# Would your car take-off and fly will, Mr. and Mrs. 100-0CTANE GASOLINE LIBERT TENNE TO THE CHARLE GUINN HIS CHARLE GUINN TEXAS TO THE CHARLES TO TH

"I had a strange dream last night," said the A-Card Driver. "Somehow I got a tankful of 100-octane gasoline; and when I left the gas station, my 1939 puddle-jumper had such fantastic pep and power that it took-off and sailed right over the head of the traffic cop.

Strange dream is right! Because strange as it seems, today's 100-octane aviation gasoline will not greatly improve the performance of today's cars. Your present engine was designed for the gasoline which was available at the time you bought your car, and 100-octane would add little or nothing to its satisfactory operation.

When victory comes, however, automotive designers will undoubtedly develop smaller, much higher compression engines which will deliver remarkable mileage and power with post-war super fuels.

When that day arrives, Phillips will be ready . . . because Phillips was one of the first, and remains one of the largest makers of high octane aviation fuels. Phillips present production of 100-octane gasoline could fuel

enough Flying Fortresses to drop 600 to on Berlin daily. And soon the figure wil up to an equivalent of gasoline suffici

### Announcement of Sen. Geo. Moffett for Congress

Friends of State Senator George Moffett, farmer-legislator of Chil-licothe, Hardeman County, often called "Cotton" George because of his long struggle to develop broader uses of cotton, have au-thorized the placing of his name in our announcement column as

candidate for Congress from the 13th District. Senator Moffett s an active member of the State Senate, stands high among his colleagues, and is considered an independent thinker. known over the district, and also stands high in his own county, where he received over ninety per cent of the votes in the contest in which he was elected to the State Senate. His statement follows:

"For many years I have gained valuable experience in public af-fairs, as a member of the Texas Legislature. I am now Chairman of three important Senate committees, and a member of ten others. I have often taken the lead for farmers, small business-

"I was born near Chillicothe, Hardeman County, forty-eight the new oil pools, and should be years ago, I am married, and have two small children. My father came from Ellis County over fifty years ago, and still owns the Hardeman County homestead which he bought then. He always insisted that work is a necessary part of living, and I am no stranger to it. At the age of fiifteen I left home, and finished high school at Chico, in Wise County. After serving in World War 1, I worked for several years at Graham in Young County. I believe that

my lifelong acquaintance over the district and my past experience in both branches of the Texas Legislature, qualify me to represent the 13th District in Congress. "During the campaign, I will discuss other issues, and enlarge upon the following:

"First, nothing should be allowed to hinder the early and successful conclusion of this war, with the least possible loss of life

and waste of money. "Second, we must do full justice to the men and women now serving their country. Those disabled must have the best care and treatment possible to give them. Under no circumstances should this be

neglected. Also, the Federal Government must provide for the completion of the education of those who wish it, when they return, and for suitable employment for those not wishing further schooling. Many other matters will arise regarding those so deserving at our hands, and any doubt should be resolved in their

"I have often been the author of bills in the Texas Legislature to help veterans of both World expect to continue m efforts for them

"I served in World War 1, and think the grief of a World War every twenty-five years must be stopped. I do not believe that peace can be maintained by paper One spent Sunday night with Pauline Miller.

Mr. and Mrs. G. R. Kasparek of San Diego, Calif., announce the birth of a son Feb. 29. Mrs. Kasparek will be remembered here as Miss Minnie Ward.

Dinner guests in the August Rummel home Sunday were his mother, Mrs. Lena Rummel, and Bill Rummel and family of Vernon and a sister, Mrs. A. T. Bodling, and family of Lockett.

Mr. and Mrs. Harry Simmonds and son, Jimmie, of Fort Worth and Mr. and Mrs. Harry Simmonds of Levelland spent Sunday night in the Horace Taylor home.

Mr. and Mrs. Meivin Barnes and children and Mr. and Mrs. T. C. Pope and children, Kenneth and Frances, spent Sunday with Mrs. Autry Pope of the sold at public auction to the backed by military preparedness. we will not be the victim of another Pearl Harbor nor another Bataan. The present war with Japan might have been avoided, if Congress had fortified our Pacific outposts in keeping with the been small then; now it is costing many lives and billions of dollars to retake these outposts.

"At the close of the war, landowners, who have been dispossessed of their homes and farms, for war purposes, should have the prior right to repurchase them without price increase. Idle government-owned war plants should be sold at public auction to the One spent Sunday night with treaties alone, but if they tare

be sold at public auction to the highest bidder, rather than at private sale to those with political influence. Definite opportunity should be provided for the little man to buy surplus war materials, the same as a corporation that maintains a lobbyist in Washing-

"In fact, the little man must always be given full consideration, for his prosperity is the salva-tion of a democratic form of government. War conditions have squeezed the little businessman, salaried people, and the small farmer very hard, and proper consideration absolutely must be given them. en them, from now on. Equality of opportunity is necessary if democracy is to survive. "We need less unnecessary

meddling and red-tape. This country has been built from the bottom up, and not from the top down, as regulation from Washington tries to do.

"Income tax reports should be made simpler, so that the average man and woman can make them out. Women have certainly done much to help win this war and no further effort should be made to abolish their right to make separate income tax returns. Taxes must come down after the war. "Turning back our clocks brings

about general dislocations, during the winter months, which cripples, instead of helping the war effort. Daylight saving time was not used during the winter season in the other World War, and should not

be now.
"Scientific research has produced many substitutes besides duced many substitutes besides synthetic rubber, and there will be efforts to develop synthetic substitutes for cotton, leather, and other farm and ranch products. Science should be freely used to help broaden the market for farm products, just as it has

Keep in mind, too, that tiny

When these vegetables are young and "new," they give off little or no odor even if cooked with very little water. When they are older and stronger in flavor, odors can be avoided gentle of the stable of tablished grasses. So remove all Bermuda, Johnson, coco, or nut grass. Don't turn them under. Finally, supply your soil with some plant food. If rotted manure is available apply 50 pounds

#### CHOOSE GOVERNMENT NOW

Fifteen states have endorsed the proposal to limit by Constitu-tional amendment the peacetime taxing power of the Federal government to twenty-five per cent on incomes, gifts, and inheritances. The issue is not merely one of taxes. The people of this country must decide what kind of government they will have after the war.

Robert B. Dresser stated the issue clearly when he said: "Necessarily involved in this controversy as to taxes is the question of

thority, they fear and oppose the steps which thus far have been taken here, to enlarge the dominion of the Federal government suggests using plants. Old stand-

#### Sugar Shorter

No encouragement to the proverbial big American sweet tooth s offered by the 1944 sugar allocation for the home front, an-nounced by the War Food Admin-istration. The cut in sugar for all civilian uses this year will be about 6 per cent. This will mean that the individual will get about 6 pounds less sugar in the soft drinks, candy, cookies and other manufactured sweets he buys in the course of the year, but his regular rations of sugar will not

Demand for sugar this year is heavier because the armed forces and allies need more. The supply is smaller because a large tatoes, and the Irish Cobbler for quantity of sugarcane must go instoring. The Katahdin is a new The Cuban sugercane which will go into alcohol this year would produce about 800,000 tons of As a reserve for alcohol sugar. manufacture some 200,000 tons of Cuban raw sugar will be set aside Last year most of the industrial alcohol was made from grain, but the supply of grain will not be enough to meet needs for food and feed and also for alcohol which must be produced in so much larger quantities this year.

#### Victory Garden Reminders

Here is a good gardening rule to remember: No vegetable grows better than the soil in which it is planted.

So, if you're in a hurry to get things planted, call a halt until you're sure the soil is properly prepared. You can make sure by Save the Heat, Spare the Smell

Blame the cook rather than the literature of the Texas A. & M. Col-

Kan., visited in the home of Miss When the house reeks of cabbage, First, try the "gardener's Boman's aunt, Mrs. Grover Cole, or when the rank smell of frying squeeze." Pick up a handful of and Mr. Cole, Saturday. Miss fills the air, the cause is usually soil and squeeze trin your fingers.

Boman left for New York Monovercooking or cooking at too If the soil sticks together, it's still high heat. The so-called strong-

Your soil should be plowed or spaded at least five or six inches deep. And 10 inches would be er, not soft and mushy. Boiling better. Deep tillage brings warm air into the soil and raises its or so breaks down the sulphides temperature. That's important,

Keep in mind, too, that tiny seed can't compete with well es-

nure is available apply 50 pounds per hundred square feet before the garden is plowed. Town or city gardeners may need to rely on compost. And in sandy areas, commercial fertilizers analyzing 5-10-5 may be applied by Victory gardeners.

Some of the hardier vegetables now may be planted in Victory gardens.

English peas, beets, carrots, must decide what kind of government they will have after the war.

Robert B. Dresser stated the issue clearly when he said: "Necessarily involved in this controversy as to taxes is the question of whether our system of free enterprise is to be replaced by national socialism. Under free enterprise the capital required to rate of five pounds for each hun-

terprise is to be replaced by hational socialism. Under free enterprise the capital required to provide jobs is furnished by the individual, and ownership of the business is in him. Under socialism the capital is furnished by the government, and it becomes the owner."

There is only so much capital in the nation. If the taxing policies of government result in government absorption of private capital, the nation automatically becomes socialistic. This country is headed that way. American Federation of Labor spokesmen observed in 1940: "As labor and industry survey what has happened to labor and industry in those lands where all powers have been concentrated in the central authority, they fear and oppose the steps, which thus far have been considered from seed should be unanted as planting will avoid that the plants of the grant the rate of five pounds for each hundred feet of row space. The Bliss Everbearing English pea is a good variety for Foard County.

Both types of lettuce—head and leaf—should be in every Victory garden this year. The head variety is a cool season plant and should be started early, while leaf lettuce may be planted later in the season. The best heading varieties are New York, Los Angeles and Big Boston. Like English peas, lettuce requires a rich soil for rapid growth. When two or three inches tall the plants should be thinned to a spacing of six inches in the row because they will not head when crowded. Hot weather, too, prevents heading, but early planting will avoid that.

Onlong grown from seed should be planted early but if the grant the feet of five pounds for each hundred feet of frow space. The Bliss Everbearing English pea is a good variety for Foard County.

Both types of lettuce—head and leaf—should be in every Victory garden this year. The head variety is a cool season plant and should be started early, while leaf lettuce may be planted later in the season. The best heading variety for Foard County.

Both types of lettuce—head and leaf—should be in every Victory garden this year.

minion of the Federal government over the lives and fortunes of the American people."

Since 1940, momentum toward the socialized state in America has increased—wholly apart from the war emergency. — Industrial News-Review.

suggests using plants. Old standbys in beets and carrots are preferable and plentiful this year. Use the Detroit dark red beets or Crosby's Egyptian, and the Denver's half long carrots or the Chantenay.

Forget the old superstition

#### TWINS OF C. H. S.

"Partly by the accident of their birth and partly because of the easy wonder they excite in fellow men, twins are unusual people The accident itself is not uncom-mon. In the U.S. it happens once in 87 births giving the nation a twin population of almost 2,00,-000 individuals. Twinning is thus just rare enough to give its offspring a special place in family. school and community life and to surround them with an extensive lore in which fact, illusion, superstition, and tradition are all

mixed up. (From Life Magazine).
This brings to our minds the twins of CHS. They, too, are unusual people. First because they are twins, and second because they attend Crowell High.

(Ahem) A well known set of twins are

## **Weekly Sermon**

By the Rev. Wendell P. Loveless, Director of WMBI and WDLM,

Chicago. A Normal Christian

picture book to help us see some COUNTY of FOARD. of His glorious truths. In Deuteronomy 33:24, 25 we have a picture of a normal Christian-what God expects us to be as representatives of Him in this world: "And of Asher he said, Let Asher be blessed with children; let him be acceptable to his brethren, and let him dip his foot in oil. Thy shoes shall be iron and brass, and as thy days, so shall thy strength

en you...that ye should go and bring forth fruit" (John 15:16). As the rest of John 15 shows, only as we abide in Christ can we be fruitful. It is not our working for Christ, but His working

through us that produces fruit. The normal Christian has a good testimony — "acceptable to his brethren." It is a fine thing to be able to stand up in a meeting and give a reason for the hope that is within us. But it is even more important to live our testi-mony. If we claim to be genuine, let us live genuine lives.

A normal Christian is one led by the Holy Spirit—"dip his foot in oil." Paul admonishes, "Be COUNTY of FOARD. not drunk with wine, wherein is excess; but be filled with the Spirit" (Eph. 5.18). It is not a ter of bringing ourselves to Him, for His power, His direction, His complete control of every department of our being. As we confess every known sin, thus receiving forgiveness and cleansing (I John 1:9, and as we recognize that He is the One who can guide and empower us in service and then yield ourselves to Him, He fills us to overflowing, that in the overflow others may be saved and

blessed. of the normal Christian. They erty taxpayers therein, and who are durable — "shoes...iron." have duly rendered their proper-god doesn't give us smooth roads to travel, for we are told that "in for the issuance of the revenue the world ye shall have tribula-tion." But God does give us the ing amount and for the following tion." But God does give us the ing amount and for the following kind of shoes that enable us to purpose, to-wit: "run the race with endurance" (Heb. 12:1). The shoes are also beautiful—"shoes . . . brass." It is God's purpose that the Christian's walk should be contained by the purpose of improving, enlarging and extending the Waterworks System of said City. tian's walk should encourage and

true of us is because "as thy days, and none voting "No." so shall thy strength be." And And, Thereupon, that strength is a Person—"the Lord is ... my strength" (Ps. 18:2); and the Lord is ... my strength of submitting the proposition to of Crowell, and at the City Hall, same—"as thy days"

### me—"as thy days." What a God is our God!

Soil Conservation

Board of lexas Notice of hearing upon organization of proposed Lower Pease River Soil Conservation District, embracing land lying in Foard and Hardeman Counties, Texas.

Whereas, on the 26th day of February, 1944, there was duly filed in the office of the State Conservation Board, at Temple, Texas, a petition signed by fifty or a majority of land owners pursuant to the provisions of the State Soil Conservation Law, as enacted by the 47th Legislature, known as

er Soil Conservation District; and Whereas, the lands described by said petition, and other lands which will be considered for inclusion in said district, are located in Foard and Hardeman Coun-

follows: Foard and Hardeman Counties. Now, therefore, notice is hereby given that a public hearing will be held pursuant to the said petition, on the question of the desirability and necessity of the creation of such district; on the question of boundaries to be assigned to such district; upon the propri-ety of the petition, and of pro-ceedings taken under the said Act. The said public hearing will be (\$130,000.00), maturing serialto such district; upon the propriheld by the State Soil Conservation Board on the 21st day of March, 1944, beginning at 2

o'clock p. m., at Crowell in the county of Foard. All interested parties are invited to attend and will be given opportunity to be heard at the

State Soil Conservation Board. By V. C. Marshall, Administrator. Dated this the 1st day of March, 1944.

#### Typhoid Fever May Become Major Health Menace in Spring

Austin.-With the approach of spring and summer, an increase in ate such storms eve the incidence of typhoid fever may be expected, but under wartime conditions it can very easily become a major health menace,

Texas can be traced to a supply of contaminated water or food, Dr. Cox said. "Some cases, of course, occur by direct contact with patients or their excreta, usually when sanitary conditions surrounding the patient are bad.'

Dr. Cox said that individual water supplies which are poorly located and wells improperly inclosed may receive surface drainage and pollution; therefore, springs and wells should be protected adequately. Sanitary pi privies or septic tanks also help protect wells and springs from pollution. There is real danger in the seepage from poorly con structed or delapidated privies Fly screens and covered toilet seats help in warm weather to keep bies from breeding in toilets and carrying infection to food.

Carriers or walking cases never should be food handlers. A car rier, the doctor said, is a person who harbors typhoid germs in his body, though having no symptoms of the disease. Typhoid fever is was elected sponsor and Miss Mil- one of the many infections that dred Cogdell was elected treas- can be carried by raw milk. Pasteurized milk therefore should be used, since pasteurization kills disease organisms if they are present in the raw milk.
