She says, "No season of the year is so suggestive of clean-up time as the month of March. It is the month when all old vegetation is dead and the new beginning to come—the time to rake and burn.

## Red Cross Drive Opens with Banquet Wednesday Evening

All workers in the current Red Cross drive now in progress in Foard County, were asked to attend a banquet at the DeLuxe Cafe Wednesday evening, Feb. 28, when plans were formulated for the drive which opened March 1, and reports of the work of the various branches of the work heard from the committee chairmen.

In the absence of Hubert Brown, county chairman of the drive, A. Y. Beverly, County Red Cross chairman, presided at the meeting which followed a splendid meal. In response to his request for reports, Miss Margaret Curtis, secretary and treasurer, made her annual report of the finances. Mrs. Sam Bell, War Production chairman, called on her assistant, Mrs. A. L. Davis, to report the work done in the sewing room. Mrs. Jack Seale, knitting chairman, made a report of the finished work and of the material on hand for further knitting.

Leo Spencer, Home Service chairman, made a report on the activities his committee had accomplished. George Self, disaster chairman, Miss Blanche Hays, Prisoner of War chairman, and Mrs. N. J. Roberts, a co-chairman of Camp and Hospital committee, also made reports of their activities. Mrs. T. W. Cooper talked about the work of the Red Cross nurses and the Clubmobile workers.

Acting for Hubert Brown, Geo. Self talked to the workers in the drive and plans were formed for the immediate undertaking of the drive and its furtherance to a successful close. Materials were distributed to those workers present. Much enthusiasm was manifested and though all workers were unable to be in attendance on account of the weather, complete plans were formulated with the desire to finish the drive in record time.

A full report of the accomplishments of the local Red Cross chapter for the past year will be given the public through this paper at an early date.

## Foard County Oversubscribes Red Cross War Fund in Five Days, It Was Announced Tuesday Afternoon

## Soil Conservation Dist. Supervisors Meet Here Friday

Supervisors of the Lower Pease River Soil Conservation District met here Friday, March 2, to perfect the organization of the supervisors and to begin the development of a program of work for the district.

The following officers were elected: W. C. Howard, chairman; Grady Halbert, vice chairman, and S. C. Bailey, secretary-treasurer.

Those attending the meeting were: O. H. Brandon, Goodlett; W. C. Howard, Quanah; S. C. Bailey, Medicine Mound; L. A. Gilliland, County Agent, Quanah; Grady Halbert, Foard City; Claude Orr, Thalia; and D. F. Eaton, County Agent, Crowell. All members of the board of supervisors were present.

The board officially sought the assistance of all other agencies, local, state and national, in the effort to develop a program of work.

Among the many items needed to give a complete picture of the agricultural needs of the district are a soils map of the district indicating the various soil types, average rainfall, population, seasonal distribution of rainfall and similar information. Since the program is built around proper and efficient land use, all factors effecting the use of the soil will have to be considered.

This involves climate, rainfall, crop production, livestock production, economic problems, methods of soil improvement, prevention of erosion, educational activities, social conditions, land ownership, tenant operators, and dozens of other factors that contribute to or detract from human welfare in the district. The securing of the facts on the various topics as outlined are assigned to various agencies, organizations and individuals.

As soon as this data is obtained it will be assembled and drafted into a program of work which will set forth the needs of the district.

Following this, a plan of work will be developed which will show just how and the methods and procedure used to carry out this program on the farms and ranches in the district.

Red Cross at the Rest Camp Overseas

With the 36th "Texas" Division, Seventh Army, France. — The work done by the American Red Cross at the 36th "Texas" Division Rest Camp cannot be over-estimated. Doughboys have proclaimed the camp by far the finest they have ever visited, and no one leaves after his rest without praising Red Cross Field Director William Fine and Red Cross lassies Carmel White and Katherine McDonald.

The Red Cross Corral is the center of the entire camp. It is the gathering spot where the men can find big, soft, easy chairs in which to relax and listen to the radio and swap stories. In the Corral is the library of popular magazines procured through the Red Cross. There too is the writing room, well stocked with pens and ink and paper. During December, Mr. Fine secured seventy-five thousand sheets of writing paper, thirty thousand envelopes, as well as enough wrapping paper and twine to enable the men to send home souvenirs. He also provided the souvenirs—perfume, pipes, and gaily decorated wooden shoes.

Adjoining the Corral is the Red Cross Snack Bar, a boon to late risers. Coffee is always available during the morning, and after the evening movie, it becomes the bustling center of activity. Until the supply gives out "Candy" White and "Kay" McDonald pass out hot coffee and fancy pastry. This is the gayest hour of the day.

The Red Cross also discovered that the local photographer could take care of all the men providing she could get an adequate supply of physaliphate to develop the negatives. Mr. Fine got it. When the Special Services Officer discovered he needed mess articles, Mr. Fine located them, from three hundred soup bowls and three hundred drinking glasses to a dozen cooking kettles and sixty candles.

But the Red Cross at the rest camp does a lot more than find perfume and buy kettles. The Field Service Office is always open to help the men with their home problems, to write letters for them, purchase special presents at their request. When the Chaplain discovered that certain men would be of considerable value to him, Mr. Fine tracked down a supply and secured it.

All the work done at the rest camp is in addition to the regular Red Cross activity with the Division. Both Miss White and Miss McDonald are on temporary duty with the Rest Camp. In addition to these, four girls are regularly at work with the line units, as well as several Field Directors. At the dances held twice weekly, most popular partners on the floor are ex-actress White and ex-model McDonald, when they get on the floor between sessions at the Snack Bar, which is set up at the dance pavilion to supply the dancers with extra energy.

But the compliment one of them treasures more than any was given by a grinning doughboy as he plunked her squarely with a snowball: "Those gals," he said. "Those gals are it."

RED CROSS

The Tools She Needs to Help the Suffering World

Are in Your Pocket!

GIVE THEM TO HER--NOW!

Who is the Red Cross? The Red Cross is you. You and a million real Americans like you!

The Red Cross is doing the work you want done. Doing it in your name. And doing it only because your dollars make it possible.

- Carrying clothing and medicines to war victims all over the world.
- sharing the dangers of combat to help your fighting sons in fox holes, on life rafts.
- cheering and heartening the wounded.
- sustaining public health and meeting emergencies when our doctors and nurses go to war.
- training our people on the home front to meet the new needs, the dangers of modern warfare.

Every dollar you give feeds a starving child, comforts a wounded boy, helps a stricken family when disaster strikes.

This year—when the need is double—Give Double.

**FERTILIZER FOR A SPRING GARDEN**

Expansion in home gardening has raised the two-point question: How much fertilizer should be used, and when? This has bothered new gardeners, especially those who plant back yards, vacant lots or tracts in cities and towns. The important thing is to use enough of the right kind of fertilizer to get all of the production the soil can give.

It's a safe rule, says J. F. Rosborough, horticulturist for the A. & M. College Extension Service, to allot fifty pounds of Victory garden fertilizer to each hundred square feet of the garden plot. This should be worked thoroughly into the soil with a spade or rake. Another choice is to apply the fertilizer at the rate of three to five pounds per hundred feet of row space, also working it well into the soil. After the plants are well started a side dressing of fertilizer will help their growth and maturity. But the fertilizer treatment is not suited to be black-land region.

For soil in good physical condition, such as found in most farm gardens, the first application may be all that it requires. But in many cases the only soil available is considerably below the quality best suited to good yields. In such soil, Rosborough says, crops have done well when enriched immediately after spading with fifty pounds of fertilizer per hundred square feet. Further good results may be had from repeating the application as a top dressing in midsummer, or using it when preparing the ground for a new crop.

When barnyard manure or compost are available for turning under in the spring spading, a good way for applying a part of the commercial fertilizer is to scatter it over the blanket of compost or manure and work all of this into the soil. The extra plant food mixed well with the compost hastens the final decay of the compost and provides a store of fertility which many of the town and city gardens need to obtain a good yield of vegetables.

**COMPLETION OF 1945 4-H GOALS SOUGHT**

One big objective of National 4-H Club Week, which has been set for March 3 to 11, is to encourage members of Texas boys' and girls' 4-H Clubs to complete their 1945 demonstrations.

M. L. Wilson, director of Extension Work, USDA, Washington, tells us that because of the big need for food to assure victory and win the peace, too, "we cannot slacken on the home front." In view of that he would like to see every rural boy and girl between ten and eighteen become a 4-H Club member this year.

Membership in a Texas 4-H Club is a high honor. It gives every boy and girl a chance to learn better methods of farming and home making, and it gives young people on the farm an opportunity to take a leading part in the war effort as an organized body.

For the past two years, Texas 4-H Club boys have been led by the slogan, "Feed a Fighter." Records show that their production of food and fiber was equivalent to the food and clothing budgets for one year of thousands of fighting men. Here is an example: Ninety-nine Hartley County 4-H Club boys and girls produced enough not only to feed the 136 boys from the county in the armed forces, but 386 others. One Brazos County Club boy produced enough to feed 38 soldiers for one year.

Members of girls' clubs also did their full part in producing food. More than 20,000 of them grew Victory gardens, more than 10,000 had chickens and turkeys flocks, and 2,500 had fruit demonstrations. In addition girl members went down the line with the boys in feeding calves, pigs and sheep; operating their own dairies and growing potatoes. And nine of them had demonstrations in cotton.

All of this makes an inspiring picture. More so because these boy and girl club members did a large part of the regular work on their home farms in addition to keeping up with their club dem-

onstrations. National 4-H Club Week honors the hundreds of active and former members on the battle fronts across the seas, and those at home dedicated to the task ahead, which is completing their 1945 goals.

**JONES ASKS TOP FOOD PRODUCTION**

War Food Administrator Marvin Jones asks for all-out production of food this year.

In a statement received by the A. & M. College Extension Service, Judge Jones declared that there is need for all of the meat, milk, vegetables, grains and dozens of other foods which farmers can produce. To help get the biggest production possible farmers are being asked to plant more acres to crops this year.

There will be need for every garden and for all of the home canning which can be done in 1945. These are home jobs. But the administrator said that if they are done in a large way they will allow more food for people who cannot grow their own. More home grown and home preserved foods also will help to relieve the burden on railroads and trucks. The surest way to guarantee a full supply of fruit and vegetables for home use, he added, is to grow a garden and do all of the home canning possible.

There will be need throughout the country for millions of people in and help farmers to grow and harvest their crops. Judge Jones said that all who can work on a farm for the season will perform a patriotic service. And even those who can work for only a few days when neighborhood crops are ready for harvest will help to meet a serious wartime emergency. During 1944, men and women from Texas cities and towns, and high school pupils and college undergraduates set a fine record in aiding farmers to save their crops.

Judge Jones pointed out that the amount of food now required by the armed forces is greater than ever before. Civilians with more purchasing power want more of many kinds of food. And our Allies must have American food to maintain their full fighting strength. This indicates that no one will be able to have all he wants nor all of the kinds of food he is willing to buy. But Judge Jones believes that the total of what all persons can do to help out will assure plenty of good food for the armed forces and civilians, and supplies for our allies.

**RADIO SHORT COURSE PLANNED**

Folks can't drive long distances to short courses or field days during war time, so one of the best ways to keep up-to-date on developments in farming and home-making is by listening to the radio.

A radio short course for the people of the state is scheduled within the next few days by the Texas A. & M. College Extension Service. This will offer help in growing a spring garden. This will be broadcast on the Texas Farm and Home Program, a network program heard daily except Sunday at 6 a. m.

If you're interested in going to school while you sit at your own breakfast table, you can get an enrollment card from your county agricultural agent or your county home demonstration agent. Or you can order one from the Extension editorial office at College Station.

This short course on gardening begins Monday, March 12. Mark this date on your home calendar you keep handy. And here are some of the things to be discussed on this radio short course. You can get tips on starting and handling vegetables for transplanting, preparing the soil for planting, and on keeping the garden in constant production. In this radio school the persons

HISTORY

All Fools Day—April 1: Like many another day that is observed, or at least given passing notice, there is no reliable information as to the origin of All Fools Day on the first of April.

Reduction of Armament

Many people believed after the First World War that further conflict could be avoided if the nations reduced their armaments.

Hair grows faster during warm weather than cold and faster by day than by night.

Before you question your husband's judgment, take another look in the mirror.

Stock market reports should be accompanied by aspirins.

If it looks like rain—it's probably water.

Our Job in Europe

When Germany finally gives up, will Europe be in such chaos that the United States will have to keep a large army over there for years?

Millions of people will also be out of work, with the industries destroyed for which they formerly worked.

The United Nations will have a tremendous job to bring order out of this turmoil.

In Germany the Nazis threaten to keep on guerrilla warfare after their armies are broken up.

Americans and Germans

A famous general takes the position that the American doughboy is a better man and a better fighter than the German infantryman.

There are limits to the things training can do. The American young man is brought up to think for himself, and a feeling of justice is placed in his heart by the influence of our schools and homes and institutions.

Heritage of the Past

People who look around a fine town like Crowell have reason to feel that they owe a great deal to the past, to former generations, or to people who lived there in former years.

We all owe a debt of gratitude to the people who went before us. The way to pay that debt is to see to it that the home town continues to make progress, and that it keeps up with the times and is maintained in the best possible condition.

Peace-time Sacrifices

There is a great contrast between the things that the country is willing to do in wartime, and what it is willing to do in peacetime.

If there was something more of this willingness to make sacrifices and do public spirited work in times of peace, the chance of avoiding war would be greater.

When this war ends, it is to be hoped that the people will have a clearer vision than they had at the end of the first World War, of the things that have to be done to maintain peace and promote prosperity and welfare.

Home Town Thoughts

The bird that sings nicely is pretty sure to find a mate, and the store that advertises freely will find plenty of people coming to see its goods.

When you spend money in your home town, you know that the money or a large part of it keeps on circulating at home, and helps the business of the community.

People sometimes ask how they can make friends. One good way is to take special pains to do friendly acts to your neighbors and townspeople.

What We Think

(By Frank Dixon)

The conference of the Big Three, Roosevelt, Stalin and Churchill, at Yalta has come and gone.

In my opinion the Conference, and the outcome of it, marks a definite milestone in human progress and a long step toward world peace.

It marks a definite departure from lip service in the matter of world peace and an individual assumption of national responsibility for world peace.

Incidentally I desire to inject here my personal opinion that if our future program for world peace is going to be based on hope and wishful thinking; if we are as we have been in the past to look upon world peace as a thing that we can hope for but can do nothing about, we may as well give up the idea of world peace as a future possibility.

The outstanding thing in the Yalta conference as far as we of America are concerned is the acceptance by the President of a share of the responsibility of keeping peace in the world.

We are no longer an infant nation. We have outgrown our swaddling clothes.

We do not progress or become better or more intelligent by merely allowing ourselves to be the toy of the tide as the elementary amoeba.

The thing to do now is to do the best that can be done in the present very largely initial state.

The thing to do is to think straight and to abstain from petty criticism and work with unity of thought, and heart, and spirit, and conscience, to build upon the foundation laid at Yalta the best program for world peace that conflicting human views, and desires, and limitations will permit.

High Achievement

Some people think that to accomplish large results in life, they need to go to some great city where there is claimed to be more opportunity for advancement.

The small town has often been the place of great achievement. Organizations like bands, orchestras, choruses, and individual performers in small communities have often become very noted and famous.

Better Cities

In past years there has been a great deal of competition between cities and towns to grow in population.

In some places growth in number of people has not produced any better town. It is just as important, and possibly more so, to make better cities, communities that provide for advantages, and where people are prosperous and have money to spend and pay in taxes.

BROWN Look, Mrs. Brown, you don't have to hoard electricity—no matter how much you value its convenience. We make it fresh every minute and we keep plenty on tap all the time. There haven't been any shortages and there won't be. And as for price, that's been coming down steadily through the years. What's more, it has stayed low, while other living costs went up with war. Better fold up that big box, Mrs. Brown, and save it for scrap salvage. You can depend on our folks to deliver all the friendly low-priced electric service you'll ever need for your wonderful post-war appliances. West Texas Utilities Company

Kultgen in Fort Worth this week stressed the fact that this year the country will have 900 million pounds less sugar than we used last year. The ration program for this year was built around that loss of nine hundred million pounds, Kultgen said, "and the main feature of it is that Ration Boards this time will have to ration it for use in home canning rather than simply distribute it on a basis of so-much-per-person." "It will probably be the toughest rationing job they have ever had to do," the director continued, "because some people are going to complain bitterly about receiving less sugar than their neighbors." "Complaints will be kept to the minimum however, if everybody realizes that the volunteer members of the ration boards are required to ration the sugar solely to those persons who certify that they will use it in canning." He indicated that the method of distributing the application forms will vary from one county to another. Even the mechanics of rationing may vary, according to Kultgen who stated that some county boards would require the applicants to appear personally before the ration panel members while others would determine the amount of rations by reviewing the applications. "One thing that will not vary, however," he said, "is the amount of canning sugar being made available to the counties. Each county will receive the equivalent of 10 pounds of sugar per person; and that is all there will be." Main points for consumers to remember are: 1. Application forms for home

### EDITORIAL

Every child in our country deserves a fair start in life including an educational opportunity that will develop his talents to the fullest.

Failure to provide such an opportunity to all the children of the nation is tragic in its consequences.

We need the best talents of all our people. Above all we need not to be discouraged because schools often lack adequate personnel and equipment. Much of it is only half developed for the same reason.

There are tremendous inequalities of educational opportunity within many of the states which should be corrected by state action.

Among the states are several which have been spending as much as \$175 or more a year per child. Other states which exert as much or more effort are able to provide less than \$40 annually per pupil. Several times as much is spent for the education of a child in one state as of a child in another state. He goes to school longer each year. Buildings and equipment are better. His teacher is better prepared and better paid. In both cases the children are future citizens of the nation that we seek to build in the years to come. State action cannot overcome these inequalities.

Generally speaking, the poorest schools are in rural areas. Yet, according to population experts, indications are that a century hence 80 per cent of the population of the United States will be descended from people now living on farms. It is a shortsighted social policy to continue to spend the least money for the education of rural children who in turn will have the most children.

The best educational programs to be found in the nation today can still be improved. We can and must provide a good educational opportunity for every individual. The welfare of the nation in the post-war world demands such a program.

### HOW LITTLE DO YOU KNOW ABOUT YOUR SCHOOL?

It is your school, you know! But how much or how little do you know about it? Not much! Well, that's not so strange because neither does anyone else. Check yourself truthfully now, by answering the following questions. The answers will be found in this edition but no fair peeping!

### PRESIDENT'S SPEECH

Thursday morning the student body of CHS was privileged to hear over the radio President Roosevelt's personal report to Congress on his recent trip. We gathered in the study hall where we listened to the radio which was perched atop a tall ladder at the front of the room. After the speech, Superintendent Graves spoke, stressing that we learned much in this manner as well as from our books.

### BRIEF BIOGRAPHIES

For the next nine editions—that's all there is—there ain't no more, we are going to introduce you to the members of the senior class:

Name: Jeanne Breedlove.

Nickname: "Girgling Gertie."

Community: Crowell.

School Activity: Dramatics.

Ambition: A "songbird."

Likes: Classical music, science, art and anything pertaining to

dramatics. What I think about being a senior: After so long a time I've become "one of those things," and I think the life is swell. My advice to future seniors is not to delay the process of becoming a senior for 'tis something to be proud of.

Name: Frances Ann Ayers. Nickname: Frankie Ann. Age: Seventeen. Community: Riverside. School Activities: Press Club, Junior Red Cross Council, Theatricals, F.H.T. Favorite subject: All of 'em. Ambition: Social worker. What I think of being a senior: Feels good.

### CROWELL HIGH SCHOOL HAS A FIRST AID KIT

The First Aid classes of Crowell High School now have the first aid kit ready for use. You will find the following supplies in the office of Supt. Graves: Band-aids, absorbent cotton, adhesive tape, alcohol, aspirin, a glass, soda, thread—blue, black, white, tan and pink—needles, safety pins, scissors and pins, calamine lotion, amertan, phenol topical (germicide), aromatic spirits of ammonia. These classes are grateful for the excellent co-operation of all the teachers and pupils in making it possible for them to get this kit for the high school.

### THE CAT'S PURR

Seems like the Marines have landed. Naturally we're speaking of Rudolf Halecnak. He and Billie Morrison have really been doing the town.

Well, well! Tommie Eaton's car was quite crowded Sunday afternoon (or was it?) Anyway, Tommie, Bessie, Jeanne, and Helen Burnett seemed to be having a pretty swell time with the seismograph boys. To hear them talk, they did, too.

Does Bessie really have Billy Joe Taylor's senior ring? Has she forgotten Melvin so soon?

Beverly Gray was with his old flame, Bobbie McDaniel. Shame, shame, Pat, you certainly didn't keep up the morale of the home town girls. But don't get us wrong—it was swell seeing you!

Marion Hord and "Kathy" Eddy are going strong. They were double dating with Warren Haynie and Lynette Chowning.

Seen walking home together Friday night were Jane Roark and John Carter. Wasn't that a little out of your way, John?

Frances Ann Ayers was happy over the weekend. Ira Joe Hart was here. (Who wouldn't be?) Well, well, what's this about the new romance between O. L. Jack and Ava Mae Mathews.

Could it be that Bill Breedlove and Betty Williams have been seen making eyes at each other? V. Bond is still on the loose, girls. He's one more cute kid!

Earl of "Kitten Purr" Why don't you publish what is dropped in Locker 127? Dear Unknown Friend: The reason we don't publish everything that is put in the locker is because some of it isn't fit to be printed.

We would like to know more about this Al, who keeps Jeanne Breedlove supplied with letters. Youne McLain, a prominent ex-senior, was home over the week end. She brought four girls with her. They were cute. Kelly Bullion and Joe Edd were doing all right with them, too.

Bye now, Sneaky Kittens.

### JOKE

Coach Wilkinson: What books have helped you most?  
 V. Bond: Mother's cook book and father's check book!

Mr. Graves was delivering the last lecture of the term. "The examination papers are now in the hands of the printer," he concluded. "Now, are there any questions you would like to be answered?"  
 Silence prevailed for a moment, then a voice piped up: "Who is the printer?"

Mrs. Wilkinson's English II classes composition was about "Kings."  
 James Browning wrote this: "The most powerful king on earth is Wor-king; the laziest, Shir-king; the wittiest, Jo-king; the quietest, Thin-king; the thirstiest, Drink-king; the slyest, Win-king; and the noisiest, Talk-king."

Adam and Eve were naming the animals of the earth when along came a rhinoceros.  
 "What shall we call this one?" asked Adam.

"Let's call it a rhinoceros."

"But why a rhinoceros?"

"Well, because it looks more like a rhinoceros than anything we've named yet."

This is a model story from Holland: A merchant went to a farmer near Amsterdam to get a pound of butter. The farmer insisted on swapping the butter for a pair of woolen socks. The merchant went home and reported this to his wife.

"We have a woolen bedspread," she said. "I'll unravel it and knit a pair of socks." She proceeded to make a pair of socks and the merchant exchanged them for a pound of butter.

When the merchant needed more butter, his wife would unravel more of the bedspread to be exchanged for butter. Finally, one day she had enough wool left for only one sock.

The merchant took it to the farmer and asked for a half pound of butter.

"No, I'll give you a full pound."

HOUSEHOLD HINTS  
 Fish and Vegetables—Use plenty of vegetables with fish in preparation and as a combination—carrots, onions, celery, potatoes, etc.

"New" Cereal Idea—When tired of breakfast cereals, try cooking two or three kinds together. They will give a new flavor to the breakfast.

Porter Coffee—Many people use too little coffee when they make the drink. Put more of it into the coffee pot and you will have a better beverage.

## Future Farmers Presented \$10,000

George A. Rietz, Manager of General Electric's Farm Industry Division, presenting the Company's \$10,000 check to Oliver Kinzie, National President, Future Farmers of America, for deposit to credit of Future Farmers of America Foundation. With 6900 active chapters and over 1,000,000 graduate farm boys, F. F. A. is recognized as the largest farm boy organization in the world. The funds will be used to stimulate

interest and knowledge of farm boys in scientific agriculture, including farm electrification, farm mechanics, and home improvement. The presentation took place February 8, in the office of Dr. W. T. Spanton, Chief, Agricultural Education Service, Washington, D. C. National student officers, left to right, are Sigvald J. Sandberg, Minnesota; David B. Jameson, Pennsylvania; Oliver H. Kinzie, Oklahoma; Tom Vaughan, Tennessee; and Mr. Rietz.

aid the farmer. "You see, I really don't wear the socks. My wife unravels the wool and uses it for knitting a bedspread and there's just enough in this one sock to finish it."

Truscott and Gilliland Baptist Churches Preaching services are held at Gilliland on the first and third Sundays, and at Truscott on the second and fourth Sundays. A most cordial welcome is extended to all. Delightful Christian fellowship. J. W. ENGLISH, Pastor.

Christian Science Services "Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, March 11. The Golden Text is: "Speak unto all the congregation of the children of Israel, and say unto them, Ye shall be holy; for I the Lord your God am holy" (Leviticus 19:2).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Let Israel rejoice in him that made him" (Psalms 149:2). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy. "Man reflects infinite Truth, Life, and Love. The nature of man, thus understood, includes all that is implied by the terms 'image' and 'likeness' as used in Scripture" (page 94).

Weekly Sermon

By Dr. Max I. Reich, Director of Jewish Missions Course, Moody Bible Institute, Chicago.

Text: "Man shall not live by bread alone, but by every word that proceedeth out of the mouth of God."—Matthew 4:4. Our Lord quoted this text from Deuteronomy 8 in the hour of His wilderness temptation. It lays down an important principle for every man—the truth that he is not a mere animal, but a spiritual being, deriving his true nourishment not from earthly but from heavenly sustenance. Bread may satisfy a man's physical wants, but the real man, a creature born for eternity, will be unhappy if he has no other means of meeting his need.

Nor are we able to live by truth alone. We may have the benefit of higher education; but something within us will cry out for that which is higher still. Nor can we live by beauty alone. We may gratify our aesthetic sensibilities, cultivate our taste for art, music, literature, and poetry, and yet be a slave to moral corruption, and remain ignorant of the true beauty which is found alone in Christ.

Nor can we live by love alone. We may surround ourselves by friends Council on the 6th day of March, A. D., 1945, for the purpose of electing the following: Mayor and three Aldermen to serve for a period of two years or until their successors have been elected and qualified.

Mrs. Pearl Carter is hereby appointed Presiding Judge of said election, and is hereby authorized to appoint such help as prescribed by law.

Any person desiring to have his, her or their names placed on the Official Ballot as a candidate for an elective office within the City of Crowell, shall file his, her or their names with the City Secretary not later than seven days immediately preceding such election.

All qualified voters who have resided within the corporate limits of the City of Crowell for a period of six months preceding said election shall be entitled to vote.

Said election shall be held in accordance with the laws pertaining to general elections in this State insofar as they are applicable.

All candidates for City office are required to sign and execute a loyalty affidavit and file with the City Secretary. Blanks can be obtained at the City Hall.

Truett Memorial Hospital Day to Be Observed on April 8

Dallas. — Baptist Churches throughout Texas will observe Sunday, April 8, as Truett Memorial Hospital Day. Pledges and contributions will be collected at church services toward electing a 400-bed addition to Baylor University Hospital, in Dallas, as a memorial to the world-famous Baptist leader, Dr. George W. Truett.

Many pastors have selected "The Ministry of Healing" as their sermon topic for the day and others will preach on the life and works of the late Dr. Truett, particularly in respect to his service for the hospital.

Baylor Hospital was founded largely through the spirit and vision of Dr. Truett, who raised the first money for its founding, and he served on its board of trustees continuously for 41 years, until his death last summer.

"It was the one institution nearest to his heart, next to his church," Andrew Q. Allen, state campaign chairman, stated, "and it is fitting that a permanent memorial to his name should be erected in the humanitarian service to which he devoted his own time and effort."

The new building, which will double the hospital's present capacity, will relieve the critical shortage of hospital beds, which now necessitates the turning away of sick people for whom there is no room. Some have actually died before they could gain admittance to the dangerously overcrowded hospital, Mr. Allen said. Because of the emergency, critical materials will be made available for construction to begin as soon as funds are in hand, without waiting until war's end. It will thus become the first memorial to be erected to Dr. Truett, and the only one in his own home town.

Baptists and friends of Dr. Truett throughout the nation are represented among those who have already contributed to the memorial fund. Dallas alone is and lovers and affectionate relatives, and still be a seeker after a richer, purer, and stronger love. No created love is big enough for the human heart.

When we come to cry out with St. Augustine: "O God, Thou hast made us for Thyself, and the heart is restless until it findeth rest in Thee!" we will turn to the God who is manifest in Christ. Then will we find that Christ is the Master who does not destroy in us anything except the vile, but fulfills every legitimate craving of our mysterious personality. He lights up from within the master passions of our inner life—reason, love, and conscience. Only then shall we obtain a personal knowledge of God. Failing in this our humanity will be like a beautiful temple from which the divine glory has departed.

Tilden Plays Again

"Big Bill" Tilden, known to tennis fans for his powerful overhead smash, goes for a high one as he practices for his match to be held at the 71st regiment armory, New York City, for the benefit of the "Grossinger Canteen by Mail."

taking \$1,200,000 and the churches outside of Dallas are seeking a like amount.

Wiley Post and Harold Gatty circled the globe in 8 days, 15 hours and 51 minutes, a record-breaking 15,128 mile flight (June 23 to July 1, 1931). Macellan's round-the-world voyage made in 1519 to 1522 required 1,083 days.

Try It Out

While used cooking fat doesn't have to be clean and odorless, it should be free from chunks of meat, pieces of bone and other non-fat material, points out War Food Administration.

Bones, chunks of meat and gristle should be tried out, and the resultant fat added to the salvage container. Every single drop is precious. More used fat will be needed in 1945 than ever before, because war and civilian demands are expected to soar far above 1944, while supply from domestic oilseed crops and imports has decreased.

SELL WHAT YOU DON'T NEED AND HELP UNCLE SAM WIN!

Every ounce of metal saved now contributes just that much to helping Uncle Sam win the war. Do you have an extra plow, harrow, wagon or some other farm implement that you can do without?

If you have, put a Classified Ad in The Foard County News and let some farmer that needs one, know about it. You can quickly convert idle farm machinery into cold cash for only a few pennies and at the same time conserve materials for the war effort.

Hogs, Cattle, Chickens, Sheep and other things can be sold to other farmers in the same way. A "For Sale" ad in The Foard County News will bring buyers right to your door.

If You Can't Buy It New—Get It Used!

There are lots of things you won't be able to buy new in the days to come. Used articles will have to take the place of new ones.

Here again you can solve your problem simply by putting a Want Ad in The Foard County News to let sellers know you are in the market.

Buy a used auto, truck, tractor, plow, stove, refrigerator, or almost anything else you need by the Classified Ad way.

Everybody Reads Classified Ads

That's what makes the Classified Column the most powerful force in this territory. Nearly every reader of this paper reads the Want Ads. There are hundreds of readers who are looking today for the article you wish to sell.

LET CLASSIFIED ADS HELP YOU TO MAKE MONEY AND SAVE MONEY

THE FOARD COUNTY NEWS

TEXAN'S SHARE in the WAR

This column was originated by the United War Chest with two principal aims—to give Texans news of their fighting sons abroad, and to publicize the state's great contribution to our forces and their allies through the National War Fund.

But, like every other column, has an even greater duty, both to its readers and to the nation. Its duty is to support every agency and every activity that will help bring quicker victory and peace. For that reason, this column is devoted to that great humanitarian organization, the American Red Cross, which is conducting its annual campaign for funds.

Really, the Red Cross needs little "selling" to the people of Texas and the United States, for all of us should know by now of the great work which it does both at home and abroad. A reminder that the Red Cross drive should have the support of every patriot should be enough to assure its quick success.

## Crowell Entertains WCSA Zone Meeting

The members of the Crowell Woman's Society of Christian Service were hostesses to the meeting of Zone No. 3, at the regular meeting on February 16 at the Methodist Church. Mrs. Virgil Johnson, zone leader, presided at all sessions of the meeting.

The theme for the day was "A More Christ-like World." Mrs. T. B. Masterson of Truscott gave the morning devotional on the subject, "Service," and stressed the fact that we should give our best service to the Master in the stress of times when laborers are needed so badly. Mrs. Johnson gave an explanation of the "Doors of Progress." The first door, "Spiritual Life," was presented by Mrs. Johnson. "Literature and Publications" was given by Mrs. Solon Haynes of Odell. "Christian Social Relations and Local Church Activities" was given by Mrs. L. B. Taylor of Dumont. Mrs. Sam Breedlove of Quannah gave "Missionary Education of Our Youth," and "Membership" was covered in a general discussion. Mrs. Stanley Hayne of Quannah closed the morning meeting with a devotional on the theme, "Ordinary Men for Extraordinary Tasks." Among the things she stressed was that a person is said to have as much religion as he can assert in time of trouble.

Following a covered dish lunch

in the basement of the church at noon, with the local ladies as hostesses, the business session was transacted as the first part of the afternoon meeting. A Life Membership was presented to Mrs. Virgil Johnson by Mrs. M. J. Girsch, president of the Crowell society. The membership was the gift of the zone and expressed the confidence and love of the zone members for their leader. Mrs. J. H. Robertson, district secretary, talked on the "Crusade for Christ" campaign of the Methodist Church, now in progress. Reports were heard from the societies of the zone and all reported an outlook of encouragement and enthusiasm.

The meeting was brought to a close by a devotional by Mrs. Grady Bingham of Odell, district president, who left, as a thought for meditation, "Will we go the Second Mile with Christ?" Truscott extended an invitation for the next meeting and it was unanimously accepted.

## COLUMBIAN CLUB

The Columbian Club members enjoyed one of the most delightful programs of the year when Mrs. A. E. McLaughlin entertained at the home of Mrs. R. L. Kincaid on Wednesday, February 21. It was the Fine Arts program and the feature, "Fine Arts as a Patriotic Service" was discussed by Mrs. McLaughlin. The part played by drama and poetry was presented by Mrs. Hines

## Clark

A very interesting feature of the program was an art exhibit arranged by Mrs. Kincaid. Two collections of artistic pieces sent home by soldiers were on display. One from India consisting of beautiful hand-carved articles in brass and ivory and glass was sent to Mrs. Jim Long by her grandson, Jimmy Williams. Another was sent from Rome to Mrs. J. T. Ferguson by her son, Morris, serving on the Italian front. This collection consisted of hand-carved boxes of beautiful woods. A large collection of brass and pictures made of wood and cork were from Mrs. T. V. Rascoe's Chinese collection. Also on display were Mexican baskets, Hawaiian articles and a large collection of American pottery, English Checkoslavakian and Chinese pottery.

The exhibit was not only beautiful but gave an insight into the artistic talents of the various peoples. The handwork in linens of the Chinese women and the unusual artistic lines and handicrafting of the Indian people were especially noted.

The hostess served a tempting plate consisting of coffee with cake and whipped cream. The next meeting will be held in the home of Mrs. Sam Crews on March 7, with Mrs. Carvel Thompson as hostess.

## Birthday Celebration for Former Resident of Foard County

Mrs. A. L. Cannon, who resided in Crowell until she moved to Fort Worth to live with her son, Harvey L. Cannon, and his wife, was honored by them in the home on Wednesday, February 28, on her 84th birthday.

Four generations were represented at the family gathering. Mrs. Cannon, her son, Harvey Cannon; a granddaughter, Mrs. Annie Lee Tyson, of Fort Worth and her great granddaughter, Patricia Jane Tyson.

Refreshments were served during the day and Mrs. Cannon received many greetings and gifts.

Mrs. Cannon, a native Texan, was born in Plano, Collin County, in 1861. Her name was Miss Jenny Lyles, the daughter of Mr. and Mrs. P. H. Lyles. She was married to A. F. Cannon in Plano in 1884. Mr. and Mrs. Cannon came to Crowell to make their home in 1917, having come here from Gainesville. Mr. Cannon passed away here several years ago.

Mrs. Cannon has two other children, besides Harvey Cannon. They are Mrs. O. N. Baker of Foard City, who attended the celebration and a son, B. D. Cannon of Woodburn, Oregon. She has two sisters, Mrs. Sarah Pierce of Los Angeles, Calif., and Mrs. Sude Ray of Fort Worth.

Among those who attended the party for Mrs. Cannon were Mrs. Sude Ray, Mr. and Mrs. B. B. Ray, Mr. and Mrs. W. O. Tyson and daughter, Patricia Jane, Mr. and Mrs. A. H. Balch, Mr. and Mrs. Tommy Snodgrass and son, Paul Wallace, Mr. and Mrs. R. K. Howard, Mrs. A. E. Richards, Mrs. W. S. Hamilton, Mr. and Mrs. Walker Davis and daughters, Vonna Lee, Barbara and Paula Fay, and Mr. and Mrs. M. C. Blackburn.

## Garden Club Will Meet Friday, March 9

The Crowell Garden Club will meet Friday, March 9, (tomorrow) in the home of Mrs. R. L. Kincaid. The meeting will be held at 3 o'clock and a large attendance is desired.

## MARGARET H. D. CLUB

The Margaret Home Demonstration Club met Feb. 13, in the home of Mrs. Hugh Shultz with eight members present. An interesting program was rendered with each member taking part.

Mrs. R. A. Bell then led the recreation period. The next meeting will be with Mrs. Henry Blevins on March 9.

TWA air hostess requirements are: At least one year in college; between 21 and 26 years old; between five feet two inches and 5 feet 5 inches tall; weight between 100 and 125 pounds; the applicant must be single. After acceptance the applicant attends TWA's "College of the Air" for five weeks at the air lines expense. After a week of practical experience aboard one of the airliners, the hostess trainee is ready for flight duty. When the plan for putting hostesses aboard airliners was first inaugurated only nurses were accepted. Now, due to war needs for nurses, applications from nurses are not accepted. The present schedule calls for the training of 40 hostesses every six weeks.

## Foard County Club Girls Join 4-H Club Week Observance

Foard County has 146 girls among the 103,000 boys and girls in Texas and the 1,700,000 in the United States observing National 4-H Club Week March 3-11.

Club members will be presented a 4-H Club pin by the Women's Home Demonstration Council in recognition of 4-H Club Week.

Girls have done a good job in producing food. Members who have taken a leading part in creating the home food supply preserved nearly 2,000,000 quarts in Texas last year.

Progress is being made in Foard County this year in accomplishing other goals which develop from demonstrations given at monthly club meetings. Upon the completion of a goal a club member either brings it to show her club or brings a note from her mother as evidence she has accomplished the goal. She is then given a small green clover leaf seal to paste in her yearbook to make a record of goals accomplished.

The following list shows accomplishments reported to the county home demonstration agent since September, 1944:

1. Made draw string bags: Wanda Van Winkle, Jean Hughston, Marcia Kincaid, Betty Halbert, Virginia Tamplin, Mary Lynn, Rosemary Moss, Frances Sparks, Charlicia Ketchersid, Naida Dean King, Lavern Holloway, Dorothy Stone, Carolyn Bell, Mary Ermine Cooper, Helen Ribble, Georgia Ricks, Martha Athey, Georgia Bell, Lucille Carroll, Sarah Odell, Jane Cooper, Emilie Kajs, Evelyn Kajs, Glenda Hammonds, Marie Hammonds.

## Disease Epidemics Could Be Prevented by Early Reports

Austin.—In speaking about epidemics, Dr. Geo. W. Cox, State Health Officer, states that if doctors, nurses, householders, and others would report the occurrence of any communicable disease immediately to the local health officer, many epidemics could be prevented or greatly curtailed.

The control of preventable disease depends upon the perfect reporting of all cases. It is necessary to secure information as to when and where cases occur before the proper steps for the control of these cases can be taken. Every epidemic starts with one case and the doctors engaged in protecting the public health are interested in locating this first case to prevent its spread to others.

Some of the contagious diseases are quarantinable. This is done not to punish the persons involved for having the disease but to protect the well. The quarantine sign is not a disgrace but a badge of good citizenship, as it shows what household is trying to protect others from contracting a contagious disease.

Although written in 1776, the original copy of our Declaration of Independence is still in good, readable condition.

## Four Names Have Been Filed for City Aldermen

Four names have been filed as candidates for City Aldermen in the election to be held at the City Hall on Tuesday, April 3, at which time the mayor and three aldermen are to be elected to serve on the City Council for the next two years.

Those who have announced for aldermen are Tom Russell, Jim Cates, R. J. Roberts and L. G. Andrews. Mr. Russell, Mr. Roberts and Mr. Andrews are now members of the Council.

## HINTS FOR HOME BAKERS Whole-Wheat Rolls in Jiq Time!

Make them with Fleischmann's yellow label Yeast—the only yeast with those EXTRA vitamins

**SPEEDY WHEAT ROLLS**  
1 cake Fleischmann's Yeast  
5 cups whole-wheat flour (Graham)  
1 cup sifted white flour  
1 cup melted shortening  
2 cups milk  
2 tablespoons molasses or dark brown sugar  
1 1/2 teaspoons salt  
Scald milk; add molasses or sugar and salt; cool until lukewarm. Crumble in yeast and stir until dissolved. Add half the flour and mix until smooth. Add melted shortening and remaining flour, and mix soft. Place dough in greased bowl, cover and let rise in warm place free from draft, until doubled in bulk (about 1 1/2 hours). Knead light, shape into rolls and place in well-greased pans. Cover and rise again until light (about 1 hour). Bake in hot oven at 425° about 20 minutes. Makes 2 1/2 dozen.
