## Charles Comiskey II, Heir to White Sox

Upon the shoulders of Charles Comiskey II may some day fall the responsibility of carrying on the name Comiskey, famous in baseball. The young man, now 13, shares equally with his two sisters in ownership of one-half of the Chicago White Sox, American League baseball club. His father, John Louis Comiskey, who died recently, left the entire holding to his widow and three children, expressing in his will the desire that ownership in the club be kept in the Comiskey family at least until his youngest child attains the age of 35 years.

## TWO NEW TEACHERS FOR LOCAL SCHOOLS ELECTED AT CALLED MEETING OF BOARD MONDAY

### Mrs. E. L. Draper Died Suddenly at Davidson, Okla.

Mrs. E. L. Draper, 56, former Crowell resident, died suddenly at her home in Davidson, Okla., Thursday morning, July 27, at 3:30 o'clock. Funeral services were held in the Baptist Church at Tipton, Okla., at 3:30 last Saturday afternoon with interment in the Tipton cemetery.

Mr. and Mrs. Draper operated the Rialto Theatre in Crowell for about three years, leaving here in 1935 to make their home in Tipton. They also operated a picture show in Tipton.

Survivors include her husband and five children.

### Two New Busses Are Purchased by School

The Crowell Independent School District has purchased two new school busses recently and these will be brought to Crowell in the near future from Lima, Ohio, by Ernest Spears of Crowell and Jack Sparks of Abilene.

Mr. and Mrs. Spears and Mr. and Mrs. Sparks left Crowell Sunday to visit the World's Fair in New York City and on their way home they will return by Lima to bring the busses to Crowell.

One of the new busses will be operated during the coming school term by Mr. Spears and the other by W. C. Golden of the Vivian community.

#### BIRTH

To Mr. and Mrs. George Christian, a boy, Larry Rex, Aug. 1.

#### Chief of Legionnaires

History of the French Foreign Legion seems written in the features of bearded General Rollet, called the "Father of the Legion." The general, together with his legionnaires, visited Paris recently to march in the Bastille day parade, celebrating the 150th anniversary of the French revolution.

## FIRE MONDAY MOST DAMAGING OF YEAR HERE

### House Owned by E. H. Scales Guttled by Flames

Crowell suffered its most damaging fire of the year when the house owned by E. H. Scales and occupied by Joe Eddy one block west of the Crowell Methodist Church was gutted by fire Monday night shortly after 10 o'clock.

The flames were discovered by Mr. Scales as he returned to his home nearby but practically all of the interior of the house and its contents were in flames before the fire department arrived. The cause of the fire is unknown.

According to the report of Fire Marshal W. O. McDaniel, the house was insured for \$750 and the furniture for \$750. The fire marshal estimated that about \$500 in damage was done to the house and reported that the furniture was a complete loss.

All of the household furniture and clothing of Mr. and Mrs. Eddy were in the house and flames had made such progress by the time the firemen arrived that it was impossible to save anything.

The fire Monday night was the heaviest loss in the City of Crowell to be recorded since August 13, 1938, when the F. R. Chatfield residence burned and a \$1,000 insured loss was reported. The only insured fire loss for this year was reported on Feb. 8, when the servant's quarters of the T. S. Haney residence was damaged.

The Crowell Volunteer Fire Department has received seven calls since the first of the year, which is an average of one call per month, and the greater portion of the fires have been small and easily extinguished.

## TODD LEAVES FOR SPOKANE, WASH., TODAY

### Will Start Training for Grid Season with Redskins

Dick Todd, All-Southwestern Conference backfield man for the past two years when he was playing with the Texas A. & M. College Aggies, will leave here Thursday for Spokane, Wash., where he will immediately enter football training with the Washington Redskins, the club with which he has signed to play professional football.

The Redskins open their league schedule with the Philadelphia Eagles on Sept. 17, and all local football fans expect Todd to make his debut in professional football in that game. However, he will have to be among those chosen for the traveling squad, a feat which supporters here believe that he will accomplish as he was recognized as the most feared broken field runner in the nation the three years he was a member of the varsity Aggie squad.

Todd started his football career in 1931 with the Crowell Wildcats and by the time that he had completed his four years with the Crowell teams in 1934, he was the most widely publicized Class B high school player in the United States as he had set a scoring record at which backfield men were shot at for several years and his name was known over the nation.

While in high school, Todd ran up a total of 664 points, 318 of which were made during his last season. His touchdown runs in his final two seasons averaged better than 25 yards each.

During the four years in which Todd was in high school, the Wildcats won second places in district the first two years. The third year they won the district and bi-district championships and in 1934 they went through the season to win the highest honor which it is possible for a Class B team to win, the regional championship, and several sport writers of the state placed Todd on their All-State teams. Todd led the Wildcats from his backfield position and performed feats on the gridiron that will long be remembered by football fans of this section.

#### ACCEPTS POSITION

Pete Bell has accepted a position in the B. & W. Man's Shop here and assumed his duties there on Monday.

Mr. Bell has served as bookkeeper at the Foard County Mill for several years and will also continue his duties there.

## 'Welcome Home, Daddy,' Music to Jack

Jack Dempsey, former heavyweight champion of the world, received a warm welcome from his daughters, Joan, left, and Barbara, when he returned home to New York after convalescing from an appendicitis operation at a seashore resort. His roadwork so far has consisted of a few turns around the block. His daughters made sure of his welcome by inscribing it on their playroom blackboard.

Miss Modena Prunty was born in Aurora, Wise County, in March, 1872, and was reared in that county. In 1905 she married D. C. Greer in Aurora and one son, Virgil, who survives, was born to them. Mr. and Mrs. Greer came to Crowell in 1906 and the home has been in this city since that time.

Mrs. Greer was converted and joined the Presbyterian Church in Aurora. She was an early member of the Crowell Presbyterian Church and was one of the most untiring workers in the history of the local church.

Mrs. Greer was a lovable, Christian character, always friendly and neighborly and will be missed by her hundreds of friends.

She is survived by her husband, her son and his wife, one sister, Mrs. Sudie Neel of San Francisco, Calif.; three brothers, Ben Prunty of Fresno, Calif., Bob Prunty of Sanger, Calif., and Dr. J. V. Prunty of Decatur, Texas; three nieces who live in Texas, Mrs. Joe Chambers of Rhame, Mrs. Ben Hobson of Paducah and Mrs. Moore of Paducah, and several other nieces who live in California.

## 17-Year-Old Boy Speaks on Townsend Plan

Tiffin W. Reed, 17-year-old lecturer of Fort Worth, spoke to a large number of persons on the west side of the court house in Crowell last Friday night at 8:30 o'clock explaining the Townsend Recovery Plan and using "America is at the crossroads. Which road will you choose?" as his subject. Ten-year-old Ardis Reed entertained the audience with several vocal numbers. The program was broadcast over the public address system furnished by Marion Crowell.

Tiffin pointed out the benefits every person in the nation would receive if the program is put into effect and as a climax to his talk he compared the government to an automobile. He stated that Uncle Sam bought the car in 1776 and traced minor breakdowns through history to the present day at which time, he declared, the car would not run and needed an overhauling. This overhauling would come, Tiffin said, when the Townsend Plan is put into effect.

William E. Wells, president of Club No. 12 in Omaha, Neb., and district organizer of the second Congressional District of Nebraska, will speak in Crowell on Thursday night, August 17.

The question of neutrality now before Congress is one of the big questions before not only this nation but the world today.

The turn of events in Europe is a severe blow to the pacifist doctrine. As long as England backed off, Hitler was a raging lion, pacing up and down his cage and shaking the world with his ferocious roars.

A town is known as a beautiful town or an unlovely town from the manner in which the homes and business houses are kept up. Making a town beautiful is not a thing that is accomplished by an edict, or order, or an ordinance.

Some interesting, though revolting and gruesome, facts regarding the means used by Stalin of Russia to insure his remaining at the head of the Russian government are being brought out in a series of articles written by W. Gossett Demands Destruction of Farm Machinery Trust

Washington, D. C., July 29.—On July 19, Representative Ed Gossett of this District introduced in Congress a resolution requesting the Anti-Monopoly Committee of the Congress to bring in a bill for the destruction of the farm implement and machinery trust.

"They stand convicted by their own testimony," stated Representative Gossett. "Economic justice and fairness to the farmers of this country demands that we do something about it."

"The situation demands new and effective legislation in order to destroy this trust and monopoly that has for years preyed upon the farmers of this country."

In Poland a hillbilly is called a Huel, which is pronounced "Hootzoo." The Polish version of our southern mountaineers wear far more picturesque costumes than the American highlanders.

The question involves some nice points either way it is settled. It all depends on how things turn out in Europe. If the arms embargo is put on and Hitler and Italy get the bits in their teeth and set the world afire, administration supporters on this bill will be in a fine position after it is too late, to resort to the age old and time honored retort "I told you so."

The Wage-Hour law and the Wagner act have to do with our economic and industrial problems at home. How Congress meets and handles these two questions will depend the degree of confidence with which business and industry will in the future enter the matter of expansion, re-employment and recovery.

ALERTNESS IS THE PEDESTRIAN'S PRIME PROTECTION

What We Think

(By Frank Dixon)

There are three pieces of legislation before Congress at the present time that in many respects, because of the result of congressional action on them, are the most important measures this body has been called upon to consider in the past decade.

This is due to the fact that the time has come in the history of nations when what this country says and does is of great importance and of far reaching effect in determining the actions of other nations of the world.

The present neutrality act permits nations to buy at our shores munitions and war supplies. The proposed act would prohibit even this sale of munitions.

The present act is favored by England and France and opposed by Germany and Italy. It is favored by England and France because it permits them to buy arms and munitions at our shores which they do not have and are unable to get elsewhere.

The administration believes that the interest of world peace lies most securely in the hands of England, France and the United States. It believes that as long as England and France are permitted to buy munitions in this country the fact will prove a damper upon the ambitions of Hitler, but that once this market is closed to England and France, Hitler will resume his demands which have been more or less dormant ever since England and France took a firm stand.

The question involves some nice points either way it is settled. It all depends on how things turn out in Europe. If the arms embargo is put on and Hitler and Italy get the bits in their teeth and set the world afire, administration supporters on this bill will be in a fine position after it is too late, to resort to the age old and time honored retort "I told you so."

Farm Freight Rate Reductions Added to Transportation Bill

The declaration of a policy of equality in export freight rates on farm and industrial products was recently written into the new Transportation Bill when the House of Representatives adopted an amendment offered by Representative Marvin Jones of Texas.

In a speech to the House, Jones cited examples of rate reductions allowed industrial products going abroad and then gave examples of the lack of reduction in rates on shipments of farm commodities intended for other countries.

"Whenever any industrial product is shipped from a point in the interior to a port location, destined for shipment abroad," he said, "the rate is reduced from 25 to 33 1-3 per cent. Whenever a farm product is shipped, as a rule there is no reduction."

"The Texas Representative read from a statement made by a member of the Interstate Commerce Commission who called attention to these freight rate inequalities and recommended a lowering of export rates for agriculture."

"When two farm implementers are shipped from Indianapolis to New Orleans," Jones said, "one of them to go abroad, loaded on the same platform, unloaded on the same dock, the one going into foreign trade takes a rate of 48 1/2 cents per 100 pounds, whereas the one to be used by a farmer in Louisiana takes 82 cents per 100 pounds. If it is shipped from Chicago to Galveston, it is \$1.06 if it is to be used by the Texas farmer."

er, but only 49 1/2 cents if it is to go abroad. "If wheat is shipped from Amarillo to Galveston, the export rate is 35 cents a hundred and the domestic rate is also 35 cents a hundred—no reduction. "I am not prepared to say that these privileges are wrong, but I do say that if they are extended to industrial products going into foreign fields, the same privilege should be extended to agricultural products. If the manufacturer of an American plow, when he ships it abroad, gets a reduction in rates in order to enable him to handle his production better, why in the name of common sense should not the American farmer have the same privilege?"

The Interstate Commerce Commission has been overloaded, and these great interests come and present their claims and outline the facts, but it seems to me that no man can justify such discrimination in the case of manufactured products as against agricultural products. It should be corrected.

Your Horoscope

July 29, 30—You are very capable but should avoid worry and excitement. Get out from under the nervous strain. It interferes with your health. Watch yourself and don't become a cynic when your ideals crash in ruins about you. You have a nice cheerful disposition with a leaning toward the occult. You love peace but can fight if absolutely necessary. July 31—You excel in everything you get behind. You are passionately fond of good clothes and a splendid recreational companion. You keep your ideals high. You have the happy faculty of relaxing completely and can adapt yourself to fit into any condition. August 1, 2—Your curiosity bump is well developed but only to the extent of friendly interest in legitimate happenings. You like money and will work hard to obtain it. You like good clothes. You are apt to show indecision in your efforts. August 3, 4—You have a poker face and can conceal your emotions. You have a discerning mind which is a keen reasoner. If it suits your purpose you can keep the truth hidden, even to the extent of extorting it. You have sticktoitiveness and defend your beliefs with courage and determination. You would do well as an actor, designer, military commander or elocutionist. difference; or it may be that they are ignorant of the fact that they have a definite responsibility to the building of a Christian Community. But whatever it is, it is time for our community to awaken to its responsibility. HARELL REA, Pastor.

Margaret Baptist Church Our revival meeting begins Sunday, Aug. 6. Bro. Weaver Lovelace of Vernon will do the preaching and Bro. Cecil Short, our choir director, will conduct the singing. The prayer of the pastor is that the people will become very much concerned about our revival, because we readily realize the great need.

The pastor is just back from Atlanta, Ga., and the Baptist World Alliance. Dr. George Truett, our great retiring president, sounded the keynote of the congress when he said, "Christ is the hope of the world, and the only hope." So, let us come to this revival with that thought in mind. Some are in war, some are in persecution, some are in famine and drought, and some are lost in sin, and the Christ is waiting and anxious to become their helper, their deliverer and their Savior. JOHN H. STOUT, Pastor.

Christian Science Services "Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 6.

The Golden Text is: "What man knoweth the things of a man, save the spirit of man which is in him? even so the things of God knoweth no man, but the Spirit of God" (1 Corinthians 2: 11). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "This I say then, Walk in the Spirit, and ye shall not fulfill the lust of the flesh" (Galatians 5: 16).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Let us feel the divine energy of Spirit, bringing us into newness of life and recognizing no mortal nor material power as able to destroy. Let us rejoice that we are subject to the divine 'powers that be.' Such is the true Science of being" (page 249).

A great number of people in every community today are failing to live the noblest life which it is possible for them to live. And they are failing because they have no definite connection or affiliation with any church which is trying to foster Christian principles and which is trying to build Christian personality. It may simply be negligence; it may be in-

Everybody Likes Chicken

NOBODY'S BUSINESS

BY JULIAN CAPERS JR.

Quality knows no season. Regardless of time or weather some of the best poultry is available.

There are on the market by the thousands of chickens weighing from 1 to 2 1/2 pounds in April and then follow chickens weighing from 2 1/2 to 3 1/2 pounds. After these comes the time to be baked or stewed and are available all year.

As far as weights are concerned there is an overlapping of the birds and the older birds but are determined by feeling and taste.

Barbecue Sauce: 1 cup tomato catsup, 1/2 cup vinegar, 1/2 cup Worcester sauce, 1/2 cup A 1 sauce, 2 cups onion juice, 1 teaspoon salt, 1/2 teaspoon red pepper, 2 cups butter.

Combine ingredients and bring to the boiling point. Baste broiled chicken with the sauce.

Fricassee Chicken: Use broiled chicken split in half. Place on a rack about 3 or more inches from the flame. Sear until browned with the sauce and continue basting with the sauce until done and delicately fried.

Chicken Pot Pie: 1/2 cup butter, 1 onion, 4 whole bay leaves, 4 hard-cooked eggs, 1/2 cup milk, 1/2 cup water, add seasonings and simmer until meat is tender.

Chicken Croquettes: 3 cups cooked chicken, 3-4 tablespoons white sauce, 1/2 cup salt, seasonings, 2 hard-cooked eggs, egg and crumbs.

Austin.—Appointment by Gov. O'Daniel of the new State Welfare Board, which on Sept. 1, will take over administration of social security functions, and a declaration by members of the board of their personnel policy, quieted fears of a wholesale clean out of the pension staff.

Little May Remain: Grapevine reports were that Jack Little, at present director of pension administration under the Board of Control, stood a good chance for an appointment by the new board.

Crisis Is Coming: A pension crisis is due within two or three months after the new board takes charge. September 1, the pension fund must begin repaying a banknote syndicate from which is borrowed, \$200,000 a month.

Senate Joint Resolution No. 12, the famous sales tax amendment which blocked revenue raising efforts of the regular session, is due to be the most widely discussed political issue in Texas during the next 18 months.

"Dodge City" On the Screen

Dodge City, the southwestern Kansas town glorified by the Warner Bros. Studio in its technical production, "Dodge City," which opens next Friday at the Rialto Theatre, came into existence because its site lay just five miles from Fort Dodge and was just at the edge of the military reservation, so liquor could be sold legally there.

Within two years Dodge City, originally named Buffalo because it was the center of buffalo hunting activities on the western plains, had mushroomed into the wildest and wealthiest town on a steadily advancing western frontier.

complicated. The pamphlet is one chapter of a forthcoming book by Taylor, entitled "Did You Say They Tried To Steal Texas?" telling the story of the O'Daniel administration through the end of the session.

\$22 Per Capita: The State school per capita appropriation will be \$22 for the third successive year, the Board of Education ruled, rejecting pleas for the maximum of \$22.50 fixed by the new law, because of deficit in this year's payment.

Begin Garner Work: Opening headquarters in Austin, Price Daniel, member of the legislature from Liberty, the president of the Texas Young Democrats, this week-end launched a state-wide campaign among youthful voters to support Vice President John Garner for the presidential nomination.

long-horn cattle driven north over the Chisholm trail from Texas. Then someone discovered that the soil of Kansas produced the finest wheat in the world and Dodge City became the center of a vast agricultural area.

It is the picturesque period of Dodge City's colorful history before the turn of the century that Warners glorified in their big technical production. Errol Flynn, the reckless buffalo hunter and cattle train driver who becomes sheriff of Dodge City, might have been any one of half a dozen peace officers who survived solely because of their nerve, speed and accuracy with the Colt six-shooter, the universal side-arm of the western frontier.

Little of the pioneer Dodge City remains now. About the only thing left standing to remind the 10,000 citizens of the thriving southwestern Kansas town of its past is the cemetery on Boot Hill. But even that has changed. Once on the outskirts of Dodge City, it has been completely surrounded by the growing city.

Brief Bits of News From Here and There

There are 9,881,000 unemployed persons in this country. In normal times there are 3,000,000 not employed in this country. On July 5 there was reported to be money in circulation in this country to the amount of \$7,000,000,000.

ONE kilowatt-hour equals 1,000 watts of electric energy. This is one-third more than one horsepower. Therefore, we say: "Reddy Kilowatt is one-third stronger than a horse."

It therefore seems futile—and unnecessary—for Men or Women to do work that Reddy Kilowatt can—and should—do. Electric cranes, pumps, hammers, etc., do hard jobs more cheaply and efficiently than men.

## New Forest Fire Poster Distributed

Wichita Falls, Texas, Aug. 1.—(Special)—A new fire prevention poster is being distributed by the Prairie States Forestry Project in Northwest Texas. This fine colored poster was created by James Montgomery Flagg at the request of the American Forestry Association. They have been sent all over the country by the organization as an educational measure to help develop fire prevention consciousness in vacationers touring through forested areas.

The recent catastrophic forest fires in Yellowstone, Colorado, the West Hills and other parts of the West bring home the message displayed by this poster. A father of the Great Outdoors is showing his son the heritage he is leaving him in green forest as against a burning background of flame forests left by some careless tobacco smoker or camper. The conservationist slogan of "Prevent Forest Fires—It Pays" is a mute but trenchant word picture to all outdoor lovers if we are to retain our forested areas for the children of today who are the men of tomorrow.

## Lubbock Research Group Finds Corn Meal 500 Years Old

Lubbock, Texas, Aug. 1.—Corn meal 500 years old was among the ancient commodities yielded up to Texas Technological College archaeological research group at Arrowhead ruin near Goriotta, N. M., in a field trip recently completed.

Headed by Dr. W. C. Holden, dean of anthropology, research field students have for the past four seasons been engaged in excavation work on 42 rooms and a kiva. Work for this year included 15 rooms, a passageway, and four trenches. Restoration work consisted of capping the walls uncovered with stone masonry set in concrete mortar. A portion of the inside patio was uncovered and disclosed several corn grinding bins and fire pits. Matates and manos were found in and around the corn grinding bins where the corn meal was found.

Students found many pieces of pottery, some of which will be fully restored. In one room a fireplace was found with broken cooking utensils underneath. Other objects included arrow shaft polishers, flint awls, grinding implements, projectile points, portions of pipes and prayer sticks. Findings have not yet been catalogued, but they are now in the West Texas Museum being classified. Detailed report of the expedition is being prepared, after which the archaeological department will tabulate, catalogue, and photograph the relics.

## Plan to Increase Bobwhites on Lower Plains Near Lubbock

Austin, July 24.—Another project designed to increase the Bobwhite and Scaled Quail population of the lower plains of Northwest Texas has been gotten under way by the Texas Game, Fish and Oyster Commission through the co-operation of interested sportsmen. A 465-acre tract several miles southeast of Lubbock along Buffalo Lake is being used by Charles E. Friley Jr., game manager of Region 9, it is announced by Phil Goddum, director of research and education for the department.

The tract is believed to be very adaptable for the raising of quail, is being tableland, ravines, gulches and steeply-inclined land. A 100-acre lake is centered in the area.

The area, to be known as the Yellowhouse Canyon Game Refuge, will not need restocking, but Game Manager Friley is confident that the few birds there will be increased many times over.

Ten small food patches will be planted. Trees and shrubs to provide shelter for the birds will be planted on the tableland and on the steeply-inclined ground.

The area, located on the eastern edge of the south plains, will be used to demonstrate proper quail management practices and their application in pasture lands. Game experts will also be able to determine the relationships of Bobwhite and Scaled Quail when occupying the same range.

It is believed that not only the land in the project, but that surrounding it will be restocked naturally within a few years.

Friley a year ago instituted a similar project on a 2,000-acre tract near Abilene and a survey is being conducted at this time to determine the rate of increase of quail in the area.

Paintings and drawings imported to the U. S. between 1930-35 were valued at more than \$25,000,000.

### LIBRARY NOTES

"Our American Tropics," by John E. Jennings Jr., is a very interesting book that has been recently placed in the library.

There is truly a tropical city in the United States which we are learning more and more about, Key West. It lies among the coral keys far below Florida. It used to be noted for two major industries, smuggling and ship wrecking. Now its attractions are superb swimming and excellent fishing.

Mr. Jennings discovered Key West, lower Florida, Puerto Rico, the Virgin Islands, our own tropical empire, for himself some time ago. He has written an informal guide which not only tells you how to get around and what to do when you get there, but seems to catch the spirit of the place. Fortunately the author is also a good photographer and has filled the book with exquisite pictures.

### VIVIAN H. D. CLUB

"The kitchen should be a place of cheer as well as of convenience," said Miss Joellene Vanoy, home demonstration agent, to the Vivian Home Demonstration Club which met with Miss Neoma Fish Thursday, July 27, at 2:30.

"A good view out of the window and some pot plants in the window," continued Miss Vanoy, "help to make the kitchen more cheerful. The kitchen should be small and compact with a few doors as possibly convenient. More steps can be saved if the kitchen is oblong."

The club voted to pay one dollar toward defraying expenses of the trip to the Short Course of the 4-H Club sponsor, Miss Berdell Nelson.

Miss Neoma Fish gave a report of her trip to the A. & M. Short Course at College Station. Refreshments of chicken sandwiches, ice tea and potato chips were served to members and the following visitors: Mesdames E. Sivells, T. C. Sivells and A. J. King of Ogden; Weldon Burleson of Lubbock, and Misses Mildred Fish, Dolores Gilbert, Ina May and Winnie Fay Young.

The club will meet with Mrs. Bert Matthews Thursday, Aug. 10, at 2:10.

**Farmers Make Good**  
Twenty-five farmers of Foard County organized a farmers' cooperative society last spring and purchased the Bell Elevator and have been operating it this season. The elevator was purchased at a cost of \$2,250 with good terms. Already the society has handled 60,000 bushels of wheat, having shipped 42 cars. They will liquidate two-thirds of the debt within six months from the time of the purchase.

**Margaret Celebrates**  
Margaret is coming again this season with a big bargeeue and rodeo on August 7.

**Rayland's Rodeo**  
And they will never let Margaret beat them on a barbecue, either. Rayland will wait, of course, until Margaret gets through with its rodeo and barbecue on August 7, and just as soon as they are through, Rayland will have a chance to go them one better on the 8th.

**Grape Vines Bear**  
Joe Couch put out some grape vines at his place here in town just 20 months ago and they have borne fruit this year.

Jeff Bruce was in town Wednesday with a quantity of farm produce. He finds ready sale for all he brings and has been selling steadily ever since his products have been coming in.

**Boy Scouts Organized**  
C. L. Taylor, scout master at Vernon and his troop came over Monday night and an organization was partially perfected here with 22 boys as the initial number. Those enrolled as members of the organization are: Robert D. Oswalt, Clinton French, Elbert Griffith, Leland Stovall, Chas. Ferguson, Weldon Cogdell, Earl Smith, Mabry Kinsey, Recie Womack, Wayland Griffith, Tom Greening, Walton Wallace, Charlie Ashford, Arthur Bell, Tom Reeder, Vance Swain, Staton Adams, J. M. Crowell, Thomas Ellis, Marion Crowell, Joe Brown, Dan Hines Clark, James Henry Clark, Virgil Greer.

**Birth**  
Born to Mr. and Mrs. Dwight Campbell on July 28, a fine girl.

**Dwelling Comfort**  
Considerable work has been done toward the establishment of the correct degree of humidity for dwellings. There is a so-called comfort zone, which has a maximum temperature of 70 degrees Fahrenheit and a minimum humidity of 30 per cent; a minimum temperature of 55 to 60 degrees Fahrenheit, and a maximum humidity of 55 per cent. This is the range which has been established as being most agreeable to people living in temperate climates.

## BUDGET HEARING

Complying with the State Budget Law, the County Judge, with the assistance of the county commissioners, has prepared a budget for Foard County for the period of Jan. 1 to Dec. 31, 1940. This budget has been filed with the county clerk, and the commissioners court will hold a budget hearing on August 15, at 9 a. m. in the office of the county judge in the court house in Crowell. After the hearing, the commissioners will set the rate for the 1939 tax rolls.

Hot weather hint: This resident of Kent, England, attached the blades of an old electric fan to the lawn mower. By means of a few gear wheels the fan revolves, blowing a cooling breeze as soon as the machine is pushed along the grass.

## Our Weekly Sermon

By Rev. Henry Ostrom, D. D., Extension Staff, Moody Bible Institute, Chicago

### Seed Time

Text—Whosoever hath, to him shall be given.—Luke 8:18.

One may quibble and worry over this statement, or one may read the preceding verses and see how plainly Jesus is giving out a precious truth. The words follow His parable of the seed and the soil. The seed, He tells us, is the Word of God. That expression of itself means volumes to us. As for the soil He has given us four varieties—the hardened path, the shallow soil on rock, the thornseeded, and the good ground. Here is man represented by one of these grades of soil as the seed (the Word of God) is cast forth to him.

He may, hearing the Word of God, allow the devil to snatch it away from him, or he may give it a measure of joyful accretion, only to lose the sense of its lasting vitality, or he may be so engaged with riches and cares and pleasures as to choke it; while on the other hand he may in a good and honest heart receive the Word to a fruitful result. He hath, and to him shall be given.

So we have here four classes of men, but three of them lack and one of them hath. And the one that hath is the receiver of a bountiful harvest. Hath what? the heart to receive the Word. Thus we have the hath-people contrasted with the hath-nots. While the seed is the same (all good) in all four instances, the attitude towards it is noticeably different.

Trace again these have-nots. First, The seed to these have-nots is more as a passing picture than real seed. They are of the packed-down, way-side, hearers, and they appear oblivious to the devil's antagonism to the Word of God.

Second, The seed to these has captured their admiration but they are not going to allow it a deep hearty reception. They seem to be of the don't-be-too-rosy class.

Third, These admit, why of course, the Word of God, too. Riches, cares, pleasures—who could be exempt from such and be thrifty? Their program becomes a competition between these things and the Word of God; and the cares, riches, pleasures win, for God's Word cannot

allow in the heart of man a petitioner. Fourth, Ah, here is the pe who means business! He heed our Lord's words, "Hath ears to hear let him hear. The devil, the tendency to speciality, the riches, cares, pleasures are classed where belong, and the Word of God given full right of way.

Might not the roadside accept cultivation? Yes, in the thin earth also accept the removal of the substratum of Yes. Might the thorns (in parable) be ridden from (stricken land)? Yes. So all become good ground? But our Lord is showing a tendency to reject rather than accept, until He speaks of good ground.

The good ground? It is depicted in the Gospel by Mark as a man receiving. In Matthew classified as people also receiving the Word. In Luke the receiving is brought to light the words "an honest and a heart," that is, a valuable, beneficial heart. From such are compelled to thing of the Word as religious do-wells. They have not, and sequentially lose the capacity have what they so greatly value. Good-ground souls value Word and esteem its unnumbered benefits.

"Whosoever hath, to him is given." The seed accepted it but the soil must receive our Saviour would employ appealing pictures of seed and harvest to induce us to receive.
