Look To The East

By AARON EDGAR

"We're tenting tonight on the old campground!"

That song, in effect, could be sung by many inhabitants of the Texas Prison System as they started sleeping in tents on Friday, May 22.

The eight-man shelters are mostly made of wood—with plywood floors, walls and rafters. The tents serve as roofs with sides that can unroll to cover the screened windows in case of rain.

"We've got 3,000 people sleeping on the floor," said Rick Hartley, prison spokesman, "and as you can see, the tents provide a lot more liveable conditions."

The Texas Department of Corrections acted under federal court order to stop housing three men to a cell by August 1, and the department must have only one inmate per 45 square-foot cell by August, 1983.

The structures, resembling shelters at a summer camp, were built by inmate labor, but among half a dozen convicts involved in the process, none said he wanted to live in the tents. At first, no prisoner had volunteered to live in the tents.

Better that they should be confined to the Knox County jail!

You see, early in 1980, the Texas Commission of Jail Standards, created by the Texas Legislature in 1975, started bugging Knox County officials to bring our comparatively new jail up to minimum standards.

We had thought facilities of our jail were pretty much on par with any of them; but, along with many others, it was found to be short in minimum standards. A representative of the commission inspected our jail in October, 1979, and mailed county commissioners a list of non-compliances. Jails not meeting the requirements could be closed!

Some of the compliances:

A jail guard should be on duty 24 hours a day. This for a jail that, on occasion, is completely void of inmates!

Another requirement: provide a secure space where booking of prisoners can occur without interfering with dispatching and other functions of the sheriff's office.

Still another: a mechanical means of opening all doors in the security area.

And another: to provide a laundry service for once-a-week laundering of linens and clothing. Many of our prisoners are not kept as long as a week.

Pistol lockers were ordered to satisfy requests that two such lockers be placed near entrance of jail, where pistols may be stored.

A lavatory was installed to provide one for multi-occupancy in one of the cells. Other lavatories and showers were repaired.

Stationary benches in the "drunk tank" were lowered so they would be no higher than eight inches above the floor, unbreakable mirrors were installed, light fixtures replaced with tamper resistant ones, door stops for all swinging detention doors were obtained, and on and on.

It was a very expensive operation for Knox County officials, with many of the changes believed to be aimed for larger jails than ours.

In addition, Knox County also constructed new quarters for the county sheriff and his crew, since they were no longer permitted to operate within the courthouse. Open house for this facility was held on October 9, 1980. The new facility adjoins the county jail.

But our county was not the only one to be found below standards. We recently read that Wichita County must immediately begin plans for air-conditioning their "county bastille" to give their "patrons" a more comfortable environment.

As our state was set on more comfort and safety for our jails, officials became more and more relaxed about their own prison difficulties. It took a federal court order for them to act on crowded conditions.

As we heard via the grapevine: Looks like we're making things first-class for our prisoners. To break the law, get caught, tried and convicted, is kinda like being invited to a first-class room in a plush hotel or motel!

THE RESIDENCE of Mrs. Wallace Reid received severe damage on the inside of the structure during a fire which broke out in the home early Tuesday afternoon, May 28. The fire is believed to have started from an electrical short, and the firemen experienced a problem with intense heat and smoke, rather than actual flames.

The Word Is "Go" For Potato Harvest

Potato growers are approaching a "green light", and preparing to proceed with harvest. Some expect to be in the fields before the week's end, possible yesterday or today (Wednesday or Thursday). Others, weather permitting, will begin Monday, June 8.

In conversation with Bill Kingston, who is associated with Munday Vegetable Growers, it was learned that their crews would possible enter the fields of Chalmer Hobert first, "possibly Wednesday or Thursday of this week."

About 550 acres will be harvested through Munday Vegetable Growers. Growers include Mr. Hobert, Garon Tidwell, Dan Offutt, J. T. Offutt, Mark and Floyd Reed and Bill Kingston.

Housing for the harvest crews is a crucial problem, and one not easily solved. Approximately 35 workers are

involved.

Things are also "hopping" at the Colville-Wilson potato shed. According to Mr. Jack Colville, they hope to begin digging on Monday, June 8. The first crop to be harvested belongs to J. W. Michels. Other growers include Austin Tomlinson and Leland Floyd. Colville-Wilson also process the red potatoes grown by Kiser and Sons. Mr. Colville said they will be processing about 285 acres of potatoes this year.

Mr. Colville stated, "So far, the rain have all been very beneficial. The vines, but not seriously. We kill the vines ten to seven days before digging to stop maturity of the potatoes. The crop of potatoes looks great this year - in fact, one of the prettiest ever. But of course, we all realize the crop looks prettiest when it is in the bank."

B. E. Smith and Sons also plan to start digging on Monday. They began defoliating on Thursday, May 28. The Smiths have their own housing for the digging crews which is a definite asset for them.

June 8 will be "all systems go" for Kiser and Sons, too. Freddie, Steve and Danny were busy with preparations and aiming toward that day when attempt was made to contact them earlier this week.

They have slightly over 480 acres and work local people in their operation. They use approximately 20 workers.

Barring complications, potato growers in this area should be all smiles in a short time.

They have about 460 acres and work local people in their operation. They use approximately 20 workers.

Local Woman's House Damaged By Fire May 26th

The Munday Fire Department received a call Tuesday, May 26, between 2 p.m. and 2:30 p.m. to the residence of Mrs. Wallace Reid. Fire chief Freddie Caram stated that the fire had possible been going something less than an hour when the firemen arrived.

Caram stated, "The fire was in a critical stage when we arrived. There was such intense heat we were unable to enter until a door was forced open for a short cooling period. The best we can determine it was started by an electrical short and was nothing like an ordinary fire. China dolls had simply melted, and furniture was blistered from the heat alone. Actually, there was no blaze visible except in the living room ceiling. I would say every piece of furniture was damaged by the heat and smoke."

The firemen realized by observing the storm windows' change in color etc. that the residence was very close to exploding. However, when ventilation was made available the actual flames to be distinguished were few.

Mrs. Reid had left her home only a short time before a worker at a neighbor's house saw the smoke.

Station Burglarized For Second Time

Burglars entered the Collins Mobil Station here early Monday morning for the second time within a month.

Dorse Collins, operator, stated that entrance was gained into the greasing room by breaking a glass in the east door. This was between 4 a.m. and 7 a.m. Monday, as police had made a check of the station at the earlier hour.

Three new batteries and a case of oil were taken in this raid. The oil and one battery were found hidden just east of the station.

Investigating were Melvin Cypert of the local police, Gene Nix, deputy sheriff, and Marshall Brown, Texas ranger.

Mr. Hawthorne is married, and the couple have an eleven-year-old daughter, Stacy. The family will be moving to Goree from Farmersville, Texas where Mr. Hawthorne served as elementary principal. Previous to his position in Farmersville, he taught in Springlake-Earth Independent School District.

He attended Southwestern College in Waxahachie, Henderson State in Arkansas and received a master of education degree in 1968 from Eastern New Mexico University in Portales, New Mexico. He completed course work for educational doctorate at East Texas State University, Commerce.

Mr. Hosea and his wife, Peggy, will continue to make their home in Goree. Having been in the teaching profession some 27 years, Mr. Hosea is not "throwing in the towel". He will teach business on a part-time basis in Goree High School during the 1981-82 school year.

Lions, Ladies Have Fun

It was a sort of "funfest", as planned, when members of the Munday Lions Club and their ladies gathered at the Community Center on Tuesday evening, May 26, to observe Lions Ladies' Night.

Boss Lion Norman E. Anderson emceed the event, and welcomed Lions and ladies to "the biggest event of the club year," explaining that the club has spared no expense to make this an outstanding occasion. He then "reeled off" the program items in unique style!

The program was patterned, on purpose, after a regular club meeting—with invocation, dinner, singing, the pledge, introduction of officers, presentation of awards—then the visiting entertainer took what time was left!

Since this was also geared as officer installation night, Anderson read the officer list and made some choice remarks about their duties, when they take office on July 1, 1981.

Officers are: Gary Schur, president; J. M. Christensen, vice president; M. C. Hurst, second vice; Dr. W. H. Stewart, third vice; J. W. Smith, secretary; Frank Jackson, lion tamer; Bob McWhorter and W. H. Bellinghausen, tail twisters; and Aaron Edgar, publicity.

Directors are: McWhorter, Chan Hughes, Frank Jackson, E. B. Littlefield, Norm Anderson and Kenneth Baker.

Mona Choucair is pianist and lions' sweetheart. In the awards department, Weldon Smith presented anniversary chevron awards from Lions International, based on five-year periods, to Douglas Myers, 25 years, being a transfer from the Weinert Club; Barton Carl, 25; Chan Hughes, 20; Robert Nix, 20; and Kenneth Baker, 15.

Receiving perfect attendance awards were: Norm Anderson, W. H. Stewart and Ivan Allen, one year; Bob Brown, four years, Dale Selzer, five years, J. W. Smith, 11; Chan Hughes, 18; Charles Baker and E. B. Littlefield, 26; and Aaron Edgar, 27.

For entertainment, Charles Baker introduced Rev. Mike McKinney, pastor of the First Baptist Church of Haskell, who did a nice job of blending his vocal cords with his guitar playing for several enjoyable and entertaining numbers. He discarded his guitar and "rattled off" several tickling jokes and things, then picked up his instrument for his final song. All this got him a standing ovation!

Then came more awards! Boss Lion presented certificates of appreciation for jobs well done to: Bob McWhorter, who

chaired the broom sale; Frank Jackson, who headed the softball tourney; Douglas Myers, boss of the city-wide cleanup, and Gary Schur, who was the carnival chairman.

Boss Lion Anderson then got his just dues! He was presented a plaque, by incoming president Schur, for "riding herd" on the Lions for a successful year.

Fifty-two persons attended this supposed-to-be annual event!

Wichita Falls Team Wins Tournament

A full weekend of softball was enjoyed by a good crowd, and also the players. Teams from Haskell, Rule, Quanah, Wichita Falls, Goree, Weinert and Munday entered the tournament.

Two games were played Thursday night before rainfall put a stop to the action. Players returned to the field at 6 p.m. on Friday and games ran consecutively until 1 a.m. A total of seven games were completed. The last scheduled game was cancelled on time limit and a run rule.

At 8:30 Saturday morning, a number of men were on the scene to get the field in shape for the final day. By 12:00 noon the games were again on schedule as planned before the raindrops fell. The last game of the tourney which was between the Seymour Merchants and the Wichita Falls Aces began at twenty minutes to six o'clock (that is a.m.) on Sunday morning. The Aces won the game, making them the tournament winners and the Merchants were in second place.

According to Freddie Caram, a spokesman for the tourney, it was a real pleasant weekend for the spectators as well as the players. He said, "The players came to play ball and enjoyed it. We appreciated the response to the concessions, too. It will help us toward adding to our softball program. We also thank each volunteer who helped us in the concession stand."

How Common Is Cancer?

It is estimated that one out every four Americans will develop cancer sometime in their lives, if present rates continue. This year, cancer is expected to be diagnosed in some 765,000 American men, women and children.

Surprisingly, while cancer is certainly a major health concern of most people, the general public tends to underestimate cancer incidence. Cancer's occurrence is more common than they realize.

MRS. MIKE HOSEA

Estes, Hosea Exchange Vows In Goree Ceremony

Shelli Renee Estes and Robert Micheal Hosea were united in marriage on Saturday, May 30, 1981 at seven o'clock in the evening in the First Baptist Church in Goree. Officiating the double ring ceremony was Rev. Hal L. Mobley, pastor of the church.

The couple's parents are Mr. and Mrs. Robert Hosea of Munday and Mr. and Mrs. Don Estes Jr. of Goree.

Given in marriage by her father, the bride chose a formal gown of white luster

sheer polyester over taffeta. The fitted bodice with alencon re-embroidered lace was fashioned with a sweetheart neckline and sprinkled with sequins and seed pearls. Deep cuffs held the full bishop sleeves. The a-line skirt held a border of wide alencon lace and wide bands of lace trailed from the waist down the skirt. Three wide flounces of luster sheer finished with lettuce hems flowed to a chapel train. Lace motifs dotted the skirt. Her mantilla of English illusion was bordered with alencon lace.

Sheila Kay Estes of Goree served as her sister's maid of honor. She was attired in a long dress of pink chiffon over silesta polyester. The sheer blouson waist fashioned with a scoop neckline and caplet slit sleeves held the full a-line skirt. The small self tie belt was accented with a self cabbage rose.

Bridesmaids were Michele Bowman and Debra Decker, both of Lubbock. They were dressed identical to the maid of honor.

Y. Ramirez of Munday was best man. Groomsmen were Carey Shawver of Megargel and Johnny Fetsch of Wichita Falls.

Senior Citizens Enjoy Singing

The Munday Senior Citizens enjoyed another night of singing on May 29, in the Community Center. Guest singers were here from Red Springs, Olney, Goree and Knox City. After group singing, we were favored with several numbers by Mr. and Mrs. Tom Christ and Loyd Robertson.

Very Informative Program Hosted By A&M Research Station

With wheat harvest in full swing, a number of area farmers were unable to attend the very well planned and informative field day held Thursday, May 28, at the A&M research station in Munday. The day was hosted jointly by The Texas Agricultural Experiment Station and The Texas Agricultural Extension Service.

The group of interested persons, together with the agricultural scientists on the program, gathered for coffee and registration on the east side of the A&M Research Station building and had a brief visitation time before the meeting was opened by David Bordovsky, research engineer with the Munday Station.

Mr. Bordovsky introduced Dr. Earl Gilmore, who is associated with the Vernon Center. Dr. Gilmore, in expressing his appreciation for

the work Mr. Bordovsky and his staff had done in preparation for the day's activities, also expressed his thanks to Mrs. Callie Ann Combs, manager of Munday Chamber of Commerce and Agriculture. He stated, "It's nice to have good neighbors and we appreciate very much the cooperation we have enjoyed with the people here in Munday."

Dr. Gilmore said, "Rolling Plains Research is a cooperative effort between the Vernon Research and Extension Center and stations in Munday, Iowa Park, Chillicothe, and Spur. They are all tied together, making a team, bringing technology to producers. They do not operate independently. With their cooperation, we are able to increase efficiency and productivity, making the best use of the taxpayers dollar. We believe in cost ef-

SEVERAL SPEAKERS who shared their knowledge during the field day program held at the Texas A&M Research station in Munday on Thursday of last week are pictured above. From left, are Mr. David Bordovsky, Dr. Frank Hones, Dr. C. J. Gerard, Dr. Bill Lyle, Dr. Jeff Slosser, Mr. Doug Smallwood and Dr. Earl Gilmore. Two men, not pictured, who were also on the program, are Mike Stevens and Dr. L. E. Clark.

DAVID BORDOVSKY, research engineer, associated with Texas A&M research station in Munday, is at left foreground. Mr. Bordovsky is explaining the reduced tillage he is using in a field of grain sorghum to cut production costs to a group present for the field day on Thursday, May 28.

ficient research, and feel we are delivering this type research."

Mr. Bordovsky then

thanked Mr. Herbert Partridge for his assistance, the Munday Independent School District for furnishing buses

and drivers for the field trip, and the tour guides.

Dr. Bill Lyle was the first speaker for the morning, sharing the latest research data on center pivot irrigation and low energy precision application (LEPA) systems. He explained findings on LEPA irrigating, sprinkler, and furrow type, given information on application efficiency and distribution efficiency of each as shown by accurate records kept during the research.

Dr. Jeff Slosser, associated with the A&M Center at Vernon, shared knowledge of irrigation timing for bollworm management in cotton. He explained data they had collected on temperature readings etc. to determine when eggs would most likely be laid in cotton fields.

Dr. L. E. Clark gave a report on cotton production systems, giving detailed information of different varieties of cotton. He is with the A&M Center in Vernon. The guests and program directors then boarded the

bus for a first hand look at the various crops being grown on the experimental farm at Goree.

Dr. C. J. Gerard of Vernon gave a report on the use and potential benefits of furrow diking of the Rolling Plains. Cotton furrows had been diked on the Goree farm and visitors were able to visualize the savings in water run-off by the use of this method.

A plot of grain sorghum was observed, while David Bordovsky spoke to the group on the reduced tillage methods he was using on the grain to cut production costs. Mr. Doug Smallwood of Lubbock gave a very informative talk concerning potato breeding, noting advanced potato breeding lines.

Mr. Mike Stevens, of the Munday station, also spoke to the visitors on potatoes being grown, giving reports of their findings on zinc nutrition of potatoes.

Dr. Frank Hons of Texas Tech in Lubbock shared information on nitrogen leaching as influenced by nitrogen source.

The program concluded with the visitors viewing the beautiful plots of ripening wheat, and listening to Dr. Earl Gilmore explaining new variety releases and greenbug resistance in small grains.

David Bordovsky expressed his appreciation to his staff and the specialists who were on hand to give a report on many of the projects being carried on. He stated, "We have had a good program, and a great deal of worthwhile information has been shared today."

Danny Hertel To Serve As FFA Reporter

Danny Hertel, son of Mr. and Mrs. Robert Hertel, will serve as reporter of the Munday FFA Chapter for the 1981-82 school year.

Danny was unidentified in the photo of the officers published in last week's Courier, and was second from the right.

Flowered Pathways Delight Six Flags Visitors Each Year

From early March to late November, visitors to Six Flags Over Texas are delighted by its flowered pathways, hanging greenery and lush lawns.

At the present time, more than 43,000 petunias and pansies are in bloom. During a full season the 200-acre park uses more than 200,000 plants to maintain a fresh look.

Area Men Named To Committee

A livestock producer committee has been named for this area to assist in implementation of the Texas brucellosis program. Members are:

Don Brothers, Paducah; Rob Brown, chairman, Throckmorton; William Gholson, Aspermont; Jim Humphreys, Guthrie; Billy Leese, Vernon; Gary W. Mathis, Stamford; John Moorhouse, Seymour; C. T. Parker, Rising Star; John Russell, Matador; Chaunce Thompson, Breckenridge; Clarence Wolf, Windthorst; and Dick Yeager, Vernon.

The committee is one of 15 throughout Texas. Commissioners of the Texas Animal Health Commission have named one committee for each of the 15 TAHC areas. This group represents

TAHC area 14.

"Selection of these committees is a major step forward in the Texas brucellosis program," John Armstrong, Kingsville, chairman, TAHC, said. "All members are actively engaged in livestock production, and their suggestions and recommendations as to how to improve and implement the Texas Plan for brucellosis control will be invaluable to Commissioners and the entire staff of the TAHC," Armstrong explained.

More than 600 names were submitted statewide for consideration. A total of 180 producers were selected and have agreed to serve for terms ranging from two to six years.

"The entire livestock industry should be grateful to these producers who have volunteered their time in this endeavor," Commissioners said.
