Odd Bits Salvaged
By The Editor

"Yes, he's had surgery," said Mrs. J. F. Michael when Munday people called there to inquire about Rev. Michael's amputation. "He just got rid of that old bad leg. Now, don't you folks down there start worrying about us. We're getting along all right."

This, we think, pretty well reflects the philosophy of this beloved preacher and his wife. During the several years they lived in Munday, they thought of others, they prayed for others, but it seemed they didn't want others to worry about them.

Friends from Munday who visited with the Michaels at the Annual Conference in Abilene recently said he was hobbling around on "that old bad leg. About a week later, he had surgery for the removal of that limb.

Unless we miss our guess, Joe Michael is right now smoking a good cigar, laughing and visiting with someone, and suffering of the body has not dampened his spirit.

Those garden spots in Munday have begun to pay off! On several occasions the editor has benefited from the Trey Belcher garden just back of our home, since they have given us beans, radishes, squash, etc.

A few days ago, the Mrs. noticed the Herb Peck corn patch showing promise, and since she had been told to help herself when it was ready, she did just that. Bill Bowley divided some of J. O. Bowden's Knox County potatoes with us; then, later brought us a mess of green beans.

Shucks, we've always contended that an editor could live "high on the hog" when gardens began coming in if someone would just furnish him the meat for free, too!

Looks like we might be able to explode sky high that idea expressed to us in April that peas planted in the wrong time of the moon will "go to vine and make no peas." We saved enough of our first planting — which was during this time — to test the saying, and we have peas in the making. Wally Park also informed us that his peas, planted on the same date, are in bloom and he expects peas to form any day, now.

Everything with reference to Knox County's first vegetable festival, which will be held here next Saturday, is exceeding all expectations.

Those in charge of the beauty contest are plumb gratified over the response. The deadline for entries passed last week, and a total of 39 young ladies of the county have entered. Now, everyone's hoping the weather will be squared off Saturday night so this can be an outside event, as planned.

Munday was "straw hat" day in Munday, as more people began wearing the vegetable hats. They stormed the Chamber of Commerce office that morning for last-minute purchase of hats. We don't suppose there's a wholesaler or retailer in Fort Worth or this side that has any of those hats left.

Some had to settle for those hatbands which we printed, but these were not sold alone as long as hats were available.

Those in charge of the flower show are also enthusiastic, and some lovely flower arrangements will be on display. Response to this event has been very pleasing, with people expressing pleasure at being asked to make an arrangement. In fact, everyone has seemed to be anxious to do what they can when they can to make the festival a success.

A number of VIP's in the vegetable business, in area agriculture, in state affairs, etc., are expected to be in Munday for the festival—and chances are you'll be missing something very fine if you fail to be there.

TO BE HERE TUESDAY
A representative of the Social Security Administration will be in Munday at the City Hall on Tuesday, June 25, from 10:00 a.m. until 12:00 noon. You are invited to meet with the representative to file your claim or to obtain information or assistance concerning Social Security.

Mrs. Carrie Clark Of Truscott Dies

Mrs. Carrie Burton Clark, life-long resident of the Truscott and Knox County area, passed away last Monday in the Knox County Hospital. She had been ill for about two weeks.

Born at Gilliland, she married the late H. O. Clark, who preceded her in death about five years ago. She was a member of the Truscott Methodist Church. Funeral services were held from the Truscott Methodist Church at 3 p.m. Wednesday with the pastor, Rev. Kent Marrs, officiating. Burial was in Truscott Cemetery.

Among the survivors is a son, Charles Burton of Truscott.

Walt. E. Sherrod Resident Here For 43 Years Dies

Walter E. Sherrod, 70, well known Munday man and resident here for over 40 years, passed away at 8:30 p.m. Friday in the Knox County Hospital. He had been in failing health for several years and had been hospitalized this time for four days.

Mr. Sherrod was born January 28, 1893, in Fayetteville, Ark. He came to Munday in 1920 and married Ruby Bell here on October 2, 1920. He was a veteran of World War I, and for many years followed the blacksmithing trade in Munday.

Survivors include his wife; one daughter, Mrs. Ida Bell McBrayer of Midland; two granddaughters. Funeral services were held from the First Methodist Church in Munday at 2:30 p.m. Sunday with the pastor, Rev. Rex L. Mauldin, officiating. Burial was in Johnson Memorial Cemetery under the direction of McCauley Funeral Home.

Serving as pallbearers were Melvin Strickland, Ray Holcomb, Paul Pendleton, B. B. Bowden, Oates Golden, Henry Walker, Howard Thompson and V. E. Moore.

Bond Sales Over Half Of Quota

Bond sales in Knox County totaled \$7,750 during May according to W. E. Braly, Chairman of Knox County Savings Bonds Committee. Accumulated sales for the year are \$96,314, or 53.5 percent of the year's quota.

Savings Bonds sales in Texas during the month of May were \$11,844,620. This represents an increase of 3% over May 1962.

"I was happy to note the sales increase in Texas during May and feel confident that this is a direct result of the outstanding support given to the Freedom Bond Drive by bond volunteers, newspapers, radio and TV stations, organizations, and others. The Texas Bond Committee salutes these groups for their patriotic support of the Bond Program," Chairman Braly said.

Mr. and Mrs. Weldon Herring and Robbie of Wichita Falls were Sunday guests of her parents, Mr. and Mrs. Walter Coody.

Nine Accidents Are Investigated

The Highway Patrol investigating nine rural accidents in Knox County during the month of May according to Sergeant Frank Jirick, Patrol Supervisor of this area.

These wrecks accounted for two deaths, four persons injured, and an estimated property damage in the amount of \$2,850.00.

The rural accident summary of Knox County from January through May of 1963 shows a total of 23 crashes resulting in two persons killed, ten persons injured and an estimated property damage of \$14,740.00.

It might well be said that many of our so called good citizens in their thinking do not associate good citizenship in a democracy with safety. The Patrol Supervisor reminds us that these two are so closely related that they cannot be separated. The word safety, as we understand it, implies everything that is good for the citizen. And citizenship also stands for everything that is good. If a person lays claim to being a good citizen, yet is careless in traffic, or disregards simple traffic rules and regulations, then he cannot be considered a good citizen.

Bank Makes Donation To Library Funds

W. E. Braly, president of the First National Bank in Munday, recently made a donation of \$100 to the City-County Library in Munday. This action was authorized by the bank's board of directors.

The money will be used for the purchase of new books, possibly children's books, for the library shelves.

Mrs. Callie Ann Combs, librarian, stated that some 300 new children's books have been ordered and are expected to arrive soon.

Former Resident Is Bar President

Kenneth Harrison has been elected president of the student bar of the University of Houston College of Law. Harrison is a senior law student and will take the bar examination in June.

He is past president of the freshman class, a member of Delta Theta Phi Legal Fraternity, past clerk of exchequer of the fraternity and is an independent claims adjuster.

He and his wife, Jo An are the parents of a daughter, Lynda, 8. He is the son of Mrs. Bertha Harrison and the late Terry Harrison of Stephenville and was a resident of Munday for many years.

Mrs. Billy Joe Pruitt of Wichita Falls underwent major surgery at the General Hospital on Wednesday of last week. She is reported to be doing fine. Her mother, Mrs. H. D. Henson, was with her for surgery.

ZIP Code Number Will Speed U. S. Mail Deliveries

Our five-digit ZIP Code is 76371, Postmaster Chan Hughes announced today.

"Everyone in Munday will use this ZIP Code on all their correspondence to speed mail deliveries and reduce the chance of mis-sent mail," Postmaster Hughes said.

system of improved mail dispatch and delivery, goes into effect nationally on July 1.

Postmaster Hughes stressed the importance of all citizens of Munday learning this city's ZIP Code and using it in their return addressing on all correspondence. In answering mail, he said, ZIP Codes taken from return addresses on incoming mail should be used.

"The ZIP Code is literally the last word in mail addressing," Mr. Hughes said. "It should follow the city and state in addresses."

He cited this example of the proper use of ZIP Code:

U. S. Post Office,
Munday, Texas, 76371

The new ZIP Code plan, Mr. Hughes said, for the first time will permit the Post Office Department to short-cut repeated address reading.

"The address on mail must often be read as many as eight or ten times by postal employees, to get it to the proper destination," Mr. Hughes said. "Each handling slows the process of mail dispatch and adds to the opportunity for human error."

"With ZIP Code, a clerk needs only to glance at the code to know immediately to what national area, state and post office the letter is destined, and to speed it on its way, cutting up to 24 hours off the time between deposit and delivery."

Mr. Hughes said that when ZIP Code is in full swing, the United States will have "the most modern system mail distribution and delivery in existence."

Radio Broadcast To Be Made From School Saturday

A feature of the Knox County Vegetable Festival next Saturday will be a news broadcast by Murray Cox of Radio Station WFAA, Dallas, who is well known as the "Dean of Southwestern Farm Broadcasters." His program of farm broadcasts has long been recognized by farmers and ranchers in the Southwest as an authoritative broadcast dealing with their interests.

Since 1950, Cox has annually headed a farm study tour which has been to every state in the U. S., Alaska, Hawaii, Bermuda, Europe, South America, Cuba and all provinces of Canada. This year the group of approximately 100 persons will visit European agricultural centers.

The broadcast will be made from the office of Willis Apple, school superintendent, in the elementary school. There will be two programs: WFAA-820 from 12:15 to 12:30, and WFAA-570, 12:30 to 12:35. Some six or eight people will be interviewed on the program.

Former Pastor Here Has Limb Amputation

Rev. J. F. Michael, beloved dean of Wellington's clergy and a former pastor of the Munday Methodist Church, underwent surgery on Thursday, June 6, in St. Joseph's Hospital in Wellington for the amputation of his right leg just above the knee.

Hospital attendants said a week later that he is getting along fine and was able to sit up in a chair. He was able to have a limited amount of company.

The surgery was necessary because of an ailment from which Rev. Michel suffered for a number of years.

Rev. Michael retired after serving four years at Munday, then came out of retirement to accept the pastorate of the Methodist Churches at Dodson and Kelly, near Wellington.

Former Vera Resident Passes

William Milton Ford, 71, former resident of the Vera community, passed away at 7:30 a.m. Sunday in Victoria.

Funeral services were held from the Vera Methodist Church at 10 a.m. Tuesday with the pastor, Rev. Don Yarbrough, officiating. Burial was in the Vera Cemetery under the direction of McCauley Funeral Home.

Mr. Ford had lived at Victoria for only about two years and was a farmer at Vera for a number of years.

He was a former president of the Vera bank at the time the community was thriving.

Born at Ford City in Ford County Jan. 20, 1892, he married Oct. 17, 1914 to Cora Belle Bratcher of the Vera community.

He was a member of the Methodist Church. Survivors include his wife; one daughter, Mrs. Willa Belle Melcher of Port Lavaca; four grandchildren. One daughter, Delores, died at birth.

It's been proclaimed by word of mouth, by telephone, by newspapers, radio and television and by auto caravan visiting neighboring towns—and now, it's only a matter of time until Munday will be host to Knox County's first vegetable festival.

A caravan of Munday people visited Weinert, Haskell, Rule, Rochester, Knox City, Benjamin, Rhineland, Goree and Seymour last Monday advertising the festival, and the group had an enthusiastic reception at these places.

Chairman of all exhibit departments report that entries have far exceeded all expectations, and fine displays of all types of vegetables, arts and hobbies, flower

arrangements, birds, farming equipment, canned goods, etc., will be on hand for those who visit Munday next Saturday.

A number of important people in the vegetable industry, in agriculture, in state affairs, etc., are expected to visit the local vegetable show. Plans are being made to feed the visiting dignitaries, newspaper people, etc., at the noon hour.

Of primary importance is the queen's contest, which will be held Saturday evening at the football stadium. A total of 39 young ladies of the county, who are sponsored by merchants, are in this contest. The winner will be crowned "Vegetable Queen" of Knox County as the closing event of the festival. The girls will be featured in street clothes and in formal dress.

This is "Vegetable Hat" week in Munday, and the novelty hats have been going at a premium. This, as well as all other events, has exceeded all expectations. The supply of hats has been diminished on two or three occasions and rush orders made for an additional supply. Somewhere in the area, around 700 hats are being worn this week advertising the festival.

There will be big doings in Munday, come Saturday, and no one will be more disappointed than you if you miss them!

Albert R. Booe Dies On Sunday; Funeral Monday

Albert R. (Ab) Booe, 72, resident of Munday for 40 years and local law enforcement officer for several years, passed away at 1 a.m. Sunday at the Knox County Hospital, where he was a patient.

Born in Tarrant County on October 3, 1890, he was married to Nettie Reynolds of Bell County on November 17, 1909. They moved to Knox County in 1922, and Mr. Booe was engaged in farming for many years.

Upon retiring from farm life, they moved to Munday, where Mr. Booe served as a law enforcement officer. He was local constable at the time of his death.

Funeral services were held from the First Methodist Church in Munday at 3 p.m. Monday with the pastor, Rev. Rex L. Mauldin, officiating. He was assisted by Rev. John Street, pastor of the First Baptist Church of Munday.

Burial was in Johnson Memorial Cemetery under the direction of McCauley Funeral Home. Grandsons served as pallbearers, and law enforcement officers of Knox County were named as honorary pallbearers.

Survivors include his wife; five sons, Clarence, Cecil, Loy, Irvin, all of Munday, and Eulice of Gainesville; three daughters, Mrs. Chester Hodgins of Haskell, Mrs. Gene Floyd of Munday and Mrs. Jack Cox of Abilene; two brothers, J. B. Sr., of Munday and Carl of Denison; two sisters, Mrs. Fronie Gladwell of Truscott and Mrs. Buster Ford of Munday; 15 grandchildren and four great-grandchildren.

Mr. and Mrs. Leo Kuehler and Donnie of Lorenzo visited their parents, Mr. and Mrs. Frank Herring and Mrs. Anna Kuehler, over the week end.

SUMMER IS WATER SAFETY TIME

From toddler to four score and ten, people have more fun with water than almost anything else. Summer is upon us and hot weather settles on the land millions of Americans will be rediscovering the pleasures of water. It is the time for swimming, boating, water skiing, and all the rest. But tragedy can strike with appalling swiftness when basic safety rules which should be observed on or around the water are forgotten in the excitement and confusion that often accompanies having a good time.

If you are a swimmer for example, don't swim at unfamiliar or untended beaches where tides and currents may cause dangerous undertow, don't swim alone, don't try spur-of-the-moment swimming stunts and endurance trials that are beyond your skills. If you're a water skier don't forget to wear some approved flotation equipment. Every member of a group of people around the water will not be a swimmer, but every swimmer should know the basic techniques of rescue and artificial respiration.

With millions of pleasure boats now on the nation's waterways, and more coming every year, there are essential requirements which their "captains" must meet. Unless every operator of a pleasure boat assumes the responsibility that is his for the safety of his passengers and proper handling of his boat, it is inevitable that there will be severe restrictions and regulations which will take much of the fun and relaxation out of a most rewarding sport. Proper equipment, including fire extinguishers, life preserver for each passenger, lights, horn or whistle, anchor and line, bilge pump and so forth, are the beginning of safety afloat.

Just a reminder—water safety boils down to common sense. Let's use it and be around for another summer of fun in and on the water.

with 3.5 million of them coming from foreign lands. And, certainly one of the most unusual and significant of the exhibitions will be the Hall of Free Enterprise.

Its cost, about \$2.1 million, is being financed by thousands of contributions from individuals and corporations. It is purely noncommercial and educational. Its goal is to dramatically demonstrate the simple economic facts of life to millions of people who have either had instruction in basic economic principles or are victims of false propaganda.

The Foundation is built upon "Ten Pillars of Economic Wisdom." Perhaps the last of these will give a picture of what it stands for: "The productivity of the tools—that is, the efficiency of the human energy applied in connection with their use—is highest in a competitive society in which the economic decisions are made by millions of progress-seeking individuals, rather than in a state-planned society in which those decisions are made by a handful of all-powerful people, regardless of how well-meaning, unselfish, sincere, and intelligent those people may be."

Freedom is the most precious of all possessions. That is the principle this great Hall is to stand for.

Near February's end the Association of American Railroads reported that Cuban mercy shipments had passed the 400-carload mark. The latest shipment of ransom goods as of that date consisted of 60 carloads of medicines and baby foods from Central, Western and Pacific Coast areas.

Henry Hazlitt writes in Newsweek: "It is true, as the President concedes, that our present tax burden reduces the incentive for risk, investment, and effort—thereby aborting our recoveries and stifling our national growth rate! But the way to reduce it is to slash the spending that makes it necessary, not to invite deficits and inflation."

LONE STAR AGRICULTURE

Castorbeans As A Cash Crop

Some Texas farmers who are looking for a new cash crop may try castorbeans this year.

The demand for additional oil from the crop is good but a word of caution is advised: do not grow a castorbean crop unless you have a marketing contract with a processor.

Castorbean production is an integrated industry. Farmers grow the crop under contract with castor oil processors who agree to pay a definite price at harvest. They also give specific information on growing the crop and usually help make arrangements to harvest it.

In 1962, Texas farmers accounted for three-fifths of the castorbean output. In the nation as a whole, 235,000 acres of castorbeans were grown, producing 34 million pounds of beans compared with 37 million in 1961. Over 90 per cent of the beans were grown under irrigation.

The average yield per acre in 1962 was 1,434 pounds compared with 1,029 pounds a year earlier. The record year was 1958 when the average was 1,765 pounds per acre.

Yields last year varied from 1,855 pounds per acre in some parts of Texas to 757 pounds in New Mexico.

The 1962 castorbean crop should yield 16 million pounds of oil, 12 per cent of our annual requirement of 130 pounds. This means that in 1963, about 88 per cent of our oil needs will have to be met with imports. Paints, varnishes, resins and plastics account for roughly three-fifths of domestic usage. So castorbeans

generally have a good future on the market.

6. Be Careful What You Say. Even if you feel you probably are to blame, it is best to make no admission. You may learn later than the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.

7. See Your Doctor if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.

He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interviews or statements to investigators or adjusters for the other side.

9. Inform Your Insurance Company Promptly. Failure to do so may void your policy.

10. Report the Accident to the Department of Public Safety. This is required by law if there is any injury, death, or total damages exceed \$25.00.

Follow Simple Rules In Automobile Accident

Vacation time is here. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is therefore a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. Stop: Failure to stop can result in serious criminal consequences.

2. Render Aid. If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.

3. Protect the Scene from Further Damage. You may be liable for damages to approaching drivers, unless they are obstructed. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.

4. Call an Officer. Policemen, Highway Patrolmen, Sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.

5. Gather Information . . . Write it Down. Don't trust your memory. Don't guess—be specific. Measure skid marks. Step off distances. Be sure to obtain

GENERAL TELEPHONE TOWNS ON THE MOVE

How Community Spirit Built Perryton

Population figures more than double . . . 30 new industries added . . . all since 1950! That is the miraculous record of Perryton in the Texas Panhandle wheat growing area.

When oil was discovered in the early 50's, an aggressive, long-range program was launched by the Chamber of Commerce. An 84-acre industrial tract was secured and platted; its streets were paved and a railroad spur was built.

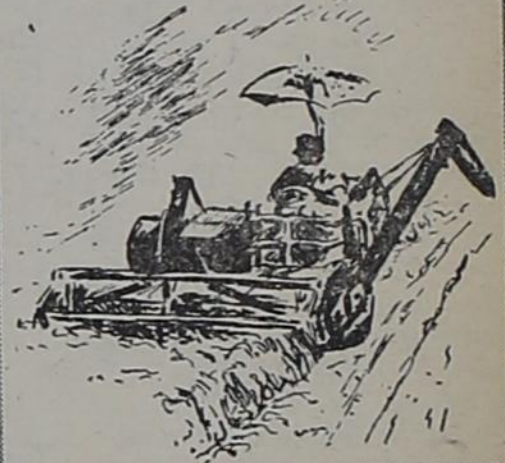

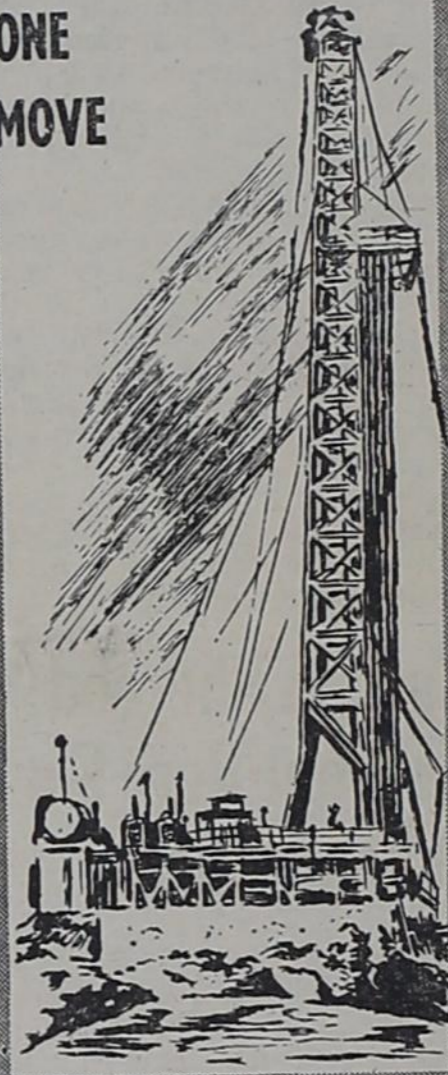

So successful was this community development that today a second industrial tract has been acquired and plot-

ted. Perryton, former population 4417, is now known as The Oil Center of the Anardarko Basin, with 9400 citizens. It is another reason we say big things are happening in General Telephone towns.

These towns are on the move. Community improvements are under way, local resources are being developed, new businesses, new industries are coming in. If your town seeks additional information about expansion perhaps we can help. Just write our Community Development Department, Box 1001, San Angelo, Texas.

County Council Meets Recently

All the home demonstration clubs of the county were represented in their Council Meeting in June. The meeting opened with the Texas Home Demonstration prayer, led by Mrs. R. M. Almanrode, chairman. Three clubs reported that leaders had given programs on food fallacies. Two clubs held special Mother's Day programs with good attendance and at Gilliland the 4-H members also attended.

Mrs. J. M. Chowning, Sr., was elected secretary to replace Mrs. I. R. Cypert, who has moved away.

Three women from the Haskell County clubs, Mrs. Smith, Mrs. Patterson and Mrs. Whitaker took part in the discussion of plans to the H. D. Rally Day, which is to be held on July 9 at Gilliland.

The Council will have a concession stand at the Vegetable Festival on June 22 in Munday. Tentative plans for this were worked out.

During the Texas Home Demonstration Association meeting following Council, these delegates were selected to attend the State Meeting in September: Mrs. Roy Petty, Benjamin; Mrs. Joe Patterson, Munday; and Mrs. E. J. Jones, Truscott.

Mr. and Mrs. Tommy Decker and Jeffery of Dallas and Lyndon Moore of Fort Sill, Okla., visited their parents, Mr. and Mrs. A. M. Moore, Jr., over the week end. The Deckers also visited his parents, Mr. and Mrs. H. P. Decker.

Mr. and Mrs. Charles Kotulek and Paula Kay of Odessa and Mr. and Mrs. Ritchie Smith of Stamford were week end guests of their parents, Mr. and Mrs. C. J. Albus. The Kotuleks also visited his parents in Seymour.

Misses Mary Ann Reneau, Susie French, and Clemence Romanet, students in the University of Dallas, visited Miss Reneau's parents, Dr. and Mrs. J. B. Reneau, over the week end.

Mr. and Mrs. Orman Moore and daughters of Plainview were guests of her mother, Mrs. Erin McGraw, last Sunday.

Mr. and Mrs. Ed Savage and Laura Lou of Houston visited her parents and brother, Mr. and Mrs. Ardell Spelce and Kenneth, over the week end.

Bloodmobile To Be Here June 27

The Red Cross Bloodmobile will be here June 27th at the First Baptist Church from 2 until 6 o'clock p.m. The following statistics are from the Bloodmobile's activities in the last twenty months:

Blood collected from 9-15-61 to 5-30-63 — 451 pints; Blood quota for above 20 months — 440 pints; Blood shipped to Knox County Hospital — 322 pints; (transfused 130 pints) Blood used out-of-county — 125 pints; Total blood provided — 447 pints.

In addition to this information, it should be noted that Rhineland has given 120 pints, Knox City has given 155 pints, and Munday has given 176 pints to make the total of 451 pints.

In case there are any misunderstandings concerning the use of the blood obtained from the Bloodmobile, the following information may prove useful:

Any Knox County resident, may, at any time, any place, receive blood from the Knox County Bloodmobile, but only through a Knox County doctor. For instance, if a Knox County resident is ill in another county, he must have his doctor there contact a Knox County physician in order to obtain blood from the Knox County Bloodmobile.

Mr. and Mrs. Kenneth Owens, Carla, Kenny and Billy Joe, of Lubbock are spending their vacation here with his mother, Mrs. E. M. Owens, and other relatives.

O. L. Bradford of Graham and Mr. and Mrs. Arthur Bradford of Marshall visited their Collins relatives last Sunday.

Guests of Mrs. W. C. Bevers and Jasper the past few days were Mrs. Allene Koenig of Oklahoma City, Mr. and Mrs. David Koenig of Chattanooga, Tenn., Mr. and Mrs. Russell Doran of Odessa and Joe Bevers of Dallas.

Mr. and Mrs. M. L. Raynes and their daughter and family, Mr. and Mrs. Earl Tayntor and Michael of Wichita Falls visited Mr. and Mrs. Felton Raynes and children of Lawton, Okla., last Sunday.

Mr. and Mrs. H. H. Cowan took their grandsons, Jay and John Cowan, who have been visiting them the past three weeks, to their home in Borger last Saturday and remained over Sunday for a visit.

Ted Russell of Vera and I went to Chillicothe Experiment Station last week and threshed the samples of wheat from different rates of fertility on his farm. Ted and Clelan, his son, put down different levels of fertilizer, some in the fall, some in the spring and some both times. This was Tascosa wheat on irrigated ground, which was in wheat last year.

Activities of The Colored People

By Fannie Mae Johnson

Sunday School was well attended at all churches Sunday.

Rev. Ward of Knox City preach Thursday and Friday night of last week at West Beulah Baptist Church for the junior mission. Sister Eula Adams president.

The deacon's reunion was held at West Beulah Sunday evening at 3 o'clock. Money raised was \$45.27. Rev. Sims of Vernon bringing the message from Matthew 6:25, 26, Happy and Satisfied with Jesus. Mrs. Alta Faye Johnson obeyed the call. She use to belong to this church before going to Oklahoma.

Sunday night Rev. Cooper of Vernon spoke from Act 16:25 use the subject Prayer. Our hearts was made glad.

Miss Janey Mitchell return to Marlin Monday morning after visiting Mr. and Mrs. Sing Cherry for over two weeks.

Mr. and Mrs. Willie Toliver had their four daughters as guests in their home Sunday. Mrs. Willie Lee Scott of Knox City, Misses Valerie, Patsy and Gracie of Wichita Falls.

Mrs. Wilson and Mrs. Cooper of Vernon were 6 o'clock dinner guests of Mrs. F. M. Johnson.

Mrs. Johnson received word of the illness of her son-in-law in Denver, Colo., Saturday night. Mr. Glover have had that same illness ever since he came out of the Army. He is much improved at this writing.

We thank God that the church have taken on a better spirit. Bear in mind this is the results

of one year and on one type of soil so it should not be taken as final. Rather it should be taken as a starter for your farm along with a soil test to determine the application for maximum net profit.

The check plot with no fertilizer made 34.2 bu. 200-lbs. 0-20-0 in the fall made 42.6 bu. per acre. 200 lbs. 0-20-0 in the fall and 150 lbs. Ammonium Sulfate in the spring made 46.0 bu.

150 lbs. 16-20-0 in fall made 35.6 bu. while 150 lbs. 16-20-0 in fall plus 150 lbs. Ammonium Sulfate in the spring made 45.1 bu. We had some inconsistencies in that 150 lbs. 16-20-0 in fall plus 80 lbs. Anhydrous Ammonia in spring made only 31.0 bu. The top yielder was 200 lbs. 16-20-0 in the fall plus 80 lbs. Anhydrous in the spring, which made 52.3. We evidently didn't get a true sample here.

200 lbs. 0-20-0 and 200 lbs. 16-20-0 in the fall made 49.0 bu.

The total yield is not the only thing to consider here as the wheat with the extra nitrogen was 10 days later in maturity than the phosphate plots. It appears that Ted and Clelan may have their soil out of balance as far as nitrogen and phosphorus are concerned which would cause the plant to make more straw and be later in maturity.

We also threshed some wheat from a field just west of Benjamin belonging to John Smith. It had 50 lbs actual phosphate applied last fall. The check made 21.7 bu. per acre and the fertilized portion made 28.4 bu. This returned John about \$1.50 for every dollar spent on fertilizer.

Some farmers and ranchers getting hotspot treatments with sterile screwworm flies have been unable to find the empty boxes. They assume incorrectly that the flies were never dropped. The present policy is to drop 100,000 sterile flies once a week on all hotspots outside the fly drop zone. This amounts to 250 boxes dropped in a five mile area of the infested ranch. A little arithmetic shows this amounts to one box for each fifty acres. Finding a box under these circumstances would be quite a feat.

Screwworm officials have begun the practice of feeding the flies in the release boxes. A soufflé cup containing a cotton ball and corn syrup is placed in the center of the dividing partition. After the flies emerge they feed on the syrup. This gives the flies more strength and allows them to live longer after release.

Cotton's need for moisture is greatest during the square, bloom and young boll stages of

growth. The rate of water use by cotton plants varies through the growing season and intelligent irrigation is based on the periods of greatest need. The plants use very little water for the first few weeks but beginning with the appearance of the first square the rate of water use increases steadily. When the first bloom appears, the water requirements again increases rapidly and the maximum rate of water use occurs at the peak bloom stage which is usually three to three and one-half months after planting.

Shedding of fruit by cotton has been found to be associated with low soil moisture during the early bloom and fruiting stage. Excessively high moisture levels should also be avoided especially after the first bolls appear. This moisture can cause late vegetative growth which will not increase lint yields.

HEY FOLKS ITS A SAILOR

Thats the news Dwayne phoned to tell his great-grandmother, Mrs. Nell Hargrove, of Goree. The baby boy arrived June 13 in a Hooptown, Ill., hospital. He weighed 8 pounds and was 21 inches long. New Jet Parks To Be Built By Highway Dept.

AUSTIN — Driving east from San Antonio on Interstate Highway 10 a motorist will come upon what looks not unlike rockets poised for takeoff on each side of the superhighway.

But it's only an optical illusion. What he really sees are the roofs of the arbors for the first Safety Rest Area (roadside park) designed and built to Interstate standards in Texas.

Texas Highway Department men in the San Antonio district refer to the new rest area as the "Jet Park." It does have a jet-age look. The design certainly belongs to the area because just to

the north lies a big jet base—Randolph Field, a landmark in the air age.

The huge, new rest area is really two parks, one on each side of the road. Each one is 1,200 feet long and 107 feet wide with four "bat wing" arbors spaced to allow for future additional arbors. Each arbor contains a fireplace, fire wood, an incinerator, a concrete table and benches, and a planter box.

Safety rest areas on the Interstate Highway System are generally larger than older roadside parks previously built by the Highway Department and contain more arbors per park with an area on each side of the highway and parking space for trucks. Distance between rest areas will average only 37 miles throughout the state when the Interstate System is completed in 1972. So if you're traveling along and find one rest area filled, it will only be a few minutes to the next spot. The new rest area was dedicated formally May 29 by chamber of commerce officials from Seguin and San Antonio and members of the Texas Highway Department. Herbert C. Petry Jr., Chairman of the Texas Highway Commission, was principal speaker.

The primary purpose of the safety rest area is to provide a safe place for a motorist to stop in pleasant surroundings to relax, refresh himself, or to eat something before continuing his drive. An alert driver has fewer

accidents, and the Highway Department says providing rest areas is just one of many efforts to reduce the accident toll on highways. There are now more than 1,000 rest areas and turnouts throughout the State for this purpose.

The Texas Highway Department was one of the pioneers of the rest area on roadside park. In the early 1930's the Department began its roadside park program, and it wasn't long before experience and public demand showed Department engineers that the areas should be an integral part of the highway system.

When the Interstate Highway System is completed in Texas, there will be about 85 rest areas for the motoring public. The Highway Department has already selected sites for half the areas and about one-fourth of the 85 parks are in various stages of construction. The average distance between rest areas will be 37 miles—so the motorist will be able to find a place to rest and relax no matter what part of the state he travels.

There are between 15 and 20 different designs for safety rest areas. Landscape architects in the Highway Department design each facility to its surrounding countryside, incorporating native stone and other materials.

Highway Department maintenance crews clean the parks at least once a week, water the plants and grass, and also plant trees and shrubs as part of the landscaping service.

Miss Trantham And Jerry Wayne Meers Marry Last Friday

Miss Karen Ann Trantham and Jerry Wayne Meers were married in a double ring ceremony Friday, June 14 at 7:30 p.m. in the home of the bridegroom's aunt, Mrs. A. H. Ladd, 1802 11th St., Wichita Falls.

The bride is the daughter of Mr. and Mrs. L. D. Trantham of Yuba City, Calif., and the bridegroom's parents are Mr. and Mrs. Boyd Meers of Munday.

Dr. T. Lee Miller, pastor of Floral Heights Methodist Church, officiated at the exchange of vows with only members of the immediate family present.

The bride wore a street length gown of white tulle over white taffeta with elbow length sleeves. The bodice was designed with tiers of imported alencon lace with a Sabrina neckline that scooped low to the back with soft bow that fell to the hemline. The full gathered skirt also with tiers of the same alencon lace and her shoes were white satin. The bride's veil of sheer illusion was fastened to a pearl coronet. She carried a bouquet of white feathered carnations centered with a white orchid and tied with white satin ribbon that cascaded over a white Bible. She carried out the traditional theme of something old, borrowed and blue with the six pence in her shoe.

Mrs. Boyd Lynn Meers, sister-in-law of the bridegroom served as matron of honor. Her dress was ice blue silk Peau-de-soie and featured a fitted bodice with scooped neckline and cap sleeves. The street length skirt was bell shaped controlled by unpressed pleats. The belt was narrow with a small tailored bow in back. Her flowers were of feathered white carnations.

Boyd Lynn Meers, the bridegroom's brother, served as best man.

The bride grew up in Munday but has lived in California the

past three years. She finished High School this June in Yuba City.

The groom was born and reared in Munday where he finished Munday High School in 1962.

After a short wedding trip the couple will live in Munday where the groom is engaged in farming.

Williams of San Francisco, Calif. Miss Judy Anderson, who spent last week in Merkel and Trent, returned home with them.

Mrs. R. M. Riddle of Quanah spent last week with her daughter and family, Mr. and Mrs. Buster Pape and daughters.

Mrs. B. M. Dorrity and son, Jarvis, of Shreveport, La., are spending their vacation here with Mrs. C. A. Stienriede and Mrs. Mamye Brazell and daughters.

a small price to pay for your life

4 1/2 million people thought right to the last minute that it couldn't happen to them. It did. They were killed or injured in traffic accidents last year. Odds are that in the next 10 years it will happen to you. Please be prepared. By using your Shamrock Credit Card, you may pay for safety belts over six months. \$1 a month per belt, no carrying charge. The price includes installation.

"Best kind of Johnson Grass is brown Johnson Grass."

ORTHO has a low-cost chemical that does Johnson Grass up brown. And makes your oil spray a lot more effective.

There's nothing better than seeing Johnson Grass turn brown and die. And nothing worse than seeing it still on the rampage, after you've knocked yourself out trying to kill it.

Best way out of that bind is to add ORTHO C-56 Johnson Grass Control to your oil spray. You'll see these weeds "curdling like buttermilk" before you've even finished the field. Because C-56 has a special chemical that soaks away the tough waxy hide of Johnson Grass. So your kerosene and fuel oil can get into the plants and kill 'em from the inside, roots and all.

And C-56 is a powerful weed-killer in its own right. It's so effective, in fact, that you can use just one gallon for every 99 gallons of oil. So effective it can put down Johnson Grass in any stage of growth. Even when it's blooming. Even when stems are toughened by drought. Yet it won't sterilize your soil (when used as recommended).

C-56 works best, though, when the young shoots are 4 to 6 inches high. That's when they're most vulnerable. And that's why it's a good idea to talk to your ORTHO Dealer early in the growing season. He'll show you the ORTHO gravity-fed sprayers. (Spot sprayers that make weed-killing like shootin' fish in a barrel.) Best of all, he'll show you how a small investment in C-56 can result in a whole lot of perfect Johnson Grass. All of it brown, shrivelled and dead.

Even with a 15-25% infestation of Johnson Grass, the cost of 4 weekly sprout and 3 late seedling applications of C-56 plus oil is only about \$11.00 an acre

"Only good fly is a dead fly!"

ORTHO has two sprays—a fog spray and an all-purpose spray—that kill flies fast and sure. Without harmful residues.

You know what a hassle fly killing can be. You want a spray that's effective. But you don't want to have to hide your animals in the next county. And you don't want a spray that's so gentle every other fly gets away.

The two fly killers made by ORTHO take care of both problems. Their main ingredient is DIBROM, a remarkable insecticide that kills flies outright—without harmful residues. DIBROM doesn't just knock flies down—it knocks them stone cold dead. Even if they're resistant to other sprays.

And because they contain DIBROM, both these fly killers are registered to spray over and around cattle. You can spray in a barn without taking the cows out, or a poultry house without removing the birds.

So if you use a fog sprayer, try new ORTHO DIBROM Fly Spray. It comes already

mixed—you just pour it from the can. And it kills the flies that a lot of fog sprays miss.

If you want an all-purpose concentrate, for use through a pressure sprayer, or as a dry bait or a wet bait, use ORTHO Fly Killer D. (The D is for DIBROM.) Diluted with water, a quart of Fly Killer D makes up to 40 gallons of ready spray. And costs less than 22 cents a gallon.

RECOMMENDS AFSCO FLAME CULTIVATION

FOR WEED-FREE CROPS

Time-tested and proved, AFSCO Flame Cultivation is the best answer yet for complete weed, grass and vine control in rowcrops.

Weed control means higher yields — flaming means less weeds. Gas costs average less than \$1 per acre. Crops can be flamed at 4 to 10 acres per hour. And flaming does not harm the crop when used as recommended.

You owe it to yourself to learn more about AFSCO Flame Cultivation. Let us discuss flaming with you, or better yet we can arrange a demonstration.

Miss Judy Carrington And Philip B. Brewer Marry In Seymour Church Rites

The Calvary Baptist Church in Seymour was the setting for the May 26th wedding of Miss Judy Carrington and Philip Bob Brewer. Rev. Ross Anderson, pastor, officiated at the 4 o'clock exchange of vows. The altar was decorated with branch candelabra banked with white gladioli, mums and palm leaves.

The bride is the daughter of Mr. and Mrs. Willie Carrington and Mr. and Mrs. Earl Brewer

are parents of the groom. Mrs. Judy Underwood of Seymour played and sang wedding selections.

Mr. Carrington gave his daughter in marriage. She chose a gown of point d'esprit and satin designed with a scalloped neckline traced with bridal pearls, long tapered sleeves and a fitted bodice. A seed pearl tiara held her veil and she carried white orchids atop a lace covered Bible.

MRS. PHILIP B. BREWER

Mrs. Barbara Vickers, cousin of the bride, was matron of honor. Her dress was powder blue silk organza over taffeta designed with a scooped neckline, cap sleeves and bell shaped skirt. Her head piece was of blue illusion and she carried a crescent of white carnations. Miss Claudette Shipman, bridesmaid, was dressed identical to the matron of honor.

Cynthia Carrington, sister of the bride, and Danny Kuehler, nephew of the groom, were ring bearers. Candle lighters were Martha Underwood and Linda Carrington, sister of the bride.

Best man was Jesse McGlother of Seymour and groomsmen were Ronnie May of Rule, nephew of the groom. The ushers were Willie Carrington, brother of the bride, and Gregory Kuehler, nephew of the groom.

Mr. and Mrs. Carrington were reception hosts in the fellowship hall of the church. The bride's table was covered with a white outwork cloth and a formal ar-

arrangement of roses and the tiered wedding cake completed the table. Reception assistants were Wanda Glaze and Mary Ann McKinney. Miss Joy Carrington registered the guests.

The bride graduated from Seymour High School and the groom attended Munday School. The couple are now making their home in Oregon.

The bridegroom's parents were hosts for the rehearsal dinner at the Rock Inn Cafe in Seymour.

Sandria Morrow And Norris Morgan Marry On Saturday

Miss Sandria Ruth Morrow and Norris Morgan were married Saturday at 2 p.m. at the home of Mrs. J. A. Caughran. The Rev. Rex L. Mauldin, pastor of the First Methodist Church, officiated for the single ring ceremony.

Parents of the couple are Mr. and Mrs. Joe Morrow and Mr. and Mrs. Edgar Morgan.

Pianist for the ceremony was Mrs. Keith Offutt.

The bride wore a dress of white organdy fashioned with a full skirt. A queen's crown of scalloped lace held her bouffant veil of illusion. She carried white gladioli atop a white Bible.

Miss Kathy Burnet and Nolan Morgan of Austin, brother of the bridegroom, attended the couple.

Miss Burnet wore a dress of pink taffeta with a white overskirt. Her bouquet was of white carnations.

The reception followed in the Caughran home.

The bride attended Munday High School and the bridegroom, a graduate of Munday High School, attended Abilene Christian College. He is serving with the U.S. Air Force at Dyess.

The couple will be at home at 2201 Cedar in Abilene.

Youth Activities Week Successful

A very successful youth activities week was brought to a close last Friday by the M. Y. F. of the First Methodist Church. The week's theme was "I Believe" and began on Sunday, June 9, with a retreat at the J. C. Harpham cabin on Lake Kemp. Evening worship was held at the lakeside, during which 13 new members, all of them members of the 7th grade class, were inducted into the M. Y. F.

Speakers from surrounding churches were secured for talks and discussions Monday through Friday. Monday night, Mrs. Elmo Cure of Abilene spoke on "I Believe in the Holy Spirit;" Tuesday night, Rev. Bill Wright of Tye spoke on "I Believe in God," while Rev. Lloyd Jones of Seymour spoke on "What Is Man" on Wednesday night.

Thursday night, Rev. Kenneth Wyatt of Paducah used the subject "What is Salvation?" and Friday night, Rev. Howard Quiett of Aspermont spoke on "I Believe in Immortality."

All of the meetings were held in the church with the exception of Friday night, which was held at the C. P. Baker farm southeast of Munday. A hay ride and weiner roast was held in connection with the Friday night program. A total of 81 youth were enrolled during the week, with an average attendance of 61.

If YOU Haven't Bought a Bond for the Freedom Bond Drive we're

ONE BOND SHORT!

That's right! The Freedom Bond Drive is for all of us—it's every family's invitation to share in America with an extra U. S. Savings Bond.

There's a size for every pocketbook on sale at any bank. Series E Bonds range from \$25 (purchase price \$18.75) to \$10,000. H Bonds—which pay current interest—start at \$500. For the youngsters, U. S. Savings Stamps are available at school or the post office for 10 cents and up.

Bonds keep America strong. Every penny you put into them goes to work for freedom, and for your own security. There's nothing safer, nothing more fully guaranteed than Savings Bonds. And buying them is an easy and practical way to help your country in these troubled times.

Buy a Bond for Freedom today . . . then keep on buying them regularly.

Keep freedom in your future with **U. S. Savings Bonds**

Knox Prairie Philosopher Sees Just No Way To Avoid Spending More And More On Space Exploration

Editor's note: The Knox Prairie Philosopher on his johnson grass farm on Miller Creek reverses himself and comes out in favor of a trip to the moon, for others.

J. A.

Dear editor:
I wouldn't want to be in the position of the man who told the Queen of Spain she was nuts to spend her jewelry on Columbus' trip, that she had better spend it improving the lot of her own people, but the thought comes to mind as the politicians and scientists argue the value of spending billions to put a man on the moon.

In the first place, who's to say the man talking to the Queen wasn't right? I mean, I can't see any noticeable gain Spain has ever made by the discovery of America, and I'm not sure the average Spaniard is any happier living on a round world than he was on a flat one. On the other hand, of course, if she hadn't spent her jewelry on Columbus she might have spent it on an Opera singer or a traveling tent show, and Spain would be in about the same place she is now anyway.

However, the discovery of America has turned out fairly well for us people now living here, and my position on sending a man to the moon is that it's all right with me so long as I'm not the man.

COOL COMFORT
TWICE AS MUCH COOLING
With the patented features of Paramount Coolers
Yes! This famous Paramount 5000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:
— Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assuring 100% cooling efficiency all summer long.
— Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.
— Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free-Flo Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.
— Added feature—Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.
