## CROWELL WILDCATS OPEN GRID SEASON WITH BULLFIGHTERS AT MATADOR FRIDAY AT 3:30 P. M.

The Wildcats have five regulars lining up again this season and all material from which to pick lineups, however, the strength of the Crowell team is certain and untested.

The forward wall of the Wildcat eleven will be powerful again this year and local fans believe it will penetrate it for consistent gains.

Looking from the other side, the defense is yet some distance from the strength of the team. In practice, the ground back has not been running any smoothly because the new players have yet to pick up their feet with a natural ease.

The blocking of the guards and backs is still rough and unpolished and as yet a passer to replace Fitzgerald has not been developed, but John Lee and Wayne Camp, who are the most outstanding in the passing department, will carry the team.

Three hundred and eighty-one checks for payment of 1939 cotton subsidy have been received in the AAA office in Crowell since Sept. 5, according to figures released Wednesday afternoon.

There have been several groups of checks received since Sept. 5, and another bunch is expected to be received any day.

The total amount of the checks received to date is \$23,821.02.

## 1939 COTTON SUBSIDY CHECKS ARE DELIVERED

**When a Feller Really Needs a Friend**

Henry Armstrong's faithful terrier fairly exuded sympathy as he performed for his battered master in New York after he was shorn of his lightweight boxing title by Lou Ambrose. And **Henry** needed sympathy. He lost five rounds—and the championship—by hitting low. That's a record for championship bouts. Experts were agreed that Armstrong would have won the fight had he not lost the five rounds by fouls.

Clem Smith of San Antonio, Texas, commander-elect of Alamo Post No. 2 of the American Legion, declared it a "great victory for the Legion" when a Communist meeting was broken up in the municipal auditorium. A volley of rocks and the roars of a crowd of 5,000 broke up the session. The crowd, itself, was broken up by police and firemen, using tear gas and water.

**Two Minute Sermon**  
(By Thomas Hastwell)

He Is Punished Who Forgets God: When Uzziah became king of Judah he was but 16 years old. It so happened that he was surrounded by good advisors. Because of this the kingdom prospered and he grew in wealth and reputation. With the coming of wealth and power and recognition Uzziah lost his sense of values. He forgot that God had had a large part in his success. He forgot that it was through his care and oversight that a mere boy assumed the responsibility of the leadership of a great nation and ruled it wisely. He became obsessed with the idea that all of these things had come to him because of his own wisdom and genius. One day he went into the temple and attempted to burn incense—a privilege allowed only to priests. For his presumption God punished him by smiting him with the leprosy. How like many today. As long as they are struggling for success they are mindful of God's oversight, but when prosperity comes they forget God and take the credit for all the achievement to themselves. They cease to be humble and thankful and become proud, and selfish, and arrogant. God does not mark the faces of men and women with leprosy when they forget him today as he did in the days of Uzziah, but the marks that such forgetfulness leaves on the soul are no less ugly, unseen though they may be.

**YOUR HOROSCOPE**

September 11, 12, 13.—You are apt to be neurotic with imaginary ailments. You have high aims and above the ordinary ability. As a ruler of a court your decisions and opinions would be of great value. You have an unusually bright mind. You will succeed in any occupation requiring discrimination and keen judgment.

September 14, 15.—You would make a good lawyer or journalist. You have skill, are dependable and worthy of trust. You administer your responsibilities with greater fairness and prudence. You have a keen sense of taste in art and music. You like to give advice but dislike to accept it. You think your own viewpoint is always the best.

September 16, 17.—You like money but are thrifty and frugal. You want what is your own but nothing more. You are fond of active sports, of a contented mind, witty and fond of fun. You are always in line with reform movements but are aloof and hard to get acquainted with.

**What We Think**  
 (By Frank Dixon)

The developments in Europe the past few years and especially the past few weeks have brought most of the world to the conclusion that if peace is ever going to come to pass in Europe and the rest of the world something is going to have to be done with such unsocial disturbers as Hitler.

Periodically since his ascension into power he has sent out word through his controlled press that the German people were being imposed upon by this group and that group and that he is the chosen champion to right their wrongs and call a halt to the impositions and outrages against them.

That these charges have little or no foundation in fact but are trumped up purely to gain sympathy for himself and to build himself up as the savior of his people make little difference, because while this fact is well known to the outside world the German people are only permitted to read what Hitler desires they shall read, hear over the radio only what he desires they shall hear over the radio, and as far as possible, think what he would have them think.

He has made promises and broken them in the same breath. He has made treaties and violated them before the ink was yet dry upon them. He has made promises over the radio and repudiated them while his voice was yet sounding through the loud speaker. He has kept Europe in an uproar and hurled the entire world into the greatest race for armament it has ever known, causing it to use for this purpose funds that should be used in rebuilding the devastation of the last war.

Regardless of his protestations otherwise, Hitler has before him as a goal the subjugation of the entire world. He has said so in his book "Mein Kampf." As long as he lives he will work toward that end.

I do not believe there will ever be any peace in the world as long as Hitler and the things he stands for endure. Regardless of the demands that may be granted him now or in the future periodically he is going to rise up, rattle the saber, claim imposition by some weaker nation, and demand more and more territory. He will keep this up until he reaches a point of strength and resource and wealth that he no longer has to prey upon smaller nations but can make his demands upon the biggest and strongest nations.

I do not believe that the rest of the world should wait until this time comes. I believe that it has already waited too long. It has hung back because of honor and ethics which it has chosen to employ in dealing with one who does not know their meaning. We have been influenced by meekish sentiment too long. We should face reality before it is too late. The peace loving people of the world should arise and destroy once and for all, Hitlerism and all it stands for. Until this is done there can and will be no such thing as world peace or freedom from the constant threat of war.

Hitler is a mad dog loose in an otherwise peaceful society, and society owes itself certain obvious things for its own protection. It should not fail this responsibility—it cannot, if it and the democratic way of living are to endure.

**Two Practice Scrimmages**  
 Coach Graves took his cohorts to Aspermont last Friday afternoon for a practice scrimmage which ended 6-6. The Wildcats soundly outplayed the Aspermont lads, rolling up 12 first downs to 2 and failing to score on two occasions when a dropped pass and a fumble meant the difference.

Tuesday afternoon, the Wildcats scrimmaged with an all-star team and came through with scoring punches in every department to defeat them 24-0.

The first score came when Orr crashed through the center of the line for 6 yards and a touchdown in the opening period. In the second quarter, Orr shot a pass to Smith for about 15 yards and the second score. The third tally came in the third frame when A. Y. Olds circled left end for 11 yards. Bill Ownbey intercepted an all-star pass and returned it for the final touchdown in the last quarter.

The Wildcats failed to click in all of the attempted extra point conversions.

The all-star team, composed of Wildcat reserves and all-stars, is as follows: ends, Ike Wilson and Whitley Mitchell; tackles, Murrell Diggs and Dwaine Capps; guards, Daniel Brisco and Glendon Russell; center, Robert Saunders; backs, Mark Saunders, Charles Branch, Joe Eddy and Bob Lilly.

**Starting Lineup**  
 The probable starting lineup for the game in Matador Friday afternoon is as follows:

**Value of Wheat Revealed in Early Biblical Times**  
 Wheat has been the most important cereal in international commerce since Biblical times, says the National Geographic Society.

"Wheat's supremacy has endured throughout history," the society reported, "since Biblical days when Hiram, king of Tyre, sent timber of cedar and fir for King Solomon's temple at Jerusalem in barter for 20,000 measures of wheat."

"Stock tickers on modern exchanges record the same transaction for which Jacob's 10 sons journeyed from Israel's famine to Egypt's ever-normal granary established by their brother, Prime Minister Joseph."

"Wheat, called King of Cereals, is simply grass gone handsomely to seed." Each flower packs all available earth's foods and sun's energy into its fruitage of golden nuggets. The ripe grains are in fact seeds cunningly stored with food for the coming winter."

The society, in the first of a series of reports on "Commodities: Common and Uncommon," said development of American wheat resources—and the machinery to harvest vast tracts—gave the world its first inexpensive wheat. Before American mass production dropped the price of wheat, only the rich could afford wheat bread. The masses ate black bread of barley or rye.

"As American inventiveness gave large-scale planting a sudden impetus," the report said, "the winning of the western plains gave it a place. Minnesota earned the official nickname of the Wheat State."

The Declaration of Independence of the Republic of Texas injected a new element into history when it listed a "neglect of public education" as one of the legitimate causes for revolution. Out of that grew the University of Texas, conceived in legislation and opened in 1883.

**THE TROUBLE WITH TRUTH**  
 (An editorial from the Rotarian Magazine.)

"If I had a son, I'd swear to do one thing: I'd tell him the truth." That opinion is from J. Edgar Hoover, famed chief of the G-Man, whose experience with boys-gone-wrong gives it special point. Probably few parents will disagree, yet many are concerned with the problem of how to tell the truth to a child.

But no matter how diplomatically and tactfully information is presented to the youngster, it is true that, as Oliver Wendell Holmes once asserted, "truth is tough." George Eliot put it even more dramatically, saying that it "has rough flavors if we bite it through." Consequently the father or mother who decides to tell the youngster the truth chooses a troublesome—not a dainty—job. There may be a specific time and place for some things, but truth recognizes no stop signs, no "do not disturb" placards.

A youngster may break out in a rash of curiosity at any moment. His quest for knowledge is not confined to the privacy of some domestic laboratory, and it is seldom impersonal. Parson Jones' mannerisms and Aunt Lydia's hats may start inquiries shocking to conventional parents, yet prompted by the most scientific attitude.

But here's the trouble with truth: Long ago it served all diplomatic relations with white lies and terminological inexactitudes, with prejudices and propagandas. Unfortunately few adults have followed this policy; consequently, as vigilant custodians of truth, they fall short when a child wants to know why some children must live in slums, why some children must go hungry, why some children must be targets for bombs.

Cattle importations from Mexico through the four Texas border ports of entry at Hidalgo, Laredo, Eagle Pass and Del Rio totaled 42,853 head in 1938 compared with 23,745 head in 1937.

**Malaria Prevalent in Texas, July-August**

Austin.—Prevalence of malaria in Texas this summer and fall, though less than in the past three years, is sufficient to make malaria control a matter of importance both to communities and the individual citizen.

The efforts of the State Department of Health, and individuals, and the prolonged drouths in many sections of Texas have curtailed the incidence of malaria in those same areas, according to records of malaria cases as reported to the Department.

The summer months saw the greatest prevalence of malaria in Texas—451 cases being reported in June, 844 in July, and 613 in August, as contrasted to 102 cases reported in January, 132 in February, and 275 in May.

Malaria is caused by a microscopic parasite and is spread by several species of Anophele mosquito; these are probably less abundant than usual this season because the decrease in rainfall has dried up pools in which the mosquitoes would normally breed.

From the standpoint of malaria, it is important to stop breeding of mosquitoes within and near city limits and homes. The draining of ditches will help to prevent breeding of the common pestiferous mosquito, and also of the Anophele species; the latter, however, is more apt to be found in pools and the larger ditches where weeds and plant life give harborage to the mosquitoes.

Chills and fever, which usually occur every other day after onset of the illness, are the chief symptoms of malaria. The malarial parasite is readily found through examination of blood smears of the patient.

Brief Bits of News From Here and There

An innovation in bank service charges is the one recently instituted by two banks in Irvington, New Jersey. Instead of charging for deposits these banks make a 15 cent charge for each withdrawal from accounts with a balance less than \$100. For accounts over \$100 one free withdrawal is permitted each month; also one free withdrawal is permitted each six months period. The policy was adopted to discourage depositors from using the bank as a safety deposit box by depositing small amounts for short periods. The count shows that there is only one-third as much traffic on highways at night that there is in the day time but two-thirds of the fatal traffic accidents occur after sun down.

Nearly all 1940 model automobiles will be equipped with the new "Sealed Beam" headlights. The "Sealed Beam" headlight unit is made in a single sealed unit with a permanently fixed focus. When the lamp burns out the whole unit is replaced. The advantage claimed is that no dirt blurs the brilliance and it is not possible for the light to get out of focus. The lamp is equipped with a "country beam" for lighting great distances and a "traffic beam" for use when approaching other cars. The new lamp cannot be installed on cars other than 1940 models. The Cure for Worry

Text—In quietness and in confidence shall be your strength.—Isaiah 30:15. The prophecy of Isaiah 30 seems to relate to days of approaching danger for Jerusalem and of desolation for Judah. Isaiah gives a just reproof to those who in their distress were looking to Egypt for help. He goes on to give a terrible warning against those who slighted the good counsel given by God through His prophets, assuring them that whatever becomes of others, judgment would certainly overtake them. This is followed by a gracious promise to those who trusted in God, that they should not only see through the trouble, but should see happy days thereafter, times of prosperity in the land, times of joy and reformation, and triumph.

"In quietness and in confidence" was their strength, God through Isaiah told the people, their strength was to sit still, in complete humble, direct dependence upon God, with a quiet submission to His will; not to wonder about seeking outside aid, but to trust—fully trust in God and His goodness.

Christian friend, is there not a lesson in this for us? Do we not sometimes promise to trust God entirely, to wait upon Him, and then a little later take the situation into our own hands? Oh, how we fail! Failure to trust brings sadness to the heart of God, and to ourselves retarded spiritual growth and defeat.

"In quietness and in confidence shall be your strength." A complete returning to God and a complete resting in God, may that be our position before God every day. Oh, that we may set aside our own way and our own will, and rest in the way of God. Complete faith in Christ our Lord—that is the way of salvation, and that is the way of consecration and usefulness.

Isaiah said to Judah, "Return from this project of going down to Egypt for help, and rest satisfied in the will of God—and then, you may trust Him with your safety."

What does our Lord mean by quietness? Does it mean the problem ahead is to be solved by clever scheming, by shrewd operation, and then by going forward with jaw set and muscles tense? No, surely not! Have you ever seen a champion tennis player in action? Action—tremendous action—quick movement—accomplishments—all of that is in the picture, and yet there is poise, dignity of being; muscles are relaxed, flexible, and there is calmness, and quietness of spirit. This is true of any successful athlete.

Why not, friend, as you go forth to the serious game of life, today and every day, why not set aside worry, concern, self-planning and scheming? Depend on God instead. At one time Moody was unconsciously doing a little worrying about a certain matter. Suddenly he burst forth into hearty, holy laughter, for the realization came to him that if God in His infinite power and might wanted a certain thing to come to pass, come to pass it would—and poor, insignificant Moody need not worry about it. All that D. L. Moody had to do was to meet the conditions of blessing—to wait upon God, supremely trustful, and "in quietness and in confidence" would be his strength.

Do you really believe God? You may be saved, you may be trusting in the blood of the Lord Jesus for your salvation, and you are glad you are a Christian. But, dear friend, are you fully trusting—are you depending entirely upon Him and not upon yourself? Perhaps people or things have crept in unawares and your mind is a little away from the Lord. Oh, how you are hurting Him. He longs for your whole self and for your fellowship. He wants so much to do things for you and through you. Simply trust—that is all—just trust.

Please Him today, friend in Christ, and "in quietness and in confidence shall be your strength."

Christian Science Services "Matter" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 17. The Golden Text is: "My flesh and my heart failed; but God is the strength of my heart, and my portion for ever" (Psalms 73:26).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For the mountains shall depart, and the hills be removed; but my kindness shall not depart from thee, neither shall the covenant of my peace be removed, saith the Lord that hath mercy on thee" (Isaiah 54:10). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Christianity causes men to turn naturally from matter to Spirit, as the flower turns from darkness to light. Man then appropriates those things which 'eye hath not seen nor ear heard'" (page 458).

BRITISH SENTIMENT UNITED

Austin, Sept. 11.—England sped to remove her rare book and manuscript collections to safety a full week before war flared on the Polish front, a University of Texas scholar, now in London, has written his colleagues here. Dr. Harry Ransom, assistant professor of English, who left the campus in July to spend a year abroad, found British museum authorities gathering up great cases of materials to transfer them from London's danger zone, and reported British sentiment "united" as contrasted with the 1914 split.

Letters he wrote August 25 to Drs. R. A. Law and R. H. Griffith here reveal that British newspapers were then printing no inflammatory propaganda. "This week has provided a great change of England's self-possession into magnificent courage," he told Dr. Griffith. "I make no sense of claims and counter-claims about munitions; but if spirit has anything to do with waging war, Hitler is sure of a sad awakening when he undertakes to fight Great Britain."

PROPAGANDA

Austin, Sept. 11.—Warning that propaganda of "staggering proportions" may flood America's fifty million radio listeners from both sides of the European front, was today voiced by T. H. Shelby, University of Texas extension dean, for two years holder of a Rockefeller radio research grant. "Even now, all the broadcasts we're getting are censored by European countries where they originate," he pointed out. The English government has already taken over complete control of radio broadcasting, he said, while Germany not only controls broadcasting but listening as well.

India Medal

The Kaiser-i-Hind medal was instituted in the year 1900. It is bestowed as a reward with no distinction as to sex, race, or position on people who have rendered useful or important service in the achievement of the public interest in India. The name has no reference to the former German monarch. It means emperor of Hindustan and was the title used by the great moguls of Delhi, it was assumed by Queen Victoria in 1877. There are two classes of awards, the first being bestowed by the sovereign and the second by the viceroy of India.

Planned Farming Responsible for FSA Loan Payment

Julian Wright, Farm Security Administration supervisor for Foard County, says that he is often asked, "How can the FSA make loans to farmers who can't get financing from any other source and actually get the money back, with interest?" "The FSA is doing this right here in Foard County," he said, "and the answer is that our farmers are doing 'planned farming.' Each farmer has worked out a sound farm and home plan that is adapted to the size and character of his farm, to the size and ability of his family, and also to the inclinations and special talents of his family. "More than eight million dollars have been repaid in Texas in the past three years by farmers who were once on the relief rolls, or who were so close that no banker or merchant would give them credit," the supervisor continued. "More than 600 Texas tenant farmers have bought farms without any down payment, and

none is seriously delinquent in his repayments.

"Planned farming is responsible for this remarkable record," the supervisor said, "and many farmers reason that if this farm and home plan will put a near-bankrupt farmer back on his feet, it will help also to put a more successful one on the road to still greater success. Mr. Wright said copies of the plan could be had by calling or writing to his office, or to the Texas Farm Security Administration office in Dallas.

He warned that the plan at first appears complicated, but that it is simple enough when taken step by step.

13 REASONS for USING NEWSPAPER ADVERTISING in 1939

- Newspaper reading is a universal habit. Newspaper advertising therefore reaches virtually all those who read and buy. Because the newspaper is not an "unwanted baby" and is never found littering up the back porch or found in trash barrels at the post office, or found lying discarded near the rural mail box. The newspaper advertisement has as much news interest and reader interest as the news items. Newspaper advertising has more appeal to the readers by the use of pictures of your merchandise. Because the people of a community judge the town by its newspaper, almost invariably a good newspaper means a good town. Because your newspaper is proven and is kept fresh by regular changes. A newspaper circulation is built through years of hard work to supply merchants with a good advertising outlet. Newspaper advertising has no bounds in circulation. Because your newspaper is always a permanent record of the community. Because your newspaper is always boosting for a bigger and better community. Because a newspaper is dignity and stability not found in hand bills.

Champion Country Newspaper Writer

There's a great opportunity in rural journalism for young men, according to H. B. Fox is pictured in a hotel in New York, where he collected his \$500 prize.

**NOBODY'S BUSINESS**

BY JULIAN CAPERS JR.

Austin.—The war in Europe has brought no changes in Texas' state governmental setup to-date, although there are several "war" angles which promise to affect Texans directly. The first of these probably will be the expansion of National Guard units and activities in all states as authorized by President Roosevelt, in connection with his executive order, placing the country in a state of alertness, to preserve American neutrality. The active and efficient Texas national guard units probably will be recruited to full strength, and additional training activities inaugurated shortly, as the first step in preparations to guard this state's participation in the nation's neutrality policy.

**Texas Oil Important**

Oil is as essential as gunpowder to modern mechanized armies, and with a goodly share of the whole world's potential supply under Texas soil, naturally, Texans will immediately face new situations and conditions with respect to supplying oil to the warring nations, and to non-participating neutrals.

Railroad Commissioner Jerry Sadler over the week-end wired the Federal Bureau of Mines, asking a revised estimate of market demand for Texas oil for the hearing scheduled for Monday. Sadler expressed belief the declaration of war, made since the Bureau's last estimate for September, would materially change the figures. He wanted the information in connection with study of data for a new statewide order, which admittedly will call for an increase in East Texas production, and a reduction in other fields, in compliance with a Federal court decision. At the same time, Ernest Thompson warned against increase in the allowable beyond a figure that will conserve pressure, and a similar warning came from Secretary of Interior Harold L. Ickes, the tireless advocate of Federal control of oil. Ickes indicated he was ready to take advantage of wartime conditions again to push his movement for U. S. control, which virtually all Texans oppose.

**Farmers Are Warned**

The war will bring no great increased demand for food products, Washington farm officials warned, and there is no occasion for farmers to expand their production of cotton, wheat and other basic food and fabric products. They pointed out huge surpluses of these commodities already on hand, and warned that

course it required grain and roughage to complete the balanced ration. The point is that the cost of production would have been considerably higher without the pasture.

This record, it should be remembered, was made on the Plains of West Texas. A longer growing season and more regular rainfall in other parts of the Southwest makes it easier to have a year-round pasture than in the west. Winter pasture is relatively more valuable than summer pasture, and may be provided either in permanent pastures or planted fields.

The common cereals are the favorite stand-by for winter pastures in the Southwest, since the seed are cheap and easily available, and everybody knows how to plant them. Rye grass is becoming increasingly popular, and supplies more grazing per acre than either wheat, oats, rye or barley alone. Where grain is sown solely for pasturage, a good many farmers prefer a mixture of two or more kinds and a heavier seeding than for grain is preferable. The reason is obvious—they each grow better at different seasons, and a mixture therefore gives a longer grazing season. The mixture may be cut for hay in the dough stage.

For fall and early winter barley usually provides more pasturage, while wheat, oats and rye produce more grazing during the winter and early spring months. Rye grass continues to provide green pasture later in spring than the cereals.

Grain for harvest may be pastured without reducing the yield. In fact pasturing under proper conditions tends to increase the yield by encouraging stooling. The Denton (Texas) experiment station found by measured tests that grain yields were increased by pasturing up to March 1, and grazing for another twenty days did not reduce the final yield of grain.

Electric fences are coming in to wide use for confining animals on temporary pastures, where a permanent fence is not desired. Pastures give better results when grazed in rotation, and the electric fence offers a cheap and convenient means of resting one part of the pasture while grazing another.

**HOUSEHOLD HINTS**

Never salt fresh meats when frying them; it tends to toughen them.

New towels and wash cloths should be washed thoroughly before they are used.

Before blackening the kitchen stove go over it with a cloth dipped in vinegar to remove all the grease.

whatever expansion may be needed if a long-drawn-out war ensues can be quickly obtained, with modern mechanized farming methods. There will be no war boom in farm products, these officials pointed out, such as followed in the wake of the world war of 1914. Cotton prices generally will suffer, most agricultural experts pointed out, due to upset exchange and falling off of world demand. They pointed out there is a year's supply for the entire world now on hand, and no need to expand acreage.

**Johnson Heads Pension Set-Up**

Adam Johnson, former member of the board of control, executive manager of Austin, and director of state relief during the depression period, is the new director of the State Welfare Board, which will administer pensions, aid for children and needy blind.

The pension authorities have been adding pensioners to the roll, under provisions of the new "liberalized" pension act of the last session, so extremely slowly, that the additional names have so far made little difference in the pension payments. Approval by the San Antonio office of the Social Security Board of the September roll showed less than 2,500 new names added, and a slight increase in the average payment, to a few cents over \$14 per pensioner. However, repayment of the bank loans made by the pension fund, and substantial increase in the number of pensioners added during the next month, may hasten the crisis in pension finances which is inevitable, in view of the fact no pension revenue was raised by the regular session. Many legisla-

tors, visiting Austin, are asking for a special session, but so far Gov. O'Daniel has given no indication he will call one.

**Notes**

Tom King, the "biggest man in Austin," was reappointed State auditor by Gov. W. Lee O'Daniel. King is six feet four, and weighs around 250. . . . William Lawson, secretary to Gov. O'Daniel, who visited a San Antonio hospital to check up on Claude Teer's condition, just a day or two before Teer's death, paid another hospital visit this week. This time he went as a patient, with an emergency appendicitis operation. . . . Harry C. **What Is Pasture Worth?**

By T. C. RICHARDSON, State Editor Farm and Ranch, Feeder-Feeder Association

J. E. Rigler, with thirty-one registered and grade Jersey cows, was one member of the Association who maintained pasture the year round. He sowed wheat in September, at about three times the normal rate of seeding for grain, to supply winter pasture. With summer pastures the rest of the year, ensilage, grain sorghum and alfalfa, his herd produced an average per cow of 6,254 pounds of 5.2 per cent milk. This was not among the highest records in the Association, but was well up in average production among the larger herds.

The interesting fact is that Mr. Rigler got nearly half—49 per cent—of his production from pasture. In calculating costs each kind of feed is charged at a uniform price by D. M. Carroll, official tester. Pasture is charged at 75 cents per cow per month. But Mr. Rigler's pasture, after deducting the energy therms which were supplied by grain and roughage, paid off at the rate of \$3 per cow per month as compared with the cost of roughage, and at the rate of \$4.50 per cow per month, calculated in terms of grain feed.

To put it another way, each productive unit (technically "therms") cost 2.3 cents in the form of grain, 1.5 cents in the form of roughage, and only four-tenths of a cent from pasture. Of

### Clois Orr Married to Miss Max Dean Beidleman Sept. 8

Clois Orr of Margaret was married to Miss Max Dean Beidleman of Thalia in a quiet ceremony performed in Frederick, Okla., on Friday, Sept. 8, by Rev. R. O. Callahan. They were accompanied to Frederick by Mr. and Mrs. Lee Blevins of Margaret. Mr. Orr is the son of Mr. and Mrs. Joe L. Orr of Margaret and attended school at Margaret and Crowell.

Mrs. Orr is the daughter of Mr. and Mrs. C. W. Beidleman of Thalia. For the past two years she has been attending school at Thalia.

They will make their home on a farm near Margaret.

### Forney Girl Becomes Bride of Fred Kimsey

Fred R. Kimsey of Gladewater, son of Mr. and Mrs. H. L. Kimsey of Handley, former citizens of Crowell, and Miss Edna Owens of Forney were united in marriage Saturday evening at 8 o'clock at the First Christian Church in Forney. The church was artistically decorated with woodwardia ferns.

The bride was given in marriage by her father, J. C. Owens. She wore a gown of white mousseline with full ruffled skirt, extending into a long train. She wore mits to match her gown, and her illusion veil of fingertip length was caught to a Juliet cap of tulle. Her corsage was gardenias. Her only attendant was Miss Adelaide Griswell of Forney, a cousin.

James Henry Kimsey attended his brother as best man and another brother, Mabry L. Kimsey, of Crandall, served as an usher.

A reception for the families and close friends was held after the ceremony at the home of the bride's parents. After a short wedding trip, Mr. and Mrs. Kimsey will be at home in Gladewater.

### Adelphian Club Will Be Hostess at Federation Meeting

The Adelphian Club will be hostess club to the first meeting of the County Federation of Women's Clubs at the Adelphian club house next Thursday, Sept. 21.

Mrs. Grady Halbert will be program leader and Mrs. T. L. Hughston will give the devotional.

The morning program includes several talks: "The New York Fair" by Mrs. Merl Kincaid; "Yellowstone Park" by Miss Alyne Lanier; "Lake Louise," by Miss Bertha Womack; "The Big Bend," by Mrs. H. Schindler and "A Summary of War Conditions," by Mrs. N. J. Roberts.

### Parent-Teacher Association to Sponsor Picnic

The Crowell P. T. A. will sponsor a picnic and get-together next Tuesday evening at 7:30 at the Country Club for the annual Fathers' Night program which is an annual affair in the association.

The feature of the program is to be a talk by Supt. I. T. Graves on the subject "The Farmer Has a Son." John Rator is in charge of the musical program which will be given entirely by fathers.

Every patron of the school and teacher is urged to co-operate in the program by attending and bringing a picnic lunch. The High School mothers will be hostesses.

Those who attend are asked to provide a plate, glass, fork and spoon for each member of the family.

### METHODIST MISSIONARY

Mrs. M. J. Girsch and Mrs. B. F. Ringgold were hostesses to the Missionary Society of the Methodist Church in a social meeting at the home of Mrs. Girsch on Monday afternoon, September 4.

For the lesson study on "A United Methodism," Mrs. T. L. Hughston was the leader. She read Ephesians 3:14-21 for the scripture lesson and gave a devotional on "Bonds of Living Fellowship."

"Is a school of Missions worth while?" was discussed by Mrs. S. T. Crews and Mrs. E. L. Yeats gave the "Highlights of the Copenhagen Conference."

The hostesses served a pleasing refreshment plate to twelve members and two guests, Mrs. Vance Favor and Mrs. J. A. Campbell.

### B. & P. W. CLUB

The first regular business meeting of the Business and Professional Women's Club for the new year was held Thursday evening, Sept. 7, at O'Connell's Lunch Room.

Miss Joellene Vannoy, the only member of this club attending, told the club about the banquet given by the B. & P. W. Club of Wichita Falls Tuesday evening, Sept. 5, in the Sky Room at Kemp Hotel. The guest speaker at this banquet was Judge Sarah T. Hughes, state president of B. & P. W. Clubs. She spoke on "Jury Service for Women." This was broadcast over the radio and a few in Crowell heard this speech.

After a short business session a parliamentary drill was given by Miss Vannoy and "How to Lead a Discussion" was given by Miss Mayme Lee Collins.

### Neck and Neck Finish Can't Be Avoided

Something new, even for California, is this ostrich race in which the world's largest birds pull sulkeys, something similar to those used in trotting horse races. Nothing was said about the supposed tendency of the ostrich to bury its head during a stubborn mood—perhaps allowances are made.

### Corner Drug Wins Softball Crown Sunday

The Corner Drug won the Foard County Softball League championship Sunday afternoon when their team defeated Rayland in both games of a double-header played at the old ball ground in Crowell.

In the initial game, the first inning ended with both teams tied 1-1 with scores by Grant and Abston. The second inning was scoreless and in the third both teams scored with runs by Bell and Adkins to again knot the score, 2-2. In the fourth frame, Abston tallied to give Rayland a lead, but in the fifth, Grant, Taylor, Ross, Graves and Bell crossed the plate to finish the scoring for that game and give the Corner Drug a 7-3 victory.

Rayland took an early lead in the second game when Blevins, Swan and Howard tallied in the first frame, but in the second Corner Drug drew abreast with runs by Graves and C. Russell and went ahead in the third when C. Russell again registered a score. Pierce, Howard and Clark scored in the sixth inning to tie the score at 6-6, but Grant scored in the seventh to give the Corner Drug a 7-6 victory and the championship.

In the first game of the play-off series played last week under the lights, Rayland defeated Corner Drug, and the champs had to win both of Sunday's games to sweep the series.

Corner Drug had previously won the first half of the race and Rayland came through with the second half title.

### ADELPHIAN CLUB

The Adelphian Club opened its year's work on Sept. 6 with Mrs. L. A. Andrews as hostess. The president, Mrs. Raymond Burrow, expressed her thanks to club members for their faith in her and for the compliment paid in electing her to this office. She pledged her efforts to help make the club an asset to the community.

The study for the afternoon was Laura Krey's "And Tell of Time." Mrs. Merl Kincaid told of this Texas writer, where she was reared, her family life, and how they influenced the writing of this book. Miss Lottie Woods told of meeting Mrs. Krey and said she was a very natural and charming person. Mrs. Walden, in an unusually interesting way, reviewed this historical novel which is also interspersed with romance.

Refreshments were served to 24 members and three guests, Miss Lottie Woods and Mrs. S. O. Woods of Wichita Falls and Mrs. R. D. Oswald of Vernon. Mrs. Floyd Marshall was welcomed into the club as a new member.

### COLUMBIAN CLUB

For "Husbands' Evening" members of the Columbian Club with their husbands or other guests, assembled at the home of Mr. and Mrs. J. S. Ray in the Riverside community, Wednesday evening, Sept. 6, in the opening meeting of the 1939-40 club year.

Mrs. H. Schindler, Mrs. T. B. Klepper and Mrs. Ray, who had served as the calendar committee for the club's yearbook, were hostesses. A barbecue, served with other picnic dishes, was enjoyed on the lawn in the early evening. The barbecue was prepared by L. G. Andrews.

In the absence of Mrs. M. N. Kenner, club president, Mrs. H. Clark presided in a welcome to

### FOARD CITY H. D. CLUB

At the meeting Tuesday at the club house Mrs. Blake McDaniel gave an entertaining report of her trip to Lubbock.

One thing stressed by Mrs. McDaniel at this meeting was that when you are appointed to do something for your club consider it a compliment and do it and not think it a burden.

"A most interesting report at the convention was that of Mrs. J. R. Morris of Lamesa. State president of the Home Demonstration association on her trip to London as a delegate from Texas," said Mrs. McDaniel.

Another thing stressed by Mrs. Morris was, to seek opportunity for opportunity would not seek you.

During the business meeting the time of meeting was changed from 2:30 to 2 o'clock. Two visitors were present, Mrs. Hugh McLain of Anna and Mrs. A. E. Barker of Crowell. Next meeting will be Tuesday, Sept. 18, and at that time Miss Joellene Vannoy, Home Demonstration agent, will be present with Mrs. T. F. Welch as leader.

### RIVERSIDE 4-H CLUB

New officers for the Riverside 4-H Club were elected at a meeting of the club held last Tuesday and are as follows:

Mary Evelyn Adkins, president; Frances Ann Ayers, vice president; Charlene Gray, secretary-treasurer; Evelyn Bradford, reporter; Mary Tamplin, assistant reporter and song leader.

One of the highlights of the meeting was the report of Frances Ann who recently visited College Station to attend the Short Course at Texas A. & M. She told the members of the club that the largest dining room in the world is at A. & M. and that the new chinaware for the mess hall weighed twenty-seven tons. She also said that the Sunday during which she was in College Station there were eight hundred dressed chickens in the cold storage room for the Sunday dinner, and that dishes are washed and sterilized in an electric dish washer.

The following members of the club were present for the meeting Tuesday, Mary Evelyn Adkins, Mary Tamplin, Evelyn Bradford, Frances Ann Ayers and Charlene Gray and the Home Demonstration agent, Miss Joellene Vannoy and one visitor, Peggy Jo Houston.

The next meeting will be held at the school building at 10:30 a. m., Tuesday, Sept. 26.

### LIBRARY NOTES

Readers who so greatly enjoyed "So Big," "Cimarron," "Showboat," and other books and stories by Edna Ferber will welcome her latest book "A Peculiar Treasure," which is the story of the author's life.

Of "A Peculiar Treasure," Edna Ferber herself writes: "This isn't a story of my life written because I am fatuous enough to think that anyone is interested. It is really the story of an American Jewish family in the past half century, and as such is really a story about America which I know and love"
