### THE MEANING OF COMMENCEMENT

The very name "commencement" indicates that there is more to come—there are other standards of life besides "letter" associations, fraternities, and popularity polls for the school annual.

A young lad in Sunday school was asked "Who made you?" "I'm not done yet," was his reply.

How true! Especially of the cap and gown set! And yet, what senior students have done in these past four years largely determines whether or not they will always be half-baked. These four years have determined whether or not the student will go on to college and improve himself, or stay in the same "rut" all his life. The student who "hoots" at every attempt to learn in school is the one who spends his life sharpening tools for other people, collecting data for other men's books, and holding the lantern murmuring, "Well, well, what do you know

about that!" while his comrades unearth discoveries.

So, if you really understand the importance of an education, then at least graduate from high school—and it should be your highest ambition to go to college to improve yourself still further.

### PHYSICS CLASS TAKES TRIP

After arriving, the class was escorted on an interesting one-hour tour of the plant and its contents. Her favorite food is any which is of Spanish variety. (I wonder if she likes tequila?)

Genger's favorite hobby is riding horses, and playing basketball is her best sport.

Physics is her hardest subject, but it is also her favorite one. Her pet peeve is sack dresses. (If they're her pet peeve, why does she wear them?)

After she obtains her "sheep's skin" she is going to major in medicine. She hopes to be a pediatrician—oh, well, a baby doctor. Luck to ya, Ripeberry.

Janet Rasberry, who is blood kin to Genger (only a sister), is 5' 2" tall, and also has brown hair and brown eyes.

"Perky's" favorite subject is history, and English IV is her most difficult.

For sport, Janet prefers the rodeo. Her favorite food is steak, along with French fries, biscuits, iced tea, and chocolate cake. (Drool! Drool!)

"Perky's" favorite actor is Glen Renault, spelled F-O-R-D.

Janet is active on the annual staff, and she serves as vice president of the local FHA group.

After graduation, Janet is going to enroll in summer school at Tech and plans to major in science. Luck to you, "Perky," and the best of everything.

Thelma Henry is 5' 4" tall, and has green eyes and brown hair.

Her favorite food is fried chicken, French fries, iced tea. American history is Thelma's favorite subject, and English IV is her hardest.

She has no favorite movie star, but she does like popular music. (Wow! What a sentence!) Thelma considers football as her favorite spectator sport, but basketball is her favorite participation sport.

Her little 170 lb. brother is her pet peeve, and reading is her favorite pastime.

Next year, Thelma plans to work in the high school in replacement of Mrs. Ferguson who is leaving. (What's the matter, Thelma, is 12 years not long enough?) Anyway, best of luck to ya!

Pleasant Joanne Shultz is our next senior to interview. She is 5' 7" tall, has blonde hair and green eyes. Joanne's favorite sport is basketball. Geometry is her easiest subject, and English IV is her most difficult.

Her favorite food is baked ham followed by strawberry short cake. Glenn Ford and Natalie Wood are favorite movie stars. Joanne is active on both the Wildcat staff and the Roundup staff.

After she graduates, Joanne plans to attend business college in Wichita Falls. Here's luck to you, Joanne, and we know you will be a success in anything in which you partake.

Football is his favorite sport. His hobbies include hunting, fishing and girls.

Fried fish, along with all the trimmings, is his favorite food.

After graduation, Everson plans to be in bed all summer and live off his mother and dad. (Can this be true?) Anyway, we wish you luck, Everson, and we won't disturb your rest. Seriously, we wish you luck in whatever you choose for your life's work.

### TO A HOMEBREAKER; I MEAN HOMEMAKER

by Spider Bell

Hello there children! Today, Chef Charlie is going to tell you how to make delicious meals with only the barest of necessities.

First, there is my recipe for a good breakfast of hambone and eggshells. Take the hide of a skunk and dunk it into boiling hot lizzard fat. After five minutes, throw into the same pot, two pounds of eggshells and the most important part of the meal—the hambone. After boiling the mixture for three hours, take it out and throw it away, because it's lunch time by then.

For lunch, I suggest toasted cow head along with French fried squash, mashed tomatoes, piping hot buttered marshmallows and a glass of iced catsup. First, take the cow's head from the cow. Then, roast it, horns and all, to about 350 degrees F. Then, put in the ice box to cool it off. After twenty minutes, serve it with all the zest that makes you a good cook.

For supper, nothing can beat fried sparrow meat smothered in crankcase grease gravy. For dessert, I suggest apple salad. First, take an apple and peel it. Then, throw away the apple itself and make the salad out of the peelings. Season with garlic juice and aspirin powder, and then serve it.

I hope you enjoy these little tasty tidbits. Also, I hope you will remember "Spider's" Funeral Home," which is located on Main Street.

(P. S. I would like to personally thank an authority on cooking for the advice which she gave me in making my recipes.)

### CAT SCRATCHES

Today I feel above everyone in Texas. I guess you knew that the Governor of Texas asked me to escort him around Quanah last Monday at the parade. I dressed in my best cowboy outfit. Wow, I was a dude! I had on the biggest ten gallon hat there! My spurs jingled louder than any. Man, I never saw so many horses in all my life. I was really having a lot of fun admiring the horses until one big-footed nag stepped on my tail. I let out a yell that started the whole herd stampeding through the streets of Quanah! From then on, I had to sit in the car with the governor so I wouldn't get into any more trouble.

After the parade, I enjoyed a delicious barbecue dinner. I stuffed until I couldn't even walk. Later, I went to a huge dance. "Swing your partner, round and round—doey doe and round ya'll go!" I surely did have a "hum-dinger" of a time! The governor wanted me to go back to Austin with him, but you know me—loyal to CHS—all the way! So long, Tabby.

### HOME NURSING COURSE

The Homemaking II girls are learning to take care of the sick at home. This course shows many ways to improvise equipment, such as using paper disposal bags and paper house shoes, bed jackets and robes, swabs, back rests and bed table. (This may also be used for a bed cradle.)

They have also learned to make "donuts," not the kind to eat, but to use for temporary support on the patient's body to prevent bed sores.

These girls can change bed linens with a patient in the bed, give the patient a bed bath, take temperature, pulse and respiration, and keep an accurate record for the doctor.

Red Cross Home Nursing Certificates will be issued to these girls when they have finished the course.

### Use of 2,4-D to Control Weeds in Small Grains

Weeds in Grain: The most common annual and winter annual weeds found in grain fields are sunflower, mustard, careless weed, ragweed, pigweed, lambsquarter, prickly lettuce, smartweed, russian thistle and dock. These may be readily controlled by using 1 pint of amine 2, 4-D (containing 4 per cent acid per gallon) per acre, according to Joe Burkett.

The perennial weeds most commonly encountered in grain fields are bindweed and Canada thistle. These may be controlled by using 1½ pints of the above mixture per acre.

Treatment of weedy grain fields at any time suitable for spraying greatly reduces the number of weed seeds in the harvested grain. Elimination of weed seeds avoids dockage when the grain is marketed and planting unnecessary.

After the grain has reached the dough stage it is very resistant to 2,4-D and may withstand increased dosages without injury. For special treatment of tall dense stands of resistant weeds shortly before harvest, use 2 pints per acre to give quick weed knock-down.

Recommended dosages and methods should be strictly followed. An overdose may result in a chlorotic condition and stunting of the grain plants at any stage while an underdose may not give satisfactory weed control.

Apply from end of blossom stage until a few days before harvest. Treatment of a weedy grain field following bloom is worthwhile and more than justifies the expense of treatment, but does not yield returns as great as earlier treatment.

Treatment of heavy weed infestations just before harvest has resulted in enough saving in wear

tomatoes, English pea salad, buttered beets, sliced peaches.

Tuesday: corn meal muffins, pinto beans, hot tamales, whole kernel corn, lettuce leaf with cottage cheese, Graham crackers with peanut butter filling.

Wednesday: sandwiches, potato chips, lettuce and pickles, peanut butter candy, cherry cobbler.

Thursday: hamburgers, potato salad, cheese and cracker slices, ice cream.

Friday: light bread, salmon croquettes, lima beans, cheese and macaroni, carrot strips, butter cake.

ARD CITY W. S. C. S.  
 Wednesday, April 30, Mrs. Welch was hostess to the members of the Society of Christian Servants of the Foard City Church. Bill Rollins was welcomed as a visitor and Mrs. Welch opened the meeting with a prayer. Dispensing with the business meeting, Mrs. V. A. Johnson conducted her explanations of the current course of study, "Disciples Such a Lord," by Albert E.

Barnett. During the period of questions dealing with the ninth chapter of Mark, faith was defined as "the confidence that divine aid, matching all human need, is actually within human reach."  
 Only three chapters of the book remain to be reviewed at the next group meeting. All who have participated in the study of this book dealing with the Gospel according to Mark have expressed great interest and enthusiasm in the simple and logical explanations given by

the author.  
 The meeting was concluded by repeating the prayer once used by the Epworth League, forerunner of the present Methodist Youth Fellowship. Cookies and punch were served by the hostess.

**Use Pesticides Only for Their Intended Purpose**

Never use plant pesticides on livestock. This rule for protecting farm animals from chemical poisoning was developed by U. S. D. A. scientists investigating occasional cases of livestock poisoning by insecticides and herbicides. Though the same material may be used in preparations designed for use on animals as for plants, the concentration and chemical formulation may be vastly different. The difference can mean a sick animal. Pesticides are "safe" only when used as intended by the manufacturer and in accordance with his directions, points out C. F. Garner, extension entomologist.  
 Never over-treat plants to be used as livestock feed, advises Garner. Some highly poisonous insecticides can be used safely because directions call for quantities too small to cause animal poisoning. Less toxic compounds may be more dangerous where larger than recommended quantities are used. Always follow the manufacturer's directions and never guess at quantities, cautions Garner.  
 Poison symptoms appearing in animals fed pesticide-treated materials may mask even more serious disorders such as rabies, diarrhoeas and encephalitis. Diagnosis is difficult, but animals suffering from pesticide poisoning alone will usually recover completely under good care, providing the poisoning is not too severe.  
 Chlorinated hydrocarbon insecticides such as DDT, TDE, methoxychlor, benzene hexachlor, isodrin and endrin act on the central nervous system. Symptoms range from severe depression to violent convulsions or respiratory paralysis.  
 Organic phosphorus compounds used for plant pest control are closely allied to the nerve gases developed for chemical warfare. They include parathion, methyl parathion, malathion, Dipterex, chlorothion and Guthion. They also affect the nervous system, and animals poisoned breathe with difficulty, slobber and stiffen.  
 Chemical weed killers rarely poi-

son livestock, despite claims to the contrary. The only danger, according to the USDA scientists, lies in consumption of freshly treated plants. This can be avoided by removing livestock from treated areas for one or two weeks. Arsenical compounds are well established as poisonous, but they are less frequently used than formerly. The common weed killers, 2, 4-D and 2,4,5-T are much less toxic to animals.  
 Garner suggests that copies of the various insect and parasite control guides, both for plants and animals, be obtained from the local county agent.

Why the Bible Had to be Changed. Something utterly new has taken root in America during the past generation, a Communist mentality representing a systematic, purpose and conscious attempt to destroy Western civilization and roll history back to the age of barbaric cruelty and despotism.

Why the Bible Had to be Changed. Evil is depicted as good, terror as justice, hate as love, and obedience to a foreign master as patriotism. The original Bible could not be endured by Communism because of its sincerity before God.

There were 10 members present. The 4th meeting will be in Mrs. Shultz's home May 9. The program will be dinner at home by Mary Brown.

## STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin, Tex.—At least 12 weeks of lively politicking lie ahead for Texas.

U. S. Sen. Ralph W. Yarborough laid the chips on the line and announced as a candidate for reelection. Since his opponent will be former Sen. William Blakely, this appears to be the hottest race of the 1958 campaign.

Except for one Supreme Court justice, all top state officials are asking re-election.

As the filing time ended, only a few incumbents were without opposition.

TEC FIRING UPHELD—After hearing both sides, the Merit System Council voted unanimously not to interfere in the Texas Employment Commission's dismissal of its legal counsel.

Ousted Attorney Lee G. Williams said he would appeal to the courts. Williams was fired last month by a 2-1 Commission vote. R. F. Newman, labor representative on the Commission opposed the decision by Chmn. S. Perry and Maurice Acers, management representative.

Brown told the Merit System Council he felt Williams' personal feelings prejudiced his legal opinions in favor of labor. Biased legal advice, Brown contended, "is probably worse than none at all."

Williams exhibited legal opinions he had prepared favoring management's side. Newman and three former Commission members pled on Williams' behalf.

NEW TACK ON TIDELANDS—International boundary discussion at the current Geneva Conference may dim Texas' hopes in the tidelands struggle, Atty. Gen. Will Wilson noted in a recent speech.

Russia wants national boundaries to be 12 miles out from land, Wilson related, and the U. S. says 3 miles out. Texas, in a case to be heard by the U. S. Supreme Court Oct. 13, will be trying to protect its long-standing claim to 10 1/2 miles.

But, said Wilson, "the United States can't plug for a 3-mile international boundary and turn around and give Texas 10 miles." If the 3-mile boundary sticks, he said, Texas will then ask for oil rights to the 10-mile limit.

WHY IT COSTS MORE—Wrap-around windshields and loads of chrome inevitably mean higher rates for automobile insurance.

A special legislative committee investigating auto coverage rates was told by State Insurance Dept. officials that costs of both materials and labor have gone up. New rates, to be set next summer, probably will have to be higher, they said.

In addition to the staggering tab for fixing the modern-day palace-on-wheels, if it gets smashed, high accident records boost insurance rates in a locality.

For instance, said a department official, Dallas' accident rate is only 60 per cent as high as Houston's. Hence, coverage that costs \$18 in Dallas is \$30 in Houston.

"People have to realize," he said, "that they set their own rates."

CLIMBING COSTS SEEN — Bad news for budget planners is an official estimate that state welfare and education programs will cost \$62,000,000 more during 1959-61 than at present.

In studying future spending needs, a Legislative Budget Board Committee noted that:

(1) A constitutional amendment to be voted on next November will, if approved, add \$9,000,000 to welfare costs. Proposed amendment would provide medical care for the needy.

(2) An increase in the number of children would probably up the state's share of the minimum foundation school program by \$44,000,000. In addition, the amount in the available school fund will be less, creating a need for additional appropriation.

Committee commentary revived a touchy issue—continued existence of "small, inefficient districts" that might be consolidated into other districts to lower over all costs.

ON COURTING BUSINESS — Growing government and climbing taxes make a chilly atmosphere to which to invite new industries.

This view from present Texas industrialists was presented at a recent hearing of the Texas Industrial Commission. Recently re-activated, the Industrial Commission is charged with finding ways to attract more industry to Texas.

Jim Yancey, spokesman for the Texas Manufacturers Assn., told the Commission that good labor-management laws and some restraint on government costs are needed. "Texas is fast losing its favorable position in comparison with other states in the area," he said.

Commission members noted there had been some "misunderstanding" by regional Chambers of Commerce. Commission's purpose, they emphasized, is to help, not compete with, such groups.

RATE BATTLE — An Amarillo insurance firm has advanced one step in its battle to block enforcement of new, lower credit insurance rates.

An Austin district court granted the request of Cosmos Life Co. for a temporary injunction. State Board of Insurance had ordered a slash of about 50 per cent in rates for insurance issued on the lives of persons getting small loans.

which recommended the change, said old rates were excessively high. Companies contend the new ones are ruinously low.

Court's injunction affects only Cosmos. Others, unless they join in the suit, must abide by the new rates. Until the case is finally decided, Cosmos must put in trust money equal to the difference between the old and new rates.

Home Demonstration Notes

MRS. MARY D. BROWN

This is National Home Demonstration Week. Do you know what the club in your community has been doing or do you remember anything of its history? Below are reports from our clubs on current and past projects.

**Margaret**  
The Margaret H. D. Club was organized in February, 1929, with six members. Verda Bell was president and Biddie Middlebrook was secretary-treasurer. Two of the first members are still members, two have moved away, and one, Mrs. Cora Dunn, has passed away.

Our project for the year is "The Community House." We have piped water in the club house and installed a sink. Bought five screen doors and painted them. We have bought twelve chairs for the dining room.

We are to have a covered dish luncheon at the community house for the community for Home Demonstration Week, Friday, May 9, at 7 o'clock.

**Vivian**  
Under the supervision of Miss Virginia Freeman, the Vivian H. D. Club was organized in January, 1929, at the Vivian school house with Mrs. T. W. Cooper, president, and the first regular meeting with Mrs. A. J. Whately.

Among the charter members were Mesdames A. J. Whately, J. Henry Lewis, W. O. Fish, Allen Fish, Egbert Fish, J. E. Whately, Claude Raspberry, W. Cooper, E. L. Redwine, Mrs. Raspberry and Mrs. Bowley are still members. Enrollment has consisted of from 12 to 24 members. In the early years, enrollment was so large that each member only had club once every two years.

The club was well represented in the first dress review in April, 1929, in the court house. The club project was canning meats and vegetables.

Mrs. E. L. Redwine was elected the first delegate to the A&M short course. A Negro minstrel was staged under direction of Mrs. Frank Kirkman to finance the trip.

Four years ago the club took charge of the old cemetery which dates back to 1893. In 1957 the club made cement markers for all the graves, and were able to identify all but 2 graves. The club has cleaned this cemetery annually and planted flowers there.

All day meetings were held twice a month until January 1956. Afternoon meetings have been held since. For years, at least two quilts were quilted for the hostess at each meeting.

The members made several trips including Carlsbad Cavern, Medicine Park, Dallas and Glen Rose. The club won prize in the tailored dress review for entering the most dresses. At least six quilts were entered in the tailoring review.

The club has always participated in all county wide activities.

**Riverside**  
The Riverside Home Demonstration Club, which was originally called the West Rayland H. D. Club until 1932, was organized early in January, was organized in the home of Mrs. C. L. Adkins, Jan. 14, 1929, with Virginia Freeman as the CHDA. Members pres-

ent were Mesdames John S. Ray, C. L. Adkins, Frank Ward, Buck Clark, V. L. Courtney, A. C. Crisp, J. W. Huntley, G. W. Scales, Will Wade, J. E. Young, and Misses Ruby Cowan, Bertha Dunson, Eula Mae Gregg. It wasn't long until others joined. The first three, Mrs. Ray, Mrs. Adkins and Mrs. Ward, are the charter members and still belong as active members of the present club. One of the most splendid members of the club in the early years was one who was totally blind, but was a wonderful inspiration, memorizing all the songs, club collects, prayers, etc. Three pioneer families, the Wesleys, Ayers and Ray, immigrants from New York, Kentucky and Georgia, are all represented in this club. Mrs. Ray has a copy of each and every yearbook from the time of the club's organization. Some of the earliest ones are very interesting in the fact that they included pages for individual records of everything accomplished during the year.

## Miss Lucille Sparks Becomes Bride of Jimmie R. Austin

The parlor of the First Baptist Church in Vernon was the scene of the double ring ceremony Saturday evening uniting in marriage Miss Viola Lucille Sparks and Jimmie Roger Austin. Officiating at the 7:30 o'clock nuptials was Rev. Jack Merritt, pastor of the church.

The former Miss Sparks is a daughter of Mr. and Mrs. T. D. Sparks of Crowell. The groom is a son of Mr. and Mrs. Grady Austin of Vernon.

Tail basket arrangements of white gladioli flanking positions to an archway covered with greenery which formed the setting for the nuptial space where the couple stood for recitation of vows.

Music was provided by Mrs. W. B. Huff Jr., pianist, and Mrs. Paul W. Cullar, vocalist, who sang "Because" by D'Hardelot and "O Promise Me" by Reginald de Haven.

Given in marriage by her father, the bride was attired in a ballerina-length gown of white lace over taffeta. Her waistline was accented with a cummerbund of white faille taffeta. The short bolero featured a jeweled neckline and three-quarter length sleeves closed with tiny rhinestone buttons. Her fingertip veil of illusion lace was attached to a small bandeau bordered with seed pearls.

She carried a colonial bouquet centered with a purple orchid atop a white satin-covered Bible and completed her attire with pearl and rhinestone ear clips.

Matron of honor was Mrs. A. L. Earthman, sister of the bride, who wore a Princess style dress of blue lace over taffeta, designed with cowl neckline. She carried a colonial bouquet of blue carnations.

Best man was Keith Austin, brother of the groom. Ushers were Roy Rector and Ronnie Simmons.

Mrs. Sparks, mother of the bride, wore a navy blue dress with square neckline and fitted jacket and a white shattered carnation corsage. The groom's mother was attired in a two-piece dress of off-white imported linen trimmed in navy blue and a white shattered carnation corsage.

A reception was held in the church following the ceremony. The serving table, covered with

white organdy over blue was centered with the bride's and matron of honor's bouquets flanked by lighted blue tapers.

Mrs. Travis Phillips cut the tiered wedding cake which was decorated with white rose buds and a touch of pastel blue. Alternating with serving duties were Miss Carolyn Bell, Mrs. Charles Scott, Mrs. Donald Collins, Mrs. Ronnie Simmons and Miss Mary Austin.

When the couple left for a honeymoon in Amarillo, the bride was wearing a black sheath dress with low neckline and matching duster with push-up sleeves. She wore matching accessories.

Mrs. Austin was graduated from Crowell High School in 1955 and attended Draughton's Business College in Wichita Falls. She is now employed with W. Henry (Hy) Rogers Abstract Company.

Mr. Austin graduated in 1954 from Vernon High School. He is now employed with Krebs Motor Co.

Upon their return to Vernon the couple will establish residence at 2603 Texas Street.

## HENRY CIRCLE

The Henry Circle of the Methodist Church met in the home of Mrs. Lewis Sloan on May 5. The March of Missions was studied for the general theme of the year. The devotional was presented by Mrs. Henry Borchardt and was taken from Psalms. Mrs. Mike Brown talked on "The March of Mission Dollars Is a March of the Abundant Life of Christ."

While home and foreign work are sponsored by the WSCS, the foreign work is most needed. The work has been growing for 89 years and all nations are learning the call and increasing their gifts and labor in foreign lands.

The meeting was closed by repeating one of Peter Marshall's prayers, "Touch our hearts and our possessions for all peoples and grant us a vision of the vast possibilities for Christian service." A refreshing plate was served at the close of the program. Mrs. Doyle Kenner will be hostess on June 3.

## VIVIAN H. D. CLUB

The Vivian Home Demonstration Club met April 24 in the home of Mrs. Warren Haynie. Opening exercise was given by Mrs. C. M. Carroll. She gave a report on her trip to the district meeting in Rotan. Roll call was answered with

Eight members and 1 visitor were present.

The next club meeting will be with Miss Myrtle Fish May 16.
