C. H. S. Band to Begin Practices Monday Morning

Members of the Wildcat Band are being asked by the director, E. L. Rickard, to be at the band hall Monday morning, August 26, at 8:30 for the first practice session of the new year. The junior band will meet at 10:30 on the same day. In the 8:30 class will be all students who were members of last year's senior band and also the students who have previously had band that will be in the eighth grade or higher this year. The junior band will be made up of students who will be in grades 5, 6, and 7 this fall, the director said Monday.

Mr. Rickard says that he has already received about half of the new music the organization will play this year, among which are several popular numbers. During the summer, new music has been purchased for both the junior and senior bands.

Students wishing to check out school-owned instruments before practice sessions begin, should contact the director as soon as possible, either at the band hall, or at his home.

Local Merchants Should Tell Area Residents About Their Merchandise

By T. B. Klepper

One can be blamed for finding a dollar as far as it goes. However, it is difficult to understand the person who spends two dollars to stretch one. Every community has a sizable number of penny-conscious shoppers who will travel from twenty miles in search of a bargain. Such buying is usually unadvised and wasteful. The cost of the trip is likely to run higher than the savings. Also, a carecheck of local stores would reveal that a better price can be obtained here at home.

It can not question the loyalty and intentions of local citizens rushing off to large cities to make major purchases. They believe that they are practicing sound economics. And they may have some reason for their actions.

For, quite often our local people know more about the goods available in the metropolitan stores than they do about the goods in the stores here at home because of the extensive advertising originating in the large trade centers.

Retail advertising from larger cities is constantly coming into every community in the form of catalogs, circulars and in regional newspapers. When local merchants do not counter the out-of-town advertising, it is natural for some shoppers to believe that the goods and services they seek can not be obtained locally.

Despite the aggressiveness of distant competition, the local merchant has a distinct advertising advantage—the local newspaper. No advertising medium used by non-local retailers covers our trade area so thoroughly and at such low cost as your local newspaper.

Thus, before the local retailer becomes too critical of out-of-town shopping, he should ask himself if he has given his potential customers enough shopping information to keep them at home.

MOVE TO TULSA

Mr. and Mrs. H. W. Cotner request the address of their paper be changed from Altus, Okla., to 1244 So. Gary Ave., Tulsa, Okla. Mr. and Mrs. Cotner have recently sold their cafeteria which they had operated in Altus for a number of years.

Mrs. Cotner was reared in Crowell, daughter of the late Mr. and Mrs. J. C. Thompson. She is a sister of Walford Thompson of Crowell.

Over 30 Prospects Now Training for Football Season

Over thirty Crowell High School football prospects have been taking exercises and running daily since last Monday. These boys will receive uniforms and get down to regular business next Monday morning. Coaches Thayne Amnett and Gordon Erwin will have to work fast to get them ready for the opening game here with Seymour on Friday night, September 6. They have two scrimmages scheduled for next week, one with Lockett on Wednesday and one with Floydada on Saturday.

A new feature of this year's workouts will be separate scrimmages for the "B" string boys. Glen Taylor will help with this group. It will be made up with freshmen mostly. This is the team that won the grade school district championship last year. The list that was printed last week failed to show Miles Welch, Charles Gilmore and Dewey Mack Harris. Miles was a regular guard on the grade school team.

The workouts will be held twice daily until school starts. There are nine boys returning this season that were considered as regulars. However, some of these positions will be contested by freshmen and sophomores this year. In fact, according to Coach Amnett, there will probably be some changes made from game to game in the starting lineup. He thinks he will have better replacements than he has had in several seasons.

Gilliland Baptist Church to Conduct Revival Meeting

A revival meeting will be held at the new Gilliland Baptist Church beginning Sunday, August 25, and continuing through Sunday, Sept. 1. It was announced Monday by Jesse N. Rutherford.

Rev. Jake Armstrong of Hawley, Texas, has been secured as the evangelist. Rev. O. W. Perry, former pastor of the Foard City church, who will graduate from Hardin-Simmons University in Abilene this week, is pastor of the Gilliland Church.

Morning services will be at 10 o'clock and the evening services will be at 7:30.

The new church building which replaces the one destroyed by fire Sept. 12, 1956, is almost finished. Mr. Rutherford said. He also stated that they had received considerable help in rebuilding the church which they greatly appreciated. In addition to labor donated, they had received cash donations from people as far away as California.

Everybody is invited to attend these services.

Annual Abston Family Reunion Held at Lugert Park August 17 and 18

The annual reunion of the Abston family was held over the weekend of August 17 and 18 in Lugert Park, located north of Altus, Okla. This family reunion is to be held each year during the third week end in August.

Highway Patrolmen Investigate Three Accidents Here

Captain K. B. Hallmark Jr., commanding officer of the Wichita Falls District of the Texas Highway Patrol, released Foard County's Rural Traffic Accident Summary for July, 1957, last week.

The Highway Patrol investigated a total of three accidents with the following breakdown: 1 property damage, 1 person injury, and 1 fatal accident.

Captain Hallmark reported a total property damage of \$700.00 with 1 person injured and 1 person killed. This is an increase of 2 accidents and the same number of deaths for the same period of 1956.

Mrs. D. E. Todd Observes 78th Birthday Sunday

Mrs. D. E. Todd's home in Crowell was a gathering place Sunday, August 18, for the celebration of her 78th birthday, and the annual Todd reunion.

At 6:00 o'clock p. m., they all gathered, bringing basket dinners to be served on bridge tables on the back lawn.

The beautiful birthday cake was served to the following: Mr. and Mrs. Walker Todd and son, Doy, of Quanah; Mr. and Mrs. Francis Todd and daughters, Nan and Jan, of Vernon, Mr. and Mrs. Charlie Drabek and children, Cecelia, Jo and Charlotte, Mr. and Mrs. Jack Turner, Mrs. M. M. Kralicke and children, Steven, Margaret, Mary Lou and Laura, and Mrs. Zola Greening.

Just as the party was ending, a telephone call came telling of a baby daughter being born to Mr. and Mrs. Gene Todd of Dallas. Gene is the son of Mr. and Mrs. Walker Todd. This is Mrs. D. E. Todd's first great grandchild.

Band Director Attends Meetings in San Antonio This Week

E. L. Rickard, Wildcat Band director, has been in San Antonio this week attending meetings of the Texas Bandmasters' Association. These meetings are held annually to enable the directors in the state to hear all of the new music that has been written for bands during the past year.

The 4th Army Band, stationed at San Antonio, furnishes the musicians for the reading sessions. Discussions in marching band techniques were among the highlights of the three-day meeting.

Receive Critical Injuries in Auto Collision Sunday

Mrs. Kenneth Ownbey and young son, Danny Mike, of Snyder were seriously injured Sunday morning when the car she was driving collided with one driven by Hallie Ward Gill Jr., 24, of Fort Worth, on State Highway 199, fourteen miles north of Graham.

Taken to the Graham Hospital were Danny Mike Ownbey, 15-month-old son of Mr. and Mrs. Kenneth Ownbey, in critical condition and Mrs. Ownbey, Hallie Ward Gill Jr. and Hallie Ward Gill Sr., both in critical condition.

Mrs. Ownbey was driving a 1955 Ford which met a 1955 Chevrolet driven by young Gill at the intersection of FM 61 and State Highway 199 at 7:05 a. m. Sunday. Mrs. Ownbey and two sons were en route to Joy to visit her parents, Mr. and Mrs. Jack Lyons.

The Ownbey infant suffered broken bones and a head injury. Mrs. Ownbey suffered a broken hand and severe head and body lacerations.

Young Gill received head injuries and his father suffered chest injuries and lacerations on both legs.

Highway Patrolman W. S. Granberry of Graham said Mrs. Ownbey was driving to Joy when the vehicle was struck broadside by the Chevrolet.

Mr. and Mrs. Virgil Johnson, Mrs. Goodloe Meason and Mrs. Jimmy Rasberry went to Graham Sunday on account of the serious condition of the former Crowell resident and her son.

New Oil Well Completed on Carroll Land

Another oil well was brought in in Foard County Monday morning with the completion of J. M. Leonard's No. 2 Carroll Brothers. The new producer is located 1,285 feet east of the No. 1 Carroll Brothers, in the Raspberry Field in west Foard County.

Total depth is 6170 feet and the formation (Caddo) was topped at 2123 feet. Gas surfaced in 5 minutes and oil in 12 minutes. The well had 1240 pounds of flowing pressure and 1470 pounds of bottom hole pressure. Of the 1800 feet of fluid in the pipe, there was 1600 feet of free oil and 300 feet of mud-cut oil.

Another Producer

The Texas Co. No. 4 M. E. Rasberry, in the Raspberry (6100 Caddo Field) of Foard County, flowed 119 barrels of 40 gravity oil in eight hours for a calculated 22-hour potential of 357 barrels. Flow was through 24 1/4-inch choke from pay perforated at 6116-28 feet, with packer on casing and 150 pounds pressure on tubing. Hole was plugged back from 6136 to 6130. Gas-oil ratio was 450-1. Pay section was treated with 500 gallons of mud acid. The well is 12 miles northwest of Crowell, in section 23, block A, SPRR survey.

School Plant Renovated for Opening of Fall Term Monday, September 2nd

According to Superintendent Grady Graves, everything is about ready for the Crowell Schools to start on Monday morning, September 2. As usual, there will be short periods the first day at which time books will be issued and assignments made. This will make it possible for the children to get home in time for lunch. The cafeteria will be open on Tuesday.

The roofs on both the high school and grade school buildings have been repaired. All of the desks in the grammar school have been sanded and varnished and the floors in both buildings have been treated.

All of the windows in the grade school have been cleaned and painted on the inside. New window shades have been purchased for several of the rooms. The hall downstairs, the study hall, and three of the class rooms in the high school building have been renovated. Concrete sidewalks have been built from the west door of the grammar school to the high school auditorium, cafeteria, and gymnasium. New chair desks have been purchased for the science lecture room and the upstairs room where sewing used to be taught in the homemaking department. Mrs. Bursley will use this room to teach two sections of freshman English and speech.

Henry Moss Shoots Hole-in-One

Henry Moss, Crowell golfer, got the thrill of a lifetime last Sunday afternoon when he shot his first hole-in-one during his 13 years of golfing experience.

The feat was accomplished at the Quannah Country Club course on the ninth hole—145 yards. He used an 8-iron on the shot, and went on to score a 39 on the 9 holes.

Mr. Moss reported that the ball he used on the hole-in-one was being sent off and will be mounted on a trophy and returned to him.

Texas Press Association

Austin, Tex.—Things will be a bit different here and there, beginning this week, Aug. 22 is the effective date for most of the hundreds of new laws passed by the 1957 Legislature.

Scores of new laws will affect what you can and can't do from now on. Examples:

1. Manufacture, sale or use of dangerous fireworks are prohibited.

2. News reporters cannot be barred from precinct, county or state political conventions.

3. Parents will be liable for property destruction by their minor children.

4. Garages must report cars left over 30 days.

5. Dangerous substances, such as poisons, must be labeled.

6. Tuition fees at state colleges, beginning this fall, will be doubled.

7. Voters will have to return to the "scratch" method of marking ballots. No more putting an "X" before the name of the person to be voted for.

8. In future special elections for U. S. Senate or Congressional-Large posts, runoff will have to be held unless one man gets a majority vote in the first primary.

9. No more combination banking-insurance companies, such as the late U. S. Trust and Guaranty, can be organized.

10. License plates will cost 10 per cent more from now on to provide more money to buy right of way for roads.

NEW AGENCIES TOO—Five new state agencies also enter the scene. Foremost is the new independent securities commission which will supervise both insurance and general securities issues. It combines functions formerly divided between the Secretary of State's office and Insurance Commission.

An adult parole division under the Pardons and Pardon board will set up the state's first paid staff to keep tabs on adults paroled.

John W. Wright Jr., spent the week end in Fort Worth attending and being an usher in the wedding of a friend, Gordon Hon, to Miss Vickie Barnett.

Mr. and Mrs. Weldon Hammonds and children of Floydada came Sunday night for a visit with his mother, Mrs. L. H. Hammonds, and the Robert Hammonds family.

Rev. James Braswell of Fort Worth is here this week conducting a revival at the Baptist Church and he and Clois Winters, also of Fort Worth, are guests in the home of Rev. and Mrs. W. B. Fitzgerald. Mr. Winters is music director for the meeting.

Mr. and Mrs. Charlie Blevins and guests, Mrs. A. C. Porter and family of Arizona, visited last week with their daughter and sister, Mrs. Ernest Collup, and family in Oxford, Kansas, and with Mr. Porter's father, Ralph R. Porter, in Woodward, Okla.

Mrs. Billy Johnson and daughter, Debbie, visited her mother, Mrs. Homer Black, at Truscott one day last week.

rolled from the penitentiary. It has been long sought as a means of returning more prisoners to useful citizenship.

A Tax Study Commission will oversee an analysis of the state's entire tax structure by the Texas Research League. Could eventually lead to a shifting of tax burdens—new taxes for some, less for others.

Other new agencies are the Texas Council on Migrant Labor and the Texas Historical Survey Commission.

JURY PAGES CAGE—Two Texas Grand Juries, two legislative committees, and lots of just plain Texans are anxious to see how Ben C. Cage plans to "blow the lid off" in the ICT probe.

That's what Cage has said he would do when he testifies in the upcoming investigations.

He is set to appear before the Dallas Co. Grand Jury on Sept. 3. In a surprise move, the Travis Co. Grand Jury sent Cage a subpoena to appear on Aug. 20. But Cage wasn't there. His attorney, M. R. Irion, said he didn't know where he was, presumed he was visiting his mother in Los Angeles, and indicated he would not return to Texas until Sept. 3.

Travis and Dallas County Grand Juries both face an Oct. 1 adjournment. District Attorney Les Proctor of Austin said Travis County had no desire to be "first" in questioning Cage, but that they were merely working against a shortage of time. Dallas District Attorney Henry Wade said he preferred to have Cage testify there first, but that his appearance in Austin would neither help nor hurt the Dallas County investigation.

Also summoning Cage is the new House general investigating committee which has sent out a subpoena for Aug. 26, and directed Texas Rangers and the Department of Public Safety to search for him. Chairman of the committee, appointed recently by Speaker Waggoner Carr, is Reagan Huffman of Marshall. Members are: Reps. R. J. Blanchard, Lubbock; Carl C. Conley, Raymondville; William L. Elliott, Pasadena; and Joe N. Chapman, Sulphur Springs.

Sen. Charles Herring of Austin has been named by Lt. Gov. Ben Ramsey as chairman of the Senate's new investigating group which also is interested in what Cage has to say about ICT affairs. Herring said, however, that there was no use in the House and Senate committees "plowing the same ground." Since the House already has summoned Cage, it's a question whether he will be asked to appear also before the Senate group.

Serving with Herring on the Senate committee are: Sens. Culp Krueger, El Campo; Jarard Sechrist, Temple; Grady Hazlewood, Amarillo; and Frank Owen III, El Paso.

CROPS IMPROVE—Picture looks brighter than expected for Texas' 1957 crops, says the U. S. Dept. of Agriculture.

USDA estimates the state's cotton crop for this year at 3,775,000 bales. It's 4 per cent better than last year and about average for the past 10 years.

Other official crop estimates: wheat, 35 million bushels, a million more than originally expected; corn, 39.2 million bushels, 43 per cent above last year; hay, 2 million tons, second largest crop on record; peanuts, 205 million tons, a 233 per cent increase over last year.

Pecans, 30 million pounds, nine per cent better than last year, but four per cent below average; peaches, 765,000 bushels, highest since 1953; pears, 195,000 bush-

els, 10 per cent below average. But highest since 1950 estimate; sweet potatoes, 600,000 hundred weight, 60 per cent above last year; Irish potatoes, 1,170,000 hundred weight, 10 per cent above last year.

FLU EPIDEMIC SEEM—"Almost certainly" will be an epidemic of Asiatic flu this fall and winter, say state health officials.

Basis for this prediction: laboratory samples of strains obtained from Texas patients highly communicable than the department's director, Henry A. Halle. He advised to be vaccinated as soon as possible.

But availability of vaccine is a question mark. Production being rushed, and some setting up priority lists. Workers performing essential services, such as doctors, policemen and firemen, will be exempt.

SHORT SHORTS—Storage in Texas' major ports now is almost double what a year ago, says the State Board. Overall, reserving 90 per cent of capacity have returned to "normal conditions."

More than a year's delay in the State Health Department's paralytic cases, reported the first week in August. Announcement is attributed to Claude B. Tate, named assistant state auditor replacing William A. Herring, is serving as insurance commissioner. Dr. LaRoy has been appointed director of Livestock Sanitary Commission effective Sept. 1.

Contract for just under a million to air condition the House and Senate chambers has been announced by the building commission. Low bid was less than a year's delay in the cooling system for the session. New contracts for the purchase of 400 state vehicles will be awarded this week, according to the Dept. of Transportation.

Wheat Varieties Selected for Discount in 1958 Program

eties of hard red winter wheats, the type most commonly grown in Texas, are on the list. They are Blue Jacket, Chiefkan, Early Blackhull, Kanking, Redchief and Red Jacket. Others listed are soft red winter, hard red spring, durum and white wheat varieties. Local county agents, adds Hodges, have a complete list of the undesirable varieties.

The designated varieties were found to be undesirable for commercial food use. The discount was adopted three years ago in the support operation to discourage the planting of undesirable wheat varieties and lessen the

possibilities of U. S. wheat of inferior quality getting into domestic and export channels. Representatives of crop improvement associations have strongly urged the action to help improve the quality of the nation's wheat crop.

The price-support regulations for 1958 will provide for producer certification regarding the undesirable varieties. Because these varieties are difficult to determine from threshed samples of wheat, it will be the producer's responsibility, based on his knowledge of varieties seeded and harvested, to identify the variety going under the price support program.

Hodges points out that some of the undesirable varieties might

I've had a lot of calls lately on freezing black-eyed peas. Remember, they should be blanched before freezing. To blanch them, place them in boiling water 3-5 minutes and then after removing them from the boiling water, chill them immediately and thoroughly in ice cold water. Drain the peas, then package and freeze them immediately.

I've also had a number of calls on canning peaches.

Wash the peaches and remove the skins. Dipping the fruit in boiling water, then quickly in cold water makes peeling easier. Cut peaches in halves, remove the pits and slice if desired. To prevent the fruit from darkening during preparation, drop it into water containing 2 tablespoons each of salt and vinegar per gallon. Drain just before packing. Pack raw fruit to one-half inch of top. Cover with boiling syrup, leaving half inch top space. Seal jars and process in boiling water bath 25 minutes for pints and 30 minutes for quarts. You may use your pressure canner for the water bath. Fill with enough water to cover to top of the jars, 1 1/2-2 inches. Place lid on but do not tighten it and be sure and leave petcock open.

To make a medium sugar syrup combine 3 cups of sugar with 4 cups of water and boil 5 minutes.

On the basis of his accomplishments in four and a half years, George Humphrey rates a high place among the outstanding men who have served as Secretary of the Treasury.

Now that he has retired, it is appropriate to review some of the many accomplishments of the Treasury Department during the period in which Humphrey served as Secretary.

Humphrey was, and is, a highly successful business man. He is a wealthy man who accepted a high government post because of a sense of public duty rather than for personal gain.

He was criticized when he accepted the Cabinet nomination because of his "big business" connections. He never entirely escaped that criticism during his term in office, but he did not permit it to affect his judgment or pur-

pose.

Government itself is big business, the biggest in the world. Humphrey applied business methods to government financing, with remarkable success.

In January, 1953, the government faced these fiscal and economic problems:

A Federal debt equalling 89 per cent of our annual national income; a budget deficit of \$9.4 billion for fiscal 1953 and a planned deficit of \$9.9 billion in fiscal 1954; a spiral of mounting government debt and inflation.

To meet these problems, President Eisenhower set as an "immediate task" for the Treasury Department the charting of a fiscal and economic policy that would place the government on a sound financial basis.

The record is, to a large extent, a testimonial to the untiring efforts of George Humphrey. The planned 1954 budget deficit of \$9.9 billion was reduced to \$3.1 billion.

By fiscal 1956, just two years later, the budget was balanced and a surplus of \$1.6 billion was attained. The 1957 fiscal year saw another surplus, and for 1958, prospects are for the third successive surplus for the first time

in 25 years.

Economies were effected in defense cost, while our defensive strength increased. Starting with a 1953 fiscal year defense budget of \$50.4 billion, the amount was reduced to \$41 billion in fiscal 1957.

During the past two years, \$3.8 billion has been applied toward reducing the huge national debt.

Starting in 1954, the Nation's antiquated tax laws were reorganized to make possible the greatest single tax cut in history, some \$7.4 billion. Another tax reduction in 1958 now is regarded as possible.

Other accomplishments include abolition of controls over wages, prices and materials; elimination of some 500 government activities competing with private business, and vigorous action to prevent monopolies.

Rep. Richard Simpson, Pennsylvania, in commenting on Humphrey, said: "All Americans will benefit as a result of the policies he pursued. We are most fortunate to have had him in Washington."

Crowell Invited to Attend Meeting at Archer City

Every town in the 26-county area in Oklahoma and Texas that comprise the North Texas and Southern Oklahoma development association is anxious to bring industry to your town.

John Crow of Electra, president of the organization states that his organization is endeavoring to schedule programs that will benefit the membership. The organization's last meeting held in Waurika was reported to have been the best in the organization's history. They had members from the Texas and Oklahoma highway commissions, who talked on the roads of the two states.

Monday, August 19, at 10 a. m., the association will meet at the American Legion hall in Archer City and will have two outstanding speakers on the subject of "Industrial Opportunities."

Lee Paine, industrial economist with the Texas engineering experiment station, Texas A&M College, and C. W. Ferguson, acting regional director for the small business administration with headquarters in Dallas.

Crow states that this is an opportunity for every town in the area to find out what industry requires.

A large attendance is expected.

In The News . . . 30 YEARS AGO

News items below were taken from the issue of The Foard County News of Friday, August 19, 1926:

Mrs. Jim Kidd of Bristow, Okla., has been here visiting her niece, Mrs. E. A. Dunagan.

Rev. Paul J. Merrill of Corsicana, a former pastor of the Christian Church here, was in Crowell Wednesday on business.

Subscriptions to movement to organize a country club, buy land, build a golf course and provide a swimming pool have reached 28.

A big rain fell in Crowell Saturday afternoon from 4 till 5, measuring 3 inches by the gauge at the First State Bank.

Some time Monday morning the safe of Haney-Rasor Grocery was robbed of \$93 in currency. The outer door to the safe was unlocked but the key to the mid-way chamber was in the door and the thief simply turned the key, opened the door and took the currency.

Interest continues to center about the Fain-McGaha well on the Matthews place north of Thalia, but little is known except that the well is being drilled deeper and is now at 1800 feet.

It is estimated that there is \$150,000 worth of buildings under construction in Crowell at present, including many dwellings and the new school building.

Miss Winnie Sentiff of Decatur, Ala., is in the city for an extended visit with her sister, Mrs. H. Schindler.

W. B. Wheeler and family moved to Austin last week where they expect to make their home indefinitely.

Miss Louise Pechacek returned last Wednesday from South Texas where she has been visiting.

Mrs. Walter Shultz is here with her parents, Mr. and Mrs. I. M. Cates, after having undergone an operation at Vernon several weeks ago.

A. Mulry of Royce City spent Tuesday night with Mr. and Mrs. J. R. Merriman, who reside south of town.

Red Cross Spends \$55,227 in Helping Silverton Victims

St. Louis, Mo.—The American National Red Cross has spent a total of \$55,227 in Briscoe County, Texas, in relieving distress and suffering and in assisting families to resume a normal way of life. This figure was released this week by Palmer Simpson, director of Disaster Services, Midwestern Area Office, American National Red Cross.

The largest portion of the money, according to the final breakdown—released by Simpson, went for medical and nursing costs—\$24,055. Other needs met by the organization and accounting for large sums include: home furnishings, \$10,192; building and repair of structures hit by the tornado, \$8,540; occupational supplies and equipment where needed to provide sole income of affected families, \$3,819; food, clothing and maintenance, \$1,482; emergency mass care, \$900; and other needs which accounted for the balance of the total.

It is not unusual in a disaster of this type for the medical expense to be high. Because of death and serious injuries resulting, often times it necessitates Red Cross expenditures over a prolonged period of time, Simpson said. Although the public often thinks of Red Cross as providing emergency care which is true, rebuilding and other operations termed "rehabilitation" usually account for about 80 per cent of total costs to the organization.

It was pointed out that the assistance given by Red Cross at Silverton was an outright gift from the American people who have contributed to the organization across the country. "None of the money given to the Silverton Relief Fund was turned over to Red Cross," Simpson stated.

The final Red Cross report shows that 46 persons were injured at Silverton, in addition to the 20 killed, 30 homes were destroyed and 42 homes were damaged.

Ag. Economist Reviews Price Situation in Texas

Most phases of agriculture to be holding their own, but prices are concerned and will continue to do so the remainder of 1957.

Marketings of most animals and the levels of last summer, except for grass cattle will be a little drop is in sight, except for hogs. Hog slaughter will continue below the 1956 level until later in the year. Steady to stronger prices are prospect for fed cattle during next few months, says the economist.

Prices of lower grades of wool will decline seasonally, says the economist, they are supported by a strong demand for feed replacements and should remain at a higher level than last year.

Hog prices will probably time above a year earlier, but the rest of the summer and fall. However, there is a possibility that prices at the end of the year may be a little higher than last year, says the economist.

Lamb prices this fall may be higher than last year, says the economist. Egg prices should begin to increase. By late summer, prices are likely to be a year earlier.

Indications point to a crop of about 971 million bushels in 1957—only 3 per cent over last year. Stocks of cotton held by the Commodity Credit Corporation or held as collateral are smallest since October 1956.

TEXAS TECH COACHES—Among the former standout college footballers now coaching the Texas Tech Red Raiders are (in front) Beattie Feathers (Tennessee), left, and DeWitt Weaver (Tennessee), head coach and athletic director, and (second row, from the left) Joe Moss (Maryland), Tom Hamm (Tulsa), Red Phillips (Texas Tech), Bud Sherrod (Tennessee), and Junior Arterburn (Texas Tech).

License Under New Egg Law Explained

The Texas Egg Law, which becomes effective August 22, provides that no person can buy or sell eggs within this state for subsequent resale without first obtaining a license from the Commissioner of Agriculture.

The exception to this, says F. Z. Boanblossom, extension poultry marketing specialist, are those who sell from their own flock and claim no grade; hatcheries which buy eggs for hatching; public eating places where all eggs purchased are served by the establishment; food manufacturers purchasing eggs to be used only in their products; agents employed and carried on the payroll on a salary basis; and any retailer, as defined by law—that is, any person selling or offering for sale, eggs to consumers in this state.

In order to create a fund for the enforcement of the provisions of this act, each licensee shall pay a license fee. The annual fee for dealers, wholesalers, and processors shall be determined according to the average weekly volume of the month in which the licensee handled the most eggs in the preceding twelve months ending on May 31. The proceeds of such license fees shall be paid into the State Treasury by the Commissioner of Agriculture in a fund known as the Egg Law Enforcement Fund.

The deadline for obtaining licenses is October 20. Actual enforcement of the law will start February 17, 1958.

A Soil Test Will Aid in Soil Building

Crops trying to grow on mineral deficient soils are like people on a strict diet—they get hungry.

Now, it may be practical for an overweight person to go on a diet to reduce, but no one wants to reduce his crop production. Yet, that is exactly what happens to crops that are grown on soil that is lacking in minerals, warns W. F. Bennett, extension agricultural chemist.

But the crops are not the only things that suffer from this condition, says the chemist. These sick crops cause mineral hunger in livestock. This produces poor livestock, giving poor gains and poor stock products—it even tends to promote livestock disease.

Mineral hungry crops and livestock produce food that may cause a deficiency in our own body, says Bennett.

The average man has about three pounds of calcium (lime-stone) in his body. Children need lime for strong bones and good teeth. These strength-providing minerals are important to the human body.

So, the chemist advises fertilizing for more and better crops that will produce more and better livestock. Limestone, in some areas, is especially needed now to offset the leaching that resulted from the hard rains of April and May. A soil test should be made to determine the exact needs.

Soil that is well supplied with minerals—especially calcium and

Crop Reporting Board Forecasts Light Cotton Crop

The Crop Reporting Board has forecast a 1957 cotton crop of 11,897,000 bales—11 per cent less than last year's crop of 13,310,000 bales and compares with the 1946-55 average of 13,669,000. An average loan rate of 28.81 cents a pound, basing Middling 7/8, was also announced.

Handicapped by unfavorable early season weather, crops made an exceptionally good response to favorable late June and July weather. However, lateness of crop in northern areas of Central Belt, Oklahoma and Northwest Texas, which was only partially overcome, remains the limiting factor.

The expected yield per acre for the U. S. of 416 pounds per acre is only one pound less than the 1955 record high and compares with the 1946-55 average of 300 pounds. Record-high yields are expected in Georgia, Texas, Arizona and California with better than average yields in other states.

The average loan rate of 28.81 cents for middling upland cotton is an increase of 0.66 cents above the advance "minimum" rate announced last winter. This final rate reflects 78 per cent parity price of 36.93 cents a pound for upland cotton as of August 1, 1957.

Lower Pease River S. C. D. Winner in National Contest

Texas' three champion soil conservation districts for 1956-57 and six individuals selected for their outstanding work in soil and water conservation were named in Akron, Ohio, this week by Goodyear Tire & Rubber Co., sponsor of a national soil conservation awards program.

First place district honors go to Lower Pease River district, representing the northern area of the state; to Dimmit County district, representing the southern area, and to Paso-Hudspeth district, representing West Texas.

Joe Graham of Chillicothe was named by the Lower Pease River district governing body as the outstanding farmer-cooperator, and W. C. Howard of Quanah was nominated to receive the governing body individual member award.

These men, in addition to the winners of the other two districts, will be guests of the program sponsor on a vacation trip to Wigwam guest resort and Goodyear Farms, Litchfield Park, Ariz., next November, as part of the grand award.

The three winning districts and the six individual winners also will be presented bronze plaques symbolic of their achievements. Presentation of the plaques usually is made at annual meeting of the state association of soil conservation districts.

Competing districts in the annual conservation program are judged on their activities in organization, education, planning, promotion and accomplishment in the fields of soil and water conservation. Period of the contest was May 1, 1956 to April 30, 1957.

Judges who selected Texas' winners were: Grady Halbert, chairman, a district supervisor in Crowell; Herbert Byers, a district supervisor in Celeste; and A. V. Morrison, a district supervisor in Garland.

Mrs. Clara Schroeder of Riverside has received a letter from Mrs. Florence H. Jensen, National President of the Supreme Forest Woodmen Circle of Omaha, Nebr., asking that she, Mrs. Schroeder, serve on the finance committee.

National Secretary Miss Louise Patrick will serve as chairman of this finance committee. The meeting of the committees will be in Washington in November.

Mrs. Schroeder is a member of the Vernon Woodman Circle.

Lower Pease River S. C. D. Winner in National Contest

Texas' three champion soil conservation districts for 1956-57 and six individuals selected for their outstanding work in soil and water conservation were named in Akron, Ohio, this week by Goodyear Tire & Rubber Co., sponsor of a national soil conservation awards program.

First place district honors go to Lower Pease River district, representing the northern area of the state; to Dimmit County district, representing the southern area, and to Paso-Hudspeth district, representing West Texas.

Joe Graham of Chillicothe was named by the Lower Pease River district governing body as the outstanding farmer-cooperator, and W. C. Howard of Quanah was nominated to receive the governing body individual member award.

These men, in addition to the winners of the other two districts, will be guests of the program sponsor on a vacation trip to Wigwam guest resort and Goodyear Farms, Litchfield Park, Ariz., next November, as part of the grand award.

The three winning districts and the six individual winners also will be presented bronze plaques symbolic of their achievements. Presentation of the plaques usually is made at annual meeting of the state association of soil conservation districts.

Competing districts in the annual conservation program are judged on their activities in organization, education, planning, promotion and accomplishment in the fields of soil and water conservation. Period of the contest was May 1, 1956 to April 30, 1957.

Judges who selected Texas' winners were: Grady Halbert, chairman, a district supervisor in Crowell; Herbert Byers, a district supervisor in Celeste; and A. V. Morrison, a district supervisor in Garland.

Mrs. Clara Schroeder of Riverside has received a letter from Mrs. Florence H. Jensen, National President of the Supreme Forest Woodmen Circle of Omaha, Nebr., asking that she, Mrs. Schroeder, serve on the finance committee.

National Secretary Miss Louise Patrick will serve as chairman of this finance committee. The meeting of the committees will be in Washington in November.

Mrs. Schroeder is a member of the Vernon Woodman Circle.

Polk Robison, whose Texas Tech basketball team makes its debut in Southwest Conference play in 1957-58, has compiled a 97-55 record against Border Conference schools.

Soil Conservation News of District

Lower Pease River Soil Conservation District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

Now is the time to seed alfalfa. Alfalfa is a long lived legume, adapted to practically all cultivated soils in the Lower Pease River Soil Conservation District. This legume is an excellent soil builder, provides a good protective cover for the land and furnishes top quality forage for livestock.

Alfalfa should be seeded on a trashy, firm seedbed at the rate of about 10 to 15 pounds per acre broadcast on tight land, or 15 to 20 pounds per acre on sandy land. When alfalfa is to be seeded on land subject to blowing, a nurse crop such as sudan or grain sorghum can be seeded along with it. Do not use a nurse crop that will not be killed by frost.

As with other legumes, alfalfa seed should be inoculated with the proper inoculant before they are planted.

Competing districts in the annual conservation program are judged on their activities in organization, education, planning, promotion and accomplishment in the fields of soil and water conservation. Period of the contest was May 1, 1956 to April 30, 1957.

Judges who selected Texas' winners were: Grady Halbert, chairman, a district supervisor in Crowell; Herbert Byers, a district supervisor in Celeste; and A. V. Morrison, a district supervisor in Garland.

Highway Patrolmen Stop 3,207 Traffic Law Violators

Patrolmen of the Wichita Falls District of the Texas Highway Patrol contacted a total of 3,207 traffic law violators during the month of July. Captain K. B. Hallmark Jr., commanding officer, reported that 782 of these were arrested while 2,425 were reported for violation of the state traffic laws.

Speed was the leading cause of arrest, with passing violations second and defective equipment ranking third.

Counties included in the Wichita Falls district are: Archer, Baylor, Clay, Cottle, Foard, Hardeman, King, Knox, Montague, Wichita, Willbarger and Young.

News from the Congress

by Congressman Frank Ikard

This week saw approval in the House of the last major appropriation bill which was the foreign aid program for next year. The debate on this question was unusually heated on account of the fact that the President had delivered an ultimatum to Congress that unless the appropriations were in line with his request, that he would call Congress into a special session this Fall to provide additional money. In spite of this action on the part of the President, the bill as it finally passed the House was over \$800 million below the amount that had been previously authorized by the Congress and about \$1.3 billion below what had been requested by the President. The program was reduced about one-third below the figure the President had

recommended. This bill had to be approved by the House but all indications are that action taken in the House need for a special session of Congress to deal with foreign aid while it does not appear there will actually be any change of funds available for the foreign aid program. If this be the case, Congress could well meet the deficiency needs when it is in regular session. Since it is now anticipated Congress will adjourn sometime not later than the 1st of September, this will be the last of regular reports that I will do to you. Just as soon as Congress adjourns, I expect to return home and to be in the district fall. It is my intention to visit every county in the 13th Congressional District. This year State Legislature re-arranged Congressional Districts and added four counties to the 13th District. These new counties are Haskell, King, Kenton and Stonefall.

"There is no politics in heaven," says an evangelist. Of course there isn't. There can't be any politics where there aren't any politicians. — Mount Pleasant, Pa., Journal.

YARBOROUGH GREET TEXAS STATE DELEGATES

Texas' delegates to the American Legion Auxiliary sponsored Girls' Nation, Diana Duke (left center) and Elizabeth Anne Hodges (right center), are flanked by Senator and Mrs. Ralph Yarborough on the steps of the Capitol in Washington, D. C. The Texas lasses were recent delegates to the national convention at nearby College Park, Maryland. Diana, who was appointed to the cabinet rank of Secretary of the Treasurer, is the daughter of Mr. and Mrs. O. L. Duke, 408 2nd St., Sanderson, Texas. Elizabeth Anne is the daughter of Mr. and Mrs. J. G. Hodges, 1515 Sauer St., Dallas. Senator Yarborough, who is a member of Travis Post 76 of the American Legion, and Mrs. Yarborough entertained the girls while they visited the Capitol.

LET'S TALK LIVESTOCK BY TED GOULDY

Supplies of livestock showed moderate increases at Fort Worth and all around the major marketing circle Monday.

Slaughter steers were very slow. A few early sales were steady, but most bids and sales were 25 to 50 cents off and clearance was incomplete at the noon hour.

Cows were active and steady to strong, spots 25 to 50 cents higher and canners and cutters selling to the better advantage. Bulls were unchanged.

Stockers and feeders were steady. Slaughter calves were

mostly steady, some sales of the in-between grades were steady to weaker by the time a clearance was complete.

Good and choice slaughter steers and yearlings cashed at \$20 to \$25.25, two loads of 1,056-pound steers at the higher figure. Common and medium offerings cashed at \$13 to \$19.

Fat cows cashed at \$12.50 to \$15, and canners and cutters sold from \$8 to \$12.50. Bulls drew mostly \$10 to \$15. Good and choice slaughter calves sold from \$18.50 to \$22.23, and common and medium sorts sold from \$13 to \$18. Culls sold from \$10 to \$13.

Good and choice stocker steer calves sold from \$20 to \$23.50, and common and medium grade stockers sold from \$14 to \$19.

Stocker steer yearlings of the better kind sold around \$20 to \$21, and lower grades cashed at \$14 to \$18. Stocker heifers and stocker heifer calves ranged from \$2 to \$3 under comparable steers. A few replacement cows sold from \$13.50 down.

Hogs were steady to 25 cents above the low close last week. Choice hogs topped at \$21.25 to \$21.50, and medium to good kinds sold from \$18 to \$21. Sows sold from \$19.50 downward.

Sheep and lambs ruled about steady, quality considered. Good to low choice slaughter lambs cashed at \$20 to \$21.50, and some clipped lambs cashed at \$20 downward. Cull to medium lambs sold from \$14 to \$19. Stocker and feeder lambs cashed at \$16 to \$18. Good to choice slaughter yearlings sold from \$17 to \$18.50, and cull to medium yearlings sold from \$12 to \$16.

Slaughter ewes sold from \$7.50 to \$8.50. Old bucks drew \$5 to \$6. Aged wethers sold from \$14.50 downward. Some solid mouthed ewes sold as stockers at \$12 to \$14. A few yearling ewes sold around \$16.50. Shorn Angora wether goats cashed at \$5 to \$5.50.

The offering of cattle and calves in the special Hereford Stocker and Feeder Sale at Fort Worth August 16 was an accurate picture of the general situa-

tion. Stocker cattle and calves are scarce, at this time, and carrying some flesh. They are also worth a lot of money.

There were only 515 head in the sale and these sold for \$60,053.34 and averaged \$116.41 per head straight across. The cattle were judged by George Glasscock of Cresson and Tommy Humphries of Graford. The sale was jointly staged by the Texas Hereford Association and the Market Institute.

MIRACLE OF SIGHT

Austin, Tex.—A man came into A. J. Bishop's dry cleaning shop, asked for his suit, then asked Bishop to confirm the color. "I don't see well," the customer explained. "Will you take your money from this bill." Bishop did and handed him the change. Turning, the man fumbled for the doorknob, stepped outside and walked to a car. Feeling for the
