George Moffett Emphasizes the Need for Intensive Research for Expanded Outlets for Cotton

Recently announced heavy cotton acreage for 1950 has led to the need for intensive research for new and expanded outlets for cotton, and its by-products, writes Sen. George Moffett, chairman of the committee on agricultural affairs in the Texas Senate and a persistent advocate of scientific research to find new uses for cotton. He furthers the research program which is being carried on at a cost of two billion dollars plus years of work by hundreds of people supervised by scientists. But it shortened the war, and it may have prevented World War III. The auto companies spend billions of dollars to make their product available. They consider it

money well spent. Manufacturers of rayon, nylon, etc., also spend millions upon scientific research annually, and undoubtedly have broadened the market for what they sell by so doing. They have encroached on the market once considered entirely reserved for cotton.

"Only pocket change has been spent thus far upon cotton research. Texas is the only cotton state that has even begun a research program. The federal government has recently set in motion several worthwhile research projects, some of them in cooperation with Texas. As a result of these efforts experts have discovered a way to waterproof cotton fabric so that it will be much more desirable for awnings, tents, tarpaulins, or any usage where shade cloth must stand weathering. Tobacco growers use much such cloth and their consumption of it will gradually pick up. A series of chemical treatments have also been discovered that will make cotton fabric highly resistant to rot and mildew. This will increase the use of cotton in wet and foggy climates, and particularly for storing various commodities in cloth bags. During the war, the bag manufacturers switched to paper for much of their output. It is hoped that this trend can be reversed. A recently discovered chemical treatment that will make cotton cloth bags bug and moth proof will be helpful. It is reliably stated that cotton research activities up to this time have either saved, or created, a market for a million bales of cotton each year. We need a market outlet for four million bales more than we now have.

"It is now clear that both the state and federal governments should expand cotton research efforts. Cotton is the most important farm crop in ten states. If cotton acres become idle acres, as they may do, incomes will decrease throughout the cotton belt. Jobs will become scarcer, land values will slide, taxes will be harder to pay, and a creeping depression may visit us again. The best way to head off these conditions is to develop a bigger market for our principal Southern farm crop."

Santa Arrives in Mule Train Here Last Friday Night

Wet streets and a fine mist that beset Crowell Friday night failed to hamper the arrival of Santa Claus although plans for his arrival were necessarily altered late that day.

Original plans called for the arrival of the old fellow by airplane, but visibility zero and other poor flying conditions caused the cancellation of that part of the program. Santa did arrive in town by mule train.

After the parade around the court house square led by the Crowell High School Band, Santa alighted from his conveyance and went to the steps of the court house where he visited with children and passed out candy. A concert of Christmas music was presented by the band during the evening's festivities.

More than one thousand people braved the cold, wet weather to witness the formal opening of the Christmas season here. Store windows in their Christmas decorations added a highlight of season cheer to the town.

The business lighting display contest was won by Mrs. L. M. Brown of the Crowell Flower Shop. Mrs. Brown was awarded a lamp by the West Texas Utilities Co.

The story of Crowell's Christmas opening celebration and the arrival of Santa by mule train received wide-spread publicity all over the nation since the story was carried by the Associated Press and a number of radio stations throughout the country.

Welch & White, et al. have bought the interests of the Shell Oil Co. in the oil and gas field north of Thalia. It is thought that a test for oil will be made within a short time.

Ex-Internees of War Should Apply for Benefits

Former prisoners of war from Texas who are entitled to claims for compensation under the War Claims Act of 1948 should obtain forms soon on which to make applications for the benefits.

The War Claims Act was passed by the recent session of the 81st Congress. It provides that in cases where enemy countries holding American prisoners of war violated their obligation to provide the quantity and quality of food to which prisoners were entitled under terms of the Geneva Convention, those former prisoners will be allowed compensation at the rate of \$1 per day for every day in the hands of the enemy.

A committee appointed by Gov. Allan Shivers will act as a state agency to distribute the application forms, according to a letter received by W. C. Albright, Texas Employment Commission manager at Vernon, from the State Adjutant General's office. The application forms will be sent only to former prisoners who write to the committee requesting them.

Only former prisoners themselves, their dependents, civilian internees and their dependents and religious organizations are eligible for compensation under the act. Each should write to Maj. Gen. K. L. Berry, Adjutant General, Capitol Building, Austin, requesting an application form. The deadline for receipt of the completed papers, which must be returned to the Adjutant General's office, is Jan. 1, 1950.

After receiving the completed applications, the committee headed by General Berry will send the forms to the War Claims Commission. It has been estimated that more than 1,000 Texans are eligible for the compensation as former prisoners of war.

The Wildcats dropped their game of the tournament to the score of 32 to 25. They came back to defeat Lockney 34 to 27, Lockney 34 to 26, Matador 36 to 23. They received a nice trophy after winning from Matador Saturday night.

In the consolation game, Floyda defeated the all-tournament champion by the score of 34 to 25. Sanders' floor play and Ballard's goal shooting kept the game in the Tulsa game until whistle! Ballard and Sanders looked the best for Crowell. The Lakeview contest, Rouse and Clinton Marlow contended took the ball off the boards in the Lakeview game. Marlow led in scoring with 15 points. Jim Paul Norman did the good work on pivot play in the Matador game and Ballard high in scoring with eight points. Ted Townsend scored eleven points for Matador in this game. Other boys that saw service in the Matador tournament were Billy Earl Lynch, Jim Cates, Arthur Lee Marlow, Don Wood Bell, James McBeath, Bobby Brock and Bobby Stinebaugh. F. L. CHRISTMAS GREETINGS

to all people, of all ages, everywhere. May your hearts be a little more tender and generous, your minds a little more sensitive to the meaning of the teachings of Jesus whose birthday we observe.

Note: This is the greeting from West Texas Wings; we repeat it, for it expresses our sentiment exactly.

Signed: The Wildcat Staff.

KRIS KRINGLE JINGLES INTO CROWELL

There really is a Santa Claus! At least there was for the large crowd (considering the weather) that jammed the downtown square Friday night to witness his arrival.

That fabulous fellow with the tremendous tummy rode the crest of a cold north wind into Crowell to open officially the 1949 Christmas shopping season.

Saint Nicholas arrived from the North Pole in his own private mule

train. Bits of ice and snow still cling to the spokes of the wheels from snow storms encountered over Northern Canada. "Weather," said St. Nick, "was generally good except for cold high winds over the North Plains area."

Answering the queries of a few disappointed youngsters, Santa said Donner and Blitzen had been left in Toyland to rest for the cross country journey Dec. 25.

Santa received a real Texas welcome when his mule train arrived north of town. The High School Band acted as his official escort.

After Santa arrived at the square, bands of kiddies squeezed through the crowd toward the platform.

Multi-colored lights strung across the street from the court house were turned on for the first time. Around the square store windows were gaily decorated to honor Santa.

From all over the square it seemed that it was already Christmas. But St. Nicholas was just getting his route laid out for later this month.

Squeals of delight from kids 5-50 announced his arrival. Teenies swarmed him asking for everything under the sun and receiving their bag of sweets from the generous old fellow. A few high school boys sneaked up to ask for a stocking full of toys.

From atop the shoulders of disheartened and stepped-on parents some children stared enraptured with wonder-filled eyes at the red suited gentleman while others shouted Christmas wishes to Santa.

The kiddies were having a tramping good time in spite of the dampness underfoot.

Some elders cast doubtful glances at Santa's white whiskers, but soon seemed convinced that it was really Santa. Not one of the children said they had not been good this year.

After this, the people began to mill into the stores to see the beautiful presents. We saw enough to fill our heart's desires. There is the most pleasing array of gifts in the stores that have been seen

since before World War II.

REGULAR ATTENDANCE IMPORTANT UNDER GILMER-AIKIN LAW

Under the Gilmer-Aikin plan, our school loses 90c per day for each student that is absent. The absences in the Crowell Elementary School alone for the last six weeks cost the Crowell School \$1,302.30.

In the past years the Crowell School has improved and added until it may be classed with the best schools in the State of Texas, but the maintenance and further improvements are the interest of the community.

Our students and the residents of Crowell are the deciding factors in the kind of school Crowell will have. Bad grades in school are often caused by irregular attendance. If enough students persist in missing school, this may cost us the loss of a teacher. Since so much depends on regular attendance, each of us should do our part in making our attendance 100 per cent.

T. C. U. SPEECH STUDENT IS C. H. S. ALUMNI

Another alumni of CHS has proved the value of training received at CHS. Roy Joe Cates, son of Mrs. Frank Cates, who was at one time editor of the Wildcat and a participant in CHS speech activities, has done exceedingly well at Texas Christian University in Fort Worth.

At a recent Fine Arts Festival at TCU, a three-act drama, "Burning Embers," was presented. Roy Joe had a part in all phases of producing the play, having been assistant to the director, publicity manager, and playing in a leading role as Mark Aldershot.

Any one of these positions requires a great deal of time and preparation, as any member of a speech class can tell you, therefore CHS is very proud to claim Roy Joe Cates as one of its former students.

OVER \$90 PROFIT MADE ON 'MOUNTAIN JUSTICE'

"Mountain Justice," the three-act comedy which was presented in the high school auditorium last Thursday night, was a success in every way. It gave the students experience in the acting and producing of a play, it made the audience laugh, and laugh, and laugh, and most important, it made money. The total profit was approximately \$100. This money will be used to buy stage equipment. Exactly what equipment has not yet been decided, but probably there will be some lighting equipment bought.

NEW ADDITION TO CHS

The cute little number named Burroughs who entered the book-keeping class Monday is well liked by all who have seen it.

Is Burroughs a boy or a girl? Neither one. It is a gray adding machine which will be used at

various times in the bookkeeping class and also in the office.

Any bookkeeping student who wishes to use this cute little number may do so during one of his study halls. Burroughs will also keep Mary Johnson company. I don't think Mary will mind.

SENIORS OF THE WEEK

We were still laughing about "Mountain Justice" when we received the assignment to write Seniors of the Week. Therefore we were very pleased to find that we were to interview one of the cast of "Mountain Justice."

She is Letha Marlow, a senior who rides the bus in from Thalia. She isn't a ballet dancer, a schizophrenic or a brunette.

She can dance, act and play the guitar.

She can't ski, run a railroad engine, or eat.

She likes John Wayne, chocolate pie, hillbilly music, and speech.

She dislikes people who try to be what they aren't.

She wants to direct and own a string band.

She doesn't want to be a school teacher.

Ideal "Feller"—About 5' 5", handsome, brown eyes, blonde hair, from Vernon, with initials of C. L. Say when does the next bus for Vernon leave?

Next, we were supposed to interview a boy, and who could be a better subject than a member of the 1949 football team?

He is James Rice, tall, dark, etc. Senior boy.

He isn't the world's champion wrestler, a member of the D. A. R. or a mule skinner.

He can hunt, fish, play football and run a tractor.

He can't dance, keep from blushing, sometimes, or get by with chewing gum in class.

He likes Shirley Temple, pretty girls, and people in general (Violet Rummel in particular.)

He dislikes English, silly girls, and geometry.

He wants to go to Texas A & M and become a VA instructor.

He doesn't want to be a farmer, a bachelor or have to ever work very hard.

His Ideal "Gal" is 5 feet, 5 inches tall, has dark brown hair, brown eyes, and answers to the name of Violet.

BANQUET AT BURKBURNETT TO HONOR ALL-DISTRICT SQUAD

Three Crowell Wildcats received positions on the All-District football squad for the 1949 season. Crowell tied with Archer City as having the most members elected to the All-District team.

The team was elected through votes cast by the first and second teams of each school, their coaches and the principals. The All-District team will be honored at a banquet at the Burk Burnett Community House at 7:30 on Wednesday, Dec. 14.

The boys attending the banquet will be Bill Reasoner, Burk Burnett; Clifford Edwards, Holliday; Bobby Parker, Holliday; Hack Norman, Crowell; Jimmy Rasberry, Crowell; Kenneth Auld, Chilli-cothe; Eugene Parrish, Iowa Park; Tex Maney, Archer City; Dold Taylor, Archer City; Danny Powell, Archer City; Bobby Patrick, Archer City; Charles Boyd, Burk Burnett; Cletus Alexander, Olney; Billy Lynch, Crowell.

CROWELL COPS THIRD PLACE AT MATADOR

The Crowell Wildcats stuck an early feather in their 1949 cage season by stomping Matador, Saturday night, for the consolation trophy.

Thursday night, the Wildcats met too much of Tulia, losing by seven points, but until the finals Saturday night, they were the only team to play the Tulia boys any kind of a game at all.

Friday evening at 6 o'clock, the Wildcats took on the Lake View basketweavers who had lost also the previous night to Spur. The Lake View team went down in defeat behind a second half attack by the Wildcats by some 12 points.

Again on Saturday the Wildcats went back to take their last step to the consolation finals by taking the Lockney Longhorns by 14 points.

Saturday night the Wildcats wore down the Matador Matadors winning by 18 points.

The team looked exceptionally good during the tournament, showing good hustle and by this showing that they were in good shape.

(By the way, Floydada beat Tulia to win the finals, but I don't think you Crowell rooters want to hear about that; besides I am tired of writing.)

SANTA CLUES

Dear Santa:
 Will you please send me two sophomore English classes that love literature and writing themes?
 Best wishes,
 Mrs. Lola Black.

Dearest Santa Claus:
 Would you please bring us a shiny red Cadillac convertible, equipped with all accessories, including four beautiful females about 16 years of age.
 We should like a big pool table and a place to keep it.

THE WILDCAT

were Haek and Margaret. Dowall Parks and Kay Cribbs were going somewhere Sunday. Wonder where? Why was everybody wanting to go to Vernon Saturday night? Wayne Borchardt seems to be Betty Guthrie's steady admirer. Bessie Franklin has eyes for a certain sophomore.

Congratulations to the basketball boys for winning the consolation trophy in the basketball tournament at Matador. We wonder if Jon, Kildee, Buster and Bubba are women haters for life. After having a delightful time in Vernon Saturday night with Tommie, Violet and James, Booger ended up having his car pulled from a muddy ditch. Jimmy Jones, Mary Rader, Walter Caddell and Frankie Mabe were making the familiar rounds Sunday night.

Floyd Oliver and Peggy Eavenson have become a steady twosome. Faye Black's time is now occupied by A. L. McGinnis. We wonder if the girl from Spur got James McBeath's right address? Josephine, why don't you give Jake Burkett a chance? Melba and Layton attended the wedding of Charles Wheeler Sunday afternoon. Why do Barbara, Virginia, Norma and Lucille seem to like a green Packard? We wonder who Gilbert Collier is? I think Anna Jo could tell us. Maurine and E. L. Rouse and Myra Don came to see Santa Claus together Friday night. Seen Sunday night were James Lee and Jenny, Phillip Troublefield and Joline, Jimmy Shackelford and Betty Fern, Jimmy Tidmore and Betty Brock. Quanah is taking over. We would like to know who is the heart-throb of Joyce Hinkle, Betty Harper and Letna Marlow? Joyzell and Joe Ray are still seen making eyes at each other. Virginia McKown and Curtis Butler were together Sunday night. Note to the Seniors: Be sure and bring your \$6.00 dues for this semester by Friday or you can not go on the Senior trip. A cute couple that have called it quits is Lois Gentry and Kenneth Shook. Lucille Carroll is being true to her OAO, Crimm Martin. What has happened to the Ayers-Cooper case? Betty Brock and Billy Johnson were seen Wednesday, Thursday and Saturday nights. This is what I call a well-formed habit. The question was asked by a certain blond-haired girl, "Does Victor Christian always ignore girls?" Wanted a girl. Signed, Kenneth Adams, Buddy Rader, Raymond Carter and Blackie White. What is this we hear about the love bug biting Thurston Edgin and John Thomas Diggs? Why doesn't Bobby Brock pay any attention to girls? He is wanted by two or three girls. Marion, you should keep your mind off of Moo-Jean while you drive Joe Howard's pickup. You might find yourself wrapped around a telephone post instead of just stuck in the ditch. Incidentally didn't Moo-Jean leave something in the car pocket? Is anyone else having trouble finding out what boy to ask to the Adelpian Club New Year's dance? We're not speaking of the girl guest either. How is Virginia Ralshack and her boy friend getting along? What all CHS students long to see: Coach Amonett with a wife.

SIDE SPLITTERS

Mr. Black, standing wearily by the door of the station, grabbed his bag and rushed out to the station platform. The effect on the other travelers was all that could be expected. They also picked up their luggage and hurried out the door. Shortly afterwards, Mr. Black returned, picked out the best seat in the station, and sat down to wait for the train, which was not due for thirty minutes. Mrs. Kenner (trying on hats): I'll take this one—and if my husband doesn't like it, will you promise to refuse to take it back? Don Brown was watching the local high school band at one of its recent performances. He seemed to be completely fascinated as he watched Mary Ermine very intently play the slide trombone. After quite a while he said: There's a trick to it; she ain't really swallowing it!" Jimmy Stinebaugh was asked what good deed he had done that day by the Scoutmaster, to which he replied that he had stopped a man from beating a donkey. What good trait does that show, asked the Scoutmaster. Brotherly love, chorused the rest of the Troop. Mr. Pittillo: The point to remember son, is that if you want to be outstanding in any field, you have to start at the bottom. Charles: I don't know about that, Pop, what about swimming?

FRUITS OF LABOR MONOPOLY

If anyone still doubts that the labor monopoly which has a strangle hold on the basic industries of this country must be broken, they should consider the example of John L. Lewis, who heads and completely controls the soft coal miners. Mr. Lewis has said, in effect, that coal cannot be mined in this country without his consent, and that it can only be mined on terms laid down by him. He demands powers that are clearly the duty and responsibility of management. He has refused to enter into honest collective bargaining as it is generally understood. He has indicated a contempt for the government, as when, early in November, he refused to send union representatives to a conference called by the chief of the U. S. Mediation Service on the grounds that they were too busy. He is apparently

determined to keep the vital coal industry in a state of turmoil and indecision, as when, on sending the miners back to work a short time ago, he intimated that he might order another coal strike on December 1. We see in all this the fruits of our failure to make organized labor subject to the antitrust laws that apply to the rest of us. Suppose, for instance, that the owners and operators of all the coal mines combined and announced that they would stop producing coal, because they weren't satisfied with the selling price or had some other grievance. The government would crack down with all its force, and severe civil and criminal penalties would follow. Yet the unions can shut down great industries at their whim, regardless of the effect on the economy and security of the country. Labor monopolies must go the way of financial and industrial monopolies. — Industrial News Review.

Again in 1949 MORE PEOPLE HAVE BOUGHT CHEVROLETS than any other make

—just as they have done during the total 19-year period, 1931 to date!

THE men and women of America know value when they see it! Consequently, they are purchasing more Chevrolet passenger cars than any other make... and more Chevrolet trucks than the next two makes combined... thereby placing Chevrolet first in sales this year, just as they have done for the total 19-year period, 1931 to date.

Naturally, we and all Chevrolet dealers are deeply appreciative of this overwhelming tribute of preference; and we join with Chevrolet in pledging to do everything possible to give you greater and greater value in the months and years to come.

But by the grace of God I am what I am; and his grace which was bestowed upon me was not in vain; but I laboured more abundantly than they all; yet not I, but the grace of God which was with me. — First Corinthians 15: 10.

It begins to look as though John Lewis has overstepped himself and that he will accept any reasonable settlement before he will again call his miners off the job. There are two reasons for the change. First the \$1,400,000 fine the government required of the union for refusing to go back to work when ordered to do so by the government, and second there was dissatisfaction among the miners, who rebelled, when the pay checks stopped coming in. Miners are among the best paid workers in this country. In the absence of any real need for the strike, it did not secure the complete support that it might have had had conditions of pay and hours and benefits been different. Another obstacle to the strike was the united resistance of mine operators.

Big business has ways of helping itself. For example, the Lustron Company, a fabricating house building industry, recently secured a loan of \$37,500,000 from the government to finance its operations, and Henry Kaiser received a loan of \$34,000,000 for his auto plant. Both concerns are now asking for \$25,000,000 more each.

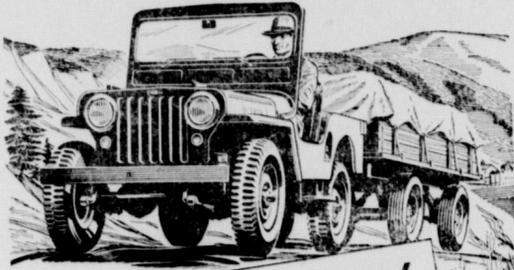

There is no reasonable basis for these bedevils. Coal miners are better off in wages and earnings—when the unions permit them to work—better off in welfare payments contributed by the employers than any other individual workers in the United States—Chas. Owen, President of the National Coal Association.

We live in an age of growing self-indulgence, of hardening materialism and of falling moral standards. — Britain's Princess Elizabeth.

Tuberculosis Not Inherited and Is Curable - Dr. Cox

Do you know that tuberculosis is preventable? Curable? Not inherited? Tuberculosis is contracted from another active case. It is a "catching disease." It is caused by a germ which usually attacks the lungs, but may attack other parts of the body, says Dr. Geo. W. Cox, State Health Officer.

Tuberculosis is spread from an infected person to others in several ways, some of which are through nose and throat discharges by coughing and spitting; through using dishes, linens and other articles soiled by an infected person. Tuberculosis infection usually is the result of continued close contact with an active case; therefore, it is a "family disease."

How do we know who has tuberculosis? Early TB is without symptoms. It is no respecter of persons. It occurs in all walks of life and at any age, but is least likely to be present in serious form between the ages of 4 and 14 years.

If coughing and loss of weight are present, the disease is well advanced, and a person has lost his best chances for complete recovery.

How can we protect our families? Go to your physician for an examination, including a chest x-ray. When the mobile x-ray unit comes to your town, have a free chest x-ray. X-ray surveys have been conducted in 132 counties and 18 institutions during the past year and over 514,400 persons have been x-rayed. Protect your home from tuberculosis.

Cowboys' Christmas Ball to Be Held in Anson Dec. 21-24

The annual Cowboys' Christmas Ball is to be staged at Pioneer Hall in Anson on Dec. 21-24, inclusive.

The Cowboys' Christmas Ball is commemorative of social life in a West Texas village and surrounding country in 1885. In the re-enactment of the historical and literary folk dance, all participants on Wednesday night, Dec. 21, and Friday night, Dec. 23, are to be dressed in the fashion of the 1880's and 1890's.

Full long skirts, polonaise, baskets, ruffles, laces, hoops, overskirts, etc.—not so-called "western" attire—characterized women's dress at the historical and literary folk dancing in Anson in 1885.

It is established that men and boys "ape" the Texas cowboy—even the earlier rodeo style of cowboy. Checked blouses, red bandannas, boots (not necessary) give colorful costume. However, at the original folk dance, men wore high white collars and civilian suits, which would be in order at the Cowboys' Christmas Ball.

The folk dances used at the original ball were the square, the schottische, heel-and-toe polka, old waltz, and the Virginia reel. Several other folk dances, adopted by the Texas cowboys, have been incorporated.

Sets as of the traditional Ball, will have their own callers with them on the floor.

New Texas Almanac Tells of Growth of Texas in Last 10 Years

Texas' growth and change in the last ten years dwarf all previous periods in the state's history. The Texas Almanac, just published by The Dallas Morning News, reports.

The new Almanac — 672 pages — is the largest ever published. It contains more than 650,000 words and word-equivalents in statistics, scores of maps and illustrations.

Texas' population is predominantly urban, for the first time in history. The net value of manufactured products has more than quadrupled since the prewar period. The number of industrial wage earners has doubled, the Almanac reports.

With farm population down, agricultural production is up. Mechanization may be the answer, for the number of tractors in the state jumped from 98,923 in 1940 to 236,390 this year.

The Bureau of the Census hurried compilation of its new post-war count of manufacturers to make it available for this Texas Almanac, editors report. All fig-

ures, including data on individual industries, counties and cities are included in the book. There is a 15,000 word history of the Texas cattle industry. All developments in mineral exploration and development are shown.

The Almanac describes Texas' new arrangement under the Gilmer-Aikin law, is able to list Army, Navy, Air Force and National Guard installations for the first time since wartime censorship was lifted.

It covers state officials, commissions and boards... the 300 odd laws passed by the 51st Legislature... the State Constitution with all recent amendments... 1949 population figures... a survey of all water supply projects, under construction and tentative, and hundreds of other subjects.

MOST DANGEROUS TREE

What is the most dangerous tree in the world? According to the National Board of Fire Underwriters, it's that symbol of Yuletide cheer and good will — the Christmas tree. And the long and tragic record of deaths, injuries and maimings—many to children—caused by holiday fires fully bears out that statement.

This certainly doesn't mean that you should not have a Christmas tree. You should. But it does mean that certain elementary precautions should be followed to the letter, and kept constantly in mind.

It is recommended, for instance, that you buy a small tree—it is less hazardous. It should be placed well away from radiators, heaters and the fireplace. Candles should never be used on the tree under any circumstances. Use only electric light sets which carry the seal of approval of the Underwriters' Laboratories—it guarantees that the sets meet the proper safety standards.

Don't use paper, cotton or other flammable materials for decoration. If extension cords are necessary, be sure they're in good condition—frayed wiring is a potent cause of electrical fires. Never leave the lights burning when the house is unoccupied. Dispose of gift wrappings promptly—they're a real menace inside the house. Be especially careful with matches and smoking materials. And, finally, get rid of your tree as soon as the needles begin to fall. That means it's dry and ready to burst into flame.

Christmas isn't far off. It's time now to make plans for a holiday season which will be safe as well as joyous. And once they're made, stick with them. — Industrial News Review.

BACK TO EARTH

The people of California set a salutary example for the nation when, at the special election of November 8, they repealed a constitutional amendment concerning assistance to the aged and the blind which threatened the state with financial disaster. The amendment was passed at the general election of a year ago when attention was focused on the Presidential race and other ballot measures got relatively scant attention.

The amount paid to each aged and blind beneficiary will continue at the same level. What the repeal measure does do is to correct wild injustices, establish reasonable qualification standards for assistance, and eliminate an impossible administrative set-up under which the California department of welfare was virtually immune from either legislative or executive control. It is significant that the fight for repeal was spearheaded by the California Council for the Blind.

California's action has national importance in this era of social welfare run mad. Almost no one is opposed to reasonable assistance for old, helpless people who have no other means of support. That has come to be considered a basic obligation of the state, and all taxpayers must pay for it. But it is a far cry from this concept to such a law as the California amendment which, had it long remained in force, would have sent the state deep into debt, raised taxes to an intolerable level, and driven away industry and enterprise.

It is especially noteworthy that the law was repealed in a state which has a very high proportion of old people. Perhaps many of them now realize that, in the long run, deserving pensioners would be hurt most of all by such outrageously unsound measures. Welfare is coming back to earth in California. — Industrial News Review.

New Use for Cotton Linters in Process of Development

Austin, Texas, Dec. 12—A new use for cotton linters may be found if a process developed by University of Texas scientists can be made economically feasible.

The plan, worked out under Dr. K. A. Kobe's direction by Graduate Researcher Ralph Burdyski, New York, provides for the cleaning, de-waxing of cotton linters, and their transformation into alpha cellulose, with cotton wax as an important by-product. Dr. Kobe is associate director of the Industrial Chemistry Bureau.

"Alpha" is the designation for the best grade of cellulose which, in one form, is found in nature as cotton fibers and linters.

"Our process is not practical from an industrial standpoint yet," Dr. Kobe said. "We are still in the talking and testing stage."

The bureau director has conferred with officials at the Hercules Powder Company, Wilmington, Del., and the Du Pont chemical plant, Waynesboro, Va., about the production plan.

The Hercules talks were concerned with actual production while the Du Pont conferences were on the use of linter-based alpha cellulose as a cellulose acetate, pasties and rayon, source.

Help, Lord; for the godly man ceaseth; for the faithful fail from among the children of men. They speak vanity every one with his neighbor; with flattering lips and with a double heart do they speak.

(Ps. 12: 1, 2).

Fret not thyself because of evil-doers, neither do thou envious against the workers of iniquity. For they shall soon be cut down like the grass, and wither as the green herb. Trust in the Lord, and do good; so shalt thou dwell in the land, and verily thou shalt be fed. Delight thyself also in the Lord; and he shall give thee the desires of thine heart. Commit thy way unto the Lord, trust also in him; and he shall bring it to pass. And he shall bring forth thy righteousness as the light, and thy judgment as the noonday. Rest in the Lord, and wait patiently for him; fret not thyself because of him who prospereth in his way, because of the man who bringeth wicked devices to pass. Cease from anger, and forsake wrath; fret not thyself in any wise to do evil.

(Ps. 37: 1-8).

In thee, O Lord, do I put my trust; let me never be put to confusion. Deliver me in thy righteousness, and cause me to escape; incline thine ear unto me, and save me. Be thou my strong habitation, whereunto I may continually resort. . . . Deliver me, O my God, out of the hand of the unrighteous and cruel man (Ps. 71: 1-3a, 4).

The Lord your God, he it is that fighteth for you, as he hath promised unto yourselves, that ye love the Lord your God (Josh. 23: 10, 11).

Bridal Shower Given in Honor of Miss Johnson and Finche

At a beautiful miscellaneous bridal shower given at the Adelpian Club House Tuesday afternoon, Miss Betty Johnson, bride-elect of Joe B. Turner of Amarillo, was honored by Mrs. Harriett Griffith, Mrs. Hubert Brown, Mrs. Jack Seale and Mrs. Marvin Myers as hostesses.

Mrs. Griffith greeted the guests and introduced them to Miss Johnson; Mrs. G. W. Johnson, her mother; and Mrs. S. O. Turner of Truscott, mother of the groom-elect.

Miss Winnie Sue Turner, sister of the groom-elect, secured signatures of the guests in the pretty bride's book. Misses Betty Barker and Bobbie Ruth Abston provided incidental piano music throughout the tea hours.

In the dining room, the table was ornamented with a large satin wedding ring, in simulation, from which frosted white wedding bells were suspended. To complete the arrangement, large and small mums and snapdragons were used with greens and a bit of Christmas blue in evidence. Extending across the table were two wide white satin ribbons which were inscribed with the words, "Betty and Joe, Dec. 25, 1949," in Christmas blue.

Miss Maxine Johnson, sister of the bride-elect, poured tea which was served with dainty cookies, sauted nuts and mints. The tiny white napkins were marked "Betty-Joe" in the corner. Mrs. Crews Cooper, another sister, assisted in the dining room.

Guests were invited into the gift room where Mrs. Myers entertained. The many pretty and useful gifts to the bride- and groom-elect were on display.

Decorations in the entertainment rooms followed the theme used in the dining room. All members of the house party wore white corsages which were tied with silver bows.
