NUMBER 52

Kracker KrumbC Odd Bits Salvaged At Random

(By Aaron Edgar)

Stark tragedy struck this community during the week end, bringing a pall of sorrow into the homes of many local people.

Tragedy is a thing of horror, whether war-time or peace-time tragedy. We don't give it much thought, as we read of it every day, until it strikes home, as did the Phillips warehouse explosion and fire in Amarillo.

Knox county's beloved young men Surviving her are her husband, side Travis G. Hunter, who passed

MUNDAY'S NEEDS FOR 1948

1. A modern and up-to-date high school building, to care for the present and future educational needs of our children.

2. A waterworks system that meets all requirements of health, sanitation and supply.

3. A street sweeper that will keep our pavement clean enough to be recognized as pavement. 5. Completion of our drainage and paving program, which will probably be accomplished this

PAYING FOR FIRE

Fire insurance companies, which have been operating in the red since 1943, have been granted rate increases on certain types of risks in 15 states The principle properties affected are small manufacturing plants with inadequate fire protections, healthier lives. Diseases which were almost sure In two of the states, homes will also pay a higher killers not so many years ago now offer little danrate.

This is one more inevitable result of our scandalous fire waste. Ever-increasing fire underwriting losses have made it impossible for the companies to make both ends meet. Last year, the industry suffered a loss of 5 per cent. And over a five-year period, its loss has been nearly 4 per cent.

The National Board of Fire Underwriters stated the problem in a sentence when it said, "In the past 12 months fires that were largely preventable and revolution in different part of the world, people destroyed \$703,262,000 worth of irreplaceable prop- everywhere still have to live and carry on the daily erty in the United States." DO IT NEEDLESSLY?

Krause factory equipped One-Way Plows now have Timken disc bearings and self-sharpening, long life discs. Put these modern improvements on your Krause One-Way and

you will enjoy trouble-free dependable service. No tearing down to reroll discs. No tearing down to repair worn-out bearings. Your plow will be ready every day you want it to work.

KRAUSE BEARINGS ARE BEST Krause Timken disc bearings are heavy duty, self aligning, double dust sealed

for rugged service. Krause self-sharpening discs wear three to five times longer than ordinary discs. A hardfacing alloy is scientifically applied to the inside edge of the blade, making it wear resistant and self-sharpening through the abrasive action of the soil. . . . More plowing with less power.

Save yourself hours of work during the plowing season by installing this new Krause equipment.

INTERESTING SHORTS

LABOR BOSSES ENDORSE THE OPPONENT OF . . .

JUDGE JOHN A. RAWLINS

Candidate for Associate Justice

Supreme Court of Texas

★ It is recorded May 9, 1945, in 188 S.W. Reporter 2d series, page 276, that James P. Hart, opponent of Judge Rawlins, was one of the attorneys for the labor unions in their unsuccessful and ill-advised attempt to enjoin the State Officials from enforcing the Texas law regulating labor unions, which was passed with the view of protecting public interest.

* The Appellate Court, in upholding the law forbidding the unions from collecting work permit fees from non-union employees, reorganized the policy expressed by the Legislature in the preamble to the Act: "The right to work is the right to live."

★ Judge John Rawlins is under no obligation to either labor or capital. He is now completing 20 years of service as a State Trial Judge. He is a family man, a World War veteran, and a church worker. He has the endorsement of the Dallas Bar Association and is interested only in administering the law fairly and impartially in the interest of the public at large. He is a graduate of Texas University and Texas Christian University.

Combines Meet Threat of Storm Damage

WICHITA, KAS .- Recent heavy rains, which caused flash floods over wide areas, have seriously threatened the wheat harvest in Kansas, Missouri, Oklahoma and Nebraska. Kansas was hardest hit with estimated damage of \$100,000 here when a tornado dipped to the ground. The self-propelled combine, above, a one-man machine, is a big factor in cutting losses by the rains, because it works faster, thus taking full advantage of breaks in the weather and because it is de taking full advantage of breaks in the weather and because it is designed to skim the ground, thus saving grain which has been beaten down and tangled by storms.

The self-propelled combine, since its mass demonstration in the

Massey-Harris harvest brigade during the critical harvest years of 1944-45, is the rule today wherever wheat is grown. It can harvest 50

I Want To Serve You a

Second Term

If I have failed to see you personally, please take this as a solicitation of your vote in next Saturday's election. Let me serve you a second term as Sheriff.

Let me thank you, too, for your cooperation during my first term of office. If you see fit to re-elect me, I promise another term of honest and sincere service. Your vote next Saturday will be deeply appreciated.

Homer T. Melton

----Candidate For-

Sheriff, Knox County, Texas

It's No Accident

Texas has the best-managed truck and bus service in the nation; Texas is the largest oil-producing state in the union, and the oil industry of our state is a highly efficient and friendly group; the natural gas industry of Texas (including butane) is vitally important to your daily lives, and the way it meets its job is an outstanding achievement. In fact, we Texas people are the envy of all others, in our good fortune.

But there is a reason for it. ALL THREE industries are regulated by our State Railroad Commission, and each is handled so fairly and so ably, that there is no friction and no loss to the citizens of Texas.

This let's all of us say:

-RE-ELECT-

ERNEST O. THOMPSON

As Railroad Commissioner

(Political Adv. paid for by friends of Ernest O. Thompson)

RE-ELECT

to be carried out to the extent of available funds.

The Secretary of Agriculture may require compliance with pro- than 5% per year below partiyWednesday. duction goals and marketing regulations as a condition to price sup-

Beginning January 1, 1950, Mr. Vance explained, the "long-range" farm price-support provisions become effective. These generally provide for a level of support somewhat lower than during war years but higher than was authorized by earlier basis legislation. Price supports for tobacco, however, are directed at 90% of parity when marketing quotas are in effect. Wool is to be supported at 60 to 90% of parity, at what ever legel the Secretary determines is necessary to encourage the annual production of 360 million pounds of shorn wool.

Except when necessary to increase of maintain production in the interest of national security, no support under the long-range program can be higher than 90% of parity or a comparable price. Minimum price supports on basic crops will be determined according to the relationship between total and normal supplies of the commodity, the larger the supply, the lower the minimum level of

The legislation also provides a new method of calculating parity prices beginning January 1950. The general level of parity prices will continue to be based on the 1910-1914 period. However, the relationship among the parity prices

LYNDON JOHNSON GETS THINGS DONE!

As Election Day Draws Near

It becomes increasingly clear that it will be physically impossible for me to personally contact every voter of this district; in spite of my sincere efforts the very size of the district will prevent me from seeing everyone. If the great size of the district, coupled with the rapidly diminishing time, makes it impossible for me to contact you, please accept this as an earnest and sincere bid for your support in my race for State Representative.

In order that I might merit that support I should like for you to know that:

I am 27 years of age, married, and have on child.

I am a student in the School of Law, Texas University where I hope to obtain training that will enable me to better serve you in the field of government.

I am a veteran with 19 months overseas service.

I am a resident of Quanah, Texas.

I solicit your support WITHOUT an array of glittering promises meant to be forgotten the day after the election, but WITH a pledge of honest and IMPARTIAL service rendered to the best of my ability and dedicated ALL of the people of this district AND TO THEM ALONE. This promise I can keep.

If I have had the honor of meeting you, please let me express my appreciation for the gracious manner in which you have received my solicitations. Without an exception you have been friendly, interested, and kind. Meeting you has been a pleasure; representing you would be an honor.

County Judge

I wish to use this medium of communication to thank the citizenry of Knox County for the courtesies and consideration shown me during my campaign for the office of County Judge. I also wish to commend the gentlemanly conduct of my opponent, which had enabled us to keep the campaign on a high level and to submit our candidacies to the voters upon nothing but our respective merits.

Since announcing my candidacy for County Judge, I have been interested in the one race only, not concerning myself with any of the other county races; and, if elected, I will devote my entire time to the affairs of the office of County Judge and strive at all times to advance the interests of Knox County.

(Political Advertisement)

This plan was presented to Abilene—Solution of the Mexi- ernor, calling on all mayors and Thomas L. Sutherland at San Angelo, by Claude Meadows Sr. gelo by Claude Meadows, Sr., include a proclamation by the gov- over movement of the Mexican taken to provide accommodations. It was pointed out that these letters are from the highest official and civic authorities and speak with authority in their promises.

Sutherland has been asked to transmit the letters to the Mexican government in an attempt to have lifted the ban against importation of Mexican workers.

The following points were made n the presentation:

"1. That there are organized activities in every community to liminate racial discrimination.

"2. That there are organized activities to provide necessary temporary and permanent housing, eating and entertainment facilities and many such facilities have already been extended.

"3. That educational and religious advantages are offered without discrimination.

"4. That there is a parity in compensation, and Mexican workers are paid on the same basis as any others for the same type of work, and the wage scale in West Texas is considerably higher than in Mexico.

"On the basis of these pledges, we respectfully request that the Good Neighbor Commission of the State of Texas:

"1. Urge the Governor of Texas to issue an official proclamation calling upon all city, county and Chamber of Commerce officials of Texas to take necessary steps to see that no discrimination exists in the treatment of migratory workers coming from Mexico.

"2. Urge the Governor by executive order to request the fullest cooperation of all state agencies, uch as the Texas Employment Commission, to exercise their every legal power to prevent discriminations and to establish a definite good neighbor practice.

"It is further recommended that copies of these proclamations and executive orders be transmitted through the Texas Good Neighbor Commission to the proper authorities in Mexico, with the request that the ban against Mexican Nationals entering the United States may be lifted."

IT PAYS TO ADVERTISE

Turning a fondness for outdoor sports into an indoor hobby that in turn became a traveling exhibit is the neat trick turned by Albert Saddler, an electrician in the Gambrinus, O., steel mill of The Timken, Roller Bearing Company.

An avid hunter and fisherman, Saddler started his collection with a model rifle and from there it just grew. In little over a year the exhibit of some 200 miniature pieces, ranging from game animals to rifles and a frying pan, has grown out of the hobby stage and into a collection that is in constant demand by schools, churches and sportsmen's gatherings.

Included in the display are models of game birds and animals, some in their natural surroundings, guns which are fired by using match-heads as ammunition, casting and fishing equipment, a tent, cooking utensils, a hunter and even a game warden, with badge.

James P. Hart of Travis County

Associate Justice

Supreme Court of Texas

Place No. 2

Using standard public opinion sampling methods, a representative cross-section of Texas voters was asked to choose between these two statements: "The best candidate for Supreme Court is one who has been (1) a county judge and a district judge, or (2) a district attorney, district judge, assistant attorney general of Texas and a judge on the Texas Supreme Court."

of persons interviewed said the man was best qualified who has been a district attorney, district judge, assistant attorney general and a judge on the Texas Supreme Court.

The Only Candidate for Place 2 With This Experience Is James P. Hart!

Help To Elect Rex E. Sullivan, Jr. As Our Representative In The Legislature

We, his friends, without having been solicited by him to do so, take this means of presenting to you the qualifications of Rex E. Sullivan, Jr., because time will not permit him to see everyone in person. Here are some facts about him:

Quanah has been his home all his life.

He is personally interested in the problems of business and professional men and farmers of North-West Texas.

Wants better schools and better farm-to-market roads, more adequate old-age pensions.

Will stand on the better side of any moral issue which may properly come before the Legislature.

As a veteran, will be interested in veterans' problems; particularly the care of disabled World War II veterans.

Had more than three years of service in the U. S. Navy during World War II; making enviable military record in several months of rigorous combat duty in the Philippine and Japan home Island areas.

Is married, is a Law Student in Texas State University.

A VOTE FOR REX E. SULLIVAN, JR. WILL BE A VOTE FOR A FORWARD-LOOKING, ECONOMICAL STATE GOVERNMENT.

Attention

Ford Tractor Owners

We now have a Krause 6-foot oneway plow, on Timken bearings, that is built specially for your Ford Tractor.

Come by and let us show you this plow. You'll be pleased with the way it operates.

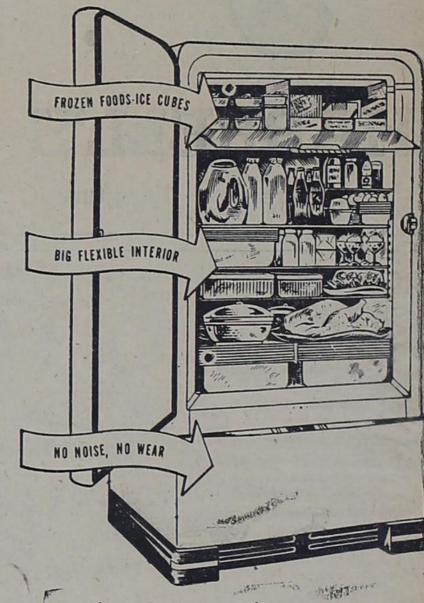

Munday Truck and Tractor Co.

"The Farmall House" Chrysler-Plymouth

Munday, Texas

because it freezes with no moving parts

because it freezes with no moving parts

it's the famous gas refrigerator!

More than 2,000,000 homemakers are now using Servel Gas Refrigerators -some of them 15, 18 and 20 years with one Servel.

A tiny gas flame does all the work in the freezing system. There are no moving parts to wear, to make noise, or to need costly repairs. Save with Gasl

I help farmers to farm FASTER

I'll show you how to farm faster . . . and better, too . . . if you'll let me demonstrate a new Ford Tractor right on your farm. I'll prove that, with a Ford Tractor, you can keep gaining on your work instead of getting behind. You have no idea how much time you save with Hydraulic Touch Control of implements, new, faster 4-speed transmission and a lot of other advantages this new Ford Tractor has. And, my service is the best. So how about telling me to bring out a Tractor and put on a demonstration? There's no obligation.

J. L. Stodghill

"Your Ford Tractor Dealer"

Mr. and Mrs. Hugh Beaty left they are spending their vacation ast Saturday night on a vacation ip to Missouri and other points. They will return around August 1.

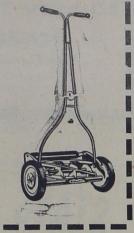

Mrs. Clifton Mooney and little daughter of Seymour were visitors here last Tuesday.

Mr. and Mrs. M. L. Barnard left Mr. and Mrs. M. L. Barnard left the first of this week for points in Oklahoma and Arkansas, where Munday next Saturday night.
