AND CROWELL INDEX

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, JUNE 28, 1945

EIGHT PAGES

## Swashbuckling General Cries

Photo shows that even Gen. George S. ("Blood and Guts") Patton may be overcome. At a reception given in his honor in Boston, at which the honor after honor was heaped upon him, General Patton responded with praises for his men and ended with: "We thank God such men were in. I can't say any more." At this point the photo was taken.

## Sketch of Jap Balloon and Bombs

Artist's sketch of the balloon, with bombs, which the Japanese are launching from their home islands against continental United States.

## Home Nursing Classes Learning Valuable Nursing Aids

Learning how to use newspapers and a sick room to make bags, protectors, bedroom slippers, and brushes, etc., are some of the many practical things learned in the Red Cross Home Nursing Classes now underway in the county under the supervision of Olga Larson, Red Cross nurse. Classes are meeting every day at the court house or some other school house out in the county. The West Side Class, with Mrs. Tate as Chairman, meets Mondays, Wednesdays and Fridays at 1 p. m. at the court house. Members of the class are: Hazel Bryson, Miss Marjorie Curtis, Mrs. Olive Denton, Ruth Goodwin, Mrs. Gayagan, Mrs. Madeline Johnson, Juanita Kincheloe, Mrs. J. King, Mrs. Geneva Ross and Bertie Tate. Women in the Gambelville community will have their classes at home of Mrs. Guy Morgan on Sunday and Thursday mornings at 10 o'clock. Their first lesson is tomorrow morning. The following women have signed up for the class: Mesdames Archie Campbell, Earl Davis, W. J. Garfield, Thomas Robinson, J. T. Fred Dugas, Eddie Huskey, Mrs. Tomplen and Miss Bobbie Brock. Classes are scheduled until the first of August. On the evening of the seventh of August an all-county picnic will be held in the court room when all twelve hours of the Home Nursing instruction will receive credit from the American Cross.

## Sgt. Malcolm Reinhardt Reported to be in Japanese Prison Camp

Mr. and Mrs. M. T. Reinhardt of Denver City have received a telegram from the War Department, stating that their son, Sgt. Malcolm T. Reinhardt, is in a Japanese prison camp on a Japanese island. Sgt. Reinhardt was captured in the surrender of Corregidor. He was attached to the Headquarters Medical Corps in Prison Camp No. 1, Philippine Islands, until just before the liberation of the camp by American soldiers. The Japanese had transferred Sgt. Reinhardt, with many others, to Japan. Sgt. Reinhardt is the grandson of Mrs. Jack Roden of Margaret.

## Meeting to be Held at West Side Church of Christ

A revival meeting will begin at the Church of Christ, one block north and one block west of the court house, on Saturday evening, June 30. Lester Hathaway of Mobeetie will do the preaching for the meeting and local people will lead the song service. The public is invited to join in the services.

## POETRY CONTEST

The National Thanksgiving Association, now in its 27th year, is fostering a poetry contest, featuring the theme, "Thanksgiving." Winning poems will be published in a book planned for the fall. Rules governing the contest and listing awards offered may be had by addressing the Texas State Chairman, Joseph English, Truscott, Texas.

## IN SERVICE

26th Medical Supply Platoon of the Adriatic Base Command, Italy—Cpl. Clarence R. Hudgens, son of Mr. and Mrs. A. H. Hudgens of Vernon, former residents of the Thalia community, is a member of the 26th Medical Supply Platoon which supplies the famed 15th Air Force in Italy. Cpl. Hudgens, who was employed in farming in the Thalia area before entering the service, is assigned as Medical Supply Technician with his unit. His wife, Mrs. Velma Ruth Hudgens, resides on Route 1, Thalia. The 26th Medical Supply Platoon was activated at Robins Field, Ga., in December 1942 and was soon on its way, via Australia, India and the Suez to Egypt, where it functioned until February 1944, when the platoon moved to Italy.

Paul Ford, S-2-C, of the Naval Base at San Diego, Calif., is at home on a 10-day leave visiting his parents, Mr. and Mrs. Hayden Ford. He entered the service in April and has finished his boot camp training and expects to be assigned to the Hospital Corps when he returns to San Diego.

1st Lieut. James A. Welch left Tuesday to report for duty at the Army Air Field at Santa Ana, Calif., after spending a 30-day leave with his parents, Mr. and Mrs. J. Y. Welch. He returned home the latter part of May from combat duty in the South Pacific, having completed 40 missions over enemy territory as a pilot with the 7th Air Force with bases in the Marianas.

Lewis T. Burks, who received an honorable discharge from the U. S. Coast Guard on June 12, on account of physical disability, was here last week visiting his mother, Mrs. Glen Roberts, and family. He was in the service two years and nine months, serving eighteen months with the Coast Guard and nine months training war dogs at Front Royal, Va., and Corpus Christi. His mother, Mrs. S. W. Burks, a former Crowell resident, lives at Sherman.

Pvt. Wilburn W. Rallsback, who has recently returned from ETO, is visiting his parents, Mr. and Mrs. Ed Rallsback in Thalia. He went overseas in Feb. 1945, was in the Infantry, Co. F, 86th Black Hawk Division. He was on the front line for 43 days. He wears battle stars for the following campaigns: Balzeria, Rhine, Ruhr Valley. Pvt. Rallsback served in six different countries: England, France, Belgium, Holland, Germany and Austria. He will report for duty in the Pacific at Ft. Sam Houston at the close of a 30-day furlough. He wears the Combat Infantryman's badge.

Sgt. Vernon Gibson, son of Mr. and Mrs. Fred Gibson, of Vernon, formerly of Riverside, and his wife, the former Miss Mary Jo Johnson, are visiting relatives and friends. He has a 30-day furlough. He was a Bomb loader and served with the 15th Air Force in Fogia. Has been overseas for 18 months. He will report to Ft. Sam Houston at the end of the 30 days.

Pfc. Lowell Dockins arrived at home on a 30-day furlough Wednesday of last week from Haysport General Hospital in Longview to visit his father, Tom Dockins, and other relatives and friends. Pfc. Dockins became ill after spending ten months overseas in the Philippine Islands. He is recovering satisfactorily.

S-Sgt. Leo Sanders, son of Mr. and Mrs. Barney Sanders, returned an honorable discharge from the Army on the Joint system at Fort Sam Houston last Friday and arrived at home Saturday. Sgt. Sanders had been in the Army four years and served twenty-one months overseas with the 33rd Tank Division, 32nd Regiment, in the 1st Army. He had 106 points, having participated in the campaigns of Normandy, Northern France and Germany.

T-Sgt. Barney G. Smith, tail gunner and radio technician, who spent ten months in India, is here visiting his mother, Mrs. W. L. Callaway, and family.

Lt. John Teague and wife and daughter, have been visiting his father, Will Teague, in Thalia. He has been in the Navy for almost 20 years and for the most part of that time, he was in the Atlantic. However, he was in China for three years.

Weldon Niell, S-2-C, who has been based at Sydney, Australia, and serving in the South Pacific and Indian Oceans for the past 15 months, is visiting his parents, Mr. and Mrs. John Niell, of Vernon. Mr. and Mrs. Niell are former residents of Thalia.

Lieut. R. S. Carroll Jr., who has been attached to the 8th Air Force in England for the past several months, arrived at home last week on a 30-day recuperation leave, to visit his mother, Mrs. E. S. Carroll, and family. After completing his leave he will report to Fort Bliss, Texas.

## Truman Meets Peace Delegates

The American delegation to the United Nations conference in San Francisco meets with President Harry S. Truman at the White House. L. to R.—Comdr. Harold Stassen, Rep. Charles Eaton, Mrs. Virginia Gildersleeve, Sen. Tom Connally, secretary of State Edward Stettinius, Sen. Arthur Vandenberg, and Rep. Sol Bloom. President Truman, seated.

## Preliminary Reports on Agricultural Census Based on 1944 Production in Foard County Have Been Released

The recent agricultural census taken throughout the nation, based on 1944 production, shows a decrease of fifty farms for Foard County in the past five years, it was announced Monday by County Agent D. F. Eaton. Preliminary reports on a few items were recently released to the public. It will be some time before a complete report will be available. In the preliminary report on Foard County the following information was released: The report showed Foard County to have 511 farms as against 561 in the 1940 census, and 835 in 1935. This is a decrease of 50 farms in the past five years which has resulted from farm owners enlarging their unit holdings. The average farm and ranch unit is 810 acres, a very proper economic unit, Mr. Eaton says. The regular farm units will be smaller when the large ranch units are taken out. The acres sown to wheat in the 1944 crop was 57,666 acres which conforms to local crop information. The 1945 small grain acreage was somewhat larger as the acreage was increased, estimated at 65,000 acres. The report shows there were 22,425 head of cattle in the county in 1944, as of January 1. Evidently this report is about as accurate as can be had, based on a house to house visit by enumerators under the supervision of the census bureau, U. S. Department of Agriculture. As a rule these enumerators were local people.

With the 864th Engineer Aviation Battalion in Lingayen—Pvt. Kenneth Hudgins, son of Mr. and Mrs. Buck Hudgin, former Thalia residents now living in Vernon, is now on Luzon, Philippine Islands. Kenneth entered the Army in July of 1942, and after finishing basic training, he went to Geger Field, Wash., where he joined the veteran 864th Engr. Avn. Bn., and in August of 1943 they embarked for overseas duty to the South Pacific. He has been a bulldozer operator for the past 22 months throughout the campaigns of New Guinea, New Britain, Dutch East Indies and Luzon. Pvt. Hudgins was awarded the Soldier's Medal for heroism at Oro Bay, New Guinea, in addition to three Bronze Campaign Stars for his Asiatic-Pacific Theater Service Ribbon and one Bronze Campaign Star for his Philippine Liberation Ribbon. Mr. and Mrs. Hudgins have four sons in the service. Raymond and Joseph are in Europe with the Infantry, J. T. is in the Pacific with the infantry, and Ralph is with the Air Corps in the States.

T-Sgt. Maek Boswell of the Medical Department of the B-29 Army Air Base at Roswell, N. M., was here a short time Saturday visiting friends. He was on a 15-day furlough and had visited a sister in Houston, a brother in Riverside, Calif., and a sister and his father, George Boswell, in Plainview. He rode in Army and Navy planes to Houston and Los Angeles, Calif., and back to El Paso, Texas.

Major Fanzo D. Smith, who has been visiting his mother, Mrs. W. L. Callaway, in Crowell following his recent release from a prison camp in Germany, is now in Paris, Texas, visiting friends.

1st Sgt. and Mrs. Wayne Canup and little son, Larry Wayne, are here visiting in the home of Sgt. Canup's parents, Mr. and Mrs. G. M. Canup and other relatives and friends. Sgt. Canup is on furlough and will return to Camp Ellis, Ill., Wednesday. Mrs. Canup and baby will remain here.

T-Sgt. Buford Brown and wife are visiting in the home of his parents, Mr. and Mrs. George Brown, in Truscott. Sgt. Brown has had several months' service overseas.

Pvt. Alfred Eddy returned to Fort Knox, Ky., Tuesday after spending a 14-day furlough here visiting his parents, Mr. and Mrs. Joe Eddy, and other relatives.

Lt. Jack H. Turner was promoted to his present rank from O. C. S. in France. He has now been assigned to the 9th Army in Germany.

Robert Q. Meason, G. M. S-3-C, son of Frank Meason, who has been stationed in Florida for some time, has gone to California en route to sea duty.

Mr. and Mrs. G. M. Canup have received word from their son, Sgt. Harold L. Canup, who is in Germany, that he expects to be at home soon.

## Foard County Exceeds Quota in 7th War Loan More Than Fifty Per Cent; "E" Bond Quota Exceeded by \$13,636.00

Tabulations on Saturday night, June 23, showed that Foard County had purchased \$199,126.00 worth of bonds in the Mighty Seventh War bond drive. The quota as set by the United States Treasurer was \$135,000.00 and has been exceeded by \$63,376.00 or more than fifty per cent. The quota in Series "E" bonds was \$115,000.00 for the county and the sales of that series amount to \$128,636.00, thus exceeding the quota by \$13,636.00. There have been only 44 counties in the state to exceed their quotas in "E" bond purchases and Foard County is among that number, a fact of which the entire citizenship should be very proud. This fact makes Foard County take 16th place in the Fort Worth area. At the beginning of the drive, each community of the county was given a definite quota and George D. Self, County General Chairman, is happy to announce that each community has exceeded its quota. Crowell, with a quota of \$63,000.00, showed a sale of \$74,938.00, thus exceeding the quota by \$11,938.00; Thalia, with a quota of \$23,000.00, bought to the amount of \$39,436.00, exceeding its quota by \$16,436.00; Foard City, with a quota of \$12,000.00, bought \$14,243.00, going over by \$2,243.00; Margaret had a quota of \$7,000.00 and bought \$9,224.00, exceeding the quota by \$2,224.00. Rayland-Riverside, with a quota of \$10,000.00, bought to the amount of \$23,312.00, going over by \$13,312.00; Vivian, with a quota of \$8,000.00, bought \$19,489.00, exceeding the quota by \$11,489.00; Good Creek bought \$10,312.00 and had a quota of \$5,000.00, thus going over to the amount of \$5,312.00; Four Corners, with a quota of \$5,000.00, bought \$5,375.00, exceeding the quota by \$375.00; Black community, with a quota of \$2,000.00, bought \$2,818.00, and exceeded the quota by \$818.00. The community which went over the quota to the greatest amount was Thalia, with \$16,436.00; a close second being made by the Rayland-Riverside community with \$13,312.00. Vivian was third in sales above quota of \$11,489.00. Good Creek, with sales of \$5,332.00, more than doubled its quota, while Crowell exceeded its quota by \$11,938.00. Rayland-Riverside, Vivian and Good Creek more than doubled their quotas. The over-all sales of \$197,126.00 is the greatest amount of bonds Foard County has bought during any of the previous drives, and this fact alone indicates that the citizenship of the county is squarely behind the armed forces. The drive will officially close on June 30th and it is expected when all sales are tabulated by the Federal Reserve Bank, that the total will be more than \$225,000.00. Among the larger non-resident property owners and corporations who have holdings here were the Southwest Associated Telephone Co., Wm. Cameron Lumber Co., West Texas Utilities, Santa Fe Railway, Memphis Production Credit Corporation, Quana Cotton Oil Co., Tom L. Burnett Estate, and the W. T. Waggoner Estate, and C. D. Shamburger. Every community in the county received credit for a part of these sales.

## Foard Resident Passes Away at Home Friday P. M.

Sam J. Hall, pioneer rancher of Hardeman and Foard County, passed away very suddenly near his home on Friday afternoon, June 22. He was riding in the pasture and suffered a heart attack which proved fatal. Funeral services were held at the Underwood Funeral Chapel in Vernon Sunday afternoon with Dr. E. S. James, pastor of the First Baptist Church of Vernon, officiating at the rites. Interment was made in East View Memorial Park in Vernon. Members of the Independent Order of Odd Fellows Lodge of Crowell, of which he was a member, held services at the cemetery.

Mr. Hall was born at Wolfe City on September 19, 1885. He was married to Miss Lela Smith at Wolfe City on July 14, 1906. In 1923, the Hall family moved from Wolfe City to Hardeman County and for the past three years have resided at their present home in the Vivian community in Foard County. He was well-known in both counties and was active in his line of work until death overtook him.

Mr. Hall is survived by his wife; five daughters, Mrs. A. C. Rogers of Vernon, Mrs. Modena Baird of Big Spring, Mrs. C. E. Keller, Mrs. Orville Wall and Miss Lois Hall, all of Vernon; one brother, Oscar Hall of California; one sister, Mrs. Bessie Lillard of Albuquerque, N. M., and four grandchildren.

## Foard County Wheat Yield More Than 1,000,000 Bu.

According to figures released by elevator men this week, the elevators at Crowell, Margaret and Foard City, had received 956,381 bushels of wheat from the harvest of the 1945 crop. It is conservatively estimated by County Agent D. F. Eaton that 50,000 bushels of wheat are stored on the farms for seeding purposes and for other reasons. It has also been pointed out that some of Foard's 1945 crop went to elevators in Paducah, Quana and Vernon during the extreme rush when the elevators in this county were overflowing with wheat. Mr. Eaton estimates that there has been 20,000 bushels of oats and from 4,000 to 5,000 bushels of barley harvested in the county this season.

## Pfc. Richard Bird Arrives at Home on 60-day Furlough

Pfc. Richard Bird, who was released by the Russians from a prison camp in Germany on April 23rd, arrived at home from Fort Sam Houston Tuesday on a 60-day furlough to visit his father, D. N. Bird, and other relatives. He sailed from LeHarve, France, on June 14 and reached Boston, Mass., on June 20. Pfc. Bird was captured on Dec. 19 in the Belgium bulge and following his capture was marched about 600 miles into Germany to Elbe River and spent four months in Stalag 4-B until liberated by the Russian Army.

## .91-Inch Rain Fell in County on Last Wednesday Night

Rain which was recorded at .91 of an inch at the Crowell State Bank fell in Foard County Wednesday night of last week. The storm came from the northwest and the precipitation in the south and southwest portions of the county was lighter than recorded here. The rain was of great benefit to cotton crops and other row crops in the county.

## Picnic Party for Service Men Has Been Postponed

The picnic party which was being planned for the returned service men and women by the Christian, Methodist and Baptist Churches, has been indefinitely postponed until a later date. Conflicting dates made it impracticable to carry out the original plans. Such a church picnic will be had at a later time and further information will be given. Richard E. Byrd was the one and only explorer to fly over both the North and South poles.

Ass'n. Directors. 18 and 29. Night. WMAN. 10. 4.

THOUGHTS OF SERIOUS MOMENTS

If a man has acted right, he has done well, though alone, if wrong, the sanction of all mankind will not justify him.—Fielding
Moral courage is obeying one's conscience and doing what one believes to be right in the face of a hostile majority.—Dr. John Watson.

Utilizing Resources

Someone remarks that if a candle factory is started in a rural neighborhood, the farmers are stimulated to increase their production. They can usually raise more if there is a handy market for their stuff. Hence such a factory brings in business that did not exist before, and it spreads prosperity through its district.

Mrs. Wilie Reeves and Peggy Clines of Vernon returned home Thursday after spending a week with Mr. and Mrs. Hugh Shultz.

**AGRICULTURE**

(D. F. Eaton, County Agent)

**Boys 4-H Clubbers Plan Camp**  
A group of 4-H Club boys met here Saturday and planned an over-night camp for 4-H Club members and their fathers.

They set next Friday and Saturday, June 29 and 30, as the date of the camp. They planned to hold the camp at Spring Lake Country Club.

The camp is to begin at 2:30 p. m. Friday and continue until afternoon Saturday.

They suggest that the boys come direct to camp from home, and that they group together to save gas and tires.

Each boy is to bring his own bed roll and 50c in cash with which to buy food. They plan to prepare and serve their own food camp style. They will also provide themselves with a bathing suit and towel.

A committee is to plan the games and work out details of the camp. This committee to be elected from among their members.

They also ask that their dads come along with them and enjoy the outing. In fact, we urge the fathers to attend.

This camp will be a recreation camp, and the boys will engage in games, swimming and other forms of recreation.

There will be ample safeguards in the swimming pool as we will use the "buddy system." The boys will have three meals in the camp.

This camp comes at a time when the crop season is pretty well over with, and the boys are not too busy. They indicated they wanted the camp in reply to a letter we sent out to them to find out what they wanted.

We were afraid to wait any later as the water in the lake could

get too low. It is all right now.

**4-H Club Boys Purchase Registered Pigs**

A total of five boys have bought registered pigs in the last few months. Two of them, Charles Wisson and Floyd Brochardt Jr., were bought earlier in the year and are due to farrow pigs a little later in the season. They bought Duroc gilts, both boys belong to Crowell 4-H Club.

The more recent purchases were made by Kenneth Hopkins of the Thalia 4-H Club and Billy Ray Dunn and Roy C. Daniels, one in the Claytonville community and one in the Good Creek area, both members of Crowell Club. These last boys all bought Poland China gilt pigs, and will keep them for brood sows.

These are enterprising young lads and will take good care of their pigs.

In this way we will be able to get some purebred hogs in the county to supplement what we have already.

There are other boys who have excellent grade hogs they are using for feeders.

It is very difficult to find pure bred hogs in the county at present. We were able to locate two registered pigs, and had to go to Wilbarger County for the others.

**Heavy Toll of Coyotes**  
Foard County has paid a bounty on 468 wolves killed, and brought in since this plan was instituted by the county commissioners' court.

We feel sure this program has the approval of everyone in the county since this was one of the major handicaps to the poultry, sheep and livestock industry.

There has been fine co-operation of a large number of trappers and hunters and a diligent search for wolf dens and pups.

At any rate there is a very noticeable reduction in the coyote population.

No doubt we will reach the 500 mark, a goal we hoped to reach in the beginning, by the first of the year.

Since there is an active campaign on in adjoining counties, the combined effort should result in a material reduction of the wolf population over a wide area.

However, it is hoped we shall not let up in our efforts, but strive hard to meet this peril in the future.

**Stomach Worms Affecting Calves**  
In a recent inspection of calves in several areas of Texas, A. L. Smith, animal husbandman for the A. & M. College Extension Service, observed definite signs of stomach worm infection. It was apparent, he said, that they picked up the worms while grazing pasture contaminated by older cattle.

Symptoms of worm infection are rough hair, lack of appetite, scours and in some cases, swollen jaw. Smith said that when those conditions are shown the animal should be drenched at once with phenothiazine. The dosage given should be at the rate of not more than one fluid ounce of the drench per hundred pounds of live weight.

For example, he explained, calves which vary from two hundred to four hundred pounds in weight should be given from two to four

fluid ounces. For calves which are in a very unthrifty condition, he said, the dosage given here should be cut one-half, and the treatment repeated in ten days or two weeks.

About four months of the feeding period of the calves inspected had lapsed. In that time they should have gained at least two hundred pounds regardless of initial weight. Some were considerably below that figure, but Smith suggested that worm infection alone was not responsible for the low gains.

Other factors were inadequate equipment, lack of exercise, lice, ear ticks, horn flies, improper grain ration, poor quality hay or none at all, poor nurse cows, and lack of facilities to provide fresh, clean water.

In view of the urgent need for food and for their own profit, Smith advised farmers and ranchmen not to delay treatment of stomach worm infection. Feeding an unthrifty calf is not profitable. He suggested consulting county agricultural agents regarding treatment.

**ADD AGRICULTURE—123 1231**  
Last week we called attention to the prevalence of Bangs disease among all types of cattle here in the county to a limited extent. Also to the fact that there are a few cases of undulant fever among citizens of the county.

We suggested a county-wide cattle testing program as one way to locate and get rid of infected cattle.

This would have to be done by a qualified veterinarian, and the cattle would have to be penned and a full day's work laid out in order to reduce the charge to the minimum and to serve as many people as possible.

Our purpose was to see if there is sufficient interest to justify an effort to eradicate or control this disease.

There is no point in pushing the program unless public sentiment supports the proposition.

Livestock is a valuable asset to this county and milk, when pure and free of disease germs, is the very best universal food.

If this is an impractical program and does not command public support, we can easily drop it.

This disease can be controlled in calves by vaccination, and in grown cattle by getting rid of the reactions.

It has been calculated that a fly makes 330 wing strokes a second; a bee 240; a wasp 110; a dragonfly 28, and a butterfly 8.

The cantaloupe, one of America's most popular fruits, derives its name from a town in Italy.

For I say, through the grace given me, to every man that is among you, not to think of himself more highly than he ought to think; but to think soberly, according as God hath dealt to every man the measure of faith.—Romans 12:3.

Official notice was received this week by George D. Self, Foard County War Finance chairman, from the Federal Reserve Bank, from the Armed Forces overseas, had purchased \$4,100.00 of Series "E" bonds for the credit of Foard County. This is a noble gesture on the part of the men and women serving outside the United States, considering the conditions under which they live. It gives the home people something to think about. If these men and women can buy bonds on the small incomes they receive, it certainly behooves every citizen to do his part and more.

and other items in the building material line.

For purposes of protecting or housing foodstuffs and livestock there is plenty of lumber for such construction work on farms.

Although 75 per cent of the lumber produced goes into military uses, we still have supplies for upkeep of farm property.

There is plenty of roofing, insulation, paint and many other materials for you. Don't neglect your property.

**WM. CAMERON & CO., Inc.**

**HISTORY**  
 Frontier Day in Cheyenne—July 25: It was in 1897 that Cheyenne, the capital of Wyoming, arranges for a celebration the purpose of which was to keep alive the sports and customs of the early days of the state. From a small beginning the celebration has grown each year until well over a million persons have attended the celebration and four days are now required to stage the show. Some three hundred contestants, expert riders, cowboys and girls take part in the sports. The program usually opens with a parade participated in by all the contestants in gay apparel. Features of the program are bronc riding, steer roping, calf roping, bulldozing, bareback riding, relay races and similar sports. "Frontier Days" as the celebration is called, has all the entertainment usually found at a rodeo with an extra measure thrown in. Most of the events are reminiscent of pioneer days and are typical of the west as the early settlers knew it. According to the rules a calf must be roped in the following manner: The calf is given thirty feet start on the rope who must throw the rope over the calf's head. It is against the rules to throw the calf head over heels. Having roped the calf the contestant must dismount, go down the rope and throw the calf with his hands and tie any three feet. If the calf is down when the rope reaches it he must permit it to get on its feet and then throw it by hand. The tie must hold until passed on by the judge and the roper must not touch the calf after giving his signal until the judge has completed his examination. The time limit is three minutes. The rules for roping a steer are the same as those for the calf but the time is one and one-half minutes. Most of the winners in calf and steer roping contests require only about twenty or twenty-five seconds. As is the custom in many such celebrations a queen is chosen each year to preside over the celebration. She is called Miss Frontier.

**National Farm Safety Week**  
 National Farm Safety Week has been proclaimed by President Truman, and will be observed throughout the nation from July 22 to 28.

The two-fold aim of the week, inaugurated last year by the National Safety Council as part of the nation-wide accident prevention campaign, is (1) to educate farm dwellers to act safely 52 weeks of the year, and (2) to teach them to recognize, guard against and eliminate as many hazards as possible.

The need for such a week is underlined by the fact that on the average between 40 to 50 farm dwellers are killed by accidents each day, making an annual death toll of 15,000 to 17,000.

In view of the fact that more than 300 organizations and 50,000 individuals in 46 states took part in the observance of the first National Farm Safety Week, it is reasonable to assume that the activities of the week contributed to the reduction in the general accident toll in 1944.

Thus, wider observance this year is certainly to be recommended. But it should never be forgotten that accident prevention, in the final analysis, is the individual responsibility of each farm resident. Engraved in one of the nation's most important industries, the farmer must be his own safety engineer.

**What We Think**  
 (By Frank Dixon)

I think it interesting to watch from the side lines, as most of us do, the efforts that are being made at San Francisco to meet and solve the problems that are now facing the world and the nation.

The thoughts presented here are not presented in a critical way for the reason that we do not feel that we are qualified to criticize a matter on which we have so little information and no definite specific plan beyond a desire for and a hope for a lasting world peace.

In my opinion all of the delegates to the Peace Conference have gone to San Francisco actuated by the same motive and filled with the same desire to work out some plan that will, without too much friction, insure world peace.

The delegations are presumably made up of the best minds of the several nations represented. Each contains students and experts on law and economics as they pertain to their own people. Each, I think, is trying to retain as much for his country as he can, and to yield as little to the desires of other nations as he can.

This sort of a condition naturally creates a situation in which each delegate might be likened to an animal trainer in a cage of wild animals. The animal trainer's object is to master his charges and bring them, through the force of will, and courage and skill, to desire to do the thing that he wishes them to do. As long as he is in the cage the conflict of wills continues. He must not relax his vigilance even for one second.

In the case of the trainer and the animals the situation is simple from the fact that there is but one trainer, and eventually, if the act is to succeed, all the animals in the cage must finally yield to the trainer's will and go through their paces. When the trainer goes into the cage he knows that there will be but one outcome. His charges will yield, reluctantly and unwillingly perhaps, but nevertheless will finally yield to his will.

Although the analogy is a little strained and is not perfect by any means, this is somewhat the situation that exists at San Francisco, except that the problem at San Francisco is not nearly so simple as in the case of the animal trainer and his stubborn and untrained charges.

There is not one trainer at San Francisco but many—all are trainers. Each one is trying at the same time to get the other to see things his way and jump through his hoop. Even though the goal of the Conference—a workable plan for world peace is known and recognized by all, the manner in which it is to be achieved is still a matter to be worked out.

Coupled with the fear that one will get an advantage over the other, is the uncertainty as to how plans that appear acceptable now may work out in the future. Because of this fear and distrust the Conference makes slow progress. A common mistake, I think, is that too many expect a perfect plan to emerge from San Francisco—a plan and pattern by which the world can work from now on out.

This, in my opinion, is not possible because only one gifted with the gift of prophecy and divination not given to man could form such a plan, and, after forming it, could not get it accepted.

All the San Francisco Conference can do is to lay the foundation for world peace. The superstructure will be built progressively in the years to come. The cornerstone of this foundation must be filled with faith and the usefulness and trust. On no other foundation can a world peace be built.

tries, the farmer must be his own safety engineer.  
 Nor will his safety job cease with the signing of the peace—universal safety can be achieved only by unremitting effort on the part of farm organizations, manufacturers of farm equipment and farm residents themselves.

**What We Think**  
 (By Frank Dixon)

I think it interesting to watch from the side lines, as most of us do, the efforts that are being made at San Francisco to meet and solve the problems that are now facing the world and the nation.

**Boy Work**  
 Many years ago an old saying was current about employment of boy labor, to the effect that "A boy is a boy, two boys are half a boy, and three boys are no boy at all." The idea was that a boy might work rather well alone, but if he was working with one or more boys, they would be likely to do a good deal of fooling, and partly neutralize the value of their work.

Many boys lack experience as workers, but at least most of the modern boys try to make good on the jobs they take on farms, in stores, and elsewhere. There are so many things for which they want money, that they are keen to hold their jobs. They know it is up to them to do the best they can. They have given an enormous amount of help in meeting the wartime labor shortage. It has been a valuable experience for them, and they have learned useful things about industry and methods of production and distribution.

During the three minutes it takes you to read this page, approximately 10 farm dwellers may be injured in accidents. Today 40 to 45 farm dwellers may die as a result of accidents. That is the daily average. The yearly toll in the United States is between 15,000 and 17,000 members of farm households killed and 1,500,000 injured.

 shows the Ruhr roundup, typical of all parts of Europe, where Germany was still fighting before her unconditional surrender.

**IN THE NEWS**  
**30 YEARS AGO**  
 News items below were taken in whole or in part from the issue of The Foard County News of Friday, July 2, 1915, Martin & Kimsley, publishers:

C. W. Thompson and C. W. Beideman have sold their grocery store to W. W. Moore & Co., formerly of Stephenville, Texas.

Honoring her friend, Miss Minnie Warren of Knox City, Miss Lora Thacker entertained a number of her friends Wednesday evening, June 30. The guest list included, Marion Hughston, A. Y. Beverly, Alton Andrews, Herbert Edwards, Lee Allen Beverly, Homer James, Talmage Brasher, John Long and George Self, and Misses Ora Bell, Ennis Johnson, Verna Mitchell, Vera Waldrop, Leah Dixson. Out-of-town guests were Misses Belle Cook, Springdale, Ark.; Ana Del Cunningham, San Angelo, and Miss Warren.

The Baptist Church was the scene of a pretty wedding Thursday night when Miss Grace Self, daughter of Mr. and Mrs. J. H. Self, was united in marriage with Mr. Claude Cope McLaughlin of Edmond, Okla., by Rev. A. C. Gettys, former pastor of the church.

Ed Norris, one of the blacksmiths of this city, happened to the misfortune Saturday of getting one of his eyes badly hurt, when a small piece of iron struck him in the eye.

Rev. A. C. Gettys was called as pastor of the Baptist Church at last Sunday night's service. Bro. Gettys served the church for a period of one year previous to last year.

During the first part of the threshing season reports from a few farmers show that this year's wheat is yielding from 20 bushels to 31½ bushels per acre. Reports indicate that the yield this year will be better than last year and the grade is also better.

The W. R. Womack store has been moved to the McKown brick building on the west side of the square, a deal being closed for the purchase of the building.

J. L. Ladd, formerly editor of The News, is here this week mingling with old friends.

Thurman Talley has sold his tailor shop to George Hinds and intends to go to Chicago, where he will enter an art school.

Mrs. W. B. McCormick returned home Thursday from Moody, Texas, after a lengthy visit with friends and relatives.

Mr. and Mrs. Jack Roberts and Mrs. Gray Thompson went to Quanah Thursday, returning Friday, making the trip in Jack's car. They attended the Rebekah Lodge.

Charley Melton and wife left last week for their home at Henrietta after a visit here.

Duke Wallace informs us that contracts have been entered into whereby electric fans are to be installed in the city within a short time. The fans have been ordered and will arrive within a few days. Not all business men have agreed to take fans, but some have, and when once tried these fans will no doubt be regarded as indispensable in the business houses of the city.

Camp and Medical Council Service is bringing about an expansion of inter-council co-operation which comes from Great Bend, Kan. When the Great Bend Council was unable to fill a request for 1,500 books—that's quite a few for any council—for the 33rd Bomb Group stationed there, the situation was relayed through their field directors to the Central Oklahoma Council. The books were gathered and sent pronto.

The frequency of accidental deaths at work on the farm is estimated to be 1½ times the all-industry average, and the total number of farm workers killed each year accounts for one-fourth of all occupational deaths.

**Washington News**  
 By Congressman Ed Gossard, 13 District of Texas.

Washington, D. C., June 15.—New York Congressman Vito Marcantonio, generally regarded as a Communist, was the author of the so-called anti-poll tax bill passed by the House of Representatives this week. The last time this bill was passed by the House its sponsor was a prominent member of the old Tammany Hall gang in New York City. Both state and federal constitutions make the matter of voting qualifications a problem for state determination. If Texas pants to abolish her poll tax that's all right. However, the federal government has no right to force Texas to abolish its poll tax or to otherwise interfere with state control of elections. The Vito Marcantonio-sponsored anti-poll tax bill is a vicious attempt at meddling with state's rights.

From letters being received, it appears that many folks in the Southwest think we have won our final and complete victory in our fight for equal freight rates. A recent Interstate Commerce Commission decision held there was discriminatory and unequal freight rates. However, their decision simply ordered a lowering of class rates in the Southwest by 10 per cent, and the raising of class rates in the Northeast or official zone by 10 per cent. This did not remove all of the discrimination in class rates. Furthermore, it did not touch so-called commodity rates, on which 90 per cent of our traffic moves. Again, there are numerous ways in which the powerful and intricate railroad system can evade and resist the removal of inequalities. Also, the financial and industrial interests of the Northeast have big stakes in the discriminations practiced against the South, and will not easily give up their advantage.

One of the arguments now going on in Congress is over a proposal to cut in half a 35 million dollar appropriation for the Office of War Information (the OWI). I was one of the few Texans voting for this cut, and personally feel that the OWI has not done a good job, and that other existing agencies could carry on its work more effectively without additional expense.

In a conference with J. Edgar Hoover this week concerning spies, saboteurs, and fifth columnists in this country we discussed the advisability of a universal fingerprinting law. As a universal favor of such a law, Mr. Hoover told me 67 a recent case in which a shark was killed on the coast of Florida. A man's arm was taken from the shark's stomach. Through fingerprints the FBI was able definitely to identify the man as a missing merchant seaman. This enabled his family to collect his insurance and to settle his estate.

Representative Andrew Jackson May, Chairman of the House Committee on Military Affairs, has represented the 7th district of Kentucky for 14 years in the House of Representatives. He will be 70 years old this Sunday. Although coming from a state noted for whiskey and tobacco he has never smoked or chewed tobacco and has never tasted intoxicating liquor.

Since the sugar shortage has grown more critical a number of people have written to complain that sugar is being wasted in the manufacture of intoxicating liquor. We protested to the OPA and the WPB about this, and both agencies have answered assuring us that sugar is not used in the commercial manufacture of intoxicating beverages.

One of several reasons for the sugar shortage is an allotment of 20 per cent of our sugar supply to the making of synthetic tires. The sugar is converted to alcohol which goes into the synthetic rubber.

The log cabin tradition is still strong in America. Mary Myrtle Moulton, above 60 years of age, recently received an M. A. degree. Her eight brothers are all outstanding leaders in American education and industry, four of them being doctors of philosophy. This family was reared in a one-room log cabin. The farms and small villages of America still produce by far the largest percentage of successful individuals. Discipline and denial breed independence and resourcefulness.

**SUNNY SQUIBLETS**  
 Many people are said to use bad grammar. This won't help them to shine in society, but it may lead some to vote for them for public office.

Some folks are said to make themselves disagreeable in their families by their cross and unpleasant ways. They might be quite polite if someone came along and offered them some money.

They say it is difficult to achieve happiness, but some folks seem to feel awful happy when they come home from their late doings.

Unpleasant experiences are referred to as a "bitter pill." Back in the good old days, bitter pills were supposed by many to be good for you, whether there was anything the matter with you or not.

Harmony in the family is said to be necessary. They can get it in some families by giving the kids everything they want.

What shall be done with people who get mad as the result of engaging in arguments? In the good old days, some men cured that trouble by taking off their coats and offering to fight the angry arguer.

The people are urged to acquire wisdom. At least many want to be wised up as to how they can get more meat and butter.

People are warned that it is dangerous to follow the crowd. They follow the crowd that crowd out to work every morning in Texas, their families are likely to be well provided for.

It is said to be well in many cases for people to state their good idea in some cases to have them tell what the words of the writing mean.

The people are told to pour out their hearts for the good cause of the nation. All some can pour out are words.

Churchill by his forthwith resignation has shown that he is not as good a politician as he is a war leader. Churchill's resignation came about when he learned that the labor party of the empire was planning to install a conservative government that Churchill government. Churchill by his resignation has forced an earlier election and has practically assured his own return to power. After what he has done it appeals to most people who have special interest in the election that kicking Churchill out would be most ungrateful.

hawk barbecue grill at Womack's.

Dr. and Mrs. Hines Clark went  
to Fort Worth Monday, where  
Dr. Clark's brother, Jim Richard-  
son, submitted to an operation  
Tuesday morning. They returned  
Tuesday afternoon.

Canning supplies at Beverly  
Hdw. & Furn. Co.

Mr. and Mrs. M. L. Hughton  
have returned from Fort Worth  
where they visited in the home  
of their daughter, Mrs. Leon  
Speer and husband and infant  
son, M. L., who was born on June  
20.

Plenty wooden water buckets,  
95c.—Womack's.

Mrs. D. B. Sauls of San An-  
tonio arrived here yesterday for  
a visit with her sister-in-law, Mrs.  
Pete Holcombe, and family.

Mr. and Mrs. Charles Andrews  
of Vernon spent last week here  
visiting in the home of Mr. An-  
drews' parents, Mr. and Mrs. L. G.  
Andrews.

Plenty throw rugs, prices \$3.25,  
\$5.90, \$5.07, \$6.30 and \$6.75.—  
Womack's.

T. S. Jernigan will leave today  
for Kansas City, Mo., to visit his  
two daughters, who live there. He  
will go from there to Van Buren,  
Ark., to visit relatives before re-  
turning home.

Mrs. Robert White and small  
son, Bob, of Roswell, N. M., and  
Miss Fannie Brown Eaton of  
Levelland spent the week-end in  
the home of Mr. and Mrs. D. F.  
Eaton.

Lite bulbs only 15c at Beverly  
Hdw. & Furn. Co.

Mr. and Mrs. Alva Miller and  
son, John Weldon, Donna Merl  
White and Mrs. Gladys Clauson,  
all of San Antonio visited Mr. and  
Mrs. John White and son, over  
the week-end.

Mrs. J. T. James Jr. of Hous-  
ton left Monday after having been  
here two weeks nursing her aunt,  
Mrs. M. N. Kenner, at the Crowell  
hospital. Her husband came Sun-  
day for a short visit and Mrs.  
James returned with him.

Buy at Womack—Natural gas  
water heater, 39-gal., \$70.27.

Miss Inez Sloan and S. K. C. C.  
of the U. S. Navy and Mrs. Denny  
White and their small daughter,  
Roy Ann, returned to Dallas last  
Friday after visiting a few days  
here with Mr. and Mrs. A. L.  
Sloan, parents of Miss Sloan and  
Mrs. White.

Mr. and Mrs. D. R. Magee re-  
cently visited their daughter, Miss  
Ada Jane, in Texas State College  
for Women at Denton. They were  
accompanied to Denton by Mrs.  
T. M. Beverly and Mrs. W. D.  
Howell, who had been visiting in  
Crowell.

Buy your baby beds, high  
chairs, swings, nursery chairs,  
children's book cases, at Womack's.

Mrs. Sam Crews Jr. and baby  
daughter, Judy, are visiting in the  
home of Mr. and Mrs. Sam Crews.  
They have been in Virginia visit-  
ing in her parents' home. They  
were accompanied to Crowell by  
Miss Mary Sam Crews of Hous-  
ton, who returned to her home  
Saturday. Lt. Sam Crews is sta-  
tioned in England.

Mr. and Mrs. M. L. Owens of  
Feard City and their son, Bill  
Owens, and wife of Truscott re-  
turned home Monday from a visit  
with Mr. and Mrs. Tanner Bill-  
ington and Mr. and Mrs. John Todd  
of Fort Worth. Patsy, daughter  
of Mr. and Mrs. Bill Owens, re-  
mained in Fort Worth for a long-  
er visit.

Army cots, complete with mat-  
tress, \$21.65.—Womack's.

Mrs. R. Q. Meason of Memphis,  
Texas, is visiting here with rela-  
tives. Her husband has left for  
overseas duty with the Navy.

Miss Mary Evelyn Edwards,  
student in the University of Tex-  
as, came home last week to spend  
the summer with her parents Mr.  
and Mrs. Herbert Edwards.

Cultivator sweeps at Beverly  
Hdw. & Furn. Co.

Mr. and Mrs. Virgil Smith and  
children went to Lawton, Okla.,  
last week to take Mrs. Smith's  
sister, Mrs. Joe Harris, who had  
spent a week here visiting in their  
home.

Mr. and Mrs. Bill Ford and three  
children, Carolyn, Robert and  
Terry, and Mr. Ford's father, J. R.  
Ford, left Monday for Pritchett,  
Colo., where they will make their  
home on a farm near Pritchett.

One good used daybed with new  
mattress for sale or trade at Bev-  
erly Hdw. & Furn. Co.

Mrs. J. C. Self of Wichita Falls  
spent last week here visiting in  
the home of her brother, Herbert  
Edwards. She was joined here  
Saturday afternoon by her hus-  
band.

Mrs. John Hakala has returned  
to her home in Lake Charles, La.,  
after a visit of several weeks here  
in the home of her mother, Mrs.  
J. S. Long.

Miss Margaret Long, a member  
of the staff of the Wichita Daily  
Times of Wichita Falls, visited  
over the week-end in the home of  
her parents, Mr. and Mrs. John E.  
Long.

Mrs. Thomas B. Johnson of Fort  
Sumner, N. M., is here visiting  
her parents, Mr. and Mrs. Hubert  
Brown. Her husband, Capt. Thom-  
as B. Johnson, is a flight instruc-  
tor at the Fort Sumner Army Air  
Field.

C. R. Ellis and family moved  
to Paducah last week where Mr.  
Ellis will operate a plumbing shop  
bought recently. The family lived  
here several years and Mr. Ellis  
was employed in the R. R. Magee  
Plumbing Shop.

Miss Oneta Cates, who has been  
employed as a nurse in an Abilene  
hospital for a number of  
years, has been visiting her par-  
ents, Mr. and Mrs. T. R. Cates,  
of Thalia. She will leave Friday  
for St. Louis, Mo., to take an  
8-months' course in anesthesia.

Cultivator sweeps at Beverly  
Hdw. & Furn. Co.

Mrs. L. P. Rader of Morris,  
Okla., and Mr. and Mrs. Barney  
Campbell of Tulsa, Okla., are here  
this week visiting relatives. Mr.  
and Mrs. Campbell are former  
residents of Crowell and Mrs.  
Rader, although she has never  
lived here, owns a good wheat  
farm south of Crowell.

Dr. J. Edward Johnson of Aus-  
tin, Luke Johnson and son, Larry,  
of Rosenberg and Tom Johnson  
of Fort Worth were in Thalia last  
week to visit their mother, Mrs.  
Nona Johnson, and their brother,  
Walter Johnson, and family. Mrs.  
Johnson returned home with Dr.  
J. Edward Johnson.

Miss Nancy Gogdell of the Vet-  
erans' Hospital in Wichita, Kan.,  
spent last week visiting in the  
home of her parents, Mr. and  
Mrs. W. C. Gogdell. Mrs. Allen  
Gogdell and children of Paducah,  
also spent the week in the Cog-  
dell home. They visited Mrs.  
James Brothers and family in  
Shamrock, last Tuesday.

Mr. and Mrs. Herbert King and  
daughter, Virginia Sue, Mrs. W.  
M. Bailey and daughter, Martha  
Jo, of Vernon, Mr. and Mrs. Al-  
and Sgt. and Mrs. Clyde King of  
Childress visited in the home of  
Mr. and Mrs. J. T. King last Sun-  
day. Mr. and Mrs. Herbert King  
remained until Tuesday for a long-  
er visit with relatives and friends  
in the county.

Mrs. J. R. Beverly has returned  
from Los Angeles, Calif., where  
she visited relatives and friends  
for several weeks. She went to  
El Paso to attend the graduation  
of her niece, Nancy Jo Anderson,  
from Radford School for Girls.  
Mrs. Beverly accompanied her  
niece to Los Angeles, where she  
left for her home in Papaikou,  
Hawaii, to spend the summer with  
her parents, Mr. and Mrs. Alex  
Anderson. She will probably at-  
tend college in Texas in the fall.

**SANTA FE CARLOADINGS**  
The Santa Fe System carload-  
ings for week ending June 23,  
1945, were 30,851 compared with  
29,535 for the same week in 1944.  
Cars received from connections  
totalled 14,815 compared with 12,  
276 for same week in 1944. To-  
tal cars moved were 45,666 com-  
pared with 41,811 for same week  
in 1944. Santa Fe handled a to-  
tal of 44,040 cars in the pre-  
ceding week of this year.

The U. S. Government has filed  
a suit to determine who owns the  
oil lying beneath U. S. coastal  
waters. In some sections oil wells  
have been drilled in the ocean  
floor near the shore. The question  
has come up who owns the land  
and to whom the royalty shall be  
paid.

Machinery, livestock and falls  
are the principal sources of farm  
work accidents. The annual work  
toll is 4,500 persons killed.

## New One-Man Army

Pfc. Clarence Craft, Santa Anita, Calif., is credited with killing more than 30 Japs in a spectacular, and almost single-handed, rifle and grenade fight. He was exposed to enemy action during the entire time it was his first time in battle.

## Regional Chairman of National War Fund Drive in Area Chosen

Judge O. O. McCurdy, one of the foremost civic leaders of Vernon, has been named regional chairman and will direct the October campaign of the National War Fund in this area, Wayland D. Towner, general manager of the United War Chest of Texas, announced today.

Judge McCurdy was appointed to the highly-important post by Judge Ben H. Powell, UWCT president.

As chairman of Region 13, one of the 19 regional campaign divisions set up in Texas, Judge McCurdy will lead 8 Texas counties toward an "over-the-top" achievement in the fall campaign. His task is one of the most important in the nation-wide drive through which the National War Fund raises funds for USO, USO-Camp Shows, War Prisoners Aid, United Seaman's Service, Philippine Relief and 18 other agencies serving our own fighting men, our allies and war victims throughout the world.

In appointing Judge McCurdy to the post of regional war fund chairman, Judge Powell declared: "As one of Texas' top civic and patriotic leaders, Judge McCurdy will play an important part in our annual campaign, through which Texas will raise approximately \$4,500,000 for the National War Fund. His acceptance of the post, and his willingness to give his time and effort to this great enterprise, will do much to assure success of the drive."

Counties included in Region 13 are: Archer, Baylor, Clay, Foard, Hardeman, Knox, Throckmorton and Wilbarger.

**Hot Weather**  
Many people dread the summer because they suffer from heat. They wilt down when the thermometer gets up in the nineties or more. They feel languid and oppressed, and their usual energy is gone. The sweat pours from their hot faces. If they try to do any active work, they may feel nearly exhausted.

The people who become used to active physical exercise seem to suffer the least from heat. The farmers may complain if the day is especially hot, but they may be used to it. They have hoed and weeded so many times under the hot sun, that their bodies are at least partly hardened to it.

The athletes play baseball and tennis under the hot sun and they stand it. So we get through the hot days with less discomfort, if we have trained our bodies to active life.

**Home Town Thoughts**  
The folks who can be relied upon to do what they agree to do, are valued. Those who are sure to be at work promptly unless prevented by some good reason, or similarly to keep their social engagements and appointments, are a valuable addition to any group.

Boys and girls need plenty of activities that will give them development and pleasure. The community that provides them makes the young people like their home town, and they will regret it if it seems best to leave it.

"How did those potatoes come out?" a store man was heard to ask a customer. Evidently that store man had sold that customer a lot of those spuds, and he wanted to know how they pleased the customer. That kind of interest makes business friends.

A proposed increase in pay to all federal employees to be voted before Congress adjourns for the summer will total \$900,000,000.

**War Workers' Future**  
The wife of a man engaged in war production remarks that she is concerned over the ability of her husband to keep his job after the war, because of the preference that is likely to be given to returning servicemen. Probably many more such wives have this feeling. Many war workers are also likely to ask whether they will be able to keep their work after the servicemen get back.

There will be a great slackening of war production after Japan is defeated. The country will still have to produce military material, but the amount required should be far less. That means that millions of war production workers may lose their jobs.

The country does feel that the first preference on jobs after the war should be given to the war veterans. The great majority of them had to risk their lives in their country's service. Practically all of them have had to interrupt their plans for work and study to respond to the call of the government. The country is under heavy obligation to see that they have employment.

The country also owes a debt to the people who have turned out the enormous war production that made victory possible. If it had not been for the stupendous output of weapons and supplies, the best and bravest forces in the world could not win victories.

The enormous demand for civilian goods that cannot now be produced, gives reason to hope that plenty of jobs will be open for the war workers. They have added to their skill by their war production experience. Many vacancies will be created after the war by married women who give up their jobs, and young people who return to school and college. The war workers should regard the future with confidence. They will do well to buy all the war bonds they can as a safeguard against temporary unemployment.

There is a Red Cross girl in Sydney, Australia, whose sole responsibility is to aid Australian brides of American servicemen.

## CIVILIANS AT WAR

The Government needs and asks its citizens in the 186th week of the war against Japan to:

Keep your family well-fed by using the many alternates for scarce foods. Careful planning will help you to serve healthy and attractive meals despite shortages.

Budget your wartime spending. Saving now helps hold prices down. Spending later will stimulate prosperity when war production ceases.

Back up the men who will bring victory over Japan by becoming a WAVE. 20,000 are needed for hospital and other assignments. Write WAVES, Washington, 25, D. C., for information.

## Why Waste Boypower? Use Waterpower

That's what this farm boy in the Uharrie mountains of North Carolina thinks as he uses his homemade bucket-toter to get some water from a spring several hundred yards down the hill. When the bucket reaches the spring, metal weights wired to bucket lip cause it to tilt over and fill. Then the boy winds the bucket back up the hill with the converted axle wheel.

## PRODUCTION OF BEDDING AND ELECTRICAL APPLIANCES INCREASED

Production of bedsprings, box springs, innerspring mattresses, studio couches and other types of bedding will be increased in the coming months, says WPB, but not to any appreciable extent, as the supply of textiles and other materials is still limited. Limitations have been removed on the manufacture of the following electrical appliances: air heaters, household toasters, casseroles, chafing dishes, heating pads, household waffle irons, dry shavers, hair clippers, permanent wave equipment and home dishwashers. Continuing scarcity of materials, however, will also limit the number of these items available to consumers for many months. To provide more work socks for civilians, WPB removed the freeze on circular hosiery knitting machines above 72 needles that had been frozen to the production of wool socks for the armed services.

## PENICILLIN FOR CIVILIANS

Approximately 885,000,000 units of penicillin, equivalent 8-850,000 vials of 100,000 units of the drug, have been released since March 15, through normal channels, for civilian distribution, WPB announced. Some 220,000,000 units a month are currently being used for civilian human and veterinary parenteral medication, WPB said. After military requirements and civilian and export parental needs are fulfilled, the considerable remaining quantities of penicillin may be made available soon in dosage forms such as tablets, capsules, ointments and dental preparations, convenient for physicians and apothecaries. The initial shipping date for the new forms of penicillin may be August 1.

## PRESIDENT TRUMAN CONSIDERS PLANS FOR CHILD WELFARE

Immediate expansion of health, welfare, education, and other services offered to children in rural areas is called for in plans now under President Truman's consideration, Katherine F. Lenroot, Chief of the Children's Bureau of the U. S. Department of Labor, reported. These plans are included in a report titled, "Building the Future for Children and Youth," prepared by the National Commission on Children in Wartime, which outlines the steps which should be taken now to bring adequate services within reach of the nation's children.

Federal grants to State departments of health should be increased by \$50,000,000 for maternal and child health work; to State crippled children's agencies by \$25,000,000 for their work with handicapped children; and grants for child-welfare programs of State welfare departments should also be stepped up, the Commission recommended. Much of the additional funds would be used to extend and expand these protective services to children in rural areas. "Our first responsibility in building the peace is toward our children to whom the future belongs," Miss Lenroot commented. "Provision of health and welfare services and educational opportunities for every single child in the United States is the key-stone upon which our security as a Nation rests." Pointing out that rural areas are least adequately served by public-health departments, health and hospital centers, maternal and child-health facilities, and welfare programs, the report urges immediate action and post-war expansion until all political subdivisions of all States are adequately covered. Because of the benefits that would accrue to children in terms of more adequate support, the Commission makes recommendations, based chiefly but not entirely on recommendations of the Social Security Board, for liberalizing the following: 1, benefits for dependent children, and the conditions under which such

benefits are made available; 2, Federal sharing of the cost of general assistance; 3, extending social security benefits to domestic, agricultural, and white collar workers.

Declaring that it is essential to move forward as rapidly as possible to attain full educational opportunity for all children and youth, the National Commission urges Federal support for education, based on the need for educational opportunities and facilities throughout the country, and administered without discrimination as to race, color, creed, or national origin. Further protection of young workers calls for broadening the coverage of the child-labor provisions of the Fair Labor Standards Act and for strengthening the enforcement of these provisions. To assure progress in providing for the needs of children and youth, the National Commission urges all States and communities to establish continuing councils or commissions on children and youth, to work closely with central planning agencies, for promoting and assisting in the development of sound social policies and services.

## FARM WAGE RATES RISE TO NEW HIGHS

Continuation of the upward trend in farm wage rates to a new record was reported by the U. S. Department of Agriculture. All wage categories were higher than 2 months ago. Monthly rates averaged \$81.30 with board and \$93.10 without board. Daily wages were \$3.65 with board and \$4.16 without board.

## SAFETY FOR BOYS AND GIRLS EMPLOYED ON FARMS

Many farm children have always worked on their home farms, but since Pearl Harbor, about a million city boys and girls under 18, inexperienced in farm work, have helped with the crops, says an OWI Fact Book on safety. Young workers, the Book points out, have been injured while operating farm machinery, handling farm animals, picking tree fruit, lifting heavy objects, using ladders and cutting tools, through exposure to the sun and heat, and while being transported to and from work. Farm work, the Book continues, should be carefully assigned to these young people, and the lightest jobs given to the younger children. All should be trained in safety and carefully supervised.

## Two Minute Sermon (By Thomas Hastwell)

Is It Right? I recall that on a number of occasions as a small boy my father told me I should not do a certain thing. Like most children of that age, I asked why. Because, he said, it would be wrong, it would be unjust, and unkind. I used to attempt to argue with my father on matters of this kind, especially when his decisions conflicted with something that I especially desired to do. I never, as they say, got very far. If a thing was wrong in the thinking of my father it was wrong and that was all there was to it. No amount of argument on my part could change that. I will admit that I was not always convinced that he had the right angle on the proposition, and I often felt that if I was a little better talker I could convince him I was right. After I became older I learned that argument on my part, however good it might have been, would never have caused him to change his mind. If a thing was wrong to him it was wrong, and that was all there was to it. I've often thought since how much my father's philosophy simplified decisions. It cut through everything to the basic question—is it right?

Gold mining was commenced in the Appalachians about 1792 and in California in 1848.

## TIPS ON CURTAIN CARE

Summertime soon will be here, and that's when curtains really take a beating. Sunlight, dust, wind, and sometimes humidity weaken the fabric in your curtains and mean more frequent laundering.

Since curtain materials are more scarce just now than at any time since the war began, Texas homemakers are urged to take better than usual care of their curtains in the months ahead.

Fortunately, there's been some recent research on curtain care. For instance, the Texas Agricultural Experiment Station found long exposure to sunlight to be the chief reason why cotton window curtains deteriorate. That explains why curtains at south windows often go to pieces before those on north windows—they get more sunlight. So, to overcome this, shift them occasionally from one side of the house to the other, if the size of the windows is the same.

Cotton curtains made of coarse, hard-twisted yarns withstand the weakening effects of sunlight better than curtains of fine, soft-

twisted yarns. Bleaches and dyes also have considerable effect on curtain life . . . that is, unbleached goods prove more lasting than bleached goods, some experiments have shown. For sunny windows, then, homemakers will be wise to select, if they can find them, the most serviceable cottons which are made of unbleached, mercerized, coarse, hard-twisted yarns. If the curtains are colored, a deep or dark shade proves more durable.

Rayon curtains suffer most from laundering, for they are easily damaged when wet.

Thirty-one University of Texas voluntary Nurses Aides were capped at a recent ceremony, indicating their completion of the required number of hours to become full-fledged Nurses Aides.

Thomas A. Va Emson, with more than 11,000 patents to his credit, was America's most prolific inventor.

Isaac Merritt Singer of Boston, Mass., in 1851, manufactured the first successful sewing machines in this country.

The House of Parliament will be seen by visitors only on Monday, unless the visitor has an order from a member.

Whiskey was used as a standard of value in South Carolina after the collapse of the colonial currency.

Three rivers, the Mystic, the Neponset, flow into the Harbor.

to give performances for wounded men. When the boys are unable to leave their beds to attend the show, the troupers perform in the wards, giving as complete a show for a dozen as for thousands.

USO shows are financed by the National War Fund through local campaigns in each county. In addition, war fund money supports War Prisoners Aid, United Seamen's Service, China Relief, Philippine Relief and 17 other war-related agencies.

**Getting a Sun Tan Should be a Slow Process, Doctor Says**

Austin. — "Sunshine can be greatly beneficial to the average individual's health or it can cause serious illness through overexposure, especially in the beginning of the summer season," Dr. Geo. W. Cox, State Health Officer, declared in a statement this week.

Dr. Cox pointed out that vacation enthusiasm often leads to acts of thoughtlessness which may be detrimental to health. One of the most common manifestations of this attitude is a disregard for the burning power of the sun. Despite frequent warnings on this danger, annually thousands of persons overexpose their tender skins to the sun's rays, and consequently suffer casualties ranging from mild discomforts to serious conditions. Death has been known to occur from severe sunburn when accompanied by other complications.

"When first exposing the winter-softened skin to the sun, it should be realized that no defense to the sun's burning rays exist. This defense only can be developed gradually by pigmentation, that is, by a slow tanning. Attempts to force this process end in painful sunburn."

The State Health Officer said that the first day's exposure to the summer sun's rays should be limited to no more than fifteen minutes, with gradual increases of time as the skin becomes increasingly pigmented. Those persons who are very fair skinned, and who are unable to suntan normally, should not indulge in sunbathing. Instead of the coveted suntan, they will only acquire a case of sunburn.

**HOUSEHOLD HINTS**

Orange peel for flavoring.—Orange peel, dried and grated, makes a very fine yellow powder that is delicious flavoring for cakes and puddings.

Serving peas and carrots.—Attractive baskets to serve carrots and peas in may be made by baking pie crust over small muffin pans.

Preserving brooms.—Using both sides of a broom equally will prolong its life.

Restoring life to bath towels.—When bath towels become dingy, put them in a boiler of cold water, add soap and a little lemon juice and heat to the boiling point. Rinse in lukewarm bluing water and then hang in the sun.

Working bees and drones live only from one to nine months. The life of the Queen bee is rarely more than three years.

**SAVING HOME RULE**  
Following the recent United States Supreme Court decision upholding the Department of Justice in its action to bring fire insurance under the anti-trust laws as interstate commerce and thereby subject the industry to Federal regulation, great confusion existed. The ruling upset the decisions of that court for the past 75 years to the effect that state rather than Federal control governed insurance.

An end to the confusion seems to be in sight, however, as both houses of Congress have, by an overwhelming vote, provided that insurance be given until January 1, 1948, to adjust itself. In states where a full measure of regulation now exists, it is believed that the status between the companies and the states will, for all practical purposes, remain largely the same as before the Supreme Court's decision. States lacking regulation in which more than three years in which to shape suitable legislation.

The Insurance Advocate says: "It is important to remember that what Congress has granted, it can also take back." Therefore, the moratorium should be employed to the full to bring about uniform, reasonable regulation. Toward this end, the National Association of Insurance Commissioners and the fire insurance companies which provide indispensable protection for this nation, have an opportunity to do an unprecedentedly effective job in the public interest, not only from the standpoint of improving insurance, but from the standpoint of perpetuating state jurisdiction over regulatory matters, thus obviating any excuse for the extension of Federal control into local insurance affairs.—Industrial News Review.

**Jack McDowell**, a San Francisco newspaper reporter, made a blood donation just before leaving for the Pacific battle zones. When he landed on Guam, Jack went to a hospital to watch a wounded man receive a whole blood transfusion. Observing the donor's name on the bottle, he was puzzled as to where he had seen it before. Suddenly he remembered! He had seen the name on the bottle being filled at the bed next to his at the San Francisco center twenty-four hours before.

Austin. — Proceedings of the third year of study of secondary education in Texas are now available to member schools of the study. Dr. J. G. Umstatt, University of Texas professor of secondary education, has announced. Fifty Texas schools are taking part in the study, and stenographic notes of the conference held by the group in May are now published in mimeographed bulletin form, Dr. Umstatt said.

The "House of Seven Gables" is located in Salem, Mass.

**INTERNATIONAL SUNDAY SCHOOL LESSON**

For July 1, 1945

Subject: God's Joy in Creation. Scripture: Larger Lesson—Gen. 1-5, 10-12, 16-18, 26-27, 31.

Golden Text: "God saw everything that he made, and behold, it was very good." Gen. 1:31.

Introduction: 1. We will study the book of Genesis for this quarter, July, August, September.

It is generally conceded that Moses wrote the book of Genesis under the inspiration of the Spirit. We will do well to study this book chapter by chapter in addition to the lesson passage.

1. "In the beginning God" 1. An eternal being. "In the beginning" 2. "God created" A person of power and choice. 3. "God moved or hovered" A spiritual person. 4. "God saw" A being of preception conscious of our condition. 5. "God said" God can communicate with his creation and his children. 6. "God made" He did not forsake his creation but still controls it. (Col. 1:17).

Summary as to God. God is a spiritual being of power, choice, and sees our needs and is able to communicate with us. God is eternal. Matter is not.

II. "God Created." 1. What is the difference between "created" and "made?" Created means to speak into existence without pre-existing matter. Make means to form something out of material already created. 2. What was the order of the creation of the physical universe. God created the world by the Word of His power. God said (Gen. 1:3) Light. God said (Gen. 6) Firmament or expanse. God said (Gen. 1:9) Dry land. God said (Gen. 1:11) Vegetable life. God said (Gen. 1:14) Light holders. God said (Gen. 1:20) Animal life in sea and air. God said (Gen. 1:24) Animal life on earth. God said (Gen. 1:26) Man. God said (Gen. 1:29) Provision for life. Though the formula does not recur, the Sabbath decree (Gen. 2:1-3) completes the ten words. 3. What are the primal situations of the Creation? a. Marriage (Matt. 19:49). b. Labor "Subdue the earth." Labor became toil after the fall of Man. c. Sabbath for rest and worship. d. Dominion. e. Man's title to the earth on condition that he populate and subdue it. 4. Why were all things created? For God's glory. 5. For whom were all things created? All things were created for Jesus (Col. 1:16).

III. The Crown Point of Creation. "Let us make man in our image, after our likeness. 1. What is meant by our? God the Father, God the Son, God the Holy Spirit. 2. What is meant by being made in the image of God? God is a spiritual being. We are endowed with affections, will, and knowledge.

IV. God's Joy in Creation—God saw. 1. Note the number of times the phrase appears in the first chapter of Genesis. 2. God's joy was prompted by the fact that He had provided for every need of man. 3. Also He was happy that He could lavish His love on His own creation. 4. What is the one thing that kills God's Joy? Sin.

The idea of using a cross in place of a signature dates back to early medieval times.

**Weekly Sermon**

By the Rev. Wendell P. Lovelless, Director of WMBI, Moody Bible Institute, Chicago.

**Two Ifs**  
"Then said Martha unto Jesus, Lord, if thou hadst been here, my brother had not died" (John 11:21). In the familiar story about the death of Lazarus, Martha said "if," and Christ replied with another if—"If thou wouldst believe, thou shouldst see the glory of God" (v. 40).

Unquestionably there is an if in the life of someone now reading this. Bring that if to the Lord Jesus. He was able to give life back to Lazarus. Surely He can help you.

Faith begets peace, but the counterfeit peace which the world offers is like that which chloroform gives. It lulls to sleep. Not so the peace of God which passeth understanding. That peace brings joy and blessing and comfort, strength and hope and glory.

Is someone saying, "Oh, if I had better health, I could be of much greater usefulness to the Lord Jesus?" God can use your weakness to His glory. "If thou wouldst believe, thou shouldst see the glory of God."

Are you saying, "If I had a better job, I could do much more for the Lord?" Be faithful in the task He has given you. "If thou wouldst believe, thou shouldst see the glory of God."

So often one hears, "If I had greater talents, I could be much more useful in the Lord's service." Yield them to Him completely. He can make much of little. Remember the widow's mite. Never forget, "If thou wouldst believe, thou shouldst see the glory of God."

"If my circumstances were different." "If I had no opposition at home"—if—if—if. Listen thou wouldst believe, thou shouldst see the glory of God." Say to yourself, "I have Jesus every moment of the day. Regardless of my circumstances, He is Able."

For every if in our experience, our recruited, risen, living Lord has the answer—"If thou wouldst believe, thou shouldst see the glory of God."

**INSURANCE**

**FIRE, TORNADO, HAIL, Etc.**  
Mrs. A. E. McLaughlin

**Federal Land Bank Loans**

Provide:  
Long terms—A protection in good times, or bad times.  
Low cost—1 per cent interest—Freedom from renewals.  
Home Ownership—through small regular payments, privilege to pay earlier, future payment fund, business with home-folks.  
Crowell N. F. Loan Ass'n. Operated by farmers and ranchers. Part of the Federal Land Bank System.

**THEY . . . WANT AND READ**

the Paper they PAY FOR

The interest a reader has in a newspaper determines its value as an advertising medium.

The Foard County News is an invited guest in every home. The subscriber has asked for it. He has paid money for it. He wants it and reads it. If he didn't read he wouldn't pay for it.

When you place your advertising with The News you know it will enter the home as a welcome guest, to be read and appreciated. Your message will not be brown on the porch.

You wouldn't waste time and money preparing a letter and then drop it in a waste basket instead of a mail box. Be sure you put your advertising message in newspaper that goes straight to the mark—your prospect, who will read it.

THE PAPER THAT GOES INTO THE HOME

THE FOARD COUNTY NEWS

**Ask for Okinawa's Independence**

Emaciated and despondent, these ancient natives symbolize the aged submission of the conquered. Upper, a group of the Americans had no intention of killing them or taking them, their first request was for cigarettes. Lower, a group of children and child symbolical of new day. Circle, a group of children, who expects to lead a free Okinawa.

## First Postwar Cars

The first photos of 1946 postwar cars to be received show, top, the 1946 Nash "600" passenger automobile. Lower, the "handmade" Ford passenger, to be known as the 1946 model. Motorists may have to wait from one to two years for these.

## The Harmonious Town

It used to be said in former days that the progress of many towns was impeded by the division of those communities into factions. If one element of people wanted to push a certain movement, some different faction might oppose the plan because they did not start and father it. Between the pulling and hauling and contending of factions, progressive movements were impeded, and progress in such a town was apt to be slow.

In a progressive community today that spirit of faction is scarcely noticeable. It is considered that such feelings hamper progress and interfere with the unity which is necessary to accomplish community gains. If anyone suggests a good and practical idea, there is a disposition to back it up, without regard to who or what element started it.

## Double Protection Now Available for Blue Cross Members

Doctor E. H. Cary of Dallas, president of Group Hospital Service, Inc., the Blue Cross Plan of Texas, announced in Dallas recently that all of the work in relation to the establishment of a non-profit surgical and medical plan, to operate as a companion to the Blue Cross Plan, has been completed. In fact, the organization has actually been created and is now ready to offer the new service to qualifying groups.

The new organization is known as Group Medical and Surgical Service, Inc. Mrs. Margaret Hales Rose of Wichita Falls, secretary, was elected as its first president. The occasion for this announcement was a meeting of the complete board of directors for the purpose of officially initiating the program, which was held at the Dallas Athletic Club in Dallas, Texas, June 19.

Officers elected in addition to Doctor Cary are Robert Jolly of Houston, vice president; Doctor L. N. Markham of Longview, vice president; Mrs. Margaret Hales Rose of Wichita Falls, secretary; and J. Howard Payne, of Dallas, treasurer.

The plan will function with a board of 27 directors, and those selected as directors in addition to the officers are Charles F. Ashcroft of Sulphur Springs, Doctor John H. Burleson of San Antonio, Earl M. Collier of Abilene, Doctor H. F. Connolly of Waco, George B. Dealey of Dallas, Doctor J. Charles Dickson of Houston, Doctor George R. Enloe of Fort Worth, Doctor J. Anderson Fitzgerald of Austin, Mrs. Alfreda P. Sassel of San Antonio, Harry G. Hatch of Amarillo, C. J. Hollingsworth of Lubbock, W. E. Justin of Fort Worth, Doctor Chauncey D. Leake of Galveston, Doctor F. T. McIntire of San Angelo, M. J. Norrell of Dallas, Lawrence Payne of Dallas, Doctor B. E. Pickett of Carrizo Springs, Mrs. Josie Roberts of Houston, Doctor E. A. Rowley of Amarillo, Ben Taub of Houston, Tol Terrell of Fort Worth, and Sister Mary Vincent of Waco.

W. R. McBee, executive director of the Texas Blue Cross Plan, was selected also as executive director of the new medical and surgical corporation.

The plan provides a complete schedule of surgical benefits; includes obstetrical care; and also provides an allowance of up to \$3.00 per day for hospital medical cases after the first seven

## Big Four at Berlin Conference

Representing the Big Four at the Berlin conference, where the pact granting the Allies full supremacy over Germany was signed, are, left to right: Field Marshal Sir Bernard L. Montgomery, General of the Army Dwight D. Eisenhower, Marshal Gregory K. Zhukov and Gen. Jean De Latour De Tassigny. They will be in charge of occupied Germany.

days, and for a period of twenty-eight days during the year. The joint service will be made available to new groups; and the new service will be made available to employed groups that are participating in the Blue Cross program.

Mr. McBee explained that qualifying regulations for participation by groups would be somewhat rigid during the first year, probably twenty-five being the minimum group; but that it is anticipated that experience will permit a reduction in this minimum requirement.

Commenting generally, Doctor Cary expressed the opinion that the joint operations and expanded services of these two organizations will contribute much to a comprehensive health service program for a large per cent of the population of Texas. Doctor Cary said that the success of this type of non-profit voluntary organization throughout the United States is a manifestation and evidence that the people can and will provide health services for themselves on a voluntary basis.

## Skilled Labor Needed to Repair U. S. Ships

"One Jap suicide plane in a hundred 'gets through' to hit U. S. ships off Okinawa, but the few that do cause terrific damage, according to top Admirals in the Pacific," said Mrs. Inez Spencer, secretary of the local board of U. S. Civil Service Examiners yesterday. "And Japs killed are reported to be about twelve to one U. S. soldier slain," she continued.

"One soldier of ours is worth more than a dozen of the enemy, and the Admirals say they can cut our losses greatly if workers will only hurry to the job of repairing ships at Pearl Harbor, Mare Island, Hunter's Point and Puget Sound Navy Yards."

Most needed are electricians, machinists and sheet metal workers. Men may get these jobs from any civil service recruiter; there are some forty now in the region. In cities where they are not located, information may be gotten from local post offices, from the Branch Regional office of the U. S. Civil Service Commission Customhouse, New Orleans, or the Regional Office, 210 South Harwood Street, Dallas. The men will be sent at government expense to the jobs, and living quarters reserved for them in advance.

Enough time was lost from farm accidents last year to have produced seven bushels of wheat for each of the 137,000,000 persons in the United States.

## Twenty-Four Planes—25 Minutes

These marine pilots made aviation history off Okinawa by knocking down 24 Jap planes in 25 minutes. L. to R. in rear are: Maj. G. Axtell, Laguna Beach, Calif.; Col. W. E. Buckley, Du Bois, Pa.; Maj. J. Dorrah, Hood River, Ore.; Lt. E. Abner, Washington. Front row (L. to R.): Lt. W. L. Hood, Benton Harbor, Mich.; Lt. J. J. O'Keefe, Biloxi, Miss.; Lt. N. T. Theriault, Milford, Mass.; and Lt. C. Allen, Fort Worth.

## The Nation's Birthday

On July Fourth the thought comes to us of what a wonderful change has come over the United States since that historic day when it declared its independence. On that day the military power of our country was extremely limited. The 13 colonies were small and scattered and disunited and poorly prepared for combined action. The industrial development of the country was in its beginning.

Now it has grown to be the most mighty nation on earth, in science and industry it leads the world, it has supplied an amazing amount of the equipment that has won the war against the mighty power of Germany. Its armed forces arouse the admiration of the world by their courage and organization and discipline and effectiveness.

The country has held together, it has acquired unity, and its democratic ideals have proved successful. This is in a world where so many attempts at democratic and republican forms of government have proved failures, and many countries have gone back to dictatorship.

What has been the reason for the tremendous advance in power and the amazing success which the United States has achieved? The reason should be sought in the strong foundation on which the country was built by its early founders. They had very high ideals of justice and fairness and of opportunity for all. These ideals have so appealed to our people that they have won enthusiastic support and devoted loyalty. Countless men have offered their lives to sustain these ideals, and many of them have died in the wars that became necessary to preserve the republic. They were backed up by the loyal support of their home people, who were willing to make all sacrifices necessary to preserve these principles.

So the United States passes the 169th anniversary of the date when it declared itself independent, and our people owe reverent tribute to them who thus led the way to the development of our glorious land.

Every three months the Detroit Chapter stages "graduation" exercises. There's a band, the successful students trip across a stage for their "diplomas"—certificates in this instance—and it's a big affair. Just like in school, the grads represent many majors—first aid, nutrition, home nursing, nurse's aide, water safety, canteen, etc.

## Dr. Truett's Voice To be Heard Over Baptist Hour

The voice and message of the late Dr. George W. Truett will be heard again in another and different series of broadcasts over WFAA of Dallas, as announced by the Radio Committee of the Southern Baptist Convention, E. F. Lowe, Director, Atlanta, Ga. These transcribed messages were delivered during the life and ministry of the late Dr. George W. Truett in Dallas.

Mr. Lowe states further that just as Dr. Truett was unsurpassed as a preacher in the days of his activity so his transcribed messages are unsurpassed in beauty and power and heart-passion. They can be heard in Texas Sunday mornings 7:30 to 8:00 o'clock over Radio Station WFAA of Dallas.

Pastors, Sunday school officers

## Boy Scouts Have Steak Fry at Lake

Fifteen Boy Scouts, accompanied by their Scoutmaster, D. F. Eaton, enjoyed a Scouting party at the Spring Lake Country Club lake last Friday afternoon. The boys supplied the steak and it was cooked camp style.

Following a swim in the lake supper was served after which games were played. After taking another swim the boys returned home.

and teachers and other church leaders will delight to announce this unusual privilege offered in this new series.
