**FOARD CITY W. S. C. S.**

The Foard City Woman's Society of Christian Service met Monday afternoon, August 29, in the Foard City Church. An outline of the programs for the year was made. The devotional, "Lord, Teach Us to Pray" was given by Mrs. J. C. Rader. She said that in order to learn to pray, one must do four things: ask Jesus' help, respond to the desire to pray, set aside a special time to pray, and know God. Mrs. Kenneth Halbert reviewed a pamphlet called "Burma Dairy," which told of the very interesting adventures of the Methodist missionaries in Burma. Members present were Mrs. Virgil Johnson, Mrs. Kenneth Halbert, Mrs. W. L. Johnson, Mrs. Blake McDaniel and Mrs. J. C. Rader.

Women alcoholics in the United States, according to an official of the Women's Temperance Union, have reached an all time high of \$100,000. This same source is authority for the statement that the number of women alcoholics is increasing at the rate of 120,000 a year. By alcoholics is not meant merely women who use intoxicating liquor, but those who use it habitually to the point of becoming intoxicated with it, and, who are unable as they say, to resist its use. Listed as one of the reasons for increased drinking of liquor by women are wine and beer advertising that depicts drinking by women as socially smart and glamorous. Other reasons listed are liquor departments in grocery and drug stores, liquor stores in residential neighborhood shopping streets and basement barroom drinking in the home.

Free "books" or other premiums given to promote sales will be ruled out in the near future by the Federal Trade Commission. The ruling will be followed, it is expected, by a long series of court battles to prove the constitutionality of the law. The Federal Trade Commission objects to the word "Free." The Commission contends that it is not free, that the customer pays for it, and consequently the statement is misleading.

**30 YEARS AGO**

News items below were taken from the issue of the Foard County News of Friday, Sept. 12, 1919:

J. M. Denton, former Foard County resident, died in Harlingen on Sept. 6.

J. V. Leake of Memphis has been appointed district attorney of 46th Judicial District to fill the vacancy caused by resignation of O. T. Warrick.

School opened Monday with something like 360 pupils present.

Foard County is well represented at Clarendon College with nine enrolling from this county, six from Margaret and three from Crowell. From Margaret they are Olan Key, Alvin Hysinger, John L. Hunter, Mary Walker, Mildred Tharp and Irene Hunter. From Crowell, Arch Hart, Lola Mae Hamblen and Veda Clifford.

Mrs. O. E. White, who had been ill with typhoid for several weeks, died Saturday. Burial was in Denton.

John Raser visited his sister in Memphis last week.

Bryan O'Connell left Sunday for Dallas to enter college.

Jo Ray left yesterday for College Station to enter A. & M.

C. D. Hall and family returned Thursday to their home in Decatur.

Misses Ruby and Bernice Sams were here Monday from Benjamin.

R. B. Gibson was here Tuesday from Vernon.

Mr. and Mrs. J. B. Andrews and Mr. and Mrs. John Roberts of Vernon were in Crowell Sunday.

Edgar Womack, wife and baby left Saturday for Wichita Falls for a few days visit with Mrs. Womack's mother.

Marion Hughston made a business trip to Truscott Wednesday.

**Farm Bureau Meeting to Be Held in Vernon Sept. 9**

A series of 25 bi-district meetings sponsored by the Texas Farm Bureau Federation will be held throughout the state of Texas September 6-21, it has been announced by J. Walter Hammond, federation president. The meeting scheduled for this district will be held in the High School Auditorium in Vernon on Friday, September 9. Director Loys D. Barbour or Iowa Park, Texas, will preside. The meeting will start at 10:00 a. m.

In conducting the meetings, President Hammond will be assisted by Austin A. Crownover, state field representative. United States Congressman Ed Gossett from this district will appear on the program and speak to the group on agricultural trends in Washington.

Another highlight of the meeting will be a queen contest scheduled for 3:00 p. m. The queen selected at the meeting will participate in the ceremonies at the state convention in November at which the district queen will be determined, and a state queen chosen from the district winners.

Farm Bureau spokesmen will give farmers and ranchers first hand information on developments in the agricultural field directly affecting the welfare of farm people; they will also seek the views of the people on current issues as well as future programs.

Enrollment procedures to be used in the state-wide membership program will also be discussed. In reviewing some of the accomplishments of Farm Bureau in 1948, made possible by a good membership, President Hammond called attention to work of the organization in securing adequate storage facilities for grain producers which is estimated to have saved Texas farmers approximately \$45,000,000; also the Farm Bureau's efforts in securing a support price on cottonseed, estimated to have saved farmers of Texas another \$20,000,000.

All farmers and ranchmen, and agricultural agency leaders are invited to attend this meeting.

New York state is leading the way in the matter of stricter administration of the jobless benefits law. Officials of that state's Unemployment Bureau announced recently that no more unemployment compensation would be paid to jobless who run off to summer resorts and while on their vacation collect unemployment compensation. The situation in New York got pretty bad. Each year hundreds would quit work, file for unemployment compensation and go to Florida on a vacation for which the unemployment fund would pay. New York is paying seven and a half million dollars a week to its jobless. The benefits are from \$10 to \$26 a week.

A program of nation wide road building is being considered by Congress. The federal share for main highways will be increased from the present \$1—for \$1.00 to \$3.00 for \$1.00. This is a long range bigger program, which it is predicted Congress will pass next year. Such a program will result in a larger effort on the part of the several states to promote the building of better roads.

**Fighting 36th Reunion in Waco Sept. 9-10-11**

Thousands of the 36th "Texas" Division veterans are expected at the Annual Reunion at Waco, Texas, September 9, 10 and 11th, announced Charles M. Beacham of Corpus Christi, Texas, current President of the 36th Division Association. Over 70,000 men served in this Texas unit during World War I and thousands of others were veterans of World War I and a few of the Spanish-American War. This famous fighting unit, known as the "T-Patchers" by its distinctive shoulder insignia, saw about 363 days of front line service in Italy, France, Germany and Austria. It fought in seven major campaigns, made two amphibious assaults, -- the famed "Bloody Salerno" landing of September 9th, 1943, and the landing on the southern coast of France on August 15th, 1944. The reunion was selected in commemoration of the Italian landing, the first such operation against the mainland of Europe.

A business meeting of the officers of the Association is scheduled for Friday, September 9th, at the Roosevelt Hotel, Waco, Texas, followed by a general meeting on Saturday morning at the National Guard Armory. A barbecue is planned for the afternoon, and a dance for the evening. Regular election of officers and a memorial service will be held on Sunday.

Reservations may be mailed to Wiley Stem, at either the Raleigh Hotel or the Roosevelt Hotel, Waco, Texas.

**What We Think**  
 (By Frank Dixon)

I heard with interest the talk made by Herbert Hoover on the occasion of his 75th birthday.

I think that, notwithstanding the fact that the country's greatest depression occurred during Mr. Hoover's administration as President, and during which time Mr. Hoover's philosophies of government were being practiced, that the warning sounded by Mr. Hoover is not exaggerated or overdrawn. I think that while government under Mr. Hoover permitted a depression to strike, that the present philosophy of government is just as far in error even though it is diametrically opposed to Mr. Hoover's philosophy. In other words I believe as Mr. Hoover says that he does, that under the present philosophy of government spending and taxes threaten the nation with collectivism. I think whereas in the thirties we were faced with an extreme condition which only government aid could have alleviated, we are now faced with a condition just as dire in its implications and possible outcome, against which government does not have the power or the inclination to cope.

We have drifted into many bad habits in the matter of government. Some of these were created by the depression and a number have been promulgated by this and that pressure group since the depression. During the war government became used to dealing with billions instead of millions and hasn't been able since to come down to earth.

We have, as a result of political wire pulling and pressure groups, accumulated a lot of expensive habits that are eating away at the financial stability of the country. The most disturbing thing about it is that there seems to be no concern in the minds of anyone in power, for the future. The gimmies are in the saddle and there is no curb on demands for free service of every kind and character at the hands of government.

In spite of the fact that we are faced with an oppressive debt, the principal and interest of which is a tremendous burden, no one seems to have a moment's hesitation about asking for more and more. There is too little patriotic thought for the country, and too much selfish thought for the individual.

"At the present time the average citizen," Mr. Hoover said, "must work 61 days on the average to pay the taxes. Beyond this, gimmie legislation that has been seriously proposed, will take twenty more days work from Mr. and Mrs. Average Citizen. Taking out Sundays, holidays and average vacations, this total of 81 days work a year for taxes is about one week out of every month."

If America is to be run by the people, Mr. Hoover said, "the people must think." The real test of our thinking is not so much the next election as the next generation. "Today," Mr. Hoover said, "about one person out of every seven in population is a regular recipient of government monies. If those of age are all married they compose about one-half of the voters of the last presidential election."

"There is far more courage in reducing our debts than increasing them. And that is a duty to our children."

Shirley May France, the 16-year old American girl, if she succeeds in swimming the English channel will be the third American to do so. Since 1875 some twenty-seven persons have swam the English channel. Of these, nine were women. The time varied from 10 hours and 45 minutes to 27 hours and 25 minutes. The usual route from Cape Griz Nez, France, to Dover, England, is 19 miles.

**If You Are an Average American**

- Your automobile is your second largest investment—and when you protect it, you also protect your largest investment, your home.
- For if your automobile is uninsured or underinsured, it may become necessary for you to place a mortgage on your home in order to pay a liability judgment.
- Don't gamble on these unpleasant probabilities when adequate protection costs so little.

**Keep your Checking Account Above the "Safety Level"**

Yes, it's embarrassing—and it doesn't make a good impression—to be "caught short" and not have enough funds in your checking account to write the check you want to write.

Maintaining an ample balance at all times is good business practice. Then you are always prepared for any emergency which may arise or any opportunity to make a profit by having ready cash in your checking account.

It pays in many ways to keep your checking balance above what you consider the "safety level."
