NEW PRODUCER BROUGHT IN AT TEXACO FIELD

Drilling to Start Soon On L. K. Johnson Number 11

A new well, the L. K. Johnson No. 11, was brought in last week at the Texas Company field in the southwest part of Foard County. It is producing about 100 barrels of oil daily at present. The well was drilled to a depth of 1,552 feet. It is located 1,600 feet south and 150 feet east of the Pease well, the L. K. Johnson No. 10. The new producer brings the total number of producing oil wells in the field to 5, with two strong producing gas wells. Plans and preparations are being made to begin drilling soon on the L. K. Johnson No. 11 with an electric rotary rig. The location for the new well is 3,500 feet east and 750 feet south from the northwest corner of Section 37.

CROWELL LAKE RE-STOCKED WITH MINNOWS

Bass, Perch, Cat and Crappie Placed in Lake

Twenty-eight hundred minnows were placed in the Crowell City Lake on Thursday of last week to restock it with fish, according to C. Schlagen, mayor. Bass, channel cat, brim, goggle-eye perch, and crappie minnows were placed in the lake under the supervision of Crutcher Cole, game warden. The minnows were brought here from Diversion Dam near Wichita Falls. They came from a government fish hatchery. Larger bass will be placed in the lake in the spring for breeding purposes. They will be obtained from the Crowell Country Club. All the fish in the City Lake, which was drained, August 3, were died or were transferred to the Country Club lake. During the drought in the summer months the lake became so low that many of the fish died prior to being transferred. Under the direction of the state fish and oyster commission, the live fish were moved to the City Lake. Mr. Cole estimated the number of fish transferred to be between three and four thousand. Mr. Schlagen estimated that the lake would be large enough for fishing in two or three years. He stated that before the fish could be brought they must measure up to regulations of the Texas Game and Oyster Commission.

Old Water Well Produces Five Gallons Gasoline

About five gallons of pure gasoline were drawn from an old well located about 20 feet west of Speer's Blacksmith Shop yesterday when it was uncovered after being abandoned ten years. The old well was uncovered yesterday and a wire dropped into it. When the wire was drawn out, it produced the odor of gasoline. A small can of gasoline was then drawn from the well after which approximately five gallons were observed before water was found. Ernest Speer uncovered the well and dropped the wire into it for the purpose of grounding his radio in preparation for the A. M. T. C. U. football game which was broadcast Saturday afternoon. The well had been covered for ten years. A board covering the well was buried beneath the grass and was growing over it. It is impossible for the gasoline to have run into the well as it is cased with tin. The most plausible explanation is that the gasoline seeped into the well after leaking from underground gasoline tanks at nearby gas stations. The well was dug many years ago by the late C. B. Garlinghouse, one of the county's first settlers.

Many Foard County Teachers Will Go To Greenbelt Educational Association Meeting at Quanah Saturday, Oct. 24

Many teachers of Crowell and Foard County will attend the Greenbelt Educational Association for teachers which will be held in Quanah Saturday, October 24. A. W. Adams, president of Abilene Christian College, will be the principal speaker at the meeting, according to Superintendent E. A. Sanders of Quanah, president of the association. C. M. Elwell of the State Department of Education, will also be a speaker on the program.

PEASE DAM PROJECT TO GET HEARING

Henry and Clark Will Attend Hearing At Vernon

C. S. Clark of Austin, brother of Dr. Hines Clark of Crowell, will attend the public hearing in Vernon Friday afternoon regarding flood control work on Pease River. Mr. Clark is chairman of the State Board of Water Engineers. Other state officials will also attend the hearing. Dr. Clark and M. S. Henry, both members of the board of directors for the proposed flood control project, will attend the public hearing.

The hearing will begin at 3:30 p. m. in the district court room of the court house at Vernon. All interested persons are invited to attend or send representatives. Those who might be affected by the proposed dam near Crowell on Pease River are urged to attend the hearing.

Army Engineer Cunningham of Vicksburg, Miss., is due to arrive in Vernon today to make preliminary arrangements for the hearing. Mr. Cunningham will be in charge of it.

A farm-to-farm survey has been completed by the Pease River Flood Control District from the site of a proposed dam, about nine miles northwest of Crowell to the junction of Pease and Red rivers north-east of Vernon to determine the amount of damage to farms and property. These figures will be reviewed at the hearing. The construction of a dam near Crowell has been offered as the most practical and effective plan of controlling the river's floods.

The Flood Control Act passed by Congress last summer provides for a preliminary examination of Pease River and tributaries with a view of controlling of floods. The character and extent of improvements desired in the matter and the probable benefits will be considered and discussed at the hearing.

According to the legislative act creating the Pease River Flood Control District, the supervision of flood control measures in the district would be under the direction of the State Board of Water Engineers and the State Reclamation Engineer.

First Session of FFA Held Tuesday At Crowell School

The Crowell F. F. A. Chapter held its first monthly meeting at the Crowell High School Tuesday, October 20, at 7:30 p. m. to decide on objectives for the coming year. Thirty-one members and Walker Todd, the advisor, were present. The program consisted of parliamentary practice, and the following objectives were set up: sponsor a show, conduct one high school assembly, entertain home economic girls with picnic, trip to Centennial, 100 per cent F. F. A. dues paid, take pictures of group activities, landscape new school grounds, Father and Son banquet, enter district judging and athletic contest, make scrap book, treat and test 75 per cent seeds planted on projects, buy baby chicks cooperatively, 100 per cent completion of projects, have local fat stock show. Committees of three were elected for the first four objectives because the chapter thought that they would be taken care of in the near future. After the adjournment, basketball and other games were played in the high school gymnasium. Refreshments of ice cream and cookies were served in the gymnasium. The coming meetings will be held on the second Tuesday of each month at 7:00 o'clock.

Todd Leads Mates To Win Over TCU Frogs; 2 Touches

Dick Todd of Crowell, former high school football star here, led the Texas A. & M. Aggies to a Southwest conference victory over the Texas Christian University Horned Frogs last Saturday. Todd racked around end 13 yards for the first of the Aggie touches after having carried the ball 51 yards to place it in scoring position. He also scored the last touchdown after running 76 yards to the Horned Frog six-yard line before he was downed. According to newspaper reports, Todd carried the ball often averaging long gains on each play to lead the Aggie back field composed of himself, "Chink" Manning, Jim Shockey and Dick Vitek. In his performance Saturday he wrote Aggie history as he and his mates downed the Horned Frogs the first time in 12 years. He also wrote history by leading the Aggie to a Southwest Conference victory over the Texas Christian University Horned Frogs last Saturday. The Aggies venture to Waco this week-end to tackle the Bears of Baylor University. The Bears upturned the dope bucket last Saturday by rallying in the last quarter and nosing out the Texas University Longhorns 21 to 18.

REPORTS ON FARM PLAN COMPLETED

All reports of performance of the Soil Conservation Program, the new federal farm plan, in Foard County have been completed and mailed in, according to County Farm Agent John Nagy. The total number amounted to 556. The reports have already been mailed into the home office of the extension service at Texas Agricultural and Mechanical College at Bryan. These reports furnish the basis for the government's payments to the farmers who comply with the national farm program. The reports give the measurements and ratio of land devoted to soil depleting, soil conserving and soil conserving crops. Official measurements were taken by twelve men of this county (Continued on Last Page)

Miss Oleta Thompson, who is in the hospital following an appendicitis operation, is improving.

MRS. ED DOZIER DIES AT THALIA; BURIED OCT. 17

Smith, Brotherton and Holt In Charge of Funeral Rites

Mrs. Ed N. Dozier, 48, died at her home in Thalia Friday and was buried in the Thalia cemetery Saturday. Funeral services were held at the cemetery Saturday afternoon with Elder E. J. Smith of Medicine Mound, Rev. M. G. Brotherton, pastor of the Margaret Methodist Church, and Rev. C. R. Holt, pastor of the Thalia Baptist Church, conducting the services. She had been a resident of Thalia several years. Pall bearers were H. W. Banister, Gordon Davis, E. J. Grimley, G. H. Mathews, W. E. Pigg, and H. W. Gray. Flower bearers were Misses Lillie Sykes, Lela Belle Hembree, Geneva Wood, Norma Jean Long, Audrey Abston and Mrs. Bob Carroll.

Survivors are her husband; two sons, Herman of Gainesville and Roger of Thalia; two daughters, Miss Virgie Dozier of Thalia and Mrs. H. A. Dodson of Vernon; a brother, W. O. McDaniel of Crowell; and three sisters, Mrs. B. F. Henry of Crowell, Mrs. W. W. Henry of Thalia, and Mrs. Jess Gilmer of Allison.

WILDCATS VIE WITH RACERS OF THROCKMORTON

Crowell Seeking Third Straight Circuit Scrimmage

A lean pack of Throckmorton Greyhounds, the starters averaging only 147 pounds to the man, clash with the still lighter Crowell Wildcats averaging 143 and one-half pounds to the man, here Friday night in Wildcat Stadium. The Greyhounds, having battled heretofore on equal terms in conference warfare with one victory and one loss, will endeavor to move on the sunny side of the 500 mark. The Wildcats will have as their aim a third consecutive victory to keep their conference slate unmarred so that they may mix with the Burk Burnett Bulldogs in the Kenel the following week on equal terms with reference to conference statistics.

Statistics, reasoning and theory place the teams on nearly equal terms although posters and predictors slightly favor the Wildcats. Burk beat Throckmorton and Chillicothe by the same score of 42 to 0. Chillicothe and Crowell clashed last week with the Gravesmen on the long end of the score by one point. That comparison rates the Cats one point higher than the Greyhounds. To contradict this, the Pack has already won a touchdown in a former engagement, which gives the visitors the edge.

Only last week the Greyhounds made twice as many first downs against Burk Burnett, conference opponents, as the Eagles did against the Wildcats, all of which indicate a probable offensive threat.

The Smithmen from Throckmorton County boast four returning lettermen, Captain Neely at center, defensive tackle Hibbits and (Continued on Page Five)

Delinquent School Taxes Must Be Paid By December First

The Board of Trustees for the Crowell Independent School District has announced that if delinquent school taxes are not paid prior to December 1, they will be collected as provided by law and suits will be filed through the District Court. The resolution passed by the board at its last regular meeting stated, "After December 1 collection will be made as provided by law and suits filed through the District Court. We much prefer, however, that payments be made without litigation, which will mean a saving to the taxpayer and to the School District." At present the delinquent school taxes in the Crowell district amount to approximately \$25,000. The school board stated it could not continue to operate the school system on a fifty or sixty per cent collection each year. It also stated that it was behind with teachers' salaries and operating expenses.

MONUMENT ERECTED ON TOWN SITE OF OLD MARGARET; CYNTHIA ANN PARKER TO BE HONORED WITH ANOTHER MARKER TODAY

Officers for Voting Boxes for General Election Tuesday, Nov. 3, Named by Commissioners' Court; Supplies Ready

Foard County's presiding judges and assistant judges for the general election to be held Tuesday, November 3, have been announced by County Judge Vance Swaim. The election will determine the next president and vice president of the United States and will elect officially the state, district, county and precinct officers in Texas which were nominated in the second Democratic primary election held Saturday, August 22.

Crowell Officers A. D. Campbell, judge, and George Mapp, assistant judge, will preside at the polls in voting precinct 1, southeast Crowell. Polls in precinct 2, northeast Crowell, will be under the direction of R. H. Cooper, judge, and G. T. Lanier, assistant; precinct 3, southwest Crowell, will be under the supervision of Paul Wallace, judge, and B. F. Ivie, assistant. T. V. Rascoe, judge, and W. F. Thomson, assistant, will be in charge of the polls in precinct 4, northwest Crowell.

Other Polls in County A. L. McGinnis and C. F. Bradford have been chosen to hold the election at Margaret, precinct 5. For the East Thalia precinct Charles Hathaway, judge, and J. F. Mathews, assistant judge, are in charge. West Thalia judges are J. A. Stovall and Loyd Fox.

In charge of the Precinct 8 polls, Foard City, are J. T. McDaniel and Tom Callaway. C. E. Gaffard and J. J. McCoy are scheduled to direct the polls at Black.

Vivian, precinct 10, will have R. S. Haskew and C. J. Benham, judge and assistant judge, respectively, in charge of holding the election. R. G. Whitten and A. T. Beasley will direct the voting at Rayland and H. K. Black and A. L. Davis were selected for the Good Creek polls.

Mr. Swaim stated that the election materials were at his office and were ready for distribution to the election officials. He urged that they obtain them as soon as possible.

CAMPAIGN FOR DEMO MONEY PROGRESSING

The drive to raise money to be used by the Democratic party in its campaign to re-elect President Franklin D. Roosevelt and Vice President John Nance Garner is well under way in Foard County, according to the committee in charge of the drive. The drive was begun last week and is in full swing this week with committee members in Crowell and other communities of the county assisting in obtaining the county's quota. Those in Crowell to whom contributions may be given are: A. R. Sanders, county chairman; Leo Spencer and T. P. Reeder, J. P. Davidson is in charge of donations at Margaret, J. A. Stovall at Thalia, and W. D. Lawson at Rayland. The committee has asked that all contributions be made as soon as possible, as the money is needed immediately, but contributions will be accepted up until the date of the election Tuesday, November 3. A state-wide drive is under way to obtain a contribution equal to the ones made in the past to the Democratic party. Texas has always been one of the most liberal states in the South in its donations to the Democrats, and the state committee is attempting to live up to its reputation by turning in to the national committee its quota.

OFF TO CENTENNIAL

Truscott public schools dismissed Tuesday and Wednesday of this week and the pupils and teachers attended the Texas Centennial Exposition in Dallas. All students who attended were not counted absent from school. Many of them went by bus to Dallas and others rode a special train from Seymour which carried pupils of the scholastic age from Baylor, Knox and Haskell counties. Special rates were given the children. The pupils returned in time for school this morning.

Rialto Theatre Sold To H. S. Leon; Moody To Be Local Manager

The Rialto Theatre has been purchased from L. F. Campbell by H. S. Leon of Haskell. It was announced officially Tuesday night. It will continue to operate under the new management of Dwight Moody, formerly in charge of the moving picture and talking equipment. The change will become effective after the first show Saturday night of this week. Mr. Leon purchased the equipment from Mr. Campbell. He already owned the building. Mr. Leon is the owner of moving picture theatres at Haskell, Albany, Baird and Talco. Mr. Moody has been operator at the Rialto since it has been under the management of Mr. Campbell, who took charge in February, 1935. Woodrow Lemons, who has been employed at the theatre, will fill Mr. Moody's former position as operator.

Commissioners and County Judge Attend Session for Officials

County Judge Vance Swaim and County Commissioners A. W. Barker, John Marr and W. A. Dunn left Tuesday morning to attend a convention for judges and commissioners of the state being held at Dallas this week. The Foard County judge and commissioners will return Saturday after attending three days of the meeting. Special features in connection with the Texas Centennial have been arranged for the entertainment of the visiting county officers.

FOUNDATIONS LAID SATURDAY BY STATE MEN

Mrs. Roberts, Beverly and Thompson Help Find Locations

A 2,400-pound monument made of gray Texas granite marking the old town site of Margaret, formerly known as Pease, was erected Tuesday in the northwest corner of the Jim Sam Smith farm east and north of the present town site of Margaret.

Another marker in tribute to Cynthia Ann Parker, a character famous in this section of the state, is to be erected today.

J. W. Rice, field representative of the Texas Centennial Commission, made the locations for the two monuments last Thursday. He was assisted by Mrs. N. J. Roberts, Foard County Centennial Chairman, J. R. Beverly and Clarence Thompson.

The marble company in San Antonio, which has the contract for erecting the markers, sent laborers, materials and equipment here Saturday to pour the concrete foundations for the monuments.

The crew which laid the old Margaret marker was en route to Childress to place a monument at an old stage coach stop. They planned to place a marker at Ft. Elliott near Shamrock also.

The monument on the Jim Sam Smith farm is five feet ten inches high, 32 inches wide and 10 inches thick. It is located in Section 326, Block A of the H. & T. C. Survey. A little over a mile east of the old Margaret stone the location for the Cynthia Ann Parker marker was designated. It will be on the John Wesley farm. The marker erected Tuesday bears the replica of the Texas State Seal and an inscription stating the purpose of the monument.

The Board of Control, Centennial Division, is in charge of the inscriptions, engraving and erection of numerous monuments in the state this year. The money to offset the cost of the markers was appropriated by the state legislature.

Famous Facts—And Fancy—Had You Heard That—

Mud, Clay, Sand, Earth, and Grit are all towns in Texas. There is a rose bush in every yard at Rosebud, Texas.

Texas produces about 90 per cent of the polo ponies in the United States. The first official flag of Texas was a single gold star in a blue field.

Clint, Hunt County, Texas, is the smallest incorporated town in Texas, having a 1930 census population of only 88 people.

When Texas became a Republic, it had an area of about 250,000 square miles but a population of only about 30,000. Lemonville is in Orange County. It is estimated that 20,000,000 visitors will visit the various Texas Centennial Celebrations in 1936 and that they will consume 320,000,000 eggs, 280,000,000 pounds of butter, 240,000,000 pounds of vegetables, 300,000,000 quarts of milk, 150,000,000 pounds of meat in eating approximately 1,000,000,000 meals.

Every building in New Braunfels has a tin roof. German settlers putting on tin roofs to get lower insurance rates. Sweetwater gets its water supply from "Bitter Creek."

As Texas had not declared herself independent of Mexico, the Texans defending the Alamo against the Mexicans still fought under the Mexican flag.

Texas has 700 species of birds and 270 kinds of fish. All elections were held on Sunday in Texas prior to Independence. (More next week.)

Riley Trammell and family of near Four Corners visited his parents, Mr. and Mrs. Trammell, Friday night.

Mr. and Mrs. L. T. Boren and small son, Joe Don, and Mrs. C. O. Nichols visited in the Ethel Boman home of Five-in-One Wednesday.

Mr. and Mrs. Otis Gafford are the proud parents of a baby boy, born Sunday, Oct. 18, in the Quanah hospital.

Mr. and Mrs. B. F. Whatley left last week to visit their son, Herman Whatley, and family of Thalia. Mrs. Whatley has been on the sick list for several weeks but is improved some at this writing.

Mr. and Mrs. L. T. Boren visited relatives at Paducah Saturday. Lee Ellen and Frances Hanks of Crowell spent Sunday night with Elba and Melba Simmons.

W. C. Trammell and family spent Saturday afternoon with their daughter, Mrs. Frank Quigg, and family of Quanah.

Mrs. R. G. Nichols spent Thursday with her sister, Mrs. Walter Banister, and family of Thalia.

Sherman Nichols and family visited her brother, Herman Whatley, and family of Thalia Wednesday.

Dock McKown of New Mexico is here visiting his mother, Mrs.

H. J. R. No. 23

For a number of years there has been a definite movement to give State Employees the benefit of Workmen's Compensation insurance. The State by law, requires other employers in all other industries to carry such insurance on its employees while the State has not done so.

It will be possible for the State to insure its workers under the terms of the third proposed Amendment to the Constitution, which will be submitted to Texas voters November 3rd, according to Secretary of State B. P. Matocha.

The amendment is permissive and not compulsory. It gives the Legislature power to provide such insurance. It does not compel them to do so.

It is pointed out that perhaps the most men effected by this proposal are in the Highway Department where most of the hazardous work of the State is done.

However, there are a number of other departments which would be interested.

The heart of the amendment is found in the following language: "The Legislature shall have power to pass such laws as may be necessary to provide for Workmen's Compensation Insurance for such State Employees, as in its judgment is necessary or required; and to provide for the payment of all costs, charges, and premiums on such policies of insurance; providing the State shall never be required to purchase insurance for any employees."

S. J. R. No. 26

Removal of the absolute power of pardon and parole from the hands of the Governor and vesting it largely in those of a non-political board, is the effect of Amendment No. 4, on the November 3rd ballot. This Amendment known as S. J. R. No. 26, makes provision for the Governor to grant parole, pardon, commutation, etc., of sentences upon the recommendation of a Board.

In interpreting the Amendment Secretary of State B. P. Matocha said: "The proposed Board of Pardons and Paroles would be comprised of three members; one of whom would be appointed by the Governor; one by the Chief Justice of the Supreme Court and

Tillie McKown, and other relatives.

Bert Hanks and family of Crowell spent Sunday afternoon with Mr. and Mrs. Dick Sparks.

Wild Ostrich Is Timid

The ostrich in the wild state is timid, wary and alert. He relies upon his speed to save him from his enemies, but is capable of putting up a terrific battle by kicking with his feet. One of his two toes is armed with a hoof-like nail capable of doing much damage.

QUESTIONS AND ANSWERS

- 1. What is the name of commissioner of big league baseball?
2. What two major teams in the world series?
3. To what league does each of the two baseball teams that tested in the world series belong?
4. Who was appointed Secretary of War, temporarily, to a vacancy caused by death?
5. What was the name of predecessor who was removed death?
6. What position was held the new secretary previous to appointment as Secretary of War?
7. What action has France recently taken in regard to her currency?
8. What is meant by devaluing the franc?
9. What two other major nations have recently thus devalued their currency?

Pimples, Blackheads Go! Palmer's "Skin Success" quickly removes, then helps heal even the most stubborn pimples, blackheads, etc. Successful for 25 years. Also use Palmer's "Skin Success" Soap to keep skin clear. 25c each everywhere.

Nerves Do they torture you by day? Keep you awake at night? What is it that keeps hospitals open and doctors busy? NERVES. What is it that makes your face wrinkled and makes you feel old? NERVES. Nine times out of ten it's NERVES that make you restless, worried, haggard. Do they make you Cranky, Blue--give you Nervous Indigestion, Nervous Headache? When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nervous Strain brings on Headache. Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly. Do they interfere with your work; ruin your pleasure; drive away your friends? You're cheating yourself and the man who pays you if you work when your NERVES are not normal. You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank. Quiet your nerves with DR. MILES' NERVINE Liquid and Effervescent Tablets

Grain Expert Gives Treatment for Oat, Barley, Wheat Smut

The planting season for fall-sown wheat, oats, and barley is at hand. All these small grains are subject to smuts that cause loss if not prevented by seed treatments which experiments have shown to be effective. Wheat, oats and barley are each affected by two smuts, "covered" and "loose," but each type of smut of each grain differs from the others and requires for most part different treatments, according to a mimeographed circular by Dr. P. C. Mangelsdorf, Agronomist of the Texas Agricultural Experiment Station.

The Stinking Smut of Wheat, also known as bunt or covered smut is characterized by balls of smut that replace the grains but as the outer glumes or chaff are not affected, it is difficult to distinguish normal from diseased heads of wheat in the field. The spore masses when crushed give off a disagreeable fishy odor and in the threshing process the healthy grains are often covered with the black ill-smelling powder from the diseased heads and are unfit for flour until put through a special scouring process. Smutty wheat is subject to a discount on the market averaging some 10c per bushel. The losses due to stinking smut

are (1) lowered yield of sound grains, (2) loss from dust explosions in the threshing process due to the oily nature of the smut spores, and (3) the loss due to penalties for lower market grade. Stinking smut is controlled by destroying the spores before the seed is planted. An old method was to dip the seed in a bluestone solution and a later method uses a formaldehyde solution, one pint commercial formaldehyde to 40 gallons of water in which to soak the grain. Both these methods are effective but they are laborious to use and germination will be injured unless the grain is planted promptly. A new method consists in coating the grains which copper carbonate dust. For small amounts of seed a small rotary churn is satisfactory as a mixer. For larger amounts a barrel mounted on an axis is used. The grain may be mixed with the chemical in a concrete mixer or by shoveling on the floor on in any way to insure a complete coating of every grain with the chemical. Copper carbonate is a poison and when inhaled causes irritation and nausea. The operators should therefore be protected by respirators or moist cloth tied over the mouth and nose. Copper carbonate is used at the rate of two ounces (two heaping tablespoons) per bushel if applied in a closed mixer but if applied loose, more dust will be required. Copper carbonate that will pass through a 200 mesh screen and contains 52 per cent copper is generally recommended. Seed can be treated any time before planting and can be stored indefinitely without injury to germination. There is evidence that copper treatment improves germination and prevents to some extent damage from insects and rats. The hot water treatment for loose smut is also effective for stinking smut.

CLAYTONVILLE

(By Pairlee Weathered)

Mr. and Mrs. G. W. Brown and family visited friends and relatives at Chalk Saturday and Sunday.

Mr. and Mrs. Will Holland of Quanah are visiting Mr. Holland's sister, Mrs. J. M. Weathered. They were accompanied by Mr. Owen and Archie Ketchersid.

Mr. and Mrs. R. E. Weathered and children of Foard City visited Mr. and Mrs. J. M. Weathered Sunday.

Misses Ruby Myers and Elizabeth Young visited Pairlee Weathered Sunday.

J. B. Weathered returned home Sunday after sowing wheat for Grady McLain for the last two weeks.

Mr. and Mrs. C. T. Wisdom visited friends at Crowell Saturday night.

Mr. and Mrs. George Foster spent the week-end visiting Mrs. Foster's parents, Mr. and Mrs. I. P. Saunders, of Goree.

O. J. Polk was ill last week.

J. T. Thurmond of Childress visited his daughter, Mrs. Tommie Polk, Sunday.

are (1) lowered yield of sound grains, (2) loss from dust explosions in the threshing process due to the oily nature of the smut spores, and (3) the loss due to penalties for lower market grade. Stinking smut is controlled by destroying the spores before the seed is planted. An old method was to dip the seed in a bluestone solution and a later method uses a formaldehyde solution, one pint commercial formaldehyde to 40 gallons of water in which to soak the grain. Both these methods are effective but they are laborious to use and germination will be injured unless the grain is planted promptly. A new method consists in coating the grains which copper carbonate dust. For small amounts of seed a small rotary churn is satisfactory as a mixer. For larger amounts a barrel mounted on an axis is used. The grain may be mixed with the chemical in a concrete mixer or by shoveling on the floor on in any way to insure a complete coating of every grain with the chemical. Copper carbonate is a poison and when inhaled causes irritation and nausea. The operators should therefore be protected by respirators or moist cloth tied over the mouth and nose. Copper carbonate is used at the rate of two ounces (two heaping tablespoons) per bushel if applied in a closed mixer but if applied loose, more dust will be required. Copper carbonate that will pass through a 200 mesh screen and contains 52 per cent copper is generally recommended. Seed can be treated any time before planting and can be stored indefinitely without injury to germination. There is evidence that copper treatment improves germination and prevents to some extent damage from insects and rats. The hot water treatment for loose smut is also effective for stinking smut.

Loose smut of wheat is marked by spore masses easily detected in the field. It destroys the beards and chaff as well as the kernels which are replaced by black spore masses which are usually blown away by harrow time. The damage from loose smut of wheat is confined to the reduction in yield due to destroyed grains. The disease is spread by microscopic threads of fungus within the seed itself and disinfecting the seed coat has no effect on the disease. Therefore the "hot water" treatment is used to kill the fungus but of course the water is not to be heated so much as to kill the germinating power of the seed. One method is to soak the seed in unheated water for 4 to 6 hours and dip into hot water at 120 degrees for a few minutes and then immersed in water at 129 degrees F. for 10 minutes. After removing from the hot water it is again dipped in cool water or quickly spread into a thin layer to dry. Another method is to soak the seed 3 hours in water at 110 degrees to 115 degrees F. In either method the grain is immersed in bags half filled and suspended by ropes and kept constantly agitated. Burlap bags are better as they are penetrated by hot water four times as

GULF PRODUCTS ARE BEST Let us service your car with GULF Products. Efficient, courteous treatment is always certain for patrons of this station. Fill your crankcase with Gulfpride Oil and let your car test its excellent qualities. Gulfpride Oil Good Gulf Gasoline Gulf Lube Oil Gulf Fly Killer Careful Washing and Greasing. GULF SERVICE STATION CROWELL, TEXAS PHONE 288

Presenting the phenomenal facts about GULFPRIDE THE WORLD'S FINEST MOTOR OIL THE facts on this page sound hard to believe. But here is the reason why GULFPRIDE—and only GULFPRIDE—can accomplish such results... Gulf begins with selected Pennsylvania crude, refines it to a motor oil that equals the best—then further refines it by the exclusive Alchlor process. Only GULFPRIDE is made by this process—result of 15 years' research—the same scientific research that has made every Gulf product a leader. Read the facts below. Then drain your dirty summer-worn oil and refill with GULFPRIDE now. At all Gulf dealers. AN AMAZING TEST. Bottle No. 1 shows a mixture of 6 famous Pennsylvania motor oils. Bottle No. 2 shows them after being put through Gulf's Alchlor process. Bottle No. 3 shows the 20% waste removed from these already highly-refined oils by Gulf's Alchlor process. This process starts where others stop! That's why GULFPRIDE is the world's finest motor oil. TOPS IN THE AIR—8 out of the 11 winners in last year's National Air Races used GULFPRIDE OIL, the identical oil you can buy for your car at any Gulf dealer. This "aviator's oil" will take you farther before you need to add a quart than any oil you ever used! THE U. S. NAVY specifications for motor oil, as well as those of all other government agencies, are bettered on every point by GULFPRIDE. For instance, this oil forms only 1/4 the amount of carbon allowed by Navy specifications. That's why GULFPRIDE almost completely banishes carbon cleaning. GULFPRIDE THE ONLY ALCHLOR-PROCESSED 100% PURE PENNSYLVANIA OIL IN SEALED CANS ONLY

Mrs. R. G. Nichols spent Thursday with her sister, Mrs. Walter Banister, and family of Thalia. Sherman Nichols and family visited her brother, Herman Whately, and family of Thalia Wednesday.

Dock McKown of New Mexico is here visiting his mother, Mrs.

one by the Chief Justice of the Court of Criminal Appeals. They will serve for six years, one member's term expiring every two years. It would be impossible in this manner for any one individual or official to ever have complete control of the Board.

The Governor is given the power to grant one thirty day reprieve in a death case. This is his only initiative, however. He has the veto power on all recommendations and he may revoke paroles and conditional pardons.

This amendment was given its impetus by Governor James V. Allred, who is advocating its enactment. It is believed that its adoption may be a step toward ending abuses and stopping mistakes made in the issuance of various forms of clemency.

In cases of treason, under the terms of the proposed Amendment the Governor has the power to grant reprieves, commutations of punishment and pardons with the advice and consent of the Legislature.

At the present time all power of clemency, commutations, etc., is vested in the Governor and no small portion of his time is devoted to reviewing the thousands of applications. It is a strain and a responsibility which many feel is too much to place on any one individual.

Pimples, Blackheads Go!

Nerves Do they torture you by day? Keep you awake at night?

What is it that keeps hospitals open and doctors busy? NERVES. What is it that makes your face wrinkled and makes you feel old? NERVES. Nine times out of ten it's NERVES that make you restless, worried, haggard.

Nerves Do they make you Cranky, Blue--give you Nervous Indigestion, Nervous Headache?

When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache. Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interfere with your work; ruin your pleasure; drive away your friends?

You're cheating yourself and the man who pays you if you work when your NERVES are not normal. You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.

Quiet your nerves with

are (1) lowered yield of sound grains, (2) loss from dust explosions in the threshing process due to the oily nature of the smut spores, and (3) the loss due to penalties for lower market grade. Stinking smut is controlled by destroying the spores before the seed is planted. An old method was to dip the seed in a bluestone solution and a later method uses a formaldehyde solution, one pint commercial formaldehyde to 40 gallons of water in which to soak the grain.

Both these methods are effective but they are laborious to use and germination will be injured unless the grain is planted promptly. A new method consists in coating the grains which copper carbonate dust. For small amounts of seed a small rotary churn is satisfactory as a mixer. For larger amounts a barrel mounted on an axis is used. The grain may be mixed with the chemical in a concrete mixer or by shoveling on the floor in any way to insure a complete coating of every grain with the chemical.

Copper carbonate is a poison and when inhaled causes irritation and nausea. The operators should therefore be protected by respirators or moist cloth tied over the mouth and nose. Copper carbonate is used at the rate of two ounces (two heaping tablespoons) per bushel if applied in a closed mixer but if applied loose, more dust will be required. Copper carbonate that will pass through a 200 mesh screen and contains 52 per cent copper is generally recommended. Seed can be treated any time before planting and can be stored indefinitely without injury to germination.

There is evidence that copper treatment improves germination and prevents to some extent damage from insects and rats. The hot water treatment for loose smut is also effective for stinking smut. Loose smut of wheat is marked by spore masses easily detected in the field. It destroys the beards and chaff as well as the kernels which are replaced by black spore masses which are usually blown away by harvest time.

The damage from loose smut of wheat is confined to the reduction in yield due to destroyed grains. The disease is spread by microscopic threads of fungus within the seed itself and disinfesting the seed coat has no effect on the disease. Therefore the "hot water" treatment is used to kill the fungus but of course the water is not to be heated so much as to kill the germinating power of the seed. One method is to soak the seed in unheated water for 4 to 6 hours and dip into hot water at 120 degrees for a few minutes and then immerse in water at 129 degrees F. for 10 minutes. After removing from the hot water it is again dipped in cool water or quickly spread into a thin layer to dry.

Another method is to soak the seed 3 hours in water at 110 degrees to 115 degrees F. In either method the grain is immersed in bags half filled and suspended by ropes and kept constantly agitated. Burlap bags are better as they are penetrated by hot water four times as

rapidly as cotton bags. Care must be used to maintain the water temperature required. The laborious hot water treatment is to some extent injurious to germination and some growers treat only a small amount of seed for a seed plot which is grown on an isolated area to produce clean seed that will not require treatment for the following season. Such seed plots are observed closely and smut heads appearing are carefully removed. Both skill and extreme care are necessary to succeed with this method.

The hot water treatment also destroys the spores of stinking smut and when both smuts are present only one treatment is necessary. When the hot water treatment has been used the germination percentage should be determined and increased seed allowed, since the somewhat lowered germination due to seed injury in the treatments may cause more loss in yield than would the smut.

Treatment for Covered Smut of Barley consists of soaking the seed two hours in a solution of one pint formaldehyde to 40 gallons of water. Uspulun, a commercial seed disinfectant, has been effective in controlling this disease. The treatment of Loose Smut of Barley is the same as for the loose smut of wheat except the water is kept at 126 degrees F. and the seed is immersed 13 minutes.

GULF PRODUCTS ARE BEST Let us service your car with GULF Products. Efficient, courteous treatment is always certain for patrons of this station. Fill your crankcase with Gulfpride Oil and let your car test its excellent qualities. Gulfpride Oil Gulf Lube Oil Good Gulf Gasoline Gulf Fly Killer Careful Washing and Greasing. GULF SERVICE STATION CROWELL, TEXAS PHONE 288

Presenting the phenomenal facts about GULFPRIDE THE WORLD'S FINEST MOTOR OIL THE facts on this page sound hard to believe. But here is the reason why GULFPRIDE—and only GULFPRIDE—can accomplish such results... Gulf begins with selected Pennsylvania crude, refines it to a motor oil that equals the best—then further refines it by the exclusive Alchlor process. Only GULFPRIDE is made by this process—result of 15 years' research—the same scientific research that has made every Gulf product a leader. Read the facts below. Then drain your dirty summer-worn oil and refill with GULFPRIDE now. At all Gulf dealers. AN AMAZING TEST. Bottle No. 1 shows a mixture of 6 famous Pennsylvania motor oils. Bottle No. 2 shows them after being put through Gulf's Alchlor process. Bottle No. 3 shows the 20% waste removed from these already highly-refined oils by Gulf's Alchlor process. This process starts where others stop! That's why GULFPRIDE is the world's finest motor oil. TOPS IN THE AIR—8 out of the 11 winners in last year's National Air Races used GULFPRIDE OIL, the identical oil you can buy for your car at any Gulf dealer. This "aviator's oil" will take you farther before you need to add a quart than any oil you ever used! THE U. S. NAVY specifications for motor oil, as well as those of all other government agencies, are bettered on every point by GULFPRIDE. For instance, this oil forms only 1/4 the amount of carbon allowed by Navy specifications. That's why GULFPRIDE almost completely banishes carbon cleaning. GULFPRIDE THE ONLY ALCHLOR-PROCESSED 100% PURE PENNSYLVANIA OIL IN SEALED CANS ONLY

Rest in the Lord, and wait patiently for him: fret not thyself because of him who prospereth in his way, because of the man who bringeth wicked devices to pass. —Psalm 37:7.

Medical science has produced a new immunization agent against diphtheria, toxoid. It is claimed children once treated are forever immune to diphtheria. The toxoid is administered by injection under the skin. Ninety per cent of all cases of diphtheria occur in children between the ages of six months to ten years. In many states immunization treatments are furnished by the county free of charge. In one state where immunization of this type was practiced there was a reduction of seventy-eight per cent in cases and seventy-five per cent in the number of deaths occurring from this cause over a period of five years.

Mrs. Ann Sullivan Macy, 70, who gave nearly 50 years of her life to helping Helen Keller to speak and see, died Tuesday in the Forest Hills, Long Island, home. Miss Keller, the famous blind and deaf prodigy, prayed for strength to "endure the silent dark until she smiles on me again. My teacher has gone from me a little while, but I shall feel her presence anew when my eyes are blessed with light, my ears saved unto harmony, and my imprisoned light set free." Thus ends a beautiful life of service to others, and to one in particular, the pupil, whose life might have been so different.

After a man or woman once gets the reputation in a community for being a gossip, the community seems to lose a lot of confidence in the quality and authenticity and reliability of the gossip they put out. Perfection in this line, in other words, brings discredit.

WILDCATS NOSE OUT EAGLES IN CONTEST 7 TO 6

Klepper Blocks for 81 Yard Gallop by Rasberry

Although they suffered somewhat of a let down after their game with the Iowa Park Hawks October 9, the Crowell High School Wildcats nosed out the Chillicothe Eagles 7 to 6 here last Friday night to keep their 10-B conference record clean.

It was early in the first quarter with the ball on the Wildcat 19 that Rasberry took the snapback, found a gap over right tackle, and raced behind Klepper and other blockers the length of the field for the 81-yard run and the only Feline touchdown of the night. Klepper paved the way for the six pointer by blocking out the last man between Rasberry and the goal line. It was the longest run in the 10-B conference circle this year.

Rasberry passed to Simmons for the extra point which proved to be the margin of victory for the Crowell lads in their second consecutive conference win.

Chillicothe Scores
 The Eagles' counter came a quarter later as Rasberry's attempt to punt from his 14, after the Gravesmen were assessed a 5-yard penalty, was blocked. The oval bounded across the goal line and Dodson, Eagle end, fell on it for the six points. Big 184-pound fullback Davis failed to kick the extra point.

There were no more threats during the rest of the first half of the tilt.
 As the whistle ended the game, Wildcats were in hot water as Francis passed from Crowell's 43 to Davis on the 23. The powerful fullback was finally downed on the Crowell 11-yard stripe. On the first play the Eagles lost 2 but a line plunge made up for it. Another plunge by Bell, who replaced Davis, took the pigskin to the 6, but the next play, a pass, was incomplete for the fourth down as the gun sounded the termination of the third period.

The Wildcats took the ball and powerhoused it back to Chillicothe's 45 after leaving their own

6. However Rasberry's punt was partially blocked which gave the enemy the ball on their own 40. Another thrill of the final quarter was Orr's interception of Francis' pass. Francis passed from his 43 deep into Wildcat territory, but Orr came up with the ball and bounded, side-stepped and twisted back to Chillicothe's 35 before he was finally brought to earth.

As the whistle ended the game, the Wildcats punted futilely on the fourth down with only 3 yards to go for a second touchdown.

The scorekeeper kept the Chillicothe fans in high spirits and the Crowell followers in hot water from the first of the third quarter until the game was nearly over after a mix-up over the Wildcat goal line. In a freak play a Chillicothe player touched an Eagle punt and knocked it over the line and the gridsters began falling on it.

The scorekeeper excitedly added six points to the Eagles' 6 and gave them credit for a touchdown. However, he changed his mind and subtracted 3 points, but found that it could not have been a field goal. He finally decided it must have been a safety so credited the Eagles with 8 points to the Wildcats' 7.

It was not until the end of the third quarter that he was told that it was merely a touchback and the ball was given to Crowell on their own 20.

The Crowell aggregation played less inspired ball than they did the previous week, but the line deserves special mention, especially in its defensive work.

Play by Play

McKown kicked for Crowell to Francis who was nailed on the Chillicothe 43. Francis' pass deep through the line and Davis ran over left tackle for 2. Davis punted out of bounds on Crowell's 34.

Rasberry picked up about 6 over left tackle and then fumbled on the next play. Chillicothe recovered on Crowell's 49 with Bettles falling on the ball.

Davis picked up 2 and then 5. Francis gathered up 2 of the necessary yardage for a first down and Davis punted to Crowell's 19. Rasberry punted on the first down out of bounds on the Crowell 32.

Davis plunged for 4 and then for 7. Thompson and Orr replaced Shook and McKown. Davis was good for 3 and Francis sifted through for another. Francis made two incomplete passes and the Wildcats took the ball on their 19.

Rasberry went off right tackle for a touchdown with plenty of blocking and clearing the field of the last Eagle who stood in the path to victory. Rasberry passed to Simmons for the extra point. Score—Crowell 7, Chillicothe 0.

Rasberry kicked to Francis who was downed on Chillicothe's 31 after he was almost loose. Davis charged for 4 and Francis lunged to the Chillicothe 40. Davis cinched the first down with 8 yards through the line. Vecera replaced Statser. Francis garnered 3 more. Davis failed to gain and Francis made 2. Davis punted and Duncan killed the ball on Crowell's 18.

Rasberry made no gain on two tries then punted to Francis who was dropped on Crowell's 49.

Davis made 3 through the line and Francis lost 2 and tried to circle end. Francis made 3 and Bal-dree was substituted for Benefield as the quarter ended.

Second Quarter
 Davis punted to Eddy who was stopped on his own 17. Rasberry got 2 through the middle and Rasberry drew a 5-yard penalty. Rasberry's punt was blocked and Dodson fell on the ball behind the goal line for a touchdown. Davis' kick was low. Score—Crowell 7, Chillicothe 6.

Davis kicked to Rasberry who returned to Crowell's 36. Rasberry snatched 4 off left tackle. Meason waded through Chillicothe tacklers for 2 and Rasberry was halted on the midstripe. He ten took 3 over left tackle, and a reverse netted no gain. Eddy passed incomplete and Rasberry punted out of bounds on the Chillicothe 35.

Francis made 3 through the line and Davis plunged for 4. Francis went 2 for a first down and then plunged to the 50. Francis was good for 2 and Davis made no gain. Davis punted to Eddy who was downed on Crowell's 14. Rasberry plunged over left guard for 6 then went over right tackle for 3 more. He plunged for the first down ending on his own 29. He was downed for a 2-yard loss on left end but made it back on the next play. He punted to Francis who was dropped on Chillicothe's 45.

Davis picked up 2, then 3 on plunges. Davis ran for an 8-yard gain off punt formation. Davis punted to Eddy who fumbled and the ball bounced out of bounds on Crowell's 8. Rasberry plunged for 4 then swept off right tackle to the 20. Orr zigzagged through to the 32, but was called back and Crowell drew a 5-yard penalty. Rasberry returned the ball to Crowell's 35 as the half ended.

Third Quarter
 Davis kicked to Meason and he returned it to Crowell's 33. Rasberry plunged to Crowell's 43, but fumbled and Chillicothe recovered it.

Morrison failed to gain through the line. Francis picked up 3. Francis made 2 sound end and Davis punted over the end zone. Crowell took the ball on her 20 and failed to gain on 2 plunges and a round-end sweep. He plunged to Francis who was nailed on Crowell's 47. Davis was good for 2 and Francis drove for 5. Davis plowed for 8 and Bal-dree plunged for 4. Francis lost and Francis' pass was incomplete. Davis punted and Eddy took the ball on his own 14. Rasberry swept right end for

6 then drove through the middle for 4. Again he squeezed through the line for 9. He failed to gain on the next plunge, but made 3 for a first down on the next play. He tromped over left tackle for 4. On the next play the Wildcats were assessed a 5-yard penalty. Rasberry went through the middle for 3 and Meason snatched up 6. On the fourth down Meason plunged for the necessary yardage, but the play was called back and Crowell was penalized. Chillicothe was given the ball. Bal-dree made no gain and Francis got 3 to Crowell's 43. Francis to Davis was a pass continuation which netted 22 yards as the big fullback was downed on the Crowell 11. Davis lost 2 but plunged for 3. Bell replaced Davis. Bell plunged for 4 and the fourth down was an incomplete pass as the third quarter ended.

Fourth Quarter
 Rasberry loped 20 yards over right tackle to stop on his 26. He plunged for 5 and then picked up 3. He failed to gain, then was good for 3 and 3. A lateral pass, Meason to Rasberry, almost got Rasberry in the open, but he was dropped on Chillicothe's 49. Meason picked up 1 and then 3. Rasberry failed to gain. He punted, but it was partially blocked. A Chillicothe player fumbled it and Crowell recovered, but the gain was not sufficient for a first down. Chillicothe took the ball on their own 40. Francis made a yard and a lateral Francis to Bell to go to Crowell's 46. A pass was incomplete and Francis punted out of bounds on Crowell's 38.

As the Wildcats attempted to lateral, they fumbled but recovered on the 31 after losing about 7. Rasberry made 1 and punted to Francis who was downed on Chillicothe's 43. Orr took Francis' pass deep in Crowell's territory and raced and sidestepped back to Chillicothe's 35 before he was snared. A pass by the Wildcats failed to work. Rasberry plunged to Chillicothe's 30. Davis went in for Bell. Rasberry went to the 25 for the first down. He plunged to Chillicothe's 20, then failed to gain. He went over left tackle to Chillicothe's 11. He made 1 then drove through for 5. On the third down he made 2. On the fourth down the Wildcats needed 3 yards for a touchdown, but the final smash of the game was for no gain.

 McKown Quarterback Bal-dree
 Meason Left Half Morrison
 Lankford Right Half Morrison
 Substitutes: For Crowell—Thompson, tackle; Orr, left half; Vecera, left guard. For Chillicothe—Campbell, right guard; Bal-dree, left guard; McKinnon, left half; Benefield, right half; and Bell, fullback.

Statistics: Yards gained from line of scrimmage—Crowell 276, Chillicothe 105. Yards lost—each 6. Passes—Crowell tried 1 with 1 incomplete, Chillicothe tried 7 with 1 complete and 1 intercepted. Punts—Crowell 8 times for an average of 19 yards and Chillicothe 9 times with an average of 31 yards. First downs—Crowell 11, Chillicothe 4. Penalties—Crowell 3 for 15 yards and Chillicothe none.

BILIOUS
 Condition Needs Double Action Treatment
 Stimulation of liver bile flow is not enough for complete relief, but combined with intestinal stimulation that relieves temporary constipation, quick, soothing results are certain. Herbine, a combination of herbs, combines BOTH actions and so those dizzy, headachy, indigestions, gas, rundown feelings get relieved when both liver and bowels return to normal action. Get your bottle of Herbine from druggists.

BURK IDLE AS THREE GAMES IN 10-B LOOP

If Crowell Wins, They Move Into Tie With Burk for First

Warfare again breaks out on three 10-B conference fronts Friday as Throckmorton visits Crowell, Chillicothe entertains Archer City, and Seymour invades Iowa Park. The circuit's strong favorite and present topnotcher, Burk-burnett, is idle this week-end, the Mineral Wells aggregation having cancelled an engagement with the Bulldogs.

Throckmorton at Crowell
 Probably of most all-conference importance is the melee slated at Crowell when the Wildcats attempt to outscratch or out-run the Greyhound platoon Throckmorton in the Crowell stadium Friday night.

A victory for the Gravesmen of Crowell will place them in a tie with the Burk pack for first place in the conference with the two elevens meeting the following week. But to do that the Cats must stop the running, punting and wit of Quarterback Massey, the mail toting of first-year Thomas and the hard driving of Fullback Wilkinson of the Pack. At the same time they must get triple-threat Rasberry by the strong Greyhound defensive led by Odell and Thomas.

Reasoning based on past conference skirmishes is complicated as Burk downed Chillicothe and Throckmorton by the same score. Crowell defeated Chillicothe by a point and Throckmorton took them by a touchdown. The Smithmen held the Bulldogs close for the first 20 minutes of the game, and the statistics of the match indicate the Greyhounds played better ball than the score credits them with.

Seymour at Iowa Park
 Iowa Park, acting as a guinea of the leaders of the 10-B campaign, will entertain the dark horse club from Seymour Friday night. After trouncing the Archer City Wildcats, weakened by ineffectiveness, 37 to 0, the Panthers slinked into prominence.

Captain Richmond, left end, Right Guard Starkey and Right Tackle McDaniel, stalwarts of the Panther line, have only to turn in a performance similar to the spec-

taular one last week against the Cubs of Olney, and the running attack of Backs Adkins and Stevens has only to click normally to overpower the Iowa Park defense headed by Boutwell and Captain Seymour 37 to 0 two weeks ago and on the same weekend the Mus-men bowed to Burk 42 to 0. These scores place them both at strong contenders for cellar occupancy. Both elevens did better last week, however, the Eagles being nosed out by Crowell 7 to 6 and the Wildcats holding Iowa Park 18 to 0.

Seymour continued to worry contemporary coaches by holding their 2-A neighbors from Olney to only two touchdowns last week. A more definite rating can be given by the Seymour aggregation after Friday's skirmish with the Feathered Flock. Crowell clipped the Hawks' wings 25 to 6 and Burk preceded the Foard County lads in the feat by taking them by two touchdowns.

Archer City at Chillicothe
 Scrapping for the cellar will be the Wildcat crew from Archer City and the Eagle machine from Chillicothe. The Cats and Birds have

Attention!

TAX PAYERS of CROWELL INDEPENDENT SCHOOL DISTRICT:

We have outstanding approximately \$25,000.00 in delinquent taxes, which is more than enough to get the district out of debt and put it on a cash basis. A greater portion of these taxes should have and could have been paid long ago. We can not continue to operate our school system on a fifty or sixty per cent collection annually. We owe money for operating expenses and our teachers have not received their full salaries for several years. During these past several years our teachers, our bank and others have co-operated with us splendidly and we truly appreciate it, but they can not carry the burden forever.

We have, therefore, set December 1, 1936, as a final date for payments of delinquent taxes to this district. After that date collections will be made as provided by law and suits filed through the District Court. We much prefer, however, that payments be made without litigation, which will mean a saving to the tax payer and to the School District.

Penalty and interest is not remitted and will be collected from all alike.

PAY YOUR DELINQUENT TAXES BEFORE DECEMBER 1, 1936. HELP YOUR SCHOOL—SAVE THE EXTRA COSTS.

BOARD OF TRUSTEES,
 Crowell Independent School District.

New model gas heaters at M. S. Henry & Co.

Sell your produce and buy your feed at Moyer Produce.

Wood for sale. Six miles east and three miles south.—Shirley, Offield, Hughton & Co.

The "Progress" is the "perfect" vacuum cleaner. You'll want it, when you see it.—W. R. Womack.

Mr. and Mrs. W. W. Boyd went to Dallas last Friday afternoon where they visited relatives and attended the Centennial.

Ask about the free Aladdin lamp Saturday, Oct. 31.—M. S. Henry & Co.

Mr. and Mrs. C. E. Flowers and two sons, Clary and Charles, of Gainesville spent the week-end visiting Mrs. Flowers' parents, Mr. and Mrs. V. A. McGinnis, and other relatives and friends.

The powerful suction of a "Progress" vacuum cleaner lifts water 42 inches. Only one other—similarly made—lifts 38 inches, all others 10 to 20 inches.—W. R. Womack.

Wood for sale. Six miles east and three miles south.—Shirley, Offield, Hughton & Co.

Aladdin kerosene lamps are brighter, \$4.95 and up.—M. S. Henry & Co.

Mrs. Luther Roberts left Sunday afternoon for Altus, Okla., to visit relatives. She was accompanied to Altus by Mr. and Mrs. J. R. Beverly.

Farmers! Why not give up—as others have? Quit worrying about the wood and the coal—where and how to get it? Install a modern oil heater—and you can sleep later or do something else.—W. R. Womack.

Mrs. M. A. Reeder of Fort Worth, visited in the home of her son, T. P. Reeder, Sunday and Monday of this week. Tuesday she went to Knox City to visit two sons, W. A. and J. C. Reeder.

Farmers' wives! Listen: We can supply you now with modern gas ranges, to use either natural or "bottled" gas; Winchinger and 2-volt or 6-volt radios; gasoline powered Norge-Rollator—"electric" refrigerators—which also lights the premises, runs the radio and the washing machine.—W. R. Womack.

"WE TEACH YOU HOW TO LIVE"

Stars of Film Hits Playing at the Vernon Theater

Gene Autry, famous western movie star and native Texan, comes to the Vernon Theater screen Friday and Saturday in "Oh Susannah" and appearing with him are the famous Light Crust Doughboys from radio station WBAP Fort Worth... William Powell is cast in the role of the "Forgotten Man" in "My Man Godfrey" which opens for the midnight show Saturday and continues through Monday... On Tuesday Wednesday, an all comedy cast headed by Patsy Kelly, Charlie Chase and Big Boy Williams appear in "Kelly The Second". This is an MGM feature length comedy. Lew Bray, manager of the Vernon Theater announced today that he had secured an engagement of Marc Connelly's "Green Pastures" for the Vernon Theater. "Green Pastures" will be presented Tuesday, Wednesday, Nov. 3-4, twice daily—Afternoon shows will begin at 2:30 p. m. and the night shows at 8:00 p. m. at regular prices.

Wildcats Vie—

(Continued from Page One)

left guard Peevey are stalwarts of the Greyhound line. Neely and Hibbits are veterans. On the offensive Hibbits drops back to fullback. Alternating the two positions with him is another experienced hand, 162-pound W. Odell, the second heaviest man on the Greyhound roster.

Massey, quarterback for Coach Smith, manages the team on the field, kicks, does his share of the leather lugging, and plays safety. He, likewise, is an old-timer and will cause the Wildcat defense no little worry.

Thomas, a rookie, has already developed into a neat ball carrier, and Wilkinson, combination end or half, has proved a menace to the enemy in all of his past performances.

Man for Man
Lightweight 127-pound Eddy at left end for the Wildcats will be bucking a heavier enemy, 150-pound, right end Cribbs of the Pack. On the opposite end, if Fitzgerald starts for Graves, he will team up against Wilkinson from Throckmorton. The Crowell lad will have the weight edge on his enemy by nearly 15 pounds.

Wildcat Thompson will be looking into the eyes of O. Odell, an enemy tackle who outweighs him by 10 pounds. On the other tackle 168-pound Klepper vies with 155-pound defensive tackle Hibbits and 167-pound offensive tackle W. Odell.

The avoidpouls margin favors the Racers at guard slots with Feline (130), meeting Peevey, 138, and Stotser, 134, facing Keeter, 150. Reeder, Crowell center, towers over his opponent by 10 pounds.

In the Backfield
Although the Canine backfield averages 6 pounds more to the man than the Kittens, Smith's quarterback Massey and right half Thomas, both 125-pounders, weigh less than the smallest Wildcat starter, 126-pound left half Orr. The Greyhound average is boosted considerably, however, by the 167 pounds of beef of W. Odell. On off-side 2 pounds of beef are lost as he exchanges places with left tackle Hibbits.

Crowell's chief scoring threat lies in the form of 135-pound quarterback Rasberry, who with blocking assistance from his mates, totes leather in a fashionable manner. He is aided offensively in the backfield chiefly by Meason and Orr and defensively by Lankford and Orr.

Probable Starters
Crowell Position Throckmorton
Eddy Left End Wilkinson
Shook Left End Hibbits
Simmons Left Tackle Peevey
Reeder Left Guard Neely
Gibson Center Keeter
Klepper Right Guard O. Odell
Fitzgerald Right Tackle Cribbs

American Boy Offers World of Adventure

During the coming year American Boy stories will take readers into thundering transport planes, into Annapolis and through the Caribbean with the Navy, into the soundless tangles of Georgia's Okefenokee swamp, and even into an imaginary future of space ships, strange machines and science. All are swift-moving, instructive and gripping.

There'll be stories of the true adventures of David Irwin, the young man who, for four years, alone, wandered across the arctic barrens by dog team, going months without seeing a human being and eating only frozen fish. And there will be Roscoe Turner's inside story of the famous London-to-Melbourne air race.

There'll be advice on hobbies,

Go to M. S. Henry & Co. for school supplies.

J. H. Cone of Vernon was here Wednesday afternoon.

We will trade you furniture for your cows and calves or what have you.—M. S. Henry & Co.

A. Y. Beverly, Jeff Bruce and Hubert Brown visited Lubbock and other towns on the Plains Sunday.

The "Progress" cleans floors, shampoos rugs, dries the hair; paints cars or furniture; sprays trees or fleas; waxes and polishes your floors. It's wonderful.—W. R. Womack.

B. J. Glover Jr. of Fort Worth was in Crowell a short while Sunday visiting friends.

Sell your produce and buy your feed at Moyer Produce.

Fifty double-edge razor blades 50c, razor free.—M. S. Henry & Company.

Mrs. Julian Wright of Vernon is in Crowell at the bedside of her mother, Mrs. Laura Giddings, who is seriously ill at her home here.

Mrs. M. T. Lincoxon of Altus, Okla., and her mother, Mrs. J. C. Roberts, were here visiting in the N. J. Roberts home Saturday.

Farmers' wives! Why not do away with that old coal, wood or cheap, "smelly" oil stove and install a modern gas range, using "bottled" gas? You'll like it.—W. R. Womack.

Miss Faye Callaway and nephew, Joe Welch, of Sherman are here this week visiting her parents, Mr. and Mrs. Claude Callaway. They were met in Wichita Falls by Mr. and Mrs. Callaway.

Don't forget the free Aladdin lamp Saturday, October 31.—M. S. Henry & Co.

Mrs. F. H. Crews was called to Durant, Okla., Monday on account of the serious illness of her granddaughter, Genelle Hart, small daughter of Mr. and Mrs. M. M. Hart.

Bargains in used furniture and oil cook stoves.—M. S. Henry & Company.

Mr. and Mrs. Jeff Todd and son, Rouse, W. B. Johnson, Jack Thomas, Grady Magee and Tom Beverly, attended the Texas A. & M. Texas Christian University football game at Bryan Saturday.

Miss Mary Elizabeth Hughton, who is attending Texas State College for Women at Denton, visited her parents, Mr. and Mrs. M. L. Hughton, and friends of Crowell last week-end. Mr. and Mrs. Hughton took her back to Denton Sunday.

Modern gas ranges for natural or "bottled" gas. New type gas and oil heaters. New way 2-volt and 6-volt Zenith radio sets. New Norge-Rollator farm refrigerator.—W. R. Womack.

Sell your produce and buy your feed at Moyer Produce.

Mr. and Mrs. W. B. Carter and daughter, Miss Anna Belle, and son, Billie, of Lubbock returned to Crowell Saturday from a visit to the Centennials at Dallas and Fort Worth. They were accompanied to the celebrations by Mrs. Carter's father, G. A. Mitchell, of Crowell.

Fifty double-edge razor blades 50c, razor free.—M. S. Henry & Company.

Your Horoscope

October 18, 19—You are very decisive, and your arguments are very sound. You bear your burdens in silence and even though your close friends know something is troubling you, they never hear what it is from you. You are very self-confident and aspire to higher things in life. You find much pleasure in your home and your family. You are sensitive to dictation.

October 20, 21—You take your responsibilities willingly and want to see them through by yourself regardless of whether you succeed or fail. You are willing to take the blame when others make a failure in carrying out your instructions. You are not a very desirable companion when things go against you but this doesn't last long because things usually turn out well for you.

October 22, 23, 24—You are inclined to go to extremes because of your nervous and excitable character, but you have more endurance than most of the people around you. You are a conscientious worker during working hours but when away from your work you are quick witted but sometimes reckless. You are very successful with your schemes and belong to the crowd who keeps the world moving.

Heat in Moon's Rays

Moonlight is reflected light from the sun. Rays of the sun falling on the moon set up heat there, which is immediately radiated away into space, because the moon has no atmosphere to hold the heat on its surface. The reflected light reaching the earth as moonlight does set up some heat on the earth, but the amount is so small that it can only be detected by delicate instruments.

CHURCHES

Christian Science Church
Sunday School at 10 a. m.
Sunday services at 11 a. m.
Wednesday evening services at 8 o'clock.
Sunday, October 25, 1936. Subject: "Probation After Death."
The public is cordially invited.

Methodist Church
Two Sundays of the Conference year remain. May we make the most of the opportunities to do our full duty to God and His church. Now is a good time to put your letter in the church or make profession of faith in Christ, which some are doing. Sunday services will be evangelistic. Sermon topics are "The Cloud of Witnesses" and "Escape for Thy Life."
Earnest members are asked to speak to those who should line up with the church about this all important matter, and pray earnestly for the salvation of the lost.
GEO. E. TURRENTINE.

First Presbyterian Church
Regular services next Sunday as follows: Sunday School at 10 a. m. Preaching at 11 a. m. We hope to have the entire Presbyterian constituency at the morning service. Bring a few visitors with you.
An invitation is extended to other churches and all people to attend the 3 p. m. service.
J. A. PHIPPS, Pastor.

First Christian Church
At the First Christian Church Sunday morning the minister, Rev. John W. Tyndall Jr., will preach on the subject "The Supremacy of Christ." At the evening hour the subject will be "The Magnanimity of Jesus."
The public is cordially invited to worship with us.
Bible school begins promptly at 10 o'clock and morning worship at 11 o'clock.
Come and worship with us.
JOHN W. TYNDALL, JR.

Thalia Methodist Church
Church school at 10 o'clock with W. F. Wood as superintendent. Morning worship at 11 a. m. Young people meet at 6:45. Evening service at 7:15 o'clock.
This is the last preaching day for Thalia for this conference year and your presence is earnestly solicited. We will have until November 3 to finish up our finances and we call upon every member of the church to do their very best this way and we'll leave the results with the Lord.
The circle union of the young people's work will meet at Margaret Thursday night, October 29. Come to church and be welcome, being assured that "He who comes to church votes for the Lord; but he who stays away votes for the Devil."
MARVIN BROTHERTON, Pastor.

Thalia Church of Christ
The regular services of the Thalia Church of Christ are as follows:
Bible Study 10 to 10:45 a. m.
Preaching at 11 to 11:45 a. m.
Communion services 11:45 to 12 o'clock. Preaching at 7:30 p. m. each Sunday.
The church has arranged to have Brother McCord of Vernon to preach full time. Mr. McCord is a teacher in the Vernon schools and is a very talented teacher and preacher. Everybody invited to attend these services. You are always welcome.—Reporter.

Christian Science Services
"Probation after Death" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, October 25.
The Golden Text is: "The righteous also shall hold on his way, and he that hath clean hands shall be stronger and stronger" (Job 17:3).
Among the citations which comprise the Lesson-Sermon is the following from the Bible: "These are they which came out of great tribulations, and have washed their robes, and made them white in the blood of the Lamb" (Revelation 7:14).
The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Every day makes its demands upon us for higher proofs rather than professions of Christian power. These proofs consist solely in the destruction of sin, sickness and death by the power of Spirit, as Jesus destroyed them. This is an

H. D. and 4-H CLUB ACTIVITIES

Officers of FOARD COUNTY HOME DEMONSTRATION COUNCIL
Mrs. A. L. Davis, Chairman Mrs. J. L. Hunter, V. Chairman
Miss Bonnie Schroeder, Secretary-Treasurer
Miss Myrna Holman, Home Demonstration Agent

Home Demonstration Council to Elect New Officers; Agent Here

Officers for the Home Demonstration Council for the ensuing year will be elected at the next Council meeting. Mesdames E. A. Dunagan, S. B. Middlebrook and W. L. Scott were appointed as a nominating committee.
The council voted to sponsor a county chorus and Mesdames F. A. Davis, J. L. Hunter Jr. and Dave Solis were appointed as a committee to investigate the project and appoint a director for the chorus.
Miss Bessie Lee Sikes, district home demonstration agent, was present at the meeting and asked that the farm women help in the organization of community agricultural associations.
To show the importance of a woman's work on the farm, Miss Sikes stated that ten and one-half million quarts of fruits and vegetables were canned in 1935 by

element of progress, and progress is the law of God, whose law demands of us only what we can certainly fulfill" (page 233.)

Two Minute Sermon

(By Thomas Hastwell)

Today's Macedonian Call: In the account of Paul's Second Missionary journey is found the story of the Macedonian Call in which there appeared to Paul the vision of a man saying: "Come over into Macedonia and help us." Paul answered the call and carried the Christian religion to Europe, planting the seed in a few churches that later swept the continent from the Grecian peninsula to its northernmost point. The call comes to young people everywhere today. It does not come in the form of a pleading appeal from Macedonia for help but it comes from a thousand avenues of present day life as clear and ringing and compelling as it came that night to Paul at Troas. Some hear it from the mission fields, some hear it from the school rooms, some hear it from the business world, some hear it from other fields of service that are a vital part of today's scheme of living. To each it is a call to a life's work, a challenge from the world to come over and help. If Paul had failed to heed the call, all the glory of accomplishment of a great life's work would have been lost to him and the blessing of the Christian religion would have been denied to the great continent of Europe. Some young people never hear the call of the great world before them. They are content to drift with the tide, choosing their own, easy, purposeless way. Others, like Paul, alive and vibrant with energy and high ambition and purpose, hear the call for service, and like Paul give the best that they have to the end that their lives are not only lives of satisfaction and glory to themselves, but of deathless service to the world in which they live.

ed make the club the best in the county in 1934, for which they received a silver cup. Elizabeth attended the Farmers Short Course at A. & M. in 1934, thus having an opportunity to take part in the state 4-H boys and girls organization and observe their officers presiding. With these experiences as a background, the Riverside Club might well look forward to a profitable year under her leadership.

Anna Lucy Bray
Having made an efficient secretary for her club is only one accomplishment of Anna Lucy Bray, newly elected president of the Thalia 4-H Club, during her one year as a club member. In addition to being secretary she served her club as clothing demonstrator winning first place in the county contest. She also won first place on her club dress in the county contest, completed her co-operators' goals, and won a 4-H pin for her work.

Evalyn Evans
Having done a good job as secretary of her club the past year, Evalyn Evans has been selected as president of the Vivian 4-H Club for the coming year. Evalyn attended all of the meetings of her club, completed most of the co-operators' goals, and assisted the other members in raising funds and other club projects.

Wilma Nichols
From secretary to president of her group was the step taken by Wilma Nichols, twelve year old president of the Black 4-H Club. The promotion was a well-deserved one since Wilma had not only served her club well as their secretary but had set an example for them in other work. She completed all goals set, winning a 4-H Club pin and helping make her club a one hundred percent one. In the 4-H dress contest she won first place on her dress. In addition to the regular goals set for the year, Wilma built in a clothes closet and equipped it with rod, hangers, hat and shoe racks. She has already begun work this year, having completed her first clothing goal—a well equipped work box.

Anita Traweck
Anita Traweck, newly elected president of the Foard City 4-H Club, has been a faithful member of the club for the past two years, attending meetings both summer and winter. She has always completed co-operators' goals when set, and during her first year as a club member served as clothing demonstrator, winning second place in the contest. Since then she has kept up her demonstration and made additional improvements.

Iva Mae Bradford
As an efficient secretary of her club for the past year, Iva Mae Bradford gained experience that will help her in her new job as president of the Margaret 4-H Club. In addition to her work as secretary, Iva Mae completed all co-operators' goals, won a 4-H Club pin on her work, and won honorable mention on her club dress entered in the county contest. Iva Mae will preside as president for the first time on Friday.

Elizabeth Whitten
In re-electing Elizabeth Whitten as their president, the Riverside 4-H Club is getting an experienced officer. Elizabeth served her club as president in 1935-36, as secretary for 1934-35, and as clothing demonstrator. She helped

phasing leafy, green and yellow vegetables.
WEST SIDE CLUB
No substitutes can be used for leafy vegetables, tomatoes, citrus fruits and milk, stated Miss Myrna Holman at the West Side Home Demonstration Club which met in the home of Mrs. Chas. Bryson Wednesday, October 14.
In a review on cooking vegetables Miss Holman stressed the fact that vegetables are rich in vitamins and should be cooked in such a way that none of the rich minerals are lost. They should be cooked in boiling water. Mild vegetables such as English peas, asparagus and string beans should be put on in a small amount of boiling water and covered, while strong vegetables such as cabbage, onions and turnips, should be cooked uncovered in a larger amount of water.
Dishes prepared by club members were scored on general appearance, flavor, texture and color.
A first aid program October 28 will be conducted by Mrs. Chas. Bryson and Mrs. Roscoe Eubank at the home of Mrs. Curtis Ribble.

GOOD CREEK H. D. CLUB
Caution against accidents in the home and administration of first aid treatment in the case of accidents was the subject discussed at the Good Creek Home Demonstration Club meeting Friday. The program was given by a committee composed of Mrs. C. H. Groomer, Mrs. R. E. Ballinger, Mrs. A. L. Davis and Mrs. W. L.

Clothing and Gardens
During 1936-37 the 4-H Club girls of the county will work on clothing, completing three years of clothing work; and gardens, em-

phasing leafy, green and yellow vegetables.
WEST SIDE CLUB
No substitutes can be used for leafy vegetables, tomatoes, citrus fruits and milk, stated Miss Myrna Holman at the West Side Home Demonstration Club which met in the home of Mrs. Chas. Bryson Wednesday, October 14.
In a review on cooking vegetables Miss Holman stressed the fact that vegetables are rich in vitamins and should be cooked in such a way that none of the rich minerals are lost. They should be cooked in boiling water. Mild vegetables such as English peas, asparagus and string beans should be put on in a small amount of boiling water and covered, while strong vegetables such as cabbage, onions and turnips, should be cooked uncovered in a larger amount of water.

Clothing and Gardens
During 1936-37 the 4-H Club girls of the county will work on clothing, completing three years of clothing work; and gardens, em-

Scott. The meeting was held at the home of Mrs. Scott.
A quilt was made, and a covered dish luncheon was served a noon to the members. One visitor, Mrs. G. R. Webster, was present.
The next meeting will be held Friday, November 6, at the home of Mrs. A. L. Davis.

RIVERSIDE 4-H GIRLS CLUB
Thirteen girls joined the Riverside 4-H Club at its first meeting on Tuesday, October 13. New officers for the year were elected and they are as follows: Elizabeth Whitten, president; Bessie Sloan, secretary; Mildred McGinnis, vice president; Russell Blevins, treasurer; and Louise Hembree was appointed reporter.
The next meeting will be Tuesday, October 27, 1936.

RIVERSIDE H. D. CLUB
Vegetables must be served attractively after having been properly cooked and tastefully seasoned. This was brought out in vegetable scoring demonstration at the home of Mrs. Luther Marble Oct. 13. After a review of the principles of vegetable cooking covering demonstrations already given, the dishes prepared by the members and brought to the meeting were graded on the following points: general appearance, flavor, texture and color.
The hostess served cake and chocolate to eight members at the meeting. The next meeting will be with Mrs. John Ray when a program on first aid will be given.

PEP SQUAD

Tramp, Tramp, went the pep squad girls Friday night between the halves. It seems that the girls are shining bright again this year. Their formation consisted of a short line and marched back and forth across the field. The Chillicothe girls made let-downs and represented Wildcat and Eagles, and also a short line.

ONE-MINUTE INTERVIEWS

Question: What does C. H. S. mean to you?
 Mable Hall: A championship football team.
 Juanita Brown: Honesty.
 Garrett Middlebrook: Some pretentious girls.
 Miss Cogdell: A larger supply of library books.
 Robert Lewis Saunders: I have been here long enough to know.
 Lois Evelyn Norris: A larger pep squad with more girls who are willing to work.
 Adolf Slovak: To kill the bats in the study hall.
 Faye Zeibig: Better news reporters.
 Marjorie Spencer: New pep leaders.
 Wayne Canup: A new set of numbers.
 Mr. Todd: Some girls and boys will study when told.
 Edith Hatcheson: Some good-looking boys.
 Myrtle McKown: More loyal members.

SNOOPING

We find that since Mary Houder has a co-captain on the football team she wants to be in the pep squad in a big way.
 We find that Mike Rasberry has made himself a center of worship, last year Helen Harwell's football hero was Goodloe, but this year it's Mike, and did you know that Maxine Thompson thinks Mike is better than Dick Todd because he ran 81 yards for a touchdown Friday night and Dick only had 19 Saturday. (Mike states that a touchdown as a treat for the ladies.)
 What is this we hear about Ben having a girl at Margaret's house?
 We wonder why Buster Davidson came out to Frances' slumber party Friday night. Was it because of weakness for "Lemonade"?
 What was the excitement in the study hall Monday morning?
 Miss Cogdell called it "Fat Party." We find that Mike Rasberry and Bob Moyer played games of the hour.

ASSEMBLY SCHEDULE

October 26.....Mr. Black
 October 27.....Mrs. Sloan
 October 28.....Miss Patterson
 October 29.....Miss Cogdell
 October 30.....Mr. Todd
 November 1.....Miss Patton
 November 7.....Coach Graves

PERSONALITY OF THE WEEK

The personality of the week goes to the person of Wynonah Embree, the most "tomboyish" girl in high school. She is a junior and one of the most brilliant in the class. Despite her weakness for "pounding" people on the back, she is a swell girl and a good sport.

FOR CROWELL'S FOOTBALL FANS—A PROBLEM IN GEOMETRY

Given: A football team and a championship to win.
 To Prove: That Crowell can win the championship.
 Proof:
 1. Crowell has more players with less experience, thereby making them easier for Coach to train correctly, and has players with more ability.
 2. They have a reputation to uphold, which should make them fight harder than a team who has no "rep."
 3. They have what we consider the best Coach in the district.
 4. They are playing for the best school in the district.
 5. They fight harder and should have a better will than any other team in the district.
 Therefore Crowell will win!

SENIORS RECEIVE RINGS

"Have you seen our new rings?" the question asked by the seniors to almost everyone they meet since they received their class rings last Thursday. The rings are gold with black onyx sets. On the sets is a "C" with "Crowell" written underneath it. About twenty members of the class bought rings.

NYA GIVES YOUTH CHANCE TO WORK FAR AN EDUCATION

Few people realize that the aid of the National Youth Administration furnished the young men and women of Texas is not restricted to students of collegiate classification only.

While the number of universities and colleges in Texas given aid by the NYA during the current scholastic year stands at 88, it is surprising to learn that last year exactly 1,500 Texas secondary schools received allotments. In

the secondary and high schools the monthly wage is small in comparison with that paid the college worker, but the relative benefit is about as great. For undergraduate and graduate college students the salary ranges from \$15 to \$30 a month; for the students aided in the secondary and high schools the maximum wage is \$6 a month.

The money provided the children of the secondary and high schools serves worth-while purposes. It enables the students to continue their school work through their own efforts, to purchase necessary supplies and clothing, and it buys lunches for many who might otherwise go hungry.

In the Crowell Public Schools there are forty-eight students who receive this allotment. This number includes thirty-nine from the Crowell High School, seven from the Crowell Elementary School, and two from the Crowell Colored School.

HIGHLIGHTS OF THE CHILLICOTHE GAME

That Chillicothe game was too close to be right comfortable until it was over, but mister, wasn't that a grand and glorious feeling when it was over?

We will have to admit that we had underrated that bunch of Eagles. They could charge better than any team we have played this season.

At that, though, Rasberry & Co. made 276 yards to Chillicothe's 105; and 11 first downs to the Eagles' 4.

Whenever a lineman comes on down the field and blocks the secondary defense like Klepper did Friday night, we shouldn't forget to give him some credit, too, for those long runs.

Don't you suppose that Aber Eddy had a sick headache after the game Friday night from looking at those high punts that Davis was kicking?

How many of you thought Chillicothe had made a safety on the west end of the field Friday night? Crowell had a safety ruled against them at Burk one time on the same kind of play. However, it should not have counted. The Chillicothe coach admitted that they did not deserve a score on the questionable play.

Knock! Knock! didn't do any good Friday night when Davis was trying so hard to push that touchdown over from the Wildcat's 10-yard line. We have to give Chillicothe the same credit for holding our touchdown threat back on the two yard line at the last of the game.

Did you know that Crowell started on their own goal line in the last five minutes of play and carried the ball to Chillicothe's goal line before the game ended? That something that football fans are prone to call intestinal fortitude is very noticeable in the left halfback position on Crowell's team. Mr. Orr calls him son, but Mr. Coffey calls him pest.

Richard Veceera showed us that he can play end about as well as he can play halfback.
 We still contend that in case we win over Throckmorton Friday night we will have a wonderful game at Burk next week.
 If the Wildcats lose this week, it won't be on account of over-confidence after the scare that Chillicothe gave them. Throckmorton has beaten Chillicothe.

LOCALS

Ruth Ferguson, graduate of C. H. S., visited school Friday morning.
 Ann Mabe, who is attending

school at Chillicothe, spent the week-end at home.

Mary Elizabeth Hughston, who is attending college at Denton, spent the week-end at home.

Mary Lou Fudge and J. M. Housouer, students at Draughon's Business College, were at home for the week-end.

Oleta Faye Zeibig is in Dallas this week.
 Miss Patton, Miss Cogdell, and Miss Black visited friends in Truscott Sunday.
 Leon Williamson and Joe Russell enrolled in school Monday morning.

PHILOSOPHICAL PHRASES

One who dispises himself is nearest to a proud man.
 History proves that anything can be proved by history.
 Women have no appreciation of good looks, at least good women do not.

Love itself is only a desire for possession; courtship is combat, and mating is mastery.
 An airplane is poison because one drop will kill you.
 People who declare that they belong to no party certainly do not belong to ours.

If we would guide by the light of reason, we must let our minds be sold.
 Men differ greatly in their power to command loyalty and obedience. There are born masters who impose their will on others, as there are born apostles who impose their convictions.

PEP SQUAD

At 12:30 p. m. Monday, Oct. 19, the pep squad met to have try-out for substitute leader. The election for the leader will be held in the near future.

WHY TEACHERS GET GREY

1. Hade was a thief in the story of the newspaper report was so post to write up.
2. He told him so and to sheer him up.
3. Dorothy Scarborough was the author of "Porch Artillery."
4. "The Masque of the Red Death" was wrote by Poe.
5. Peccary is an essay writer.
6. A dog hangs out its tongue when running to balance its tail.

SOCIAL CALENDAR

The second Tuesday night of each month at 7:30 the Future Farmers of America meet.
 The first and third Thursday nights at 7:30 the Future Homemakers of America meet.
 Every Monday morning at 8:45 Assembly is held.
 Friday night at 8:00 the Wildcats will meet the Throckmorton Greyhounds in the Crowell Stadium.
 From 12:30 to 12:50 each day Pep Squad meeting is held.

F. F. A. AND HOMEMAKING CLUBS MEET

A combined meeting of the Homemaking Club and the Future Farmers of America Club was held Thursday evening in the High School building. Mrs. N. J. Roberts spoke on "Parliamentary Law," after which a practice of parliamentary law was held with the F. F. A. president, Marion Benham, presiding. Afterward drill directed by Mrs. Roberts, the meeting was adjourned. Those present included about fifty members. Mrs. B. W. Self, Mrs. N. J. Roberts and the sponsors: Miss Ruth Patterson and Walker Todd.

HOMEMAKING III SLUMBER PARTY

The Homemaking III Class was entertained with a slumber party Friday night at the home of Frances Welch. The girls met after the ball game. At midnight a weiner roast was held by the group.
 Games were played and ghost stories were told. There were a group of girls known as the "All-Nighters," who made it a slumberless party.

Democrat Nominees To Exert Effort for FDR-Garner Ticket

Austin.—Every Democrat nominee for public office in Texas will be urged to exert his efforts toward the re-election of the Roosevelt-Garner ticket, under a plan announced here this week by Roy Miller, State Director of the National Democratic Campaign.
 Mr. Miller estimated there are

JOKES

Joyce White, Freshman, was told that napkins must always be folded under the table, so she crawled under the table and folded hers.

Myrtle McKown: Why is it professors can wear purple ties, haphazard haircuts, coats the wrong size, trousers too short, and the color scheme vile, yet flunk me in English because of my style?

AHA!

Freshman: "Sir, I have no pencil nor paper."
 Professor: "So? Well, just what would you think of a soldier who went forth to battle without gun or ammunition?"
 Freshman: "I should think he was an officer, sir."

more than 5,000 such nominees for precinct, county, district and state office.

"Active work by them among their friends and supporters in the interest of the Party's Presidential ticket would be invaluable," Director Miller declared. "I'm sure they will all be glad of this opportunity to aid the party which nominated them for public office."

Personal letters, soliciting the support of the 5,000 or more Democratic nominees in Texas and urging that they make active campaigns in their respective counties for the re-election of President Roosevelt and Vice President Garner will be sent from State headquarters over Mr. Miller's signature.

Many of the county clerks in the 254 counties in Texas already have furnished the state office with lists of the Democratic nominees in their counties, and letters to the nominees will be mailed out as soon as additional lists are received.

"We will urge each Democratic nominee to work not only in behalf of his election at the polls November 3, but to work untiringly for his party's Presidential nominees, so that Texas may roll up another mammoth Democratic vote," Director Miller said.

A large Democratic vote in Texas is essential because of the abolition of the two-thirds rule at the

National Democratic Convention last June.

Southern Democrats who unsuccessfully opposed abolition of the two-thirds rule, nevertheless gained a partial victory in the promise to base future representation in the convention on the Democratic vote in each state.

"For that reason," Mr. Miller explained, "it is all-important to Texas Democracy that we poll as large a vote as possible in the November Presidential election."

Men Used to Wear It

White lace is considered the most feminine of fabrics.

Produce Picking Spice

The countries that are called upon to make up even the smallest package of pickling spices include India, China, Japan, Ceylon, England, Spain and Austria.

Stomach Gas

One dose of ADLERIKA quickly relieves gas bloating, cleans out BOTH upper and lower bowels, allows you to eat and sleep good. Quick, thorough action, yet entirely gentle and safe.

ADLERIKA

FERGESON BROS., Druggists.

WET WASH 2 1/2 Cents Per Lb.

10 Lbs. Washing for 25c

Everything washed spotlessly clean and returned to you ready to iron or hang on line as you choose. Remember, WET WASH 2 1/2c per pound—weighed dry.

VERNON STEAM LAUNDRY

Why shield them from every danger except EYESTRAIN?

Isn't their sight worth enough to make you find out what your lighting may be doing to it?

● You bundle up your children against cold and rain. You see that they are tucked snugly in bed at night. You are constantly on guard lest they be harmed in some way. You try to shield them from every danger . . . but are you sure about eyestrain?

Sight is their most precious possession. Yet do you let them read and play on the floor where the light is never adequate for even simple visual work? Can you say for sure whether the lighting in your home is letting your children's eyes develop normally? Do you know that your child has enough light for his studying tasks?

Don't guess—be sure. There has been too much guessing about proper lighting. And mainly because of improper lighting, one child in every five has defective vision by the time he finishes grade school. The ratio increases to two out of five by the time they reach college age.

The I.E.S. Indirect Floor and Student Lamp is a simple, economical way to be sure that your child is studying under proper lighting conditions. What is more, the entire family can enjoy and will appreciate this modern, better light. See these lamps on display . . . today!

Wide opening at top throws light to ceiling, eliminates shadows.

Glass bowl softens light, prevents glare.

Wide shade spreads light over wide area.

Garden Club Members Are Hosts at Benefit Party at Legion Hall

On Thursday evening the Legion hall was the scene of a gay masked party. The Crowell Garden Club entertained their husbands and invited guests to the clever Halloween party. Fifteen tables were laid for games.

At the appointed hour, 7:45, a beautiful cake was brought in by the hostesses and Hubert Brown and Bryan O'Connell took charge. Guests were asked to cast votes at a penny each for the most clever mask and costume. At the end of a spirited time of voting three contestants tied, and the voting began again. The final results were that the cake was presented to Mrs. Jack Seale.

Two hours were spent in playing bridge and 42, and at the close delicious refreshments were served.

The Legion hall was tastefully decorated in potted plants with an abundance of black cats, owls, witches and their broom-sticks in evidence.

ADELPHIAN CLUB

Mrs. T. S. Haney was hostess to the Adelpian Club Wednesday afternoon, October 14.

Mrs. Merl Kincaid led a program on "American Furniture." Mrs. Sidney Miller gave a discussion of "Genuine Antique Furniture," which was taken from DeBlies.

Miss Vera Patton gave an interesting review of "Clocks" and

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

clock makers. As leader, Mrs. Kincaid reviewed "Furniture Makers," devoting most of her discussion to American furniture makers.

The club received two new members, Miss Ruth Patterson and Miss Juanita Hough.

A delicious refreshment plate was served to members, and two guests, Mrs. Hermon Greer and Mrs. Ida Cheek.

LIBRARY NEWS

The latest additions to the library include two highly entertaining mystery novels.

"Gypsy Weather" was written by Margaret Bell Houston, a native Texan, and granddaughter of Sam Houston. Most of the action of this novel takes place at the ancestral home of the Joris brothers, and covers a comparatively short time—from late September to New Year's Eve. The mystery about Hope, the chief feminine character, and the emotion involving her with both brothers work out to a solution in a romantic, gripping story.

"Gloom Creek" by Mary F. Wickham Porcher is a mystery story for girls of the teen age. The story recounts the adventures that Cherie, the young heroine, meets with on a Wyoming ranch. Life in the West is portrayed.

IS HONOR STUDENT

Denton. — Miss Geraldine Carter of Crowell, student at North Texas State Teachers College, has been elected to membership in the Cammation Society, honor organization on the college campus for freshman and sophomores. Miss Carter is a sophomore.

Membership in the society is held only by those students who maintain high scholastic averages in their college courses.

DEDICATES CHURCH

Rev. Marvin Brotherton, pastor of the Margaret Methodist Church, presided the dedication sermon at the new Methodist Church at Dougherty last Sunday.

En route to Dougherty he spent Saturday night at the home of his mother, Mrs. M. J. Brotherton, of Lockney.

Six Demonstration Agents at Mattress School Here Friday

A mattress school for home demonstration agents of this district was held at the office of Miss Myrna Holman, Foard County agent, Friday with an extension service specialist, the district agent, and six visiting county agents attending.

Mrs. Bernice Clayton, home improvement specialist from A. & M., was in charge of the mattress school. She was accompanied by Miss Bessie Lee Sikes, district home demonstration agent. Counsellors who attended were Miss Hattie Tacker, Cottle; Miss Helen Burchard, Knox; Miss Margaret Leuty, Hardeman; Miss Peggy Stoner, Haskell; Miss Jean Day, Taylor; and Miss Myrna Holman, Foard.

The agents and the specialist spent Saturday in a conference discussing the extension service plans for 1937.

THALIA CHURCH OF CHRIST

T. G. McCord of Vernon preached Sunday and Sunday evening at the Church of Christ at Thalia and will preach each Sunday hereafter.

Mr. McCord is well known as he is superintendent of the Hawkins school at Vernon. He is a capable preacher and is held in the highest esteem by every one who knows him.

Every one is urged to attend any and all the services of the Church of Christ.

ROTARY LUNCHEON

Rev. Marvin Brotherton, pastor of the First Methodist Church of Margaret, was the guest speaker of the program given at the regular Rotary Club luncheon at O'Connell's Lunch Room Wednesday at noon.

Rev. Brotherton used as his subject, "Courage." Henry Ferguson was in charge of the program given. Plans are under way for the program committee to arrange the programs for the rest of the quarter before the meeting next Wednesday.

Farm Plan—

(Continued from Page One) chosen by the extension service through competitive examinations. Sections of the county were assigned to those selected for the work.

Those selected for the work were Luther Tamplin, Floyd Ferguson, Henry Fish, L. L. McKnown, Oscar Nichols, David Solis, Royce Cato, Beacher Wisdom, Claude Orr, J. D. Miller, Billy J. Middlebrook and Arlie Cato.

The taking of the measurements was begun the latter part of August and were completed after two or three weeks' work.

New Officers for Truscott Christian Church Installed

New officers for the Sunday School of the First Christian Church of Truscott were installed Sunday after having been elected the previous week.

New officers are: C. C. Brown, superintendent; Buster Smith, assistant superintendent; and Raymond Black, secretary-treasurer. Retiring officers were Jolly Myers, superintendent, and L. P. Jones, assistant superintendent. Mr. Black was re-elected to his office. Mrs. Lawrence Abbott is pianist.

Teachers elected were Jolly Myers, Mrs. Claude Gerald and Miss Lelah Jones. New officers and teachers will serve for term of one year.

McFarlane Takes Stump for Garner And FD Roosevelt

W. D. McFarlane, United States Representative from the 13th Congressional District, left Saturday to begin a ten-day speaking tour in behalf of Franklin D. Roosevelt and John N. Garner, Democratic candidates for re-election as president and vice president of the United States.

Mr. McFarlane began his speaking tour at Vinita, Okla. after receiving a telegram from Sam Rayburn, chairman of the speakers' bureau of the Democratic national committee, asking him to fill the speaking dates.

Special Session of District Court Oct. 29 for Smart Trial

A special session of 46th Judicial District Court will meet in Foard County Thursday, October 29, in the court house to hear the criminal case of the State of Texas versus W. A. Smart. Court will convene at 10 a. m.

A special venire of 75 men subject to jury service, which were subpoenaed for the special session which convened Monday, October 10, were called by District Judge Stokes to appear next Thursday morning.

The case was postponed from October 10 to October 29 because of the illness of the defendant, W. A. Smart, who is receiving medical treatment in a hospital in Denton.

'Old Dominion' to Be Featured in Lecture

One of the most interesting of the "Exploring America with Conoco and Carveth Wells" programs will be heard Sunday, October 25, when the noted world traveler devotes his weekly Continental Oil Company radio broadcast to word pictures of historic Virginia, "The Land of Romance."

Both as a duty and for genuine pleasure, says Wells, every American should visit the "Cradle of the Republic." Especially interesting, he relates, is Colonial National Monument, which embraces the towns of Jamestown, first capital of Virginia—Williamsburg, political, social and educational center of colonial America—and Yorktown, where Cornwallis surrendered in 1781, resulting in complete independence for the original thirteen colonies.

One feature of the broadcast will be a description of the Pageant of Natural Bridge, an impressive religious drama depicting the story of Creation. The setting for this spectacle is Natural Bridge, the huge stone arch near Roanoke, which towers higher than Niagara Falls.

Not all interesting sights in Virginia are historic, however. The Old Dominion offers a great diversity of other attractions, some of which will be described by Wells.

Local listeners who wish to tune in on Carveth Wells Sunday, October 25, may do so by dialing station WFAA, Dallas, at 12:30 to 1:00 p. m. o'clock.

Scarlet Fever Now Prevalent in State

Austin. — Scarlet fever is prevalent in many parts of the state, according to reports sent in to the State Department of Health.

"The most effective means of preventing the spread of scarlet fever rests with the parents," Dr. John W. Brown, State Health Officer, said. "In the majority of cases the infective agent which causes scarlet fever is transmitted in the discharge from the nose and throat."

"Contagion most usually occurs by direct contact through droplet infection or by handling of contaminated objects, such as toys or clothing infected by the patient. No one should be needlessly exposed to scarlet fever. You can protect the others in the family if you are careful."

"Scarlet fever is one of the most serious of children's diseases because of the damage it so often does to the heart, the kidneys, and the liver. If parents could be taught to realize that the after-effect of most so-called children's diseases often is more serious than the original illness, greater care would be taken to protect children from catching each others' diseases."

"Early signs of scarlet fever are sore-throat, restlessness, chills, and vomiting. The child has fever and his skin is dry and hot. These early signs are followed in a day or two by a rash. At the first sign

THIS WEEK IN HISTORY

October 19 — First woman's rights convention in the United States held at Worcester, Massachusetts. Fannie Hurst, author, born, 1889.

October 20—Batholdi's Statue of Liberty, the gift of France to the United States, set up in New York Harbor, 1886. Spain cedes Florida to the United States, 1820.

October 21—Contract signed for construction of Canadian Pacific railway, first trans-continental railway in America, 1880. First incandescent light invented, 1879.

October 22—Charter granted for the foundation of the college which has now become Princeton University, 1746. First radio across Atlantic, 1915.

October 23—Many buildings destroyed by great hurricane in Philadelphia, 1878. First boat on Erie Canal, 1819.

October 24—Arrival of William Penn in America with 100 colonists, 1682. Daniel Webster died, 1852.

October 25—Great storm killed scores in Italy and destroyed vineyards and olive orchards, 1910. Charter granted to the City of Philadelphia, by William Penn, 1701.

of illness, put the child in a room by himself and do not allow others to come near him. Call your family physician and follow his instructions as to food, clothing, and general care.

"The physician is required by law to report the case to the health department. Do your part by following carefully the quarantine instructions which the health officer will give you."

Methodist Church of Thalia Selects New Board of Stewards

The Thalia Methodist Church elected a new superintendent and board of stewards at its business session Sunday, October 11. W. F. Wood was chosen superintendent for the church year of 1936-37.

The new board of stewards consists of H. W. Gray, E. G. Grimmsley, B. D. Shook, E. P. Burlsmith, E. J. McKinley, E. S. Flesher and W. L. Cox.

Newspapers Select Franklin Roosevelt For Next President

Franklin D. Roosevelt will most likely be re-elected to the Presidency, according to results of the third annual political poll taken among 5,145 newspaper editors by Liberty Magazine.

Liberty asked each editor who he thought would be elected President. About 400 editors turned this question down, leaving some 4,600 lined up as follows:

Franklin D. Roosevelt 2,875
Alfred M. Landon 1,814
William Lemke 18
Norman Thomas 0
Earl Browder 0

New Stewards for Methodist Church at Margaret Selected

Stewards and superintendent for the Margaret Methodist Church were elected Sunday, October 11, for the 1936-37 church year. Ray Hysinger was chosen superintendent.

Stewards are W. A. Dunn, S. J. Boman, Luther Tamplin, G. M. Sikes, W. T. Blevins, C. W. Ross, Mrs. J. H. Ayers, and J. H. Taylor.
