

Kracker Krumbs Odd Bits Salvaged At Random

Farmers have had a battle all year.

First it was rain at planting season; then rain at the wheat harvest season; then rain at the cotton growing season.

There have been weeds and grass, and flea hoppers, and leaf worms, and boll worms. Scarcely a farmer has escaped poisoning at least five times.

Then there's been rain at the maturing season. Hall, too, wiped out a large acreage.

Wet weather has caused maize to blight, or blast, or something. Some of this crop is now rated at scarcely worth harvesting.

Now farmers have another battle to wage.

It's the battle of helping to enforce the child-labor provisions of the Federal Fair Labor Standards Act, as amended in 1949.

This provision makes it illegal to employ children under 16 years of age in agriculture during school hours. And the word "agriculture" means cotton picking.

This applies to migratory children as well as local resident children, but not to the farmer's own children working on their parent's farm.

During school hours means the hours when the school for the district where the child under 16 is currently living is in session.

The act sets no minimum age for employment before or after school hours on any school day, or at any time on school holidays and during school vacations.

The farmer is responsible for finding out the correct age of the young worker. He will be protected if a certificate of age, issued and accepted by the U. S. Department of Labor is obtained, which shows the young person to be at least 16 years of age.

In Texas application should be made for a Federal certificate of age to the Wage and Hour and Public Contracts Divisions, U. S. Department of Labor, in Dallas.

The farmer's own children are not subject to the child-labor provisions when they are not working on their parent's farm or farms, with or without pay. However, the school attendance laws require children under 16 to attend school.

A farmer is responsible for every under-age child working on his farm. This includes children hired either individually or as a part of a family group by labor contractors, processors, or others.

The act provides, in case of willful violation, a fine up to \$10,000. For a second offense, committed after conviction for a similar offense, a fine of not more than six months, or both, may be imposed. The Secretary of Labor may ask a Federal district court to restrain future violations of the child-labor provisions of the act by injunction.

The foregoing statements were secured from a question and answer folder furnished us by County Agent K. O. Lewis. Mr. Lewis attended a meeting of county agents and county judges in Paducah last Monday where the child-labor provisions were explained.

He received information to the effect that this law will be enforced, and it applies to migrant Latin-American labor in our cotton fields.

"If a Latin-American child cannot speak English," Lewis explained, "it is still unlawful to let the child work in cotton fields during school hours."

There are three "checkers" for this district, it was explained, and these men will be checked. (Continued on last Page)

45 Registrants Take Physicals On October 18

The first group of boys sent for induction into the armed forces from Local Board No. 82 was September 22, 1950. The three selectees were Robert Duard Glaze, of Seymour; Harold Henry Dial, Seymour; and Ray A. Smith, of Truscott.

Second induction will be Friday, Oct. 6, 1950, when another group of boys will be sent. These registrants are being sent to the Amarillo Induction Station.

Our fifth physical examination call has been received and notices sent out this week. Our call is for forty-five registrants.

In order to fill this call it is necessary to "dip" down into the twenty year old registrants. These men will go to Amarillo for their examination on October 18, 1950. Transportation will be by charter bus.

At the board meeting, which was held Monday, Sept. 25, 1950, the board members set a date at which time the board will meet each month. The time is 2:00 p. m. each second and fourth Monday of the month. Registrants wishing to appear before the local board of any reason may do so on these dates.

We have two additional names to add to our list of boys for whom we are searching. They are: J. C. Crump, Jr., and Juan Fortuna.

If anyone knows of their address, please notify the local board immediately.

C. D. A. Members Told Of Work Of Campfire Girls

An interesting word-picture of the Campfire Girls was drawn for members of the Community Development Association at their regular meeting Wednesday at noon in the fellowship hall of the First Baptist Church.

Miss Crawford of Stamford, area supervisor for the Campfire Girls, told of activities of the organization, which is divided into three age groups: the Bluebirds, the Campfire Girls, and the Horizon Club members. She exhibited a typical jacket worn by the girls and told how each little button added to the uniform represented a certain type of work accomplished by the girl.

Miss Crawford is interested in organizing the Campfire Girls in Munday and gave an outline of various committees needed.

Around 30 members were present to enjoy the fried chicken dinner and hear this very interesting program.

Ozzie P. Ilseng Begins Training With Air Corps

Pvt. Ozzie P. Ilseng, 18, son of Mr. and Mrs. A. T. Ilseng of Dallas, former residents of Munday, has begun a course of indoctrination training at Lackland Air Force Base, "The Gateway to the Air Force", San Antonio, Texas.

In the basic training at Lackland he will receive a well rounded military preparatory schooling for progress in a specialized Air Force career. During this initial course he will be given complete vocational and aptitude testing along personal guidance counseling to determine his entrance into a suitable technical training assignment on leaving The Gateway Base.

Besides constituting the only Air Force station for indoctrination training for all new air men, Lackland is a reassignment and training center for enlistees, home of USAF Officer Candidate School and the Human Resources Research Center.

BUYS ANGUS CATTLE

Dr. J. B. Reneau, Jr., of Munday recently purchased a purebred Aberdeen-Angus bull and three cows from Penny and James of New York, N. Y., according to word received here this week.

Two Oil Wells Completed In Knox County

From Sunday's Fort Worth Star-Telegram came the following news of the completion of two oil wells in Knox County:

Sinclair Oil and Gas Co. has completed its No. 1 G. H. Beavers, section 224, block 44, H&TC survey, Knox County Bend conglomerate discovery three miles north of Benjamin, to pump 88.18 barrels of 38 gravity oil daily. The well was completed through 96 casing perforations from 5,920 to 5,935 feet, with water completely shut off. The wildcat was taken to 6,400 feet in the Ellenburger, which was dry.

Texas Pacific Coal and Oil Company has completed its No. 2A Cartwright, S. Washburn survey, north offset to its discovery in the Cartwright Straw pool of Knox County, to pump 64.38 barrels of 34 gravity oil daily, plus 24 percent water, with pay from 4,538 to 4,541 feet. The south offset to the discovery was dry.

Wildcats Drilling Continental No. 1 Hamilton, six miles northwest of Knox City, was running electrical log to 6,235 feet in the Ellenburger several days ago. Drillstem test of 30 minutes in the Ellenburger from 6,135 to 6,235 feet recovered 800 feet of mud and 1,456 feet of salt water, with bottomhole pressure of 2,700 pounds.

Sinclair Oil and Gas Co. No. 1 Jones, five miles northeast of Benjamin, was drilling below 4,340 feet in lime and shale.

Knox County Hospital Notes

Patients dismissed since September 17th:

B. F. Bruce, Munday; Mrs. Ella Ingram, Throckmorton; Herbert Sams, Benjamin; Gilbert Garcia, Knox City; David John Wilson, Seymour; Mrs. Toby Lane, Munday; Mrs. Effie Pannell, Knox City; Mrs. C. T. Kelly, Throckmorton; Cotton Trickleland, Rochester; Mrs. E. P. Isbell, Benjamin; Duck Robinson, Knox City; Dian Talent, Benjamin; J. D. Hollis, Munday; Mrs. Odie Brown, Rochester; Mrs. O. R. Jennings, Knox City; Mrs. Burns Ray, Benjamin; Sybil Lou Sharp, Rochester; Mrs. T. C. Merrill, Munday; Jim Woodall, Weiner; J. T. Voss, Munday; Hollis Michael, Munday; Wallace May, Knox City.

Patients in the hospital September 25th:

Mrs. Henry Cooner, O'Brien; Mrs. W. L. Donaldson and baby, O'Brien; Mrs. R. K. Fitzgerald, Goree; Mrs. Minnie Olsson, Gilliland; Mrs. Allen Rhodes, Munday; Leonard Norman, Munday; Mrs. Roy Stearns, Rochester; James Adams, Munday; W. M. Hendrick, Benjamin; Andy Eiland, Munday; Mrs. Sam Breedren, Haskell; Mrs. Freeman Smith, Knox City; Thelma Oliver, Munday; T. C. Merrill, Munday; Mrs. Beulah Rivers, San Angelo; Stanley Glover, Benjamin; Mrs. Sam Breeder, Haskell; Mrs. L. G. Cook and baby, O'Brien; Angie Baby Boy, Knox City; Mrs. F. J. Redder, Munday; Mrs. D. K. Carmack, O'Brien; Mrs. F. H. Robinson, Truscott; Mrs. L. H. Ford, Munday; Clellan Russell, Vera; Mrs. Elvira Ramirez, Knox City.

BIRTHS Mr. and Mrs. W. L. Donaldson, O'Brien, a daughter.

Mr. and Mrs. L. G. Cook, a son.

DEATHS Mr. Charley Harrell, Munday.

PAYMASTER GIN IS READY FOR SEASON

H. A. Pendleton, manager, announced Wednesday that the new Paymaster Gin is now ready for the ginning season. Final work on the gin was completed this week, with the first bales of cotton ginned on Thursday.

The gin is practically new throughout, with the most modern machinery available being installed during the summer.

Mr. and Mrs. Fred Broach, Jr., were business visitors in Amarillo the first of this week.

GOV. ALLAN SHIVERS of Texas congratulates Miss Virginia Hamilton of Dallas for being chosen as Miss Confederacy by Southern manufacturers sponsoring \$15,000 "What Dixie Means to Me" contest. The contest is part of a South-wide campaign to publicize the many advantages of living and working in the South.

Moguls Battle Greyhounds To 0-0 Deadlock

It was a mid-field battle most of the way through all four periods here Friday night, as the Munday Moguls and the Throckmorton Greyhounds fought tenaciously in a 0-0 deadlock to open the District 9-A conference. This was the first conference game in the district.

Each team would keep the ball for three downs and then be forced to punt. Each team penetrated to within scoring position one time, but the opposing lines always held.

Throckmorton was the first to threaten, driving to the 4-yard line in the third stanza. A 15-yard penalty for unnecessary roughness ended that threat.

Later in the third, the Moguls went to about the 10 yard line, then a bad snap back from center set them back for a loss and ended the threat.

Later in the fourth period, 26-yard pass from Scottie Ponder to Herbert Ford put the Moguls on the 22-yard line, just two yards short of another penetration. The game ended one play later after an incomplete pass.

Out standing defensive players were Powell and Guffey of the Moguls, and Cooke and Moser for the Greyhounds.

The Moguls racked up 10 first downs to 7 for the visitors; gained 187 yards on the ground to 171 for Throckmorton; completed four passes out of nine attempts for 41 yards, while the Grey hounds completed one out of three attempts for four yards.

Texas Employment To Help Farmers To Secure Laborers

Jim Harkness, representative of the Texas Employment Commission, is due to arrive in Knox County on Friday, September 29, to assist farmers in securing laborers during the cotton harvest season.

He will establish office in the office of W. L. Graham of Knox City, it was stated. In addition to assisting farmers in securing pickers, Mr. Harkness will also be posted on different phases of the child-labor law as it pertains to agriculture.

Any farmer wishing cotton pickers or information regarding the new law is asked to contact Mr. Harkness. He will be in Munday two or three times a week.

Mrs. J. J. Denton and daughters returned to their home in Spur after several days visit with her parents, Mr. and Mrs. Marvin Chamberlain.

GETS APPOINTMENT

Mrs. Wardell Samac, daughter of Mr. and Mrs. L. C. Sweatt, was recently appointed as a school social worker in the Denver Public Schools. For the past two and one-half years, Mrs. Samac has been employed as child welfare worker for the Arapahoe County Department of Public Welfare.

New Type Radio With 'Pillow-Speaker' Installed In Knox County Hospital

Munday To Host Meeting Of Knox County Singers

The Knox County Singing Convention will meet at the First Baptist Church in Munday on Sunday afternoon, October 1, for an afternoon program of singing which will begin at two o'clock.

This will be the first time the convention has met in Munday for some time, and singers here are making plans for a large attendance.

Convention president, W. M. Rowan of Knox City, stated that invitations have been extended to several well known quartets, including one from Lubbock, Elbert and Seymour, to attend and take part in the program. An invitation is extended to everyone to attend.

Last Rites For C. H. Harrell Held Monday

Funeral services for C. H. Harrell, well known resident of this area, were held at 2:30 last Monday afternoon from the Gillespie Baptist Church.

Mr. Harrell passed away on Sunday morning, September 24. He had been in failing health for several months and had been hospitalized for several weeks before his death.

A native Texan, Charley H. Harrell was born in Navarro County, Texas, in November 2, 1883, and was 66 years, 9 months and 22 days of age at the time of his death. He had been a resident of Knox County for many years, having been engaged in farming in the Sunset community.

Surviving him are his wife, Mrs. Maud Harrell of Munday; two daughters, Mrs. Layne Womble and Mrs. Ruth Harrell, both of Munday; a son, Troy Harrell of Casper, Wyoming; six grandchildren and one great grandchild.

Funeral services were conducted by Rev. Ed Stewart of Abilene, who was assisted by Rev. S. E. Stevenson, pastor of the Goree Baptist Church. Burial was in the Johnson Memorial Cemetery under the direction of Mahan Funeral Home.

Palbearers were P. C. Partridge, Hoyt Gray, Roe Myers, Miley Burros of Plainview, Henry Russell and D. H. Henry of Knox City.

Moguls To Play Rule Bobcats Here Friday

Munday's Moguls will entertain the Rule Bobcats here Friday night in another conference game, before engaging the Anson team here on October 6.

Rule went down in a 59-0 Haskell at the hands of Haskell's Indians last Friday night, while Munday was playing the Throckmorton Greyhounds to a 0-0 deadlock.

Coaches Green and Stewart have had another two weeks of regular workouts and scrimmages lined up for the Moguls this week, and chances are the locals will show improvement over their early-season games.

The game will begin at 8 p. m. Friday at Scruggs Field. General admission tickets are now on sale at the local C. D. A. office.

TWIN DAUGHTERS BORN TO RHODES ALLENS

Mr. and Mrs. Rhodes Allen are proudly announcing the arrival of their new twin daughters, who were born on Tuesday evening September 26, at the Knox County Hospital.

The girls, for whom suitable names have not yet been selected, arrived at 9:13 p. m. and 9:20 p. m. One weighed four pounds and the other five pounds. Mother and babies are reported doing fine.

Maternal grandparents are Mr. and Mrs. R. L. Ratliff of Munday.

Lying in your hospital bed, thinking of your aches and pains, gets mighty tiresome. Because it does, many patients have found a small radio beside their beds helps to forget one's pains and also relieves the tedium of loneliness. Hospital officials have known this, but many times the patient playing a radio has disturbed many patients that needed absolute quiet.

The problem has been solved by the installation of individual pillow-speaker radios permitting the patient to slip a small disc-speaker under the pillow, allowing him or her to hear their favorite programs without disturbing others. This radio devised and made especially for hospital use, is attached to the head of the bed, and has an inverted dial for the convenience of the patient. At the same time, this gives more room on the bed-side stand for other items needed in the patient's treatment.

The radio is controlled by inserting a dime for one hour's playing time, which need not be taken continuously. Merely turning off the radio stops the times, and the hour may be taken at broken intervals if desired. Part of each dime is kept by the hospital, and the rest is used for maintenance of the radios.

Cards are available free in the lobby of the hospital so that you may send a "get-well" greeting to patients. These cards have five slots for dimes to be used in the patient's radio, a "get-well" greeting, and space for the well-wisher's name.

If there is no radio on the back of a patient's bed, he may easily obtain one by asking the nurse.

Hornbeck New Band Director

R. H. Hornbeck of Big Spring has been elected band director in the Munday Public Schools, it was announced this week. Mr. Hornbeck is a graduate of Texas Tech and comes to the local faculty well recommended for the position he now holds.

Hornbeck stated Tuesday that he is anxious to build a creditable band for the Munday schools, and he urges all who are interested in taking band and band instrument music to contact him.

"Right at the present time," he said, "we are in need of a low brass section, such as trombones, baritones and basses. However, we welcome anyone interested in band, regardless of the instrument he or she wishes to play."

Munday Boy In Division Engaged In Seoul Battle

Mr. and Mrs. Sid Liles of Munday learned this week in a letter from their son, Cpl. Archie B. Liles, that he is engaged in the Korean battle of Seoul. Cpl. Liles is serving as a radio operator in the 7th Division Signal Corps.

A portion of the letter to his parents follows:

By the time you get this letter, the pressure will be off and we'll know what the outcome will be. Remember the day, September 15. Read about the 7th Division, and you will know where I am. Wish I could tell you more.

I guess you know there's a big chance of me not coming back. I believe I will. I want all of you to pray for me all the time I'm in the plate. Not only do I need the prayers, but a lot of others.

COLLIS MICHELS INJURED WHEN KICKED BY HORSE

Collis Michels, son of Mr. and Mrs. Eugene Michels, was seriously injured recently when he was kicked in the head by a horse. He was rushed to the Baylor Hospital in Dallas for treatment last Sunday.

Reports coming from the hospital on Wednesday were to the effect that Collis is improving, although he had not yet regained consciousness.

Entered as second class matter January 4,
19, at the postoffice in Munday, Texas, under
act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Hefner road.
3. A U. S. Federal building. Munday needs new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

NAPOLEON WOULD BE ENVIOUS

Seldom does anyone pause to consider the logistics of sustaining a nation of 150,000,000 people. Transporting and supplying the mightiest military campaign in history becomes microscopic in comparison. If the food supply lines break down an army is doomed. How many of us ever think of the gigantic task of maintaining, without fail, civilian supply lines?

If you are inclined to scorn private enterprise, take a look around you the next time you walk into the local commissary—your local neighborhood grocery store. For example, few of us know what goes on behind the showcase full of succulent cuts of meat. To make that meat available to you, there are over 80,000,000 cattle and calves on the ranges, in feedlots and on dairy farms—18 percent more than 10 years ago. There were more than 60,000,000 hogs in the spring pig crop—up 21% over 10 years ago. It takes a lot of farmers to raise and care of all those animals. It also takes a lot of handling and processing to prepare the meat output for consumption, and obtain lifesaving by-products such as insulin. There are 4,000 packing companies processing meat as it moves smoothly from the ranches and feeder farms to consumers' tables hundreds of miles away. The primary reason for the smoothness of this great logistical operation is competition which demands efficiency.

With fall approaching and harvesting drawing to a close on another record year, no expert analysis is needed to realize that producers, packers and distributors of meat are essential elements in the amazing supply system that keeps this country going. Its efficiency would make a Napoleon Bonaparte green with envy.

Wisdom of the humble: "When you ain't got no education, you jest GOT to use yo' brains."

Advice seldom helps. If we are dumb enough to need it, we haven't sense enough to use it.

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

THE COUNTRY PRESS SAYS

WELCH, OKLAHOMA, WATCHMAN: "Many observers felt the government's attack upon bigness might have been stirred up by Economic Planners who want to scuttle our free enterprise system. The system encourages bigness only if bigness can be more efficient than smallness and can win the approval of the consuming public without which, of course, no company can grow. If industries were to be broken up imply on the grounds of bigness, our advance as a nation would be seriously slowed down and our national security critically weakened."

LEWISTOWN, PENN., SENTINEL: "Those who like the form of government that we inherited from those who founded the United States of America might keep their eyes on the pressure groups."

SYRACUSE, NEW YORK, HERALD-JOURNAL: "In times of peace and war alike, the Iron Horse has played an indispensable part in American life . . . It's still the backbone of our transport system."

GREAT FALLS, MONT., JOURNAL: "About 74 percent of all automobiles in the United States in 1948 were owned by families or individuals with less than \$5,000 yearly income, according to figures of the Federal reserve board."

CYPRESS, CALIFORNIA, ENTERPRISE: "Under the farm price support programs Uncle has to keep on buying products that are already running out of his ears . . . It costs the government billions to buy the stuff that nobody wants—at the prices being charged. Uncle buys it to keep the prices up so he and everybody else has to pay more. How crazy can we get?"

MANSFIELD, OHIO, NEWS-JOURNAL: "An American Gas Association survey reports that gas utilities except to add 1,150,000 home-heating consumers to their rolls for the 1950-51 heating season, which would bring the total of residential consumers to 9,400,000."

"A year ago at this time the total was 7,200,000 and ten years ago it was 3,800,000—figures which are presented to John L. Lewis for thoughtful consideration, and also to the men whose livelihood depends on mining coal."

REMEMBER NOVEMBER SEVENTH

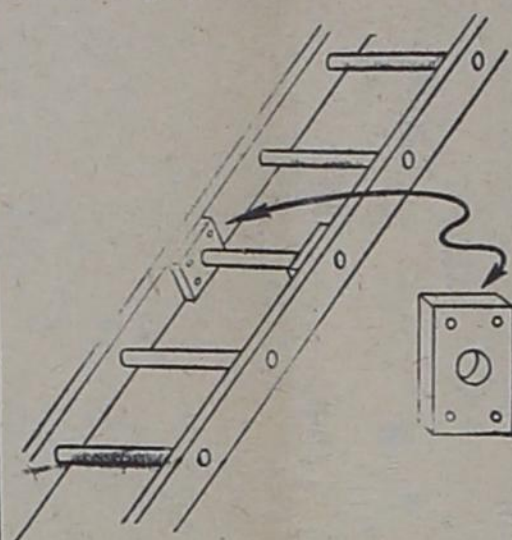

A great privilege will be enjoyed by the American people this fall—a privilege they will find difficult to appreciate because it has been handed down to them from generation to generation. On November 7 general elections will be held throughout the country. We should all remember voting is the individual's assurance of freedom. There is no ruling class in America, but the people who vote have within their power the ability to decide what kind of government we shall have.

Most of us find that it is a much easier job to talk ourselves into trouble than out of it.

On a Ladder, Be Careful!

CLIMBING a ladder carelessly is a good way to fall and be injured. Of course, ladders should be kept in good repair, but there is a right way to use ladders to prevent accidents.

Here are the basic rules:
Firmly set the base of the ladder one-fourth of the ladder's height from the wall.

Always face the ladder going up or down and hold on with both hands; don't hurry.

Avoid leaning too far out on the ladder. It is safer to move the ladder.

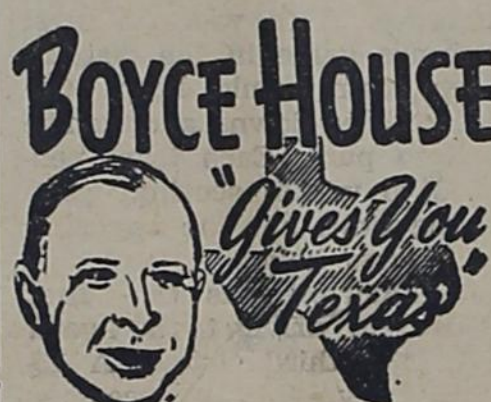

Clean mud or grease from your hands and shoes before climbing.

Tools or materials that cannot be carried safely in pockets should be hoisted with a hand line.

Avoid climbing or working on a ladder in a high wind.

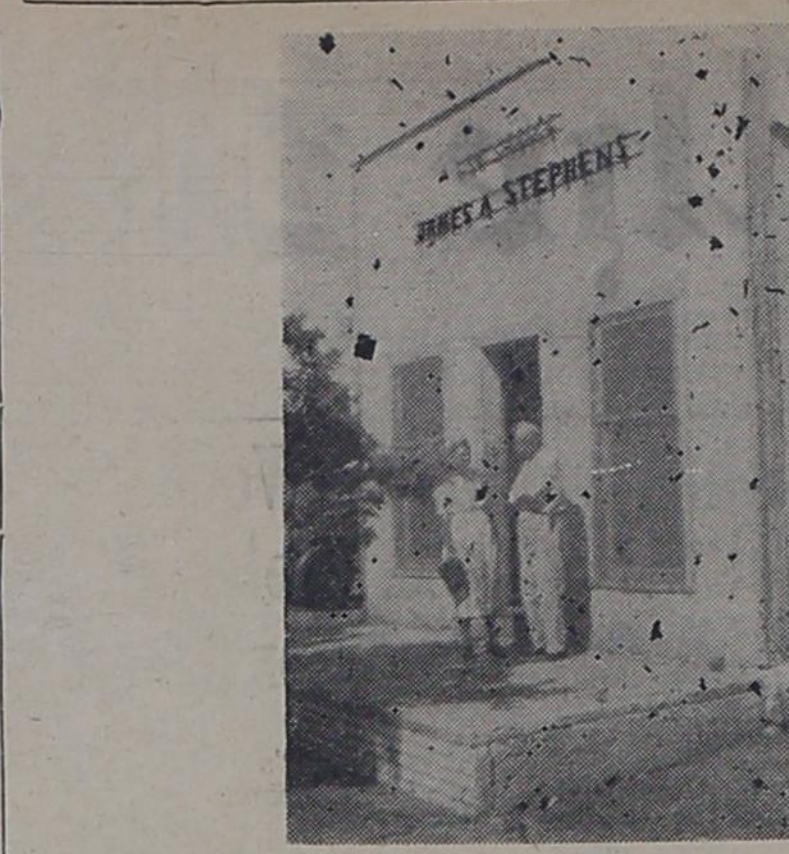

Ladders should be kept under cover when not in use. Avoid using such makeshift devices as chairs, boxes or tables. Severe injury and even death can result from falls even at low levels. Inspect ladders frequently for rusted or loose bolts and nails, cracks or rotted or loose rungs or supports. Make repairs immediately or get a new ladder. That's cheaper than having an accident.

If a rung is broken, here is an easy way to replace it. Cut off the broken rung flush with the inside of each rail. Drill holes in two hardwood blocks 2 inches by 6 inches. Then fit the new rung in the holes and fasten the blocks to the rails with good sized screws, long enough to get a firm bed in the ladder rails.

In Lockhart lives the historian of the city and county—J. Henry Martindale. Caldwell County was named in honor of Matthew "Old Paint" Caldwell who led the Texans at the Indian battle of Plum Creek. When the county was created from parts of Bastrop and Gonzales Counties, the enactment directed that the county seat be located on the Byrd-Lockhart league and be called Lockhart. Lockhart was one of the couriers sent out by Col. Travis before the fall of the Alamo.

Mr. Martindale considers the two high points in the history of the county, the development at the turn of the century, by Alexander D. Mebane, of the cotton plant to a standard of perfection and the discovery of oil in 1922 by Edgar B. Davis.

James A. Stephens, Attorney-at-Law

OFFICE IN STEPHENS BLDG. BENJAMIN, TEXAS

Have prosecuted and defended many criminal and civil cases in the trial and appellate courts. The records of the courts in many counties tell the story. Fees reasonable.

New Foods Are Developed From Cottonseed

Two new cottonseed products have been developed through chemurgic research studies of

near Luling. The oldest Protestant church building in Texas still in its original condition, built about 100 years ago, is in Lockhart—the Episcopal Church, and it is an inspiring edifice to visit. Historian Martindale quotes an advertisement from an early day newspaper, "Capillary abridgement and tonsorial enactment performed at the City Shaving, Bathing, and HairCutting Salon." I think it means you could get a haircut and a shave.

Besides writing history, Mr. Martindale is the county treasurer, and at last accounts notary public, publicity director of the rationing board of the county, secretary-treasurer of the Lockhart Business Men's Club, Sunday School secretary at First Baptist Church, secretary-treasurer for the San Marcos Baptist Sunday School Association, represents Dun and Bradstreet, the Retail Merchants Association and is correspondent for the San Antonio and Austin newspapers as well as for the United Press and International News Service—and writes a column each week in the Lockhart Post-Register.

Knox Prairie Philosopher Amazed To Find Out That The Experts Are As Confused About The Things As He Is

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek, is only adding to the confusion in his letter this week, which is fairly typical.

Dear editor:
I went to a lot of trouble yesterday to get a newspaper, had to miss my nap to stay awake watchin my neighbor in order to time my trip to his mail box, ain't nothin worse than a squabble with a unreasonable neighbor who can't see that a paper's just as good after somebody else has read it as it was to start with, it ain't readin it first that makes it sorry, that happened earlier up the line, if you get fha t lmean and I imagine you do, and after I got it and went down to the pasture and read it, I doubt if it was worth

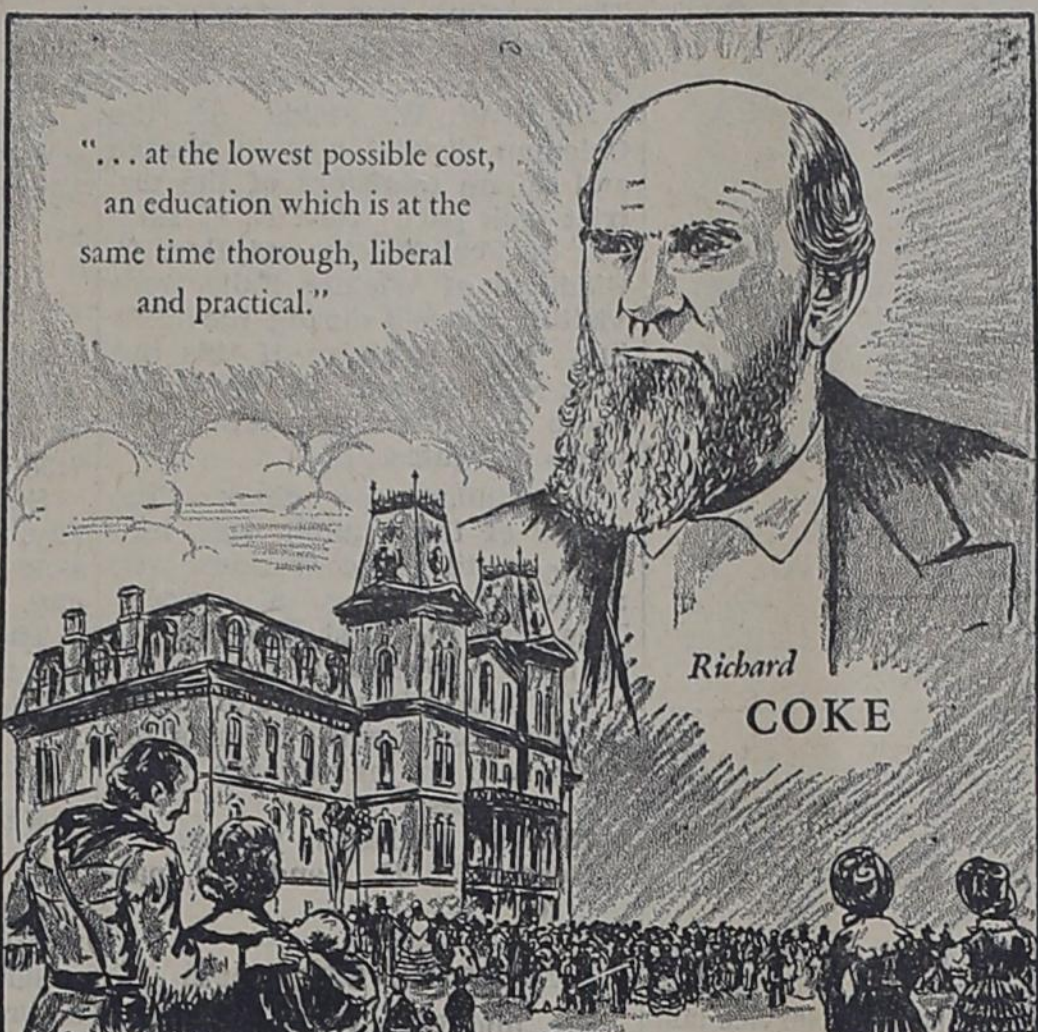

the trouble.

I read where a group of Congressional experts had viewed the world situation and announced a world-wide atomic war is possible in the next two years, with the major American cities gettin bombed. "Of course," they added, "we could be wrong it might happen sooner, it might happen later, maybe not

Texas Venture

In Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

Governor Richard Coke, first Democrat to hold the Governor's office in Texas after Reconstruction days, was more responsible than any other man for the founding of the A. and M. College of Texas. A well-educated (William & Mary) strong-willed man of vision, he pushed through the Legislature the acts which established the college as a going concern, and served as chairman of the college's first board of directors. In his speech dedicating the new institution, on opening day, October 4, 1876, Richard Coke laid the foundation stone for the educational philosophy on which A. and M. has grown. "The aim and mission of the Agricultural and Mechanical College of Texas," he said, "is, while preparing the young men of Texas for the high duties of American citizenship, at the same time to train their intelligence in the methods and appliances of science, and their hands to the skill which shall utilize them in the everyday pursuits of life... It has been the constant aim of the board to bring down to the lowest possible figure the cost of an education which shall be at the same time thorough, liberal and practical." On this foundation, the A. and M. College of Texas has been built, in its first 75 years, into one of the outstanding technical schools for men in the nation.

at all." As I understand this, that's a lot of latitude and them experts don't know anything more definite about the world situation than I do, what's gonna happen or when, and while I've always figured the world can manage to get along with me as ignorant as I am, I hadn't realized it might get along too with the rest of the folks in the same boat. This throws a entirely different light on the situation and I feel a lot better. If don't nobody know wagt's gonna happen, from the experts down to me, this gives everybody a even start.

Another thing that's been bothering me is this: on several different occasions lately I've read where the U. S. generals in Korea have announced that the Communist forces has shot their bolt, but I notice they keep coming back with new attacks and we have to back up a little more and what I'd like to know who is furnishing em with all them bolls.
Yours faithfully,
J. A.

Mr. and Mrs. Jerry Edwards of Abilene spent the week end here with Mrs. Edwards' parents, Mr. and Mrs. Chester Bowden, and other relatives. They are attending Hardin-Simmons University.

Miss Marguerite Hammett, who is attending Hardin-Simmons University in Abilene, spent the week end here with her parents, Mr. and Mrs. G. B. Hammtt.

Miss Marjorie Lou Campsey, student in Hardin-Simmons University in Abilene, visited her parents, Mr. and Mrs. S. B. Campsey, over the week end.

Mrs. Carl Jungman and children Ida Jo and Mike, of Vernon, visited Mrs. Jungman's parents, Mr. and Mrs. H. M. Michels, last Sunday.

Society

Busby Family Reunion Is Held Recently

A reunion of the Busby family was held recently at the home of Mr. and Mrs. T. M. Busby, near Munday. All of the children and grandchildren were present for the occasion, including the following: Mr. and Mrs. H. C. Busby and children, Pat and Jackie, of Munday; Mr. and Mrs. Elton Busby and children, F. E. and Gail, of Brownfield; Mr. and Mrs. T. Busby of Anton; Mr. and Mrs. Douglas Busby and son, Chris Neal, of Cisco. Others present included Mr. Mrs. Weldon Floyd and children, Loretta and Elton, of Sunset community.

Wesleyan Service Guild Meets With Mrs. S. A. Bowden

The Wesleyan Service Guild met Monday evening in the home of Mrs. S. A. Bowden. Hostesses for the evening were Mr. Levi Bowden and Mrs. Oscar Spann.

A short business meeting was conducted by the president, Mrs. H. R. Hicks.

Mrs. Weldon Smith had charge of the study, Near East Panorama. Others having parts on the program were: Mrs. Oscar Spann, Mrs. C. P. Baker, Mrs. Lee Haymes and Mrs. B. B. Bowden.

Refreshments were served to Misses Ruth Baker, Florence Gaines, Merle Dings and Mmes. E. R. Ponder, A. H. Mitchell, B. B. Bowden, Lee Haymes, H. R. Hicks, Bill Gaither, Robert Green, Jim Harpham, Charlie Harpham, Weldon Smith, Erin McGraw, Joe Massey, C. P. Baker and the hostesses.

Sunset Club Meets Thursday With Mrs. Wyatt

The Sunset home demonstration club met on Thursday, September 21, in the home of Mrs. Gill Wyatt with six members present.

The finance chairman, Mrs. R. M. Almanrode, reported on the forty-two and canasta games which were sponsored recently by the club. Some discussion was also held on a mass X-ray program.

A very interesting and appetizing demonstration was had in preparing a la chicken 'n cornbread ring. Each member present helped prepare the ring.

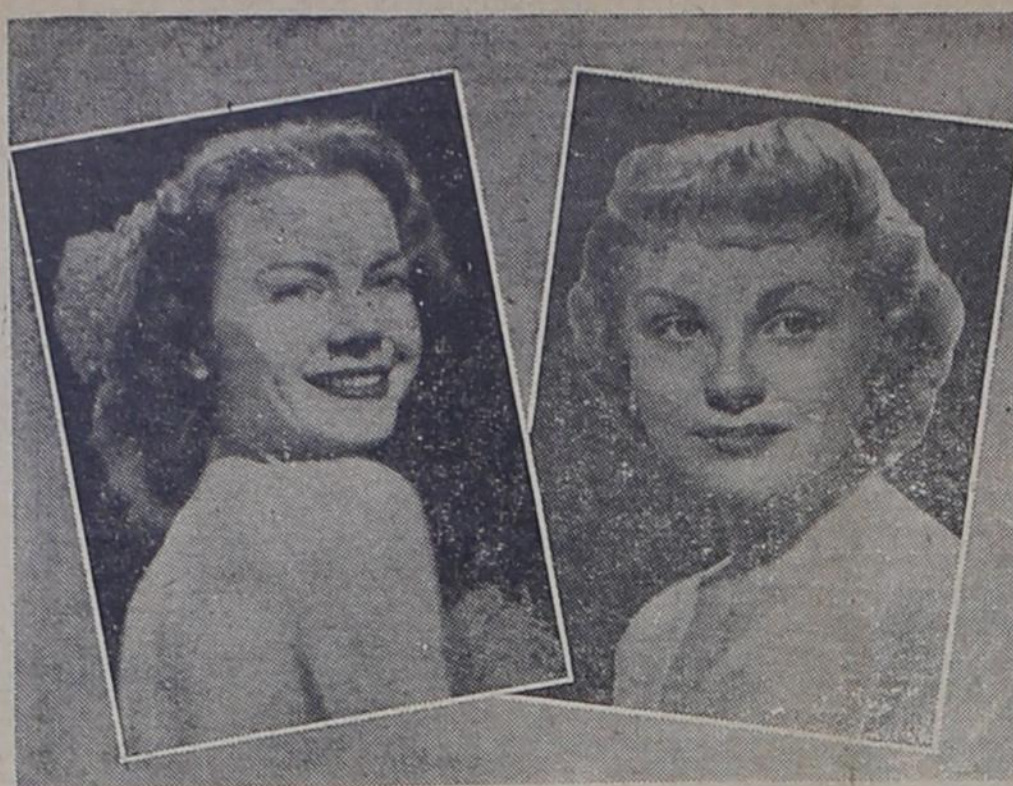

Refreshments of a la chicken 'n cornbread ring and punch were served to Mmes. H. R. Hicks, Weldon Floyd, J. S. Shannon, R. M. Almanrode, Jerry Nix and Gill Wyatt.

The next meeting will be held on October 5 in the home of Mrs. H. R. Hicks.

Goree P.-T. A. Has Social Meeting On Last Monday

The Goree Parent-Teacher Association met Monday evening at 7:30 in the High School auditorium with the Hospitality committee as hostesses. Mrs. Walter Coffman, chairman of the committee, introduced Mrs. Elkin Warren, the new President, who outlined the year's work and introduced the new teachers. Mr. J. B. Lawson, superintendent, gave a talk on the Gilmer-Alkin school laws.

Glenda Mayo rendered an accordion solo. The high school choral girls sang several numbers and furnished piano numbers during the social hour. About 100 parents and teach-

Gloria Yates and Claire Stewart, WFAA radio and television stars, will appear four times daily at 1:45, 2:45, 4:45 and 6:45 p.m. at the Natural Gas Building on the grounds of the State Fair of Texas, Dallas, October 7 through 23. Among the many features in the building will be a model kitchen complete in every detail just as it is pictured in the October issue of the Woman's Home Companion magazine.

Mrs. Almanrode Chairman Of UN Flag Program

According to Miss Fern Hodge, district agent with the Extension Service, Mrs. R. M. Almanrode of the Sunset home demonstration club will be chairman of Knox County's U. N. flag making program. She will be assisted by Mrs. Arnold Navratil of Gilliland, Mrs. Oscar Solomon of Truscott, Mrs. Oran Driver of Benjamin and Mrs. L. A. Parker of Vera. Representatives from other communities are to be selected.

These ladies were selected by Mrs. Walter Mooney of Goree, council chairman.

U. N. flag day will be observed in every community in every county throughout the nation on October 24. This is our way of showing the world that we believe in the U. N. as an instrument of freedom and that we intend to remain a free people.

Each community is to buy the material for making its own flag. Volunteer "Betsy Rosses" will do the sewing. The flag has a sky-blue background which remind us of our Texas sky and state flower the bluebonnet. It is centered by a white map of the world which is encircled by a white wreath.

Miss Hodge urges everyone to plan to be present at his community observance of U. N. flag day, October 24. At the time the flag is raised, it is hoped that every community will have a suitable short program.

Refreshments were served from a beautifully decorated table with a punch bowl at each extremity.

The hospitality committee consisted of Mmes. Walter Coffman, Buster Coffman, Dorse Rogers, Melvin Cooksey and Pete Beecher.

Mr. and Mrs. Bascom Connelly of Stamford visited Mrs. C. H. Mullican Sunday.

Methodist W. S. C. S. Meets Monday In Williams Home

Mrs. P. V. Williams was hostess to members of the Woman's Society of Christian Service last Monday afternoon at three o'clock in her home.

The W. S. C. S. was organized in 1940, and eight ladies from Westover brought the 10th birthday cake and gave a program, with Mrs. E. E. Lowe lighting the candles of accomplishments during the past year.

Mrs. Williams was assisted in serving tea and cake with assorted nuts by Mrs. S. E. McStay and Mrs. H. A. Pendleton.

Mrs. Bruce Burnett, study leader, conducted the study on "Rural Prospect" with everyone taking part.

Ladies from Westover were Mmes. Johnnie Martin, Walter Parker, Ted Smith, W. E. Martin, Alexander, Joe Martin, Ahlman, and O. P. Hall.

Members present included Mmes. W. R. Moore, S. E. McStay, H. A. Pendleton, Mae Bowden, J. L. Ford, J. D. Crockett, Lee Haymes, E. E. Lowe, J. R. Bateman, R. L. Butler, J. C. Rice, J. C. Borden, Miss Shelly Lee, and the hostess.

MUNDAY BOY ENTERS ARMORED BASIC UNIT

Recruit Lloyd L. Brazzell, son of Mr. and Mrs. E. Brazzell of Munday, arrived recently at Fort Hood, where he has been assigned to a combat unit of the 2nd Armored Division for basic training.

Prior to entering the service, Brazzell was employed by the Fred Hall Construction Company.

Mr. and Mrs. Carlton Mooney of Abilene were business visitors here Saturday.

CARD OF THANKS

We wish to express our thanks and appreciation for all the kind words and deeds during the illness and in the death of our loved one.

Mrs. C. H. Harrell and Family.

Activities Of The Colored People

The Church of God in Christ held its district meeting in Munday, beginning September 19 and continuing through the 24. The meeting was a great success, both spiritually and financially.

Supt. W. W. Fields of the Coleman district was in charge and others ministers of the district took part. Rev. R. E. Ranger of Fort Worth and Rev. C. Giddings of Wichita Falls were visiting guests during the meeting. Each minister of this district was present, as well as some of their members who were delegates.

J. Williams of Knox City, pastor of this church, was very happy with his co-workers who made the meeting a success. This was the first meeting to be held in Munday.

We take this method of thanking our many white friends for their help in making the meeting a success.

Rev. J. Williams, pastor. Deacon M. H. Hendricks, pastor.

MARRIED SEPT. 19th

Mr. and Mrs. W. N. Robinson of Weimert are announcing the wedding of their son, James J. Robinson, to Miss Mary Lawson of Grants, New Mexico. The couple were married at 1 p. m. Tuesday, September 19.

HOME FROM VISIT

Sam Salem returned home Friday night from a visit with relatives in Dallas and San Antonio. While away, he attended graduation exercises for his daughter, Junerose, who received her degree from S. M. U. on Friday, September 9.

LOCALS

Mr. and Mrs. Oscar West and Wayne visited in the home of Mr. and Mrs. I. L. West and Lennie last Sunday.

Mrs. Fred Warren of Lubbock visited in the home of Mr. and Mrs. L. W. Hobert the first part of this week.

Mr. and Mrs. Dwight C. Key and children visited with relatives in Olney over the week end.

Dr. and Mrs. J. M. Croley and son, John, visited friends and relatives in Gilmer over the week end.

Dr. D. C. Eiland and Mr. and Mrs. E. B. Littlefield visited in Dallas the first part of the week.

Mr. and Mrs. E. L. Jetton and children visited in Waco last Saturday.

Goree News Items

Mrs. Roy Jones and Mrs. Tom Williams of Wichita Falls visited friends and relatives here the first of this week.

Mr. and Mrs. Virgil Hollingsworth of Amarillo visited Mr. and Mrs. J. H. Cooksey and Miss Emma Cooksey last Sunday and Monday. They were enroute home from a trip to points in Mississippi.

Visitors in the home of Mrs. Maggie Madole this week are her son, Ross Madole of Littlefield, and two sisters Mrs. Bettie Davis of Montgomery and Mrs. Mae McMillan of Houston. Mrs. Madole suffered a light stroke of paralysis a few days ago but is improved at this time.

Mr. and Mrs. J. T. Peek and children of Kansas City came in this week for a visit with his mother Mrs. J. T. Peek and other relatives.

Misses Nancy and Margaret Jean Bowman of Abilene spent the week end with home folks here.

Mr. and Mrs. G. D. Jones visited their daughter and husband Mr. and Mrs. Vernon Ray of Post last week.

Mr. and Mrs. Dan Routen of Farwell visited relatives here last week and while here Mr. Routen had to be taken to Wichita Falls for a minor operation. He is much improved at this time.

Mr. and Mrs. Floyd Coffman and son, Edwin, of Littlefield, visited with relatives here last Monday.

Mr. and Mrs. Parks Norris of Benjamin visited with relatives in Goree the first of this week.

Mrs. T. H. Jones visited her sister, Mrs. J. C. Parks of Rotan, a few days last week.

Mrs. R. E. L. Stutts of Floy-

dada, whose husband was Methodist minister in Goree some 30 years ago, and her daughter, Lena, and husband of Tyler, visited old friends here last Monday.

Don Coffman of Cisco spent the week end with home folks here.

Mr. and Mrs. Norris Barger and Mr. and Mrs. Carl Barger of Fort Worth visited their parents, Mr. and Mrs. C. E. Barger, last Saturday and Sunday.

John Cowsar of the Rio Grande Valley visited his cousins, Mrs. Mamie Fitzgerald and Miss Stella Cowsar, last Sunday.

Douglas Moore of Abilene spent the week end with his parents, Mr. and Mrs. Johnny Moore.

George Crouch, Jr., was an Abilene visitor last Monday.

Mrs. Bertha Thurman of route one, visited her son, Leland Thurman, in a Wichita Falls hospital last week.

Mrs. E. J. Jones, Mr. and Mrs. Sam Hampton and Jack and Marion Jones of Munday visited Philip Jones in the Hendricks Memorial Hospital in Abilene last Sunday. He was taken to the hospital from Sweetwater Wednesday, suffering from polio. He is reported to be improving some.

Mr. and Mrs. Walter Coffman and daughters, Mary Catherine and Alpha Anne, and Charlene Robinson visited last Sunday with Joey Coffman, who is a student in Texas Tech at Lubbock.

Josephine Williams and Joyce Dean Weir of Wichita Falls visited with home folks here over the week end.

10,366 Men To Take Physicals In October

AUSTIN—State draft boards were called upon today to furnish 10,366 men for armed forces pre-inductio examination from October 16th through October 27th.

This brings the number of men called for these tests in Texas to 40,516 since the beginning of the Korean conflict, Brigadier General Paul L. Wakefield, state director of Selective Service, said.

First inductions of Texans into the army since early 1949 began on September 18th. More than 2,500 are scheduled to be inducted in September, and a like amount in October, all previously announced and broken down by local board quotas.

A state call for 3,453 for induction in November has been received from National Headquarters, General Wakefield advised. Quotas for local boards for this induction call will not be issued by state headquarters until early October.

October examinations will be held at Abilene, Amarillo, Corpus Christi, Dallas, El Paso, San Antonio, Houston, Texarkana and Shreveport.

Drive carefully. The life you save may be your own!

IT'S NOT HOARDING TO PUT MEAT IN LOCKERS

Actually, It's Patriotic To Fill Your Frozen Food Locker!

This is a frank statement to our present customers and to those who are thinking about renting a locker. There is no shortage of meat at the present time and there is no reason for hoarding meat for possible future use! If you have a locker and need meat, then get it and keep your locker filled. If you are thinking about renting a locker, then come in and see us.

War or no war, it's always wise to rent a frozen food locker and live better for less. And it's prudent to fill the locker when needed, to use the foods up, and then replenish when necessary. You'll save up to 9c a pound on every pound of meat you store, and can put this money in War Savings Bonds. Yes, it's both patriotic and economical to fill your frozen food locker now!

Munday Locker Plant

CHURCH OF CHRIST

Munday, Texas J. B. Barnett, Evangelist
THE CHURCH OR KINGDOM IN EXISTENCE

It was proved in our last article that the "Church of Kingdom" and its beginning on the first Pentecost after the resurrection and ascension of Jesus, in the year of 33 A. D. There is not a New Testament scripture after the day of Pentecost which points to the coming of the church of a future kingdom to be set up on earth. All scriptures after this date refer to the "church or kingdom" as then in existence. Let us turn to the last book in the New Testament and trace backward. First we notice in 96 A. D. John said, "I, John, who also am your brother, and companion in tribulation, and in the KINGDOM and patience of Jesus Christ . . ." (Rev. 1:19). Thus John was in the Kingdom or church. Again, let us turn back to 65 A. D., Paul says: "But if I tarry long, that thou mayest know how thou oughtest to behave thyself in the house of God, which is the CHURCH of the living God, the pillar and ground of the truth." (I Tim. 3:15). Back up one more year, to 64 A. D., "Wherefore we receiving a KINGDOM which cannot be moved let us have grace . . ." (Heb. 12:18). Move now back to 62 A. D., "Who hath delivered us from the power of darkness, and hath translated us into the KINGDOM of His dear Son," (Col. 1:13). Back in 57 A. D., Paul wrote, "Paul called to be an apostle of Jesus Christ through the will of God, and Sosthenes our brother, unto the CHURCH of God which is at Corinth . . ." (Cor. 1:12) Thus here we find the church or kingdom in existence in the city of Corinth. About this same time Paul wrote to the Roman brethren, and said: "The churches of Christ salute you . . ." (Rom. 16:16). Tracing on back to about 48 A. D. we read, "And when they were come (that is to Antioch), and had gathered the CHURCH together, they rehearsed all that God had done with them . . ." (Acts 14:27). There can be no doubt the existence of the "church or kingdom" at this date. We keep on turning back through the New Testament and we are reminded that the INDEX FINGER is still pointing back. We move back to the year of 41 A. D. "Then tidings of these came unto the ears of the CHURCH which was in Jerusalem . . ." (Acts 11:22). Now back in 34 A. D. Philip is preaching in Samaria, "Things concerning the KINGDOM of God, and the name of Jesus Christ, they were baptized, both men and women." (Acst 8:12). Now back in year of 33 A. D., "The Lord added to the CHURCH daily such as should be saved." Tracing on back through the New Testament the next time we find the word "church or kingdom" is in Acts 1:6, and here the apostles are asking the Lord to "Restore teh Kingdom of Israel." Thus we know somewhere between Acts 1:6, Acts 2:47 the "Church or Kingdom" has been set up. When was it? Again we say, on the first Pentecost after the resurrection of Christ. You read about it in Acts chapter two beginning. (Read again Mark 9:1; Acts 1:6-8 and Acts 2:1-4).

McMurry Campus To Be Dedicated October 10-11

ABILENE—McMurry College is planning to be host to representatives from every church in the Northwest Texas and New Mexico Methodist conferences October 10 and 11.

Occasion is the dedication of the McMurry campus. The open invitation President Harold G. Cooke has extended is not confined merely to Methodists, and he has predicted that 10,000 persons will be in attendance on those two days.

Dedication ceremonies will include the opening of the Radford Memorial Student Life Center. This \$600,000 building is the gift of Mrs. J. M. Radford of Abilene. Its 110-foot tower is already a part of the Abilene skyline.

More than four million dollars worth of buildings and en-

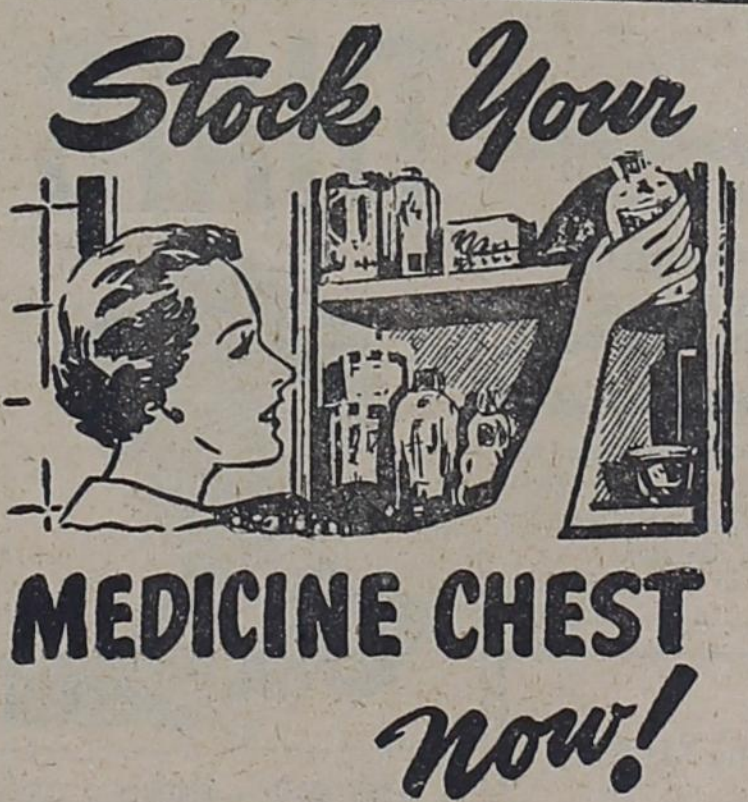

dowment will be dedicated. Six Methodist bishops are expected to participate.

Besides the Radford building, dedication ceremonies will be conducted for the Estes Cottage Colony and for the Iris Graham Memorial Dining Hall. A memorial tablet in honor of World War II dead of the two sponsoring conferences will be unveiled in Gold Star Dormitory.

Also on the program are a trustees' meeting, a band concert, a fine arts program in the Radford building, conducted tours of the campus, a reception for Mrs. Radford, a luncheon for ex-student officers, and a barbecue. The barbecue, open to all will be held Wednesday, October 11, and conclude the program.

Mr. and Mrs. Lee Jennings and Mr. and Mrs. Coy Jennings visited in the home of Mr. and Mrs. Belver Followill in Borger over the week end.

Mr. and Mrs. J. D. Crockett were week end visitors with relatives in Stamford.

FIRST COTTON MILL WILL OPERATE AGAIN

The first successful cotton mill in America, established by Samuel Slater in 1790 at Pawtucket, R. I., soon will be alive with activity again. This time, however, the mill will be operated as a historic exhibit.

The mill now is being reconditioned by the Old Slater Mill Association. The association plans to reequip the mill with machinery typical of the period and set it in motion early next year.

Slater's original machinery now is in the Smithsonian Institute at Washington. Slater devised the mill machinery, the first of its kind in America, entirely from memory. He has memorized the carefully guarded secrets of British spinning machines, for the only plans he could bring to the new country were in his head.

Shiny spots from ironing which are frequently seen on cotton dresses, especially dark colored materials, can be prevented by ironing the beter cotton garments on the wrong side and then finishing on the right side.

Farmers should be making plans now to plant at least a part of their cultivated land to winter legume. Soil building crops, when followed by cotton or corn, have materially increased the yields of these two crops and better yields mean more income.

Be careful. Obey state and local traffic rules.

Attention, Farmers

See the new Ranger fifth-wheel industrial and farm wagons before you buy. Located on corner of Munday Ave., across from Farmers gin plants.

Wherever there is a hauling job large in bulk or heavy in weight, the Ranger fifth-wheel farm wagon is the answer. Users are finding these wagons to be extremely economical because of four outstanding features:

- (1) They combine at less cost the hauling service of two or three ordinary wagons.
- (2) Durable construction assures long life.
- (3) Fifth wheel reduces turning radius to a minimum.
- (4) Bearings, wheel alignment, tracking and fifth wheel combines into a maximum maneuverability that permits a minimum of pulling power. The wagons will bring to their owners a pride in their dependable performance. Electric welded, nice finish and good appearance. Standard Temkin bearings, standard Alemite fittings. Telescoping reach, cold rolled steel spindles. Wheels are standard 6,000 lb. cap., wagon has 16x4.50 or 15x5.00 tires and wheels.

10,000 lb. capacity, with or without tires.

"With the Ranger heavy load, just keep rolling along."

Milk-Fat Calves A Specialty Of Cotton Belt

COW-AND-CALF PLAN IS OPPORTUNITY TO GROW INTO BEEF BUSINESS

The cow-and-calf plan, or production of milk-fat calves, is a practical, simple way for many Cotton Belt farmers to grow into the business of producing beef.

Livestock authorities point out that if efficiently uses available feeds, produces a type of beef in demand in local markets in the South and Southwest, and requires a minimum of capital.

You can start this program with native cows, a good beef bull, good pastures and a reserve of roughage. Feed cows plenty of protein for good milk and creep-feed calves for extra weight, bloom and finish at weaning. The calves are usually sold as mid-fat slaughter beef at weaning time; however, calves of good beef quality may be given additional fattening in the dry lot if market and feed conditions justify.

Select cows for health, uniformity and ability to produce enough milk to raise a milk-fat

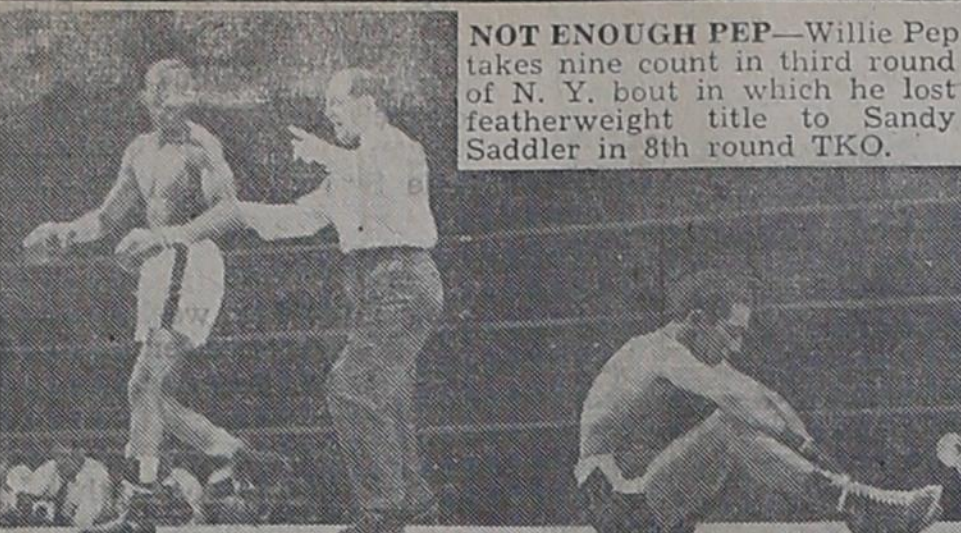

calf. They may be beef cows or native cows with some dairy breeding. A well-bred beef bull will get calves which have desirable beef characteristics at weaning time even though the mother cows may have some dairy breeding. Breeding to calves in the fall or winter usually makes best use of good pastures at the time calves need the most milk.

Cows obtain most of their feed from good pastures and stalk fields. Additional roughage such as hay, silage or cottonseed hulls should be fed when pastures do not supply a good fill. Also, some dry roughage, such as cottonseed hulls, should be fed when pastures are young and "washy" to provide needed dry matter and prevent bloat and scours. Minerals should always be available to cows and calves.

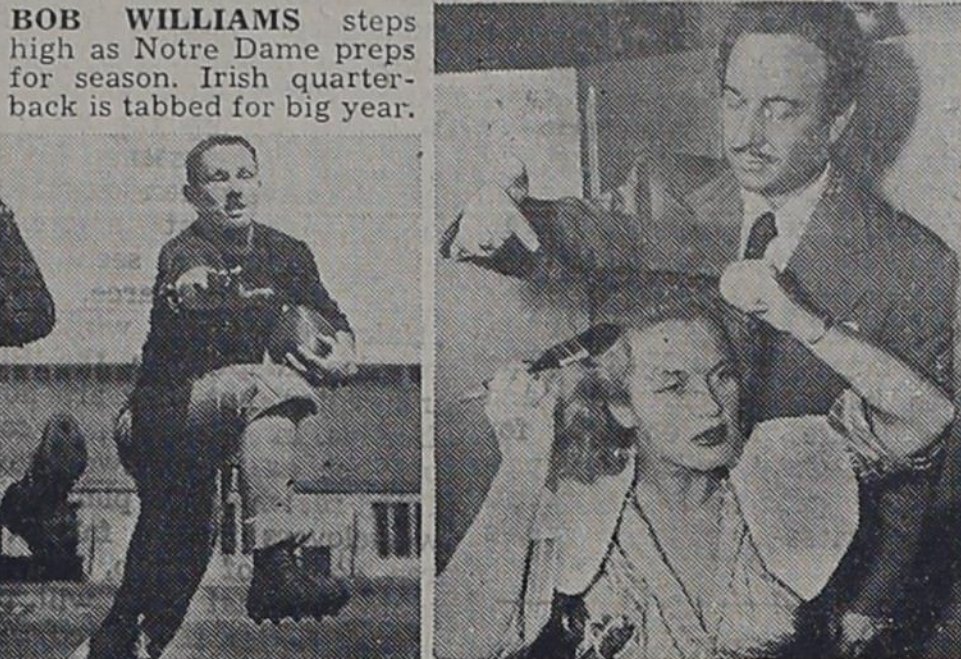

Because good milk production for the calves is necessary to produce milk-fat at weaning time, the cows must have sufficient protein. Excellent green pastures provide plenty of protein but 1 to 3 pounds of cottonseed meal, cake, pellets or cubes should be fed when pastures begin to mature and become dry.

Creep-feeding calves supple-

People, Spots In The News

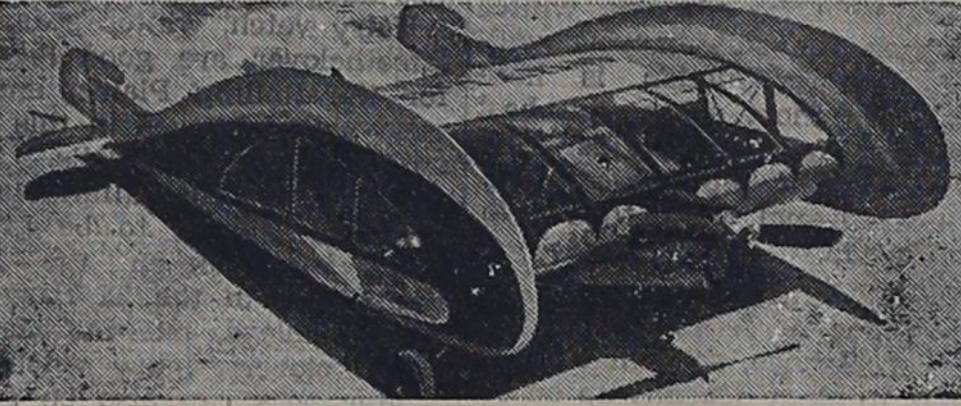

NOT ENOUGH PEP—Willie Pep takes nine count in third round of N. Y. bout in which he lost featherweight title to Sandy Saddler in 8th round TKO.

BOB WILLIAMS steps high as Notre Dame preps for season. Irish quarter-back is tabbed for big year.

DENISE DARCEL, French screen star, highlights her hair with "bamboo blonde," one of new tintair home hair coloring shades originated by Donu Edmond, creator of Jean Harlow's "platinum blonde."

WINGLESS PLANE—William E. Horton of Caseville, Mich., has invented this unique air and land craft being tested at Gilbert Field, Winter Haven, Fla. He hopes it will be the answer to the flying auto.

ments milk in producing bloom and finish with a small amount of grain. Locate creep-feeders conveniently so calves will have an opportunity to eat as often as they desire. A good mixture of creep-feeding until calves are four months old is: 200 pounds of cracked corn or sorghum grain chops; 100 pounds of oats, coarsely ground barley or wheat; and 50 pounds of cottonseed meal. After calves are four months old, change the mixture to 500 to 600 pounds of coarsely ground farm grains and 100 pounds of cottonseed meal.

Good quality calves kept for additional feeding in the dry lot after weaning should be started on feed carefully. During the first part of the feeding period, provide plenty of roughage and the same concentrate mixture they received in the calf creep. After the calves are well-settled in the feedlot, gradually change the mixture to: 1,000 pounds of coarsely ground farm grains, 325 pounds of cottonseed meal, 13 pounds of calcium supplement and 13 pounds of salt. Since the calves are already accustomed to self-feeding, they may be self-fed the concentrate mixture or it may be hand-fed in amounts which they will clean up in 30 to 45 minutes. After

Lights Increase Egg Production In The Fall Months

Poultrymen can increase their fall and winter egg production and take advantage of the high prices of these seasons of the year by using the simple electric light.

For maximum production, a hen needs 12 to 14 hours of light a day, says W. J. Moore, associate poultry husbandman for the Texas A. & M. College Extension Service. He explains that the electric light can be used to artificially lengthen the hen's laying day.

The use of artificial light should begin about the middle of September, and should be used until next spring. Moore cautions that the light rays must fall on the birds for best results, even if they stay on the roosts.

calves have been in the fattening lot for several weeks, the roughage ration should be gradually reduced to encourage consumption of fattening grains. If calves remain in the dry lot longer than 60 days, feed 2 pounds of bright-green legume hay, daily, to provide vitamin A.

Cotton Council Issues Warning Of Fire Dangers

Pointing out that fire losses last season amounted to about \$1.25 for every bale of cotton produced, the National Cotton Council has initiated an educational campaign aimed at prevention of cotton fires during the current crop year.

"To be effective, fire prevention must begin on the cotton farm and continue throughout every process to the finished cotton product," Claude L. Welch, the Council's production and marketing director, declared.

"Cotton farmers and those harvesting cotton have an important part in the fire prevention program, since rocks, metals, and matches often get into seed cotton when it is being harvested. These materials cause sparks when they hit metal parts in the ginning process. Lint is thus ignited. The smoldering cotton may not be discovered when it enters the gin press box and thus be packed deep inside the bale. Such "fire-packed" bales were believed responsible for 84 percent of all fires occurring last season in compresses and warehouses.

"Strict enforcement of the 'no smoking' rule, properly adjusted machinery, safe wiring, isola-

they stay on the roosts.

Moore says that it is not the extra feed which the birds may eat that keeps egg production up during the winter, but the effect of the light. And it makes no difference whether morning or evening lights are used, although morning lights are more common since they are more convenient for the poultryman to use.

In morning lights, the recommended procedure is to turn the lights on about 30 minutes before daylight in the fall of the year as the days begin to get short, and to turn them on a little earlier each morning as the days get shorter.

When evening lights are used, the lights are turned on in the late afternoon before dark, and are allowed to burn until the birds have received their 12 to 14 hours of light per day. Moore cautions poultrymen to dim their evening lights for a few minutes before turning them completely off so the hens will have time to get on the roosts.

Extremely large light bulbs are not necessary for providing plenty of light for the laying hens. Moore recommends using two 25 to 40-watt bulbs for each 400 feet of floor space.

tion of "firepacked" bales, proper maintenance of fire fighting equipment, keeping premises free of trash, and safe storage of combustible materials are measures which can help prevent fires around gins, compresses, and warehouses," Mr. Welch emphasized.

Mr. and Mrs. Andy Habib visited in the home of her parents, Mr. and Mrs. C. M. Smith, over the week end. Mr. and Mrs. Habib were married Sunday, September 17, in Corpus Christi, and had just returned from their honeymoon, when visiting here. They plan to make their home in Corpus Christi.

Mrs. L. H. Ford underwent a major operation in the Knox County Hospital on September 19. She is reported to be getting along fine and will return home the latter part of this week.

Mr. and Mrs. Lattie Loftis of Bakersfield, Calif., visited in the home of Mr. and Mrs. I. L. West and Lennie over the week end. They had been to Springfield, Mo., and Cookeville, Tenn., and were enroute home.

Mr. Dee Mullican visited his sister and her family, Mr. and Mrs. C. E. Broer, in Houston, over the week end.

ONLY MASSEY-HARRIS Depth-o-matic System

Gives you all 7 of these hydraulic control advantages . . .

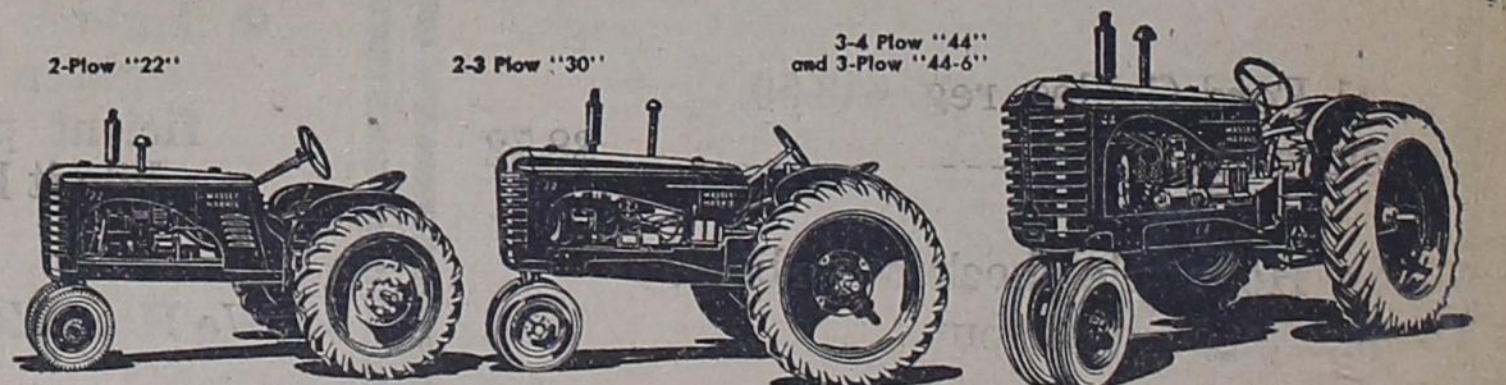

1. Constant Hydraulic Power
2. Depth Control of Mounted Tools
3. Depth Control of Pull-Type Tools
4. Control of Front End Loaders and Dozer
5. Selective Control Attachment
6. Hoses Couple . . . Sealed from Dust and Dirt
7. Fast and Slow Speed

Here's new efficiency in a hydraulic control . . . quick responding, accurate Depth-o-matic System—now available on Massey-Harris "22," "30," "44" and "44-6" tractors. Depth-o-matic is easy to control . . . just one lever operates the entire system. Just a touch and implements are raised and lowered under power . . . and that power is there ready for use whenever your tractor engine is running. Depth-o-matic controls depth positively . . . sets implements to work at the depth you select. Uniformity of work results . . . cleaner work, a better job. With Depth-o-matic you have plenty of leg room on the tractor platform . . . the system is small, compact, completely safe.

Two-way operation lets you select a fast or slow speed. You make the adjustment best suited to the job and kind of equipment. When not in use, hose connections to the slave cylinder on pull-behind tools are easily coupled together, sealing out dust and dirt. Depth-o-matic is economical to operate, economical to maintain.

Selective control implements can be operated with Depth-o-matic System by the addition of a single valve. Depth-o-matic is versatile . . . takes all the "muscle work" out of implement control. See this amazing hydraulic unit today. Stop in for complete details on Massey-Harris Depth-o-matic System.

Depth-o-matic System is available for these Massey Harris Tractors.

SHARP MOTOR & EQUIPMENT CO.

Let's Talk Livestock

(By Ted Gouley)

FORT WORTH, Sept. 25—The heaviest cattle and calf runs of the season and the year were recorded around the marketing circle Monday. The more liberal movement of cattle and calves gave the buying side of the market their first chance in some time to press for lower prices on the grassers and short feds and on calves. The result was a lower set of prices. The reaction was a more or less normal market development since setbacks usually fol-

low a series of rising markets in livestock, commodities or stocks.

It is possible that the better war news helped dull the edge of the market temporarily, but despite the vast improvement in the Korean situation, most observers feel that the rearmament program and the resultant expansion of the nation's economy will continue.

Reductions of cattle prices ranged around 50 cents to \$1 per hundred at Fort Worth Monday, with the exception that thin and high qualified stockers sold firmly. Bulls late last week topped at \$26 set a new all-time record for this market and grass steers of the plain and medium varieties were also at all time high peaks, the kinds considered.

Some sales of stockers at Fort Worth Monday that were noteworthy included 50 yearling steers from A. M. Woods, Gladewater, that brought \$30. Sealing V Ranch, Clay County, sold some around 900-pound cutback steers as feeders for \$27.50. W. T. Green of Graford had a load of 335-pound Hereford calves at \$32, and J. T. Green, Graford, had a load of 400-pound at \$31.50. L. J. Brown, Ryan, Oklahoma, had a load of

THESE COUPONS WERE WORTH OVER \$150—In recent years a cow with her calf has come to be called a cow with a "coupon" attached by lots of folks. This alleyful of choice calves was raised by S. D. (Pig) Howard of Nocona, Texas. He has steadily built up his herd of top grade Hereford cows and improved his pastures. This

year's calf crop weighed over 490 pounds, and sold for \$31 per hundred in Fort Worth. They were brought on order for a feeder buyer in the North. The calves had been creeped and many were fat enough for slaughter. Good bulls, good pasture and good care are what brings prices like these calves earned.

432-pound calves at \$32.75. C. J. Holloway, Athens, sold a load of plain steers at \$25.50. Odd lots of light calves reached \$33. There was a definite slowup in the stocker grade going to wheat pastures. It appears that prices had gotten so high that the buyer become shaky about the money-making possibilities off wheat pasture considering the high cost. Price 50 cents to \$1 lower on old cows were the order of the day. Bulls tumbled a like amount, the practical top \$25.

Feeder lambs and yearlings reached new record high marks, however. Some fleshy feeder yearlings reached \$22.50 and fats sold up to \$23, the high water mark for both classes this year. Feeder lambs continued to climb to new highs with a top of \$28.50. Those \$22.50 feeder yearlings weighed 89 and came from J. W. Evans of Fort Davis. The feeder lambs at \$28.50 came from Boss Taylor of Aspermont and averaged 77 pounds and were good Ramboulllets.

The Senate is reported to have passed a bill which permits catmen to sell breeding stock and count it capital gains under certain circumstances. There have been some lawsuits stem from the desire of cattlemen to take the same advantage of selling worn out livestock as the manufacturers take when they sell old machinery. This way the tax load is lightened.

It's a step in the right direction but the resolution should have included other breeders such as hog men, sheep men, etc., and probably will be revised toward that end. There is on sound reason the tax law should deal differently with a livestock producer as compared with a manufacturer.

Fort Worth will be the scene

LOCALS

Mr. and Mrs. T. J. Brogan have moved to Wichita Falls to make their home. Both have accepted employment there. Mrs. Brogan is the former Katie Belle Sweat.

Mr. and Mrs. Silas Redwine of Fort Worth spent several days here last week, visiting Mr. Redwine's parents, Mr. and Mrs. G. W. Redwine.

Mr. and Mrs. Lee Haymes spent the week end in Irving, visiting in the home of Mr. and Mrs. Bobby Haymes.

Rev. and Mrs. R. L. Butler visited with friends in Throckmorton last Monday.

Carl Risley of Cuero visited with friends here over the week end and the first part of this week.

Time To Plant Winter Legumes

The time for planting winter legumes for soil improvement and seed production is here again. In most areas, the best time for fall planting is from the middle of September to November 1—not later than November 15.

E. A. Miller, agronomist for the Texas A. & M. College Extension Service, says that the legume to plant depends up on the section of the state in which you live.

He ads that hairy vetch, Singletary peas, Austrian winter peas, Dixie wonder peas and crimson clover are good winter legumes to plant in the East Texas Timber Country. Common and Willamette vetches are also adapted to the southern half of this region.

The annual yellow blossom sweetclover, *Mellilotus indica*, is the most desirable legume to plant in the Gulf Coast Prairie, but the other legumes named above can also be grown. Hubbard and Madrid sweetclovers

of the Texas Livestock Round-up on Nov. 2 and 2 this Fall. The roster of the specialists that will appear on this program is a regular Who's Who of people with know-how on livestock matters. Make your plans to visit in Fort Worth on those dates. The livestock industry from A to Izzard will be covered and you will probably learn something useful. Bring the little woman along, she'll enjoy the visit, too!

Bill Pier of the Stockyards, Bill Durham of the Star-Telegram and Layne Beaty of WB-AP have been working on the program which we'll tell you more about later.

Watch Your Step at Home

HOME just isn't the safest place to be, contrary to a common opinion. Just think of it: Annually 32,000 are killed accidentally at home, 130,000 are permanently injured, and 4,750,000 are maimed, disfigured or disabled. About half the home accidental death total, 16,000 annually—is caused by falls. Other important causes are burns, poisonings, poisonous gas and mechanical suffocation.

Why do accidents occur in what might be the world's safest place, the home? According to a study of 4,602 home accidents hospitalized at Cook County Hospital, Chicago, there were two general categories of causes—mechanical and personal. Here's the breakdown:

Mechanical—Disorder, 18 per cent; improper equipment, 10 per cent; improper use of equipment, 10 per cent; house needed repair, 8 per cent; ice on walk, 4 per cent; lack of light, 4 per cent; other mechanical, 10 per cent; no mechanical factor, 36 per cent.

Personal causes—Poor judgment, 24 per cent; child injury, adult fault, 10 per cent; physical frailty, 8 per cent; hurry, 6 per cent; intoxication, 5 per cent; physical handicaps, 3 per cent; other personal, 12 per cent; no personal factor, 32 per cent.

Most frequently, falls occur on stairs, from porches or ladders, on slippery floors and walks; burns are caused by gasoline and kerosene, matches, hot liquids, steam, or home dry cleaning; poisoning is caused by badly vented stoves, gas failing to ignite, or stoves in disrepair.

From where I sit... by Joe Marsh

New Use For Old Windmills

I drove past Larson's farm last week and saw him perched on top of his 75-year-old windmill. "Still planning on tearing it down?" I shouted up to him.

"Not on your life," says Curly as he climbs down. "I'm getting myself a television set from Buzz Ellis' and he says this windmill is going to come in mighty handy."

"You see," Curly went on, "I'm going to put my TV antenna right on top of it. Since the windmill is higher than the house, I'll get the best reception around here—but

if it wasn't for Buzz and his advice, I'd have scrapped it."

From where I sit, Curly's success as a farmer and his popularity in town is due, in a large part, to his open-mindedness and his willingness to listen to people and their opinions. He'll listen to Buzz Ellis over a malted milk or he and I can talk politics—each with a glass of temperate beer. Yes, Curly's as modern as television itself!

Gas Industry To Have Exhibit At State Fair

Sparkling gas kitchens completely equipped with time and work-saving appliances and including three new colors and other innovations in kitchen styling and designing, will be brought to life for visitors to the Natural Gas Building during the State Fair of Texas to be held in Dallas, October 7-22. Spacious lounges, comfortable chairs, free ice water and clean rest rooms will be available to guests.

The exhibit will show the extent to which the gas industry has gone to bring a "better standard of living to the home" by providing appliances featuring healthful, efficient, convenient and economical operation. It will present one of the largest displays of automatic gas cooking equipment ever assembled under one roof.

Radio and television stars will be presented. They are vocalist pianist Gloria Yates, Vocalist

Claire Stewart and Jimmy Jeffries. They will give four performances, daily, starting at 1:45 p. m. with others following at 2:45, 4:45 and 6:45, with an extra show on Saturday and Sunday at 7:45 p. m. These performances will be held in the room housing the mammoth array of gas ranges. A portion of the 2:45 performance will be broadcast on WFAA-570 Monday through Friday.

Two "New Freedom" all-gas kitchens will be shown, down to the last piece of equipment and accessory. One is the "Blue Flame" kitchen and the other is a smaller cottage type kitchen especially designed for the National Association of Home Economists and shown for the first time at the June convention in Boston. This showing introduced one of the three newest colors being used in kitchen decorating, terra cotta.

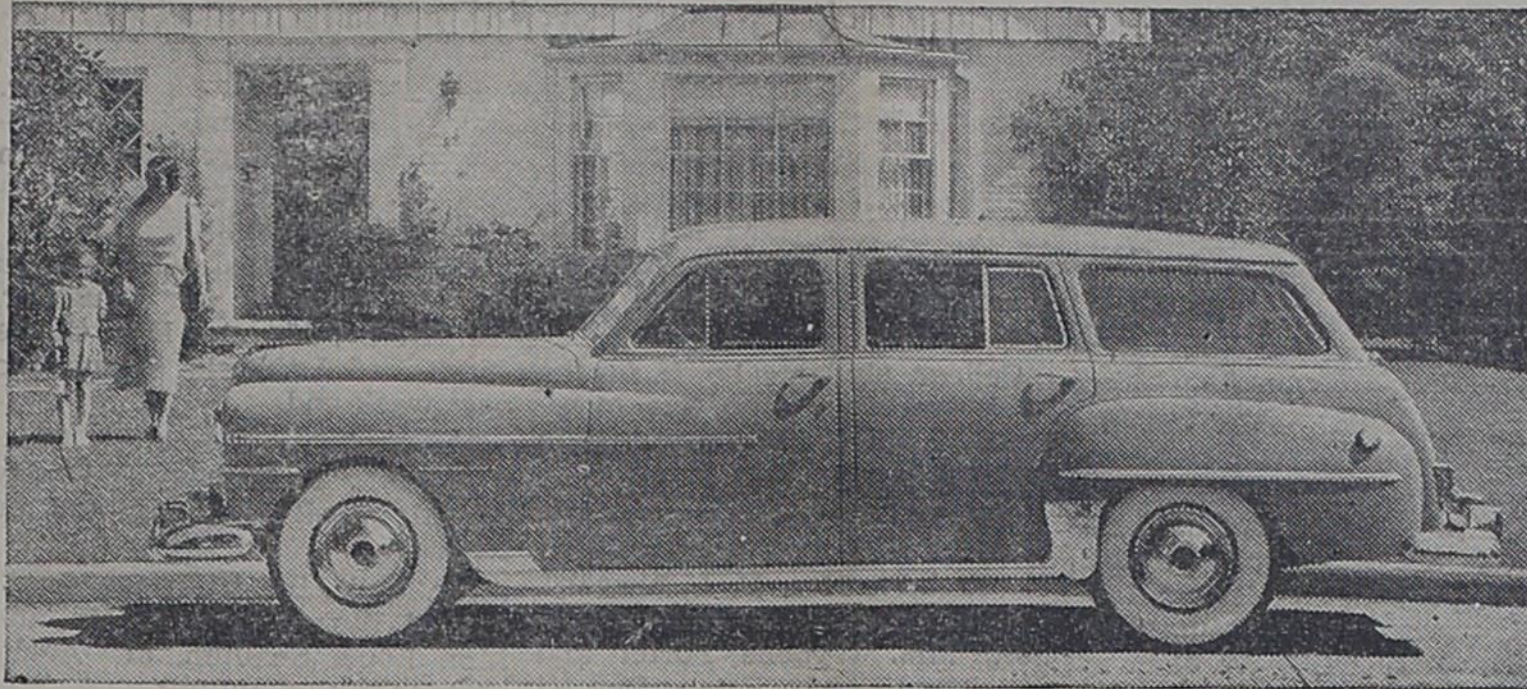

The other two new colors for kitchen designing, morning blue and dusk blue, are used in the "Blue Flame" kitchen which is featured in the lead home equipment article of the October issue of the Woman's Home Companion magazine. This kitchen occupies a space of ten by twenty feet and was designed to dramatize the large gas refrigerator and a deluxe 40-inch gas range with automatic features. Walls are paneled in maple, and bright coral is the central decorating theme. Floors are gray and the ceiling is pale blue. Cabinets are morning blue and dusk blue.

Model floor plans designed by prominent Southwest architects ad built around gas air conditioning units for the small or large home will be on display at the Natural Gas Building. A model home laundry equipped with a gas clothes dryer, automatic gas water heater, large clothes hampers and ample shelf space may be seen. New types of forced air central heating plants and floor furnaces that require "amazingly small space" for installation will feature a display of home house heating equipment.

The Natural Gas Building is a few hundred feet southeast of Fair Park Auditorium and may be located by a 70-foot tower atop of which is a giant stimulated blue flame, with GAS lettered out on four sides in neon lighting.

Mr. and Mrs. H. F. Jungman were business visitors in Dallas the first of the week.

TOWN AND COUNTRY WAGON

All-steel body and luxurious interior trim are highlighted in the new Town and Country Wagon, just added to the Chrysler line. A unique combination of utility and luxury, the newest Chrysler four door six passenger station wagon has a fold-down rear seat arrangement that

provides up to nearly ten feet of cargo space behind the front seat. The interior is richly trimmed in a fashionable but durable leather-like plastic for upholstery, headlining, and side panels. Extra-wide rear window can be rolled down completely into tailgate.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—Venereal infections, notably syphilis and gonorrhea, will probably increase sharply in cities and towns near military centers in the near future, State Health Officer George W. Cox has predicted.

He urged all cities, especially those in which greater numbers of military personnel were expected to intensify their efforts to control venereal diseases.

Experience during World War II, the health officers said, indicates that unless civilians be-

come as concerned about the venereal disease problem as are military and public health authorities, there will "most certainly" be a great increase in venereal disease infections among men in uniform and in the civilian population as well.

"That doesn't mean all soldiers are destined for VD infections," Dr. Cox declared. "It means simply vice conditions, poorly supervised recreational facilities and an indifferent attitude on the part of the public are inevitable around military posts, and all contribute to higher VD rates."

"These young men were only recently civilians," he pointed out. "They worked or went to school in communities no different than yours or mine."

He urged that they be provided with wholesome recreational facilities while in your town. It

Mr. and Mrs. Orman Moore and children of Wichita Falls spent the week end here with Mrs. Moore's mother, Mrs. Erin McGraw, and with other relatives and friends.

Garon Tidwell of Abilene visited in the home of his parents, Mr. and Mrs. Jack Tidwell, over the week end.

will help make their lives in uniform a little less drab and monotonous."

The State Department of Health has been working for years in close cooperation with the military in controlling VD and other disease affecting men in uniform.

"It's a very important part of the civil defense program," he said. "Disease can incapacitate a man quite as effectively as a bullet."

Bobby Winchester of Abilene visited in the home of his parents, Mr. and Mrs. Tolby Winchester, over the week end.

TALK TO THE MAN WHO USES IT...

WD TRACTOR TWO-CLUTCH CONTROL

In heavy crops, his tractor power flows steadily to Corn Harvester, ALL-CROP* Harvester, ROTO-BALER* or Forage Harvester. A push on the transmission clutch lever lets him stop forward motion to clear overloads without clogging, breakage or crop waste.

Ask any owner of an Allis-Chalmers WD Tractor to show you the many places where you need two-clutch control. Let him demonstrate the safety and convenience of this system where the foot-operated engine clutch stops all power outlets — pulley, hydraulic lift, power take-off and rear wheels, and the transmission clutch stops forward motion only.

Watch your neighbor's WD — it will be time well spent

*ALL CROP and ROTO-BALER are Allis-Chalmers Trademarks.

District 9-A Battle Opened Here On Friday

STAMFORD—Battling to a scoreless deadlock in the opening contest of the 1950 District 9-A grid race Friday night were the Munday Moguls and Throckmorton Greyhounds. Each team forfeited opportunities to score with fumbles and penalties.

Meanwhile, Haskell and Stamford, the district's only undefeated teams, ran wild over Rule and Breckenridge B's respectively by the identical score of 59-0. They are co-favorites in the running for the title. Each has won three straight non-district games.

Twice-beaten Hamlin upset favored Anson, 18-13, in the week's surprise. Anson opened the season strong, dropping Rotan, 52-6, but has been falling off since then. Jim Thompson, tied with Jimmy Allman of Albany for top scoring honors with 36 points, is Anson's leading threat and one of the district's finest backs.

With Allman scoring three TD's and setting up a fourth, Albany punished a strong Eastland club, 25-0. The Albany crew is the only team accorded a chance of stopping Stamford and Haskell in the title race.

Reserve back Jerry Prewitt of Stamford won the longest run for touchdown honor when he returned a punt for 100 yards to score in the rout of the Breckenridge B team.

Top game on scheduled this week is the Stamford-Ballinger clash in Stamford. Wichita Falls Rowdies will engage Throckmorton at Throckmorton in a Thursday night battle. Another top game as far as second division teams is concerned pits Snyder against Albany in Albany.

East Week's Results
Haskell 59, Rule 0.
Stamford 59, Breckenridge B 0.

Hamlin 18, Anson 13.
Albany 25, Eastland 0.
Munday 0, Throckmorton 0 (opening district game).

This Week's Schedule
Ballinger at Stamford.
Snyder at Albany.
Wichita Falls Rowdies at Throckmorton (Thursday game).

Rotan at Haskell.
Rule at Munday.
Anson at Roby.

PARENTS OF DAUGHTER

Mr. and Mrs. Dan Summer of San Antonio are the parents of a daughter, Jena Mochelle, who was born on Wednesday, September 13, at San Antonio. Mrs. Summer, formerly of Munday, is the daughter of Sam Salem of Munday and Mrs. Salem of Dallas. Mother and daughter are reported doing fine.

Mrs. W. M. Mayo returned Sunday evening from a visit with friends and relatives in Dallas.

Mr. and Mrs. A. A. Clark, Mr. and Mrs. Elzie Jackson and Judy, all of Dallas, visited with Mr. and Mrs. I. L. West and Lenie over the week end.

FARM NEWS

From the County PMA Committee

490 KNOX COUNTY FARMS IN ACP

Although farmers still have more than three months to complete soil and water conservation practices under the 1950 Agricultural Conservation Program, J. C. McGee, Chairman of the county PMA Committee, estimates that 1490 farmers will cooperate in the program this year.

In 1949 conservation practices were completed on 335 Knox County farms. A total of \$47,317.59 for materials, services and direct financial aid was received by the cooperating farmers.

McGee points out that since ACP assistance is on a share-the-cost-basis with the farmer paying about half the out-of-pocket cost, the value of the practices completed under the 1949 ACP is in excess of \$95,000.

Emphasizing the value of the program to the entire community, the chairman says: "The conservation work carried out in 1949 was a continuation of the practices carried out since 1936, when the program started. The figures are significant in that they measure the efforts of county farmers to improve the soil and water resources of the county. As a result, farmers of the county are more certain of good crops and all those who depend on agriculture have increased security. For the country as a whole, there is greater assurance that there will continue to be plenty of food and fiber."

"The practices carried on by farmers under the Agricultural Conservation Program have been material factors in the nation's 38 to 40 percent increase in agricultural production since before World War II. A continuation of this effort is necessary if we are to meet the needs of our rapidly increasing population, to say nothing of the needs that may develop as a result of the unsettled condition of the world."

GRAIN SORGHUM LOANS EXPLAINED

B. F. Vance, Chairman of the

State P. M. A. Committee, advises grain sorghum growers that the grain sorghum loan rate announced for your county is for grain sorghum stored on the farm. A deduction of 20.5 cents from the announced county rate will be made where grain sorghum is stored in a commercial elevator, unless the storage is prepaid and so indicated on the warehouse receipt. Vance says the 20.5 cents reduction is made on the assumption that the grain will have been in storage 230 days when the loan matures. In some areas where harvest is late, farmers can save by prepaying the storage and securing the full county loan rate on their grain. He advises all growers to check with their local county PMA office before closing the loan.

BENJAMIN NEWS

(Elda Purl Laird, Reporter)

Mr. and Mrs. Merlin Dickie and daughter, of Berger, spent the past week end visiting in the home of her father, Mr. Less Brown, and other relatives and friends.

Mr. and Mrs. Earl Brown and son left last week for Arizona, where they plan to make their home.

College students home for the week end were Miss Sue Moorhouse, Jackie Waldron, Billy Bob Glenn.

Mrs. W. A. Barnett spent the latter part of last week visiting her mother, Mrs. E. L. Howard, of Whitarral. Miss Omitee Barnett, Mrs. Wynelle Porter and daughters and Pete Barnett spent Sunday in the home of Mrs. Howard, and Mrs. Barnett returned to Benjamin with them.

Miss Betty Barnett and girl friend, of Jayton, visited in the home of Miss Barnett's parents, Mr. and Mrs. Howard Barnett, during the week end.

Mr. and Mrs. M. A. Btumpas

and Billy were in Wichita Falls Saturday shopping.

J. M. Chitty, of Van Alstyn, is visiting in the home of his sister and family, Mr. and Mrs. D. V. Gilbert, and other relatives and friends.

Mr. and Mrs. A. H. Sams, Jr. and Mr. H. B. Sams, Sr., attended the McMurry-Midwestern football game, held in Wichita Falls Saturday night.

Mrs. J. A. McCaules visited in the home of her daughter and family, Mr. and Mrs. Curtis Ripley, of Lubbock, during the past week end.

Mr. and Mrs. Malcomb Shipman were in Munday Monday of this week shopping and on business.

Mr. and Mrs. Thurman Snailum, of Yuma, Arizona; Mr. and Mrs. Louis Snailum, of Aledo, Charles Ray Snailum, of San Angelo, and Darr Snailum, of Pecis, visited in the home of Mr. and Mrs. Lee Snailum and family, during the past week end.

Mrs. James Grady Hudson and daughters, of Portales, New Mexico, are visiting in the home of Mr. and Mrs. Grady Hudson and family, this week.

Kracker Krumbs—

(Continued from Page One)

ing on the labor situation over the district.

Information is that they'll do "spot checking"—that is drive along the highways and public roads. If it is apparent that children under 16 are working in a nearby cotton field, the checker will stop and investigate.

And if the law is being violated, the farmer employing that crew of workers will have to account for it.

They say it'll mean better educated people in America. They say it'll mean raising the standards of living in the U. S. A. They say it'll mean farmers go-

ing more and more for storm proof cotton in this section, with mechanical strippers being used.

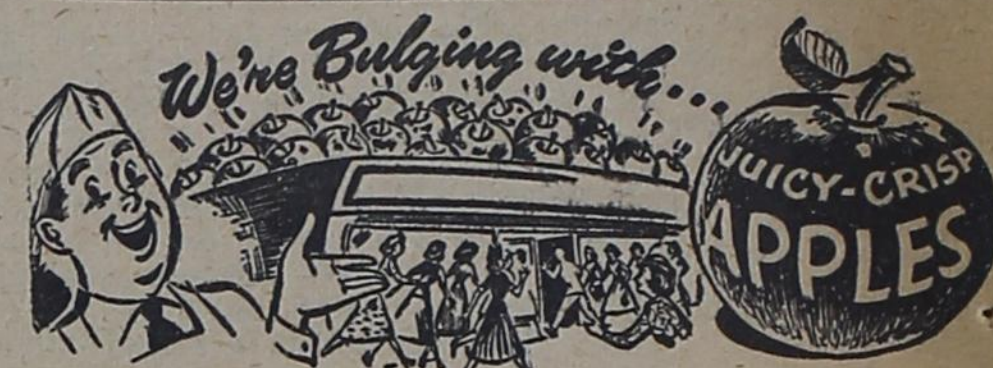

Just what all it does mean, we don't know, except that farmer must "be on his toes" this gathering season.

Mr. and Mrs. Melvin Bridgewater of Wichita Falls spent Sunday visiting her parents, Mr. and Mrs. C. N. Smith.

Mr. and Mrs. J. C. Campbell visited their daughters, Dolores Campbell and Mrs. E. V. Moore, in Abilene over the week end.

Miss Bea Stubblefield and Glenn Morrow were visitors in the home of Mr. and Mrs. Joe Frank Bowley in Big Spring over the week end.
