## Beginners' Band Program to Start at Local Schools on Monday, Oct. 1

The Beginners' Band program of the Crowell Schools will get underway officially on Monday, October 1. Students ranging in grades in school from the fourth through ninth, will be eligible to start. Music aptitude tests have been completed for those students wishing to take them. Parents of students wishing to start E. L. Rickard at the band or high school today or tomorrow.

There will be a complete new instrument display from the Wichita Falls music company in Crowell at the band

hall on Monday evening from 6:30 until 9. The purpose of the display is to better acquaint students and parents with band instruments and to give those interested an opportunity to rent or purchase the various instruments.

An explanation of the procedure follows: Both new and used instruments rent for a six weeks period for 10 per cent of the purchase price, or about \$5.00 up. At the close of the six weeks period, the person renting has the option to either buy the instrument or return it. Should the rental money already paid will apply on the cost of the instrument.

"This six weeks period is ample time for the parent, student and instructor to tell whether the student should continue in band," Mr. Rickard said.

He further states that the school has several instruments not being used at the present time. These instruments may be used by certain deserving students at no charge. Students feeling they might qualify for one of the school-owned instruments should contact the band director immediately, as the supply is very limited.

According to Rickard, the schedule has been worked out so that as many as forty students may start in band this fall. No student taking band will miss any of his or her classroom work.

## Quannah Indians Defeat Crowell Wildcats 20 to 19 Last Friday Night

The Crowell High School football team lost a heartbreaker to the Quannah Indians here last Friday night by the score of 20 to 19. However, it was time for luck to play out as the Wildcats have come out on top of the Indians by this same margin for the past three years.

Statistics proved to be about as close as the score. Both teams chalked up 14 first downs. Quannah led in total yardage with 270 to 248. All of Quannah's yardage came on the ground as they failed to complete a pass out of two tries. Crowell tried ten passes and completed four for 96 yards. The Indians were bothered more with fumbles and penalties. They fumbled eight times and Crowell recovered four of those. The Wildcats fumbled twice and lost the ball one of these times. Quannah was penalized seven times for 55 yards. Crowell received 20 yards on two penalties.

Roy Don Payne, 142-pound halfback from Crowell, received much punishment from the big Quannah line, but he was the leading ground gainer for the evening with over

#### WE'RE COUNTING ON YOU!

Students have often been told that, though they may not be the leaders of their group, they can still be good followers. To be a good leader or a good follower, one must abide by much the same examples.

For instance, did you ever see an individual who was really admired and respected if he was always talking when he should have been listening, or if he was being in any way unmannerly?

You, as a student, want CHS to be proud of you, and you want to be proud of it. If you are one of the following "characters" in the school, remember that you're an enemy because you hurt its

#### reputation as a whole:

1. The gander who litters corridors.
2. The guzzler who spills on cafeteria tables.
3. The grouser who finds fault with student leaders.
4. The growler who can't be loyal to the team.
5. The grumbler who knows teachers are "agin 'em."
6. The "Sad Sack" of any kind who isn't an asset to the school.

#### SCHOOL SPIRIT IS CATCHING

There was real enthusiasm at the pep rally last Friday afternoon. The pep band, the pep club, the student body, the faculty, the visitors all yelled—result—the roof nearly came tumbling down! Seriously, we did exhibit some real school spirit; we showed what happens when every one takes part in a school activity.

Coach Amonett and two of our fans, Mrs. Henry Borchardt and Mr. Izzy Wisch, made encouraging remarks. There were other town people in the audience; their presence helped, too.

#### CLUBLICITY

Home Economics Class Organized On Friday, Sept. 14, the first period Homemaking II students held a meeting to elect officers for the year. Chosen as president was Joyce Howard with Peggy

Cates as vice president. The class elected Linda Ferguson, secretary; Lillie Polk and Beverly Kelly, treasurer and reporter, respectively.

To make their semester more enjoyable, the class decided to have a short program once every two weeks. Jeanie White was chosen program chairman. The programs will include Bible study and devotionals, fashions, and other subjects of interest.

On Thursday night, Sept. 20, the Thespians of Troupe 1101 met at the home of Mrs. Moody Buryse, the sponsor.

#### LIBRARY PUZZLE

Instruction for reading:  
 1. Begin with letter U. Count 1 as 1, B as 2 and S as 3. Use every third letter to form first complete sentence, begin again at 1.  
 2. Count 1 as first letter of sentence. Then count B as 1, S as 2, and T as 3. Use every third letter again to make second complete sentence.  
 3. Heed what you read.

#### BAND NEWS

Band Elects Officers The following officers were elected at a meeting of the band on Monday morning: president, Noel Wilkins; vice president, Charles Bell; secretary, Sandra Campbell; reporter, Shirley Fox. Plans to attend the TCU-Arkansas football game at Fort Worth and the State Fair at Dallas were discussed.

#### Half Time Show Is Presented

Once again Friday night, the Crowell Band lined up at the west end of the playing field in their traditional entrance formation, a company front formation, on the goal line.

A snappy step off and the band proceeded down the field going into block formation playing a march, "Escort of Honor." Going directly into a block Q for Quannah, the band played a salute to the visiting patrons from north of us. Breaking formation, the band executed a pair of column lefts and halted in front of the stands for the feature attraction of the show. Twenty members of the CHS pep squad twirling Swiss flags were presented in a precision routine. The band returned to marching formation and again stepped off down the field playing "Tanforan March." A left flank and a right flank without signals followed by a counter-march brought the band back to the mid-field stripe where a huge block C was formed. The band played the CHS Fight Song and returning to marching formation left the field.

#### STUDENTS HEAR CHOIR FROM ABROAD

This summer some of the Crowell and Margaret youth were fortunate in getting to hear the India Centenary Choir which came to Quannah under the sponsorship of the Methodist Church.

The group was composed of talented young musicians from India and Pakistan in Southern Asia under the direction of Vic-

tor C. Sherring. The members of the choir were dressed in native costumes. The girls wore long, colorful robes, similar to the kimonos of Japan. The boys wore long coats that buttoned high at the neck. The trousers had close fitting legs. All wore American shoes.

After the church program, two of the girls gave a very graceful temple ceremonial dance in the basement of the church.

This program was truly a treat for all who were present. It just proves that "people are people—the world over."

#### SPORTS SPOTLIGHT

The Crowell Wildcats turned in a fine performance Friday, but 1956 wasn't the year for us to beat Quannah. The boys seem to have "gone a long way" since the beginning of the season. The three touchdowns were turned in by Bradford, Payne and Gidney. As has been Quannah's down fall the past three years, Crowell couldn't seem to make "that other extra point."

A fine display of flags, presented by 20 pep squad girls and the majorettes during the half added to the fine performance of the Wildcat Band.

The Quannah Band's performance announced by Eda Juan Cummings, was also a highlight of the half.

We thank everyone of the Quannah fans for coming to the ball game; and especially our thanks go out to the Crowell fans for backing the Wildcats.

the former Miss Maurine Youree, an ex-CHS-ite, who is visiting in the States after an eighteen month residence in Panama.

Maurine told the group many interesting facts: for instance, the natives sell their goods much cheaper to a native or a Spanish speaking individual, and at the street markets they sell many delicious tropical fruits as well as little bears and colorful parakeets which they gather from their forests.

There are two classes in Panama—the peons (poor natives) and los ricos (the rich people) and los ricos are mostly politicians. The which are mostly politicians. The peons endure terrible living conditions although they resent giving side aid, and if one were to them food money, they would play it on the lottery, a very big national contest which gives huge money prizes regularly.

An errie, but true fact which caused chills to spread across the students' backs was that there are real live head hunters in a certain portion of the Panamanian territory. A novelty buy (if one cares to pay as much as \$250-\$300 for a real one) is the shrunken head. Imitations are sold for anywhere from \$14 to \$50. The real is distinguished by the way the hair grows. On an imitation, hair and whiskers do not appear natural upon close observation.

A round trip ticket from Panama to Texas, if bought in Panama, costs approximately \$200. Tickets are higher in the U. S. due to taxes.

This enlightening talk gave "Los Picaros de Enrique" much food for thought. Upon digesting this spicy tidbit, many "picaros" secretly resolved that they would someday travel "el camino real" (by ship or plane) to this interesting world shipping canal — Panama.

### Home Demonstration Notes

MRS. MARY D. BROWN

At the June council meeting, each club was given a copy of the amendments to be voted on in November. Each club should read and discuss those amendments before Nov. 6. By that time you should be familiar with them and have some understanding of what they mean. An uninformed voter is possibly worse than the woman who doesn't vote at all, so let's all try to understand what these amendments propose to do before we vote on Nov. 6.

Mrs. Monroe Karcher of the Riverside Club and Mrs. S. E. Tate of the West Side Club are attending the State and National THDA convention at San Antonio this week and I'm sure they will have many new ideas for us when they come back.

Our recipe this week is for:  
**Rice Mexicanos**  
 1/4 cup fat or drippings, 3/4

flicks alone Saturday night. Seen at the local flicks Saturday night were Don Lee - Margaret, Duane-Mary Brown, Aldon - Judy Borchardt.

At the drags Sunday were Choate and Judy Borchardt. Well, that's all the scandal the Keyhole could find. See ya next week!

#### GENE SEGROVES BRINGS HELPFUL TALK

We were indeed fortunate in having the opportunity to listen to Bro. Gene Segroves, minister of the First Christian Church, when he spoke to the student body on Tuesday, Sept. 18.

His talk was entitled "Lessons of Life as Taught by the Ant." He explained that if we want to live happily, we must learn the art of being successful.

First, we, as the ant, must be industrious. We must earn what we get in life—for life owes us nothing. We get from life just what we put into it.

Second, as ants cooperate to accomplish a task, so must we work together. It takes more than one to play a game; it takes team work.

Third, we must have perseverance. We must continue our work till the job is completed.

He finished with the following very appropriate statement, "Life is as you will have it be."

We appreciate Bro. Segroves giving us a few minutes of his time; may we profit by his remarks.

#### MENU

Monday, Oct. 1: meat loaf, creamed potatoes, green beans, lettuce and tomato salad, fresh apples and grapes.

Tuesday: corn bread, beans, spinach, deviled eggs, cheese and crackers, celery, coconut pudding.

Wednesday: barbecued meat balls, creamed peas, carrots, cheese and macaroni, canteloupe slices, orange cake.

Thursday: stew meat, creamed sweet potatoes, Spanish rice, English pea salad, pineapple slice on lettuce leaf.

Friday: salmon croquettes, potato salad, pinto beans, buttered beets, cherry, cobbler, milk or fruit juice, light bread.

#### FOOTBALL HIGHLIGHTS—1955

Through the courtesy of Humble Oil & Refining Co., their representative, Leonard Schur, brought to the student body a 30-minute film, "Football Highlights 1955" on Wednesday, Sept. 19.

This film reviewed the many breath taking plays that were outstanding in last year's Southwest Conference games. It isn't every day we can take "time out" for such a treat!

Today's Answers:  
 1. Library Puzzle — Use the library often. It will help you much.  
 2. How's your vocabulary — apothecaries—druggists.

**TRACTOR ACCIDENTS KILL 2**  
 A tractor accident in Nebraska recently took two lives. The tractor, owned by P. Siebert, 52, of Lusk, Nebraska, was operating on a farm pond dam. The tractor hit a low spot on the dam ridge, tipping over into the water and pinning the youth under the machine.  
 On July 18, 1938, Douglas Corrigan landed in Dublin on his "wrong way" flight.

Austin, Tex.—Activities of the National Association for the Advancement of Colored People have ended, temporarily, in Texas. A stop order was issued at the request of Attorney General John Ben Shepperd by District Judge Otis T. Dunagan of Tyler. Hearing will be held Friday (Sept. 28).

Investigation of the NAACP, a New York corporation with 112 branch offices in Texas, have been going on quietly for several months. Climax came with the filing of charges alleging numerous violations of Texas laws.

Specifically charged were efforts to register Negro students in Texas schools, contrary to the laws of the State; inciting racial prejudice, picketing, riots and other unlawful acts, contrary to public peace; engaging in political activities; operating without a permit; evasion of taxes; practicing law without a license; and coercing Negro students and their parents.

Transaction of business in Texas, by a foreign corporation, is "only a privilege which the State of Texas may confer, extend, or withhold," said Shepperd. This is not "in any manner" a suit against the Negro citizens of Texas, Shepperd pointed out. "It is limited to the NAACP as a foreign corporation, and their affiliated organizations. For over 100 years the white and colored races have lived together in Texas peacefully and in harmony. Were it not for the activities of the NAACP they would now, and in the future, continue to do so."

Dr. H. Boyd Hall, state NAACP president, said the move indicated that Texas is entering "an era of persecution." NAACP officials immediately called a 17-state meeting for St. Louis. Although the principal headquarters of the NAACP is in Dallas, the suit was filed in Tyler because a number of defendants are in that area.

**STATE INCOME UP**—State income jumped nearly \$75,000,000 during the past year but increasing expenditures are expected to consume it all and more too. Revenues totaled \$913,422,792 during the fiscal year, State Comp. R. S. Calvert reported.

A state budget spokesman said the present spending pattern and new demands will likely require a new tax bill at the next session of the Legislature. Requiring more money are growths in public schools, junior and senior colleges, prisons and hospitals. Proposals for increases in teacher retirement benefits and aid to disabled persons are to be voted on in November.

Gap is estimated variously from \$5,000,000 to \$30,000,000.

**ROAD MONEY EARMARKED**—For the first time, right-of-way on Texas' interstate highway system will be purchased with federal-state money instead of city and county money.

An initial fund of \$19,366,100 for such purchases has been established by the State Highway Commission. Texas put up 10 per cent; the federal government 90 per cent.

Included in the current program are 637 miles of new work costing an estimated \$256,000,000.

**OIL FLOW CUT**—Reduction of 75,160 barrels daily in Texas' permissive oil flow was ordered for October by the Railroad Commission.

This trims the allowable to 3,279,697 barrels daily with wells operating 15 days during the month. One commissioner, Olin Culberson, wanted to go to a 16-day pattern. He expressed unhappiness with the depressing influence of imports on the Texas allowable.

**JOBS FOR HANDICAPPED**—Texas employers put more handicapped persons on jobs last year than ever before—24,445. Applications increased, however, from 6,727 to 14,004.

Laurence R. Melton, chairman of the Texas Committee for Employment of the Physically Handicapped, announced the figures.

Gov. Allan Shivers presented merit awards to three employers for their consistent hiring of handicapped persons. These were Sears Roebuck, Hammond Laundry and Machinery Co. of Waco, and Howard Aereo Inc. of San Antonio.

Earl Brown Jr., Abilene, was designated the handicapped person of the year. A special award went to Adolph L. Stein Jr., Kelly Air Force Base.

**STANDBY RESERVES POLLED**—Questionnaires are being mailed to all standby reservists but there is no cause for alarm. Morris S. Schwartz, state selective service director, says it's just for inventory.

Standby reservists cannot be called to service unless an emergency is declared by the Congress, he said.

Based on information in his questionnaire, each standby reservist will be placed in one of three categories: I-R, available for service; II-R, deferred because of civilian occupation essential to maintenance of national health, safety or interest; or III-R, deferred by reason of extreme hardship of dependents.

**CRIME ON INCREASE**—There has been an estimated 13 per cent increase in crime in Texas cities, reports the Department of Public Safety. Rural areas show a 2 per cent decrease.

Major increase in both areas was in theft, up an estimated 14.8 per cent. Auto theft showed a 4.2 per cent gain; burglary increased 6.5 per cent.

Decreases were in rape, 18.3 per cent; murder and homicide 1.2 per cent; robbery 1.5 per cent; and aggravated assault 7.6 per cent.

**SHORT SNORTS**—Motorists are being urged by the Highway Safety Council to "police themselves" as an extra precaution against football week end traffic hazards. H. H. Coffield of Rockdale is the new chairman of the Texas Prison Board. Fred Shields of San Antonio now is vice chairman and Dr. George Ito of Austin is secretary. Prison authorities will ask the Legislature for \$8,825,000 for new buildings and improvements for the livelier market. Gov. Allan Shivers has designated this week as Business Women's Week and Oct. 14-20 as Mirabeau B. Lamar Week in Texas. Organizational meeting of the new state Democratic Executive Committee has been set for Oct. 4 in Austin. A budget of \$50,000 has been set up by the Texas Foundation for promoting the state's attractions, beginning Jan. 1. Elimination of slum sections in large cities would cut Texas' tuberculosis and pneumonia cases to one-third their present figure, according to State Health Commissioner Henry A. Holle.

When you put the Democratic and Republican farm platforms side by side, the most surprising thing about them is their remarkable similarity. You would almost need a label to tell them apart.

The only real farm issues are (1) which party is more responsible for low farm prices, and (2) which would do more to restore fair prices and income.

Both state as their major objective 100 per cent of parity prices and income for farmers. They differ only moderately over the level of price supports. Democrats would fix price supports for cotton, wheat, corn, rice and peanuts at 90 per cent of parity.

Republican supports for those ranging from 82 per cent to 85 per cent of parity.

It is only natural that in an election campaign each party should attempt to place the blame for low prices on the other. Fact of the matter is, prices were going down before the Democrats moved out of the White House, and they've been going down most of the time since then.

The reason for that decline is less political than it is economic. Both parties have hesitated to take the drastic measures that would have been necessary to force a big cut-back in production. Under both parties U. S. prices have been above world market levels because costs of production were higher than in other producing countries.

Other than price support levels, there is little difference between what the two parties promise to do if elected. Both recognize surpluses as the biggest farm problem, and each promises to take pretty much the same steps to remedy the situation.

Republicans and Democrats alike favor the soil bank payments to compensate farmers for taking still more land out of production until demand catches up with the supply. Both favor a vigorous export program to make our products competitive on world markets.

Both recognize that farmers' greatest need, aside from immediate improvement in prices, is for the development of bigger markets so that they can expand, rather than decrease, their production. Both favor spending more money for research to expand old markets and develop new ones.

There are no differences between the platforms about the need for more soil conservation and both favor expansion of crop insurance to help ease the blow of drought or other disaster.

Both platforms pledge support of farm cooperatives, and both are equally committed to such programs as Rural Electrification and the Farmers Home Administration.

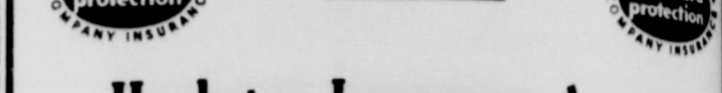

Neither party, if elected, would make any major changes, with the possible exception of Democratic repeal of flexible price supports, if elected in November. Republicans want to keep the flexible price law, but they know they can't use it fully so long as there are large surpluses of cotton, wheat and other major crops.

The way it boils down, about the only real farm issue is whether you prefer Republicans or Democrats in Washington.

A West Texas tradition says that a horned frog can live a hundred years without food or water.

### Burning Gin Trash Is Wasteful Practice

College Station — There is a simple and practical answer to the fire problem which confronts cotton ginners and farmers during every harvest season. A majority of the destructive fires originate from sparks blown from bur burners or bur pits, says F. C. Elliott, extension cotton work specialist. Eliminate these hazards and the problem is pretty well whipped, he says.

He strongly recommends that cotton burs be returned to the land. Each ton of gin waste contains about \$7 worth of plant food to say nothing of its value for adding needed organic matter to the soil. This organic matter greatly increases the water holding capacity of the soil and helps make it more drought resistant.

Elliott says that tests conducted on the Spur Experiment Station last year showed that moisture penetrated to a depth of 29 inches on land which had received an application of four tons of burs an acre the year before against a penetration of 15 inches of soil which received no treatment. Water stored in the soil, he adds, is mighty good insurance against a crop failure.

Getting the burs from the gin to the farm he recognizes as a problem but he's got an answer. He distributed for gin trash is for this one too. Plans for a truck available without cost through the county agent's office and Elliott says the distributor has done a top job or many Texas ginners. A new truck and distributor cost less than half of the normal expenditure for a bur burner.

Elliott says he has watched one farm where burs were applied five years ago and today the difference in plant growth can be noted between the treated and untreated areas. Production likewise has been effected during the five year period. Elliott says demonstrations have proved that a jump of 10 per cent in yield can be expected the first year after burs are applied to the soil.

For the sake of the soil and to save needless waste of property, the specialist advises all parties concerned to get the materials back on the land.

### POSSUM KINGDOM ENLARGEMENT PLANNED

The Six-Dam Program proposed by the Brazos River Authority includes a provision for enlarging the Possum Kingdom Reservoir. The enlarged reservoir will contain 918,000 acre-feet of water and will cover 25,800 acres. Increased storage capacity can be accomplished by raising the present dam fifteen feet.

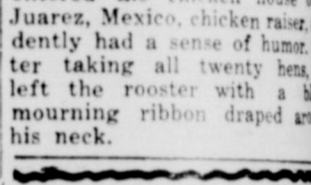

### MORE IRRIGATION POSSIBLE

Ten times as many acres of the Brazos River between Fort Worth and Richmond can be irrigated as is now the case, according to a report published by the Authority. The report states that 300,000 additional acres of bottom land could be irrigated if proper storage of water run-off were provided. At present, only 30,000 acres are irrigated. Adequate assured water supply is necessary to increase the irrigated land.

FALLOUT CLOUD from the first H-bomb blast, towering 25 miles high, begins to drift off to the left after nuclear device, rated in millions of tons of TNT, was touched off in mid-Pacific in November 1952. If the cloud could have been magnified, it would have looked much like the inset, with microscopic radioactive particles clinging to larger earth particles which were blown skyward by the blast. **Offenders Giggled by Texas JP's**

Fall hunting hopes of a few Texans were punctured by court-inflicted penalties for abusing wildlife, according to the latest arrest report issued by E. M. Sprott, director of law enforcement for the Game and Fish Commission.

Fines ranging upward from \$100 were common as justices of the peace dealt sternly with violators some of whom lost their licenses.

The harshest penalty comprised three \$200 fines plus costs for "telephoning" fish. This charge covers use of an electrical device, usually a magneto equipped hand-cranked telephone museum piece. Fish are shocked and forced to the surface to fall easy prey to the marauders.

The maximum penalty for this charge was made against persons from San Antonio, Luling and Rockdale. Defendants from Whitney, Alta Loma and Cranfills Gap paid \$100 fines plus court costs of \$19.50 each.

The director said some sharp punishment was dealt out to deer herd raiders. A Houston man paid \$150 and costs for killing a spike buck. Fines of \$100 and costs for night hunting were levied against individuals from Chester and Cleveland. Two were from the latter place.

A Mercedes resident killed a blue rock pigeon, protected by law, and paid a fine of \$25 and costs. This pigeon, which is comparatively rare and a flareback to the days of bountiful wildlife, has a red bill and red feet.

Other cases on the report included those for hunting from an automobile, shooting from a public road, possession of wild fawn deer and killing quail out of season.

**Soil Conservation News of District**

Lower Pease River Soil Conservation District, Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Farmers of the Lower Pease River Soil Conservation District are planning to plant many acres of Austrian winterpeas and vetch this fall for winter cover crops. These legumes can also provide winter grazing and serve as a green manure crop.

Vetch and peas can be sown by a common grain drill or planted in rows. About 20 pounds of vetch should be sown per acre and about 6 pounds when it is planted in rows. When drilling Austrian winterpeas, about thirty pounds per acre should be used or 10 pounds when they are planted in rows.

Both vetch and Austrian winterpeas should be inoculated before planting because inoculated seed produce a more vigorous plant which is more beneficial to the soil than a plant produced by non-inoculated seed.

**THIS IS WHERE TOMORROW STARTS**

**A new "inner car" gives you a NEW KIND of FORD for 1957!**

**Coming October 3rd.**

On Wednesday, October 3rd, Ford Dealers throughout the United States will unveil a new kind of automobile!

Cars are involved in every American's life. News of a new kind of car is the biggest kind of news to millions of Americans.

The Big New Kind of Ford is that kind of news... a car totally new in design from crest to trunk lock.

This completely new automotive package will sell at the traditionally low Ford prices.

This makes possible a new high standard of such honest-to-goodness value that it actually increases the purchasing power of your automobile dollar.

When you see it, other cars will look out of date, because... This is Where Tomorrow Starts... with a Big New Kind of Ford!

The New Kind of Ford is the fullest, most eloquent expression of Ford's special personality—the youthful grace, the whiplash action—and the reputation for durability known wherever there's a road.

To all this we have added true elegance—a kind of elegance never before seen in the low-price field. To make a car truly elegant, you must start deep down inside.

—six elbows wide in each seat, with deep space around each one of six knees. And above all that space, there's hat room to spare for all six passengers.

The 1957 Ford rides low, solid, with a firm, deep road-holding feel. Yet it's a light-hearted, flight-hearted ride—this car is responsive, nimble, agile, with a proud easy movement.

**The New Inner Ford**  
 The Inner Ford—the car you cannot see—is a very remarkable structure. Its frame is actually a cradle. Side members extend almost the full body width; they serve not only as supporting members but as concealed side bumpers of immense strength.

**The New Ford Body**  
 The new Ford body is a triumph of engineering in steel. The doors close with the solid finality of a bank vault. Even the door-lock button has been moved up front—easier for you to reach, but out of the children's reach.

All these features were engineered to give you a solid new kind of comfort.

**The New Ford Ride**  
 The New Kind of Ford sits six people as no other low-priced car has ever sat them

**The New Ford Choice**  
 Ford offers not only one, but two sizes of cars... each on its own extended wheelbase... each with its own body shell... each with its own styling.

First, the two Fairlane Series on a 118-inch wheelbase. The Fairlane 500's come in 5 body types, a four-door sedan, a two-door sedan, a two- and four-door Victoria with no center pillars, and a convertible coupe. The same body types (except for the convertible) are available in the Fairlane Series.

Second, two Custom Series mounted on the 116-inch wheelbase chassis. In the Custom 300 Series, a four-door and a two-door sedan are distinguished from the Custom models by more luxurious inte-

riors and elaborate trim. The Custom Series also includes a Business Sedan.

Beyond all these, you also have your choice of five Station Wagons—the famous glamour cruisers that are the champions in this field!

**Here is where your own tomorrow starts**

It starts at your Ford Dealer's showroom!

The cars will be there on Wednesday, October 3.

These are the best Fords of our lives.

They are the first symbols of our Detroit of the new automotive age that is beginning for you.

This is where tomorrow starts—at your Ford Dealer's.

This is when your tomorrow starts—October 3rd.

**Texas Motorists Cautioned About Children's Safety**

"I'd like to give every parent and every automobile driver a chance to sit behind the steering wheel of a school bus for just one day. Believe me, they'd learn plenty about child pedestrian safety."

That observation was made this week by E. C. McFadden of Dallas, president of the Texas Safety Association. He was discussing the child safety program which is being conducted in Texas this month by the Texas Safety Association and the Department of Public Safety in cooperation with the National Safety Council.

McFadden is pretty sure that driving a school bus would convince the adults of one thing—that the responsibility for the safety of children in traffic rests largely on the shoulders of grown ups.

"Sure, we have problem kids on the bus," he said. "But it's my opinion that the problem of most problem children is their parents."

He believes that the youngsters who get out of control on the school bus, or who disregard safety rules when getting on or off the bus, haven't been taught at home to respect others or to respect law and order.

So much for the adults who are an indirect cause of many child pedestrian accidents. He also had plenty to say about the adults who are a direct factor—the automobile drivers.

"Some of them are in such a hurry to get where they're going that they can't spare the time to stop while the school bus is loading or unloading," he said. "There are others who stop, but who don't make sure that all the children are safely across the street before they start up again. Drivers like these risk the lives of children just to save a few seconds time."

For those drivers and for those who don't slow down near schools and playgrounds or who don't keep a constant eye out for children in traffic, McFadden had this reminder:

"It's one of the responsibilities of an automobile driver to look out for kids in traffic. If you're not ready to accept this responsibility, you're not ready to drive a car."

**UNITED STATES "NICKEL"**

The United States five cent coin, commonly referred to as a "nickel," was first issued in 1866. Containing 75 per cent copper and 25 per cent nickel, it is one of the most popular and useful coins in the United States coinage system. If all the "nickels" minted since 1866 were laid flat in a single row side by side, they would reach around the earth at the equator with a good many miles to spare.

## Which Way is Up?

A recent newspaper item carried the story of a man who attempted to set a new world's record for deep-sea diving in the light equipment class—fins, mask, and oxygen tanks strapped to the back. Without the aid of ropes or guide lines, he descended approximately 500 feet, at which depth all trace of him was lost. He has never been found since.

One of the men on the surface offered reporters this explanation as being probable: when a diver gets so far below the surface, he loses all sense of direction and cannot tell whether he is swimming up or down. It is possible that the man kept swimming toward what he thought was the surface, but instead kept going down and down until his supply of oxygen was exhausted.

A horrible situation in which to find oneself! But this illustrates exactly the condition set forth in the first chapter of the Book of Romans: "For this cause God gave them up unto vile affections... and even as they did not like to retain God in their knowledge, God gave them over to a reprobate mind." When man reaches a point just so far into sin, his mind is incapable of discerning right from wrong, and all sense of proportion of good and evil is distorted, until "God gives them up"—to a mind that does not know, and is incapable of knowing, the truth. Unable to discern good from evil, they follow a reckless path downward, in ignorance, like the diver, of where they are heading, to their own destruction.

But unlike the diver's situation, God has given us clear, infallible directions and signposts, that we may know which way we are headed. God says that "there is a way which seemeth right unto a man, but the end thereof are the ways of death" (Proverbs 14:12). The diver thought he was right, or at least hoped he was right, but we can know that we are right.

The only accepted way is to follow the direction in God's Word. It tells us that God's Son, Jesus Christ, is the only way up.

If you look the world over, you'll never find so much good entertainment and spectacular fun as you'll find at the 1956 State Fair of Texas. This year's extravaganza, October 6 through 21, will present a kaleidoscopic program of sparkling entertainment, fashion shows, football games, livestock shows, agricultural and industrial exhibits, contests and special events, youth activities and carnival merry-making. There's something wonderful for everybody at this festival of fun!

Imagine these shows: "DAMN YANKEES" starring Bobby Clark and Sherry O'Neil, ICE CAPADES featuring "Peter Pan," Joe Chitwood's AUTO DAREDEVILS, and many new rides and shows on the MILLION & MIDWAY.

**COTTON BOWL FOOTBALL:** Texas A&M vs. Texas Tech on October 6, Texas vs. Oklahoma on October 13 and many big high school games.

And the big name talent: ELVIS PRESLEY on October 11, LOUIS ARMSTRONG on October 15, THE SPORTSMEN and ROGER WILLIAMS on October 16, VICTOR BORGE on October 20, FIESTA MEXICANA on October 9.

The fabulous sights: an ESPLANADE OF LIGHT, PAN-AMERICAN LIVESTOCK SHOW, a GALLERY OF PRESIDENTS in the Art Museum, amazing EXHIBITS in the Automobile Show, Electric Show, Gas Show, Women's Building, Food Show, Farm Implement Exhibits, Agriculture Show.

Not to mention free band concerts aeration acts and free shows... the INTERNATIONAL CENTER with exhibits of thirteen foreign countries, free MAGIC SHOW, PLANETARIUM.

Naturally, I'll be there to greet you... and to introduce you to my new pet, Hereford. He's only 12 feet tall, but he's mighty cute.

Yesir. There's no doubt about it. We're Shootin' the Works, all right. It's the most extravaganza, most colossal, most sensational fair of all... and it's the biggest state fair in the world! Come 'n see!

## All Types Crippling Diseases Treated at Gonzales Foundation

Gonzales, Texas — As Gonzales Warm Springs Foundation progresses during its 15th year of successful operation, patients with all types of crippling diseases find treatment and hope here.

Although poliomyelitis cases presently predominate at the Foundation, the hospital facilities are so designed, both personnel and equipment, to treat other types of cases such as cerebral palsy, multiple sclerosis, muscular dystrophy, arthritis, and other neuro-muscular diseases and musculoskeletal disorders.

Within the limits of its bed capacity, the Gonzales Warm Springs Foundation is open to any adult or child who can be benefited by the treatment program. A medical examination and evaluation conducted at the Foundation determines whether the patient can be helped or not.

While limited welfare funds do not permit free care for adults, no Texas child under 21 is ever denied treatment for lack of funds.

The first step in securing admission for prospective patients is to write for an application blank to be filled out by the parents and the referring physician.

This application blank should then be returned to the registrar at the Foundation, Box 58, Gonzales.

"This is a Texas rehabilitation center for all types of crippling diseases and we want to help anyone who needs it," said Walter Richter, director of public relations.

## ADELPHIAN CLUB

"Abundant Living Through Service" is the chosen theme of the Adelpian Club for its programs in 1956-57. According to the program committee composed of Miss Dorothy Erwin and Mrs. Henry Borchardt, the programs are designed to promote literary culture and intellectual growth of its members.

Assisted by the president, Mrs. L. E. Archer, the committee has planned programs to emphasize education, international relations, travel, religion, Americanism, youth, conservation, health, and the finer things of life such as art, music and poetry.

The Adelpian Club met Wednesday afternoon, Sept. 19, at the club house, using as its theme, "International Understanding."

Following the business meeting conducted by the president, Mrs. Archer, the program, under the direction of Mrs. W. B. Tyssinger, was presented.

Mrs. Virgil Johnson brought a timely devotional entitled, "Peace."

Mrs. Tyssinger introduced Mrs. Clinton McLain who spoke about the Suez Canal.

Hostesses for the afternoon were Mesdames Gordon Erwin and John Raines.

## COLUMBIAN CLUB

Mrs. M. N. Keener entertained members of the Columbian Club and guests, Mrs. John Davis of Paducah, Mrs. Robert L. Leggett, lately of the Canal Zone, Mrs. Mary Sam Crews of Houston and Mrs. E. E. Roland on Wednesday, September 19. For her devotional, Mrs. J. H. Gillespie read verses from the 28th Psalm.

During the business meeting, Mrs. Karl ten Brink appointed several new committees and Mrs. Jack Whitaker of Truscott was welcomed into the club.

Chairman of the Department of Education and leader for the afternoon's program, Mrs. D. R. Mazoe gave some interesting statistics on the Foard County Library, its facilities and current membership. She urged more active use of library membership privileges.

It was with much interest that all present listened as Mrs. Leggett reviewed her recent year's stay in the Canal Zone. She described the workings of the vari-

## GAMBLEVILLE H. D. CLUB

Officers for the coming year were elected at the Gambleville Home Demonstration Club meeting on Sept. 21 with Mrs. Clarence Garrett.

Those selected to take office on January 1 are as follows: Mrs. W. J. Garrett, president; Mrs. C. S. Bartley, vice president; Mrs. Cecil Carroll, secretary-treasurer, and Mrs. Clarence Garrett, reporter. Council delegates will be Mrs. A. B. Calvin and Mrs. C. Garrett. Mesdames Calvin and Milton Hunter will be the new demonstrators. Mrs. Garrett will appoint the committee chairman at a later date.

"Diary of a Tired Housewife" was given by the hostess as the opening exercise. Each member answered the roll call with what they would like to do in club the next year. Mrs. W. J. Garrett gave the council report.

Mrs. Mary D. Brown gave the program entitled "Life Insurance." The four main kinds of life insurance are term, ordinary, limited payment and endowment. Mrs. Brown pointed out how each type might meet different family needs.

The hostess award was presented to Mrs. C. N. Chatfield. Refreshments were served to Mesdames Chatfield and Brown and to six members.

The next meeting will be in the home of Mrs. A. B. Calvin on Oct. 5. The demonstration will be "Let's Prune Correctly" given by Mrs. Brown.

## VIVIAN H. D. CLUB

"Term, ordinary life, limited payment and endowment or annuity insurance are the best kinds of policies to buy," said Mrs. Mary D. Brown to the Vivian H. D. Club which met with Mrs. Jack Thomas Thursday, Sept. 13, at 2:30.

"Other insurance," continued Mrs. Brown, "are industrial, preferred risk and family income and family maintenance. Group insurance is among the best, but one should plan before buying and never buy more than can be paid for, nor drop one policy to buy another. One should also concentrate most of the insurance on the family bread winner, and be sure to know what is in the policy as it is amazing what some of them contain."

Eleven members, one new member, Mrs. Donald Werley, and four visitors, Mrs. S. J. Lewis and Mrs. Eldridge Bishop of Lockney, Mrs. J. W. Carroll and Mrs. Brown, were present.

The next meeting will be with Myrtle Fish Thursday, Sept. 27, at 2:30.

## FOARD CITY W. S. C. S.

For the devotional of the September 24 meeting of the Foard City W. S. C. S., Mrs. Grady Halbert brought a thought-provoking article by Rev. R. J. McCracken, pastor of a church in New York City, and points of special interest were discussed and explained from personal points of vantage by those present.

With Mrs. V. A. Johnson, president, serving as the leader, the WSCS pledges for the coming quadrennial were read and Mrs. Jack Welch played softly as vows were made. Sentence prayers concluded this portion of the service.

Mrs. Jack Welch, spiritual life chairman, discussed the use and abuse of the term dedication as related to each Christian and his service in God's work. Adornment was made by repeating the Lord's Prayer in unison. Mrs. Bob Ely and Mrs. Pete Quintana were guests.

## THALIA BAPTIST W. M. U.

The Thalia Baptist W. M. U. met Monday, Sept. 24, for the last Bible lesson for this association year.

The pastor, Rev. W. B. Fitzgerald, taught the lesson, after which Mrs. C. C. Wheeler, the incoming president, had charge of a short business meeting.

Eleven ladies were present. The next meeting will be October 1 with the pastor teaching the Bible lesson.

## HONORED AT SHOWER

The ladies of the Thalia Baptist Church honored Mr. and Mrs. Raymond Werley with a lovely bridal shower on Friday afternoon, Sept. 21, in the basement of the Thalia Baptist Church.

Mrs. Donald Werley presided at the bride's book. Mrs. Loyd Fox displayed the gifts and Mrs. Bill Gates and Mrs. Walter Ramsey presided at the punch bowl. Mrs. G. E. Neill furnished the music. A large number sent gifts and came.

## CONSERVING THE BRAZOS' WATER

The Brazos River Authority's Six-Dam Program will create storage capacity for more than 2.2 million acre-feet of water. The yield from this storage would supply three times the water needed by a city as large as it is estimated Houston will be in 1960. These facts are included in a publication of the Brazos River Authority, recently released. The six dams will also create a power potential of 500,000 kilowatts.

## Reappraisal of Roughage Program to Be Made in Texas

The volume of approved applications for assistance under the Texas Emergency Roughage Program has exceeded the estimates of demand made when this program was negotiated, so it is necessary to reappraise the actual cash requirements.

The agreement between Secretary Ezra Taft Benson and Governor Allan Shivers provides for an allocation of one million dollars of federal funds for the roughage program. Funds available to the U. S. Department of Agriculture to finance roughage programs must be allocated among all disaster designated states where such a program is needed.

Walter T. McKay, Texas state director of Farmers Home Administration, has been instructed by K. L. Scott, director of credit services, U. S. Department of Agriculture, to immediately instruct all FHA county offices in the designated areas to withhold further approval of roughage purchase certificates. The county offices are authorized to continue to accept and hold on file applications for assistance under this roughage program, but are instructed to take no action on these applications and to make daily reports on the tonnage requirements covered by such applications to McKay's office.

McKay has been asked to solicit the assistance of the Texas USDA drought committee and the office of the governor in making a careful reappraisal of the demand for assistance under this emer-

gency roughage program including financial requirements.

Scott stated that in keeping with the policies and the desires of Secretary Benson, the Department will continue to work closely with Governor Shivers and leaders in the state and give all assistance possible within the authority and funds available to the Department in providing assistance to drought stricken farmers and ranchers in Texas.

## Navy Sets December 8 for Navy's Annual R. O. T. C. Exam

Vice Admiral James A. Holloway Jr., Chief of Naval Personnel, announced this week that the 11th annual national competitive examinations for the Navy's Reserve Officer Training Corps will be given to interested high school seniors on December 8. Application forms are now available and must be received before November 17, he added.

Designed to supplement the officer output of the Naval Academy, the NROTC program makes it possible for a young man to earn a commission while studying at the civilian college of his choice which has an NROTC unit. All tuition, fees and books are furnished by the Navy, and the student receives an annual retainer of \$600 for four years. During the summers the student goes on fascinating training cruises as a midshipman.

After completing the usual four year college course, he is commissioned in the Regular Navy or Marine Corps and goes on ac-

flung fleets. For those who apply and qualify, immediate assignment to flight training will open new careers in Naval aviation.

High school seniors and graduates between the ages of 17 and 21 may apply for the NROTC aptitude test. Those who make a qualifying score will be given a rigid physical exam early in 1957. From the pool of qualified young men remaining in competition, approximately 2,000 will be selected to begin their naval careers next September.

The NROTC college training program is also open to enlisted men on active duty with the Navy and Marines. Separate quotas are established for applicants from within these services.

Application forms are available at all high schools, colleges, Navy recruiting stations or from the Chief of Naval Personnel, Washington 25, D. C.

## Maximum Meanness!

Speaking editorially, The Freeman magazine had something important to say about minimum wage laws under a startling title: "Minimum Wage — Maximum Meanness." It observed, "A compulsory wage fixed above what the market will pay for marginal jobs has the effect of throwing out of gainful employment those least able to earn some sort of a living — the physically handicapped, the mentally deficient, the aged and the part-time worker. It does not raise their incomes — it deprives them of a chance

at any income."

In addition, it deprives unskilled beginners of opportunities for gain experience that will give them for more responsible, better-paying jobs.

It remains to be seen what effect the increase in the minimum wage (from 75 cents to \$1.00 an hour) approved by this Congress will have. The increase was approved by a vote of 377-17, though various extremists had urged that the increase be made by a vote of 377-17.

What we have here is an economic truism: Trouble usually results when the pay of workers is artificially jacked up without any increase in their productivity and their value to producers and consumers.
