H-W-F LEAGUE ORGANIZED AT VERNON THURS.

Crowell Plays First Baseball Game Here Sunday

The H. W. F. (Hardeman, Wilbarger and Foard Counties) Baseball League was organized at a meeting held Thursday night, April 22, at the Liberty Cafe in Vernon. Eight teams, Goodlett, Medicine Mound, Quannah, Vernon, Rock Crossing, Harrold, Kings Oil Co. and Crowell, entered the league at the meeting but since that time Medicine Mound has dropped out and Truscott has made application to enter.

Season Opens May 2

The season opens Sunday, May 2. If Truscott's application is accepted they will play Crowell on the local diamond Sunday. Rock Crossing will play at Vernon, Harrold at Kings Oil Co., and Goodlett at Quannah.

Crowell Prospects Bright

One of the largest groups of regular and rookie players ever to report for practice sessions assembled for the last work-out before the season opens Sunday. Mose Thompson will greatly strengthen the pitching staff and Joe Russell is showing up well on third base and his hitting is good. Gordon Taylor will probably replace Aashford, who will not play this season due to bad health, on second base. Ross Malone, another rookie, has shown up well in the outfield. Claude Thompson and Mack Bradford will add much to the Crowell club, with their work behind the plate. From the playing young Joe Russell has displayed, he will push the more experienced pitchers hard for the pitching duties.

As Crowell swings into league play it looks as though they will have a young, hustling team with enough experienced players in the line-up to give promise to one of the best ball clubs that has been produced here in several years, according to O. O. Hollingsworth, manager. It will be difficult to pick the regulars for the season as there are so many players who will be just as good as those who start the games. The regular starting line-up will not be decided until later in the season.

The regulars and rookies who have reported for work-outs and the positions they will play are as follows: Grady Graves, Gordon Taylor, L. Green, Clyde Russell and Sherman Rushing, infielders; Hackell Norman, Ross Malone, L. Duckworth, Garland Taylor, Melvin Connell and Charlie Drabek, outfielders; Claude Thompson, Ernest Duckworth and Mack Bradford, catchers; Jack Rogers, Herman Green, Joe Russell and Mose Thompson, pitchers.

Probable Starting Line-Up

The probable starting line-up and batting order for the opening game Sunday, which will start at 3 p. m., is as follows: Graves, first base; L. Green, short stop; Norman, center field; C. Russell, third base; G. Taylor, second base; Malone, right field; Duckworth, left field; C. Thompson, catcher, and J. Rogers, pitcher.

SENIOR, ROOKIE FOOTBALL TILT AT 3:45 P. M.

Game Postponed Until Thursday; Will End Spring Training

The football game between the Seniors and the Wildcats of next fall will be played Thursday afternoon at 3:45 o'clock on the high school gridiron. The tilt has been postponed from Wednesday, as announced last week, because of conflicting with other high school activities.

The game Thursday afternoon will end the spring training period, which was started nine weeks ago, and was conducted by Coach Grady Graves.

Crowell football fans will have the opportunity to see a game that promises to be a grand finale for Wildcats on the Senior team. The Seniors boast a heavier, more experienced team but the candidates will have the advantage of the spring training session and will present a well balanced, fast team Thursday.

Comparing the two teams, the Seniors will have three of the regular backs of the 1936 squad behind a line studded with four more regulars. The 1937-to-be team will have four lettermen, not all regulars, and in the line there will be seven of the 1936 grid machine. Only two of the line men were regulars last season.

Garland Rasberry, all-district quarterback in 1936, will lead the Seniors. Gilbert Lankford, hard hitting fullback, will back the Senior line and clear would-be tacklers for his ball carriers. Veceera, plucky 1936 regular, and Joe Eddy will fill the halfback positions. Adolf Slovak, Ed Brisco and Ben Barker will perform tackle and guard duties on the left side of the line. Glen Don Reeder, 1936 center, will also make his last appearance on the high school field with this game. Glen Shook, guard, and Robert Thompson, tackle, both regulars of last year, will add greatly to the strength of the Senior line. Garrett Middlebrook, fleet-footed basketballer, will fill the right end notch and should show a fancy bit of pass grabbing. Ike Wilson will play the other end.

Raymond Joy will bark signals for the candidates and will shoulder his part of the ball carrying, passing and punting. John Lee Orr and Que Alanson will fill the halfback positions, and William Simmons, who played guard in 1936, has been shifted to the backfield to handle the fullback post. All of the boys mentioned above are lettermen with the exception of Owens, who has proven in spring training that he is serious about wanting a place on the team next fall.

On the left side of the line, the rookies will have three of the 1936 squad, Bernice Fitzgerald, Oran Johnson and Franklin Evans as end, tackle and guard, respectively. Ed Gafford, who is living up to the standard set for him by his brother of the regional championship team, will be the pivot man. Gibson, guard, Marvin McKown, tackle, and Wayne Canup, end, will make up the right side of the line that promises to be very hard to penetrate.

With the Seniors playing nearly a veteran team, fans can very easily size up the strength of the Wildcats of 1937 before the season opens next fall.

BUS SCHEDULE CHANGES

The eastbound buses arrive at Crowell at 6:00 a. m., 5:05 p. m. and 11:00 a. m. Westbound buses are here at 1:05 a. m., 2:20 p. m. and 8 a. m.

ONE-ACT PLAY CAST SECOND IN REGIONAL

John Lee Orr Receives Highest Honor Given At Tournament

The Crowell one-act play cast won second place at the regional interscholastic League meet held at Canyon Saturday, April 24. Crowell was defeated by Pampa in the finals Saturday night by a 3-2 decision. This year is the second year that Pampa has won over Crowell in the finals of the regional meet. Crowell presented "Sparkin'" and Pampa "Cabbages."

John Lee Orr Honored

John Lee Orr, member of the Crowell cast, was selected as the best boy actor by the five judges of the tournament. This is the highest honor an individual can win at regional meet. John Lee is the third boy to receive this honor. Ragsdale Lanier and Mitchell Allee were the other Crowell boys to be placed in the regional hall of fame for one-act play actors. Miss Wanda Rose Liles received one vote as the best girl actor at the tourney.

Debaters

The Crowell girls' debating team, Camille Graves and Virginia Mae Coffey, placed third. They were defeated by Amarillo, the team that won the meet. Although the Crowell team was handicapped by the illness of one of the debaters they covered themselves with glory by entering the contests with one of the team suffering with acute bronchitis and competing against teams representing approximately 63 counties and winning third place.

Juanita Brown won third place in the Spanish contests, Riley Griffin, another Crowell representative in literary events, competed in the Spanish contests.

Will Go to State Meet

Garland Rasberry won second place in the pole vault and will go to Austin to compete in the State Interscholastic League meet Saturday, May 1. He is to be the first Crowell athlete to win a place at the regional meet since 1933, therefore qualifying to enter the State meet. Richard Veceera, representing Crowell High School in the track events, placed fifth in the mile run.

Splendid Record

Although the Crowell one-act play cast did not win the regional meet, they added much to the splendid record already established by casts directed by Mrs. I. T. Graves, who has directed Crowell High School's one-act play cast for eight years. Her casts have won seven district championships, one regional and one state championship.

The State is divided into four regions and only three other teams have the honor of winning second place in the regional tournaments. To win this distinction a cast must win the district tourney and when they are finally defeated in the regional contests they have won over casts representing over 60 counties.

The members of the one-act play cast, Wanda Rose Liles, Marjorie Spencer, Joyce White and John Lee Orr, and the other students who represented Crowell at Canyon were accompanied by Mr. and Mrs. I. T. Graves, Mrs. H. C. Brown, Mrs. Clint White and Miss Mildred Cogdell.

MICKEY CATCHES AGAIN

After many months out of uniform, Mickey Cochrane, manager and catcher of the Detroit Tigers, is pictured here as he donned his war paint for a workout with the Tigers during their spring training trip in Florida.

It's made of the right stuff.

WHAT WE THINK

(By Frank Dixon)

My neighbor dropped in to visit me the other day as I was doing some work on the sunny side of the corn crib. "You know," he said, "my wife has an awful sharp tongue at times. The other day Miss Perkins was at our house. Miss Perkins is the village old maid, a typical old maid, and a typical old crank. While my wife and she were talking over their troubles, Miss Perkins said to my wife, 'Well, its different with you, I have to live all alone, am not married and have no strong shoulder upon which to weep.' My wife said quick as scat, 'Well, if you are not married you probably have no cause to weep.'"

My wife's sister is one of those capable women who never makes a mistake. At least I never heard of her making one.

On such occasions his sister reads him the riot act as only a perfect woman can read the riot act to an erring brother, she gives him a good skinning for breaking his promise and giving way to his horrible appetite as she calls it.

I never take any part in these arguments but on several occasions when my wife's sister has been at our house for Thanksgiving dinner on the occasion of a birthday celebration, she always winds up by eating too much, and going home with a bad case of indigestion, which lasts several days.

I've often wondered why her brother didn't get after her for giving way to her appetite but he never has, though to my way of looking at, there isn't much difference.

My wife was tickled to death when her last daughter got married off and I was just as tickled when my new son-in-law made enough so the family could go on its own.

I hope when the minister gets up my obituary he won't indulge in the usual fulsome praise that makes the average obituary ridiculous. Such an obituary always departed had been charged with being otherwise and the minister felt called upon to defend him.

If the captains of finance would tell the truth about how they got their start on the farm, they would tell how they made their first money trapping skunks and muskrats. That is the way the young fellows out here all get their starts.

When a three dollar and a half cow or horse gets killed by the railroad company the owner usually brings suit for two or three hundred dollars. The same rule seems to prevail in the damage suit when some woman runs off with another woman's husband worth about 98 cents.

Folks out in my section are wheat conscious when it comes to the weather. It doesn't make any difference how mean or nasty the weather is if some one shows up and says it is good for the wheat everyone immediately starts bragging on it.

ed after the second inning to nip Gulf rallies. Graves' pitching left several of the Oilers swinging.

Line-ups in batting order are as follows: Sinclair—Mullins, catcher; Graves, pitcher; Thomas, first base; Bursley, second base; L. Carter, short stop; Todd, roving short stop; Huckabee, third base; Welch, right field; Gafford, center field; Spencer, right field.

Gulf—Speers, center field; Beverly, left field; Crowell, short stop; Bell, first base; Greer, roving short stop; Thomas, second base; Ashford, catcher; Myers, third base; Marge, right field; Fitzgerald, right field; McDaniel, center field.

Game Played Tuesday

The game Tuesday afternoon was the closest contested match that soft ball fans have witnessed this year. The Gulf players took a three run lead in the first two innings and the Oilers tied it up in the third but the Oilers pushed over two more runs in their half of the inning to hold the lead until the sixth when the Sinclairs scored three tallies to tie the score at 8-8.

The line-ups for this game were the same except that Marvin McKown played for the Sinclair team.

Margaret Game

The Margaret Bulldogs came from behind to defeat the Gulf Oilers, 9 to 6, in a game played Wednesday afternoon.

The sparkly play of the Margaret outfield was the decisive factor in the Oilers' defeat although the entire team played good soft ball.

Cecil Ingle, Margaret left fielder, made the most spectacular catches of the game, catching several fly balls over his head while running.

The line-up for the Oilers was the same, except that Graves and Huckabee, of the Sinclair team, played with the Gulf team.

Line-up for Margaret: Owens, catcher; J. Russell, pitcher; Garland Taylor, first base; Buster Davidson, second base; Gordon Taylor, short stop; C. Russell, third base; Gus Russell, roving short stop; Ross Malone, center field; Cecil Ingle, left field; Reinhardt, right field.

LIBRARY NEWS

The new book in the library this week is "The Doctor," by Mary Roberts Rinehart. Of course, there are always her Tish stories; but even so, "The Doctor" is Mrs. Rinehart's best so far, and this is saying a great deal because she has written so many novels.

It is the age-old pattern of the poor boy and the rich girl, and their struggle for love against great odds—even the ancient device of the intercepted letter is rung in, to keep Noel from marriage with lovely and wealthy Beverly Lewis, and to help force him into union with shallow Katie Walters.

Any reader of popular novels can guess the end. But that is not important. What makes "The Doctor" worth while is the vast amount of quiet detail with which Mrs. Rinehart evokes the talented Arden, etching his evolution from his days as an interne to high success as a surgeon, through the crisis that all but wrecked him professionally and emotionally, and finally to prestige once more, stability, and as much happiness as he would ever have.

Mrs. Rinehart knows the life of a doctor. More than that—and a rarer attribute—she knows and likes people. Consequently, Arden emerges from her pages with all his stubbornness and too strong pride, necessarily loving his work first and Beverly a little below it. From the beginning he is individual, a person, admirable, exasperating, only rarely lovable. Simply, he is a human being, difficult, doing a worth while work.

And all Mrs. Rinehart's other characters are human, too; the high-spirited Beverly, her cold and vengeful but somehow pitiable father, and her handsome unhappy mother are people we feel we know. We know, too, the shy and ineffective Henry Walters and his helpless querulous wife. Even minor characters, however unimportant, live and breathe.

In other words, "The Doctor" is one of those unusual books, one cannot read without that sense of broadening and enrichment which comes from close acquaintance with people and more people, and

from the privilege of a long thorough look into an unfamiliar but fascinating world of endeavor.

Rialto Featuring "Love is News" During Week-End

"Love is News" starring Tryone Power, Loretta Young and Don Ameche will be featured at the Rialto Theatre during the week-end.

The plot is simple, but provocative. Loretta Young, rich girl, hates publicity; consequently she decorates the headlines continually. By a ruse, reporter Tryone Power, who is always in editor Don Ameche's dog house, tricks her into a story that she preferred to keep a secret. It's a scoop, but it's nothing to the scoop all the other newspapers have when Miss Young announces to the other reporters that she's ending Power with \$1,000,000 and is going to marry him. Mr. Power naturally is chagrined in this affront to his professional abilities, nor is his lot any lighter by the rantings of the city editor. His pleas to Miss Young for mercy only result in his being tossed into more hot water, incidents and sequences permitting the supporting cast to add to the merriment.

The ever-popular Irish film star, Pat O'Brien has the title role in "The Great O'Malley," a melodrama of life in New York's colorful East Side, which shows next Wednesday and Thursday.

Pat's a policeman this time. He's Officer O'Malley, a tough, hardboiled copper who cannot see beyond his rule book until a little crippled girl and a lovely school teacher humanize him. Sybil Jason plays the part of the crippled child and Ann Sheridan of Dallas plays the school teacher.

Rafflesias, Parasitic Plants

MESCAL IKE

Two Minute Sermon

(By Thomas Hastwell)

Behold It Is Very Good: In the first chapter of Genesis we read the story of the creation of the world. This story of the greatest achievement of all time is briefly and graphically told in a few short sentences. After the earth and the heavens were fashioned out of darkness and chaos and void, and vegetation was created, and the animals, and finally man, the writer tells us that God saw everything that had been made, and pronounced it very good. Herein lies a text, a motto, a goal for every life. We build life and character step by step and day by day, putting into it the sum total of our daily lives. Some day we are going to come to that point where we will halt and survey the life we have built. It stands before us a complete thing, just as we have shaped and fashioned it. It will have in it just what we have chosen to put into it. It will be filled with little and mean, and unworthy things, or it will be made up of worthy thoughts, and splendid deeds and lofty concepts. We do not give it much thought perhaps as we build it day by day, but when the time comes that it stands before us and the world, as a completed whole, and it is too late to go back and build it anew, it will mean much to us if we can point to our handiwork and truly say, behold, it is good, it is very good.

Defects Discovered Early and Corrected Aid Child's Health

Austin.—"One of the valued by-products of May Day—Child Health Day activities of recent years has been the stimulus of physical examinations in the schools of our State," is the opinion of Dr. Geo. W. Cox, State Health Officer. Early detection of these defects and their corrections will assure better health and well being to our coming generation.

A child with defective vision cannot be expected to do the required work in school until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions as habitual winking, may be caused by a defect and should have immediate attention.

The far reaching effects of infected tonsils on the system has been recognized by health workers for years. Many of the ills of later life, such as heart disease, arthritis, deafness, etc., are directly traceable to tonsils that became infected during childhood and were allowed to remain untreated.

Dental defects are found in more children than any other imperfection, and for this reason children should be taken regularly to their dentist for examination and cleaning of the teeth. This precaution keeps the mouth clean and makes it possible to dis-

The center of interest in a picture should be hung at eye level of an average height person? Many people hang them too high and so carry the eye to the ceiling rather than the interesting points in the room.

If pictures are to be hung with visible wires they should be suspended by two parallel wires rather than with one, forming a triangular shape on the wall? Ornate, picture cards are definitely "out."

IS IT TRUE? How Can It Be?

We have a good photograph of every member of the family except Mother.

The reason is this—

"Mother love." Mother cares for you more than you care for mother; she thinks of you more than you think of her. Mother wants you to have a picture made while you are enjoying good health. Have you ever given thought that the health Mother now enjoys may be better than in the future? Perhaps you have never had her to have a picture made.

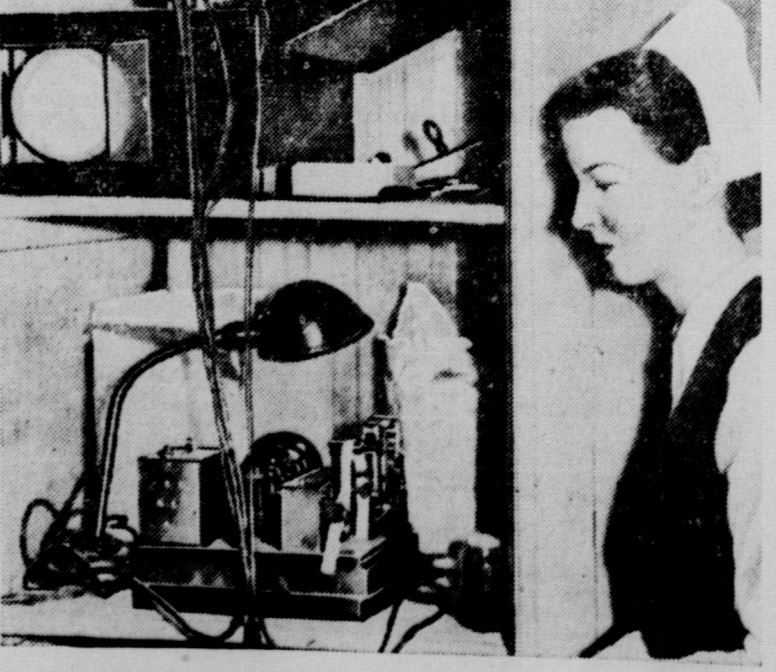

If not, Why?

A certain business man asked me for a number of photographs of the mothers in the town, to display in his show window.

I have made pictures in Crowell for about 15 years. I have most of the negatives on file in my studio, but in looking through my books I find very few orders where the mother alone had her picture made.

Let's insist on Mother having a nice portrait of herself. Some day it will be a treasure to you.

Device Makes Mental Diagnoses

Miss Veronica Lavigne, nurse at the Worcester, Mass., State hospital, is shown with the delicate apparatus now being used in making diagnoses of mental cases. The machine, it is said, records changes in the patient's mental status and shows when improvement is being made. Psychiatrists say that development of the machine may mark the turning point in the fight against dementia praecox.

MARTIN OWENS IMPROVING

Martin Owens, son of Mr. and Mrs. M. L. Owens of Foard City, who has been in the Quannah hospital for eight days and serious illness during the greater part of that time, was able to be removed to his home in Foard City Sunday.

Martin has been ill for the past six weeks and was unconscious at the time he was admitted to the hospital but he is improving at the present.

He was a student in Crowell High School and graduated in 1936.

Mr. Spencer: "What are you crying about, son?"
 Joe Reavis: "I just had a terrible scene with your wife."

Conductor: "What do you mean by spitting on the ceiling?"
 John Bowley: "Well, what do you mean by the sign, 'No spitting on the floor?'"

Mrs. Sloan: "Tell me one or two things about John Milton."
 Thomas Hembree: "Well, he got married and wrote 'Paradise Lost'. Then his wife died, and he wrote 'Paradise Regained'."

EXCHANGE

The "hotchas" and "hi-dehos" of college students are just "fronts," according to Prof. L. M. Sears, head of Purdue university's history department.

"You would be surprised how little jollity or genuine gaiety there is among youth in college," he said. "College gaiety is of the hectic, excitable type, but actually the student is under the weight of many worries which constitute real weight." What a speech to make now that exams are passed and gone!

Teachers of speech have decided that the ten most unpleasant words in the English language are: phlegmatic, crunch, flutulent, cacophony, treachery, sap, jazz, plutocrat, gripe, and plump.

"Cave men" are still preferred in the American home, according to W. P. Meroney of Baylor university, who declares that the majority of women still want and expect to be subordinated. Mr. Meroney is a brave man or he may not be married.

University of Wisconsin co-eds use enough lipstick annually to paint four good-sized barns. The average co-ed covers 68 square feet of lips in a year.

A professor in one of the eastern universities gave his reasons for classifying women as angels: they are always up in the air; always harping on something; and they never have an earthly thing to wear.

And in the old days a man would go around with niches in his gun handle instead of in his fenders.

WE WISH THAT—

We had a great, big, deep, cool swimming pool.
 We could all play volley ball like Thelma White.

We had grass and flowers on our school grounds.
 Mr. Graves would write a letter to the Quintuplets and have them begin now to save up pennies to attend Crowell High School.

The girls could have a separate gymnasium and dressing room.
 More of our teachers would take an interest in our High School edition.

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Austin.—First indication that the senate planned to get down to the real business of the regular session of the 45th legislature was given by the senate, as the final three weeks of the four-month session began, when it named a subcommittee to consider the house's tax program, and bring out recommendations to raise some additional revenue.

Although the senate has not finally disposed of pending resolutions to submit a constitutional amendment for a sales tax, it became apparent that the resolution probably could not muster the necessary votes at this session. Work has begun on the regular biennial departmental appropriations, and as fast as these appropriation measures are shaped up, the amount of new revenue needed will become apparent. The opinion of the majority of the senate subcommittee has been made clear, that if appropriations are held to approximately the same as for the last biennium, there will be no additional revenue needed.

Whatever additional funds are appropriated for other phases of the social security program, including the care of dependent children, the blind, teachers' retirement, and similar legislation, will have to be raised. This revenue obviously will come from additional imposts on sulphur, gas, oil and corporation franchises—measures already

Senate To Go Slowly

But the senate is not going to rush hastily into new social security adventuring. It has learned through experience with the old age assistance program that such legislation can run into tremendous sums of money, and that there are not now available any reliable estimates on the costs of aiding the underprivileged. So there is a strong disposition to go very slowly, leaving to time and possibly to a vote of the people in some cases, the decision as to whether the state shall obligate itself further to aid additional groups of its citizens.

It is already apparent that the house's taxation program, which has been cooling for weeks in senate committees, is going to be sharply pared down on final passage. Nothing like a 6-cent oil tax will be acceptable to the senate majority, for example. There is also a strong disposition on the part of the senators to bring out the race-track betting repeal measure—long buried on the calendar—and if so, it doubtless will pass. This will remove the greatest incentive which the governor has to call a special session immediately, particularly if some additional tax money is provided.

Advertising Bill Endangered

The constitutional amendment sponsored by the Texas Press association and piloted through the senate by Lieut. Gov. Walter

Woodul, authorizing a vote by the people on a proposal to carry out a five-year advertising program by the state to attract new industries and tourists to Texas, barely escaped an untimely death in the house, when a tie vote defeated its submission. A motion to reconsider is pending, and Gov. Allred lent his support by sending up a special message, urging its passage. Gov. Woodul has worked earnestly for its passage, took it successively through the senate, and has the support of virtually every newspaper in the state, for the measure. Members of the house appeared not to understand the proposal, some expressing the opinion during debate that the newspapers were for it because they hoped to receive the advertising money. Such an advertising program, of course, would be carried out in the North and East—where the tourist and industries markets are—and not within the state. So the newspapers' support is unselfish, and is chiefly based upon their own knowledge of the great good that would come to all of Texas through an intelligent advertising campaign. It will require a two-third vote to submit the matter, however, and a good many house members must change their minds if the people are to be given a chance to vote on the plan.

Harris Overplays Hand

Harris County interests which sought remission of state taxes for flood control had high hopes of

passing their bill over the veto of the governor, after the senate overrode the veto, but the measure met sudden and emphatic death in the house. The Houston folks ran a special train from Austin to the Bayou City, taking the whole house, and gave the members a royal day of entertainment on San Jacinto Day, when Jesse Jones dedicated the San Jacinto monument. But the house returned next day, and the bill failed to muster even a majority vote, when two-thirds was required. Many observers here expressed the opinion the Houston folks "spread it on too thick" in their efforts to convince the house of the justice of their tax remission plea.

Advocates of Highway Safety in Texas

Advocates of highway safety in Texas are working hopefully to get the new drivers' license bill, which would tighten up restrictions upon those who can obtain licenses out of the senate log jam and through to final passage. With the death rate on the highways constantly increasing, they claim there is no more important legislation pending before this session. Judge T. A. McKinney, able house member from Huntsville, is being mentioned as a possible next speaker of the house with increasing frequency. McKinney is conservative, able, and is listened to by the house on his frequent appearances before the "mike" with respect in all quarters. He is particularly apt at examining witness-

SAFETY SLOGANS

Hundreds of persons are killed every year on railroad crossings, but there is no record of anyone ever having been killed who obeyed the sign at the railroad crossing to "Stop, Look and Listen."

es during an investigation or study, and he has a knack of getting at the essential facts of any controversial question without offending supporters of either side. . . . The race-track lobby is fighting desperately to stave off a vote on track betting repeal, but the natural resources lobby fears, if that issue is permitted to bring on a special session, anything may happen to them, and they are quietly urging their friends in the senate to vote on repeal, and thus remove the best excuse they claim Gov. Allred has for a special session.

Junior Class Hosts to Ninety Seniors and Guests at Junior-Senior Banquet

The Junior class of Crowell High School entertained the Senior class, the faculty of the school and a number of other guests at the annual Junior-Senior banquet Thursday evening in the basement of the Methodist Church. The local P. T. A. prepared the meal and the young ladies of the Home Economics class served it.

The basement was decorated in the class colors, and greens, and places were marked for ninety people with attractive programs enhanced by silhouette cut-outs of old southern belles, thus instituting the old southern theme which was used throughout the evening.

James Everett Long, president of the Junior class, was master of ceremonies, and extended a welcome to which Glen Don Roderer, Senior class president, responded. Paula Pinkett entertained with a tap dance. She was accompanied by Mrs. Frances Ricks. Two duets were given by Misses Jenny D. Coffey and Thelma Lois Moore with Miss Annie Lee Long accompanying. Superintendent I. T. Graves and Mack Boswell of Vernon, formerly of Crowell, addressed the guests. The last will and testament of the Senior class was read by Miss Erbe Griffin. Misses Coffey and Moore led the entire group in a song as the final number on the program.

The Rural mothers and the faculty of the Crowell schools were guests at an all-day meeting of the local Parent-Teacher Association last Tuesday. The morning hours were spent in visiting the various departments of the school. At noon a covered dish luncheon was served in the Home Economics room to about fifty guests and members. The mothers of the primary department were hostesses for the luncheon with Mrs. Roy Arber as general chairman.

At 1:30 assembly was made in the auditorium for the afternoon program, with Mrs. Roy Todd as leader. Mrs. L. A. Andrews was in charge of a hobby exhibit which contained many interesting things. Much Activity in Foard County Clubs

"I have about 30 varieties of vegetables in my garden and they are all up well now," says Marguerite Lewis, co-operator for the Vivian 4-H Club.

All varieties of vegetables are included in the garden, about half of them being leafy, green or yellow colored ones. From this garden Marguerite hopes to preserve enough leafy and other vegetables for the family.

A green print school dress has just been completed by Wilma Nichols, wardrobe demonstrator for the Black 4-H Club.

This is the second garment Wilma has made in the last few weeks, the other being some two-piece pajamas. Wilma has all clothing goals completed up to date and will have her wardrobe demonstration complete in about a month.

A kitchen cabinet built up to the ceiling adds to the appearance as well as storage capacity in the kitchen, decided Mrs. Roscoe Eubank, kitchen demonstrator for West Side Home Demonstration Club.

This compartment was built

above the dish cabinets, has doors which open down, and is used for storing articles not frequently used.

Other improvements planned by Mrs. Eubank include refinishing walls, floors and woodwork.

MARGARET H. D. CLUB

The Margaret Home Demonstration Club had its meeting this week with Mrs. Luke Bledsoe and Mrs. Arthur Bell as hostesses. Eight members and two visitors were present.

Mrs. Ab Dunn and Mrs. Bell discussed window appearance. The next meeting will be with Mrs. Geo. Wesley May 14.

FOARD CITY H. D. CLUB

Mrs. T. F. Welch told how to clean window panes at a meeting of the club at the club house Tuesday, April 20.

Mrs. Percy Stone brought an interesting article on work commandments. Mrs. J. L. Farrar suggested planting flowers and vines around the home to make it more attractive.

A covered dish dinner was served at the noon hour. Two visitors, Hazel Canup and Mrs. Virgil Johnson, were present.

Of the 280 youths placed in private industry during December by the Junior Placement Services in Dallas, Fort Worth, and Houston, 80 were placed in factories, 58 in mercantile establishments, 62 labor, 43 errands, 21 clerical, 13 housework and restaurants, 2 skilled trade, and 1 professional, according to Lyndon B. Johnson, state director for the National Youth Administration.

First Tin Plate in U. S.

The first tin plate in the United States was produced in Wellsville, Ohio. However, in 1877, less than a year after the plant was erected at a cost of \$80,000, it was sold at sheriff's sale for \$10,000.

Location of Garden of Eden

This is a controversial question. Some scripture students have suggested the island of Ceylon, others Arabia, and more recently the claim was made that Mesopotamia was the original site.

Wealth and Poverty

Jud Tankins says wealth might be happier if it were less exclusive and poverty less formidable if it were not so companionable.

Railroad tank cars are used for the transportation of all kinds of liquids, including gasoline, oils, acids, chemicals, molasses and milk.

Portrait of Poet Horace

A little 3-inch head of a bas-relief in the Boston Museum of Fine Arts is believed to be a portrait of the poet Horace, whose features have heretofore been missing among the hundreds of statues of Romans known today.

Rice in Japan

Japan produces about 4,000 different kinds of rice. The best rice in the world is raised in Peru, but it is so expensive native Peruvians cannot afford to eat it. Instead they import Chinese rice, which is cheaper. In parts of China, rice cakes are used as soap.

Demosthenes' Orations

Some of Demosthenes' chief orations are the three "Philippics," three "Olynthiaes," "On the Peace," "On the Embassy," "On the Affairs of the Chersonese," and "On the Crown." The last is a defense of his career and by many is considered his masterpiece.

The Word "Antimacassar"

The word "antimacassar" comes from Macassar, the capital of Celebes, and the source of macassar oil which dandies once slicked their hair.
