Announces GI Insurance Dividend Scale

Veterans Administration's calculations on amounts payable to be paid nearly 16,000,000,000 in the \$2.8 billion National Service Life Insurance dividend have been reviewed by the Veterans Administration Regional Office at Lubbock, Texas, Sept. 15, following an announcement of the amount that the program can receive will be based on the amount of the dividend which will be paid on both converted insurance policies and the policy anniversary payments will be made in the form of a lump sum or in the form of a monthly annuity.

According to Carl R. Gray, Jr., administrator of Veterans Affairs, the estimated rate of the dividend arrived at after long studies, and that the amount of the dividend will be the same as the amount of the dividend which will be paid on both converted insurance policies and the policy anniversary payments will be made in the form of a lump sum or in the form of a monthly annuity.

The portions of the premium which are estimated as necessary to pay claims may turn out to be higher than estimated, and the portion of the premium which is estimated as necessary to pay claims may turn out to be higher than estimated, and the portion of the premium which is estimated as necessary to pay claims may turn out to be higher than estimated.

The rates of payment will be: under 40 years of age at a rate of 55 cents per month; 40 to 45 years of age, scaling down to 40 cents; those 46 to 50 years of age, scaling down to 25 cents; those 51 to 54, 25 cents down to 20 cents; those 55 and over, 20 cents per thousand.

The proposed scale does not apply to insurance on a permanent basis which has been surrendered at a reduced paid-up amount. These cases will be handled separately.

Social Security Representative to Be in Crowell

Social security benefits to 65-year-old workers and to the families of workers who die are not paid automatically. Erton F. Tate, manager of the Wichita Falls Social Security Office, has cautioned. When a 65-year-old worker stops work, he should get in touch with the social security office without delay. When a worker dies, someone in the family should make it a point to inquire about possible benefits to survivors. In either case, if action is delayed more than three months after death or retirement, one or more monthly payments might be lost.

James B. Foyce, field representative from the Wichita Falls field office will be in Crowell at the Post Office on Wednesday, Sept. 28, at 10:30 a. m. He will be glad to assist anyone applying for social security benefits, and answer any questions by individuals or groups regarding the social security program.

CLIMAX of the thrill-a-minute show at the 1949 State Fair of Texas, starting Oct. 8 in Dallas, will be this sensational "ramp-jump" by motor maniacs of the Joie Chitwood Auto Daredevil troupe. At each performance Chitwood in one car does a sensational 85-foot leap through the air over a second car which swerves underneath.

Habitual Loss of Sleep Detrimental to Body's Recovery

Austin, Texas—Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, State Health Officer, and habitual loss of sleep will tend to retard the body's recovery from fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged period will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be protected to such a large extent merely by sleeping, and thus allow overtaxed bodies and minds to secure the proper rest, it is hard to understand why so many persons are heedless of this important health measure.

Some individuals require more sleep than others. How well we sleep is as important as how long we sleep. A good night's rest means a sufficient number of hours spent in sleep to enable each person to feel well, do efficient work, and to keep in a cheerful humor the next day.

Crowell Wildcats Win Over Paducah Dragons, 12 to 0, 2nd Non-Conference Game of Season Last Friday Night

The Crowell High School football team won its second non-conference game of the season last Friday night when it defeated the Paducah Dragons to the tune of 12 to 0 at Paducah. The Wildcats won over the Munday Moguls by a 27 to 0 count in their first contest of the season. The feature of last Friday night's game was the accurate kicking of Jimmy (Booger) Rasberry which finally forced the Paducah boys to kick from behind their own goal line in the middle of the last quarter and the Wildcats took over on Paducah's twenty-one yard line. Up to this point, the game had been fairly even. Rasberry got off several long kicks during the game but this last forty-two yard punt that sailed out on the Dragon 3-yard line resulted in Crowell's chance for a score. Rouse Todd whirled around for ten yards from Paducah's twenty-one. F. L. Ballard slid through the line for five yards and on the next play tossed a beautiful pass to Jim Paul Norman for the first score of the game. The extra point kick was blocked to leave the score 6 to 0. A few minutes later, Crowell scored again when Jon Sanders, Crowell's defensive safety, intercepted a Dragon pass on Paducah's forty-yard line and galloped it back for another touchdown. The final score was 12 to 0. The Wildcats were playing without the services of Hack Norman, star left tackle. Jim Paul Norman received a knee injury on the last play of the game that will keep him out of the lineup for several weeks.

USO Chairman Urges Cooperation in Coming Drive

"Foard County now has 48 young men and women serving in the Armed Forces, and through the medium of the USO we have at home an excellent opportunity of seeing to their welfare and maintaining strong ties with them wherever they are," J. R. Beverly, Crowell, County Chairman of the USO's reactivation campaign, reports.

"We will as good Texans look after our own whether they are serving in this country or on foreign soil," Mr. Beverly said, "and the USO provides us with the opportunity we need, for it will continue as it did during the war to provide our young men and young women in the Armed Forces with a home away from home."

The County Chairman asked that this county is being asked to contribute its share toward the \$500,000 campaign in Texas for the reactivation of the USO as requested by the President and the Secretary of Defense. The half-million dollar figure is Texas' quota of the USO's national campaign for \$10,100,000.

Texas now has 98,000 of its citizens in uniform who will be benefited by the on-the-spot services of the USO which will continue to fill its traditional role of supporting centers, lounges and area workers at all the principal army, navy and air force establishments both at home and overseas. It will also continue to finance camp shows in the 120 Veterans Hospitals across the country, including the many in Texas.

Governor Allan Shivers is general chairman of the Texas Campaign, which is being dedicated as a memorial to the late Governor Beauford H. Jester. T. E. Braniff of Dallas is Campaign Chairman.

Iowa Park Hawks

The undefeated Iowa Park Hawks will come to Crowell for a conference game next week. The Hawks defeated Newcastle by two touchdowns in their first game of the season and played a 0 to 0 tie with Henrietta in the mid last week. National Business Week to Be Observed by Crowell Club

President Harry Truman has pledged his support to the organization of National Business and Professional Women in their observance of National Business Women's Week, Oct. 9-15. He praised the national theme, "Boost your town, it boosts you." Mr. Truman stated, "I am happy to give my wholehearted support to the theme chosen this year by the National Business and Professional Women's Clubs for its observance of a special week. Democracy, like charity, begins at home and you are emphasizing this fact in stressing good works on the community level."

Miss Cora Carter, president of the local B. & P. W. Club, states that to make democracy work nationally, it must be made to work in the local communities. To raise the standards of living in America, they also must be raised at the crossroads of America. To make driving safe nationally, it must be made safe right here in Crowell, says Miss Carter.

In that the National Federation is concentrating its efforts toward building better communities, the Crowell B. & P. W. Club is planning to sponsor a safety movement for better driving and parking. Especially on the state highways through Crowell will the effort be made toward better driving and better parking. The women of the club would like for Crowell to be one of the safest places in the nation in which to drive and to park. It can be made so, if the citizens, both young and old, work toward that goal, says Miss Carter.

Further information concerning the plans will be made public at a later date.

Band Concert to Be Given Tonight at High School

J. E. BARBER PASSES AWAY

J. E. Barber of Tulsa, Okla., uncle of Mrs. John Long, passed away at his home on Friday, Sept. 16. Mr. Barber was a brother of the late Mrs. Ed Bomar. He was known to a number of Foard County residents, having visited here occasionally and having spent some time on the Bomar Ranch in former years. Interment was made in Tulsa on Tuesday, Sept. 20.

Beaver skins were used in New Amsterdam and elsewhere, in colonial times, instead of money.

WILDCAT STAFF INTRODUCTIONS

These journalists compose the Wildcat staff. They try to publish a good Wildcat column. And they, too, believe that it is your newspaper and welcome complaints, compliments or suggestions.

Clara Jones edits the editorial page as editor. She's been on the Wildcat staff since her freshman year when she was a reporter. Other activities that year included being program chairman of the Truscott Sub-Deb Club and working with the WHA.

During her sophomore year she was secretary of the FHA, co-editor of the Wildcat, and the Crowell delegate at the state FHA meeting in Galveston. As a junior, Clara served as secretary-treasurer of the Sub-Deb Club and also of the Junior Class, president of the FHA club, a member of the one-act play cast, and co-editor of the Wildcat. During this, her senior year, she is again serving as secretary-treasurer of the Sub-Deb Club and the Senior class.

Clara would really have a good time if someday she could have a lunch of Mexican food (the hotter the better), and attend a John Ford western with John Wayne and Pedro Armendez as the leading characters. After the movie she would rush home to listen to hill billy and western music with the recordings of Tex Ritter and Eddy Arnold being heard most often.

Clara's hobbies are reading and collecting books about Texas and the West. Her favorite authors are Will James and J. Frank Dobie. If rodeos are classified as sports, they are her favorite type of sport. She has a collection of rodeo numbers, courtesy of Jack Brown, on her wall to prove her liking for rodeos.

Either Texas State College for Women or Sul Ross at Alpine will be Clara's place of residence next year at this time. At college she will major in creative writing and plans to enter some field of writing after finishing college.

Rondon Self tries to make everyone happy as society editor. She is a member of the band and has a position on the new year book staff. Rondon has a hard job trying to separate the news from publicity, but she and the Wildcat are learning that criteria for general news should be applied to society news; that which affects or interests most readers.

We sneaked a look into her diary and came up with this information. During her junior year she was head librarian, treasurer of the Sub-Junior Adelpian Club, Worship and Evangelistic chairman in MYF for the Vernon Sub-district and district, and a member of the Pep Squad and FHA. This year Rondon is president of the Sub-Junior Adelpian Club and president of the Friendship Circle of her church and secretary of the Vernon district.

Rondon likes to eat anything (well, almost anything). Her favorite color is red which you can easily guess by looking through her closet at the tailored wardrobe. She made special mention of Betty Grable and Melvyn Douglas several times; therefore we suppose that they are her favorite actress and actor. Her favorite song is "My Happiness." Could that have any connection with Vernon Jones, whose name we saw mentioned so many times?

Rondon plans to attend SMU where she will major in science. She is still undecided about her career; therefore we can't tell you that.

The old graybeard of the Wildcat staff is Joline Lanier, who has been a staff member for five years. Through the eighth, ninth and tenth grades, she was a scandal editor. Last year she was the social editor, and this year she is one of the hardworking typists.

Joline is active in sports, having made the volley ball team the last two years, however she is also an active member of girls' clubs. During her freshman year she served as secretary of the Sub-Junior Adelpian Club and was a class officer in the FHA Club. She was "Veep" of the Sub-Junior Adelpian. She is also treasurer of the Sub-District MYF. Joline likes many things; some of them being volley ball, math, green, CHS and J. P. Bartley. You may be surprised to learn that Joline's ambition is to be a math teacher. She plans to attend Texas University where she will major in education.

Montez Laquey, the dark haired president of the Senior Class of CHS, has been a reporter on the Wildcat staff for two years. During her high school career Montez has participated in many activities. Her freshman year, she was president of the Truscott Sub-Deb Club, an officer in the FHA, and a member of the one-act play cast. During Montez's junior year she was a Wildcat reporter, manager of the one-act play, and was elected as the Blue Bonnet Girl from Crowell who attended a state

meeting in Austin last June. This year Montez is president of her class, Wildcat reporter, and secretary of the FHA Club.

Her hobby is reading, her favorite book being "Inside U. S. A.," and her favorite author, Sinclair Lewis. Her main interest is speech and dramatics. When she attends college at TSCW, SMU or Sul Ross (she hasn't decided yet) she will major in speech and dramatics and plans to make her career in one of those fields. (Other staff members will appear next week.)

IT'S WORTH IT

Spring has sprung, fall has fell and once more a young man's fancy turns lightly to thoughts of football. Ah, yes, and who hasn't felt the stress of a first workout and thrilled to the first kickoff. These are the days when all Doak Walkers and Bobby Laynes start running laps. Some at camps far from home; others less fortunate at home.

But it isn't all peaches and cream. Just to look at all the candies and other confections on display, you'd think all the stores are in a conspiracy against players who are weak in will power. And there's the show you wanted to see so badly, but the ever-present algebra looms in the way; so you have to cram instead.

After all, at the end of the season when you have lettered again, you know you'd do it all again.

TEACHER'S SKETCH (Cont'd.)

One thing we like about this job of reporter is the opportunity to interview such interesting people. Last week it was Sylvester and Coach and this week it is J. W. Sollis. Say, Mrs. Sloan, don't you think that those three ought to be interviewed every week?

Mr. Sollis, who is teaching departmental work in sixth, seventh, and eighth grades, grew up right here in Crowell; therefore many of you probably call him J. W. He has attended Decatur Baptist College and West Texas State College at Canyon. His major in college was in the subject he now teaches in grammar school—math.

Mr. Sollis also told us that his favorite pastime is flying. T-bone steaks and french fried potatoes are his favorite foods, and football tops the list as the best-liked sport.

BAND CONCERT TONIGHT

On Thursday night (tonight) at 7:30, the Band Mothers' Club will sponsor a program at the High School auditorium.

The Wildcat Band will play several numbers after which there will be an intermission. Cold drinks and good ole' home-made candy will be sold. The proceeds will go to the Band Fund.

There will be a movie that was taken the day after the storm in 1942. The scenes are still vivid in the minds of some, but to many it will be an interesting film. Also a film will be shown on the Golden Jubilee held in 1941, photographed in color.

This program is free, and everyone is urged to attend. Let's all come and back the Band Mothers' Club in this worthy project.

STUDENTS ATTEND FIRST SOUTHERN ASSEMBLY

Friday morning, Sept. 16, at nine o'clock, the elementary students through high school crowded into the auditorium to see a very interesting program demonstrating the wonders of liquid air by an able chemist and entertainer, Mr. Walter Everman.

Liquid air is perhaps the coldest substance known. In addition it has greater explosive power than TNT. A small quantity bottled up would blow an entire building to atoms; however this fact was not demonstrated.

Mr. Everman placed some kerosene in a test tube and by dipping it into the liquid, froze it into a candle which he then lighted. Liquid mercury was frozen into a solid hammer with which nails were driven into a board. A rubber ball, dipped into the liquid and then thrown against the wall shattered like glass.

Of special interest was the liquid air engine, propelled as a result of the vapor produced by the evaporation of the liquid at ordinary temperature. The breath-taking moment came when Mr. Everman, after showing all the treacherous characteristics of the liquid, took a glassful into his mouth and blew it out as steam.

Mr. Everman and his production have been filmed for Paramount's Popular Science release.

We enjoyed this program of thrilling surprises, outstanding entertainment, and scientific interest.

A CHANGE IN COLOR

Girls, quit staring! Those five masculine members with the beautiful strawberry blond hair are not new students. As we amble over a little closer, we think we recognize their faces. Hack, Jon, Gordon, Kildee, and Bobby Jack have undergone quite a change. Even though it doesn't quite match the color of their eyebrows, that reddish blond hair is quite becoming. It's a wonderful way of emulating Coach Amonett, but remember, boys, his crowning glory wasn't poured from a peroxide bottle. Anyway, this new allure surely has the girls scrambling to get another look. Redheads, could be this "new look" in flaming hair may prove to be a fad that will take the school.

Do you suppose this could have anything to do with the high grades that James is pulling in algebra? Mrs. Davis says that he is just "a chip off the old block."

COUPLES SWING AND SWAY AT THE COMMUNITY HOUSE SATURDAY NIGHT

"Let's dance, chilluns" might well be the theme of the first dance of the year held on Saturday night, Sept. 17 at the Community House.

The dancing, to recorded music, began at 7:30 and ended at 10:00 p. m.

Mary Alice Rader and Jimmy Tom Cates acted as host and hostess. Mrs. J. C. Autry, Mrs. Joe Rader and Mrs. John Rader were sponsors for this occasion.

SHOW PASSES FOR SENIORS

The Rialto Theater through the courtesy of Mr. Hardin, manager, is again extending its annual invitation to two members of the Senior class a week to attend at least one movie. These seniors will be chosen alphabetically, a boy and a girl at the same time. Their pass will consist of a clipping of their invitation from the Wildcat.

This week the Rialto theater invites Kenneth Adams and Myrtle Bartley to see the movie, "The Great Signer," on either Thursday, Sept. 22, or Friday, Sept. 23.

SENIORS WEAR GOLDEN BANDS

The seniors are going around flashing dazzling bands of gold in the eyes of less fortunate underclassmen. No, these aren't wedding bands, they are the senior class rings. The seniors, who had resigned themselves to several weeks of waiting, were surprised to get them so early.

The rings are gold with small numbers in black enamel on each side of the center motif which reads 1950. In the center of the ring is a raised black enamel shield with a golden CHS on it. The shield is on a strip of white gold with engraved pink gold on either side.

THE Sad STORY OF TEN LITTLE FREE WORKERS
(It is later than you think... it can happen here.)

THESE ARE THE WORKERS
 REDDY DOCTOR RAILROADER MINER STEELWORKER FARMER LAWYER GROCER SALESLERK REPORTER

Ten little free workers in this country fine and fair.
 But if you cherish your freedom—worker have a care!
 Ten little free workers—Reddy was doing fine
 Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's fate
 Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven
 But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.
 Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive
 The steel mills too were federalized—then there were five.

Five little free workers—but the farmers are free no more
 The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree
 All must have free legal advice—then there were three.

Three little free workers—the number is getting few,
 But with government groceries selling food—then there were two.

Two little free workers—our story's almost done,
 With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun
 Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free
 They work when and where ordered, and at a fixed rate you see,
 And it all could have been prevented if they'd only seen fit to agree
 And work together instead of saying "it never can happen to me!"

Does the fear of punitive action of government bureaucracies prevent your action in defense of the freedoms for which our forefathers toiled and fought... or is such action just too much personal trouble?

WE HAD BETTER WAKE UP... IT'S LATER THAN YOU THINK!

HOMEMAKING II ELECTS OFFICERS

The Homemaking II girls met Wednesday, Sept. 14, in the Homemaking Department to elect class officers for the year. Those chosen to serve as officers are Barbara White, president; Patsy Carroll, vice president; Maurine Youree, secretary; Jamile Caram, treasurer; Lucille Carroll, parliamentarian and Norma Jean Mathews, reporter. These class officers will take charge of any homemaking or FHA business that may arise between regular FHA meetings and must be taken care of immediately.

WILDCAT PURRS

It's a recognized fact that a student goes to school to learn new things, so we thought we'd pass along a few things you'd like to know. Certainly not new is the fact that 61 freshmen have made their appearance at CHS and several girls have had little trouble finding escorts through the halls. Marcia Kincaid is being shown scenic CHS by Ginger Johnson, while Rosemary Moss finds her time taken up by Dee Powers. Billy Abston and Glyndon Johnson are sharing Jane Cooper and Jim Paul, Norman has Jean Hughston corralled.

Margaret Thompson and Hack Norman are quite satisfied as their "anniversary," one year of steady going—rolls around.

Maurine Youree is the light of F. L. Ballard's eyes.

Ex-senior Floyd Borchardt is still seen in the halls occasionally seeking his OAO, Rozella Autry. (Must be love!)

Ex-senior Baxter Gentry and Floyd Borchardt's jobs of running the candy store have been taken over by Bobby Hord and Joe Ray Setliff.

Joe Williams' feminine interest seems to be in Quannah. Come on Joe, give the CHS girls a chance.

Anyone passing Room 105 at the 7th period will notice all the male members admiring the new teacher, Miss Turney.

Attention! Available females: Bobbie Abston, Mary Alice Rader, Frankie Mabe, Betty Brock and Joline Lanier. Also Myrtle Bartley. Most of these lost their steadies in the June shake-up. The girls are now beginning to scout.

And incidentally has anyone wondered who the light of Jenny Wehba's eyes is?

Seen walking down the halls as pretty as ever is Joline Lanier. Question of the week? Did J. P. Bartley graduate or not? He has been seen in the halls like a registered student.

Did you ever notice when referring to the time, gridders, Buster Laquey, Charles Pittillo, Buddy Rader and James Weathers always say "to to 6," never 4.

Riding the magic carpet this summer: Mrs. Carrie Hart, first grade teacher, went to New York City to visit her son, Rondyn Self journeyed to the Grand Canyon and Salt Lake City. Jane Bruce probably registered more miles than any other student since she went to Boston, Mass., and took a wonderful trip altogether. Joe Ray Setliff and Peggy Weaver accompanied their parents on trips to California. Billy Johnson journeyed to Red River, N. M., and to Colorado Springs, Colo.

We wonder what all this is about James Weathers being little and cute. Tell us about it, Football Hero!

We hear that a certain freshman girl would like to get better acquainted with Buster Laquey, also a few senior girls. (pd. adv.) Dorothy Wilson and her OAO were seen at the ball game Friday night.

Mary Lou Woods and Martin Langham were together at the China Creek Picnic Saturday night. Power to you, Kids!

LaVerne Owens and Billy Joe Halenack were seen together Saturday night. Not that it is unusual.

We wonder how Betty Lou, Joline, LaVerne and Myrtle enjoyed the slumber party at Betty Lou's Friday night?

SIDE SPLITTERS

Don: My girl surely is beautiful! Her skin is like a peach, her cheeks like apples, and her lips like cherries.

Blackie: That's no girl. Sounds like a fruit salad.

Rondyn: Do you believe in long engagements?

Mr. Self: Yes, I think young people should be happy as long as possible.

During a high West Texas wind-storm, Hack was seen driving a combine right down the middle of the road and he was really in high gear. Somebody shouted and asked him what in the world he was doing. Hack yelled back: "I've worked on this wheat crop for al-

most a year now, and I'm gonna harvest it if I have to chase it all the way to the Gulf of Mexico."

While examining Billy Earl, who was entering the Army, the doctor noticed a scar on Billy Earl's scalp and inquired as to why it was there.

"I got it from being drugged," he replied. The doctor failed to understand and asked him to explain.

"Well," Billy said, "I was working on the Y Ranch when my horse bolted, my foot got caught in the stirrup and I was drugged."

RESTFUL COLORS

If three walls of a bedroom are papered or painted a restful color and the fourth is brightly contrasting, the bed should be placed against the contrasting wall. Looking at the restful color is more relaxing and conducive to sleep—but even restful colors won't help if the bed is worn out and uncomfortable.

There is a choice in books as in friends, and the mind sinks or rises to the level of its habitual society.—Lowell.

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

Over twenty years ago, the Congress of the United States passed the Railway Labor Act. It was hailed by union leaders as a model for the settlement of labor disputes.

THE LEADERS of the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen, Order of Railway Conductors, and the Brotherhood of Railroad Trainmen on the Missouri Pacific Railroad have refused to avail themselves of the peaceful means provided by this Act for settling their disputes. They insist that they be the sole umpire of their own disputes over the meaning of contracts.

There is no Need for Strikes

With all of the available methods for the interpretation of contracts, there is no need for a strike or even a threat of a strike, but the leaders of these railroad unions have ignored the ordinary procedures established by law and insist upon imposing their own interpretations of their contracts by means of a strike.

The wheels have stopped rolling on the Missouri Pacific. They may stop rolling on other railroads at any time. Recently the Wabash Railroad was forced to discontinue operation for several days under similar circumstances.

What are These Strikes About?

These strikes and strike threats are not about wage rates or hours. They result from disputes over the meaning of existing contracts. They cover claims for a full day's pay for less than a day's work, or for payments for services performed by others who were fully paid for the work done.

President Truman's Board Condemns Strike

There is an established legal method for handling disputes involving existing written contracts—just as there is such a method of settling any contract dispute which you may have in your daily life.

The President of the United States appointed a Fact Finding Board to investigate and adjust the Missouri Pacific dispute. This Board reported, in part, as follows:

"... it is with a deep sense of regret that we are obliged to report the failure of our mission. It seems inconceivable to us that a coercive strike should occur on one of the nation's major transportation systems, with all of the losses and hardships that would follow, in view of the fact that the Railway Labor Act provides an orderly, efficient and complete remedy for the fair and just settlement of the matters in dispute. Grievances of the character here under discussion are so numerous and of such frequent occurrence on all railroads that the general adoption of the policy pursued by the organizations in this case would soon result in the complete nullification of the Railway Labor Act..."

Obviously the railroads cannot be run

efficiently or economically if the leaders of the unions ignore agreements or laws.

Provisions of the Law which are Disregarded

There are five ways under the Railway Labor Act to settle disputes over the meaning of contracts:

- 1—Decision by National Railroad Adjustment Board.
- 2—Decision by System Adjustment Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been and is entirely willing to have these disputes settled in accordance with the requirements of the Railway Labor Act. Regardless of this fact, the union leaders have shut down that railroad.

Innocent Bystanders Suffer Losses and Hardships

There are about 5,000 engineers, firemen, conductors and trainmen on the Missouri Pacific. They are known as "operating" employes, and are the most highly paid of all employes on the nation's railroads, but their strike action has resulted in the loss of work to 22,500 other employes of the Missouri Pacific. In addition, they have imposed great inconvenience and hardship upon the public and the communities served by that railroad.

The Railway Labor Act was designed to protect the public against just such interruptions of commerce.

If these men will not comply with the provisions of the law for the settlement of such disputes, then all thinking Americans must face the question, "What is the next step?"

Adapted from Roy Rockwood's popular juvenile book, "Bomba, the Jungle Boy," the story is concerned with a famed photographer's experience when he goes with his teen-age daughter to Africa to get jungle pictures.

If You Are an Average American

- Your automobile is your second largest investment—and when you protect it, you also protect your largest investment, your home. For if your automobile is uninsured or underinsured, it may become necessary for you to place a mortgage on your home in order to pay a liability judgment. Don't gamble on these unpleasant probabilities when adequate protection costs so little.

New Law - \$100.00 to \$500.00 Fine The following law was enacted by the 51st Legislature of the State of Texas and became effective May 27th, 1949: "It shall be unlawful for the owner or operator of any well or cistern to fail to keep same covered at all times in its entirety with a covering capable of sustaining weight of not less than 200 pounds, except when said well is in actual use by the owner or operator thereof. "It shall be unlawful for any person to abandon a well or cistern without first completely filling said well or cistern or plugging the same with a permanent type of plug. . . . PENALTY: "Any person violating the provisions of this Act shall upon conviction be fined not less than ONE HUNDRED DOLLARS nor more than FIVE HUNDRED DOLLARS." This law will be enforced, however, all persons now in violation are urged to comply with same at once. You are further requested to report any violations of such law to the undersigned or the officials of the City of Crowell. In the event you do not have adequate facilities to fill your well or cistern, the City of Crowell will permit their maintainer to be used for such purpose at a very nominal cost. The fact that open wells and cisterns are dangerous to the health and lives of our citizens makes it imperative that this law be rigidly enforced. Foster Davis County Attorney

SALT IMPORTANT

Feed cattle salt daily. Sodium and chloride, the elements of salt, are constantly excreted in the milk and have to be replenished in the body of the cow. There is nearly a gram of salt in a pint of milk. Cows also need salt for maintenance of the body in addition to requirements needed for milk.

How much is your life worth? A recent advertisement brought out a wide range of values. The advertisement run by "dare devil" show promoters, asked for volunteers to drive a car into head-on crash with another at 45 miles an hour. Name your own price, the advertisement said. There were 50 takers. An Illinois farm boy thought it would be worth \$20,000, but a lad who "has been driving a jalopy in Kentucky" thought \$25 bucks would cover everything.
