

Kracker KrumbS Odd Bits Salvaged At Random

Weather Report: It makes you wish food prices were not so high so you'd have more money to invest in winter clothing.

Take Tuesday morning for instance.

We sat down and started eating one of those 70-cent a dozen eggs.

We've always thought eggs were better than ever when they got to costing a nickel apiece. But this one was even costlier than that.

We usually have two eggs for breakfast. We remarked 'way back yonder that we'd be plumb glad to know we'd be able to eat some bacon or a slab of ham with two eggs every morning as long as we lived.

That prospect is getting dim, very dim.

We sat down, looking very dejectedly at the lone egg, with bacon on our plate and received the news that this was possibly the only egg in town!

Someone reportedly went to every grocery store in town late Monday and couldn't buy a dozen eggs.

So we began the chore of disposing of the egg, peeping out the frosted-over window at the falling snow and thought of the winter days ahead.

It seemed that all of those articles that have been written on "How to stretch the food dollar" should have been revised to include clothing.

When the mercury plummets from way up yonder to right down here, it makes you wonder.

You wonder if you'd be better off if you'd eaten less along and put some of the budget money in clothes.

You wonder if that peppering of snow is going to give enough moisture to do the wheat land any good.

That peppering of snow in your face seems rather dry, and a dry snow don't bring much moisture. Then, too, the weatherman is predicting the moisture won't be sufficient to do the parched farm and ranch land a great deal of good.

You pull your last year's overcoat tighter about you, and you begin to realize how uncomfortable it is to be inadequately clothed in severe weather.

Not that Tuesday morning's weather was unreasonably severe—it was just that sudden change from the high temperature of the day before—and when you get acclimated again your winter clothing may not seem so inadequate.

You get to thinking about other peoples of the world. It's getting close to Christmas, the time when our thoughts are more or less universal.

Thoughts go to the starving peoples of other nations—how America has sent food and clothing by the millions of dollars worth to help them survive.

You see pictures of starving, freezing, disease-ravished tiny children of other lands—and your plight isn't so bad after all.

You wonder if those reports of our boys in Korea were really true. Reports came that they were facing a severe winter with inadequate clothing. Reports were denied by some of the "big brass"—but you wonder.

Most any amount of clothing would seem inadequate in the face of the winter and exposure ahead of them.

The fighting that was to have been "over by Christmas" takes a new turn, and the threat of a third world war now looms over the horizons more gloomy than ever!

(Continued on last Page)

Hester Well Is Prospect For Another Strike

Last week Riley G. Maxwell was waiting on cement after setting pipe on top of the Caddo in his No. 1 J. P. Hester well, a wildcat in Haskell County, some five miles southeast of Munday.

Top of the Caddo was 5,300 feet. A drillstem test was taken at 5,306-70 feet. Tool was open two hours and 15 minutes, and gas appeared at the surface in 12 minutes.

Recovery was 2,510 feet of oil, 90 feet of heavily oil cut mud and 30 feet of slightly oil cut mud. Flowing pressure varies from 200-800 pounds, and shut-in pressure was 1,000 pounds.

A drillstem test was taken in the Ben Conglomerate at 5,601-11 feet. Tool was open 20 minutes, with recovery of 15 feet of mud. Total depth was 5,650 feet in Mississippian lime. Casing was 5,450 feet.

The location is near the No. 1 A. A. Smith well, which is now pumping around 7 barrels per day.

Davis Well Completed

Texas Pacific Coal and Oil Company's No. 1 Dela C. Davis, in the S. Washburn survey in the Cartwright field in Knox County, has completed in the pay at 4,544-48 feet. On a pumping test of the well made 114.67 barrels of oil in 24 hours.

This is the third well in the Cartwright field, being near the No. 1 and No. 2 Cartwright well, about four miles southeast of Munday.

Rev. B. B. Crimm Killed In Auto Mishap Friday

Rev. B. B. Crimm, widely known "Cowboy Evangelist" was killed at 3:30 Friday morning when the automobile in which he was riding overturned near his home in Marshall.

Rev. Crimm, a four-letter athlete in Howard Payne College, has preached in 25 states and was credited with bringing more than 140,000 persons into church membership, 600 of whom became ministers. He held revivals at Munday and Goree in recent years.

The automobile was driven by Rev. H. A. Fish, a Cuero pastor. It failed to make a curve on asphalt made slippery by a heavy dew, and overturned several times. Rev. Crimm was thrown from the vehicle. Rev. Fish suffered minor injuries.

Crimm has been holding a revival at Cuero, sponsored by the First and Calvary Baptist churches, and was making an overnight visit to his home at Marshall to take care of various affairs.

Funeral services were held at Marshall. Survivors include his wife, a daughter, three sisters, and four brothers.

Grass Fires On Monday Bring Out Fire Department

With the high winds making the threat of fire more hazardous, the Munday Volunteer Fire Department made three calls last Monday afternoon to put out grass fires that had begun to get out of control in the city limits.

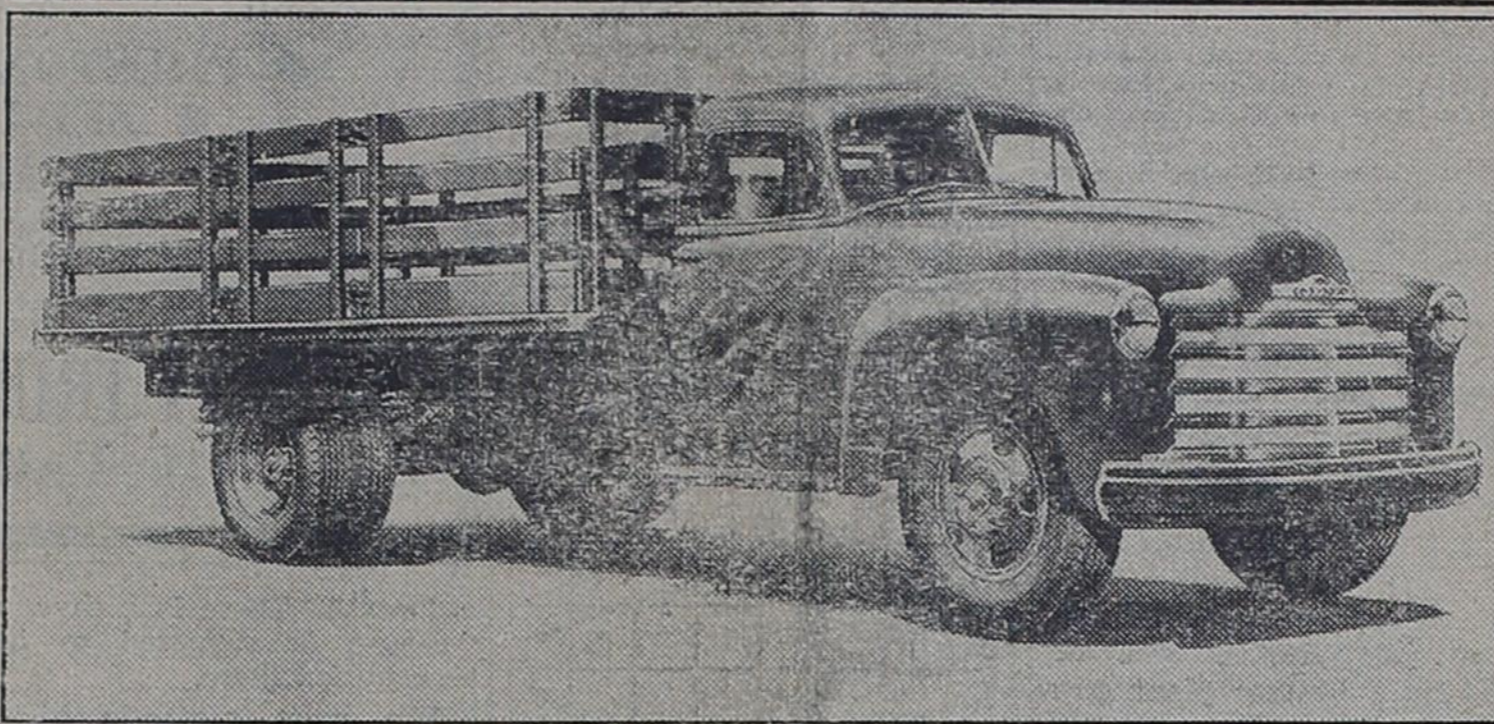

The firemen would barely have time to go one fire out and return to their work when another alarm would be sounded. The first call came about twelve o'clock and the third around 4:30.

The dry grass and weeds which have grown in the alleys in the residential area continue to bring additional fire hazards, and citizens are asked to use extra caution with fires, matches and cigarettes at this period.

Joseph Borden To Report To Service

Joseph Borden recently resigned his position in Wichita Falls, and he and Mrs. Borden are here for a short visit with relatives. Joseph reports for U. S. military service on December 8. He will go to the Amarillo induction station, then to Fort Sill, Oklahoma.

Chevrolet Trucks Reveal 1951 Advances

Typical of improved 1951 Chevrolet trucks is this heavy-duty stake model (Series 6409). Newly designed "Twin-Action" brakes on rear wheels assure increased braking effectiveness and longer life. Adjustable ventilated panels for better ventilation and a new spring steel construction are among other high spots.

Haskell Woman Injured In Car Mishap Friday

Mrs. J. W. Medley, 68-year-old Haskell resident and mother of Mrs. A. B. Warren of Munday, entered an Abilene hospital last Friday afternoon for treatment of injuries received shortly before noon Friday when her car turned over a few miles north of Haskell.

Relatives who attended her bedside Sunday reported that she is doing nicely. She sustained a fracture of both hips, the pelvis, and the left arm and received other bruises about the body.

The accident occurred as Mrs. Medley was returning to her home in Haskell after visiting a sister, Mrs. J. W. Liles, of Weinert.

According to Deputy Sheriff Harry Donohoo, Haskell, who investigated, the mishap occurred as Mrs. Medley was passing a truck. A front wheel dropped off the pavement and Mrs. Medley lost control as she attempted to bring the car back to the right side of the highway. The machine crashed into a narrow ditch and she was thrown into a field.

Mrs. Medley has lived in Haskell County most of her life. She is a member of the Methodist Church choir and is active in church work. She is a member of the Harmony Club.

Rush Your Letters To Santa Claus

Hey, boys and girls! It's only 17 more days until Christmas, and the mails are being more and more crowded each day.

That's why you should hurry and get your letter written to Santa Claus and sent to the Munday Times. We plan to print all letters received from kiddies of this area—then forward them on to Santa Claus as soon as they are put into type. Letters will be printed in our issue of December 21, so hurry!

Community Chorus May Be Organized

Leonard Dowlearn of the Munday Public Schools on Wednesday announced plans for organizing a Community Chorus in Munday. Directors of the chorus will be Miss Carolyn Hannah, music teacher, and Mr. Hornbeck, band director.

An organization meeting has been called for 7 p. m. Monday, December 11, at the grade school gymnasium. All who are interested, both high school students and adults, are urged to attend this meeting.

Weather Report

Knox County Hospital Notes

Patients dismissed since November 27th:

Bob Thompson, O'Brien; Mrs. Dwaine Russell, Munday; Betty Navaretta, Munday; Billy Dunnam, Rochester; Adelia Valenzuela, Munday; Mrs. Charles Harrell, Munday; L. V. Dodd, Knox City; Sammie Bates, Goree; K. Waheed, Munday; Bradley Hodges, Knox City; T. J. Hargroves, Throckmorton; T. M. Brown, San Angelo; Miss Clifford Elliott, Knox City; Dorothy Williams, Munday; Mrs. Martin Evans and baby, Knox City; Mrs. Clementine Salazar and baby, O'Brien; Mrs. D. E. Williams, Rochester; Mrs. Fabian Barrientos, Weinert; Joseph Anthony, Munday; Mrs. P. O. Large, Knox City; Milford Hanon, Rochester; Mary Lou Cottrick, Knox City; Mrs. G. O. Lewis, O'Brien; Cecil Gulley, Munday; Mrs. Alice Sessums, Munday; Mrs. Carlton Mooney, Abilene; Mrs. Arthur Lowrey, Knox City; Mrs. J. D. Rash, Peacock; E. C. Butchee, Munday; Gene Montandon, Munday; Mr. and Mrs. Reuben Bates, Goree; Juanita Moreno, O'Brien; Mrs. Dan Sparks, Munday; J. D. Rambo, San Angelo; Mrs. Martin Breseno, Rochester; Mrs. C. R. Reeves, Knox City; Frank Silman, Rochester; Mrs. J. F. Adeock, Throckmorton; Royce Stephens, Knox City; B. T. House, Benjamin; Mrs. James Rash, Munday; Mrs. J. B. Graham, Munday; Johnny Land, Vera; Steve Clower, Benjamin; Mrs. Ruth Pickard and baby, Knox City; Sue Lewis, O'Brien.

Patients in the hospital December 4th:

Mrs. W. I. Stewart, Abilene; Linda Kay Franklin, Knox City; Mrs. T. J. Mitchell, Munday; Joe Hammack, Munday; J. E. Tomlinson, Munday; Fozie Franklin, Knox City; Mrs. Mary Parham, Seymour; Louie Hansen, Rochester; Mr. and Mrs. Ed Lane, Munday; Hugh Rogers, Knox City; Mrs. C. W. Drake and baby, Rochester; Mr. and Mrs. Albert Parham, Vera; Mrs. J. T. Nixon, Throckmorton; W. C. Barnes, Benjamin; Wayne Hutcheson, Knox City.

Births:

Mr. and Mrs. M. Burton, Knox City, a daughter.
Mr. and Mrs. James Rash, Munday, a daughter.
Mr. and Mrs. C. W. Drake, Rochester, a daughter.

Deaths:

Rudy Sanez, Knox City Ardella Cortez, Munday Rash infant daughter.

Miss Coffman Takes Part In Hockaday Fine Arts Program

Signal honor came to Miss Mildred Coffman, daughter of Mr. and Mrs. Orb Coffman of Goree, recently when she was asked to play the piano at the Hockaday Junior College. The fine arts department presented its program in "The Great Hall" on Tuesday evening, November 28.

Mildred graduated from Hockaday College in June, 1950, and is now a junior in Southern Methodist University in Dallas.

Be careful. Observe state and local traffic laws.

Tax Collector Gives Schedule For Visits

M. A. Bumpas, Jr., tax assessor and collector of Knox County, advises that he will be in the various precincts next week for the purpose of collecting taxes from those who have not been able to go to Benjamin, or for any others who desire to pay their taxes at that time.

Below are the dates on which he will be in the various precincts of the county:

- Truscott, Monday morning, December 11.
- Gilliland, Monday afternoon, December 11.
- Vera, Tuesday morning, December 12.
- Rhineland, Tuesday afternoon, December 12.
- Goree, all day Wednesday, December 13.
- Knox City, all day Thursday, December 14.
- Munday, all day Friday, December 15.

Bill White Is New Pharmacist At Rexall Store

Mr. and Mrs. William R. White of Sulphur Springs came in last week, and Mr. White has accepted the position of pharmacist at the Rexall Drug Store.

Mr. White, who is already going by the name of Bill, is an October graduate of the Texas School of Pharmacy. The couple, who are occupying the former home of Mr. and Mrs. Charles Baker, came to the community highly recommended.

Mr. White has accepted a position in the Munday Public Schools, beginning her duties this week.

S/Sgt. Monroe R. Shaw, formerly of Seymour, now stationed in Fairfield Sinsun, California, visited Mrs. Mildred Fitzgerald Sunday. Mr. Shaw is Technical Engineer on a B 29 bomber but is taking training at Carswell Air Base in Fort Worth for transfer to a B 36.

Mercury Plunges To Seven Degrees Here

R. Temple Dickson Dies Saturday Of Heart Attack

R. Temple Dickson, member of a prominent Seymour family, and son-in-law of Dr. and Mrs. E. F. Heard of Goree, died Saturday enroute from Galveston to his home in Sweetwater.

Funeral services were held Sunday afternoon from the First Methodist Church in Sweetwater. Mr. Dickson practiced law in Sweetwater.

Dickson died of a heart attack near Comanche, according to reports. He was returning by automobile from a trip to Galveston. His father, the late Judge Joe A. Dickson, was a pioneer resident of this area and an outstanding Texas jurist.

Survivors include his wife and young son, R. Temple Dickson, Junior, of Sweetwater; his mother, Mrs. J. A. T. Dickson of Seymour; four sisters, Mrs. B. A. Bartram and Mrs. R. S. Cockerell, Seymour; Mrs. Ann Harrison of Dallas and Mrs. Carl Anderson of Sweetwater; a brother, J. D. Dickson of Seymour.

Methodist Class To Have Bake Sale

Mrs. W. R. Moore's Sunday School Class is having a bazaar and bake sale Saturday, December 9, beginning at 10:00 o'clock a. m. in the back of Gurley's Drug, where Mrs. Scott had her hot dog stand.

If you want gifts for Christmas, or something good to eat and at the same time help the Church, please come in.

Rendering Co. Brings Service Back Into Area

The service of picking up and disposing of dead animals for farmers and ranchers of this area is again announced by the Central Hide and Rendering Co. of Wichita Falls. Jim McDonald, former resident of Munday, announced the service this week.

Stockmen are asked to call immediately after the loss of an animal, and a truck will be sent to pick the animal up. Just phone 12-J Munday, collect.

HASKELL SINGERS TO MEET NEXT SUNDAY

The Haskell County Singing Convention will meet with the Plainview Baptist Church, 6 miles northwest of Stamford, on Sunday, December 10, at 2:30 p. m., it was announced this week.

All quartets and lovers of music are invited to attend. Lots of good singers are expected to have part on the program, making it a good day.

4-H Recreation Is Popular in Texas

The National 4-H Recreation and Rural Arts program provides boys and girls with an opportunity to make new friends, have fun, learn new skills, and become leaders. It also provides a medium for community participation in sports, dancing, dramatics, singing and other social events.

club members as well as to grown-ups in the community. Vienna May has been song and recreational leader in her club for the past two years. At county and district meets she has led recreation and served as judge and assistant judge. With the aid of local merchants, her group put on an outstanding style show. The proceeds were used to finance a mobile book-shelf for the local hospital. This talented miss also plays the saxophone on the Iraan High School Band.

Vienna May's record will be judged for national honors, and a trip to the 4-H Club Congress in Chicago, Nov. 26-30, provided by the United States Rubber Company.

An annual award of \$25 also is presented to each county on its overall recreational program as well as the records of its local 4-H Clubs. The award is used to buy recreational equipment. Counties winning cash awards are: Bastrop, Baxar, Callahan, Cameron, Castro, Coleman, Denton, Pecos, Rains, Refugio, Atascosa, DeWitt, Fayette, Gillespie, Goliad, Guadalupe, Hays, Hidalgo, Lamar, Runnels, Taylor, Williamson, Wilson and Young.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.

People of Munday and Knox County felt the sting of bitter winter weather, along with other Texans, the first of this week as the entire West Texas area saw the first snow of the season.

Heavier clothing, overcoats, topcoats and heavy jackets were very much in style here Tuesday morning as citizens of Munday awoke to find a bitter norther blowing and snow falling rather heavy.

Most everyone had their automobile radiators protected with anti-freeze, although a few reports of frozen radiators were heard.

The cold wave did not come without warning, as both daily newspaper and radio reports had stated it was on its way. But this did not make the cold less biting, as the mercury plummeted from a balmy spring weather on Monday to far below freezing Tuesday morning.

Around one and one-half inches of snow fell in the area, but this didn't bring sufficient moisture for the parched farm and ranch lands which have been suffering from a severe drought for several weeks. The moisture will eliminate only temporarily the threat from grass fires in both town and country. Three grass fires were recorded here Monday, and recently fires have destroyed grass on ranches in the vicinity of Benjamin.

Seymour Man Loses Leg In Car Accident

Robert Parker, 27, of Seymour, suffered a severely crushed leg in a car accident four and one-half miles south of Benjamin at 11 a. m. Wednesday. He was taken to the Knox County Hospital, where it was necessary for his right leg to be amputated below the knee.

The 1950 Mercury he was driving went out of control and overturned several times when it hit a strip of ice on the highway. He was traveling south, enroute to Roby to visit his parents, Mr. and Mrs. Tom Parker. He was alone in the car.

Mrs. Leroy Melton of Benjamin carried Parker to the hospital in her car. It was necessary for her and several other passing motorists to lift Parker's car off him.

Parker, a veteran of World War II, received the Bronze Star during 14 months in the European Theatre, and is the father of two children. His wife is the daughter of Mr. and Mrs. R. E. Severson of Roby.

Mr. Parker is a contractor for building farm terraces. He formerly taught a GI vocational training school a Roby.

Father Of Goree Woman Passes At Haskell Monday

I. S. Grindstaff, 72, pioneer West Texas merchant and farmer and father of Mrs. Ruby Taylor of Goree, died at a Haskell hospital last Monday afternoon following a heart attack early Monday morning. He was stricken at his home at 2 a. m. Monday.

Funeral services were held from the First Baptist Church in Haskell at three o'clock Tuesday afternoon with Rev. Hugo Sego officiating.

Mr. Grindstaff had been a resident of the Haskell area since 1911 and had recently retired from his farm and moved to Haskell. He was a native of Hampton, Tenn.

Survivors include his wife, four sons, R. B. of Fort Worth; Martin of Robesville, Texas; I. S. Jr., of Haskell, and J. L. Grindstaff of O'Brien; three daughters, Mary Grindstaff of Dallas; Mrs. Taylor, and Mrs. Ava Merritt of Kit Carson, Colorado; three brothers, two sisters and 12 grandchildren.

Mrs. Dick Rickenbacker, daughter of Mr. and Mrs. Carl Gage, is visiting her husband, who is stationed in Dallas with the armed forces.

Act of Congress, March 2, 1879.

OUR NEEDS FOR 1950

1. Completion of our portion of the Throckmorton road, giving the farmers of that area an all-weather outlet.
2. A farm-to-market road to the north and east of Munday, possibly connecting with the Hefner road.
3. A U. S. Federal building. Munday needs a new post office home.
4. More homes in Munday. We did a good job in 1949, but there's still a housing shortage.
5. A new telephone system, giving the town adequate telephone service and tapping the rural area surrounding the town.
6. Greater cooperation of business man, farmer, and citizen toward long-range development for our community.

THE COUNTRY PRESS SAYS

OAK HARBOR, WASH., FARM BUREAU NEWS: "The prospect of a \$60 billion Federal budget should arouse some sober thinking . . . \$60 billion, is six times the largest pre-war Federal peacetime budget. It is approximately equal to the total national income in any year through the 1930's."

DENVER, COLO., MINING RECORD: "Expressing fear that the United States government policy of deficit spending is making the nation fiscally vulnerable from within and perhaps so greatly extended as to be militarily vulnerable, U. S. Senator Harry F. Byrd of Virginia suggests that the country put on the brakes. He said the nation's only hope for survival is in free enterprise, but the President and our leaders are still insisting upon expansion of costly socialistic legislation."

EL DORADO, KANSAS, TIMES: "One of the strangest anomalies in the often giddy procedure of recent . . . administrations is the policy of trying to break up large corporations, and then calling upon these same corporations for eminent services when the safety and welfare of the country are concerned."

FAIRMOUNT, INDIANA, NEWS: "Uncle Sam has a bargain basement sale in the making with a total of 307 attractive offers of financial aid to state and local governments. All the Federal government wants in return is a bigger say in running home-town affairs."

SOMERSET, PENN., DAILY AMERICAN: "Black markets, an inescapable by-product of controls such as are being put in effect, certainly do inflame."

FIGHT FIRE EVERY WEEK

A short time ago observance of Fire Prevention Week took place. It is officially over, but, if Americans are at all interested in the health and welfare of themselves and their families they will make every week a fire prevention week. Safety from fire—whether in the home, on a

farm, or in an industrial plant,—can only be achieved by continuous, day-in-and-day-out work. That doesn't mean it's a hard job. It isn't. For the most part, it's easy. But it is a job which can never be neglected if we wish to avoid possible disaster.

The home which is safe today can be extremely dangerous tomorrow. An electric wire becomes frayed—a stove or a heating plant goes out of adjustment—someone is careless with cigarettes—flammable materials are carelessly stored in closets and attics—explosive liquids and oil-soaked rags are placed where the touch of a spark would set them ablaze. It is "little things" such as these that are responsible for the majority of fires. And it is these "little things" which we must look out for—not during one week, but every week of the year.

The nation's fire loss continues at disgracefully high levels. Far worse is the fact that each year, fire claims something like 10,000 lives—many of them infants and children. Many thousands more are permanently maimed and disfigured. This is the price we pay for our carelessness and ignorance. This is the grave problem which the annual fire prevention weeks are designed to help us solve. We can do it, if we only have the will.

"STUPID AND DANGEROUS"

A while ago, the Federal Security Administrator said the people who are opposed to the Federal compulsory health insurance scheme are "stupid and dangerous."

If that is true, the category "stupid and dangerous" is certainly a distinguished one. As the Fort Smith Times-Record said editorially, "Some very famed scientists, whose contributions to health and comfort are beyond estimation, are opposed to the Administration's Federal medicine plan."

"Some famed liberal leaders, both in congress and out, are opposed to the plan."

"Some noted sociologists, whose business is the improvement of mankind's lot, are opposed to it."

"And a deuce of a lot of Joe, Jim, John and George Does, who still retain a measure of independence and prefer to paddle their own canoes rather than suck at the breasts of a 'benevolent government' are opposed to it."

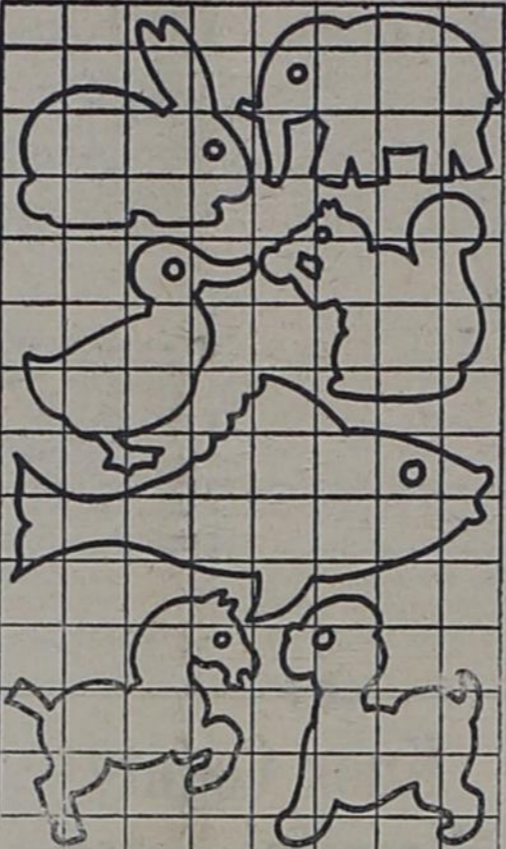

"Are all those men 'stupid and dangerous?' Since that was written, we have had an election, in which the present administration took a harsh setback from the voters, and in which a lot of men who favored government medicine and the rest of the welfare schemes were returned to private life. So the electorate must be "stupid and dangerous" too.

Come to think of it, who is really "stupid and dangerous"—those who believe in individual freedom, independence and self-reliance—or those who want to give the government life and death power over everyone and everything."

Pull-Toys for Baby

TO MAKE cutout pull-toys of these animals for the baby, outline each figure on a piece of paper having one-inch squares. Then the figure will be four times the size shown. Trace the outline through carbon paper on a piece of

Masonite 3/8-inch tempered Preswood. Then cut out the figure with a jig or scroll saw. Bevel the edges with a file or sandpaper. These toys are splinter-proof. Paint them in bright colors. On a 1 by 4-inch board cut a groove for the cutout, or mount it on metal moulding. Sand or file the edges of the board and attach a piece of cord. Cutouts may be exchanged, or a series may be made for a "parade."

Out in Coleman County stands Santa Anna mountain, with the busy little town of Santa Anna at its base.

The landmark towers above the surrounding country and, because of the great distance at which it can be seen, the mountain served as a guide to wagon trains hauling supplies to the frontier, to parties of gold-seekers, California bound, and to travelers in general.

From the summit, a view of many miles in all directions can be obtained and, in the days when the savages ruled that section, the top of the mountain served as a lookout for Indians and, later, for the Texas Rangers, on a scout for redskins and lawless whites.

"The FARMALL House"

mountain. There is a cave, and treasure is supposed to have been buried there.

The most romantic of the stories is that of an Indian maiden and her lover. A tribe was encamped on the mountain and a sentinel watched constantly for covered wagons, which could be attacked, the occupants slain and their possessions taken.

One day, a wagon-train was seen approaching and the brave young chief, preparing to lead his warriors into action, embraced his sweetheart, the beautiful daughter of the old chief. In the maiden's heart there was a secret fear and she urged him not to go. But he only laughed as he pointed to the few defenders of the wagon-train, three or four men on horseback, and told he would soon return with much treasure and a special gift as a token of his love for her. Then springing on to the back of his pony, he gave the signal and the war party dashed away.

From the mountain, the girl watched as the drama swiftly unfolded below. She saw the braves burst from the mesquite with blood-chilling yells, and the

attack began. But there came puffs of smoke from each wagon and the red men were driven back, leaving several dead. It had been a trap, for behind the canvas covering of the wagons there had been concealed 20 Texas Rangers. The maiden looked at the broken force of warriors as they drew near, but the face of her beloved was not among them and she knew that he had been killed in battle.

Broken-hearted, the Indian girl leaped from the highest point of the mountain; and her body and the body of her sweetheart were buried at the foot of the cliff. And the stern old mountain stands eternal watch above their graves.

Such is one of the legends of Santa Anna Mountain.

Texas Venture
In Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

BOB KARPEN

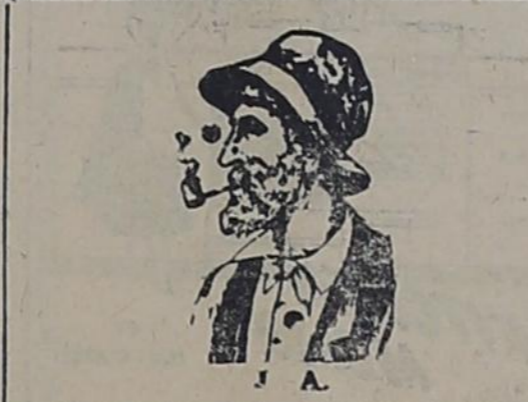

Less than a generation ago grain sorghum was a tall spindling chicken-feed crop, grown on a few Texas farms. Today it is the state's second money crop, valued at \$166,000,000 a year. A \$24,000,000 plant for processing this one crop has been built at Corpus Christi. This amazing development is the result of research by plant scientists of the Texas Agricultural Experiment Station of the A. and M. System, under the leadership of R. E. (Bob) Karper, A. and M. agronomist at Lubbock. By juggling the genes within the grain sorghum seed, Karper and others have been able to pull it down to a thrifty low-growing plant with big heads at uniform height throughout the field. This made it possible to harvest the grain mechanically, completely revolutionizing the agriculture of the Texas plains area. The present day combine-type grain sorghum is being further developed for a variety of uses and is increasing rapidly in value to Texas farmers, as a result of the work of this Pennsylvania farm boy who has been engaged in agricultural research on the Texas plains since 1915.

Knox Prairie Philosopher Has News For The Economists; Country Will Never Get Out of Debt Again!

The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek is talking about debts this week, a topic he ought to be an authority on, as he probably still has the same ones he started out with.

Dear editor:
I know with Christmas comin and everybody needin money to buy presents with it's no time to be talkin about debts, but I was out here the other day right after the norther struck,

wonderin if I should throw out some hay for my Jersey steers now or wait for even worse wather, I learned long ago the weather doesn't follow a pattern, northers are like tax collectors, they always come at the wrong time and ain't never welcome, and unless a man wants to work his head off all summer and fall he won't have enough hay to throw out every time the weather turns cold and has to use careful judgment in decidin whether one norther will be worse than the next and ration his hay accordingly or else he'll run out of feed long before winter runs out of northers, in which case men have been known to run out of cattle as a resule, and while I was decidin I pulled out a newspaper from a hole in the window to the tool shed, my ax and claw hammer ain't likely to freeze anyway and who'd care if they did, and took it in the house and read a long statement by a man in Washington sayin this country hasn't got any future unless it gets out of debt. Now I recognize that the national debt is pretty big, couldn't even write is if I knew what it was, and I know it's gettin bigger all the time, but from what I can find out some of the most prosperous folks in this county has been in debt all their lives and claim it's the only way they can get ahead. Gettin out of debt may be all

'51 Chevrolets Go On Display Here Saturday

DETROIT—New 1951 Chevrolet passenger cars and trucks will go on display simultaneously at 7,690 dealerships on Saturday, December 9.

Announcement of the showings by W. E. Fish, general sales manager of the company, was coupled with an estimate that more than 10,000,000 people will inspect the latest series during the introductory period.

"Reports from the field indicate one of the most successful showings in our history," said Fish. "Not only have we found widespread interest in the new model features, but dealers are working on elaborate programs in connection with the event. In many centers the showings will take on all of the aspects of a civic celebration."

"For the Chevrolet retail or-

right, but look what this country was like before it got in debt. No railroads, no telephones, no steam heat, no air conditioning, no automobiles, no radios, no running water, no safety razors, no laundry soap, no picture shows, no refrigerators, no comic books. Had plenty of Indians though and pneumonia and hog lard on bread for dessert when the acorn crop was good. Them was the debt-free days.

As I see it, this country is likely to be in debt from now on, due to human nature. I ain't never seen many folks who wouldn't swap a road full of mud holes for a debt any time. It may be true that not many cars on the highways today is completely paid for, but ridin in a car with a debt sure beats ridin a paid-up mule bareback.

Yours faithfully,
J. A.

ganization the presentation of the 1951 series will come as a climax to its greatest year. Sales during 1950 will establish a new record and once again will top all competition by a substantial margin."

Methodist W.S.C.S. Has Its Regular Meeting Monday

The W. S. C. S. of the Methodist Church met in a regular social and business meeting Monday at 4 p. m. in the home of Mrs. M. F. Billingsly with Mrs. R. D. Atkelson as co-hostess.

In the living and dining rooms the beautiful Christmas decorations heralded the coming holidays.

Mrs. Atkelson greeted the guests at the door, while Mrs. Billingsly greeted them from the organ with Christmas carols, ending in a group singing of the carols.

Mrs. J. C. Rice, as leader, introduced Mrs. Fred Broach, Jr., as guest speaker. Mrs. Broach reviewed the hauntingly lovely story of "The Little Mixer" by Lillian Nicholson Shearon.

One of the miracles of life is that can be changed, and this fitting story of human relationship in the three children of Catholic, Protestant and Jewish faiths was so beautifully portrayed that the message of Christian love is, "A Little Child Shall Lead Them".

The hushed silence, and tear-filled eyes were evidence of a deep understanding and appreciation.

Following the review, a brief time was given over to a business meeting. Tea, sandwiches, cookies and nuts were served from a lace covered table with the Christmas decorations.

Members present: Miss Shelly Lee, Mmes. P. V. Williams, R. L. Butler, S. E. McStay, W. R. Moore, R. L. Ratliff, J. C. Borden, H. A. Pendleton, Oates Gol-

Sorority Holds "Old Tyme" Dinner Here Recently

Members of Beta Chi Chapter of Delta Kappa Gamma, a three-county sorority of teachers of Haskell, Knox and Stone wall counties, were guests of the Knox County members for a meeting in Munday.

Held in the followship room of the Munday First Baptist Church, the meeting was an "Old Tyme" dinner, and the silver and decorations were typical of that used in the "days of grandmother." Mrs. B. B. Campbell of Knox City, dressed typically for that era was one of the hosts.

Following a brief business session which was presided over by Mrs. Mabel Derr of Weinert, association president, a program was directed by Mrs. Bert Mullen of Aspermont.

Included on the program was organ music by Mrs. Iva Palmer, Haskell County school superintendent; a discussion of household comforts of former years by the program chairman, a discussion of grandmother's cooking by Mrs. Eileen Wilson of Knox City, and piano music by Mrs. Ramon Liles of Weinert.

Attending were Mrs. Irene

den, Bruce Burnett, T. C. Merrill, Irick, G. R. Elland, W. P. Farrington, D. E. Holden, S. A. Bowden, J. S. Shannon, Gill Wyatt, E. E. Lowe, J. A. Caughron, J. C. Rice, J. D. Crockett, R. D. Atkelson, M. F. Billingsly, W. A. Baker, and guests were Mmes. Joseph Borden, Roy Maples, and Fred Broach, Jr.

Baptist Y. W. A. Names Officers For New Year

The Baptist Y. W. A. met December 4 at 4:00 o'clock in the home of Patsy Morrow. This being the first meeting since the organization disbanded several months ago, officers were elected as follows:

President, Sammie Smith; vice-president, Helen Ford; secretary-treasurer, Jay Lemley; publicity chairman, Shirley Yost; program chairman, Patsy Morrow; social chairman, Norma Smith; pianist, Shirley Yost; choirster, Ina Jones, and community missions chairman, Imagine Hill.

After the officers were elected refreshments were served.

Ballard, Mrs. Lucretia Brooks. Mrs. Louise Green, Mrs. Palmer. Mrs. Reynolds Wilson, and Madeline Hunt of Haskell; Mrs. Derr, Mrs. Damon Liles, Mrs. Fred Monke and Julia Williams of Weinert; Mrs. Ina Cowan, Goores; Mrs. Stella Mae Trice and Mrs. Mattie Letha Williams of Rule; Mrs. Marjorie Quade of Sagerton;

Mrs. Maurice Blacklock, Elizabeth Bowden, Mrs. W. C. Cox, and Mrs. Herbert Partridge of Munday; Mrs. Campbell, Mrs. E. F. Branton, Mrs. Maxine Cape, Mrs. E. R. Carpenter, Mrs. Otis Cash, Evelyn Hollis, and Mrs. C. W. Splawn of Knox City; Mrs. Ruby Melton, Benjamin; Mrs. Vera Bell, Mrs. Cecil Klump, and Mrs. J. B. Pumphrey, of Old Glory; Mrs. Mullen, Mrs. Thelma Smith, Mrs. Marie Ward, and Mrs. Afton Martin, Aspermont; and Mrs. W. M. Taylor of Goree.

Texas Boy Gets Award For Soil Saving

CHICAGO—As a reward for his constructive efforts in soil saving, 16-year-old Page Morgan has been named the top Texas state winner in the 1950 National 4-H Club Soil and Water Conservation awards program.

Page's state award is a gold watch engraved with his name, provided by The Firestone Tire & Rubber Company. The program is conducted by the Extension Service of the State Agricultural College with USDA co-operating.

On his father's 370-acre farm

FOR a more pleasing blend of flavor combine two kinds of meat when making meat loaf. Veal and ham complement each other in Mushroom Veal Loaf and it will not be hard or crumbly if you follow these proportions. Combine 2½ lbs. ground veal, ¼ lb. ground ham, 1 cup soft bread crumbs, 1 cup chopped mushrooms, 1 minced green pepper, ¼ cup horseradish, ¼ cup ketchup, 1 tsp. Worcestershire sauce, 1 well-beaten egg. Mix well and shape into loaf. Arrange 4 slices bacon in pan, place meat loaf over them and top with 2 slices bacon. Bake in moderately heated gas oven at 375° F. about 1½ hrs. Yield 6 portions. Serve with sour cream sauce if you like.

Chill candles in your gas refrigerator for several days before using so they'll burn more slowly.

Griddles on some automatic gas ranges are equipped with heat indicators—important to those cooks who use varied temperatures for top burner griddle cookery.

Crumble a few crisp slices of bacon into pancake batter and use bacon drippings instead of shortening for added flavor.

Three loads of laundry washed and rinsed in an automatic washer use up to 60 gals. of hot water. And you'll still have a whole tankful of hot water in your automatic gas water heater because gas heats water so quickly.

Gas room heaters can be put into recessed wall space or under windows to increase floor space and make furniture arrangement simpler.

Sandwich filling for lunch boxes: mix lightly ½ cup peanut butter, ½ cup grated crushed pineapple.

ATTENTION!
EFFECTIVE MONDAY,
DECEMBER 11
Due to the high prices in all materials, it is necessary to raise laundry prices also. They will be as follows:

- Helpy-self 60c hr.

Howard Laundry

W. M. U. Members Of Goree Hold All-Day Meeting

The Women's Missionary Union of the Goree Baptist Church held an all-day meeting at the church on Monday, December 4, meeting at 10 a. m. to observe the week of prayer program for foreign missionaries. Mrs. Sam Hampton was leader of the program.

Those taking part on the program were Mmes. S. E. Stevenson, George Weber, Katie Glasgow, W. F. McCauley, W. B. Temple, J. T. Lawson, Homer Howard, J. B. Justice, Ewen Beaty, R. C. Spinks, S. Polson, and Misses Bernice Goode and Nina Vandiver.

A business session was held during the noon hour by the president, Mrs. E. B. Temple, in the home of Mrs. Katie Glasgow, where the covered dish luncheon was served.

Munday H. D. Club Meets Wednesday With Mrs. Weeks

The Munday Home Demonstration Club met in the home of Mrs. Ralph Weeks Wednesday afternoon, November 29.

After the regular business session, Mrs. Gollehon gave a report of the last council meeting and announced that the annual county Christmas party would be December 18, in the assembly room in Benjamin.

The Munday Club Christmas party will be in the home of Mrs. Joe Patterson December 15 at 2:30 p. m.

Each member will bring three gifts, one to exchange with another club member, one for the aged people's home at Vernon and another gift for the inmates in State hospital in Wichita Falls.

Seven members were present and enjoyed cherry pie a la mode and coffee.

J. C. Harpham was a business visitor in Dallas the first of this week.

in Wichita County, Iowa Park, Texas, Page had been engaged in soil conservation practices for the past two years.

With his father engaged in business, Page decided to revitalize the farm and become a rancher. He studied over 100 kinds of grasses with about 30 legumes, forbs and shrubs.

He followed his studies with reseeded and building range land and by rotating his grazing schedule. Irrigation ditches were repaired and put into operation and all pastures are seeded to fall cover crops.

Page has also been interested in and has promoted wild life conservation on his farm and he has provided cover and shelter for small game.

ENGAGEMENT ANNOUNCED

Mr. and Mrs. John Michels of Munday announce the engagement of their daughter, Miss Mildred Elizabeth Michels, to Aviation Cadet Robert Anthony Vadney, son of Mr. and Mrs. William Thomas Vadney of Albany, New York.

Mr. and Mrs. Joe Duke and Jo Ann and Mr. and Mrs. A. B. Warren visited recently with Mrs. J. W. Medley, who is in the Hendrix Memorial Hospital in Abilene, recovering from a car accident which happened last Friday morning.

Mr. and Mrs. Virgil Yost, Charles and Phyllis, and Mr. C. G. Yost spent the Thanksgiving holidays in Fort Worth visiting with Mr. and Mrs. DeWitt Yost and family. While there they all attended the Shrine Circus.

Kenneth Baker, who is attending A. & M. College, spent the week end here with his parents, Mr. and Mrs. C. P. Baker, and other relatives.

Mrs. Isbell Anderson of Gilmer is visiting in the home of her son and daughter-in-law, Dr. and Mrs. J. M. Croley and son, John.

Be careful. Obey state and local traffic rules.

Mrs. N. S. Plummer, Mr. and Mrs. Bob Nix, Mrs. Nelda Nix and daughter and Mr. and Mrs. Glenn Plummer, all of Seymour, were guests in the home of Mr. and Mrs. J. B. Scott last Sunday.

Mr. J. E. Tomlinson entered the Knox County Hospital last Thursday evening for treatment. It is reported that he is recovering nicely.

Mr. and Mrs. Paul Pruitt and sons, John and Bruce, attended the S. M. U. and T. C. U. football game in Dallas last Saturday.

Mrs. W. M. Parks of Breckenridge, is visiting in the homes of her son, Mr. and Mrs. L. A. Parks, and daughter, Mr. and Mrs. W. M. Rister, this week.

Goree News Items

Rev. S. Y. Allgood, pastor of the Methodist Church, left last Sunday after the morning services to go to Phillips, Texas, where he was a former pastor, to preach at the evening hour in a homecoming service.

Mrs. Neva Kennedy of Lubbock, Floyd Coffman, of Littlefield, and Dr. James Renegar of Levelland, visited W. W. Coffman last Monday. Mr. Coffman, who had been quite ill for several days, is reported much better, but may have to remain in bed a while longer.

Mr. and Mrs. Beverly King, Jr., and Kelly Burt of Graham and Edward Stalcup of Lubbock visited their parents, Mr. and Mrs. Ira Stalcup, during the week end.

Douglas Moore, who is attending school in Abilene spent the week end with his parents, Mr. and Mrs. Johnnie Moore.

Dr. E. F. Heard left Thursday November 30, for Dallas where he is receiving medical treatment in the Baylor Hospital. Mrs. Heard is with him. She and a niece, Mrs. Gladys Sharp of Dalls, returned to attend the funeral of R. Temple Dickson, son-in-law of the Heards, who died with a heart attack Saturday. He was buried in Sweetwater on Sunday.

Mrs. Elizabeth Cowsar was called to Sulphur Springs last Saturday to attend the funeral of a nephew.

Mr. and Mrs. Charles Knepfely and George Crouch, Jr., of San Antonio, visited their parents, Mr. and Mrs. George Crouch, during the week end.

Braxton E. Jones of Slaton visited his mother, Mrs. E. J. Jones Friday and Saturday. Phillip Jones, who is recuperating from a recent illness returned home with his brother for a while.

Mr. and Mrs. Orb Coffman attended the funeral of R. T. Dickson in Sweetwater Sunday.

Mrs. Mamie Fitzgerald and son, Denzil, went to Lubbock Saturday to visit Norris Fitzgerald, who was to undergo surgery this week. Mrs. Fitzgerald remained in Lubbock with her son.

Mrs. Hoyt Davis and children of Olney visited her parents, Mr. and Mrs. W. J. Tidwell, last Saturday.

Mr. and Mrs. Billie Moore left Tuesday for College Station to visit their daughter, Mrs. Douglas Cunningham.

Joey Coffman and friends, Paul Erwin of Odessa, Kelly Regland of Levelland, and Bob Pyle of Borger, who are all Texas Tech students, attended the Tech and Hardin-Simmons University football game Saturday and spent Saturday night and Sunday with Joey's parents, Mr. and Mrs. Walter Coffman.

Mr. R. Caldwell is suffering from a case of "shingles" this week and he says they can certainly be aggravating.

Billie Joe Roberts of Fort Worth spent the week end with his parents, Mr. and Mrs. Cannon Roberts.

Mr. and Mrs. R. C. Spinks had a pleasant surprise Sunday morning when they returned from church. Their children, Mr. and Mrs. R. P. Rogers of Abilene, Mr. and Mrs. Lee Feemster, and son, Vera; Mr. and Mrs. Lee Wayne Feemster, of Stamford, and Tec. Sgt. R. C. Spinks, Jr., and wife of Kelly Field, San Antonio, were there and had brought the birthday dinner in honor of their father's birthday.

Miss Burniece Goode, Mmes. W. M. Taylor, T. S. Hollis, S. G. Hampton, H. D. Arnold, and Barton Carl attended a book review by Evelyn Oppenheimer of Dallas who reviewed "Pathway to the Stars" Saturday, 3 p. m., December 2, at the Methodist Church in Knox City, sponsored by the Knox City study clubs.

Mr. and Mrs. R. C. Spinks were Seymour visitors recently. Bobby Fitzgerald of Abilene spent the week end with his parents, Mr. and Mrs. Bob Fitzgerald.

Mr. and Mrs. J. C. Shockey and daughter visited relatives in Mineral Wells last week. From there they went on to Austin to attend the Texas-A&M football game on Thursday.

Mr. and Mrs. J. C. Campbell and Miss Dolores Campbell visited Rev. and Mrs. W. S. Campbell in Spur Sunday.

Texas livestock producers are One of the heaviest expenditures in the clothing budget goes for hosiery. The reason may be due to the fact that not enough attention is given by the buyer to the size and kind of hosiery bought nor to proper care in handling.

IT PAYS TO ADVERTISE

King's Ranch Bluestem Grass Stands Drought

King Ranch bluestem grass stands droughty conditions well because it is a deep rooted plant. This is the condition arrived at by Felix Meier of Gillespie County.

C. A. Stone, county agent of Gillespie County, reports that Meier planted K. R. bluestem on his ranch three years ago. He scattered the seed by hand on open ground, along diversion terraces, and down in draws. A few of the seed sprouted and the plants made seed the following summer.

In September of this year, lost of small seedlings could be found in the seeded areas, and several of the old plants were in full seed. Meier says he also found that K. R. bluestem produces seed three times a year.

Many of the plants on Meier's ranch prouced their seed with

the seed stalk flat on the ground because cattle, deer and sheep kept nibbling on the green foliage all during the spring and summer. A. H. Walker, range specialist for the Texas A. & M. Extension Service, says that this is characteristic of K. R. bluestem. It will produce seed under very heavy grazing conditions.

However, Walker points out that K. R. bluestem, like all grasses, does better when it is not continually and closely grazed.

The important thing to remember about building farm fences is to build a good one. The use of posts treated with a preservative, well-braced corner posts and the use of quality fencing plus a good construction job will add years to the life of the fence.

Failure to provide farm livestock and poultry with the protection and feed they need during the winter months, may mean the difference between a profit or loss for the producer.

Price, size and quality are three important items for consumers to consider when selecting their Thanksgiving turkeys.

Pleasant surroundings in the laundry area and the arrangement and storage of supplies are important in making the laundering job easier.

THE VOLUNTARY WAY IS THE AMERICAN WAY

Secretary Asks More Savings

By JOHN W. SNYDER
Secretary of the Navy

Once more an enlarged program of savings must be developed if we are to avoid inflationary pressures. Once more the individual citizens of the Nation are called upon to work together in promoting the well-being of the Nation during a critical period. We can build confidently on the knowledge that the Savings Bond program has brought a familiarity with investment in Federal securities to many millions of our citizens. During the postwar period the Savings Bond program has provided an impressive demonstration to people throughout the Nation of the advantages of saving while goods are scarce in order to conserve funds for use when goods once more are in full supply. I am confident that there is today a greater awareness than ever before that every dollar we save now will help hold prices down and will at the same time help every family provide for the future.

To promote these important goals the Treasury Department has launched an intensive campaign aimed particularly at greatly increased participation in the Payroll Savings Plan. Our initial aim is a 50 percent participation goal through a person-to-person canvass in every major industrial plant and factory. It is particularly important to arouse the Nation to the need of thrift and for careful planning of family expenditures in view of the fact that very large defense outlays are in

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—"Health examinations won't prevent old age, but many tens of thousands of persons, whose records of these examinations have been studied, have not only been helped to live longer, but also sturdier and healthier, and enjoy more comfort and happiness by following the advice of the physicians who have made such examinations," declared Dr. Geo. W. Cox, State Health Officer.

Once the individual leaves school, he assumes the responsibility not only for his choice of work and method of living, but also for his continued good health. But he often fails to apply the available methods of preventing disease and prolonging life. Hardly a day passes in which our attention is not called to the untimely death of some prominent person or acquaintance, which may be attributed to a preventable disease. So something should be done in the way of educating the adult group of the population, so they will voluntarily carry out those measures which prolong life and maintain good health.

It is our firm belief that is the diseases of the gastrointestinal tract, which includes the lips, tongue, teeth, mouth, stomach and bowels, are recognized in their early stage, their progress may be curtailed, adequate treatment advised, and many deaths might be prevented.

Today the medical profession realizes that many childhood diseases are now under control and that our present problem must center about the adult, encouraging periodic check-ups. In semi-annual consultation with your physician too great a premium to pay for many years of additional life, freedom and suffering and consequently short periods of hospitalization?

Short Course Set December 7 and 8

Texas dairymen who are interested in helping build up the dairy industry in the state, will find it profitable to attend the annual Dairymen's Short Course scheduled for December 7 and 8 at College Station.

All meetings in connection with the short course will be held in the new Memorial Student Center building. The dairy husbandry department of the Texas A. & M. College System is sponsoring the short course.

R. E. Bureson, associate extension dairy husbandman, says the subjects listed for discussion on the program are all of practical value to the dairyman. They include such topics as "How Much Dividends Did Each Cow Pay You On Her Feed Last Year"; "The Value of Parasite Control in Dairy Cattle"; "A Milking Procedure and a Mastitis Control Program"; "Forage Production Program for the Dairy Herd"; "Roughage or the Principal Meal for the Dairy Cow"; "Concentrates or the Dessert for the Dairy Herd"; "Raising versus Purchasing Dairy Herd Replacements"; "What Kind of a Dairy Herd Will You Have Tomorrow?"; "Outlook for Dairying"; "Inter-Relationship of Producers, Plant, Health, and Weights and Measures Departments"; "Problems Raised by the Growth of Dairying in the Past Ten Years and Their Influence on Our Present Operations"; and "Will the Jun-

FARM PROGRAM NEWS

From the County PMA Committee

PRICE SUPPORT SET AT 90 PERCENT OF PARITY FOR 1951 COTTON CROP

Secretary of Agriculture Charles F. Brannan last week announced that the Commodity Credit Corporation will support the price of 1951 crop upland cotton at 90 percent of the parity price as of August 1, 1951.

The price support will be carried out through loans to farmers. With no marketing quotas or acreage allotments in effect for the 1951 cotton crop, price supports will obviously not be dependent upon producer compliance with quotas or allotments. The Agricultural Act of 1949 makes price support mandatory for 1951 crop cotton at from 75 to 90 percent of parity, when no allotments and quotas are in effect. The Secretary has put the support price for 1951 at 90 percent, the maximum of the permissive range.

Commenting on the price support announcement, Secretary Brannan said, "With our supply relatively short in relation to the very high domestic and foreign demand for cotton, it is advisable to put the price support level for next year at the top of the permissive range, 90 percent of parity. This is in line with the supply demand and other factor which are spelled out as guides in the controlling legis-

for Dairymen of Texas Follow You in the Industry?"

Bureson points out that these are subjects of vital importance to the dairymen of Texas and each will be handled by a capable speaker. Those attending the short course will have an opportunity to make their contributions to the subjects up for discussion. From these discussions, says Bureson, have come many ideas that have been helpful to other dairymen.

Professor A. L. Darnell, dairy department of Texas A. & M. is general chairman for the short course. Additional information on the program or other details regarding the meeting may be obtained by writing to him at College Station, Texas.

lation. "We are announcing the decision at this time so that cotton farmers will be in better position to make advance plans for next year's production. As previously announced, we need a crop of at least 16 million bales next year to take care of domestic and foreign demand and to avoid depleting our reserves. The fact that no marketing quotas or acreage allotments will be in effect next year, and the early announcement of the price support level, will help insure this production."

EROSION UNDERMINES CITIES

That muddy water going down the river is carrying away the life blood of our cities as well as the strength of the land, says J. C. McGee, chairman of the Knox County PMA Committee.

He points out that all the people in the city largely depend on the land for food as well as many other living essentials. And the people in the city depend on what the farmer produces in excess of what he needs for himself and family. The PMA chairman points out that because farmers have been assisted in carrying out conservation practices because they had some price protection they have been able to adopt better way of farming that have brought increased production. This has made it possible for less than 20 percent of the population to pro-

duce enough from the land to enable the other 80 percent to carry on other enterprises.

About 150 years ago, according to the chairman, some 70 percent of all the people in the country lived on the land. In some countries it takes as high as 80 percent of the population to provide the comparatively meager supplies for themselves and for the 20 percent living in cities and towns.

As the chairman sees it, the position of the U. S. creates a great responsibility for the farmer and the Nation. Every acre destroyed by erosion or depletion cuts just that much into the production which goes to feed the cities since the farmer must take out his living first. "The gully that cuts across a good piece of farming land undermines the foundation of the city as well as of the farm."

"As population increases, the amount that each acre produces will have to be increased to maintain present standards. The land that has been ruined by erosion places just that much more of the burden on the remaining productive acres."

"In helping to make effective conservation possible, people in the cities are protecting their own interest as well as the interests of the people from farms who will be in cities in the years to come."

Visits Made To View Mesquite Control Tests

Visits were made recently to 16 of the 26 ranches in Texas which field tests for controlling mesquite are being conducted. The off-station tests are being carried on by the ranchers under the direction of C. E. Fisher, superintendent of the Spur Experiment Station, and Dale V. Young, assistant agronomist with the Bureau of Plant Industry, and with the assistance of local county agents and P. M. A.

The group making the tour, which was led by Fisher, included representatives of the Production and Marketing Administration, the Agricultural Experiment Station, the Extension Service, chemical research men and airplane operators.

From observations made on the tour, the ester of 2,4,5-T appears to be the best chemical for the control of mesquite. Three-fourths pounds acid of 2,4,5-T in three gallons of water and one gallon of diesel oil gave the most consistent and promising results in all the tests studied. Included were sprouts, seedlings and small and large trees.

Mesquite on the ranches visited was sprayed by airplane during the spring of 1950. A. H. Walker, range specialist for the Texas A. & M. Extension Service and one of the group making the tour says that, although it is too soon to determine the final results of the spraying, the work definitely looks promising.

Walker reminds ranchmen that the present goal of this experimental work is to find a practical method of mesquite control, rather than mesquite eradication. A mesquite kill of 100 percent is not expected.

The immediate objective is to find a low cost method of control which stockmen can afford. For the method to be practical, the increased carrying capacity of the grazing land plus the ease of handling livestock must pay the cost of applying the control. Application costs for the ester of 2,4,5-T runs about \$3.50 per acre for both material and flying.

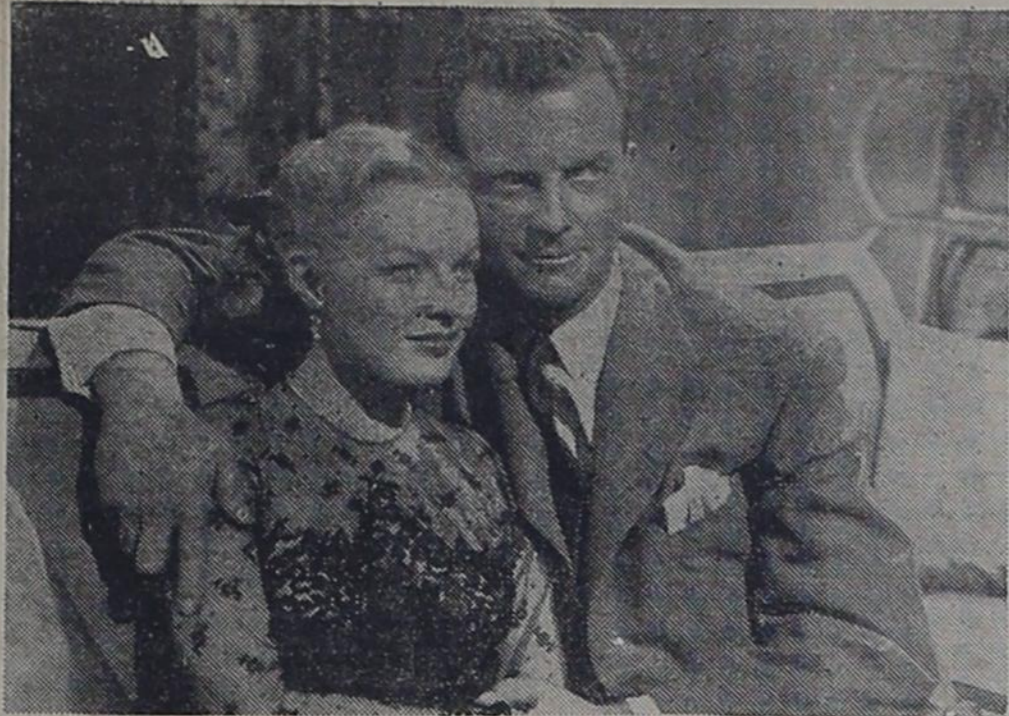

Spraying with an airplane is the best method of applying the chemical mixture for controlling mesquite when there is no danger of damaging field crops. However, Fisher and Young caution that airplane operators should be experienced in brush control spraying and airplanes should be properly equipped. Apparently the coarser the droplet size of the chemical, the better the results will be. To be most effective, the chemical should be applied at tree-top height.

Mesquite spraying gives the best results when the chemical is applied in the spring at full leaf stage, which will be six to eight weeks after the first leaves appear. If ground moisture conditions are not favorable, the control results will probably be disappointing, apparently because the chemical is not translocated properly so as to kill the roots. Fisher and Young suggest waiting another year if conditions are not favorable.

They warn against the danger of using 2,4,5-T in areas where susceptible crops are grown. This compound has been known to drift as far as eight miles in a high wind. Small droplets are carried easily in the wind, and applications made 20 to 30 feet above the tree-tops add to the drift danger. Although 2,4,5-T does wonders when properly applied, Walker reminds stockmen that carelessness in applying may result in lawsuits and possibly outlawing of the chemical.

Grass will not kill mesquite, but giving grass a chance to seed out on sprayed areas will materially reduce the number of sprouts and seedlings. If an operator can not rest the pasture the growing season following spraying, Walker advises to at least stock it lightly. Proper range management following mesquite spraying may double the length of time that the treatment is effective. This may be the difference between profit

June Haver and William Lundigan in a scene from the technicolor musical "I'll Get By."

and loss on the operation.

He emphasizes that the work on chemical control of mesquite is still in the experimental stage. Results of the work are not conclusive enough for making overall recommendations, and the range specialists can go no

further at the present time than to make suggestions.

Walker mentions the fact that control tests on other species of brush are also in progress, but they have not reached the advanced stage of mesquite research.

Santa To Visit Haskell Dec. 8

Haskell's annual Christmas Party this year which is to be held on Friday afternoon, December 8, will have a special appeal to the kiddies and grown-ups alike as Santa Claus on his sleigh drawn by four reindeers.

When Santa comes to Haskell he will ride in state behind Donner and Blitzen, Dancer and Prancer, four of his reindeers that come direct from Alaska. It will be the first opportunity for all in this area to see real, live reindeer, and his arrival has been timed for 4:30 p. m. which will allow all children of the area the opportunity to visit him. He will remain here for two hours.

Sponsors of the program are Haskell merchants and service clubs, and for the occasion, multi-colored steamers of lights will be installed along with evergreen firs placed throughout the business section that will lend a Yuletide spirit to your visit here on this occasion.

In addition, a band concert by

NEW 1951 Chevrolet

AMERICA'S LARGEST AND FINEST LOW-PRICED CAR

See it **SATURDAY!**

The Smart New Styleline De Luxe 4-Door Sedan

-  **NEW!** Longer, lower, wider big-car look!
-  **NEW!** Strikingly smarter Fisher Body styling!
-  **NEW!** Luxurious Modern-Mode interiors!
-  **NEW!** Jumbo-Drum brakes—largest in field!
-  **NEW!** Glore-Proof Safety-Sight instrument panell
-  **NEW!** Improved, easier Center-Point steering!

Refreshingly new IN ALL THE THINGS YOU WANT!

New outside! New inside! Refreshingly new in feature after feature! That's Chevrolet for 1951—the greatest value the leader has ever offered!

It's America's largest and finest low-priced car—looking even longer, lower and wider than its famed predecessor—thanks to distinctive new styling with entirely new front and rear-end design and new America-Preferred Bodies by Fisher of surpassing beauty.

With all these new things, it brings you the proved things, which cause more people to buy Chevrolets than any other car, year after year.

It brings you extra-sturdy, extra-rugged, extra-durable Chevrolet construction; it brings you that more thrilling and thrifty Valve-in-Head engine performance for which Chevrolet is world-famous; it brings you comfort feature after comfort feature and safety feature after safety feature found only in Chevrolet and higher-priced cars.

Come in; make a thorough inspection of this most beautifully balanced motor car the leader has ever built; and you'll agree it's America's largest and finest low-priced car!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

Automatic Transmission
—proved by over a billion miles of performance in the hands of hundreds of thousands of owners.
Optional on De Luxe models at extra cost.

Game Management Program Expanded

The Executive Secretary of the Game, Fish and Oyster Commission announced plans for in-

tensified game management studies on four widely separated areas recently purchased by the Commission. Areas were selected in various parts of the state because game management practices suitable in one type of

habitat are not always adaptable for another.

Seventy-five percent of the funds used to acquire these areas were made available to the State by the Federal government from excise taxes on sporting arms and ammunition. The remaining twenty-five percent of the cost came from the Texas Commission's special game fund.

These areas have been urgently needed by the Commission as field laboratories or wildlife experiment stations, the Executive Secretary said. In the past all wildlife studies had been conducted on privately operated land. Changes in the agricultural practices and frequent changes in ownership often destroyed the work of game technicians before the problems under study could be completed.

A major objective of these areas will be to determine how maximum numbers of game animals can be worked into present day land use without reducing the economic returns from the land. Practical methods of game improvement which can be applied in similar ranges under private management will be developed. According to the Executive Secretary these areas will also provide refuges to insure the preservation of certain game species.

"Here's the tire I want!"

GOODYEAR SUPER-SURE-GRIP TRACTOR TIRE

First choice for 2 reasons!

1. Deeper soil penetration — greater pull. Goodyear's open center tread has straight deep-biting lugs. They cut cleanly into the soil, penetrate full depth, full length. Straight bars closer together at the shoulders wedge the soil for firmer grip — don't "plow out" soil at the sides.
2. Balanced straight lug tread design — longer wear. Goodyear open center lugs are all straight, all equal in size and spacing. That's why every lug works equally, pulls fully, wears more evenly.

Goodyear Super-Sure-Grips don't cost a penny more. Get them for your tractor.

Car Prices In Line With Cattle Prices

Do you think you are really paying more for a new automobile today than you did ten years ago?

Returning from a series of dealer meetings in the west, David A. Wallace, president of the Chrysler Division of Chrysler Corporation, brought back striking evidence that a new car today costs less than half its 1940 price in terms of real wealth out of the cattle country. Buying a 1950 Chrysler after driving has herded to market, one Westerner found that it took the proceeds from the sale of nine head of cattle to pay for his new car. When he bought his previous Chrysler back in 1940, the cattleman reports that it took the proceeds from the sale of 24 head of cattle to cover the cost of the car then.

You will probably get a very pleasant surprise, Wallace suggests if you compare the number of 1950 paychecks required to cover the price of your new car today with the number of

your 1940 paychecks that were required to pay for your 1940 model ten years ago.

losing millions of dollars annually because they are not controlling the lice that infest their animals. Only about 30 percent of the cattle in Texas are treated to control these parasites.

The annual Dairymen's Short Course will be held at Texas A. & M. College on December 7 and 8.

Miss Maybelle Yost of the Veterans' Hospital in Dallas visited in the home of her father, Mr. C. G. Yost, over the week end.

Dr. and Mrs. D. C. Eiland were business visitors in Abilene on Monday of this week.

Rev. and Mrs. D. L. Ashley of Cherokee, Oklahoma, visited friends here over the week end.

Texas 4-H'ers Honored for Best Achievement Record

STATE-WIDE recognition has been accorded E. P. Wicker, Jr., 19, of Wilson, and Yolanda Ellis, 15, of Plainview. Each will receive an artistic pair of statuettes symbolizing achievement from the National Committee on Boys and Girls Club Work.

E. P. Wicker, Jr. Yolanda Ellis

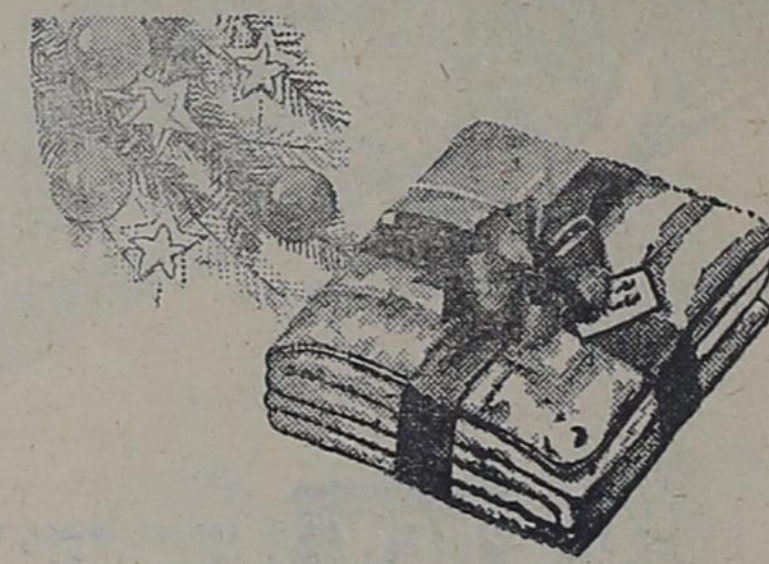

Young Wicker's achievements include completing 35 projects during his nine years in club work. He won a scholarship for outstanding junior showmanship and nine grand champion blue ribbons on livestock demonstrations. He was National Dairy Production Winner in 1949 and received \$300 college scholarship. E. P. has made 61 exhibits, given 26 talks and written 30 stories on 4-H meetings and events. The youth is president of the county council, having served as vice-president five years and junior leader of his local 4-H Club for six.

A diligent worker, Yolanda has completed 25 projects, including clothing, garden, food preparation and home improvement. She has given talks and written stories about community, school and 4-H Club events, and has made 201 exhibits. She has won many noteworthy honors, and more than \$200 in cash prizes. Yolanda serves her local club as junior leader.

All of these activities are conducted under the direction of the Extension Service of the State Agricultural College and USDA cooperating.
