantley Draughns Business College.

Mr. and Mrs. Raymond Davis and daughter of Wichita Falls, Mr. and Mrs. J. C. Davis and son of Houston and Miss Cain Davis of Fort Worth were recent visitors of their sister, Mrs. W. H. Stephens of Goree.

Wayland and Elaine Chandler of Goree have returned home after an extended visit with their sister at Odessa.

Miss Burniece Goode and Sterling Doug Dooode have returned home from a trip to Kim, Colo., where they visited Mr. and Mrs. Ben Goode and Mr. and Mrs. Charlie Goode.

Recent visitors in the home of Mr. and Mrs. E. B. Crites and Mr. and Mrs. W. L. Stewart were Mr. and Mrs. Tom Bice and daughter, Johnene of Demmitt and Miss Charlotte Gilliard of Herford.

Mr. and Mrs. Ray Taylor of Quannah were Goree visitors Friday.

Miss Emma Cooksey returned home Thursday from Lubbock where she visited relatives.

Mr. and Mrs. Floyd Coffman of Littlefield were recent visitors in the home of Mr. and Mrs. E. W. Norris and W. W. Coffman.

Mr. and Mrs. W. L. Stewart were Wichita Falls visitors Tuesday.

Mr. and Mrs. Forest Daniell left Saturday for the annual fishing trip to Colo. They were joined in Lubbock by Mr. and Mrs. Earl Coffman. They also visited Mr. Daniell's father in Albuquerque, New Mexico. They will spend about ten days in Grand Junction, Colo.

Uncle Sam Says

This month Americans celebrate Independence. Down through the decades they have cherished and fought to maintain Independence and Security, for both the nation and for themselves. For Security, U. S. Savings Bonds offer the safest means of building your future. Every dollar invested in Savings Bonds today is part of your "take home savings"—money that GROWS. There's no safer or easier way to save than through the Payroll Savings Plan. Use that salary increase, made possible through tax reductions, to step up your purchase of Savings Bonds. Or, for the self-employed, the Bond-a-Month Plan where your bank provides the automatic, profitable way to assure continued Independence. U. S. Treasury Department

Thousands Of Acres Of Grassland Is Yielding Golden Harvest In Colorado

Kansas Operator Has 40,000 Acres in Wheat Near Haswell (By Mrs. Evan Peterson of Las Animas, Colorado)

The 1948 "Gold Rush" is on in the Haswell country north of Las Animas. The "Cow Country" is cowless and miles of golden grain and rows of costly machines have taken their place. Big real estate deals are being pulled every day in this land of golden grain over which hangs a constant rush of men and machinery.

A bumper crop of wheat is being harvested at the present time on the 40,000 acres of land in the Haswell area owned and operated by Ray H. Garvey of Wichita, Kan. The elevator which holds 45,000 bushels is full and there are 121,000 bushels piled in huge ricks on a steep hill built so the rain water will drain off. Don Alldritt of Wichita, in charge of the grain at Haswell, stated the loss of grain was figured at less than one per cent by storing it in the ricks.

If the weather holds good, he plans to handle at least 121,000 bushels more this year. The wheat will be handled through the elevator at Haswell and will be loaded into small trucks by augers and shipped to Kansas City for storage in terminals there or will be

sold. Roy Houston is the field manager for Garvey. Dale Bryan is plow foreman and starting next week the stubble plows will go to work. Twenty-five thousand acres will be summer fallowed and around 10,000 acres of new sod will be broken. The Garvey farm owns only one

When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

Save With Safety At **THE REXALL STORE** THE MOST COMPLETE DRUG STORE IN KNOX COUNTY PHONE 78 MUNDAY, TEXAS

"The Most Complete Drug Store In Knox County"

combine. The wheat land is under contract to combine owners. Most of these combines are power driven and self-propelled machines. Some of them cut a 50-foot swath through the grain.

Combines are owned and run by the following: C. A. Williams, John Michels, and Eugene Michels, of Munday, Texas; Laney-Pinon of Frederick, Okla.; C. J. Fharr, Abernathy, Texas; Ray Swin, Vernon, Texas; Johnson and Cook of Vernon, Texas; Leonard Stout, Frederick, Okla.; Cave of Okla.; and Spady Bros. and Marcum of Las Animas.

There are 70 combines at work. The out-of-state men have their families with them and for the most part live, cook and eat in trailer camps and tents located near the town of Haswell.

One hundred trucks are hired by the combine men to haul the grain which is dumped into them from the huge hoppers mounted on the combines. Some of the trucks are loaded while driving beside the combines, neither stopping for this operation. The trucks filled to capacity are driven to Haswell where the grain is weighed and dumped into the grain ricks. Men, trucks and tractors are used to unload the grain. Garvey employs 35 men to handle the wheat.

The wheat business is tremendous as viewed today, though some people "in the know" seem to think the future of this land is doomed to desolation under this

kind of farming. In the meantime the miles of golden grain wave over the rolling country side and the "gold rush" continues. Sent in by Mildred Michels.

THE JOEFFROY "SOIL CONTROL CULTIVATOR"

The Plow of the Past REVOLUTIONIZED for TODAY!

The chisel-type cultivation of the Jeoffroy "Soil Control Cultivator" is not new! In fact, the first plows of this type were made over 3,000 years ago by the Egyptians for farming along the Nile River. They used a sharpened stick, while in the Jeoffroy machine, siliciummanganese steel is required to stand present-day speeds and uses. Down through the ages many plows have been used and discarded, but the chisel-type plow has proved to have less draft, control erosion, and conserve moisture more effectively than any other plow invented!

- ★ Plows and cultivates the natural way. ★ Conserves the moisture. ★ Prevents blowing. ★ Stops erosion. ★ Cuts plowing cost in half. ★ Constructed to last a lifetime. ★ Pre-war prices. ★ Made in 4 sizes to fit your power: 7 ft. - 10 ft. - 13 ft. - 16 ft.

Disc-type cultivation leaves a smooth surface that quickly seals and conserves water.

Hughes-Dayton Imp. Co.

To The Voters Of Knox County

I am asking this County Paper to print, at my expense, the following statement, written by one of my long time friends, and handed to me with the request that I have it published if I desired, so I am doing that for whatever it might be worth.

Sincerely yours,
James A. Stephens.

Hale and hearty after successfully practicing law in Benjamin, Texas, for more than 50 years, and in the best health he has enjoyed in 20 years, James A. Stephens has announced his candidacy for the office of County Attorney for a second term.

Judge Stephens born on the old John Stephens Ranch in Johnson County moved to Knox County in 1889 and in 1894 was admitted to practice law in the State of Texas, and that same year hung out his shingle in Benjamin, Texas, where he married and raised his family and where he still practices law after more than 50 years of one of the most colorful varied and successful law practices any lawyer has ever had in West Texas.

I say without fear of contradiction that as a lawyer, Judge Stephens, throughout these 50 odd years, has had few equals. Perhaps no Lawyer in West Texas has tried a greater variety of law suits Judge Stephens has been attorney for either plaintiff or de-

fendent in a vast number of both criminal and civil suits, many of which involved new questions of law and therefore required a vast amount of research—throughout it all he has conducted himself with Honor and Success.

Two years ago the people of this County, elected Judge Stephens County Attorney, it was always been customary that if the Candidate is not an Habitual office Holder, a man that has been worked to death and in bad health, and provided further that he has satisfactorily performed the duties of the first term, to follow the old Democrat principal of returning him to office for his second Term.

Now while it is true that Judge Stephens has never served in Public Office before being elected County Attorney 2 years ago, and while his name hasn't repeatedly been on the ballot every two years for the same office or another, for 30 years or more, yet I feel sure that by reason of the long residence in this county and his long time practice of law in the courts of this County and State, that you know he is qualified for the office, and that his record as county attorney this past year and half, prove him capable and able.

The office of county attorney, though an important office, through Custom in most Counties is held by young men new in the practice of law; these young men after a couple of terms as county attorney with the use of the county library and office and the practical experience gained during that time while still young and vigorous move on up to better jobs or retire to a more lucrative private practice of their chosen profession. There being no young lawyers in the County asking for the office, we think Judge Stephens should be returned to that office for the next two years for his second term. (Pol. Adv.)

KITCHEN KOMMENT

An Alabama homemaker recommended this formula in substituting cocoa for chocolate; use four level teaspoons of cocoa plus one-half tablespoon margarine for each square specified in the recipe.

Here's a helpful hint from a Texas mother: before washing baby clothes, make a bag of cotton cheesecloth. Put all the small articles, such as stockings, into it. They will get just as clean in the washing machine—and there's no looking for tiny clothes in the soapy water.

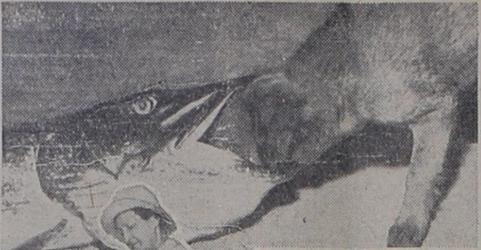

Uncle Sam Says

You do not need to be a crystal ball gazer to figure out the truth of the saying that the future holds for you what you hold for the future. If you look into your present you'll find the answer to how much security you can count upon for yourself and your family. Are you bringing home United States Savings Bonds regularly? Millions of my nieces and nephews know that these bonds are among the most essential assets to hold for their future because savings bonds are safe and profitable.

Don L. Ratliff

YOUR FRIENDLY  MAGNOLIA DEALER

I will appreciate a second term in this office.

I have done my best to make you a good sheriff, and I believe my record has been such to merit another term in this office. If re-elected, I assure you my best efforts toward making you a good peace officer.

I owe much of what measure of success I have had to the splendid cooperation of Knox County people and of other officers of the county. I want to tell you that I appreciate this cooperation more than words can express.

Let me again solicit your vote and influence in the election Saturday, July 24. If re-elected, I will show my gratitude by another term

of faithful service.
Very sincerely,
HOMER T. MELTON (adv.)

Potato salad fills the bill when summertime temperatures call for cool dishes. Potato chips, too, add to summertime dishes, and are excellent snacks to go with hot weather drinks.

If handkerchiefs are washed in the machine along with the other clothes, it is a good idea to tie them in a loose cheesecloth bag and let them go through the wringer and washer in the bag. This saves wear and tear in washing and keeps them out of the wringer.

Help To Elect

Rex E. Sullivan, Jr.

As Our Representative In

The Legislature

We, his friends, without having been solicited by him to do so, take this means of presenting to you the qualifications of Rex E. Sullivan, Jr., because time will not permit him to see everyone in person. Here are some facts about him:

Quanah has been his home all his life.

He is personally interested in the problems of business and professional men and farmers of North-West Texas.

Wants better schools and better farm-to-market roads, more adequate old-age pensions.

Will stand on the better side of any moral issue which may properly come before the Legislature.

As a veteran, will be interested in veterans' problems; particularly the care of disabled World War II veterans.

Had more than three years of service in the U. S. Navy during World War II; making enviable military record in several months of rigorous combat duty in the Philippine and Japan home Island areas.

Is married, is a Law Student in Texas State University.

A VOTE FOR REX E. SULLIVAN, JR. WILL BE A VOTE FOR A FORWARD-LOOKING, ECONOMIC STATE GOVERNMENT.

(Political Advertisement paid for by friends of Rex E. Sullivan, Jr.)

The Veterans Administration reminds veterans that July 31 is the last day for reinstatement of laps-

ed National Service Life Insurance on a "comparative health" basis. Before August 1, an eligible veteran may reinstate any amount of term insurance—from \$1,000 to \$10,000 in multiples of \$500—regardless of the length of time it has been lapsed, and usually without a physical examination. He need only fill out a simple application form, in which he certifies that his health is as good as when the policy lapsed, and pay pre-

miums for two months. The privilege of reinstating on this basis will be available after July 31 only to veterans whose policies have been lapsed for less than three months. Where the period of lapse is three months or longer, the veteran will be required to take a physical examination and qualify as an insurable risk, VA said.

Veterans carrying National Service Life Insurance term policies will be able to renew them for an additional five years upon expiration of the present term period, under Public Law 838 passed by the last Congress.

Term insurance taken out before January 1, 1946, carries a term period of eight years from date of issue. Policies issued after that date are for a five year term.

The first NSLI policies were issued to men in service in October, 1940. Therefore, the first term periods would have begun to expire in October of this year.

Those who renew their term insurance will pay a higher premium than their old rate because of increased age. Veterans may convert their term insurance to permanent types of insurance whenever they desire.

Questions And Answers

Q. I am going to be trained under Public Law 16 and would like to know if I can borrow money from Veterans Administration in case of need when I enter training?

A. Yes. Loans from a revolving fund, provided by Congress, not exceeding \$100 in any case, may be made to trainees commencing or undertaking vocational rehabilitation.

Q. Is it true that if I secure a guaranteed loan, VA will pay part of the loan without cost to me?

A. Veterans Administration would pay to the lender, for credit to your account, an amount equal to four per cent of the guaranteed portion of the loan. For example, if the guaranteed portion of your loan should be \$2,000, the lender would receive \$80 from VA to credit to your debt and you would not have to repay this amount.

Q. Can I, a veteran of World War II, get a guaranteed loan to go into any type of business I want?

A. Yes, you are permitted to get a guaranteed loan for any type of legitimate business on which the lender is willing to lend you money, provided you ability and experience as well as the conditions under which you propose to operate your business are such

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—According to the morbidity report for the week ending July 3, more than 463 cases of diphtheria occurred throughout the state so far this year.

The morbidity report is released weekly by the Texas State Department of Health. It shows the prevalence of communicable diseases by counties.

"In the light of our present knowledge regarding the control of diphtheria, it is unfortunate that the disease is allowed to flourish," Dr. George W. Cox, State Health Officer, said.

For the week June 26 to July 3, Nueces County reported four cases; Hopkins, Tarrant and Val Verde Counties reported one each. For the year 1947, seventy-seven deaths from diphtheria were recorded.

"A life-time immunity may be established in 90 per cent of the children receiving the diphtheria toxoid," the health officer said. "If all parents of children over six months of age would have their children inoculated, the incidence rate of the disease would be rapidly reduced."

The administration of toxoid causes little or no discomfort in the child, Dr. Cox added, and a positive immunity can be determined by a Schick test conducted four to six months after the final dose of the toxoid has been given the child.

Mrs. Isham Brown and daughter of Villa Platt, La., are here visiting in the home of her mother, Mrs. Ora Collins, and other relatives.

Mr. and Mrs. R. D. Atkeison are spending this week vacationing at various points on the Texas coast.

Bob Billingsley was in Hot Springs, New Mexico, last week attending to business matters.

that there is a reasonable likelihood you will be successful. Also, the total cost must not exceed the reasonable value of the business.

Q. I am in training under the GI Bill and am writing a thesis for my Ph.D. Will the Government pay the cost of publishing this thesis?
A. No.

BIRTH ANNOUNCEMENT
Mr. and Mrs. Victor A. Zagarola of Jersey City, New Jersey, are announcing the birth of a son, Stephen Lane, who arrived at 11:10 a. m. Saturday, July 10. He weighed eight pounds and six ounces. Mother and son are reported doing nicely. Maternal grandparents are Mr. and Mrs. C. C. Jones of Munday.

Mr. and Mrs. A. A. Smith, Jr., and Preston Ingram spent the week end at Christoval, visiting with Mr. and Mrs. Haly Fairman. Art, small son of Mr. and Mrs. Smith, accompanied them home after a week's visit with his grandparents.

Mr. and Mrs. Carl Mahan of Abilene visited with relatives and friends here the latter part of last week.

T. J. Turner of Stamford spent the week end here, visiting in the home of J. F. Waldron.

J. B. Eubank, Jr.

—Candidate For—
County Judge

- 33 years of age, married and has one child.
- Veteran of World War II.
- Born in Knox County, of a pioneer family.
- Eight years of business experience.
- Will be "County Judge", not just a "precinct Judge".
- Has held administrative positions and made study of court procedure.

This means is being taken to solicit your support in the coming primary; and, if elected, I will endeavor to make Knox county a fair, impartial and efficient County Judge. Your vote and influence will be sincerely appreciated.

(Political Advertisement)

I'm sure you'll like Ford's new 4-Speed Transmission

Maybe you enjoy slow farming . . . but there's no money in it. If I can show you faster farming . . . with no more work, you'll be interested, won't you?

All right, just take one feature of the Ford Tractor, the 4-speed transmission. On the road I'll give you up to 12½ miles per hour. In third speed (top field working speed), I'll give you 6 miles per hour. And so on down . . . each speed, even the reverse, is faster. Saves lots of hours in a year.

Won't you let me demonstrate this Ford Tractor (and its Dearborn Implements) on your farm? I have something special in parts and service, too.

Kraker Krumbs—

(Continued from Page One)

each evening. . . .
Soon it'll do away with our pro-

sent supply of flies and mosquitoes, but more will hatch out if we permit them to. . . .

Our city health officer has a statement this week about that matter. We should do away with the breeding places, as he suggests,

then our fogger will show where-in it gets results. . . .

Our fogger cost \$1,970, and we'll pay for it by an added charge on our water meters—about two bits a month, we believe.

But, Mister, ain't it worth it? Big as some of these mosquitoes are, we wouldn't have one to bite us for two bits, if we could help it.

Yeah, we kinda like the way we're getting along—don't you?

BENJAMIN NEWS
(Elda Purl Laird, Reporter)

Mr. and Mrs. Lloyd Griffith and children, and Mrs. Howard Barnett were in Abilene, Wednesday of last week shopping, and visiting relatives and friends.

Mr. and Mrs. J. W. Smith, of Melrose, New Mexico, visited in the home of Mr. and Mrs. M. H. Logan and family last week. Helen, Evelyn and Sharon Harrison returned home with Mr. and Mrs. Smith this week for a visit. Mrs. Smith and Mrs. Logan are sisters. Mr. and Mrs. W. H. Wampler, of Ralls, mother of Mrs. Logan, was also visiting in the Logan home Wednesday of last week.
