Red Cross Home Nursing Classes Begin in Foard County This Week Supervised by Miss Olga Larson, Red Cross Nurse

The people of Foard County are aware that the strength of their community lies in the health of their families. Because of this the local Red Cross Board under the chairmanship of A. Y. Beverly has arranged for a Red Cross Nurse to conduct classes in Home Nursing for the next two months. The nurse, Olga Larson, arrived in the county on Monday and will have her office with the Home Demonstration Agent, Miss Larson by the Midwestern area office of the American Red Cross. She has taught home nursing in five states and while in Texas has had classes in Naacogoches, Ellis and Smith Counties.

The present course in Home Nursing consists of six lessons of two hours each. The course is designed to meet the needs of every busy woman. Home study is not essential, and there is no final examination. Home Nursing certificates are presented to those women who attend the six lessons. The organization of the classes is under the direction of Mrs. Moody Bursay. Co-operating with her are Miss Elizabeth Elliott, the Home Demonstration Agent, Business and Professional Women members of the Columbian and Adelpian study clubs and local citizens. The Crowell classes will be held in the jury room of the court house. Membership in the classes are open to women interested in learning nursing skills for the care of their family.

The Business and Professional Women had their first class Wednesday night, June 13, at 7:30 o'clock. They will meet on Monday, Wednesday and Friday evenings. This class is under the direction of Miss Blanche Hays. The Columbian Club will sponsor two classes. One group under the direction of Mrs. Lee Black will meet on Thursday and Friday afternoons from 3 to 5 o'clock. The second group will meet on Tuesday and Thursday mornings from 9 to 11 o'clock. This group is under the direction of Mrs. Lee Black.

A commendation to all personnel of the 49th AAA Brigade, of which Pvt. James Everett Long, son of Mr. and Mrs. Frank Long, is a member, has been received by the parents and expressed appreciation of the Major General, commanding officer, for the skillful and enthusiastic execution of the plan for the initial commitment of the brigade under the V corps plan for the invasion of Western Europe. Pvt. Long is in the Anti-Aircraft and wears 5 battle stars, the Arrow Head and Good Conduct Medal. The five battle stars are for combat in Normandy, France, Germany, the Ardennes Forest and the Ruhr Pocket. He is now in the Army of Occupation in Germany. His battery was recently given the highest rating in the battalion.

Mrs. Caddell of Truscott has received a telegram from the War Department telling her that her son had been seriously wounded. Mrs. Caddell was visiting another son in Fort Worth when she received the message.

Cpl. Harold Bannister, who is with the 14th Air Force in China, writes his parents in Thalia that he recently enjoyed a visit from the following Foard County boys, Cpl. Duane Capps, Sgt. Weldon Hays and Edward Clark.

Sgt. John P. Cogdell, son of Mr. and Mrs. W. A. Cogdell, writes his parents that he has been placed in a group who will be returned to the United States and discharged. He has an even 100 points to his credit. He says that his morale went up 1000 per cent when he got the news that he was to be sent home as soon as shipping facilities could be had.

Cpl. Billie J. Swan, son of Mr. and Mrs. H. L. Swan of Thalia, was among the first doughboys on German soil, according to a news release from the 6th Army in Germany. He was attached to the 11st Infantry Regiment which, in 10 days, battered the Wehrmacht from strong positions along the Moser River through the Siegfried Line. They engaged in bitter house-to-house fighting in the town of Hagena.

Lt. Dennis Eubank and wife and baby of Dallas spent the week-end with Mr. and Mrs. Cullie Eubank of Truscott.

Pvt. Clinton McLain, son of Mrs. P. H. McLain, writes his mother from the Philippines that he is employed in an office at Gen. Douglas MacArthur's Headquarters and that he is well and fine and working with a fine bunch of men. He has been in the Philippines for about a month.

Sgt. J. B. Eubank of Camp Bowie, spent the week-end with his parents, Mr. and Mrs. Bruce Eubank, of Truscott.

Sgt. R. B. Watkins and wife and baby, who have been in Biloxi, Miss., are here visiting in the home of his parents, Rev. and Mrs. R. S. Watkins. He has a 15-day furlough and is en route to the West Coast.

Ernest M. McDaniel (Pat) seaman, second class, son of Mr. and Mrs. Pat McDaniel, has recently been transferred from the Great Lakes Naval Training Station to Memphis, Tenn., for further training as a technician in the Naval Air Corps.

Knudsen Resigns

Lt. Gen. William S. Knudsen, who recently was given the Oak Leaf cluster to the Distinguished Service medal, has resigned from the army to return to civilian life.

Little Pamela Kay, three-year-old baby daughter of Mr. and Mrs. William Simmons, passed away Friday night at the local hospital following an illness of a few hours.

Funeral services were held Sunday afternoon, June 10, at the West Side Church of Christ, with Bro. Raymond Wall, of Medicine Mound, officiating. Pall bearers were Bob Weathers, Walter Nichols, Riley Trammell and Leonard French of Quanah. The flower bearers were Peggy Charlene Trammell, Charis Ketchersid, Joyce Sparks, Shirley Trammell, Helen Jean Sparkman, Frankie Mabe, Anna Bell Whitely, Katherine Sparks, Mrs. Clyde Sellers, Mrs. Jim Clowers and Mrs. Riley Trammell.

Burial was made in the Crowell cemetery under the direction of Pamela Kay was born in Crowell on November 16, 1942. Survivors include the parents, one sister, Sandra, the grandparents, Mr. and Mrs. Bert Hanks, the great grandparents, Mr. and Mrs. W. O. McDaniel and George Naron of Quanah. A number of uncles and aunts also survive.

The father was at home on furlough, after the family's having been together at Camp Hood, near Waco, for several weeks, recently. Pvt. Simmons will leave for the West Coast soon.

Electra Lady Dies Here Thursday

Mrs. Mary Elizabeth Whitley of Electra passed away at the local hospital on Thursday night, June 7, shortly after having been taken to the hospital. Mrs. Whitley was the mother of Mrs. J. O. Coffey, a former resident of Crowell. Mrs. Coffey was en route to Lubbock when her mother became quite ill, and was taken to the home of Mrs. Everett Meason and from there to the hospital when she became worse.

Funeral services were held at Electra Friday afternoon and were attended by Mrs. Meason and Mrs. S. F. McCall from Crowell.

Survivors include Mrs. Coffey, two other daughters, Mrs. George Bullard and Miss Mary Ellen Whitley and two sons, J. P. Whitley and Roy E. Whitley.

New Radiator and Welding Shop Opened

Howard Dunn has opened a new radiator and welding shop in the building recently constructed by F. J. Jones and Leo Spencer on the old Masonic Hall across the street from the Girsch Service Station. Mr. Dunn is an experienced mechanic and operated an automobile and radiator shop in Crowell several years ago.

Will Keep Books for Self Motor Company

Don't Concentrate Christmas Mail Load, Navy Says

Dallas, June 11.—The Navy Department encourages the mailing of overseas gift packages throughout the year. Although the War Department advises that the mailing period for Christmas parcels to Army personnel will be the same as last year—September 15 to October 15—there is no restricted mailing period for the personnel of the Navy, Marine and Coast Guard. All Christmas parcels should, however, be mailed not later than October 15 to afford some degree of probability of delivery prior to Christmas.

Due to the distances—more than five million square miles have been won from the enemy since 1941—and the size and frequency of combat operations in the Far Pacific, no guarantee of delivery can be made.

Girl Scouts Have One-Night Camp

Twelve Girl Scouts and their sponsor, Miss Frankie Kirkpatrick, met at the Little House last Friday and enjoyed a picnic supper. Then, the night was spent at the Little House and breakfast was cooked out of doors next morning.

Harvesting of Million-Bushel Wheat Crop for County Almost Completed; Elevators Received 931,000 Bushels

The peak of the 1945 wheat harvest was reached last week and by Friday the big rush of the grain to the Crowell elevators began to slow down and by Saturday, although wheat was still being unloaded at the elevators, pandemonium which had prevailed for the past 11 or 12 days on account of the scarcity of space in the elevators to take care of deluge of wheat, suddenly stopped and normally reigned again. Transient combines and trucks remaining here left out Saturday and Sunday to continue the harvest in other sections.

The harvest of the wheat crop this year was completed in the shortest length of time in the history of the county, the main rush lasting about 11 or 12 days. The harvest season started earlier this year than ever before. E. G. Grimsley reports that he har-

vested wheat on May 25, however, combines as a whole started over the county on Monday, May 28. Up to Wednesday at noon the elevators at Crowell, Margaret and Foard City had received 931,000 bushels. The acreage in the county planted to wheat this year was larger and the yield per acre was smaller. It is conservatively estimated that from 50,000 to 70,000 bushels of wheat remains on the farms, either to be harvested or retained there for seed or other purposes. County Agent D. F. Enton says it takes about 50,000 bushels to seed the acreage planted to wheat in the county.

Some farmers received \$1.42 per bushel for their wheat at the beginning of the season, but the price dropped 2c per bushel and was \$1.40 per bushel Wednesday. Wheat acreage in the county this year was 65,000 acres.

Foard County Exceeds Over-All Quota in the Mighty 7th War Loan Tuesday of This Week, George Self Announces

Foard County went over the top in the mighty Seventh War Loan drive on Tuesday, June 12, two weeks before the drive officially closed. Tabulations on that day revealed a total over-all sale of \$136,094.00. Foard County's quota was \$135,000.00; however, the sale of "E" bonds up to this period was \$91,826.00 against a quota of that denomination of \$115,000.00.

This is the seventh time the government has called on Foard County for a given amount of money and its loyal citizens have that many times purchased more than the quota.

It is reliably estimated that the citizenship of Foard County now holds around \$1,000,000.00 worth of government war bonds. A very small per cent of the bonds which have been purchased in Foard County have been redeemed. This fact alone attests to the loyalty and patriotism of the people of Foard County. Although the mighty seventh bond drive came at a time when most of the people were extremely busy with their farm work, it went over with a bang. It is expected, when the drive officially closes, that the total amount of bonds purchased will be around \$200,000.00.

Five communities of the county have exceeded their quotas. Chairman G. D. Self announces that final figures of sales by communities will be released at the close of the drive. Foard County people have again done themselves proud and at the same time, have bought something which they may have and hold. It gives a feeling of satisfaction to report to the fighting men that their homefolks have again tried to uphold them by supplying the funds called for and needed for operating the war in which they are fighting and giving their all.

S-Sgt. Joe Eddy Jr. Arrived at Home Last Thursday

S-Sgt. Joe Eddy Jr., who was a prisoner of the Germans for more than three months, arrived at home last Thursday from New York.

Sgt. Eddy was taken prisoner by the Germans on Jan. 5, this year, and was liberated by the British Second Army on April 28. He sailed from Le Harve, France, on May 13 and reached the United States June 3.

Mechanics Needed to Repair Ships

Damaged fighting ships are arriving at west coast navy yards faster than repaired ships can be sent back to fight Japan," said Mrs. Inez Seppner, local secretary of the U. S. Civil Service Board of Examiners, this week. "President Truman, Chairman McNutt of the W. M. C. and Admiral Nimitz declared these repairs must be hastened. Other ships scheduled to be overhauled after 40,000 miles have made near a quarter of million miles without overhaul, and are being forced to come in for repairs and replacements regardless of the need for them in Japanese waters.

"As the President says, electricians, machinists and sheet metal workers are urgently needed at Mare Island, Hunter's Point and Puget Sound Navy Yards. Qualified men are hired on the spot. Travel and eating expenses en route are paid and living quarters are assured at the navy yard where they choose to work."

Texans anxious to help the Navy do its best can get employment at Navy recruiting stations in Fort Worth, Dallas and other points. They and others may get information about how and where to apply from any first or second class post office, or from the Branch Regional Office, U. S. Civil Service, Customs House, New Orleans, or the Regional Office, U. S. Civil Service, 210 South Harwood Street, Dallas, Texas.

NEW THALIA PASTOR

W. D. Starr, Church of Christ minister, has recently accepted the Thalia Church of Christ pastorate and assumed his duties June 1. Mr. and Mrs. Starr and their two children, Dilie Jean and Jerry, moved to Thalia from Mt. Earnshire, Texas.

CEMETERY DONATIONS

Since the last report was made, the following have made donations to the cemetery fund:

Landscape Planning Meeting to Be Held Monday Afternoon

All persons in Crowell and Foard County interested in learning to landscape their home grounds are invited to attend a meeting to be held Monday, June 18, beginning at 2:30 p. m. The groups will meet at the office of Miss Elizabeth Elliott, County Home Demonstration Agent, at 2:30 and then go to the home of Mrs. C. W. Carroll for the demonstration.

Mrs. Florence W. Low, Acting Specialist in landscape gardening for the Texas Extension Service, College Station, will be present to conduct the demonstration. A landscape plan will actually be made planning for the kind of shrubs to use in Foard County and how to locate them in the plan.

This meeting should be of special interest to people in Crowell and areas where plenty of water is available for watering shrubs. It is open to the public and you are urged to take advantage of the opportunity. Now is a good time to make landscape plans so the shrubs can be set out in the fall.

Please wear clothes to protect you from the sun or bring an umbrella as it will be necessary to be out in the yard some.

Lt. Tom A. Andrews Arrived in United States Monday

Lieut. Tom Andrews, who was held in a German prison camp from Dec. 17, 1944, until April 29, 1945, arrived in New York Monday, June 11. He talked to his parents over the telephone Tuesday morning. He stated that he would be sent to Fort Sam Houston, Texas, where he would receive a 60-day leave to visit his parents, Mr. and Mrs. L. A. Andrews.

Lieut. Andrews was released by his own division, the 99th division of the 3rd U. S. Army, and he was united with men he had been serving with in the fight against Germany.

Lieut. Andrews and Sgt. Joe Spencer recently met by accident and enjoyed a short visit.

AGRICULTURE (D. F. Eaton, County Agent)

MATERIAL FOR GRASSHOPPER BAIT

The county now has material on hand for mixing poison bait for grasshoppers. The bran and poison was obtained from Quanah, but the supply of sawdust was exhausted so that cotton seed hulls will be used instead. Since the hulls will have to be paid for by the county, it will be necessary to make a small charge of 30 cents per hundred to cover cost of labor and material.

The Farmer's Co-Op. Gin is providing the space for mixing and the water as a part of their contribution. It will be necessary to mix the material here before it is taken out to the farm.

In putting out this material during this extremely hot windy weather it should be done early in the morning and frequently, and if the material dries out it may

have to have more water. It should always be sown thin in the infested area. Do not put it out in piles.

The grasshoppers eat the bait best when it is fresh. If you are able to control them, after they become large, it will be only by persistent effort. When care is taken and instructions followed, they may be controlled. Anyway, we will be glad to cooperate with the growers and do our best to control this pest.

GRAIN HARVEST IN OTHER SECTIONS

Since the grain harvest is about over here and machines and men will be moving to other sections, we have the following information that might be helpful to custom operators moving into other areas from here.

This information comes through the Plainview Farm Labor Office, and is as follows: "Grain is ripening very fast in all the Plains area.

"The Plainview area will need fifty combines by June 11 and fifty more combines by June 14. Briscoe County will need fifty combines with crews and 25 extra harvest hands by June 15, with other counties in this area having similar needs.

"The eastern counties of the Texas Panhandle will need combines beginning June 18. Carson County reports needing 33 combines, 30 trucks, and 115 harvest hands on this date. The Amarillo area will need combines and labor as of this date. Ochiltree County reports needing 100 combines with trucks and harvest labor starting June 20. Other counties in this area will have similar needs.

"Since all the Panhandle area will be ready to harvest in such a short time, more combines, trucks and labor will be needed than recently anticipated. Combine operators, tractor drivers, truck drivers, and harvest labor will be needed in all the Panhandle counties.

Contact the Extension Service District Farm Labor Office at Plainview for more developments and harvest information. Having the exact information will save time and transportation and enable your men to move directly to location where the labor and machines are needed."

In addition to the above we have this further information by phone. That there is sufficient men and equipment in the Vernon, Quanah, and Childress areas as well as in the southern part of Oklahoma.

Harvest is at its peak this week in Hardeman, Wilbarger and Childress counties. With favorable weather we will finish in Foard and Knox Counties this week.

UNDULENT FEVER SPREADING

There has been some uneasiness over the county about the spread of Undulent Fever. There are a few cases here in Foard County and some in Knox County.

This disease is contracted from milk taken from cows having Bangs disease. The germ may be destroyed in the milk by pasteurization.

On the farm the disease among animals spreads from animal to animal, and is very difficult to control when the farm herd becomes infected. In this climate the disease is not so widespread as in areas of greater rainfall.

When a cow begins to lose calves she is usually infected with this disease. In order to determine definitely whether an animal has the disease or not it is neces-

sary to have a blood test in a laboratory. The disease may be found in beef cattle as well as dairy cattle, but is less frequent in the former, as dairy cattle are usually confined to smaller areas.

The counties north and west of us are carrying on a systematic test to find and dispose of the infected animals. The infected animal may be sold on the market for beef without danger to health.

If there is sufficient interest here in the county, especially among dairy cattle owners, we can arrange to have a qualified veterinarian draw samples of blood and have the tests run to determine the diseased animals.

In order to do this we would have the co-operation of owners of cattle so that days could be set and a number of herds lined up for testing, sufficient for a day's run.

By handling it in this way we could cover large areas in a day, and the charge would be nominal. Any action along this line will depend absolutely on the interest shown and would be handled by a committee of stock owners, in co-operation with this office.

We know that this is the only thing that can be done to safeguard the spread of this disease, and the health of the people. Although comparatively few have the disease, those who do, are incapacitated for work and the disease is difficult to cure.

Aside from the health phase of the proposition it is a serious disease among livestock and causes serious financial loss. We anticipate that in the near future we will have some plan to clean the livestock of this disease by some voluntary plan.

Flag Day

June 14 is observed as Flag day, and it is the anniversary of the date when in 1777 the Continental Congress passed a resolution establishing the present design of the colors as the flag of the United States.

The action adopting this symbol was an important one in history. It indicated that the 13 colonies had become conscious that they had become one nation, and should have one national flag as the expression of their loyalty.

They were tied together by bonds of common sympathy and by the necessity of maintaining a united front in fighting the Revolutionary war.

The colors of the flag are symbolic of the things for which the country stands. The red may be taken to symbolize the sacrifices made by those who have given or offered their lives in the country's wars.

Blue, as the symbol of happiness, may stand for the devotion of the people to the principle that happiness should so far as possible be provided for all the people.

What We Think (By Frank Dixon)

There has been presented to Congress a Social Security bill which greatly enlarges the scope of the present Social Security program which when it was first set up was admitted to be a trial effort to discover a workable plan for what is known as cradle to the grave security.

amount to just about that. Under the operation of the Security program the matter of providing for one's future is taken out of the hands of the individual and is turned over to the government.

As I see it the only difference between this new plan and the plan used by our grandfathers and their grandfathers who tell the obligation to provide their own old age independence through saving and thrift and self-denial, is that the management of the task is taken out of the hands of the individual and placed into the hands of the government.

The Social Security law came into being because results have shown the inability of the average individual to make the necessary sacrifices and practice the self-denial to provide for his own future. The increasing number of those who arrive at old age with nothing is evidence of this.

30 YEARS AGO

Items below were taken in whole or in part from the issue of The Foard County News of June 18, 1915, Martin & Kimsey, publishers:

T. W. Wilson and wife of Marlin passed through town this morning on a walking tour to San Francisco, where they expect to arrive October 15.

Col. W. B. Worsham, a pioneer ranchman and banker of West Texas, suddenly dropped dead at his home in Henrietta at 5 o'clock p. m. last Friday.

Miss Leona Coung arrived Saturday from Seymour where she had been visiting for some time. She was recently elected to the primary work in the Crowell school for another year.

Since the last issue the writer has been over a portion of the country and has seen some of the work now being done by the busy binders. Where the wheat is ripe and needs harvesting no time is lost in saving it.

H. W. Banister was up from Thalia Saturday. He says that the farmers in his portion of the county were pretty badly served by the recent storms and floods.

According to bi-annual custom of theirs, Editor J. L. Martin and family left Friday morning for a month's visit with relatives and friends in Missouri.

S. T. Crews Jr. and family have been out at the farm all this week trying to help save the wheat crop. Mr. Crews has a splendid crop.

Howard Williams has recently become the owner of a new 1915 model Maxwell car. Mr. Williams is another one of our live, wide-awake farmers who really needed a car, and, no doubt, will find it a profitable investment.

Herbert Kyle Edwards came home last week from A. & M. College.

Miss Essie Thacker left Tuesday for Seymour where she will visit Miss Lourena Cope.

Mrs. Charley Thompson left Tuesday for Pilot Point where she will visit her parents.

Live Towns

Some communities have a reputation for being "dead towns." Many of their own residents, noting the lack of effort for progress, many say they are "dead."

In the live town, there is an earnest effort to make the place better. People have been active in support of the war effort, and to contribute to the welfare and comfort of the servicemen.

Some wives complain that they are misunderstood, but the husband may usually understand them when they ask him for money.

The lovers promise to cherish their wedded mates "forever and a day." After they have been married a while, a few months seems forever to some of them.

Mosquitoes, contrary to popular belief, do bite more than once.

Washington News

By Congressman Ed Gossett, 13 District of Texas.

Washington, D. C., June 1.—It was my privilege this week to preside over the House during consideration of a bill to increase rates on fourth class mail matter. Under the law this class of mail, which is primarily parcel post, is supposed to be self-sustaining.

The only speech made by me in the House this week was a one-minute sarcastic attack upon the F. E. P. C. in which I called attention to a want ad in the Washington Star advertising for a girl, "light colored" for fountain clerk.

It was my observation that since the F. E. P. C. had refused the Dallas News permission to advertise for a colored man in its press room it could hardly tolerate an advertisement which not only specified color, but also the shade desired.

When the records of the F. B. I. are finally published they will furnish volumes more interesting than Wild West stories concerning America's campaign against spies and saboteurs.

My Committee on Expenditures in the Executive Departments has been conducting hearings this week on a bill to require more than 100 large government corporations, such as the Tennessee Valley Authority, the Commodity Credit Corporation, the Farm Credit Administration, etc., to clear annual budgets with the Congress and to submit to annual audits by the Comptroller General of the United States.

Another bill soon to be considered by this Committee is the President's request for authority for over-all reorganization of the executive branch of the government.

While there is much reason for rejoicing over the recent L. C. C. decision on freight rate discrimination it represents only a battle won in our war for economic equality. This decision orders an increase of rates in the northeast and a lowering of rates in the southwest. However, the order is only a temporary one, and does not remove all discriminations.

The 21 days during which hard coal miners of Pennsylvania were out on a strike cost the coal users four million tons of coal, enough to heat more than 400,000 average homes next winter. In 11 northeast states delivery of hard coal was forbidden to any user having more than 30 days' supply.

Conchas Dam to Be Dedicated with Program on Aug. 9

Tucumcari, N. M.—The entire Southwest is interested in the Fiesta and Dedication program this city has planned for Aug. 9 when formal dedication is made of the Conchas Dam and Arch Harley Conservancy District. It is the first project completed by the Bureau of Reclamation, Department of Interior and Army Engineers within the very heart of the former Dust Bowl.

The project cost \$28,640,000 and in addition to furnishing excellent fishing, boating and recreational privileges on the huge lake, water from this dam will irrigate 45,000 virgin acres within a few miles of Tucumcari. Based upon 200 acres per person, the project will afford 480 additional farms, all irrigated by one of the most unique series of canals yet devised by the engineers.

Tucumcari realizes its position as host city for the Fiesta. Thousands of dollars have been raised from its citizenship to insure 24 hours of free and thrilling entertainment. Top-ranking officials from Washington will formally dedicate the project in an elaborate ceremony, part of which will be broadcast coast-to-coast. Motion picture stars will be here to lend to the festivities. Newsreel cameramen, press photographers, reporters, magazine writers will attend. Parades, bands, basket lunches, rodeo events, thrill shows, stage shows and street dances will help fill the day and night of Fiesta frolic. It's all free and Tucumcari invites everyone to attend and help show the officials and America the gratitude of former Dust Bowl citizens. It is also hoped such a demonstration will convince Washington officials that other areas of the Southwest are hopeful for similar projects.

Gov. Jack Dempsey of New Mexico will extend invitations to other governors of the Basin States to aid in saluting the federal agencies. Many cities in West Texas, Oklahoma and New Mexico plan to send huge delegations, bands and entertainers to add to the program. Old Mexico has been invited to attend on behalf of the Spanish-speaking citizens of the Sunshine State. The famed Sheriff Posse of Quay County will follow Fiesta Day with three days in rodeo in which the outstanding contestants of America have entered. Tucumcari is preparing for record attendance.

Veterans Funds To Speed State Building Plans

Anticipating a 1946 demand of over nine million square feet of tile for veterans' hospitals, the Tile Council of America today called attention to what the \$2,607,187,500 proposed Veterans Administration appropriation bill will mean to the State of Texas.

Out of the \$84,500,000 requested for hospital and domiciliary facilities for the Veterans Administration, \$6,700,291 is slated for Texas institutions.

Figuring that 6.1 per cent of the building materials used in hospital construction goes into tile and ceramics, industry members estimated that approximately \$2,783,430 will be expended on tile.

"A similar market will exist for all other industries in the building field," the Tile Council predicted.

According to a recent survey of the Modern Hospital Publishing Co., Inc., 5 per cent of the building materials used in hospital construction goes into structural steel; 7.2 per cent, heating equipment; 5.92 per cent electrical equipment; 1.33 per cent roofing.

"With 94 veterans' homes and hospitals located in 45 of the 48 states, every locality—as well as every business—should see the results of this construction," the Council reported.

Plans have been submitted for a 250 bed general medical-surgical hospital in western Texas, which will call for \$1,940,262 of the veterans' hospital funds. An addition of 500 general medical-surgical beds has been recommended for the Dallas hospital and an addition of 400 beds for Legion. Service alterations and expansions, amounting to \$100,000, have been suggested for hospitals in Waco and Legion.

Veterans' hospitals in Texas are located at Amarillo, Dallas, Waco and Legion. With the addition of 1,150 beds, as recommended in the 1946 appropriations bill, Texas institutions will have a 3,364 bed capacity.

Veterans Administration construction in Texas during the 1944 fiscal year totaled \$109,441; total disbursements for the state during 1944 were \$27,810,425.

Soft coal miners' pay averaged about \$51.27 a week last year. The new increase of \$7.50 a week will boost the pay to \$58.77.

A JOINT RESOLUTION
proposing an Amendment to the Constitution of the State of Texas providing for a Supreme Court of nine members; prescribing their qualifications; and providing for their election, tenure of office and compensation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 2 of Article 5 of the Constitution of the State of Texas be amended so as hereafter to read as follows:
"Article 5. Section 2. The Supreme Court shall consist of a Chief Justice and eight Associate Justices, any five of whom shall constitute a quorum, and the concurrence of five shall be necessary to a decision of a case; provided, that when the business of the court may require, the court may sit in sections as designated by the court to hear argument of causes and to consider applications for writs of error or other preliminary matters. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be, at the time of his election, a citizen of the United States and of this state, and unless he shall have attained the age of thirty-five years, and shall have been a practicing lawyer, or a lawyer and judge of a court of record together at least ten years. Said Justices shall be elected (three of them each two years) by the qualified voters of the state at a general election; shall hold their offices six years, or until their successors are elected and qualified; and shall each receive such compensation as shall be provided by law. In case of a vacancy in the office of any Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for state officers, and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the state. The Justices of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified. The Justices of the Commission of Appeals who may be in office at the time this amendment takes effect shall become Associate Justices of the Supreme Court and each shall continue in office as such Associate Justice of the Supreme Court until January 1st next preceding the expiration of the term to which he has been appointed and until his successor shall be elected and qualified."

Sec. 2. Said proposed Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a special election to be held throughout the State on the fourth Saturday in August, 1945, at which election each voter opposing said proposed amendment shall scratch off the ballot with a pen or pencil the following words printed on said ballot:

"FOR the amendment to the State Constitution providing for a Supreme Court of nine members";

and each voter favoring said proposed amendment shall scratch off the ballot in the same manner the following words printed on said ballot:

"AGAINST the amendment to the State Constitution providing for a Supreme Court of nine members."

If it appears from the returns of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the State Constitution.

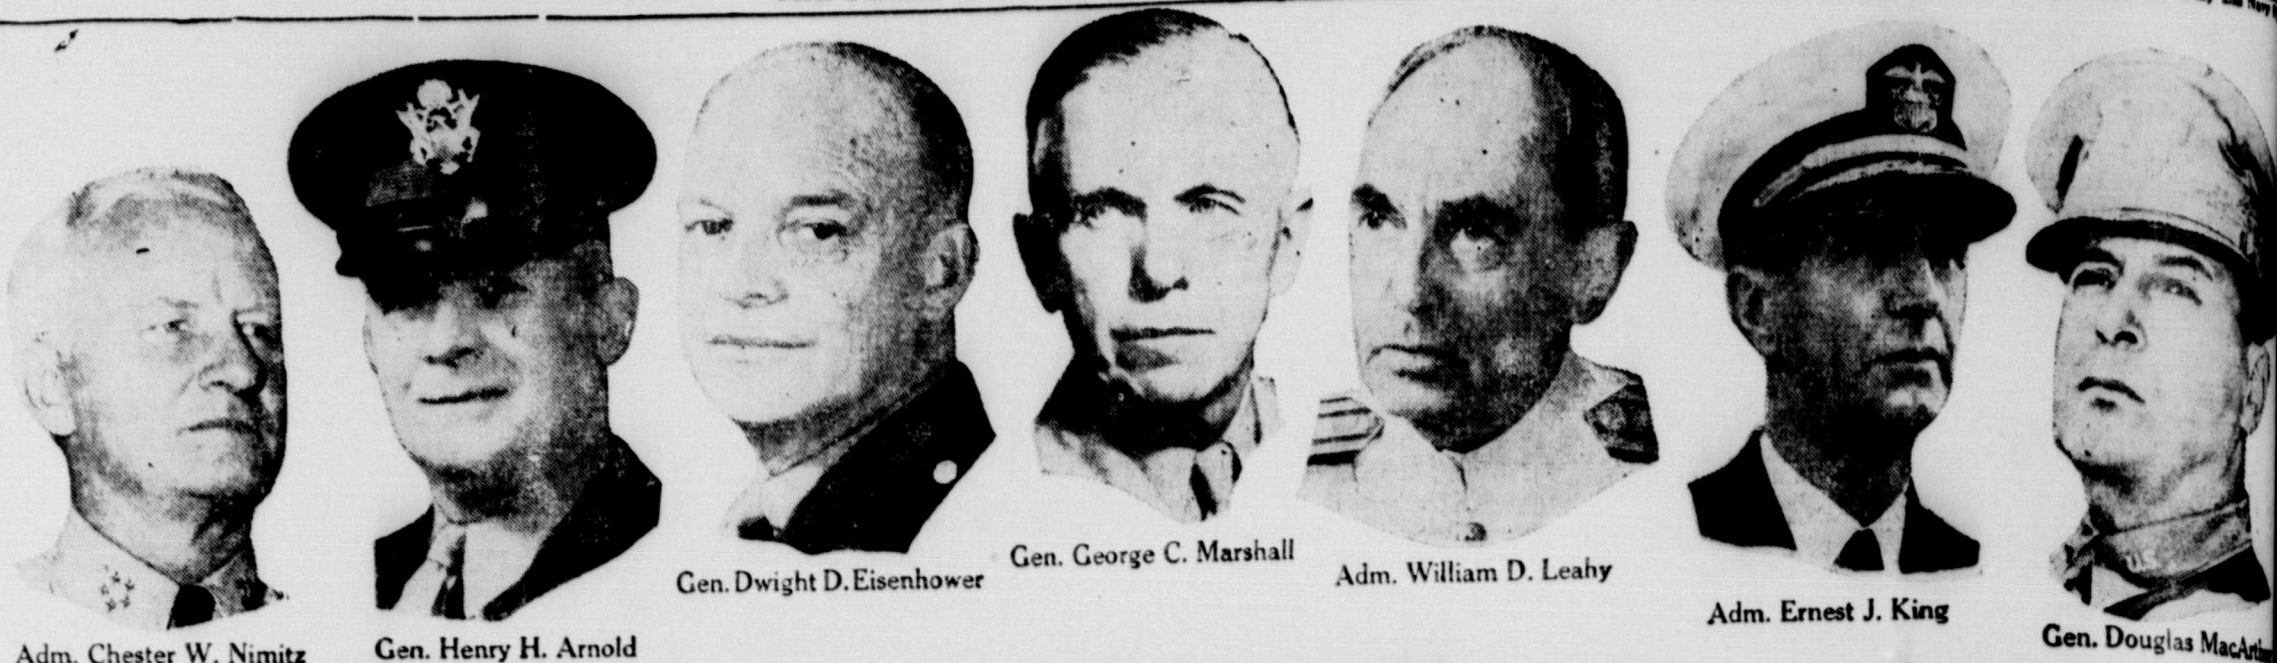

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published and said election held as provided by the Constitution and laws of this State.

Two Minute Sermon
(By Thomas Hastwell)

Ration Rules—Living Up To Them: I overheard a man criticizing the rationing program the other day. As he talked he said that he used to observe its rulings and live within it, but because he had discovered that there were black market operators who used various means to circumvent the program and get more than their fair share, that he did not propose to longer follow its rules, but would, whenever possible, patronize the black market, or by so doing he could get the things he wanted. I would not have given the matter much thought except for the fact that he was a man of good reputation in the community and was in a position of influence. I thought as he talked how much he sounded like those who seek to break the rules of right living and right conduct and then to justify themselves, point out that others are guilty of the same thing. Observance of the ration program is a personal matter, each individual is on his honor. The same is true in every-day right living. Each is on his honor. That some one else breaks the rules is no defense to my wrong doing. The only question I have to answer is, am I living up to the rules.

These men can tell you why the 7TH WAR LOAN is the BIGGEST yet

YOU ARE being asked to lend more money than ever before—in the 7th War Loan.

These men can tell you why.

They can tell you of giant ships ready to slide down the ways this year.

They can tell you of a whole new air force in the building—huge new bombers and fast new jet-propelled planes coming off the lines by thousands.

They could show you why it is cheaper and quicker to give our Pacific Forces entirely new equipment sometimes—instead of shipping tanks and guns from Europe.

They can, in short, show you 101 ways in which your dollars are needed more than ever to bring America's might to its full strength—so that we may crush our foe the faster, make an end of killing, and bring our men back home.

Will you tell these men "I can't afford to buy my share"?

THE GENERALS and admirals can show us why our money is needed—more money than before.

But other men can show us something, too.

They're the men with twisted, crippled limbs . . . with clever iron hooks instead of hands. The blind men . . . the men with scarred, seamed faces. And perhaps worst of all, the men with blasted, darkened minds.

They can show us, clearly, how small is any sacrifice we make in lending money.

If you have an income, whether from work, land, or capital, you have a quota in the 7th War Loan. Find out what that quota is—and make it!

be disqualified from voting by reason of any provision of sub-section "Fifth" of Section 1, of this Article.

Sec. 2. The foregoing Constitutional amendment shall be submitted to a vote of the qualified electors of this state on August 25, 1945...

"FOR the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the United States Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of an election in this state authorized to vote at a qualified election, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

"AGAINST the amendment to Article VI of the Constitution of Texas, providing that any person in the armed forces of the United States, or the Armed Force Reserve of the United States, or of any branch or component part thereof, or of the United States Maritime Service, or the United States Merchant Marine, or who has been a member of same within eighteen months prior to the holding of any election in this state authorized by law, and is otherwise a qualified voter, shall not be required to pay, or to hold a receipt for the payment of, a poll tax in order to vote at any such election, if same is held while the United States is at war or within a certain stated time thereafter."

Sec. 3. The Governor shall issue the necessary proclamations relating to the publication of the foregoing Resolution, in the various counties of the state, and shall cause the same to be published as required by the statutes and the Constitution in connection with the submission of proposed amendments to the Constitution, to the people for their action at a statewide election. If it shall appear from the returns of the election at which the foregoing amendment to the Constitution is voted upon that a majority of the qualified voters have voted for said amendment, same shall then become a part of the Constitution of Texas.

Sec. 4. There is hereby appropriated out of the General Fund of the State of Texas, not otherwise appropriated, the sum of Fifteen Thousand Dollars (\$15,000.00), or so much hereof as may be necessary, to pay the expenses of advertising said Resolution in each county in the state and for such other purposes as may be necessary, or required by law, or by the Constitution.

Your Horoscope

June 11, 12, 13.—You decide and act quickly and impulsively. You have many friends and a certain number of enemies, but are not hateful or unfair in your dislikes. You have a great desire to understand and know the hidden workings of everything, especially for scientific or intellectual achievements. You have a happy makeup, are musically inclined and somewhat poetical. You are very affectionate.

June 14, 15.—Sometimes you show a marked generosity to a friend, but generally you are very close in money matters. Although you do not always get your way, you like to change your occupation and residence often. You are generally close mouthed about your own affairs.

June 16, 17.—You possess a quiet, happy disposition, enjoying ease and the good things of life if they come your way. You are musically inclined, love poetry, but when it comes to business matters you are very impractical. You have many warm friends.

THOUGHTS OF SERIOUS MOMENTS

The benefit of proverbs, or maxims, is that they separate those who act on impulse; and they lead to promptness and decision in acting.—Tryon Edwards.

HOUSE JOINT RESOLUTION

proposing an Amendment to Constitution of the State of Texas so as to provide for continuous salary per diem of all members of the Legislature during their tenure of office.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 24 of Article III of the Constitution of Texas be amended so as to hereafter read as follows:

"Section 24. Members of the Legislature shall receive from the public Treasury a per diem of Ten Dollars (\$10) per day during their tenure of office. In addition to the per diem the members of each House shall be entitled to mileage in going to and returning from the seat of government, which mileage shall not exceed Two Dollars and Fifty Cents (\$2.50) for each twenty-five (25) miles, the distance to be computed route of travel by land, regardless of railroads or water routes; and the Comptroller of the State shall prepare and preserve a table of distances to each county seat, now or hereafter to be established; and by such table the mileage of each member shall be paid; but no member shall be entitled to mileage for any extra session that may be called within one day after the adjournment of any regular or called session."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the fourth Saturday in August, A. D. 1945, at which all ballots shall have printed thereon: "FOR the constitutional Amendment providing for continuous salary per diem of all members of the Legislature during their tenure of office" and "AGAINST the Constitutional Amendment providing for continuous salary per diem of all members of the Legislature during their tenure of office."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed Amendment.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Sec. 4. The provisions of this Constitutional Amendment shall be self-enacting, and if a majority of votes at said election shall be cast for same the Governor shall, within thirty (30) days after said election, issue a proclamation declaring this Amendment to be a part of the Constitution of Texas. 46-4tc

INTERNATIONAL SUNDAY SCHOOL LESSON

Subject: The Church Begins Its Work. Scripture: The Larger Lesson, Luke 24:44-48. The Lesson Passage, Luke 24:44-47; Acts 4:1-4; Acts 5:29-32.

Golden Text: We ought to obey God rather than man. Acts 5:29. Introduction: Background of the Scripture passage.

1. Luke 24:44-47. Jesus had been crucified and was in His resurrection body. Jesus suddenly appears to the eleven and the others with them. Jesus enables them to understand the teachings about His death and resurrection as recorded in the Hebrew Old Testament.

2. Acts 4:1-4. Peter had just healed the lame man at the Beautiful Gate. The people were greatly wondering about this marvelous miracle. Peter then preaches a sermon Acts 3:12-26. The climax of his sermon is the resurrection of Jesus. Peter had obeyed Jesus in preaching the resurrection. The Sadducees, who did not believe in the resurrection of the body, laid hands on them and put them in ward for a night.

3. Acts 5:29-32. Many believed the Gospel and were saved (Acts 5:14). Peter performed many miracles of healing. The High priest and the Sadducees had them imprisoned. An Angel of the Lord delivered them and told them to go into the temple and preach. They were brought before the council and commanded not to preach. Peter's answer is Acts 5:29-32.

1. The Meaning of the Church. 1. The word used in the New Testament is Ecclesia. It means "called out."

2. This word is used 114 times in the New Testament. 3. The word ecclesia is used with a Christian meaning 109 times in three ways in the New Testament.

(1). As an Institution 14 times. (2). As a local congregation 93 times. (3). As all the redeemed 2 times.

4. A church is a local body of baptized believers voluntarily banded together to carry out the commands of Jesus.

II. The Mission of the Church (Matt. 28:19, 20) 1. Evangelize—Win souls to Jesus.

2. Baptize—Baptize those who have been won to Jesus. 3. Disbaptize—Teach them to believe the commands of Christ.

Weekly Sermon

By the Rev. Harold L. Lindquist, D. D., Member of Faculty, Moody Bible Institute, Chicago.

The Works and the Word of God

Consistently beautiful and beautifully consistent is the revelation of God, whether it be in the glory of His works, in the perfection of His Word, or in His gracious dealings with man.

The spiritually-minded man sees God in all of His works, whereas the blind materialist sees only matter and natural laws which he may use or abuse. He makes of God's creation things for his own comfort or for the destruction of his fellow men, not recognizing "the Creator, who is blessed forever." This is serious, for in so doing the unbeliever has "changed the truth of God into a lie" (read Rom. 1:20-25).

"The heavens declare the glory of God." The sun in all its glory and power and the starry stillness of the night "utter for a glorious voice," as Joseph Addison expresses it:

"Forever singing, as they shine, 'The hand that made us is divine.'"

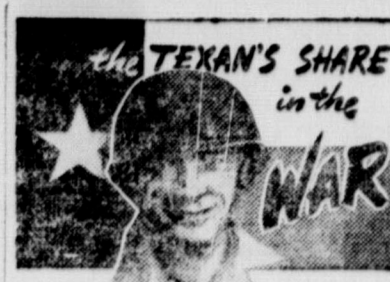

"No man living beneath the cones of heaven dwells beyond the bounds of God's court preachers." Those who do not hear or heed these voices are described by Paul as having their foolish hearts darkened: "Professing themselves to be wise, they became fools" (Rom. 1:21, 22).

Nature, however, gives only a limited revelation of God, showing His existence, power and wisdom; but to really know Him we must see God's perfection revealed in His Word. Nowhere in the book of nature is it written that God is a Redeemer, a cleanser from sin, a restorer of the soul. That truth is found only in His Word—the Bible.

Then, for sinful men who need redemption to see God only in nature, but never look into His Word or go to church that they may hear His truth proclaimed.

The final and perfect revelation of God is in His Son, Jesus Christ, the Redeemer. The great reward of knowing God's Word is that we may learn of God's grace through Christ. Man is a sinner; sometimes he sins unwittingly and ignorantly; sometimes deliberately and in presumption; and sometimes in both ways. What shall he do with his sin? God's Word says to bring it to God in repentance and prayer, and accept the cleansing Christ has provided.

But God's grace not only cleanses, it keeps us. He is able and willing to make not only the words of our mouths, but the very meditation of our hearts acceptable in His sight. That means holy living. There is nothing more needed in our day than a revival of Christian

A TEXAN'S SHARE in the WAR

Now that the war is over in Europe, many Texans are wondering what will happen to the many services given our men abroad through their donations to the National War Fund. The answer is that they will not only be continued, but expanded.

Hundreds of thousands of our troops must remain in Europe to enforce the peace. Freed of the excitement of war, they will need, more than ever the morale building services of USO and USO-Camp Shows. For that reason, this war fund agency now plans to enlarge its activity both in Europe and in the Pacific, where our forces are growing daily.

At home, USO is setting up centers at all hospitals, to serve our constantly-increasing list of wounded heroes. The USO Hospital Circuit, which sends entertainers into hospital wards to play before battle veterans, also is being expanded.

War Prisoner Aid is now working to alleviate suffering of our men in Japanese prisoner-of-war camps. Other war fund agencies are serving our own fighting men and our allies throughout the Pacific area.

The National War Fund also is meeting the great demand for aid to children, aged persons and other war victims in liberated areas; China Relief is doing a great job among the brave people of China, who have fought the Japs for so many bitter years; Philippine Relief is doing much to make life a little better for the people of those friendly isles, and many other agencies are bringing American aid to millions throughout the world.

And to keep that aid going forward until the end of the war, another fund-raising campaign is now being planned for this fall. Once more, as in previous years, the people of the Lone Star State will be asked to "Give a Texan's Share" for our own, our allies and suffering humanity. It is a call that cannot be ignored.

The national corn-husking contests are held under the jurisdiction of the American Association of Middle-Western Farm Newspapers.

Miss Bruce Weds Medical Officer in Washington, D. C.

Miss Mary Frances Bruce, daughter of Mr. and Mrs. J. W. Bruce, became the bride of Capt. Charles E. Quinn, A. U. S. Medical Corps, on Saturday, June 9, in the Army War College Chapel in Washington, D. C. The rites were performed by the Rev. Austin Hanna. The chapel was beautifully decorated for the wedding. The double ring ceremony was read.

The bride was given in marriage by W. W. Brincherhoff, chief of Aircraft Division, Foreign Economic Administration, where she is employed. She wore a white eyelet pique gown with a lace bonnet to match and carried a nosegay of mixed flowers.

The bride was attended by her sister, Miss Rita Jo Bruce, and Miss Catherine Bartsch, who were attired in rose and yellow dresses of eyelet and wore corsages of sweetheart roses.

The groom was attended by Capt. John Oates, Medical Corps, A. U. S., as best man.

Mrs. Quinn was reared in Crowell and graduated from Crowell High School. She later attended West Texas State College at Canyon and has been residing in Washington for about three years.

Capt. Quinn is the son of Mr. and Mrs. D. J. Quinn of Boston, Mass., and is a graduate of Tufts College, Boston, and Tufts Medical School. He is a dental surgeon at the Army War College in Washington.

B. & P. W. CLUB

On the evening of June 7, Mayme Lee Collins, Ila Borchardt and Alma Walker were hostesses to the B. & P. W. Club at the Adelphi Club house.

A pretty installation ceremony was conducted by Mayme Lee Collins, a former president of the club. Other members assisting her were Ila Borchardt, the Club's first president, Gussie Todd, a former vice president, Sally Archer, retiring treasurer, and Alma Walker, retiring corresponding secretary.

The officers installed were, Blanche Hays, president, Bertha Womack, vice president, and Jean Reeder, recording secretary, re-elected; Hazel Harrison, treasurer and Ella Rucker, corresponding secretary, newly elected officers, the retiring treasurer and corresponding secretary having served two years, which is the time limit for officers serving consecutively.

Following this ceremony, Virginia Thomas and Margaret Claire Shirley sang "Bring To Me Only That" and "Sentimental Journey." They were accompanied by Ella Rucker.

Jim Lois Bursley gave two very clever readings and Inez Spencer played "Souvenir" and "Kuawiak" as violin solos, accompanied by Ella Rucker.

Bevie Brooks told, in a very interesting and humorous manner, "How To Get Rid of Vacations."

The hostesses served a delicious Washington. After a short wedding trip, Capt. and Mrs. Quinn returned to their home at 202-3639 S St., S. E., Washington, D. C.

3-Point Program of West Texas Chamber of Commerce

The West Texas Chamber of Commerce, pioneer and a leader in the six-year war to bring equality in freight rates to Texas and Southwestern territory, is not resting on oars or laurels. While pleased over the May 15th history-making order by the Interstate Commerce Commission to the nation's rail carriers to institute uniform freight classifications and work out interterritorial rate scales knocking out all discriminations and bringing parity to all sections, the regional chamber warns that the fight has just begun, calls for continued co-operation of all affiliated and allied agencies, and announces it is launching out on the following 3-point program:

1. To help organize and actively participate in hearings for working out the Commission's order on setting up a system of uniform classifications.

2. To instigate further proceedings "to once and for all time give us complete parity in scales."

3. To explore the entire field of commodity rates in order to win equality with other sections on like commodities moving in volume.

"We therefore have just begun to fight, and this is to ask for continued co-operation and support of our affiliates," said the WTCC and its affiliated Freight Rate Equality Federation in a May 26th letter to the chamber's 176 directors, the 136 organizations linked into the FREF, and to all chambers of commerce in West Texas. Signers were Presidents E. W. Hardin and J. M. Wilson of WTCC and RFEF respectively, and D. A. Bandoen, secretary-manager of both groups.

Discriminations Partly Off
Bandoen and Ed P. Byars, of Fort Worth, who has represented the two organizations as rate counsellor since inception of the parity campaign, are at work on a point-by-point analysis of the ICC's 250-page decision. Their conclusion is that it gives Texas complete parity with other sections in freight classifications but only part parity in class rates, overcoming around 26 per cent of the 60 per cent differential that has existed against Texas and in favor of northern and eastern states for nearly 60 years. However, they believe the ruling opens the door for complete rate parity both in class and commodity rates.

At present, Texas class rates—those covering mainly manufactured articles moving in less-than-carload volume—average 60 per cent higher than in the East. The ICC reduces levels by 10 per cent in Texas, Southern, Southwestern and other territories east of the Rockies while raising Eastern levels by a like 10 per cent, both effective beginning August 30th. This works out, say Bandoen and Byars, to reduction of the present 60 per cent disparity to around 54 per cent. The order goes further, however, in ordering that the entire difference must be removed as soon as tariffs can be worked out and submitted to the Commission accomplishing this result.

The WTCC-FREF letter to affiliates said, "We want to again assure all that it is not our intention and purpose to hurt the railroads and deprive them of needed revenues. To the contrary, we honestly feel that rate uniformity will be tremendously helpful to railroads. In addition, there can be no doubt that freight rate equality will add tremendously to the spendable income of our producers and consumers, and will greatly enhance the industrial possibilities of our territory."

West Texas Leadership
No section of the United States has stood more unequivocally and solidly for freight rate parity than West Texas. The area started its fight at the West Texas Chamber of Commerce convention at Wichita Falls in April, 1938. At that session a study of rate discriminations was ordered, set forth that "discriminatory Freight Rates in West Texas and the Remedy." The remedy recommended was forthright action by the U. S. Congress in bringing pressure on the ICC to re-work completely the ancient, outmoded and unfair schedule of freight charges over the nation.

Following publication of the WTCC study, the movement was made national by the formation in Amarillo, Dec. 12, 1938, of the Freight Rate Equality Federation; and in February, 1939, by laying the problem before the Interstate and Foreign Commerce committee of Congress. This resulted in Congress ordering the ICC to in-

vestigate and correct interterritorial rate discriminations.

In every following WTCC convention, the organization has majored on campaigning for freight rate equality. In compliance with the congressional mandate, the ICC launched its national investigation in 1940 and has since held nine hearings. The WTCC and FREF have participated in all, besides many hearings before the Texas Railroad Commission.

Date of the ICC's order was the fifth anniversary of an order by the Texas commission, dated May 15, 1940, prescribing a class rate reduction on intrastate freight movement—within Texas—averaging 13.2 per cent. The order was brought to the West Texas Chamber of Commerce convention at Big Spring by Jerry Sadler, then a member of the state regulatory body, and announced there. It was promptly attacked by all Texas rail carriers, and, following hearings, was withdrawn for further consideration and ICC action on interstate rates. It was never made effective.

Every Texan Urged to Practice Strict Personal Hygiene

Austin.—In addition to the general instructions for community sanitation which may be important in preventing poliomyelitis, Dr. George W. Cox, State Health Officer, today issued an urgent warning to every individual in Texas to practice strict personal hygiene to protect his own health and that of those about him.

"Of course, cleanliness and personal hygiene are ordinarily taken for granted," Dr. Cox said, "but at this time with poliomyelitis reaching into every section of our state and with more than 120 cases already reported I would like to re-emphasize some personal sanitary measures which may help in preventing the spread of this crippling and often fatal disease."

The State Health Officer stressed the importance of scrupulous cleanliness of the person. Frequent bathing and immaculately clean clothing are vitally necessary. Oral hygiene with thorough brushing of the teeth and the use of a mild antiseptic are recommended. The nasal passages should be kept clean and dental defects corrected immediately.

Sanitation and thorough cleanliness in the home are incentive with the average housewife, but at this time their importance to health must be re-emphasized. Home sanitation includes those taken-for-granted measures such as washing the dishes in hot soapy water and rinsing them in hot, clear water; keeping sinks, bathtubs and fixtures scoured clean and rinsed with a mild antiseptic solution; sunning and airing bed clothes, ridding the home of flies, rats and roaches which, since poliomyelitis is believed to be a filth-borne disease, are suspected as being responsible for transmission.

"If good personal hygiene is combined with good community sanitation and hygiene it is hard for any disease to get a foothold," Dr. Cox said. "With such a dread

Enrollment of Texas Tech to Be 6,500 3 Years After War

Lubbock, June 11.—Pres. W. M. Whyburn believes that within three years after the war is over, enrollment at Texas Technological College will be up to 6,500. Registrar W. P. Clement says he believes it will be between 6,000 and 10,000 within three years after the end of the war, depending on the housing facilities the school will be able to offer.

Tech began functioning with an enrollment of 1,043 during the 1925-26 session, having 731 men and 312 women. Until the Army and Navy changed things there had always been more men than women at Tech. In 1940 Tech's student body averaged about 60 per cent men and 40 per cent women. Then, in 1942-43 the percentage of men students dropped to 57 and the following year to 42 per cent.

Faculties from the Corpus Christi Junior College, Blinn College in Brenham, Kilgore Junior College and Hillsboro Junior College, will attend a special three-day junior college conference at the University of Texas July 4-7. Dr. C. C. Colbert, professor and consultant in junior college education, has announced.

as, selected because of high incidence in root rot in past years, has been treated with dithane, and by fall its effectiveness will be known, Miss Moore said.

Through the Clayton Institute, the University has been carrying on for 10 years a wide range of breeding and other experiments aimed at solving some of the cotton farmer's major headaches, such as root rot, drought, boll weevils, and quality improvement.

Moffett Sponsors More Amendments to Constitution

Austin, Texas, June 11.—In securing legislative approval of a constitutional amendment permitting members of the armed forces to vote without the prerequisite of a poll tax receipt, Sen. George Moffett, of Chillicothe, kept his record intact through eight sessions of having sponsored more constitutional amendments than any other present member.

In every session except the first, the veteran North Central Texas solon has successfully sponsored amendments to the Constitution. His latest amendment will be voted on by the people on August 25, has been hailed as one of the most far-reaching pieces of veterans legislation to emerge from the 49th session.

Moffett was also author of a bill prescribing the duties of the Veterans County Service Officer which has received the wholehearted support of ex-service men of both wars.

The Chillicothe Senator was also sponsor of another legislative innovation in his bills reaching back into the smaller communities of the State and permitting the organization and incorporation of hospitals in towns of 2,500 population or less.

Another Moffett measure which cleared all legislative hurdles permits school students between the ages of 14 and 16 to become automatically eligible to take a drivers test if they have successfully completed an approved safety education course and received a certificate from their school. The new plan would eliminate the old catch-as-catch-can method of learning to drive.

Cotton research during the next two years received a big stimulus under Moffett's urging when the Legislature was persuaded to authorize a \$210,000 appropriation for this purpose.

Riddance of Texas Cotton Fields of Boll Weevil Being Studied

Austin, June 11.—Elimination of the boll weevil from Texas cotton fields, and the use of a DDT derivative to stamp out pests, are being studied at the University of Texas Clayton Cotton Investigation and Research Institute.

By the use of insects parasitic on the boll weevil, John Carpenter, research associate, is using the insects at present to determine their "searching" power in finding the boll weevils in the field.

Just how good the insects are at finding the weevil will not be known until fall, when cotton is ripe, Mr. Carpenter said.

Further riddance of the cotton pests is being experimented with by use of dithane, a DDT derivative, Miss Elizabeth Moore, research assistant, said.

A cotton field near Manor, Texas, disease as poliomyelitis prevalent in every section of the state, no precaution should be overlooked and no bars should be left down for its entrance."

Youngsters who are properly nourished are not only brighter school work, but also are better behaved. Dr. Roger J. Williams, University of Texas biochemist, declares in his new book, "Do About Vitamins," that made with school children, says, prove that to have physical and mental health, a basis must be the right kind of food.
