#### PLAN FOR MEDICAL PROGRESS

A very interesting program to improve the ward medical problems that is being taken by the government or the people. thousands of doctors.

hospital beds, particularly in suburban and rural spite of these unadmirable defections. areas; development of group practice, and the development of a plan for helping the indigent.

There are two particularly important phases to this. First of all, it is designed to give the county better medical care than it now has. Secondly, it is designed to do it through voluntary means-not through compulsion by the government. In other words, it is based solidly on the principle that underlies all real progress in this country-free action by free men to get a needed

Dr. Rawl's goal is to make voluntary hospital and medical care insurance available to everyone in the country. The remarkable progress made by the various plans in the field in recent years is proof that it can be done, and without putting a political bureaucracy in a position of sweeping power over the practice of medicine.

#### THE STORE AND THE COMMUNITY

The primary function of a retail store is to provide a place where people may buy their food and clothes and hardware and all the rest of the necessities and luxuries of life. The merchant is purchasing agent for the consumer.

Beyond that, retailing serves a highly imporgreat builders of the community. The stores all of that precipice; it's dangerous. But if you do fall, compete to attract business—but they pull solidly remember to look to the left, you'll get a wonder as adequately, is important in together in matters that affect civic progress and the creation of a better town. This is good business for them-and good business for everyone

### 'Saving' Feed Will Be Costly This Winter

USE OF AMPLE RATIONS FOR CATTLE URGED BY MANY AUTHORITIES

The old saying, "You can't starve a profit into livestock"

has a new slant this winter. Livestock authorities are advocating not only that enough protein and roughage be fed to prevent starvation, but these relatively cheap feeds be used generously enough to carry livestock through the winter in good condi-

"With cattle and other livethe biggest single issue was the Taft-Hartley Act. they do, there is no excuse for more of them."

lack of green feed; and many calves. cows that are now carrying calves may not be in condition to give

Even in Wisconsin, which must ship in protein concentrates from other states at relatively higher costs, dairymen and other stockmen are being urged to feed liberal amounts of relatively cheap

Research, as well as practical Mr. and Mrs. M. L. Barnard feeds during the winter.

When the Woodward, Oklaho- Miss Tiney Montandon spent of cottonseed cake, daily per head. Steers receiving the two pounds of protein concentrate daily gained 40.9 pounds more per head during the winter, and

Feeding early enough, as well livestock during the fall and winter, livestock authorities point out. "Caking" on the range, or the feeding of cottonseed meal on the farm, should start as soon as forage is dry or scarce, and continue until green grazing is am-

Breeding cows that receive ample protein concentrate produce more milk for their calves, with the result that calves are heavier at weaning. The cows also are in

# From where I sit ... by Joe Marsh

#### Yes Sir, Insomnia's Contagious!

When Bud Swanson had trouble sleeping nights, and tried to get over it by turning up the radio full blast, he started an epidemic of insomnia all down the block!

Folks finally dropped a hint to Bud that he close the windows or turn the radio a little lower. Bud did-and that was the quickest cure for other folks' insomnia I've ever heard of!

Not that any of us object to the radio, or swing bands, or anything else that helps another person relax of an evening. (Myself, I like

a glass of beer with a bit of cheese before I go to bed. I can't speak for you.)

From where I sit, good neighborliness means nothing more than simply respecting the other person's tastes and rights - without forcing your own tastes or opinions down his throat. And that goes for Bud's radio, my glass of beer, or whatever temperate pleasure you happen to enjoy.

FOR THE STRENGTH OF THE LAND

Conservation under the Agricultural Conservation Program is more than just keeping land from washing or blowing away, says Month. B. F. Vance, Chairman of the where possible making the land cover. That is why farm planning Even for water conservations more productive. It is a program for sustained production must lay erosion control, proper rotations of restoring, building and improving as well as checking, holding and preserving.

The program is helping farmers maintain and build the fertility and productive capacity of their land as well as to check erosion. The purpose of conservation is to assure the Nation of a sustained, and as necessary an increasing production.

Mr. Vance points out that the most economical way to stop a gully is to farm in such a way that the gully doesn't get started. The relatively high level of living in this country is due in large part to the relatively high ratio of productive soil to population. In many other countries this ratio is too low due to excessive population and loss of arable lands through poor soil management.

Dr. Charles E. Kellogg, Chief of the Division of Soil Survey at the United States Department of Agriculture's Plant Industry Station at Beltsville, Maryland, has expressed this view: "Of course we want a protective cover, but it must be a productive cover. If

#### WHAT WITCH HUNT?

By GEORGE S. BENSON President of Harding College Searcy, Arkansas

"NO COMMUNIST, no matter | er, and the urge to dominate oth-how many votes he should secure | ers that some people have. There in a national election, could, even if he would, become President of the present government. When a Communist heads the government of the United States — and that People like to be free. day will come just as surely as

the sun rises — the government will not be a capitalist government but a Soviet government, and behind this government will stand the Red army to enforce the dictatorship of the prole-tariat."

Please read the above quotation again. Could an American have said that? Or does it sound like a message from Moscow?

Indeed, everything in that statement is un-American. It was written by William Z. Foster, head of the Communist Party in the United States. This statement is reprinted in large type on the back of a pamphlet pre-pared and distributed by a Com-mittee of the U. S. House of Rep-resentatives. This is the Com-mittee that is accused of "witch-hunting."

A Communist NOR IS the Con-Condemnation gress guilty of distributing the

sayings of Communists as propa-ganda for the Soviets. The publi-cation which carries Mr. Foster's sworn statement is very much anti-Communist. The booklet is called: "100 Things You Should Know About Communism in the U.S.A." It is one of a series of five publications "on the Communist conspiracy and its influence in this country as a whole, on religion, on education, on labor and on our government."

By giving Mr. Foster a prominent position on the back cover of this booklet, our Congress hoped to show Americans that native Communists really condemn themselves whenever they open their mouths. In the quotation, there is revealed Communism's greatest appeal: the lust for pow-

is revealed also its greatest weakness, for people everywhere do not like to be dominated by force.

Apologies THE CONGRES-Not Needed SIONAL Committee to which I refer is the Committee on Un-

American Activities. If you have ever listened to the palaver of Communists or the "fellow travelers" (Communist sympathizers), the chances are you have heard this Committee of Congress strongly criticized. Like the committee says, the right answers given in the booklet, by using the facts, must certainly infuriate the Communists. It is true also that many of these right answers will shock the average citizen who has not studied the "ism" closely.

It is not my purpose to apologize for the Committee on Un-American Activities. No apologies are needed. It has done a great service to the American people in a time when light and facts are needed to clear up so much confusion. If the Committee has made minor mistakes in the course of its work, it has at the same time done a glorious job in reselling our people on the American way of life. It has opened the dark secrets of Com-

munist conspirators.

The Communist policy is to break down existing nations any way they can, and in the confusion to seize control. They will promise every kind of "better life," but they have never been known to deliver it. As an American, I am thankful for the work the Committee has done. I say the Committee has done. I say with the Committee: "You know what the United States is like today. If you want it exactly the opposite, you should turn Communist. But before you do, remember you will lose your independence. pendence, your property, and your freedom of mind."
