Coiffures for Combat and Comfort

Comfort and the exigencies of combat, rather than convention, dictate the hair styles of our fighting men. Dazzling and sometimes daffy are some of the examples of tonsorial work encountered in fighting zones. Above are a few, photographed aboard a transport in the South Pacific.

In Service First Donations of Blood Made by Foard Citizens

Pvt. Laura B. Whitfield, daughter of Mr. and Mrs. J. A. Whitfield, has been assigned to the Army Air Base at Rapid City, S. D., after having completed her basic training in the WAC at Fort Oglethorpe, Ga. A release from the Public Relations office at the Air Base has sent a picture of several of the girls providing music for religious services at the base.

S-Sgt. and Mrs. Allison Denton and small daughter, left Thursday for their home in Greenville, S. C., after spending a 15-day furlough with Mrs. Denton's sister, Mrs. Henry Fish, and family and with Sgt. Denton's uncle and aunt, Mr. and Mrs. R. B. Lilly, of Foard City. On their way to South Carolina they stopped in Fort Worth to visit Mrs. Denton's parents, Mr. and Mrs. C. C. Martin.

Pvt. Allen Cogdell, formerly of Paducah and son of Mr. and Mrs. W. A. Cogdell of Crowell, upon completion of highly technical instruction in the procedures of Army Postal operations at the Quartermaster School at Camp Lee, Va., is qualified to serve as an Army postal clerk wherever the Army fights, it has been announced. Pvt. Cogdell at present is at home on a furlough visiting his family and parents.

Pfc. Addie Brisco of the Woman's Army Corps, who is stationed at the Big Spring Bombardier School at Big Spring, returned to her base yesterday after spending a week here visiting her parents, Mr. and Mrs. Elmer Brisco. She also visited her brother, Riley Griffin, and wife in Houston.

Cadet Billie E. Diggs, son of Mr. and Mrs. John P. Diggs of Crowell, has reported at Carlisle, N. M., Army Air Field, where he will receive advanced flight training in high-level bombardiering and dead-reckoning navigation, it has been announced from the headquarters of the Carlisle Army Air Field at Carlisle, the newest bombardier school in the Army Air Forces Training Command.

Aviation Cadet Raymond S. Joy, son of Mr. and Mrs. C. C. Joy of Crowell, has successfully completed his basic flying training at the Lemoore Army Air Field at Lemoore, Calif., and now takes his final hurdle at an Army Air Forces advanced flying training school before receiving his silver wings, according to information received from the Public Relations office. Before entering the service, Cadet Joy attended Texas A. & M. and Tyler Commercial College and was employed by the San Antonio Air Depot.

The following news release was received by The News from an Eighth AAF Bomber Station in England: As the world reads of the repeated successes of Eighth AAF Flying Fortresses in their ever-mounting bombing assaults on vital Nazi targets in Germany and the occupied countries of Europe, few realize the important part played by the men who work through the long, chilly English nights preparing the giant bombers for their missions of destruction. Tech. Sgt. Leo E. Gafford, 22, son of Mrs. C. E. Gafford of Crowell, is one of those unsung heroes who are fighting the aerial war down on the flying line at this base in England. As night falls, they start work, loading bombs, filling gas tanks and making last-minute mechanical checks on the Forts prior to their early morning take-off. Fully realizing the importance of their work, the men perform their duties cheerfully, despite the hard work and long hours. Sgt. Gafford, a crew chief, is responsible in seeing to the repair of any, or all mechanical deficiencies. It is his duty to check the work of his crewmen, as they keep the Fort in perfect operating condition and ready for a take-off at any time.

Pvt. Billy Joe Cox, who is taking his basic training at the Amarillo Army Air Field, returned to Amarillo today after spending a 10-day emergency furlough here with his parents, Mr. and Mrs. W. M. Cox.

Cpl. Harold Canup, who is stationed at Fort Sill, Okla., spent the week-end here in the home of his parents, Mr. and Mrs. G. M. Canup. He was accompanied by a friend, Pvt. George Davis, also stationed at Fort Sill.

The News had a letter from Lieut. Riley Griffin, son of Mr. and Mrs. W. B. Griffin, saying that the paper was a welcome visitor when it arrived at his address in New Guinea, although some times it takes quite a while for it to get there. Lieut. Griffin says that operations are going pretty good in New Guinea. He is attached to a company supplying automotive and weapons parts to the Fifth Air Force.

Pete Bell, storekeeper first class in the U. S. Navy, arrived here Sunday from Panama. He is attached to the 15th Naval District. He is visiting his wife and daughter, Miss Sandra, and other relatives and friends in Crowell, while

Lt. Albert M. Cox, U. S. Army Pilot Stationed in England, Was Killed in An Airplane Accident on Saturday, April 8

A telegram from the War Department to Mr. and Mrs. W. M. Cox announced that their son, Lt. Albert M. Cox, had been killed in action in defense of his country in England on April 8th. The message was received Saturday.

Lt. Cox had been in the European theatre of action since Feb. 23, this year. He flew across in the squadron of Capt. James Joy, having been a member of that squadron. Albert M. Cox was born in Foard County on Nov. 26, 1922. He attended school at Claytonville, Foard City and Crowell. He volunteered for service in the Armed Forces in October, 1939, and was sent to Fort Sill, Okla. He was in the Artillery and was transferred to Fort Leonard Wood, Mo., to help organize the 6th division. At a later date he

was promoted to the rank of Staff Sergeant and sent to Camp Barkley, Abilene, to assist in organizing the 90th division. He qualified as an aviation cadet on Oct. 2, 1942, and reported to San Antonio, Randolph Field, for pre-flight, then to Tulsa, Okla., for primary, to Winfield, Kan., for basic, and Eagle Pass for advanced training where he received his wings as a fighter pilot and a commission. He then was sent to Shreveport, La., to train as a bomber pilot. From there he was sent to Battle Creek, Mich., and Anence overseas. He left the States Feb. 17, and arrived across the 23rd of February.

The crash in which Lt. Cox met his death occurred just as the plane took off from the ground. The plane crashed and two bombs exploded, causing the death of Cox and three other men. Two men survived and are now in the hospital.

Considerable Damage Done to Lanier Building and Winningham's Hardware Store by Fire Early Tuesday Morning

Fire of undetermined origin broke out in the Lanier building occupied by Q. V. Winningham with a hardware and furniture store, at an early hour Tuesday morning and did considerable damage to the building and to the stock of Mr. Winningham. The fire seemed to have started under the stairway at the front of the building, which is a two-story structure in the center of the west side of the square.

The fire smoldered in its first stages and filled the adjacent buildings with smoke. The plate glass windows of the Winningham store and the empty building were

broken out in order to reach the fire with the hose. The Ferguson Drug Store was filled with smoke to the extent that some damage was done to the contents, but not of a serious nature. The stock of goods in the Winningham store was ruined by fire and water to the extent that the business is closed and will be sold out as damaged goods.

The fire started at about 1 o'clock and the Crowell fire department seemed to have it under control but at about 2:30 o'clock, the fire broke out again and the Quannah Fire Department was called for fear the blaze got out of control. The Quannah Fire Department made a record run over here and was of great benefit in finishing the extinguishing of the fire. The general comment is that if the fire had started on a night or two previous when the wind was blowing a gale, it would have been of a much more serious nature. Many expressions of appreciation to the Fire Departments of both Crowell and Quannah have been heard during the week.

Mr. Lanier has not made known any plans for rebuilding up to this time. Mr. Winningham says that he will start his business again at the earliest date with a new stock of merchandise. He states that his damage was from 50 to 75 per cent and partially covered by insurance.

The insurance office of R. R. Lanier, located in an upstairs room of the building, was not damaged by the fire.

Cafe Remodeled, Painted and New Features Added

The DeLuxe Cafe on the north side of the square has recently been redone throughout. The cafe belongs to W. A. Wilkins and the property belongs to S. Bell. It has been closed for the past week but was re-opened Monday morning.

A new coat of paint has been applied to the entire interior with a black and white color scheme being used. Several booths have been added to the banquet hall and places for approximately fifty people have been provided. New draperies have been placed at the windows and openings.

A new floor covering has been put on the front of the building while the floor of the banquet hall has been resanded.

The kitchen has been thoroughly renovated. A new cook stove has been installed, a new refrigerator has taken the place of the old one and a new crushed ice container has been placed in the cafe.

Mrs. Allie Pike, Mrs. Bessie Green, Mrs. Orville White and Miss Edith Fox serve as waitresses for the cafe.

Revival at Methodist Church Under Way

The revival which commenced at the Methodist Church last Sunday has progressed thus far with fair crowds attending the services. Mr. and Mrs. Horace Erwin arrived Tuesday afternoon and took charge of the music for the meeting Tuesday evening. Rev. R. S. Watkins, pastor of the church, is doing the preaching.

Morning services are held each morning at 10 o'clock at the Rialto Theatre with Mr. Erwin in charge. Mr. and Mrs. Erwin are excellent musicians. He directs the choir singing, does solo work, plays the trombone and works with the young people, while Mrs. Erwin plays, sings, directs the work with the children. The evening services will be held at 8 each evening at the church.

Everybody is invited to attend any and all services and the singers of all churches are invited to sing with the choir.

Joe C. Couch Has Promotion Overseas

Joe C. Couch, son of Mr. and Mrs. Joe Couch of Vernon, former resident of Crowell, has recently been promoted to the rank of corporal, according to information received here.

Couch is a control tower operator of the world-wide Army Airways Communications System and gives take-off and landing instructions, relays traffic clearances and weather information and controls airplane traffic in the air and on the ground.

Pfc. Thomas C. Short Arrives in States After Being Wounded

Pfc. Thomas C. (Cecil) Short has arrived at England General Hospital in Atlantic City, N. J., for treatment of wounds received on the Italian battle front on Feb. 11. He says, in a telegram to his father, J. L. Short, of Olton, formerly of this place, that he is feeling fine and that it is good to be back in the States.

May 7 Designated as Open House at Local Cemetery

The sexton's house at the cemetery has been completed, the streets have been gravelled and now the grounds are receiving a thorough going over. Mrs. N. J. Roberts, cemetery association president, states "The committee wants to keep 'open house' on May 7 from 4 to 6 o'clock in the afternoon so that all who would like to see the extent of the recent improvements may have the opportunity to do so." Of course, anyone may go through the cemetery at any time, but this time has been designated especially for friends to meet and look over the improvements made, which they have helped to make possible and to see the house before it is occupied.

These are those who have subscribed to the up-keep fund since the last report was made:

Tire Inspection Records Are Needed

Although regular, periodic tire inspection will not be necessary after April 30, car operators are warned that they must keep the tire inspection sheet in good order as these inspection records will have to be turned in along with all applications for tires or gasoline. The necessity for submitting current valid reports along with all applications for gasoline or tires will continue.

Late Transport Renewals: If transport operators fail to appear for their gasoline renewal on trucks within 30 days after the beginning of the quarter, or by April 30, the ration will be cancelled and no part of it issued until instructions are received from the Office of Defense Transportation.

The canning sugar program has not yet been opened in Foard County. People in this county will be notified through the local paper when the certificates are available and how application for canning sugar should be made.

Poultry Judging Contest at Lubbock Attended by VA Team

The Crowell Vocational Poultry Judging team attended the judging contest held at Texas Technological College in Lubbock last Saturday. Ray Tammien, Howard Bell and Billy Joe Taylor constituted the team. Their instructor, Marvin Myers, accompanied them.

Lubbock won in the poultry judging division. There were 343 individuals from 51 schools represented.

The largest Christian denomination consisting wholly of negroes is the African Methodist Episcopal Church.

Small Quarters for a Large Man

It was late, and Donald Nelson, head of WPB, was sleepy, but the small quarters assigned to him aboard an LCT (landing craft tank) was so small, apparently never intended for a man of Nelson's height. He spent the night aboard the LCT going from Solomon Island, Md., to Little Creek, Va., with a labor party inspecting East Coast amphibious bases.

C. H. S. Football Boys Receive Their Awards for 1943

The football boys of Crowell High School received their awards for the 1943 season last Monday afternoon. Soil Conservation Recommended by State Office

The State Soil District Conservation office has acted favorably on the petition for the creation of a Soil Conservation District in Foard and Hardeman Counties and has asked that an election be ordered. It is now up to the farmers of the district, through their leaders, to fix the time for the election, according to D. F. Eaton, County Agent. Sufficient time for an educational campaign to give the proposition careful study will no doubt be allowed.

When the date of the election has been fixed, it will be necessary to subdivide the territory into five districts, designate polling places convenient to the voters and to appoint a polling superintendent. It will be the duty of this superintendent to secure and distribute the ballots to the various polling places, see that election officers are appointed and to collect the returns of the election and send them in to the state office.

Two supervisors or directors, one each from sub-districts 2 and 4, must be recommended by the qualified voters of those two districts. These two officials will function until three are elected later from the remaining districts. Leaders of the movement are expected to schedule some meetings over the county to give out necessary information.

Free-Will Baptist Church Will Have Quarterly Meeting

The Free-Will Baptist Church will have a quarterly week-end meeting at the church at Good Creek to begin on Friday night, April 28, and to continue through Sunday, April 30, according to Miss Nannie Bell Whitley, the church clerk. School and a picnic lunch to be given at noon on Sunday will be features of the meeting. All are welcome to attend the services.

Purr-r-r-s just like Daddy's Car

A sweet-running motor doesn't just happen, especially in a car that is three or more years old. It is the result of the owner's good driving habits, of regular service, and the use of a quality lubricant.

These facts are so clear, so well understood by most motorists, that it is practically a proverb that "good oil is cheaper than repairs." Today, with both practical and patriotic reasons for prolonging the life of every automobile, no sane car owner will risk using anything but high quality motor oil.

That is why his most frequent question is: How can I judge quality? How can I be sure? The answer is easy: Phillips tells you simply and frankly that if you want our best oil, we specify that Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to average motorists!

These are days when cars must last. Hence experts now recommend changing oil every two months. Do the wise thing, do the safe thing, by asking for Phillips 66 Motor Oil when draining winter-worn lubricant or making regular changes.

It's Phillips Finest Quality

Victory Garden Reminders on Tomatoes

Site Selection and Soil Preparation: Select a site free of wilt, Southern blight and nematode, preferable a well drained, rich, sandy loam soil, or at least not too heavy. Since tomatoes require plenty of sunshine, the plot should have sunlight exposure for eight to ten hours or more per day. Thoroughly pulverize the soil 8 to 10 inches deep. Where commercial fertilizers do not respond well, use 50 pounds of well rotted barnyard fertilizer per 100 feet of row space, and add 4 to 5 pounds of superphosphate for each 100 lbs. manure. Use twice as much superphosphate where sheep or poultry manure is used.

Securing Plants: Home gardeners usually prefer to buy plants. Gardeners should be cautioned to select plants that are 6 to 8 inches tall, with broad, dark green leaves and thick, partially purple stems. Such grow more rapidly, and stand up better under adverse weather conditions. Weak, small, tender plants get off to a slow start and may not survive. The seed may be sowed directly into the field in late May or early June and are later thinned to about 3 feet apart. This practice is advisable for the Porter variety.

Planting Procedure: Ten days to two weeks after the average date of last killing frost, tomato plants should go into the field, and if plants are being removed from the coldframe, flat or other container to the field, water thoroughly and remove three inches square of soil with each plant. Place plants one inch deeper into the soil in the row than they were originally. Firm soil around plants and mound slightly to brace the stems. Space rows 4 feet apart and plants 3 feet apart in the row, if plants are to be staked and pruned. Space in 5 to 6 ft. rows and plants 24 to 30 inches apart if no pruning or staking is to be done. It is preferable to transfer plants to the field on a dark, cloudy day.

Give the Plants a Kick-Off: To give the plants a quick start, make up a "starter solution" of 1/2 to 1 lb. of 5-10-5 fertilizer to 5 gallons of water. Thoroughly dissolve and apply about a pint (one

No. 2 can) of this solution around each plant. Repeat in a week or ten days.

Cultivation and Watering: To control weeds and grass and keep a good surface mulch, tomatoes should be cultivated every week or ten days from time of setting until well into the harvest season. Cultivate shallow to avoid disturbing the roots. Unless taken care of by rainfall, the plot should be given the equivalent of one inch of rainfall each week rather than light sprinklings every day or two. Early morning or late evening is the best time to water the plants.

Pruning of Spring Plants: Just as soon as suckers appear, pruning should begin, if it is desired. Every sucker should be removed, up to the first flower cluster, or until the third flower cluster has set. Ordinarily it will be necessary to prune every five to seven days for two to three successive prunings. Pruning usually decreases the yield per plant, but increases the early yield during the first 10 to 14 days and improves quality of the fruit.

Disease Control: Most any tomato disease control program is more essential during wet seasons than dry. Bacterial spot (mild head rust) and early blight are the chief disease troubles in most parts of the state. Symptoms include yellowing and defoliation of leaves and small to large white and brown spots on the fruit. To control these troubles, spray thoroughly once a week for three consecutive sprayings, beginning when first fruits are about 1/4 in. in diameter. Spray with 2 lbs. basic copper sulphate to 50 gallons of water (or 2 oz. basic copper sulphate to 3 gallons of water). If tomato fruit worm is damaging fruits, add 2 lbs. calcium arsenate to above mixture. Omit arsenicals in spray at least ten days before fruit harvest. A copper-containing dust should be satisfactory for practical disease control if thoroughly applied under favorable dusting conditions. Using a dust mixture of 14 per cent copper dust, 20 per cent calcium arsenate and 66 per cent sulphur is proving very satisfactory in the East Texas tomato area. Systematic use of fungicides pays big dividends.

CAN'T YOU SLEEP?

WHEN the stress of modern living gets "on your nerves" a good sedative can do a lot to lessen nervous tension, to make you more comfortable, to permit restful sleep.

Dr. Miles Nerveine (Liquid or Effervescent Tablets)

Dr. Miles Nerveine is a time-tested sedative that has been bringing relief from Functional Nervous Disturbances for sixty years yet is as up-to-date as this morning's newspaper. Liquid 25¢ and \$1.00, Effervescent tablets 35¢ and 75¢. Read directions and use only as directed.

Varieties, Spring Planting: For West Texas where quick maturity and setting are important, Earliana (not wilt resistant), June Jink and Stakeless seem to be the preferred varieties. Summer Planting: As the season progresses, tomatoes should be planted for summer production. Summerset, a cross between the Large Cherry and Bonny Best, was developed to produce fruit when temperatures are high and

relative humidity low. This is rather small in size, 1 1/2 inches in diameter, but it is not necessarily drouth resistant, but rather requires a normal supply of water to do best. It is excellent for both canning and consumption. It is well adapted over a wide area of Texas. Porter and Improved Porters varieties are well adapted to Texas conditions.

What We Think

(By Frank Dixon)

Last week I discussed in this column the matter of memorials which many communities are planning on building after the war in memory of the men who went from the community into the service.

I pointed out that while all of these are fine expressions of a community's desire to show honor to its soldiers, there was another type of memorial which in my opinion would better serve as a memorial than any that might be constructed of stone, or mortar, or bronze...

This would be accomplished by a state of concern over peace and an alertness on the part of the people of this nation, to the end that any move, in any part of the world, that might lead to a war that might involve the world, be scotched before it assumed dangerous and formidable proportions.

Such a plan, I believe, if it was entered into sincerely by the people of this country and accomplished the result of world peace would be the finest memorial that a nation could erect to its soldier heroes.

It would make unnecessary the calling out the sons of the men now in service twenty or twenty-five years hence to do over again what their fathers are doing now at so great a cost.

The question naturally arises as to how we are going to keep alive this vigilance, this concern in the hearts and minds of the people that they will not lapse again into indifference and allow the monster of war to grow again until its tentacles reach into every part of the world and again threaten freedom and liberty.

My answer to this is that we set aside a day each year to be observed as World Peace Day, when throughout this land the lovers of liberty and peace shall assemble and turn their thoughts toward peace.

The program for the observance of World Peace Day should, in my opinion, present in a vivid and interesting way the programs of all the countries of the world in the matter of their preparation for a future war.

I believe that the leaders of this Peace Day organization should be men from the service. They know what war means and can interpret events that lead to it.

I feel that unless something like this is done it is idle to talk of permanent world peace. We are only going to have permanent world peace when we exercise eternal vigilance.

H. D. Club Women to Sponsor Purchase of Pineapple

Home demonstration club women of Foard County are out to make a success of obtaining a co-operative order of pineapple this year. Arrangements have been made to make a joint co-operative order with Hardeman County home demonstration club women. Approximately 150 dozen pineapples will be Foard County's share of this order. The first 150 dozen orders received by members of the market committee will receive this order. If a sufficient quantity of orders is received to justify another order it will be made later.

The market committees of the various home demonstration clubs will begin taking orders for pineapple immediately. No more orders will be accepted after May 6. Anyone desiring pineapple should see one of the women listed below and give her the number you desire. You will be required to pay in advance for the pineapples which will be \$3.25 a dozen.

Gambleville—Mrs. J. C. Prosser, Route 2, Crowell, Texas.

Foard City—Mrs. W. B. Jones, Foard City, Texas.

Margaret—Mrs. H. L. Shultz, Route 2, Crowell, Texas; Mrs. Bax Middlebrook, Margaret, Texas; Mrs. Silas Moore, Margaret, Texas.

Riverside—Mrs. Roy Ayers, Route 2, Crowell, Texas; Mrs. Sam Kuehn, Route 2, Crowell, Texas.

Vivian—Mrs. Arthur Sandlin, Swearingen, Texas; Mrs. R. N. Beatty, Swearingen, Texas; Mrs. Berny Fish, Swearingen, Texas.

West Side—Mrs. W. A. Cogdell, Crowell, Texas.

Thalia—Mrs. Marlin Woodson, Thalia, Texas.

Orders will also be accepted by the members of the county home demonstration council market committee composed of Mrs. Clarence Garrett, Foard City; Mrs. Donald Norris, Crowell; and Mrs. Verda Bell, Margaret.

Please give your order to one of the women on the market committee and not to the county home demonstration agent. Only those who have turned in an order to a market committee member before May 6, will be permitted to buy them when they arrive.

Information will be given later when and where you may get the pineapple. The order is being booked now with an importer-exporter at Laredo, Texas, and we are asking for delivery about May 15, but the demand will determine the date to a large extent.

Figure your yield of canned pineapple at about three pints of fruit and one pint of juice from one four-pound pineapple. This is the average weight of pineapple that we will get.

Submarines do not ordinarily carry chaplains, but a Navy chaplain traveling on a submarine on his way to a new station was asked by the crew to hold a service—beneath the sea, "a thousand miles from anywhere," the Navy Department announced. "I have never been or felt so close to my listeners," the chaplain said. "And I was certainly impressed by the sincere desire of these men to carry their worship of God with them through the battles of this war, even under the sea."

J. H. Lanier Sr. is among the authors whose verse appears in "My Favorite Poems," a 640 page volume of poems and lyrics, recently published by The Exposition Press of New York City. This anthology represents the best poems and lyrics of people from nearly every state in the Union and Canada. Many of the contributors to this fine volume are authors whose works have been published in other well-known publications, magazines and newspapers. To win a place in this nationally known anthology marks a step forward in the literary career of every author. More than five hundred authors are represented in the volume.

May 1 Proclaimed by President As Child Health Day

Austin—Dr. Geo. W. Cox, State Health Officer, endorsing the president's proclamation that May 1 be set aside as Child Health Day, has issued an urgent appeal to all Texans to co-operate in this health conservation program.

"While it is true that science has provided for years the means to reduce almost to the vanishing point the occurrence of diphtheria and smallpox," Dr. Cox stated, "nevertheless the actual control of these two diseases is largely in the hands of parents. If children are not immunized, these diseases will continue to take their toll in young lives."

Children should receive diphtheria toxoid treatment between the ages of six and nine months, the State Health Officer advised and pointed out that the necessity for immunizing at this early age was based upon the fact that nearly two-thirds of all diphtheria deaths occur in children under six years of age.

"I cannot emphasize too strongly that to deprive children of the protection that science has made available amounts very nearly to criminal negligence," Dr. Cox warned. "The family physician and the public health worker can only point the way and urge action, but the essential factor still lacking in most diphtheria illnesses and deaths is parental co-operation."

The Doctor stated further that smallpox can be completely stamped out by universal vaccination.

A net income limitation of \$25,000 has been accomplished in this country through the income tax law. According to a recent statement by the Treasury Department the maximum amount of income a resident of New York state can have is \$24,815. To have that much left he must have a net income before personal exemption and before allowable deduction of income taxes, of \$160,000. If his income is \$150,000 he will have left \$24,751 and if his income exceeds \$160,000 he will have still less. For example, if his income is \$175,000 he will have only \$25,618 left after paying his taxes. In other states the situation is about the same. Not only are net income limited to about \$25,000 but it is possible if the gross income is large enough that the net may be considerably less than \$25,000.

NO SURPRISE

The Solid Fuels Administration has again broadcast that bituminous coal production this year will fall 20,000,000 tons short of the \$30,000,000 tons needed to keep war production at peak levels. No one should longer be surprised by such predictions from a government agency. While they are always followed by plans to ration the scarcity, the public seldom hears of plans, if any, to increase production and eliminate the shortage.

In the case of coal, the mine operators have pointed out repeatedly that there need be no shortage of coal, providing strikes and with coal mining do not create further government interference

one. Twenty million tons of coal sounds big, but in proportion to the capacity of the coal industry it is little more than a drop in the bucket. The mine workers have said it could be made up in a short time. However, many people wonder whether they will be permitted to make it up.

Apparently a chronic shortage of coal is being held over the nation as an excuse to keep the mines in a perpetual state of socialization, just as the bureaucratic cry of shortage has become the opening gun in the battle to socialize other industries. — Industrial News-Review.

HISTORY

The Memphis Cotton Carnival—May 18. One of the biggest events of the South, each year is the Memphis Cotton Carnival. First held in 1901, The Cotton Carnival grew out of a suggestion by Herbert Jennings of the Lewis Theater in Memphis that a week be devoted to a recognition of the South's principal crop, cotton, and that during the week, display be made of cotton goods in the windows of stores and other places in an effort to make people more cotton conscious. The result was that a Cotton Carnival was planned. The first one had as its theme "The Old South" which was illustrated by eighty-six floats in a parade. A King and Queen arrived by boat on the Mississippi and were escorted to the court house to rule over the Carnival. In addition to the colorful parades and floral floats, there was a style show exhibiting cotton fabrics and numerous parties, balls and public functions. Each year some central theme is adopted which is carried out in the Carnival parade. Each year the King and Queen of the Carnival, chosen from the Mississippi in the royal barge and live up at the pier. The King and Queen are escorted with fitting pomp and reverence to the Cotton Exchange building where they are crowned and the keys of the city delivered into their hands. At the close of the festivities which last for several days the King and Queen formally return the city keys to the Mayor of Memphis. The event is characterized by pageants, decorated floats, parades, a flower show, a style beauty contest, children's parade, parade, street dances, art parties and many other entertainment features. Each year a new theme is chosen for the parade to be carried out with floats and pageantry.

Boy Scouts to Have Over-Night Camp at Leslie McAdam Ranch

Boy Scout activities are progressing in a very satisfactory manner, according to Scoutmaster D. F. Eaton. The first aid course, under the leadership of Adrian Thompson, increased from fifteen to eighteen at the meeting last Thursday night. Mr. Thompson is giving them a standard Red Cross course. Last Thursday night they practiced applying various types of bandages, studied methods of controlling bleeding, how to apply sanitary bandages, location of pressure points and a general review of the anatomy of the body. The troop is planning an overnight camp for those whose aptitudes, advancement and other qualifications justify. The camp will be held at the Leslie McAdam Ranch. Three of the boys are competing as Star Scouts and others are doing merit badge work, looking forward to becoming Eagle Scouts. The new group of beginner Scouts have passed all required tests for their badge and will meet most of the second class work by the time the required period of thirty days is over. Several of the Scouts are looking forward to a week's camp at Winona Falls later in the year. The largest artificial lake in the world is Lake Mead at Boulder Dam.

What We Think By Frank Deane

Last week I discussed in this column the matter of memorials which many communities are planning on building after the war in memory of the men who went from the community into the service. I pointed out that while all of these are fine expressions of a community's desire to show honor to its soldiers, there was another type of memorial which served as my opinion, that any that might be constructed of stone or marble or bronze and that was a living memorial in the form of a resolve and a determination on the part of the people of the nation that world peace be made and enduring things to be watched and preserved to the end that the task of securing war be made as remote as possible. It would be accomplished by a state of constant alertness and an agreement on the part of the people of the nation to the end that any move in any part of the world that might lead to a war that might involve the world, be watched before it assumed dangerous and formidable proportions. Such a plan, I believe, if it was entered into sincerely by the people of the country and accomplished the result of world peace would be the finest memorial that a nation could erect to its soldier heroes.

Saw Real Ghost
This story of a real ghost comes from McAlister, Okla. Fred Lange, a civil and mining engineer, who had been well known in this coal field for twenty years, committed suicide the night of March 19. He was found dead in the office the next day, and now his spirit is returning to greatly worry and excite some of his former friends. Upon request from the undertaker, a photographer tried to take a picture of the dead man. He took exposures and each picture when developed proved to be a vision. M. J. Smith, engineer of the former engineer, went to his office on Saturday, unlocked the door and passed into the room. He said he saw Lange seated at his desk. He said he stared at the man, or apparition, whatever it was, and could have sworn it was Lange. The undertaker called at the Smith office to confer with Mr. Smith relative to burying the body. Mr. Smith was not in, but he declared that sitting at the former desk was Lange just as Smith had seen him the day before. Both men backed out of the office. The mystery was not solved.
Under the present income tax law the maximum that anyone in this country can have left regardless of income after all taxes are paid is about \$25,000.

A 'Long Story'

I believe that if the people had known what Germany was doing and why she was doing it she would have been stopped long before she had developed a ruthless war machine with which to invade the peace of the world. I believe that the leaders of this Peace Day organization should be men from the service. They know what war means and can interpret events that lead to it. They should be provided with funds to maintain fact finding agencies throughout the world that the truth may be discovered and conveyed to the people on Peace Day. I feel that unless something like this is done it is idle to talk of permanent world peace. We are only going to have permanent world peace when we exercise eternal vigilance. We will never get it by lapsing into indifference and a state of innocent doubt and being purposeless meetings returning thanks that the past year the nation and the world has lived in peace. If this nation and the world has peace it will be because it works definitely and consistently and continuously for it. And because the people are willing to pay the price of eternal vigilance.

The War Food Administration

The War Food Administration has asked the farmers of this country to plant a total of 180,000,000 acres of crop this year. This is 4 per cent more than was planted in 1943. A recent annual survey of planting intentions indicates that the increase will be only 2.7 or 374,000,000 acres.

H. D. Club Women to Sponsor Purchase of Pineapple

Home demonstration club women of Foard County are out to make a success of obtaining a co-operative order of pineapple this year. Arrangements have been made to make a joint co-operative order with Hardeman County home demonstration club women. Approximately 150 dozen pineapples will be Foard County's share of this order. The first 150 dozen orders received by members of the market committee will receive this order. If a sufficient quantity of orders is received to justify another order it will be made later.

The market committees of the various home demonstration clubs will begin taking orders for pineapple immediately. No more orders will be accepted after May 6. Anyone desiring pineapple should see one of the women listed below and give her the number you desire. You will be required to pay in advance for the pineapples which will be \$3.25 a dozen.

Gambleville—Mrs. J. C. Prosser, Route 2, Crowell, Texas.

Foard City—Mrs. W. B. Jones, Foard City, Texas.

Margaret—Mrs. H. L. Shultz, Route 2, Crowell, Texas; Mrs. Bax Middlebrook, Margaret, Texas; Mrs. Silas Moore, Margaret, Texas.

Riverside—Mrs. Roy Ayers, Route 2, Crowell, Texas; Mrs. Sam Kuehn, Route 2, Crowell, Texas.

Vivian—Mrs. Arthur Sandlin, Swearingen, Texas; Mrs. R. N. Beatty, Swearingen, Texas; Mrs. Berny Fish, Swearingen, Texas.

West Side—Mrs. W. A. Cogdell, Crowell, Texas.

Thalia—Mrs. Marlin Woodson, Thalia, Texas.

Orders will also be accepted by the members of the county home demonstration council market committee composed of Mrs. Clarence Garrett, Foard City; Mrs. Donald Norris, Crowell; and Mrs. Verda Bell, Margaret.

Please give your order to one of the women on the market committee and not to the county home demonstration agent. Only those who have turned in an order to a market committee member before May 6, will be permitted to buy them when they arrive.

Information will be given later when and where you may get the pineapple. The order is being booked now with an importer-exporter at Laredo, Texas, and we are asking for delivery about May 15, but the demand will determine the date to a large extent.

Figure your yield of canned pineapple at about three pints of fruit and one pint of juice from one four-pound pineapple. This is the average weight of pineapple that we will get.

Submarines do not ordinarily carry chaplains, but a Navy chaplain traveling on a submarine on his way to a new station was asked by the crew to hold a service—beneath the sea. "A thousand miles from anywhere," the Navy Department announced. "I have never been or felt so close to my listeners," the chaplain said. "And I was certainly impressed by the sincere desire of these men to carry their worship of God with them through the battles of this war, even under the sea."

DISAPPOINTMENTS MAKE LIFE

I suppose everyone of us have heard the familiar statement, "Disappointments make life," many times. But it is hard to realize the full extent of this statement, until we are hit full in the face with such a disappointment. We get all enthusiastic over the prospect of a certain thing and think that it is not at all possible that anything could happen to alter it, however, the balloon is punctured, and we fall down to earth again. We fool around for a little while and gladly accept the sympathy offered us by our friends, but eventually we are up and ready to do things in the same, usual way. So it is all of the time. Little things, such as we never think about, are taken the same way. But we're still "perkin'" again very soon. It's hard to take some of the disappointments that come; we're so sure of ourselves, we think everything is going to be a "bed of roses." But we all find out sooner or later that it is impossible to have everything just as we would have it; slowly, but surely, we all alter our lives, so that we may take the many disappointments that do come to all of us during our lifetime here on this earth. When this has been done, we have learned much.

THE HAPPY JOURNEY

The Crowell High School Inter-scholastic League contenders returned Sunday evening from Dallas after a bloody battle in which the local lads and lassies received the gory end of the deal. However, it would be a gross understatement to say that the trip was in vain. First of all, no person entering into a contest of this sort is a loser. The training is the purpose of all such contests, and winning is the aim of the various schools. The second reason it might be called successful is that Roy Joe Cates received honorable mention for his portrayal of Lufe Cagle in the "HS one-act play, "Sun-Up." The judge named one boy and one

girl for the best actor and actress, and two boys and two girls has honorable mention. The meet at Dallas represented some of the best competition in the state. Bill Bruce won third place in the Extemporaneous Speech contest. But there is still another reason why the trip was well worth the time spent on the preparation. That reason is that all the participants enjoyed the hilarious trip to Dallas, even though the two drivers, I. T. Graves and Mrs. Joe Johnson, did have considerable trouble getting out of Fort Worth via Consolidated Aircraft, twice through the park, and Tarrant Field. The delegation included Mr. and Mrs. I. T. Graves, Mrs. Joe Johnson, Morris Johnson, La Rue Graves, Billy Fred Short, Roy Joe Cates, Alton Reeder Griffin, Bill Bruce, Helen Jo Callaway, Frances Ann Ayers and John T. Rasor.

MYERS RECEIVES COMMISSION

Notice has just been received by Marvin Myers, Vocational Agricultural instructor of CHS, from the Office of Naval Officer Procurement, that he has received a commission as Ensign in the U. S. Navy. Further statements revealed that he will not be called into duty until the middle or latter part of June, which means that he will be allowed to finish his classes for this school year. Mr. Myers' absence shall be felt by every student and member of the faculty, but they shall also be very proud of their friend and teacher because of this going to aid our great country in its time of need. All we can say is: "Watch out, Hitler and Tojo!"

WHAT'S BUZZIN'?

Greetings, mates! Let's nostalgate, (and we're not saying what that means!) Just think, only five more weeks until spring vacation. Ha-ha. I can feel that cool water now! But, to continue.
Pvt. George Davis of Ft. Hill, Okla., visited John Roark here Sunday evening. He was accompanied by "Zap" Canup.
Miss Motley was all smiles and was she looking pretty over the week-end? Yes, you guessed it. That handsome gentleman that is a Staff Sergeant in his Uncle's Army, was home. We are speaking of Staff Sgt. Charlie Groves.
Will someone please tell us what is wrong with "Puss" and "Annie" Laura Payne.
Says! That Clarence Orr was really stepping out on Helen Callaway Saturday night. Three women (Whatta Man). He was just taking care of them, I suppose. He was doing a good job though.
R. L. Thomas and Stanley Russell were in Truscott Friday night, but they had a little bad luck. Patsy Young and Lynette Chowning had already gone somewhere.
Just to let you know: Doris Jean Breechlove is still looking after her interests in the Navy—keeping up their morale with letters, etc.
Oh, yes, Doc is still keeping the real to Vernon "quite" hot.
A big time was had at Dallas by everyone that went. Even though it was a problem to find the way around there, everything went off just as well as could be expected. Lots of cute girls and handsome boys down there, too! Raymond Hord was seen with Nancy Jo Godwin Saturday night. Well!
Pvt. Bill Cox of Amarillo AAF and his ever faithful mate, "Babe" Sandlin, were in town Saturday night, but not a girl was in town. Were all the girls at home or at some nearby town?
We often wonder why Craig goes home with Bill so much. Reckon it could be Ethel Hope Brown, or could it?
Travis and Bessie Gamble were seen together Sunday evening. Where was "Sister" Travis?
Vernon Garrett's shadow, Stanley Russell, was taking very good care of little Jean Baron Saturday night. These shadows surely move fast at times.
We extend our congratulations to Marvin L. Myers, our V. A. teacher, who has received his commission in the U. S. Navy.
Delmar McBeath, A. S., was with Mildred Marlow Sunday night. Don't stay so long next time, "Flash."
Kenneth Payne and LaVerne Archer made a cute couple Sunday evening.
Seen in Vernon Sunday night were the following prominent Crowell citizens: "Puss" Erwin, Jenny Mabe, James Cooper, Polly Davis, and Billie Morrison. Where were Doc and Rose? (Vernon, also.)
Tommie Eaton was with her soldier friend, Martine Wall, from over at the Mounds Sunday evening.
Martin Jones and Wilburn Railback were in town Sunday night as "stags," where were Jane and Jo Ann?
Oleta Josephine Carroll was with her old heartflame again one night last week. We are referring to Stanley Russell. She was also with Clarence Orr. She really makes the rounds.
May we extend our congratulations to Melvin Everson, who at last, has won Wilma Flesher's heart. Nice going, Tater.
To Helen Callaway we want to give a little advice. Please don't leave Clarence so long at a time. He's a regular wolf when you're not around.
R. J. Everson and Puss Erwin are kinda giving Jerry Mabe what we might call "the push."
R. J. was with her Saturday night and Gordon was with her Sunday evening. May the best man win.
That's that for this week. Until next time, we remain,
The Delapidated Dopes,
The Cuzzins.

AGRICULTURE

(D. F. Eaton, County Agent.)

Warm weather is moving in, and with it an increased hazard to milk transported from dairy farm to milk plant. Often the milk picked up by the route truck is sour when it reaches the plant. This occurs mainly in warm weather—because bacteria develops faster in warm milk.
To prevent this loss, which affects not only the producer and processing plant, but the consumer as well we suggest two precautions: One, have the milk cold when the truck arrives, and two, milk in a sanitary way so there will be less bacteria in the milk.
To reduce the number of bacteria, the cow's udder, flanks and in front of the udder should be brushed and washed with chlorine water and the udder wiped dry. This done, the milker then should wash and dry his hands before starting to milk.
A seamless, straight-edge or partly covered bucket is the most suitable container. It should be rinsed with chlorine water before using, and the strainer and milk can be treated in the same manner. Also use filter pad in strainer.
As soon as milking is completed, cool the milk to 40 degrees if possible. If the night and morning milk are to be put in the same can for delivery, the morning yield should be cooled before it is mixed with that already in the can.

Range Paralysis—An Infectious Disease

Since this disease is prevalent here in the county, we quote our college poultry veterinarian on this disease.
Leucosis, or range paralysis, is carried through the egg from adult hen to offspring. Blue bugs, fleas, mosquitoes and other external parasites also can transfer it from infected to non-infected birds. No vaccines or specific drugs have been developed to cure the disease.
According to Dr. W. A. Boney, poultry veterinarian for the A. & M. College Extension Service, the disease is thought to originate in a virus which as yet hasn't been isolated. It's effect upon the body of a chicken causes an abnormal growth of blood cells and disposes them in various tissues. This causes the blood cells to lose their functions.
The disease appears, according to where the agent causing it sets up in the body. If, for example, it starts in the eye, it's outward appearance is the grey-eye form of range paralysis. The pigment of the iris immediately around the pupil fades from the original reddish color to a jagged gray and the pupil becomes jagged. Dr. Boney cautions care in culling young birds before they are in production because their eyes normally are of a grey color.
Since the disease within itself is a type of tumor it also may take

with delight. "You ask a Little Rock girl to kiss you and, before she can say no, it's too late."

Gus: "One of my ancestors fought in the Revolutionary War. He was in the Battle of Brooklyn."
Bus: "Was he a hero?"
Gus: "Yeah? Was he a hero?"
Bus: "Was he? Say, the bullets were flying this way and that, but they never hit him. He was the first Brooklyn Dodger!"

Farmer Gray: "Heard about the new method of threshing wheat?"
Farmer Brown: "No, what?"
Farmer Gray: "Put a high school jitterbug in the middle of the field, turn on a Benny Goodman record, and he can thresh three acres in three minutes!"

A group of Londoners were huddled together in a shelter during an air raid. The bombs were falling at an alarming rate but one lady, blessed with a fatalistic philosophy, turned to a little man beside her, shrugged.
"It's no use worrying—if my name's on a bomb, I'll get it."
The little man wasn't impressed.
"That's all very well for you. But my name is Smith."

Scotch Bride: "Where's Sandy?"
Wedding Guest: "He's behind the car trying on the old shoes."

Jack Benny likes to tell the story of the Irishman who was walking down a London street after an air raid with a doorknob in his hand. He was muttering to himself and a friend he encountered asked, "What's the matter, pat?"
"Oh, those blankety blank Germans just blew my house out of my hand."

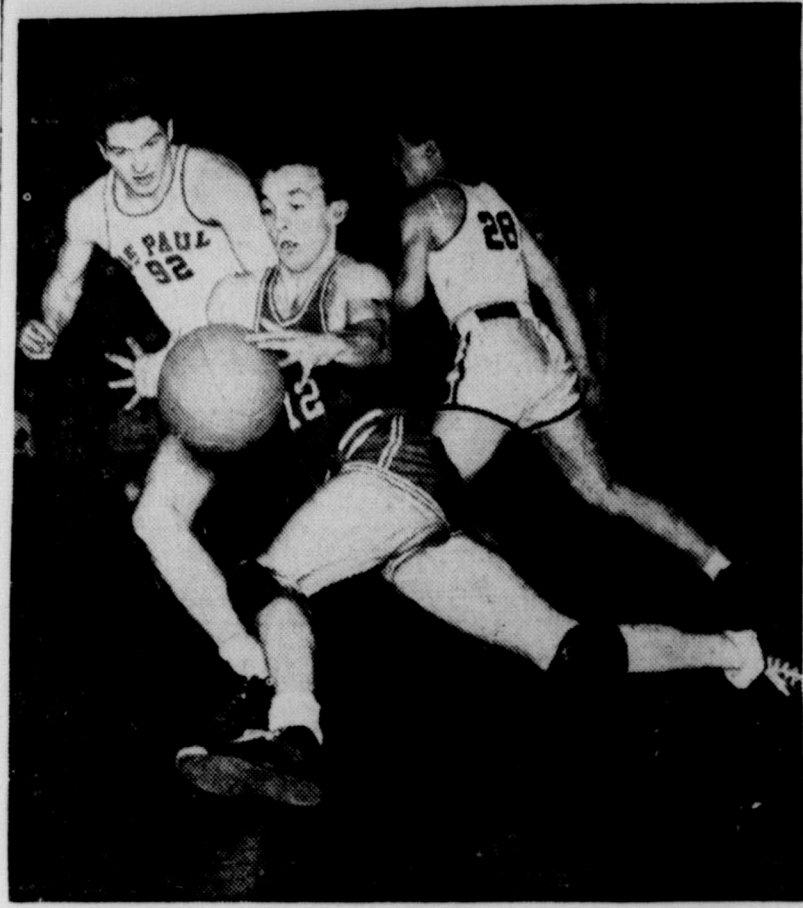

When the air raid signal sounded in London recently, a small girl was sent to call her smaller brother who was playing in the yard. "Eric," she shouted from the doorway, "come on in out of the war!"

Butch: "Who's the gal with the French heels?"
Bo: "She's my sister, and those guys aren't French."

Bus passenger: "Oh, driver, does this bus stop at the pier?"
Bus driver: "Well, lady, there will be an awful splash if we don't."

On week-end leave a soldier attended a movie in one of the large metropolitan theatres. The usher led him halfway up the aisle of the top balcony and stopped. "You'll find a seat up there somewhere," he said. "This is as far as I go. Above this level, my nose bleeds."

Stump Didn't 'Stump' This Play

Hy Gotkin (12) of St. John's (Brooklyn) dribbles down the court with Gene Stump (22) of De Paul (Chicago) in hot pursuit to "stump" him. Action took place at Madison Square Garden in New York where Flatbush eagles trounced Windy City five to cop top honors in National Invitation basketball tournament for second successive year.

Mrs. Grace M. Martin, widow of the honoree and present Montgomery County home demonstration agent, will be Matron of Honor. Delegations of four club members from counties with a radius of 150 miles of Houston have been invited to the launching.
In recognition of their fine record in production of food, the National Extension Service at Washington through the Maritime Commission last fall offered 4-H Club members in the states an opportunity to select names for Liberty ships. More than 9,000 members of boys' and girls' clubs submitted nominations for a Texas sponsored ship and from the five leading the name of O. B. Martin was chosen.
Mr. Martin, who was director of the Texas Extension Service from 1928 until his death, was born on a small South Carolina farm in 1870. During a six-year term as state superintendent of education in his native state, Mr. Martin put agriculture into the course of study in common schools, and in other ways display-

Gardening for Victory

along the Santa Fe

Soon travelers will be seeing plots of beets, beans, tomatoes, corn and other needed vegetables "coming along" on both sides of our tracks.

For once again Santa Fe has made its right-of-way available to its employees for Victory Garden space.

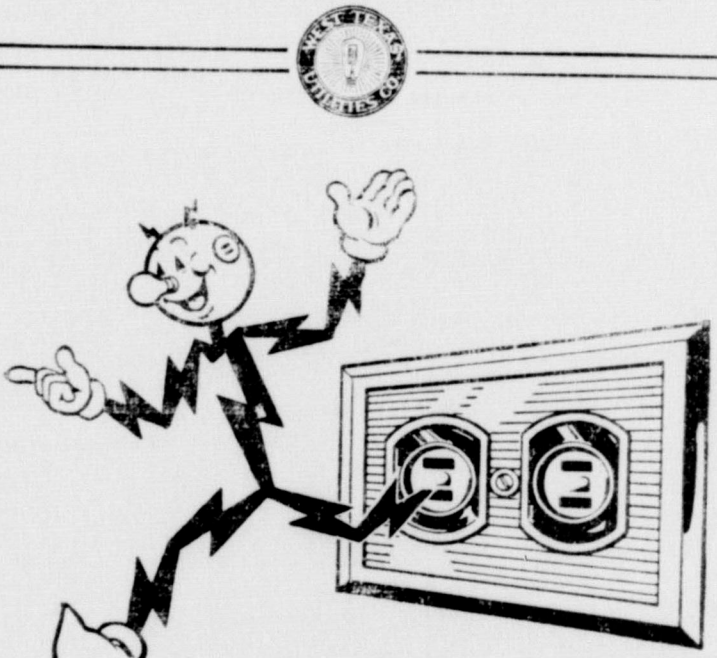

This railroad is heart and soul behind America's Victory Garden project. Not only has land been made available, but we are offering \$2000 in War Bonds to our best Victory Gardeners as an added incentive toward helping "Food Fight for Freedom."

Located as we are "Along the Route to Tokyo," Santa Fe people throughout our 13,148 miles of track can "feel" this war. They are working full hours to move along the never-ending loads of guns, tanks, men and munitions.

Perhaps that's another reason why they're not only working harder on their railroad jobs, but are pretty fine War Bond buyers and Victory Gardeners as well.

It's Santa Fe all the way for the U. S. A!

Christian Science Services "Everlasting Punishment" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, April 30.

The Golden Text is: "Cast away from you all your transgressions, whereby ye have transgressed; and make you a new heart and a new spirit: for why will ye die, O house of Israel?" (Ezekiel 18:31).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "He that covereth his sins shall not prosper; but whose confesseth and forsaketh them shall have mercy" (proverbs 28:13).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We should examine ourselves and learn what is the affection and purpose of the heart, for in this way only can we learn what we honestly are" (page 8).

Two Minute Sermon (By Thomas Hastwell)

Living in a Corner: A resident of the community in which I reside lives on a tract of several acres just outside the city limits. He has a small part of the place around the house fenced off but the rest is allowed to grow up in weeds, buck brush, scraggly bushes, and tangled undergrowth.

A good many people have commented on the fact that it seems like a waste of good ground and that something should be done by the owner to clean up and put it into production. The owner, however, seems content to live in one corner of the place and apparently gives no thought to the rest of it, and gives no thought to the concern that others of the community have over what they think is a waste of good land.

A lot of people use their lives much the same as this man uses his land. They live in one little corner, going around in a monotonous daily routine, never giving any thought to the possibility that might be theirs. Like the man with the tract of land they are wasting the biggest share of their lives and cheating themselves out of the bigger rewards they might have.

The Great Lakes are considered the most important inland transportation system in the world.

Economical and Patriotic If You Save More for War Bonds

Tropical heat waves will leave you as cool and calm as this Powers model if you wear this crisp two-piece gingham, right for town or country. You might make it in a red and white plaid, with trimming of red bias binding. Besides being fun to sew for yourself, it is economical and patriotic, for you will be able to save for more War Bonds and stamps. A suitable pattern may be obtained at your local store.

Weekly Sermon

By the Rev. Will H. Houghton, D. D., President, Moody Bible Institute, Chicago.

Great Men Have Said—Everyone likes to read a good book. The best book ever written may be your daily joy if you will read it. Men call it the Bible. It calls itself the Scriptures. Woodrow Wilson once said, "I am sorry for the men who do not read the Bible every day. I wonder why they deprive themselves of the strength and of the pleasure."

John Quincy Adams said, "So great is my veneration for the Bible that the earlier my children begin to read it, the more confident will be my hope that they will prove useful citizens to their country, and respectable members of society."

Andrew Jackson, president of the United States, at the close of his life, pointed to the family Bible, which lay on the table beside him and said to his physician, "That Book, sir, is the rock on which our Republic rests."

Men think they have discovered certain indications that our nation is drifting. That means we have left the rock foundation. A rock does not drift, and if we are anchored to it, we will not drift. Other nations have been great, and in their self-sufficiency have turned their backs on God and rejected His Word, and the archeologist digs deep in the dirt to find evidence of their departed

glory. What makes you think we will miss their fate if we emulate their folly?

America, back to your Bible. Back to the straight study of the simple truths therein contained. Thousands of persons have brought their problems to the Bible and in it have found life, light and courage. Have you tried this Book to see what it can do for your life? Perhaps a chapter a day will keep temptation away. It surely will if you will allow it do its regenerating, cleansing work in your life.

Your Horoscope

April 24, 25, 26.—Having a strong will and more than average intelligence, you can adapt yourself to any condition in which you find yourself. Believing the things you believe with all your might, if you find your place, and stick to it, your devotion grows. You are very fond of attention, but lose many friends because of your directness in speech.

April 27, 28, 29, 30.—You have a habit of making sudden and unexpected changes, and drop one job and go to another without much thought or consideration. It is hard to tell just how a suggestion will strike you; you may be easy to please or nothing will please you. You love reading and are able to make an effective talk on the topic up for discussion. You can be very quiet and secretive about your affairs. You are sympathetic and kind, and sometimes make great sacrifices.

HOUSEHOLD HINTS

To prevent spotting the wall when you wash woodwork, hold a large piece of cardboard flat on the wall right above the portion you are working on.

Rub some good floor wax into your window sills the next time they are refinished if you want them to stay in perfect condition.

When scrubbing your floors try using a square of wood mounted on casters to hold the pail of water. This can be pushed around wherever you want it. The soap also can be left on the platform instead of leaving it in the water.

Mrs. J. A. Stovall Honored Thursday Morning with Coffee

As a compliment to Mrs. J. A. Stovall, who, with her husband, is moving to Vernon to reside, Messames T. N. Bell and A. G. Magee were hostesses at the home of the former Thursday morning, with a delightful coffee from 10 to 11 o'clock. A surprise gift shower was presented to Mrs. Stovall.

Guests were greeted at the door by Mrs. Magee and Mrs. Stovall. They were invited to register at an attractive guest book, where their names but a wish for the honored. Mrs. R. R. Magee presided at the register and directed the guests into the dining room where they were served coffee, rolls, cookies and mints. A silver coffee service was placed at either end of the beautiful dining table laid with a Madeira cloth and centered with crepe nasturtiums in a crystal bowl. Coffee was poured by Mrs. R. R. Lanier and Mrs. Alton Bell. Mrs. T. N. Bell served.

Guests were seated in the spacious living room for the coffee where tulip, blue bonnet and pansy blossoms and the glow of lighted lamps formed a pretty setting. A visiting hour and the extension of good wishes to the honoree concluded the party.

The guest list included the following names: Messames L. A. Andrews, L. E. Archer, A. Y. Beverly, J. R. Beverly, Ernest Breedlove, S. S. Bell, Alton Bell, Gordon Bell, F. C. Brooks, Hubert Brown, Henry Borchardt, J. W. Bruce, Grover Cole, Pearl Carter, John Carter, Foster Davis, Herbert Edwards, Chas. Ferguson, Oscar Gentry, M. S. Henry, H. E. Hays, T. S. Harty, M. L. Hugheston, T. L. Hugheston, T. F. Hugheston, Carrie Hart, W. B. Johnson, R. L. Kincaid, M. N. Kenner, Merl Kincaid, T. B. Klepper, J. E. Long, R. R. Lanier, J. H. Lanier Sr., A. L. Lilly, R. R. Rev. Merwin Coad to Speak at Christian Church Sunday, 8:30

Rev. Merwin Coad, student of Phillips University at Enid, Okla., and present minister of the First Christian Church at Iowa Park, Texas, will be the speaker at the Young People's Christian Youth Fellowship Sacrificial Program which will be held Sunday evening at 8:30 in the First Christian Church here.

This Sacrificial Program is a project of the Texas Young People's CYF, and is given to enlighten the public of the work being done by the CYF to lighten the burden of missionary work. A free-will offering will be taken at the program, and all of the money received will be sent directly to the Christian Missionary Society's main office and will be applied to the support of the CYF's "Living Link" Missionary in Paraguay. The Young People of Texas maintain the complete support of this missionary, Mrs. June Smedley, and it is through such programs as this that she is able to stay and continue her work.

An interesting and enlightening worship program is being planned and it is hoped that a great number will be present. Everyone is invited.

Cpl. Joe W. Belote Cpl. Joe W. Belote Wed in Paducah

Miss Ora Mae Owens, daughter of Mr. and Mrs. Preston Owens of Foard City, and Cpl. Joe W. Belote of Paducah were married on April 19, at 7:30 p. m. at the parsonage of the First Baptist Church in Paducah with the pastor, Rev. Russell, performing the ceremony. Mr. and Mrs. Joe Belote, parents of the groom, were witnesses.

The bride was attired in a navy blue afternoon dress, with navy accessories, white gloves and a corsage of white carnations. She attended school in Foard City and Crowell, graduating from Crowell High School in 1943. She later attended a business college in Los Angeles, Calif. For the past three years she has been employed as general bookkeeper at the Bank of America in Los Angeles. She was thus employed at the time of her marriage.

Cpl. Belote had his schooling at Paducah, finishing High School there in 1938. He then attended the University of Texas. He was employed at the Norris Furniture Co. in Paducah at the time he entered the Army Air Corps in August, 1942. He is now stationed at Kelly Field, San Antonio.

Cpl. and Mrs. Belote left on April 20 for San Antonio where they will make their home at 339 South Press St.

WAC Recruiters Here Friday Morning

Cpl. Sally A. Wasson and Sgt. Helen Krawczyk WAC recruiters were here last Friday interviewing prospects for their organization at the Wichita Falls Station. They will make regular visits to Crowell from time to time and request that anyone who may become interested in joining the WAC's, contact them when they are in Crowell, or write them in Wichita Falls.

FOARD CITY H. D. CLUB

D. F. Eaton, Foard County Agent, talked to the members of the Foard City Home Demonstration Club at the meeting on Tuesday, April 25, on the subject of marketing eggs, and culling and feeding chickens.

He said, "The first requisite of a good egg is to get it to market in good condition. This can be done by gathering them two or three times daily when the weather is warm. Then they should be kept in a cool place until ready for market."

The better the hen, the more eggs she will lay, the greater the margin of income from them. Mr. Eaton said. Therefore, it is a good plan to know how to cull the flocks.

A good feed for laying hens is a mash and grain. Oats is the only balanced grain to be fed by itself. It is best to feed a mixture of corn, milo, wheat or oats. When possible it is best to have a green feed or a good substitute for one.

The club had, as visitors, Mrs. Laura Johnson, Mrs. Ross Johnson and Mrs. W. L. Johnson, as well as Mr. Eaton. The next meeting will be held at the home of Mrs. G. M. Canup on May 9.
