

THE FOARD COUNTY NEWS

AND CROWELL INDEX

FIFTY-SECOND YEAR NUMBER 37

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, MARCH 11, 1943.

\$2.00 A YEAR EIGHT PAGES

Men in Service

A/C Garland Taylor, who is in the Army Air Forces and stationed at Douglas, Ga., writes us that he is in a very nice place which is a big country club and he will start his actual flying there. The weather has been bad and he is detained the training.

Weldon Kyle Cogdell, son of Mr. and Mrs. W. A. Cogdell, has been commissioned a second lieutenant in the Army of the U. S. at the Field Artillery Officer Candidate's School at Fort Sill, Okla. The graduation exercises were attended by his parents and Mr. and Mrs. Allen Cogdell of Okla. Lieut. Cogdell and his wife spent a ten day leave here, following his graduation and he is now gone to Camp Maxey, near Paris, Texas. His wife is visiting relatives here and at Quah.

Donald Loving, a former citizen of Foard County, has been promoted to a corporal in the 1st Cavalry and is stationed at Fort Riley, Kan. He enjoys letters and his address is Troop B, 1st Squad, C. R. T. C.

Mr. and Mrs. W. A. Cogdell received a letter from their son, Lt. John P. Cogdell, who is somewhere in England. This is the first letter from him to his parents in more than a month. He says that it has been a long time since he has had a day off, even on Sunday.

Pvt. Lee Gorrell and Mrs. Gorrell of Fort Worth spent the week-end here visiting Pvt. Gorrell's parents, Mr. and Mrs. W. T. Gorrell, and relatives and friends.

A letter from Pvt. Marion Deritt Cauthon, to his mother, Mrs. L. L. Johnson, says that he has been sent from Camp Wolters to Fort Hulen, where he is in the 1st Anti-Aircraft Battalion. Fort Hulen is near Palacios. Pvt. Cauthon has recently been inducted into the service.

J. W. Hazelwood has recently received an honorable medical discharge from the service and is now at home.

Pfc. Elmer Patterson, anti-aircraft operator in the motor pool of the Coast Artillery at Newport News, Va., is visiting his wife and other relatives in the Thalia community this week. He is on 14-day leave.

Lieut. Jim Allee Hart, who has been stationed at Camp Rucker, Okla., arrived here Sunday afternoon for a short visit with his mother, Mrs. A. S. Hart, and other relatives and friends. He left Tuesday night for Fort Benning, Ga., where he will attend officers training school. He has been in the Air Base Security Battalion at Camp Rucker.

According to a letter to his parents, Mr. and Mrs. Tom Russell, Pvt. Glendon Russell has been transferred from Foley, Ala., to Horn Island, 12 miles from Pascagoula, Miss.

Pvt. Reuben Dockins arrived here last Saturday for a visit with his parents, Mr. and Mrs. A. Dockins, and friends, and will leave Friday to return to Fort Donmouth, Redbank, N. J., where he is located. Reuben says he likes his work fine. He is keeper of the officers' quarters. He has been in New York several times in sight-seeing trips and has appeared on two NBC radio programs from the camp. He has been elected pianist of the Coast

Real Yank Now

Staff Sgt. Audie Brown of Roswell, N. M., returned to Roswell today after visiting for a few days with his wife and baby and other relatives of Crowell. Sgt. Brown is employed in the Roswell Internment Camp where German prisoners of war are kept. He says they have about 1,000 prisoners in the camp with a capacity of 3,000.

Lieut. Robert Milton Magee and Mrs. Magee spent Tuesday night in the home of his parents, Mr. and Mrs. R. R. Magee. They returned to their home in Fort Sill, Okla., Wednesday afternoon.

Roy Reinhardt Dies in Hospital at Muskogee

The death of Roy Reinhardt, former Foard County resident, occurred in the Veterans Hospital at Muskogee, Okla., on Feb. 26, according to a message received last week by Mrs. M. O'Connell from her sister-in-law, Mrs. Walter Ross, of Willow, Okla. Mrs. Ross is Mr. Reinhardt's sister.

Mr. Reinhardt was buried in the cemetery at Guthrie, Okla., where he had lived for many years. His brother, Webb Reinhardt, died in an Amherst hospital on Nov. 26, 1942.

Mr. Reinhardt was reared to young manhood in this county, his parents coming here in an early day. He left here many years ago to reside in Oklahoma and had lived in Guthrie for many years where he and his wife operated a hotel.

Survivors include his wife; five brothers, Greer Reinhardt of Los Angeles, Calif.; M. T. Reinhardt of Matador; Raymond Reinhardt, U. S. Army; Pvt. Mack Reinhardt, of Oakland, Calif.; five sisters, Mrs. Walter Ross of Willow, Okla.; Mrs. Alvin Hysinger of Olton; Mrs. Donald King of Matador; Mrs. John H. Kenney of Brownwood, and Mrs. Jack Murphy of Margaret.

Vivian Man is Honored on KVWC

In a radio broadcast which is offered three times a week over Station KVWC at Vernon, titled "Trails to Glory," the creator of which is Thomas Hudson McKee of Vernon, a Foard County boy, who is doing active service for the United States somewhere in the southwest Pacific, was recently honored. That boy is R. J. Everson, son of Mr. and Mrs. Roy Fred Everson of Vivian.

R. J. received his education at Vivian and Crowell, graduating from Crowell High School with the Senior Class of 1941. R. J. was an average boy, studious and co-operative and popular with his classmates. He seemed not to have any particular hobby but hunting and fishing were his favorite pastimes. He also enjoyed reading and listening to the radio.

He made many plans, in so far as a young man could make plans, for most of the world was at war at that time. Then, came the call for men to the U. S. service and R. J. heard the call. He first took a course in Aviation mechanics, then, on Aug. 10, 1942, he enlisted in the Navy. After five days at Dallas, he was sent to San Diego, Calif., then to San Francisco, then to foreign duty.

He is a Seaman 2nd class, a member of the American Expeditionary Force to the Southwest Pacific and is giving his best toward winning victory for the Allied cause.

The above is an excerpt from the radio speech which was given by Mr. McKee on Tuesday, March 2, and a copy of the entire program has been sent to the young man's parents.

Canteen, Long Beach, N. J. En route home he visited his sister, Mrs. Cassie Shivers in Clarksville, and a brother, Pvt. Vergil Dockins, in St. Louis, Mo.

Lieut. Jack Roberts, who is at Fort Sill, Okla., spent the week-end here in the home of his parents, Mr. and Mrs. N. J. Roberts. He returned to Fort Sill Sunday afternoon.

World Day of Prayer To be Observed

Friday, March 12 (tomorrow) has been designated as World Day of Prayer and, on that day, the Methodist Church will be open all day for the benefit of any and all who will drop in for prayer and meditation. The day will further be observed in a special prayer service at the church at 4 p. m. A prayer meeting is held at this time each Friday at the church but the program for this occasion has been especially planned.

All churches and all people are asked to join in prayer on the day set aside specifically for the purpose of asking the blessings of God on the country in its troublous situation.

Red Cross Clubmobile Hostesses Must Be Skilled Cooks and Mechanics

A Red Cross worker examines the doughnut making machine, part of the equipment of the "clubmobile" of which she is a crew member in the picture at left. At right: Miss Fern Maddox of Oklahoma City, serves doughnuts to a soldier at an airfield "somewhere in England." Center: Members of a Red Cross mobile unit distribute coffee and doughnuts to U. S. soldiers in the British Isles.

London—American girls who do not worry about "dishpan hands," and can stand the odor of frying doughnuts in their hair and clothes, are winning popularity with U. S. troops in the British Isles and North Africa.

They are the girls who operate the Red Cross "Clubmobiles," newest device of the American Red Cross to carry that longed for "home away from home" atmosphere to servicemen overseas.

One of the services made possible by the contributions of the American people to the Red Cross, the clubmobiles are equipped with a doughnut-making machine, coffee urns, radio, public announcing system, a phonograph and records, and a library of books and magazines.

Staffed entirely by Red Cross girls who are skilled drivers and trained in motor mechanics, the

clubmobiles visit isolated posts in the British Isles and North Africa, where the girls distribute free doughnuts, coffee, chewing gum, and cigarettes to the men. Often the posts they visit contain a personnel no larger than a platoon. Sometimes they are inland air bases, staffed by hundreds of men. Men at these stations rarely get leave and frequently are far from a city or town where there is a Red Cross club.

The girl-crews operate from a central point from which they can cover five or six of the isolated outposts. Rising at 6 a. m., they mix their doughnut batter, start coffee urns boiling and head for the station to be visited that day. If possible, they visit two posts a day. Once at their destination, the doughnuts are cooked

to the tune of the latest phonograph records, accompanied by the "hurry, hurry, hurry" calls from impatient soldiers. A home-like touch is the china coffee cups in contrast with the soldiers' mess tins.

Although many of the clubmobiles are already in operation, additional units will be outfitted from funds obtained through the \$125,000,000 Red Cross 1943 War Fund. Red Cross officials plan to have 48 of the clubmobiles, named for the 48 United States, in Great Britain. Twenty-five more will be sent to North Africa.

Perhaps the greatest thrill American soldiers get from the clubmobiles is that of hearing and seeing an American girl. If she comes from the home state, it's something. If she comes from the home town, it's terrific!

Ensign Dick Todd Helping to Condition Naval Aviation Cadets

A group of well-known athletes and former coaches, including a number of officers from southern universities and colleges, recently reported for active duty at the Iowa Pre-Flight School at Iowa City, Iowa, according to a news release from the Public Relations office. Graduates of the Navy's V-5 instructors' school at Chapel Hill, N. C., the officers have been assigned to their duties in the pre-flight program, helping condition naval aviation cadets during their three-months training.

Headlining the list of southerners is Ensign Richard (Dick) Todd, former all-American from Texas A. & M. and mainstay of the professional Washington Redskins' backfield since 1938. Todd still

Hunt Coyotes with Greyhounds; Kill 44 During Fall Season

Walter Tole and John Borchardt have been hunting coyotes with greyhounds during the winter months and up until last Sunday had killed 44 in the Four Corners community and territory lying five or six miles south of Crowell.

They have four very fast dogs that are hauled in a pickup until a wolf is cited, then the dog is kicked out and the dogs released for the chase and the kill, which is most always quick and certain.

He holds the all-time high school scoring record in football, scoring 318 points over an 11-game schedule.

Old Cisterns on Vacant Lots Should Be Filled Up at Once

Old cisterns on vacant lots are dangerous and a menace to public safety and public health and should be filled up at once to prevent accidents occurring to children or grown people. Property owners are responsible in case an accident does occur.

On a recent visit of a representative of the State Health Department, it was noted that many of these cisterns are open and the water standing in them is an excellent place for the breeding of mosquitoes, which creates a public health hazard. It was also noticed that some cisterns were covered but not filled in. Merely covering them will not prevent mosquito breeding, and they should be filled so that no water will be left standing. On many of the lots there is enough debris and old bricks that cannot be used and filling the cisterns with these would be an excellent way of disposing of this old material.

Local health authorities are anxious to eliminate these hazards and insist that the safety and health of the citizenship must be protected at all costs.

13,000,000 Tons of Scrap Metal Needed

So urgent is this need for scrap metal that nationally the definite requirement is 13,000,000 net tons in the first half of 1943. The government is asking Texas to supply 440,000 net tons of this quota, according to Lewis C. Holt, Associate Executive Secretary, Texas Salvage Committee.

The greatest need now is for heavy scrap, such as abandoned farm machinery and other heavy material. Also every available piece of copper or brass is eagerly sought and should be promptly turned in. If you desire to sell your scrap now is the time to get it into the market.

At an early date, the Army, which is now operating trucks in some counties in Texas and plan to operate in a group of counties in this section, will be on the job. The Army handles only donated scrap and is very thorough in its operations, so try to have your scrap ready for the trucks when they appear in this county.

It will only take them a day or so to do the job. So let's get this job done thoroughly, once and for all.

Remember, it is your patriotic duty to do everything you can to clean the farms and ranches of

Foard County Exceeded \$2,250 Quota by Over \$1,000 in Red Cross War Fund Campaign Completed This Week

Spring Football Practice for CHS to Start March 15

Spring football practice will start for Crowell High School next Monday, March 15, according to Coach Graves. The training period will last for one month as specified by the Interscholastic League rules. Fall practice cannot start until September 1st, giving only two weeks to get ready for the first game, so most of the ground work for next year's team will have to be done this spring.

The Wildcats have several regulars back from last season's line, but an entire new backfield will have to be developed. Kenneth Archer, J. W. Sallis, Gordon Erwin, Billy Fred Short and Cecil Parkhill are the five regulars that are available. The other six places have to be filled from last year's squadmen and new material. Glen Taylor, Bob Gobin, Leighton Adams, Pat McDaniel, John Calvin Carter and O. C. Wharton are the six reserve lettermen that will return. Other squadmen that will work out are R. L. Smith, Kendrick Joy, Kenneth Payne and Horace Todd. Several new boys have indicated that they are planning on making a bid for a place on the team and according to Coach Graves some of the boys have a good chance to play lots of football next fall.

Quite a number of the aspirants are running a mile each afternoon and taking other exercises so no time will be lost when regular practice starts next Monday.

Grady Roberts Has Sold Munday Times

Grady Roberts, publisher of the Munday Times since 1937, has sold the paper to his brother, J. W. Roberts, of Merced, Calif., the latter taking over the business on March 1.

Grady has not announced his future plans other than that he hoped to be able to go fishing occasionally. He also recently sold the Chillicothe Valley News to J. A. Kennedy and wife. Mr. Kennedy is a former owner and publisher of the Munday Times. J. W. Roberts announces that "there will be no change in the policy of the Times."

this scrap iron and rubber, so that it may be used when needed. Some very light material is not wanted, but all heavy material should move, and as indicated above, unless you want to donate the scrap to us and dispose of it before the trucks arrive as they usually make a clean sweep as they cover the county.

This information is furnished by the Foard County Salvage Committee, who sincerely hopes that this call meets with a heavy response.

There is quite a lot of surplus salvage in the county. Care, of course, should be used to retain material that may be used for repairs of useful machinery such as rods, slabs, bolts, and other usable material.

FLAG SERVICE

The flag service which was to have been held at the Margaret Baptist Church on Sunday, March 14, has been postponed to Sunday, March 28, Rev. A. C. Hamilton, pastor, announced here Monday.

Further details will appear in The News next week.

Bring French Ships

Capt. C. Y. Perso, skipper of the Fantasiaque, and Capt. D. M. Sala, skipper of the Terrible, French light cruisers, are shown in Boston after perilous trip from Dakar, French West Africa.

According to the latest reports from the Red Cross War Fund Drive which was conducted in Foard County and brought to a climax in a few hours, the total amount of \$3,341.11 has been subscribed. This is more than fifty per cent over the quota which was asked from the county by the American National Red Cross, the quota having been \$2,250.

The success of the undertaking is gratifying to the workers in the campaign as well as to each loyal citizen of the county. Congratulations have been received by those in charge of the National drive and much appreciation has been extended to the county for its hearty response to the last call made upon it.

The amount due the General Headquarters of the American National Red Cross from this amount has already been forwarded to them.

Grandson of Mrs. B. F. Ringgold Cited for Valor in Battle

C. B. Williams Jr., son of Mr. and Mrs. C. B. Williams of Amarillo, and grandson of Mrs. B. F. Ringgold of Crowell, was featured in a radio broadcast Monday at noon over Station WBAP, on the NBC, as one of four officers who had recently done an outstanding piece of work in a battle in northern Africa. The four men with their companies had captured eighty-four Italians and without the loss of a single one of their men. This is the third battle in which Williams has engaged in the combat in Africa. He is a lieutenant.

County Agent Expects Expansion in Grain Sorghums Acreage

Many farmers are inquiring about state certified grain sorghum seed.

Since there has been some loss of small grain, as a result of the extreme cold weather, there will no doubt be an expansion in grain sorghum acreage here in Foard County.

Also since the breeders and experiment stations have adapted the grain sorghums to harvesting by combines and other harvesting machinery this crop can be handled with less labor. Also, since there is a very definite shortage of feed grains throughout this country, the outlook for prices is very favorable and it is well to help to supply a pressing demand for stock feed.

So if there is sufficient demand, arrangements will be made to secure whatever the growers need in this respect.

At present there is an adequate supply of seed available by certified growers, but this supply will soon be exhausted, especially in some varieties.

If you are interested in this proposition, please call at the county agent's office during the coming week, and let your wishes be known. Prices and varieties will be obtained for your information.

Certified milo, kafir, hegari, sudan, red top sorghum, or hybrid corn are available and at very reasonable prices. These grain sorghum will be uniform in height, will have very few undesirable plants, and will yield more than common field run varieties.

You will find them free of smut and undesirable weed seed and they have a high germination test.

You can get either the combine type or the taller growing dwarf varieties, all of which will be defined in an article next week.

TO MOVE TO FARM

O'Neal Johnson, who has operated a general mercantile store in Thalia for the past ten years, has sold his stock and will move soon to a farm he owns six miles east of Quanah. Mr. Johnson has rented his building to E. E. Raliback, who will operate a grocery store.

Postmaster John W. Wright has moved the postoffice to the Masonic building which Mr. Johnson used for his grocery store.

Items from Neighboring Communities

THALIA (By Minnie Wood)

Wilson Long and family of Post visited his parents, Mr. and Mrs. W. J. Long, here last week-end.

George and Erma Dodson of Vernon visited Mr. and Mrs. Frank Wood last week-end.

Glenn Gamble, who has been working in Richmond, Calif., has returned home.

Mrs. Harley Capps received medical treatment in a Vernon hospital a few days last week.

Mrs. T. J. DuBose and Patsy of Wichita Falls visited friends here last week-end. They expect to join Rev. DuBose in Miami, Fla., in the near future.

Set. Havis Capps of Louisiana visited his mother, Mrs. H. T. Capps, here a while this week. Staff Sgt. Lester Blevins of Florida visited his parents, Mr. and Mrs. C. E. Blevins, here this week.

Mrs. M. Woodson has returned home from a few weeks' visit with relatives in Tulsa, Okla.

Miss Evelyn Johnson of near Crowell visited relatives and friends here last week-end.

Rev. Brown of Post has accepted the pastorate of the Baptist Church and moved with his family here last week.

The Thalia basketball girls are sponsoring a Negro minstrel at the High School auditorium Tuesday night, March 16, and also, a

"Kitchen Band." Everyone invited to attend.

Mr. and Mrs. Ray Downing of Lubbock visited her parents, Mr. and Mrs. T. R. Cates, last week-end.

Mrs. C. C. Wheeler, who has been receiving medical treatment in the Wichita Falls Clinic for several weeks, was able to be brought home Sunday.

Jack, Morris and Joyce Holman of Arlington visited in the E. S. Flesher home here last week.

Elmer Patterson of Virginia is visiting his wife here this week. Mrs. Fred Dennis is teaching school in Mrs. Patterson's place this week.

Johnnie Mazingo of Denton visited Will Wood and family here a while Monday. His wife is the former Miss Jeannette Bratcher of this place.

FOARD CITY (Mrs. Luther Marlow)

Rev. D. D. Badgett of Red Springs filled his appointment at the Foard City church Sunday morning. He resigned as pastor here to go to Roaring Springs as a full time pastor, and will move to that place soon. Rev. Riddell, the district missionary of Wichita Falls, attended church here Sunday morning and preached at the evening hour.

Joe Farrar left Thursday for Camp Walters at Mineral Wells,

where he was inducted into the Army.

Mrs. S. M. Cudd, who has been visiting her daughter, Mrs. A. W. Parker, and family, left Sunday morning for her home at Oklahoma City, Okla.

Miss Mildred Marlow spent Friday night with Miss Bessie Gamble of Crowell.

Mr. and Mrs. W. R. Ferguson visited Mr. and Mrs. Midge Adcock of Truscott Wednesday night.

Miss Frances Smith visited her mother, Mrs. W. L. Callaway, several days last week. She left Friday to enlist in the W.A.A.C.

Mrs. Roy Fox of Gilliland, Mrs. Lester Patton and Miss Alma Patton of Crowell visited Mr. and Mrs. J. L. Farrar last Thursday.

Mr. and Mrs. J. L. Farrar visited Mr. and Mrs. Ernest Patton of Crowell Thursday night.

RAYLAND (By Mrs. T. C. Davis)

Mr. and Mrs. Hubert Abston of Northside visited his parents, Mr. and Mrs. B. P. Abston, over the week-end.

Miss Doris Edwards left last week for San Antonio to work.

Mrs. H. T. Faughn and daughter, Hazel, visited in the Boyd home Sunday afternoon.

S. T. Raines of Farmers Valley spent Saturday night with his sister, Mrs. T. C. Davis, and family.

Mrs. Buck Clark is spending the week with her daughter, Mrs. Nell Schuniffner, of Byers.

Mr. and Mrs. Jep Haynes of Vernon and Mrs. Della Hood of Fort Worth visited their mother, Mrs. Rinyth Creagar, Sunday.

Mrs. Hood remained with her mother, who is ill, but improving some at this writing.

Mrs. Ethelene Abston of Dallas visited her parents, Mr. and Mrs. T. E. Lawson, and others here this week.

L. W. Lambers made a business trip to the Plains Thursday.

R. A. Rutledge house this week. We are sorry to have Mr. and Mrs. R. A. Rutledge leave this community. They have been engaged in the grocery business here for the past twenty-two years. They moved their household goods Friday and Saturday and left for San Antonio Sunday. They leave many friends here.

INTERESTING FACTS OF THIS AND THAT

The finest graphite, the large flake variety, comes from Madagascar and Ceylon which produce about ten per cent of the world's annual requirements of 200,000 tons.

Shoe production this year is expected to total 300,000,000 pairs as compared with 440,000,000 pairs last year.

General Arnold has set America's ultimate goal at 185,000 planes and 2,000,000 men to keep them flying and fighting.

It requires 26 seconds for a 2,000 pound bomb to reach its target when dropped from a height of 10,000 feet.

American bombardiers are so proficient that they are able, at a height of 10,000 feet, to strike a target 20 feet square.

Plane production in this country has reached over 5,000 planes a month.

About ten per cent of the country's 36,000 auto dealers quit business last year.

The development of emotional stability is constantly stressed in training of bombardiers at the Midland, Texas, AAF Bombarrier School, since a bombardier must be able to remain calm and at ease in the face of enemy fire.

Your Horoscope

March 8, 9, 10.—You are outspoken, unaffected and sincere. You are a friend in need and have the courage to stand up for your convictions. You have an active mind, are tactful, and have the faculty to keeping out of trouble. You are broad in your sympathies, and a friend of everyone.

March 11, 12.—You are generally good natured, like fun and a good time, but can get very angry if irritated. You are fond of camping out and are often found on the water. You are very fond of your home and like for your domestic life to run smoothly. It does not affect you seriously if people get a great deal out of you, but give you little in return.

March 13, 14.—You are a very busy person, not in the least lazy, always finding something to employ your talents. You never demand any special consideration, and perhaps it is this trait that makes nearly everyone careful that you get your share. You make many friends and usually keep them.

10. Under the shoe rationing program what stamp may be used for the purchase of a pair of shoes and when does it expire? (Answers on page 3).

ODT Given Power to Control Commercial Motor Vehicles

Common or contract motor carriers may be required to lease or rent their vehicles to private carriers if the Office of Defense Transportation should deem it advisable or necessary to the prosecution of the war or to the maintenance of essential civilian economy or in the public interest. An amendment to General Order No. 21 today increased ODT's power to order control over commercial motor vehicles transferred from one carrier to another.

The amendment was issued to enable ODT to arrange for fuller utilization of existing trucks and other commercial motor vehicles, except as such loss is reflected in an inventory, if used. If livestock has been purchased for any purpose, and afterward dies from disease, exposure, or injury, or is killed by order of the authorities of a State or the United States, the actual purchase price of such livestock, less any depreciation allowable as a deduction in respect of such livestock, may be deducted as a loss if the loss is not compensated for by insurance or otherwise. The actual cost of other property (with proper adjustments for depreciation) which is destroyed by order of State or Federal authorities may likewise be claimed as a loss. If reimbursement is made by a State or the United States in whole or in part on account of stock killed or other property destroyed in respect of which a loss was claimed in a prior year, the amount received is required to be reported as income for the year in which reimbursement is made. The cost of any feed, pasture, or care which has been deducted as an expense of operation must not be included as part of the cost of the stock for the purpose of ascertaining the amount of a deductible loss.

If gross income is ascertained by the use of inventories, no deduction is required to be reported for livestock or products lost during the year, whether purchased for resale or produced on the farm, as such losses will be reflected in the inventory by reducing the amount of livestock or products on hand at the close of the year, which has the effect of reducing gross income from business by the amount of the loss.

If an individual owns and operates a farm in addition to being engaged in another trade or business or calling, and sustains a loss from the farming operations, such loss may be deducted from gross income received from all sources in determining the taxpayer's net income, provided such farm is not operated for recreation or pleasure.

If a farm is operated for recreation or pleasure and not on a commercial basis, and if the expenses incurred in connection therewith are in excess of the receipts therefrom, the entire receipts from the sale of products may be ignored in rendering a return of income, and the expenses incurred, being regarded as personal expenses, will not constitute allowable deductions for Federal income tax purposes.

MADE IN JAPAN

Your Gas Ration Book is a Gift from Hirohito!

As clearly as if the words "MADE IN JAPAN" were printed on your Gasoline Ration Book, you know that the Japs are responsible for the rationing of your tire mileage.

When the Tokyo toughs seized the Netherlands East Indies and Malaya, our chief sources of supply of raw rubber immediately disappeared.

That is why your driving had to be drastically cut down. Not to save gasoline, which is plentiful in this area; but to save rubber, which is short all over the country. And rubber must be saved . . . or we risk losing the war.

The plain, patriotic fact is that rationing gasoline is the simple, direct way to accomplish the sincerely avowed purpose of Rubber Administrator Jeffers: "To keep automobiles on the road, not to take them off."

Gasoline rationing and the U. S. synthetic rubber program are both dedicated to supplying the rubber for the combat needs of our boys from Guadalcanal to Gafsa, as well as for essential transportation here at home.

Phillips is proud that its resources, experience, and long peacetime research have qualified it for an important role in the wartime synthetic rubber program. To this vital job, and to the needed production of 100 octane aviation motor fuel, we are wholeheartedly giving our best efforts twenty-four hours a day.

For you and for us, winning the war comes first. Patriotic drivers have as willingly accepted the restrictions on buying gasoline as we have on selling it. And we confidently promise you that when victory comes, today's concentration on petroleum research will bring you almost untold improvement in the Phillips 66 gasoline which will power your car and the Phillips rubber on which it will roll.

St. Louis.—Gertrude Lawrence, who raises cranberries on Cape Cod when not on stage tours, and who is an enthusiastic Red Cross volunteer, presented canned cranberry sauce to the St. Louis Chapter Canteen while visiting in this city.

Cadets at the world's largest bombardier school, Midland, Texas, carry pistols to protect the secrecy of the bomb sight at all times they are using it.

Uncle Sam spends approximately \$700 for equipment and clothing for each man in a bomber crew.

Federal Income Tax

Losses of Farmers

Losses incurred in the operation of farms as business enterprises are deductible from gross income. If farm products are held for favorable markets, no deduction on account of shrinkage in weight or physical value, or by reason of deterioration in storage, is allowed, except as such shrinkage may be reflected in an inventory if used in determining profits.

The destruction by frost, storm, flood, or fire of a prospective crop is not a deductible loss in computing income since it represents the loss of anticipated profits which have never been reported as income. Likewise, a farmer engaged in raising and selling livestock, such as cattle, sheep, and hogs, is not entitled to claim as a loss the value of animals that perish from among those animals that were raised on the farm, except as such loss is reflected in an inventory, if used. If livestock has been purchased for any purpose, and afterward dies from disease, exposure, or injury, or is killed by order of the authorities of a State or the United States, the actual purchase price of such livestock, less any depreciation allowable as a deduction in respect of such livestock, may be deducted as a loss if the loss is not compensated for by insurance or otherwise. The actual cost of other property (with proper adjustments for depreciation) which is destroyed by order of State or Federal authorities may likewise be claimed as a loss. If reimbursement is made by a State or the United States in whole or in part on account of stock killed or other property destroyed in respect of which a loss was claimed in a prior year, the amount received is required to be reported as income for the year in which reimbursement is made. The cost of any feed, pasture, or care which has been deducted as an expense of operation must not be included as part of the cost of the stock for the purpose of ascertaining the amount of a deductible loss.

If gross income is ascertained by the use of inventories, no deduction is required to be reported for livestock or products lost during the year, whether purchased for resale or produced on the farm, as such losses will be reflected in the inventory by reducing the amount of livestock or products on hand at the close of the year, which has the effect of reducing gross income from business by the amount of the loss.

If an individual owns and operates a farm in addition to being engaged in another trade or business or calling, and sustains a loss from the farming operations, such loss may be deducted from gross income received from all sources in determining the taxpayer's net income, provided such farm is not operated for recreation or pleasure.

If a farm is operated for recreation or pleasure and not on a commercial basis, and if the expenses incurred in connection therewith are in excess of the receipts therefrom, the entire receipts from the sale of products may be ignored in rendering a return of income, and the expenses incurred, being regarded as personal expenses, will not constitute allowable deductions for Federal income tax purposes.

What You Buy With WAR BONDS

While we have not heard so much about them, our air-borne command is inferior to none. We have thousands of these especially trained troops and the glider is a necessary factor in their successful operation.

We build gliders in three types and their capacity is a military secret. The type shown here costs about \$19,000 each. Buy War Bonds with at least ten percent of your income every payday and help pay for these gliders for our intrepid fighting men. U. S. Treasury Department

Santa Fe Reports
on its first year of war operation

During 1942, Santa Fe moved 79 per cent more passenger-miles...and 122 per cent more freight ton-miles...than in 1918, during World War I.

And all this was done with 26 per cent fewer locomotives than we had in 1918.

These figures indicate the greatest volume of business we have ever handled.

They also indicate why you may have experienced some difficulties and inconveniences in traveling or shipping by train during the past year.

Crowded Trains Our passenger traffic volume was up 102 per cent last year as compared with 1941. Gasoline rationing, in our territory, will increase that volume even more this year.

The Santa Fe must handle this additional load with its present passenger cars, as no more cars will be built during the war.

Late Trains In these days of unprecedented passenger volume it is not always possible to maintain schedules with on-time regularity...and since military trains have the right-of-way over everything else, they often cause our regular passenger trains to be delayed.

At many stations along the line, mail and express are heavier than in normal times—and take longer to load. This is another reason why trains are delayed.

Car Shortage Special troop trains are becoming almost routine on the Santa Fe. In just one case, we moved an entire division from one camp—and it took 55 complete trains to handle the men and equipment.

We must also keep our passenger cars in constant service to handle the increased traffic all over the line. For this reason, we cannot always concentrate extra cars at any one point.

Freight Cars Due to the submarine menace and the diversion of freighters to other services, almost all of the intercoastal freight tonnage formerly handled by ships through the Panama Canal was hauled by the railroads in 1942.

This brought about an unusually heavy demand for Santa Fe freight cars...increased considerably the average length of haul...and occasionally caused delays in delivering empty cars at some loading points. It also indicates Santa Fe has many busy months ahead.

Keep 'Em Rollin'! Please remember there's only one thing we want to do more than keep trains on time and supply cars as promised—and that's keep troops and war freight on their wartime schedule. And we know that's the way you want it!

For up-to-the-minute transportation information, call your local **Santa Fe Agent**

THE Foard County News

T. B. KLEPPER, Owner-Editor

Entered at the Post Office at Crowell, Texas, as second class matter.

Crowell, Texas, March 11, 1943

NATIONAL EDITORIAL ASSOCIATION 1943 Active Member

Speak not evil of another, brethren. He that speaketh evil of his brother, speaketh evil of the law, and judgeth the law.

We are predicting that the Roosevelt-Churchill decision at Casablanca to accept nothing but an unconditional surrender from the Axis powers, was almost inevitable in its foresight.

It has been often said that there are no frontiers in this country, that all the land has been possessed and that there is no place to which the pioneers can move.

If you don't think that the Lord has a finger in this war just stop to think what would have happened if the isolationist Congressmen in this country had had their way.

A neighboring editor defines the attitude of the allied nations in the present war thus: "We make bold to say that America and the other allied nations are in exactly the same position as peace officers who go out to get a gang of killers."

BLACKSMITHING, DISC ROLLING and WELDING GO-DEVILS and STALK CUTTERS See Us for Your Repair Work

HISTORY

Patrick Henry's Speech For The Revolution—March 23: Because the present world situation is a challenge to all liberty loving peoples, it is pertinent to call to the attention of men and women of America the words of Patrick Henry delivered before a Provincial Convention assembled in Virginia in March, 1775.

Today this nation and the world is faced with a shortage of practically all kinds of food. A few years ago the same country was faced with vast surpluses which glutted the market and for which there was no sale.

It appears to us that the fear of some that the peace terms following this war will be too soft against the aggressors, as they were following the first world war, are groundless.

When they took Stalingrad from Hitler's army the Russians captured 744 planes, 1517 tanks, 77,000 rifles, 3 armored trains, 400 railroad cars and 48 locomotives.

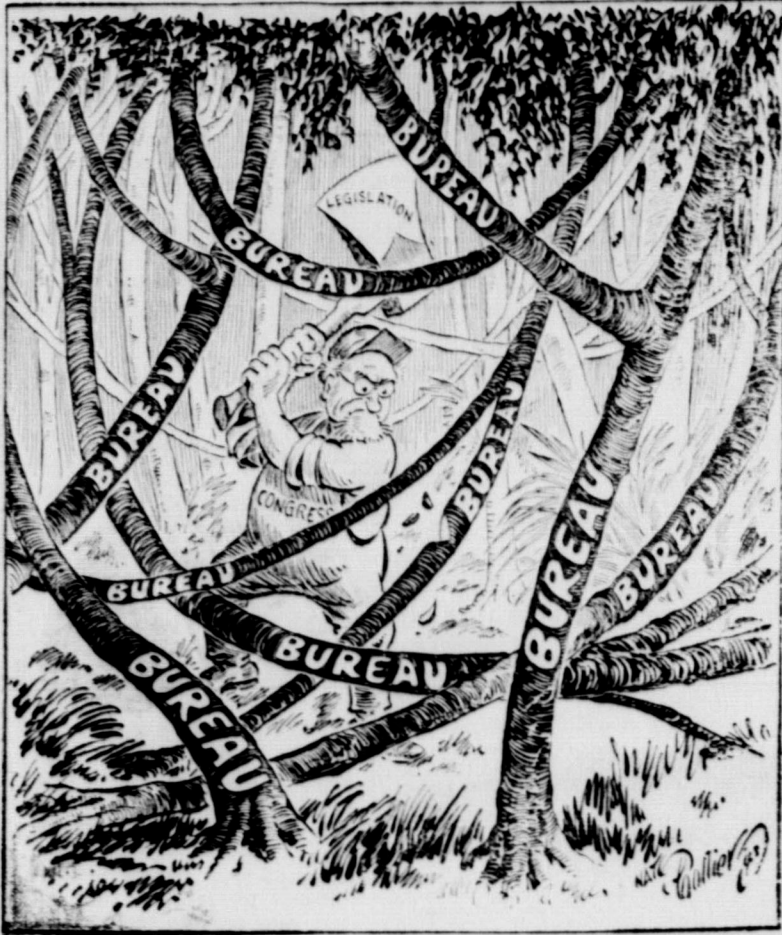

Congress, or at least certain members of it, seem to be obsessed with the idea of doing away with the poll tax. It appears to us that in times like the present when there are so many more important things clamoring for settlement that those who are agitating the abolishment of the poll tax should forget it and turn their attention to something important, something that will aid the war effort.

Big and Little Guy

A study in canine contrasts at the opening of the Westminster Kennel Club show in New York. The big dog is a Great Dane, Dan Hampshire, the half pint is Tami's Little Man II, a Chihuahua, and weighs only about a pound.

THROUGH THE JUNGLE

What We Think (By Frank Dixon)

As this is being written the nation is preparing to register for War Ration Book No. 2. Again as in the case of the registration for the sugar book the citizens of the nation will go to their school houses and sign up for the second edition of the food ration book.

Since registration for the rationing of food is a new thing in this country and is without a precedent there will be much to learn by those assigned to do the registering and those who come to register.

The rationing program is necessary that all may share and share alike. If it is followed through by everyone all will share and share alike.

Rationing will hold down undue price advances. It will prevent the speculator in foods from bidding up on food, buying the whole output of a plant, and then putting up the price and making every consumer pay him a long profit.

No one who looks at the ration program for what it is—a plan to share and share alike—can complain or will be inclined to chisel or seek to circumvent it. Its obvious fairness will appeal to all.

Complying with the rationing program is not only the neighborly and the Christian and the decent thing to do, but it is the patriotic thing to do.

In my opinion every person with a spark of patriotism in his make-up should welcome the rationing program for this reason: it gives him a chance to have a definite part in this battle for freedom.

Somehow I don't think much of the patriotism of a person who will cheer wildly when the flag is shown flying in the breeze on the movie screen and then will seek a way to chisel on the ration program.

HOUSEHOLD HINTS Baking powder should always be stored in tightly covered containers. Some cooks cook highly colored vegetables in milk to retain the color.

Chocolate cakes call for a moderate oven. Lemon juice mixed with wood ashes will remove tarnish from brass. Gilt picture frames can be restored to brightness by rubbing with a sponge moistened in turpentine.

Brief Bits of News From Here and There

It is estimated that for Britain to send a 1,000 plane raid over Germany three times a week would require a force of 3,000 bombers with a replacement of 1,000 a month.

Seventy-five per cent of the wood and paper matches used in the country are produced by one company, which sets out a new tree for every one cut down in its timber tracts to supply wood and pulp for the future.

The 24-inch oil pipe line recently completed from Longview, Texas, to Norris City, Ill., a distance of 530 miles, is the world's longest pipe line.

American ships carrying supplies to American troops bring back on their return trip about 2,000 tons of scrap a month from the war zone.

The new type of "war" penny will be released within a few weeks. It will be made of steel coated with zinc.

American aircraft manufacturers have a backlog of unfiled orders totaling 22 billion dollars. 1943 production is expected to triple that of 1942.

Bombs now being dropped by the RAF on German targets weigh from 2,000 to 8,000 pounds. A Lancaster bomber will carry 18,000 pounds of bombs on a trip. A 2,000 pound bomb will destroy all buildings and life within 300

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of March 14, 1913:

In the prohibition election held in Foard County last Saturday, the people decided that no booze should be sold in the county, by a large majority.

Dr. J. M. Hill has been operating an automobile for the past three or four years, and has come to the conclusion that he is one of the left drivers extant.

Bob Belcher left Sunday for Knox City to work on a brick building being constructed there.

J. D. Johnson left Monday for Fort Worth to take in the sights at the Fat Stock Show this week.

Misses Board, Simpson and Acker accompanied Miss Mattie Klepper from Truscott Friday evening and visited with her until Sunday.

Mr. and Mrs. S. P. McLaughlin left Monday morning for Dallas as delegates to the Head Camp convention of the W. O. W. and W. C.

H. D. Poland left the first of the week for Knox City, where he will be for the next few weeks, assisting on a brick building.

H. L. Kinsey and family returned Sunday from Baldwin Park, Calif., where they went last fall. Mr. Kinsey says that Foard County is a good place in which to live, and while California is also a good and great country, still there are disadvantages there.

The protracted meeting which has been in progress at the Presbyterian Church for the past three weeks closed Tuesday night. The preaching was done by Rev. W. A. Erwin, formerly pastor of the Presbyterian Church at Amarillo.

feet in all directions and cause damage over a still wider area. A full sized model of a plane capable of carrying 400 passengers has been built at the Consolidated Aircraft Corporation plant at San Diego, Calif.

Bombing raids by the R. A. F. are on what might be termed a selective basis. Plants are singled out that produce critical parts such as ball bearings, optical goods and precision instruments.

If you paid a single person \$500 last year or a married person \$1,200 you must report the fact to the Internal Revenue Bureau. Ask for Treasury forms 1096 and 1099.

The number of individual airplane trips back and forth across the Atlantic now approaches 100 per day. The fact that this many trips are being made with the danger incident to a war gives some hint of what this travel will be after the war is over.

Mrs. Wilburn Johnson and two children, Gwynne and Jerry, of Compton, Calif., arrived here Saturday to visit Mrs. Johnson's parents, Mr. and Mrs. W. H. Moyer, and Mr. Johnson's mother, Mrs. Charles Dickerson.

New shipment Dickie army drill pants and shirts.—Ben Franklin Store.

Mrs. James Brothers and son, Charlie Gus, returned to their home in Winslow, Ariz., on Thursday of last week after a visit of a few days here in the home of her parents, Mr. and Mrs. W. A. Cogdell.

Mr. and Mrs. Sewell Roy, who are employed in defense work in Amarillo, spent the week-end visiting relatives and friends here. They returned to Amarillo Tuesday morning, accompanied by Mrs. Roy's mother, Mrs. P. P. Cooper.

Virginia Hart dresses—\$1.98, \$2.98 and \$3.98.—Ben Franklin Store.

Men and Boys Waist band overalls, sanforded, for riding, work or play; bibb type, too.—W. R. Womack.

Good used oil cook stoves at Beverly Hdw. & Furn.

Miss Frances Garrett of Ranger spent the week-end here visiting her parents, Mr. and Mrs. J. A. Garrett. Miss Garrett has completed her course in training for defense work.

Odd merchandise: Belt lace leather, belt dressing, Gloss black stove pipe enamel, press-on rubber shoe soles, cotton rope clothes lines, nuts, washers, screws, bolts, axe and hammer handles, glass cloth and water founts.—W. R. Womack.

Charlie Clark, who has been attending the University of Texas at Austin, spent a few days of this week at home with his parents, Dr. and Mrs. Hines Clark. He left Wednesday for Galveston where he entered the Medical School of the University for advanced medical training.

Lots of Kerr and Ball fruit jars; caps, bands and lids. Better get 'em now.—W. R. Womack.

Miss Katherine Crowell, who has been attending a business school in Dallas, spent the week-end here visiting her grandmother, Mrs. N. A. Crowell. She has completed her business course and left Monday morning for Wichita Falls where she will be employed.

Flash lite batteries only 10c, and we have them.—Beverly Hdw. & Furn. Co.

Miss Margaret Claire Shirley, who attends the University of Texas at Austin, spent the week-end in the home of her parents, Mr. and Mrs. Paul Shirley. She accompanied her mother home, Mrs. Shirley, Miss Evelyn Jean Seales, Miss Nona Olds and Mrs. M. S. Henry spent several days visiting in Austin last week.

Byron Davis arrived home Monday night from Camp Hunt, Calif., having received an honorable discharge from the Army on account of his age. Mr. Davis had been in the Army for three months. Mrs. Davis continued to make her home in Crowell during his absence.

Fruit jars, lids and canning supplies at Beverly Hdw. & Furn.

Mr. and Mrs. R. H. Sikes and two children, Rita Ray and Neva Claire, of San Angelo were here this week on a short visit with Mr. Sikes' parents, Mr. and Mrs. G. W. Sikes, and other relatives and friends. Mr. and Mrs. Sikes are former residents of Margaret where Mr. Sikes was agent for the Santa Fe. He was moved to San Angelo last summer and has been promoted since that time to Chief Transportation Clerk.

Just received some felt utility small rugs, 15c to 39c.—W. R. Womack.

Continued Research Being Made to Find New Uses for Cotton

Continued research for new uses of cotton and cottonseed is being strongly urged by Senators George Moffett of Chillicothe and Marshall Formby of McAdoo and Plainview, both of whom successfully sponsored similar legislation two years ago.

Moffett is Chairman of the Agricultural Committee in the State Senate, and Formby is a member of the committee.

Considerable research has been done in the laboratories of Texas A. & M. College, Texas Tech at Lubbock, and the University of Texas, during the past year, and considerable headway has been made in finding new uses for cotton and cottonseed.

As a result of this research, it may soon be possible to feed hogs and poultry unlimited amounts of cottonseed meal, something which has not been thought safe in the past.

A Texas Tech encouraging progress has been made in the direction of discovering uses for the cotton fiber in connection with the manufacture of synthetic leather, insulating materials, wall-paper, etc. Also experiments are being made in making plastic building materials out of cotton burs.

At the University of Texas a process of chemically treating the cotton fiber has been developed whereby the strength of the cotton yarn is increased by approximately 40 per cent, thereby making West Texas short staple cotton equivalent to Mississippi Delta cotton.

Moffett and Formby are requesting the present Legislature to continue appropriation for this deserving research work. Both pointed out that if these experiments had been in progress for the past twenty years, there would be no surplus of cotton lint on the market today.

By constructing various bombing tables, the bombardiers at the Midland, Texas, Bombardier School can tell just how far behind their bombing plane each type bomb will lag.

Los Angeles, Calif.—Thirty Transit Company, members of the women chauffeurs of the Landier Teamsters Union, donated blood to the Red Cross Blood Donor Center here.

What You Buy With WAR BONDS

The Navy is making a plea to civilians to turn in their binoculars for military use during the War. The Army and Navy both need binoculars for navigation and scouting purposes. Depending on the power of the lenses, they cost from \$50 to \$80 each.

If you have a set of 6 x 30 up to 7 x 50-power lens binoculars loan them to the Army or Navy. If not, your purchase of War Bonds and Stamps will help buy this equipment for our fighting forces. At least ten percent of your income in War Bonds every payday will do the job . . . and provide the "eyes" through which a scouting pilot may spot an enemy battleship.

U. S. Treasury Department

Augusta

Augusta Travers—you know, the one who runs the little hat shop down on Main Street—she's always been dead set against gambling in any form. Never will forget when I was a kid and she found little Hammy, her youngest nephew, playing marbles for keeps out back of the shop. Took it on herself to give him a whaling and point out the evils of gambling. She's a strict woman, Augusta, real strict. Good as gold, of course. But mighty set against the lighter things of life.

Well, so you could have knocked us all over with a feather when Augusta started her gambling campaign for War Bonds and Stamps, right out in the window of her shop.

First she got hold of the photographs of every boy here in town who's joined up, and posted them on a big board in the window, with little American flags at the corners. Half the town was down there watching her do it. She left the middle empty. Then she brought out a placard she'd had printed up and put it in the middle, and this is what it said: "These are the Local Boys who have enlisted in America's War—They are betting that you are buying War Bonds and Stamps—Hitler and the Japs are betting you aren't—Place your bets inside."

My wife couldn't wait to get herself down there and inside Augusta's shop to see what in the wide world had happened to her, turning right around about gambling like that. You know my wife. She kind of likes to talk. She went right up to Augusta and said, "Augusta Travers, seems like something's come over you. Why, I never thought I'd see you running a gambling campaign in your own shop."

Mean to tell me it's a gamble whether this country buys enough bonds to win this war?" Augusta asked.

I forgot to say. Wasn't just a hat my wife brought home. Was a hat and a \$25 bond.

(Story from an actual report in the files of the Treasury Department.)

Remember: It takes both—taxes and War Bonds (and more War Bonds)—to run the War and combat inflation!

China's First Lady White House Guest

Madame Chiang Kai-shek, first lady of China, is shown on arrival in Washington to be a guest at the White House. President Roosevelt and his wife greeted the distinguished guest, who later addressed a crowded congress. Admission was by ticket.

All 8th Command Joins WAAC Drive

Dallas, Texas, March 8. (Spl.)—Major Gen. Richard Donovan, commanding General of the Eighth Service Command, has ordered the thousands of military personnel under his jurisdiction to cooperate fully in the March recruiting campaign for the Women's Army Auxiliary Corps, Col. Claude K. Rhinehart, district recruiting chief here, said Wednesday.

"All military personnel under this command will extend full cooperation to this recruiting campaign, both spontaneously and at the request of recruiting officers," Colonel Rhinehart quoted the General's directive as saying.

"Post, camp and station commanders will make data regarding the WAAC readily available to all military personnel who may wish to discuss merits of the corps with friends or relatives."

There was repeated in the directive a report of the Inspector General on a WAAC company activated at Fort Sam Houston in December.

"This unit has proved to be an outstanding success," it said in part. "A splendid class of personnel, the members are imbued with a high sense of duty and eminent esprit de corps, and have attained the greatest excellence in military bearing, appearance. Tasks are accomplished with meticulous care and marked efficiency."

Don't sell your country short with a shortage of scrap metal. Give it to the Army now.

Car Owners Warned About Anti-Freeze Harmful to Radiators

Warning to America's car and truck owners from the Office of Defense Transportation: Are you sure that the anti-freeze now in your car or truck contains no harmful salt or distilled petroleum product? You or your service station attendant can make sure through these simple tests worked out by the U. S. Bureau of Standards:

1. Drain some radiator fluid into a glass of water. If it floats on the water, the base of the mixture is a distilled oil product harmful to hose connections and radiators.

2. Drain a small amount of the radiator solution into a clean tin and boil away all liquid. If a substantial white or crystalline coating remains in the tin, the anti-freeze you are using contains a salt base highly injurious to motors.

Manufacture of such anti-freeze solutions is now prohibited, but some brands are still in circulation. Many motors have been damaged seriously by anti-freeze mixtures containing salt or oil. Safeguard the life of your car or truck motor by using only anti-freeze definitely labeled as containing a safe alcohol or ethylene glycol base.

Virginia, Minn.—Public school teachers did without their sugar quotas last month so that Junior Red Cross members could make candy for servicemen.

CHURCHES

Christian Science Church Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, March 14, 1943. Subject: "Substance."

St. Joseph's Catholic Church

Time of Masses: October-April (inclusive), 1st Sunday at 11:00. 3rd and 5th Sundays, 9:00. May-September (inclusive), 1st Sunday at 10:30. 3rd and 5th Sundays, 8:00.

Christian Science Services

"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 14. The Golden Text is: "Thine, O Lord, is the greatness, and the power, and the glory, and the victory, and the majesty... both riches and honour come of thee, and thou reignest over all" (I Chronicles 29:11, 12).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "I know that, whatsoever God doeth, it shall be for ever; nothing can be put to it, nor any thing taken from it; and God doeth it, that men should fear before him" (Ecclesiastes 3:14).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Spirit is the life, substance, and continuity of all things" (page 124).

Weekly Sermon

By D. L. Moody, Founder of Moody Bible Institute, Chicago.

What is Your Measurement? In commemoration of D. L. Moody's birth, Feb. 5, 1837, we are reprinting one of his sermons. When Chicago became a city of several hundred thousand, a bill was passed empowering commissioners to appoint all the police.

One clause in the new law stated that no man should be a policeman who was not a certain height—5 feet 6 inches, let us say. When the commissioners got into power, they advertised for candidates. I remember going past the office one day and there was a crowd waiting to go in. They quite blocked up the side of the street; and they were comparing notes as to their chances of success.

One probably said to another, "I have a good letter of recommendation from the mayor and one from the supreme judge." Another said, "I have a good letter from Senator So-and-So." The two men went in together and laid their letters on the commissioner's desk. "Well," said the official, "you certainly have a good many letters, but we won't read them till we measure you." Oh, they had forgot all about that.

The first man measured is only 5 feet. "No chance for you, sir; the law says the men must be 5 feet 6 inches, and you don't come up to the standard." The other said, "Well, my chance is a good deal better than his. I'm much taller than he is"—he begins to measure himself by the other man. That is what people are always doing, measuring themselves by others. Measure yourself by the law of God, or by the Son of God Himself; and if you do that, you will find you have come short.

The second candidate is measured and he is 5 feet and 5 and 9/10 inches. "No good," they tell him; "you're not up to the standard." "But I'm only one-tenth of an inch short," he remonstrates. "That's no matter," they say. One man comes short 6 inches, and the other only one-tenth of an inch, but the law cannot be changed. And the law of God is that no man shall go into the kingdom of heaven with one sin on him. He that has broken the least law is guilty of all.

"Then is there any hope for me?" you ask. "I have committed sin from my earliest childhood." Thank God, my friend, this is just where the gospel comes in. Jesus Christ "was wounded for our transgressions. He was bruised for our iniquities; the chastisement of our peace was upon him; and with his stripes we are healed." All we, like sheep, have gone astray; we have turned every one to his own way; and the Lord hath laid on Him the iniquity of us all.

You ask me what my hope is? It is that Christ died for my sins.

Sugar Beets Can Be Made Profitable Crop for West Texas

Lubbock, March 8.—Sugar beets can be made a profitable crop in this area is the opinion of Dr. A. W. Young, head of the plant industry department at Texas Technological College. This conclusion has been reached during the last five years during which experimentation in the raising of sugar beets has been going on at the college and on various farms in the Plains area.

There are a number of problems to be solved, according to Dr. Young, including distance from markets and the labor situation. In the near future Dr. Young will release statistics on the experiments which will be of interest to sugar beet growers. Final report for the Plains area shows the average yield for a total of 162.7 acres was 10.93 tons per acre with a sugar content of 15.54.

Contracts were signed in 1942 by 38 farmers, for a total of 607 acres of beets, but on account of grasshopper damage, wind and wet weather, only the crops of 16 farmers were harvested, with a total of 162.7 acres. Also the crop was damaged considerably by leaf spot, as a result of wet weather, and a few fields were damaged by root rot. No damage was done by curly top, it was said.

Ten farmers in Floyd County harvested crops. They are John T. Carthel, W. A. Carthel, L. R. Collis, C. W. Ginn, C. A. Gloyna, W. J. Griffiths, S. P. Millard, Earl H. Norman, C. J. Roach and C. J.

in my stead, and therefore I can enter into life eternal.

Honor Man

Honor Man D. Alexander Kellogg is congratulated by Undersecretary of War Robert P. Patterson at the graduation of the West Point class of 1943. The class was graduated 4 1/2 months ahead of regular schedule to make room for the new three-year course which is starting at the academy.

Taylor. Total acreage harvested was 88.7, with an average of 9.69 tons per acre, a total of 976.88 tons. Percentage of sugar was 15.25.

In Hale County Everett C. Lowe, H. O. Thompson and R. C. Yarbrough harvested 39 acres of beets, a total of 432.23 tons. Average tons per acre was 12.1, and per cent of sugar was 14.27.

In Lubbock County beets were grown by Billy Myers and Texas

Technological College, who harvested a total of 23 acres, averaging 9.51 tons per acre, a total of 218.67 tons. Sugar content was 16.20 per cent.

In Hockley County Earl L. Hopping harvested 2.0 acres of beets, a total of 12.59 tons, with a sugar content of 15.76 per cent. Nov. 10 was set as the date for digging to begin, but on account of labor shortage, wet weather and lack of pulling equipment, harvesting was extremely slow, and when the sugar company set Dec. 28 as the latest day for beets to be delivered, some 350 tons of beets still were in the ground and could not be delivered.

Forty-five carloads of beets were shipped; Lockney shipped 28, Plainview 7, Lubbock 6 and Roundup 4.

In the tests, part of the beets were planted in 38 to 40 inch rows and part in 29 to 24 inch rows. The year's average yield of the best five growers with wide rows was 13.76 tons per acre, and the average of the five best growers with narrow rows was 11.74 tons per acre.

The average sugar content for 1942 was 15.54 per cent as compared to an average of 16.23 per cent for the four years previous.

Use of computers and other mechanical devices aid bombardiers at the Midland, Texas, Bombardier School, in determining from what altitude bombs can be dropped most successfully on various types of targets.

"If the war is not bringing out the best in all quarters, it is certainly doing it in some, the American railroads, for instance. Never in the colorful history of railroading has a finer job been done than right now."—Harrisburg, Pa., Patriot.

Shower Given as a Compliment to Brides of Recent Months

Mesdames Bill Ownbey and Leroy Gibson, sisters, who have recently become brides, were jointly complimented Friday afternoon when Mrs. W. B. Fitzgerald, Mrs. J. P. Davidson, Mrs. Leo Spencer, Mrs. Garland Foster and Miss Faye Griffin were hostesses at a pretty shower at the home of Mrs. Fitzgerald.

The guests were received at the door by Mrs. Spencer, and presented to the brides and their mothers and their husbands' mothers, Mrs. Ownbey, Mrs. Gibson, Mrs. John Bradford, Mrs. Fred Gibson, and Mrs. Lester Durbey, who composed the receiving line. Mrs. Foster was at the brides' books when each guest registered in each book. Guests were directed to the gift room where Mrs. Fitzgerald presided. Many useful and beautiful gifts filled the room.

In the dining room, Mrs. Davidson poured punch and Miss Griffin assisted in serving. The entire reception suite was decorated with pot plants.

Lovely Shower Honors Mrs. Bill Russell at Hubert Brown Home

With Mrs. Bill Russell, a bride of two weeks, named as honor guest, Mrs. Hubert Brown was hostess at her home Friday afternoon at a lovely miscellaneous shower.

The receiving line was composed of Mrs. Tommy Johnson, daughter of the hostess and Mrs. Russell, the honoree. In a seated receiving line were Mrs. Pearl Lovelady, the bride's mother, and Mrs. W. S. J. Russell, the groom's grandmother.

Miss Lottie Russell directed the guests to the register where Miss Marge Davidson presided over the bride's book. From the register, they went to the dining room where punch was poured by Miss Juanita Brown and served by Miss Bette Miller and Miss Iva Ruth Gafford. The table was beautiful with decorations of pink sweet peas in various shades of the color. Arrangements of the flowers were placed before tall, white tapers burning in crystal holders. Sweet peas were also placed at the base of the punch bowl.

Mrs. Henry Borchardt and Mrs. Brown received in the two bedrooms where the beautiful gifts were arranged. Mrs. Russell left Friday night for San Francisco, Calif., to join her husband who is stationed there.

day at the home of Mr. and Mrs. J. W. Hazelwood. The birthday dinner was served to "Uncle Bud," Mr. and Mrs. Ed Adams and son, Mrs. Ray Glazebrook of Harlingen and Mrs. Hazelwood.

Mr. Harrell is a pioneer cowboy of this section and has ridden the range with the oldest cowmen of the country. He is very active for his advanced age and makes a trip to town almost every day.

P. T. A. TO MEET

The Crowell Parent Teacher Association will meet next Tuesday afternoon, March 16, in the music room at the Grammar School at 3:30 o'clock. The election of officers will be the most important business for the afternoon.

Mrs. Melvin Moore will serve as leader for the meeting. Mrs. Merl Kincaid, chairman of the hospitality committee, has arranged a feature for the social hour which will be held at the close of the business session. Light refreshments will be served at the social period. A room of mothers will be made and awards will be made to the mothers having the largest representation of mothers present.

A large attendance is earnestly desired at this meeting and every mother who can possibly do so, is asked to make an extra effort to be present.

CROWELL GARDEN CLUB

The Crowell Garden Club was scheduled to meet on Friday of this week, March 12, in the home of Mrs. M. O'Connell, but the date has been changed to March 19, one week later. This change was made so that Miss Elizabeth Elliott, county home demonstrator, could give a garden demonstration to the club, and she was unable to be present on the first date.

The meeting will be held at Mrs. O'Connell's on Friday, March 19, and will begin at 3 o'clock. All members are asked to note the changed date.

ADELPHIAN CLUB

On Dec. 3rd, the Adelpian Club was entertained in the home of Mrs. W. V. Favor, who was the hostess.

Mrs. J. E. Stever was the leader, presenting a most enjoyable program on "Republics of Central America."

Mrs. Ruth Patterson brought descriptions and pictures showing the different rulers of the republics and told of their differences in governing and their outlook on life.

Mrs. L. A. Andrews told of the many economic gifts to the world from these countries.

War stamps were sold to members and special tribute was paid to Mrs. Frances Hill, a beloved member who has recently gone into the service.

Mrs. Favor served a delicious salad plate to a large attendance.

Where Tunis Air Raid Was Plotted

The roulette table in this old gambling casino in Tunisia is the plotting room for planning the air raid on the Axis-held El Aina field, Tunisia. This was prior to the great tank battle of Kasserine Pass, in which American armored forces, after serious reverses, hammered back Rommel's dangerous thrust westward towards Tebessa.

Mrs. T. R. Jr. Serves Coffee and Sinkers

Three Yankee doughboys, just returned from field duty, are served coffee and doughnuts by Mrs. Theodore Roosevelt, wife of Brig. Gen. Theodore Roosevelt, in the American Red Cross club in London. She is a daughter-in-law of former President Theodore Roosevelt. Needless to say the boys relished the handout.

FORMER RESIDENT WEDS

James Carey Alger, of Vernon, a former citizen of Crowell and a brother of Mrs. J. A. Stovall of this place, was married in Vernon on Tuesday evening, March 2, to Mrs. Ada Tillman also of Vernon. The marriage took place at the Methodist parsonage with the pastor of the church, Rev. T. Edgar Neal, performing the ceremony.

ON HONOR ROLL

Elmer Nichols of Crowell, a sophomore at Sul Ross State Teachers' College, has been named to the honor roll for the semester just concluded there. Mr. Nichols, son of Mr. and Mrs. C. O. Nichols of Crowell, is majoring in Biology at Sul Ross. His grade point average for the semester was 4.5, placing him well in the list of honored students. The honor roll is composed of the highest ranking scholastically 15 per cent of Sul Ross students.

GAMBLEVILLE H. D. CLUB

The Gambleville Home Demonstration Club met on Tuesday, March 2, at the home of Mrs. Fred Diggs.

The roll call was responded to by answers to the question: "Do you read labels before you buy?" Mrs. Earl Davis said that, when buying hose, you should buy for both appearance and long wear. Labels which read, 3 per cent shrinkage, means 3 per cent per yard.

Mrs. Fred Diggs, had, as her topic, "Shirts." Broadcloth is the best material for shirts, while Oxford cloth is more commonly used in sport shirts. Madras cloth launders and tailors well. Chambray is a light weight dress shirt material, but there is also a heavy chambray. Percale is a low quality shirt material and fades easily. Covert is very durable and is used for work shirts.

Mrs. Willie Garrett said that the word "cosmetics" was a Greek word and had been passed along for 5,000 years. Many cosmetics are harmful and useless. Mrs. Milburn Carroll stressed the fact that women should buy more cooperatively and also should buy more war bonds and stamps and should pay off all debts as soon as possible after they are made. Refreshments were served to 5 members and one guest, Ada Sue Solie. The next meeting will be with Mrs. George Morgan, March 16.

GETTING EXPERIENCE

Lubbock, March 6.—Miss Isabelle Price of Thalia is doing practice teaching in the Lubbock public schools this semester. Those who expect to teach after graduation spend a short period observing methods of instruction used in the Lubbock public schools before teaching six weeks each themselves. Miss Price, daughter of Mr. and Mrs. H. G. Price, is a senior majoring in commercial teaching.

AGRICULTURE

(D. F. Eaton, County Agent.)

Protect Pigs From Worms

By using a few simple precautions worms in pigs may be prevented. Hogs when infested with worms do not grow rapidly, have rough skin, and dead looking hair; they may eat a lot but will not gain rapidly or even normally. The worms can only be eliminated by treatment, so it is much better to grow them without infestation. This may be done in the following way:

Remove all litter from farrowing houses which have concrete or wooden floors. Then clean thoroughly with boiling water, soap and lye.

A few days before farrowing, scrub the sow thoroughly with soap and warm water. Use a brush and pay special attention to the udder before placing her in farrowing house. Do not let the pigs have access to soil where other hogs run.

Within ten days after farrowing, remove sow and pigs, by hauling, to a hog house located on clean ground, preferably a grain, sudan or alfalfa field or some other good pasture. Do not allow other hogs to run with this group.

Provide plenty of shade, shelter and feed with an ample supply of water.

After the pigs have been here for about four months, they may be transferred to fattening pen.

The sow may be removed in a few days after the pigs are weaned.

It may be advisable to build the hog house on runners so that it may be moved to fresh ground occasionally.

If this practice is carried out the pigs may be finished a month earlier, provided they are given a balanced ration when they are being finished.

To Control Gophers

We notice quite an infestation of pocket gophers here in the county, especially in the sandier soils of the county.

These rodents do quite a lot of damage to crops, terraces and other structures. These animals are very easily controlled and may be entirely eliminated.

However, it may be done more effectively if operators of contiguous farms will co-operate and all poison at the same time, and in this way clear them from a large area.

Now is a good time to poison this pest. This may be done by the use of a prepared poison grain supplied by the Biological Survey from San Antonio, Texas.

If there is sufficient interest, we will secure a supply of this poisoned grain. It costs around 6 per pound and it only takes a small amount to kill a gopher.

The poisoned grain is placed down in the dens by the use of a probe. We would be glad to demonstrate the use of this grain to a group of 8 or 10 farmers if there is sufficient interest in the demonstration.

These gophers live in these underground runs and one gopher may build a number of large piles of dirt you see along the roads or fences.

One pound of grain will kill the gophers on several acres of land, depending, of course, on the density of the infestation.

Kincaid and questions answered concerning his particular branch of the service by Sgt. Brown. Dwight Moody was in charge of the program.

Scraps may come and scraps may go but scrap metal is needed for the duration. Give it now.

AMERICAN HEROES

Thirty-four days were spent on the open sea in a rubber boat by the U. S. Navy men, Harold F. Dixon, Gene Aldrich, and Anthony P. Field, March 29 T. After enduring torturous days under the blazing sun, and freezing nights, these American heroes were finally rescued. In effect, they were kept afloat by a WAR BOND. We need lots of these rubber boats, so buy as many War Bonds as you can. You've done your bit; now do your best!

MARGARET H. D. CLUB

The Margaret Home Demonstration Club met on Feb. 26, in an all-day meeting featuring a covered dish dinner, with Mrs. Curtis Bradford as hostess to eight members and one guest.

Mrs. Bradford discussed dried fruits in sauces and salads. Raisins should be cut in half when used in raisin sauce and dried fruits should be cooked in the water in which they were soaked, for they require less sugar in that way.

Mrs. Raymond Bell discussed the use of left-overs in busy day dinners and suggested to use cheese, eggs, nuts and beans in left-overs with vegetables, as an aid in share-the-meat program.

Mrs. Joe Bledsoe passed leaflets, busy-day dinners, main dish helps on sharing the meat and the use of left-overs.

The next meeting will be held on March 12, with Mrs. J. H. Taylor.

PROMOTED TO CORPORAL

Lubbock, March 4.—Joe W. Beverly of Crowell has been promoted to corporal in the Texas Technological college unit of Reserve Officers Training Corps. Son of Mr. and Mrs. A. Y. Beverly, Joe is enrolled at Tech as a sophomore chemical engineer.

Gets 'Low Down'

Lieut. Gen. Leslie J. McNair, commanding general of the army forces, is shown here giving Private Edward Gall, training ended glider infantryman, a just finished running the difficult steale course at Maxton-Lair army air base in North Carolina. Give us this our daily star.

THALIA TABERNACLE FOR SALE

Trustees of Thalia Churches will accept sealed bids on the Thalia Tabernacle until March 20. Reserve right to accept or reject any or all bids.

W. G. CHAPMAN,
H. W. BANISTER,
F. A. BROWN,
Trustees.

THANKS

We wish to thank each and every person who so generously contributed to the Red Cross War Fund Drive. With your whole hearted co-operation the campaign was a great success. To date we have raised \$3,334.11. This is over fifty per cent above the quota set by the American Red Cross.

Every community in the County raised its quota and, in most instances, it ran from 50 per cent to 90 per cent over. We wish to thank every worker who contributed his time and effort to this great drive. We have a letter from the American Red Cross stating that they deeply appreciate the Campaign Fund being oversubscribed and were amazed at the time it took to do it.

Thanks to every one.

Foard County Red Cross Chapter
J. A. STOVALL,
War Fund Chairman
G. D. SELF,
County Chairman

NOTICE

We have a complete line of Red Chain Feeds. Also plenty of bulk garden seeds.

Bring us your cream, eggs, poultry and hides for highest market prices.

BALLARD FEED & PRODUCE
