## Crowell Wildcats Defeat Matador, 13 to 0, in Opening Game of Season at Matador Last Friday Night

### Ethel Kempf Returns From Eastern Trip

Miss Ethel Kempf arrived at home Thursday afternoon after having spent the last six weeks visiting all points of interest in the Great Lakes region of North America, in company with her sister, Mrs. J. H. Owens, and her husband, Mr. and Mrs. James Bowers of Pontiac, Mich.

Among the many occasions enjoyed were motor trips into the forests of Upper Michigan, a two-day trip to Niagara Falls via Ontario, Canada; a baseball game between the Detroit Tigers and the New York Yankees at Big Spring stadium in Detroit, in which the American League champions were defeated; a trip through Henry Ford's huge Rouge Plant, his Edison Institute Museum and Greenbelt Village at Dearborn, Mich.; the pro-film running of the annual Championship soap-box race in Plymouth, Mich. Their trip took them to four of the great Lakes, Lake Ontario, Lake Erie, Lake Michigan and Lake St. Clair, with an all-day steamship excursion to the islands of interest in Lake Erie. On this trip they were accompanied by Mr. and Mrs. D. B. Owens and their daughter, Ruth, who formerly lived in Crowell, and by Lynn Owen, formerly of Vernon.

In order to round out the trip properly, they attended one of the best rodeos of the East. Miss Kempf's chief observation was that while the affair was part of the famous State Fair held near Lubbock, Texas, and Oklahoma, the remaining fourth day was from other western states. The total fifty contestants in this particular performance, only one was from an Eastern state. The trick was calf-roping which completed in 35 seconds. He had a white faced Hereford calf. Miss Kempf stated that the cowboy side is richly blessed with natural beauty and is also unsurpassed in its profusion of man-made creations of art. Although there is still an unbelievably vast difference between life in the West and Southwest, she met the native "Yankees" to be friendly and hospitable.

### Farmers Will Be Able to Insure 1942 Crop Before Seeding

Under the 1942 cotton crop insurance program, Foard County farmers will be able to insure 50 per cent or 75 per cent their average yield, Grady Hallock, chairman of the Foard County AAA announces.

Details of the United States Department of Agriculture crop insurance program are being presented by the Federal Crop Insurance Corporation in Washington and growers will be able to insure their next year's crop before seeding, he continued. The insurance will protect them from hazards, such as droughts, insects, including boll weevils, flood, disease, wind, fire and hail. Premiums are guaranteed and will be figured in terms of the history of individual crops adjusted to reflect the crop history of the county. Yields of the past five years will be figured on the basis of historical or insured productivity over a period of years.

For individual cotton growers, the AAA official continuing to be figured on a lint basis. Premiums will be based on a commodity note each grower will be required to guarantee payment of premium on or before maturity. The maturity date about the time cotton is usually paid.

Mr. Halbert stated that it may be paid either in cash or the cash equivalent. If the note is not paid at maturity, the cash amount of premium will be deducted from the indemnity paid the grower from the first Government check he receives. These payments include cotton loan, parity payments and AAA payments.

### Jobs in Colorado

W. Thompson of Bowie, Mrs. Ed Thompson, has a Civil Service position in the U. S. Department of the Bureau of Reclamation and will be stationed at the junction, Colo. He will visit his duties as a junior engineer and other relatives on Oct. 1, and will visit on his way to Colorado.

## Miss America

The crown of Miss America of 1941 was placed on the blonde locks of Miss California, Rosemary La Planche, at Atlantic City, N. J. The 19-year-old, hazel-eyed beauty, resides in Los Angeles, and was a runner-up in last year's beauty pageant.

### BOX FOR WAR SUFFERERS

The ladies of the Christian Science Church are packing another box to be sent to the war sufferers in Europe. They will appreciate any thing that anyone will give to help in the box, such as clothing, shoes and anything that can be made into something to wear. They desire to thank the friends of other churches, and in Crowell and Foard County who have assisted in the sending of other boxes and appreciate the hearty co-operation they have received from everyone. The box will be sent to Boston Saturday and from there it will be sent to the proper authorities for distribution. If anyone has something they desire to give, they can take it to Mrs. J. C. Thompson or call her at her home and she will come for it.

## September Term of District Court Lasted Three Days

### Civil Docket Was Light; Criminal Cases Set for Mon.

The September term of District Court with Judge C. Y. Welch of Quanah presiding, closed its first week's work Wednesday morning. There were no new suits filed on the civil docket with the exception of divorce suits and tax suits.

Five divorce suits were tried and divorces granted to the following: Henry Young vs. Mattie Young, Lee Gorrell vs. Opal Gorrell, Emma Bryant vs. Harvey Bryant, Marjorie McCuen vs. Andy McCuen, (colored), Maybelle Wells vs. James Wells, (colored).

In the case of G. E. Sessums of Tahoka, charged with forgery by alteration, was tried and the defendant given a suspended sentence.

### Grand Jury Report

To the Honorable C. Y. Welch, Judge of the District Court of Foard County:

We, the grand jury, in and for the September term, A. D. 1941, met in regular session on the 15th day of September, A. D. 1941, and worked for one full day. Having been in session for said one day for said September term, we respectfully herewith submit the following report:

We have carefully investigated into all law violations that have been brought to our attention and from our investigations we have returned five true bills.

There being no further business coming to our attention, we respectfully pray the court that we be discharged for the term.

Jim Cook, Foreman.

## Assessor-Collector for Crowell Schools Moves Office

L. A. Andrews, tax assessor-collector for the Crowell Independent School District, has moved his office from the southwest corner of the basement of the court house to the county attorney's office, first door to the right on the first floor on the north side. It is believed, Mr. Andrews stated, that this new location will be much more convenient for taxpayers than the old location.

## Paducah Dragons and Crowell Wildcats Will Meet in Local Stadium Friday Night, 8 P. M.

### County Will Receive 1942 AAA Allotments by November 1st

Speeding up AAA work in the county to meet the demands of the defense campaign for greater food production, the AAA office promises that all farmers in the county will receive their 1942 allotments by November 1.

During the month of November, the farm plan, incorporated a survey of food production in 1941 and pledges on food production in 1942, will be presented for the consideration of every farmer in the county in a farm-to-farm canvass. Grady Halbert, chairman of the county USDA Defense Board and the county AAA committee, said.

Definite plans for the food production sign-up have not been made, Mr. Halbert announced, but, according to Secretary of Agriculture Claude R. Wickard's recent announcement of food production goals, the campaign will be completed by December 1, and every farmer in the nation will be asked to do his part in meeting the food needs of this nation and the nations fighting aggression.

Allotment notices for (cotton, wheat, peanuts, rice) will be in the hands of producers before November 1 so that they can make definite plans as to how best they can do their part in the food drive. No allotments will be issued this year on vegetables or general crops.

## W. P. A. Project Re-Opened in Precinct No. 1

According to County Judge Leslie Thomas, the W. P. A. County sponsored construction and improvement job in Precinct No. 1 has been re-opened. This project was closed some time ago after operating for a short time in order that the quota therefore might be transferred to the State sponsored Wichita River bridge project which was just recently completed. There are still six additional structures to be completed on this project and when completed, valuable improvements will have been made in this precinct. Walter Thomson is the superintendent on this project and is now employing around forty men. It has been found that projects of this type not only constitute a great improvement in the community which they serve but that they also reduce materially the maintenance cost to the precinct.

As W. P. A. is always anxious that private employment be secured by as many as possible workers during the seasonal labor periods, Judge Thomas says that, in all probability, another new project will not be commenced until after the cotton picking season is over.

## Applications for Aid to Dependent Children Solicited

Good Time for Texas Producers to Reduce Debts, F. C. A. Reports

Houston.—With farm prices up 30 per cent over a year ago, Texas producers of crops and livestock are inclined to use extra money to reduce indebtedness and get obligations in current condition rather than indulge in any speculative expansion, reports Jack Shelton, general agent of the Farm Credit Administration of Houston.

"Most forward thinking farmers and stockmen realize that they are riding on the crest of a wave and believe this a good time to stay close to shore," he said.

"Food production is vital to national defense in every war and farmers and ranchers are making a big contribution in this way. At the same time, most of them feel that this is the time to reduce debts, cull herds and strengthen their operations."

Shelton said that the four permanent units of the Farm Credit Administration, serving more than 100,000 farmers and stockmen in Texas and having more than a quarter of a billion dollars in loans outstanding, have shown considerable increase in the number of borrowers this year as compared with 1940.

"A general shift from hazardous one-crop cotton farming to a better diversified program calls for some increases in credit and there are ample funds available for sound farm and ranch operations which will work out under normal price conditions."

Long-term farm mortgage credit extended by the Federal Land Bank of Houston, showed a \$2,000,000 gain in the first seven months of 1941 over the same period in 1940.

The Houston Bank for Co-Operatives advanced \$2,168,000 in loans to Texas farmers' co-operatives during the first half of 1941. This was slightly more than for the same period in 1940.

The 36 production credit associations are 47 per cent ahead of last year, with a total of \$23,957,000 credit extended to approximately 15,000 farmers and stockmen. The combined capital and surplus of these associations aggregates \$8,250,000.

DRAIN, REFILL, and POSTPONE

your next quart

New oil lasted 5,683 miles longer than the runner-up in Death Valley Death-Test ...CERTIFIED

5 BIG-NAME OILS bought retail by Referee. One 5-quart fill per car. Not another drop throughout the hot desert Death-Test.

Your own engine gauge-stick can tell you best about Conoco Nth motor oil. Next best is to buttonhole the most frugal car owners you know around town. Some have never yet added a quart since changing to Conoco Nth. And you can see why right here — by the mileage figures from the Certified Death-Test of Conoco Nth oil vs. five other big brands.

The whole big success of Conoco Nth started down in Death Valley — so hot you can't sweat. Here 6 new stock cars, strictly alike, each got one 5-quart fill of some one oil being tested. Then the Official Referee clamped on the locks; never a drop of oil could be added.

Eyed by impartial officials every instant, the cars all reeled off their 57 miles hourly. Here and there on the desert a carcass lay bleaching — and desert death awaited these car engines, too. For none could finish till its oil hit bottom — finishing the engine beyond repair.

CONOCO Nth gave nearly Twice the miles averaged by the others tested!

The 5-quart fill of Conoco Nth lasted 23,998 miles ... Certified. Conoco Nth outlasted one big brand by 8,268 miles. Even the best of the five was outlasted 5,683 miles by Conoco Nth oil. Such a real difference must have a real source. And two real life-givers created by man ... two modern synthetics ... are in Conoco Nth motor oil.

You know of modern vitamin synthetics, making up for Nature's life-givers lost in some modern food processing. Similarly,

the extreme refining needed by oils for current cars has been destroying Nature's best life-givers! But in their place today Conoco Nth brings your engine the two patented Conoco synthetics.

One of these — man-made under the famed Germ Processed oil patent — will keep your engine OIL-PLATED with lubricant that can't all quickly drain off of inner surfaces. So OIL-PLATING is on guard against wear in advance! And the latest Conoco synthetic — man-made under U.S. Pat. 2,218,132 — will check "festering" of oil that's encouraged by foul leftovers from every engine's normal firing. This common oil trouble is now checked or inhibited by the new man-made Conoco life-giver — Thialkene inhibitor.

You'll never Death-Test your Conoco Nth oil in sinister Death Valley, any more than you repeat other proving-ground tortures. You'll still drain and refill at recommended intervals. But how you'll expect to stretch the distance before adding a quart, judging by this big fact: 5 heavily advertised oils in the Certified Death Valley Test were outmiledged 74% to 161% by Conoco Nth oil. Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Company — Pioneers in Bettering America's oil with Synthetics

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

What doth it profit, my brethren, though a man say he hath faith, and have not works, can faith save him?—James 2:14.

Noting the warning that there will be a scarcity in many things and that prices will continue to mount steadily higher, we can't help but wish that for a little while at least during our stay on this earth, things could be normal. We went through the World War with its ups and downs and the depression with its ups and downs and now we are in the midst of another war. We are beginning to feel that before we quit this scene of action we ought to have some time out for rest.

We note by one of our exchanges that the poor farm in a mid-western county was closed last week. Our thought in this connection is that the county should take good care of the building and grounds. If things keep up the taxpayers of the community will have to have some place to go.

Chance for a bright idea There's only one reason why so many people use advertising—they haven't found a cheaper way to do what advertising does. And what it does is save time in finding enough customers to keep factories and stores busy. There's a chance here for a bright idea. But it's got to be mighty good. Advertising is. The man who quits his paper because he doesn't agree with the editor has a closed mind. He doesn't want to hear an opinion different from his own. No one ever learned anything or got any new ideas merely listening to the things to which he agrees and in which he believes. Such things never stimulate thought. It's the things that are contrary to our beliefs and at variance to our opinion which stimulate thought.

The bill extending the period of service for selectees, guardsmen and reserves by eighteen months which passed the House by a margin of one vote carries with it a \$10 a month increase in pay for those who serve more than one year. What We Think (By Frank Dixon)

In the capital city of my state, Kansas, two daily newspapers, one a morning paper and one an evening paper recently consolidated their mechanical departments. Both papers, while operating their news gathering agencies separately and maintaining separately their editorial policies, operate everything else in common, the business office, advertising solicitors, subscription department and mechanical departments are all one. When the arrangement was made the mechanical plant of one of the papers was dismantled and sold, the presses, linotypes and other equipment. The office which had rental value of a thousand dollars a month was sold.

As a result of the consolidation a number of employees were laid off and the community was deprived of the taxable valuation of the mechanical equipment of one of the plants. As the new arrangement comes to function more employees will be dismissed.

In the same city two large printing plants effected the same type of merger of their printing plants, retaining their separate salesmen and business offices. In the two consolidations the loss to the community in employment and taxable valuation has been a considerable item.

This same thing has taken place in the daily newspaper field in at least twenty large daily newspaper plants in the middle west during the past two years. The opinion is that the movement has just begun and that before long it will sweep the country.

The reason given for the move by the newspapers was the growing cost of producing a paper due to increasing labor demands and federal taxes. Added to the federal taxes is the cost of keeping the records required by the several departments which adds nothing to the production of the plant but does increase very materially the cost of production.

A new movement is on foot by the labor department in bringing a large number of the weekly newspapers under the wage-hour law. This is being done through a special interpretation of the law by the board which brings under the Act an exempt weekly newspaper through a minor technicality. The result is going to be that there will be several times over as many consolidations of weekly newspaper plants as there will be of daily newspaper plants.

The earning power of the majority of the weeklies is not sufficient to take on the added burden of increased wages due to reduced hours and the penalty for overtime. The income of weekly newspapers is limited to the local field and the increase in the price of the newspaper and its service necessary to meet the new load and provide a living for the proprietor on a par with that of his better paid employees is not feasible, especially in the middle west, the agricultural sections and the sections removed from industries, defense and other types.

The thing of playing Santa Claus to every one is a beautiful theory but it is going to take a ruthless toll of business. It remains to be seen whether the belief that used to prevail that it is folly to kill the goose that lays the golden eggs is a fact, or after all, merely a fanciful theory.

One of the most bitterly contested features of the new \$2,206,000,000 revenue bill was the feature that required a joint return of income taxes by husband and wife, which it was estimated would raise \$323,000,000 more revenue than would be raised through separate returns. President Roosevelt formally requested the Ways and Means committee to eliminate the controversial joint husband and wife income tax return provision from the measure. The committee failed to act on the suggestion but when the bill reached the House, the House repudiated the committee and eliminated the joint return clause. The joint return was bitterly opposed by women's organizations and church groups.

Connally Wins Hard Fight on Tax Bill

Washington, D. C. — Senator Tom Connally, during the passage of the tax bill, again fought for and triumphed in the elimination from the bill of provisions depriving married couples in the eight community property states, of which Texas is one, of the right to file separate income returns.

Being the lone Senator from a community property State on the Finance Committee, the Texas Senator was out-voted in committee; however Connally carried his fight to the Senate where he was able to muster sufficient votes to force the Finance Committee Chairman to strike the provision from the bill. This action will save the taxpayers of Texas millions of dollars each year.

Connally in his service in both the House and Senate has been an ardent supporter of State rights under the community property law.

In his individual report on the tax bill, the Texas Senator said, "Under the community property system, marriage creates a universal partnership. To its capital, the husband and wife contribute their separate property and to it they must contribute their full services, and divide the resulting income and share alike. The courts require the use of the property for the benefit of both partners and will restrain its waste or diversion to others. The Supreme Court of the United States in a series of carefully prepared and presented cases has held that one-half of the community income belonged to the husband and one-half to the wife, that it was actually owned by them in these proportions, and therefore taxable to them in such proportions."

"The heroes of San Jacinto," exclaimed Connally in the Senate, "before they wiped the blood from their swords, placed in the Constitution of the republic the community property laws giving to wives an equal vested interest in the community income. They believed that a woman who was worthy to be the mother of their children was worthy to receive one-half of the earnings of their hands. We shall not surrender those rights without a determined resistance and a savage fight."

To soften the blow of increased income taxes proposed for the coming year the Treasury Department has placed on sale two series of tax anticipation certificates. The certificates will be sold at par value plus accrued interest. Series A, available in denominations of \$25, \$50 and \$100 earns 1.9 per cent interest; Series B, designed for larger taxpayers, comes in units of \$100, \$500, \$1,000, \$10,000 and \$100,000 and bears 0.48 per cent interest. The tax anticipation notes may be purchased at Federal Reserve banks or through local banks for use in payment of taxes only, may not be used as collateral, but can be redeemed for cash with loss of interest.

Method to Prevent Diphtheria Has Cut Down Death Rates

Austin.—"The axiom, 'You can lead a horse to water but you can not make him drink', perhaps has no more striking parallel in human conduct than man's indifference or refusal to use the protective methods and preventive procedures that medical science has developed during the last forty years. Indeed, the lack of personal co-operation is the weak link in an otherwise strong chain against not only some of the infections and influences that imperil health and older groups but against a number of the communicable childhood diseases, in which latter class diphtheria is an example," states Dr. Geo. W. Cox, State Health Officer.

"Toxoid immunization is available in Texas practically to all children, either through the family physician or at clinics arranged by physicians for those who are unable to pay the usual fee for this service.

"While the number of Texas children who have the benefit of this protection is large, evidently there are many who, because of parental misconception or unconcern, have not been made invulnerable to an attack of diphtheria through this simple and practical procedure.

"Perhaps the decided drop shown in the diphtheria illnesses and death rates during the last thirty-five years has developed an unwarranted sense of security on the part of too trusting parents. Nevertheless, whatever the cause,

the fact remains that diphtheria manages to continue a steady massacre of young lives, with ample weapons to prevent it; and these to be had only for the asking. "Consequently, not only a large number of parents, but every parent, should be acutely aware of diphtheria's potential killing power and take the necessary steps to eliminate it. "Almost all diphtheria deaths that will occur in Texas during 1941 will have been preventable. With intelligent parental co-operation, most of these deaths even yet can be avoided. Science, through toxoid, eminently is fitted to afford this protection. But it is largely the parents' responsibility to see that the child obtains it."

WE, THE PEOPLE of the UNITED STATES in Order to form a more perfect Union... Constitution Day SEPT 17TH

The Foard County News The Preamble to the Constitution, as well as our other historical documents, assert the purpose of Democracy in unmistakable terms—always the emphasis is on The People, on human rights, on the proposition that a democratic society, while it may not be perfect, is progressive in nature and can and must improve the social and cultural standards of the nation as a whole. At the time of writing our Constitution was a challenge to the static Feudal society of Europe, the first realistic and practical application of the democratic aspirations of all humanity. On Constitution Day, 1941, the Constitution is again a living challenge, speaking for all people, everywhere, reaffirming the basic principles of human freedom and dignity, giving the clearest and most inspiring expression of genuine patriotism, as opposed to racial egotism, that mankind have yet produced—truly it is a day for celebration.

## SENIOR CLASS MEETING

The seniors of Crowell had a class meeting Friday and elected Miss Cordell sponsor; Truman Taylor, vice president; Margaret Thorne Shirley, secretary; W. P. Hord, reporter.

The class mothers selected were Mrs. T. F. Hughton, Mrs. Paul Shirley, Mrs. J. T. Billington, and Mrs. S. B. Hord.

## SOPHOMORE CLASS MEETING

The lowly freshmen will grow out of it; look at the big, ole sophomores strut. They had a lovely class meeting Thursday. Among other things, they elected officers:

Billy Fred Short, president; Billy Scott Bruce, vice president; Helen Jo Callaway, secretary and treasurer; G. C. Foster, sponsor; Mrs. Frank Cates, Mrs. Vance Hawn, Miss Margaret Curtis, class mothers.

They are planning an active social year—especially some of the girls.

## JUNIOR CLASS ORGANIZES

The juniors met Thursday at their first called meeting. After a few wise cracks by some of the lesser satellites, order was restored by the strong-arm method and faithful stationed himself by the door and pronounced the meeting called to order.

Last year's president, Lowell Campbell, acted as chairman until the officers were elected. The following officers were selected:

Lowell Campbell, president, re-elected for the third term; Paul Vasena, vice president, re-elected; Gordon Erwin, secretary and treasurer, re-elected; Ray Davis, promoter, re-elected; H. C. Teague, sponsor; Mrs. E. A. Evans, re-elected; Mrs. Dwight Campbell, re-elected; Mrs. H. K. Edwards, re-elected, class mothers.

The juniors are looking forward to the greatest and most successful year of their time in high school. They are going to work hard, and sincerely, all through the term.

Some of their responsibilities: Give the senior class a banquet, grade ushers for the baccalaureate and commencement exercises, assume the leadership of the underclassmen by setting proper examples of behavior and actions, anticipate the assumption of honor dignity and the offices of leadership in the various clubs.

## CROWELL VS. MATADOR

The powerful Wildcats overcame the Matador Bullfighters in a fiercely contested struggle in Matador last Friday night. The battle ended 13-0.

Crowell returned the kickoff to their own thirty-five yard line. After many unsuccessful attempts of the Wildcats to cross the opponents' goal, Halencak received a pass deep in the opponents' territory. Spears plunged the ball over. The try for the extra point failed.

The Wildcats' second score came in the third quarter with Spears again taking the pigskin across. The try for the extra point was good, making the final score, 13-0.

Crowell will meet Paducah Friday night at Wildcat stadium. This game promises to be a good one.

## IDLE CHATTER

Most of the Crowell High students are agreeable and easy to get along with. They don't seem to mind standing in line for five minutes to get to a fountain or practically trampled while waiting, but when someone gets a mouthful of chewing gum instead of water—well that's just too much. To set an example for others, a fish must suffer. This method is fairly effective since some inferiors (fish) keep the fountains cleaned out. In case one forgets to do this and fails to show up at school the next day, naturally it wouldn't be an upper-classman's fault—or would it?

## NEW TYPEWRITERS

Typists hold your breath; this school has splurged from three Remington typewriters. They come from Truscott, secondhand, but they're in the same kind of shape some of the Crowell Royals are. (We wonder). If you walk by a classroom that sounds like a boiler factory with all the riveters going full speed, that's the typing room. Actually there's all tables occupied along the front, and two tables are occupied at the sides. It looks like typing is going to be the most popular indoor sport this winter. And our teacher is going to take the state champs to Austin again. We said again.

## SENIOR CLASS RINGS

The seniors are waiting in anticipation for their class rings. That statement in itself is enough to bring tears to a true senior's eyes. The seniors have been waiting for those bee-yoo-tiful rings for almost four days now. The rings are of the very best gold (nearly), three toned at that; pink white and yellow. They come in every size so some of you girls will find it easy to find a boy who has a ring to fit your finger. Also has a few of the boys ordered rings with onyx sets which will be easy to identify, so watch out. Be careful of whose ring you capture.

## CAMPUS CHAT

Here I am again, looking forward to another "scandalous" year.

Here's hoping you all co-operate.

Seems every one is happy about Truscott's coming to Crowell.

Hey, kids, let's make the best of it. Get it?

Well—looks as if Howard Lee Black is rather interested in a very pretty little blue-eyed Miss. Wonder if it's mutual?

When—look what our boys did last Friday night at Matador. How about making it the same way tomorrow night?

I wish Cupid would start shooting arrows around here. C. H. S. needs some new romances. No?

Isn't it nice to see Charles Davis, ex-senior, back? We are all glad that you are over your illness.

Say, what's that we hear in the typing room every 7th period? Oh, just Evelyn Jean Scales, Scales for short, making a ??-oo-?ozz? mistake.

Margaret Claire Shirley seems to be going back to her second childhood. Or is it her new, clever, sophisticated hair style?—pigtails?

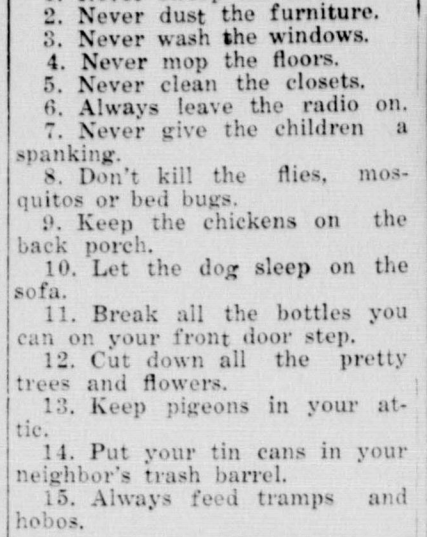

Lee J. Stout objects to anyone getting his study hall seat the third period every morning. Could the reason be Ruth Diggs, who sits across the aisle?

Billy Smith seems to be holding his own with Billie Nichols against strong competition from Paul Vasera.

## New Economic Defense Council

Members of the President's cabinet, and their representatives, hold an organization meeting in the office of Vice President Henry Wallace, forming an economic defense council. Seated, left to right, Henry Morgenthau Jr., Frank Knox, Henry Wallace, Henry Stimson. Standing: left to right, Francis Biddle, Jesse Jones, Dean G. Acheson and Claude B. Wickard.

## Annual Reunion of Veterans of 36th to Be Held Oct. 4-5

Fort Worth, Sept. 2.—The annual reunion of the veterans of the War-time 36th Division will be held in Fort Worth, Oct. 4 and 5, this year.

Each year the veterans meet on a Saturday and Sunday nearest the date in October on which the Division entered the battle line in 1918.

The reunion last year drew the largest registration in recent years, and with better conditions it is anticipated that the attendance this year will set an all-time record.

Saturday, Oct. 4, will be given over to registration, get-together assembly; a buffet lunch and the annual banquet and dance. All activity for the day will be in the Texas Hotel, reunion headquarters.

Sunday, Oct. 5: Memorial service and the annual business meeting will be held in the Municipal Auditorium, followed by the annual luncheon.

The Women's Auxiliary to the 36th Division Association will meet Saturday morning at the Texas Hotel, and the memorial and business meeting will be followed by entertainment features throughout the day.

The Wartime 36th Division trained at Camp Bowie, Fort Worth, and was made up of the National Guard units of Oklahoma and Texas. The Division fought with the French in the

Champagne Sector of France and was officially credited with the capture of 813 prisoners, and munitions and materials of the German Army amounting to ten million dollars. The Division was in the line for twenty-one days and advanced thirteen miles during that time.

The present 36th Division, Texas National Guard, and the 45th Division, Oklahoma National Guard, now on maneuvers in Louisiana, have many old 36th men among their personnel, and those men are expected to add greatly to the attendance this year.

Lieut. General John A. Hulen,

retired, Wartime Commander of the 72nd Infantry Brigade, president of the association.

Keith Ferguson, 21, New York City, is a model, one of several girls mentioned about shakeup of General New York City. She threatened against the FBI for its treatment of her.

The DuPont company announced recently that the new tips for shoe strings will run 500,000 pounds of metal used for this purpose. The steeling feature of the announcement is that this amount of metal will be required to tip the shoe strings used in this country.

Wilber La Roe Jr., member of the District Parole Board, Washington, D. C., holds liquor is a "prolific cause crime" in the District of Columbia.

## It's Funny How Folks Still Call it the "Light" Bill

"WELL, Mary, here's the light bill for last month. Funny, isn't it, how we still call it the light bill! Remember when it really was the light bill?"

"U-u-m-m. Yes, siree. We were mighty proud to have just electric lights... and in those days we paid about as much every month as we do now, and all we got was light. And they were off in the daytime, too, and we weren't too sure of 'em at night."

"It's sure different now. We get darn good service. For about what we used to spend for lights alone, we're lighting the house a lot better and washing and ironing clothes, cleaning the rugs, toasting the bread, running the radio, using the refrigerator, and shaving my face. I'd say we're getting a lot more for our money."

## "Why not call it the 'Service' bill?"

Yes, the old-time "light" bill today really is for "electric service," which has taken away a lot of old-fashioned drudgery and added a lot of pleasure and enjoyment. Electric service has been doing these things for less and less money. The thousand men and women in this organization have had the training and experience to serve you more economically. You profit from the business operation and management of the company which has but one aim—to keep on giving you better service at lower cost.

Letters from the People:

"Our present low electric rates, cheaper appliances, and unsurpassed service are indeed a joy when we look back to the old days of frequent interruptions and part-time service. ... We often resorted to the kerosene lamp, stored away handy. And we paid 15 cents per kilowatt-hour and 50 and 60 cents for bulbs..."

**Oil, Gasoline**

The Special Senate Committee investigating the oil situation said the only shortage of petroleum products or of transportation facilities "is a shortage in a large surplus which is desired." Acting Oil Co-ordinator Davies issued a statement saying, "the admitted low condition of petroleum stocks on the East coast continues to mean shortage... (and) the necessity for public co-operation continues." SPAB refused to grant priorities on steel plates for construction of a 1,500-mile petroleum pipeline from Texas to New York. Mr. Davies said the Southeastern pipeline between Port St. Joe, Fla., and Chattanooga, Tenn., will deliver 1,260,000 gallons of gasoline and other petroleum products daily to Georgia and Tennessee within 60 days.

**Prices, Inflation Control**

The Labor Department announced retail food prices are at the highest level in 10 years—12.3 per cent higher than a year ago. Treasury Secretary Morgenthau, speaking in Boston, said "inflation is no longer distant... We are facing it and... if we are selfish and shortsighted... the consequences may haunt us and our children for years, but if we look at the problem with firm resolve we can beat this thing."

Mr. Morgenthau said control of consumer installment credit, purchase of defense bonds and stamps and tax-anticipation notes are not enough to prevent consumer purchasing power from forcing prices up. He suggested extension and increase of social security benefits, and unemployment compensation "wage" for the workers and reduction in non-essential expenditures in Federal, State and local governments. He also suggested release of Government held surplus stocks of food to hold down

**Christian Science Services**

"Matter" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, Sept. 21.

The Golden Text is: "Love not the world, neither the things that are in the world" (1 John 2:15).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I therefore, the prisoner of the Lord, beseech you that ye walk worthy of the vocation wherewith ye are called, with all lowliness and meekness, with longsuffering, forbearing one another in love; endeavouring to keep the unity of the Spirit in the bond of peace" (Ephesians 4:1-3).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Emerge gently from matter into Spirit. Think not to thwart the spiritual ultimate of all things, but come naturally into Spirit through better health and morals and as the result of spiritual growth" (page 485).

**Our Weekly Sermon**

By Rev. Kenneth S. Wuest, Member of Faculty, Moody Bible Institute, Chicago.

Text: "I will pray the Father, and he shall give you another Comforter, that he may abide with you forever."—John 15:16.

Jesus was leaving His disciples to go by way of the cross and the resurrection to heaven. He saw the troubled look in their eyes and He said, "Let not your hearts be troubled," and then He gave them this promise of the coming of the Holy Spirit to dwell in their hearts. He saw the reason for their troubled hearts, namely, that they thought that He was going to leave them without a guardian, a helper, one who would guide them and keep them from sin. All these things Jesus had been to them. He assured them that the Holy Spirit would be all these things to them now.

Every Christian has the Holy Spirit living in him. But every Christian does not know the Holy Spirit and what He can do for him. The result is that that Christian is depending upon his own will power and strength to gain victory over sin and to live a life pleasing to the Lord Jesus. A Christian is one who has believed what the Bible says about him, namely, that he is a sinner, and has received the Lord Jesus as his Saviour, the One who died and poured out His blood on the cross for him. Do you as a Christian know the Holy Spirit? Is He your constant Helper, the One who gives you both the desire and the power to do God's will? Would you like to have this new power in your life? Then do as the Lord Jesus says in John 7:37, 38. He lays down just two requirements: a desire for the fullness or control of the Spirit, and a trust in the Lord Jesus for that fullness.

Make it the habit of your life as you pray in the morning and during the day to include in your petition, "Lord Jesus, I thank Thee for the Holy Spirit who is living in my heart. My desire is that He control my every thought, word, and deed today. I trust Thee to keep me filled with the Holy Spirit moment by moment."

## COLUMBIAN CLUB

The opening meeting of the Columbian Club for the year 1944-45 was in the form of a family picnic at the farm home of Mr. and Mrs. Jno. S. Ray on the evening of Sept. 9.

The lovely basket dinner was served on the lighted lawn from a long table, cafeteria style, and eaten at quartet tables.

Mrs. C. W. Thompson directed a sing song.

Mrs. S. T. Crows, vice president, was in charge of a short program, following the dinner. Mrs. Hines Clark, the incoming president, gave a heartening address. The general theme of the year's work is to be "Our Latin-American Neighbors" and an informal open forum was held, in which both the men and the ladies gave their opinions on recent developments concerning the subject. A large number was present at the meeting.

## JUNIOR COLUMBIAN CLUB

The Junior Columbian Club met Wednesday afternoon, Sept. 10, at the home of Mrs. Mason Brown for the first meeting of the year. After a short business meeting, an interesting program on the history, legends, and art of Brazil was given. The club plans to study other phases of Pan-Americanism during the year.

The hostess, Mrs. Brown, served delicious refreshments to the following: Miss Mildred Cogdell, Miss Evelyn Manley, Miss Dovie Moore, Miss Eileen Motley, Mrs. Lewis Sloan, Miss Mary Ragland Thompson, Mrs. W. B. Tysinger, Miss Thelma White.

The club has planned a chicken fry for all members and their guests, on September 17.

## WELCOME HOME PARTY FOR MISS KEMPF

Miss Ethel Kempf of Margaret who has been on an extended trip throughout the Eastern States for the past six weeks, was the honoree at a barbecue given by Floyd Ferguson Tuesday evening at the home of his parents, Mr. and Mrs. W. R. Ferguson in the Foard City community.

Besides the barbecued goat, the delicious meal consisted of a picnic lunch and drinks, furnished by the host.

Those present were: the honoree and her parents, Mr. and Mrs. L. Kempf of Margaret; Mr. and Mrs. W. R. Ferguson; Howard Ferguson; Mr. and Mrs. John Rader and sons, Billy and Jimmy; Mr. and Mrs. Carvel Thompson and son, Jan; Mr. and Mrs. Eldon Crosoe and son, Harvey, and daughter, Evelyn; Mr. and Mrs. Grady Halbert and son, Bill; Mrs. Claude Callaway; Mr. and Mrs. Midge Adcock of Truscott and the host.

which had an all-day meeting in the home of Mrs. Ab Dunn, Friday of last week.

A Pike's Peak roast and parboiled rib steak were prepared by the agent and served with salads and desserts to the twenty members present and to the following visitors: Mrs. Jimmy Moore of Dallas, Mrs. Sam Bell, Mrs. Melvin Moore, Mrs. Jim Ewing and Audra Orr.

## HOMEMAKERS CLASS MEETS

The Homemakers' class of the First Baptist Church met Thursday, Sept. 11, at the home of Mrs. Roy Burgess with Mrs. A. E. Barker as co-hostesses.

The meeting opened with the class song after which Mrs. Frank Moore led in prayer. The devotional "God's Assurance of Help" was given by Mrs. Otis Coffey. The annual reports of officers were given and new officers were elected for the coming year. They follow: Mrs. Frank Moore, teacher; Mrs. Roy Burgess, president; Mrs. A. E. Barker, 1st vice president; Mrs. Joe Smith, 2nd vice president; Mrs. L. E. Archer, secretary-treasurer; Mrs. Glen Goodwin, song leader and Mrs. Otis Coffey, reporter.

After the business session, games were played under the direction of Mrs. Joe Smith and a lovely refreshment plate was served to thirteen members and two guests.

## Fort Worth Doctor Turns Author To Tell Life's History

(Written by C. L. Douglas)

Dr. Charles H. McCollum, prominent Fort Worth surgeon and one of the best known men of medicine of the Southwest, has turned author.

He has written a book titled "Pills and Proverbs" (announced by the Meador Publishing Co., of Boston) and it is filled with humorous, tragic and unusual anecdotes gleaned from half a century's rich experience as farmer

boy, drug store clerk, country practitioner, army medic, surgeon, professor and world traveler.

"Pills and Proverbs," as the title might imply, is not just a story of self-reliance and courage—the account of how a lad of few ordinary privileges, son of a poor farmer, overcame all handicaps to become a noted surgeon. One of Alger's own heroes could not have done a better job.

It is the doctor's first adventure in writing, but there's nothing dull about his product. He shows from the very first pages that he is expert at turning clever phrases, and even in some of the more serious discourses he seems unable to prevent a sense of puckish humor from slipping in here and there.

Especially humorous and filled with human interest are accounts of his experiences in the army during the Spanish American War and anecdotes concerning some of the patients he encountered as a country doctor. Don't imagine that this book's appeal is directed solely toward the medical profession. There's nothing scientific or technical about it in the least. It's just the story of a man's life written in a language that the layman can understand and thoroughly enjoy.

But, although Dr. McCollum has from time to time practiced in various branches of the specialties, he leaves no doubts that he has clung faithfully to the medicine kit of the general practitioner and that he still believes that the good diagnostician is the most important of doctors.

The book, which already has won enthusiastic approval from various teachers, lawyers, surgeons and theologians, runs to 225 pages and includes 11 illustrations. It sells for \$2.00.

## FOARD CITY H. D. CLUB

"Of all meats, liver ranks highest in protein values, in iron, copper, phosphorus, and contains a goodly quantity of vitamin A, as well as an appreciative amount of vitamin D." This, in addition to a food value rating on other cuts of meat, comprised the gist of Miss Joeline Vannoy's talk to the Foard City Home Demonstration Club, which met on Sept. 12 in an all-day meeting at the home of Mrs. Grady Halbert.

Demonstrations for the day consisted of a par-boiled steak as well as a roast cooked in the oven of a relatively low temperature. Members of the club carried salad and vegetables, thereby rounding out a menu.

Miss Vannoy arranged the meats as attractive centerpieces, garnishing with fresh fruits and crisp mint leaves. The large, colorful platters enhanced the beauty of the dishes and made the meal much more palatable.

On Tuesday, Sept. 16, the club meets again at the club house with Mrs. E. V. Halbert as hostess.

## WEST SIDE H. D. CLUB

Ten club members were present at the first meeting of the West Side Home Demonstration Club, following a summer recess. Mrs. Tom King was hostess to the club at her home. Mrs. H. G. Kinchloe, president, led the business meeting, after which Miss Joeline Vannoy gave a demonstration of cooking and serving a beef roast and broiled beefsteak. The club will meet at the home of Mrs. Lonnie Scott on Sept. 24.

## NEW BOOK IN LIBRARY

The novel, "In This, Our Life," by Ellen Glasgow, has recently been added to the library. The novel is rich in human values. It is the work of a writer with the mind of a philosopher, stored with knowledge of human nature in its weakness and its strength. It is a book for time because at its core is an attitude or better, a conviction to which men and women of today must hold if they are to live effectively in the world we face, where at times our problems seem too great, and the

## Young Men Have Opportunity to Do Bank Examining

An opportunity to enter a career of bank examining is offered young men of the country by the Federal Deposit Insurance Corporation, according to a recent announcement by the United States Civil Service Commission. Applications for admission to a competitive examination for positions as Junior Bank Examiners with FDIC, at an annual salary of \$2,000, will be accepted by the Commission until October 2, 1944. These positions, which provide excellent experience in banks of all sizes and which involve extensive travel, should interest eligible young men.

Charged with responsibility for protection of depositors in more than 13,000 banks throughout the country, Federal Deposit Insurance Corporation believes that sound banking can be furthered by the application of realistic, consistent supervisory standards through the medium of bank examinations. As a consequence, the Corporation always has considered bank examination one of its most important functions, and has tried since its inception to maintain an examining staff of able, conscientious men who are trained in banking and finance and who want to make bank examining their career.

For three years Federal Deposit Insurance Corporation has followed the practice of recruiting junior personnel for its examining staff through competitive examinations, and filling vacancies in its senior staff through promotions from the junior ranks. Bank examining thus has become a true career service, with splendid opportunities for advancement to higher rank and pay.

Since so great a proportion of the banks insured by the Corporation are so-called "country" banks, located in small communities and serving primarily agricultural districts, FDIC is particularly eager to attract to the forthcoming examination young men who are familiar with the workings of small and medium-sized banks and with the problems of agricultural credit. Appointees will have excellent opportunities to broaden their knowledge through frequent assignments to banks in larger cities within their districts and through their training under senior examiners with long records of service.

The Corporation is seeking men between the ages of 23 and 35 who have had at least one year's

experience in a bank, building and loan association, or other financial institution, together with either three additional years of such experience or three years of college, accountancy, or law school education.

The author has consistently held to the tragic way of life, even when the comic spirit glinted through her pages, but she has never embraced a philosophy of despair.

## SCHOOL OFFICIALS OF FOOTBALL DISTRICT MEET AT SEYMOUR

The school officials of football district 9-A met at Seymour Tuesday afternoon to check the eligibility of players and to attend other business. I. T. Graves, Crowell school superintendent, was re-elected chairman, and W. S. Thomas, superintendent of Holiday Schools, was re-elected secretary.

## Rotary Club

Rotarian I. T. Graves, superintendent of the Crowell schools, gave a talk on 12-grades schools at the Wednesday meeting of the Crowell Rotary Club. Mr. Graves explained in detail the new system that has been installed in the local school this year.

Rotarian Joe Anderson of Quanah was a visitor.

Cut the dead leaves of iris and burn them because they already have done all they can for the plants. After drying they harbor disease and should be removed.

## EXPLOSION IN SPACE

Speeding on its way to the earth at the rate of 186,000 miles a second a ray of light tells us of a stupendous catastrophe that occurred in the constellation Hercules 1,500 years ago. A star exploded. While mailed knights were arming for one crusade after another, the light of that explosion was traveling toward us, only to reach us now. Such is the vastness of the universe.

Soon after it has reached its brightest the new star declines. In a few weeks it is but a weak reminder of its brief spectacular glory. After months or years it settles down as an ordinary star.

Any star may explode. Our sun included. Think of what would happen to the solar system if the sun were to blow up and become

a new star. The glare would strike us blind. Killing rays would pour out. In a few days the outward-rushing shell of glowing gas would envelope the earth. Soon it would engulf Mars, Jupiter, Saturn. The planet would be heated up like molten metal. Like wreaths of smoke, nothing would be left of a system—except the abode of life on at least one planet.

Hardly any novae or new stars can be seen even through the most powerful telescopes. And they are discovered by sight. They are photographed and an instrument called a spectrograph spreads their light into rainbow hues and dark lines and bands. These tell the tale of gases that are flung out for millions of miles. We can actually see a star's structure.

It is always thus. No star would exist if it were not eyes.
