E. Tate Taken Death Friday Evening, 8 o'Clock

Funeral Rites Held in Methodist Church Tuesday Afternoon

Funeral services for S. E. Tate, who passed away at the local hospital Friday evening, June 25, after an illness of one day, were held at the Crowell Methodist church Tuesday afternoon, June 29, at 3 o'clock, with the pastor in charge of the services. He was assisted by Rev. W. B. Fitzgerald, pastor of the Baptist church.

A special request musical number, "Does Jesus Care?" was sung by a quartet composed of Mrs. C. W. Thompson and J. P. Longino. Mrs. Longino played the music.

All bearers were Henry F. McDaniel, Dick Croson, R. Bryson, Darvin Bell, Don Norris and Charlie Cavin. Other bearers included Mrs. C. Bryson, Mrs. Curtis Ribble, Herman Kinchloe, Mrs. Don Norris, Mrs. Milton Hunter, Lewis Ballard, Mrs. Johnnie Fox, Misses Deviah and Bowley. Interment followed in the Crowell cemetery under the direction of the Womack Funeral Home.

Annual Edward Tate was born in 1883, near Greenwood, Wise County. He was married to Miss Bertie Cook, of Violet Springs, Okla., in 1904. Two sons, Ed and Earl Tate, were born in the home, after the death of their parents. Ed still resides at the home, Earl is serving in the U. S. Navy and is stationed at Williamsburg, Va.

Mr. Tate was converted in 1911 and united with the Methodist Church and has since that time lived a devoted Christian life. He was a good neighbor, and true friend. He was always willing and anxious to help others in any way possible, and did many thoughtful and kind deeds in an unassuming manner.

Mr. and Mrs. Tate resided at Violet Springs, Okla., until 1911, when they moved to Foard County, where they have since lived. He is survived by his wife; two sons, Mrs. Sarah Carter of Wilcox, Okla., and Mrs. Belle Hurst of Oklahoma City, Okla.; two daughters, Jim Tate, of Morris, Okla., and John Tate of Henryetta, Okla., the two named nephews and numerous other nieces and nephews. Two sisters and two brothers preceded him in death, Mrs. Lucy Manard of Henryetta, Okla., Mrs. Addie Riley of Ardmore, Okla., Tom Tate of Henryetta, Okla., and Joe Tate of Greenwood, Texas.

Out-of-town relatives and friends attending the funeral were Earl Manard, Williamsburg, Okla.; Mr. and Mrs. Ross Hurst, Oklahoma City, Okla.; Mrs. Sarah Carter, Willow, Okla.; Jim Tate, Morris, Okla.; Mrs. Emma Hargrove and Hubert Hargrove, Muskogee, Okla.; Bobby Gene Robinson, Snyder, Okla.; Mrs. Len Robinson, Ralls; Mr. and Mrs. Earnest Jones and son, Billy Wayne, Crosbyton; Mrs. Paul Ely and Mrs. Pauline Martin, Ralls; Mrs. Annie Young and Mrs. Ethel Lottler, Wichita Falls; Mr. and Mrs. Jody Allen and Mr. and Mrs. Jim Shaw, Burk Burnett; Alton Cavin, Hutchinson, Kansas; and Mrs. W. M. Judd, Vernon.

Men in Service

Cpl. Elmer Porter, son of A. P. Porter, is a member of a champion bowling team, C-53, at Camp Roberts, Calif. His picture with the other members of the team was published in Cannoniers Post, weekly newspaper of the Field Artillery at Camp Roberts on Tuesday, June 15.

Alton Cavin, Seaman First Class, of Hutchinson, Kan., was at home on a 4-day pass the first of the week visiting his parents, Mr. and Mrs. Charley Cavin, and also attended the funeral of S. E. Tate.

Sgt. Ed Dunn of Camp Campbell is at home on a 15-day furlough visiting his mother, Mrs. W. T. Dunn, of Margaret and other relatives and friends. For the past eight months Sgt. Dunn has been an instructor in the bakers' and cooks' school of the U. S. Army at Camp Campbell.

Staff Sgt. Mack Boswell of the Medical Department of the Army Air Base at Roswell, N. M., spent Sunday afternoon and night here visiting in the home of Mr. and Mrs. T. B. Klepper, en route to the home of his father in Plainview.

Seaman 2/C Marion Chowning Jr. and his wife, are at home on a 15-day leave following his dismissal from the hospital at Matagorda Peninsula. They are visiting her parents, Mr. and Mrs. C. W. Carroll in Crowell and his parents, Mr. and Mrs. Marion Chowning of Truscott.

Pfc. John E. Fish of Vivian, Pfc. Otto Christian of Crowell and Pfc. Edward J. Murphy of Margaret have landed safely in Australia, according to a V-mail letter received Monday by the parents of Pfc. Fish.

John Clark Long, who recently completed his freshman year in pre-med at Texas Tech, a student under the V-1 Naval Reserve program, has been ordered to report for active duty at Tulane University, New Orleans, La., on July 1. He left Tuesday afternoon on the north bound Santa Fe en route to New Orleans.

Another Foard County father and son to enlist in the service of their country are R. S. Carroll, senior and junior, R. S. Carroll Sr., who has been employed at the Consolidated Aircraft Corporation in Fort Worth for the past four months, has enlisted in the Seabees of the U. S. Navy and was given the rating of first class petty officer and left Monday to report for duty in Norfolk, Va. He is a veteran of World War I, having served in the Navy during that conflict. Mr. Carroll's son, R. S. Jr., former student in Texas A. & M. College, has enlisted in the Army Air Corps and is awaiting orders to report for induction. The other father and son to be in service at the same time were J. A. (Adrian) Thomson and his son, Pn. M. 3/C Gordon Thomson, who is in Australia. Mr. Thomson recently received a discharge from the Army on account of his age.

Seabee Earl Manard, who is stationed at Williamsburg, Va., arrived here early Tuesday morning, having been called on account of the death of his uncle, S. E. Tate.

W. P. Hord, son of Mr. and Mrs. S. B. Hord, who is a member of the Marine Corps Reserves, left Tuesday for Georgetown, where he will attend Southwestern University for Marine training.

A. Y. Olds left Tuesday morning for Austin, where he will report for active duty in the Navy, and will attend the University of Texas for a training period. He was a member of the Naval R. O. T. C. Reserves.

Pvt. Charles E. Wood, who has been visiting his parents, Mr. and Mrs. C. H. Wood, of Thalia for the past week, has returned to San Diego, Calif., where he is stationed with the Marine Corps.

A/C Ted Longino, son of Rev. and Mrs. H. A. Longino, has been transferred from Enid, Okla., to Frederick, Okla., where he will receive his advanced training in flying. He recently graduated from the school at Enid and was given the honor of flying in formation for the graduation exercises.

Pfc. Clayton Green of Camp Forrest, Tenn., is here on a 14-day furlough visiting his wife and other relatives.

A/C James A. Welch, son of Mr. and Mrs. J. Y. Welch, who has completed a training course in Santa Ana, Calif., for further training in the air. He has had ten hours in the air. He will be in Santa Ana for nine weeks.

A press release from the Public Relations office of Fort Knox-Ky., states that Pvt. Weldon L. Pierce has completed his basic

New Super War Eye Locates Enemy

THESE pictures show what happens when enemy planes take off to attack Allied objectives these days. At the left, enemy planes rise from distant airfields. Radar, the new electronic super eye made possible by the electron tube, center, and now being used by United Nations fighting forces, detects the planes. Radar sends out radio waves which bounce off the metal planes and are reflected back to Allied instruments which determine the planes' location, speed, and direction. This enables interceptor planes to surprise and destroy the advancing enemy, right. Radar is also used to locate enemy ships and surfaced submarines in darkness, fog, and far beyond the horizon, and has helped make possible many spectacular Allied land, sea and air victories. General Electric scientists, among the many American and British research men who contributed to radar development, explain that post-war navigation of ships and planes will be as safe in fog as in clear weather with the use of this newest electronics development.

New Rotary Club Officers to Assume Duties Next Week

John Raser completed his second year's service as president of the Crowell Rotary Club at the meeting of the club Wednesday at noon, and the new officers for 1943-44 will take over their duties at the next meeting, Wednesday, July 7. Mr. Raser served as president of the club in 1936-37.

Officers for the coming year are Virgil Smith, president; Verne Walden, vice president, and J. A. Stovall, secretary (re-elected). Committees announced by President Smith Wednesday at noon are as follows:

- 1. Program and attendance, I. T. Graves, chairman; Jack Seale, Herbert Edwards.
- 2. Classification and membership, Henry Ferguson, chairman; H. A. Longino, L. E. Archer.
- 3. Rotary information and public information, T. B. Klepper, chairman; Verne Walden, A. L. Davis.

International Service—W. F. Kirkpatrick, chairman.
Vocational Service—Merl Kincaid, chairman.
Community Service—George Self, chairman, with Boys Work and Rural Work included, D. F. Eaton, chairman.

Food Preservation Project Free to All Who Desire to Can

The people of Foard County are being given the privilege of canning their vegetables and fruit absolutely free of cost in a Rural War Production Training program and Food Preservation project which is for the purpose of helping the people throughout the United States to preserve all the food possible towards the ultimate end of winning the war on the home front.

All expenses of the project are borne by the U. S. Government and the projects are supervised by the Vocational Agriculture instructors throughout the country. The course has been operating here for the past two weeks and will continue until the latter part of August or longer. After the present course is completed, another course will be organized, if there is sufficient demand for it. It all depends upon the cooperation received as to whether there will be another course.

Marvin Myers, Vocational Agriculture instructor for Crowell High School, insists that all who can, avail themselves of the opportunity the course offers. The kitchen which is in the Grammar School, is under the supervision of Mrs. Roy Archer and is open on Tuesdays and Fridays. Those who desire to can at the kitchen should contact Mrs. Archer. The kitchen is amply supplied with the necessary equipment for the work. It has two large cookers and one small cooker and also a sealer. The canning may be done in tin or glass containers.

To insure safety in canning, the vegetables should be gathered and canned the same day. If desired, the ladies can prepare the foodstuffs at the school. This is not a WPA project but is simply to aid the nation towards furthering the war effort. Everybody, whether they have a cooker or not, is invited to take advantage of this opportunity for aid in their canning.

and it was believed to be about one inch in the south portion of the county.

Over Half Inch Rain Recorded in Crowell

Rain to the amount of .62 of an inch was recorded in Crowell Tuesday, most of which fell in the morning. The rain was heavier in other parts of the county, especially in the west and south portions. The precipitation in the Vivian community amounted to an inch and a half or two inches

training there and is now ready for combat duty.

The Men Behind the Gun

Looking like characters from a futuristic adventure strip, members of a gun crew stand ready at battle stations inside a turret aboard the 31,000-ton British battleship, Malaya. Their weapon is a 15-inch gun—the same size as the guns aboard the 32,000-ton British battleship, Repulse, which was sunk on December 9, 1941, by the Japanese.

Mrs. J. R. Beverly's Brother is Killed at Antlers, Okla.

Mr. and Mrs. J. R. Beverly were called to Paris Tuesday afternoon in response to a message stating that Willis Huddleston, brother of Mrs. Beverly, had been killed near Antlers, Okla. No particulars had been learned at the time Mr. and Mrs. Beverly left, except that he had been murdered and robbed.

Mr. Huddleston was operating a travel bureau and was either going on or returning from a trip at the time he met his death. When found by the side of the road, he had been robbed of his money but his driver's license, ration card, and other papers were found on his person, intact. Evidently, robbery was the motive for the crime. His car was later found in another part of the town.

Funeral services were held in Paris Wednesday afternoon. Mr. Huddleston is survived by his wife and three children, Billy, Peggy and Bobby, and several brothers and sisters.

Crowell Stores Will Be Closed All Day, Monday, July 5th

The Crowell postoffice, the Crowell State Bank and four grocery stores, Brooks Food Market, Wehba's Cash Grocery, Hancy-Rasor Grocery and Lanier's Grocery, have announced that they will be closed all day Monday in observance of the Fourth of July holiday which comes on Sunday. Other stores announcing that they will close are Beverly Hdw. & Furn. Co., Lanier Hardware, Ben Franklin Store, Bird Dry Goods Store, Edwards Dry Goods Co., and W. R. Womack, furniture and undertaking.

Uncle of T. S. Haney and Mrs. John Raser Drowns at Crosbyton

John Haney, brother of the late T. M. Haney of Thalia and Vernon, was drowned while swimming at Silver Falls south of Crosbyton Tuesday afternoon of last week. Mr. Haney saved four small girls from drowning and then disappeared under the water.

He was fifty-nine years of age and was County and District Clerk of Crosby County. He lived in Foard County many years ago. Survivors include his wife and three children.

Funeral services were held in Crosbyton last Thursday afternoon and were attended by T. S. Haney and Mrs. John Raser of Crowell, Mrs. T. M. Haney of Vernon, Mr. and Mrs. C. D. Haney and Oscar Haney of Five-One.

BIBLE SCHOOL PROGRESSES

The Daily Vacation Bible School which is under way at the Church of God on Main Street, has a good enrollment and the work is progressing. The school will continue through next week, says Mrs. Gertrude Alexander, who is director of the school. She is assisted by Mrs. Willie Lee Darter of Electra.

Increased Postal Sales During Last Year Advances Crowell Postoffice from 3rd Class to 2nd Class Effective Today

Mrs. Clarence Berg Died at Truscott Wed., June 23

Funeral Services Were Held in Baptist Church Saturday

Funeral services for Mrs. Clarence Berg were held in the Truscott Baptist Church Saturday afternoon at 2:30, conducted by the pastor, Rev. Joe E. English, who was assisted by the Methodist pastor, Rev. D. A. Ross. Burial was in the Gilliland Cemetery under the direction of the Womack Funeral Home of Crowell.

Pall bearers were Jimmy Welch, Oliver Miller, H. Bate, Ozie Turner, Jack and Frank Brown, Flower bearers were Mrs. Jimmy Welch, Dammie Groves, Mrs. Jessie Reed, Mrs. Frank Brown, Mrs. Jack Whitaker, Mrs. Warren Morton, Mrs. Orval Myers, Tennie Ola Walker and Irene Myers.

Mrs. Berg passed away at her home in Truscott on Wednesday, June 23, following a short illness. She was born in Wise County, Texas, May 27, 1901, and came to Knox County in 1914. In 1917 Mrs. Berg was converted and joined the Baptist Church and was a faithful Christian character, loved by everyone who knew her.

Survivors include her husband of Truscott and two sons, Ernie Dee Showers of Harrold, Texas, and Ira E. Showers of San Diego, Calif., her mother, Mrs. M. S. Bays of Truscott; six brothers, Dick Bays of Holliday, Otis and Ernest Bays of Gilliland, Pvt. Jodie Bays of Washington, D. C., Alvie Bays of San Pedro, Calif., and Gomer Bays of Demming, N. M.; one sister, Mrs. Wyndol Speck, of San Pedro, Calif. All were present for the funeral except one brother, Alvie, and the sister.

Infant of Mr. and Mrs. Woodie Lemons Dies

The infant daughter of Mr. and Mrs. Woodie Lemons died in a Vernon hospital Tuesday, June 22, following its birth there on June 17.

The baby, Bette Liane, was buried in the Crowell cemetery on Wednesday afternoon, June 23, with services at the cemetery, conducted by Rev. W. B. Fitzgerald. Pall-bearers were Jack Fitzgerald and Audie House, and flower-bearers were Mrs. Jack Fitzgerald and Miss Margye Davidson.

The baby is survived by the parents, grandparents, Mr. and Mrs. Frank Moore, grandmother, Mrs. Eula Lemons of Wichita Falls, who was here, Mr. and Mrs. Aubie House of Albany were also here for the funeral.

A Ducky Truck

The U. S. army's new 2 1/2-ton amphibian truck is shown being loaded at New Caledonia. It has been nicknamed the "Duck." When loaded it waddles ashore and then rolls inland to wherever the supplies are needed. It eliminates bottlenecks in landing supplies to forces attacking enemy-held shores.

Postmaster Alva Spencer announced this week that the Crowell postoffice will be advanced from 3rd class to 2nd class beginning today. The advance is made possible by the increase in postal sales during the year 1942. The local office was in second class from July 1, was returned to 3rd class on account of the decrease in postal sales during the depression.

A fourth employee will be added to the postoffice force and Earl Davis has been employed as an auxiliary clerk. Other employees are Mr. Spencer and Mrs. Spencer and Mrs. Henry Borchardt, assistants.

Beginning with Monday, July 5, the office will be open from 8 a. m. to 9 a. m. on legal holidays, according to announcement by Postmaster Spencer. This new ruling will be strictly observed, Mr. Spencer says, and all patrons must adjust their affairs accordingly.

Receipts from sales at the postoffice have been increasing for several years, but the greatest increase has been during the first six months of 1943 which were 13 per cent above the first six months of 1942. There was a 10 per cent increase during 1942 over that of 1941.

Lieut. David Sollis Dies Suddenly in Denver Hospital

Lieut. David Sollis, son of Mr. and Mrs. Dave Sollis, died suddenly from a heart attack in a veterans hospital in Denver, Colo., Tuesday afternoon at 4 o'clock. Lieut. Sollis had been ill for some time, however, his condition was thought to be improving, according to reports from his bedside to his parents.

The body will be shipped to Crowell for burial and funeral arrangements will be announced later.

Letter to Local People Tells of China Conditions

A letter received by Dr. and Mrs. H. Schindler from their nephew, who is a missionary for the Catholic Church in China, has some very interesting facts concerning conditions in China. Rev. Wandolin Dunker, stationed at Hwang, Kiangsi, China, a son of Dr. Schindler's sister, wrote the letter to his parents in Perryville, Mo., and the letter was forwarded to the relatives here.

Rev. Dunker is known here, for he had visited in the Schindler home before going to China as a missionary.

Rev. Dunker tells that there had not been anything heard from the Japs in his particular vicinity since August, 1942, when they made their last raid. He stated that the condition there was about as it was in 1939. The last raid lasted for only 7 or 8 days whereas in other places they had stayed more than two months. They took and destroyed personal possessions, razors, radios, etc.

Rev. Dunker said that he had no worries now about getting batteries for his radio for they had thrown his radio from upstairs onto the stones below and thereby solved the battery problem for him. He seems to miss his clawhammer and typewriter more than anything else. He said they left his typewriter but it looked as if the clawhammer had been used successfully on it.

He had been busy dispensing the "China Relief" fund which had been sent them. While it was of considerable amount, it was insufficient and need was evident on every hand. Schools have been closed until after the duration. Prices are extremely high and whereas a dollar in China used to purchase ten times as much as in America, they seem out of reason. If you have something to sell, Rev. Dunker says, all is well. He had recently sold two pigs which brought \$3,200. But pigs are very scarce, for the Japs, when meal time had come, would kill a pig and cut off the amount desired for the time and leave the rest to spoil. Another meal brought the same procedure so that very few hogs were left. He quoted such prices as: salt, from \$18 to \$20 per pound; pork, \$10.00 per pound; unrendered lard, \$14 per lb.; eggs, 50 cents each; sugar, \$12 per lb.; stove wood, ten cents for a small stick of kitchen wood; cloth, very poor grade, \$45 per yard.

The last letter Rev. Dunker had received from his parents was written in August, 1941.

Items from Neighboring Communities

THALIA (By Minnie Wood)

Mrs. Buster Lindsay visited in Keller recently.

Mrs. Huston Adkins visited relatives in Archer City last week.

Mrs. J. W. Wood left Wednesday for a visit with her sons in Virginia.

Larry Wood is visiting his sister, Mrs. Rex Snowden, and husband in Winshire this week.

Clendon Sims of Paris, Texas, visited his parents, Mr. and Mrs. Lee Sims, here this week.

Mrs. G. A. Smith and daughter visited relatives in Seymour recently.

E. G. Grimsley attended funeral services for Mr. Emerson in Martha, Okla., Saturday.

Mr. and Mrs. W. C. High of Waco, visited their niece, Mrs. Robert Hammonds, and husband here last week.

Paul Payne, who is stationed in the U. S. Army in Gainesville, visited his wife and parents here last week-end.

Jesse Grimm of Fort Smith, Ark., is visiting his parents, Mr. and Mrs. O. M. Grimm, and other relatives here this week.

E. G. Grimsley and John Thompson were visitors in Fort Worth Thursday.

Mr. and Mrs. H. W. Banister has received an announcement stating that a daughter, Janis Kelly, was born June 22 to Mr. and Mrs. Wade Corrine of San Francisco, Calif. Mrs. Corrine was formerly Miss Ernest Banister of this place.

Miss Jimmie Lee Powell of Denton visited in the H. W. Banister home here last week-end.

John Thompson Jr. visited in Leveland one day last week.

Cpl. Harold Banister of Shepherd Field, Wichita Falls, visited his parents, Mr. and Mrs. H. W.

Banister, here Sunday.

Bill McKinley and family of Amarillo visited relatives here a while this week.

Edward Shultz and Bill McKinley were visitors in Abilene Monday.

Mrs. I. M. Shultz left Monday for a visit with relatives in Norman and Oklahoma City, Okla.

Mrs. L. H. Hammonds was hostess to the Methodist Woman's Society at the church Monday afternoon. Fourteen ladies attended.

The Baptist ladies met at the church Monday and canned peas for the pastor's family.

Mr. and Mrs. Sam Powers of Rule and daughter, Mrs. Fred Glover, of Munday visited Mr. and Mrs. Oran Ford Thursday.

Pfc. Travis McKinley and wife have returned to their home in Bryan after several days visit here.

TRUSCOTT (By Irene Myers)

Mrs. Curtis Casey spent last week-end in Salina, Kan., with her husband, Tech, Cpl. Curtis Casey, who is stationed at Camp Phillips, Kan. Cpl. Casey will go to Tennessee on maneuvers soon. Dorothy Nell Young of Wichita Falls visited her mother here last week.

Mary Evelyn Harnie, who has been employed at the Consolidated Air Craft Company in Fort Worth, returned home last week.

Frank Gordon of Benjamin visited his mother, Mrs. J. L. Bates, Sunday.

Lynette Chowning spent the week-end with Leto Jo Carroll of Crowell.

Floyd Roberson and daughter, Glenn, visited their parents and grandparents, Mr. and Mrs. J. M. Roberson, in Vera Sunday afternoon. They were accompanied by Martha Arp.

Mr. and Mrs. Bernard Bishop and daughter, Carma, of Quanah visited Mrs. Byron Bates Sunday.

Mrs. Matt Brown and children are visiting relatives in Lubbock.

Mildred Black of Fort Worth is visiting her parents, Mr. and Mrs. John Black.

Mr. and Mrs. Granville Westbrook of Fort Worth are visiting his parents, Mr. and Mrs. Benton Westbrook.

Seaman Second Class Marion Chowning Jr. and wife of Galveston are visiting his parents, Mr. and Mrs. Marion Chowning, and other relatives.

Ann Acker returned to Houston Thursday after a three weeks' visit with her grandmother, Mrs. Callie Acker.

Mr. and Mrs. O. B. Guyton of Ft. Worth are visiting relatives here this week.

RIVERSIDE (By Mrs. Cap Adkins)

Pvt. Martin Schultz of California and Gerhard Schultz of Five-in-One spent Wednesday in the August Rummel and family at

tended a farewell dinner Sunday at the home of Edd Schoppa in Lockett in honor of their son, Elroy Schoppa, who is leaving for Navy service.

Mr. and Mrs. Albert McWilliams of Crowell spent Sunday in the home of Mr. and Mrs. Bob Miller.

James Adkins, who is working in the Consolidated Aircraft factory in Fort Worth, spent Sunday and Sunday night with his parents, Mr. and Mrs. Cap Adkins, and family.

Mrs. Ben Bradford is visiting relatives in Abilene and Comanche.

Elinor Lois Walker of Bridgeport, who has been visiting her aunt, Mrs. Bailey Rennels, has gone to Chillicothe to visit her aunt, Mrs. E. L. Derr.

Rex Whitten spent the week-end with his sister, Mrs. Charles Earthman, and family of Vernon.

Mrs. Lewis Ward has returned to her home in Wichita Falls after a visit with Mr. and Mrs. Frank Ward.

Mary Evelyn Adkins was brought home Thursday from a Vernon hospital where she had recently undergone an operation for the removal of her appendix.

Mrs. J. L. and Bailey Ruppel spent Sunday afternoon with Mr. and Mrs. E. L. Derr of Chillicothe.

Mr. and Mrs. Ben Hopkins and family were dinner guests of Mr. and Mrs. John Wright of Thalia Sunday.

Corp. Wayne Sanford of Camp Bowie and wife of Fort Worth spent the week-end with her parents, Mr. and Mrs. Sam Toie, and other relatives.

Mrs. Allie Huntley returned Sunday from a few days' visit with her daughter, Mrs. Gene Speer, and family of Archer City.

Mr. and Mrs. F. W. Butler of Thalia and Mrs. J. W. Huntley visited in the Cap Adkins home Saturday afternoon.

AGRICULTURE

(D. F. Eaton, County Agent.)

Chick Feed and Water

A chick in the brooder house is worth a special effort to raise it. Little chicks one day become meat or producers of eggs. Don't overlook any precaution to keep them healthy, says Dr. W. A. Boney of the A. & M. College Extension Service staff. And in doing so, he explains, even little things like the feed and water containers are important.

A feeder two feet long and open on both sides will accommodate 50 small chicks. For twice that number two of these two-foot long feeders, or one four-foot long, will be needed. And remember, as the chicks grow older they will need more feeding space. That sounds simple, but we're dealing with the little things important to successful chick raising. And experienced poultrymen say this is a point worth watching because proper spacing affects the growth of chickens. If in doubt, provide a little too much feed space rather than too little.

Dr. Boney, who is the Extension poultry veterinarian, says the same precaution applies to watering. Provide at least one water fountain of one gallon capacity for each 50 chicks. Don't let the water containers run dry and don't fill the feeders too full. Keep the water and feed containers on slatted or wire mesh platforms to keep the chicks from contact with wet litter, and as a help in sanitation.

Get the chicks out into the sun as soon as possible. Several hours of sunshine daily is good for their health. It also does away with the need for oils to supply vitamin D. To encourage the chicks to stay in the sun, place most of the feeders and water containers out of doors.

Dairy Feed Problems

The present need for dairy products, and perhaps for several years to come, should be an encouraging outlook picture to dairymen. It seems likely, too, that when the war ends there will be a demand for foundation stock from the United States to rebuild dairy herds in European countries.

According to E. R. Eudaly of the A. & M. College Extension Service, the other side of the domestic picture does not look so good. This angle is the feed situation. Feed is high in price at this time, and many persons who have studied the supply and the outlook for production believe it will remain high. This means, says Eudaly, who is the Extension Service dairy husbandman, that every effort must be made to have an abundance of pasture, silage, and good quality hay. The more good roughage which goes down the cows' throats the less grain mixture will be needed.

Put another way, the higher the protein content of the roughage, the less protein will be needed in the grain mixture. Most Texas hay contains less protein than it should. The more immature the hay crop is, the higher it is in protein, Eudaly says. Of course, tonnage as well as quality is wanted. Therefore, it should be cut at medium stage. Johnson and Sudan grasses should be cut just before they head. Prairie grass should be cut at or just before bloom, and cane should be cut in the bloom.

Farmers should try and put up one ton of hay and three tons of silage for every cow. If no silage is made, put up two tons of hay for each cow. If at all possible, also put up some legume hay like alfalfa, clover, cowpeas or peanut. Legume hays are higher in protein.

Storing Irish Potatoes

Most people have dug their

Is There Anybody Home?

American soldiers, engaged in mopping up operations on Attu island, peek into a Japanese dugout in search of snipers. The dugout has a tent roof to keep out the bitter wind and cold of the bleak island that became a cemetery for the enemy. Most of the Japanese were killed in battle or committed suicide. Few were captured. The end of Japanese resistance on Attu was marked by a final suicidal enemy attack, early in the morning. The resulting battle was a slaughter in which it has been estimated that 50 Japanese were killed for every American. Some of the Japs struck their hand grenades against their helmets to start the detonation mechanism, then held the grenades to their chests until the explosion ended their lives. The final attack occurred in American positions above Cories Lake. One American colonel and other officers were surrounded in a tent from which they fought off Japs for seven hours. An example of the accuracy of the American's shooting was shown when the body of an Alaskan scout was found with twelve dead Japs lying in a half circle around him.

Two Minute Sermon (By Thomas Hastwell)

Their Lights Do Shine: We, all of us, know men and women of a sour and forbidding disposition. Whatever may be the cause, whether it is a bad liver or a peculiar quirk of the disposition the result is a personality that does not attract others to it. Rather it repels. Other persons do not seek their association, and, as a rule, such natures have but few friends. On the other hand there is the friendly person who has a cheery word of greeting and good cheer. Such a personality attracts others. Such a person has many friends who are drawn to them by the atmosphere of cheerfulness and good fellowship which seems to go with them. As a rule these cheerful personalities like their own but even those who have never learned how to turn on the sunshine in their hearts. A good man or a good woman in a like measure radiates goodness wherever they go, and not only attract others like themselves but awaken the admiration and respect of those whose lives do not measure up. They are bringing in a most effective manner the message of Christ to those with whom they come in contact because they inspire in others a desire to possess in their own lives this charm of righteous living.

THOUGHTS OF SERIOUS MOMENTS

Blessed are the merciful: for they shall obtain mercy.—Matthew 5:7.

As freely as the firmament embraces the world, or the sun pours forth impartially his beams, so mercy must encircle both friend and foe.—Schiller.

Mercy among the virtues is like the moon among the stars—not so sparkling and vivid as many, but dispensing a calm radiance that hallows the whole.—Chapin.

Improved family finances and the keener war interest in security and protection are reflected in the fact that life insurance policyholders to a greater extent than ever before are keeping their policies in force. So far this year the call upon emergency cash values in life insurance policies has been at a rate one-third below that of 1942, which was the previous low record rate.

QUESTIONS AND ANSWERS

1. In what country is the province of Hunan, which is frequently mentioned in the war news?
 2. Of what country is Ramon S. Castillo the president?
 3. What prison in this country is known as "The Rock"?
 4. For what achievement did Maj. Gen. James Doolittle become known?
 5. What well known actor was reported to have lost his life when the Nazis shot down a passenger plane over the Bay of Biscay?
 6. In the present coal strike matter, what is meant by portal to portal pay?
 7. Is canned milk rationed or not rationed?
 8. Where are the Straits of Messina located?
 9. In what specific part of Italy is Cape Spartivento mentioned in Mediterranean war news, located?
 10. What is the present war time capital of China?

BALLARD FEED & PRODUCE

Another Man Added to Force
In Addition to My Regular Force

I have employed another man, Joe Miller of Pauls Valley, Okla., as a blacksmith and welder in my shop, who assumed his duties here Tuesday. I have also installed a new factory-built lawn mower sharpener which enables us to give you the very best service in sharpening your mower.

Our stock of farm equipment supplies includes the following items:

Lister Points and Sweeps	Shovels
Post Hole Diggers	Forks
Wheel Bearings for One-Way Plow	Axes and Handles
Wood Bearings for One-Way Plow	Shovel and Scoop Handles
Harrow Teeth	Bolts
Planter Chains	Plow Handles
Combine Chains	Log Chains
Garden Hoes and Rakes	Boomers
	Scoops
	Water Bags

See me for one-way discs.

Q. V. Winningham Machine Shop
Q. V. Winningham, Owner and Manager

Irish potatoes, however, we might offer the following suggestions about storing them:

Horticulturists warn against digging potatoes in the morning and allowing them to lie in the sun all day. Dig in the evening and place them in a cool, shady spot immediately to dry for a day or two. Then spread them out on poles or straw in a cool, dark place where air circulates freely. Never have the potatoes more than two layers deep and, if even better, a single layer is even better. Remove all bruised potatoes before storing them.

Garden Insect Control

Just now your cucumber vines and other vines are being attacked by beetles that eat the leaves. Here is what Mr. Rosborough says about controlling them: The preferred method of control is dusting affected plants with a rotenone and sulphur mixture. If that isn't available dusting the seedling plants with cryolite will do the job. After that use a dust or spray of pyrethrum. If you cannot get these materials, then dust the plants thoroughly with air-slacked lime or Bordeaux mixture. Repeat as often as is necessary. If it rains often you may have to do it five or six times to get the situation well in hand. But keep after them.

4-H Club Volunteer Insect Reporters

Here in the county we have called into service a group of 4-H Club boys to act as our eyes in their various communities in checking the appearance of cotton insects such as the cotton flea hopper, boll weevil and leaf worms.

Each of these boys will be given definite instructions and actual experience under supervision in checking for these infestations. They will make inspections at regular intervals of several nearby fields and report their findings to this office and A. & M. College.

In this way we may discover any infestation as soon as it occurs and we will then be able to obtain material for dusting as the authorities want the material to flow to the points of infestation.

May we urge that everyone keep a close checkup on this pest or any other insect. Be sure and assist and co-operate with the boys doing the inspection.

The following boys have been selected: Bill Fish, Vivian, Charles Bursey, Riverside; Floyd Wisdom, Thalia; Bruce Bledsoe, Margaret; Bobby Solomon, Gambellville; Tommy Templin, Crowell; J. C.

Alka-Seltzer

HAVE you tried Alka-Seltzer for Gas on Stomach, Sour Stomach, "Morning After" and Cold Distress? If not, why not? Pleasant, prompt in action, effective. Thirty cents and Sixty cents.

DR. MILES' NERVINE

FOR relief from Functional Nervous Disturbances such as Sleeplessness, Tremulousness, Excitability, Nervous Headache and Nervous Indigestion. Tablets 35¢ and 75¢. Liquid 25¢ and \$1.00. Read directions and use only as directed.

ANTI-PAIN PILLS

A SINGLE Dr. Miles Anti-Pain Pill often relieves Headache, Muscular Pains or Functional Monthly Pains—25 for 25¢, 125 for \$2.00. Get them at your drug store. Read directions and use only as directed.

Control Cotton Insects

The cotton flea hopper is appearing, while only in small numbers and at widely separated places, yet it will pay to be on the lookout for this pest and swat him as soon as he appears.

Only a small per cent of the cotton crop is large enough to become infested now but the later crops will soon become large enough.

Several farmers have dusted and it is important that these begin operations in areas which are now infested.

So keep a sharp lookout for these insects by checking the top buds and forms. As soon as they appear you will be able to find the insects and the very small dead squares which they have attacked.

We have recently checked five fields in different parts of the county and have found the insects in only one of them.

Finely ground sulphur is used to control this cotton pest, applied at regular intervals of from seven to ten days as a dust.

It is hoped that the farmers who own dusters in the county may not only use them on their own farms but on their neighbor's as well, in order to get as wide spread use of them as possible.

The hardy pioneers were pretty hardy, but they never started out on a trip with four thin tires and no spare.

THAT'S FOR ME FOR ENERGY!

Items from Neighboring Communities

FOARD CITY
(Mrs. Luther Marlow)

W. R. Ferguson and Mr. and Mrs. Howard Ferguson left last Wednesday afternoon for Hereford to combine wheat.

Dale Johnson swallowed a small chain last Tuesday and was taken to Crowell for medical attention.

Miss Estelle Autry of Crowell spent Saturday night with her parents, Mr. and Mrs. Jess Autry, Mr. and Mrs. R. B. Lilly and Mrs. Lee Lefever visited Mrs. Aubry Manning in the Crowell hospital Sunday afternoon. Mrs. Manning underwent an operation for appendicitis last Wednesday night.

Mrs. Luther Marlow spent from Friday until Sunday with her sister, Mrs. Luther Jobe, and fam-

ily and her daughter, Miss Mildred Marlow, who is employed at the Moses Variety Store at Paducah. Mrs. Marlow was accompanied to Crowell by Mr. and Mrs. Luther Jobe and Mildred Marlow of Paducah and Pfc. Freeland Jobe of San Antonio, where they visited Mrs. Aubry Manning, who is in the hospital at Crowell, and other relatives Sunday afternoon.

Mrs. Ernest Patton and son, Don, spent the week-end with Mr. and Mrs. J. L. Farrar.

Mrs. J. L. Manning and Carla Manning of Crowell are visiting Mr. and Mrs. Luther Marlow this week.

Mr. and Mrs. Eral Johnson of Perrin visited their son, W. L. Johnson, and family from Saturday until Monday. They were accompanied home by Mrs. W. L. Johnson and children, Dale and Ray, who will visit relatives at Perrin, Vineyard and Wichita Falls this week.

VIVIAN
(By Mildred Fish)

Mrs. J. R. Gaudin and daughter and Mrs. Harris Belew and Bobby Gaudin of Vernon and Corp. Clifton Gaudin of Camp Barkeley visited in the home of Mrs. R. L. Walling Wednesday evening.

Elmer Holley of Ogden was a supper guest in the home of Mr. and Mrs. W. O. Fish and family Sunday evening.

A/S Franklin L. Evans of the Lubbock Army Flying School Wednesday night in the home of his parents, Mr. and Mrs. E. T. Evans.

Mr. and Mrs. T. C. Sivells of Ogden spent Sunday in the home of her father, A. T. Fish, and family.

Mrs. Jim Christian of Crowell visited in the home of Mrs. W. O. Fish Wednesday morning.

Miss Lois Cox of Matador is visiting Misses Ina Mae and Winnie Young.

Mr. and Mrs. E. T. Evans attended the graduation at the Lubbock Army Flying School Saturday. Their son, Franklin L. Evans, received his wings and the rank of a flight officer at the graduation.

Orlean, Hillary and Jimmy Young spent Sunday with Mary Edna, Haskell Hill and Jim Paul Norman of Ogden.

Betty Jo Teel of Ogden and Lois Cox of Matador spent Sunday in the home of Mr. and Mrs. I. D. Gilbert and family.

Miss Neoma Fish returned home Sunday after spending several days with her sister, Mrs. T. C. Sivells, of Ogden.

Mrs. Joe Rasberry of Paducah returned home Wednesday after spending several days with relatives here.

Mrs. I. D. Gilbert and family visited in the home of Mrs. Elroe Buckley and family of Ogden, Friday afternoon.

June Ahnise Young is visiting her grandmother, Mrs. H. Young, of Crowell.

W. C. Golden of Crowell visited in the home of Mr. and Mrs. W. O. Fish Wednesday morning.

He Made Salt Water Drinkable

"Water, water, everywhere, and not a drop to drink." This cry of the shipwrecked sailor is no longer true. Lieut. Clare R. Spealman, USN (left), has discovered a simple process to make sea water drinkable which can be carried out in a few minutes by a shipwrecked sailor. He is shown being congratulated by Capt. William L. Mann.

Mr. and Mrs. W. O. Fish received a radiogram Thursday from their son, Pfc. John E. Fish, saying that he was well and safe. He is a military police and is presumed to be somewhere overseas.

Misses Bessie and Myrtle Fish were Quannah visitors Monday.

Mrs. W. O. Fish and daughter, Mildred, visited in the home of Mrs. H. H. Fish in Paducah Saturday afternoon.

RAYLAND
(By Mrs. T. C. Davis)

Mrs. J. M. Williams, J. D. Huddleston and J. N. Pierce visited their daughter and sister of Bowie Tuesday.

Mary Lois Lambert has returned from a visit with her uncle and aunt, Mr. and Mrs. Otto Droigk, in Levelland.

Margaret Ann and Theresa Droigk of Levelland are visiting their uncle and aunt, Mr. and Mrs. Loyce Lambert.

Anna Lee Corbett of Houston is visiting Mr. and Mrs. Roy Hofmann.

Mrs. Buck Williams and daughter, Sally Lou, spent last Monday and Tuesday with her parents, Mr. and Mrs. L. D. Mansel.

Mr. and Mrs. G. M. Garvin and children have returned from California.

T. C. Davis made a business trip to Lawton, Okla., last Thursday.

Nina Beth and La Moria Spratt of Amarillo, are visiting their grandmother, Mrs. Nina Newman.

T. C. Davis and Carl Lawson were in Wichita Falls Monday on business.

Mrs. Ora Blanton of Vernon visited her sister, Mrs. Oscar Holland, last Wednesday.

Mrs. Fred Duffy and daughter, Mary Jean, of Fort Worth have returned home after a short visit with her sister, Mrs. Pete Crisp.

George Crisp of the U. S. Army, was here visiting his grandmother, Mrs. A. W. Crisp.

Texas Baptists Plan to Raise Money for World Relief July 18

Dallas. — Texas Baptists plan to raise a minimum of \$75,000 for World Emergency Relief on Sunday, July 18, in response to their Foreign Mission Board's request for \$500,000 (half a million dollars) from the entire South. Dr. W. W. Melton, Dallas, executive secretary of the Baptist General Convention of Texas, announced today.

A large percentage of the funds raised will go to China, Dr. Melton said, but no area where Baptists have work, around the world, will be neglected.

Commenting on the desperate need for immediate help in war-torn countries, Dr. R. S. Jones, Dallas, western secretary of the Foreign Mission Board, estimated that "at least one-half of the world's population is slowly starv-

Zip Off Zoots

Servicemen and zoot suit wearers fought a small war of their own in Los Angeles, sending many youths like the one above to jails and hospitals. The servicemen were stripping the "zooters" in revenge for previous assaults.

485,506 in 1943; \$5,385,557 in 1942 and \$2,865,723 in 1941. Five months gross: \$183,560,414 in 1943; \$120,357,343 in 1942, and \$77,543,325 in 1941. Five months net railway operating income: \$25,628,896 in 1943; \$21,439,665 in 1942, and \$10,501,201 in 1941.

Railway tax accruals for five months ending May 31, 1943, include \$53,254,000 federal income and excess profits taxes compared with \$15,729,000 federal income tax in 1942.

HOUSEHOLD HINTS

Aluminum cooking pans are frequently warped out of shape by repeatedly putting cold water in them while they are still hot.

By boiling old Mason jar lids in a gallon of water to which has been added a cup of vinegar, you can remove that ancient appearance.

Prunes should be stewed in the water in which they are soaked. Cloudy jelly is caused by improper straining after the juice is extracted.

ANSWERS

(Questions on page 2.)

1. China.
2. Argentina.
3. Alcatraz.
4. He led the bombing raid on Tokyo.
5. Leslie Howard.
6. It is the time consumed by the miner in traveling to and from the mine mouth and the point in the mine where actual mining operation takes place.
7. It is rationed.
8. Between the toe of Italy and the island of Sicily.
9. At the toe of Italy.
10. Chunking.

Every seventh person engaged in the life insurance business before the outbreak of the war was in the armed forces, in war production, or in government war service by the end of 1942, according to a recent manpower survey.

"Ain't It a Grand and Glorious Feeling?"

WHEN YOU'VE BEEN BUYING War Bonds on the Pay-Roll Savings Plan for, say, 6 months . . .

And suddenly you realize that—for the first time in your life—you're saving money regularly . . .

Saving more than you thought you ever could save . . .

There it is, tucked away, mounting up, month in, month out . . .

And you think how, later on, it'll be coming back to you in cash, FOUR

simoleons for every THREE you're putting in today . . .

Golly, you'll have a cottage on a lake—take a trip around the world . . . send the kids to college . . .

Ain't it a grand and glorious feeling?

SO KEEP IT UP, SISTER.

Keep on buying Bonds . . . tucking 'em away . . . tucking 'em away . . . tucking 'em away . . .

AND DON'T LET ANYTHING STOP YOU!

Can't you boost your ante, maybe? Don't stop with 10 percent if you can do more. *Do all you can!*

SAVE WITH U.S. WAR BONDS EVERYBODY...EVERY PAYDAY...

AT LEAST 10%

This space is a contribution to America's all-out war effort.

Therefore said he unto them, The harvest is great, but the laborers are few. Pray ye therefore the Lord of the harvest, that he would send forth laborers into his harvest.—Luke 10:2.

FOURTH OF JULY

The Fourth of July stands for freedom—and America fights for Freedom! She launches the biggest fleet ever built—flies the most powerful planes ever built—and produces exactly twice the amount of steel as the Axis, enabling her to build and release one tank every ten minutes, day or night! Hand in hand, Army, war workers, farmers and "just plain bond-buying civilians" are forming the alliance that shall not be broken! The free American press impresses truths on paper; it records history—gives expression to minorities—promotes the benefits of peace and puts fear in the hearts of dictators! America's newspapers are her "arsenals of democracy"—and morale holds the balance of power in war! The Fourth of July still stands for Freedom—as it always has—as it always shall!

The news dispatch recently carried the announcement that Henry Ford at 79 would take over the management of the Ford Motor Company, a place left vacant by the recent death of Ford's son, Edsel. At an early age young Edsel Ford assumed management of the business his father founded. Under his skillful direction the company grew and expanded. This has happened only a relatively few times in the history of the country when the son has stepped in to carry on the business founded by the father. What an immense satisfaction must have been Henry Ford's when his only son stepped into the place beside him and bore the major part of the burden. This is the heart's desire of every father who has wrought well. Coupled with the satisfaction that must have been Ford's because of his industrial achievements was the thought that his son was beside him, dreaming with him and carrying into fruition those dreams. This must have been the richest part of his success. Now the father must again take up the load. What a loneliness must be his. His other self is gone. The young man who worked by his side for so many years is absent from his place and the management is back to the father who started it.

The President's appointment of James F. Byrnes as Director of War Mobilization is in our opinion a thing that should have been done some time ago. Whether or not Byrnes is the man for the place, time and events will tell. Up to the time of the appointment of Byrnes several agencies, all headed by good men, were working independently of each other to get done the job for which they were appointed. There was no correlation of the effort. The President in his anxiety to see all things go well has endeavored to carry too much of the load on his own shoulders. This, no man can do.

Wheat harvest begins at the southern edge of the wheat belt early in June and moves north at the rate of about 30 miles a day.

HISTORY
 Birthday of John Quincy Adams, sixth president of the United States, was born in Braintree, now Quincy, Massachusetts, on July 11, 1767. His father, John Adams, took him on a mission to France when he was only ten years old, where he attended school. He entered Leyden University in January, 1781, at the age of 13. Soon after Francis Dana took him to St. Petersburg, Russia, as his secretary. Two years later he returned to Holland. When his father was appointed Minister to England, young Adams returned to the United States and entered Harvard University from which he graduated in 1787. Three years later he was admitted to the bar. At the age of 26 he was sent as Minister to Berlin when he remained until 1801, when he returned to the United States and resumed the practice of law in Boston. In April of the next year he was elected to the State Senate. In November of the same year he was defeated for the national House of Representatives. The next year he was elected to the United States Senate by the Massachusetts Legislature. In the Senate he questioned the constitutionality of the Louisiana Purchase. He voted, however, for the appropriation to make the purchase. While serving in the Senate he was appointed to the chair of rhetoric and oratory in Harvard College. He resigned from the Senate in 1808 and in 1809 was appointed as Minister to St. Petersburg, where he remained until 1814. He was then made Minister to England. In 1817 he was appointed Secretary of State in President Monroe's Cabinet and shared with the President the honor of promulgating the Monroe Doctrine. He continued in the Cabinet 8 years. In 1824 he was elected president. His administration was very unpopular and in 1828 resulted in the election of Andrew Jackson. A year after his retirement he was elected to the House of Representatives and was re-elected every two years for the remainder of his life. His death occurred February 23, 1848.

The disastrous spring floods again remind this nation of its profligate folly of cutting the timber from its watersheds and its failure to provide flood water reservoirs along the feeder streams of its main rivers. Enough money has been spent building dikes and levees and dredging river channels to effectively care, several times over, for flood waters at their source, along the small feeder streams. Timber has been cut down to the waters edge in many places resulting in a maximum run off of rainfall, though it is a well known fact that the run off in timbered areas is negligible. Nature has a way of making us pay for our follies. Nature can't stop us from cutting the timber, straightening streams, building too close to the river channel, or in failing to care for flood waters at their source, but she can make us pay for it when we do—and each year she does, and each year we cry about the damage and the loss and then go heedlessly on in our way of error inviting disaster again and again. We may as well make up our minds first as last that we can't win out against nature. She will wear us out and in the end have her own way as she has had since creation's dawn.

Every town is blessed with one or more individuals, who, when something needs to be done for the community, the Red Cross, the Boy Scouts, the town hall team, or the church, step into the harness and get it done. As a rule these are people busy with their own work, sometimes so busy that they find themselves wondering how they are going to get it done. What would the town do without them?

Wendell Willkie in his book, "One World" says: "The last answer to Communism is a living, vibrant, fearless democracy—economic, social and political. All we need to do is to stand up and perform according to our professed ideals. Then those ideals will be safe."

FIGURE IT OUT YOURSELF

U. S. Treasury

What We Think
(By Frank Dixon)

I recall that down on the farm it used to be the practice of farm women to set several hens at one time and then when the chicks hatched turn them all over to one hen and start the rest on another three weeks period setting on a new lot of eggs.

The hens chosen to mother the greatly augmented families had, as we say of humans, their hands full, looking after a bigger group of offspring than in the natural process of nature they would ever be called upon to care for. They appeared bewildered from morning until night. At night a new lot of trouble developed when the mother hen sought to hover a bigger flock than her most expansive efforts could care for.

The circumstances reminds me of the government, which, especially in the past ten years, has surrounded itself with such a multitude of bureaus, commissions and organizations that no one can keep track of what is going on.

Because of this one hesitates to suggest the creation of another commission or bureau. There is, however, to my thinking, a need for one more.

I refer to a bureau of economy. The duty and function of this commission would be to study and to investigate the expenditures of the maize of commissions, bureaus, and departments to the end that the taxpayer's money, when spent, would be spent to the best advantage and that useless expenditures be cut out.

As the government is now set up each bureau, each department, each commission is working for itself. It lays out its own program and then proceeds to ask for the funds to carry it out.

It is rather remarkable, I think, in this free for all grab for appropriations with no interested group to call a halt that the cost of government is not more than it is—if such a thing could be possible.

As we are now set up we have plenty of machinery set up to levy taxes. The load is growing constantly bigger and heavier. Singularly enough once a tax burden is laid on the backs of the people it is never taken off. As soon as the increased funds become available new jobs are created, salaries are hiked, and soon, what was instituted as an emergency tax, has become a permanent tax. Not only this—once the entering wedge has been driven in, the subsequent increase of the tax merely becomes a matter of pressure on Congress by pressure groups.

Brief Bits of News From Here and There

The corn cob pipe is said to have originated in Missouri in 1872 when a farmer dropped into the shop of Henry Tribbe of Washington, Missouri, and asked him to turn out a pipe on his lathe from a corn cob. Fitting a reel into the pipe the farmer proceeded to take a cool smoke. Tibbe made several more pipes the same day and sold them all. The industry grew until the factory now turns out 30,000,000 pipes a year. Some 20,000 acres are devoted to growing a special kind of corn with big white cobs. The corn cob pipes are known as Missouri merschaums. The largest number of sales go to Massachusetts, with Pennsylvania second and New York third. Europe buys as many as 2,000,000 corn cob pipes a year. They are sold in Australia, Alaska and Africa besides many other parts of the world.

Small family size dehydrators are beginning to appear on the market. It is predicted that in the future many farmers and vegetable growers will have in the past been canned will be dehydrated or dried. Not only is dehydrating less labor but the storage requires much less space and the danger of spoilage is much less. The several models now available are the Victory model, the Kitchen model, the Foreh model and the Community model. The smaller size, the Victory size model, will hold six pounds of fresh vegetables or twelve pounds of fresh fruit. The dehydrating requires from eight to fifteen hours. The following vegetables and fruits may be successfully dehydrated: lima beans, green snap beans, carrots, cabbage, sweet corn, okra, green peas, Irish potatoes, pumpkins, soy beans, sweet potatoes, turnips and other greens; apples, pears and peaches.

The sale of playing cards doubled last year. The reason given is that more people are staying at home, resulting in the increase in the sale of these and other adult games.

If the war lasts through 1944 the accumulated savings of the public will be more than \$100,000,000,000 according to Department of Commerce estimates. This is believed to be a factor in post war prosperity.

Fort Smith, Ark.—John Powell is credited with saving 23 homes in the recent flood with a few hundred feet of rope furnished by the Red Cross. He anchored the houses to trees and when the crest hit, they bobbed like floats on fishlines, but didn't leave the yards.

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of Friday, July 4, 1913:

Heavy rains the past few days have delayed trains and wrought great damage to railroads. The Orient has suffered severely. Four bents of the bridge across Brazos River were swept away, and trains are running several hours late.

The remains of Mrs. Louisa Harrison Holland, who died at Doodsonville, Okla., Saturday were shipped here for burial Sunday and were laid to rest in the city cemetery. Mrs. Holland was formerly a resident of this place, her husband, J. B. Holland, having died here about three years ago. Mrs. Holland was born in 1839 and was related to the Gamble family.

L. H. McLarty of Wichita Falls and Miss Inez Campbell, daughter of Mr. and Mrs. W. L. Campbell north of Crowell, were united in marriage at the home of "Grandma" Campbell, grandmother of the bride in this city Sunday.

The best hopper catcher in the world are birds, and boys and men with target rifles and the like are getting in their work in killing them.

Misses Essie Thacker and Leona Young and the members of their Sunday School classes spent a portion of the day Monday on Raggedy Creek Picnicking.

Workmen have been here several days putting in order what is known as the Farmers' Union Gin. Our gin men are looking for a record cotton crop the coming season.

Mrs. Mary Edwards, mother of I. E. Edwards, one of the well known residents of the Thalia community, died at the latter's home last Thursday, interment taking place the day following at 10 a. m. in the Thalia cemetery.

This locality and Foard County in general has been blessed with a number of good rains during the past few days. Crops of all kinds look well.

Mrs. G. H. Patton and children returned Wednesday from a visit to relatives in Chillicothe.

Miss Markham, one of the popular clerks at Allison's, spent Sunday with homefolks at Truscott.

H. W. Norwood of Vernon has been here this week in the interest of the affairs of the late Dan F. Thomson.

J. W. Shnell, formerly of the Bank of Crowell, but now of Artesia, N. M., was here this week greeting old friends.

Mrs. Max Miller and babe are at Abilene this week visiting Mr. Miller's relatives.

Miss Josie Hill, who has been here from Kivan attending the Normal, has been ill for several days but is reported better at this writing.

Joseph Klepper and family of Martin County are here the guests of Mr. Klepper's brother, J. W. Klepper, of near town. Mr. Klepper came through in an automobile.

"J. B.", the bright little son of Mr. and Mrs. R. J. Roberts of this city is ill. The many friends of Mr. and Mrs. Roberts wish for the little fellow a speedy recovery.

Jack Roberts has put fine concrete walks about his residence in the north part of town. If more of our property owners would do this Crowell would be a much nicer town and property would be enhanced at least twenty per cent.

STORMY TIMES!
 Why worry about your property? There are plenty of worries which cannot be helped, but there is no need to worry and fret for fear your property will be damaged or destroyed by a storm or hail. Have it insured with the Hughston Insurance Agency and let them do the worrying. Take that precaution for the sake of the property and also for your own peace of mind. Talk it over with them.
Hughston Insurance Agency

THE FIRST HUNDRED THOUSAND
 How many persons know that the island of Puerto Rico, a guardian for the Panama Canal and our eastern seacoast, is a territory of the United States, represented in Congress by Hon. Boliver Pagan, resident commissioner for Puerto Rico? Our far flung outposts should loom larger in the minds of all of us since our experience on Attu.
 Commissioner Pagan has spoken before our House of Representatives urging a study of the political, economic and social conditions in Puerto Rico. He says it would be helpful to Congress and to the Puerto Rican and continental American people.
 This is no time to neglect our territories or to countenance political policies there in contrary to the best interests of our republic. Instead, every endeavor should be made to develop such territories and help them become states in our Union.—Industrial News-Review.

LOCALS

Miss Lynette Chowning of Truscott spent the week-end with Leta Jo Carroll.

Mrs. L. C. Terry of Benjamin spent the week-end with her daughter, Mrs. Ab Fox, and family.

Order your baby chicks now for September hatch.—Moyer Produce & Hatchery, Crowell, Texas.

Miss Mary Helen Carroll is in Montana where she will spend the summer visiting her uncle, L. H. Durham, and family.

Albert Bird and Lowell Campbell arrived here Tuesday from Austin where they are students in the University of Texas.

Mrs. Elsie Elliott of Shreveport, La., arrived here Tuesday afternoon to visit her parents, Dr. and Mrs. H. Schindler.

Mrs. T. J. Ferguson underwent an operation in the Quana Memorial Hospital last Friday morning and her condition is reported satisfactory.

Miss Faye Zeibig, who is attending school at Brownwood, spent the week-end visiting in the home of her parents, Mr. and Mrs. Homer Zeibig.

Miss Hallie Mae Eaton will return to Fort Worth today where she is a student in T. C. U. She has been visiting her parents, Mr. and Mrs. D. F. Eaton, for the past month.

Miss Fannie Brown Eaton, home demonstration agent at Levelland, returned home Wednesday after visiting for several days with her parents, Mr. and Mrs. D. F. Eaton.

Earl Davis returned Wednesday from Wichita Falls, where he spent several days visiting his daughter, Mrs. Gale Stout, who has been very ill. Mrs. Davis is yet with her daughter.

Billy Huddleston, who has been here visiting in the home of his aunt and uncle, Mr. and Mrs. J. R. Beverly, has returned to his home in Paris. He will enter the U. S. service in a few days.

Mrs. Oscar Gentry spent last week-end in Amarillo visiting in the home of Mr. and Mrs. Sewell Roy and Mrs. P. P. Cooper. Mary Ermine Cooper, daughter of Mrs. Gordon Cooper, went with her and remained for a longer visit.

Mrs. M. F. Meadors of Mineral Wells returned to her home Monday after having visited in the home of her daughter, Mrs. Homer Zeibig, and other relatives and friends here for two weeks.

Order your baby chicks now for September hatch.—Moyer Produce & Hatchery, Crowell, Texas.

Dale E. Grimes, son-in-law of Dr. and Mrs. R. L. Kincaid, has been promoted from the rank of Chief Petty Officer to the rank of Ensign in the U. S. Navy and is located at Jacksonville, Miss.

Mrs. Annie Goodson and Mrs. Ralph Miller returned to their home in Gulfport, Miss., Tuesday after visiting for three weeks with Mrs. Goodson's daughter, Mrs. Ernest Breedlove, and family.

Mr. and Mrs. Gordon Cooper and children, Bobby and Paul, went to Amarillo Sunday where they visited in the home of Mr. Cooper's sister, Mrs. Sewell Roy, and husband. Their daughter, Mary Ermine, returned with them. Mr. Cooper, Mr. P. P. Cooper, Mr. Cooper's mother. They were accompanied on the trip by Roy Cooper.

John Clark Long spent Friday and Saturday of last week visiting in Lubbock.

Emmett James of Mineola is here visiting his brother, Marion James, and family.

Order your baby chicks now for September hatch.—Moyer Produce & Hatchery, Crowell, Texas.

Miss Sue Gorrell of San Angelo visited over the week-end in the home of her parents, Mr. and Mrs. W. T. Gorrell.

Misses Mary Evelyn Edwards and Doris Campbell will leave Friday for Austin to attend the summer session of the University of Texas.

Mr. and Mrs. Jack Fitzgerald have returned to their home in Austin for a few days prior to Mr. Fitzgerald's entering the U. S. service.

Kenneth Archer, son of Mr. and Mrs. Roy Archer, who has been employed in West Texas, returned home Tuesday on account of heavy rains, which had stopped threshing.

Mr. and Mrs. Jimmie Breedlove of Chillicothe were guests in the home of Mrs. Herman Greening Sunday. Their two daughters, Patsy and Ferness, who had been visiting for two weeks in the home of Mrs. Greening returned with them.

Mr. and Mrs. J. M. Graham and daughter, Mrs. O. W. Bynum, and husband and son, Myron, have moved to Crowell from Athens. Mr. Graham is employed on the Halsell Ranch and Mr. Bynum is working for the Farmers Co-operative Gin.

Order your baby chicks now for September hatch.—Moyer Produce & Hatchery, Crowell, Texas.

Mrs. F. P. Schwab and son, Charles, of San Antonio, are here visiting in the home of Mrs. Schwab's parents, Mr. and Mrs. Tom Ferguson. Mrs. Ferguson is ill in the Quana hospital but is reported to be improved.

Mr. and Mrs. Thos. Hughston, their son, J. T., and daughter, Jean, spent the week-end in Denton and Dallas. They visited Miss Beverly Hughston in Denton. They were accompanied by Alton Roark, J. T. and Alton went on to College Station for a short visit.

Misses Carrie and Eva Hughston returned to their home in Dallas Wednesday after having visited for two weeks in the home of Mr. and Mrs. T. L. Hughston and other relatives and friends. They were accompanied as far as Wichita Falls by Mr. and Mrs. Hughston and Mrs. A. S. Hart.

"There must be no special privilege in America and the sooner all groups recognize the obligation of government to all the people and stop concentrating exclusively on their own selfish wants, the earlier a new era of good feeling will usher in an abundance and a prosperity in which vast social gains will be automatic instead of synthetic. We must not have an ersatz progress for America. It must be the real thing."—Emil Schram.

Axis Feels Full Weight of Your Payroll Savings; War Bond Dollars Shop For Victory at Bargain Rate

10 Per Cent Yardstick for Bond Buying Out of Income No Longer Enough. However, as Yanks Go to Bat to Rout Our Enemies on All Fronts

Washington, D. C.—The nation's millions of wage earners are shopping for Victory by upping their War Bond allotments and getting their money's worth, the Treasury Department and the Office of War Information disclosed today.

As American armies join forces with their Allies and smashing down Hitler's Europe, war cost mounted to new peaks. But the home front was rising to an invasion tempo.

The Treasury Department left it to every individual worker and each war working family to figure out for themselves what percentage of their income they should put into war bonds every payday.

The ten per cent yardstick is no longer enough. It is only the starting point for figuring war bond allotments.

Ninety-five cents out of every war bond dollar is being thrown directly into the fight against Hitler and his Axis partners. The Office of War Information pointed out that this is not only America's toughest war but the most expensive war in our history.

The world war of 1914-1918 cost us a total of 33½ billion dollars. In this war the United States will spend 85 billion dollars in the fiscal year of 1943 alone.

America has trained millions of men, OWI continued, made millions of weapons, and built thousands of ships. In fact, the United States last year broke all records building 8 million tons of shipping, to refer to war production in only one classification. Yet military authorities now say that the 18 million tons which U. S. shipyards are building in 1943 still won't be enough.

Everything that is produced in the United States today goes into one of two heaps. One heap consists of planes, tanks, guns, ships, bullets, everything for war. The second heap consists of the goods and services which civilians can share.

While the "war heap" is constantly growing, the "consumer heap" is shrinking. (In 1942 the U. S. produced more than 81 billion dollars' worth of consumer goods and services; in 1943 it will produce only about 70 billion dollars' worth of these same commodities and services.)

Thus it is doubly important, OWI said, that in 1943 consumers take less out of the consumer heap, and put more of their extra war wages into War Bonds which will keep down the cost of living and be safe for effective purchasing purpose after the war.

As for the streamlined war-cost "bargains" which American citizens on the home front can buy for their soldiers, sailors, airmen and others fighting on active fronts all over the globe, OWI illustrated specifically. A Y gun on a PC boat is somewhere in action today because some American at home bought \$105 worth of interest-bearing bonds; a fishing kit, with which every Navy lifeboat is now equipped, a necessity dramatized by the

Girl Guards

These two girls were among the candidates taking tests to be feminine lifeguards which will replace men on Chicago beaches this summer. New York beaches also will be decorated with girl guards.

ANOTHER SNEAK ATTACK

The well planned closing of the nation's coal mines while United Mine Workers' demands were in process of negotiation, is on a par with the Japanese sneak attack of Pearl Harbor.

Words cannot express the contempt of the American people for individuals who are parties to such treachery, and who refuse to work while our soldiers die.

Let us hope that Congress will at last assert its authority and enact legislation providing controls for organized mutiny which endangers public safety for personal gain.

If the enemy had bombed our coal mines, the work stoppage would not have been as complete as when the United Mine Workers deserted their posts. Therefore their action is the equivalent of an enemy attack on this nation.—Industrial News-Review.

Canada's Mothers Do Big Job

EACH day the great war industries of Canada are enrolling more women to take the place of men called away from their machines for active duty in the armed services. Already nearly 250,000 Canadian women are working in war factories. Immense release of woman-power has been possible by the creation of day nurseries by Dominion and Provincial authorities.

Children are well cared for while mothers work at war machines. Organized group games are important in the program planned for the tiny tots sheltered daily at the nurseries. Trained attendants care for every need of these youngsters.

Canadian women reporting for work at a munitions plant. Many of them are mothers, who have shortly before left their children in a local nursery for the day while they are working.

Balanced meals at regular hours, rest periods and supervised recreation are among the childhood essentials supplied to these youngsters of Canadian women war workers.

Knowing their children are well cared for, Canadian women can put their best efforts into their war jobs with a free mind.

Starting mainly as inspectors, Canadian women have invaded every field of operation, except those where sheer strength is the prime requisite. They are making intricate radio and electrical devices, shell fuses, parachutes, and uniforms; they operate lathes and milling machines; they work in

Organized group games are important in the program planned for the tiny tots sheltered daily by the Dominion-Provincial Nurseries. Trained attendants care for every need of these youngsters whose mothers are employed in Canada's many war industries.

Canadian women reporting for work at a munitions plant. Many of them are mothers, who have shortly before left their children in a local nursery for the day while they are working.

many sections of shell filling, explosive and chemical plants. In the vital aircraft production field their numbers have grown from a handful at the outbreak of the war to a total larger than the pre-war total of all employees.

Service Station in Kansas Disregards 72-Hour Regulations

Announcement of the first suspension order prohibiting gasoline deliveries to a service station, for violating the 72-hour per week service regulation, was made today by Petroleum Administrator for War Harold L. Ickes.

The service station affected by this order is located at 5360 North Broadway, Wichita, Kansas, and is owned by Fold L. Wright, doing business under the trade name of Cash Fuel and Feed Company.

Under provisions of Petroleum Suspension Order No. 1, gasoline deliveries to the above-named service station will be suspended for four months, from April 24 to August 23, 1943.

This action is taken, Administrator Ickes explained, because the owner of this service station evidenced a willful disregard of the wartime service station hours regulation.

ulation by staying open more than the prescribed 72 hours a week and by refusing to post the hours during which he planned to sell gasoline.

Commenting on this suspension order, Deputy Administrator Ralph K. Davies said there was no alternative but to enforce the service station hours regulation.

"It is my earnest hope," Mr. Davies said, "that it will not be necessary to suspend gasoline deliveries to any other service station for violation of necessary wartime service station regulations."

According to Harry Woodhead, president of Consolidated Vultee Aircraft Corporation, his company has been planning for many months on a 400-passenger plane. A wooden replica of the plane has been built. It is estimated that from two to five years will be required in the building and testing of the plane.

To Be at Your Best
You Must Feel Well

Do you have that "tired out feeling?"

Are you nervous and irritable?

Are you troubled with constipation?

Do you have little or no appetite?

Are you a victim of repeated colds?

Do you have frequent headaches?

If you can't sleep well at night and are troubled with other minor ills—chances are you are suffering from a Vitamin deficiency.

We are HEADQUARTERS for VITAMINS

Viteems—with 8 important vitamins.

Bexel—B Complex—One capsule a day.

Pure-o-plex—B1, B2, B6, with Niacin.

Abdol—Vimms—Vitamins plus.

Unicaps—A and D capsule.

Reeder's Drug Store

TOWN and FARM in WARTIME

Prepared By OFFICE OF WAR INFORMATION

(A weekly news digest prepared by the OWI rural press section.)

Rationing At A Glance
SUGAR—Stamp No. 13 valid for five pounds until midnight August 15.
CANNING SUGAR—Stamps 15 and 16 in Ration Book One valid for 5 pounds of sugar each through Oct. 31, 1943. Those needing additional sugar for canning may apply to local rationing board.
COFFEE—Stamp No. 24 in Book No. 1 (for those 14 or older on the date the book was issued) valid for 1 pound of coffee through June 30. Stamp No. 24 valid for 1 pound from July 1 through July 31. Stamp No. 22 valid for 1 pound from July 22 through August 11.
SHOES—Stamp No. 18 in Book 1 good for 1 pair of shoes through Oct. 31.
MEATS, EDIBLE FATS and OILS (including butter), **CHEESES, CANNED FISH**—Each holder of Book 2 allowed 16 points per week. Red Stamps T, K, L, M and N expired June 30. Red Stamps P, Q, R and S (10 points each) expire July 31 and become valid as follows: P, June 27; Q, July 4; R, July 11; and S, July 18.
PROCESSED FOODS—Blue K, L and M stamps (48 points) valid through July 7. Blue stamps N, P, and Q valid from July 1 through August 7.
Mileage Rationing
GASOLINE—Value of each coupon in A, B and C books is 4 gallons. A, N coupons expire midnight July 21.

Texas to Rank As Top Factor in Synthetics

Dallas, June 28.—Texas, which for years has provided three basic ingredients of manufactured rubber—cotton, carbon black and sulphur—this summer is coming into its own as the biggest single factor in the nation's huge war program for producing the main raw material itself—man-made rubber.

Avoid Fuel Shortages

Fuel shortages can be avoided, says a recent OWI report, only if—(1) large consumers of fuel oil, those using more than 10,000 gallons a year, convert their oil burners to coal burners now; (2) both home and industrial users of bituminous coal order supplies now; (3) householders place orders for insulation, weather stripping, storm windows, etc., immediately.

Soldiers Dependents Get Checks

Family allowances and voluntary allotments-of-pay are now in force for about four and a half million soldiers who have more than seven and one-half million dependents. The War Department announces. More than 20 million family allowance and allotment-of-pay checks have been mailed to the wives, children, and other dependents, relatives of Army men in one year.

100,000 Dehydrators

A plan for making 100,000 domestic food dehydrators before September 1 has been approved by WPB. These dehydrators are urgently needed, says the War Food Administration, in time to preserve farm and victory garden fruits and vegetables. A food dehydrator removes moisture from raw food, thereby preserving its flavor and food value for later use.

Alfalfa Hay Under Control

Alfalfa hay was brought under price control by OPA recently in Arizona, Nevada, Utah, Idaho and New Mexico and in El Paso and Big Bend counties in Texas at the levels established last February for California, Oregon and Washington. This is intended to reduce the price to the farmer in the areas now brought under control for the first time. With few exceptions the maximum price is \$20 a ton, less on the farm, ready to load.

Prosecute Gas Ration Violators

Criminal prosecutions for violations of gasoline rationing regulations instituted by OPA through April 30, 1943, totaled 509. Ninety-three cases involved operations of gasoline stations. The remaining 416 were actions against individuals ranging from private automobile owners and filling station attendants to criminal "ring" engaged in systematic theft and sale of stolen gasoline ration books and coupons.

Loans Insured by FHA

More than \$6,800,000,000 in loans by private lending institutions financing the construction, purchase, or repair of approximately 3,400,000 homes, have been insured by the Federal Housing Administration since its establishment on June 27, 1934. It was announced as the FHA marked its ninth anniversary.

Living Costs Rise

A rise of 1.7 per cent in food prices increased the total cost of living for non-rural workers by 0.8 per cent of the month ended May 15. Nevertheless, the cost of items making nearly 60 per cent of the family budget remained practically unchanged. This increase of 0.8 per cent compared with a rise of 1.5 per cent in the month ending March 15 and 1.1 per cent in the month ending April 15.

INTERESTING FACTS OF THIS AND THAT

According to Dr. Philip C. Reen of Yerkes Observatory, one of the largest of the super-giant stars "VV Cephei" has a diameter of 186 billion miles. This would afford sufficient space to set 23 million worlds the size of ours side by side within the big star.

Life insurance funds representing the "holed resources" of 67,000,000 policyholders are flowing into U. S. Government Bonds at the rate of \$10,000,000 a day in direct aid to the war effort.

Government figures show that 85 per cent of every dollar that comes into the American home is spent by the women.

Texas to Rank As Top Factor in Synthetics

phasized by a display in connection with the meeting here, of a large array of war goods in whose manufacture his company had used synthetic rubber in greater or less proportion—including airplane, military and tractor tires, conveyor belts, airplane fuel cells, carburetor diaphragm, endless-band tracks and other essential articles.

A tribute to the adaptability and skill of Texans as war workers was paid by Newman in commenting on the experience of his company in operating for the government one of the country's largest bomb and shell loading plants at Texarkana. The plant recently received the Army-Navy "E" award, which was in large part a tribute, he said, to the residents of that area who "came from the

regular peacetime activities of their communities and worked efficiently and faithfully in an industry which was completely strange to them because it had no peacetime counterpart."

Your Horoscope

June 28, 29, 30.—You are sympathetic, kind, very fond of dress and have excellent taste in that direction. You love to gain and impart information. At times you exhibit a hot temper, are secretive, and fond of appreciation and renown. You have much self-reliance and love to rule. Truthful and just, the spiritual nature with-

in you is strong. July 1, 2, 3, 4.—Independent, rather inefficient at times. You are fluent talker, but people as you desire them to be many friends and can get of them. You are fond and have much interest. You are cautious, have control, and are serious regarding the affairs in whom you are interested. Life insurance funds have extended through mortgage owners of farm and city in the amount of \$3 million in the past 4 years.

What Does It Mean to You—

The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small silent ways—when some have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

THE POCKETBOOK of KNOWLEDGE by TOPPS

IN WORLD WAR I IT WAS 40 MEN AND 8 HORSES TO A BOX CAR. THIS TIME 260 SOLDIERS TRAVEL IN A MONSTER, TWO-DECKER PLYWOOD BUS.

Japanese Americans From Centers Working on Farms

About 1,200 workers from the WRA relocation centers, all of Japanese ancestry, are at transient labor camps and many more have left the centers to take seasonal and year-round employment on farms. These people were evacuated from the Pacific coast and quartered for a time in relocation centers. Now they are helping in the production of food needed by our soldiers and civilian population, WRA officials report.

Arguments used by spenders unreasonable and unsound.

Bill was not vicious because it promoted the general welfare, government economy and efficiency.

The bill did not take power away from the Legislature but instead increased its power over management and expenditure of money.

The bill did not create a bureaucracy and political machine because it created no new office or department and utilized the present Board of Control and the Governor's office to discharge its objectives.

Real issue, spending vs. economy; solvency vs. insolvency; government for the benefit of the taxpayer or for the benefit of the departments, and economy vs. lip service economy.

Lethargy of taxpayers themselves partly to blame for failure of the bill.

Sponsors of bill have no sectionalism, special privilege, favoritism or political motives other than enhancing general welfare.

To pay a post-auditor \$7,500 a year to tell you the money is intent.

Helps to Prevent Inflation. assists our War Effort, so says Senator Capper, Senator Capper and Secretary of Navy, Frank Knox. (Besides) you save your family and save systematically.

Sell Watkins products in Foard County. Business will net \$200.00 month and up to a hustler. Now is the time to start in this essential work. You need a good car or truck. No capital required. Write R. M. Barrington, Box 972, Abilene, Texas, 50-4tp

Up Stairs In Ringgold Building

Meet tonight (Thursday), at 8:00 at the Odd Fellows hall. All members are urged to attend.

RICHARD BALLARD, Noble Grand. E. H. CROSNOE, Secretary.

STATED MEETING of Crowell Lodge No. 840, A. F. & A. M., July 12, 7:30 p. m. 2nd Mon. each month. Members urged to attend, visitors welcome. LESLIE THOMAS, W. M. D. R. MAGEE, Secretary.

No Trespassing

NO FISHING or HUNTING allowed in my pasture southeast of Crowell.—O. B. Davis, 47-4tp

NO TRESPASSING allowed on the Teague Estate land. No passing through.—Mrs. L. Kamstra, 31-1tc

TRESPASS NOTICE

Positively no fishing or hunting on any of my land on Beaver Creek.—J. M. Hill, 4-1tc

TRESPASS NOTICE—Trespassing on my place in the Vivian community known as the Harris place, and my place north of Crowell, is hereby forbidden. Please stay out.—J. H. Carter, 1-1tc

NOTICE—No hunting, fishing or trespassing of any kind allowed on my land.—Furd Halseil, 1-1tc

stolen after it is stolen instead of paying a budget director \$6,000 a year to keep the money from being stolen, is not horse sense and is getting the "cart before the horse."

People want action on the control of expenditures before they are made; on better financial planning and accounting; eliminating duplications and waste and on state employment by merit instead of politics, all of which is fiscal control.

Help Prevent Heat Cramps by Adding Salt to Water

Austin.—To help prevent heat cramps, salt should be added to the drinking water of those persons whose work is such as to cause excessive perspiration. Dr. Geo. W. Cox, State Health Officer, advises in an attempt to forestall a possible increase in the number of heat victims as the Texas thermometer hits 90 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely are in danger of having their body salt content become deficient, with resulting heat cramps or heat fog. Salt is a prominent constituent of sweat; the body may lose as high as forty to fifty grams of salt during hot days. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. However, salt deficiency may be prevented by taking salt in various ways. Where prepared salt tablets are not available, a pinch of table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains above normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abnormal muscles begin to cramp.

CHURCHES

Christian Science Church Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, July 4, 1943. Subject: "God."

East Side Church of Christ Bible Classes, 10 a. m. Preaching 11 a. m. and 8:30 p. m., first and third Sundays by Bro. E. H. Garner. Wednesday night Bible Study 8:30 p. m. We cordially invite you to attend all of these services.

St. Joseph's Catholic Church Time of Masses: October-April (inclusive), 1st Sunday at 11:00, 3rd and 5th Sundays, 9:00, May-September (inclusive), 1st Sunday at 10:30, 3rd and 5th Sundays, 8:00.

Assembly of God Church Services Tuesday and Friday nights, 8:30 o'clock. Sunday School 10 a. m. Morning service 11 a. m. and Sunday evening service 8:30 p. m. Every one is invited.

WARREN EVERSON, Pastor.

Crowell Methodist Church Next Sunday brings us to a very important day in our nation. It's the day of commemoration for victories won when America was but a child. We are again faced with "Liberty or Death."

I take it that this means more than civil liberty, for the entire world needs a new incentive as a goal for which to strive. Paul seems to have sensed the situation when he spoke out of a full appreciation of life's possibilities in, "Forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." Let's celebrate the fourth in pursuit of the more fundamental things of life.

Please remember that we must have the address of the boys, represented by a star on our banner, if we are to send them the Upper Room. We have less than half of them at present and this periodical has been sent to the addresses furnished. You need this Upper Room for your daily worship. Copies can be had at service Sunday.

Hours of services are 11 a. m. and 8 p. m. Sunday School 9:45 each Sunday and W. S. C. S. on Mondays at 4 p. m. Other services announced at church. Good wishes are mighty fine things but are usually spineless. Goodness in action speaks its own message in a winsome way.

"If you must use a hammer, build something." H. A. LONGINO, Pastor.

Christian Science Services "God" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 4.

The Golden Text is: "The Lord is our judge, the Lord is our law-giver, the Lord is our king; he will save us" (Isaiah 33:22). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let the heavens be glad, and let the earth rejoice; and let men say among the nations, The Lord reigneth" (1 Chronicles 16:31).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Who is it that demands our obedience? He who, in the language of Scripture, 'doeth according to His will in the army of heaven, and among the inhabitants of the earth; and none can stay His hand, or say unto Him, What doest Thou?'" (page 256).

Weekly Sermon

By the Rev. John H. Cable, D. D., Member of Faculty, Moody Bible Institute, Chicago.

Youth's Twofold Responsibility. Text: "Take heed unto thyself, and unto the doctrine."—1 Timothy 4:16.

Our text advises us as to what we should pay attention, and we pay what we owe. We ought to watch ourselves, and hold to Bible truths.

A young man is addressed. Much depends on young people. They make up the bulk of our armed forces. They have the strength and energy needed for mental and physical labor. Yet naturally they lack the firm convictions which grow out of experience. The wisdom of years is not theirs. They are therefore more easily unsettled.

But the divine exhortation to the young man despise thy youth; but be thou an example" (1 Timothy 4:12). This exemplary life is to be expressed in Christian character rather than in physical feats requiring brawn, or mere mental achievement requiring brain.

Necessary may be the exploits of the soldier; needful are the pursuits of the scholar; but without Christian culture all the precious values of church and home and school and state are lacking. Hence youth should lead out in the finer spiritual exercises and qualities that make for true refinement. And these include faith and purity, which alas do not characterize all of American youths and maidens.

A balanced life is urged. Chris-

Women in Canadian Air Force Take Man-Size Jobs

Shown above are two members of the Women's Division of the RCAF, preparing accurate meteorological reports. Below, a similar group is installing delicate instruments in the cockpit of a plane.

Motor maintenance, control tower work, handling ammunition—all are part of the ground work that has been taken over by the Women's Division of Canada's flying service. The splendid work of these women has released many men for training and combat service.

Girls who once worked in offices, hotels, theatres, beauty parlors and restaurants are now uniformed dental assistants, laboratory workers, clerks, drivers, mechanics, store clerks, instrument checkers, wireless operators, chart room assistants and bombing range checkers. Trained in these specialized duties, living and eating in barracks, the girls work side by side with the men they have released for combat duty. Through the use of a great reservoir of woman-power Canada has increased the striking force that can be hurled across Germany and Italy.

Division of the RCAF. Girls who once worked in offices, hotels, theatres, beauty parlors and restaurants are now uniformed dental assistants, laboratory workers, clerks, drivers, mechanics, store clerks, instrument checkers, wireless operators, chart room assistants and bombing range checkers. Trained in these specialized duties, living and eating in barracks, the girls work side by side with the men they have released for combat duty. Through the use of a great reservoir of woman-power Canada has increased the striking force that can be hurled across Germany and Italy.

With a greater weight of bombs being dropped on Germany by the Royal Canadian Air Force in combined operations with the R.A.F. and the U.S. Army Air Corps, the flow of air crews to the Allied fighting fronts must be stepped up in Canada. Already deep into her manpower pool, Canada has been faced with the problem of releasing men from necessary but non-combatant duties on the ground so that they can join the fighters of the RCAF overseas. Quick to realize the value of woman-power in the solution to her problem she formed the Women's

Our text concludes, "Continue in them; for in doing this thou shalt both save thyself, and them that hear thee." Hence heed our text and save yourselves from humiliation and defeat; from idleness and care; and save others from stumbling in the darkness of ignorance. Recent upturn in life insurance purchases by the American people is expected to continue with most families having more money to spend and fewer things to spend it on.

SAFETY SLOGANS Jail is a sure cure for careless drivers. Matches have heads but no brains. You have both—use them. A short cut to the graveyard—carelessness. Nature made the only moonshine fit to use. It is easy for a good looking sixteen year old girl to get a hat that she looks good in.

Office Supplies The News has a good stock of Office Supplies, small items that are needed in offices and business houses around the square. Mimeograph stencils, typewriter ribbons, large receipt books, Mephisto pencils, Scotch tape, ledger sheets, two sizes; letter files; file folders, two sizes; legal pads, filing trays, typewriter carbon paper, 8 1/2 x 11 and 8 1/2 x 14, also pencil carbon cut any size; stamp pads, all colors. We also have three Tot staplers and several thousand staples. THE FOARD COUNTY NEWS

What You Buy With WAR BONDS

Battle Wagons

Japan attacked at Pearl Harbor had 17 battleships in service but the war did not stop them. These 32 battle wagons cost \$22 billion. They are the backbone of our navy. The ocean navy. The ocean navy. The ocean navy.

After the attack on Pearl Harbor, Americans have never looked back. It has brought home to them. That's why the government is increasing purchases of War Bonds.

Expenditures

Be Controlled President Says

Following is an abstract of an address by President Roosevelt at the 47th and 48th sessions of the Texas Chamber of Commerce. The 25 million dollar fund, state general fund, state lottery, and state bonds, are to be consolidated. The state funds, making available to honor checks, would have controlled expenditures secured better financial management and accounting. Texas legislative members at the 47th and 48th sessions of the bill overwhelming majorities, led by Representatives Reed and Leonard, of the bill. The bill, which provides for a director empowered with complete financial and program; approving all bills before made and with the power to increase and decrease appropriation items in accordance with current need and legislative intent.

Arguments used by spenders unreasonable and unsound. Bill was not vicious because it promoted the general welfare, government economy and efficiency.

The bill did not take power away from the Legislature but instead increased its power over management and expenditure of money.

The bill did not create a bureaucracy and political machine because it created no new office or department and utilized the present Board of Control and the Governor's office to discharge its objectives.

Real issue, spending vs. economy; solvency vs. insolvency; government for the benefit of the taxpayer or for the benefit of the departments, and economy vs. lip service economy.

Lethargy of taxpayers themselves partly to blame for failure of the bill.

Sponsors of bill have no sectionalism, special privilege, favoritism or political motives other than enhancing general welfare.

(A weekly news digest prepared by the OWI rural press section.)

Rationing At A Glance
SUGAR—Stamp No. 13 valid for five pounds until midnight August 15.
CANNING SUGAR—Stamps 15 and 16 in Ration Book One valid for 5 pounds of sugar each through Oct. 31, 1943. Those needing additional sugar for canning may apply to local rationing board.
COFFEE—Stamp No. 14 in Book No. 1 (for those 24 or older on the date the book was issued) valid for 1 pound of coffee through June 30. Stamp No. 21 valid for 1 pound from July 1 through July 21. Stamp No. 22 valid for 1 pound from July 22 through August 11.
SHOES—Stamp No. 18 in Book 1 good for 1 pair of shoes through Oct. 31.
MEATS, EDIBLE FATS and OILS (including butter), CHEESES, CANNED FISH—Each holder of Book 2 allowed 14 points per week. Red Stamps J, K, L, M and N expired June 30. Red Stamps P, Q, R and S (14 points each) expire July 31 and become valid as follows: P, June 27; Q, July 4; R, July 11; and S, July 18.
PROCESSED FOODS—Blue K, L and M stamps (18 points) valid through July 7. Blue stamps N, P, and Q valid from July 1 through August 7.
Mileage Rationing
GASOLINE—Value of each coupon in A, B and C books is 4 gallons. A-N coupons expire midnight July 21.

TIRE INSPECTION—All "A" holders must have second official tire inspections by September 30, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have third official tire inspection by August 31, 1943. "T" book holders must be made within 5,000 miles of last inspection or within six months, whichever occurs first.
TIRES—If official tire inspector recommends a tire replacement, apply to local ration board for the tire ration certificate. Tires will be rationed to all on the basis of tire inspections, county quotas available with most essential mileage to come first. Receipts can now be secured without rationing certificates.
Other Rationing
Eligible purchasers needing new automobiles, bicycles, typewriters, rubber footwear and other commodities (except farm machinery and pressure cookers) on which sales might be restricted should see their local ration boards. Persons interested in securing farm machinery and pressure cookers should see their county USDA War Board.
Address of the local rationing board in this county is in the court house, Jack Seale, chairman.
Jap Prisoners Die
More than 300 United States

casualties are the result of unhealthy conditions in Japanese prison camps, according to messages received through the International Red Cross from Japan. Disease is stated in each case as the cause of death.

Avoid Fuel Shortages
Fuel shortages can be avoided, says a recent OWI report, only if—(1) large consumers of fuel oil, those using more than 10,000 gallons a year, convert their oil burners to coal burners now; (2) both home and industrial users of bituminous coal order supplies now; (3) householders place orders for insulation, weather stripping, storm windows, etc., immediately.

Soldiers' Dependents Get Checks
Family allowances and voluntary allotments-of-pay are now in force for about four and a half million soldiers who have more than seven and one-half million dependents, the War Department announces. More than 20 million family allowance and allotment-of-pay checks have been mailed to the wives, children, and other dependents, relatives of Army men in one year.

100,000 Dehydrators
A plan for making 100,000 domestic food dehydrators before September 1 has been approved by WPB. These dehydrators are urgently needed, says the War Food Administration, in time to preserve farm and victory garden fruits and vegetables. A food dehydrator removes moisture from raw food, thereby preserving its flavor and food value for later use.

Alfalfa Hay Under Control
Alfalfa hay was brought under price control by OPA recently in Arizona, Nevada, Utah, Idaho and New Mexico and in El Paso and Hudspeth Counties in Texas at the levels established last February for California, Oregon and Washington. This is intended to reduce the price to the farmer in the areas now brought under control for the first time. With few exceptions the maximum price is \$20 a ton, loose on the farm, ready to load.

Prosecute Gas Ration Violators
Criminal prosecutions for violations of gasoline rationing regulations instituted by OPA through April 30, 1943, totaled 509. Ninety-three cases involved operations of gasoline stations. The remaining 416 were actions against individuals ranging from private automobile owners and filling station attendants to criminal "rings" engaged in systematic theft and sale of stolen gasoline ration books and coupons.

Loans Insured By FHA
More than \$6,800,000,000 in loans by private lending institutions financing the construction, purchase, or repair of approximately 5,400,000 homes, have been insured by the Federal Housing Administration since its establishment on June 27, 1934, it was announced as the FHA marked its ninth anniversary.

Living Costs Rise
A rise of 1.7 per cent in food prices increased the total cost of living for non-rural workers by 0.8 per cent of the month ended May 15. Nevertheless, the cost of items making nearly 60 per cent of the family budget remained practically unchanged. This increase of 0.8 per cent compared with a rise of 1.5 per cent in the month ending March 15 and 1.1 per cent in the month ending April 15.

INTERESTING FACTS OF THIS AND THAT

According to Dr. Philip C. Reenan of Yerkes Observatory, one of the largest of the super-giant stars "VV Cephei" has a diameter of 186 billion miles. This would afford sufficient space to set 23 million worlds the size of our side by side within the big star.
Life insurance funds representing the "pooled resources" of 67,000,000 policyholders are flowing into U. S. Government Bonds at the rate of \$10,000,000 a day in direct aid to the war effort.
Government figures show that \$5 per cent of every dollar that comes into the American home is spent by the women.

Japanese Americans From Centers Working on Farms

About 1,200 workers from the WRA relocation centers, all of Japanese ancestry, are at transient labor camps and many more have left the centers to take seasonal and year-round employment on farms. These people were evacuated from the Pacific coast and quartered for a time in relocation centers. Now they are helping in the production of food needed by our soldiers and civilian population, WRA officials report.

Texas to Rank As Top Factor in Synthetics

Dallas, June 28.—Texas, which for years has provided three basic ingredients of manufactured rubber—cotton, carbon black and sulphur—this summer is coming into its own as the biggest single factor in the nation's huge war-bomb program for producing the main raw material itself—man-made rubber.

How the Lone Star state, whose matchless human and material resources have played a key role from the beginning of the war, would in the next few months assume leadership in "helping the country lick this toughest of all wartime supply problems," was explained to a meeting of Texas business and industrial leaders here today by James J. Newman, vice president of the B. F. Goodrich company.

Government-financed plants for the production of a total of 255,000 tons annually—more than a third of the total "GRS" production scheduled under the national program—will be in production in this state, according to present estimates, within the next 90 days, Newman said.

This total capacity, he said, will be made up of the following plants—all of them "polymerization" units in which butadiene and styrene, produced from Texas petroleum and natural gas, are combined to make butadiene-type synthetic rubber:

A 120,000-ton plant—largest of any in the whole national program—at Port Neches, built by B. F. Goodrich and with 60,000 tons of its capacity to be operated by that company and the other 60,000 by Firestone; a 30,000-ton plant at Baytown built by Goodyear to be operated by General Tire and Rubber Company and General Latex and Chemical Company; a 45,000-ton plant at Borger built and operated by B. F. Goodrich, and a 60,000-ton unit at Houston, built and operated by Goodyear.

The "made-in-Texas" butadiene for the rubber factories will come from plants at Baytown, operated by Humble Oil & Refining Company; at Borger, by Phillips Petroleum Company; at Houston, by Sinclair Refining Company; and at Port Neches, by the Neches Butane Products company, whose constituent companies are Gulf, Texas, Pure Oil, Atlantic and Magnolia. The styrene also will be "home grown," Newman said, produced in plants operated by Monsanto Chemical Company and Dow Chemical Company at Texas City and Velasco, respectively.

Newman looked beyond the immediate problem of producing enough synthetic rubber to keep the United Nations rolling toward victory on the battlefronts and sustaining essential civilian transportation, and saw "no reason why the role of Texas in this war-born industry should not always be an outstanding one."

Not only is the state a tremendous producer of the raw materials basic to the industry, he pointed out, but its potentialities as a market for rubber goods—of which there may be many new types after the war—are unsurpassed. He cited pre-war market statistics on sales of auto tires in illustration of this point, and said that Texas' probable leadership in "personalized aviation" after the war would further widen the rubber market here.

As for the general question of the "survival" of America's synthetic rubber industry after the emergency, Newman said it "seems inevitable that the American people—regardless of price differential between synthetic and natural rubber—will insist on continuing at least stand-by operation of these plants, just as they will make sure of retaining air bases and battlefields."

"I feel that those responsible for the nation's defense after this war is won will want to continue to specify synthetic rubber's use in national defense equipment in sufficient amounts to assure continuing operation," he said.

This would assure the nation of adequate production capacity for use in an emergency, he pointed out, as well as afford reasonable protection against high prices of natural rubber. He warned that it is only by continuing research and actual volume production that the cost of making synthetic rubber could be made to approach most nearly the production cost of natural rubber.

On the question of general-purpose synthetic rubber ultimately being able to compete with natural rubber in price, Newman said that estimates of the all-around economic potentialities of synthetic rubber are being constantly readjusted in the light of technical advances. He indicated that progress has "run well ahead of expectations, both as to indicated capacities of given plants and in the adaptation of the material to necessary uses." He predicted the post-war world would be able to absorb a combined natural and synthetic production capacity of two million tons annually, twice as much as in the biggest pre-war years.

The speaker recalled that it was just three years ago this month that his company had introduced, at a meeting in New York, the first automobile tires made with synthetic rubber and offered for general sale in this country. The scope of progress made since that time was em-

phasized by a display in connection with the meeting here, of a large array of war goods in whose manufacture his company had used synthetic rubber in greater or less proportion—including airplane, military and tractor tires, conveyor belts, airplane fuel cells, carburetor diaphragms, endless-band tracks and other essential articles.

A tribute to the adaptability and skill of Texans as war workers was paid by Newman in commenting on the experience of his company in operating for the government one of the country's largest bomb and shell loading plants at Texarkana. The plant recently received the Army-Navy "E" award, which was in large part a tribute, he said, to the residents of that area who "came from the

regular peacetime activities of their communities and worked efficiently and faithfully in an industry which was completely strange to them because it had no peacetime counterpart."

Your Horoscope

July 28, 29, 30.—You are sympathetic, kind, very fond of dress and have excellent taste in that direction. You love to gain and impart information. At times you exhibit a hot temper, are secretive, and fond of appreciation and renown. You have much self-reliance and love to rule. Truthful and just, the spiritual nature with-

in you is strong. July 1, 2, 3, 4.—You are independent, rather silent, efficient at times. You are a fluent talker, but people like you as much of your presence as you desire them to. You have many friends and can lead them. You are fond of life and have much literary interest. You are cautious, have much control, and are somewhat suspicious regarding the affairs in whom you are interested.

Life insurance policies have extended through mortgage purchase owners of farm and city property in the amount of \$3 billion in the past 4 years.

What Does It Mean to You—

The Constitution of the United States?

"We, the people of the United States..."

One hundred fifty-six years ago, these simple words began America's warranty of freedom.

Today we are deep in war—so that this warranty may endure. Should we win—and win we must—whom will it profit?

Are you a West Texas farmer, and do you love your land? Are you a worker, and do you cherish your hard-bought home? It will profit you that no man, without due process, can wrest your home, your field, your plow from you.

Do you worship God in a church, or in a synagogue, or in the secret places of your heart? It will profit you that no heathen hand can desecrate your altars.

Do you impart the truth to the printed page—or do you seek it there? It will profit you that the presses will not be shattered in the night.

Do you talk with your neighbors on

the street corner—or meet on the steps of the City Hall? It will profit you that no bludgeon can drive you into secret meetings.

Our Constitution assures us these things. And these we fight for.

In many ways we fight. Some in small, silent ways—when sons have gone. Some in large, heroic ways—in the roaring of wings, the firing of guns, the sailing of ships. Farmers fight in their fields; ministers from the pulpit's height. Others are making the weapons of war... and some are supplying the power with which to run the machines.

We are proud to be among the men and women of industry, fighting, too.

And we join with the freedom-loving people of West Texas in asking that Washington's bureaucrats forego their political activities for the duration and concentrate on the fight... and that they cease their endeavors to permanently change our Constitution—a threat to the freedom for which we are fighting.

stolen after it is stolen instead of paying a budget director \$6,000 a year to keep the money from being stolen, is not horse sense and getting the "cart before the horse."

People want action on the control of expenditures before they are made; on better financial planning and accounting; eliminating duplications and waste and on state employment by merit instead of politics, all of which is fiscal control.

Help Prevent Heat Cramps by Adding Salt to Water

Austin.—To help prevent heat cramps, salt should be added to the drinking water of those persons whose work is such as to cause excessive perspiration, Dr. Geo. W. Cox, State Health Officer, advises in an attempt to forestall a possible increase in the number of heat victims as the Texas thermometer hits 90 degrees and above.

Laborers, mechanics, farmers, and white collar workers whose work causes them to sweat profusely are in danger of having their body salt content become deficient, with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as forty to fifty grams of salt during hot days. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. However, salt deficiency may be prevented by taking salt in various ways. Where prepared salt tablets are not available, a pinch of table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains above normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abnormal muscles begin to cramp.

CHURCHES

Christian Science Church Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, July 4, 1943. Subject: "God."

East Side Church of Christ Bible Classes, 10 a. m. Preaching 11 a. m. and 8:30 p. m., first and third Sundays by Bro. E. H. Garner. Wednesday night Bible Study 8:30 p. m. We cordially invite you to attend all of these services.

St. Joseph's Catholic Church Time of Masses: October-April (inclusive). 1st Sunday at 11:00. 3rd and 5th Sundays, 9:00. May-September (inclusive). 1st Sunday at 10:30. 3rd and 5th Sundays, 8:00.

Assembly of God Church Services Tuesday and Friday nights, 8:30 o'clock. Sunday School 10 a. m. Morning service 11 a. m. and Sunday evening service 8:30 p. m. Every one is invited. WARREN EVERSON, Pastor.

Crowell Methodist Church Next Sunday brings us to a very important day in our nation. It's the day of commemoration for victories won when America was but a child. We are again faced with "Liberty or Death." I take it that this means more than civil liberty, for the entire world needs a new incentive as a goal for which to strive. Paul seems to have sensed the situation when he spoke out of a full appreciation of life's possibilities in, "Forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." Let's celebrate the fourth in pursuit of the more fundamental things of life.

Please remember that we must have the address of the boys, represented by a star on our banner, if we are to send them the Upper Room. We have less than half of them at present and this periodical has been sent to the addresses furnished. You need this Upper Room for your daily worship. Copies can be had at service Sunday.

Hours of services are 11 a. m. and 8 p. m. Sunday School 9:45 each Sunday and W. S. C. S. on Mondays at 4 p. m. Other services announced at church. Good wishes are mighty fine things but are usually spineless. Goodness in action speaks its own message in a winsome way. "If you must use a hammer, build something." H. A. LONGINO, Pastor.

Christian Science Services "God" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 4. The Golden Text is: "The Lord is our judge, the Lord is our lawgiver, the Lord is our king; he will save us" (Isaiah 33:22). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let the heavens be glad, and let the earth rejoice; and let men say among the nations, The Lord reigneth" (I Chronicles 16:31).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Who is it that demands our obedience? He who, in the language of Scripture, 'doeth according to His will in the army of heaven, and among the inhabitants of the earth; and none can stay His hand, or say unto Him, What doest Thou?'" (page 256).

What doest Thou? A satisfying result is enjoyed.

Our text concludes, "Continue in them; for in doing this thou shalt both save thyself, and them that hear thee." Hence heed our text and save yourselves from humiliation and defeat; from idleness and care; and save others from stumbling in the darkness of ignorance.

Recent upturn in life insurance purchases by the American people is expected to continue with most families having more money to spend and fewer things to spend it on.

Women in Canadian Air Force Take Man-Size Jobs

Shown above are two members of the Women's Division of the RCAF preparing accurate meteorological reports.

An admiring flyer watches a young lady perform an intricate bit of tooling.

Motor maintenance, control tower work, handling ammunition—all are part of the ground work that has been taken over by the Women's Division of Canada's flying service.

The splendid work of these women has released many men for training and combat service.

WITH a greater weight of bombs being dropped on Germany by the Royal Canadian Air Force in combined operations with the R.A.F. and the U.S. Army Air Corps, the flow of air crews to the Allied fighting fronts must be stepped up in Canada. Already deep into her manpower pool, Canada has been faced with the problem of releasing men from necessary but non-combatant duties on the ground so that they can join the fighters of the R.C.A.F. overseas. Quick to realize the value of woman-power in the solution to her problem she formed the Women's

Division of the R.C.A.F. Girls who once worked in offices, hotels, theatres, beauty parlors and restaurants are now uniformed dental assistants, laboratory workers, clerks, drivers, mechanics, store clerks, instrument checkers, wireless operators, chart room assistants and bombing range checkers. Trained in these specialized duties, living and eating in barracks, the girls work side by side with the men they have released for combat duty.

Through the use of a great reservoir of woman-power Canada has increased the striking force that can be hurled across Germany and Italy.

SAFETY SLOGANS

Jail is a sure cure for careless drivers. Matches have heads but no brains. You have both—use them.

A short cut to the graveyard—carelessness. Nature made the only moon-shine fit to use.

It is easy for a good looking sixteen year old girl to get a hat that she looks good in.

Office Supplies

The News has a good stock of Office Supplies, small items that are needed in offices and business houses around the square. Mimeograph stencils, typewriter ribbons, large receipt books, Mephisto pencils, Scotch tape, ledger sheets, two sizes; letter files; file folders, two sizes; legal pads, filing trays, typewriter carbon paper, 8 1/2 x 11 and 8 1/2 x 14, also pencil carbon cut any size; stamp pads, all colors.

We also have three Tot staplers and several thousand staples.

Shower and Reception Honors Mrs. Doyle Kenner at Home of Mrs. Tom Russell, Friday Afternoon, June 25

At the home of Mrs. Tom Russell on Friday afternoon, between the hours of 5 and 7, Mrs. Doyle Kenner, a recent bride, was honored with a beautiful miscellaneous shower and reception. Hostesses with Mrs. Russell were Mrs. Earl Manard, Miss Lottie Russell, Miss Florence Black and Miss Mayme Lee Collins.

Mrs. Russell, upon greeting the guests, presented them to the receiving line which was composed of the honoree and Mrs. W. S. J. Russell. Miss Collins presided at the guest register where more than fifty ladies registered through the receiving hours.

The dining room was lovely with its floral decoration of pink gladioli establishing a color plan of pink and white. The table was covered with a hand-made lace cloth. The punch bowl was surrounded with a profuse arrangement of ivy interspersed with baby's breath. The miniature bride and groom stood before the arrangement. The pink punch was poured by Miss Frankie Kirkpatrick and was served by Misses Joan Gentry and Jane Roark.

From the dining room the guests were directed by Miss Black into a rear bedroom where

many of the lovely gifts were arranged. Another room held the remainder of the gifts. Miss Black and Mrs. Ernest King presided in these rooms.

Bouquets of colorful yard flowers further decorated the reception rooms. Out-of-town guests included two sisters-in-law of Mrs. Kenner, Mrs. O. L. Patterson and Mrs. J. C. Patterson of Benjamin.

Family Reunion and Birthday Celebration at Ketchersid Home

The home of Mr. and Mrs. Guy Ketchersid was the scene of a family reunion last Sunday when more than fifty relatives gathered for a celebration of the 77th birthday of Mr. Ketchersid's father, T. O. Ketchersid, of Melton to the Guy Ketchersid family who are moving to Ranger to reside. A large birthday cake centered the dining table and the dinner was served, cafeteria style, and eaten at quartet tables. There were 59 relatives present and a number of friends called during the afternoon.

Those present for the dinner include Mr. and Mrs. T. O. Ketchersid; Mr. and Mrs. Guy Ketchersid and daughters, Patsy and Wanda Jo; Cpl. and Mrs. Milton Callaway; Mr. and Mrs. Arval Hays and daughter, Dan Callaway, Rep. Claude Callaway; W. G. Kelley; Mr. and Mrs. Donald C. Norris and daughter; Mrs. J. E. Norris; Mr. and Mrs. J. Rogers and Ruth; Mr. and Mrs. Alton Farrar and family; Mr. and Mrs. Homer Ketchersid and daughter; Mr. and Mrs. C. M. Walkup and daughter; Mr. and Mrs. O. E. Hampton and family; Jane Ketchersid; Orvil Sims; Mr. and Mrs. Raymond Wall and sons; Mr. and Mrs. Owen Ketchersid and children; Miss Lois Dean; Mrs. Bettie Holland; Mr. and Mrs. Archie Ketchersid; Wayne Hopwood; Mr. and Mrs. Mahlon Young and daughter; Mr. and Mrs. Clyde Ketchersid and daughter and Miss Yvonne McLain.

Mrs. R. L. Kincaid Entertains Tuesday for Visitors

Mrs. R. L. Kincaid entertained with a lovely party on Tuesday afternoon at 4:30, honoring the Misses Hughton of Dallas, who have been guests in the home of Mr. and Mrs. T. L. Hughton. Mrs. Robert Goodfellow of Moody, house guest of Mrs. S. J. Ferguson, and Mrs. John Hakala of Lake Charles, La., who is the guest of her mother, Mrs. J. S. Long.

Games of bridge and 42 were enjoyed by members of the Tuesday Bridge Club and the guests. Mrs. Allen Sanders, Miss Frankie Kirkpatrick and Miss Mary Francis Self were also guests for the afternoon.

Pretty pieces of Hull pottery were given as guest prizes and Fostoria vases were given for high score in bridge. Dainty refreshments were served at the close of the games.

Departing Citizens Honored by Neighbors

Mrs. Roy Archer, Mrs. Walter Thomson and Mrs. Grover Cole were joint hostesses at a covered dish supper at the home of Mrs. Archer Friday evening as a compliment to the family of Mr. and Mrs. Guy Ketchersid, who left Wednesday for their new home near Ranger. Guests were the neighbors of the family.

The supper was served on the lawn and enjoyed by the following: Mr. and Mrs. Ketchersid, their daughters, Patsy and Wanda Jo, and Mrs. Milton Callaway and her husband, Cpl. Milton Callaway, Mr. Ketchersid's father and mother, Mr. and Mrs. T. O. Ketchersid of Medicine Mound, Mr. and Mrs. Frank Mabe and two daughters, Virginia and Frankie, Mrs. Tom Spears, Mrs. Oscar Gentry, Mrs. Lida Walthall, Mr. and Mrs. J. W. Cook, A. D. Spears and the families of the hostesses.

Family Reunion at Claude Callaway Home

All the children of Mr. and Mrs. Claude Callaway are enjoying a family reunion with their parents this week. Those here for the week are Cpl. and Mrs. Milton Callaway of Mineral Wells; Mr. and Mrs. J. V. Fuller and son, Joe Welch, of Sherman; Mr. Fuller's nephew, Eugene Ritey of Sherman; Petty Officer 1/c P. N. Stephens and Mrs. Stephens and their little daughter, Claudette, of Mobile, Ala., and Mr. and Mrs. Dan Callaway and daughter, Danny.

The money paid out to life insurance policyholders and beneficiaries last year would be sufficient to provide an income of more than \$45 a week for some 500,000 families for two years.

MARRIED AT TRUSCOTT

Miss Lorette Haynie, daughter of Mr. and Mrs. Leslie Haynie, of Truscott, became the bride of Sgt. Eugene Whitaker, son of Jack Whitaker, also of Truscott, on June 22, at Haskell. They were accompanied by Mrs. Oscar Whitaker and Mr. and Mrs. Jack Whitaker Jr.

The bride is a graduate of Truscott High School and she attended business college in Lubbock, later being employed at the Lubbock Air Base.

The groom attended school in Munday and Truscott. He is now stationed at Camp Everett, Wash.

Sgt. and Mrs. Whitaker left for Camp Everett Friday afternoon. They will for the present, make their home near there.

FAMILY PICNIC

Mrs. Gordon Cooper and family were hosts at a picnic at the Country Club last Friday evening to honor a number of relatives of Mrs. Cooper, who were visiting here.

The guests were Mr. and Mrs. Delmer Powell of Rochester, Mr. and Mrs. Van Elkins of Lubbock, Miss Jane O'Neil of Springfield, Mo., Mr. and Mrs. Jim Clifford and Mrs. J. A. Starkey of Childress and Mrs. E. G. Boman of Vernon.

A picnic supper and swimming were enjoyed.

WESLEYAN SERVICE GUILD

The Wesleyan Service Guild met in a regular meeting on Thursday, June 24, in the home of the sponsor, Mrs. M. S. Henry.

Miss Blanche Hays, president, called the meeting to order for the business session at which time Mrs. F. C. Brooks was elected to the office of treasurer to fill out the unexpired term of Mrs. Bill Russell, who moved to California.

With this meeting, the 2nd quarter of the fiscal year came to an end and the quarterly reports were discussed. Mrs. Henry complimented the young ladies on the promptness with which they have made the payments on the mission pledge made at the first meeting of the year and which is paid quarterly.

Miss Florence Black, chairman of study, reported that a regular study would not be taken up until Sept. 1. Miscellaneous programs, which are very interesting, will be prepared from the church papers and other splendid material.

Miss Hays was leader for the evening's study, which opened with the singing of "I Need Thee Every Hour." The devotional was given by Mrs. Henry and was taken from Judges, the oldest book of the Bible, and featured the story of Delilah and Samson. The major thoughts presented were that one needs to stay close to God in social as well as business life. Samson lost his life, not because his hair was shorn but because he quit living the life of the Nazirite, of which his long

Wage Earner with Family to Benefit, Analysis of Withholding Tax Reveals

Frank Scofield, Collector of Internal Revenue First Texas District for Texas, gives the following statement relative to the withholding tax.

We have just put Uncle Sam's new withholding tax under the microscope and find that it isn't as frightening as we first thought. In fact, the next tax which goes into effect July 1 is rather painless when it is brought into proper focus. It has more balm than bite.

For instance, our examination of the withholding brackets shows that a man with a wife and two children who earns \$40 a week will be nicked for only 80 cents a week. This is 50 cents per week less than he is now paying out of his wages for the 5 per cent Victory tax—and his entire federal income tax is all paid up.

If the same family earns \$50 a week, the withholding tax will be \$2.80 a week. There is no mathematical nightmare about this.

When Mr. Taxpayer realizes that the withholding tax includes the Victory tax he is now paying, he should breathe with considerable relief. In many cases, the new income tax deduction from his pay will be less than it is now.

Let's examine the status of a married man with two children now earning \$25 a week. He will pay 40 cents a week as compared with 70 cents now going to Victory tax.

If the same worker makes \$30 a week, his new deduction will be 50 cents against 90 cents now coming out of his pay.

If he earns \$35 weekly, he will pay 70 cents where he is now

shelling out \$1.10. Of course, when the man of the house with two children reaches \$45 a week it starts to become a different story. His tax will be increased 20 cents a week—from \$1.60 to \$1.80.

The increases come rather rapidly from there on.

The same wage-earner earning \$60 a week will see his tax jump from \$2.10 to \$4.80 a week. And so it goes on up to a \$100-a-week salary where the Victory tax is now \$4.10 per week but the new withholding tax will be \$12.80 a week out of the pay envelope.

When Mr. Taxpayer gets into the so-called upper wage brackets, the withholding tax does not cover the total tax. Taxes begin to accumulate against him for the annual settlement.

But from our analysis of the setup it looks as if all wage-earners pay less to the extent of the difference between a 3 per cent and a 5 per cent Victory tax.

And the harassed taxpayer should not forget the 75 per cent skip-a-year forgiveness on either his 1942 or 1943 income tax.

The accompanying withholding tax table shows the comparative Victory Tax in the last column.

We do not expect any falling off in either over-the-counter sales or in plants where payroll deductions for war bonds are in operation.

The new tax is not a flat 20 per cent tax, but 20 per cent on the portion of income in excess of allowable exemptions. The 20 per cent includes 17 per cent for income taxes and 3 per cent for Victory taxes.

Withholding Deductions

In this table rates may be a little more than those of the revenue office tables where the rates run on averages between brackets.

hair was a symbol of concentration of God, and accepted the ideas and ways of Delilah's people who were idolaters.

Mrs. Claude Brooks talked on "The Return of America to God." She prefaced her talk with the thought that skepticism and scorn were out moded, illustrating with the words of the sergeant who said there were no atheists in the fox holes of Bataan.

Within two years, the produc-

tion of fiction stories in the U. S. has dropped 50 per cent, and the production of the Bible has been increased by 2,500,000 copies. Miss Hays led a round-table discussion on the work of the Wesleyan Service Guild in its various departments.

The temperature in Alaska ranges from 70 below zero in the winter to 90 in the summer.

First Lady of the Lone Star State Is Fifth To Be Featured in Cotton's Portrait Series

Mrs. Stevenson's Picture Appears In Mademoiselle

Joins Other First Ladies In Praising Cotton's Serviceability

Memphis, Tenn.—The First Lady of the first state of cotton will be featured in the July presentation of the cotton industry's "Governor's Lady" portrait series.

She is Mrs. Coke Stevenson Jr., and her state is Texas. Her portrait, the fifth to be published in the series, being sponsored by the National Cotton Council and Cotton-Textile Institute, will appear in the July issue of Mademoiselle. With Mrs. Stevenson will be shown her two lovely daughters, Scottie Gayle and Linda Fay. All three, of course, will be wearing cottons to show women all over America the lovely-looking, long-lasting garments that can be made of this favorite family fabric.

Made at Mansion

The portrait, tall in front of the stately Governor's Mansion at Austin, was made by Wynn Richards of New York, one of the nation's leading photographers, who has been commissioned to do the portraits of the First Ladies of all the cotton-producing states. For the picture, Mrs. Stevenson selected a smartly tailored dress of white pique, with matching hat. She dressed her daughters in delightful big and little sister costumes of striped chambray, with eyelid ruffle pinafore.

Wearing cotton is nothing new for either Mrs. Stevenson, or her daughters. "Cotton is my choice because it is cool as well as cool-looking," Mrs. Stevenson said. "In fact, my daughters wear nothing else because it's so easy to keep clean."

Mrs. Stevenson, a native of Clbourne, Texas, is a Texan from start to finish. Consequently, she appreciates the value of cotton to her state. She attended the University of Texas where she met and married Coke Stevenson Jr.,

Photo by Wynn Richards
Mrs. Coke Stevenson Jr., First Lady of the State of Texas, poses with her daughters, Scottie Gayle, standing, and Linda Fay, in front of the stately Governor's Mansion at Austin. An ardent supporter of cotton, Mrs. Stevenson is wearing a tailored dress of white pique. The little girls are wearing big and little sister dresses of striped chambray, with eyelid ruffle pinafores. This portrait will be published by the cotton industry in the July issue of Mademoiselle as the fifth presentation of the industry's "First Lady" series.

son of the Governor of Texas. Mr. and Mrs. Stevenson Jr. made their home at Junction where the Governor's family had settled almost a century ago, until the death of Governor Stevenson's wife last year. The young Mrs. Stevenson then moved to the 50-year-old mansion at Austin to serve as official hostess for the Governor.

The portrait series, presenting for the first time a typical picture

of the cotton-country as well as the story of cotton's serviceability on the home-front, also has featured the First Ladies of Mississippi, Louisiana, Tennessee and Oklahoma. Next month Mrs. Ellen Arnall of Georgia will be pictured followed in succeeding months by Mrs. Olin D. Johnston of South Carolina, Mrs. Spessard L. Ho. land of Florida, and Mrs. J. M. Broughton of North Carolina.

DO YOU KNOW THAT.....

The primary responsibility of Red Cross home service is to assist servicemen and ex-servicemen and their families in meeting those needs which arise from the man's service in the armed forces.

Nearly 60 per cent of the total population of elementary and secondary schools of the United States now is enrolled in the Junior Red Cross, the membership totalling approximately 17,000,000.

The American Red Cross must account to the United States government for all cloth and yarn the government furnishes for making garments for foreign war relief.

Medicines were flown from India to Chungking, China, by the American Red Cross, for treatment of Lin Sen, 81-year-old president of China, critically ill.

For women serving in the American forces in England, the American Red Cross operates the Nurses' Club in London, with complete club facilities and sleeping accommodations for 200 nurses, WAAC's, ferry pilots, and other women on leave.

It is no idle assertion that modern airpower is dependent upon modern medicine.

This is a family war. Put your War Bond buying through the payroll savings plan on a family plan, which means figure it out yourself.

THE DOCTOR GOES AL

A few years ago the speed of men who proposed four-dred-miles-an-hour combat aircraft which functioned efficiently at 10,000 feet, would have scoffed at as impossible. If the planes were designed for such performance, the human element is thought no person could strain. No person could. But medical science kept abreast of aircraft development. Planes and men fly in the stratosphere at splitting speeds. They fly at altitudes where the air is so exposure means death in a matter of seconds.

It was recently pointed out by Hygeia that, "An airplane applies to men on the ground as much as to flying creatures. Obviously suffering from finds in the medical effort, personal friend anxious to assist in every respect. The usually knows most of the men of his squadron by name, studying their records, doing and flying logs, he can keep himself informed of progress."

The church pension fund of Protestant Episcopal church, approximately \$36,000,000.

PREPARED TO GIVE YOU BETTER SERVICE

I have employed A. C. Gentry, an automobile mechanic of Nocona, to assist me in the repair of cars, trucks and trailers. He is an experienced mechanic and I will be glad to figure on your job and give you the best prices and workmanship possible. Please visit my shop, located in the Crowell Service Station building on the south side of the square.
