Cigarette 'Tax' Insures Front Line View

Visitors to France's front line meet a new and delightfully different instrument of war. They find they can pass into the line upon payment of a tax of one cigarette. Payment gives the right to view German lines by looking over the sand bags.

CROWELL WILDCATS END HOME SEASON IN GAME WITH ARCHER CITY TEAM HERE FRIDAY NIGHT

The Archer City Wildcats come to Crowell Friday night for a District 9-A conference game with Coach Grady Graves' Wildcats on the local gridiron to mark the last appearance of the Crowell team at the home field this season.

Meason Out

The Wildcats swung into a snap-workout Monday afternoon after registering their first conference victory this season over the Park Hawks last Friday night. Coach Meason, who has been out of the game since he was injured by a back injury that kept him from playing during the last few games, the loss of Russell would weaken Coach Graves' team strength.

Backfield Shifted

Coach Graves has shifted the backfield for the Archer City game due to the absence of Meason. Bill Ownbey, regular back, has been shifted to Meason's position and Ted Crosnoe, reserve, will be in the right half-back spot.

This combination has been working fairly well during practice sessions this week and should be able to work satisfactorily Friday night.

The remainder of the Wildcat regulars are in tip-top shape and will be aiming for their second conference win tomorrow evening. Provided the Wildcats can schedule unscented, they will land third place, or in a possible tie for second, as Chillicothe has several tough games ahead of the Eagles.

Two Men Injured In Car Wreck North of Crowell This Morning

Frank Weatherall of Foard City was painfully injured when the automobile which he was driving crashed into a concrete bridge 4 miles north of Crowell on State Highway 16 early Thursday morning.

Mr. Weatherall was taken to the Quannah hospital for medical treatment but was expected to be released some time today.

Lawson Sheppard, the other occupant of the car, received minor injuries but was able to walk to Crowell for aid after the crash.

The car was badly damaged and was brought to Crowell by a wrecker from the Self Motor Company.

MEETING NIGHT CHANGED

The meeting night of Thalia Lodge No. 666, A. F. & A. M., of Thalia, has been changed from Thursday night, on or before the full moon, to Saturday night, on or before the full moon, according to information furnished the News by C. H. Wood, secretary.

Announcement of the regular lodge meeting date is carried every week in this paper.

FUNERAL FOR VELMA HANEY HELD MONDAY

Last Rites Conducted by Former Pastor at Thalia Church

Funeral services for Miss Velma, 31, daughter of Mr. and Mrs. T. M. Haney of Vernon, were held Monday afternoon at 2:30 in the Thalia Baptist Church conducted by Rev. Frank McNair of Electra, assisted by Rev. W. M. Lawrence, pastor of the Thalia Church, and Rev. W. B. Fitzgerald, pastor of the Crowell Baptist Church. Burial was in the Thalia cemetery.

Miss Haney died Saturday night in Abilene following a long illness. The body was brought to the home of her sister, Mrs. John Rasor, in Crowell Sunday by the Womack Funeral Home.

A special musical number at the funeral services was a vocal solo rendered by Mrs. A. F. Wright of Crowell, accompanied by Mrs. Arnold Rucker. Mrs. Gus Neill was accompanist for the choir.

Pall bearers were Wilson Long, Allen Shultz, Willie Cato, Bob Abston, Fred Brown and J. A. Stovall. Flower bearers were Mrs. W. C. Shive, Mrs. E. J. Smith, Miss Jean Long, Miss Mabel Fox, Miss Gene Fox, Miss Modena Stovall, Miss Ruth Banister, Mrs. John Wright and Mrs. Houston Adkins.

Survivors are the parents, Mr. and Mrs. T. M. Haney of Vernon; four sisters, Mrs. John Rasor of Crowell, Mrs. W. H. Rowand of Plainfield, N. J., Mrs. F. H. Williams of Wichita Falls and Mrs. Vance Swain of Lubbock; three brothers, E. M. Haney of Vernon, C. D. Haney of Thalia and T. S. Haney of Crowell; two nephews, John Thomas Rasor of Crowell and David Haney of Thalia; three nieces, Sarah Ann Haney of Wichita Falls, Sharon Sue Haney of Crowell and Carolyn Haney of Thalia. All were present for the funeral except Mrs. Rowand of New Jersey.

Miss Haney was born Dec. 11, 1907, at the old family home five miles east of Thalia. She was converted at the age of 18 and joined the Thalia Baptist Church during the pastorate of Rev. McNair. Her membership remained in the Thalia church until her death.

Man y Visitors CITY TO GIVE DISCOUNT ON TAX PAYMENTS

3 Per Cent Discount on 1939 Taxes Paid During November

Taxpayers will be allowed a discount of three per cent on 1939 city taxes paid during the month of November, according to a notice from the council of the City of Crowell which appears elsewhere in this issue of the News.

During the present month, the three per cent discount will be in effect, and in December it will be lowered to one per cent.

City taxpayers are urged to take advantage of this discount by paying their current taxes as soon as possible.

Thacker Building to Be New Meeting Place for Scout Troop 53

Scout Troop No. 53, which is sponsored by the Gordon J. Ford Post of the American Legion of Crowell, had its first meeting Wednesday night in the upstairs of the Thacker building. The hall has recently been rented by the local Legion post for a permanent meeting place of the Boy Scout troop.

Several new members have recently joined the troop and new officers were elected at the meeting Wednesday night and plans for future activities were discussed.

The annual booster round-up to raise money to carry out the financial program of Scouting in this district, for the new year beginning Oct. 1, 1939, was completed last Thursday, Oct. 26, and its success far exceeded the expectations of officials and Scouters who were in charge of the drive.

Two hundred dollars in cash and pledges for four hundred dollars to be paid in monthly or quarterly installments has been reported by J. A. Stovall, audit chairman. Pledges were secured from 134 individuals and business firms in Foard County, including the towns of Crowell and Thalia, and the town of Truscott in Knox County which is included in this district, with some of the pledges being paid in full at the time they were given.

Tippling Melons May Provide New Alibi

Alibis for an alcoholic breath may take a new twist if melon growers adopt the technique developed by Samuel Untermyer of New York. He gives his melons any desired alcoholic flavor by binding a small bottle of liquor to the stem of the growing plant. The plant absorbs the liquor through a tiny tube in its stalk.

MUCH PROGRESS IS MADE ON WPA PROJECT ON HIGHWAY 28 TEN MILES WEST OF CROWELL

Much progress is being made on the W. P. A. project on State Highway 28 west of Crowell, according to Dwight Campbell, W. P. A. superintendent.

The purpose of the project is to widen road bed, lessen traffic hazards and to construct erosion control devices along the highway. The work includes sloping of shoulders, filling of ditches, extending headwalls of bridges and the construction of bar tanks along the right-of-way.

The project, which is sponsored by the State Highway Department, is set up for \$26,666.67, and will require approximately nine months to complete. The work was started on May 5, which is about five months ago, and is expected to be completed in another three months.

There are sixty-four workmen employed on the project at present and the payroll for the past month was \$3,407.51. Six trucks, three of which are furnished by the W. P. A., a caterpillar tractor, a blade and a smaller tractor are being used on the job.

Work on the present project was started at a point 10.5 miles west of Crowell and will extend westward 7.2 miles to join improvements made with a project of last summer when the work was started at the Foard-Cottle line.

The largest single job on the project is the loading of dirt from the bar tanks onto trucks which (Continued on Page Five.)

County Court To Open Here Monday, Nov. 6

The November term of county court will be opened in Crowell next Monday morning, Nov. 6, at 10 o'clock, according to a release from the county clerk's office Wednesday.

The following men have been impeached for petit jury service during the term and are to appear at the court house at 10 o'clock Wednesday morning:

Herbert Fish, J. F. Matthews, George Reithmayer, E. S. Flesher, S. B. Middlebrook Jr., Bruce Benham, E. H. Capps, L. R. Morgan, Willie Cato, G. T. Lanier, Ed Huskey and Shirley McLarty.

House Burns In Crowell Early Wed. Morning

A house owned by Mrs. Coystal McClure of Oklahoma was badly damaged by a fire which was discovered shortly after midnight Wednesday morning. The flames were extinguished by members of the Crowell Volunteer Fire Department before the structure was completely burned.

The house was vacant as Mrs. McClure had moved from it to Oklahoma last Friday. The damage was not estimated and it has not been learned whether or not the house was insured.

According to the fire records, this was the most damaging fire for Crowell since July 31 of this year when a house owned by Ebb Scales burned.

Cotton Report Shows Gain of 2,600 Bales Over Oct. 18, 1938

The cotton report from the Department of Commerce, Washington, D. C., gives an increase of 2,600 bales of cotton ginned in Foard County up to Oct. 18, 1939, over that of the same date of 1938. There were 7,286 bales of cotton, counting round as half bales, ginned in this county from the crop of 1939 prior to Oct. 18, as compared with 4,686 bales ginned to Oct. 18, 1938, the report states.

CROWELL GRIDDERS BLAST IOWA PARK HAWKS BY 24-0 SCORE TO REGISTER FIRST DISTRICT WIN

Free from injuries for the first time since District 9-A conference play was started, Coach Grady Graves' Crowell Wildcats swooped down upon the Iowa Park Hawks here last Friday night to scatter feathers and records all over the field by handing the Hawks' a surprisingly top-heavy 24-0 defeat.

The game marked the Wildcats' first conference victory and the Hawks' first conference loss. The Crowell boys further embarrassed the Iowa Park lads by being the first district team to cross their goal line.

Another record that was badly battered was that of Carl McKinnon, Hawks' running star who failed to produce any of the fire that had previously caused him to be heralded as the district's outstanding back, as he was unable to jar loose with any gains of consequence while he was in the game, and he was badly outplayed by Crowell's backfield aces, John Lee Orr, quarterback, and Que Meason, halfback. McKinnon was held to a net gain of 2 yards, gaining 25 and losing 23. Orr turned in a net gain of 162 yards and Meason galloped for 144 yards.

Part of the game color and interest was taken away near the close of the first half when the umpire ruled McKinnon and Wayne Canup, all-district Wildcat end, from the game after the two had (Continued on Page Four)

Flees Exile

Fears that Ham Amin El Husseini, former grand mufti of Jerusalem who recently escaped from exile, may start a new anti-British terrorist campaign were expressed by government officials. The mufti, now in Iraq, is held responsible for the Arabs' campaign of terrorism.

Mr. and Mrs. Bill Comegys of the Humble Pipeline Station here spent the week-end visiting in Abilene.

Floyd Robertson and Forrest Ray spent the week-end fishing in Brownwood.

Walter Chowning, who is working in Levelland, spent the week-

WILL HE EVER WIN

a blue ribbon?

It's HARD to tell... but EASY to pick a winning oil

FOUR thousand dogs sleep and snarl, sit up and blink, strut and pose for the judges at the annual show in Madison Square Garden. Blue-bloods seeking blue ribbons. Rash indeed is the man who would try to predict which dog will finally be selected as the grand winner, the "best in show."

But you don't have to be an expert yourself... you need no technical training... to choose a winning oil for your motor. It's easy to tell. This is why:

Of the many oils refined by Phillips, we have set apart one as our best. Without reservations of any kind, we frankly publish the fact that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer.

Now you know how to get a blue ribbon oil. Just drain and refill with Phillips 66 Motor Oil at the Orange and Black 66 Shield.

Phillips Finest Quality

INTERESTING FACTS OF THIS AND THAT

The railroads of the United States have placed orders for new equipment to the value of 70 million dollars, most of which is for freight cars.

It is estimated that the average American annually eats 164 pounds of potatoes, 329 pounds of milk and cream, 217 pounds of cereal, 132 pounds of meat and fish, 30 pounds of eggs, 17 pounds of coffee, tea, spices and chocolate, 186 pounds of fresh fruits and 110 pounds of sugar and syrup.

Under the Federal Social Security Act about 114 million dollars will be paid out in old age pensions next year to between 500,000 and 750,000 persons.

Under Great Britain's new income law a married couple with an income of \$2,000 a year pays a tax of \$246. If the income is \$4,000 the tax is \$871. If the income is \$8,000 the tax is \$2,246. The same incomes in the United States are taxed as follows: \$2,000 no tax; on an income of \$4,000 the tax is \$44. On an income of \$8,000 the tax is \$248.

Texas Tax Bill and Texas Crop Value Compared

Dallas.—Total amount of taxes paid by the people of Texas during the fiscal year 1938 was equivalent to more than the value of all the field and non-field crops produced in the State that year, plus the value of all the wool and mohair, plus all the cash income from cattle and calves, according to the current issue of The Taxpayers Digest, Dallas.

The new tax publication for Texans, published by The Taxpayers Research Bureau, Dallas, and edited by Peter Molyneux, widely known journalist, author, and economist, with Booth Mooney as associate editor, points out these facts in its first regular issue, dated November 1.

The total tax bill of Texas for the fiscal year ended June 30, 1939, was not less than \$454,000,000. The Taxpayers Digest explains, while the combined value of all State crops, all wool and mohair, and all cash income from cattle and calves amounted in 1938 to \$452,200,000.

"The revenue of the State Government of Texas raised by taxation during that period amounted to \$111,650,527," the paper says, "and that of all the local governments of the State amounted to \$120,283,286. The Taxpayers Research Bureau estimates the Federal taxes paid by the people of Texas during that year as not less than \$221,600,000, an extremely conservative estimate. The total of these figures is \$454,000,000, and certainly the 1938 tax bill of the people of Texas was not below that sum."

Value of all the crops produced in Texas in 1938 was \$324,400,000, that of all the wool produced that year was \$19,100,000, that of all the mohair was \$6,750,000, and cash income from cattle and calves amounted to \$101,950,000.

"The total of these figures," The Taxpayers Digest concludes, "is \$452,200,000. That is \$1,800,000 less than the tax bill paid by Texans during the 1938 fiscal year."

TEN LUCKY PERSONS have complimentary guest tickets awaiting them at The News office to see—

"DUST BE MY DESTINY"

Five of them will find their names in the classified ad section and the other five will find their names in the Rialto Theatre ad on the back page of this issue.

Only subscribers to The Foard County News receive these complimentary guest tickets, as the names are selected from our mailing list. If you are a subscriber to The News, watch the paper for your pass.

YES, WE FULLY RECOMMEND BUTANE GAS TO COOK WITH, HEAT YOUR HOME, RUN YOUR ELECTROLUX REFRIGERATOR, ETC.

There are two systems, one uses one or two "bottles" or steel cylinders to cook with. Each cylinder holds about 20 gallons of Liquid Butane Gas, 22c per gallon. The other system is a much larger cylinder or tank, about 100 gallons, up to 1,000 gallons, at about 8c per gallon. While tank system costs more at first one saves in buying the fuel.

We have a lot of the "Bottle" type in use with one and two cylinders, and the owners are satisfied, and we have installed some "tank" types, too, and all are pleased.

We carry beautiful Gas Ranges of several well-known makes: the "Grand," the "Tappan," the "Chambers," the "Roper" the "Acorn," all perform perfectly on Butane Gas. Our Gas Heaters run from \$1.95 bath room size, to \$7.50 to \$16.50 up for room sizes. All fine for Butane Gas.

LET US SHOW YOU BUTANE GAS SYSTEMS

Mr. and Mrs. Roberson of Lockett spent last week in the home of their son, Mr. and Mrs. Hubert Roberson, and family.

Mrs. Dunn of Good Creek visited last week in the home of her sons, Walter and Cecil Daniels, and families.

Miss Ora Davis spent Saturday night and Sunday with her sister, Margie Davis, of Vernon.

Mr. and Mrs. A. T. Beazley and family, and Mrs. M. G. Garvin and baby of Dallas visited relatives in Childress Sunday.

Mr. and Mrs. Lewis Mansel and family of Five-in-One visited his parents, Mr. and Mrs. L. D. Mansel, Sunday.

Two Minute Sermon (By Thomas Hastwell)

Get Thee Behind Me, Satan: Those who have read the story of the temptation of Jesus will recall that following Christ's baptism and fast of forty days the tempter came to him and suggested that he turn the stones at his feet into bread that he might appease his great hunger.

He then said to him, if thou be the Son of God prove it by casting thyself down from the pinnacle of the temple. Failing in this the devil took Christ upon a high mountain and offered to give him the kingdom of the world if the Christ would worship him.

The temptations of Christ epitomize the life of every man. Nowhere is found such a complete story of every man's temptation as if found in these few verses. There are many lessons to be gained from this remarkable story, but the obvious lesson to every man is, that Christ, by his overcoming temptation, proved that man can also overcome temptation, if he will, at its first approach, as the Master himself did, put it at once behind him. In this instant decision lies the secret of every victorious life—the overcoming of every temptation.

Naval Disaster

Near victim of the sea was Guy C. Avery, (inset) lone navigator who attempted a solo cruise from Tampa, Fla., to Europe in his 18-foot yawl. Avery left Tampa a year ago, and when picked up by an Italian freighter was lost 550 miles west of Gibraltar.

Demands For Red Cross Services Prompt Greatest Roll Call in 20 Years

Half Million Workers Ready for Membership Drive THE American Red Cross embarks on its greatest membership Roll Call in two decades November 11 when a half million volunteers working in virtually every community in the nation, will seek increased membership strength to meet growing demands for Red Cross services, Chairman Norman H. Davis has announced.

BABY CLOTHES, FLAGS and FOUNDER, ALL SPELL RED CROSS —At top, left, Red Cross volunteer packs infant's layette for European war victims' right, No. 1. Roll Call got under way at Washington, D. C., when Legion honor guard raised flags; lower, Mrs. Peter DeGraw, 90-year-old Washingtonian and only surviving founder of American Red Cross 58 years ago, reminisces with Secretary of War Woodring, two of the first citizens to join their local chapter.

Vapor-Saver System Will Reduce Loss in Gasoline Evaporation

Akron, Ohio, Oct. 30.—Skill of the world's most experienced balloon builders has been called in to play in an effort to reduce the millions of dollars lost annually by the petroleum industry in the form of evaporation of gasoline at bulk storage plants. That this constitutes a serious problem is seen in a government estimate that, during 1938, bulk plants throughout the country sustained a loss through evaporation of 317,193,060 gallons, with a value of \$37,933,107.

Recently announced was a vapor-saver system that has demonstrated in actual use its ability to cut evaporation losses to a minimum. Simple in operation, the system has as its chief component a sausage-shaped balloon or "breather bag" made of fabric especially treated on the inside with a compound rendering it impervious to the effects of gasoline or gasoline vapor, and rubberized on the outside to give it external protection. The bags are built in the balloon room of The Good Year Fire & Rubber Co., where during nearly three decades workers have constructed more than a thousand free and kite balloons, hundreds of airship envelopes, flotation bags for aircraft, rubberized fabric boats, comic figure balloons and many other products necessitating expert knowledge of fabric.

Each breather bag is 29 feet long, nine feet in diameter and has a capacity of more than 1,600 cubic feet. In operation in a storage plant, the bag is housed in a steel building, and pipe lines run from each tank to the bag. On top of the bag is a carefully balanced weight. When evaporation occurs, the vapors pass through the pipes to the bag, are kept under compression by the weight, and when evaporation stops, the weight forces the vapors back into the tanks. In this manner, fresh air, which would produce additional evaporation, cannot enter the system, and as the air already there is saturated, further evaporation cannot take place.

SALES FOR YEAR INCREASE Austin, Oct. 30.—Total dollar sales of 99 Texas department stores during September gained seasonally 31.7 per cent over August, but dropped 1.5 per cent below September, 1938. University of Texas business research statisticians have announced.

Business was 0.6 per cent better for the first nine months of this year than for the corresponding period last year, the business research bureau reported.

LIVESTOCK SHIPMENTS Austin, Oct. 30.—Texas ranchers shipped nearly a fourth more livestock on a carload basis during September than during the

THE Foard County News

T. B. KLEPPER, Editor-Owner
HENRY ASHFORD, Reporter and Sports Writer

Entered at the Post Office at Crowell, Texas as second class matter.

Crowell, Texas, November 2, 1939

Every man should have the experience at least once a year of going out and doing something for his town and his community from a purely unselfish motive.

Hitler left more dead men on the fields of Poland than there are in the entire United States army.

It is said that England has 700 plants in Canada engaged in the manufacture of war munitions and planes.

What We Think (By Frank Dixon)

The outstanding revelation of the present war in Europe, in my opinion, is the rising tide of the world over among the peoples of the nations against war and the ruler who provokes war.

We have heard much speculation in regard to what, if anything, might be done to eliminate war from the world. Some have proposed one thing and some another. One school of thought advances the idea that the only way to discourage wars is to be so well prepared that no ruler will desire to take a chance of opposing a prepared nation and a well trained army with adequate navy and air force.

Another school of thought advances the idea that war will not be driven from the earth until all nations reach the point in their thinking where they will yield to those nations whose industrial program and increase in population require more territory and grant them their needs from the territory and resources of other na-

tions whose present development does not require full use of their territorial area.

Another group contends that peace can never come to the world until the individuals of the nations with one accord accept the teachings of Christ and make them, and them alone, the rule and guide of individual, national and international conduct.

As was said in the beginning the most hopeful ray of light in the present situation is to be found in the fact that there is a rising tide among the people of the world against their leaders going to war. Intelligence, the realization of the uselessness and the crime and waste of war as well as a measure of the application of the teachings of Christ all, I think, contribute to this growing force of opposition against war.

It is the thing, I think, that will call a halt in the war god's program and force a sane and sensible consideration of the world's problems and their bloodless settlement.

It should be noted that this opinion and this opposition is more freely and fearlessly expressed among the dictator ruled nations. The people of these nations do not dare express their opinions.

For this reason I believe that the democracy is the best system of government in the world today. It offers the largest measure of freedom and the largest voice on the part of the governed as to how they shall be governed. It also offers the largest measure of freedom from war because it permits those who would have to bear the brunt of the war to have a voice in its declaration—a desirable safe guard.

For this reason I believe that the best means of assuring peace and freedom from future wars is that the democracies of the world shall hold the balance of power and shall keep themselves in a position to be able to say to over-ambitious and power-mad dictators what they can and what they cannot do in the way of annexing territory of other nations and exploiting their people, and, having said it be able to enforce their mandate.

Along this road, in my opinion, lies the surest means of world peace.

Kay Boysen, of Denmark, has built the largest toy business in Europe through the construction of simple wooden toys made of maple or beechwood. Boysen does not paint the toys. He believes that the child's imagination will do this in a most satisfactory way to the child. The toys are made in simple artistic lines which it is believed will give the children an appreciation of good design. The success of Boysen with a simple line of toys in a field already crowded with competition is an interesting story.

The United States has in the Pratt & Whitney Double Wasp airplane engine the most powerful altitude motor known. Its speed is rated at 400 miles an hour at a height of 20,000 feet. It is said that planes flying at this height at this speed could not be greatly hampered by anti-aircraft gun fire.

Project Tour—

(Continued from Page One)

the windows of the kitchen and dining room. A covered dish lunch was served from the dining table in cafeteria style.

In the afternoon the tour carried the women to Foard City to see Mrs. Jim Shook's yard which had a green lawn and a number of chrysanthemums. After that the group went to Mrs. Carvel Thompson's kitchen which was large with a south exposure and featured a butane gas range, and a breakfast nook.

Then the group went to the home of Mrs. C. R. Bryson, kitchen improvement demonstrator of the West Side Home Demonstration Club. Her kitchen particularly showed a cabinet with a great deal of storage space, and a green color scheme was nicely carried out.

Then the group progressed to Vivian where the kitchen of Miss Rosalie Fish, whole farm demonstrator, was shown. It showed a red, black and white color scheme and many modern conveniences. Next, the yard of Mrs. Allen Fish was visited and a rock fence, and many native shrubs were shown. After that, the group went to Mrs. T. W. Cooper's where they saw a well organized pantry and many pot plants. Last, the group returned to Crowell at 5 p. m.

Iowa Park Game—

(Continued from Page One)

untangled from a pass play on which McKinnon was covering Canup on the throw. The ruling came as a shock and met with the disapproval of the fans but the official made his decision stand and the two stars left the field. Iowa Park fans stated that the removal of McKinnon dampened the spirits of the Hawks, however, the invaders were trailing by six points and were being fairly well beaten on the statistics board and continued to battle the Wildcats until the final whistle.

The Wildcats winged the Hawks when Orr crashed over for a touchdown, after a 50-yard drive, before two minutes had ticked off the timekeeper's watch. The remainder of the first frame and the second quarter settled down into a defensive battle and neither team was able to make a serious scoring threat, however, the Hawks did get down to the Crowson 12-yard line before giving up the ball on downs.

The Wildcats set their fans at ease in the opening minutes of the second half when they took the kickoff on their own 20 and started a drive from the 46 which carried them over onto pay dirt when Orr crashed over to give Crowell a 12-0 lead. Both conversion attempts following the touchdowns failed.

Crowell's third touchdown was made with a 64-yard drive with Meason diving over right tackle to cross the chalk line.

The longest run of the game and one of the most sparking bits of stepping was turned in by A. Y. Olds, substitute Wildcat quarterback, when he intercepted a Hawk pass on the Iowa Park 40-yard stripe and sped over the goal line in the game. Again the conversion attempt failed to click but the Wildcats had carefully iced away their first conference win and settled back on the defense to await the closing whistle.

As was thought by some Wildcat followers, the Crowell line returned to its charging game and held the Hawks to 109 yards in gains and threw them for 69 yards in losses to allow Iowa Park a net gain of 40 yards on the ground. The injured guards, Murphy Sollis and Frank Dunn, were as good as new in the game and their blocking featured in Crowell's 481-yard gain on the ground.

Defensive stars for the Crowell club would be hard to name without apparently slighting some Wildcat who had turned in a brilliant defensive game. Wayne Canup, Dick Smith and Jimmie Williams starred in the wing positions to help curb McKinnon and other Hawks on end runs. The play of the tackles, Oran Johnson and Charlie Clark, has not been better this season. Sollis and Dunn played much of the game in the Hawk backfield and several times broke up plays before they could be well started.

Bill Ownbey, halfback, was shifted from the defensive half-back spot to one of the linebackers positions, and Fitzgerald, center, was shifted to the halfback place. Ownbey did a nice job of backing the line and was able to knife through the center numerous times to loom as a constant threat to the Hawks. Crowell's victory can be boiled down to three outstanding points. First, the Wildcat backs were again in top condition. Second, the blockers were connecting with opposing tacklers and, third, the Crowell line was charging as the line of any victorious club must.

The Wildcats got their power machine started early in the game to score and the Hawks were never able to completely stop Coach Graves' cohorts during the remainder of the tilt. The game was opened with the Wildcats kicking to the Hawks. McKinnon returned Fitzgerald's kickoff 10 yards to the Iowa Park 20 and the Hawks opened their play by going into the air. After an incomplete pass, Dale connected with McKinnon for 26 yards to the 46. The Crowell line rushed McKinnon back for a loss of 4 yards and Mills passed to McKinnon to put the ball on the Crowell 39-yard stripe. McKinnon was dropped for a 4-yard loss after being stopped on the previous play. On the next play, Smith crashed through to block Barbour's punt and Clark recovered for Crowell on the mid-stripe. Meason knifed the line for 3 yards and then hustled around left end with the aid of good blocking for 28 yards to place the ball on the 19, deep in Hawk territory. Orr spun through center for 14 yards. The Wildcats received an offside penalty to set the pigskin back to the 10. Meason tried right end for 9 and on the following play Orr went over for the touchdown. Canup's pass for the extra point was long and incomplete. The remainder of the first period was played on nearly even terms with the Wildcats having an edge in the ground gains. Late in the quarter, the Hawks were in possession of the ball on the Crowell 12, after making 7 yards following the recovery of a blocked Wildcat punt on the 19. This was the deepest that the Hawks were in Crowell territory until late in the game. The threat was ended on the Crowell 12, when the Wildcats took the ball on downs and started a drive that had carried the pigskin to the Iowa Park 45 at the close of the first frame.

In the second period, the Wildcats continued the drive but it was stopped when a Hawk recovered Orr's fumble on the Iowa

Park 16. The second quarter was played largely between the 30 yard lines, and it was late in this period that the umpire made the decision that ruled Canup and McKinnon out of play. The quarter was climaxed with a Wildcat drive that carried them 47 yards to the Hawk 30 as the half closed.

Second Half Twice in the third period, the Wildcats won possession of the ball and each time they scored before giving it up. Orr returned Barbour's kickoff to the Crowell 46. Meason picked up 10 and Orr added 7. Meason chalked up 2 yards and Orr skirted left end for 26 yards to the Hawks' 11 and then added 2 more. Meason gained 8 and then was held for no gain. Orr plunged over right tackle for the second touchdown and the line play failed to produce the extra point. Following the kickoff, the Hawks pushed up to the Crowell 29 and then were thrown back to the 36, where the Wildcats took the ball on downs. With excellent blocking, Orr circled left end for 21 yards to the Hawk 41 and Meason went around the opposite end for 9. Again Orr jarred loose around left end, this time for 26 yards to the Iowa Park 5. Meason added two, then dropped back to the tailback position and ran over right tackle for the score. Brown's attempted placement was no good.

The end of the period found the Hawks in possession of the ball on the Crowell 41. The first half of the last quarter was played in mid-field and Crowell's last counter came shortly after the half of the period when Olds intercepted Mills' pass and ran 40 yards to cross the goal line standing up.

Late in the game, the Hawks recovered a Crowell fumble on the Wildcat 39 and drove down to the Crowell 9, but were unable to score. Barbour passed incomplete over the goal line to close the game.

Summary Yards gained—Crowell 481. Iowa Park 109. Yards lost—Crowell 23. Iowa Park 69. Passes—Crowell tried 8, completed 2 for 28 yards and had 1 intercepted. Iowa Park tried 22, completed 5 for 60 yards and had 2 intercepted. Fumbles—Crowell fumbled three times, recovering 0. Iowa Park did not fumble. Punts—Crowell punted 5 times for an average of 24 yards. Iowa Park punted 9 times for an average of 28 yards. Penalties—Crowell was penalized 8 times for 40 yards. Iowa Park was penalized once for 5 yards. First downs—Crowell 20, Iowa Park 10.

BRAIN FOUND TO CONTROL THREE PHASES OF ENERGY Archer City—

(Continued from Page One)

across the gridirons this season and at present, the records of the two Wildcat elevens are nearly parallel, however the Archer City Wildcats have not produced the fire this year to keep them from entering the game tomorrow night as the underdogs. During the past two years, the Archer City boys have finished near the bottom while the Crowell teams have been riding on top of the gridirons and this fact including Crowell's 1939 material would alone place Coach Graves' cohorts as the favorites.

These points should not let the fans, minds wander to the fact that the Archer City team will be weak because it has victories over 200 teams and its losses have been narrow margins, in fact, the Crowell boys will probably have their hands full of Wildcats tomorrow night for about two hours.

An authority advises swimmers: "Never dive into the water first. The rush of water into the nostrils and air compression may result in sinus infections of the middle ear and the mastoid."

The English passenger liner, Athenia, was torpedoed and sunk by a German submarine just ten hours after Great Britain entered the war. In an effort to make it sure that no trace would be left as to the fate of the vessel the German submarine attempted to shoot away the wireless equipment that aid might not be summoned. The boat contained 1,400 non-combatant men, women and children on their way to Canada. The ship was wholly unarmed and defenseless.

A survey recently conducted by the Association of National Advertisers regarding the day on which Thanksgiving will be observed, reveals that 23 states will observe November 30, and 21 states will observe November 23. Texas, a large turkey producing state, will observe both days. Three states have not yet decided which day they will observe.

Locals

Lots of shotgun and .22 shells at W. R. Womack's.

K. H. Daley of the Semi-Weekly Farm News in Dallas visited Albert Fox last Friday.

Plenty Gold Seal Congoleum yard rolls at W. R. Womack's.

Mr. and Mrs. Henry Sanders and Mr. and Mrs. Ernest Anderson visited relatives in Knox City Sunday and Monday.

Mazda electric light bulbs 15c.—W. R. Womack.

Judge Claude Callaway and H. E. Thomson attended a meeting of the welfare workers of this area held in Fort Worth last Friday.

Mr. and Mrs. Fred Mize and baby son of Crosbyton visited Mrs. Ernest Anderson and Mrs. Henry Ashford last Thursday afternoon.

Get your Superflex distillate heaters now. Black \$35.00 and \$37.25; porcelain \$41.50, \$48.75 and \$57.50.—W. R. Womack.

Dr. Warner, the eyesight specialist, makes regular visits to Crowell, office with Ferguson Bros. drug store, specializing in cataracts and crosseyes. Next visit Wednesday, Nov. 8. 17-4c

Mr. and Mrs. P. D. Moseley and daughters, Virginia and Geraldine, of Canadian visited relatives in Crowell Saturday night and Sunday.

Mr. and Mrs. S. E. Tate and Ed Manard visited friends at Kamay Sunday and also visited a while with Mrs. Coystal McClure and family in Oklaunion.

Mrs. T. F. Hill of Fort Worth has been visiting friends in Crowell this week and will return home today. She came Saturday to attend the home-coming at the Christian Church last Sunday.

We have the best buys in radios! Zenith, Sentinel and Waterson electric, 1 1/2 volt sets and Windcharger sets at W. R. Womack's.

Mrs. R. L. Kincaid, Mrs. N. J. Roberts and Mrs. M. S. Henry and Mrs. Jno. Carmichael of Vernon went to Fort Belknap, near Newcastle, last Thursday to attend an Inter-County Federation meeting. Mrs. Kincaid was a speaker at the meeting.

Mrs. H. L. Woods and son, Billy, of Fort Worth spent Saturday and Sunday with Mr. and Mrs. H. D. Poland. Mrs. Woods is the daughter of Mr. and Mrs. C. M. Church, former residents of Crowell. She came to Crowell with Mr. and Mrs. Grady Lanier, also of Fort Worth.

Let us put up that Windcharger for you—we wire your home; also pipe it for Butane gas systems.—W. R. Womack.

CARD OF THANKS

We want to express our sincere thanks and appreciation for the many kindnesses shown us in the death of our daughter and sister, Velma Haney. Also for the beautiful floral offering. May God's blessings be upon you. Mr. and Mrs. T. M. Haney and Family.

Sauerkraut History

Sauerkraut was introduced and popularized in this country by German immigrants, and of course the name is German, but there is evidence to show that it may not have originated in Germany. There is no definite information as to when or where the idea occurred to shred cabbage and leave it to ferment in brine made from salt and its own juice. One writer traces it to Asia, showing how the Tartars first passed on a sauerkraut recipe to the Slavic peoples of eastern Europe, who in turn gave it to the ancient Germans. There is evidence also that this food has been made in Alsace and in Holland from very early times.

Bergdoll's Mother

Mrs. Emma Bergdoll, mother of Grover Cleveland Bergdoll, notorious World War draft dodger who came back from German exile to "face the music," is shown at her son's trial in New York.

Mrs. H. Schindler, Mrs. R. J. Thomas and daughter, De Alva, went to Wink last Saturday for a short visit with their daughters, Mrs. T. V. Elliott and Mrs. I. Fisch. Mrs. Elliott returned with them Monday for a visit here.

Mrs. R. L. Kincaid was presented by the ladies of the First Christian Church in Vernon Tuesday afternoon. She talked on her recent trip to Hawaii. She was accompanied to Vernon by Mrs. J. H. Shultz.

WILLIAM TYNDALE IS CALLED FATHER OF ENGLISH BIBLE

William Tyndale has been called "The Father of the English Bible." It was he who first printed parts of the Bible in English and sent them broadcast through the land. There was a law forbidding anyone to translate the Scriptures into English without authority, and when Tyndale applied to the bishop of London for permission he was refused. To him the translator made his famous declaration: "If God spare my life, I will cause a boy that driveth a plow to know more of the Scripture than thou dost."

While at Cambridge, Tyndale had been under the influence of Erasmus, the greatest Greek scholar of his day, and it was there that he made himself familiar with the Greek testament. He was determined that the people of England should have the advantage of reading for themselves the Word of God through the new invention of printing, and when he found that this could not be accomplished at home, he left for the continent. That was in 1524. In Hamburg he worked in much the same way as Jerome had done nearly a century before and a year after he was at Cologne with the sheets of his quarto New Testament ready for the printer.

One day a message came that he was being watched, so with his precious sheets he escaped to Worms. It was there that he succeeded in publishing the first edition of the New Testament in English. The volumes were taken secretly into his own country hidden in cases, in barrels, in bales of cloth, and wherever they could be stowed away and before long they were in many homes throughout the land. To make the shipping of them easier Tyndale also printed an edition in a smaller size.

Thousands of copies were seized and burnt, but when the translator heard of this his comment was: "In burning the book they did none other than I looked for; no more shall they do if they burn me also, if it be God's will that it should be done." Tyndale also translated parts of the Old Testament, but for his efforts he was thrown into prison. His last prayer was—"Lord, open the king of England's eyes." He was eventually strangled and his body burnt at the stake. All this was done in the name of religion.

Sound of Voice

The sound of the human voice is as dependent from its pleasant qualities upon the air as it is upon the organs which produce the sound. Experiments were made by Dr. Ernst Barany, of the University of Upsala, Sweden, in which the air with which the lungs are normally filled was replaced by hydrogen. The subject under experiment exhaled air and breathed in hydrogen from a rubber bag. Using the hydrogen as a medium for carrying the sound waves he spoke many test syllables which were studied in many ways and compared with the sounds produced when air was breathed. The lighter gas in the body cavities caused some of the sound frequencies in the voice to be raised one to two octaves. Test listeners were able to understand only about two-thirds of the syllables spoken.

Quanah Juniors Nose Out Crowell Kittens 7-6 Here Last Week

The Quanah junior gridders invaded Crowell last Thursday afternoon to even an old score with the Crowell juniors by ringing up a closely-contested 7-6 score. The local youths had traveled to Quanah three weeks ago to hand the Quanah boys a 7-6 defeat.

In their first meeting, Quanah scored first and failed to convert the extra point, and later Crowell scored and converted. Last Thursday, Crowell tallied first and the conversion fizzled, and Quanah scored later and registered the all-important extra point.

Crowell's touchdown came in the first quarter, when Charlie Nelson, quarterback, looped a long pass to Ralph Flesher, halfback, to the 1-yard line, and on the second play, Nelson scored the touchdown on a line play. A pass for the conversion was intercepted.

In the third quarter, Ray intercepted Nelson's pass and raced 50 yards to the goal line, and then plunged into the line for the winning point.

The Quanah lads had driven the ball down to the Crowell 1-yard line only seconds before the game closed and a line play failed to produce a second score.

It is planned for the Crowell juniors to invade Paducah on Thursday of next week and then the Paducah team will come to Crowell to return the match.

BUYS GROCERY BUSINESS

Mrs. Coystal McClure, who has been connected with the Everybody's Food Store in Crowell for the past several years, has purchased a grocery store in Oklaunion.

Mrs. McClure and her children moved to that place last Friday and she took over the management of the store Monday.

W. F. Statser, who had also been with the same business here for some time, also moved to Oklaunion and will have charge of the meat department of the business.

Mr. Statser was replaced in Everybody's Food Store by J. D. Stewart of Chillicothe, who had previously been employed by a Vernon grocery.

The product Bakelite, well known plastic material, gets its name from the Belgian chemist, Dr. Leo Hendrick Baekeland, who discovered the process of making it from carbolic acid and formaldehyde. Over 2000 different varieties of Bakelite materials are manufactured, and sales total \$10,000,000 annually.

Comely 'Refugee'

Wilma Birth of Chicago was among the prettiest American refugees arriving from war-torn Europe aboard the S. S. Volendam, a Dutch vessel.

WPA Project—

(Continued from Page One) is done by hand. Mr. Campbell stated that each man on the loading crew was moving approximately 19 yards of dirt per day. Mr. Campbell is the project superintendent and Milton Callaway is the sponsor superintendent. L. C. Cobb is the timekeeper.

Stops Drafts!

A new device to stop drafts entering under a closed door has been invented by a Cleveland, Ohio, firm. It screws on the bottom of a door and automatically flips up and out of the way of carpets when the door is opened, flips back again when the door is closed.

Repairs Lag

Recent surveys in Wisconsin, Kansas, Georgia and Illinois indicate farm building repairs are lagging in comparison with former years.

ORR'S Veri-Best Bread. Orr's Bread makes good sandwiches. It's good plain . . . real good if toasted.

Advertises Walking Tours

Scotland's railways advertise and arrange walking tours known as "Out by Rail—Hike Across Country—Return by Rail." Very cheap day return tickets make the tours ideal for those whose legs are in better condition than their pocketbooks. The return need not be from the same point or by the same railway.

Arriving in Ireland

An Irishman recently found fault with Stevenson's famous line to the effect that "it is better to travel hopefully than to arrive." He says that to arrive in Ireland is better than to travel hopefully, and quoted this couplet: "There's no land anywhere that men love every bit, except old Ireland and the blue sky over it."

Feed Crops

Agriculture officials estimate that in 1915 it required 96,000,000 acres of farm crops to feed horses and mules in the United States, but in 1936 only 54,000,000 acres were required. Pasture requirements dropped from 90,000,000 acres to 55,000,000.

Literary Tree

In Coole Park, Ireland boasts "its most literary tree." This growing timber shows honorable scars in the shape of signatures in the bark of William Butler Yeats, Edward Martyn, Synge, George Moore, and George Bernard Shaw.

The San Francisco Stock Exchange has announced that it will move to Reno, Nevada, if the "Ham and Egg" pension plan to be voted on November 7, carries. The "Ham and Egg" plan provides for the payment of a pension of \$30 every Thursday to everyone over 50.

English Sparrow

The common (English) sparrow is the most numerous bird in England, both in town and country.

University of Texas President Will Visit Wichita Falls Friday

Prominent business men, county officials, and ex-students of the University of Texas in Crowell and the surrounding area are being invited to hear Doctor Homer Price Rainey, new President of the University of Texas, when he visits Wichita Falls on Friday, November 3, under the direction of the Wichita Falls Junior Chamber of Commerce.

A luncheon will be held at 12 o'clock noon on November 3, at the Holt Hotel. At this luncheon, Dr. Rainey will speak on the development of the State University and will explain the workings, development, and activities of that institution. The public is urged to attend this meeting. Many of the most prominent business men, school officials, county officers, and community leaders will be present in addition to a large representative attendance of ex-students of the University from the various cities and communities in this section of the state.

Dr. Rainey is serving his first year as President of the University and is visiting all of the larger cities in the state stressing the part the University of Texas can assume in promoting the development of the state.

Dr. Rainey is a native Texan, having been born in Clarksville, January 19, 1886. He received his Bachelor of Arts degree from Austin College at Sherman in 1919; and, while a student, he was a "three-star" athlete, having played football, tennis and baseball.

Airplane speeds have increased every year since the Wright flight in 1903. Speed as high as 450 miles an hour is now possible.

Within the last year Great Britain and France have placed orders for 1450 airplanes with American manufacturers. The orders totaled \$121,432,419. The failure of Congress to amend the Neutrality law found one-fourth of these undelivered.

Foard County, Texas, where she receives her mail, this the 19th day of October, A. D. 1939.

MAY SELF, Independent Executrix of the Estate of Mark L. Self, Deceased. 19-4tc

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership between R. K. Wootten, Effie D. Wootten, J. W. Simmons, Rebekah Simmons, G. A. Simmons and T. B. Simmons (or any of them) under the firm name of Quannah Cotton Oil Company, was dissolved on May 31, 1939. The business will be continued in the name of Quannah Cotton Oil Company, a Texas corporation. All debts and obligations owing to the partnership should be paid to the partnership at Quannah, Hardeman County, Texas. All debts and obligations owing by the partnership should be presented to the partnership at Quannah, Hardeman County, Texas.

This notice is published once each week for four consecutive weeks in each of the counties where the partnership has a place of business, as required by Article 6132 of the Revised Civil Statutes of Texas.

Dated at Quannah, Texas, May 31, 1939.

Quannah Cotton Oil Company, a partnership.

By J. W. Simmons, Rebekah Simmons, G. A. Simmons, T. B. Simmons, Surviving Partners. John B. Wootten, Executor and trustee of the estate of R. K. Wootten, deceased, Effie Wootten Siddons, Executor and Trustee of the estate of R. K. Wootten, deceased, and as executor and trustee of the estate of Effie D. Wootten, deceased.

Annie Victoria Durand, Executor and Trustee of the estate of Effie D. Wootten, deceased. 19-4tc

Your Horoscope

October 30.—You are easily impressed and have an intensely affectionate nature. Unfortunately you are conceited. You have a wonderful faculty of remembering what you hear and read and like to let people know you are well informed. You have a wide circle of friends who admire you for your ability but you also have many enemies.

October 31, Nov. 1.—You vacillate between periods of elation and depression. You fly into a rage easily and subside just as quickly. Underneath this tempestuous nature you are very lovable and tender. You meet big issues bravely but are overcome by the little problems. You have an aloofness that repels close personal attack.

November 2, 3.—You have a leaning toward the mysterious and the depth into which you enter this is a worry to your friends. You are possessed of great energy, independent in thought and action and very impetuous but are easily disheartened.

The deepest place in the ocean yet found is off the island of Mindanao in the Philippine group, where a sounding of 35,400 has been reported.

East Side Church of Christ Bible classes at 10 o'clock Sunday morning. Communion at 11 a. m. Everyone is invited to come and worship with us. —Reporter.

Christian Science Services

"Adam and Fallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 5.

The Golden Text is: "Awake thou that sleepest, and arise from the dead, and Christ shall give thee light" (Ephesians 5:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "The Lord appeared to Abram, and said unto him, I am the Almighty God; walk before me, and be thou perfect" (Genesis 17:1).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The conceptions of mortal, erring thought must give way to the ideal of all that is perfect and eternal. Though many generations human beliefs will be attaining diviner conceptions, and the immortal and perfect model of God's creation will finally be seen as the only true conception of being" (page 260).

Our Weekly Sermon

By Rev. Henry Ostrom, D. D., Extension Staff, Moody Bible Institute, Chicago.

Reverence Text—The fear of the Lord is clean, enduring forever.—Psalm 19:9.

Who would expect to find a lesson on sanitation in the Nineteenth Psalm. We would not be so surprised to find a lesson on durability in a psalm that begins, "The heavens declare the glory of God," and ends, "O Lord, my strength, and my Redeemer." But here is the word "clean," and, lo, it endures forever! So we have sanitation and durability. That is a sanitation that can never be smirched—obtained in the fear of the Lord (Ps. 19:9).

To say that "the fear of the Lord" means reverence, is to employ a very good explanation, but we can find great profit in tracing some of the uses of the expression through the Psalms.

That this expression cannot mean that an attitude of dread or of fright should prevail toward God, appears when we read, "Great is his mercy toward them that fear him." He will bless them that fear the Lord. . . . Ye that fear the Lord, trust in the Lord" (Ps. 103:11; 115:13; 115:11). Since it tells of an attitude in which God's mercy is evident, and in which is God's approval, and in which is begotten our trust or confidence, then it cannot mean to be frightened or to suffer dread. For mercy is a cure of dread. To have the approval of God is certainly to know peace with Him, rather than dread; and to trust Him is to rest upon Him, while to dread would imply trying to escape Him.

We are further taught that wisdom begins with the fear of the Lord (Ps. 111:10). Now knowledge might be without wisdom, and extensive knowledge at that. We know that a man may have expert knowledge about live wires, and not have wisdom to refrain from grasping one and being killed by it. Knowledge is one thing, wisdom quite another. So one cannot have wisdom (not knowledge) unless he possesses the fear of the Lord. And that cannot mean consternation.

Again we read, "The secret of the Lord is with them that fear him" (Ps. 25:14). Ah, there is attainment. Secrets that have merit belong to lovers. Secrets have knowledge of facts not generally discovered. Secrets and confidence go together. The gauge for keeping a secret is honor, reliability, trustworthiness. Hence to have this great wealth concerning God one must have the fear of Him; and how could that mean dread.

But God is very great. To lose the grasp of that fact is to have a bloated and diseased estimate of ourselves. A minute's gaze at

Surgical Skill Aids Persons Injured in Auto Accidents

Austin, Oct. 30.—Surgical skill has cheated the Texas traffic death book out of a number of victims. State police asserted today as they counted the toll for the first nine months of 1939.

The score: 1,089 beyond medical aid; 9,898 injured, many so critically they were saved only through quickly administered treatment by surgeons.

September claimed 128 lives while 1,233 were hospitalized. Thirty-one of the dead were pedestrians, eleven of whom were crossing streets at locations other than intersections when struck down, the State police summary stated.

Daily from 5 p. m. to 9 p. m., the peak accident hours in September, ambulances made emergency runs to a total of 441 crashes in which 37 persons were taken to mortuaries instead of hospitals—all of these crashes, State police director Homer Garrison Jr. pointed out, were due to carelessness on the part of average motorists.

The 1,586 collisions that month involved 2,563 vehicles and drivers and resulted in an economic loss of \$3,150,000, statisticians computed, in addition to the loss of life and the large injury toll. Glaring headlights accounted for two of the dead while 24 were killed in non-collision accidents, usually caused from driving too fast for conditions.

Puzzling to traffic analysts were the 1,131 crashes which occurred on straight, level roads, 205 of which involved illegal passing. In 1,190 of the 1,486 collisions there were no defects in road construction that might have added to driving hazards. Only 183 of the 2,563 drivers were reported to have been drinking.

Brief Bits of News From Here and There

The Chase National Bank of New York City is the nation's largest private bank with assets over \$3,000,000,000.

Apples are America's most widely distributed fruit crop. They can be grown in every state and are produced commercially in all but nine states.

The state of Washington is the largest producer of apples in the United States.

The brewing industry is faced this year with a shortage of hops, its basic raw material. The consumption by brewers totals 36,000,000 pounds annually. The shortage is due to the fact that imports from Central Europe are restricted and because other countries which usually buy their hops from Central Europe, because of the war are turning to the United States.

CARNIVAL

Junior Carnival which was Saturday night in the past was a great success, due to the juniors. The class approximately \$23. The wish to thank everyone for support.

ADDED ATTRACTION

Mentally and confidentially, please wish to remind you this week is Safety Week as declared by the Governor.

PROJECT COMPLETED

certains for the Home department are completely ready for inspection. Not certain but five new waste receptacles have been added to the plant. The treasurer reports cent left in the fund.

A ROBBERY

safe in the High School of was broken into the past week. The thieves were more likely disappointed since they did not get the safe. Let us a lesson to you and remember you would be thieves—would you not pay?

TEAM ORGANIZED

Junior basketball team has organized with Cotton Owens as the coach. Thirty boys are out for basketball. The line-up is as follows: H. Owens, center; B. Owens, T. L. Owens, forward; B. Owens, forward; C. Davis, forward; A. Roark, center; C. Nelson; G. Erwin, forward.

TWO GAME SERIES

Quannah Palookas tied up game series with the Wildcat Thursday afternoon when

they came out on the long end of a 7-6 score. This was the same score that the Wildkittens defeated the Palookas by at Quannah two weeks ago. The Wildkittens led in first downs, 7 to 3, and in yardage gained, but they couldn't keep some of their passes from back firing. Crowell scored in the first quarter. Two long passes from Charles Nelson to Charlie Thompson and from Nelson to Ralph Flesher placed the ball on the two-yard line. Nelson drove over on a line play for the touchdown. A forward pass failed to make the extra point. Quannah scored in the third quarter when Roy intercepted one of Nelson's passes on the 50 yard line and ran for a touchdown. A line buck made the extra point good. Quannah threatened to score again in the last of the game on an intercepted pass, but the Crowell line held on the one-yard line. Crowell penetrated Quannah's twenty-yard line on offensive plays in the second quarter, but an intercepted pass broke the threat.

The following boys participated in the game for Crowell: J. T. Hughton, Charlie Thompson, Milton Evans, T. L. Owens, Alton Roark, Leroy Hairston, Joe Wells, Charles Nelson, Ralph Flesher, Albert Bird, DeWitt Cauthan, Paul Vecera, Billie Diggs, Harold Canup, David Parkhill, Leland Lewis, and Clifford White.

THIS WEEK IN HISTORY

- October 30.—St. Paul's Chapel, New York City, opened, 1766. John Adams, 2nd president, born, 1735.
- October 31.—China proclaimed a republic, 1911. Robert Woolsey, of the Wheeler and Woolsey movie team, died, 1938.
- November 1.—Stamp Act became a law, 1765. Completion of the international bridge of the Grand Trunk railway between the United States and Canada, 1873.
- November 2.—Kansas adopts prohibition, 1880. Garrett A. Hobart, vice president under McKinley, died, 1899.
- November 3.—William C. Bryant, poet, born, 1794. Austria surrenders to Allies, 1918.
- November 4.—Stephen Johnson Field, Associate Justice of the U. S. Supreme Court 33 years, born, 1816.
- November 5.—The United States recognized the independence of Panama, 1903. American Revolutionary army disbanded, 1783.

NOBODY'S BUSINESS

BY JULIAN CAPEIRS JR.

Austin.—The Supreme Court of Texas will have an opportunity to pass upon the ruling of Attorney General Gerald Mann, declaring the state tax remission bill, giving away one-half the State's ad valorem tax revenue to the counties for a five year period, unconstitutional. Dallas County officials, counting upon the State money in making a budget for 1940, and with an overdraft of over \$800,000 in the general fund of the county, have arranged with Dallas lawyers to bring a friendly test suit, seeking to enjoin the county from creating any indebtedness based upon this item in their budget. They will endeavor to get county officials of other counties to join them as intervenors in the suit. The plan is to obtain an injunction in district court, take a quick appeal to the Fifth Court of Civil Appeals in Dallas, ask the latter court to certify the questions, and so direct to the Supreme Court, getting a decision soon after the first of the year. Best legal opinion is that Mann's ruling will be upheld by the highest court.

Flowers Appointed

M. O. Flowers, of Lockhart, who has had some 18 years professional experience in politics, as county judge of Caldwell County, and as a regent of the Teachers' Colleges, is the new Secretary of State, named by Gov. O'Daniel to succeed Judge Tom Beachamp, who moved up to the Court of Criminal Appeals last week.

Alsop on Warpath

Rep. Lonnie Alsop, blind veteran House member from Panola County, this week "demanded" resignation of Adam R. Johnson, director of the public welfare department. Alsop, House sponsor of the bill creating the Welfare Board, objects to Johnson's retaining efficient members of the Pension administration, declaring it was the "intent of the Legislature" to "clean out" the pension employees under the new setup. He also complained Johnson has not carried out the intent of the liberalization of the pension act, by adding some 40,000 eligibles to the rolls. Johnson declared Alsop sought a job as personnel director of the Welfare Board, but didn't get the job. He pointed out, as has previously been related in this column, that reinvestigation of the 120,000 now on the pension rolls must be carried out promptly, or the State will lose federal pension aid, and that the

Wage Earners Request Standing on Old-Age Insurance Accounts

Need New Law

This incident, and another this week, focussed attention of some officials on the need for a new law which would prevent members of the Legislature from being given jobs with State departments, during the period for which they are elected to the Legislature. The Constitution prohibits a legislator being appointed to State office, and under the rulings of Attorney General Mann, no such appointments have been made, although the constitutional provision has frequently been ignored by Gov. Alfred and others in the past. But there is nothing in the law or the constitution to prevent a legislator showing great zeal in behalf of some department through a session, and then, when the session is over, resigning from the legislature to accept a fat-paying job from the department he sponsored.

Rep. W. N. Corry, of Tarrant County, ran into trouble when Attorney General Mann held that once a legislator resigns, he has done so "for keeps" and can't take it back. Corry quit to take a job as assistant director of the Old Age Assistance Commission on July 5. A couple of months later, the pension setup was taken over by the new Welfare Board, and Corry was fired by the new director. Then Corry sought to withdraw his resignation, and resume his seat in the House, but Mann held this was illegal.

Rail Race Looms

Hottest competition in next year's election, outside the governor's race, is expected to be for the post of Railroad Commissioner, now held by Lon Smith. Smith will have as opponents, according to reports here, at least three strong candidates, including Roy Hoffmeier, county judge of Harris County; Bill McCraw, ex-attorney general; and P. Pierce Brooks, of Dallas, who gave Lt. Gov. Coke Stevenson a real scare in the runoff last year for Lieutenant Governor.

THOUGHTS OF SERIOUS MOMENTS

Love your enemies, or you will not lose them; and if you love them, you will help to reform them.—Mary Baker Eddy.
Observe your enemies, for they first find out your faults.—Aristophanes.
A merely fallen enemy may rise again, but the reconciled one is truly vanquished.—Hohann Schiller.

Convicted Pastor Fights for Life

Wichita Falls, Oct. 30.—Requests by wage earners for statements showing their standing on old-age insurance accounts are reaching the Social Security Board in steadily increasing numbers since the amendment of the Social Security Act, according to Rescoe L. Surles, manager of the Wichita Falls office of the Social Security Board. The total number received by the end of September was approximately 130,000. About 20 per cent of these requests reached the Board after August 10, the day the President signed the bill revising the security law.

Increasing interest on the part of the country's wage earners in the standing of their wage accounts was attributed by Surles to their rapidly developing realization of the importance of these accounts. "The amended law," he said, "makes it even more evident that it is to a man's interest to see that he gets credit for every dollar of his wages. Under the amended law, the determination of benefits is based on the worker's average monthly wage; but the amount of this average depends, of course, upon total earnings."

Surles said reports from Washington revealed only a small percentage of cases in which the employer had failed to report fully and accurately his employees' wages. "The Bureau of Old-Age and Survivors Insurance hopes, however," he added, "that every wage earner who feels that an employer may have failed at one time or another to report his wages will ask for an accounting. For the employee's convenience a post card form has been prepared. Any worker can get one of these forms at any of the Board's field offices. All he has to do is to fill it in and mail it to the Board. Within a short time he will get a statement him."

HOUSEHOLD HINTS

- A small quantity of hot milk (not boiled) added a little at a time to mashed potatoes will make them light and fluffy.
- A stick of wax and a brush of oil will do much to take the curse off furniture scratches. The wax will fill in the scars and the oil will darken the wax.
- Fruits not quite ripe make the best jelly.
- A strong hot solution of salt in water without soap will remove odors from dishes.

The United States annually exports 11,000,000 bushels of apples.

Rev. Walter Dworecki, Camden, N. J., preacher, sentenced to die in the electric chair, is getting another chance to prove his innocence. The pastor will appeal his sentence, given him when he was found guilty of plotting the murder of his daughter, Wanda, who was slain by a stranger who testified Dworecki hired him to commit the crime. He is shown receiving a final embrace from his daughter, Mildred. The appeal automatically postponed the execution date, originally scheduled for the week of November 12.

The building of airplanes in this country cannot be carried on by mass production methods due to the fact that a design becomes obsolete due to improvements as soon as it is produced. Last year in the manufacture of one type of engine 1082 changes were made, which was an average of ten changes for every eighteen motors.

In The News 15 Years Ago

The items below were taken in whole or in part from the issue of The Foard County News of Oct. 31, 1924.

Hen Does Duty
Ben Hinds has about 200 hens and of late they have not been laying very many eggs, so Mr. Hinds fed them a laying mash the other night and 199 of the hens went directly to roost, but the 200th hen went to the nest and laid an egg before retiring.

New Cars Registered
A total of 32 new automobiles were registered in Crowell during the past two weeks. Twenty-six of the newly purchased cars were Fords, 5 were Chevrolets and 1 was a Star car.

Thalia School Opened
The Thalia school opened Monday morning in the new school building with 140 pupils present and a full corps of six teachers. The teachers are: A. D. Boyd, superintendent; Lewis Selvidge, Miss Nettels, Mrs. A. D. Boyd, Miss Cora Carter and Miss Maty Reid.

Opening New Business
A. W. Lilly was here from Foard City Monday and placed an order for stationery for the new business which he is opening up at that place, a garage and filling station. This is the only establishment of its kind at Foard City.

Attending Convention
Mrs. W. W. Griffith, worthy matron of the Crowell Chapter, Order of Eastern Star, left last Saturday for Galveston to attend the 42nd convention of the Grand Chapter.

Cotton Reaches High Mark
C. W. Thompson, public weigher, had weighed 3,000 bales the first of the week and was weighing up towards 100 bales a day at that time.

Football Today
Last Saturday the Crowell football team suffered defeat at the hands of the Knox City team on their grounds. They will play the boys this afternoon and they are planning to give them just what they need, a severe defeat.

Making Improvements
Material is now being placed on the ground for the reconstruction of the transmission system of the Utilities Co. New poles have arrived and they will be placed in the alleys wherever they are needed, says Mr. Porter. The entire system and plant will be rebuilt.

Protect Your Home with Electric Light

A 25-watt bulb burns 8 hours for 1¢ and gives

2,144 Times More Light than a Penny Box of Matches*

WHY TAKE CHANCES with matches when Electric Service is cheaper and safer? Remember that it is dangerous to strike matches to light dark places such as closets, stairways, or basements where it might cause explosions by igniting trapped gases. A small bulb gives better light—costs less.

Remember that "The Electric Way Is the Safest Way to Live." It also is the most economical way and the most comfortable way. You can safely depend on Electric Service for Light, Cookery, Refrigeration and the many odd jobs around the home. The average daily cost is LESS than the tax on two packages of Cigarettes!

The full horror of Fire resulting from matches frequently is related in the daily press. In the interest of safety, use Electric Service to dispense with unnecessary fire hazards.

West Texas Utilities Company

The Electrical Way Is the Most Centsible Way to Live

Light Costs Little!
...and it makes JOBS for this company's 1,000 employees in West Texas, whose annual payroll is \$1,300,000. Your Electric Servant also pays an annual tax bill of nearly a half million dollars.

*A penny box of matches averages about 43 to the box. Each match burns approximately 22 seconds—a total of 15 minutes. Each gives one foot-candle of light—a total of 15.
In comparison to a match, a 25-watt light bulb gives 67 foot-candles of light—and burns a total of 8 hours for only 1 cent. On this basis, the 25-watt bulb gives 2,144 times more light for a penny than a penny box of matches.
