Odd Bits Salvaged  
By The Editor

"Chan sure is having hard luck," we heard someone remark last Friday night.

That person had reference to the fact that the first day employees occupied the new post office building water was standing curb deep all around the building. Then that coldest of cold snaps hit here Friday, just before the dedication and open house of the new building was slated for Saturday.

We didn't know at the time that our postmaster's hard luck streak was running further than that. We did know, however, that he was having trouble with his feet. One day as we made a mailing, he had one foot soaking in hot salts water. The date for dedication came, and he couldn't wear his shoe. He came with one foot in a house shoe.

But that wasn't all! He received last-minute word that R. W. McMillan, Dallas regional director of the Post Office Department, who was scheduled to make the dedication address, couldn't be here. He had to secure a pinch-hitter on very short notice.

This he did in the person of Postmaster Harold Spain of Haskell. The dedication was changed from outside the new building to the school auditorium, because of sub-freezing weather, and everything went off in good shape.

Chan estimated Saturday morning that around 150 persons would attend, and we thought he was crazy with the heat. He was just about right because the number attending ran pretty close to that figure. It shows that if people really want to go, cold weather doesn't stop them.

That is, all but the editor. We did make the dedication, which we wouldn't have done had it been pretty.

We were scheduled to attend a 10 a.m. meeting of directors of the Panhandle Press Association in Silvertown last Saturday. We packed our grip and set the alarm Friday night, but when we got up we decided it was a bit too raw for us to be on the road.

We called Editor Charles Sarchet at Silvertown and told him our decision. We inquired about the weather there, and he said: "It's all right, a little cold. It got 11 degrees below zero this morning."

We thought at first that he had looked at one of those guessing thermometers. You know, you look at it, then guess at what the temperature is. But since Lubbock and other nearby towns finally got lower than that, we suppose he was reading the thing right.

"We want you to have lots of printing ready," he told us last Thursday when we closed the deal. "We want our man to work. Have the work for him, from a small No. 88 business card to the larger jobs."

You see, we have negotiated for the purchase of a new Heidelberg job press—the high-speed automatic that's designed to do the jobs quicker and at more profit to us—so they say. We've had a number of demonstrations on them, when that Heidelberg truck would pull up in front of our office.

The press is named for the city of its manufacture—Heidelberg, Germany. That country has always been a leader in the printing business. It was a man named Gutenberg, a German, who invented printing with the movable type, we believe.

Come Thursday, January 24, the press is to be installed, and a man comes along to install it and give us three days of instruction on how to operate it. That's why the salesman requested lots of printing jobs.

We want to learn something about it. We want our boys to learn, also. We want the thing to be turning out printing—not just blank sheets—so send us, or call us for those jobs to be turned out January 24 to 28.

You may think someone did a bum job of finishing concrete on that sidewalk that runs east from the post office, but that rough topping was done on purpose. If, and when, it comes an icing-over spell you'll appreciate it.

## 150 Brave Chilling Weather As Local Post Office Is Dedicated On Saturday

Dedication of Munday's new post office building was held as scheduled last Saturday afternoon, despite weather conditions, although the ceremonies were held in the school auditorium. Some 150 persons braved the chilling winds and sub-freezing weather to attend.

The program opened with a concert by the Munday Mogul Band under the direction of Bobby Brooks. Members of the Boy Scout troop sat in a group in a special section of the assembly.

Postmaster Chan Hughes welcomed the visitors and said: "We employees of the post office are proud of our new building, and believe the facilities will enable us to give better service to patrons of this area." He also introduced all employees of the local post office.

Master of ceremonies for the program was M. L. Wiggins, vice president of the First National Bank of Munday, and Jeff Graham, Knox City postmaster, introduced visiting postal employees.

## On Program

Billy C. Gunter, above, area agronomist with the Extension Service at Lubbock will have two parts on the program at Farm and Ranch Day. At 11:45 he will discuss Boll Weevil research work being done at the present time and the latest in insecticides to use in controlling Mr. Weevil for 1963. Scientists have been working on such things as isolating the substance in cotton that attracts weevils. All this and more will be brought out in Billy's talk.

After lunch, he will return to the program with the subject of Soil Fertility. Bill will give results of research work done in the field of soil fertility. He will show the importance of balanced fertility in maintaining a higher net income.

Billy will also officially launch the soil testing campaign in Knox County.

## Bible Lectures To Be Featured At Church of Christ

Five nights of Bible lectures will be held at the Church of Christ in Munday next week, beginning on Monday night. Services will be at 7:30 each evening.

Theme of the lectures will be: "For we are laborers together with God."—1 Cor. 3:9.

Roger White of Knox City will speak on "In the Kingdom" on opening night.

"In Sweden" will be the topic discussed by Payne Hattox of Goree on Tuesday night.

Howard Emerson's topic for Wednesday night will be "In the Community."

"From House to House" is the topic for Thursday night and will be discussed by Jim Pennington of Haskell.

The closing lecture, "Rewards of Labor" will be given Friday night by Leslie Mickey of Seymour.

A special invitation is extended to everyone to attend these services.

Harold R. Spain, Haskell postmaster and president of the Texas chapter of National Association of Postmasters, made the dedication address, taking the place of W. M. McMillan, director of the Dallas Region of the U. S. Post Office Department, who had to cancel his appearance.

Spain cited the many services rendered by the post office department and said: "We can do without any part of our economy better than our mail service." In closing he said: "This is your building. We want you to be proud of it, use it wisely, respect and enjoy it."

The master of ceremonies read letters and telegrams from Congressman Purcell, Senator Ralph Yarborough and others expressing regret that they could not attend.

Key presented Mr. Hughes a 50-star American Flag to be flown at the post office and gave him a letter certifying that the flag had flown over the U. S. Capitol building in Washington, D. C. Hughes presented the flag to the Boy Scout color guard, and it was later raised at the post office in appropriate ceremonies.

Open house at the post office building followed the dedication, with refreshments being served by the Chamber of Commerce.

Among visitors were Harry Tinsley, Henrietta postmaster; Pruitt Franklin, Seymour assistant postmaster; Paul Perkins, Seymour postal clerk; R. S. Sanders, Weinert postmaster; Geraldine C. Koenig, Goree acting postmaster; Lee Haymes, retired Munday postmaster; Mr. and Mrs. S. G. Hampton, formerly with the Goree post office and M. E. Trice, Rule postmaster.

Still others included A. H. Lohofener, postmaster, and George Smith, assistant, Burk Burnett, Burtley Kirtley, postmaster at Graham, and Billy Ray Wright, postmaster at Electra.

The local post office was established in 1894, and was located in the home of the first postmaster, the late R. P. Munday. Others who have served as postmaster are: J. A. Couch, Estelle Couch, R. C. Couch, J. M. Diggs, John B. Rneyard, Lee Haymes, and Ray Snyder, who served as acting postmaster.

Senator George Moffett, above, who serves this district will be a member of the following senate committees during the 58th Legislature:

Agriculture and livestock, chairman; constitutional amendments, vice-chairman; finance, insurance, interstate cooperation; legislative, congressional and judicial districts; military and veterans affairs, oil and gas, rules, state affairs, water and conservation, contingent expenses.

There are 24 standing senate committees, and Senator Moffett will be a member of 12, or exactly one-half of them.

## UNDERGOES SURGERY

Clyde Hendrix, Jr., underwent major surgery at the Bethania Hospital in Wichita Falls on Wednesday, January 9. He is reported to be doing fine but will remain in the hospital for some time. His wife is staying with him.

## Earl C. Struck Of Goree Dies; Rites Tuesday

Earl C. Struck, 48, well known Goree resident, passed away at 7:40 p.m. Sunday at the Knox County Hospital, after suffering a brain hemorrhage at 10 a.m. Sunday at his home.

Mr. Struck was born August 28, 1914, at Ennis and has farmed in the Goree area since 1939. He married Beatrice Nichols at Vera in 1942.

Funeral services were held at 2 p.m. Tuesday from the First Baptist Church in Goree with the pastor, Rev. Benny Hagan, officiating. Burial was in Goree Cemetery under the direction of McCauley Funeral Home.

Survivors are his wife, two daughters, Mrs. Andra Piland of Dallas and Miss Avis Earl Struck of the home; seven brothers, Aubrey of Weatherford, Carlton of Vera, Herbert of Munday, T. W. of Wichita Falls and Dewey, Archie and Billy, all of Goree; one sister, Mrs. Robert Wasek of Baltimore, Md.

## Five Accidents Are Investigated

The Highway Patrol investigated 5 rural accidents in Knox County during the month of December according to Sergeant Frank Jirick, Patrol Supervisor of this area.

These wrecks accounted for an estimated property damage of \$1,985.00.

The rural traffic accident summary for Knox County from January through December of 1962 shows a total of 63 crashes resulting in 2 persons killed, 38 injured. The estimated property damage amounted to \$31,036.00.

When the final reports are tabulated in March of 1963, it is estimated the death count will be approximately 4 per cent above the 2314 killed in 1961. This increase should be a challenge for every individual to put forth his best defensive efforts to prevent accidents for the new year.

The Veteran Patrol Supervisor cautions all motorists to beware of icy patches at bridges, underpasses and in shadows. Reduce speed before you reach the slippery area.

## Vegetable Growers Plan For '63 Crop

Vegetable growers of this area have begun making plans for the 1963 crop, and potatoes, onions, carrots, etc., will be grown this year.

C. D. Chambers, field man for Campbell's Soup Co., was here one day last week looking after the possibilities of contracting vegetables. The company has a new plant under construction in Paris, which will be completed next year.

Members of the Vegetable Growers Club, went with County Agent Joe Doby to Lubbock recently and met with Mr. Chambers, and plans were made to grow variety test plots of potatoes, carrots and onions for production and quality. Mr. Chambers will be inspecting these plots during the growing and harvesting season.

Seed potatoes for the 1963 crop have begun coming in. Present indications are that around 700 acres will be planted in potatoes this year—practically the same amount as last year. Planting will be done in around 30 days.

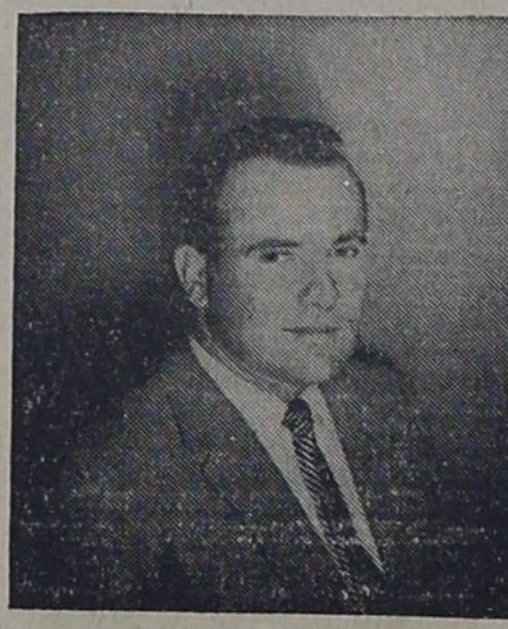

John Massey of N. T. S. U. in Denton spent the week end with his parents, Mr. and Mrs. Joe Massey.

## Munday Girl Shows Grand Champion Steer In Annual County Livestock Show

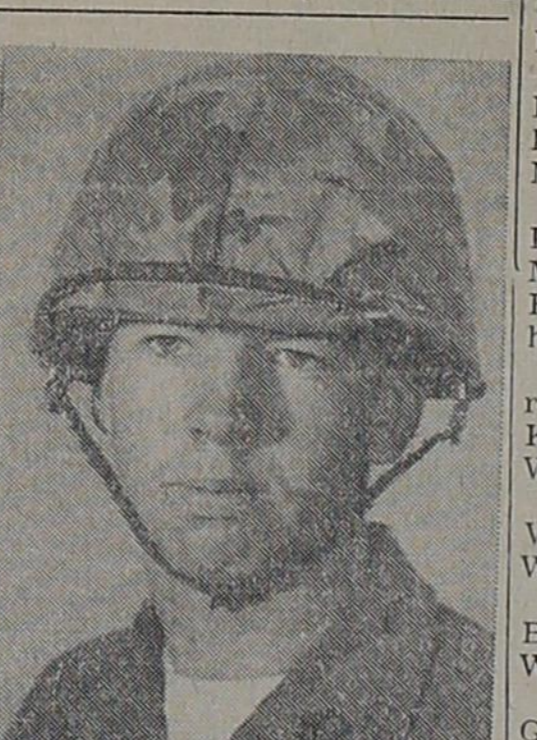

Paula Thompson, 13-year-old Munday Junior High 4-H Club member, exhibited the grand champion steer at the annual Knox County 4-H and FFA Livestock show last Saturday at Knox City.

Paula, daughter of Mr. and Mrs. Gene Thompson, exhibited the champion in the milk-fed division. The steer was a hereford, bred by Felix Mullino of Rochester.

Named reserve champion steer of the show was a hereford shown by Leon Groves, a junior at Benjamin High School. Groves is the son of Mr. and Mrs. Charlie Groves. The steer was also shown in the milk-fed division.

The show was judged by Bill Jackson, vocational agriculture teacher from Lubbock High School, starting at 1:30 p.m.

Division superintendents included Lee Smith, beef cattle; Ancel Waldrip, swine; Elmo Todd, sheep; Herbert Partridge, treasurer. Assisting was Knox County Agent Joe W. Doby. Vocational

CAMP PENDLETON, Calif. (PHOTO)—Marine Private Robert G. Gulley, son of Mr. and Mrs. Thurman B. Gulley, Munday, completed four weeks of individual combat training, December 28, with the Second Infantry Training Regiment at Camp Pendleton, Calif.

The training provides newly enlisted marines with a background of experience in the field under combat conditions. Live-firing exercises are conducted, in addition to field trips and classroom lectures.

Under carefully selected instructors, the young marines learn to take their places in small fighting units, such as the four-man fire team and the 14-man squad.

## Farm Labor Meeting To Be Held Monday

James W. Perkins, farm placement representative of the Texas Employment Commission office in Haskell, will conduct a farm labor day meeting in the city hall at Munday from 9 a.m. to 12 noon each Monday, beginning January 21, to continue for as long as needed, to serve area farmers and farm workers.

Farmers needing farm workers and all workers interested in farm jobs are cordially invited to attend these meetings.

## IN ABILENE HOSPITAL

Walter Moore was taken to the Hendrick's Memorial Hospital in Abilene last Sunday from the Knox County Hospital where he was suffering from pneumonia. Mr. Moore is very ill and is undergoing treatment in Abilene. His room number is 365. His daughter, Mrs. Julia Mae Hicks, is staying with him.

The annual Farm and Ranch Day for Knox County, an event looked forward to by many farmers and ranchers of the area, will be held on Wednesday, January 23, at the Munday school gymnasium. The program will begin at 10 a.m. and close around 3 p.m.

Dooley Dawson, vice president and manager of the agricultural department, Bank of the Southwest in Houston, will be the keynote speaker. His topic will be "Agriculture in the Future."

Mr. Dawson is well qualified to speak on agriculture. After graduating from Texas A&M College, he taught vocational agriculture for three years and was with the Soil Conservation Service for ten years before joining the Bank of the Southwest in 1945.

He has seen agriculture of the southwest survive the drought and depression of the thirties, win the battle of food in two hot wars and one cold war, and prepare for the soaring sixties. Arrangements for his appearance in Munday were made by Macyl K. Orman, agricultural agent for the Burlington Lines, co-sponsors of the Farm and Ranch Day.

Thomas K. Hunter of Vernon, area farm management specialist with the Extension Service, will present the agricultural outlook for 1963.

A native of Bixby, Okla., Hunter joined the Extension Service staff in 1959, and was made farm management specialist in July, 1960. He holds B. S. and M. S. degrees from Oklahoma State University, and is well qualified to speak on the topic assigned him.

Others on the program include Billy C. Gunter, area agronomist with the experiment station in Lubbock; Paul Marion with the experiment station at Spur, and Gene Woodman of Altus, Okla., representing the National Cotton Council.

H. H. Partridge of Munday will serve as master of ceremonies. In charge of arrangements are J. Omar Cure, L. B. Patterson, Sr., and Goodson Sellers.

Lunch will be served at 1 p.m. in the school cafeteria, courtesy of some ten Munday merchants and the Munday Chamber of Commerce.

## W. F. Prater, 52 Is Buried Here Last Saturday

William Franklin Prater, 52, long time resident of the Mattson community in Haskell County who recently moved to a farm one mile north of Munday, passed away at his home early Thursday, January 10.

Mr. Prater was born February 10, 1910, in Hill County. He was married to Miss Coila Lowrance in Haskell on October 26, 1935. He was a member of the Baptist Church in Mattson and had farmed in Haskell County for several years.

Funeral services were held from the Baptist Church in Mattson at 2 p.m. Saturday, and burial was in Johnson Memorial Cemetery at Munday. Pallbearers were Bill, Edwin, Truman, Homer, Doyle and Glen Lowrance, Curtis Reid and Joe Malone.

Survivors include his wife; five sons, Leon, of Eldorado, Bobby Frank of Groveton, William A., of Monahans, Jerry L., of Paducah and Charles R., stationed in San Francisco with the U.S. Navy; his mother, Mrs. Lillie Prater of Frederick, Okla.; seven sisters, Mrs. A. R. Cunningham of Longview, Mrs. Ollie Mae Wilson, Mrs. Bernice Burba and Mrs. Steve Sanders, all of Frederick, Okla.; Mrs. Jack Owensby of Clovis, N. M.; Mrs. Joe Quinn of Strathmore, Calif.; and Mrs. Bema Williams of Fort Worth and eight grandchildren.

## Proffitt Serves On Aircraft Carrier

USS KITTY HAWK (FHTNC)—Tommy D. Proffitt, aviation structural mechanic airman, USN, son of Mr. and Mrs. James S. Proffitt of Munday, is serving aboard the attack aircraft carrier USS Kitty Hawk, which recently visited Hong Kong during its current tour of duty in the Western Pacific.

The Kitty Hawk is serving with the Seventh Fleet, a major element of American seapower overseas.

The ship is scheduled to return to the continental United States early next spring. She has been in the Far East since September.

## Bloodmobile To Visit Rhineland On January 24th

A unit of the Red Cross bloodmobile of Wichita Falls will be held in Rhineland on Thursday, January 25, from 11 a.m. until 5 p.m. in the Columbus Hall. This is the Red River regional program.

This will be for Gilliland, Truscott, Benjamin Vera and Rhineland, but anyone who wishes to donate blood at this time is welcome and the blood will be credited to Knox County.

Mrs. C. J. Albus is blood program chairman and James Albus recruiting chairman. The program is sponsored by the Knights of Columbus of the Rhineland community.

Mrs. Albus stated that the bloodmobile program was a great success last year with 66 pints donated and she hopes it will be even better this year. Registered nurses and doctors of Knox County will furnish their services voluntarily.

The following ladies of the Rhineland community will also render their services voluntarily: Mmes. Marvin Zeissel, Everett Kuehler, John Ed Wilde, A. M. Moore, Jr., Jimmie Farber, George Petrus, Robert Hertel, P. W. Albus and V. F. Albus.

## Ladies To Have An Interest In Farm, Ranch Day

GENE WOODMAN

The ladies will not be forgotten on the program for Farm and Ranch Day. The women on the committee that planned the program requested a program on new cotton fabrics. That request has been granted as Mr. Gene Woodman of Altus, Okla., representing the National Cotton Council, will present such a program. Mr. Woodman will have samples of these new fabrics for the ladies to see first hand. He also has two short movies he will use to further tell his story.

The National Cotton Council, central voice of the sprawling United States cotton industry, was organized in 1939, when industry leaders decided the idea of "strength in numbers" was valid only if those numbers had a program to back.

The industry had a common goal—maintaining and increasing the consumption of cotton—but prior to 1939, there was little concerted action for attaining that goal.

Today the National Cotton Council speaks for six separate and distinct cotton industry groups—farmers, ginners, warehousemen, crushers, merchants, and spinners. The goal of increased consumption is the same, and concerted action has provided a program that the industry can

## Mission Study Is Being Held At Methodist Church

Announcement was made by the Pastor that the First Methodist Church of Munday is currently engaged in a Mission Study, called "The Rim of Asia." The study is concentrated on Methodist Missions in Hong Kong, Korea, Formosa, and Okinawa.

The study is being held each Sunday evening at 6:30 p.m. Various groups in the church have presented portions of the study.

Sunday evening, January 20, Mrs. E. T. Pittard of Anson, will be the featured speaker. She is a former president of the North-west Texas Conference Woman's Society of Christian Service. At present, she is a member of the General Board of Evangelism through out the U. S. A. She is Secretary of Foreign Work in the South Central Jurisdiction and is in charge of both retired and active missionaries in the Jurisdiction. She is a member of several conference boards and committees and is very active in Methodist Church of Anson.

She made a tour of the world with the Board of Missions in 1960, and in 1961 was a delegate to the World Methodist Council in Oslo, Norway. That same year she and other members of the Board of Christian Social Concerns toured countries behind the Iron Curtain including Russia, Poland, and East Germany.

Mrs. Pittard will describe the churches and conditions as she saw them in Asia and in the Communist nations which she toured. The public is extended a cordial invitation to attend this special service next Sunday.

Mrs. Pittard will speak to the youth of the church at the 5:00 p.m. in an informal discussion type program.

for a visit with their grandparents, Mr. and Mrs. Omar Cure.

Mr. and Mrs. Jeff Huckabee visited her daughter, Mrs. E. E. Fraizer, and family in Fort Worth several days last week.

Charles P. Prater, S.F.M. 3, is home on leave from the Isle Royale. He will report to Brementon, Wash., on January 31 for assignment on a new ship.

Mr. and Mrs. J. A. Gaines of Dallas visited in the home of Mr. and Mrs. Chan Hughes over the week end and attended the post office dedication ceremonies on Saturday afternoon.

## Servis GYRO 60 STALK SHREDDER

**3" stalks and brush—a cinch!**  
 Heavy duty, for sure! Has been demonstrated on rows of 4" x 4" posts. Easily cuts tough growth like bois d'arc, salt cedar, broom corn. Yet, fits lighter tractors: 20 to 40 HP. Fine shredding. Optional shredding attachment features patented intermeshing blades, makes fine litter of cotton and grain stalks to turn under for soil enrichment. Cuts 60" swath.  
 Fan-type blades available to lift light materials like corn stalks off ground.  
 A-shaped blade carrier and free swinging blades protect against stump damage. Extra heavy blades and carrier develop tremendous momentum, are the secret of the efficient "gyro action" cutting.  
 Also lift models and other sizes. 60" lift model fits all standard 3 pt. lift, 2 pt. Fast Hitch, and AC Snap Coupler. Larger models include 66", 84", 100".  
 Plan to see Servis Gyro this week at:

## Weekly Health LETTER

Issued by the State Health Department

One of the chief contributors to modern American society is the institution known as baby sitting. One noted authority estimated 35 per cent of the buying power attributed to teenagers probably comes from baby sitting salaries.

It wasn't too long ago, that un-

less mother and father had a handy grandma around, they stayed home or took the children with them. Just as freedom has come to other oppressed groups—grandparents no longer get stuck endlessly, because more often than not, they are also out enjoying themselves.

As a result baby sitting has grown into what amounts to a major industry—practiced, all too often, by inexperienced and sometimes unqualified young people.

Whether the youngsters are six months old or 10 years old, parents leaving them want to know the sitter is someone they can trust.

It must be someone the parents know is responsible and sufficiently mature, one who will like the child and get along with him. This calls for a study of the sitter's references if he or she is not already well known to the family.

To be in charge of one or more children and the home they live in is a serious business. Careful arrangements need to be made between the parents and the baby sitter.

Both the parents and baby sitter have obligations in preparing and carrying out the agreement.

Parents should make the request well in advance. A thorough briefing should be made to the sitter—preferably written—explaining where the parents will be including phone numbers, and the expected time of return.

The sitter should meet the child while he is awake, especially on the first visit. The layout of the home should be explained and emergency numbers listed.

The sitter should be alerted for expected visitors or deliveries otherwise the doors and windows should remain locked. Finally the

parents should have the correct change available to avoid confusion and provide safe transportation home.

The sitter's responsibilities are similar. She should keep awake—even if parents allow napping, follow parents' views on TV, phone, snacks and visitors, and make periodic checks quietly on sleeping children.

Full information on food, habits, rituals and nicknames should be obtained. Sitters should understand basic first aid and learn to suspect illness in a child. Safety should be a sitter's first consideration.

The Rhineland Rangerettes battled with Knox City in a 15-B district game Friday night at Knox City. Knox City took the victory with a score of 39 to 21. High scorer for Knox City was Sam Graham and Janice Kuehler for Rhineland. The next home district game will be Friday night with the Benjamin Mustangs.

The Rangers and Rangerettes were hosts to Patton Springs in a non-district clash at Rhineland last Tuesday night. Patton Springs took the game with a score of 26 to 23. Don Meredith, with 16, was high scorer for the winners, and Charles Decker, with 11, for the losers. Patton Springs also took the girl's game with a 40 to 19 tally. Judy Bruggeman was high with 8 for Rhineland and Park and Williams both sank 14 for Patton Springs.

Supt. George J. Petrus has announced the following students have made the A honor roll for

### President of Farm Bureau Urges Aid In Screwworm Fight

WACO—The president of the Texas Farm Bureau has called on county FB leaders across the state to assist in the emergency drive for funds to complete the screwworm eradication program in the southwest.

C. H. DeVaney of Coahoma, in a message to the 200 county presidents in Texas, pointed out that voluntary contributions by producers had fallen \$1 million short of the \$3 million goal set by the Southwest Animal Health Research Foundation. He emphasized that the eradication project would "come to a halt" March 31 unless the \$1 million is raised to match federal funds.

DeVaney, who is also a member of the board of trustees of SWAHRF, reminded the county leaders that policy adopted at the TFB's convention in November in San Antonio "obligates the membership of the Texas Farm Bureau, possibly more than any other group, to see that this program of voluntary contributions by producers is a success."

The policy reads: "We favor and endorse the Screwworm Eradication Program in the

Southwest and urge Farm Bureau members to participate in it. We also recommend that Texas Farm Bureau help secure non-federal matching funds from contributions, fees, and/or transfer of available funds."

The final phase of the voluntary contribution campaign will be planned at a state-wide rally of county Screwworm Committee chairmen January 28 in Austin. In the meantime, the Texas Livestock Auction Association is staging a special one-week campaign January 21-26 during which both local auctions and producers will be urged to participate.

"Let's show everyone that we really mean what we say in our policies," DeVaney said in urging the county presidents to lend their support.

### Activities of The Colored People

By Fannie Mae Johnson

Sunday School was well attended Sunday at all churches. Attendance at the board was poorly on account of the cold weather. We must consider it's God's weather.

Rev. L. T. Jackson was here with his members Sunday. Mr. Ollis Johnson have been

feeling bad ever since his Christmas visit to East Texas.

Mr. Snow Fisher haven't been doing so well lately.

Mrs. Annie Williams have also been sick.

Mrs. Frank Willis brought her little daughter home from the Seymour hospital a few days ago.

Mr. and Mrs. Willie Lee Scott of Knox City and Mr. and Mrs. Edward Bradley was dinner guest in the home of their parent, Mr. and Mrs. Willie Toliver Sunday.

Mrs. Jones and Mrs. Johnson visit Mrs. Endia Beal Sunday. Mrs. Beal have been on the sick list.

Mrs. Toliver and Mrs. Johnson visit the sick Sunday in the Annie Williams and Mrs. Frank Willis' home.

Mr. and Mrs. Thomas Jones visit their parent, Mr. and Mrs. Walter Jones, during the holidays. They hadn't visit here in two or three years or longer.

May I say let us do more for the Master's cause in 1963 then

We did in 1962. We need God in all walks of life. God can get alone without us be we just can't get alone without Him. Ever day of our lives we are closer to the end then we was the day before regardless to our standings in this life. We must some day come to the end and we are going to need a God to come into our dying room. Our prayer should ask God for more faith, more grace and a better understanding how to serve a true and living God.

Section I. That all persons, firms, corporations, or their managers thereof, now operating filling stations, garages, and any other business where automobiles, trucks, or any type of motor vehicles are washed and greased, shall install and maintain adequate sand and grease traps, or improve and reconstruct existing sand and grease traps, whereby sand, mud, or grease shall not drain or flow into any sewer line within the City of Munday.

Section II. All sand and grease traps now existing within the CITY OF MUNDAY shall be repaired and remodeled by the owner, operator, or manager thereof, and maintained in accordance with the details and dimensions hereinafter set out, and in accordance with such details given in the plans attached to this ordinance and a copy of which is on file in the office of the CITY PLUMBING INSPECTOR of the CITY OF MUNDAY.

Section III. All sand and grease traps hereafter constructed shall be of reinforced concrete with all walls, footing and top to be grate. The main tank of these traps shall have an inside measurement of four feet length and four feet width with a minimum depth of five feet six inches. The secondary tank of this unit shall have inside measurements of two feet length, four feet width and minimum depth of five feet six inches. The two tanks being separated by an intermediate wall, of six inches thickness, extending from the floor slab to top slab or cover and being connected with one-four inch cast iron line through the baffle wall set at an angle as per plan. The outlet of the discharge line, from the secondary tank to the sanitary sewer line, shall have a flow line elevation

IS TURNED INTO THE CITY SEWER SYSTEM, TO HAVE SAND, MUD AND GREASE TRAPS PROPERLY CONSTRUCTED TO PROHIBIT SUCH SAND, MUD, AND GREASE FROM GOING INTO THE SEWER LINES; AND PROVIDING FOR CONSTRUCTION, SIZE AND KIND OF SUCH SAND AND GREASE TRAPS SHALL BE CONSTRUCTED IN ACCORDANCE WITH PLANS AND DETAILS ATTACHED TO THIS ORDINANCE AND A COPY OF WHICH ARE ON FILE WITH THE CITY PLUMBING INSPECTOR; PROHIBITING THE DRAINAGE INTO THE SEWER LINES OF SAND AND GREASE FROM FILLING STATIONS, GARAGES, AND OTHER PLACES WHERE MOTOR VEHICLES ARE WASHED OR GREASED, TO PROHIBIT WATER, GREASE OR WASTE MATERIAL TO ESCAPE ON THE STREETS OR ALLEYS OF THE CITY OF MUNDAY, AND PROVIDING A PENALTY.

BE IT ORDAINED BY THE CITY OF MUNDAY, TEXAS:

Section 1. That all persons, firms, corporations, or their managers thereof, now operating filling stations, garages, and any other business where automobiles, trucks, or any type of motor vehicles are washed and greased, shall install and maintain adequate sand and grease traps, or improve and reconstruct existing sand and grease traps, whereby sand, mud, or grease shall not drain or flow into any sewer line within the City of Munday.

Section II. All sand and grease traps now existing within the CITY OF MUNDAY shall be repaired and remodeled by the owner, operator, or manager thereof, and maintained in accordance with the details and dimensions hereinafter set out, and in accordance with such details given in the plans attached to this ordinance and a copy of which is on file in the office of the CITY PLUMBING INSPECTOR of the CITY OF MUNDAY.

Section III. All sand and grease traps hereafter constructed shall be of reinforced concrete with all walls, footing and top to be grate. The main tank of these traps shall have an inside measurement of four feet length and four feet width with a minimum depth of five feet six inches. The secondary tank of this unit shall have inside measurements of two feet length, four feet width and minimum depth of five feet six inches. The two tanks being separated by an intermediate wall, of six inches thickness, extending from the floor slab to top slab or cover and being connected with one-four inch cast iron line through the baffle wall set at an angle as per plan. The outlet of the discharge line, from the secondary tank to the sanitary sewer line, shall have a flow line elevation

set twelve inches above the floor. This line shall be constructed with a 45 degree long radius all extending upward from the secondary tank, a short section of pipe connecting with another 45 degree long radius ell reversing the direction of flow to the sanitary sewer line and a two inch vent pipe connected where discharge line connects to a line which has been properly vented. Other wise, a four inch vent will be required. A Cast iron frame and grate shall be placed in the top slab over the primary tank and the secondary tank provided with a stand cast iron frame and cover for a cleanout.

All dimensions and details for such sand and grease traps will be as per plan, on file in the office of the PLUMBING INSPECTOR of the CITY OF MUNDAY.

Section IV. Any persons, firms, corporation, or their managers thereof, now operating filling stations, garages, and any other business where automobiles, trucks, or any type of motor vehicles are washed and/or greased shall not permit water, grease or waste material to escape or run on the streets or alleys of the City of Munday.

Section V. Any person, firm, or corporation, not complying with the terms and provisions of this ordinance, or allowing sand, mud, or grease to drain into any sewer line within the City of Munday, or shall permit water, grease or waste material to escape or run on the streets or alleys of the City of Munday, shall, upon conviction, be fined in

any sum not less than Five (\$5.00) Dollars nor more than One Hundred (\$100.00) Dollars, and each day of violation shall constitute a separate offense.

Passed and approved on first reading by the City Council of the City of Munday on the 12th day of December, A. D. 1962.

V. E. Moore  
Mayor  
City of Munday.

# CHEVROLET... the Quality truck!

**WALK AROUND IT. SEE THE DIFFERENCES.**

Start at the rear of this Fleetside pickup. Grab the tailgate and pull hard. No give. Two wedge latches keep it tight. Now unfasten them and let down the gate. Jump up and down on it. Does it sag? Notice how the chains are wrapped in rubber so they won't rattle or mar paint.

Now look at the lower side panels. Two walls. You might dent the inside one but it won't show through. The floor will never rust. It's select wood, not metal.

Now please sit in the cab a minute. Comfortable? It also is double walled and the roof is insulated. Let's start 'er up and look for a washboard road. Chevrolet coil-spring suspensions fight road shock better than other types, good for the truck, load and the driver.

There are other things. But you can see why this is a truck that does a job without a lot of pampering. It's built right. Which is why it's usually worth more at trade-in. When would you like us to deliver it?

## Knox Prairie Philosopher Joins In The Move For A Tax Cut, But Not Just On The Washington Level

Editor's note: The Knox Prairie Philosopher on his Johnson grass farm on Miller Creek joins the tax discussion this week, his letter reveals.

Dear editor:  
In nearly every newspaper or magazine I've gotten my hands on lately there has been a bunch of articles on the prospects for a tax cut this year.

According to the experts, a tax cut will stimulate business, increase capital and initiative, and produce more rather than less revenue for the government in the long run. I don't know how this will work, but if the government believes it can get more money out of me by taking less, I'm willing to enter into the experiment.

As I understand it, the present income tax system is riddled with loop holes and a drive may be made by Congress to close them up. My position is that I'm in favor of either closing them or having them pointed out. I'm opposed to all loop holes I don't know anything about and can't

take advantage of.  
However, I have given the tax cut idea some thought and I'm afraid the experts are victims of a blind-spot. They're spending all their time on Federal tax cuts, which everybody is in favor of, but when the rate goes down on the Federal level, what's going to keep it from going up on the state and local level? This advanced idea that a government can get more revenue by taxing less may not have trickled down to the lower levels yet.

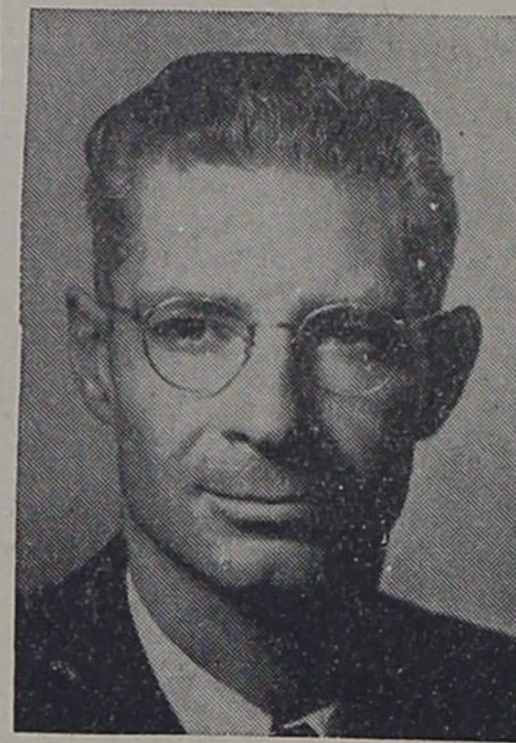

It may take years for Congress to unsnarl the present income tax regulations, but in the meantime I have a handy solution to tide us over. Just give everybody a ten per cent cut in his taxes, from top to bottom. I guarantee I will take my ten per cent and stimulate business with it.

I know a lot of people will say all we'd be doing is piling up a debt for our grandchildren, but what makes you think our grandchildren won't be smart enough to have grandchildren of their own?

Yours faithfully,  
J. A.

CARD OF THANKS  
We wish to express our sincere thanks and appreciation for every act of kindness shown us at the loss of our loved one. We are especially grateful for the food, flowers and comforting words. May God bless each of you.

## Marion's Talk Will Interest Area Cowmen

PAUL T. MARION  
The Cowman will have an interest in the Farm and Ranch Day this year.

Paul Marion, Superintendent of the Agricultural Experiment Station at Spur, will bring results of research work done at the station. This research was started to determine the effects of three levels of feeding on the per-

cent of calves produced, weaning weight of the calves and productive life of the cows. An interesting sidelight which developed was the lower cost of feeding cows in a confined space compared with having them on range.

Paul is a native of El Paso. He holds a B. S. degree in animal husbandry from Colorado A&M College which was awarded in 1936 and an M. S. degree from Texas A&M College awarded in 1940.

Marion served as a graduate assistant at Texas A&M, 1939-1940, where he did research in the Department of Animal Husbandry. He went to the Spur station in 1940 on a temporary basis but in 1941 was appointed cattle feeder for the station. In 1952, he became associate animal husbandman.

His evaluation work on feeds and feeding supplements has been outstanding. More recent studies which he has directed have included the feeding trials with antibiotics, hormones, the use of ground mesquite wood for beef cattle and working out beef cattle programs for utilizing farm produced forages and grains for his section of Texas.

The research worker is a recognized authority in his field. Research findings which he has made have been carried as experiment Station publications such as bulletins, circulars or progress reports.

## Car Buyers' Bulletin

# How Ford spent \$100 million to give you more quality for your money

The Ford Motor Company spent \$100 million in the past two years alone to bring you a combination of quality features found in no other cars. And here's how Ford quality pays off for you... whether you drive the big Super Torque Ford, the middleweight Fairlane, or the fun-filled compact Falcon!

**Superior ride and performance.** For example, \$10 million was poured into the development of the Super Torque Ford's incredibly smooth new ride. Additional millions went to design 6- and 8-cylinder engines that let you choose sensational performance or sparing gas economy... all with minimum maintenance.

**More care-free driving.** Millions more were spent to perfect Ford's twice-a-year or 6,000-mile maintenance features... now in all Fords and Falcons\*. You save time and money. Example: you roll 36,000 miles between major chassis lube!

**Greater safety.** Brakes adjust themselves when necessary. Roofs are reinforced. Doors have safety locks.

**Added luxury.** Richer, longer lasting upholstery. Carpeting that wears up to twice as long as in some cars. Improved insulation insures a quieter ride.

**Smarter styling.** Ford's Thunderbird-inspired lines have set the trend that the whole industry now follows!

**Greater resale value.** From the big, important items like specially galvanized vital underbody parts and long-life batteries... to the "tremendous trifles" such as extended-life light bulbs and stainless steel exterior screws... your Ford or Falcon will stand up better over the years. Will be worth more when time comes to trade.

**And don't forget—Ford Dealers are quality dealers!** We want to keep you happy after you buy... and this is your finest guarantee of value!

### Cold Weather Halts Cotton Receipts

Dry weather allowed harvest and ginning of cotton to proceed so that daily receipts reached 1400 bales according to A. D. Peebles in charge of the U. S. D. A. Cotton Classing Office in Munday.

Cold weather stopped harvest late in the week and will allow gins to clean the yards.

The office classed 6,455 samples for the week ending January 11 and grades ran as follows: Low Middling, 2 per cent; Strict Low Middling Light Spot, 32 per cent; Low Middling Light Spot, 20 per cent; Strict Low Middling Spot, 26 per cent; Low Middling Tinged, 2 per cent; and Low Middling Tinged, 2 per cent.

Staples were 7/8 and shorter, 5 per cent; 29/32, 22 per cent; 15/16, 63 per cent; 31/32 and longer, 10 per cent.

Micronaire readings ran 1 per cent below 2.7, 28 per cent to 3.5 and 70 per cent above 3.5.

Market activity may have increased slightly with Strict Low Middling Light Spot 29/32 averaging 28.97; Strict Low Middling Light Spot 15/16, 29.33; Strict Low Middling Light Spot 31/32, 29.86; and Strict Low Middling Spot 15/16, 28.09.

**IT'S THE LAW**  
in Texas  
A public service feature of the State Bar of Texas

### LOCAL RULE

Under our dual system of government, two sets of law—state and federal—may govern what we do.

State laws have traditionally governed certain fields; for example, the law of wills, estates, and transfers of property upon death. Each state has its own rules on death transfers, how to make wills, and what happens when a person dies without a will.

But the federal government has some power in this field, especially when federal money went to the decedent or when it involved a national policy.

In a dispute between the United States and a State over a decedent's estate, the U. S. Su-

preme Court set forth some of the federal powers: A war veteran died in a veterans hospital without a will or heirs. He had some personal property. Under the state law property escheated to the state. Under federal law his property goes to the U. S.

The U. S. Supreme Court handed the estate to the U. S. under its war powers. When patients die without wills all their property goes to keep up veterans' hospitals and recreation programs.

Other veterans' laws have cut into the states' property laws. Federal laws govern G. I. insurance. They cut off community funds.

As a rule people who live in federal enclaves within a state must obey state laws. Thus, Texas law governs civilians on military and scientific areas, or workers on a federal reservation as to wills, property, marriage and divorce. In the case of crimes, there may sometimes be concurrent jurisdiction.

But the federal government may pass laws to avoid conflict between state laws and a national policy.

(This newsfeature, prepared by the State Bar of Texas, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

Present soil moisture conditions in most sections of Texas are not favorable for a continuation of aerial applications of chemicals for the control of brush oaks and mesquites, advises G. O. Hoffman, extension range specialist.
