The harvesting of sweet potatoes has begun and all are making a fair yield where they were irrigated. Those not irrigated will not make a large yield. R. L. Rhey's potatoes are making around four hundred bushels of all kinds of potatoes, the No. 1's and No. 2's and the hog and cow feed. This feed will make as much as most of the crops of the same acreage. Several others will make a good yield or nearly as much as Mr. Rhey.

This community is over-run with cotton pickers. We think one-half of the cotton is gathered. Four hundred and six bales were ginned here last week, making between 700 and 800 bales for the season so far, and the gin is running day and night.

Give the Cows a Real Chance

By T. C. RICHARDSON, Associate Editor Farm and Ranch, Breeder-Feeder Association

Most of the four-gallon cows are found in the classified "For Sale" columns of the daily and weekly newspapers. There's many a potential four-gallon cow growing up on Southwestern farms but a four-gallon cow is only a two-gallon cow when she is given the feed material from which to manufacture only two gallons. We have wonderful sunshine, and a balmy climate in the Southwest, as compared with, say New York, Michigan or Wisconsin. But sunshine doesn't fill the milk pail, any more than moonshine does. It takes food and water, plenty of it at the right time, to bring out all the milk-making faculties of the cow, here or in the north.

Once a year on July 1 the Department of Agriculture asks its thousands of volunteer crop reporters—mostly farmers—throughout the country to report the average daily production of their cows. This date in the Southwest is in the heat of mid-summer, and after the flush milk flow of early summer has declined, while in the northern states the season corresponds more nearly to our May. The figures therefore are somewhat weighted in favor of the northerly states.

The sad fact remains, however, that (with the sole exception of Mississippi) Texas and Arkansas stand at the foot of the class in daily production per cow, with 10.7 pounds. Even South Carolina beats this by a fraction. Oklahoma heads the class in the Southwest with 14.1 pounds daily per cow, or about six and a half quarts. The most significant point is that Oklahoma has raised her average about a quart per cow during the past few years, while Texas and Arkansas have raised their average daily production only half a pound, or less than a pint per cow, during the same period.

Maybe we shouldn't expect to stand up by the side of Minnesota, (23.0 pounds), Wisconsin (22.5 pounds), New York (21.4 pounds) or Oregon (20.3 pounds), but there's something radically wrong when we fall so far below North Dakota (19.7 pounds), South Dakota (16.9 pounds), and Kansas (15.7 pounds).

Don't blame it on Old Bossy until you give her a chance to "do her stuff." We have some pretty poor cows in the Southwest, but we also have a high percentage with good Jersey blood, and we have some as good as the best anywhere in the United States. But we have been much more negligent in feeding than in breeding. The majority

**What We Think**  
 (By Frank Dixon)

I believe the failure of the last Congress to amend the neutrality act as they were asked by the administration to do, was a tragic error.

In my opinion it was the deciding factor that prompted Hitler to strike against Poland at that particular time. I do not believe, except for this, that Hitler would have attempted an invasion of Poland at this time.

As soon as the action of Congress became known Hitler concluded a non-aggression pact with Russia.

He was then ready to strike. The amendment that Congress was asked to make would have permitted England and France to come to the United States with their own ships, buy munitions and transport them to Europe.

The law as it now stands prohibits this and plays directly into Hitler's hands, making in a sense, the United States his ally, not actively, of course, but in effect, his ally.

Hitler is well supplied with all the munitions of war because he has devoted the resources of Germany to this purpose for years. On the other hand France and England, due to their lack of munitions, planes, etc., can't hold out against Germany, and even if they do, the war will be long drawn out and waged at a much greater and more exhaustive cost than would have been the case if these countries were permitted to draw on this country for supplies.

I predict that public opinion is going to force Congress to amend the neutrality act as they were requested to do by President Roosevelt, that it will permit France and England to buy supplies from this country.

I think in this instance one may as well be honest and frank, rare though such a position may be in time of war. We do not want to become involved, and should if at all possible keep from becoming involved, but if we sit still in this country and sing ourselves to sleep in our fancied security, we may awake up one of these fine mornings and find the democracies of Europe gone, crushed by the dictators.

We should remember that this is not a fight to recover the narrow strip of land worth a few dollars and known as the Polish Corridor, nor is it a move merely to subjugate Poland. It is far from this. It is the next definite, and carefully planned, step of a dictator toward world domination—and world domination will not end in Europe.

Blindly ignoring the facts is not going to alter the situation. This country has an important decision before it, the most important it has ever faced—a decision that should be faced intelligently and with courage rather than with willful wishing and weakness. The neutrality act must be amended.

Constant advertising each week, backed up by modern merchandising methods and intelligent buying are the simple formula upon which nine-tenths of the mercantile successes of this country have been built.

If you are rich the world says you are greedy and are a slave driver to your help. If you are broke and have nothing the world has no use for you and says you are no good. It's just a big job, this pleasing the world.

Poland is about half the size of Texas. Poland is an agricultural nation and has never followed the policy of using her resources for war purposes. She is at a disadvantage in a war with a nation like Germany who has dedicated most of her resources to this purpose.

It has been suggested that a quick and sure way to end most of the labor troubles in the country would be to cut the salary of John Lewis and his lieutenants and put them on the same living basis as those who pay them tribute.

 realize that our search will be in vain unless we meet, with spiritual forces, the materialism which has such disastrous effect on our national and international life.

I am gratified to learn that the nation-wide observance of Loyalty Day by our churches at synagogues, September thirtieth and October first, to bring the minds and hearts of men back to consciousness of the fatherhood of God, the brotherhood of man and the sanctions of religion, in services of worship and rededication to these ideals. Upon them alone can the structure of our civilization rest in security and confidence.

In harmony with the above the local Methodist Church has designated the month of October as Loyalty Day, according to announcement made Sunday by the pastor, Rev. E. L. Yeats. Crowell citizens are urged to use these Sundays in October as days of worship, days of church attendance, days free from commercial life.

Use the entire day for a moral uplift and profit. Attend Sunday School; church, morning and evening, and all the religious services of the day.

Let every member in all churches be accounted for. Set aside October for Loyalty month.

**Matador Game—**

(Continued from Page One)

Wildcats in trouble throughout the opening period. The Wildcats were able to penetrate only to the Matador 38-yard line during this quarter while the Matadors took advantage of a couple of breaks to camp on the Crowell 25-yard marker, but the Bullfighters were unable to get away with a play that looked like a scoring threat.

**Orr Scores First**

In the second quarter, the Wildcats stiffened and launched an attack, backed by strong defensive play, that completely bewildered the Matadors. Taking the ball on their own 20-yard line after a punt returned by Gibson, the Wildcats started for the goal line and nine plays later Orr crashed over for the first score of the season and gave his team a 6-0 lead.

**Aerial Clicks**

Later in the quarter, a series of running plays, originating on the Matador 48, carried the ball down to the Bullfighters' 17. Orr shot a short pass to Canup for a touchdown but the play was called back and Crowders penalized 15 yards for holding. On the next play, Orr again threw a short pass to Canup who ran the remaining 20 yards to register the Wildcats' second score. Shortly afterward the half ended with the Wildcats leading, 12-0.

**Orr Races 51 Yards**

Early in the second half, Meason intercepted a Matador pass and returned it 15 yards to midfield. Orr pushed it on to the Matador 40, but a penalty and a fumble set the Wildcats back on their own 49 and Meason put the Bullfighters into a hole by punting over the goal line. The Matadors promptly punted back and the Crowell boys put the ball in play on the same line they had punted from, the Crowell 49. On the following play, Orr tickled the pignose under his arm and, behind a screen of blockers, circled right end to tread his way through a broken field to the goal line 51 yards away. Canup added the extra point with a placekick to set the score at 19-0 in Crowell's favor.

**Pass Nets Touchdown**

Matador took Fitzgerald's out-of-bounds kick, which followed the touchdown, on its own 35. After failing to gain on two plays, the Bullfighters punted and Crowell started toward the goal line from its own 35. Meason picked up 5 and then took a short pass from Orr for 4. Again Meason took a short pass from Orr and sped to the Matador 21 before being stopped. A Matador penalty and a line play took the ball to the 8. Nelson intercepted Orr's pass behind the goal line and brought the ball out to the 8.

On the first play, Matador punted and the Wildcats launched a push for pay dirt from the Matador 38. A pass, Orr to Canup, and an end run by Meason placed the ball on the 18 as the period ended.

Coach Graves put A. Y. Olds into the game during the quarter intermission, replacing Orr at Quarterback, and Olds, on the first play of the final period, shot a pass to Dick Smith for Crowell's last touchdown. Canup booted the ball over the cross-bar for an extra point.

**Subs Go Into Game**

At this point of the game, before the last quarter was a minute old, Coach Graves sent in his entire second string, with the exception of Orr who remained to call signals, and sent his regulars to the showers.

During this period, the Bullfighters scored their two touchdowns, but by no means did they "run over" the second string Wildcats. It was only on three plays, two of which netted touchdowns, did the Matadors really outclass the understudies.

The first of the Matador scores came about the middle of the quarter when Allsup slipped through right tackle to break into the clear and run to the Crowell 14 where he was downed hard by H. C. Brown. The touchdown came on the next play when Simpson caught Day's pass over the goal line. Berryman added the extra point from placement.

Six plays after the kick off, Matador's speedster, Allsup, found an opening at right tackle, reversed the field and raced 59 yards for the second touchdown. The try for extra point failed.

Brown took the kick off on the Crowell 15 and returned the ball to the Crowell 40. Seven plays later Orr circled left end for 25 yards to put the ball on the Matador 30-yard line. The final whistle stopped what was labeled a touchdown drive at that point.

**15 Years Ago**

The items below were taken in whole or in part from the issue of The Foard County News of Sept. 23, 1924.

**School to Start**  
 The Thalia school will be open in the new \$40,000 school building Monday, Sept. 29. The building is not being completed so early as was first anticipated but it is said that it will be ready on the date named above.

**"Melting Pot" Staff Elected**  
 The annual staff for the 1923 "Melting Pot" was elected Tuesday. It consisted of the following: Bevie Jewel Ringgold, business manager; Ola Carter, assistant business manager; Mildred Cogdell, editor-in-chief; Althea Saunders, joke editor; Kaola McDaniell, kodak editor; Mildred Nicholson, art editor; Jesse Brown, athletic editor; Fred Kimsey, associate editor; Nona Owens, literary editor.

**Do Times Change?**  
 There are more than 1200 cars in Foard County and of this number a big per cent of them are mortgaged, possibly most of them, for the purchase price. It would require more time than a busy person has to run the record, but in all probability if one were to take the time he would find that not less than \$74,000 is on the record against cars in Foard County.

**Odd Fellows to Vernon**  
 A car of Odd Fellows went over to Vernon Monday night to attend a meeting of the Vernon lodge at which time one of the interesting features was a mock trial. Those attending were W. F. Kirkpatrick, W. W. Griffith, O. Hollingsworth and R. D. Oswalt.

**Pleased With Foard**  
 S. M. Johnson, General Director of Lee Highway Association, is pleased with the manner in which Foard County people have cooperated with him in pushing the interests of the highway, and he is pleased to know that Crowell is to have a park.

**Defense Day Program**  
 Friday afternoon for one hour, commencing at 3 o'clock, a hurriedly prepared program was rendered in front of the court house, the occasion being National Defense Day.

## Home Game—

(Continued from Page One)

ling as eight fumbles last Friday greatly hampered the Crowell attack and pains are being taken to lessen these errors. The passers received their share of the work at throwing to their receivers.

Having received warning from the Paducah-Tulia game that the Dragons are dangerous in the air, Coach Graves is getting set for a passing barrage that is sure to come. In Mobrey, back, Paducah has one of the finest passers in this section.

Most of the workouts this week have dealt with offensive play, but Coach Graves is not forgetting Paducah's crashing running attack and has been pushing plans for the line to stop the opposing backs.

**Probable Starters**

In the end positions Friday night, Crowell will have Co-Captain Wayne Canup, all-district end who is playing a caliber of football that should win him the honor again, and Dick Smith, fast 200-pounder, who is competent as a pass receiver and who has possibilities of being an outstanding defensive wingman. The tackles will be Oran Johnson, remembered from last season as one of Crowell's most powerful linemen, and Charlie Clark, last year's squadman who is doing a good job of filling an all-district tackle's shoes.

In possibly the most important line positions, the guards are Murphy, Solis, and Frank Dunn, tough and scrappy footballers who will greatly aid Crowell's cause with their blocking. Jack Fitzgerald, all-district center and the district's outstanding pivot man last year, will be back in his old position and is one of the reasons for local fans' believing that the line will be very strong this year.

Providing his injured ankle is sufficiently healed, Orr will be in the quarterback slot and will do his share of the Wildcats' ball carrying. Co-Captain Que Meason, who was unable to get into the open last Friday but outstanding play, will be in the halfback position to give the backfield much strength. In the other halfback position will be a squadman from last year, Leroy Gibson, who turned in a good game last week, both offensively and defensively. At the fullback position will be Bill Ownbey whom Wildcat followers have been watching for some time and according to his past performance the fans will not be disappointed with him tomorrow night.

The probable starting line up for the Dragons is as follows: Thompson and Biddy, ends; Sanderson and Haymes, tackles; Sublett and Handley, guards; Lee, center; Mobley, quarterback; Whitney and Foster, halfbacks; Stamps, fullback.

Officials will be: John Smith, McMurry, referee; N. H. Mead, Arkansas, headlinesman; L. G. Cook, S. M. U., umpire.

## Applications for PWA Projects Are Returned to States

The Public Works Administration regional office in Fort Worth this week announced that it had completed the job of returning 586 applications for PWA financial assistance in building projects with an estimated cost of \$211,085,022 to applicants in seven states.

The applications were returned on orders of Federal Works Administrator John M. Carmody because no funds for additional PWA allotments were provided by Congress during its last session. Applicants were told that they were now free to make other arrangements if they desire to proceed with their projects.

The number of applications and the amount involved in each of the Fifth Region states is as follows: Arkansas, 22, \$1,417,176; Colorado, 32, \$14,200,032; Kansas, 55, \$10,945,965; Oklahoma, 75, \$36,269,227; and Texas, 262, \$110,975,208.

For the nation as a whole 5,043 applications for PWA funds are being returned. Total cost of the projects is estimated at \$1,748,832,977.

Most of the returned applications were filed in the summer of 1938 when the large construction program now being completed was begun. Although the returned applications did not receive allotments many of them had been passed on favorably by the PWA examining divisions.

## Knott's Cartoons to Be Shown at Fair

Dallas.—Two famous collections of John Knott's original cartoons will be featured in the Historical Exhibit in the Hall of State during the 1939 State Fair, Oct. 7 to 22, it has been announced here by Professor Herbert Gambrell, curator of exhibits at the Hall of State. All of the original of Knott's Cartoons on the World War which appeared in the Dallas News will be exhibited, as will a display of original cartoons he has done on the State Fair of Texas.

In addition to these famous cartoon collections, many other interesting historical exhibits will be displayed. Professor Gambrell, who is building an old-fashioned newspaper plant, said he might have some of the material gathered for this display on exhibit.

## Funeral Held—

here in November, 1914. Mrs. Boman had been a member of the Baptist Church for the past 44 years, having joined at Old Vinyard. She had lived a devoted Christian life until her death.

Nine children survive, two having preceded her in death, and are as follows: S. J. Boman of Margaret, Mrs. Vida Brant of Post, Mrs. J. W. Chancellor of Bowie, Mrs. C. O. Nichols of Crowell, Mrs. Inez Laird of Chicago, Ill., E. G. Boman of Vernon and O. R. Boman of Crowell. All were present for the funeral with the exception of Mrs. Laird.

Vernon people attending the funeral were, Mr. and Mrs. Claude Bilstene, Mr. and Mrs. Claude Price, Mr. and Mrs. Grady Price, Mr. and Mrs. E. M. Williams, Mrs. Ben Shook, Mr. and Mrs. Ross Shook, Mr. and Mrs. G. M. Beal, Mr. and Mrs. Ed Burksmith, Mrs. Henry Presley, Mr. and Mrs. James Ross, Mr. and Mrs. Luther Streit, Mr. and Mrs. Tom Benzley, Miss Scott, Mr. and Mrs. Oscar Pearson, and Mr. and Mrs. Davis Gomillion of Wichita Falls.

Bert Swor and a troupe of twelve will entertain audiences in the Palace of Foods at the State Fair, October 7 to 22. The famous blackface and his associates will present comedy, dancing and other acts. The Palace of Foods occupying 28,000 square feet of space will exhibit every purchasable edible. A feature will be a display of meat cuts sponsored by the National Livestock and Meat Board.

## Brief Bits of News From Here and There

A total of \$86,500 is offered in basic prizes to winners of the three events at the National Air Races held in Cleveland, Ohio, annually on the Labor Day weekend. In addition to basic prizes are a number of special prizes.

A unique industry conducted by Miss Martha Mitchell of New York is the 1001 Services, Inc. This company furnishes many types of services including shopping, buying theatre or other tickets, walking the dog, and breaking in new shoes. In the New York office is kept a file of foot size girls who will wear stiff, new shoes around homes or in the office for a day to break them in. The 1001 Services, Inc., has branch offices in eight cities.

1940 model automobiles have begun rolling off assembly lines. The public presentation of the new cars is scheduled for October 15-22 at the National Automobile Show in New York.

An idea of the big way in which big business does things may be gained from the fact that to produce its 1940 models of cars one automobile manufacturer spent in new tools and dies \$12,000,000.

In 1929 the United States sold to Argentina \$210,288,000 of manufactured goods. By 1938 this had dropped to \$86,479,000. The reason given is that these two countries operate on a trade treaty signed in 1855 which does not permit the shipment of Argentine farm products into this country.

Argentina has taken the position that if we won't buy her meat and corn she will not buy our manufactured products. As a result Germany and other countries have, by permitting shipments of food products from Argentina, been able to secure a large part of the business in manufactured products from Argentina. In an attempt to adjust this, a new trade agreement is being considered which will permit Argentina to ship certain food stuffs into this country and under which Argentina would agree to buy a certain amount of our manufactured products. The new treaty is bitterly opposed by the farm organizations of this country who feel that the American farmer should be permitted to supply these needs in this country and be protected the same as the manufacturer is protected with high tariffs which prevent the shipment of foreign made goods into this country.

A hearing will be held on October 16. A stormy time is predicted when the matter comes up for consideration in Congress.

### Extension Class to Be Organized in Quannah by Dr. Ezell

On Saturday morning, September 23, at the Quannah high school building at 10 o'clock, a meeting will be held by Dr. L. B. Ezell of Texas Technological College for the purpose of organizing an extension class and selecting a course in English, education, or psychology. It is important that all interested persons attend the organization meeting and vote on the subject and course to be offered. The work may be counted on Bachelor's and Master's degrees.

Two successful courses were conducted at Quannah by Dr. Ezell last year, attended by students from towns as distant as Bowie and Wichita Falls.

Several classes are already in progress. Evening meetings are held at Memphis on Mondays, Wellington on Tuesdays, Childress on Wednesdays, and Paducah on Thursdays. Students may still register for any of these classes, except at Memphis, where the junior high school building is used, all meetings are held in the respective high school buildings.

A STATEMENT OF FOX-WAY FOOD MARKET'S POLICY

The forces of market disturbance, fear and speculation are at work. Prices for some basic commodities have already gone up. Increases in retail prices on these items reflect the rise in wholesale cost, over which we have no control.

It is a fundamental Fox-Way policy to earn only a small profit on each sale. Fox-Way pledges that during the period of war emergency it will not change this policy; and that in the future, as heretofore, it will make every effort through improved methods to reduce distribution cost—the difference between what the farmer gets and the consumer pays. You will always be able to buy from Fox-Way at the lowest prices available at all times.

Consumers may assist materially in preventing unwarranted price increases by continuing their purchases on a normal scale. There are adequate supplies of foodstuffs for every American. Hysterical buying which strips retail and wholesale stocks creates artificial scarcity, which pushes prices to abnormal levels.

Machinery exists within the Government control production, storage and release of commodities, imports, exports, quotas and prices—if it should become necessary to employ these methods to protect the economic welfare of the country.

The Fox-Way further pledges complete co-operation with the governmental agencies and with farmer producers in all efforts to stabilize prices; discourage profiteering; and maintain orderly facilities for food distribution.

Presbyterian Church Regular services will be held at Presbyterian Church next Sunday, Sunday School at 10 a. m. and preaching at 11 a. m. You are cordially invited to worship with us. C. C. DOOLEY, Pastor.

Christian Science Services "Reality" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Sept. 24.

The Golden Text is: "Since the beginning of the world men have not heard, nor perceived by the ear, neither hath the eye seen, O God, beside thee, what he hath prepared for him that waiteth for him" (Isaiah 64:4).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead" (Romans 1:20).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Life, Truth, and Love are the realities of divine Science. They dawn in faith and glow full-orbed in spiritual understanding" (page 298).

Our Weekly Sermon

By the late Rev. James M. Gray, D. D., former president, Moody Bible Institute, Chicago.

The Present Value of Godliness Text—Godliness is profitable unto all things, having promise of the life that now is, and of that which is to come.—I Timothy 4:8. This text should be of peculiar interest to young people, for the apostle Paul is writing to young Timothy about athletics. He is advising him to avoid profane and silly fables, and "gymnize" himself in godliness. "Bodily exercise," he says, "profiteth a little, but godliness is profitable unto all things, having promise of the life that now is, and of that which is to come."

Most young people are thinking about "the life that now is." They admit the value of godliness so far as the future is concerned, but that seems far off. It is the present that concerns them, and if godliness can be of benefit to them now, they would like to know it. We pay a premium on a life insurance policy for many years in the hope of securing an annuity in old age, or we venture our capital in an investment with the expectation of an ultimate profit. But godliness is not like those things. It is more like a comfortable estate in the hands of a trustee, yielding a regular support; or a bonafide business which maintains the proprietor from the moment he engages in it. In other words, there is not a

INTERESTING FACTS OF THIS AND THAT

The name frankfurter as applied to the sausage used in hot dogs comes from the fact that it was invented by a butcher in Frankfurt, Germany. In the East hot dogs are the best selling sandwiches. In the South hamburgers are most popular, while in the West ham sandwiches are most commonly called for. Monkeys catch cold from afflicted humans who visit the zoo. Goiter not only affects human beings but domestic and wild animals and even fish and birds.

single want of our nature for which there is not a specific promise in the Bible ready to be made over to us if we comply with the simple and reasonable conditions. Is it food and raiment? "Seek ye first the kingdom of God and his righteousness, and all these things shall be added unto you." Is it counsel and direction in our daily affairs? "If any man lack wisdom, let him ask of God, who giveth to all men liberally, and upbraideth not." Is it support in old age and death? "My God shall supply all your needs according to his riches in glory by Christ Jesus."

But passing now from the testimony of the Bible, reflect on that from observation and experience. Take the question of health. The life insurance companies, just referred to, will tell you that they make special rates for those whose habits are supposed to be promoted by true godliness. Take the question of fortune. While it is not affirmed that the godly always become rich in this world's goods, yet they make better workmen, more judicious managers and clearer thinkers, all of which improves their financial status. "The blessing of the Lord, it maketh rich, and he addeth no sorrow with it."

Take the question of one's influence and standing among men. Does not the world respect and value a truly godly man? Would not the world rather deal with men who obey the laws of God than with those who disobey them? A truly godly man will not sell his vote, nor defraud a neighbor, nor deceive a friend. He will give full measure and weight, and
