CROWELL WILDCATS TO PLAY BI-DISTRICT GAME WITH INDIANS AT HASKELL FRIDAY AFTERNOON AT 2 O'CLOCK; SQUADS ARE EVENLY MATCHED

Crowell's Third Title Go

This will be Crowell's third bi-district title game since entering scholastic competition in 1933, and the first since the flying of the famous Dick Todd led eleven to bi-district championships in 1933 and 1934.

Haskell Strong

The Indians removed all doubt from the minds of fans of their being a team of championship caliber and earned the right to represent their district in the bi-district contest on Thanksgiving when they turned an apparent defeat into an overwhelming victory.

Tickets on Sale Here

Tickets for the bi-district football game to be played between the Wildcats and Indians at Haskell Friday afternoon at 2 o'clock were received here today and are on sale at the Crowell Brothers, Periman Drug Store and Corner Drug Store. Officials advise those planning to see the game to purchase their tickets before leaving for Haskell and save themselves the headache and trouble at the playing field in trying to get a ticket.

Early in the second half, the Indians drove down to the 20-yard marker, where Sam Shaw, crack ball carrier, intercepted a pass and scampered 80 yards to score a touchdown and the Indians back in the race. A few minutes later, the Indians again scored to take a 13-7 lead. Recovering a Bulldog fumble kick off return, the Indians got under way from the 38 and marched down their third counter in the third quarter. Later in the fourth, Rogerbert broken field runner, drove through guard and fought his way the clear to cover a distance of 40 yards for the Indians' touchdown. After that score, Perry Mason gave his second and third stringers the honor of playing in a district championship game.

Indians Much Improved

The Indians' minds will unconsciously be back to the meeting of the Wildcat Indians earlier in the season when the Crowell boys won the opening game of the season. Many might try to use that as a comparative basis of team's strength, but would be wrong in doing so, because the Indians have improved greatly in any advantage that the Indians might hold from the first game. They will be playing at the Indians' home ground. According to the old dope bucket, the Indians will be entering the game with neither holding a sizeable edge, until that edge is won in the game.

Indians Have Great Record

The Wildcats, the Indians have a great record to protect. They have played nine games this season and have scored 100 points to their opponents 36. The Indians dropped their only

Former Vernon Man Entertains Wildcats

The Crowell High School Wildcat members of their party attended the Texas-A. & M. last week were entertained by a former resident of this section when they spent the night in Vernon on route to Austin. Vernon Bray, former manager of the Lyric Theatre and now manager of the Crowellites, had the Crowellites as guests for the showing of the picture, "Angels With Faces." The group also enjoyed a short with Mack Boswell, former editor of The News, and sports editor of the Brown-Bulletin.

game to Crowell in the season's opener and then came back to win the District 9-B championship by defeating their remaining opponents, one by the highest score registered by a class B in either district, as follows: Rule, 6-0; Munn (Continued on Last Page)

More Stars for Game

Information was received here Tuesday that three additional football stars, other than Wildcats and Indians, will be present for the Crowell-Haskell game.

Dick Todd, Crowell Cyclone who finished his college career at Austin last week with the Texas A. & M. Aggies, will be present to see the game. John and Jack Kimbrough, Texas A. & M. grid stars, from Haskell, will also be at the game. Todd and John Kimbrough, team mates this season, will be rivals for the day, and will be carrying the chain during the game. Jack Kimbrough has been appointed to carry the "downs" box. Todd will be outnumbered by his team mates but will do plenty of lusty cheering for his favorite team, Coach Grady Graves' Wildcats.

Officials Arrest Four In Connection with Local Cafe Robbery

Two local youths and two men have been arrested and are being held in connection with the burglary of the Club Cafe on the west side of the square last Friday night. The youths were arrested in Wichita Falls and the arrest of one man was made in Crowell following a statement from the boys. The fourth being sought in connection with the robbery was taken into custody Wednesday. Officials stated that about \$30 were taken from a phonograph machine and some food from an ice box was also missing. It is thought that entrance to the cafe was made through the back door, as it was standing open when officers arrived at the cafe.

Thief Enters Home; Steals Pants and \$60

An unidentified person entered the home of Claude R. Dodd Sunday night and took Mr. Dodd's pants, in which there was a sum of about \$60 in a wallet. The person entered the house through a front door and made his way to Mr. Dodd's bed and back through the house without awakening any of the family. The robbery was not discovered until Monday morning. No arrests have been made in connection with this robbery.

COTTON REPORT

There were 7,367 bales of cotton, counting round bales as half bales, ginned in Foard County, from the crop of 1938 prior to Nov. 14, 1938, as compared with 9,306 bales ginned to Nov. 14, 1937, according to W. L. Austin, director, Department of Commerce, Bureau of the Census, Washington, D. C.

BOY SCOUTS OF AMERICA GIVEN 35,857 ACRES NEAR CIMARRON, N. M., FOR CAMPING PURPOSES

The gift of 35,857 acres of land near Cimarron, N. M., and \$50,000 to make improvements, the gift of Mr. and Mrs. Waite Phillips of Tulsa, Okla., has recently been accepted by officials of the Boy Scouts of America. The following news item is reprinted from the Mangum, Okla., Daily Star of Nov. 20:

A gift from Mr. and Mrs. Waite Phillips, Tulsa, Okla., of 35,857 acres of land a few miles northwest of Cimarron, N. M., and \$50,000 to be used in improving and developing the land for camping purposes, has just been accepted by the Executive Board of the National Council, Boy Scouts of America.

When he made this announcement Walter W. Head, President of the Boy Scouts of America, said, "Mr. Phillips offered the property without any restriction whatsoever save that it is to be used for the benefit of members of the (Continued on Page Five.)"

Foard Given \$8,000 to Continue Work on U. S. Highway No. 70

At a hearing of Texas Highway Commission held Wednesday at Austin Foard County was allotted \$8,000 to continue the WPA project of widening U. S. Highway No. 70 from Crowell west to the Cottle County line, according to a news item in the Star-Telegram Thursday morning.

County Judge Claude Callaway and Commissioners A. W. Barker, W. A. Dunn and J. M. Marr, attended the meeting.

More Interesting Items Taken from Old Issue of Paper

Howard Williams brought us several more early editions of The Foard County News Monday. One of these was printed Dec. 24, 1887, in the same year as the one that items were copied from last week and was edited by Judge Robert Cole. The front page of this paper contained an ad from Rogers, Auten & Co., druggists and chemists, of Quanah. Also ads of M. P. Thacker, pioneer merchant of Crowell, and C. B. Garlinghouse, blacksmith. A paragraph in Mr. Thacker's ad read, "When you want anything in my line call and see me. I will sell you goods at prices to suit the times." A line in Mr. Garlinghouse's ad said, "All work done with neatness and dispatch."

This page contained many interesting editorials on general conditions in the nation which we hope to reproduce some time. One editorial from the Texas Farm & Ranch began as follows: "The annexation of Hawaii would be a blunder of statesmanship which would cost the people of this country untold millions in the near future. An island 3,000 miles out in the Pacific, peopled with Maoris, Chinese, Japanese, Portugese, and a few American adventurers, a mongrel herd, who know little and care less for our form of government—makes a land and people different from any we have ever had to deal with as a part of this enlightened land of liberty and would have to be governed in a manner new to our experience."

5,000-Foot Wildcat Oil Test To Be Spudded In Friday On P. Owens' Land South of City

The 5,000-foot wildcat oil and gas test to be drilled on the farm of Preston Owens, eight miles south of Crowell and three miles southeast of Foard City will be spudded in Friday night or Saturday morning. The surface pipe will be set and cemented as soon as possible and drilling operations will be resumed Sunday night or Monday morning.

The test is located 330 feet east and 330 feet south of the northwest corner of section 455, block A. H. & T. C. Ry. Co. survey and is about 100 yards north of the Preston Owens residence. It will be drilled on a 4,000-acre block assembled by C. A. Fleetwood and H. C. Kaufman of Tulsa, Okla. Drilling will be done by Grace & Wood, drilling contractors of Wichita Falls, with a rotary rig powered by a Deisel engine.

Equipment was placed on the location the first of the week, and the assembling of the 129-foot steel derrick and digging of the slush pits were completed Wednesday afternoon. Drilling equipment will be set today and Friday, with operations starting as soon as possible.

PLANS FOR CROWELL'S ANNUAL CHRISTMAS OPENING THURSDAY BEING RUSHED TO COMPLETION

Committees in charge of the annual Christmas season opening to be held in Crowell next Thursday are rushing to completion plans for the gala event. Many plans for the entertainment of people, both young and old, have been made and others will be completed before Thursday.

Opening at 6:30 P. M. Of course, the feature attraction of the event will be the annual visit of Santa Claus, and according to arrangements, he will arrive in Crowell a few minutes before 6:30 o'clock Thursday afternoon, and his arrival will be announced by the fire siren, which will also be the starting signal for a parade to lead Santa into town, and for the unveiling of show windows in Crowell.

Ten Free Turkeys Ten lucky persons will obtain a nice, fat turkey for Christmas dinner by being in Crowell Thursday afternoon, as ten turkeys will be given free. The turkeys will be thrown from the top of the court house at 5 o'clock Thursday afternoon. This will be held in time to see the fun in the turkey chases and give a splendid chance of getting a turkey before the official Christmas opening at 6:30.

Stores to Be Decorated According to word from the business men in Crowell, work is being done in local business houses so that Crowell will be able to greet visitors with the best Christmas atmosphere and decorations than ever exhibited here before. All stores and show windows will be gaily and appropriately decorated on the night of the opening. Wire for the Christmas lights over the business streets has been strung and all preparations will be completed in time to greet the many visitors.

Clifford B. Jones of Spur Elected President of Tech

Clifford B. Jones of Spur was elected third president of Texas Technological College at a meeting of the directors in Fort Worth Nov. 26. Mr. Jones, 53, succeeds the late Dr. Bradford Knapp who died last June 11. The first president of the college, Dr. Paul W. Horn, died April 13, 1932.

Mr. Jones has been a member of the Tech directorate since Feb. 19, 1923, when he was appointed by Gov. Pat M. Neff. He has served as chairman of the board since April 18, 1927. He is the only member of the board who has served continuously as a member since the founding of the college.

Clifford Jones was born at Rico, Colo., April 9, 1885, the son of Charles A. and Virginia Jones. The family moved to Kansas City, Mo., in 1888. He was a graduate of the Central High School and had planned to enter Yale University. He was offered a position as purchasing agent of the Kansas City Bag Manufacturing company and two years later was made vice president and treasurer of the Jacques Steel Company.

He married Miss Louise Palmer of Denver in 1908. In 1922, following the death of Mrs. Jones in 1919, he married Miss Audrey Barber of Spur.

In 1911 he became assistant manager at Spur for the Swenson interests of New York and in 1913 was made manager, which position he has held since except for leave during the World War and during 1933 at Fort Worth. Regional Adviser of the Public Works Administration of Texas, New Mexico, and Louisiana.

E. A. Howard of Rule Been Taking Paper 14 Years

In a letter to The News enclosing renewal for another year, Mr. and Mrs. Emmott A. Howard of Rule, former Foard residents, say they have been taking the paper for 14 years and expect to continue.

"We have a real nice home three miles southeast of Rule and like it fine, but Foard County will always seem like home to the children as they were practically raised at Thalia," the letter stated. "Our oldest boy, Oren Lewis, went to the Army at Ft. Warren, Wyo., a year ago, Dec. 18. Louis Swan of Thalia is also there and they read The Foard County News together when it arrives on Monday. Oren Lewis worked on the highway in Foard County last year under Milton Callaway. Our second son, Dillard, married the daughter of T. W. Lewis near Foard City last April and they are making their home in Foard County," the letter continued.

FARMERS WILL VOTE ON QUOTA DECEMBER 10

The attention of Foard County cotton farmers is called to the vote to be taken on Saturday, Dec. 10, concerning the cotton marketing quotas, according to an announcement by J. S. Harper, administrative assistant.

Every cotton farmer who produced cotton in 1938 is eligible to vote and it is urgent that he vote in order that a reliable indication can be determined from the votes cast.

Notices will be made next week on the location of voting places.

Foard Land Owner and Former Resident Writes from Florida

J. F. Hrabal, former resident of Foard County and still owner of his farm on Pease River, writes a letter to The News boosting the climate of Florida and at the same time expressing his love for the old home place in Foard County. Excerpts from Mr. Hrabal's letter follow:

"I notice in my last edition of The News that a Mr. J. R. Coffman has been a subscriber of The Foard County News for forty years. I was thinking that I had been a reader of the paper for about the same length of time, but after checking up, I found I am a few years behind him. In my estimation, I have been a subscriber for nearly thirty-two years. I am not quite up with Mr. Coffman, but maybe I'll come up with some of the other older subscribers.

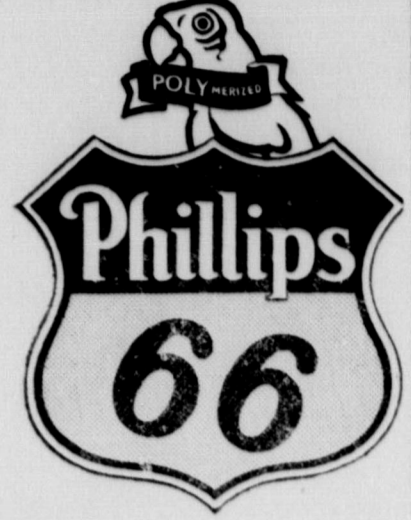

"I am always thinking of my home county and look forward to my visits out to my Texas homeplace. I love the old place, but I believe Florida has it beat for climatic conditions. The weather down here is just fine now. Even if oranges are cheap—20 cents a bushel—it seems pretty good to be in Florida at this time of year. And, if by any chance, any of you Foard County people want some oranges, I'd be glad to send you some for just the price for shipping them. Or better, if you will come after them, I'll give you all you want.

"Wishing only prosperity and good luck for all Foard County dwellers, I am, yours truly,—J. F. Hrabal."

SLIGHTLY IMPROVED

The condition of R. B. Edwards, who is critically ill at his home in Crowell, is reported to be slightly improved Thursday morning. Mr. Edwards has been confined to his home for several weeks.

Transgression Fixes Destiny

Text—Judas by transgression fell, that he might go to his own place.—Acts 1:25.

The man or woman who has reached maturity with an unblemished character stands upon the highway of holiness, but there is a man, Judas Iscariot, who "by transgression fell."

There is no recovery in a falling body, and Judas, who is also called "the son of perdition," is on his way down.

His fall was ultimately fatal. When internal recovery is impossible and outside help is spurned, catastrophe is certain.

man's character determines his course. Whenever he is left free, all things being equal, a man's character will determine his employment.

Every man makes his own place. Because we are constantly making decisions for or against right convictions, we are undergoing a constant process of adjustment.

Every man finds his own place. Like water he finds his level. Existence is not static, but full of movement.

Every man feels that it is his own place when he gets there. When after all life's fashioning and finishing you get to your destination, you will discover that "destiny" has played no trick upon you.

Put it down as an axiom of truth that whenever character is fixed beyond reformation, condition is settled beyond change.

When internal recovery is impossible and outside help is spurned, catastrophe is certain. It is no less a moral law than a law of physics that a falling body, unless arrested in its downward plunge, will be shattered beyond recovery.

Judas was responsible because "he fell by transgression." It does not say he fell by predestination. He fell out of set purpose through the free exercise of his own will in pursuit of evil.

Not only is transgression responsible for a fall, but the text implies that everyone goes to his own place. What are the facts? Every man has his own place.

Life has placed us in a probationary environment for which we are individually responsible. In it we are forming our character, and a

Notice is hereby given that the City Ordinance prohibiting the shooting of firecrackers or fireworks of any kind in the business district or on the court house square will be rigidly enforced during the Christmas Holidays.

The City Council asks the co-operation of the merchants who sell fireworks in notifying buyers of the existence of this law and urge that it be obeyed.

The shooting of fireworks in the last few years has become a nuisance as well as a dangerous fire hazard and the co-operation of the public in general is solicited for the prevention of any serious consequences.

Divine wisdom created and will survive the world; Heaven and earth shall pass away but my word shall not pass away. — Matthew 24:35.

DANGER AT 19

(An editorial from The Rotarian Magazine.)

Seventeen... an age of vast perplexity and adolescent anarchy, but not a seriously dangerous age. Such is the burden of Booth Tarkington's much cherished novel, SEVENTEEN. But 19 is different. Nineteen is dangerous. And for that, the authority is not fiction—but statistics on crime. Nineteen-year-olds, says the Federal Bureau of Investigation at Washington, D. C., from the largest single age group of arrests each year.

The public knows that vaguely... but residents of Georgia recently turned their minds specifically upon it. A survey made for their Department of Public Welfare by the Works Progress Administration showed that the average age of admissions to the State penitentiary is 19. It revealed also that 58 per cent of the admissions were under 25 years of age, and of this group, half were under 21.

Why should youths barely old enough to start on their first jobs turn to crime? Perhaps that question answers itself. Most of them can't GET that first job. Bishop G. Bromley Oxnam finds that the young person reacts in one of two ways to lack of opportunity to work. Either "he wants to fight... simply rebels against the present setup," or he takes "an attitude of complete resignation." The fighter turns to crime, sabotage, violent actions of all sorts, alcohol, and dope. The resigner turns to futile brooding. And the net result is a serious and usually permanent vitiation of youth's vital morale.

Now, the enlightened businessman can tell you quite a little—in nonacademic language, thank goodness—about crime and its causes and costs, and he usually concludes with that old chestnut about an ounce of prevention. He likes it, says that he finds it the best answer to date to the problem of crime. And so he makes a place in his shipping room for a poor lad the social worker told him about... campaigns for funds for the Boy Scout troop down in the slums, canvasses for Girl Scouts, and never denies an audience, at least to a young person earnestly seeking a job. And he helps a dozen other agencies in the same way and in other ways.

Sometimes, like any other adult, he'd like to climb up on the roof and shout to all the young folks in the world, "For heaven's sake, be decent." But he knows what a ridiculous, what a pathetic figure he'd cut. And so, instead, he starts at home—to give young people a respectable chance to be decent.

People remind us of the weather. There is the quiet, sunny day, pleasantly warm and bright and peaceful. There are people like that. There is the blustery day that shouts and tugs at one and tries the nerves. There are people like that. There is the cold, damp, dark, overhung, joyless day on which laughter and a smile seems to strike a foreign note. There are people like that. There are tempestuous days, days whose brilliant sunshine suddenly clouds up and a rainstorm sweeps across the sky, leaving everything sparkling with raindrops when the sun comes out again, seemingly more brilliant than before. There are tempestuous people like that. There are days on which the sun shines brightly and the birds sing and all nature seems alive and joyful. On such days one thrills at the very fact that he is alive. There are people like that, and how glad we are to see them come. They make everything brighter and happier for their coming. Their presence is a blessing.

We read of a man who celebrated his 100th birthday by paying all his debts. We hope to follow his example.

NOBODY'S BUSINESS

BY JULIAN CAPEIS JR.

Austin.—A quickening of interest in Texas in national Democratic politics was expected to follow the parley of Democratic leaders from all states scheduled for this week in Chicago, called by Jim Farley, national committee chairman. Texas was to be represented by E. B. Germany, Dallas lawyer-geologist, new chairman of the Democratic State Executive Committee, named at the instance of Gov. Elect W. Lee O'Daniel, and by Clara Driscoll, of Corpus Christi, Texas' national committeewoman, and other state leaders.

A possible contest between President Roosevelt for a third-term nomination, and Vice President John N. Garner, Texas conservative, has already received considerable speculation by Texas and national political writers. Jesse Jones of Houston, chairman of RFC, has also been mentioned as another Texan who may figure in the long-range contest for convention delegates, which will get underway in various states soon after the first of the year.

The heavy inroads which Republicanism made in Democratic congressional and gubernatorial strength in the elections this month, however, were damaging to the prospects of all "Solid South" favorite candidates, making it likely that a standard bearer from a doubtful state will be the choice of the Democracy in 1940.

Third Term Talk

Abolition of the two-thirds rule, under which Democratic candidates were nominated for nearly a century, which will take effect at the next national convention, is also regarded as lessening considerably the strength of Southern States and their candidates, by eliminating the possibility of the "Solid South" delegates blocking a nomination, as they have done at many past conventions. Many observers here incline to the belief that Republican gains have aided considerably to the possibility of President Roosevelt seeking a third term, on the theory that he is the only leader behind whom "progressive" political thought can be solidified, and a New Deal victory in 1940 achieved. The tremendous influence which the huge New Deal political machine exercises, particularly in the heavily populated Eastern urban centers, with their millions of relievers and WPA workers, many believe, can be mobilized in sufficient strength to give Roosevelt a majority of convention delegates—all he would need for a 1940 presidential nomination.

Many Texas political observers believe the Garner movement in Texas is being nurtured more to place the Vice President and his friends in a strategic trading position, than with any serious intent of nominating the 72-year-old Vice President as the party standard bearer. The forth-coming session of Congress, of course, will bring much party political maneuvering, and may conceivably develop a candidate not now regarded as a contender.

Proration Test Welcomed

Test of the authority of the Texas Railroad Commission to prorate production of oil by shutting wells down on Saturdays and Sundays will get under way in District Court in Travis County, Dec. 7, when a hearing on a writ for injunction, attacking the shutdown order, is scheduled before District Judge Ralph Yarborough. The suit was brought by Ray Starnes, East Texas operator, who takes the unique position that the price of East Texas oil has been arbitrarily fixed at more than it is worth, thus placing East Texas at a competitive disadvantage. Chairman Ernest O. Thompson of the Railroad Commission, announced the commission would welcome a legal test of its authority, to clarify the marginal well law, which has been subject to various interpretations by oil operators and a majority of the commission. The Saturday and Sunday shutdowns were expected to be continued in force in the December proration order, due to be issued this week.

CRA Rejects Power Offer

Max Starke, operations manager of Colorado River Authority, and representatives of Texas Power & Light Co., this week continued discussions of the offer of Texas Power & Light Co. to sell all its distributing facilities in 16 Central Texas counties to CRA, following Starke's refusal to accept the price asked by TP&L, \$7,398,016. TP&L claimed this was its actual investment in the properties. Starke claimed they could be duplicated for \$2,000,000 less, and also objected to the TP&L proposal that CRA confine its operations to the 16-county area, in

Jim Minnick, Widely Known Horseman, Is Visitor in Fort Worth

(Editor's Note)—The following interesting story of the life and experiences of Jim Minnick, Foard County ranchman and one of the first men to train ponies for polo and ship them to eastern markets, was written by Frank Reeves Sr. of the Fort Worth Star-Telegram and appeared in that paper on Tuesday, Nov. 22).

Jim Minnick, horseman extraordinary and business man, with intimate friends in all walks of life and in all sections of the United States, was in Fort Worth last week-end to discuss plans for the Southwestern Exposition and Fat Stock Show here with John B. Davis, show manager, and Verne Elliott, rodeo impresario. The rancher, whose home is Crowell, is a backer of the exposition.

Minnick was born at Seymour 57 years ago and from the time he was able to climb on the back of a horse he has been associated with ranching and horses.

Cowboy Extraordinary He had the usual ranch experiences of the boys of his time, but

the event the sale is made.

If negotiations finally collapse, cities and towns in the area which have voted bonds to build competitive municipal plants, will be confronted with the alternative of duplicate competitive power service. Neither party to the controversy wants this, because division of the volume of business in the area would tend to limit profits of both the private distributor and the municipal plant.

Job Hunters Worry Daniel Gov. Elect W. Lee O'Daniel, who has been learning rapidly about the Legislature, the constitution, and other important phases of the State government, has also learned something about that plague of all political office-holders—the job hunters—he indicated this week by a statement in which he proposed a civil service system for state workers. The job hunters have descended upon his Fort Worth headquarters in such hordes that he was forced to hire a secret private office at a hotel to escape them. Dero Cowley, secretary to Gov. Allred, and former Representative from Hillsboro, was borrowed from Allred to aid O'Daniel in meeting legislators, and this has given rise to rumors here that Cowley may be a member of the incoming governor's official staff.

X. Bible, Texas University's 10 year, \$15,000 foot-ball coach, has carried the coach through a disastrous football season in which the Longhorns dropped every game but one, with an almost unparalleled popularity. After two poor seasons, almost any coach would be "on the pan" by alumni and students, but so great is Bible's personal popularity that football squad, alumni, and faculty are enthusiastically backing him. The 1-point Thanksgiving victory over A. & M. yielded considerable balm to the wounded feelings of alumni, and Bible's freshman squad of 100 talented players, due to represent the Varsity next season, is regarded as certain to make a much happier showing by the team's supporters here.

that continued until Rogers' death. Today it is a treasured memory with Minnick.

It was in 1905 that Minnick, Rogers, Tom Mix, Zack Miller, Otis Johnson, Curtis Johnson, Jack Joyce and about a dozen other cowboys went with Colonel Mulhall to a horse show and rodeo in New York.

First Stage Contract After they had been in New York for about two months Rogers got his first stage contract. It was a rope spinning and roping number and Minnick rode Rogers' horse on the stage the first week while Rogers did his roping act.

Minnick does not agree with the sometimes expressed opinion that Rogers did not become a success until he began his talking. He insists that Rogers was born talking and was a big hit from the first.

Rogers always visited Minnick when he was in Texas and had the time.

Among the prominent persons who are close friends of Minnick are Leo Carillo, movie star, and Fred Stone, who has acted in many successful plays. Stone spent the summer of 1914 with Minnick at his ranch near Crowell and presented him with a beautiful saddle, which is one of his prized possessions.

Polo Ponies Some insist it was Minnick who first conceived the idea that cow horses, cutting horses in particular, were potential polo horses. Minnick insists he was only among the first to select good cow horses and send them East for polo horses. He shipped his first trainload of horses East in 1905. He bought the horses in the Seymour country and gave them some training in Oklahoma before sending them east.

Several horses sent east by Minnick were well known as polo horses, one of them was used in an international polo game, but Minnick thinks the best polo horse

he ever had he sold to Rogers, who used the horse for a time and then became so busy he gave it back to Minnick. It was this horse Minnick rode when he won the Long championship at Dayton, Ohio, and the inter-circuit contest in which Minnick competed for 12 years before he won the championship.

Minnick insists that polo is a grand game, despite the fact he has had his collarbone broken six times, most of his ribs broken and was completely knocked out a few times.

None seems to doubt the statement that Minnick was the first to venture into the business of dude ranching in Texas. During the summer of 1905 Minnick made the venture. He had 16 persons from New York and nine from Oklahoma City. They came by train to Quanah, where he met them with a chuck wagon and horse, and from there they went to the ranch near Crowell. He only had a two-room house, so he put tents for his guests.

Chuck Wagon and Cooks Minnick had four cowboys to herd his dude ranchers and with a chuck wagon and two negro cooks they visited ranches in that section of West Texas and saw real cow work. Some of the guests stayed three months and the experiment was completed by the regular trip from the ranch to Oklahoma City.

One of his guests, Miss Della Holthausen of New York, married Minnick in 1907 and returned with him to Texas to live. One son and five daughters were born to the Jim Jr., who plays polo in Georgia in the winter and in Maine in the summer; Helen, who is married and lives in New York; Muriel, who was the honor student and won a gold medal in the graduating class at Oklahoma University last year; Blanche, who is married and lives in Oklahoma; Virginia Lee, who is in school at Norman, Okla.; and Peggie, who Minnick says is the "horseman" of the family.

Miss Myrna Holman, Mrs. N. J. Roberts and Mrs. L. A. Andrews went to Wichita Falls Tuesday evening to hear the lecture of H. R. Knickerbocker, renowned newspaper correspondent.

Mr. and Mrs. Guy Housouer and Mel Housouer of Lubbock spent Thanksgiving in Crowell visiting relatives and friends.

The items below were taken in whole or in part from the issue of The Foard County News of Nov. 30, 1923.

In The News 15 Years Ago

Hunters Return The Crowell hunters, C. T. Schlagal, L. G. Andrews, R. B. Bell and Claude Barry, who have been in Southwest Texas for the last two weeks on a hunting and fishing expedition, report splendid success fishing but not so good on wild animals. They crossed the Rio Grande and planted their feet on foreign soil before returning home.

Thanksgiving Feast Mrs. Viola Locke of this city was an invited guest at a Thanksgiving feast to be had at Quannah yesterday for the deaf and dumb people.

Ban on Masks The State Senate of Oklahoma adopted a clause in the bill to regulate secret orders making it a misdemeanor to wear a mask. This action was greeted by proponents of Klan legislation as the greatest concession made thus far by the group opposing strict regulatory laws.

To Maintain Highways In addition to the State taking over the maintenance of all State highways Jan. 1, 1924, the State Highway Department will also take over the marking of all state highways on the same date, under the direct supervision of sixteen district engineers.

Attend Meeting Misses Lottie Woods and Ethel Ross, teachers of the Crowell public school, left Wednesday for Fort Worth to attend the annual convention of the State Teachers Association that met in the auditorium of the First Baptist Church of that city.

Defeats Bond Issue Voters of Wilbarger County defeated a good roads bond issue that would allow the paving of a road from Vernon to Crowell in one of the hottest election contests ever held in that county.

Married Terrell Maon and Miss Grace Self of Thalia went to Vernon last week and were happily married. They were accompanied by Mr. and Mrs. Harley Capps, Misses Isabelle Self, Fannie Capps and Bernice Maon.

Remember When? Dave Shultz of the Ayersville community left Monday for Dallas to take C. T. Shultz's car home which Charlie was compelled to leave here on account of muddy roads while visiting relatives last month.

Baptist Church Notes Last Sunday was a red letter day with the people of the Crowell Baptist Church. A collection of four hundred and twenty-five dollars was taken in fifteen minutes to take care of all current indebtedness of the church.

Beware of the Dogs Dogs will not be allowed to catch the guineas at Self's Sale.

Visitor Honored Mrs. J. C. George of Brownsville was honored on Tuesday afternoon with a luncheon given by Mrs. M. S. Henry and again on Wednesday afternoon with a "forty-two" party given by Mesdames Joe Johnson and Baxter Johnson.

Flying Circus Burrell Tipps will bring his flying circus to Crowell this week in connection with Self Dry Goods Company's Airplane Sale. Mr. Tipps will give thrilling aerial performances, of which the features will be wing walking and a parachute jump from a height of 3,000 feet.

Boy Scouts—

(Continued from Page One)

Scout Movement. As a matter of fact, he specifically stated, 'If this proposal were being made to any other organization, whose rating was inferior to the record of service made by the Boy Scouts of America, I would be inclined to be more particular in outlining the program, to be assured that the property would be put to full beneficial use as I visualize it.' In accepting his gift the National Executive Board has in mind the establishment of a Boy Scout reservation for the development and furtherance of wilderness camping.

Kit Carson Country Before formally proposing that the Boy Scouts of America accept the ranch property Mr. and Mrs. Phillips and their son, Elliott, entertained a party of Scout officials at Philmont Ranch near Cimarron, immediately adjacent to the new Scout Reservation. The party included, besides President Head, Dr. James E. West, Chief Scout Executive, and Arthur A. Schuck, Director of the Division of Operations. The entire group was greatly impressed by the scenic beauty of the area and its usefulness for Scout camping purposes.

Much of the property is virgin territory and under the careful management characteristic of Boy Scout camping these small parts which have been grazed recently will quickly be restored to their natural conditions. Mr. Phillips has proposed, in accordance with general Boy Scout practice, that the property immediately be designated as a game preserve.

In a statement issued to the Executive Board Dr. West described the reservation in this way: "The property is in the Rocky Mountains, all above an elevation of 7,000 feet and rises in spots to at least 11,000 feet. It is the Kit Carson territory and the old Santa Fe trail passes through it. There are nine main canyons on the tract converging either at the Cimarron River or the main branch of the Ponil River, which later flows into the Cimarron.

Older Boys' Paradise "Each of the canyons is of the same general make-up, flanked on each side by ever-changing vistas, rock palisades, timber growth, and with smaller canyons in endless numbers fingering out from the main ones. There are also several high land meadows or mesas, offering excellent additional camping area spots. Bear Canyon, Dean Canyon, and Turkey Canyon have an extensive amount of timber growth, comprised, principally of western pines, Douglas fir, balsam, quaking aspens and cottonwoods. It is the natural habitat of deer and while on the property we saw mule deer, wild turkeys, and dozens of beaver dams and many evidences of bear.

"While there are few Boy Scout Local Councils throughout the country which do not have camps both for short camping trips and for summer vacation camping," Dr. West continued, "there is a need of opportunities for Troops and Patrols with experience, training, leadership and proper equipment to secure the benefits of wilderness camping, which I believe will appeal to older boys in all parts of America. By this is implied a more rugged experience with 'nature in the raw' than is possible in the customary local Boy Scout Council camp but at no sacrifice of our essential safeguards of health and safety."

A recent digest of Scout membership records revealed that more than 100,000 Scouts in nearly 4,000 Troops live within a 600 mile radius of the property. From this group will come those who use the property most frequently, although Scouts from all parts of the country will head for it on roving tours under adequate leadership and according to provisions laid down by the National Council of the Boy Scouts of America.

Before reaching a decision to accept the Phillips gift the National Council sought advice from the local Boy Scout Councils in the area to be served by the reservation. Forty such groups indicated that they would begin to make use of the spot in the next of the coming year and many evidences of enthusiasm and offers of active co-operation in the development of the property were received.

Wilderness Camping Popular George W. Olmsted, Chairman of the Camping and Activities Committee for the Boy Scouts of America, reports great need in the Rocky Mountain section for facilities for Troops from far away which seek wilderness camping. The Pikes Peak Council of Colorado Springs, Colo., last summer and requests from New Orleans, Shreveport, Toledo, Chicago, five towns in Texas, four in Kansas, and many individual requests for camping places in the Rocky Mountains. They were able only to help one Troop from Kansas and this demonstrates that there is great need for a place where these Troops can have adequate facilities for mountain camping under proper supervision.

As an evidence of the magnitude of this problem and how the Waite Phillips property would help to solve it, he adds that in 1937, 200 touring permits were granted by the home office of the Scouts with a total mileage of 155,354 miles, averaging 776 miles per tour, with 4,201 Scouts and 674 Scouters in attendance. To date, in 1938, 338 Touring Permits have been issued with an estimated attendance of 7,093 Scouts and 1,115 Scouters. Eighty-nine of the tours during 1938 traveled more than 1,000 miles. Thirty-six traveled more than 2,000 miles.

CHURCHES

Christian Science Church Sunday School at 11 a. m. Sunday services at 10 a. m. Wednesday evening services at 8 o'clock. Sunday, December 4, 1938. Subject: "God the Only Cause and Creator." The public is cordially invited.

Christian Science Services "God the Only Cause and Creator" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, December 4. The Golden Text is: "I am the Lord, your Holy One, the creator of Israel, your King" (Isaiah 43: 15).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thou, even thou, art Lord alone; thou hast made heaven, the heaven of heavens, with all their host, the earth, and all things that are therein, the seas, and all that is therein, and thou preservest them all; and the host of heaven worshippeth thee" (Nehemiah 9:6).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The depth, breadth, height, might, majesty, and glory of infinite Love fill all space" (page 520).

Christian Church Harrell Rae, minister and student in Texas Christian University of Fort Worth, will fill the pulpit at the Crowell Christian Church at both the morning and evening services Sunday. Everyone is welcome to attend.

Methodist News Notes At this, the beginning of a new church year, is the opportune time to get started on regular church attendance. There was a noticeable increase in the congregation last Sunday. The slogan of the year will be "Attend Church Services."

Since the reading of the appointments at the annual conference at Memphis, Nov. 20, several re-adjustments have been made. Rev. Gordon, who was appointed to Quannah, was transferred to Clarendon and Rev. Landreth, who was at Clarendon, went to Ballinger, to take the place of Rev. Turner, who was made President of McMurry College.

For a special reason we want a well attended service next Sunday morning and night. E. L. YEATS, Pastor.

Two Minute Sermon (By Thomas Hastwell) Thou Shalt Not Kill: I had the privilege recently of attending a session of a men's Sunday School class when the lesson, the commandment, "Thou Shalt Not Kill," was being discussed.

The wrong of murder and of taking life is generally conceded, but too often we do not think we are contributing to murder when we knowingly permit pollution of a city's drinking water. We are contributing to the taking of human life when we sell, or permit to be sold, milk known to be tubercular infected, or when we fail to use such means as are available to determine this fact.

We are guilty of contributing to the taking of human life when we drive a car with our senses dulled by liquor, or when we delve in excess of our ability to control. We are guilty of contributing to the taking of human life when we permit any condition to exist in our community that endangers life and health. In our present scheme of living the existence of conditions that we know constitute a threat to human life are our responsibility, and the command, "Thou Shalt Not Kill," is our command to correct them.

INTERESTING FACTS OF THIS AND THAT Fig trees will produce two crops in one year. Four varieties of tea can be picked from the same tea bush. Wheat is one of the deadliest cargoes a ship can carry. Water, in freezing, expands about one-eleventh of its volume. Bottled wine is laid on its side in order to retain its alcoholic content. Watermelons are 92 per cent water.

GRAMMAR'S SPEECH A new department has been recently added in Crowell's grammar grades. The pupils feel that it has given them an opportunity to meet the world easier and to do better in everyday life. Mrs. I. T. What's New?

The American Druggist magazine recently reported the development of a new iodine antiseptic. As powerful as the present kind, it contains less iodine, less alcohol and does not sting.

Dr. Isador Hirschfeld of Columbia University advocates the restoration of the toothpick to the favor it once enjoyed. Picking the teeth, he says, helps to prevent pyorrhea and other disorders of the mouth.

Tests made at the University of Pennsylvania show that mental arithmetic greatly increases the rate of perspiration.

Dr. P. A. Jeans of Iowa City claims the invention of a device which will detect with 95 per cent accuracy the lack of Vitamin A in individuals.

Telephone cords are kept kinkless by a new device—a spiral tubing of live mechanical rubber which encloses the cord.

About Women The American author, Pearl S. Buck, has been awarded the 1938 Nobel prize for literature, worth about \$40,000.

Mayor Robert R. Williams of Miami, Fla., recently named Mrs. Anna M. Perry as the first woman member of the city commission.

Miss Mollie S. Stewart, 81, has been postmaster at Oxford, Md., for 61 years. She was appointed in 1877 by President Hayes to succeed her father.

Mrs. Eugenia Simmons is sheriff of Ikeehobee County, Fla. She worked with her late husband when he was sheriff for five years, and on his death fell heir to the job.

In the years before 1927 the halls of the Royal Academy in London were devoid of women. In that year Mrs. Laura Knight, artist, was elected as an associate. She has now been given full membership.

Young People Eleanor Pepin, schoolgirl of St. Paul, Minn., has as her hobby the raising and selling of snails.

For rescuing a dog which had been struck by an automobile and nursing it for three weeks, 10-year-old Frances Puccio of New York City has been awarded a medal.

Only 11 years old, David Statler of Memphis, Tenn., has a book in the best-seller class. It is "Roaring Guns," published recently.

Joseph Graves Jr., of Salinas, Calif., entered Stanford University at 13, and graduated at 16, completing the four-year course in three years to get his A. B. degree.

Rosalena Bauman of Jefferson, Wis., gave up crying when she was a year old, and now whistles instead when she is in distress.

Lydia Gilbert, 12, jumped into a lake at Leicester, Eng., and rescued a 3-year-old boy from drowning.

Interesting Notes The stem of a giant bamboo tree sometimes grows a foot in a single day. The Antarctic region is several degrees colder than the Arctic. The lowest point in the United States, Death Valley, and the highest point, Mount Whitney, are both in California and only 80 miles apart. Alfalfa was grown in Greece as early as 470 B. C. The first steam engine was made to pump water out of a mine. Asbestos was used as a fire resisting fabric in ancient Rome. Antiquated homes in this country are estimated at 3,250,000. In Timor-Laut, East Indies, women must keep one eye closed in the presence of men. When making mush to be fried, use a little milk with the water and it will brown quicker.

YOUTH HAS MUCH TO CONQUER To Aristotle it seemed very plain, that from the dead and inanimate is made the living, and everything that has lived is eventually turned back to death. He believed that nothing was wasted and that everything was used over again.

But Aristotle was blind to much. Then, too, he never dreamed of life coming from life. "Now man can peer down through the microscope and up at the revealed stars," a writer tells us, "and behold the lens has only multiplied the facts and deepened the mystery."

This world is filled with mysteries, and in a nation of such rapid advance in science and so many adjacent fields, why should there be such a feeling of despair among students as to the terrible conditions of our present generation? There is always something new under the sun, as has been proved in these hard times by those who have found it necessary to make and do something new. So many facts and mysteries and things to do are yet to be sought out.

The treasure-box of discovery hasn't even been opened yet, and so far, we have only been focusing a little light on the new things which will come out if delved into by a progressive and interested people engaged in the pursuit of new fields.

DREAM GIRL OR BOY Talking with a good part of the Crowell High School student body we have decided that the majority of them think that the cutest and smartest high school boy and girl should have:

For the girl: Reed Sander's sweet disposition; Jenny Dew's pretty, cute personality; Margaret Long's leadership ability; Len a gene Green's intelligence; Elsie Venera's figure; Joyce White's hair (Francis Henry's if you prefer a brunette); Verne Joy's lovely eyes and eyelashes; Theda Wright's winning smile; Daphny McClure's friendliness; Francis Henry Johnson's clothes.

For a boy: Bernice Fitzgerald's physique; Charley Clark's intelligence; Raymond Joy's sportsmanship; The Whitfield boy's friendliness; Mr. Myer's personality; Gordon Thomson's hair; A. Y. Olds' eyes and eyelashes; Frank Dunn's grin; M. Hill's clothes.

P. S.: Isn't this every girl's dream man? We can wish he would come true.

THE CHATTERBOX Each week this column begins with some little criticism that is not meant to any one person or one small group of persons, but to the readers as a whole. Regardless of how some may take it, it's really meant for the best. This week it's the lack of behavior in theatres down town and here at the school. Some pay to see the picture show, others pay to put on a show of their own, we think the latter are in the minority and should be just a little more respectful. How do you feel?

BROADCASTING FROM CHS

Ladies and gentlemen, this is Daphny McClure Winchell speaking to you from Station I. C. U. on the campus of Crowell High School. There are more than one hundred radio stars standing about near the east stairs, but I will have time to bring only a few of them to your attention. My eye now rests upon the loudest member of the group, Baby Snooks, who strongly resembles Margaret Wood. Next I see Fibber McGee and Molly enjoying themselves, at least Fibber is, and incidentally they look a great deal like Gordon Thomson and Dorothy Winghamham over in one corner I see the greatest detective of all time, Dick Tracy, who reminds everyone of Truman Taylor. A high giggle comes to my ear and I see Gracie Allen and George Burns in the audience. It is so strange how they do resemble Louise Eubank and Junior Nelson. Here comes in old favorite of the kiddies, Little Orphan Annie, who can scarcely be distinguished from Faye Griffin. Bing Crosby, much like our own Raymond Joy, can be heard nooning in the distance. You can be sure that his pal, Bob Burns, is close by. Bob, incidentally, looks a great deal like Ed Gafford. But wait—ladies and gentlemen, a small riot is taking place. Here comes Doctor Brinkley towards the microphone. I'll have to hold on to the "mike" if I want to save the picture of Henry Black. Hold everything! Here comes those gigantic, colossal Hillbilly Boys made up of none other than Joe Sweeney, Ralph Flesher, Joe Mark Magee, and Billie Klepper. Texas Eese, sounding like Wanda Liles in person, is yodeling at the top of her voice. Mr Perkins, the mother of the air, greatly like Marjorie Bradford, is giving motherly advice to all seekers. I wish we had time to listen. Jimmie Jeffers and Sunshine, looking like the pictures of J. C. Rader and Mary Frances Bruce, can be heard practicing for the next broadcast of the Pepper Cadets. Stella Dallas, who sacrifices her love for her daughter, reminds us no end of Lenagene Green; I can hear her now, talking to Doctor Brinkley.

Our time is growing short, ladies and gentlemen, but before I leave the air I want to call your attention to Kay Kayser, who is much like Joe Spencer. I am now signing off for the soap which is the favorite of millions of women in America, Exzematone, for the skin you love to touch with a ten-foot pole. Until the next time, I remain your snooty correspondent.

WHO'S WHO

Johnson, Frances—Junior, likes junior boys that play football. Likes to dance and sing. Is a likeable girl.

The false teeth worn by the movie actor, Ned Sparks, are said to have cost \$3,500. They are specially designed to take the hiss out of the letter "s."

Gene Autry's fan mail averages 4,000 letters a week. It is larger than Clark Gable's or Shirley Temple's.

In spite of all modern treatments of the habit, few drug addicts are said to recover.

The United States has two farms for drug addicts, one four miles southeast of Fort Worth, Texas, of 1,400 acres and one near Lexington, Ky., of 1,050 acres. Each will accommodate 1,000 patients.

The United States is the only country which takes any public responsibility or provides any care for its drug addicts.

Most drug addicts begin using drugs in their late twenties. It is said that relatively few persons become addicts through the use of medicines containing drugs.

In 1924 it was estimated that one out of every thousand persons in this country was a drug addict. It is estimated that in 14 years

Prize Money for 1939 Fat Stock Show is Increased

Fort Worth, Nov. 28.—Showing substantial increase in prize money with the addition of a Draft Horse, Jack and Mule class, the 1939 premium lists of the Southwestern Exposition and Fat Stock Show, March 10 to 19, are being mailed this week to several thousand breeders, county agents, vocational agriculture teachers, and others interested in livestock breeding and development throughout the Southwest.

Premiums approximating \$30,000.00 are divided between Hereford, Shorthorn, Aberdeen-Angus herds, and Dairy, Swine, Champion Steers and Carlot Fat Steers, Boys' Livestock Show, Draft Horses, Jacks and Mules.

Livestock judging contests will again be a feature of the show. In recent years the general livestock judging contest for senior agricultural colleges has attracted teams from the major agricultural colleges of the nation and has grown into a contest second only to that held at the International Livestock Exposition in Chicago annually. 4-H Club and Vocational Agriculture activities will again be a feature of the 1939 Exposition.

"We are expecting an outstanding livestock show this year," said Secretary-Manager Davis of the Southwestern Exposition and Fat Stock Show. "The top herds of America attracted to the World's Fair Exposition at San Francisco in February will route themselves into the winter livestock shows in Denver, Ogden, Tucson and into Fort Worth for our show, March 10 to 19."

Federal prohibition of narcotics has reduced the figure 80 per cent. It has been definitely proven by insurance company research that extra weight shortens the lives of its possessors.

Between 1933 and 1936 national income in the United States increased by \$78,700,000,000. As a result people spent 25 per cent more for jewelry, 48 per cent more for cigarettes and 203 per cent more for automobiles. During the same period contributions to churches dropped 30 per cent.

The fruit and agricultural products of California total \$600,000,000 a year. Almost fifteen times the value of gold taken from her mines each year.

John Keay, a peddler who disappeared from London 24 years ago, has been found at Salisbury and notified that he had inherited \$20,000.

Off the Dole, on the Payroll

By T. C. Richardson, Secretary Texas Breeder-Feeder Ass'n.

Last week we discussed the folly of keeping livestock and poultry "on the dole"—just enough feed to keep them alive. Everyone will agree that they do not pay until they are on the payroll, which means placing them on a producing ration. Thinking of the farm as a factory turning raw materials into commercially finished products, the livestock may be considered both as machines and as labor. As machines they transform materials into new forms as labor they do part of the work for themselves.

As machines they must have all the raw material for which they have the capacity; as labor they must work regularly at the job, if they are to pay a manufacturing profit to the owner. It is the owner's job to see that the raw material is supplied as needed, in the proper combinations, in productive quantities, and at regular hours so that there will be no idle time for the machines and laborers.

If it takes twenty-five pounds of feed daily to keep a cow giving a gallon of milk, she must have more feed to produce two gallons, and still more for three gallons. Authorities estimate that twenty five-pound hens can get along on seven pounds of digestible nutrients a day, but it will require nine pounds for the same twenty hens in full laying. Since no feed is totally digestible this means that allowance must be made for the indigestible waste materials in the feed, which varies widely in different feeding materials. Production for sale, whether of eggs or milk, comes from the surplus of feed above a living ration.

The substance of this theme is to take the animals and fowls off the dole and put them on the payroll. The quicker the feed is turned into a saleable product the better the chance of profits—always with the reservation that the ration is properly balanced for the purpose it is intended, and that it shall be supplied at the rate at which it will be most efficiently utilized.

It is a common saying that "a fat hen won't lay," but it is certain that a poor one can't lay. The "fat hen" theory is putting the cart before the horse—the hen gets fat because she isn't laying, and therefore turns her food into fat instead of into eggs. This

**25th Wedding Anniversary of
Crowell Couple Celebrated at
Home on Thanksgiving Evening**

The twenty-fifth wedding anniversary of Mr. and Mrs. Joe Drabek was celebrated at the Drabek home on Thanksgiving evening with a bounteous turkey dinner and party for a large number of friends and relatives.

The reception rooms were lavishly decorated with beautiful chrysanthemums. A large white cake centered the long dining table where the dinner was served family style. The cake was topped with a miniature bride and groom.

Following the dinner, the children, approximately twenty-five in number, went to the Rialto Theatre to see the picture "Boys' Town." The other guests enjoyed games of 42 and bridge throughout the evening.

Mr. and Mrs. Drabek have resided in Foard County all their married life. Mrs. Drabek was formerly Miss Rosie Lee Pechacek. They have three children, Charlie, Rosie Lee and Billy.

The following were guests on this enjoyable occasion, Rev. John Gulczynski of Vernon, Rev. E. J. Gerlich of Fort Worth, Rev. Charles Dvorak of Littlefield, Mr. and Mrs. T. W. Box of Wichita Falls, Richard Veera of Wichita Falls, Mr. and Mrs. Will Pechacek and family of Vernon, Mr. and Mrs. Tom Veera and family, Mrs. Rosie Lee Pechacek and Miss Louise Pechacek, Dr. and Mrs. H. Schindler, Mr. and Mrs. R. L. Pechacek and family, Mr. and Mrs. A. C. Pechacek and family, Mr. and Mrs. A. G. Pechacek and

family, Mr. and Mrs. Wm. Ricks and little daughter, Miss Ala Ketchersid, Miss Gladys Russell and Gilbert Lanford, all of Crowell.

Mr. and Mrs. Drabek received numerous gifts in silverware and glassware.

**Foard City Couple
Entertains Relatives
on Thanksgiving**

Mr. and Mrs. T. M. Whitty of Foard City entertained a number of relatives and friends of Foard County and various parts of Texas with a turkey dinner on Thanksgiving Day, Thursday, Nov. 24.

The dinner was served at 1 p. m., cafeteria style, after which several of the men listened to the Texas University-A. & M. football game. The guests left at 5 o'clock after enjoying this happy occasion.

Among those present were, Mr. and Mrs. G. M. Eubank of Lubbock, Mr. and Mrs. A. D. Campbell and sons, Archie and Banks, of Crowell; Mr. and Mrs. Joe Roznoski and Mrs. Myrtle Whitty of Odessa, Mr. and Mrs. A. Weathers, all, Frank Weatherall, Mrs. Ruth Harts and children, Mr. and Mrs. E. R. Roland, Mr. and Mrs. J. R. Merriman, Mr. and Mrs. Clarence Barker and Mr. and Mrs. C. E. Merriman, of Foard City.

**Crowell Couple Wed
In Baptist Parsonage
Here Saturday Night**

John Borchardt and Mrs. Winnie Seraguet, both of Crowell, were married in the parsonage of the Crowell Baptist Church last Saturday evening at 7:30 o'clock with Rev. W. B. Fitzgerald performing the ceremony.

Mr. Borchardt is the son of Mr. and Mrs. F. C. Borchardt and was reared in this county. He attended school in Foard City and Crowell.

Mrs. Borchardt is the daughter of Mr. and Mrs. Ernest Anderson of Crowell and was reared in Knox County, where she attended school. She has been living in Crowell for the past several months.

They will make their home in Crowell and continue the operation of the cafe owned by Mr. Borchardt.

**Riverside Couple
Married Saturday
Night in Thalia**

Miss Inna Pyle and Houston Adkins were united in marriage Saturday night at the Baptist parsonage in Thalia with Rev. W. E. Lawrence performing the ceremony. The bride is the daughter of Ray Pyle of McAllen and has been making her home with her grandparents, Mr. and Mrs. D. M. Shultz, in the Riverside community.

Mr. Adkins is the son of Mr. and Mrs. Cap Adkins of Riverside. The groom graduated from the Thalia High School and later attended the Decatur Baptist College. Mrs. Adkins attended the Thalia High School.

The couple took a brief wedding trip to Wichita Falls and K. M. A. where they visited Mr. and Mrs. J. C. Levell.

They will establish their home in Thalia. Mr. Adkins is employed by the State Highway Department.

BIRTHDAY CELEBRATION

J. R. Ford and his grandson, W. A. Cates Jr., were honored on their birthdays on Nov. 10 with a birthday dinner and family gathering at Mr. Ford's home. It was in celebration of Mr. Ford's 78th birthday and W. A.'s 7th.

The 6 o'clock dinner was prepared and given by Mr. Ford's children and the following were present to enjoy the occasion: Mr. and Mrs. W. E. Higgs, Mr. and Mrs. Walter Cates, Mr. and Mrs. Everett Ford, Mr. and Mrs. Skeet Thompson, Mr. and Mrs. Ernest Ford, Mr. and Mrs. Oran Ford, Mrs. Bill Ford, Mr. and Mrs. Race Higgs, Mr. and Mrs. Frank McBee, Mr. and Mrs. Jay Christian, Caroline Sue Ford, Virginia and Clara May Higgs, W. A. Cates Jr., Mildred and Donald Frank McBee, and Mrs. Kate Sellers.

It is well for politicians that it is no crime to make crazy predictions.

of the program on "The American
Home" when the Crowell P. T. A.
met Tuesday afternoon, Nov. 22.
She was assisted in a round-table
discussion by Mrs. Allan Sanders
and Mrs. Frank Fleisher.**

Special features were given by the pupils of Miss Evelyn Manley and Mrs. E. W. Brown.

Reports were made by chairmen of the standing committees. Library books were on display. These were bought by the local P. T. A.

The president, Mrs. Allan Sanders, reminded everyone to be present for a study course to be taught by Miss Myrna Holman on Dec. 6, at 1 o'clock in the study hall of the ward building.

Room awards of one dollar each went to Mrs. Brown's room in the Primary department, to Miss Long's in the Intermediate department, and to the Sophomore class in High School.

Mrs. Kincaid gave a very interesting report on the State P. T. A. convention held recently in Lubbock.

Refreshments were served by the second grade mothers.

METHODIST W. M. S.

The Woman's Missionary Society of the M. E. Church met Monday afternoon, Nov. 27, in a business session.

After an inspiring devotional, led by Mrs. Baxter Johnson, a report from all officers was given. At the conclusion of the business session the following officers were elected:

Mrs. Hines Clark, president; Mrs. Baxter Johnson, vice president; Mrs. Paul Shirley, local treasurer; Mrs. Sam Bell, connectional treasurer; Mrs. T. L. Hughton, secretary; Mrs. A. V. Beverly, corresponding secretary; Mrs. Hubert Brown, superintendent of study; Mrs. Grover Cole, superintendent Christian Social relations; Mrs. B. F. Ringgold, superintendent of supplies; Mrs. H. E. Ferguson, superintendent Spiritual Life Group; Mrs. Jeff Bruce, superintendent local work; Mrs. M. S. Henry, reporter.

Second grade—Sue Solis.

Perfect attendance—Jimmie Ruth Alston.

**Activities of Foard
County H. D. Women
(Myrna Holman, Agent)**

Visit Self Motor Company on Friday or Saturday, Dec. 2 and 3. You'll see a lot of things besides Ford's things not commonly found there. Materials are coming in rapidly for the various exhibits.

You'll see all sorts of things from dresses made of sacks to hand-painted pictures, to crocheted bedspreads, quilts, toys, and so on—and things of interest to men as well as women. So don't forget, you have a date at Self Motor Company for Friday or Saturday.

These exhibits are sponsored by the home demonstration women as a county-wide achievement event.

VIVIAN H. D. CLUB

Thanksgiving program of the Vivian Home Demonstration Club was held at the home of Mrs. Egbert Fish Wednesday, Nov. 23. Roll call was answered by each woman naming something she had to be thankful for and most 100 per cent of the twenty-one women present was thankful for

the United States. The following were the things we have to be thankful for such as good roads, automobiles, airplanes and radios. She stated that America has one automobile to every four and one-half persons while England has one for every twenty, Germany one for every forty-nine and Russia one for every four hundred and seventy-nine. Also our radios and the free American system of broadcasting are the envy of other nations.

Visitors for the occasion were Mrs. Arthur Walling, Mrs. A. L. Walling, Mrs. Mattie Lou Beatty, Miss Mattie Walling, Miss Mildred Fish and Miss Delores Gilbert.

The Christmas meeting will be with Mrs. T. W. Cooper Dec. 15, asking each woman to bring a gift, and hoping to have as many visitors as care to come at 2 o'clock.

**Homemaking Class
Number II Serves
Dinner to Mothers**

The Homemaking II class served a Thanksgiving dinner honoring its mothers on Monday of last week. The following mothers were present, Mrs. W. B. Griffin, Mrs. Thomas Hughton, Mrs. H. H. Beggs, Mrs. Ed Rettig, Mrs. Fred Gibson, Mrs. A. R. Sanders, Mrs. Dwight Campbell, Mrs. Q. V. Winningham, Mrs. J. A. Whitfield and Mrs. Lester Donaldson, and twenty-five class members.

The dinner was served at long tables in the sewing room of the homemaking department. The tables were decorated, using fruit as centerpieces. Music was furnished by Thelma Lois Moore, Jenny Dee Coffey, Wanda Rose Liles and Raymond Joy. Read Sanders told in a pleasing manner "How Homemaking May Help Girls." Dorothy Nell Beggs gave an interesting Thanksgiving story. Doris Campbell proved to be a very capable toastmaster. Theda Wright, Mary Owens, Evelyn Evans, Elsie Veera and Joyce White, third year homemaking girls, were chosen to serve the meal.

ROTARY CLUB

The program for the Crowell Rotary Club Wednesday at noon was in charge of Leslie Thomas and Hubert Brown and was a departure from the usual type of program in that the members were divided to form two football teams and questions concerning football rules were drawn from a hat. The members of each team were asked questions in rotation and when the questions were answered correctly the team was advanced a certain number of yards toward the goal line. When they were answered incorrectly, it was considered a fumble, and the ball went over to the other side.

The two football teams represented Crowell and Haskell and Crowell won the game, 13 to 0. Mr. Thomas was referee and Mr. Brown was score-keeper.

Official Team

The official all-district team as announced in the Record-News Tuesday is as follows:

Left End—B. Fitzgerald, Crowell.

Left Tackle—Gafford, Crowell.

Left Guard—H. Elliott, Burk Burnett.

Center—J. Fitzgerald, Crowell.

Right Guard—Starkey, Seymour.

Right Tackle—J. Brock, Chilli-cothe.

Quarterback—Joy, Crowell.

Right Half—Meason, Crowell.

Left Half—Loyd, Throckmorton.

Fullback—Brown, Burk Burnett.

The Foard County News' all-district team chosen last week was near correct, with only three of our guesses going astray. Although we missed the names of three players, The News missed only one school in its choice.

We picked J. S. Owens of Crowell as fullback, but Brown of Burk Burnett landed the official berth.

At guards, The News chose Thompson and Blair of Iowa Park. Starkey of Seymour and H. Elliott of Burk Burnett, all-district guards last year, were chosen again this season. Six of the seven Crowell players chosen by The News made the honor team.

The only one who fell a little short of the first team was J. S. Owens, and we still strongly believe that he is all-district. The only reason that can be offered for his not being chosen would be the fact that he does not carry the ball and did not start playing his present brand of football until the season was well half over.

As to missing the other selections, we can only apologize to Starkey and Elliott, and state that we were not expecting to bat 100 per cent on the News' team because exactly like that picked by the coaches, in which case it was eight pairs of well trained football eyes against our almost inexperienced ones. Anyway, we are elated that the coaches agreed with us on eight of the selections.

RIVERSIDE H. D. CLUB

The most important thing in preventing colds is to keep the system in the best of condition so that it will resist colds. This was the thought taught by Mrs. J. S. Ray in a discussion on "Preventing Colds" at the meeting of the Riverside Home Demonstration Club at the home of Mrs. Harry Simmonds November 22.

To keep the body fit these rules were given: drink plenty of water, eat light, wholesome and nourishing food and get some exercise and fresh air every day.

At the first suspicion of cancer a physician should be consulted immediately. Many people wait 12 months after they notice the first symptom of cancer before they see their doctor. This fact alone accounts for the increasing fatalities from cancer. Cancer is curable if treated at an early stage. These remarks were included in a talk on cancer given by Mrs. S. H. Hembree. Mrs. R. G. Whitten spoke about eyes and Mrs. J. H. Ayers discussed other diseases.

The Christmas program of the club will be held at the home of

**Twelve Crowell Boys
Honored by Coaches
of District 10-B**

Six of Crowell High School's Wildcats were selected for the District 10-B all-district football team in a recent poll of the coaches taken by the Wichita Falls Record-News and announced Tuesday morning.

12 Wildcats Honored

Twelve Wildcats were honored by the coaches. Two Crowell boys, Raymond Joy and Bernice Fitzgerald, were unanimously chosen as quarterback and left end, respectively. Wayne Canup, Ed Gafford, Que Meason and Jack Fitzgerald were other Wildcats who landed berths on the first honor team.

Oran Johnson and Charles Branch landed on the second honor team at tackle and guard positions.

The following Wildcats were given honorable mention: John Lee Orr, J. S. Owens, Frank Dunn and Hugh Solis.

A long list of renewals and new subscribers has been received in the last few weeks, however, there are many others whose time has expired or will expire soon. This is the time of year when people most generally secure their reading matter for the next year and it is also the time of year when bargain rates are in effect. Primarily, we are interested in the renewal of your home paper, but we use every effort at our command to help our friends save money on the daily papers or other periodicals.

Approximately one more month remains for people of this territory to take advantage of our clubbing offers with the dailies. We offer you the convenience of a charge account. See us at once if you need this accommodation. Renewals and new subscriptions received since Nov. 16 are as follows:

Teams Evenly Matched

The teams will be evenly matched in experience and weight. Their records in their respective districts are also parallel.

In weight the Indians will hold an advantage of six pounds per man. Crowell will be outweighed only a fraction of a pound in the line, as the line of each club averages between 163 and 164 pounds. Haskell takes the weight advantage over the Wildcats in the backfields, as Crowell's light, speedy backfield averages only 144 pounds as compared with the Indians' 162-pound backfield average.

Speed vs. Power

The bi-district game Friday will feature speed versus power, Crowell's speed against Haskell's power, of which the Indians have plenty.

Wildcats At Full Strength

When the Wildcats strove upon the field at Haskell Friday afternoon, they will be at full strength for the first time in a month. John Lee Orr, Wildcat halfback, will return to the starting line up for the first time since the Holiday tilt, during which time he had been forced from service because of an injury suffered in early fall workouts. Orr's return will allow Hugh Solis to return to his guard position and place the Crowell forward wall at full strength.

At the other guard position, Charles Branch will be awaiting the opening whistle, as will be Oran Johnson at right tackle.

At the remaining six positions, Crowell will have six all-district honor men in action. Two of these men will be Raymond Joy at quarterback and Bernice Fitzgerald, left end, who were given all eight votes for the honor berths. Que Meason at left half and Ed Gafford, left tackle; Wayne Canup, right end; Que Meason, halfback, and Jack Fitzgerald, center, are the remaining all-district men to play Friday for Crowell.

Crowell's offensive speed combination will be composed of Raymond Joy, Que Meason, J. S. Owens and John Lee Orr, Wildcat backs. Speed in the line will be represented by Bernice Fitzgerald and Wayne Canup at ends and Charles Branch and Hugh Solis at guards. This offensive combination has yet to be equaled this season.

Defensive power is represented by the whole Wildcat line, with each player a star in his position. In the backfield, Orr and Meason are two of the finest pass defense players to be found in this section. Owens, after overcoming a bad start in the first Haskell game, has become a good safety man and his speed will make it very difficult for a man in an open field to get past him to the Wildcats' goal line.

On the other hand, Haskell's power might prove to be a good

Bi-District Game

(Continued from Page One) day, 40-0; Apertment, 25-6; Abilene "B", 35-8; Roby, 84-0; Anson, 33-15; Hamlin, 37-0; Albany, 2-0; Stamford, 26-7.

Teams Evenly Matched

The teams will be evenly matched in experience and weight. Their records in their respective districts are also parallel.

In weight the Indians will hold an advantage of six pounds per man. Crowell will be outweighed only a fraction of a pound in the line, as the line of each club averages between 163 and 164 pounds. Haskell takes the weight advantage over the Wildcats in the backfields, as Crowell's light, speedy backfield averages only 144 pounds as compared with the Indians' 162-pound backfield average.

Speed vs. Power

The bi-district game Friday will feature speed versus power, Crowell's speed against Haskell's power, of which the Indians have plenty.
