Hundreds Offer Home to Soldier's Waifs

Their father is in the army and their mother is ill in the South, so four bright-eyed brothers pictured at top were waiting at the Children's Aid society in New York for someone to give them a home until their parents can come back. Hundreds responded to their plea expressed via a newspaper. Among them was William G. Helis, military oil man shown at bottom. Helis is a Greek-American who contributed over \$1,000,000 to Greek war relief.

C. W. Beidleman to Be Given 50-Year Masonic Button

Special Meeting Will Be Held in Thalia Tonight

C. W. Beidleman, pioneer resident of this section and the first man to be made a Master Mason in Foard County, will be signally honored tonight (Thursday) when he is presented with a 50-year Masonic button in a special meeting at the lodge hall of Thalia Lodge No. 666, A. F. & A. M., at Thalia, at 8:30, according to an announcement made by the secretary, John W. Wright, Tuesday. Mr. Beidleman has been a Mason for nearly 52 years, having taken the Master's degree Aug. 1, 1891, and was the first man to be made a Master Mason in Foard County after the county was organized April 28, 1891. Dr. E. M. Wood of Anson, Past Grand Master of the Grand Lodge of Texas, will make the presentation speech. Refreshments will be served, Mr. Wright says, and all Master Masons are invited to attend the meeting.

Men in Service

Pfc. Reid W. Pyle, grandson of Mr. and Mrs. D. M. Shultz of the Riverside community, has completed a special two-weeks' course in engine work at the Wheeler Vehicle Engine School in Detroit, Mich., conducted by the Chevrolet Motor Division. It has been announced by the Army Ordnance Department. Pfc. Pyle was selected to attend the course in practical mechanical upkeep, operated by the Ordnance Department which maintains schools, in co-operation with manufacturers, throughout the country.

Pfc. Garland Foster, former teacher in the Crowell schools, has recently been transferred to the Virginia Polytechnical Institute in Blacksburg, Va., where he is taking a course in physics.

Cpl. Irving Fish left Tuesday for Chanute Field, Ill., following a visit here with his wife and small daughter, Carol Sue. Cpl. Fish is an X-ray technician in the medical department of the U. S. Army Air Corps.

Cpl. and Mrs. Weldon E. Hays of Fort Worth are spending a ten-day leave with his mother, Mrs. H. E. Hays, and other relatives.

A/C H. K. Edwards left Friday for Grand Rapids, Mich., after visiting for several days with his parents, Mr. and Mrs. Herbert Edwards. He is attending an officers' training school.

Lieut. Jim A. Hart of Camp Rucker, Ala., left this morning to return to camp, following a four-day visit with his mother, Mrs. A. S. Hart, and other relatives. Lieut. Hart is a communications officer in an Air Base Security Battalion at Camp Rucker, and recently completed a three-months officer communications course at Ft. Benning, Ga.

A cablegram was received Wednesday morning from Pfc. John E. Fish and Pfc. Otto Christian by their parents, Mr. and Mrs. Oscar Fish of Vivian and Mr. and Mrs. Jim Christian of Crowell. The cablegram stated, "All well and safe. Don't worry—keep smiling."

Ensign Ann Mabe left Sunday for San Diego, Calif., to assume her duties at the U. S. Naval Base Hospital, after a visit with her parents, Mr. and Mrs. F. W. Mabe, in Crowell.

Staff Sgt. Mack Boswell of the U. S. Army Air Base in Roswell, N. M., former Crowell resident, passed through Crowell Wednesday morning on the bus en route to Dallas and Weatherford to visit relatives. He expects to spend two or three hours in Crowell on his return trip Monday or Tuesday.

Staff Sgt. Leo Sanders left Tuesday for Indian town, Ga., after a visit here with his wife and son and other relatives.

S 2/C Glendon Russell, has returned to Horn Island, Miss., after having spent a 7-day leave here in the home of his parents, Mr. and Mrs. Tom Russell.

Henry W. Black, Hospital Apprentice First Class of the U. S. Navy, is here on a furlough from the Naval Receiving Station, dental department, New Orleans, visiting his parents, Mr. and Mrs. H. E. Black, and other relatives and friends.

Roy Mullins, A. M. M. 3/C of Biloxi, Miss., air station is here visiting his parents, Mr. and Mrs. C. D. Mullins, and other relatives.

Pvt. Stanley Sanders of the U. S. Marine Corps, who has been receiving training at San Diego, Calif., has been at home this week visiting his parents, Mr. and Mrs. S. L. Sanders.

Lt. J. M. Crowell of San Antonio is here this week visiting his father, M. F. Crowell, and other relatives and friends.

Approximate Yield of Foard County's 1943 Wheat Crop Is 562,000 Bushels, Figures Reveal

WAVES Learn to Rule Waves

The historic Charles river in Cambridge, Mass., where Harvard masculine crews practiced and raced for many decades, is now the scene of a training headquarters for WAVES. A group is shown carrying their shell from the boathouse. They learn to row, handle a small boat, and other water lore.

With two weeks of dry weather the harvesting of Foard County's 1943 grain crop was practically finished Wednesday. The number of bushels received at the elevators in the county, Crowell, Margaret and Foard City, amounted to 562,000, an excellent crop considering the dry weather which struck in the early spring and other damage caused by insects.

Grain received at the elevators early in the season tested as high as 42 pounds to the bushel and some excellent yields were reported and all grain received making a high test. Following the heavy rains the test dropped to 39 or 40 last week and this week the average has been 36 or 37, according to elevator men.

The wheat yield over the county this year is probably 50,000 to 75,000 bushels less than in 1942 which was 625,000 bushels, including an estimated 20,000 bushels stored in granaries. An estimate of the amount of grain stored in granaries has not been made this season.

Two hundred and twenty-five carloads of wheat have been shipped over the Santa Fe principally to Fort Worth elevators, according to figures released Wednesday afternoon by G. V. Walden, local agent.

The wheat crop in Foard County in 1941, which promised a yield of 1,000,000 bushels at the beginning of the season was cut to about half that much on account of excessive rains and damage by hail and insects. The harvest was not completed until the middle or latter part of July.

Grandmother of Local Ladies Passes Away

Mrs. Mary Webb, mother-in-law of Mrs. Ada Webb and grandmother of Mrs. A. W. Owens and Miss Mary Ellen Webb, passed away at her home in Chillicothe Friday evening at 4 o'clock. She was 90 years of age and had resided in Wilbarger County for 42 years, having come to West Texas from Montague County. She had only recently moved to Chillicothe.

Funeral services were held Saturday afternoon at the Primitive Baptist Church of Odell with the pastor of the church, Rev. Welch, officiating. Mrs. Webb had been a member of the Primitive Baptist Church since childhood.

Mrs. Webb, Mrs. Owens and Miss Webb attended the funeral. Survivors include 8 children, 4 step-children, 38 grandchildren, 58 great-grandchildren and 38 great-great-grandchildren.

Crowell PTA Holds School of Instruction

A school of instruction was held by the Crowell Parent-Teacher Association at the home of Mrs. Merl Kincaid last Friday afternoon. The school was presided over by the incoming president, Mrs. Allen Sanders, and was for the officers and committee chairman who will serve during the coming year.

Each committee chairman commented upon and reviewed the duties of her office. The chairmen present are as follows: Mrs. Merl Kincaid, hospitality chairman; Mrs. Roy Todd, membership chairman; Mrs. Thos. Hughton, publications chairman; Mrs. Q. V. Winghamam, publicity chairman; Mrs. Lewis Ballard, room sponsor; Mrs. Joe Smith, finance; Mrs. Jim Cates, health, and Mrs. Verne Walden, program chairman.

The Road Back

A larger and better PTA is planned for and expected for next year and the official board is asking now that a large membership is attained.

Postoffice to Close at 4 P. M. Saturday

The Crowell postoffice will close at 4 p. m. on Saturday after July 1st, it was announced this week by Postmaster Alva Snetcer. Customers are requested to remember this new closing hour on Saturday and adjust their business relations with the postoffice accordingly, Mr. Snetcer stated.

ROYAL ARCH MEETING

A meeting of Crowell Chapter, No. 276, will be held at the Masonic Hall tomorrow night, (Friday), at which time Grand Visitor, P. E. Pearson of Wichita Falls, will be here to visit the chapter. All Royal Arch Masons are urged to be present. New officers for chapter were elected at a meeting held at the regular meeting last Friday night.

Foard County Man Downs German Plane Over Ruhr

Lieut. F. D. Smith, airplane pilot, son of Mrs. W. L. Callaway of Foard City, was credited with shooting down a German plane in the raid over Ruhr, Germany, Monday, according to a news dispatch from a U. S. Bomber Station published Tuesday. Another Texas youth participating in the raid was co-pilot Second Lieut. W. L. Hawkins of Abilene. Lieut. Smith is a member of the famous American Eagle Squadron. In his first operational flight with the RAF his plane was struck by flak and his engine went dead and he was compelled to make a forced landing on the first bit of English soil he came to, which he did without getting a single scratch.

Total Acres Planted to Mebane Cotton in County 5,751.1

A report of the Crowell One-Variety Cotton Community made by D. P. Eaton, county agent, reveals that the total acreage planted to Mebane cotton was 5,751.1 acres by 1266 farmers, or an average of 45.6 acres each.

The total number of bales classified was 5,007, which indicates a yield of approximately two-thirds of a bale per acre and is a remarkable yield.

The stapling of the cotton was as follows as reported by the Government classifier and grader:

Three-fourths inch and shorter, 21 bales; thirteen-sixteenths inch, 1,930 bales; seven-eighths inch, 2,115; twenty-nine thirty-seconds, 1,029 bales; fifteen sixteenths, 634 bales; one inch, 31 bales; one and one thirty-seconds, 10 bales; one and one-sixteenths, 5 bales.

The cotton classified as follows:

Good middling, 13 bales; strict middling, 82 bales; middling, 1,522 bales; strict low middling, 1,522 bales; good ordinary, 80 bales; good ordinary, 1 bale.

Spotted—Good middling, 43 bales; strict middling, 393 bales; middling, 713 bales; strict low middling, 172 bales; low middling, 10 bales.

On preparation 99.5 per cent showed normal ginning which is an excellent record for the gins.

PTA to Sponsor Story Telling Hour

At a meeting of the executive board of the local Parent-Teacher Association on Friday afternoon, plans were made to conduct a story-telling and recreation hour for the children of Crowell. The project will begin on Friday, July 9, and will continue each Friday afternoon throughout July and August. Local talent will be used. The time and place will be announced later.

Seven Children Visit on Father's Day

Mr. and Mrs. J. N. Ribble had for their guests on Father's Day, seven of the nine children of Mr. Ribble. They were Mrs. Hugh Shaw and baby son, of Dallas; Mr. and Mrs. H. A. Matthews of Sudan; Mr. and Mrs. M. O. Ribble and family of Shawnee, Okla.; Mr. and Mrs. W. S. Ribble and family of Sweetwater; Mrs. Pearl Wright of Sweetwater; Mrs. R. M. Hudson and Mrs. W. O. Dunlay of Vernon.

Paralysis Healer at the White House

President Roosevelt meets a famous Australian nurse, Sister Kenny, who has developed a new method of treating infantile paralysis. Pictured above are President Roosevelt, Basil O'Connor, head of the National Paralysis Foundation, and Sister Kenny. She was a luncheon guest at the White House.

Six Foard County Men Inducted Into Armed Forces in May

Six Foard County men were inducted into the Army of the United States on May 28 at Camp Parkeley, Abilene. They went to the reception center at Camp Wolters to report for active duty on June 4. The list includes: Edward Hilburn Jr., Harold L. Wallace, Tommy L. Owens, Harold J. Kennedy, James M. Brown and Clifford W. White.

Crowell Rotarians Go to Rochester

A large group of Crowell Rotarians and several Rotary Annals went to Rochester last Friday night to a banquet at which time the newly-organized club at Rochester was presented its charter by the District Governor, Charlie Paxton, of Sweetwater.

Representatives of the various clubs of the district attended and each club gave inspiration and encouragement to the new club with tokens of friendship and interest. A splendid program was presented.

Those attending from the Crowell Club included the president, John Rasor, the president elect, Vergil Smith and Mrs. Smith, J. A. Stovall, D. F. Eaton, A. L. Davis, W. F. Kirkpatrick, H. E. Ferguson, Mr. and Mrs. L. E. Archer, Mr. and Mrs. I. T. Graves, Mr. and Mrs. J. R. Beverly, Mr. and Mrs. Merl Kincaid, Mr. and Mrs. H. K. Edwards, Miss Frankie Kirkpatrick, Mr. and Mrs. T. B. Klopper and Mr. and Mrs. Vance Favor, who now reside in Quanah.

No weekly luncheon meeting of the local Rotary Club was held this week on account of the Rochester attendance.

where the regular allotments for War Bonds exceeded 10 per cent of gross payroll, the workers dug into their current earnings for huge amounts of extra bonds.

With Hitler reeling under the blows of the Yanks and Allied fighters the American workers on the payroll savings plan are putting on the pressure, too, on the home front to finance invasion costs.

The Treasury Department's new campaign aims to assist workers' families in making up their war bond budgets. Treasury officials feel that no prodding is needed. American morale and determination to work to do everything possible to win the war in the quickest possible time is at its highest.

Even with war taxes which are set at an approximately 30 billion dollars and increased living costs, there are ample indications that Americans want to help pay for the war by keeping their spending down to bare necessity standards.

War Bond buying on a family basis is suggested as the best means of achieving the maximum lending power to the government. In one out of every two families there are at least two members earning a livelihood today. In eight per cent of the nation's families there are three or more workers, in two per cent, there are four or more working in a household and in one per cent five or more persons are contributing to a family income. In countless numbers of these multi-income families there are 15, 20 and even 50 to 100 War Bond per centers on payroll savings plans. During the Second War Loan campaign in plant after plant

HOSPITAL NOTES

Holloway and infant daughter, Robbie Dale Davis Visiting Hours: 9:30 to 11:30 a. m.; 2 to 5 p. m.; 7 to 9 p. m. JEWELER MOVES SHOP J. E. Norris, Crowell jeweler, has moved his shop from the Ringgold building to the small structure on the highway one-half block north-east of the square. The new location provides more room and will enable Mr. Norris to serve his customers better.

Wages and Salaries Up One-Third Over 1942; Money Is Available to Boost War Bond Buying Through Payroll Savings

How Much Beyond 10 Per Cent of Family Income Can You Put Into Bonds Through Payroll Plan? \$135,000,000,000 in Pockets of Workers

Washington, D. C.—The Treasury Department this week appealed to Americans to figure out for themselves how much beyond 10 per cent of their income they should put into War Bonds as latest surveys revealed that wages and salaries had leaped one-third over last year's levels.

In the first quarter of 1943 Americans received \$23,285,000,000 from their employers, a third more than the total for January, February, and March of 1942 and double the amount for the corresponding period in 1939.

During the same three months the public bought three billions of war bonds, two billion dollars of which were in the Series E denomination. The three billion dollar figure represents better than 13 per cent of the national income total.

Even at present levels, more than 135 billion dollars will pour into the pockets of American workers and salaried people in 1943. The Treasury Department estimates that war costs in 1943 will total 100 billion dollars, 70 billions of which Secretary Henry Morgenthau Jr., is asking the people to lend to their government by buying bonds of various types.

The Secretary said the Treasury Department's sights are set on raising 25 billions of that year's war costs from workers and salaried individuals. Every survey shows the money there, including war taxes and

(By Mildred Fish)

Mrs. Joe Rasberry of Paducah is visiting relatives in this community this week.

Mrs. W. L. McLaren of Fort Worth arrived Friday for a visit with her daughter, Mrs. Bruce Benham, and family.

Mrs. A. L. Walling and daughter, Bernice, and Mr. and Mrs. R. L. Walling spent Thursday with Mr. and Mrs. J. R. Adkisson and daughter of Quanah.

Mrs. J. M. Denton and baby daughter, Anita Fay, visited Mrs. Ruth Richards in Paducah Saturday afternoon.

Mr. and Mrs. T. P. Klepper and son, Bill, of Crowell visited in the home of Mr. and Mrs. Allen Fish Sunday afternoon.

Mr. and Mrs. R. L. Walling spent Sunday in the home of her mother, Mrs. J. K. Gaudin, and family of Vernon.

RIVERSIDE

(By Mrs. Cap Adkins)

Mr. and Mrs. August Rummel visited Bill Rummel and Miss Mary Evelyn Adkins in a Vernon Hospital Saturday.

Doris Glon and Violet Joyce Rummel spent the week-end with their aunt, Mrs. Ewald Graf, at Hinds.

Mr. and Mrs. August Rummel visited in the E. G. Graf home in the Hinds community Sunday.

Teah, Sgt. and Mrs. Bill Cerveny and son of Ft. Sill, Okla., spent last week-end with her mother, Mrs. Mary Richter.

Mrs. Evelyn Adkins underwent an operation for appendicitis in a Vernon Hospital last Thursday. She is doing nicely.

Mr. and Mrs. Ira Tole spent the week-end with Mrs. Hibit Grisham of Byers.

Mrs. Bailey Rennels has returned home from an extended visit with her husband of San Antonio, and with other relatives of Fort Worth and Bridgeport.

Mrs. E. A. Speer of Archer City spent Monday with her sister, Mrs. Cap Adkins, and family. She was accompanied home by her mother, Mrs. Huntley, and Mrs. Houston Adkins and daughter, Roxiana, of Thalia.

Mrs. Lewis Ward of Wichita Falls is visiting Mr. and Mrs. Frank Ward.

Edward Raska has returned home from a visit with his aunt, Mrs. Bill Freudiger, and family, and his uncle, Hubert Richter, and family of Meragel.

Janice Ward has returned home from a week's visit with his sister, Mrs. Johnnie Johnigan, and husband of Vernon.

Mr. and Mrs. Herschell Butler spent Sunday with Ernest Cribbs and family of Goree.

Carolyn Tole has returned from a visit with her aunt, Mrs. Hibit Grisham, of Byers.

Buddie Shaw was returned to his home Monday from a Vernon hospital where he had undergone an operation for appendicitis several days ago.

Mr. and Mrs. Paul Raska and family spent Sunday with her brother, Joe Richter, and family of Five-in-One.

RUBBER GOVERNORS

C. R. Stevenson John W. Ericker

Two rubber state governors are scheduled to get together June 28 when American Made rubber day is celebrated in Texas. The day has been proclaimed by Governor Coke R. Stevenson and all Texas will join in celebrating the important part Texas is playing in the vital rubber program.

Because most of the rubber is now processed in Ohio the arrangements committee, headed by Thornton Hall of San Antonio, president of the Texas Newspaper Publishers' association and Deskins Wells, manager of the Texas Press association, has invited Governor John W. Ericker to take part in the ceremonies.

Four of the government-owned plants are being erected in Texas, and more synthetic rubber will be produced in this state than in any other. Occasion of the June 28 celebration is the opening of the Baytown plant, to be operated by The General Tire & Rubber company in association with the General Lates and Chemical company, of Cambridge, Mass.

A nation-wide broadcast on the night of June 28 will tell the nation of Texas' part in the solution of the rubber problem.

AGRICULTURE

(D. F. Eaton, County Agent.)

Screw Worm Problem

It is too late to talk about screw worm prevention except when the worms are destroyed and the flies are decreased to that extent. However, a lot may be said about screw worm control and treatment of wounds and destruction of the grubs themselves.

The worm fly develops to the south of us in the winter and early spring, and gradually makes its way north arriving in this section usually in early May.

So it has been having its day in this country for the past several weeks and has now reached a stage where ranchmen have discontinued all branding and surgical operations until the blow fly season is over.

Through the years the U. S. Department of Agriculture has continuously experimented to develop methods of control and treatment of the screw worm fly. The remedies and methods have proven effective and have been revised from time to time as the occasion demands.

Control measures have been directed to reducing the number of attacks by the flies on livestock. Since 90 per cent of the infestation is traced to the attack of one kind of fly the effort has been to reduce the numbers of this fly.

The three stages of the worm are the egg, the worm which develops in warm blooded animal wounds and the worm which finally drops from the wound to the ground where it completes its development into the adult fly. In all cases this fly is present where screw worm cases develop.

The worms never develop in the early stages in dead animals. They may continue development in a dead carcass after they are 3 or 4 days old.

The fly has no true resting stage or dormant period. Because of this it cannot survive any period of four months without producing at least one generation.

The treatment of the first cases prevents increase of the fly in abundance, if done by all in an area. Avoid screw worm cases in essential wounds and in birth of young by restricting such essentials to the most nearly fly free period.

A remedy that will kill the screw worms and that will give protection to the wound against renewed infestation is desired and a remedy not too expensive. This has been developed: "Smear 62" is such a remedy and can be applied with a small brush that may be obtained from your druggist. Many stockmen are using this remedy here in the county.

Cattle Will Do Harvesting

Some Texas farmers and ranchers are planning an economical method of harvesting some of their forage crops this year. They realize that a change must be made in their feeding system this year to enable them to obtain maximum production of livestock products for wartime needs, says George W. Barnes. The method is expected to put poundage on their beef cattle without manual labor.

The plan is to use feeder cattle to harvest the pasture grasses, sudan, Johnson grass and sweet sorghums during the growing season. After the cotton is picked and the grain sorghum harvested, the heaves will do clean-up work in the fields, and run on the small grain pasture during the winter. Then the feeder cattle will be finished for market by using the feed grains which the farmers and ranchmen have produced themselves, or sold as feeders.

One of the biggest problems facing cattle feeders everywhere is obtaining cheap gains on cattle being fed. Barnes, who is the

QUESTIONS AND ANSWERS

1. In war parlance what is a sapper?
2. On what coast of Africa is Dakar?
3. Which is correct General Douglas MacArthur or General Douglas MacArthur?
4. The Kuban area is frequently mentioned in the war news. In what country is it?
5. Pantelleria is frequently mentioned in the war news. What is it, a town, a river or an island?
6. Who carried President Roosevelt's letter to Joseph Stalin?
7. Which of their birthdays did the Dionne Quints recently celebrate?
8. What horse won the Kentucky Derby?
9. Jutland is in what European country?
10. What is a ruminant animal?

(Answers on page 3).

animal husbandman for the A. & M. College Extension Service, says that from 100 to 200 pounds of cheap gain can be realized during the summer or winter months, and the same may be accomplished during the winter months on small grain pasture.

A minimum amount of labor will be required when the feeder cattle are permitted to harvest as much of their feed as is possible under good farm or ranch management.

Not all Texas farmers who have adopted this method will consider the establishment of breeding herds. They have arranged their pasture and cropping systems to permit them to handle a few head of feeder steers or calves during the summer or winter months, and at the same time grow some additional feed on their farms.

Plenty Roughage—More Milk

Feeding cows plenty of good roughage is one of the most economical methods dairy farmers can use in keeping up milk production. Roughage means pasture, silage and hay, whether grazed or harvested.

It is economical, says E. R. Eudaly, A. & M. Extension dairyman, because the more good roughage which goes down a cow's throat the less grain mixture she will need. Present high prices for feed and a shortage of protein feeds, further emphasizes the economy of this. It is estimated that if a milk cow gets all of the roughage she wants she can produce up to two-thirds of her capacity on this alone. Producing two-thirds of the milk on this feed not only cuts the cost of the total feed bill, but saves grain, as well as the precious protein feed stocks for poultry and for livestock when pastures become less nutritious.

Roughages are the bulky feeding stuffs which are higher in fiber and supply a lower percentage of digestible matter. Such feeds as hay, fodder, straw, silage and cottonseed hulls belong in this class. Most of the sweet feeds on the market, along with ground peanut hulls containing molasses and ground alfalfa hay with molasses on it, also are roughages.

Good permanent pasture—the kind which enables a cow to get all she wants in about two hours of grazing—is, of course, the cheapest feed for a dairy animal. Eudaly says. But to have good permanent pastures, it is necessary not to overgraze. A good cow should receive some concentrated feed daily, whether she is fresh or dry. With good green pasture or legume hay she should get about three pounds of grain mixture daily for each gallon of milk produced. On dry pasture or non-legume hay or silage she should receive about four pounds per gallon of milk.

HEADQUARTERS

for **100 OCTANE 66 Aviation Gasoline**

Research begins... not in a test tube... but in the mind of a man.

Since Phillips Petroleum Company has the world's largest proven gas reserves, it was natural that the minds of hundreds of Phillips research men should early turn to the problem of new and better things from petroleum gases as well as from petroleum.

The resulting development, in the early 1930's, of POLYMERIZATION enabled the use of light petroleum hydrocarbons (gases) which until then had been regarded as by-products of little value. Soon, several years before

Pearl Harbor, they became feed stock for 100 octane gasoline.

Still other Phillips pioneering processes, alkylation, HF alkylation, and cycloversion permitted the production of 100-plus octane aviation gasoline, a significant contribution to extra airplane horsepower.

Phillips was one of the first and remains one of the largest manufacturers of high octane aviation fuels. Thus we see how the peace-minded and work of Phillips scientists is of great value in our all-out war on the Axis. Similarly, when victory comes, today's accelerated Phillips wartime research program should bring to the American motorist new and greater gasolines for his post-war car.

FOR VICTORY... Buy U. S. War Bonds and Stamps

Two Minute Sermon

(By Thomas Hastwell)

It Must Be A Part of Life: Stories, generally speaking, may be divided into two types. One type is the story in which we as readers put ourselves into the place of the principal character of the story and experience his experiences, go with him through his adventures, his achievements, his failures and his victories. We grieve with him or rejoice with him. In short we put ourselves into the story. The other type of story is the one in which everything in it is apart from the reader. The reader does not put himself into the story. It is a thing apart from his life, his experience, and his living. I think

that this represents the manner in which religion is received by people. With some it is as a thing apart from their lives. It is a story of something that might happen to some one else, but of which they are not a part. On the other hand others make their religion a part of their lives. It enters into everything they do. This is the way Christ intended that it should do. It was for this He gave to man his philosophy of life that men might live better and happier lives. To accomplish this man must make religion a part of life, rather than a thing apart from life.

Farmers have more to lose if we win the war and lose the peace through a runaway inflation than any other group. Invest in War Bonds instead.

THOUGHTS OF SERIOUS MOMENTS

Prudence is a conformity to the rules of reason, truth, and decency, at all times and in all circumstances.—John Mason.

Those who, in the confidence of superior capacities or attainments neglect the common maxims of life, should be reminded that nothing will supply the want of prudence.—Samuel Johnson

The greatest good is prudence, a more precious thing even than philosophy; from it spring all the other virtues.—Epicurus.

Dollars invested in War Bonds protect farmers from economic without and from runaway inflation within.

Traffic Laws Must Be Observed

IN CROWELL

Due to the great hazards created by virtue of illegal and careless driving and parking within the city limits, it has become necessary for the City to take appropriate measures to curb such, as it is apparent that if present tendencies are continued, serious accidents are bound to ensue as a result thereof.

Hence, commencing Saturday, the 19th day of June, all driving and parking rules and regulations must be strictly observed. Five minutes will be allowed for motorists to stop their cars in the streets to obtain merchandise from stores, provided one person is left in car, so that it can be moved if necessary. The Council has no desire to interfere with the regular business activities of the merchants of Crowell, but it believes the traffic laws should be more systematically enforced for the best interest of all citizens.

An officer will be on duty at such time and unless rules and regulations are obeyed, it will be necessary for charges to be filed against all who are guilty of violation.

CITY COUNCIL

Items from Neighboring Communities

MARGARET (By Mrs. John Kerley)

James Ray and Garland Den... of Crowell are visiting relatives here this week.

their bedding in the fire which destroyed their home last week.

Mr. and Mrs. Bobbie Long and children of Thalia visited her mother, Mrs. Mary F. Hunter, Sunday.

Mr. and Mrs. Melvin Moore and son, Billy Ray, of Crowell visited her parents, Mr. and Mrs. Bax Middlebrook, and other relatives here Sunday.

Miss Patsy Ketchersid of Crowell visited Miss Billy Morrison Friday.

Mr. and Mrs. Clarence Cook of Lubbock arrived Thursday for a visit with his mother, Mrs. Jim Ewing, and husband.

Mr. and Mrs. Owen Ketchersid and son and her mother, Mrs. Holland, of Chillicothe visited Dave Shaw and family Sunday.

Mr. and Mrs. Bill Kennan of Gainesville were visitors here last week.

Mrs. Arnold Hines and daughter spent the week in Farmers Valley visiting Mrs. Noal Sitz.

T. C. Davis made a business trip to Wichita Falls Monday morning.

Medical Center Opens in Dallas

DR. DONALD SLAUGHTER Registration of summer classes of the Southwestern Medical Foundation, starting Monday, will continue through two weeks up to the opening of the new medical school in Dallas, July 1. According to Dr. Donald Slaughter, dean of the medical school, most classes are full. A \$1,500,000 fund-raising campaign is now in process to build and equip the first unit of the Greater Medical Center in Dallas. Temporary buildings are being erected to house the school until such time materials can be had for the construction of the main building. The Medical Center is a \$25,000,000 project and is to render service to more than 14,000,000 people in the Southwest.

TRUSCOTT (By Irene Myers)

Mr. and Mrs. Bob Whitaker and son, Keith, of Hamlin spent the week-end with relatives here.

Cpl. Eugene Whitaker of Camp Everett, Wash., is visiting his parents, Mr. and Mrs. Jack Whitaker, and other relatives and friends.

Gloria Ruth Billington of Fort Worth visited her cousin, Patsy Owens, last week.

Mrs. Myrtle Jones and daughter, Myrtle, visited relatives in Plainview last week.

Mr. and Mrs. C. S. Duncan and daughter, Billie Jo, of Dublin spent the week-end with Mr. and Mrs. Jack Whitaker.

Mrs. Bryan Jones and son of Sanford are visiting Mr. and Mrs. Jim Jones and other relatives here and at Gilliland.

John D. Reece of Santa Fe, N. M., is visiting his grandparents, Mr. and Mrs. John Holmes.

Horace Haynie of Olney spent the week-end with his family.

Mr. and Mrs. Eldon Towery and daughters of Odell spent the week-end with Mrs. Towery's parents, Mr. and Mrs. Albert Arp.

Mr. and Mrs. J. D. Carroll and daughter, La Verne, of Crowell visited Geo. Myers Sunday.

Jack Whitaker was called to Lawn last week on account of sickness and death of his aunt.

P. D. Clark of Wichita Falls visited here over the week-end.

Mr. and Mrs. Buck Williams and daughter of Wichita Falls, Mrs. Opal Simmons of Vernon and Mr. and Mrs. Robert Gaston of Vernon visited their parents, Mr. and Mrs. L. D. Mansel, Sunday.

Mrs. Williams remained to spend the week here.

Mr. and Mrs. Joe Bowers of Vernon spent Sunday with their daughter and family. Mr. and Mrs. T. E. Lawson.

Mrs. Homer Faughn and daughter, Hazel, were in Wichita Falls Tuesday on business.

Mrs. Hannah Montgomery. Mrs. Cecil Marchbanks of Waxahachie spent the week-end with Mr. and Mrs. Lester Marchbanks and daughters.

Pvt. Johnny Tapp of Camp Carson, Colo., is visiting his parents, Mr. and Mrs. T. P. Tapp.

Jerry Timberlake of Dallas visited his uncle, Floyd Roberson, Monday and Tuesday.

Mrs. Dallas Binion and son, Bobby, of King's High are visiting their parents and grandparents, Mr. and Mrs. Adcock, and other relatives.

Wayne Young of Wichita Falls spent the week-end with his family.

Mr. and Mrs. A. S. Tarpley spent the week-end with their son and family. Lieut. and Mrs. Dan Tarpley and son, at Amarillo. They were accompanied by Mrs. Jack Whitaker and Mrs. Lee J. Stout, who visited their son and husband, Pvt. Lee J. Stout. Mrs. Stout remained in Amarillo with her husband.

Mrs. Roger May of Lubbock is visiting her parents, Mr. and Mrs. Lester Marchbanks.

Mr. and Mrs. Harvey Jones of Sanford visited relatives here Tuesday and Wednesday.

Mrs. Charlie Abbott spent the week-end with relatives in Hamlin.

Mr. and Mrs. Jack Whitaker Jr. and son, Jackie, of Haskell spent the week-end with his father, Jack Whitaker Sr.

Leta Jo Carroll of Crowell spent the week-end with June Hickman.

While the nation's heads are making plans for the world after the war it might be wise for the smaller units, the states, county townships, villages to also make plans for the period of unemployment that is bound to occur during the time we are making our adjustment from war time to peace time production. The most practical project would be road building which has been delayed during the war. There is a great backlog of such work to be done. Every state, community, township and hamlet can have its plans ready when the time comes so that there need be no delay and improvised work, such as was done in the 30's, and much of which was haphazard. Properly planned work gives much better results, both for the men who do it and for the communities which need to have it done.

The question of what to do with Mussolini after Italy is conquered is answered by some one who suggests that we might let Halle Selassie have him. Along with this comes the suggestion that Hitler might be turned over to the Czechs and the Jap ruler over to China.

ANSWERS

Fair Warning!

City Tax Payers

DELINQUENT TAXES WILL BE COLLECTED!

Persons owing delinquent taxes to the City of Crowell must make satisfactory arrangements for payment, by July 1st, or suits will be filed. The Council means business and this notice is final. All delinquent taxpayers should act accordingly.

The City Council at a regular meeting on June 15th made thorough investigation into the City's financial condition and from such investigation we regret to state that our City Government will be unable to operate unless delinquent taxes are paid immediately.

Our investigation further revealed that sixty per cent of our city taxes are delinquent. These taxes must be paid at once, and in this connection, all parties owing the City delinquent taxes, are hereby requested to pay same or make some satisfactory arrangement to pay same within fifteen days from this date, June 16th. Otherwise, tax suits will be filed immediately.

Crowell, Texas, June 24, 1943

NATIONAL EDITORIAL ASSOCIATION 1943 Active Member

Let the heavens be glad, and let the earth rejoice; and let men say among the nations, The Lord reigneth.—I Chronicles 16:31.

The good streets of the home town, its churches, its schools and its homes were built by its money that stayed at home. None of these things are ever built in any town by the dollars we send to the city. The more of the home town money is sent away the less of these things a town has and the more of the home town dollars are kept at home the more and better of these things the town has. Every person is a community builder to the extent that he contributes to the building of the community, and the community will be built to the extent that the community builders living within it build it.

The War Production Board announced recently that no more war plants would be built. This announcement indicates that at least one milestone in the vast war effort has been reached. From an industrial standpoint we are now prepared to supply all the equipment needs that we can produce. From now on the labor and materials that have gone into the construction of and the equipping of plants can go into the production of war material. The fact that the creation of this vast machine of war production was accomplished in less than three years stands as a record of industrial accomplishment. The volume of production is amply sufficient to equipment that this machine will sustain the continued march to victory.

Henry Kaiser, the miracle man in the ship building world on the west coast, is at work on another project. In conjunction with the United States Marine Commission he has announced the building of three huge nurseries for small children to be completed in the next forty days. Each building will house 500 children. At small cost a mother employed in war work can leave a child in the nursery where it will receive care and three good meals. Provision has also been made whereby mothers calling for their children on their way home can take home with them a ready cooked dinner which will only need reheating at home and thus save the mother the labor of preparing the main meal after work hours.

We are told that those now in war plants and in the armed forces will be absorbed by private industry after the war and there will be no employment let down after the war. It sounds good and is good if it works, but the smart individual is going to be the one who figures otherwise and is prepared for an idle period in which there will be more or less unemployment. The best insurance against such a time is a few war bonds. If one doesn't need them they are good anyway.

Shortcakes are going to be just that this year. They are going to be short of butter, short of cream and short of sugar.

HISTORY

Independence Day—July 4—Independence Day had its beginning on June 7, 1776, when the following resolutions were moved and seconded and entered in the Journal of the Continental Congress. The resolutions read: "Resolved that these United Colonies are, and of a right ought to be free, and independent states, that they are absolved from all allegiance to the British Crown, and that all political connection between them and the State of Great Britain is, and ought to be totally dissolved. That it is expedient forthwith to take the most effectual measures for forming foreign Alliances. That a plan of confederation be prepared and transmitted to the respective colonies for their consideration and approbation." Congress discussed the resolution several days at the end of which time a new committee was appointed to draft a new resolution. The committee was composed of Thomas Jefferson, chairman; John Adams, Benjamin Franklin, Roger Sherman and Robert Livingston. Seventeen days later this committee submitted a draft of what has come to be the Declaration of Independence. Both resolutions were debated at length in Congress. The Congress finally passed the Declaration submitted by the Committee of five. The adoption was celebrated by the people of Philadelphia the following Monday, July 8, by a large mass meeting. The Declaration was promulgated to the Army in general orders by General Washington, July 9. Celebrations were held in many sections of the country. As the movement grew, July 4 became gradually the accepted date throughout the country.

Alaska, the purchase of which was once referred to as "Seward's Folly," has assumed a new importance in the light of present day world events. Once Alaska is adequately fortified and provided with air fields the United States is in a position to fly her planes over three-fourths of the earth's surface and fly them over the land ninety-eight per cent of the distance. Alaska is separated from Russia by a narrow strip of water. It furnishes a strategic hopping off place to control Japan and for the Southwest Pacific. The Alcan highway which connects Alaska with the United States through Canada is destined to become this nation's most important military highway.

We anticipate that after the war aviation is going to reach undreamed of heights. We are predicting that much freight will be shipped in big air transports. Fresh vegetables, fruits, dairy products and meat are going to be flown to the markets from their points of production. These transport will rise to the heights where the temperature is suited to the cargo and expensive icing and refrigeration will not be necessary. Airports are going to multiply in all the large centers and local service will be supplied by smaller planes and helicopters. We are approaching the "air age."

W. P. Lambertson, Congressman from the First District of Kansas, who had made a good many bitter and harsh criticisms of the service of President Roosevelt's sons, because of his hatred for the President, got a jolt the other day when his own son appealed from the decision of the draft board and refused service because he was a conscientious objector. To date the Kansas Congressman has made no public criticism of his own son.

The man who starts out for himself doesn't worry about it if every thing in connection with the job doesn't suit him or the income isn't always what he thinks it should be. He never figures about an eight hour day or a short week or the matter of overtime. If he did he would never get anywhere. He would never build a business and be able to employ others and pay them twice as much as he was able to earn in the business while he was building it up.

GEARED FOR VICTORY

Los Angeles Examiner

What We Think (By Frank Dixon)

A condition has come into being in this country, which in the light of the very general willingness on the part of the majority of Americans to be of service, and if necessary to make great sacrifices for the country, is difficult to understand. I refer specifically to the disposition of many workers, engaged in vital war industries to strike upon the slightest provocation. To my way of thinking it indicates an attitude of selfishness that is easily the blackest spot on the country's wartime record. These strikers seem to forget that winning a war of this size calls not only for sacrifices by the young men on the battle front, but also the men who are fortunate enough to be permitted to remain at home with family and friends, and to carry on their work in safety and security.

The tendency of certain workers in several vital war industries to go out on strikes for trivial reasons indicates not only an attitude of extreme selfishness but an attitude of complete disregard for the welfare of the nation, its soldiers in the field, and the cause for which they are fighting.

It is a disturbing thought that while men and women all about them are offering their lives in defense of the nation and its liberty and the whole atmosphere is charged with patriotism, and sacrifice, and self-forgetfulness, that strikers will desert the cause and give aid and comfort to the enemy by impeding the war effort.

We have succeeded in working out the formula and the blue print by which we, in harmony with the other nations, are going to defeat the Axis. All that remains is to carry out these plans which have been in operation long enough to demonstrate that they constitute a pattern by which the war can be won. We have met, and are exceeding our budget of planes, and ships, and tanks, and guns. Already the weight of these is making itself felt in such a manner that there is no longer any doubt of the outcome, if the pace we have set, is kept up.

Based on these goals we have sent men to distant battle fronts. It is now up to us to furnish them the necessary guns, tanks, and planes, and food, with which to defend themselves, and win the victory we have set out to win. This is a responsibility, an obligation that we cannot, and will not forget.

The concern of this country today is for its soldiers. This is true in every corner of the nation from out of which sons and fathers and loved ones have gone to fight the fight of liberty. There is little sympathy to be found for the petty and selfish bickering of those who seek to take advantage of the nation's extremity to enforce selfish demands.

There is a general feeling that the administration is definitely not unfriendly toward labor. There is also a feeling that the War Labor Board which is composed of representatives of industry and labor is not going to be unfair to labor nor agree to its receiving a below sustenance wage.

Because of these things there is a rising tide of sentiment throughout the country against the calling of strikes that will impede the war effort. In place of the attitude of sympathy for the striker has come one of impatience and disgust. The nation has its mind set on winning the war, and on every citizen doing an honest job of pitching until it is won.

Henry J. Kaiser has plans for a large cargo plane capable of flying 17,000 miles without a stop. The proposed plane will be a 282 foot flying wing without body or tail. It will be powered with 8,000 horsepower motors and will weigh fully loaded 175,000 pounds.

A Texas highway sign reads: "This is God's country. Don't drive like hell." A sign in Pennsylvania reads: "Slow, no hospitals here."

30 YEARS AGO IN THE NEWS

The items below were taken in whole or in part from the issue of The News of June 27, 1913:

Barbecue a great success, bringing the largest crowd to Crowell on second day ever assembled in Foard County, fully 3,500 people. Thirteen beebes were killed and barbecued.

T. A. Johnson brought up from his farm near Thalia last Saturday some of the finest peaches that it has been our good fortune to sample in many a day.

G. D. Owens, who is cultivating C. P. Sandifer's fine farm east of town, was in town Tuesday with the first cotton bolls that have been seen this season. Mr. Owens says that the red bloom came out on the 20th, and that if others report they can't beat him unless their blooms appeared before that date.

At a meeting of the Royal Arch Chapter No. 276 Friday evening the following officers were elected for the ensuing year: N. J. Roberts, high priest; J. C. Roberts, king; J. R. Beverly, scribe; C. W. Beidleman, secretary; J. C. Self, treasurer.

Dan F. Thomson, county treasurer, has passed on to his reward following an extended illness. He was born in the state of Mississippi April 9, 1850, emigrated with his parents to Alabama when he was a small child, and at the age of 15 came to Texas, where the remaining portion of his life on earth was spent, the last twenty or twenty-one years in the town of Crowell. He was married to Miss Bettie E. Henley on May 9, 1874.

The home of Mr. and Mrs. J. L. Strickland of this city was the scene of a pretty marriage at 12:30 o'clock Wednesday when their accomplished daughter, Miss Myrtle, was led to the hymeneal altar by Mr. John D. Shipman, a popular mechanic of Grand Falls.

Members of Co. F, 4th Infantry, T. N. G., will leave Tuesday for Austin where they will take camp instructions and target practice.

A. H. Clark, formerly of Crowell but now a prosperous dry goods merchant of Bennington, Okla., was here the first of the week attending the barbecue. While here he was a guest in the Thacker home.

Miss Pearl Collingsworth, who has been visiting Judge Burk and family, returned to her home at Chillicothe Saturday.

E. P. Bomar was at Truscott Saturday on business. Mr. Bomar says that a heavy rain fell all over the Truscott country.

Dr. H. Schindler and M. Johnson returned Saturday from Dallas in the Marathon car that the doctor bought while in the city.

Our young friend, Tom Baker, who left here a few days ago for Fort Stockton looking for a better position, has returned to Crowell and is at his former place at the fountain at the Owl Drug Store. After all, it is pretty hard to beat Crowell.

Russell Beverly and Clarence Thompson returned Saturday from a business trip to San Antonio. The "boys" say that they had a good time, and there is no doubt about that, since some of their Crowell friends say that every post card that they sent back had on it a large collection of horns.

Tully Klepper returned last week to his home in Los Angeles, Calif., after a month's visit with relatives and friends here.

G. C. Bain and daughter, Bonnie, were at Spur last week. Mr. Bain says that the people of Spur have the deepest well in Texas, if not in the United States. The well is now almost a mile deep.

STORMY TIMES!

Why worry about your property? There are plenty of worries which cannot be helped, but there is no need to worry and fret for fear your property will be damaged or destroyed by a storm or hail. Have it insured with the Hughston Insurance Agency and let them do the worrying. Take the precaution for the sake of the property and also for your own peace of mind. Talk it over with them.

Hughston Insurance Agency Phone 238 Crowell, Texas

Labor-Saving Hints For Farmers

Schenectady, N. Y., June 17.—Hints of how the farm labor shortage problem may be attacked "by using the labor you have as efficiently as possible" were given by J. E. Carrigan, dean of the College of Agriculture at the University of Vermont, Burlington, in a General Electric Farm Forum address here. Here are some suggestions Dean Carrigan has for farmers: Watch your neighbors. Each one of your neighbors is probably doing something more efficiently than you. Plan ahead, figuring how to get things done before necessity compels them to be done.

Have important things ready and waiting for the rainy day. Keep needed machinery equipment in repair. Borrow and lend out to neighbors. Exchange not only tools machinery, but exchange work so. Use tractors and other equipment on a constant basis. Use make-shift machinery, as "doodle bug" tractors, from old cars. Arrange barns and use saving devices to cut the time doing chores and other work. Build reserves today for reverses tomorrow — buy Bonds!

CLOSING HATCHERY I am closing my hatchery and will take off my last hatch on the 25th of June. Anybody wishing baby chicks, should let me know at once. I expect to hatch this fall and am taking orders for September hatches. I am buying poultry, eggs, hides and cream at top prices. I have a truck load of good red maize. Please bring your sack. I will be Open Nights through harvest. MOYER PRODUCE Phone 183 Crowell, Texas

LOCALS

Bill Klepper and J. T. Hughston spent Monday in Lubbock. George Carter of Quanah visited in the home of his mother, Mrs. Pearl Carter, over the weekend. Miss Sandra Jo Bell of Hobbs, N. M., is in Crowell visiting in the home of Mr. and Mrs. Hubert Brown. William Bell, city policeman of Lubbock, was here Monday visiting his mother, Mrs. W. S. Bell, and other relatives. Mrs. John Hakala of Lake Charles, La., arrived here Tuesday for a visit with her mother, Mrs. J. S. Long, other relatives and friends. Mrs. D. R. Magee and daughter, Ada Jane, spent the week-end in Avoca visiting in the home of Mrs. Magee's sister, Mrs. Eck Gillespie, and family. Mrs. Naylor Pogue and daughter, Barbara Ann, of Odessa, arrived here last Wednesday for a visit with Mrs. Charlie Loyd, their mother and grandmother. Hugh Longino and Buster Davidson have returned to Ypsilanti, Michigan, after a visit here in the homes of their parents, Rev. and Mrs. H. A. Longino and Mr. and Mrs. J. P. Davidson. Mr. and Mrs. Q. V. Winningham and daughter, Jane, and Herbert Edwards went to Dallas Sunday afternoon, returning Tuesday morning. Mr. Winningham and Mr. Edwards attended to business in Dallas. Paul Wallace, who has been employed by the Consolidated Aircraft Corporation in Fort Worth for the past five months, has entered a hospital in Wichita Falls on account of illness. His wife and son, A. G., will return to Crowell next week. Mr. and Mrs. Webster Mitchell of Ringling, Okla., spent Friday and Saturday here visiting Mrs. Mitchell's mother, Mrs. Charlie Loyd, and family. They were accompanied by Miss Beulah Loyd, who has been in Ringling with her sister for several weeks, who will remain with her mother for some time.

Bob Edwards is in Wichita Falls this week visiting Mr. and Mrs. J. C. Self. Mr. and Mrs. Floyd Ribble and family of Graham were recent visitors in the home of Mr. and Mrs. Lewis Ballard. W. R. Kenner of Vanderbilt, Texas, arrived in Crowell Friday afternoon for a visit with relatives and friends. Mrs. J. J. Moore and daughters, Roxie and Carol, of Brownwood, are here visiting in the home of Mrs. Moore's aunt, Mrs. W. R. Womack. Mr. and Mrs. Henry Ferguson and children of Fort Worth are here visiting his parents, Mr. and Mrs. T. J. Ferguson, and other relatives and friends. Recie Womack was dismissed from the Wichita Falls Clinic Tuesday of last week following an operation. He is reported to be recovering satisfactorily. Mrs. R. H. Alexander of Clarendon and Miss Lois Alexander of Lubbock are here this week visiting their daughter and sister, Mrs. Herbert Edwards, and family. Charles Davis will return to Fort Stockton Saturday after visiting in Crowell for several days. He has been to Wichita Falls on account of the serious illness of his sister, Mrs. Gale Stout. Mr. and Mrs. R. R. Magee, Mrs. A. S. Hart and her son, Lieut. Jim Allee Hart, who has been here on a short leave, spent Sunday in Ft. Sill, Okla., visiting Pvt. Joe Mark Magee, who is stationed there. Notice—After July 1st, the Crowell Postoffice will be closed at 4 o'clock on Saturday afternoon. Customers are asked to arrange their affairs accordingly.—Alva Spencer, Postmaster. 52-1tc Herbert King of Waco was here a few days of last week looking after his wheat crop and visiting his parents, Mr. and Mrs. Tom King, and friends. He is in defense work at McGregor, near Waco. Miss Margaret Long of Lubbock spent last week visiting in the home of her parents, Mr. and Mrs. John Long. She returned to Lubbock Monday. She is employed there in the Citizen's National Bank. Alvin Lee Borchardt, son of Dr. and Mrs. A. L. Borchardt of Vernon, returned home Saturday after spending three weeks here visiting his grandparents, Mr. and Mrs. Fred Borchardt, and other relatives. F. L. Ballard, son of Mr. and Mrs. Lewis Ballard, is in Baxter Springs, Kansas, visiting in the home of his uncle, Thomas Ribble and family. He returned home with the family after they had visited here for several days. Miss Frances Garrett has returned to Fort Worth where she is employed in a machine shop after spending five weeks here visiting her parents, Mr. and Mrs. J. A. Garrett, and assisting them in the wheat harvest. Mr. and Mrs. Bryan O'Connell and son, Bryan Thomas, of Texarkana arrived here the latter part of last week to visit Mr. O'Connell's parents, Mr. and Mrs. M. O'Connell. Bryan returned to Texarkana Sunday. Mr. and Mrs. Jimmie Self of Lubbock, who had been visiting relatives and friends here last week, left Saturday morning for Wichita Falls to visit Mr. and Mrs. J. C. Self before returning to their home in Lubbock. Roy Joe Cates and Jimmy Cates of Covina, Calif., spent last week at Cota Glen Camp, Palo Duro Canyon, attending the Young People's Conference of the Christian Church. Jimmy returned to his home in Covina Monday. Mrs. A. E. McLaughlin left Monday afternoon for Covina, Calif., for a month's visit with her daughter, Mrs. Mildred Cates, and family. She was accompanied by her grandson, Jimmie Cates, who had been here on a visit. Mrs. Annie Brooks and two grandsons, Joe Ray and Elwin Settiff, of Tulsa, Okla., are here visiting in the home of Mr. and Mrs. J. T. Brooks. They were met in Eldorado, Okla., Sunday by Mr. and Mrs. Brooks and daughter, Nelda Kay. Mr. and Mrs. J. C. Prosser and baby daughter, Patricia, visited over the week-end in Roscoe, with Mr. Prosser's father and wife, Mr. and Mrs. Ires Prosser, of Hollywood, Calif., who were there on a visit and his grandparents, Mr. and Mrs. J. B. Prosser. Mr. and Mrs. H. M. (Mack) Ford of Orange were here this week visiting Mr. Ford's father, J. R. Ford, and other relatives and friends. Mr. and Mrs. Ford left here about 20 years ago and had been living in Oklahoma since that time until they went to Orange a year ago where Mr. Ford is employed in the ship yards. Mrs. Earl Davis is in Wichita Falls to be with her daughter, Mrs. Gale Stout, who has been seriously ill in a hospital there. Mrs. Stout is somewhat improved but quite sick yet. Her father, Earl Davis, and brother, Charles Davis, of Fort Stockton, returned from Wichita Falls Wednesday after having been there since Sunday.

Mrs. Mattie Waggoner of Carrollton is visiting in the home of her brother, M. S. Henry, and Mrs. Henry. Joe Wallace Beverly returned Monday from a week's visit in Madisonville. Dr. and Mrs. R. L. Kincaid were in Abilene Wednesday to attend the funeral of a sister-in-law, Mrs. Ruby Kincaid. Miss Willena Purcell of Hico is spending the week here as the guest of her cousin, Mrs. M. J. Girsch, and husband. Announcement has been received in Crowell of the birth of a baby, Gary Laren, to Mr. and Mrs. Edwin Greene of Houston on June 19. Mrs. Greene was formerly Miss Lella Ben Allee, daughter of Mrs. J. B. Allee. Mrs. Allee is now in Houston with her daughter and family. Every accident and fire you prevent is another knock-out blow at Hitler-Horohito. The foregoing is the battle cry of more than 1 1/2 million 4-H Club boys and girls throughout the nation who are "all out" to make rural America safety conscious for victory. Enrolled in the National 4-H Farm Safety Activity, they're impressing upon rural residents that accidents and fires—which exact staggering annual losses in lives, labor, livestock, and property on American farms—can be prevented. The 4-H's are pointing out that extreme vigilance should be exercised this year because hundreds of thousands of inexperienced helpers will work on the farms. Among their recommendations to prevent accidents and fires are to keep tools, when not being used, in racks... dangerous animals in secure pens... electrical and mechanical equipment in repair... to install fire-fighting equipment... establish fire lanes... mark containers of inflammable and explosive liquids... In short, they are impressing upon farm people the 4-H principle of the co-ordinated use of the Hands, Head and Heart for Health. Outstanding records of achievement in this activity will receive honor awards provided by the Mennen Company, which include medals, special plaques, \$100 War Savings Bonds, and trips to the National 4-H Club Congress in Chicago. The activity is being conducted, along with other wartime projects of production and conservation, under the direction of the U. S. Department of Agriculture, State Agricultural Colleges and County Extension Agents. The last named will furnish full details.

Appeal Made by Safety Ass'n. to Prevent Accidents on July 4

Austin.—Put victory first on the Fourth! The Texas Safety Association made that appeal to patriotic Texans today in launching a statewide campaign against fourth of July accidents that waste manpower, material and time vital to victory. Thirty-eight statewide organizations are joining with the Association in the greatest mass attack on holiday accidents ever made in this state. Public officials, safety leaders and citizens throughout the state are being asked to enlist in this holiday campaign in a united effort to prevent accidents which last year took a toll of 87 lives in July alone. Wartime travel restrictions and the fact that many of the state's war plants will be working full blast through the holiday period may reduce the normal Fourth of July traffic volume. The Association pointed out, however, that many workers will have a long week-end holiday and that traffic hazards still prevail, even on short drives. The Association made these specific holiday safety suggestions: 1. Stay close to home. Don't drive unless you absolutely have to. 2. Don't take any trips unless you have to, even on a public conveyance. Crowds on trains and

4-H's "All Out" To Prevent Accidents and Fires on U. S. Farms

Every accident and fire you prevent is another knock-out blow at Hitler-Horohito. The foregoing is the battle cry of more than 1 1/2 million 4-H Club boys and girls throughout the nation who are "all out" to make rural America safety conscious for victory. Enrolled in the National 4-H Farm Safety Activity, they're impressing upon rural residents that accidents and fires—which exact staggering annual losses in lives, labor, livestock, and property on American farms—can be prevented. The 4-H's are pointing out that extreme vigilance should be exercised this year because hundreds of thousands of inexperienced helpers will work on the farms. Among their recommendations to prevent accidents and fires are to keep tools, when not being used, in racks... dangerous animals in secure pens... electrical and mechanical equipment in repair... to install fire-fighting equipment... establish fire lanes... mark containers of inflammable and explosive liquids... In short, they are impressing upon farm people the 4-H principle of the co-ordinated use of the Hands, Head and Heart for Health. Brief Bits of News From Here and There

During March only eighty-seven war bonds outstanding were cashed by holders. A considerable part of this was attributed to the fact that March was the month in which income tax payments became due. In Illinois alone more than 100,000 acres of corn, wheat and oats were destroyed by the recent floods. Newspaper publishers have been notified that the country's supply of newsprint on hand has decreased from 56 to 52 days' supply. The notice was accompanied with a request that consumption be brought into balance with production. Sales by the F. W. Woolworth Company ten cent store chain reached a high record in 1942 with a total of \$423,220,599. According to J. Edgar Hoover, FBI chief, juvenile delinquency is a national scandal. Preliminary reports for 1942 received from 179 juvenile courts by the children's bureau show an increase of 11 per cent in juvenile court cases for 1942 as compared with the previous year. Delinquency among girls jumped 31 per cent, among boys 7 per cent. Increases are even more marked in police department reports. Last year arrests of girls under 21 increased 55 per cent. In the first three months of 1943 Hoover said, arrests of girls under 21 for "crimes against common decency" increased 93 per cent. It will be smart business for every one who uses coal as a means of winter fuel to begin at once to secure a supply for next winter. According to Howard A. Gray, deputy solid fuels administrator, coal is going to become difficult to secure next winter. All industrial users are urged to build up a three to four months stock pile. Since entering the war the United States Army has bought 40,000,000 pairs of shoes for its soldiers. These shoes have been made in 249 sizes with a range of 5 1/2-AAA to 16 1/2-EEE. In estimating its needs the Army figures three new pairs of shoes yearly with each pair repaired three times before being finally discarded. A plastic screen material has made its appearance on the market. It is promised for the new season that it is guaranteed for life against rust or corrosion, will not stain the house exterior, is resilient and may be cleaned each spring by washing.

Ration Reminder

GASOLINE — "A" book coupons No. 6, good for four gallons each until midnight, July 21.

SUGAR — Coupon No. 13 good for 5 lbs through August 15. Coupons No. 15 and 16 are good for 5 lbs each for home canning purposes.

COFFEE — Stamp No. 24 (1 lb.) good through June.

SHOES — Stamp No. 18 in War Ration Book One good for one pair through October 31.

MEATS, ETC. — Red Stamps J, K, L, M and N good through June 30.

PROCESSED FOODS — Blue stamps K, L, and M will continue good through July 7.

Don't Travel Unnecessarily

To relieve crowded trains and buses, the public is asked not to make unnecessary trips.

V-Mail Pictures For Dads

Photographs of children under one year of age of soldiers serving overseas or children born after the father has departed for overseas may be sent V-Mail under certain conditions.

Victory Tax Collections

The Victory Tax, which to date has been withheld from wages and salaries, above exemptions, at the rate of 5 per cent will be included in the 20 per cent withholding plan provided for in the current tax payment act.

Sticker For Ration-Free Shoes

Shoe dealers must put an official OPA sticker on shoes that are to be sold ration-free because of damage by fire, water, steam, or other accidental cause.

Frozen Foods Priced

Consumer ceiling prices for frozen snap beans, corn, peas, and spinach of the 1943 pack will be about the same as current maximum prices for the 1942 pack.

Gas and Tires For Farm Machines

To assist grain farmers in harvesting 1943 crops, the War Food Administration has made arrangements with ODT and OPA to assure owners of custom-operated machinery sufficient gasoline and tires to run their equipment.

vesting 1943 crops, the War Food Administration has made arrangements with ODT and OPA to assure owners of custom-operated machinery sufficient gasoline and tires to run their equipment.

Tools For Farmers

Wrenches, pliers, screwdrivers and other mechanics' hand service tools should be more generally available to farmers and home mechanics as a result of an amendment of Order E-6 by WPB.

Barbed Wire Available

Approximately 20,000 tons of barbed wire with extra long bars, made for military purposes, will be used to meet a shortage of barbed wire on farms.

Used Car Gas Ration

The purchaser of a used car may qualify for a gasoline ration to operate it, even though he is unable to get a tire inspection record from the previous owner.

Lumber For Farms

Five hundred million board feet of soft wood lumber have been made available for farm needs by WPB and WFA under certain conditions.

Stabilizing Price of Vegetables

A program has been started that will maintain fair and equitable returns for the canning industry, at the same time preventing increases in consumer prices of green peas, snap beans, sweet corn, canned tomatoes and other primary tomato products.

War Expenditures Up 1 Per Cent

War expenditures by the U. S. during May amounted to \$7 billion, 373 million, a one per cent increase over April.

SAFETY SLOGANS

A moment of carelessness may mean a life of regret. Any game played in the street is a game of chance.

One bed at home is worth two in the hospital. An empty train of thought does not equal a wheelbarrow of good ideas.

More Forest Fires In 1942

Forest fires last year burned over a total of 31,854,124 acres of United States woodlands, compared with 26,404,385 acres in 1941.

Training For Farm Work

More than half of the men and women taking the rural war production courses offered by the War Manpower Commission are interested principally in the operation of farm machinery, food processing, and egg production.

Stocking Prices Changed

Maximum prices on stockings that contain yarn composed of six twisted yarn rayon or cotton yarns have been fixed by OPA to allow for varying costs based on the gauge of the hose.

Release Farm Machines

Manufacturers of milking machines, farm cream separators, and farm milk coolers have been authorized by the War Food Administration to distribute 100 per cent of their authorized production.

States Pool Road Machinery

Thirty-five states, including Texas and Oklahoma, are now operating under the WPB program to pool government-owned road machinery.

Ceiling Placed On Alfalfa

Alfalfa hay has been brought under price control by OPA in the states of Arizona, Nevada, Utah and New Mexico, and in El Paso and Hudspeth counties in Texas.

More Deerskins Needed

Letters requesting co-operation in the WPB program to secure deerskins for army gloves have been mailed to 45 taxidermists in Texas, Oklahoma and Louisiana.

REA PROGRAM EXTENDED

The Department of Agriculture has announced new allocations of Rural Electrification loan funds to 16 states and Alaska.

Shorn Wool Order Changed

Shorn wool now may be sold direct to mills by producers and pools of producers instead of to the Commodity Credit Corporation as originally required.

"A" Book Renewals Start Soon

Application forms for renewal of basic "A" gasoline rations are being distributed this week.

HOUSEHOLD HINTS

A weekly bath in hot soap suds will not only make a broom sweep cleaner, but will make the broom last longer.

An excellent topping for cornbread is a tart fruit sirup served hot.

A teaspoon of mustard seed peps up a mixed green salad.

More food value is preserved when a vegetable is baked in its skin than when it is steamed or boiled.

Paradichlorobenzene kills moths. A pair of War Bonds will help buy out Japanese Beetles, Hessian Flies and Bald Weevils.

Day by day in every purchase of things I could wait for I'm getting poorer and poorer. Invest in War Bonds instead.

Making of 140 Farm Items More Readily Available Explained

From now on, farmers will have first chance at buying the shoes, forks and other supplies they need to meet 1943 food production goals. WPB is seeing to it that its regional offices, newspaper editors, and the County Farm Rationing Committees are up to date on all developments in the program to keep farmers supplied with necessary items.

Who May Buy Equipment

Briefly, WPB has given everyone who engages in farming as a business by raising crops, livestock, bees, or poultry, or who uses farm supplies in operating silo filling equipment, threshing machines, or similar equipment for farmers priority to buy any of 140 listed farm items.

Buying Method Is Simple

To obtain supplies, the farmer has only to give his dealer a signed certificate, reading as follows: "I certify that I am a farmer and that the supplies covered by this order are needed now and will be used for the operation of a farm."

How Dealers Re-Order

A dealer may at any time buy farm supplies to replace those he has sold and has received certificates for from farmers.

FARM SUPPLIES covered by new simplified BUYING PLAN

- Auger bits, Axes, Bale ties, Barbed wire, Baskets, Batteries for the following purposes: Flashlights, Radios, Fences, Telephones, Ignition, Belt fasteners, metal, Bit braces, Blacksmith's pinners, Blacksmith's hoof knives, Blow torches, Blowers and forges, Bolts and nuts, Boxes, Brooder thermometers, Brushes for motor repair, Bull rings, Burlap bags, BX or non-metallic sheath cable up to 75 feet in length, Calf weaners, Cans, five-gallon kerosene and gasoline, Chains of the following kinds: Halter and cow tie chains, Tie out chains, Harness chains, Log chains, Tractor tire chains, Welded coil under 1/2", Repair links, Clevises and swivels, Cold chisels, standard, Copper wire, insulated, up to 75 feet in length, Crates, Curry combs, Drills of the following kinds: Breast drills, Hand drills, Post drills, Carbon steel blacksmith drills, Carbon steel bit stock drills, Carbon steel straight shank drills, Eave troughs and conductors, Egg cases, Feed troughs, Fencing, Files, Food choppers, Forks, agricultural, Grain scoops, Grease fittings and oil cups, Grease guns, hand operated, including hose and adapter, Grind stones, mounted, Grinders for sharpening tools, Hack saw blades, Hack saw frames, Hammers, Hangers, Hand cultivators, Hand sprayers, Handles for small tools, Handles for steel goods, Harness, leather, Harness, hardware, Hoops, Hoop raps, Hoof rasps, Hoof snippers, Horseshoers, Horseshoe nails and calks, Horseshoes, Horseshoe tongs, Husking pins and hooks, Jacks for farm tractors, Knives of the following kinds: Butcher knives, Corn knives, Grafting knives, Hay knives, Hoof knives, Stockmen's knives, Lanterns, Mattocks, Measles, Meat choppers, Milk pails, Milk strainers, Motors, fractional under 1 HP, Motor starters under 1 HP, Mule shoes, Nails, Oilers, Padlocks, Pails, galvanized, Picks, Pipe of the following kinds: Wrought iron water pipe (1 1/2" under), Well casing, Pipe fittings, Pliers of the following kinds: Fence pliers, Slip joint pliers, Plow bolts, Plow shares, Post hole diggers, Potato forks, Potato hoes, Poultry hardware, Poultry netting, Pump cylinders, Pump rods and couplings, Punches of the following kinds: Machine punches, Pin punches, Rakes, hand, Ridge roll, Rivets and burrs, Roofing, corrugated, Rope (1" and under), Safety switches, Saws and saw blades, Screw drivers, Shovels, Staples, Stock watering tanks, Tackle, blocks, wood, Tin snips, Tire gauges, low pressure, Tire pumps, hand operated, Tubs, galvanized, Valley tin, Valves, Vises, Wagon hardware, Wagon wood stock, Wedges, Welding rods and electrodes, Well points, Wheelbarrows, Wire screen, Wiring fittings, Wrenches

of the retail value of the goods already sold. The difference of 25 per cent represents the dealer's mark-up allowance. If the dealer wishes to stock up on farm supplies immediately, he may do so without waiting for farmers' certificates. In that he certifies to his supplier he expects to sell the goods by his order, and that the ordered plus the goods in inventory do not exceed a month's inventory.

THE POCKETBOOK of KNOWLEDGE

CITATION

No. 454 In the County Court of Foard County, Texas.

In the Matter of the Guardianship of the Estate of Stanley Robert Russell, a Minor.

Notice is hereby given of a hearing before the County Court of Foard County, Texas, on the 2nd day of July, A. D. 1943, at the Court House of Foard County in Crowell, Texas, on the Application of J. R. Russell, Guardian of the Estate of Stanley Robert Russell, a minor, for permission to execute an oil, gas and mineral lease upon the following described real estate belonging to said minor, to-wit:

A part of the Matthew Earle Survey of 24,871.200 square varas, by virtue of Certificate No. 12 /148, and patented to the said Matthew Earle on February 3, 1888, by Pat. No. 545, Volume 24, and more particularly described as follows:

Beginning at a point which is 1439 varas East and 3364.1 varas North from the Southwest corner of said Matthew Earle survey;

Thence East 427.5 varas to S. E. corner this tract;

Thence North 501.9 varas to N. E. corner this tract;

Thence West 427.5 varas to N. W. corner this tract;

Thence South 501.9 varas to the place of beginning, containing 38 acres of land, and being situated in Foard County, Texas.

J. R. RUSSELL, Guardian, Estate of Stanley Robert Russell, A Minor. 52-1tc

Some predict that after the war there will be a big spending spree by those who unable to buy the things they have wanted during the time the war has been in progress have saved their money by purchasing bonds. Others contend that the months or years, as the case may be, during which we have practiced enforced thrift and self-denial will condition us to the degree that we will be inclined to be more thrifty and more saving. The interlude of the war may dispel some tastes and appetites and habits into which we have grown and there may be no temptation to return to them.

To the victors will belong the soil. Let's keep our's—buy War Bonds!

CHURCHES

Christian Science Church

Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, June 27, 1943. Subject: "Christian Science."

WARREN EVERSON, Pastor.

Christian Science Services

"Christian Science" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, June 27.

The Golden Text is: "Arise, shine; for thy light is come, and the glory of the Lord is risen upon thee" (Isaiah 60:7).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Be ye therefore followers of God, as dear children;... Proving what is acceptable unto the Lord" (Ephesians 5:1, 10).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "It is possible,—yea, it is the duty and privilege of every child, man, and woman,—to follow in some degree the example of the Master by the demonstration of Truth and Life, of health and holiness" (page 37).

Eat it up, use it up, wear it out, make it do. Buy War Bonds instead.

Weekly Sermon

By the Rev. Will H. Houghton, D. D., President Moody Bible Institute, Chicago.

The Book We Swear By Did it ever strike you as strange that in civilized countries men swear by the Bible as a guarantee of truthfulness? There are four and a half million books in the great library at Washington, but you have never heard anyone swear by the Library of Congress.

What a unique position has been given this wonderful Book that it should be used in obtaining the solemn promise of men to tell the truth. Is it not because the Book itself is instinctively and almost universally recognized as being truth in sentence and word, and the companion of those who seek to live in righteousness? Because there is no greater book, men use the Bible as the guarantee of truth and equity.

We are beginning to discover the decay of society in our land. Can we not trace that decay to the undermining of the influence of the Bible and to the general neglect of its reading? This has been a Bible-denying and Bible ignoring generation, and as a result it has been a generation of liars and contract breakers and oath ignorers.

It is not the acceptance but the rejection of the Bible which gives keenness to selfishness, glutony to appetite, and free rein to licentiousness. Such rejection contributes to public insecurity and private unhappiness. It is the reason some employees are stealing from the boss, and that the wife thinks it perfectly proper to be unfaithful to her husband. It is the rejection of the Bible that is breaking up homes and turning the children into the streets to drift or sink. Collapse of conscience and the corruption of character are the result of a closed Bible.

When the Word of God remains a sealed book men do not know God and His power, nor themselves and their frailties. If we are ever to have honest-to-goodness appreciation of the old-time moralities, it will only come through the acceptance and application of the Scripture.

"The law of the Lord is perfect, converting the soul; the testimony of the Lord is sure, making wise the simple. The statutes of the Lord are right, rejoicing the heart; the commandment of the Lord is pure, enlightening the eyes. The fear of the Lord is clean, enduring forever; the judgments of the Lord are true and righteous altogether. More to be desired are they than gold, yea, than much fine gold... Moreover, by them is thy servant warned; and in keeping of them there is great reward" (Ps. 19:1-11).

clined to be more thrifty and more saving. The interlude of the war may dispel some tastes and appetites and habits into which we have grown and there may be no temptation to return to them.

To the victors will belong the soil. Let's keep our's—buy War Bonds!

Look! Listen! Live!

The accident illustrated here is an actual occurrence and is typical of a large volume of those that often result in tragedies.

A freight train was approaching a crossing in a small city. As the train neared the main thoroughfare, an automobile carrying three young men approached the crossing, speeded up and dashed by the warning bells and flashing light signals in an attempt to beat the train over the crossing. They lost the race. Two of them lost their lives and the other was critically injured. They gambled and lost.

As the train was brought to a stop, the engineer climbed down out of his cab and, reporting to the police authorities, said: "I've got 41 cars of war explosives behind me. I couldn't put on the brakes fast because I was afraid I would set it off." The local police authorities, after investigating, said that the explosives were powerful enough to have destroyed the small city and caused a tremendous loss of life.

In more than 80 per cent of these accidents, the crossings have added protection, such as flashing light signals and bells, as was the

case in this instance. Yet motorists persist in ignoring these warning measures—too often with disastrous results. The National Safety Council is conducting a special campaign to stop these accidents, which every day delay 38 trains a total of 22 hours—a damaging drain in the nation's war transportation effort.

Your Horoscope

June 21, 22.—You have more than average ability in an executive and commercial way. You are sensitive and feel keenly any apparent neglect. You have a loving, sympathetic nature, solicitous for the welfare and happiness of others. You enjoy wit and fun if it is clean and sensible, and can be a most entertaining companion. You have a vein of sarcasm that amuses your friends for it is refined, witty and good natured.

June 23, 24, 25.—You can attract and hold people and therefore can influence them for good or evil. You are fond of display and ornament. The only really strong point in your nature is your determination. You are brilliant and always appear to the best advantage. You are true to those you love, intensely affectionate toward your mate and look for the same in return. You have an impractical streak which upsets your success in unexpected ways.

June 26, 27.—Your nature is domestic, kind and true. You are very sensitive to unpleasant surroundings. You are very fond of jewels and finery. You have high ideals and enjoy the company of your own thoughts.

Pasture your flock of dollars in the War Bond meadow and watch them grow!

Miss Ruth Patterson and Doyle Kenner Wed in Vernon Mon.

The marriage of Miss Ruth Patterson and Doyle Kenner was solemnized in Vernon Monday night, June 14, at the parsonage of the First Methodist Church with the pastor of the church, Rev. T. Edgar Neal, officiating with the ring ceremony.

Miss Lottie Russell and Miss Florence Black accompanied the couple to Vernon. Immediately following the marriage, Mr. and Mrs. Kenner left for a short wedding trip to Amarillo and other points. They have returned and are making their home in the garage apartment of Amos Lilly.

Mrs. Kenner was attired in a brown linen suit with which she wore brown and white accessories.

The bride was reared in Benjamin. She has been a member of the faculty of Crowell High School for a number of years, teaching Home Economics. She received a B. S. degree in Home-making from West Texas State College in Canyon. She has done graduate work at Ames, Iowa, and at Fort Collins, Colo.

Mr. Kenner is the son of the late Mr. and Mrs. Henry Kenner and has been reared in Crowell and Foard County. He is a veteran of World War I. He is now engaged in farming near Crowell.

Local Man Marries in Kansas June 16

Emmett Lankford of Crowell and Miss Helen Cruse of Dodge City, Kansas, were married by the county judge in Liberal, Kansas, on Wednesday, June 16. They were attended by Mrs. Weldon Pierce, sister of the bride.

Mrs. Lankford is the daughter of Mr. and Mrs. E. E. Cruse of Dodge City, where she was reared and received her education, graduating from Dodge City High School. She has been employed in Liberal for a short time.

Mr. Lankford was born and reared in Crowell, the son of Mrs. Henry Lankford. He has been in Liberal for the past two and a half months, having been employed as a truck driver transporting aviation gasoline from Borger to Dodge City. The couple arrived here Thursday for a visit with his mother. They were accompanied by Mrs. Weldon Pierce and the three returned to Liberal Monday.

Engagement of Local Man to New Zealand Girl Announced

Announcement of the engagement of Gordon Thomson, pharmacist mate of the United States Naval Reserve, to Miss Beryl Hitchings was made recently in a New Zealand newspaper by her parents, Mr. and Mrs. E. A. Hitchings of 92 Mountain Road, Epsom, New Zealand. Gordon is the son of Mr. and Mrs. J. A. (Arlan) Thomson of Crowell.

Miss Hitchings was a wireless operator before entering the service of her country in the WAAC's. In recent letters to his parents from Wellington, New Zealand, Gordon says he suffered an attack of malaria while on duty in the Guadalcanal zone and was sent to New Zealand where he has fully recovered and is in the best of health. He was on duty at Guadalcanal from some time in November, 1942, until February, 1943. He joined the Navy one year ago today and took his training at the U. S. Naval Training Base in San Diego, Calif. He arrived in New Zealand on the 17th of November, 1942, and went directly to Guadalcanal.

Margaret WSCS Meets Monday June 21

The Margaret Methodist Woman's Society of Christian Service met with Mrs. George Wesley on Monday, June 21. Eight members and five visitors, Mrs. Shi Boman of Vernon, were present. Mrs. Ab Dunn was leader of the devotional on the subject "Why Should God Bless America?" Others on the program were Mrs. Roy Ayers and Mrs. R. I. Hart.

In the business meeting, it was voted to change the social meeting date and to meet each Monday afternoon. For some time, due to gasoline rationing, the society has been meeting on Sunday evenings. Each member is asked to be present at the church next Monday afternoon. Mrs. Dunn will give the devotional and reports will be made.

Former Citizen Married in Denton

Master Sergeant James Munson Welch, brother of Mrs. Henry Ross and of J. Y. Welch and T. F. Welch, was married in Denton on June 7, to Miss Bobbie Dee Goodner of that place.

Set. Welch is a former resident of Crowell and is a veteran of World War I. The couple have established their home in Fort Douglas, Utah.

FOARD CITY H. D. CLUB

"Just because your canned meat and vegetables 'keep' is no indication that you are free of the danger of food poisoning." This was the theme of Miss Elliott's demonstrations at an all-day meeting of the Foard City Home Demonstration Club on Tuesday, June 22.

A lesson on how to test cookers

was given at the morning session, together with a demonstration on the proper way to kill a chicken. By hanging a hen by her feet, then cutting the jugular vein, the heart continues to pump until all the blood drains from the chicken. This makes for sweeter meat and a cleaner job of dressing the chicken.

Following the covered dish dinner, different ways of canning green beans were demonstrated. The cold pack, requiring steaming before pressing, and the pre-cook method are both good. The dangers of the water bath and over-sterilizing are pointed out. High pressure and temperature are necessary to kill bacteria in these foods and neither water bath nor oven gives the pressure required.

Miss Elliott then canned a pineapple, demonstrating the method of trimming, slicing and canning of both fruit and juice.

Water bath canning for all fruits and tomatoes, kraut and peppers is the proper method. A tight container, water covering jars completely and a false bottom in the container for better water circulation are prerequisites of this type of canning.

In preparing a chicken, the bones are removed when the fowl has been thoroughly chilled, and the meat is packed in jars or cans, steamed unsealed to shrink it and drive out the air. Seal after salting, and pressure cook at sixteen pounds for forty minutes per pint.

This was a most interesting and practicable series of demonstrations and it is regrettable that more members and visitors were not present for its benefits.

Another demonstration on re-seating chairs will be given at the club house by Miss Elliott in July.

ON HONOR ROLL

Miss Lenore Longino, daughter of Rev. and Mrs. H. A. Longino of Crowell, was one of the 25 students listed on the spring semester honor roll at McMurry College, Abilene, according to information furnished by the college publicity director.

The roll includes the top ranking students at McMurry with standing determined by grade points. Miss Longino received a total of 72 points. Twelve points are given for an A and nine for a B.

Health Protection Given Texas Citizens

Austin.—Over half the citizens of Texas have full-time public health protection according to the figures just released by Dr. Geo. W. Cox, State Health Officer. This is accomplished through service rendered by county health units covering 39 counties and our four largest cities. The personnel which a county health unit employs depends upon the local need for service. The minimum staff of a unit consists of a physician, nurse, sanitarian, and clerk.

A review of the work done during the past year shows that 94,455 persons were protected against smallpox, 88,832 against diphtheria and 120,375 against typhoid fever. Over a half-million persons were visited in their homes and received either preventive medicine or nursing service. Also 789,613 treatments for venereal disease were administered and 10,478 persons were X-rayed for tuberculosis.

Sanitation in water, food and milk supplies was rigidly enforced, sewage facilities expanded and campaigns conducted to prevent malaria and typhus fever. Those the State Health Officer asserted, are but a few of the many services that were rendered to the population living in the area with full-time health services during the past year.

The units are financed by cooperative participation on the part of local county, or city governments and the State Health Department.

Warning!

"You guys better get out of here while the getting's good." That's what the characters on this imitation leaf told the Japs on Kiska island. The leaves were dropped by U. S. aviators to enemy forces who are supposed to have an aversion for the leaves, supposedly from a Japanese Kin tree.

Plays for Pay at 16

Here is the youngest professional baseball player. He is Jack Maesch, 16, 5 feet 10 inches, 160 pounds, who plays infield positions for the Baltimore Orioles.

Senator Connally's Anti-Strike Bill Passes Both Houses

Washington, D. C.—The Connally Anti-Strike bill has passed the Senate and House and is before the President.

The principal object of the bill is to keep war plants producing. Press statement of Senator Connally follows:

"On June 12, 1941, I offered an amendment in the Senate which provided for taking over by the President and the operation by the Government, of plants engaged in producing national defense articles wherever such production was impeded or hindered by strikes or labor disputes. That amendment was adopted by the Senate as early as 1941 by record vote of 87 to 7. However, it failed of adoption in the House of Representatives.

"The bill was later modified and improved. The bill approaches the issue from the national viewpoint, from the war needs, from the dire necessity to keep plants going and to keep production moving to our heroic men on the far-flung battlefronts in this war. The main provisions of the bill are: (1) It prohibits any strikers in a Government-operated plant or plant seized by the Government, under penalty of imprisonment and fine. (2) It provides for a 30-day notice of a labor disturbance in a private war plant and a secret ballot. (3) If a strike then occurs, the Government can take over and penalties will operate against any further strike. (4) It gives the War Labor Board power of subpoena and clear statutory powers. (5) It is no offense for any individual worker to quit work in any seized or Government-operated plant but penalties are provided for inducement or conspiracy with others to interfere with the continuous operation of a Government-operated war plant. (6) It authorized the President specifically to take over strike-bound plants.

"No citizen of the Republic is above a sacred duty to his country and to his fellow citizens in this time of emergency. The war must go on until victory is achieved. Plants and mines must go on and must get their goods to the armies if we are to crush the enemy. The bill is a champion of the national need, the climatic national need of keeping the streams of weapons, equipment, and munitions going to the battlefronts where our flag is flying and where our boys are battling for the victory that shall not be long delayed."

Post-War Control of Tuberculosis in Texas Being Made

Austin.—Immediate and post-war activities for the control of tuberculosis in Texas were among the matters considered by the board of directors of the Texas Tuberculosis Association at a meeting in Austin on June 13.

Plans were formulated for the organization of a state-wide committee to provide for sufficient beds to take care of the needs of the tuberculosis. For the proper distribution of sanatoria, whether large local or district sanatoria, and to encourage proper relations and co-operation with our southern neighbor, Mexico.

An immediate objective approved by the board of directors was the organization of more county-wide tuberculosis associations to conduct year-round educational programs, diagnostic, case-finding and nursing services to meet the present needs in communities where such facilities do not now exist.

Dr. Melver Fueman of Corpus Christi was re-elected president of the Association; F. K. Dougherty of Liberty was elected first vice president; Mrs. R. H. Traylor of Laredo, second vice president; J. W. Butler of Texas City, secretary; and Dr. Z. T. Scott of Austin, treasurer. Elected to the Executive Committee were: Dr. Elliott Mendenhall, Dallas; Dr. Erle Sellers, Abilene; Dr. J. B. White, Amarillo; Dr. J. Edward Johnson, Mineral Wells, and Dr. Elva A. Wright, Houston.

Board members present for the meeting were: Dr. Elva A. Wright, Houston; Dr. H. F. Carman, Dallas; A. H. Penland, Houston; Dal-

TEXAS SYNTHETIC RUBBER PLANTS NEAR COMPLETION

First Construction Photographs In State's Newest Industry

These synthetic rubber plants in southeastern Texas, nearing completion and scheduled to start production this summer, are the first in Texas' newest industry. Built by the Goodyear

Tire & Rubber Company of Akron, Ohio, the plants have open-type walls to take advantage of the benign climate and to conserve building materials. The top left is a process building in a 60,000-sq-ft. while the picture beside it shows three reactors and space for another. Below, left, are the steam towers which remove excess butadiene and styrene from the latex while beside it, is a picture of Gurn Barber (white shirt), project manager for one of the plants, examining a reactor with an employee.

Finley, San Benito; Dr. Melver Furman, Corpus Christi; W. R. Banks, Prairie View; Dr. H. E. Lee, Houston; and Miss Nancy Nichols, Austin, executive secretary of the Association.

SANTA FE CARLOADINGS

Santa Fe System car loadings for the week ending June 19, 1943, were 25,092 compared with 24,465 for the same week in 1942. Cars received from connections totaled 11,861 compared with 10,618 for the same week in 1942. Total cars moved were 34,953 compared with 35,083 for the same

week in 1942. The Santa Fe handled a total of 35,471 of the preceding week of the

Chester, Ga.—A Red Cross aid instructor saved a life by stopping the flow of blood until help arrived from his side. As a result, the time—a mule—will recover.

"YOU'VE DONE YOUR BIT NOW DO YOUR BEST!"

During the first year of our toughest war, we— Trained a lot of men—made a lot of fighting tools—built a lot of shipping. **And to help pay for it all, we bought War Bonds. Altogether, 50 millions of us bought War Bonds. And nearly 30 millions of us started putting, on the average, 10 percent of our pay into War Bonds every payday through the Payroll Savings Plan.** That was a good start. But, it was only a start. What we did in '42 is not enough for '43! **We've got to do more fighting this year. We've got to do more building, more training, more shipping—and more saving.** **We've got to buy more War Bonds.**

Is that too much to ask? Many of us are making more money than we have made for years. The things we'd like to buy with that money have either disappeared or are as "scarce as hen's teeth." So why not put that money into War Bonds at good interest—\$4 for every \$3 when the Bonds mature? Money to help pay for the war—keep prices down—provide peacetime jobs and peacetime goods and a generally decent world for all of us when the war is won. **Chances are, you're already in the Payroll Savings Plan—buying War Bonds—doing your bit. But don't stop there. See if you can't boost your act!** **Do your best!**

YOU'VE DONE YOUR BIT --- NOW DO YOUR BEST!

BOOST YOUR BOND BUYING THROUGH THE PAYROLL SAVINGS PLAN
