Full Term of Foard County Vocational School for World War II Veterans Outlined by Co-Ordinator James Welch

By Ted Stafford

Fourth year of instruction for approximately 200 veterans of World War II has been outlined for the fall term of the Foard County Vocational School here. James Welch is the coordinator.

More than 90 veterans have received instruction in the school since its organization in 1947. This year is sponsored by the Foard County school trustees.

Veterans who will enter for their fourth year of study have all completed 36 hours of intensive study in all phases of agricultural work. The school employs a co-ordinator-teacher, a full-time teacher and a secretary-bookkeeper. These duties, Mr. Welch assisted by John Cogdell and Ora Mae Fox.

As the course of instruction for veterans who are actively engaged in farming on an ownership or lease basis includes farm management, animal husbandry, field crops, poultry, home gardening and farm shop work.

Classroom lectures and on-the-job instruction are supplemented by modern visual aids which have been provided for this purpose.

The success of the school which has been in close proximity to the city of Crowell, has been attested to by the educational preparation of Mr. Welch.

Mr. Welch, native of Foard County, and son of Mr. and Mrs. John Welch of Crowell, was graduated from Crowell High School in 1937 with the highest scholastic average for boys in his class.

At the fall of 1939, Welch entered Texas Technological College at Lubbock. During his freshman year he was awarded a Sears Cultural Scholarship.

After completing his junior year at Texas Tech, he enlisted for training in the U. S. Air Force, receiving his wings and commission at Lake Field, Phoenix, Ariz., March, 1944, and went overseas the following month. Welch completed 41 combat missions in the Pacific theater in B-24 aircraft. For the overseas campaign he was awarded the Asiatic-Pacific Campaign ribbon with two oak leaves, the Air Medal with two oak leaves and clusters and Distinguished Flying Cross.

Welch was discharged from the Air Force in September, 1945, and returned to Texas Tech immediately to complete work on his degree. During this last half year of study, he was awarded the Borden Scholarship for having the highest grade point average for senior agricultural students. In January, 1946, he was awarded a Bachelor of Science degree in Agricultural Education.

With a heavy schedule of work in the Foard County Vocational School, Welch still finds time for other community activities. He is the general superintendent of the church school in the intermediate department of the school, and is the warden of the Crowell Masonic Lodge. He is married to the Miss Carson Letta Whitte, formerly the Foard County Home Demonstration Agent. They have a son, James Allen Welch Jr.

Workers Should Be Social Security Numbers Correct

Close credit for the wages you receive under the Social Security Act means that you actually throw away good hard earned dollars, according to Erton F. ...

Most every day that passes, according to Mr. Tate, some employees call and state that one of their employers has left his employment without furnishing his social security account number. And, in every case, this worker does not receive any credit for his earnings. At a later date his entitlement to benefits may be affected because he has not received proper credit for his earnings.

Mr. Tate explained that every worker should have his social security account number card with him and show it to his employer the first day he goes to work. Also, the worker should check his card against the W-4 income tax form at the end of the year. If for any reason there is an error the worker should contact the nearest social security field office immediately.

If you have lost your card, phone the office in Wichita Falls and secure a duplicate—earnings today posted to your account will insure your social security account with proper credits.

Fumigation of Wheat for Insect Control Necessary

Conservation of stored grain is necessary to prevent heavy losses especially in this area of the state. In Texas the insect pests of stored grain breed with little interruption the year round. The most important of these are the black weevils or rice weevils, Angoumois grain moth, saw-toothed grain beetles, flour beetles, Indian meal moths, and bean and pea weevils, according to Joe Burkett, County Agent.

Bins used for storing grain should be thoroughly cleaned of grain and dust to reduce infestation before storing the new crop. Sprays are useful in eliminating infestation in cracks and pockets of the bins. If the grain is not in storage yet, clean the bins and spray thoroughly with a 5 per cent DDT spray. Small quantities of old grain from the previous season should be fumigated, fed out or otherwise disposed of before harvest.

The sides and floors of the bins and cribs should be as nearly airtight and rat-proof as possible. The sides should be at least six inches higher than the grain after leveling off.

Fumigation is the best and most economical method of protecting grain in storage. Temperatures of 65 to 75 degrees F. are best for fumigation.

Where bins are not tightly sealed above, tarpaulin or other gas-tight sheets can be used to cover the surface of grain.

An ethylene dichloride-carbon tetrachloride mixture is cheap, non-inflammable and effective, and does not harm germination regardless of dosage, exposure or moisture content of the grain. It is made up of three parts by volume of ethylene dichloride and one part by volume of carbon tetrachloride.

The mixture is applied with watering can or sprayer on the surface of the grain at the rate of six gallons per 1,000 bushels or five gallons per 1,000 cubic feet. If the temperature is higher than 70 degrees some of the liquid should be poured directly into the grain.

The ethylene dichloride-carbon tetrachloride mixture does not taint the grain which remains palatable and safe for both livestock or human consumption.

The second mixture recommended is one part carbon disulfide (highlife) and four parts carbon tetrachloride. Again, six gallons of the mixture will fumigate 1000 bushels of grain. Pour it in shallow pans and place around the bin—it will evaporate and fumes soak through the grain.

Inspect the grain in storage at least once a month and fumigate it if found infested. Accumulation of waste grain and feed around the farm buildings should be removed.

Caution: The fumes of any fumigant are poisonous and should not be inhaled. If signs of dizziness should occur, the operator should get into fresh air immediately. When much is to be applied a gas mask should be worn.

ROTARY CLUB

The Crowell Rotary Club again had its regular weekly meeting in the Chamber of Commerce office Wednesday at noon with Don Wilkins serving beef sandwiches, Cokes and ice cream from the DeLuxe Cafe.

Five Rotarians from Quanah were visitors. They were Joe Anderson, Vance Favor, Quinn Baker, Grady Dodd and Dub Francis.

With Fred Youree as program chairman, Dr. Durwood Sanders played several numbers on the accordion. It is expected that by next week the club will hold its meeting in the DeLuxe as before the harvest season commenced.

Wheat Harvest Estimated to Be 75 Per Cent Complete Wednesday Afternoon; 665,000 Bushels Received at Elevators

Grain elevators of Foard County had received 665,000 bushels of the 1950 wheat crop at 4 o'clock Wednesday afternoon and it was conservatively estimated by elevator men that the harvest was approximately 75 per cent complete.

With few exceptions the test has been generally good, ranging from 60 to 64. The first grain harvested tested as high as 64 pounds to the bushel. Weather conditions have been favorable for harvesting all week and Wednesday morning it appeared that it would continue until the harvesting was completed. However, Wednesday afternoon cloud banks began to form in the west and prospects for clear weather and no rain were not so good.

The elevators have handled the harvest rush in a fine way and the wheat trucks have not become congested at the point of unloading as in years past. The addition of the new Farmers Co-Op. elevators and the opening of the Tillery Grain Elevator have benefited this situation. It was also suggested that the early wheat ripened just ahead of the later wheat and was harvested and put in the elevators before the real rush began.

The market price of wheat Wednesday was \$1.93, 2 cents lower than reported Wednesday of last week.

Cemetery President Writes Letter to General Public

Mrs. N. J. Roberts, president of the Cemetery Association, has written the following letter to the public concerning the growth and upkeep of the cemetery: "It is very gratifying to give a report where so many friends from a distance are contributing to the upkeep of our cemetery.

"Considering the difficulties under which we operate, we would love for every one of these to see our grounds this spring.

"The several hundred dollars spent earlier in the season on the new graveled street has added materially to the general appearance. The sexton has been doing his best to keep ahead of the weeds, due to the copious rains.

"The daily visitors have admired the luxurious growth of bluebonnets and it is hoped they will, in a few years, cover the entire area. A few seeds scattered here and there spread rapidly.

"The time is approaching for our annual meeting. It is for that we have election of officers, give an account of all money received and of all spent. We discuss our needs and how they can be met.

"Most of all at the present time, there is an urgent need to have the old fence rebuilt and some new built on the west side. It has been in use for at least thirty years and has long since been outgrown.

"A few years back we started a house fund and in the course of time built a comfortable home for our sexton. Just this year we have R. E. A. If some person interested in the protection and beautification of the Crowell Cemetery and it is no longer Crowell but Foard County, would make a substantial gift toward this fence, there would be numerous others who would be willing to help see the job well done.

"Since the proximity to Memorial Day, let's have a memorial fence. How better could we do honor to our loved ones than to beautify their burial place? Shows, suppers and sales should not be necessary to raise the fence money."

Thalia Masonic Lodge Officers Elected

At its last stated meeting before the close of the Masonic year, Thalia Lodge No. 666, A. F. & A. M., elected the following officers for the ensuing year on Saturday night, May 27:

John W. Wright, worshipful master; J. F. Matthews Jr., senior warden; Delmar Paul McBeath, junior warden; Ira M. Tole, secretary; Louis W. Pyle, tiler.

These officers will be installed soon after June 25 to replace the present officers. They are Ira Tole, worshipful master; John W. Wright, senior warden; J. F. Matthews Jr., junior warden; W. M. Wisdom, secretary, and R. H. Cooper Jr., tiler.

TEACHERS TO SCHOOL

The following teachers will attend summer school at various colleges and universities: Mrs. Doyle Kenner will attend Texas Tech; Mrs. Lewis Sloan, Miss Florence Black, and Henry Black will attend Highlands University in Las Vegas, N. M.; Marvin Myers plans to take a summer course at Texas A. & M.; Mrs. Allen Sanders will take a course in music at W. T. S. C. at Canyon; J. W. Sollis will also enroll at Canyon. Mrs. E. C. King who teaches at Thalia and Miss Thelma White of Throckmorton, a former teacher in the Crowell Schools, will join the group who goes to Las Vegas. Coach Thayne Amonett will study at Texas Tech.

If we have omitted anyone who plans to attend summer school anywhere, we would be glad to be notified of it.

Vacation Bible School to Present Program Sunday

The Vacation Bible School of the Christian Church will present its annual program Sunday evening, June 4, at 7:45, with invitation extended to all families and friends to attend. Among the interesting features will be songs by age groups, presentation of Bible characters and incidents, brief outline of studies, and display of handwork.

Thus far the Vacation Bible School has been quite successful, with 62 children enrolled. Thirty-eight have a perfect attendance record. For the first six days, average attendance was 46, with highest attendance, 51 the first two days. The school meets from 2:30 to 5 p. m. daily, Monday through Friday, for two weeks, closing tomorrow with a picnic at 5 o'clock. In charge of the picnic will be Mrs. M. A. Wilkins and Mrs. Joe Ward, with special invitation extended to all parents.

Wheat Allotments for New Farms Must Be Applied for Before June 26, County PMA Chairman Announced This Week

Farms on which no wheat was seeded for harvest in any of the years 1948, 1949 or 1950, may apply for a 1951 wheat acreage allotment, according to Dwight L. Campbell, chairman of the Foard County Production and Marketing Administration Committee. To be considered for an allotment on a

new farm the farmer must apply in writing to his county PMA Committee by June 26, 1950. The application must contain evidence that the land for which an allotment is required is suitable for the production of wheat and that the operator will be largely dependent for his livelihood on his farming.

Few Changes Made in Monroe Grocery by Conference and Courts Sold to Kansas Couple

Only one change was made in the assignment of pastors in this county by the Northwest Texas Methodist Conference which met in Big Spring last week. J. V. Patterson, who has served the Trust-co-Foard City Churches for the past four years, was assigned to the Texas Street Church in Vernon. Aubrey C. Haynes was returned as pastor of the Crowell Methodist Church and E. R. McGregor was returned as pastor of the Margaret-Thalia Churches. T. M. Johnston is the district superintendent.

Other appointments of interest to people here follow: Matador, M. G. Brotherton; Baird, E. L. Yeats; San Jacinto, Amarillo, Hubert Thomson; Tenth Avenue, Amarillo, Geo. Turentine; McLean, W. B. Hicks; Brownfield, D. D. Denis; Lubbock Circuit, D. A. Ross; O'Donnell, H. A. Longino; Ropesville, R. I. Hart; Whiteface, Clarence Bounds; Spearman, R. S. Watkins.

W. F. Kirkpatrick Dies in Quanah Hospital Sunday

Last Rites Held in Crowell Methodist Church Monday at 3

Funeral services for W. F. Kirkpatrick, resident of Crowell for 42 years and manager of the Wm. Cameron & Co. lumber yard in Crowell until his retirement in 1942, were held at 3 o'clock Monday afternoon in the Crowell Methodist Church, with Rev. E. L. Yeats of Seymour, a former pastor, conducting the services.

Mr. Kirkpatrick passed away at 3 o'clock Sunday morning in the Quanah Hospital following an illness of several weeks. He had been in failing health for a number of years.

Funeral bearers were George Self, Byron Davis, Doyle Kenner, Roy Steele, Jim Naron and Francis Todd. Flower bearers included Mrs. Earl Manard, Miss Beulah Patton, Mrs. Doyle Kenner, Mrs. Lewis Sloan, Miss Berdell Nelson, Miss Florence Black, Mrs. Moody Borsay, Mrs. C. G. Graves, Mrs. Francis Todd and Miss Louise Jarvis.

Interment was in the Crowell Cemetery beside the grave of his wife who died in 1915, with arrangements in charge of Womack Funeral Service.

William Franklin Kirkpatrick was born near Tellico, Ellis County, Texas, on May 12, 1872. He was graduated from Patterson Institute, Hillsboro, Texas, with an A. B. degree. He came to West Texas in 1904 and was associated with the Spencer-Abbott Lumber Company in Hamlin. In 1908 he came to Crowell as manager of Wm. Cameron & Co. lumber yard, a position he held until he retired from active duty in 1942. He was an active worker in the Presbyterian Church from 1908 until it was disbanded in 1947. He was a member of the I. O. O. F. Lodge and a charter member of the Crowell Rotary Club.

Mr. Kirkpatrick was a good man, quiet and unassuming, and lived his christianity from day to day. Since the Presbyterian Church was disbanded he had attended Sunday School and church at the Methodist Church as long as his health would permit. Mr. Kirkpatrick was interested in and took an active part in promoting all worthwhile civic improvements. His sterling character was highly respected by all who knew him.

Surviving him are one daughter, Miss Frankie Kirkpatrick, of Crowell; one son, W. E. Kirkpatrick, of Houston; a sister, Mrs. W. E. Whittington, of Stamford; two brothers, J. A. Kirkpatrick, of Waco, and Roy Kirkpatrick, of Austin.

Out-of-town relatives and friends attending the funeral were Mr. and Mrs. W. E. Whittington of Stamford, Roy Kirkpatrick of Austin, Miss Jettie Kirkpatrick of Santa Anna, Mrs. Roberta Doughty of Lubbock, Mr. and Mrs. Leo Kirkpatrick and Mrs. O. W. Parker of Ennis, Miss Kathleen Whittington of Fort Worth, William Whittington of Lubbock and Randolph Kirkpatrick of Denton.

GOOD PRICES FOR CATTLE

A news item in Country Gentleman says, "Although a record number of beef cattle are jamming feed lots, particularly in the Corn Belt, and prospects point to a liberal supply of good to choice fat cattle on the market this fall, both feeders and economists expect prices to hold well, especially for the better grades." The magazine quotes a leading Iowa cattleman who observed, "Too many cattle have been going to market unfinished. Better grades will continue to sell at a good price." As a matter of fact, production of most kinds of livestock is now on the increase, due to excellent feed prospects, an expanding consumer demand, and other favorable factors. Department of Agriculture economists forecast that this upward trend will continue for a considerable period of time. And the increase is not accounted for solely by the large producers. A great many smaller farmers are exhibiting a wider interest in livestock as one of the most dependable sources of cash income.

This is a nation of meat eaters. Recent medical discoveries have proven that a diet which is high in protein is essential to the health and stamina of the average individual—and protein in the whole state is found in meat, and in a very small number of other foods. Our per capita consumption of meat has been rising, and in all probability it will continue to do so. Livestock production, on a big scale or a small, offers great opportunities to agriculture.

HISTORY

Memorial Day, May 30—Though the formal observance of Decoration Day, later called Memorial Day, dates from 1868, the practice of placing flowers upon the graves of soldier dead was instituted by the women of the South as early as 1863. It was at this time the women of Columbus, Mississippi, laid flowers upon the graves of both Union and Confederate dead. On April 26, 1865, a group of Southern women decorated the graves of soldiers in the Vicksburg cemetery. On June 6, women members of the Stonewall Jackson Memorial Association went to the Confederate Cemetery in Virginia, said to be the first cemetery laid out especially for soldier dead in the South and decorated the graves with flowers. General John A. Logan, commander-in-chief of the G. A. R., an organization of Union soldiers, in 1868 issued a general order that May 30 be designated as a time for placing flowers upon the graves of soldiers. From the beginning the day was known in the South as Memorial Day. For a number of years it was known in the North as Decoration Day. For years the observance of the day in the North was devoted to an often bombastic

oratorical glorification of the victories of the Northern armies. As time went on this note of triumph disappeared and the services were devoted impartially to the honoring of the soldier dead. Memorial Day is observed on May 30 throughout the nation as a day on which soldier dead of all wars are remembered with flowers, as well as departed members of families.

SIX TRILLION DOLLARS

James A. Farley, who was once Postmaster General under the late President Roosevelt, recently said that the cost of government must be reduced, "even if some people get hurt in the process. . . . We have got to have men in Congress who look to the need for a sound national economy with a balanced budget, and a little less concern for what certain communities and particular departments are demanding."

Mr. Farley then discussed Federal grants to the states and said,

"If this goes on, the states will gradually give up all of their responsibilities and the Federal government will absorb them. The result will not be a Federal system such as was set up under our constitution but a centralized unitary government which can never fit the 48 individual requirements and special conditions of a country as broad as this one."

Mr. Farley also said that operation of the Federal government will cost the incredible sum of six trillion (\$6,000,000,000,000) in the year 2000 if national budgets increase in proportion to the last 50 years!

Much of our spending is made in the name of "security" for the people. Yet how can a nation produce security by bankrupting itself? How can the national welfare be advanced by spending ourselves so far into debt that we will never be able to pay the bill, as dollars become worthless.

National security—like an individual's security—must be based on thrift, on making both ends meet. Jim Farley told the plain and simple truth.

There is a good deal of complaint over the country in the small towns that are trying to ape the big cities in the matter of Saturday afternoon and five o'clock week-day closing. The system may work in the big cities but it doesn't work in the small towns. In fact it is irritating to the small town people and the country people. The effort to jam the system through continues and so does the resentment against it.

Our guess is that if Russia hears that she is about to be kicked out of the United Nations she will want more than ever to be allowed to remain in. Her cross-grained nature is such that if she thought we wanted her she would be independent about it and be disagreeable and difficult as she has been all along. If she thought we didn't want her she would have a sudden reversal of feeling and desire to remain.

If the present rate of building continues throughout the summer and fall this year you will see some 1,300,000 new dwellings built. This will be the largest total of new homes for any year in the history of this country. Behind these figures lies the important fact that more average American families are building new homes than ever before—and the new houses are being built at costs average families can pay.

There is no missing link, the editor of one of our exchanges notes, between some men and monkeys.

The House Ways and Means Committee has approved a bill providing for reduction of \$967,000 a year in war-time excise taxes. President Truman has served notice that unless the bill provides the means to raise a like amount of money from other sources he will veto it. It will be a source of great comfort to some to learn that the reduction in the excise and luxury tax on mink coats and diamond necklaces will be put on something that the little fellow has to buy. There may be some sense to such legislation, a local man says, but I can't see it.

Thousands of New York City students went out on a riot last week demanding more pay for teachers and resumption of out of class activities. The mob stormed the City Hall and overturned an automobile before they were subdued by the police. The suggestion is made that when the taxpayers make plans for raising the money necessary to provide the things demanded by the rioting students that they also include a levy sufficient to introduce into the schools a course on the fundamentals of good government and good citizenship.

Although the entire crime detection forces of the country have been constantly employed to solve the million dollar robbery in the Boston offices of Brinks, Inc., not a trace of the thieves or the loot has been discovered. In addition to the professional detectives at work on the job the rewards totaling more than \$150,000 have resulted in thousands of amateur detectives devoting time to hunting a clue.

Striking Chrysler workers were out about three months during which time the average worker lost \$1000 in pay. In return he gained around ten cents an hour pay. On the basis of 40 hours a week 50 weeks a year the gain will amount to about \$200 a year in wages. On this basis it will take five years to make up the money lost in wages during the strike.

Organized crime, which takes from the American public through slot machines, betting and other forms of gambling, billions of dollars a year, is now taking its turn at Congressional investigation. The Department of Justice and Federal Bureau of Investigation have promised full cooperation with the committee — and also with any city which desires to break up crime rings operating within it.

We are in agreement with General Eisenhower in his belief that Russia has erected the iron curtain not so much to keep the rest of the world from seeing what is going on in Russia, as to keep the common people of Russia from seeing what is going on in the United States and the rest of the world.

It develops that some 400,000 German soldiers and civilians taken prisoners by Russia during the war have died in Russian territory through starvation and mistreatment, or have been otherwise disposed of. The Russians claim that they have returned all German prisoners and German records show 400,000 still unaccounted for.

The Brink transport firm, which makes a business of moving money in trucks, has suffered another robbery. This one isn't as big as the Boston robbery which relieved the company of over a million dollars, but it indicates that the bandits having found an easy source of swag intend to work it, as long as the payoffs justify.

Fatal motor car accidents took the lives of 2400 persons in March, 15 per cent more than the total of March of last year, according to the National Safety Council. The March toll was the greatest for that month since 1946. For the first three months of 1950 traffic deaths have been 9 per cent greater than in the first quarter of 1949.

What We Think

(By Frank Dixon)

I do not feel that the newspapers, the magazines or the radios give enough space to the matter of the reduction of expenses by the government. In my opinion all of these agencies and the people as well, should be demanding that expenses be reduced even though taxes are left at their present level. This is necessary, it is imperative if we are going to reduce our national debt or even keep from increasing it. This year with a budget of over 41 billion dollars we are going to spend from five to six billion more than we are going to take in, with the result, that instead of making any reduction in the national debt we are going to increase it. We are going to increase it at a time when employment in this country is the highest it has ever been and wages are at their highest levels.

This thought would be disturbing to any business man in this country. It should be disturbing to those who have the management of our government, but it isn't, judging from what they say, and what they continue to do in face of the condition.

There is a number of reasons why I think that we should take whatever steps might be necessary to cut expenses, live within a reasonable budget and begin to make payments on our debt.

First, there is the question of national safety. No one knows for certain whether or not we will be plunged into another war. They do not know because the next war may not be of our own choosing. It may be forced upon us as a matter of survival of our way of life on this earth. Even though war never comes the policy of spending more than we take in will lead eventually, if persisted in, to economic chaos.

What bearing does our spending have on this, some may ask? Just this, our experience in the last war showed us what wars cost. The next war will be less of a bargain than the last one was. If we can't pay a 246 billion dollar debt—and we are demonstrating every day that we can't—how would we pay a 500 billion dollar war debt? That is one that even the slide rule boys won't be able to work out.

Second, does anyone think that this era of prosperity, of high employment and high wages is going to continue indefinitely? Common sense tells us it can't and won't. What are we going to do when the pinch comes? If we can't pay now, how will we pay then?

Third, there is the moral effect that is created in the minds of people when they realize that though high taxes are required of them at the point of legal com-

Washington Newsletter

(By Congressman Ed Gossett)

Washington, D. C., May 26, 1950
—In a newsletter of sometime ago, I promised to tell you of at least one reason why our China policy was not successful.
Today's newspaper carries a story that a Senate Committee has called upon Secretary of Commerce, Sawyer, to fire Michael J. Lee, (real name Leiberman) chief of the Department's Far Eastern Division. This man Lee is a Russian Jew who was born in Harbin, Manchuria. He was reared by a Chinese communist family, his foster father, in fact, being a Chinese Ambassador to Moscow. Lee came to this country in 1934 or 1935 under the Chinese quota for white persons. Three times he was refused American naturalization. However, in 1941, he did secure his naturalization papers. In 1934 Henry Wallace, then Secretary of Commerce, gave Michael Lee a big job and placed him in charge of the Far Eastern Division desk in the Commerce Department. No material could be shipped to China without an export license approved and granted by said Lee. Last year China's Nationalist Military Mission in this country bought from the City Service Company, and paid for in American dollars, a large quantity of aviation gasoline. When they called on Lee for an export license, he demanded details on ships, planes and other vital military information. He kept the Chinese Generals waiting for months until he drained out of them every bit of data he could, which presumably he sent to the communists. He then finally denied them an export license entirely.

Mr. Lee's record in Commerce reminds me of the record of the late Harry Dexter White, Ecopulsion, and under the threat of confiscation, fines and imprisonment, the government refuses to heed demands for retrenchment and continues to pour the money into a thousand of bottomless rat holes.

I would not ask that one necessary service be cut. I would not ask that one meritorious expenditure for defense or rehabilitation be abolished, but I would ask and I would continue to ask that the countless unnecessary expenditures be cut or eliminated—and they are almost countless. They consume our tax money like a plague and a whirlwind and continue to demand more and more.

It is tragic—nothing less—that we have no one in the government who seems able to curb this unconscionable waste. The few who do raise their voices against it are like a lone voice crying in a great unanswering wilderness.

But now they desire a better country, that is, an heavenly; wherefore God is not ashamed to be called their God; for he hath prepared for them a city.—Hebrews 11:16.

A cartoon suggests that since Stalin's representative in the United Nations is always walking out, and taking his doll rags home with him, it might not be a bad idea to follow Mr. Hoover's suggestion to throw his chair after him.

nomics professor who was Assistant Secretary of the Treasury under Morgenthau. White's name had been changed from Weiss. He too, was of Russian-Jewish ancestry. According to incontrovertible evidence gathered by the House Committee on Un-American Activities, he was a big cog in the Hiss-Chambers-Communist group. Dr. White, alias, Weiss, was the father of the so-called Morgenthau plan, announced about a year before the war was over. The Morgenthau plan as you recall, was an announcement that we would insist on unconditional surrender of the Germans and would see to it that Germany was reduced to a pastoral country. The Morgenthau plan undoubtedly prolonged the war many months and has been a big reason why we have thus far been unable to win the peace. We are now trying to rebuild German factories which we helped destroy pursuant to the Morgenthau plan.

This week many papers carried a story of the arrest in Philadelphia of one Harry Gold who admits being a collaborator of the Britishers, Fuchs, in supplying atomic secrets to the Russians. Harry Gold's name was Golonditsky—doubtless also of Russian-Jewish lineage.

Let's not blame the Jews for this perfidious record. Most American Jews, like most of us, are good citizens. Russian Jews are of a different breed. Most Russian Jews are non-Semitic and have little or no Hebrew blood in them. They are of Mongolian origin. This, however, is too long a story to relate at this time.

My biggest objection to the extension of the DP Act is that it is being done primarily to facilitate the admission to this country of many thousands of Russian Jews who came from behind the

iron curtain and into our DP camps, with the connivance of the communist governments, one year after the war was over.

Reports of progress in collaborating with Atlantic Pact Nations is extremely encouraging. However, there are many obstacles to our making a real democracy ally out of Western Germany. First, is the Morgenthau plan above mentioned. Secondly, is the old problem of the French hatred

and suspicion of the German people, and their reluctance to agree to the actual rehabilitation of Germany. Again, some tactless Americans have left the impression of the German people that we do not try to stop the Russians from the Rhine. Intelligent Germans probably say to themselves—we are to be abandoned to the Russians immediately, perhaps should have a communist peep card in our pockets."

Paul Christian to Appear at Rialto in "Bagdad"

Paul Christian, co-starring with Maureen O'Hara and Vincent Price in Universal-International's Technicolor "Bagdad" opening Sunday and continuing through Monday at the Rialto Theater, thought he was unlucky when he missed the much-publicized boatload of European personalities imported to Hollywood in 1938 by a Culver City studio. He, too, had a contract and was to sail, but Hitler invaded Austria and the young stage actor was denied a permit to leave, although of Swiss nationality. Christian is now not sorry he missed that boat trip, which received so much attention at that time. Of all the ambitious and talented people in that group, only one is still active in Hollywood films—Hedy Lamarr. Christian thinks that he, too, might have gotten the same bad breaks that got most of these if he had arrived in Hollywood in 1938 as a young stripling with little experience or dramatic background. Instead, Christian is now on the threshold of his career. With 11 years of playing important roles in Austrian and Swiss films and stage productions, the Swiss actor is ready to cope with anything Hollywood has to offer. Dark, handsome and six feet tall, Christian portrays an Arab in "Bagdad" which was directed by Charles Lamont for Producer Robert Arthur.

Draft Boards Added 3,438 Men in April to Texas Manpower

Austin, Texas, May 29 — State draft boards, operating under the Selective Service Act of 1948, added 3,438 men in April to the state's pool of manpower available for military service in case of war or emergency. This brings the group of manpower acceptable for military service in Texas to just under 60,000, Brigadier General Paul L. Wakefield, state director of Selective Service, reported today.

Zoning of Texas for Waterfowl Hunting Will Be Requested

Austin, May 25—Helping arrange shooting dates so that migratory waterfowl hunters in the sprawling state of Texas may get a fair break this fall has been undertaken by the Game, Fish and Oyster Commission. In the matter of when to shoot ducks and geese, what time of day to begin and quit and the daily bag and possession limit total, the Commission functions merely in an advisory capacity. This is because the final decision is made by the United States Fish and Wildlife Service.

The Commission, through action at its recent meeting at Pampa, already has asked the Federal authorities to cut Texas into two zones so that the season in the Panhandle and extreme West Texas might run concurrent with the surrounding areas of Oklahoma and New Mexico, thus providing for an earlier shooting season than the state at large. Later open season dates are preferable in the more southerly sections of Texas since the waterfowl reach those areas later.

For the main part of Texas, the Commission has suggested that the split season plan of last fall be replaced by a straight shooting period beginning November 10. In 1949, Texas duck and goose hunters hunted from November 4 to November 21 and then from December 21 to January 7.

Bag limits also would be changed to provide for eight birds a day or the same number in possession. Game Department field men have observed some tendency by hunters to kill more than the bag limit when the daily limit is only four birds leaving the less desirable species to waste where they fall. Thus, waste would be eliminated through a higher daily limit since the proposed possession limit would be unchanged. Similar problems involve the suggested zoning plan to accommodate the Panhandle sportsmen. Texas, although as large as two or three ordinary states, has never been zoned for waterfowl hunting. Perhaps one reason is that, with the season in the northern extremity of the state opened two or three weeks earlier than that in the state at large, hunters from the southern area would move in to share in the earlier season, and the hunters in the northern areas would legally travel southward to enjoy a prolonged gunning period within their own state. The Commission may recommend and suggest but the final decision is up to the Federal authorities.

TEXAS DAIRY PRODUCTS

Austin, Texas, June 1—Manufacture of dairy products in Texas climbed 23 per cent from March to April, the University of Texas Bureau of Business Research reports.

Additional Bonds Needed for Veterans Land Program

An additional issuance of \$50,000,000 bonds for the Veterans' Land Program plus additional appropriations for increasing the staff of the office to facilitate the handling of loan requests will be urged before the next Legislature by Senator Kyle Vick of Waco, candidate for Lieutenant Governor of Texas.

"This increase in bonds and staff allotments can be handled without a penny cost to the Texas taxpayers," Senator Vick said. "Of the \$25,000,000 bonds issued last year, \$5,000,000 have already been used, another \$10,000,000 in bonds have been cashed, leaving only a \$10,000,000 surplus, with thousands of loan applications crowding the loan staff."

Some veterans' applications have been in the mill for from six to eight months with no action in sight. "This is not the fault of the Veterans Land Board," Senator Vick emphasized. "The staff is just not large enough to take care of the flood of loan applications, and the original bond issue will not be sufficient to cover all applications."

The Veterans' Loan Bill authorized the issuance of \$25,000,000 in State bonds to cover loans to GI's of the last war for the purpose of buying farm and ranch loans. Veterans may borrow as much as \$7,500, less a 5 per cent down payment at 3 per cent interest for a 40-year period. The loan is repayable in monthly installments.

April output of Texas dairy products amounted to 77,596,000 pounds milk equivalent, or a 2-per-cent gain from a year earlier.

Production of all types of dairy products increased in April from the previous month: American cheese, 46 per cent; creamery butter, 43 per cent; and ice cream, 14 per cent.

In comparison with April 1949, American cheese manufacture was up 10 per cent in April; ice cream, 6 per cent; and creamery butter, 2 per cent.

TWO GREAT DANGERS

Senator Robinson of Virginia recently said that American constitutional liberty is being threatened by big government and by big labor. As examples he cited an unsound social security system, a system of Federal aid to education which would lead to Federal control over public schools, and proposals for compulsory health insurance which would bring socialized medicine.

Then he spoke of the constant efforts to invade the rights of the individual to obtain special privileges for certain groups. As an instance of this, he pointed to the exemption from antimonopoly laws given to labor groups. Finally, he observed that he has introduced a bill in the Senate to end this exemption which would not interfere with labor's legitimate collective bargaining rights—but would prevent unreasonable use of labor's monopoly powers to restrain trade or commerce.

There are differences of opinion as to just what kind of legislative measures should be employed to control the labor monopoly. But it should be clear to all that decisive action must be taken and soon if the interests of the public, honest labor, and the national security are to be protected. No nation can indefinitely stand such destructive and disgraceful actions as the series of coal strikes, to cite just one example, which periodically have paralyzed production of a vital commodity because of the whim of a labor czar.

Labor monopolies must be treated like other monopolies—without either discrimination or favoritism.

Earliest New England houses were built of thick planks instead of logs as is generally believed.

Weekly Sermon A HEAVENLY LETTER

Written by the Rev. W. D. Crunkilton for Moody Bible Institute, Chicago

Can man know what God thinks? Is it possible for you and me to know what our Creator believes, wills and says?

Two short words give the answer: the Bible. Here is God's full and complete revelation.

"God, who at sundry times and in divers manners spake in times past unto the fathers by the prophets, hath in these last days spoken unto us by his Son."

Since God spoke, can He still be heard? Certainly, for what He said has been recorded and it is in our Bible.

The very fact that God gave us the Scriptures indicates how greatly interested He must be in us!

And by the way—He doesn't want us to forget Him, either. Let us treasure this Holy Book like a special letter from the heavenly home—read it, and obey it.

Midland Woman to Serve as Co-Chairman of Gonzales Center

Austin, May 29—Governor Allan Shivers announced here this week that Mrs. J. Howard Hodge of Midland has agreed to serve as state co-chairman of the Gonzales Warm Springs Foundation.

The governor, as general chairman, has headed a movement during the past year to expand and improve facilities at Texas' own Warm Springs treatment center for polio victims and children stricken by other diseases.

"I deeply appreciated your thoughtfulness in this appointment," Mrs. Hodge said in accepting the post.

"My interest in working for the betterment of all people of the state, and particularly the handicapped, is unbounded."

Polio is a dreaded thing. We never know where it will strike next. We all want to do all we can to alleviate the toll that is being taken by polio and other crippling diseases.

Seven citizens of Midland recently contributed \$50,000 for the addition of another building at the Texas treatment center.

"During the past year, more than 400 Texas children have received treatment at Gonzales," he said.

"A report from the foundation hospital shows that in the physical medicine department more than 30,000 physical therapy treatments and tests have been given, 2,442 laboratory examinations, 1,303 X-rays and 598 dental treatments; and 798 pairs of braces have been delivered."

"With all of this excellent hospital care and treatment, a round program of schooling, occupational therapy and recreation was given. It is the philosophy of the foundation to treat the whole child."

Miss Nina Jo Chesshir Becomes Bride of Milton Evans Sunday

In a quiet home wedding marked with simplicity and prettiness, Miss Nina Jo Chesshir, daughter of Mr. and Mrs. S. M. Chesshir of Quana, became the bride of Milton Evans, son of Mr. and Mrs. E. T. Evans of Vivian, at the home of the bride's parents on Sunday afternoon at 2 o'clock.

The home was beautifully decorated with white carnations and greenery and the marriage vows were taken before an archway in the French doors between the living room and dining room which was garlanded with orange leaves interspersed with white carnations. A silver wedding bell was suspended from the top of the archway.

Candelabra were placed at each side of the open archway and candles also were used on the table. These were lighted by Nelson Evans, nephew of the groom. Minister E. A. Sanders of Childress officiated with the double ring ceremony.

Mr. and Mrs. J. D. Chesshir of

Amarillo, brother and sister-in-law of the bride, served as best man and as matron of honor.

The bride wore a white Salina dress with white accessories. Her flowers were white gardenias with ribbon, placed on a white Bible. Her head dress was of white flowers and veiling which fell shoulder length.

The matron of honor was dressed in pink dotted Swiss and her accessories were brown and white. She carried a bouquet of blue carnations.

Mr. Chesshir gave his daughter in marriage.

An informal reception followed the marriage. The three-tiered wedding cake with a miniature bride and groom atop, was cut by Miss Berdell Nelson of Crowell, while punch was poured by Miss Georgia Hatcher of Quana, an aunt of the bride.

Those who attended the wedding included the family of the bride, Mrs. Hatcher, her grandmother; Miss Hatcher, her aunt; Mr. and Mrs. Evans, parents of the groom; Mr. and Mrs. Ernest Lee Thomas and two sons of Floydada; Nelson

Evans of Floydada, Miss Berdell Nelson of Crowell and Mrs. E. A. Sanders of Childress.

Mrs. Evans has been a member of the Crowell School faculty. Her husband is a successful farmer of Floydada, and after a short trip, the couple will be at home near Floydada.

Bride-Elect of Clinton McLain Is Honored at Shower

Miss June Anderson, bride-elect of Clinton McLain of Crowell, was the guest of honor at a pre-nuptial linen shower given in Vernon by Miss Betty Harden, recently.

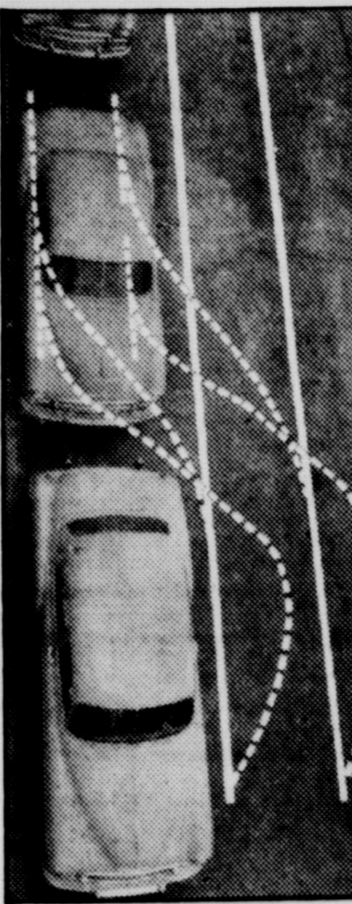

The dining table, laid with a white Madeira cloth, featured a doll bride before an archway made of green rose leaves. The gift packages were displayed around the centerpiece. The bride's chosen colors of green and white were also used in the refreshments with lime sherbet and an angel food cake with green frosting.

On the buffet was a bouquet of white daisies. Arrangements of white larkspur were placed about the entertaining rooms.

The winners in the bridge games which featured the afternoon's diversion, presented their prizes to the honoree.

Guests included the following from Crowell: Mrs. P. H. McLain, mother of the groom-elect, and Mrs. Ted Stafford, Mrs. Ernest Spears of Altus, Okla., sister of the groom-elect, also was present.

How to Park

A survey of high school driving instructors by the Chevrolet Motor Division discloses parking as the toughest maneuver for students to master. The above photo-diagram illustrates correct procedure. First, stop close and approximately even with the car ahead. Next, cut your wheels sharply right and back up until your front right bumper just clears the rear left bumper of the car ahead. Then, cut your wheels sharply left, backing slowly until alongside of curb.

Mammoth Parade to Open Wheat Harvest Festival June 3rd

A mammoth parade will wind through Wichita Falls streets Saturday, June 3, as one of the spectacular events of the first annual National Wheat Harvest Festival.

The royal court is to be a prominent parade feature and will be led by the Queen riding on a throne. The princesses and escorts will follow in convertibles.

Visiting Hollywood stars Robert Cummings, Constance Moore, Gene Autry, Jack Dempsey and Dennis O'Keefe are to be presented in the parade also.

Albert W. Klose of Haskell, who brought to Wichita Falls the first load of marketable wheat in 1950 and collected the \$250 bonus, will share parade honors with the royal assembly. He will ride on an appropriately decorated float.

Scores of combines are to fill in the procession—the huge pieces of equipment that make possible modern harvest which the parade celebrates.

Sheppard Air Force band is to set the musical tempo at the head of the parade. Several string bands are to intersperse the harvest equipment, floats, Hollywood stars and beauties that will comprise the exhibition.

The largest parade crowd in Wichita Falls' history is expected to see this giant display.

Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, M. D., State Health Officer.

Austin—How many people do you know that still cling to the old-fashioned idea that the sooner children catch the so-called diseases of childhood, the better off they'll be?

Take whooping cough, for example. Isn't it ridiculous for children to have to suffer with it when it may be prevented by simple vaccination?

Whooping cough goes by the scientific name of pertussis. Regardless of what you call it, it still means violent, painful wracking coughing that takes the breath and tears at the chest and throat walls.

Pertussis is prevalent among children everywhere. About 15 out of every 100 cases are in children under two. North America, from time to time, seems to have more than its fair share of cases.

Sometimes it's fatal, especially to very small children. About 85 out of every 100 whooping cough deaths are among two-year-olds and less. And, strangely enough, most deaths are among girls. In 1949 Texas had 46 whooping cough deaths. So far in 1950, an average of 323 cases have been reported every week.

Whooping cough is spread through droplet infection—that is, by breathing air contaminated by a sneeze or cough of an infected person. You can get it from using the personal things of an infected person, too. It is communicable from about 7 days after exposure until three weeks after the coughing starts.

The important thing about whooping cough is that vaccination may protect against it. It's the only thing that will. If an un-

vaccinated child gets the disease he will thereafter have what is called a "definite and prolonged immunity." But the fact of the matter is that second attacks have been known to occur.

Vaccination of all preschool children is the answer to control "Booster" shots may be advised within a year after the first vaccination. Your family doctor will make that decision.

Local Ladies Attend Flower Lecture in Abilene Monday

Mrs. L. A. Andrews, Mrs. Grover Phillips, Mrs. R. L. Hunt, Mrs. Alyene Graham and Mrs. A. G. Magee went to Abilene Monday evening to hear Mrs. Dorothy Biddle, internationally known horticulturist, lecture on the art of "Flower Arranging." Mrs. Biddle, whose home is at Pleasantville, N. Y., gave a stimulating discourse and, as she stated, is not the "perfectionist type but is definitely an 'impressionist.'" This she proved in her demonstrations, always working toward the final result in her arrangements.

Her lecture was unusually interesting as she proved that clever and beautiful results can be attained through her method rather than the meticulously careful and often boring perfectionist flower stylist. Her message proved a stimulus to flower growers.

COLUMBIAN CLUB

Mrs. Kenneth Halbert of Foard City was hostess for the season's last meeting of the Columbian Club last Wednesday afternoon.

The attendance was unusually good and much interest was shown in the program on ceramics. Mrs. D. R. Magee was leader and in introducing the program stated that ceramics was growing in popularity daily and is now being taught in many public schools. She asked Mrs. R. L. Kincaid to explain the distinguishing characteristics of fine pottery.

Mrs. B. W. Self gave an interesting discussion on fine china, mentioning that we no longer depend upon Europe for the best and that Lenox tableware used in the White House is made in the United States.

Mrs. Karl ten Brink displayed some antique pieces of glass, explaining the evolution of glass manufactured from the earliest times. Her pieces were of unusual texture and design.

Miss Dorothy Erwin was a guest and brought to the meeting a collection of her own workmanship in ceramics. She has her own kiln and models, decorates and fires many beautiful pieces. She has had excellent instructors and displays unusual skill.

Mrs. Halbert served refreshments and this concluded the 41st year of the Columbian Club's history.

EASTERN STAR

Crowell Chapter 916 met in called meeting on Tuesday, May 16, for the ceremony of initiation. The hall was decorated with seasonal flowers and white satin altar covers. During the candlelight ceremony one candidate was initiated into the five beautiful degrees of the Order.

During the social hour after closing, the hostesses, Mesdames Roy Cooper, M. N. Kenner and Lewis Godwin served a tempting refreshment plate to twenty-three members.

On May 23, at the regular meeting of the Crowell Chapter, routine business was transacted and election of officers was held. During this election the following were elected to serve during the ensuing year: Mrs. W. R. Moore, worthy matron; S. H. Gentry, worthy patron; Miss Lottie Russell, associate matron; G. R. Choate, associate patron; Mrs. C. S. Stewart, secretary; Mrs. Lewis Godwin, treasurer; Mrs. G. C. Phillips, conductress; Mrs. Roy Hunt, associate conductress. Other officers will be appointed by the worthy matron-elect before the installation which will be held on June 13.

WEST SIDE H. D. CLUB

The West Side Home Demonstration Club had its May meeting in the home of the secretary, Mrs. T. W. Cooper. A wild flower show was held. The room was decorated with many kinds of native wild flowers. Mrs. Herman Kincheloe gave an interesting article about "Gardenias." Mrs. Charlie Bryson told of her favor-

STITCH AND CHATTER CLUB

The Stitch and Chatter Club of Thalia met for a social meeting in the home of Mrs. Robert Long recently. Chatter was exchanged over a lovely refreshment of strawberry ice cream and chocolate angel cake, colorful mints and Cokes.

Those present were Mesdames J. F. Matthews, Duane Capps, Jessie Moore, Walden Johnson, Fred Gray, Beverly Gray, Sherman McBeath. Several children were also present.

GOVERNMENT JOBS

At the present time more than 2,000,000 persons are holding government jobs. There is a turnover in these of about 500,000 a year, that is, every twelve months a half million employees quit their jobs and have to be replaced. Under the federal system it requires 218 days to replace an employee after an examination has been held. Also, it takes on the average, a year to fire a grossly incompetent federal worker once he lands a job under civil service.

CO-LABORERS' CLASS

Mrs. J. W. Bruce, Mrs. R. R. Magee and Mrs. Carrie Hart were joint hostesses at the home of the former on Thursday evening, May 25, to the members of the Co-Laborers' Class of the Methodist Sunday School.

Twelve members were present although the evening was stormy. The lesson was on Mark, with Mrs. T. B. Klepper as leader. Mrs. Allen Sanders gave a short character sketch of Mark, the man. Mrs. W. C. Erwin gave a resume and explanation of the first chapter of the book and the leader took the latter half. Questions concerning the book were discussed.

The hostesses served a delicious ice course at the close of the lesson.

ATTEND OPEN HOUSE

Mrs. Merl Kincaid and Marcia, Frances and Robert Kincaid, Mrs. Jack Turner, Mrs. Frank Flesher, Mrs. Edith Bell, Mrs. Lewis Ballard, Alton Bell, all of Crowell, and about fifty-five more guests attended Open House held by Mr. and Mrs. Walker Todd of Quana on Friday from 5 to 7 o'clock in honor of their son, Gene, who was a member of the Quana High School graduating class.

Mr. and Mrs. Walker Todd and sons, Gene and Don, are former residents of Crowell.

Tickets for Wheat Harvest Festival Went on Sale May 25

Tickets for the big show to crown the queen of the first annual Wheat Harvest Festival in Wichita Falls Friday, June 2, went on sale May 25.

They may be purchased in Wichita Falls from the Norsworthy Music Store or by mail from Festival, Box 1860.

Reserve seats will be \$1.80 with general admission tickets going for \$1.00.

Princesses representing cities and towns in a 65-county area will be presented on stage in an elaborate ceremony before the lucky girl—whose identity will have been kept secret—will be crowned.

Carols Molina and his band, music makers in the dining room of the Waldorf-Astoria Hotel in New York City, will provide musical background to the coronation ceremony under direction of Mrs. Walter Nelson Jr., Drue Spain and Eldon Hughes.

A host of prizes will be presented to the queen on the stage. Following the show, the queen and her court, including princesses and escorts, will repair to the gymnasium at Midwestern University where she will reign at a ball in her honor. The Molina band again will play.

The queen's selection will be made at a luncheon earlier in the day when all princesses will parade before judges including movie stars Constance Moore, Robert Cummings, and Dennis O'Keefe.

A reduction of two cents a pound in the wholesale price of coffee was announced the first of the week by the General Foods Corporation. The cut was effected immediately.

It is estimated that there is at least 50,000 unnecessary Caesarean operations performed each year, most of which are demanded.
