Judge J. H. Milam Dies At Seymour

Funeral For Noted Jurist Held at Seymour on Monday Afternoon

Funeral services for Judge J. H. Milam, judge of the 50th district court who died at his home in Seymour Sunday noon, were held at the First Methodist church in Seymour Monday afternoon at 4 o'clock, the Rev. J. M. Fuller, pastor of the Methodist church officiating. The services at the grave were in charge of the Seymour Masonic order.

Judge Milam was born in Warren county, North Carolina, in 1870, and received his education in that state, graduating with honors from the law department of the state university. His law practice in Texas was begun in Benjamin in 1903, and he held the position of county judge of Knox county for eight years.

After moving to Seymour he was associated in his practice with J. A. Wheat. He was elected district judge in 1916, which position he held until his death. His third term of office would have been completed in 1928.

Judge Milam was held in high esteem in West Texas both by his fellow members of the bar and by other citizens. He was a member of the Knights-Templar lodge of Seymour and of Maskat Templar at Wichita Falls. He is survived by his widow, two sons, James H. Jr., and Thomas, one daughter, Mary Grace, all of Seymour, and a brother, C. F. Milam of Birmingham, Alabama. When news reached Munday on Sunday afternoon that Judge Milam had passed away many were heard to express their deep sorrow, for indeed had he established himself in the hearts of the people of this district as a just and able jurist, and in his death this section of West Texas has sustained a great loss.

Old Soldiers Will Meet at Knox City On July 14 and 15

While The Times has been unable to procure a complete program of the old soldiers' reunion to be held at Knox City on July 14 and 15, we are informed by Mr. Henry White of Knox City, a member of the entertainment committee, that Hon. Chas. Coombs of Abilene, Judge Joe A. P. Dickson of Seymour and Judge J. S. Kendall of Munday are to appear on the program as speakers and several other able speakers will be procured for the occasion.

The affair, according to Mr. White, is to be in the form of an old fashioned basket picnic, and everyone is urged to attend and bring with them a well-filled basket of good things to eat, and to bring all elderly friends and acquaintances with them that they may enjoy the occasion.

Some good music is being provided for the occasion by the musical talent of Knox City, with the assistance of Prof. L. D. Campbell of Munday, and we are assured that this will afford an enjoyable feature for the occasion. We are informed further that an abundance of good cold ice water will be furnished, and everyone may expect this to be a most enjoyable occasion.

W. A. Campbell and Fred Warren of Munday are on the entertainment committee.

HORTON-PARTRIDGE

At 6:30 o'clock on the evening of June 25th, at the home of the Rev. R. R. Gilbreath in this city Miss Marion Lee Horton and Mr. Leon Partridge were united in marriage. The Rev. Gilbreath administered the marriage vows, while the Rev. J. H. Hamblin officiated in the presentation of the ring. The young couple was accompanied by Miss Marguerite Denton of Knox City, a cousin of the bride, and T. W. Harber of Lubbock, a cousin of the groom.

The bride is a daughter of Mr. and Mrs. M. A. Horton of Gillespie community and the groom is a son of Mr. and Mrs. Emmett Partridge, also of the Gillespie community, and are popular members of the younger set of that community.

Following his graduation from the Texas A. & M. College, groom has been employed by the Santa Fe Railroad Company in the capacity of civil engineer, and the young couple left on Sunday night, June 26th, for Temple, where they will reside in the future, carrying with them the best wishes of a large host of friends for a long and happy marriage life.

Citizens Contribute Work On Grounds of Knox County Hospital

While at Knox City on Tuesday afternoon of this week a Times representative visited the Knox City Hospital, which will soon be occupied, and we found M. G. Nix, Mr. Hester of O'Brien and Mr. J. R. Wooley of Knox City all busily engaged in removing rubbish and with plows and other tools engaged in beautifying the grounds of the institution.

At first we were under the impression that these gentlemen were working for the county under the direction of Commissioner Nix, but further inquiry revealed the fact that they were contributing their labors without cost and without price, their only remuneration being that feeling of satisfaction that comes from assisting in beautifying the ground around this institution, which is a county institution, and as such, every citizen should feel a certain amount of pride in its upkeep.

Mr. Nix stated that as there were no county funds available for the beautification of the premises he was very anxious that a general yard working be held at some future date, at which time all the citizens of the county who wished to do so could come in and make a contribution in labor toward the beautification of the hospital yard.

George Burgess, One of Bandits Suspects, Is In Dallas Jail

Sheriff J. W. Melton and deputy J. C. Rice on last Saturday transferred George Burgess, the older of the two bank bandit suspects, taken last week in connection with the robbery of the First Bank of Truscott, to the Dallas county jail for safe keeping. Representatives of W. J. Burns detective agency, who were in Benjamin at the time of the robbery, expressed the opinion that Burgess was an old-timer at the game and later actions of Burgess in writing letters aroused the suspicion of Sheriff Melton, and realizing the possibility of a jail delivery, Sheriff Melton quietly took his prisoner to Dallas on last Saturday.

Sheriff Melton also pointed out that there was an advantage in having his prisoner in Dallas for further identification by officers from various sections, and Burgess will likely remain in jail at Dallas until he is called for trial for the Truscott robbery in the District court of this county.

CHAPMANS HOLD FAMILY REUNION AT WINTERS

Mr. and Mrs. W. H. Chapman went to Winters on last Friday to spend the week-end with their parents, Mr. and Mrs. H. L. Chapman, and they were very agreeably surprised upon their arrival to find that all his brothers and sisters had likewise decided to pay their parents a visit, none of them knowing that the others were coming, and it is needless to say that the occasion was a most enjoyable one, for it had been eight years since they had gathered together.

Those enjoying the occasion were Mrs. W. C. Franklin and family of Dallas; Mrs. Ben Guin and family of Ballinger; W. H. Chapman and family of Munday; Mrs. J. E. Johnson and family, C. L. Chapman and family, and M. R. Chapman and family, all of Winters.

Mr. Chapman returned home on Tuesday, while Mrs. Chapman and the children will remain for a more extended visit.

Mr. and Mrs. Frank L. Decker returned the latter part of last week from Denver, Colorado and other points in the west, and report a most enjoyable trip, while Mrs. Decker has been confined to her home since their return on account of illness.

Mr. and Mrs. M. H. Reeves spent the Fourth with relatives and friends in Abilene.

At the meeting of the Munday Local Farmers Union, held here on Saturday, J. D. Henderson was re-elected president for the ensuing year, and the other officers were elected or re-elected as follows: R. L. Gaines, vice-president; J. E. Edwards, secretary; W. T. Cowser, chaplain; Claude Riley, conductor and A. J. Bunts, lecturer.

The local union is planning an entertainment for their members and families and friends of the organization, and a further announcement of this will be made in our next week's issue.

CARD OF THANKS

We wish to express through the columns of The Times our sincere thanks and gratitude to the kind friends and neighbors for the many acts of kindness and words of consolation that they gave during our greatest sorrow, and we assure each and every one that we shall ever cherish the friendship of each of you.

Mr. and Mrs. M. H. McCarty.

Mr. and Mrs. H. L. Caughran of Grady, N. M., have been here during the past week visiting in the home of his mother, Mrs. O. Caughran, and her parents, Mr. and Mrs. J. A. Hendrix. Mr. Caughran is cashier of the First National Bank at Grady, and has been in that city for a number of years, but there are still many of the older citizens who knew him here and who are always glad to welcome him and his family when they come on their visits to relatives.

Little Daughter of Mr. and Mrs. M. H. McCarty Is Called by Death

On Sunday afternoon little Mary Sae McCarty, eleven-months-old daughter of Mr. and Mrs. M. H. McCarty succumbed to an illness of some two weeks duration, and funeral services were held and interment made at Johnson cemetery on Monday morning at ten o'clock, the services being conducted by the Rev. P. D. O'Brien.

The little babe had been stricken some two weeks prior by an attack of whooping cough and bronchitis, which later developed into a congestion of the brain, and upon the advice of attending physicians it was carried to Dallas to receive treatment of specialists there, but it seems that its condition was such that medical skill could do no good and it lingered until Sunday afternoon when death came to relieve its suffering.

It is impossible for the human mind to conceive of the sorrow that comes to the hearts of fond parents when the death angel stalks into the home and takes from them a priceless jewel, and the best that friends can do is to extend our heartfelt sympathy for them in their dark hour of sorrow.

MASONIC MEETING NEXT MONDAY NIGHT

The local Masonic lodge will meet in regular session on Monday evening of next week, at which time the officers who were recently elected will be installed. All members of the order are urged to be present.

SENIOR B. Y. P. U.

We were 100 per cent in attendance last Sunday evening, also there were 6 visitors.

We had a wonderful lesson from the members of group one, which was in charge of the program. Each part was well rendered. Joe Burton, our Bible Reader leader, gave an interesting talk on the daily bible readings.

The young people who could, yet won't attend the B. Y. P. U. really don't know what they are missing.

We invite all the young people to come and join with us and help us to share this wonderful hour. Group two will have charge of the program next Sunday. We will assure you they will have an interesting program for the union.

Gleem McGoethlin of Bomarton was a guest in the home of his parents, Mr. and Mrs. E. W. McGoethlin, on the Fourth.

Munday Golfers Get In On Winnings In Stamford Tournament

Munday's entries in the invitation tournament held last week by the Stamford country club gave a good accounting of themselves. R. E. Alexander having brought home the beautiful loving cup awarded to him as medalist, with a score of 78, he having led his closest opponent, Budley Raines of Stamford, by 9 strokes, and registering a 78 score on a 72-par course, and in the finals Raines won over Alexander one up on a game filled with thrills and sensational plays.

In the second flight Chas. Haynie won over Roy Matthews of Albany one up in 19 holes.

Other Munday golfers who participated in the tournament at Stamford and made good showings were Jack Mayes, Irvan West, and P. D. O'Brien.

At the conclusion of the tournament many complimentary remarks were heard from the players participating in the games on the manner in which the Munday aggregation conducted themselves during the tournament, and Messrs Alexander and Haynie are receiving the congratulations of their many friends over their winnings against the excellent golfers participating in this tournament, which included representatives from Stamford, Munday, Albany, Haskell and many other towns throughout this section of West Texas.

ROGERS-STODGHILL

On Saturday afternoon of last week Mr. Bernard Stodghill and Miss Mary Rogers were united in marriage at the home of the bride's parents, Mr. and Mrs. U. S. Rogers, the Rev. P. D. O'Brien, pastor of the First Baptist church officiating.

These are two of Munday's most popular young people, both of whom have been reared in this city, and number their friends by their acquaintances. The bride is a daughter of Mr. and Mrs. U. S. Rogers, pioneer citizens of Munday, and is a young lady of beauty and culture. The groom is a son of Mr. and Mrs. E. H. Stodghill, and following his graduation from the Munday High School he attended the John Tarleton Agricultural College at Stephenville until his graduation, and last year taught a term in a rural school near Baird.

The young couple left on Tuesday for Silverton, Texas, where Bernard is engaged in assisting his brother, Lyle Stodghill, in the operation of a combine in harvesting the wheat crop, and at a latter date they will return to Munday to make their home.

The Times joins their many friends in wishing for them a full measure of the good things of life which they so justly deserve.

Tax Collector Has New Tax Rolls Up; Little Change Made

A visit of a Times representative to the office of Tax Assessor Earl B. Sams revealed the fact that W. C. Glenn, assistant, had the tax rolls of the county almost complete, according to Mr. Glenn, the valuations for the county this year are but very little different from those of last year.

Gete Moore of Wichita Falls was here the latter part of last week shaking hands with his many friends, and all were delighted to see him looking so well. While yet he has not completely recovered from his long illness, he is greatly improved and hopes to be fully recovered within a few months.

Among those who attended the funeral services for Judge J. H. Milam at Seymour on Monday were W. S. Bailey, E. Duval, C. R. Elliott, J. D. Henderson, J. S. Kendall, M. F. Billingsley and R. D. Bell of Haskell.

The Thoroughfare leading to the new station of the New York Central in Buffalo has been named Lindbergh drive.

Golf Tournament Enjoyed On Fourth

Mundayites Prefer Gentle Game To Barbarous Pastime of Motor Racing

That the citizens of Munday prefer the gentle and fascinating game of golf to the barbarous game of motor racing was evidenced on the glorious fourth, when a large number of Mundayites gathered at the local golf links to spend the day in friendly competition, and we believe that all will agree that it was one of the most enjoyable days that has ever been spent by those who enjoy following the elusive sphere around the fairway—and occasionally into the rough.

The tournament was purely a club affair and every golf fan went into the game with the determination to win in his particular class, or flight, and the competition in each flight was keen, even in the consolation flights.

First Flight

In the first flight P. D. O'Brien vs. Bernard Stodghill, O'Brien won 1-up; Bernard Stodghill vs. L. E. Loveless, Stodghill won 2-1; Dr. Ammons vs. R. D. Atkinson, Ammons won 1-up; Dr. Davis vs. Rid Campbell, Campbell won 4-3; Chas. Haynie vs. J. W. Bullock, Bullock won 2-1; Jim Goode vs. Jack Mayes, Mayes won 1-up; H. F. Barnes vs. I. M. West, West won 2-1. Runners-up—P. D. O'Brien, B. Stodghill, Dr. Ammons, Rid Campbell, J. W. Bullock, Jack Mayes and I. M. West.

In semi-finals Irvan West eliminated P. D. O'Brien 2-1; Rid Campbell eliminated Mayes 3-2; West defeated Ammons.

In finals Irvan West defeated Rid Campbell 4-3. This was one of the hardest fought battles ever witnessed on the local course, with West leading most all the way by a small margin, halving a goodly number of the holes with his opponent.

In the consolation matches L. E. Loveless defeated R. D. Atkinson 3-2; Loveless also defeated H. F. Barnes, while Chas. Haynie defeated Dr. Davis, and the finals are yet to be played by Loveless and Haynie.

Second Flight

In the second flight, Tom Haney vs. C. Brown, Haney won 2-1; F. O. Campbell vs. H. P. Hill, Campbell won 2-1; J. A. Kennedy vs. Chas. McGoethlin, McGoethlin won 3-3; E. H. Stodghill vs. E. H. Bauman, Bauman won 3-2, leaving Campbell and McGoethlin to battle out the match on eighteen holes, with the result that Campbell was winner 1-up.

In the consolation match in this flight H. P. Hill defeated C. Brown, while E. H. Stodghill defeated J. A. Kennedy, and in the Hill-Stodghill match Stodghill was the winner.

Third Flight

In the third flight Tom Campbell vs. Chas. Farrington, Campbell was winner; Ira Bowden vs. E. Duval, Bowden was winner; C. A. Eiland vs. W. H. Atkinson, Atkinson was winner; T. G. Bengt vs. H. A. Oliver, Bengt was winner. In the semi-finals Bowden was defeated by Campbell and Bengt was defeated by Atkinson, and in the finals Campbell won the flight over Atkinson.

This being the first local tournament that has ever been held on the local course, and proving the enjoyable occasion that it has, many of the golf fans are enthusiastic over holding another one at a later date, and since many excellent golfers are being developed from these contests it is likely that some of them will be contenders for honors on some of the courses of West Texas during the next few months.

Many of the ladies came down to the course, and spent the day under the spreading trees and played games to their liking, while some enjoyed a round of golf.

Mr. and Mrs. G. W. Tate and children went to Hamlin on the Fourth and accompanied a party on a fishing expedition to the Clear Fork, and G. W. is telling some very questionable fish stories since his return.

THE VERA ROAD

Several citizens from the Vera community have been here during the past week and state that the road to the bridge on the north side of the river is still in an impassible condition, notwithstanding the fact that the bridges which render the road in this condition have been out for more than a month, and a number of them have expressed their disappointment at not being able to market their wheat in Munday.

This road should and would become an important county thoroughfare if it were kept in a passable condition, but for some reason it has received but little attention in the way of maintenance, and as a result both the road and the bridge over the river have so far proven practically worthless investments.

We do not wish to be understood as directing criticism at anyone, for there may be some good reason for the neglect of this road, and we only hope that the condition that has existed will be remedied in order that the people of the north side of the river and those residing on the south side may have a more direct contact with one another, for to our way of thinking, this is the one thing that Knox county needs more than any thing. The Brazos river has too long served as a dividing line between our people, and we're hoping that the day is not distant when they may be drawn closer together in a social and business way.

REAL FARM RELIEF

An intensive campaign in behalf of agriculture, now being sponsored by leading business men composing the Georgia Association, is attracting nation-wide attention owing to the unique nature of the plan.

The object of the campaign is to raise a fund of \$100,000 to be spent for these purposes: National advertising to secure "land-owner" farmers. Employment of four experienced field men to (1) cooperate with local agencies to improve marketing facilities; (2) perform a land settlement service; (3) render advice in county organization work.

The ultimate object of all this is to rehabilitate 61,000 abandoned Georgia farms by promoting diversified farming, in order that the greater part, at least, of the \$150,000,000 now sent out of the state each year for food and farm products may be kept at home.

Henry M. Atkinson, chairman of the board of the Georgia Power Company, is general chairman of the campaign, and Eugene R. Black, president of the Atlanta Trust Company, is chairman of the finance committee, which is composed of 25 business and industrial leaders.

With such a body of practical men behind the movement, it is likely that a more effective measure of farm relief may be expected than could be hoped for through the medium of national or state legislation. The example of these Georgians is worthy of emulation by real friends of agriculture in other states.

THE TREE OF HOPE

Thebe K. Warner

Did you ever plant a little tree and watch it grow from a tiny, limber little sapling to a big, fine fruit bearing tree? Wasn't you proud of it? How did it all happen? You never saw it changing. You never heard it growing. But you know it grew because it is not today what it was a few years ago. Something has happened to the baby tree.

There is something else growing in Texas. It is not a tree. It is a WORK. It is a great industrial, educational and economic work. This new work has its roots firmly grounded in our A. & M. College while its branches reach out to almost every home in the State.

We might call this new work, a tree, a real, living, growing "Tree of Hope," because on this tree is growing almost every kind of food you can think of. But it bears more than food. On this new Texas tree are growing better homes and prosperity and happiness and culture and cash, and downright clean CASH, and better clothes and hope and contentment and a new light. It's great! Have you planted any of these trees in your county yet?

If you haven't, how many of you wish you had something growing all over your county that would bear more food of every kind, more butter and cream, more eggs and poultry, more beauty and comfort and convenience in your homes?

This new tree was first planted in Texas about twelve years ago. The idea from whence it sprang came from our Government. And no other thing has ever equalled it in development and usefulness. Already its roots have stretched out and taken hold in ninety-one of our counties, and its branches are bringing beauty and prosperity to tens of thousands of our homes. And yet its growth has been so quiet that it has been almost unperceived.

Won't it be grand when this "Tree of Hope," is growing all over every county in Texas; and not only Texas but every county in the whole nation? But what is it?

It is simply the HOME DEMONSTRATION WORK. One of the most sane and useful forms of adult education ever conceived by any educator. And it was conceived by a MAN for WOMEN. Thank the Lord, there was one man who not only saw what was wrong with the Rural Home but saw a way to mend it.

In the beginning as in all beginnings of great things the work was crude and simple. Because no one knew what to do. And no one had at that time been trained to do anything in a dignified, scientific manner. It took several months to inaugurate such a new and universal system of education where every home was to be a classroom and every home-maker a pupil. Oh, the work is not nearly finished yet. It never will be finished so long as new women are born and new homes created. But, day by day, and year by year, it grew, almost silently, except for a row now and then when some misunderstanding soul could not grasp its mission. But like all pioneering, the hardest struggles are past and today instead of the work and the workers again by the present-day work-

CHEVROLET takes the "but" and "if" out of automobile buying and gives you an up-to-the-minute product, constantly improved and perfected. CHEVROLET is a member of that great family group of General Motors products, engineered and built under the strictest supervision by the great research laboratories of General Motors, manned by the largest group of automotive engineers that has ever been assembled by any organization.

CHEVROLET represents the engineering ability of great organization which produces so large a number of recognized merit, and the same engineering skill, the same laboratory tests, the same faultless materials go into the manufacture of CHEVROLETS that go into the manufacture of the higher priced cars produced by General Motors. The same rigid tests are made on the testing grounds of General Motors.

CHEVROLET represents the maximum value in Economical Transportation by reason of the fact that the great engineering corps of General Motors is backed up by volume production, with the result that today CHEVROLET is the largest selling automobile in the

entire world, and to CHEVROLET purchasers accrue the great savings made possible by this gigantic organization.

CHEVROLET offers every modern convenience found on cars of higher price. Merit is a built-in feature which accounts for its constantly growing popularity, not only with individuals, but with great commercial organizations requiring great fleets of cars and who buy not from guesswork or sentiment, but from rigid and determined effort to procure the most Economical Transportation, that their dollars will buy.

CHEVROLET has proven its merit. It does not represent an experiment. The years of usage and extensive research work of General Motors have eliminated that. Large commercial users of motor cars have realized this fact, which accounts for their adoption of CHEVROLET. Individuals are realizing this fact more each year, which accounts for the growing popularity of CHEVROLET with the individual buyer, and which accounts for the growing popularity of CHEVROLET in this territory, as is evidenced by the following sales in Knox and Haskell counties for the Month of June:
