SUPPORT YOUR HOME TOWN

SWEET N' SOUR

By A. Dill

Have you ever seen more of an abundance of wild flowers than we have this year? Every roadside and hillock has a carroadside and hillock has a car-pet of gold, patched here and there with the rich red of In-dian blankets and fringed with daisies. Texas can produce if it gets the slightest cooperation from Mother Nature, and the rains this spring verify it.

from Mother Nature, and the rains this spring verify it.

School closed last week with a sigh so audible you could hear it all over town. A formal closing was held in the Cafetorium Friday afternoon, but in the day preceding that Ruth Bowlus second grade lived it up with a calypso program for all the school. There's lots of talent in that second grade and the entertainment they concocted was way beyond the amateur class.

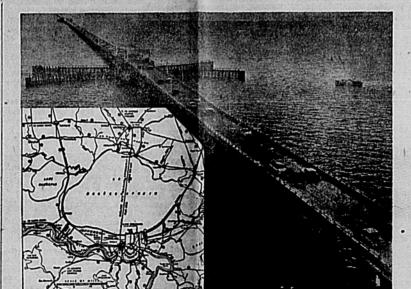

One department of our school which doesn't stay idle during the summer months is Mrs. Hamrick's home making classes. Summer project work begins soon and the new laboratories at school will be a convenient work base for it. The beautiful homemaking department with its complete furnishings have been a source of never ending joy to the girls and their teacher. Earlier in the spring they cooked and served a luncheon for the high school faculty and played hosts to the Clyde homemakers for an afternoon tea. A properly equipped department opens up a new world of activity for those studying the fine art of home making.

Birthday greetings all the way down to South America to Bob Miletic Director, has announced.

Rites Held For Mrs. Williams

Mrs. Elbert Eugene Williams, 41, died at 8 p. m. Wednesday, May 22, at Callahan County Hos-pital in Baird after suffering a heart attack about 30 minutes earlier at her home two miles north of Clyde.

Funeral was held at 2 p. m. Friday at the Clyde Church of Christ with A. A. Berryman, minister, officiating. Burial was in Clyde Cemtery with Balley Funeral Home in charge.

WORLD'S LONGEST BRIDGE, the 24-mile Map shows how civil defense forces, frustrated in Lake Pontchartrain Causeway north of New Orleans by water obstacles to traffic on Orleans, is a spectacular example of new highway construction which could be used to help traffic around the huge lake barrier to the north, empty target cities ahead of attacking planes. The bridge was opened to traffic in August 1956.

Baird Man Hurt In Abilene Accident

Three persons were treated at Hendrick Memorial Hospital on Tuesday morning for injuries received in a traffic collision at So. 20th & Treadaway in Abi-lene

Injured were W. H. Parks, 73, of Baird; William H. Huckle-bridge and Bill Matlock, both of

The accident occurred at 11:15
a. m. Tuesday.

Matlock was driving a Cozby
Distributing Co. truck which
broke a driveshaft, and was
parked in the roadway on
Treadaway Blyd, Parks, from the
Parks Bros. Garage, had come
to the scene in a pickup to tow
the truck to the garage for repairs. Parks stopped his pickup
in front of the disabled vehicle,
and while he was tying a chain
onto the truck, an auto driven
by Hucyebridge hit the stalled
truck from the back. The impact knocked the truck across
the street and over Parks and
Matlock.

Funeral Rites For Mrs. Jarrett

Baird died about 6:30 p. m. last Thursday in Ranger at the home of a daughter, Mrs. Johnny Finto, after an illness of several months.

bridge and Bill Matlock, both of Abliene.

Parks was dismissed after treatment. Hucklebridge was in satisfactory condition Tuesday, right and Matlock, according to hospital attendants, was doing well.

Investigating Abliene officer E. H. Oraham said Hucklebridge sustained fractures of both arms a deep cut across the chin and internal injuries.

The accident occurred at 11:15 a. m. Tuesday.

Matlock was driving a Cozby Distributing Co. truck which broke a driveshaft, and was parked in the roadway on

Survivors are three daughters,
Mrs. Sam Black of Fort Worth,
Mrs. Bob Swinson of Baird, and
Mrs. Johnny Finto of Ranger;
and one son, Horace Jarrett of Big Spring.

Cancer May Take 100,000 Texas Lives In Next 10 Years

Within the next 10 years, 100, 000 Texans will die of cancer if the present trend continues. That's almost enough people to populate a city the size of Cor-pus Christi.

Almost 54,000 of these cancer victims will be men, since the disease is now claiming almost 15 per cent more men than women. It wasn't always like that, however, Back in 1940, 7 per cent fewer men succumbed to cancer than did women.

Cancer today is second only to heart disease as a general cause of death for the popula-tion as a whole. And when death rates are broken down accord-ing to age groups, it is tragic-ally easy to see the wide swath the disease cuts through the

L. Miller. The children were wishing for a cloud so they would get to go to the cellar. Ole man weather obliged, and sent a bad cloud, with a forey cast for rain, hall and possibility of tornadoes as close as nearby city of Poince guests with Mr. and Mrs. Ray Floyd last Sunday were his brother and wife, Mr. and Mrs. Charlie Floyd of Abliene and Rev. Texas' Federal Aid Fund Announced

A total of \$211,205,500 in federal and state matching funds has been authorized for road-building in Texas during the year beginning July 1, 1957.

Also revealed in information obtained from the U. S. Bureau of Public Roads were the coun-ties to be crossed by a new na-tional highway system.

primary and secondary roads.
These are to be inter-connected with the national super-road
system in what is aptly being
called the new America of the future.

takes the 41,000 mile net work into 74 Texas counties, Callahan included.

While all expressway routes have not been finalized, the goal is to link every U. S. city that has 50,000 or more population.
The state's total of funds for the next 12 months is divided as follows:

U. S. Interstate \$108,555,500 Primary System \$49,200,000 Secondary sytem \$33,050,000 Urban highways \$20,400,000 Total \$211,205,500

"For just a moment, try to imagine the results if you were behind the wheel of your car, then drove it off the top of a tional highway system.

All counties lie within a federal-aid network by virtue of the long established chain of the story building. It leaves you with a rather awesome picture doesn't it?"

These are to be inter-connected with the national super-road system in what is aptly being alled the new America of the future.

The Bureau's latest blueprint takes the 41,000 mile net work nto 74 Texas counties, Callahan

"Of course no sane driver would attempt such a foolish thing," Musick continued. "And yet, if the same motorist crashes into another car while traveling 60 mph, he will meet with equally disastrous results."

Musick said he did not believe that speed, in itself, is neces-sarily bad, but highly desirable for efficiency's sake. With our modern transportation system, speed is essential. Whether it is for police cars, taxicabs, ambu-

"A safe speed, then, is one that is not too fast for conditions," Musick said. "Thus, it is up to the individual driver to determine what is a safe speed, within the given limits."

To help the average motorist determine what safe speed would be under specific conditions, Mu-sick offered the following sevenpoint check list:

point check list:

First, drive at a speed that will enable you to stop in the assured clear distance ahead. Second, slow down before you get to curves and intersections. Third, at night, drive at the speed which will let you stop within your headlight range. Fourth, drive with traffic, You are probably going too fast if you are probably going too fast if you are passing many cars and too slow if a number of cars are passing you. Fifth, where children are playing, be able to stop in a car length or less. Sixth, when you'rs tired or inattentive, stop and rest. Seventh, AL-WAYS use common sense, this will mean never taking chances. Just as you wouldn't drive off a ten-story building, neither should you drive 60 mph when conditions make 45 mph safer. conditions make 45 mph safer

Jr. Wednesday Club In Called Session

The Junior Wednesday Club met in called session Thursday, May 23 in the home of Mrs. George Warren, Each member brought a sack lunch.

Purpose of the meeting was Purpose of the meeting was to increase the club's membership to twenty-two members and to work on the float to be in the annual rodeo parade. Mrs. Bobby Stanley was elected an associate member. The club decided to sponsor a beauty contest in the 4th of July celebration.

The following members were present: Mmes. George Warren, James Eubanks, Joe Harris, Wilburn Carrico, Frank Crow, Emil Ringhoffer, Bill Alexander, Ray Black, Bruce Bell, Herschel Lynch, Coleman Walton, Glen Green, Misses Sarah Parks and

FRIDAY NIGHT

The Marksmanship School will meet again this Friday night at the American Legion building. On Saturday morning, weather permitting, firing practice will be held. Students are asked to be at the building at nine o'clock to leave for the range. Those who plan to go to the range are asked to bring 25 cents for ammunition. munition.

New Handbook On Lawns Available

A beautiful, well-kept lawn adds to the material value of a home and is a basic requirement for an attractive yard. Too, says E. M. Trew, extension agronomist, a properly established and well-kept turf gives an aspect of spaciousness, provides a cool, restful cover and prevents soil blowing and washing.

Establishing and maintaining a beautiful home lawn requires

careful management just as do

out the specialist. As an aid to those interested in establishing a new lawn or renovating an old one, Trew has revised Texas Agricultural Extension Service publication, B-203, Howe Lawns, and it is now available at the offices of local county extension agents or from the Agricultural Information Office, College Station, Texas.

Such subjects as the best turf

covered in the publication.
