# Schedule Mapped District Institute **Out at Munday**

"The election meetings will give day on Wednesday afternoon, November 15, to draw up a sched-ule for the member schools to play by this year. It was decided to divide the District into two halves with four teams in each half. There will be a double round robin schedule played in the two respective districts and the winners of the two halves will play a series of three games to de-cide the District championship. The Western half is composed of Chillicothe, Crowell, Munday and Seymour. The Eastern half is composed of Archer City, Holli-day, Iowa Park and Valley View. Superintendent Grady Graves of Crowell presided as chairman and Superintendent M. J. Weaver of Seymour acted as secretary.

The following schedule was adopted for the Western half: January 5 Crowell at Munday. Seymour at Chillicothe.

January 12 Seymour at Crowell. Munday at Chillicothe. January 19 Chillicothe at Crowell. Monday at Seymour. January 26 Munday at Crowell. Shillicoth eat Seymour. February 2 Crowell at Seymour.

# Electrical Servants

Electricity hasn't gone high hat! In these days of expensive help, you still have one servant in your own home who is on the job day and night, and who is working the same long hours at the same low pre-war wages. Today, the average American family receives about twice as much electricity for its money as it did fifteen years ago. For the price of a three cent stamp, your electric servant will wash your clothes, make your coffee and start your ironing — electricity spreads the penny out.

Don't Double-Deck Jars Don't double-deck glass jars of ome canned food in your pantry even though that procedure is all right for tin cans.

Aside from the danger of a jar toppling off and breaking, there is the greater danger that seals may be broken.

The best procedure is to have shelves the right height for dif-ferent size jars. Usually two inches for ventilation and handling is sufficient to allow beyond the height of the can. For complete directions on proper storing of home canned food, get a bulletin, "Pantry Suggestions." It is available from your county home demonstration agent.

Scrub apples well. cores. Cut a slit in the skin all the way around the apple at right angles to the core to prevent the skin from bursting during cooking. Place apples in a saucepan. Make a mixture of spice and sugar, using about a teaspoon allspice or cinnamon to each half cup of sugar. Put the sugar and spice mixture in the holes left by removing the cores. Add a fourth cup of water for each apple in the pan. Cover the pan and cook on top of the stove over low heat. Turn apples once during cooking. Cook until apples are tender-usually from to 15 minutes. The last minute before the apples are done, remove the cover. Take care not to overcook, for, once tender, apples cook to mush quickly.

# Two Minute Sermon (By Thomas Hastwell)

I Like To Do This: One day restepped over His little daughter about six years old, was busily en gaged washing some doll clothes on a small washboard in a small She worked vigorously at the task holding up the dripping garime to time to in spect them and then giving them another sub to get out a fancied soiled spot. "That is a pretty hard job you have, isn't it?" I said as I stepped up on the porch where she was at work. "No, this isn't hard work." she said "I like to hard work," she said. "I like to do this." I wonder if the little miss didn't have the secret of tak-ing the burden out of the drudgery and the unpleasant tasks that ar the lot of everyone. If we, instead of looking upon our unpleasant tasks as tiresome drudgery, could approach them with the same attitude that my little neighbor had toward washing her doll clothes, and could say with her, "this isn't hard work. I like to do this," could not all of us lighten many of our

CCASIONALLY, I wake up in the morning with a Headache. It sometimes wears off along the middle of the forenoon, but I don't want to wait that long, so I drink a glass of sparkling ALKA-SELTZER. In just a little while I am feeling a lot better.

Sometimes the week's ironing tires me and makes me sore and stiff. Then it's ALKA - SELTZER to the rescue—a tablet or two and a little rest makes me feel more like finishing the job.

And when I eat "not wisely but too well," ALKA-SELTZER relieves the Acid Indigestion that so often follows.

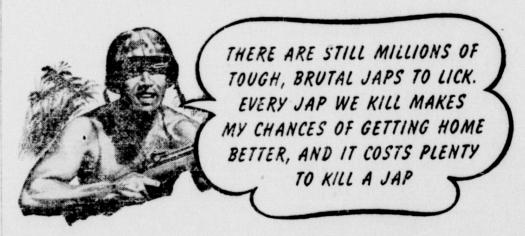

Yes, Alka-Seltzer brightens my day. It brings relief from so many of my discomforts, that I always keep it handy.

Why don't you get a package of ALKA-SELTZER at your drug store today?

# THE JOB IN THE PACIFIC IS STILL TERRIFIC!

If YOU think Japan is a pushover—you're fooling yourself, mister. Millions of fanatical Japanese are prepared to die for their country. Every American soldier, marine and sailor in the Pacific knows that he has a tough fight on his hands. You can't tell them their war is over! Even as you read these words, American men are dying in the fight against Japan.

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

# It costs billions of dollars a month to fight Japan

The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in War Bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men—we must continue to buy War Bonds.

Once again you are asked to buy at least one extra \$100 War Bond. Buy more if you possibly can. Not only is it for the final Victory—it's for your future. Sign up for extra War Bonds on the Payroll Plan. Welcome the Victory Volunteer when he or she calls at your home. Remember—the job in the Pacific is still terrific. We're out to get Japan in the 6th War Loan Drive!
