Crowell Schools to Open Fall Term Monday, September 6; Pupils Will Register Saturday morning

New Guinea Warriors

Major Archibald Roosevelt, son of Theodore Roosevelt, and Capt. Carl Webber are pictured strolling in New Guinea. Their commander, Gen. Douglas MacArthur, stated that Japan is now on the defensive in this area.

Gasoline Forms for Applications Available Here

Foard County gasoline filling stations which have kept a supply of supplemental gasoline renewal forms on hand for the convenience of customers were advised Monday by C. R. Seale, chairman of the Foard County War Price and Rationing Board, that the old type 5-43 form is no longer valid, and all copies of it should be destroyed.

"Stations desiring to maintain this service for their customers should come to the ration board office and get supplies of the revised R-543," Seale said. Motorists are reminded that all old-style, book-form ration coupons are valid, only until Sept. 1. After that date, the new coupons in sheet form, will be used. However, the board chief said, the old style coupons may be exchanged for the new coupons, providing the expiration date on the coupons has not been reached. The early type coupons are to be dead after Sept. 1, even though their printed expiration date may be later than that, Seale said. Persons whose coupons show the numbers, "R-527A," or "R-528A," must have these supplemental coupons renewed, as they are the old coupons. The new B and C coupons are numbered "R-527B," and "R-528B," respectively, Mr. Seale said.

Former Citizen Enters Business at Hamlin

G. C. Coltharp, former Crowell grocery business man, who has been employed in defense work in Grand Prairie for several months, has bought a grocery and market business in Hamlin and he, with his wife and two children, Billy and LaNell, have moved to that town to make their home. Mr. and Mrs. Coltharp operated a grocery business in Crowell at the time of the tornado, but sold it soon after, to John Raso and T. S. Haney, and went to Grand Prairie. They came to Crowell from Gillingham.

Free Will Baptists Holding Revival at Good Creek

Rev. H. H. Haston of Chalk and Rev. M. T. Holley of Leveland are conducting a revival meeting for the Free Will Baptists in the Good Creek community. The services are being held at the Good Creek school building, both morning and evening. A cordial invitation is extended to everybody to attend this series of meetings, which will last about ten days, Rev. Haston announced here Monday afternoon.

SISTER-IN-LAW DIES

Mrs. S. E. Tate had a telegram Monday that her sister-in-law, Mrs. John Tate, had died at 7:30 o'clock Sunday afternoon in Henryetta, Okla., following a lingering illness. Her husband is the brother of the late S. E. Tate, who died here June 25th. Three deaths have occurred in the Tate family since last November. Mrs. Tate was a pioneer resident of Henryetta.

The Crowell school year 1943-1944 will open on Monday morning, Sept. 6, according to an announcement made by Superintendent I. T. Graves. Registration of pupils will take place on Saturday morning, Sept. 4.

High school students will register between 9 and 9:45 o'clock Saturday morning; Juniors, from 9:45 to 10:30; Sophomores, from 10:30 to 11:15; and Freshmen, from 11:15 to 12 o'clock.

Further information concerning the opening of school together with the list of teachers will appear in next week's issue of the paper.

Mrs. W. S. Carter's Brother Killed in Boiler Explosion

Cecil Kemble of McAllen, 33-year-old oil firm operator and brother of Mrs. W. S. Carter of Margaret, died Monday, August 9, at 1 p. m., two and one-half hours after he was fatally injured at his plant when a boiler exploded in his face. The small steam generator was being used by Mr. Kemble to clean a tractor at his service station. The force of the blast was felt a mile away. Mr. Kemble was district commissioner for Boy Scouts in McAllen, a member of the Lions Club and Odd Fellows, and was also a volunteer fireman. He is survived by his wife and three children. Mrs. Carter was unable to attend the funeral services.

Visiting Minister to Preach at Baptist Church Sunday

Rev. T. M. Gilliam of Kirvin, Texas, will fill the pulpit at the First Baptist Church in Crowell Sunday morning and Sunday evening, it was announced Tuesday. The public is cordially invited to attend these services.

Rev. J. M. Jordan, pastor of the Calvary Baptist Church in Yorkton, preached at the local Baptist Church last Sunday morning.

New Pews Installed
New pews for the auditorium in the new church building arrived last week and the installation work was completed the latter part of the week. With the exception of a few minor details the new church building is completed and is a credit to the faith, energy and co-operation of the members of the congregation and the former pastor, Rev. W. B. Fitzgerald, and an asset to the community. The former brick structure was laid flat by the tornado which struck Crowell April 28, 1942.

Church of Christ Meeting Closes

The revival meeting which continued for ten days at the local East Side Church of Christ, came to a close Sunday night. E. H. Garner of Seymour did the preaching for the meeting and the song services were under the direction of Benton Westbrook of Truscott. On Sunday, dinner was served at the church at the noon hour. Large crowds attended the services throughout the series of meetings.

5-Year-Old Milker

Allan Schuckman, five years old, of Livingston, N. J., continues milking one of his grandfather's cows in steady rhythm even while his picture is snapped. He has been milking since the age of 3 1/2 years and makes spending money at the rate of five cents a cow.

Men in Service

Curtis V. Barker, former service station operator of Crowell and son of Mr. and Mrs. A. W. Barker of Foard City, was promoted recently from Private to Technician 5th Grade at the Armored Replacement Training Center, according to a news release from the public relations office at Fort Knox, Ky. Corporal Barker, in the army since October, 1942, is in one of the Center's service companies.

Tech. Sgt. Coy Ward of Scott Field, Ill., was here last week visiting relatives and friends. He was accompanied by his wife and small son, Coy Don, and his mother, Mrs. Joe Ward and daughter, Melba, and Mrs. Clay Honey of Tulsa, Okla.

Pvt. Bob Browder of Camp Santa Anita, Calif., has been here on a furlough visiting his parents, Mr. and Mrs. Roy Browder, of Truscott. Pvt. Browder has been in the army about six months.

Pfc. William L. Ownbey of Ft. Lewis, Wash., and Mrs. Ownbey of Olympia, Wash., left Monday afternoon for their return trip to Washington after visiting with their parents, Mr. and Mrs. Lester Ownbey and Mr. and Mrs. J. L. Bradford, and other relatives and friends. Pfc. Ownbey, who was on a 15-day furlough, is a machine gunner in the infantry, and has been in the army about five months.

Pfc. Gordie Johnson of the Lincoln Air Base, Lincoln, Neb., left Monday afternoon to return to camp after visiting his parents, Mr. and Mrs. G. W. Johnson, and family for two days.

Miss Frances Hill, petty officer third class in the WAVES, arrived here Sunday morning for a week's visit with her parents, Dr. and Mrs. J. M. Hill.

Sgt. Paul Gobin, who has been on Army maneuvers on the border of Louisiana and Texas, is at home on a ten-day leave visiting his parents, Mr. and Mrs. Pete Gobin, and other relatives and friends. He will return the first of next week.

Ted Longino, A/C, of Frederick, Okla., spent the week-end here visiting in the home of his parents, Rev. and Mrs. H. A. Longino.

Frank Fry, A. B. Quartermaster of the U. S. Merchant Marines, who arrived in Margaret last week from Iceland to visit his mother, Mrs. Ella Fry, will report for duty in San Pedro, Calif., following a visit of several weeks here.

Chaplain T. J. DuBose, former pastor of the Thalia Baptist Church, writes The News from Miami Beach, Fla., giving his new address which is 934 Michigan Ave. He says: "I am very happy in my work and am enjoying the privilege that is mine to work with the men in the armed forces. If you have an opportunity to see any of the friends of Foard County, especially Thalia, please tell them that 'mail means morale,' and even chaplains are bolstered by a good letter from home."

Cpl. Donald J. Ward, who is stationed at Augusta, Ga., was operated last Thursday and is reported to be recovering satisfactorily. His address is Base Hospital S-3, Daniel Field, Augusta, Ga. Donald is the son of Mr. and Mrs. Joe Ward of Tulsa, Okla., until recently, Crowell residents.

Earl S. Manard, BM1C, who is in the Seabees in the U. S. Navy at Camp Poary, Virginia, has recently been promoted to first class Petty Officer.

Mess Sgt. Edwin Edgin, who has been in the service for some time and stationed at Fort Lewis, Wash., returned home Saturday. He has been given a medical discharge from the service.

Cpl. Thomas C. Golden of Camp Haan, Calif., has been here for the past eight days visiting his parents, Mr. and Mrs. W. C. Golden. He left for the return trip to camp Tuesday. The Wichita Falls paper carried a picture several days ago of Cpl. Golden and his brother, Cpl. William C. Golden, both of whom are in Camp Haan. The young men entered the service in Jan. 1942. They are both with the Coast Artillery. Cpl. William C. Golden has visited his wife and parents recently.

ROTARY CLUB

The Crowell Rotary Club had its regular weekly meeting at O'Connell's Lunch Room Wednesday at noon. George Self was in charge of the program which consisted of a talk by Sgt. C. B. Wedel, who is here this week visiting his mother, Mrs. Lenna Wedel, and sister, Mrs. L. E. Archer.

Sgt. Wedel was at Hickam Field, Hawaiian Islands, with the U. S. Army Force at the time Pearl Harbor was bombed by the Japanese. He told many of his experiences following this sneak attack.

Churchill Arrives for 6th Conference

Britain's prime minister, Winston Churchill, is pictured at the Chateau Frontenac in Quebec, Canada, prior to conferences with President Roosevelt and Prime Minister King of Canada. It was to be the sixth series of conferences between the leaders and was expected to include terms for the surrender and further military plans.

First Bale of Foard County Cotton Ginned at Crowell Gin Monday, August 16; Sold to Gin for 17 1/4 c Per Pound

W. A. McMILLAN

Series of Meetings Begin at Truscott Church Friday Night

Evangelist W. A. McMillan of Lometa has been engaged to conduct a series of revival meetings at the Church of Christ in Truscott, beginning tomorrow night and continuing through Sunday, Sept. 5, it has been announced by members of the church at that place. A cordial invitation is extended to the public to attend all services.

CEMETERY CONTRIBUTIONS

The following contributions to the Crowell Cemetery Association have been received since last week, according to a report made by the president, Mrs. N. J. Roberts:

Mrs. J. H. Carter	\$1.00
Miss Cora Carter	1.00
Cash Donation	1.00
Mr. and Mrs. B. W. Self	10.00
Texas Natural Gas Co.	5.00
Mrs. J. C. Alvin	5.00
Mrs. M. F. Meadors	10.00
Mrs. Homer Zeibig	5.00

Marching Too Slow for Sicily Invaders

Marching is too slow for these American soldiers in Sicily so they gain speed by utilizing this foot-propelled railroad vehicle. Approximately 125,000 Axis prisoners were captured in the invasion. A report that British ships had bombarded the Italian mainland was soon followed by an announcement that German troops were evacuating Sicily.

Foard County Wheat Goals Set for 1943; Acreage for Coming Year Will Be Far Greater Than that Planted in 1942

A wheat acreage of 65,690 acres next year, compared to 44,240 acres during 1943, is the new wartime production job for Foard County farmers, according to J. D. Miller, AAA administrative officer.

The prospective wheat situation is strikingly different from last fall when burdensome wheat surpluses overtaxed our storage facilities, Mr. Miller said. Total

consumption of wheat has soared to record levels and continues to increase.

Mr. Miller reports there are approximately 500 farms in the county adapted to wheat raising and the increased acreage is expected from these farms. Farmers may sow their 1944 wheat crop without regard to allotments, as none will be established for next year.

Wheat farmers of Foard County are now receiving additional parity payments on 1942 crop of wheat at the rate of 13.7 cents per bushel, which will amount to approximately \$65,000 for the county. About \$29,000 of this amount has already been received in the county, and the balance will be paid in the near future. The personnel of the county office will be ready in the very near future to make out the 1943 applications for payment, which will amount to approximately \$100,000 for the county.

September Term of District Court to Open on 13th

The September term of District Court will convene in Crowell on Monday, Sept. 13, with Judge C. Y. Welch of Quanah, presiding.

Grand Jurors

Foard County men, who are to appear in the court house for grand jury service on the above date at 10 o'clock, are as follows: J. M. Jackson, Frank Cates Jr., Alton Farrar, J. D. Bursay, D. L. Campbell, R. H. Cooper, Jack Seale, Roy C. Hofmann, Allen Fish, Glen Jones, Jack Stinebaugh, Floyd Borchardt, J. D. Huskey, R. L. Taylor, Ray Hysinger and M. N. Kenner.

Petit Jurors

Men who are to appear for petit jury service on Monday, Sept. 20, in connection with this term of court follow:

Bruce Benham, Louis Webb, E. G. Grimley, W. R. Moore, M. F. Hunter, F. B. Flesher, C. A. Bowley, R. N. Barker, J. M. Marr, Crews Cooper, B. G. Davis, Geo. C. Fox, P. S. Churchill, C. D. Hall, J. C. Prosser, C. C. Ribble, E. R. Roland, R. G. Whitten, W. B. Abston, C. T. Hord, Chester Graham, K. Lindsay, Luther Tamplin, S. E. Crosnoe, Cecil Dunn, G. G. Crews, Mack Edens, George Mann, J. M. Rader, R. L. Walling, L. W. Lambert, R. C. Johnson, A. L. McGinnis, Norman Gray and Henry Borchardt.

New Wildcat Test to Be Drilled by Texas Company

The derrick has been erected for the drilling of a wildcat oil test by The Texas Company on just over the line in Wilbarger County, five miles east of Thalia, land owned by Miss Emma Main. The well is located about the center of the southeast quarter of the northeast quarter of section 16, block 8, H. & T. C. Ry. Co. survey. Drilling operation by the Norwood Drilling Co. is expected to start soon.

Five families of the drilling crew arrived in Crowell Tuesday afternoon in search of living quarters. It is reported that all these families found places to live, however, these men represented only one-third of the drilling crew and it is expected that ten more families will arrive soon. Crowell people who can provide furnished apartments should notify The News office, or George Self at Self Motor Co.

HOSPITAL NOTES

Foard County Hospital
Patients In:
Mrs. Bill Bond
Mrs. Gilbert Lankford and infant daughter
Mrs. Audrey O'Neal

Patients Dismissed:
Leonard Myers
Mrs. Dan Caram
Glenn Roberts
Mrs. Lucy V. Crosnoe

The hospital is in need of old towels and wash rags and anyone who will donate some to the use there, is asked to take them to the hospital at an early date.

Names of Recently Enlisted Men Asked

In anticipation of another program of dedication of service stars on the flag at the Methodist Church, Rev. H. A. Longino, pastor of the church, asks that the names of all men who have entered the service in any capacity since May 9, the date of the first dedication service, be handed to him at an early date, in order that a star for each name may be sewed upon the flag. Names of women in the service are also desired. On the night of the dedication services, on May 9, a heavy rain

Pews Installed in Baptist Church at Truscott

New oak pews have recently been placed in the new native stone church building in Truscott, it was announced here Saturday by the pastor, Rev. Joe W. English.

The installation of the new pews completes the work which has been in progress on a pay-as-you-go plan for some time. The new building is a very beautiful structure and a great asset to the Truscott community.

A similar stone building is nearing completion at Gillingham under the leadership of the pastor, Rev. English.

Marvin Butts of Quanah has been employed as the builder of these two new churches.

Deputy Collectors Will Be in Crowell Next Thurs., Sept. 9.

If you are required to file a Declaration of your estimated income and Victory Tax for the year 1943 on or before September 15, it will be wise of you to take advantage of a visit of Deputy Collectors Clois L. Green and R. A. Choat to Crowell next Thursday, September 9, 1943. They will consult with taxpayers at the court house all day to assist you in preparing your Declaration.

Generally speaking, taxpayers required to file the September 15th Declaration are single persons earning more than \$2,700, and married persons earning more than \$3,500.00 from wages or salaries subject to withholding, or those who have incomes of more than \$100 from sources outside of wages and salaries, or persons whose 1943 wages subject to withholding are reasonably expected to be less than their 1942 wages if they are required to file 1942 Income Tax returns.

Heavy penalties are imposed on persons required to file Declarations who fail to do so or who fail to pay the required amount of Estimated Tax on or before September 15th. Penalties are also provided for substantial under-estimates of tax due.

Callaway on House Committee for Rural Aid Administration

Representative Claude Callaway has been named by the office of Speaker Price Daniel, to serve as a member of a joint legislative committee to supervise and assist in the administration of rural aid funds. Rep. H. S. Fitzgerald of Stamford was named as chairman of the committee and other members are Reps. Rush Manning of Center, R. L. Proffer of Denton and N. W. McCann of Texarkana.

Senate members of the committee were named during the last session of the Legislature with Sen. G. C. Morris of Greenville as chairman.

fell, and, on that account, many who planned to attend, were prevented from doing so. Plans are being formulated for a similar service at the church and announcement of such a service will be given through the paper.

JEWELRY SHOP MOVED

J. E. Norris has recently moved his jewelry shop from the Clyde Ketchersid building to Mabe's Shoe Shop in the Self Motor Co. building. The jewelry shop occupies the east side of the building and is closer in and a better location for the shop.

Mrs. Rodgers of Ladonia, Texas, visited her sister, Mrs. Ed Payne, here last week. Ah Lawrence and family of Spur visited Mrs. Maggie Killen and H. W. Gray and family here last week-end. Mrs. Mary Jo Gibson of Idaho, Woodrow Johnson of Florida and Mr. and Mrs. Reed Johnson of San Angelo visited Mr. and Mrs. Will Johnson here this week. Pfc. Russell Taylor of Tinker Field, Okla., is visiting his parents, Mr. and Mrs. J. C. Taylor, this week. Arda Long and family of Post visited his parents, Mr. and Mrs. W. J. Long, here last week-end. Mrs. Ben Hogan and daughter, Miss Mary Jo, visited in Roaring Springs a few days last week. Roy Shultz and family visited his parents, Mr. and Mrs. Lee Shultz, in Leakey this week. Tom Johnson and family of Ft. Worth visited his mother, Mrs. W. L. Johnson, and Mrs. Johnson's mother, Mrs. George Doty, here last week-end. Mrs. H. W. Banister and daughter, Miss Marjorie, visited J. H. Banister and family in Oklahoma City this week. Ensign Fred Gray of Hollywood, Fla., and wife are visiting his parents, Mr. and Mrs. H. W. Gray, here this week. Lester and Madell Matthews of Denton are visiting their grandparents, Mr. and Mrs. J. F. Matthews, here this week. Mr. and Mrs. Ferguson of Cotula visited in the H. W. Gray home here this week.

AGRICULTURE (D. F. Eaton, County Agent)

Feed Situation in Foard County

The feed situation in this entire section is more critical than at any time in the past several months. The county will make only a small percentage of its grain and hay requirements, so we will begin this winter handicapped for feed. Since grazing will be very limited later in the season we are all hopeful that we will have sufficient rainfall to plant some small grain for winter and spring. Since the price of grain sorghums has advanced until it is almost too high to feed we will have to use corn or wheat which are about the same in value and which at present is considerably under grain sorghum values. Protein supplements for all livestock are scarce and high and obtainable in small lots only at present. All roughages are also high and scarce. It has become more necessary than ever that rations be balanced as nearly completely as possible to obtain the best results. So basic feed facts are being worked out by livestock and educational leaders. These facts are available and will be published from time to time. Feed requirements for every type of livestock and how to combine the feeds available for the best results will be explained. Special attention in planning feed rations this year is very important.

Mesquite No. 1 Ranch Problem

Recently we attended a mesquite extermination demonstration held on the 6666 Ranch in King County, under the auspices of the Extension Service. Featured at this demonstration, was a large saw which was so rigged that it would cut all timber slightly above the ground level. All sizes and types of timber were felled by this machine which was propelled by an ordinary farm tractor. This machine is capable of cutting several acres per day depending on the size and how thick the growth is on the land. Experiments are being carried on by the Spur Experiment and other stations covering several phases of mesquite eradication. They are trying to determine what chemicals may be applied to the plant itself, or to stumps that have been cut off as a spray, paste or as a fluid applied to the surface of the plant that will kill the plant. Also the use of poisonous sprays on young or growing plants. To find chemicals that are not dangerous to livestock and the best season of the year to apply any of these and the expense of this use. Also the use of certain machinery such as the saw mentioned above, the bull dozer and other types of clearing machinery and methods. From all this will come some practical method, we hope, to meet this number one problem of all ranches infested with mesquite, cedar and other kinds of undergrowth. This meeting was attended by some forty people among whom was Jno. C. Burns, administrator of the Burnett Estate; Geo. Humphries, manager of the ranch; Paul Haynes, of the Extension Service; R. E. Dickson, manager of the Spur Experiment Station; Mr. Savage, who carries on the experiments of timber extermination; several county agents and a number of farmers and ranchmen, many of whom had their wives.

Treat Small Grain

Since we had some smut present in grain here in Foard County, we feel the information given below might be helpful to some growers. Unless a farmer is certain that planting seed for certain small grains is free from smut infection it should be thoroughly cleaned and treated before planting. According to E. A. Miller, agronomist for the A. & M. College Extension Service, this applies especially to wheat, oats and barley. Ten years ago Texas winter grains suffered heavily from smut. But as the result of seed treatment during the past few years only a comparatively small amount of new grades smutty. Miller explains that this does not mean that the disease has been eradicated and that seed treatment safely may be discontinued. If some spores are present and the seed is not treated there might, under conditions, be a serious outbreak. The fungus which affects what is called "stinking" smut because it changes the inside of the young kernels into black mass of spores which have an offensive odor. Chemical treatment consists of cleaning the wheat by fanning or otherwise to remove the smut balls and treating the seed either with two ounces per bushel of fifty per cent copper carbonate, or one-half ounce per bushel of ethyl mercury phosphide called "improved coarsan." Many growers prefer coarsan because it doesn't clog the grain drill. A homemade treating machine

FDR says:

Curtail spending. Put your savings into war bonds every payday.

Brother Identifies Brother After 24 Hours

For 24 hours a boy who had fallen from a street car lay unconscious and unidentified in a San Francisco hospital. Then Charles Pryor, 12, asked to see the lad and promptly identified him as his brother Joseph. Charles is pictured trying to comfort his brother who suffered a fractured skull.

QUESTIONS AND ANSWERS

- 1. In what country France mentioned in the war news is the town of Leghorn? 2. What type of government Mussolini represent? 3. What expression by a leader regarding the King of the did President Roosevelt release? 4. What is the name of the King of Italy? 5. In what group of islands frequently mentioned in the news is the island of Rendova? 6. The WAVES are the women's reserve of what branch of the military service? 7. By what name are the women in the women's reserve branch of the coast guards known? 8. In what country frequently mentioned in the war news is the city of Bologna? 9. In what body of water is the island of Malta? 10. Who was it, who in a recent public utterance, referred to Hitler as "That Mystic Master of strategic intuition?" (Answers on page 3).

New rates of payment include cotton at one cent per pound and wheat at 8.5 cents per bushel.

Original rates of payment on cotton and wheat had been announced at 1.1 cents per pound and 9.5 cents per bushel, respectively. Payments are made on normal production of the allotted acreage. Changes in the program to meet wartime conditions have increased the number of farmers eligible for AAA payments this year, officials of the AAA office said in explaining reduction in this year's payments. Under the AAA Act, rates of payment may be adjusted upward or downward, depending on the percentage of participation.

To Cotton Growers

While our cotton yield is very considerably reduced, yet there will be some who will produce more than they can pick and will have to secure some additional help. If those who will need help to notify this office we will assist them in any way possible to get what help they may need. Since additional help will have to come from outside the county it will take some time to arrange for what we will need. So those who need help will have to needs here with us before hand we will be better able to supply their needs. This has become the responsibility of the Extension Service but we will have to have the cooperation of the growers, if we take care of their needs. There probably will be more cotton made than can be picked with what available help we can here in the county. If not convenient to call at this office notify your gin operator and we will get the list from him.

AAA Scales Revised

A revised scale for payments to Texas farmers under the 1943 AAA program were announced through the state office this week by the War Food Administration.

tor, was outstanding. Rev. Baggett's wife and children, Elaine and David Loyd, joined him here Thursday.

Rev. and Mrs. A. C. Hamilton left Sunday night. Mrs. Hamilton will visit her mother, Mrs. Adams, of Tulsa while Rev. Hamilton will have charge of the song services in a meeting near Stinnett.

field so long that it becomes discolored or otherwise injured by weather exposure.

Simultaneously with the program being conducted among farmers, the Extension Service is launching a vigorous campaign among gins for the improvement of ginning practices to obtain maximum grade from each lot of seed cotton.

DOING HER PART

Mrs. Elizabeth C. Ross, besides having three sons in the armed forces, travels 112 miles daily round trip from her home in Lake George, N. Y., to General Electric's Schenectady plant where she helps turn out electric equipment for war.

Farmers' Choice—Serve War Effort or Add to Surplus

Because dwindling supplies of high grade cotton are threatening to reduce consumption by American mills and lower the quality of vital war goods, the War Food Administration and the National Cotton Council are calling on farmers and pickers of Foard County to "make a superhuman effort to improve the grade of the 1943 crop."

No servant can serve two masters; for either he will hate the one, and love the other, or else he will hold to the one, and despise the other. Ye cannot serve God and mammon.—Luke 16:13.

Congressman Engle of Michigan has asked for an investigation of wages paid in war production plants. As the result of a survey of forty-seven plants some startling revelations were made. He found that in one plant assemblers of machine guns, not considered skilled labor, received wages of \$8.741 yearly. By contrast Lieut. Gen V. H. Somervel, chief of the Army Service of Supply, is paid \$8,500 a year. In a number of plants it was found that girl workers were paid as high as \$3,800 for work any woman of average intelligence and skill could do. And Washington wonders why it is difficult to keep inflation down.

In our opinion the Casablanca conference ultimatum of unconditional surrender was the shrewdest piece of strategy that has been shown by either the Allies or Axis. Given at the time that it was, it shut off completely any half way peace offers by the Axis. They know that there is only one offer they can make—unconditional surrender. It relieves the Allies from being put in the position of turning down any half way offers that would stop the Allies at the Axis borders and leave Germany untouched by the war as she was at the end of World War I. This time the job will be finished.

German war prisoners in the prison camps in Kansas receive 10 cents a day while in camp and an additional 80 cents a day if they work. There are about eight prisoners to each guard. Prisoners who wish employment on neighboring farms are accompanied by a guard and returned at 4:30 in the evening to the camp. Many of them welcome the opportunity to work for the extra pay. Many of the prisoners are young being from 15 to 20 years old.

Mussolini, addressing the Italian Senate on March 25, 1939—"War from above must be conducted in a manner to disorganize the enemy positions, to dominate the sky, to fracture the morale of the people." That is just what the Allies were doing over Rome when the big squawk went up.

There are eighty million Japs. If they persist choosing to die to the last man it will be entirely satisfactory to most people.

HISTORY

Labor Day—September 6: The idea of setting aside one day in the year in which labor might be recognized originated in 1882 with Peter J. McGuire, president of the United Brotherhood of Carpenters and Joiners of America. In May of that year he submitted a proposal to the Central Labor Union in New York that labor set aside a day and stage a parade and that the parade be followed by a picnic, the proceeds of which would be divided among the participating organizations. The first Monday in September was suggested as the day. The first celebration occurred September 5, 1882, with a parade in New York City. On October 9, 1884, the Federation of Organized Trades and Labor Unions of the United States and Canada meeting in Chicago voted to make the celebration national. On February 21, 1887, the Legislature of Oregon set apart the first Monday in September as a state holiday in honor of labor. Within three months similar action had been taken by four other states. By 1894 the day had been made a legal holiday in thirty states and on June 28, Congress passed an act making it a legal holiday in the District of Columbia and in the territories. The day is now observed in every state. The day has become to be one of the most generally celebrated holidays in the United States.

"No Time to Waste" at Opening of Fall Term at University

Austin, Aug. 21.—"No time to waste" is the slogan of the University of Texas as it prepares to shift from a summer term into its fall term Sept. 1.

Commencement and baccalaureate service for the summer graduating class—smallest in many a year, is scheduled for Sunday night Aug. 29. Dr. J. Richard Spann, pastor of the Laurel Heights Methodist Church in San Antonio, will deliver the baccalaureate address, and degrees will be conferred by President Homer P. Rainey.

New freshmen—whose credentials should already be cleared and in file in the registrar's office—will gather for the first of their pre-registration conferences Tuesday night, Aug. 31. At this meeting and subsequent "get acquainted" gatherings they will be given a helping hand by both faculty and students to get their feet firmly planted on solid ground.

A "streamlined" registration procedure will enroll students Wednesday and Thursday, Sept. 1 and 2, and classes will begin Sept. 3.

More than 300 courses in 47 different fields of study will be spread before the fall term student body.

Peak enrollments are anticipated in engineering, physics, chemistry, and other critical fields in which the nation's manpower shortage—both for the armed forces and for industry—is acute.

Bulk of the fall course offerings are of a war nature, designed to train technical specialists for some war service, or to afford students a background of broad general information which will prepare them for leadership in war activities as well as in the post-war reconstruction.

U. S. Treasury Department

What We Think (By Frank Dixon)

I think that it is fitting that a word be said for the merchants in the small towns of the country. This group of not always understood people is making a valiant effort to carry on and continue to give service under circumstances that are both trying and discouraging.

We, of this country, have been used for so long to go into our stores and have a large assortment of good merchandise from which to make a selection that we have come to expect it.

Now that this is no longer the case the feeling exists in the minds of many buyers that the merchant is not making the effort that he should to secure merchandise.

I was in a store in my town the other day visiting with the proprietor. It was the largest store in our entire county. In the past it has carried a stock that met all requirements and more and offered a wide range of selection. This is not the case today. All lines are short and the selection is limited. The merchant explained to me that order after order sent to his wholesaler was returned unfilled with no hint of when the merchandise might be available—if ever.

"It is the most trying time in all my business experience," the merchant said, "trying, because, while we are making every effort we can make and our wholesalers are making every effort they can make for us, we are not able to get the merchandise that our customers want. It is one feeling to turn a customer away because you do not have merchandise at as cheap a price as he is willing to pay, or in quality as good as he would like to have, and quite another thing to turn him away because you have nothing at all for him."

As we stood there and talked a woman came in to buy some boys' blue chambray shirts and some boys' overalls. When told that the store did not have any in stock the woman turned and went out with the remark that she guessed she would have to go to Centerville to trade.

"There is an example of what I mean," the merchant said. "If she had given me an opportunity to explain I could have told her that, not a garment house in the country was making boys' overalls or boys' blue chambray shirts, that the Navy had requisitioned eleven-twelfths of all the blue chambray from all of the mills of the country, leaving only one-twelfth of the normal supply for civilian use. When this one-twelfth is distributed among all

the merchants of the country it does not leave much of a stock for any one of us."

The same thing is true in the matter of every item of merchandise that we are not able to supply. There is a similar reason back of each shortage. Our clerks know this and would be glad to explain it to our customers, but they do not have time, and too often the customer, impatient at similar turn downs at other stores doesn't care to wait and hear the reason. He wants the merchandise and is put out because he can't get it.

Running a store and keeping it stocked these days is a real problem this merchant said, and the problem is made more difficult because many people do not seem to realize that we are engaged in a war that is taking all the production resources of this country, and that naturally, if the soldiers are to be kept supplied, the civilians must do without.

Crime Wave After War, Public Safety Director Predicts

Detroit, Mich., Aug. 11.—The Nation is heading for a revolutionary crisis which seriously endangers the American way of life, Col. Homer Garrison, director of the Texas Department of Public Safety, declared here today in a nationwide radio broadcast.

He predicted an unprecedented crime wave and "a nation gone wild" in search of new pleasures and new freedoms after the war ends. "Our economic and governmental structures may undergo profound changes," he said. "Time-honored customs which have held our families and communities together will be thrown unceremoniously into the discard. This chaos will threaten the very foundations of our civilization."

As a result of the nervous strain and the confusion of war, "the moral standards of our adult population are crashing down. With little or no parental supervision, and with temptation on every side, much of our youth is running wild. Crime is increasing rapidly. Youthful gangs have grown so vicious and so bold in some of our larger cities that the police even now can hardly control them."

"We of the police profession believe that our nation is headed for a crime wave far bloodier and costlier than that of the Capone-Dillinger era. Your police officers expect strikes and riots, involving racial minority groups. "Crime will be only a part of this Twentieth Century American Revolution. We shall see something more startling than companionate marriage, the quick and

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of August 29, 1913:

Crowell received her first bale of cotton last Monday morning and it was ginned that afternoon. It was brought in by A. T. Twilley, who lives on Pease River. Only about an hour after the first bale arrived, the second was brought in by O. E. Connell, who lives on Mrs. Crowell's place. The first bale last year was brought in on August 21st, 4 days earlier. The first bale sold for 11 1/2 cents per pound and a premium of \$34.00 was made up among the business men.

Last Friday morning about 6:30 fire completely destroyed the residence of A. L. Covk in the southwest part of town. The alarm was given, but as the fire had such a start from the beginning, nothing could be done toward saving the house, and the loss was complete.

The Crowell public school will begin the next term on Monday morning, Sept. 8. The faculty this year is composed of the following teachers: T. A. Taggart, superintendent; W. A. Lewis, principal; Mrs. T. D. Britt, Misses Ellie Graham, Lena Rasor, Mattie Klepper, Harriett Stephenson, Grace Self, Leona Young and Mrs. Arthur.

Mrs. J. D. Halsell and son, Herman, have returned from Wilcox, Ariz., where they had made their home for the past eighteen months, to make Crowell their home again.

Tuesday afternoon about 3 o'clock water began to fall, and in a few minutes it was falling in sheets, and so continued for several minutes. The streets were full of water, and running to beat six bits. The heaviest part of the rain was in town, only a mile or two out the dust in places was hardly laid.

Diamonds were first discovered in Arkansas August 1, 1906, in the vicinity of Murfreesboro, Pike County, and since then 1,375 stones, aggregating 520 carats, are reported to have been found in this locality. The diamonds in Arkansas occur in a rock known as peridotite, and for this reason search for further areas of rock has been made. This search has resulted in the finding of three new areas, all within one square mile about three miles from Murfreesboro.

In the election held in this county last Friday to determine whether or not the county should take up the work for tick eradication, it went for tick eradication by a large majority.

Miss Ruby Sams of Benjamin is here this week visiting her friend, Miss Dot Thompson.

Aubrey Cooper of Wichita Falls is here this week visiting his parents, Mr. and Mrs. J. T. Cooper.

Leo Spencer made a trip south on the Orient the middle of the week. Destination unknown.

Grady Marce returned Tuesday from a visit of several days in Clarendon and Quanah.

Miss Della Sentiff left yesterday for Birmingham, Ala., after spending about five months here visiting her sister, Mrs. H. Schindler.

Misses Ruth and Esther Brown returned to their home at McKinney last Saturday, after several weeks spent here visiting relatives.

W. D. Burress, who lives about 13 miles from Crowell, was in town this week. He brought with him an old copy of The Foard County News, printed in the year of 1894, at that time under the management of G. A. Moore. While moving an old house this paper was found on the walls, where it had been placed years ago, and it was yet in readable condition.

C. W. Goff of Bronte was here the latter part of last week visiting his cousin, Mrs. S. C. Auld. Mr. Goff is editor of the Bronte Enterprise.

easy divorce laws, the hip flask, knee-length skirts, and high-speed automobiles which grew out of the last war.

"Don't expect the sociologist, policeman and the jurist to do this job for you. There is only part of the job, and they are definitely limited by the support which you give them. Don't expect your schools, churches, social and fraternal organizations, press and radio to bear the burden. They, too, are limited by the support which you give them."

"If this new future becomes a reality, it will be because you, the people, either wanted it to be so or negligently failed to prevent its being so.

"The decision is yours to make.

NOAH DIDN'T WAIT FOR THE RAIN BEFORE HE BUILT THE ARK

Don't wait until your house burns down or your car wrecked before you take out an insurance policy. THINK THIS OVER and SEE US BEFORE IT IS TOO LATE.

INTERESTING FACTS OF THIS AND THAT
Mussolini was retired as Italian dictator two days before he reached his 60th birthday.
Hamburg, which was totally destroyed in one of the biggest air raids of the war, was a city of 1,682,000 population.
The re-classifying of pro-Pearl Harbor fathers aged from 18 to 37 from 3-A to 1-A for induction has been ordered by draft headquarters to begin October 1.
Houston, New York's inner city of Negroes, has a Negro population of 300,000.
At the present time there are about 52,000,000 persons employed in this country, 16,000,000 of whom are women.

What You Buy With WAR BONDS

Booby Trap Detector
In the snow, in the sand, on the beaches, on the roads, in the woods, everywhere the Axis soldiers hide "booby traps," to slow the movement of oncoming fighting men of the United Nations. The detector does the same work on land as the mine sweeper does at sea.

Like buying War Bonds, the soldier operating the detectors will never know just how much they have aided in the success of their campaign, but he knows his work is necessary and must be accomplished. If more Americans on the home front will come to realize this, the success of our War Bond campaigns will be assured.

NO ABSENTEEISM FOR THIS WORKER
Never late for work in his more than 30 years of service and absent only seven days (when his wife died in 1940) in all those 11,000 days is the record of Mike Rakvitz, General Electric forge worker in Schenectady, N. Y., who has just retired.

LIFE INSURANCE

When buying this all important coverage Let this office Sell you a Policy Representing only Legal Reserve companies. Leo Spencer

DO YOU KNOW THAT.....

The Red Cross home nursing course, intended to increase self-reliance in the face of illness, is particularly important when community medical, nursing and hospital facilities have war emergency limitations. The Red Cross has special visiting nurse service in communities adjoining eight large military camps in the midwestern area, providing "stork aid" to soldiers' wives and bedside care for members of their families who become ill in their temporary homes in the war-congested centers. The 5,300,000 pints of blood which the American Red Cross has been asked to obtain to date to help save lives of the wounded will amount to more than 2,000 tons in all. During the floods of May and June, the American Red Cross provided 134 mass shelters to house persons made homeless in six states. Emergency assistance was needed by 23,843 persons.

Exit Camilli

After trying for two hours to convince Dolph Camilli (right) that he should not quit baseball, Mel Ott (left) bids him a sad farewell. Camilli announced his retirement.

Experiments show that fresh frozen cream will keep indefinitely. Stock piles of fresh frozen cream are being accumulated in the dairy belt for export.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Ration Reminder
Gasoline—In 17 states of eastern shortage area A-6 coupons are now valid. In states outside the eastern shortage area A-7 coupons are valid through September 21. B and C coupons expire according to dates on individual books. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

Fuel Oil—Period 5 coupons in old rations remain valid through September 30. Period 1 coupons in new rations are valid now. Occupants of oil heated homes are urged to return their applications for next year's fuel oil to their ration boards promptly and when issued new rations to place orders with their dealers for summer fill-ups.

Sugar—Stamp No. 14 good for five pounds through October. Stamps Nos. 15 and 16 are good for 5 lbs. each for home canning purposes through October 31. Housewives may apply to their local ration boards for more if necessary.

Shoes—Stamp No. 18 (1 pair) is valid through October 31.

Stoves—Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing boards.

Meat, Etc.—Red stamps T, U, V and W valid through August 31. X valid through October 2. Y becomes valid August 29. Z becomes valid September 5, and both remain valid through October 2.

Processed Foods—Blue stamps R, S and T remain valid through September 29. U, V and W become valid September 1 and remain valid through October 29.

Urges Cut in Labor Day Travel
Stay off trains and inter-city busses over Labor Day week-end—this is the plea of Joseph B. Eastman, Director of the Office of Defense Transportation. Mr. Eastman, in asking the public to spend Labor Day week-end at home, said that failure to follow this advice might result in travel congestion worse than that experienced over the Fourth of July week-end. Mr. Eastman pointed out that formerly available for holiday travel is now in troop service

"B" and "C" coupons become invalid September 1, and gasoline dealers cannot accept them on and after that date. The old type coupons are identified by the words "Permits Delivery of One Unit of Gasoline." The new type say "Mileage Ration" plus a large "B" or "C."

Wheat Goals For 1944
State wheat acreage goals for 1944, representing an apportionment of the national goal of 68 million acres—26 per cent above this year's seedings—were announced recently by the War Food Administration. County goals will be established on the basis of these state figures and will constitute the wheat goals farmers will be urged to meet in 1944. In broad terms, the WFA advises farmers to plant as much wheat as possible without departing from sound farming practices and after reserving sufficient land for expanding other urgently needed crops.

Address Overseas Mail Properly
Because more than 10 per cent of the mail destined for overseas is incorrectly or insufficiently addressed, the War Department has asked that the sender be sure to give the soldier's rank, name, army serial number, organization and army post office number. Following is a model address—
Pvt. John Doe, ASN 1234567890
Bat. B, 22th Field Artillery Bn.
APO 29, % The Postmaster,
New York, N. Y.

The War Department also asked that families and friends of soldiers send clippings instead of periodicals whenever possible to save cargo space.

Farmers Will Need Help
Harvesting America's war-time food and fiber crops will require the employment of at least 750,000 more persons on farms by October 1. The farm labor force on August 1, was approximately 11 million. Throughout the country, business men, girl scouts, boy scouts, townspeople, women, and high school students have been helping farmers. To insure that there will be no important crop losses because of labor shortage, farmers will need the help of many thousands of U. S. Crop Corps volunteers. The Crop Corps is established now in most agricultural counties and civilian groups in most large cities have the machinery for enlisting volunteers. Recruitment of workers is handled locally by the agricultural extension workers and the U. S. Employment Service. Volunteers are paid established wages.

Special Ration Coupons
Individuals who require special ration point allotments, such as persons in isolated areas who must buy large quantities of rationed foods at one time, are to be provided with a new type of red and blue food ration coupons, according to OPA. They will be used the same way as stamps, but will be good at any time. Ration coupons may be issued by local boards and OPA offices.

More Nurses Needed
Many American hospitals cannot maintain normal standards of service today because of the lack of nurses, according to reports made to the U. S. Public Health Service of the Federal Security Agency. A year from now America will need 350,000 nurses—or 100,000 more than are now available. Of this number 66,000 will be needed for military service and 293,000 for civilians. Because of limited facilities, the maximum that can be trained within this period is 65,000.

Seed For Potatoes
To help potato growers get reliable seed for 1944 plantings, a new seed classification—War Approved Seed—has been created, the War Food Administration said recently. War Approved Seed will identify that part of the 1943 late crop that is valuable for seed but that has a higher tolerance of defects than certified seed. Price ceilings, to be announced later by OPA, will be placed on both types.

To Run Sicily

Wesley A. Sturges, who was named by the state department as an overall director to assume charge in Sicily when hostilities end. He has been working for the Office of Economic Warfare in Africa.

Deaths from Cancer in Texas Increased During Last 10 Years

Austin.—A steady increase of deaths in Texas from all forms of cancer is disclosed by the fact that over 45,000 persons have died from this dreaded disease within the last 10 years, according to Dr. Geo. W. Cox, State Health Officer.

"The public should be warned against cancer 'quacks' and so-called cancer cures," Dr. Cox said. "Advertising of medicines and so-called cancer doctors puts dangerous misinformation before the public. Undoubtedly," Dr. Cox declared, "there are many persons who being thus delayed in seeking proper medical advice, unnecessarily lose their lives to this disease."

According to the State Health Officer there are two recognized scientific ways of treating cancer; namely, surgery and the use of radium and X-ray. Treatment must be started early and be carried out by a competent surgeon. In almost two-thirds of the cases, surgery is relied upon to remove cancerous growths, while X-ray or radium is used to good advantage in approximately one-third of the cases successfully treated. Frequently the two methods are combined.

"The greatest defense against death by cancer is early diagnosis," Dr. Cox stated. "Every case is an acute emergency demanding instant attention, and it is unfortunate that so many persons suffering from cancer do not seek medical advice until beyond possibility of cure."

Dr. Cox pointed out that any unusual bleeding from any body cavity, any lump in the breast, or any surface sores, especially on the face and mouth, changed appearance of any wart or mole, and even chronic indigestion may be symptoms denoting the presence of cancer.

"Where cancer is suspected, do not delay but consult your physician at once," Dr. Cox advised. "Self-medication, serums, colored lights, pastes, salves, and ointments are absolutely worthless in the treatment of cancer."

THOUGHTS OF SERIOUS MOMENTS

Applause waits on success; the fickle multitude, like the light straw that floats along the stream, slides with the current still, and follows fortune.—Franklin.

True glory takes deep root and spreads its branches wide; but all pretenses soon fall to the ground like fragile flowers, and nothing counterfeit can be lasting.—Cicero.

It is not to be imagined in how many ways vanity defeats its own purpose.—Lord Chesterfield.

What You Buy With WAR BONDS

Para-Ski Troopers

When will this war end? Nobody knows, so the Army is continuing its training of Para-Ski Troopers. They're parachute troops who know their way about on skis or any other place in snow covered mountainous country.

A great measure of the success of Russia's victories last winter is attributed to these troops who move with the silence of a snowflake. Our work on the home front is not so hazardous as that of the Para-Ski Troopers but it is important that we perform our daily tasks and make every effort to increase our regular purchase of War Bonds.

U. S. Treasury Department

Guides Convoys

Adm. Sir Max Horton of the British navy's operations department poses in front of a map on which is charted the positions of convoys en route to England. This work is highly confidential and a mistake might result in the death of many seamen and loss of ships and ammunition.

SAFETY SLOGANS

A coat of tan should be secured gradually.
Never dive until you know how deep the water is.
Every cut or scratch is an open door to infection.
It is always dangerous to clean clothing with gasoline.

Steel production in this country has reached an all time high of 31,330,700 tons annually.

Your Horoscope

August 23, 24, 25.—You are a great lover of nature and long to be out of doors. You are a deep thinker, sound reasoner, and logical in your judgments and opinions. You have a keen interest in everything except the private affairs of others. Whether a friend or associate, you are a valuable member of society as you have great capacity for enjoying the blessings of life.

August 26, 27, 28, 29.—You are usually successful in business and are fond of the comforts and good things of life. You want the best of everything in the way of material things, but are not extravagant. You do not often deprive yourself of the luxuries of life from choice, nor hold your

nose to the grindstone. You like the sensation. You are a great reader and generally informed, would make a proofreader or manuscript editor as no error in grammar or expression is apt to escape you.

SCOTCH

Saving for a rainy day dividends recently when the General Electric Company was down of at least two days because of a tiny lockwasher temporarily out of stock. About 100,000 people would have had to leave home, and production of instruments would have been delayed. To the rescue came the department foreman with the key on work benches and supplied empty stock boxes. Production was maintained until another pry arrived.

Let Us Do Your Laundry Work

Laundry work from the people of this territory is respectfully solicited. Truck makes one trip each week, Monday. Efficient service in every particular is our aim.

Notice to Subscribers

Owing to the fact that the Government is requiring all newspapers to cut down on their use of newsprint, and also the fact that newsprint is advancing in price, The Foard County News will not offer a bargain price of \$1.50 per year during the fall months, as it has been doing for many years. Conditions will force us to charge the regular price of

\$2.00 per year in Foard and adjoining counties, including Zone 1,

and the price outside the local territory will be as follows

\$2.50 per year
\$1.35 Six months
.75 three months

This problem has been facing us for several months and was considered from every angle before the decision was made to charge the regular price for yearly subscriptions in the county and adjoining counties and to raise the price on papers going to distant points. We do not believe our friends and customers would want us to take subscriptions and conditions become such that it would make it hard for us to carry out the contract. When we take a subscription for a year we are making a contract with some individual to send him the paper for a year, regardless of what may happen. That's the reason it is necessary to be cautious at a time like this when general conditions are so uncertain.

Some daily papers have ordered agents not to take orders for any new subscriptions; however, renewals will be accepted.

We appreciate the excellent subscription business extended to this paper the past year—it has met with our fondest expectations during the past few years, for which we are deeply grateful. We expect to put forth every effort possible to print a weekly newspaper worthy of the patronage it now receives and it is on this basis that we solicit the renewal of subscriptions.

Respectfully yours,

THE FOARD COUNTY NEWS

"THREE O'CLOCK . . . AND I HAVEN'T SLEPT A WINK"

WAKEFUL NIGHTS—how the time drags! Minutes seem like hours, we worry over things done and left undone. After such a night, we get up in the morning more tired than when we went to bed. Nervous Tension causes many a wakeful night and wakeful nights are likely to cause Nervous Tension. Next time you feel Nervous and Kept Up or begin to toss, tumble and worry after you get to bed—try

READY FOR THE HOP TO BRITAIN

THE Canadian-built and Canadian-guarded outpost at Goose Bay, Labrador, is one of the world's largest and most important air bases. From this vital field, the Royal Canadian Air Force, with the cooperation of the United Nations Air Forces, deliver the necessary ships to embattled Britain. While these "Flying Forts" are being serviced, as shown above, previous to their take-off, Canadian soldiers carefully stand guard by them. Before leaving, inset, pilots get their last-minute instructions from Captain Cardiff of Los Angeles, California, who has well over 10,000 flying hours and several trips across the Atlantic to his credit.

Experience tells us that while

we may worship anywhere, we

are helped to do so by proper

surroundings. We are told to

"come into his courts" (v. 8) and

to worship "in the beauty of

holiness"—in holy array (v. 9).

We are to ascribe praise and

glory to our Lord among our

family (v. 7), as well as in

"his courts."

One of the outstanding ways

of worshiping is to "bring an

offering" (v. 8), which means

more than casually slipping a

small coin in the collection.

If our "offerings" are lib-

eral and regular, the church

will be able to send the

news that "the Lord reigneth"

to the whole world (v. 10).

A world which has felt the

blow of man's sin and his

suffering from all his wicked-

ness and destructive

violence will so rejoice in the

righteousness of God's

judgment that even the

realm of nature will

break into joyous worship

(v. 11-13). Can man then

hold his peace? Let "mortal

tongues awake" and "all that

breathe partake" in whole-

hearted worship of God.

J. A. STOVALL,

Clerk, District Court,
