### Fear to Visit Dentist May Cause Pain and Trouble Later On

Austin.-In spite of the great advances that have been made in dental instruments, local anaesthesia and operative methods in recent years, there yet are many persons who have an unjustified fear of the dental sheir. Unfortunately, this attitude influences thousands to postpone the to himself and he is Eddie Guest located? visit to the dentist until there is actual pain or until an accident to tooth structure occurs. Such a fear-complex not only is foolish but often made and not interest and most intimate friends, and he is Eddie Guest to all the world," Bingay writes to all the world," Bingay writes in the current Rotarian Magazine.

"Eddie is always true to himbut often produces real suffering, loss of teeth, serious illness in addition to unnecessary expenditure of money, Doctor George W. Cox, state health officer, states. "It is true that some discomfort

is connected with dental corrections, though often this fear may be psychological fear of pain rather than the pain itself. However, in view of the actual damage that can result because of delay, temconsideration whatsoever in a wise-and-economical personal dental program porary inconvenience deserves no self. tal program. die Guest, himself!"

"Common sense suggests that early discovered dental faults are more easily and painlessly corrected than those that are permitted to become aggravated through neglect and for which a cure

sought only as a last resort. The time to discover dental defects, that such trouble exists. Preven-tion of dental defects is less paintherefore, is before one is aware ful than correction. For this reason, it is excellent

practice to adopt a regular semiannual schedule as the minimum number of visits to be made to your dentist. Of course, if the necessity for dental attention should arise in the meantime, it is wise to make an immediate appointment with the dentist. Postponing a consultation on the fearalibi increases the probability of real discomfort not to mention more serious complications.

In short, what one should fear is not the slight discomfort of the risited relatives in Red Springs and son, Charles Howard, Miss dentist's office when the visits aturday.

take a big jump ahead. The Ford does that for 1941.

It has jumped ahead in size. It's the biggest Ford we've ever built, inside and out. It's wider. It has a longer wheelbase. Its seating room is wider by as much as 7 inches. It has new wide doors and semi-concealed running boards.

You'll notice also a new beauty, achieved by a skilful blending of mass with longer flowing lines. Larger windshield and windows give better vision all around.

One of its biggest advantages is the new soft ride.

In some years, some cars New, slower-action springs give a slow, gentle, gliding movement. A newly designed stabilizer helps absorb road shocks, and maintains balance on sharp curves and in cross winds.

> More rapid acceleration to match its familiar speed and power makes this new Ford an even livelier car to drive.

> These are only a few of this new car's outstanding features. It represents all the rich experience gained in building more than 28 million motor cars.

Any Ford dealer can give you many good reasons for making this your 1941 car.

young people do not attend Sunnool where are they going get their religious training and hat sort of a religious back ground are those young people going to make when they become

Children and young people of today, whether we like it or not, are more nearly free agents than they were in mother's day and grandmother's day. They think for themselves. They have to be tion exists but rarely today. As a consequence a different man-We approve, without qualifica- ner of approach is going to have to be used than was used thirty naval and air bases by this gov. and sixty years ago. Whether the ernment in exchange for fifty ovpresent day condition is the more desirable or the best for the young people and their futures I am not prepared to discuss. Time will tell that, but the fact remains that the condition does exist and that continue to keep democracy's it was created by the adults themfrontier battle line on the English selves who seem not prepared, in many cases, to cope with it, not only in the matter of church and Sunday School attendance but in many other aspects of life.

Briefly I am going to recite a few of the answers to the above question as I have learned them from experience, observation and talking with young people them-

One reason why young people do not attend church and Sunday School is that the parents do not. Few parents who do not make church attendance and Sunday School attendance a habit are able to influence their children to attend. The young people meet the suggestion, in their own minds at least, with the question, "If it is

tendance and interest by young down. After being held for their heavier opponents could not be before the half ended. people is that the program is of- downs on the opponents' 18, the break and played a great brand ten not the type that interests young people. They go where they are interested and the church and Sunday School program has and Sunday School program has back to the Paducah 3-yard line formed a running combination DRA and choice.

Another reason for lack of attendance and interest is the type of and the manner in which the essons are presented. It requires an exceptional teacher and leader to present a lesson, better adaptfor a seminary class, to a group of young people and hold their interest, The lessons, if they are going to interest, must be down where the young people are liv-

# Clubwoman: Wagewoman: Homewoman-

SHE'S THE SAME PERSON, when she goes to a

At her club meeting, it's kind of fun to hear some radical lecturer "prove" that make manufacturers are slickers, most store cheese is chalk, and most advertising is ballyhoo.

But watch the clubwoman when she starts buying. She wants her money's worth and she gets it. How? By first consulting the advertisements. Then by choosing the products she knows-the trade-marked, nationally advertised products that have been on the market for years.

Those trade-marked, advertised articles are the ARISTOCRATS among all the things she buys-or that any of us can buy.

100L BELLS are ringing for American boys and girls.

In many other lands today youngsters aren't so lucky.

Sirens are screaming in their ears, sending them scurrying into underground shelters.

We can thank our lucky stars and stripes for escape from such terrors. Our flag is a symbol of freedom in a country despised by oppressors who think Americans are far too rich.

We are rich. Gloriously rich. Not in money but in a wealth of the kind of things we can use and enjoy. For instance, with only 7% of the world's population, we have half of the world's railroads; half of the world's coffee is served on our tables; we consume twothirds of the world's oil. We own more automobiles, radios, telephones than all the rest of the world put together. And, more important, we have the freedom to enjoy these things as we please.

Electric service is another good example. Electric service brings us light, music, refrigeration, easy washing, cool ironing, good coffee . . . for only a few cents a day.

Not only does electric service give us more of the good things of life but it brings them to us at a steadily lowered cost. Because of your increased demand for electricity, and our economical operation, electric rates during the past twelve or fifteen years have been cut about in half. And you can automatically reduce the average rate you pay still further; the more electricity you use each month, the lower your average rate will be.

The employees of your electric company are proud to be members of an industry that has always been among the leaders in giving the public more and better service for its money. And we are grateful to you for your help in making our efforts succeed.

# The Santa Fe's 80th Birthday The Santa Fe was born September 17, 1860, in a tiny, one-story

brick building in Atchison, Kansas. There thirteen men met to form "The Atchison and Topeka Railroad Company," with Cyrus K. Holliday, founder of Topeka, Kansas, as its first President.

# Beginnings

Cyrus Holliday visioned a great railroad that would supplant the slow and dangerous traffic over the old Santa Fé Trail—a railroad reaching deep into the prairies, piercing the mountains, ever serving and growing with the Southwest. Those were stern, hard times on the raw frontier.
The drouth of 1860, the Civil War and the post-

war chaos, prevented construction until November, 1368, when ground was broken at Topeka. On June 28, 1869, the first Santa Fe train was operated from Topeka to Carbondale. The line was extended to Emporia in August of 1870. Westward

Settlement quickened along the new right-of-way, as Santa Fe's land and immigration department pushed surveys west of Emporia. The rails reached Newton in July, 1871, and Hutchinson, Great Bend, Larned, Dodge City and the Colorado line in 1872. San Diego, Galveston, Chicago

After 1876, many branch lines were constructed in Kansas. Settlers poured in. The main line was pro-

jected across New Mexico, Arizona and Californ Colonization continued westward into those states and into Texas and Oklahoma. Santa Fé, New Mexico, was reached in 1880; San Diego, California, in 1885; Galveston, Texas, in 1886, and Chicago in 1887. Thousands of tourists followed the early settlers. The Santa Fe became the outlet for the innumerable products of a vast Southwestern area

# Today

Today, with 41,000 employes and 13,414 miles of track, the Santa Fe directly serves Illinois, Iowa, Missouri, Kansas, Oklahoma, Texas, New Mexico, Colorado, Arizona and California.

The Santa Fe and the Southwest Down through the years the Santa Fe has endeavored to develop Cyrus Holliday's dream—a great pioneer's dream of that swift, sure transportation without which no frontier, no matter how rich, can hope to fulfill its destiny. In that effort we have marched shoulder to shoulder with the people of the Southwest, in good times and bad, in friend-ship and understanding.

On our 80th birthday, we of the Santa Fe pledge a continuation

# SATURDAY SPECIALS

Ladies' and Men's NEW FALL SLIPPERS \$2.95 values

EXTRA SPECIAL Ladies' FULL FASHIONED SILK HOSE 69c values

JUST RECEIVED NEW SHIPMENT NYLON HOSE Larkwood and Humming Bird
