## Wildcat Gridders Start Training This Week; Twenty-Four Report

Twenty-four candidates for the 1937 Wildcat High School football team reported Monday for the first practice session under the leadership of Coach Grady Graves. They are only fifteen days in training and will start practice on the first game at Floydada, Sept. 22.

### Nine Veterans Back

Of this number to report there are a total of eight lettermen and one who will start training Monday when he returns from a trip to Ft. Worth.

A starting line-up averaging 149 pounds, which will be above the average of last year, can be placed on the field by Coach Graves, although the veterans of last year will have to work to secure a position on the 1937 teams.

The probable starting line-up averages a little over 149, compared to 147 to the man in 1936. The line will average 154 pounds and the backfield 149 pounds. The average weight of the backfield is the same as last year and that of the line is 3 pounds heavier. The average weight of the entire squad is a little over 133 pounds.

### Bailey Wins Mile Run

Immediately after issuing suits Monday afternoon, Coach Graves started drills in blocking and passing. Jack Bailey easily won the mile run in a race in which the entire squad participated. His time was 17:30. He was dressed in heavy football equipment, was six minutes faster than Branch placed second and Lee Orr third.

### Prospects

Prospects for the 1937 Wildcat team are much brighter than they were this last year. Three return backfield men return to positions they held last year. They are John Lee Orr, half; Joe Mason, half; Raymond Joy, quarterback; William Simmons, fullback.

Other than the line last year, the fullback position is being trained and will probably be filled in that position this year.

Five lettermen and four squadmen returned to the line. Bernice Hazel will hold down one of the guard positions and Wayne Cannon, 1936 squadman, is the likely candidate for the other end. Mark McKown, who was absent from the line-up the greater part of the 1936 season due to an injured leg, will take up duties as a tackle. Oran Johnson, squadman who saw service in the line last year, has the inside track for the tackle berth. Three guards of last year's team, Franklin Evans, Elmer Gibson and W. E. Staton, will be back in their old positions. Gafford is showing up well.

Other than the 1936 squadmen mentioned above, Elmer Nichols returns to the team. The Wildcats won half of their reference games in 1936 and in the exception of four players the same team returned, one year later, heavier and with one year's experience behind them to give the team of this district a good chance for the district championship. The loss to the team are, Garret Rasberry, all-district back, and William Simmons will replace him in the backfield; Ira Klepper, district honorable mention man, is lost through ineffectiveness, although his shoes will be worn by Oran Johnson; Gilbert Kirkford, back, whose defensive play was a mainstay to the team, will be replaced by one of the

## Visits Here

Judge A. J. Folley, Associate Justice of the Court of Civil Appeals at Amarillo, was a visitor in this city Wednesday of this week. Although a new member of that court Judge Folley has many friends in this county. He was appointed Associate Justice of that court in May of this year upon the death of Chief Justice R. W. Hall, at which time Judge M. J. R. Jackson was elevated to the office of Chief Justice.

Judge Folley was reared on a farm in Limestone County, later moving to Mart in McLennan County, where he was graduated from high school in 1915. He then entered Baylor University at Waco from which institution he received both the A. B. and LL. B. degrees. He was a soldier during the World War and has been a member of the American Legion for more than 15 years.

When the 110th Judicial district was created in February, 1929, composed of Briscoe, Dickens, Floyd and Motley counties, Judge Folley, who was then practicing law at Floydada, was appointed as its first district attorney by Gov. Dan Moody. Serving as district attorney for six years, he was elected district judge of the same district in 1934. During his tenure of office as district attorney and district judge he resided at Floydada in Floyd County.

When the vacancy occurred on the court of Civil Appeals at Amarillo, Judge Folley, through the efforts of his friends and without application on his part, was appointed Associate Justice of that court by Governor James V. Allred. With his legal training and experience his friends predict for him many years of judicial service for the State.

### Game Warden Gives Information on Hunting Laws

Season for shooting of mourning and white-winged doves in Foard County will open Sept. 15 and will close Oct. 31, according to L. C. Cole, state game warden.

The bag limit for doves will be 15 in one day, not more than 15 in possession at one time. If two kinds of doves are taken, the bag limit will be not more than 15 of both species, or not more than 15 in possession at any one time.

There is no material change in the water-fowl regulation for ducks and geese. The open season in Texas will be during the period of November 27 to December 26. The bag limit remains the same as last year.

In the Panhandle section proper open season on doves will be from Sept. 1 to Oct. 31. The south line of this section would be Yoakum, Terry, Lynn, Garza, Kent and Stone-wall counties. The open season on doves will be during the period of November 27 to December 26. ## Forger Arrested By Sheriff Lilly Near Denton Sat.

A Denton man is being held in the Crowell jail awaiting the action of the September grand jury on two forgery charges. He was arrested Saturday near Denton by Sheriff A. W. Lilly and returned to Crowell where he was bound over under a \$3,000 bond by Justice of the Peace J. W. Klepper.

In cashing the forged checks, the man would purchase an item of small cost and present a check amounting to about \$7, made out to himself and to which he had signed a fictitious name. Unsuspecting merchants would readily remit the change and the checks would come back to them from the bank, as there was not an account under the name signed to the check.

The scheme was brought to light last Wednesday when a service station operator turned one of the checks over to Sheriff Lilly, who, upon investigating, found several more of the bogus checks the man had passed. He is only charged with two of several forgeries. At the time of his arrest another of the phony checks, which he was preparing to cash was found on his person.

It is known at present that the man gave five checks in Foard County, one in Denton County and two in Wichita County. These checks have been given to the local officials and there may be more, according to Sheriff Lilly.

## Shelter Belt Project Meeting Set for Aug. 25

A meeting for farmers of the Rayland community and other land owners in sandy land sections of Foard County will be held at the Rayland Gin office at 8:30 p. m., Wednesday, August 25, for the purpose of explaining the program of the Prairie State Forestry (Shelter Belt) Project and to take applications of farmers who want a chance to participate in this government program.

Farmers living on sandy land are urged to be present, according to announcement made here Tuesday by T. C. Croker of Chillicothe, who is in charge of the district composed of Hardeman, Wilbarger and Foard counties. Mr. Croker says these farmers are the ones who need the tree planting program most.

Greater interest in the program in the counties mentioned above is needed to keep the project active and unless action is taken at once to secure applications from farmers for this service, headquarters for the Prairie States Forestry Project will be moved to another location, Mr. Croker stated.

At the age of sixteen Mr. Glover was converted and joined the Methodist Church at Jackson. After coming to Texas he placed his church letter in the Presbyterian Church, as there was no Methodist Church where he then lived. At a later date he re-joined with the Methodist Church and has been a faithful, consistent member of that church, he and his wife being regular attendants until his health failed. ## Three Arrested In Liquor Raid By Officers Fri.

H. E. (Boots) Gribble of Crowell and Mr. and Mrs. F. M. Johnson of Vernon were arrested Friday and placed under bonds of \$500 each by Justice J. W. Klepper on charges of possession of liquor for purpose of sale and transporting liquor. Twenty-four pints of whiskey, twenty-four pints of gin and fifteen bottles of beer were confiscated.

Sheriff A. W. Lilly, Deputy Sheriff John Todd and City Marshal A. T. Shoolley participated in the raid and according to Sheriff Lilly the trio were caught removing the whiskey and gin from the car into the house.

A temporary restraining order was granted Tuesday by Judge C. Y. Welch restraining Mr. Gribble from selling or offering to sell any intoxicating liquors. County Attorney Foster Davis brought injunction in name of State of Texas. Mr. Davis asked that on the final hearing in September that the court order premises closed for a period of one year or until a \$1,000 bond is executed. The bond will be payable to the State of Texas, on condition that provisions of the State Liquor Act will not be violated. Grounds upon which the temporary restraining order was granted were that he was operating a common nuisance.

The car in which the liquor was transported was also confiscated and is now in the custody of Sheriff Lilly pending final disposition of charge against Mr. Johnson.

## Experiment Station Host to Agriculture Teachers of District

Six vocational agriculture teachers of the Vernon district and several other visitors were the guests of the Chillicothe Experiment Station Saturday.

J. Ray Quinby, superintendent of the station, invited these men to the station for the purpose of showing some interesting and important results of experiments that have been accomplished at the station. A large number of variety tests of cotton and grain sorghums are being carried on to determine those best fitted for the climatic conditions of this vicinity.

However, the most outstanding work accomplished that should be of great importance to this section is the development of maize that is blight resistant. Plantings of this seed and non-resistant seed side-by-side presents conclusive proof that the new variety was by far the best. Most of the silos are infected with this fungus disease which makes growing of maize almost impossible.

The vocational agriculture teachers who attended were: Walker P. Todd, Crowell; Francis E. Todd, Quannah; H. G. Barker, Harrold; M. S. Dean, Burkburnett; J. W. Hulse, Chillicothe; and Ed Mc-Minn, Kirkland.

CONGRESSMAN W.D. McFARLANE

## Party Harmony

Last Tuesday evening the Democratic elders of the Senate threw a party with the Vice President as toastmaster, hoping to restore party harmony and to woo back the friendship of the President and of their colleagues who have followed the New Deal Administration to honor the new Democratic leader, Senator Barkley.

The President was due to drop in and pay his respects and he did, with a friendly note, praising the new Senate leader. The President's opening sentence reads:

"The quality of a man's friendship is always a safe barometer of his character and in the case of Alben Barkley this is particularly true."

The President in his message to the party harmony meeting failed to give much encouragement to those Senators who have sabotaged the Administration's program this session. By the votes of a majority of the Senators this session one would believe that Landon was elected and the Landonites, since they have blocked the program are now wanting the President to go along with them. The President in his note to the Barkley meeting, further said:

## Barnstormed Together

"We have traveled together; we have barnstormed together; we have known the exultation of victory and we have been together in times of mutual commiseration."

To many, the above sentence seemed to have a deeper significance and especially in the light of later events. The President is known to be greatly disappointed at the legislative accomplishments of this session and he is scheduled to speak over the radio September 17th on the Constitution. Many believe he will take advantage of this opportunity to express his thoughts on the Constitution and the way constitutional powers have been usurped by the Supreme Court. Many believe that the President will further carry his program to the people through a series of radio fireside chats. It is well known that farm, wage-hour, housing and other important pieces of legislation carrying out the pledges of the platform of last year have been completely blocked by the Senate in holding up judicial reform and reorganization.

## Twelve Cent Cotton

On Friday, the House and Senate Agricultural Committee conference with the President agreed upon a satisfactory resolution by which the President agreed to act under authority previously granted to peg the price of cotton. As soon as the price of cotton was released the price of cotton rose on the exchange more to \$2.00 per bale. The agreement provides that control production legislation must have prior consideration at the next session of Congress.

## Wage-Hours and Housing Legislation

Wage-Hour and Housing legislation is before the Rules Committee asking for consideration this session. Five Democratic members from the South are blocking this program. Another important reorganization bill passed by the Senate Friday and now goes to the House for consideration. It is definitely known that the Congress is driving hard to adjourn April 21st. Nothing short of a miracle will stop this course. The last day of Congress is always a hectic session. All possible high pressure methods are used to force through a lot of useless legislation. This session will be no exception to the rule.

Whoever will come after me, let him deny himself, and take up his cross and follow me. For whoever will save his life shall lose it; but whoever shall lose his life for my sake and the gospel's, the same shall save it.—Mark 8:34-35.

One of the difficult problems of life is for the individual to understand and to recognize any virtue in adversity and struggle, yet everyone who has achieved success in any line, will, if he checks back over his life, discover that in most instances the qualities that have made success possible, are the very qualities that have been put into that life by hardship and struggle and the overcoming of difficulties.

The drift has started against John L. Lewis. It seems that the feeling against being regimented is as common among workers of the land as it is among the farmers. Liberty to most folks consists in doing what they please within the law and when some one proceeds to set up a lot of rules and regulations requiring one to do this and that and the other thing at this and that time, it just naturally stirs up opposition, whatever the plan is.

One of the quickest ways to size up the life, and enterprise, and resources of a town is to start out to get a group of workers to put an enterprise over. If they are easy to get, and pitch in and work their heads off until the job is put over, it is a live town. If they are hard to get, and peter out before the job is half done the town is dead.

The war in Spain has lasted one year. It has cost a million lives of men, women and children and has resulted in the destruction of many cities and buildings of priceless architecture, and, incidentally, has accomplished nothing beyond proving again that war is nothing more or less than criminal folly.

Don't get mad when your enemies are praised. Keep up with the times, but don't get ahead of yourself. The photographer takes your money for taking your picture. A good fight is better than a bad fight. Education is often found but never lost. Be kind to your feet; be reverent to your head.

Socialite Back From Wild Life Hunt

Bronzed George Vanderbilt, twenty-three-year-old socialite, pictured aboard his yacht, Cressida, on his return from a 20,000-mile, six-month cruise in the South Seas during which he gathered about 20,000 wild-life specimens for the Philadelphia Academy of Natural Sciences.

George is shown with Tag-Along, the tortoise-mascot he picked up on the Galapagos islands.

TOMATO, OR "LOVE APPLE," ALSO "APPLE OF MOROCCO"

When the Spaniards invaded Peru they found the natives eating a small pear-shaped fruit growing on plants as tall as dwarf trees. When later they saw plants in Mexico bearing the same fruit, they did not connect the Peruvian discovery with the fruits which the Aztecs of Mexico called "Tomatl."

In process of time seeds of this "tomatl" grown in Spain found their way to Morocco, where they first became known as the "apple of Morocco." There the Italians found it and translated this term into "Pomo dei Mori." When it finally reached France it became Pomme d'Amour. Thus did our English cousins arrive at the term "love apple" now used for the tomato in various languages.

The earliest colonists to reach this continent brought seeds with them, among them those of love apples, which in those days were cherished more for the beauty of their fruit than their service as a food.

Not until the beginning of the Nineteenth century did the tomato descend from its ornamental position among the posies to its lowly place in the vegetable garden.

The real history of the tomato as an economic factor starts around 1847, states a writer in the New York World-Telegram. It was then that the pioneer tomato grower of this country, A. W. Livingston, of Ohio, started to take the tomato seriously.

What he found was a pin cushion shaped fruit, more or less hollow, tough and full of acid juice. The evolution of the tomato forms a fascinating chapter in the history of American vegetables.

HUNGARIAN VILLAGE NAMES MEN, WOMEN "EVE," "KATA"

A remarkable Hungarian village where every citizen bears a woman's name, regardless of whether he wears trousers or skirts, is described by Szarka Geza, Hungarian writer, in the Globe Magazine.

The name of the village is Szabadszentkiraly which translated literally means "Free—Saint—King."

Half of the people of the town bear the name of Kata, the other half Eve. This dates back to the time of King Zsigmond, who gave the village to two maidens. The king had been imprisoned by wealthy subjects whose taxes he had raised. He managed to escape, but his enemies followed in hot pursuit. They were close behind him when he reached a river bank by a small hamlet. Here two maidens, doing their laundry, hid him under a tub until his pursuers gave up the chase.

In gratitude, the king decided one half of the village to each of them. To this day the descendants of these two women—Kata and Eve—always have their forebear's name included in theirs.

Some how I don't feel the depression has taught us much as long as there is even one boy left in the country with an attitude of that kind toward spending money he doesn't have for things he does not need.

To a large degree this is what produced the depression and until this weakness is purged from the race our recovery if, and when, it comes is doomed to be short lived.

Victoria of England

On the death of her uncle, William IV, on June 20, 1837, Victoria ascended the throne at the age of 18, and was crowned on June 28, 1838. She became engaged to her cousin, Prince Albert of Saxe-Coburg-Gotha, in October, 1839, and married him on February 10, 1840. Her husband died in 1861, but she survived him for forty years, to January 22, 1901. She had four sons and five daughters, and by the time of her death, there were 37 great-grandchildren. Her reign was the longest in English history. Great jubilee processions and ceremonies marked the celebration of her golden anniversary in 1887, and diamond anniversary in 1897. She was born in Kensington palace, London, on May 24, 1819, and died at Osborne, Isle of Wight, January 22, 1901, at the age of nearly eighty-two, outliving all previous British rulers.

Thompson, Texas railroad commissioner and chairman of the interstate oil compact commission, who recently returned from the World Petroleum Congress in Paris, quoted significant figures concerning oil without which no nation can make war. "I'm happy about it!" she said. "I shall never feel happy again. There's nothing I can do now. I'm over divorce," Magda said.

"I've always thought—and I've been thinking it especially lately, Vic—that of all the girls I ever knew you were the one to try the long way—I mean stick to your guns, and not let what anyone does make you anything but what you are. But mind you, I'm not advising you. You were smarter when you were born than I'll ever be."

"But Mind You—Not Advising You."

Suit to foreclose Vendor's Lien, wherein Plaintiff alleges that on or about the 10th day of September, A. D. 1909, Plaintiff, acting by and through its duly constituted attorneys, conveyed to Defendant G. T. Oliver by Warranty Deed in writing, Subdivision No. 16 out of League No. 192 of the Foard County School Lands containing 177.1 acres of land and situated in Bailey County, Texas; that as part of the consideration said G. T. Oliver executed and delivered to Plaintiff, his promissory note of even date of said deed, for the principal sum of \$1,132.80, payable to Foard County at Crowell, Texas, on September 10th, 1929, bearing 5 per cent interest, interest payable annually, in advance, as it accrues, at the office of the County Treasurer of Foard County, and providing for 10 per cent of principal and interest as attorney's fees if sued upon or placed in the hands of an attorney for collection;

That on or about the 10th day of September, 1929, defendants, W. H. Cook and wife, Blanche M. Cook, executed and delivered to Plaintiff their promissory note in extension and renewal of the note hereinbefore executed by defendant, G. T. Oliver, said note being in the principal sum of \$1,132.80, due five (5) years after date, bearing 6 per cent interest, interest payable annually in advance as it accrues, both principal and interest payable at the office of the County Treasurer of Foard County, containing the usual attorney's fee clause, and secured by Deed of Trust of even date therewith covering the above described land;

That plaintiff is the legal and equitable owner and holder of said note, that same is due and unpaid; that by reason of defendant's failure to pay said note, plaintiff has been damaged in the sum of \$3,000.00; that said note has been placed in the hands of Foster Davis, an attorney, for collection, and plaintiff has contracted to pay him the 10 per cent attorney's fee stipulated therein;

That said defendants, J. S. Anderson, Mary Anderson, Nellie Anderson, Mrs. Clarice T. Olson, a widow, Amy Anderson, Mrs. Agnes T. Glascock and husband, F. T. Glascock, and E. B. Anderson, are asserting some claim, right, title or interest in and to the land and premises above described; that if any title, claim, interest or right said defendants have in said land and premises, it is inferior to plaintiff's lien;

Wherefore, plaintiff prays the Court that the defendants be cited to appear and answer in this behalf as made and provided by law, and that on hearing it have judgment for its debt and damages, interest, attorney fees and for costs of suit, and for the foreclosure of its vendor's lien on the above described land and premises and for Order of Sale and that plaintiff's lien be declared superior to all liens, claims, rights, title and interest of the defendants and each of them and that said land be ordered sold first to satisfy plaintiff's lien; and in the alternative, if the Court should find and determine that plaintiff does not have a vendor's lien then plaintiff prays for the foreclosure of its Constitutional Lien and purchase money lien and for order of sale, and for such other and further relief, general and special, in law and in equity, to which it may be justly entitled.

Herein fail not, but have before said Court, at its next regular term, this writ with your return thereon, showing how you have executed the same.

## Members of Smith-Brown Cousins' Club Gather at North Pocket Park for Meeting Saturday Night-Sunday

The pocket park north of Crowell was the scene of a reunion of a number of Smiths and Browns Saturday night and Sunday. The Smiths and Browns gathered here for the occasion are organized into a "Smith and Brown Cousins' Club," and the organization includes relatives in Texas and Oklahoma, of Sam Brown and R. H. The club was organized three years ago at the home of Mr. and Mrs. J. C. Fuller of Plainview. Mrs. Fuller is a granddaughter of Sam Brown. Mr. and Mrs. J. C. Fuller of Plainview, Mr. and Mrs. Bob Smith, Mr. and Mrs. Grover Smith, Mr. and Mrs. Ham Smith and son Ham Jr., Mr. and Mrs. Charlie Smith and two sons, Joe and Jack, all of Floydada; Mr. and Mrs. John Smith and three sons, John Jr., George and Jerry, and three daughters, Misses Mildred, Genia Belle and Lucy, of Addington, Okla.; Mrs. J. The next meeting will be in October at Lorenzo in the home of Mr. and Mrs. Joe P. Brown. Officers for the organization are Bob Smith of Floydada, president, and Mrs. Joe Smith of Silverton, secretary.

## LIBRARY NOTES

The John Newbery medal, for 1936, named for a bookseller and publisher of the eighteenth century, who was the first bookman to appreciate the reading interests of children, and given by Frederic G. Melcher, editor of the Publisher's Weekly, has been awarded Ruth Sawyer for her new book, "Roller Skates."

Ruth Sawyer makes her home in Ithaca, N. Y. She began story telling and collecting of folklore in many different parts of the world. Miss Sawyer has written a number of books, both for young readers and adults.

"Roller Skates" tells the story of 10-year-old Lucinda, who for one never-to-be-forgotten year was free to explore New York on roller skates.

The library also has the Newbery Medal Award winner for 1935, "Caddie Woodlawn," by Carol Bink.

Counting the 1937 season, there are nine players who have two more years of eligibility, and four have three years. Of the team for the coming season, only four men will be lost at the end of this year. They are three guards and one back.

**It Happens Every Year**  
Cotton is holding up remarkably well, considering the fact that the rains have held off so long. The crop will be short even if it should rain, possibly shorter if it does not. However, experienced farmers say that rains now would be followed by the cotton's throwing off heavily and little profit, if any, might be gained.

It was built by Spencer Penrose of Colorado Springs, Colo. It is half a mile above the Broadmoor hotel district shown below.

### New C. of C. Organized

The Anson Chamber of Commerce recently organized has opened an office. The new organization, the first here in the past eight years, is directly responsible for the locating of two oil well supply houses since its inception. Several families have been aided to find living quarters. Through efforts put forth the past few days two more oil well supply houses may be induced to locate here. An active campaign is being planned for many improvements in Anson.—The (Anson) Western Enterprise.

### Colonel Now

While Governor Jimmie Allred was vacationing in Mexico, Lieutenant Governor Walter Woodul, as acting governor of the state, took it on himself to appoint him a staff of colonels and Mr. Nichols was one of the number. He was commissioned August 4. So, hereinafter, if you care to address Mr. Nichols as "Colonel" — you will not be joking.—Vernon Times.

### Charge in Election Day

Not many people have noticed that the August election this year changes a custom in Texas of many, many years. Voters have become accustomed to the August primary coming on Saturday, but the election this year on proposed constitutional changes by amendment has been set for Monday, August 23.—Clarendon News.

### Balmy weather in California

Balmy weather in California August 7 brought the largest picnic crowd of the year to Bixby Park, where 15,000 ex-Texans observed their 20th annual Southern California reunion. After having consumed the supply of chicken, watermelons and black-eyed peas for lunch, the ex-longhorns settled down for an afternoon of merriment and entertainment by four hillbilly orchestras. More than 200 women dotted the picnic audience with their specially made blue bonnets, symbolic of Texas State flower of that name.

Stewart Hamblen, Texas radio orchestra leader, led his cowboy musicians in stirring the crowd to

### A Total Loss

A man who owns a seasonal business but who spends about one hundred dollars a year in advertising says that he has learned one thing from experience that has cost him money, as so much experience does. He says that he has learned that advertising money spent for anything else but space in the local newspaper is almost a dead loss. He says he tried other methods which were sold to him by smooth-talking salesmen, but none of them produced results. The difference between newspaper advertising and other advertising, says this man who has learned from experience, is that the newspaper is read carefully by nearly everyone who takes it while other forms of advertising are thrown away without reading, or forgotten. The fact that more money is spent each year for newspaper advertising than all other forms of advertising combined also indicates that if you want to get the most for your advertising money then the newspaper is the medium to spend it with.—Claude News.

### Your Horoscope

August 17, 18, 19—You are very intense in your likes and dislikes. The ease with which you learn often leads you to undertake too many things at once. You are brilliant, impulsive, generally fiery, impatient of control or dictation but loving, sympathetic and true. You are extreme in almost every way.

August 20, 21, 22—You will give and demand love without limit. As you will not stay in the background or allow any one else to, you are a decided success as an entertainer. You like to have everything as nice as possible but are willing to share your pleasure with others. You prefer to read scientific books. You possess much shrewdness that is not always manifested in the most desirable way. You are impulsive, reckless to a certain extent and have a tendency toward rule and authority.

## Will Rogers Shrine of the Sun, a Singing Tower, Is Completed

### Colorado Springs, Colo.—

The beautiful Will Rogers Shrine of the Sun is to become one of the most unique singing towers in the world. Spencer Penrose, who has built the granite memorial on Cheyenne mountain, half a mile above the Broadmoor Hotel, is now having installed an elaborate system of Westminster chimes and vibra harp which can be operated automatically through a console on which concerts can be given.

The silvery notes will be amplified and sent out over the entire Pike's Peak region. Westminster chimes will be heard on the hour and each quarter hour, starting with the dawn of each new day and continuing until 11 at night when they close the day with a hymn. After dark, floodlights will illuminate the shaft like a jewel set in velvet. The lights will come on gradually ten seconds before the song of the chimes, and thirty seconds after the last note has been lost in the night, the light will be dimmed to extinction.

The singing tower will be in readiness for formal dedication of the shrine on Sept. 6. Almost two years have been required to complete the memorial. Friends of the late Will Rogers from all corners of the nation are preparing to be present for the dedication. Special trains from California, Texas, Oklahoma, Kansas, Missouri and Illinois are to carry thousands to the shrine for the dedicatory service to be held at 11 a. m. on Sept. 6—Labor Day.

Because Will Rogers was the dean of cowboys, a world-wide Will Rogers Memorial rodeo will be held Sept. 4, 5 and 6 on the Broadmoor Hotel polo grounds, just below the shrine. The opportunity to memorialize Will Rogers in the rodeo arena is attracting the world's leading cowboys. The Pike's Peak Polo Association is offering handsome trophies and \$15,000 cash prizes.

If an Indian wanted to murder a person without resorting to a person with a witch dagger, he had a witch dagger which could be thrown at a desirable person. While this was supposed to result in the Cleveland Plain the redskins were convinced had no effect on white women because of the relatively large amount of consumed in their diet.
