WTU CO'S NEW TURBO-GENERATOR GOES ON THE LINE—More than 37,000 horse power in electric generating capacity was made available for area use when the huge new turbo-generating unit at West Texas Utilities Company's Lake Pauline Plant was integrated into the Company's power system yesterday. Pictured above are WTU engineers and factory test men making final operational checks preparatory to placing the unit in service.

New Generating Unit Added to W. T. U. C. Plant

Quanah, Jan. 31 — Following operational tests and check runs, the new 37,000 horse power turbo-generating unit at West Texas Utilities Company Lake Pauline Generating Station, located five miles southeast of Quanah, was placed in service today.

"The addition of this unit, which is a basic part of a multi-million dollar construction program to provide more and better electric service to the people we serve," said Price Campbell, WTU president, "is a part of our continuing effort to help this area grow and prosper."

The new unit, which more than doubles the plant's generating capacity, provides additional electric power sufficient to serve a city of 90,000 population, or the power needed to serve 14,000 West Texas farms.

The actual installation of the turbo-generator was but a small part of the work. C. M. Sample, chief engineer of the Pauline Plant, pointed out. An addition to the plant, equivalent to a steel framed masonry and concrete building 75 feet by 63 feet and four stories high, had to be built to house a boiler capable of generating 250,000 pounds of steam per hour. Construction on this addition was begun in September, 1949, and initial operation of the unit was scheduled for April 1951.

By pushing construction, it was possible to complete the installation of the unit two months in advance. There still remains a great amount of finishing work, such as painting and trimming, to be done before the construction is completed.

The Lake Pauline Plant, one of WTU's four modern steam generating stations, interconnected by 3,100 miles of high voltage cardinal transmission lines, was placed in operation in 1928.

News About Our Men in Service

Pvt. Joe H. Scales, who entered the Army several weeks ago, is now stationed at Camp Chaffee, Ark., where he is taking basic training. He stated in a recent letter to his parents, Mr. and Mrs. Ebb Scales, that he and George W. Johnson Jr. were still together. His address is: Pvt. Joe H. Scales, US54028943, Co. A, 46th AIB, C. C. B., 5th Armored Div., Camp Chaffee, Ark.

Wilson V. Bond, son of Mr. and Mrs. Bill Bond of Arkansas, former residents of Foard County, went through boot training in San Diego, Calif., then went to Seattle, Wash., where he served on the USS Toledo (CA-133), a heavy cruiser. He stayed aboard for six months, then to Long Beach, Calif., transferred to Beam Field Naval Air Station and then to San Diego, Calif. He has been with the same squadron for 23 months. He is Personnel Man 3rd Class and his address is Wilson V. Bond, PNSN, USN, Fleet Airborne Electronics Training Unit, Pacific, Personnel Office, NAS, San Diego, Calif.

Pfc. Mark Ford, who joined the Air Force in December, 1949, is now at Chanute, Ill., Air Base, where he is taking training for a B-36 mechanic. After taking his basic at Lackland Air Base in San Antonio he was stationed at Sheppard Field in Wichita Falls for eight months.

Pvt. Kenneth Shook, son of Mr. and Mrs. Tom Shook, is now stationed at Fort Benning, Ga. He was placed in the Signal Communications, Hq. and Hq. Co., 2nd En., 22nd Regt.

Pvt. Baxter W. Gentry, son of Mr. and Mrs. S. H. Gentry, who joined the Air Corps on Dec. 18, 1950, is now stationed at Hq. Sq., LRP Division, Patrick Air Force Base, Cocoa, Florida.

Date of Ball Game Changed to Feb. 8

The basketball game which was scheduled to have been played between the Lions and the Rotary Club on Monday night of this week was postponed, due to bad weather. It will be played on Thursday night, Feb. 8, according to information furnished the News Wednesday by Marion Crowell. The proceeds of the game will be given to the March of Dimes.

P. O. W. Claims Must Be Filed by March 1

Washington, D. C. — The War Claims Commission wants every eligible prisoner of war of World War II or their widow or children or parents, to file the necessary claim before the deadline of March 1. Persons entitled to such claims in most cases will receive \$1.00 for each day the prisoner of war was held in custody of the enemy.

The War Claims Act of 1948 provided the organization to process claims of civilian internees and military prisoners of war who had filed for payment from the former enemy funds held by our government. Unless the claims are filed by the former prisoners of war or by the widows, children or parents of deceased POW's before March 1, 1951, the claims cannot be paid at all.

Under the War Claims Act, a widow who has married again may still collect the survivor's benefit and parents do not have to establish dependency. Additional information or claims forms can be secured from the Service Officer of any veteran organization or by writing the War Claims Commission, Washington 25, D. C.

ROUND-UP WILL RE-OPEN

Mrs. Margaret Jefferson is re-opening the Round-Up Cafe which she closed on the account of lack of help two weeks ago, on Friday morning, Feb. 2, and will serve each day from 11 a. m. until 9 p. m.

March of Dimes Campaign Lagging in Foard County

Only \$361.53 had been reported in the March of Dimes campaign in Foard County up to Wednesday afternoon, according to Mrs. Alva Spencer, campaign chairman.

Although the campaign ends this week, further efforts will be made by the March of Dimes collectors to give the county a better showing in this worthy and all-important cause.

Former Crowell Resident Dies in Sulphur Springs

Mrs. J. J. Johnson, 72, of Sulphur Springs, daughter of Mr. and Mrs. B. H. Daughtry, pioneer residents of Crowell and Chillicothe, and wife of the late Dr. Johnson, prominent Sulphur Springs physician, passed away in the Hopkins County Memorial Hospital on Saturday morning, Jan. 20. Funeral services were held at the First Methodist Church in Sulphur Springs on Sunday, Jan. 21.

Mrs. Johnson is survived by two sons, Graydon S. Johnson and Ben Leighton Johnson, both Sulphur Springs business men; a sister, Mrs. M. M. Hankins, of Sulphur Springs, a former resident of Quanah and Chillicothe, and four grandchildren.

Cemetery Donations Made in January

The following donations have been made to the Cemetery Association during the month of January:

E. Kenner	\$5.00
Joe F. Orr	\$10.00
Mrs. T. M. Beverly	
McKinney	\$10.00
Mrs. H. W. Gray, Thalia	\$10.00
Mrs. W. O. McDaniel	\$1.00
W. B. McCormick, Los Angeles, Calif.	\$10.00
Mrs. J. M. Hill	\$10.00
B. B. Little, San Angelo	\$5.00

Severe Cold Spell Hits Last Sunday

The most severe cold spell of the winter hit here last Sunday and freezing temperatures prevailed since that time. About a one or two-inch snow fell here Tuesday night.

THALIA CEMETERY REPORT

"We received the following donation from the children of the late Mr. and Mrs. W. D. Durham of \$45.05. We really appreciate this and plan to have a meeting early in March. Be sure to watch for announcement of this meeting. It will be on time to make plans for the working of the cemetery so if you have any donations, please send them in." So writes Mrs. Cap Adkins.

C. H. S. Cagers Win 2 More Games During Past Week

The Crowell High School basketball team won two more games the past week to make its record fifteen wins out of seventeen played thus far this season. The Wildcats defeated Archer City 52 to 12 in a conference game here last Friday night and won over the Electra Tigers at Electra on Tuesday night by the score of 43 to 32 in a non-conference game.

The Wildcats did some excellent passing in the game with Archer City. Clinton Marlow continually passed the ball back out to his teammates instead of taking nearly impossible shots at the basket as he and some of the other players have been doing in the past. The reserves were used in this game during the second and fourth quarters.

The Wildcats didn't look very good against Electra in the first half. In fact, some of the Crowell boys were trying for field goals when they should have been passing the ball. However, Jim Paul Norman's fourteen points and Jon Sanders' floor work went a long way in bringing the Crowell team from behind. Roy Whitley, stellar guard for Crowell, fouled out in the third quarter and Ginger Johnson substituted for him with a hustle that made a great contribution to the Wildcat victory.

The Crowell volleyball girls lost a heart-breaker to the Archer City girls here last Friday night. The scores were 15 to 8, 11 to 15 and 15 to 12. However, this loss left the four western half teams in a four-way tie with two victories and two losses each.

Both the Crowell boys' basketball team and the Crowell girls' volleyball team will be playing crucial games at Chillicothe Thursday night. The boys can clinch the western half championship with a victory, but a loss would leave them tied with the Eagles for the crown. The girls need this victory to remain in the running for the western half crown.

The Crowell "B" team remained undefeated for the season when they won a 47 to 23 victory at Electra Tuesday night. James McBeath scored nineteen points in this game. However, the passing of the Crowell boys, led by Ginger Johnson, was the big factor in the lopsided score.

Grand Jurors for February Term of District Court

The following men have been notified to appear before the Hon. District Court of Foard County on the 12th day of February, 1951, at 10 o'clock a. m., then and there to serve as grand jurors for the first week of the February term of said court:

C. N. Chatfield, C. A. Bowley, Gordon Bell, Lee Black, I. L. Denton, Leon Solomon, D. D. Adams, Henry Johnson, Luke Wells, R. N. Barker, W. J. Garrett.

Luther Tamm, Chester Graham, Geo. W. Davis, C. T. Hord and Herbert Fish.

ROTARY CLUB

Plans for the 4-H and FFA Junior Livestock Show were discussed at the Wednesday noon luncheon of the Crowell Rotary Club at the Club Cafe. The club is sponsor of the show.

Marvin L. Myers, attending the club meeting for the first time as a new member, was introduced by Grady Halbert, membership chairman. J. A. Stovall, who has been out for some time on account of illness of Mrs. Stovall, was also present as a new member.

County Agent Joe Burkett and H. L. Ayers Jr. were visitors at the meeting. H. L. read the record of his calf which will be exhibited at the livestock show. Marvin Myers was in charge of the program. Joe Burkett commended the Rotary Club committees for the excellent work done in making preparations for the annual calf show.

Attendance Chairman Claude Callaway stated that the Crowell Club had been in the high ten in the district during the first six months of the Rotary year.

Shrine Club to Meet at Chillicothe Feb. 9

The Tri-County Shrine Club composed of Shriners from Childress, Chillicothe, Crowell, Odell, Quanah, Thalia and Vernon, will have a stag party and meeting at the Legion-Lions Club building in Chillicothe on Friday night, Feb. 9, at 7:30 o'clock. It was announced Monday by Irving Fisch.

All members are urged to attend.

A pessimist is a man who persists in wearing both belt and suspenders.

The Sahara Desert of Northern Africa is the largest arid region in the world.

Plans Underway for 14th Annual 4-H and FFA Junior Livestock Show to Be Held in Crowell Saturday, February 10

Progress is being made by the Crowell Rotary Club's committees for the 14th annual 4-H Club and FFA Junior Livestock Show which will be held at the Self Motor Co. building in Crowell on Saturday, Feb. 10.

According to FFA Instructor Marvin L. Myers and County Agent Joe Burkett, there will be eleven fat steers entered in the cattle division and approximately twenty registered hogs in the swine division. Thirty-five coops of chickens are expected to be entered along with a few pens of rabbits, turkeys and ducks.

Grady Halbert will serve as general chairman and master of ceremonies. Members of the finance committee are: Glendon Hays, chairman; Rude Magee,

Henry Dixon. Sales committee members are: Claude Callaway, chairman; Jack Seale and Merl Kincaid.

The committee in charge of exhibits includes Clinton McLain, chairman; Irving Fisch and Jim Cates. George Self and Fred Younce are members of the Judge committee.

The material committee members are: Pete Yates, chairman; Marion Crowell, D. R. Magee and Dr. Durwood Sanders.

T. B. Klepper, Marvin Myers and Joe Burkett make up the publicity committee. Members of the entertainment committee are: George Self, chairman; Herbert Edwards and Grady Graves. Hubert Brown is chairman of the weighing committee.

Fire Department Answers Several Calls Recently

Members of the Crowell Volunteer Fire Department have answered several calls within the last few days. Last Friday they were called to the home of Rev. A. C. Haynes where a chicken house was on fire. The blaze was extinguished but the chicken house was partly destroyed.

Monday the department was called to the farm of C. C. Ribble northwest of Crowell where a feed stack containing several thousand bundles of feed was destroyed by fire. However, another stack of feed and the house and barn were saved by the work of the fire boys.

Six members of the department went to Childress early Tuesday morning to help extinguish a blaze that destroyed a quarter of a block of business buildings. The loss was heavy.

The Fire Department has also made several calls recently to extinguish grass fires.

J. R. Weiss Dies in Lubbock Jan. 14

J. R. Weiss, 55, father of James Weiss of Crowell, passed away at his home in Lubbock on January 14, after a lengthy illness. Interment was made in the Lubbock cemetery on Jan. 18. The funeral was attended by Mr. and Mrs. Ted Reeder, Mrs. Henry Borchardt, Mrs. Lee Black, Mrs. T. S. Haney and Mrs. J. B. Rasberry Jr., all of Crowell.

Mr. Weiss had resided in Lubbock for more than thirty years. He lived in Crowell in 1945 and 1946 and established the Weiss Farm Equipment. He had many friends here.

Survivors include the wife and two sons, George Weiss of Brownfield and James Weiss of Crowell. Three grandchildren also survive, Jane Weiss of Brownfield and Mike and Bobby Ray Weiss of Crowell.

1950 Cotton Crop Far Below Yield Reported in 1949

According to the Government report the number of bales of cotton ginned in Foard County from the 1950 crop prior to Jan. 16, 1951, was 4,583 as compared to 13,582 bales ginned to Jan. 16, 1950. The crop of 1950 was 9,006 less than the 1949 crop.

Mass at St. Joseph's Church Sunday A. M.

Golden Wedding Anniversary Mass will be said at St. Joseph's Church for Mr. and Mrs. M. O'Connell on Sunday morning at 8:30 o'clock. Everybody is invited to attend.

Russia Votes Against Korea Cease-Fire Plan

LAKE SUCCESS, N. Y.—The United Nations political committee approved by a vote of 50 to 7 another peace bid to communist China based on an immediate cease-fire in Korea followed by big power talks on all Far Eastern problems. Warren Austin (left), of U. S.; and Sir Gladwyn Jebb of Britain are shown voting for the plan, while Russia's Jacob Malik (right) thinks on. Russia and her satellites voted against the plan as did nationalistic China and San Salvador. The Philippines abstained.

New President of North Texas State College Visits Here

Dr. J. Carl Matthews, and small son, Kenneth, and his father, J. F. Matthews, of Thalia who is spending the winter in Denton, were visitors in Crowell for a short time Saturday.

Upon the recent resignation of Dr. W. J. McConnell as president of North Texas State Teachers College, Dr. Matthews, vice president and dean of the school of education since 1948, was elevated to the presidency. On Sept. 1, he will become NTSC's fifth president since the college became a state school.

Dr. Matthews was reared in the Thalia community, is a graduate of NTSC and holds a master and doctors degrees from George Peabody College at Nashville, Tenn.

He served for 10 years as director of the North Texas Laboratory School, was state curriculum director from 1935 to 1937 and a staff member of the Southern Study project from 1938 to 1942.

Local Board No. 131 to Call 25 Men for Induction Feb. 15

Texas Local Board No. 131, Selective Service System, of Vernon, has received an induction call for Feb. 15 for approximately 25 men, and a pre-induction physical examination call Feb. 17 for 74 men. It was announced this week.

All registrants who are present classified I-D Reservists or ROTC or National Guard, are requested to file current information about their military training.

Information has been received by the Local Board that registrants may volunteer in the ages of 18-26. Previously no registrant could be issued a call for induction under 19 years of age, it was stated.

Dick Todd Resigns As Back Field Coach at A. & M. College

Dick Todd announced here Wednesday that he had resigned his position as backfield coach at Texas A. & M. College, effective immediately.

Mr. Todd said that he did not have any definite future plans at the present time.

IMPROVING

Thomas Crowell, nine-year-old son of Mr. and Mrs. Marion Crowell, was taken to Wichita Falls last Wednesday for medical treatment after being very ill at his home here. He was brought home Tuesday and is reported to be improving rapidly with hopes that he will soon be fully recovered.

Old Victor Johnson House Built in 1898 Being Torn Down

One of the old land marks of the county, the two-story house built by the late Victor Johnson on his farm southwest of Crowell in about 1898, is being torn down by Clinton McLain. The farm is now owned by Clinton's mother, Mrs. P. H. McLain.

The house, a two-story frame structure, had two large rooms upstairs and four on the lower floor. Mr. McLain says where the lumber in the building has been inspected, it is of extra fine quality. He expects to use the lumber in the construction of a home in Crowell at some future date. He owns the first two lots north of W. B. Johnson home on North Main Street.

THALIA
MRS. C. H. WOOD

Mr. and Mrs. Mitchell Jackson of Snyder, Truman Quillin and family of Vernon and Martin Jones and family of Crowell were guests in the home of their parents, Mr. and Mrs. Carol Jones, last week end.

Mr. and Mrs. Bernard Decker and Harold Huntsman of Knox City visited Mr. and Mrs. Dee Powers Saturday, also Mr. and Mrs. Sam Powers of Benjamin visited in their home Friday night.

Miss Helen Lowe, a teacher in the Bryson school, visited her niece and husband, Mr. and Mrs. R. L. Jennings, last week end.

Mrs. Bill Hlavaty of Vernon, Mrs. W. G. Chapman and Mrs. M. H. Jones visited Mrs. J. L. McBeath Friday afternoon. Mrs. C. C. Lindsey also visited in the McBeath home one day last week.

Charles Howard Bursley from Texas A&M College spent the week end with his parents, Mr. and Mrs. Howard Bursley.

Mr. and Mrs. Fred Harrison of Knox City and Mr. and Mrs. Leen Wimberly and daughter, Merline, of Abilene spent Saturday night and Sunday with Mr. and Mrs. Dee Powers.

Frank Gamble attended the Fat Stock Show at Fort Worth Sunday and Monday.

Mrs. Frank Gamble spent Sunday night in the home of her daughter, Mrs. Willie Garrett, and family near Crowell.

Dr. J. Carl Matthews and fam-

Character actor Walter Slezak inducts Bud Abbott and Lou Costello into the Foreign Legion in this highlight laugh scene from Universal-International's new comedy, "Abbott and Costello in the Foreign Legion." The comedy's large supporting cast is headed by Patricia Medina. Showing Sunday and Monday, February 3 and 4, at the Rialto Theatre.

ily and his father, J. Frank Matthews, of Denton visited in Thalia Saturday night and Sunday. Dr. Matthews was recently made president of North Texas State College at Denton.

Ruth Hammonds spent Sunday in the home of her brother, John Coe, and family in Vernon and also visited the O. C. Hammonds family at Odell.

Edgar Long attended the Fat Stock Show at Fort Worth last week end.

Mrs. O. M. Grimm and Mrs. Raymond Grimm visited Mrs. W. E. Pigg and Mrs. J. A. Stovall in Crowell Tuesday of last week.

Gussie, Fred and Dot Hammonds, Jimmy Dalton Hammonds, Leslie Fred Hammonds, Mickey Dot Hammonds and Patsy and Jean Lavoye Gamble attended the Fat Stock Show in Fort Worth last Friday.

Mrs. C. H. Wood visited Mrs. Leotis Roberts and Mrs. J. A. Stovall in Crowell last Friday.

Mr. and Mrs. Fred Reed of Vernon visited Mr. and Mrs. Mack Edens last Thursday.

Ralph Dunn, Mike Hudgens and Glen Gable attended the Fat Stock Show at Fort Worth last Saturday.

Cpl. and Mrs. Charles E. Wood from Lawton, Okla., spent the week end with his parents, Mr. and Mrs. C. H. Wood.

Mr. and Mrs. George Bouldin of Stamford were dinner guests in the home of their daughter, Mrs. Raymond Luckie, and family Monday of last week.

Mr. and Mrs. Marvin Langley and family of Grapevine visited Mrs. J. K. Langley and other relatives here recently.

Mrs. Grace Mason and Mrs. Jack Bain and son, Ronnie, of Vernon visited Mrs. Maggie Capps and Mrs. M. L. Self Tuesday of last week.

Floyd and Kenneth Oliver were both in the Vernon Hospital with flu last week.

Mr. and Mrs. Ben Hogan have returned from Truro, Iowa, where they spent several days in the home of their daughter and husband, Mr. and Mrs. Paul Vecera, who recently lost their infant son, Jimmy Paul.

Mrs. Bill Hlavaty of Vernon visited Mrs. G. W. Scales Wednesday afternoon of last week.

Ray Short of Borger spent 3 or 4 days at home the latter part of last week and first of this week.

Mrs. Celeste Johnson and daughter, Judy, and Mrs. R. H. Cooper and Irene Doty spent Monday and Tuesday of last week in Fort Worth and Dallas.

Mrs. E. E. Broadus and her daughter, Mrs. Ivy Spiller, and family of Katy, Texas, were in Thalia last week. They came to be at the bedside of Mrs. Oran Wilson, their daughter and sister, who underwent an operation in the Vernon Hospital and they visited in the Ed Railsback, Foy Mc-

Rae, Lonnie Broadus and Otha Ferguson homes.

Mr. and Mrs. Glen Gamble and daughters, Dorothy and Norma, spent the past few days in Long Beach, Calif.

Mr. and Mrs. Raymond Grimm, accompanied by Mrs. Bob Abston of Crowell, visited Mrs. Howard Williams, who was operated on in a Wichita Falls hospital last Thursday.

Mr. and Mrs. Oran Ford and Mack Ford have been attending the bedside of their father, J. R. Ford, who is ill in the home of his daughter, Mrs. J. L. Hensley, at Sundown.

Charles, Bobby and Carol Duncan of Crowell spent the week end in the home of their aunt, Mrs. Alton Abston, and family.

Harold Short of Borger spent the week end with his father, G. C. Short, and family.

TRUSCOTT
ELBA JOYCE CADELL

Mr. and Mrs. Bennie Clay of Borger and Mr. and Mrs. Emsley Miller and sons spent Sunday with Mr. and Mrs. Bud Myers and sons and Mrs. Leon Taylor.

Mr. and Mrs. Lee Blevins and baby of Vernon visited his parents, Mr. and Mrs. W. T. Blevins, Sunday.

Mrs. George Solomon received word Sunday night that her brother, Tom Craig, is seriously ill in Jacksboro.

Mr. and Mrs. Punch Baty of Gilliland and J. C. Baty of Monday and Kelly Bullion of Crowell visited Mrs. P. G. Illseng and Mr. and Mrs. John Bullion Sunday.

J. R. Spivey returned home last week from a Wichita Falls hospital.

Mr. and Mrs. Sylvia Kinne-brough of Floydada spent the week end with her parents, Mr. and Mrs. J. R. Spivey.

Mrs. V. W. Browning returned home Thursday from a Dallas hospital. She is recovering from an eye operation.

Mr. and Mrs. Bennie Clay of Borger visited Mr. and Mrs. W. Walker and W. J. Monday.

Mrs. H. A. Smith visited Mr. and Mrs. Homer Barham of Seymour Saturday. Mr. Smith had spent the past week in Seymour and returned home Saturday with his wife.

Mrs. J. B. Chilcoat and Mrs. Tom Ed Smith and son spent the week end with Mr. and Mrs. John B. Chilcoat and children of Benjamin.

Mrs. Jack Brown and Don were

Agricultural and Livestock Activities to Be Stressed by WTCC

Abilene, January 10 — Agricultural and livestock activities of the West Texas Chamber of Commerce will be projected into every section of West Texas as a part of the organization's 1951 program of regional and community level services, Fred H. Husbands, executive vice president and general manager of the WTCC, announced today.

George A. Logan, former manager of the agricultural department of the Waco Chamber of Commerce, assumed management of the WTCC's agriculture and livestock department on January 1. Logan will spend most of his time in the field on regional projects and activities, and cooperating with local chambers of commerce and farm and ranch groups in organizing and activating agricultural and livestock programs, Husbands said.

Development of more efficient marketing practices and procedures for agriculture and livestock, more and better farm roads, and water and soil conservation for improved and increased production will be important area-wide projects of the department, Logan said.

Services of the WTCC will also be available to chambers of commerce in Seymour Saturday.

Raymond Daniel of Wichita Falls visited Mr. and Mrs. A. S. Tarpley Thursday.

Glenn Burnett of Amarillo visited Mr. and Mrs. A. S. Tarpley Friday.

Mr. and Mrs. A. S. Tarpley and Mrs. Jack Brown were in Quannah Friday to see George Brown, who is recovering from an operation in the Quannah hospital.

merce and other farm groups throughout the territory in helping to organize and expand local agricultural and livestock programs, and in county and area fair planning. These services will include advisory assistance in the selection of committees, planning sound programs of work, financing, and methods of successfully executing the program for maximum benefit to all concerned.

A graduate of Texas A&M College, Logan has spent several years in extension and soil conservation services and on the faculty at Texas A. & M. as graduate assistant in agricultural economics. He is 36 years old.

At Waco, he received wide recognition for outstanding work in developing the state's first Save-A-Farm Day with the complete rebuilding of a worn-out 185-acre farm, the state's first economy beef program for farm boys and girls, an extensive milk production program, an early cotton stalk destruction project, and the development of plans for a \$1,250,000 agriculture and livestock exposition.

Other Central Texas projects supervised by Logan were corn contest activities and a coordinated cotton production program. This included cotton insect control, cotton labor supply, cotton growing contests and first bale auction.

The Waco Farm and Ranch Club was developed by Logan to meet the needs of landowners and "windshield" farmers and ranchers.

Logan is a charter member of the Texas Commercial Agricultural Council, and was made an honorary Lone Star Farmer in 1948 for outstanding work with FFA programs in the Central Texas district.

George Washington had no middle name.

Grass Roots Opinion

Plattsburgh, Neb., Journal: "Every line of business has been competition these days . . . competition is the backbone of the private enterprise system."

Bishopville, S. C., Messenger: "Legislators . . . should not only preach economy but should practice it. They might begin right at home in their own counties."

Oskaloosa, Iowa, Daily Herald: "Some of those who are urging price and other controls as an emergency measure, hope to make them a permanent part of our economic system. Should that happen, government would be absolute master of the economy—and regimentation of industry and individuals would be here to stay."

Liberal, Kansas, Daily Times: "If we had been paying for government expenditures as we go in the past, there would be no need at this time for control for the simple fact that our money would be stable. So today we have inflation at a point where we can buy only half as many weapons with the same money as we did in 1945."

Rockdale, Pa., Herald: "At a

time when communism and cim are so widely pronounced let us loudly stress Americanism."

INTERSTATE — INTRASTATE

Traffic which is handled at point of origin to point of destination entirely within the state of a single state is intrastate commerce. Traffic which originates in one state, or which moves between points in the same state, via a route that takes it through another state, is interstate commerce.

**The More He BREAKS
The More He MAKES**

Texas motorists, Texas highways and Texas taxpayers should be protected against the ONE PER CENTERS.

ONE PER CENTERS are truck combinations weighing, loaded, 20,000 pounds or more. Only one of every 100 vehicles registered in Texas pays a license fee for 20,000 pounds or more. FEWER than three out of every 1,000 are registered for more than 40,000 pounds.*

Our highways should be SAFE for ALL the people—individuals, commercial users and the military alike.

Texas highway tax dollars should be conserved and used wisely. This can be done

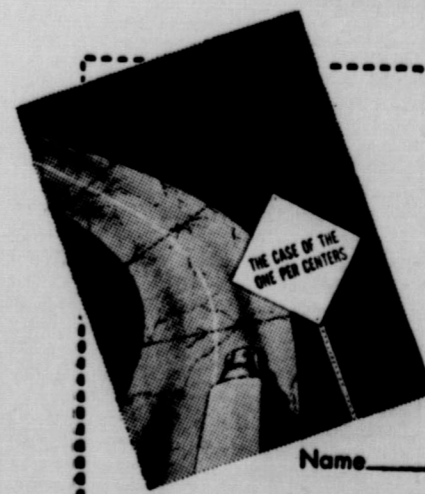

- (1) by limiting the weight (gross load and axle load) that may be transported legally by the ONE PER CENTERS and
- (2) by enforcing the law against those who persist in overloading.

*"The Case of The One Per Centers," an article in The Texas Tax Journal, July-August, 1950

Texas highways are paid for by and belong to ALL THE PEOPLE. Highways adequate for 99% of Texas users—individual and commercial—can be constructed and maintained for about ONE-THIRD of the cost made necessary by the weight of the ONE PER CENTERS.*

This is your problem. Send for your copy of the booklet, "THE CASE OF THE ONE PER CENTERS," which tells you, among other things, why

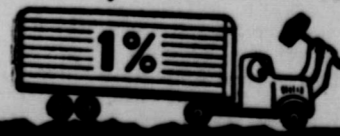

**THE MORE PAVEMENT HE BREAKS,
THE MORE PROFIT HE MAKES.**

STOMACH ULCER

BY DR. JUNE M. COOK

How often have you known some friend who practically had to live on milk and soft foods? His complaint was an ulcerated stomach. The same sufferer may keep a box of baking soda in his pocket ready for use after each meal. Such is the dire straits of the ulcer sufferer. Such a one can hardly eat to live. Such is the agony if one should break his diet. The causes of ulcers have been many but the main theory is to the effect that there is an excessive secretion of hydrochloric acid which eats away some of the tissues of the stomach wall.

To counteract for the excess acid the average man will take more alkaline food or a "dose of soda." But is this excessive secretion the true cause?

In every phase of life there is always a cause for every effect. It cannot be otherwise for that is the great law of nature. The cause of almost every body disturbance can be traced to the nervous system for it is the one great director in the body. When ulcers form it is due to a deficient nerve supply to those glands which secrete hydrochloric acid.

Once this spinal block to the life carrying nerves has been released by the skill of the scientifically trained Chiropractor, the ulcers will heal and health will be the result for the body's functions are once again normal.

(One of a series of articles published in the public interest to explain and illustrate the practice of Scientific Chiropractic, written by Dr. June M. Cook, Chiropractor, whose office is located at 308 East Commerce, Crowell, Texas, Tel. 117.)

THE AMAZINGLY USEFUL

TOT '50' STAPLER

- IT STAPLES
- IT TACKS
- IT DOES 50 JOBS

The Purse 'n Pocket Stapler that Does a Man-sized Job!

Goes everywhere—you'll be surprised at how many time-saving fastening uses it has in the home, school, office, travel! Answers the need for a low-priced, pocket-sized stapler. Sturdily constructed of chrome-finished steel with durable red Tenite top. It's a stapler, plier, tacker, goes where you go, fastens up to 20 sheets of paper.

Complete with 1000 GENUINE TOT Staples in attractive two-tone plastic gift box, ONLY—

98¢

Refills packed 1000 to box—25c.

THE FOARD COUNTY NEWS

Two All-Time Records Set by Chevrolet in '50

Detroit, Mich. — Two all-time records for biggest year's production by a single company in the history of the automobile industry were announced recently by the Chevrolet Motor Division of General Motors Corporation as it prepared for long-term defense commitments.

The first record is for U. S. plants alone, 2,015,150, the second is for total production of 2,197,493, including Canadian plants—as is traditional in automobile industry record-keeping. Both exceed old records that have stood since 1923.

"This achievement makes Chevrolet the first manufacturer to have built more than 2,000,000 vehicles in U. S. plants in a single year," T. H. Keating, Chevrolet general manager, said. "The result is to place car owners in the strongest position possible to weather the foreseeable inroads on civilian production expected to be made by Defense requirements over the months ahead."

Civilian cutbacks at Chevrolet will begin immediately, Keating said, but will be light in the first quarter and will be gradual while new defense work, now in the planning stage, is being translated

into actual contracts.

Chevrolet's 1950 results were accomplished under dramatic circumstances. The schedules were set long in advance, but with scarcely a month to go on them, Government orders for the allocation of scarce materials threatened to cost 35,000 of December's production and cause layoffs of several thousand employes in Chevrolet's nationwide network of 25 plants in 19 cities in 10 states.

Even before that threat was averted by clarifications from Washington, an early December snowstorm and cold weather crippled production at some of the Chevrolet plants, and caused a production setback that had to be made up.

Then Chevrolet's St. Louis plant which requires a traffic of 600 freight cars a day, was shut down by railroad workers "illnesses" 24 hours before settlement of the rail dispute.

In the final week a new all-time record for biggest day was set, 9,889 vehicles on December 29. Earlier in the year Chevrolet had broken automobile industry records for biggest week, 50,784, and biggest months, 211,133, both in June.

Only last week Chevrolet announced a third record for the year, based on U. S. and Canadian output, which packed three million production milestones into a single year for the first time in the industry. The 23 millionth Chevrolet was produced January 11, the 24 millionth Chevrolet June 30, and the 24 millionth Chevrolet December 22.

It has been 23 years since Chevrolet gained first place in production and sales in the automobile industry by producing more than a million vehicles in 1927. And it has been 15 years since that leadership was challenged, for one year, in 1935.

Chevrolet's first two-million vehicle year included 521,011 Chevrolet trucks, also a new record. Until 1950, only two makers had built more than 500,000 passenger cars in a single year.

COCKED HAT

The cocked hat, some say, grew out of the wide-brimmed hat which had become popular in European military use about the mid 1600's. Unsuitable in high winds at sea, such head coverings were adapted to naval purposes, so the story goes, by crushing the crown, and turning up or "cocking" the sides. At one time the army and navy turned to three-cornered hats. Later, the modern flat-sided styles were evolved for dress, often with a plume.

Square Dance Contest at Fort Worth Show

Fort Worth — Square dance teams in the great Southwest now have a chance to win cash and fame at the Southwestern Exposition and Fat Stock Show, dates of which are January 26 through February 4.

Hoe-downers will converge on Fort Worth to participate in the second annual Southwestern Square Dance Championship contest to be held in conjunction with the Fat Stock Show. Premium awards amounting to \$1,200 and trophies will be given to top teams.

Closing date for entries is Jan. 27. Those teams not having the rules or entry blanks should write to Ted Gouley, Square Dance Director, Box 150, Fort Worth, Gouley will serve as director for the second consecutive year.

The contest will begin Saturday afternoon, Jan. 27, and will continue each day through Feb. 4 in Will Rogers Memorial Auditorium.

Three divisions will compete: adult professional, adult amateur and young people's. Last year's contests attracted thousands of enthusiastic spectators.

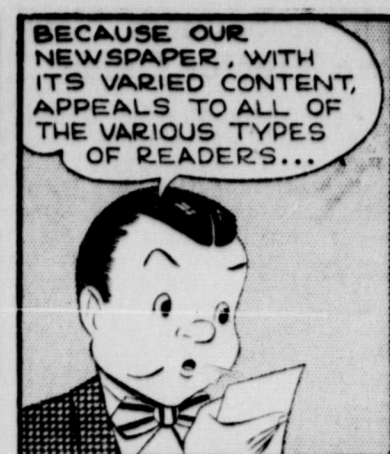

Meanwhile, plans are shaping up for the finest exposition in the 55 years' history of the Fort Worth stock show, headlined by the world's greatest indoor rodeo and a livestock show with a record-breaking number of entries.

SPINDLETOP'S 50TH ANNIVERSARY

This year, Texans are celebrating the 50th anniversary of the discovery of the Spindletop oil field—the fabulous strike which ushered in a new era in the petroleum industry and started Texas on the road to being the greatest oil state in the nation. On Jan. 10, 1901, Capt. Anthony Lucas completed the Spindletop well, a booming gusher which during its first nine days produced 75,000 to 100,000 barrels of oil a day. The petroleum industry was not new to Texas, but development and production up to that time had been slight. Close to 50,000 people descended on nearby Beaumont and its 9,000 residents to launch a wild search for oil that eventually spread over the whole state. Within a year 138 producing wells were brought in at Spindletop alone. Some of the industry's leading companies were born in the spectacular period of development.

AUTO FASTENINGS

There are more than 3,200 fasteners, including nuts, bolts, screws and rivets, in a typical passenger automobile.

March of Dimes Poster Boy Comes to Texas

Austin — The farm lad whose cheery face graces 1951 March of Dimes campaign posters is coming to Texas. The boy, twelve year old Larry McKenzie, will visit Houston in January to take part in the buildup for the 1951 March of Dimes in Texas' largest city.

Larry, Kuckville, N. Y., 4-H club boy, has told his Houston hosts that he would like to get away from big city activities during his Houston trip to get out into the country to visit with some typical Texas farm boys and girls.

Improvement of the young fellow, who was stricken with the bulbar type polio in August, 1949, has been remarkable, according to physicians.

For weeks Larry was desperately ill. His arms, legs, throat, chest and even his eyes were affected. But thanks to the care financed by contributors to the March of Dimes, he has rallied so well that he has already been able to dispense with his left-arm splint. He confidently expects to be back doing his share of the farm chores.

Young McKenzie's infectious good nature so impressed members of the Orleans County (N. Y.) Chapter of the National Foundation for Infantile Paralysis that he was successfully sponsored as the 1951 MOD poster boy. Now with both arms outstretched, his good left extended more than his splinted right, Larry's grateful, confident face presents a smiling symbol of the thousands who look to the March of Dimes for aid when polio strikes.

Larry's visit is counted on to remind Texans of the countless benefits from supporting the 1951 March of Dimes, January 15-31, especially since Texas has felt the full impact of polio the last three years and thus has incurred a large financial deficit. His pending trip also prompts the reminder that a little Texas girl, Wanda Wiley of Austin, was the 1950 March of Dimes poster subject.

American Homes Increase 25 Per Cent in Last Decade

Fort Worth — American homes have increased in number of 25 per cent during the decade just ended, according to Joe Driskell of Fort Worth, president of the Texas Association of Home Builders.

"This period marks ten years of production and progress in home building never before equaled," Mr. Driskell stated, in releasing a study of population and housing based on 1950 census figures.

In 1949, for the first time in history, the homebuilders put up more than a million homes in a single year, Driskell said, and they topped that figure in 1950, adding nine million homes during the decade. At the time of completion of the 1950 census, the study showed a whopping total of 46,151,000 dwelling units available for the estimated 43,468,000 households. The census, Driskell pointed out, includes only a small portion of the estimated 1,300,000 homes built during 1950.

While the population was growing 14.3 per cent, from 131,669,000 to 150,556,000, the number of homes grew 23.6 per cent during the same ten years. Starting with 37,325,000 homes in 1940, the homebuilders completed more than 8,826,000 homes during the following decade.

Texas stood high in homebuilding achievement during the year just completed, Driskell said, with some estimates of new homes in the state running close to a quarter million during 1950. This outstanding building record, the study pointed out, was made during the 1940-50 decade despite the greatest war in history which brought home building down to a minimum for several years. The report indicated that the government-set target of from 800,000 to 850,000 new homes during 1950 would fall far short of meeting still-unsettled demand for domestic housing.

WILDCATTERS TO DRILL FOR OIL ON MOUNTAIN TOP

The never-ending search for oil has carried wildcaters to the top of a 6,880 foot mountain in California. To bring equipment to their lofty drilling site, the company has constructed an eight and one-half mile road at a cost of \$80,000. Water for the operation will be pumped up through a six-mile pipe from a water well drilled 3,000 feet down the mountain. Because winter storms often close the roads in the mountainous territory, sleeping and cooking facilities are being installed at the rig.

STAFF OF LIFE

Although bread accounts for only 17 per cent of the total expenditure for food in this country, it furnishes 26 per cent of the iron.

VERSATILE ALLOY

Monel, an alloy of approximately two-thirds nickel and one-third copper, is widely used for all purposes involving resistance to corrosion, wear and temperatures up to 1000 degrees Fahrenheit. Applications range from motor boat shafting to laundry and chemical equipment.

At various states in the present dispute with the brotherhoods of railroad operating employees... the railroads agreed to arbitrate. The union leaders refused. ... the railroads accepted the recommendations of President Truman's Emergency Board. The union leaders refused. ... the railroads accepted the White House proposal of August 19, 1950. The union leaders refused. Finally an Agreement was signed at the White House on December 21, 1950. Now the union leaders seek to repudiate the Agreement. The railroads stand ready to put the terms of this Agreement into effect immediately, with back pay at the rates and date indicated. The Agreement is given in full below.

the Railroads **RESPECT...** What is the TRUTH?

the Labor Unions **REPUDIATE** this agreement!

MEMORANDUM OF AGREEMENT

Washington, D. C.
December 21, 1950

1. Establish 40 hour week for yardmen with increase of 23 cents effective October 1, 1950, and additional 2 cents effective January 1, 1951.
2. Set aside 40 hour week agreement until January 1, 1952, and establish 6 day work week for yardmen. Effective with the first pay roll period after 30 days from the date of execution of the formal agreement, yardmen required by the carrier to work on the 7th day to be paid overtime rates except engineers who shall receive straight time rates for the 7th day. This does not create guarantees where they do not now exist. On and after October 1, 1951, three months' notice to be given of desire to go on 40 hour week. Provide for consideration of availability of manpower and 4 cents per hour if and when the 40 hour week actually becomes effective.
3. Settle rules for 40 hour week and 6 day week.
4. Grant yard conductors and brakemen other rules such as daily earnings minimum, car retarder operators and footboard yardmasters as recommended by Emergency Board No. 81.
5. Settle following rules:
Initial Terminal Delay (Conductors and Trainmen)
Interdivisional Runs
Pooling Caboose (Conductors and Trainmen)
Reporting for Duty
More than One Class of Service
Switching Limits
Air Hose (Conductors and Trainmen)
Western Differential and Double Header and Tonnage Limitation (Conductors and Trainmen, all Territories)
6. Road men to receive 5 cents per hour increase effective October 1, 1950 and additional 5 cents per hour increase effective January 1, 1951.
7. Quarterly adjustment of wages on basis of cost

of living index (1 point to equal 1¢ per hour. First adjustment April 1, 1951. Base to be 176).

8. Agreement embodying principles applicable to yardmasters to be entered into for benefit of yardmasters.

9. Effective October 1, 1950, the basic hours of dining car stewards shall be reduced from 225 to 205 hours per month; no penalty overtime to accrue until 240 hours have been worked, the hours between 205 and 240 to be paid for at the pro rata rate.

Effective February 1, 1951, overtime at time and one-half shall accrue after 220 hours have been worked. The basic monthly salary to be paid for the 205-hour month shall be the same as that now paid for the 225-hour month. Except that four dollars and ten cents (\$4.10) shall be added to the present monthly rate effective January 1, 1951.

10. In consideration of above, this agreement to be effective until October 1, 1953, and thereafter until changed or modified under provisions of Railway Labor Act. Moratorium on proposals for changes in wages or rules until October 1, 1953, as follows:

No proposals for changes in rates of pay, rules or working conditions will be initiated or progressed by the employees against any carrier or by any carrier against its employees, parties hereto, within a period of three years from October 1, 1950, except such proposals for changes in rules or working conditions which may have been initiated prior to June 1, 1950. Provided, however, that if as the result of government wage stabilization policy, workers generally have been permitted to receive so-called annual improvement increases, the parties may meet with Doctor Steelman on or after July 1, 1952, to discuss whether or not further wage adjustments for employees covered by this agreement are justified, in addition to increases received under the cost of living formula. At the request of either party for such a meeting Doctor Steelman shall fix the time and place for such meeting. Doctor Steelman and the parties may secure information from the wage stabilization authorities or other government agencies. If

the parties are unable to agree at such conferences whether or not further wage adjustments are justified they shall ask the President of the United States to appoint a referee who shall sit with them and consider all pertinent information, and decide promptly whether further wage increases are justified and, if so, what such increases should be, and the effective date thereof. The carrier representatives shall have one vote, the employee representatives shall have one vote and the referee shall have one vote.

11. If the parties cannot agree on details of agreement or rules they shall be submitted to John R. Steelman for final decision.

The usual protections for arbitrators, miscellaneous rates, special allowances, and existing money differentials above existing standard daily rates will be included in the formal agreement.

** The foregoing will not debar management and committees on individual railroads from mutually agreeing upon changes in rates, rules and working conditions of employees covered by this agreement.

Brave Ranch Youth Paces Dimes Drive

One of the countless reminders of March of Dimes benefits brightens the current Texas story. It concerns a heroic farm lad—Terry Macfarlane, 17 year old player on the Dripping Springs six-man high school football team. Stricken with polio at midseason, Terry shifted his fighting instinct from the playing field to Brackenridge Hospital in Austin.

The husky 185-pounder surprisingly overcame tremendous odds to conquer a crippling polio attack.

Terry, who is treasurer of the local Future Farmers Club, was carried into the hospital paralyzed from the waist down. His arms and shoulders also were affected. Ed S. Stewart of Abilene, chairman of the 1950 Texas March of Dimes, said such cases usually take months, sometimes years. Complete recovery generally is doubtful.

Terry kept assuring the staff of the Austin polio ward, maintained by the Travis County Chapter of the National Foundation for Infantile Paralysis. He insisted that he would get back to the football field. You see, he was headed for the University of Texas squad. Besides, his horse, "Tall Boy," needed breaking in better. He had thrown Terry twice.

Terry relentlessly paced his own treatment, pressing the agonizing physical therapy routine so courageously that he had an astonishing comeback. Then he got the tremendous lift of being named mascot for the Longhorns. The trimming included a last-minute 50-yard line seat. Thus, he triumphantly joined the Cotton Bowl celebrities.

The story of this fine young man has gone a long way toward stimulating interest in the 1951 Texas March of Dimes since this annual campaign raises most of the money to treat polio patients.

Plug-In Light New Auto Idea

A portable spotlight, that plugs into the automobile cigarette lighter (arrow, lower right) and furnishes brilliant illumination, is introduced by Chevrolet in its 1951 accessory line. Demonstrated here by Marjorie Zupner, the chrome-plated light comes with enough wire for use all around the car as a trouble lamp, or as a spotlight from inside the car.

Gordon R. Bennett New McMurry V. P.

Abilene — Gordon R. Bennett has been selected acting executive vice president for McMurry College, succeeding the late O. P. Thrane, according to S. M. Jay, McMurry Board of Trustees president.

Thrane, long a leader in this area, died at the age of 70 in a Dallas hospital Jan. 3 following brain surgery. The former Snyder banker joined the McMurry administration in 1936 as business manager and shortly thereafter was named vice president. He retained his business manager duties until 1949, when he became executive vice president.

Bennett has been with McMurry College as assistant to the president since 1948. He will continue to hold this post, at least until the board takes official action in March.

Known over West Texas as a public speaker—both for McMurry College and on world-wide events—Bennett has had school administrative experience at Hamlin and Avoca. He holds a master of arts degree from Hardin-Simmons University and a bachelor of arts degree from Baylor University. Bennett has also done further graduate work at the University of Texas and at Texas Technological College.

Bennett was born and reared at Stamford.

REDUCING DIET

Gayelord Hauser, author of the best seller, "Look Younger, Live Longer," has devised a reducing diet which he says "will help you to be 10 pounds lighter in exactly 10 short days."

The diet, which is printed in complete form in a recent issue of Cosmopolitan magazine, uses plenty of protein foods plus fruits, vegetables, and milk to avoid over-acidity.

The daily breakfast menu consists of half a grapefruit and coffee, either clear or with cream. This meal is "fortified" with one liver oil capsule, one ascorbic acid tablet, one wheat germ capsule, and other tablets containing calcium, phosphorus, iron and iodine.

A typical dinner menu includes broiled beef tenderloin or lean steak, half a cup of broccoli or cauliflower, half a cup of fruit salad, and "fortified" milk or demitasse.

The diet gives menus for each meal throughout the ten-day period, and includes a recipe for preparing the fortified milk.

Gulf Announces New Farm Tractor Guide

A new Farm Tractor Guide, with a wealth of valuable ideas for making farm tractors last longer and perform better, has been published by the Gulf Oil Corporation and is ready for free distribution to all who request it.

The Guide is of convenient size and contains 76 pages. It is profusely illustrated and written in easily understandable language for more efficient and comprehensive use.

In addition to the photographs used for illustrative purposes, the Guide also carries complete, easy-to-read diagrams covering every phase of farm tractor lubrication.

Included in the Guide are sections on lubrication and maintenance of engines, crankcases, oil filters, carburetors, fuel pumps, valves, transmissions, air cleaners, etc.

Complete sections on the care of the cooling and ignition systems are also included, as well as well-illustrated sections on the care and maintenance of tires, tubes and batteries.

Of particular interest to all owners of farm tractors right at present is a section containing tips on cold weather operations and storage for winter.

Also incorporated in the Guide is a very informative section entitled "The Trouble Shooting Guide," which gives valuable tips on where to look for trouble in any case of engine failure.

The Guide concludes with a pertinent section on rules for safe tractor operation and the nine general rules for giving temporary first aid in case of farm accidents.

It is sized just right, and the book is punched for hanging in readily accessible places in barns, garages, and sheds.

The new Gulf Farm Tractor Guide may be obtained free of charge by contacting M. F. Crowell, local distributor of Gulf Oil Products.

Weekly Sermon

A NEW SONG

by L. L. Macfarlane, Moody Bible Institute, Chicago

At this season we talk of the new year and of new resolutions, but how many think of singing a new song?

As we look over the past twelve months, we think of them as a time of trouble and strife. Yet God has given this nation good crops, a democracy that is still free, material comforts without measure. The psalmist David said, "O sing unto the Lord a new song; for He hath done marvelous things. . . Sing unto the Lord a new song, and His praise in the congregation of saints."

But how can we get this song? Who has written it? What type is it? We turn again to the Psalms for the answer, and learn from David how we obtain it. "I waited patiently for the Lord; and He inclined unto me, and heard my cry. He brought me up also out of an horrible pit, out of the miry clay, and set my feet upon a rock, and established my goings. And He hath put a new song in my mouth, even praise unto our God: many shall see it, and fear, and shall trust in the Lord (Ps. 40: 1-3).

Have you experienced this new song? Have you cried unto God to lift you out of the clay of sinful and selfish ways? God loved us so much He sent His only Son Jesus into this world, that "whoever believeth in Him should not perish, but have everlasting life" (John 3:16). God, through Jesus Christ, will lift up all those who cry unto Him, and put a new and glad song of praise in their hearts. Start the new year with Christ and a new song.

200 Nurses from This Area Needed for Army

Austin — In response to the Army's urgent call for nurses last week, Lt. Col. Augusta L. Short, Fourth Army's Chief Nurse, said that the headquarters hoped to be able to provide more than 200 from this area within the next two months. An estimated 115 of these women will be Texans.

The nurse shortage, already of grave concern to both military and civilian medical leaders, was brought into sharp focus last Friday when Brig. Gen. Paul I. Robinson, Army Medical Service Chief of Personnel, told a Washington nursing conference that 3,000 nurses must be obtained at once for service with the Army Nurse Corps.

"Army Nurse Corps procurement has averaged 175 nurses per month for the last four months," General Robinson told the nursing officials. "This is unusually high procurement—but it is not enough. Without your immediate assistance, I hesitate to predict how we will be able to provide nursing care for the thousands of casualties returned to the U. S."

Colonel Short will attend a conference in Washington January 5 to help outline plans for long range procurement. The American Nurses Association will meet in New York City to establish state procurement quotas and launch a nation-wide drive to fill immediate Army Nurse Corps requirements by February 1.

Qualified women interested in joining the Army Nurse Corps may inquire at their local Army and Air Force recruiting stations or contact Colonel Short at Fourth Army Headquarters.

NO FLYING SAUCERS

Col. Harold E. Watson, head of the Air Force's "Project Saucer" unit, recently said there are positively no flying saucers, either hostile or our own—but it costs taxpayers plenty to expose this great American hoax.

Writing in a recent issue of Cosmopolitan magazine, veteran reporter Bob Considine quotes Watson as saying, "I wish we did have a form of propulsion capable of doing all the things people attribute to saucers. It would have come in handy in Korea."

According to Considine, the Air Force blames most of the daily saucer reports on weather balloons, flares, meteorites, hallucinations, pilot fatigue, power of suggestion, and the reflection of objects in aircraft windows and windshields.

The article refers to the acceptance of the saucers by prominent magazine writers, aeronautical experts, Navy officers and airline pilots. The Air Force, he says, feels "dutybound to investigate" the claims.

Considine points out that various saucer reports have been traced to bizarre bits of ordinary machinery built as pranks, to "eye witnesses" who refused to answer investigators' questions, and to former inmates of insane asylums.

"Air Force officers and trained civilian agents," he says, "schooled at a cost of hundreds of thousands of dollars" have spent as much as six months running down one of the fake saucer stories.

"The most callous and cynical saucer-hoaxers," he adds, "will continue to go scot free, with a cackle of delight, until a penal act is created to check such offenses."

PSYCHONALALYSTS

One of the world's best known psychiatric clinics admits that analysts should have some of the trouble in their own background in order to be able to help patients.

According to an article in a recent issue of Cosmopolitan magazine, a survey made by the Menninger Clinic, at Topeka, Kansas, revealed that "a person should not be excluded from the profession because she or he had attempted suicide, engaged in sexual perversion, cheated with money or been alcoholic or hypochondriac."

Under the title, "Are Psychonanalysts Crazy," writer George Frazier makes other startling disclosures about this field of medi-

cine. Acknowledging that "psychoanalysis is supposed to make life more beautiful," he charges that "a surprising number of its practitioners seem neurotically enthralled with the idea of death."

Frazier reports that about 6000 Americans who believe they have some sort of mental distress take psychiatric treatments three to five hours each week. And he names a New York analyst who reported that there had been few "cures," and "good results" in only thirty to forty per cent of several thousand cases surveyed.

Theorizing that the main reasons why many people take such treatment are because it is fashionable and flattering, the author explains that the luxury of undergoing it "is probably the only thing in medicine denied to the poor."

According to the article, Frederic Wertham, "a prominent psychiatrist," has said that, "I have come reluctantly to the conclusion that eight out of ten orthodox psychoanalyses are more harmful than helpful."

Army Reserve Units Get Summer Training

Austin — Announcement of Army reserve units scheduled for two-week summer field training during 1951 was made by Colonel C. M. Culp, Chief of the Texas Military District, said recently.

Texas reservists will be sent to five training stations during the period June 10 to August 25: Fort Hood, Fort Bliss, Fort Sam Houston and Red River Arsenal in Texas and Fort Sill, Okla.

Commanders of the reserve units have been instructed to notify all members of their units of the dates and locations of the training.

Under a recently announced policy of the Department of the Army all reservists assigned to units who have received drill pay during the past calendar year will be required to attend summer field training unless specifically excused by the military district chief, Colonel Culp stated.

Field training schedules are designed to give practical training to staffs and commanders of the units as well as to better qualify both officers and enlisted reservists in their specific duties in the unit.

Colonel Culp pointed out that various small and highly specialized units and those which have no enlisted strength are not listed

4—THE FOARD COUNTY NEWS

Crowell, Texas, Feb. 1, 1951

MAXIMUM CAPACITY

In order to cope with the extraordinarily heavy demand for nickel, International Nickel, the largest producer, maintained production at maximum capacity in the past six months. This is only possible through a development and expansion program that provides greatly increased ground ore facilities to open pit ore, depleted stockpiles and expansion of processing development and expansion program has entailed expenditures in recent years of some \$90,000,000 of which over \$40,000,000 has been spent since the end of World War II.

WAC reservists, both officer and enlisted, will attend field training with the unit to which they are assigned. They will live with the regular WAC detachments on the post at which their training is conducted.

Individual reservists, not assigned to units, may attend the summer camps and receive training by being attached to units included in the schedule. Some individuals will be trained by being attached to regular army organizations for the two-week period or by being ordered to duty with ROTC camps.

CHEAP DAIRY FEED

Water is the cheapest dairy feed there is—let the cows have plenty.

DIESEL UNITS

Steel accounts for 70 to 80 per cent of the weight of most Diesel locomotive units.

What Would They Say About Our Sacrifices?

It wouldn't be hard to imagine what Lincoln and Washington would say about the so-called sacrifices we are forced to make today. They would probably say that high taxes and inconveniences are but a small price to pay for the liberty they did so much to preserve.

They would undoubtedly also consider U. S. Savings Bonds as the world's wisest investment, which they are. Buy an "extra" bond from us the next time you come in.

Just Out! NEW FORD TRUCKS for '51 WITH PROVEN

Like ALL new Ford Trucks for '51, this 145-h.p. BIG JOB gives you Power Pilot Economy. Over 180 models . . . one for almost any job!

Highball along to a new high in SAVINGS! Ford step-ahead engineering triumphs again with Power Pilot Economy! With many other new features!

• '51 is a BIG year for Ford Trucks! A host of great NEW features make new Ford Trucks more than ever the owner's choice for economy—the driver's choice for comfort! New 5-STAR Cab . . . new autothermic pistons, new high-lift camshafts . . . new 4-speed Synchro-Silent transmission available at extra cost in Series F-4, F-5 and F-6. Check the list of new Ford Truck advancements, and you'll know they're the BIG money-savers for '51.

POWER PILOT ECONOMY

The Ford Truck Power Pilot is a simpler, fully-proven way of getting the most power from the least gas. It automatically meters and fires the right amount of gas, at precisely the right instant, to match constantly changing speed, load and power requirements. Unlike conventional systems, the Power Pilot uses one control instead of two, yet is designed to synchronize firing twice as accurately. You can use regular gas . . . you get no-knock performance. Only Ford in the low-price field can give you Power Pilot Economy!

Ford Trucking Costs less because— F.D.A.P. **FORD TRUCKS LAST LONGER!** Using latest registration data on 6,592,000 trucks, life insurance experts prove Ford Trucks last longer!

RIVERSIDE

MRS. CAP ADKINS

Pfc. Morris Johnson of Fort Hood has been visiting his parents, Mr. and Mrs. Joe Johnson, and Phil.

Ira Tole was a business visitor to Dallas last week.

Mr. and Mrs. Carl Bledsoe of Colorado, Dr. R. E. Main and daughter, Emma, of Vernon and Mrs. Ernest Earthman of Thalia visited in the Cap Adkins home Wednesday afternoon. Mrs. Bledsoe is the former Josie Main.

Mrs. Sam Kuehn and Ewald Schroeder attended an all-day meeting of club women at Crowell Friday.

Mrs. Loyd Gray and daughter, Mrs. Lyman Tolar of Vernon visited Mr. and Mrs. Charley Gray Thursday.

Bennie Lou Hopkins of ACC, Abilene, spent the week end with her parents, Mr. and Mrs. Ben Hopkins.

Mr. and Mrs. Houston Adkins and family of Crowell, Mr. and Mrs. Louie Pyle and daughter and Mr. and Mrs. F. W. Butler of Thalia visited in the Cap Adkins home Sunday afternoon.

Mrs. E. D. Poyner and infant daughter have returned from a Vernon hospital and are at the home of her parents, Mr. and Mrs. S. B. Farrar.

Ben Hopkins, accompanied by his daughter, Bennie Lou, of Abilene visited the Tom Ward family of Chillicothe Sunday afternoon.

Mr. and Mrs. S. B. Farrar entertained a number of guests in their home Sunday afternoon honoring their daughter, Claudell, on her birthday. Those present were Mr. and Mrs. Alton Farrar and boys, Mr. and Mrs. Doc Hudgens and children, Mr. and Mrs. Hudgens and girls, Mr. and Mrs. Deloyd Robinson, all of Lockett, Mr. and Mrs. Jim Moore and children, Mr. and Mrs. Jesse Moore and son, Stevie, all of Thalia, Mrs. Poyner and Wanda, Mrs. T. F. Lambert Jr. and children, Mrs. Nub Lawson and Reba of Rayland, Mrs. Ben Hopkins and Rita Sue. Refreshments were served.

Mr. and Mrs. F. W. Butler of Thalia were dinner guests of their daughter and family, Mr. and Mrs. Ernest Cribbs, Sunday.

Mr. and Mrs. Fred Motl and family of Bomarton and Mrs. B. F. Grill and children of Seymour visited Mr. and Mrs. Johnnie Matus Wednesday. Mr. Motl is a brother of Mrs. Matus.

Mr. and Mrs. Jerry Stengle and boys have recently moved to the Tom Martin farm, from Arkansas. They visited Mr. and Mrs. Johnnie Matus awhile Sunday night.

Miss Madelyn Motl of Bomarton spent from Saturday until Tuesday with her aunt and family, Mr. and Mrs. Johnnie Matus.

Mr. and Mrs. Johnnie Matus and sons visited Dr. and Mrs. B. F. Grill of Seymour Tuesday night.

Mr. and Mrs. Johnnie Matus honored Mrs. A. L. Luppenski Thursday night with a hamburger supper, it being her birthday. Those present were Mr. and Mrs. Charley Drabek and family of Crowell, Mr. and Mrs. George Petrus and family of Harrold, Miss Madelyn Motl of Bomarton, Mr. and Mrs. Anton Kajs and family, Robert and Charley Matus, the honoree and family, the hostesses, Mr. and Mrs. Matus and sons.

"King of Milers"

Washington, D. C. — Don Gehrmann, America's "king of the milers," left, is shown winning the Junior Board of Trade Invitation, one-mile run, feature event in the fourth annual Evening Star track games in the National Guard armory. Ingvar Bengtsson of Sweden finishes second by inches.

Thursday with Mrs. Barton in Vernon.

C. F. Bradford, Coy Payne, W. A. Dunn and Arthur Bell were business visitors in Quanah Friday.

Mrs. C. R. Moore attended a parliamentary meeting of the H. D. Club in Paducah Wednesday.

Mrs. A. J. Jackson and children of Black visited her mother, Mrs. C. F. Bradford, Friday.

Mrs. Arthur Bell and Mrs. R. A. Bell attended a THDA meeting at the Club House in Crowell Thursday.

Billy Barnett from Sheppard Field visited his mother, Mrs. Cora Barnett, over the week end.

Mrs. Charlie Huskey of Thalia visited her parents, Mr. and Mrs. Jim Choate, Wednesday.

Jim Owens and John Taylor were business visitors in Quanah Tuesday.

Mr. and Mrs. Frankie Halencak visited relatives in Matador and Lubbock from Friday until Sunday.

Luke Bledsoe was dismissed from the Crowell Hospital Saturday.

Mr. and Mrs. Louie Halencak of Rayland visited his father, Fred Halencak, Friday.

Mr. and Mrs. Ross Malone of Vernon visited his parents, Mr. and Mrs. J. I. Malone, Saturday.

ANCIENTS KNEW ELEMENTS

The elements themselves are an old story. Many of them, such as iron, copper, carbon, sulphur, gold and silver, have been known to mankind and used for thousands of years. Although the Greeks mistakenly defined as "elements," air, fire, water and earth, this general term for them is still popularly used.

Only with the permission of Congress may an officer in the U. S. Government accept a title of nobility or order of honor from another country.

MARGARET

MRS. BAX MIDDLEBROOK

Mr. and Mrs. John L. Hunter Jr. and Frank Halencak spent from Friday until Sunday evening with their sons, Lewis Hunter and Billy Joe Halencak, in San Antonio.

Mr. and Mrs. A. B. Owens visited their daughter, Laverne, in Lubbock Saturday.

Mary Ray Ayers from Texas Tech at Lubbock visited her parents, Mr. and Mrs. Roy Ayers, during mid-term holidays.

Mrs. S. B. Middlebrook of Vernon visited Mrs. Bax Middlebrook Wednesday.

Rev. Joe Green has resigned as pastor of the Margaret Baptist Church to accept a church at Burkburnett.

Mrs. W. A. Dunn visited her sister, Mrs. Homer White, and family at Chillicothe Friday.

Mr. and Mrs. O. C. Allen and Sherry Haseloff went to Shamrock Friday after her parents, Mr. and Mrs. W. R. McCurley, who had spent last week with relatives there. They returned home Saturday.

Joe Orr and daughter, Miss Audra, spent the week end with John and Ethel Warren at Littlefield.

Mr. and Mrs. C. T. Murphy and C. W. Ross were Vernon visitors Friday.

Billy George Pruitt attended the Fat Stock Show in Fort Worth over the week end.

Mr. and Mrs. Fred Reed and Mr. and Mrs. A. D. Scott and son, Donnie, of Vernon were visitors in the Dink Russell home Sunday afternoon.

Wayne Lindsey has returned from Wilson, Okla., where he visited his brother, R. C. Lindsey, and family.

Mr. and Mrs. W. H. Tamplin, Buss Ingle and children, Betty Jane and Don Keith, visited Mr. and Mrs. Lee Echols and children in Lubbock Saturday. Mrs. Ingle, who had spent the week there, returned home with them Saturday afternoon while Mrs. Tamplin stayed for a longer visit.

Mr. and Mrs. Bill Murphy visited their daughter, Mrs. Dewitt Edwards, in Wichita Falls Thursday.

Mrs. C. F. Bradford spent

Armor and Artillery Branches of Army Get New Insignia, Colors

Austin — The Department of the Army has approved insignia, branch colors, guidons and cap braid colors for its new Armor and Artillery branches.

Under provisions of the Army Organization Act of 1950, the Cavalry branch was replaced by the Armor branch. Likewise, the Field Artillery, Coast Artillery and Antiaircraft Artillery were consolidated into the Artillery branch.

The Armor branch officers' insignia will be a front view of an M-26 tank (original version of the Patton tank) with gun slightly raised and superimposed on two crossed Cavalry sabers in scabbards with cutting edge up. Of gold colored metal, the insignia is 13-16 of an inch in overall height.

The Armor branch enlisted men insignia is reduced in size for wear on a one-inch disk, all of gold colored metal.

Yellow, the color of the former Cavalry branch, will be the Armor branch color. Guidons will be yellow, with green insignia, letters and numerals. Garrison cap braid for enlisted men also will be yellow.

The Artillery branch, consolidating the former Field Artillery, Coast Artillery and Antiaircraft Artillery branches, will retain the "crossed field guns" insignia, used by the Field Artillery for more than 100 years and one of the oldest insignia in current use by the Armed Forces.

The Artillery branch color is the traditional Artillery scarlet. Guidons will be scarlet, with insignia, letters and numerals of yellow. Garrison cap braid for enlisted men also will be scarlet.

The Army has authorized continued use of present standards and guidons until such time as replacement is necessary.

New Armor insignia will not be available for some time. Until it is available, personnel are authorized to wear present insignia.

13-YEAR STUDY ON WILDLIFE

Austin — University of Texas zoology researchers have started a 13-year study of Texas miniature wildlife: mice, rats, lizards, and reptiles.

The scientists are graduate students directed by Dr. W. Frank Blair. They are attempting to determine the home range, habits and characteristics of the small creatures.

Since most of the species are

rodents, information about them can be applied in trapping and control as well as being important as basic scientific knowledge.

The researchers are four years deep in their project and have studied representative areas of the Big Bend and Stockton Plateau in West Texas, and the northern Panhandle. Dr. Blair hopes to compile data on every section of Texas before the project is terminated.

In studying the range and habits of mice and rats, the scientists set up a carefully plotted gridiron of traps over a given area—usually 60 acres. In investigating lizards and reptiles, the researchers capture specimens with nets or string nooses, mark them with nail polish, and chart their movements in a gridiron of stakes.

If sold for the value of its chemical elements, the human body would be worth about 28 cents.

Nothing Better Than Good Food, Says Ohio Man

If a man isn't able to eat the foods he likes he's in mighty sorry shape—imagine going through life without being able to enjoy a fine big platter of bacon and eggs. That is the way Joseph N. Damillot, 3414 E. 5th Street, Dayton, Ohio, used to be, but since he has been taking HADACOL, he says he feels just fine and is able to enjoy lots and lots of fine foods. Mr. Damillot found that taking HADACOL helped his system overcome a deficiency of Vitamins B₁, B₂, Niacin and Iron.

Here is Mr. Damillot's statement: "My first bottle of HADACOL convinced me that HADACOL was what I needed for the gas on my stomach at night. I could not keep food on my stomach, but after the first bottle I was going great. Now I eat bacon and eggs, and other foods that never would stay with me. I also can sleep well at night. Thanks to HADACOL I will never be without it, and can recommend it to all who suffer with the above ailments that I had. I know because I have suffered for quite some time."

Economic Highlights

"It is a mad world, my masters!" says a character in one of Shakespeare's plays. The Bard of Avon died centuries ago, but that particular observation is 100 per cent timely now.

We are now engaged in a conflict with a nation which was our ally a few short years ago, the Soviet Union. At the same time, there is more and more consideration of the possibility of rearming and enlisting as new allies the principal nations against which we fought the greatest war in history, Germany and Japan.

So far, Germany has shown small enthusiasm for this idea. A joke which has been making the rounds in that torn and battered

country goes like this, "In another war, the United States will furnish the air force, Britain will furnish the fleet, France will furnish the ground troops, and Germany will furnish the war criminals." Every evidence indicates that the majority of Germans hate and fear the Russians. But, at the same time, they have little love for the Western occupying powers.

Japan presents a different situation and a different problem. There the occupation has undoubtedly been more successful than anywhere else. One may or may not like MacArthur and his policies and attitudes, but it cannot be denied that he has obtained results. He has been greatly aided by the cooperation of the Emperor. In Japan, emperor-worship has existed for thousands of years, and it exists today in almost as pure a form as ever.

Where do the people of Japan stand in the current world conflict? There is a militant communist party in Japan, but it seems to have made small headway. The age-old Japanese tradition is authoritarian, but it represents an entirely different philosophy of authoritarianism than does communism.

Mr. Yoshida writes in the January issue of Foreign Affairs, "We are ready and anxious to join, do our full share and make sacrifices, if necessary, in any arrangement for international cooperation under United Nations' auspices to ensure the security of the Pacific as well as Japan."

He writes further that the differences in aim between democracy and communism are "absolutely irreconcilable" and that "any attempt at appeasement or compromise on the part of the free nations is unthinkable."

Japan, of course, wishes a peace treaty—a technical state of war still exists between her and 49 other countries. Mr. Yoshida points out that the Soviet Union has refused consent to a treaty, and urges a separate peace with the 44 nations outside the present Russian orbit. And here he makes this observation: "We do not know what will be the conditions of peace. This is a treaty Japan will

conclude as a defeated nation for the first time in her history, and it is likely to prove a bitter pill for us to swallow. But we are prepared to take our punishment." Japan has been 100 per cent disarmed. But Japan is the key to the Pacific, and it is very possible that she will again be made into a military power. And there is one interesting fact in this connection: Japan is the only modern nation which has defeated Russia, in war, even though that war was a small one by today's standards and was concluded with a single great naval engagement.

Spindletop's Anniversary

Early in January, the birthday of a new era of progress in America's industrial and economic history was celebrated in Beaumont, Texas. It was the golden anniversary of the famous Spindletop oil well, which was brought in in 1901. Spindletop was not the first oil well. At the time there were producing oil fields in Texas and other states. However, Spindletop was the granddaddy of all the big wells that have been brought in since. When it came to life with an earth shaking roar that had been seen or even imagined by oil men.

Oil blew 200 feet into the air for nine days before Spindletop was finally capped and tamed. When the well was brought under control, some 800,000 barrels of crude oil formed a lake measuring about 100 acres. Two months later, despite all precautions, sparks from a passing locomotive set the oil on fire, and it was lost in flames and thick smoke that mushroomed thousands of feet into the air. Nowadays the possibility of such a fire in modern oil fields is extremely remote. The engineers and the scientists have taken care of that.

The news of the incredible well brought 50,000 people to Beaumont, all bent on cashing in on this Klondike. A quiet community with a population of 9,000 became a roaring boom-town almost overnight. Land values soared to fantastic figures. A year later there were 138 producing wells in the area, the boom was fading into history, and the oil men had settled down to the long-term job of efficient development and production. The vast Texas oil industry was well underway. Spindletop had started a great new era in America, and the oil industry of today is the well's monument.

"Meat Nightmare"

"If the government wants to develop black markets, putting on meat ceilings is the quickest way I know."

"Honestly, I'd like to get out of the meat business at a time like this."

These remarks are taken from a long, front-page feature article in a recent issue of the Wall Street Journal, called "Meat Nightmare." The men quoted are both retail meat dealers—one an executive of a supermarket chain, the other the owner of a small butcher shop. And their remarks are typical of those made to Journal reporters in 13 U. S. cities.

What is the reason for this view? Here is how the article explains it: "It's a matter of memory. They claim few Federal rules have ever had a better claim to the title of 'most violated law' than World War II's meat 'controls.' Reflecting how a hoard of black marketers drained meat from the hands of legitimate dealers who did try to stick to the law, they hold that few statutes have ever so penalized those who tried to observe them."

"Official record backs them up. In February of 1946, at the tail end of the OPA era, a Senate committee surveyed retail stores in 11 cities from coast to coast and found five out of six charging above-ceiling prices. With the black markets diverting meat from normal channels, the Bureau of Labor Statistics made a similar check of retail counters and found: 85 per cent had no veal; more than 80 per cent were without pork loins, ham or bacon; almost 70 per cent had no beef or lamb."

Millions of consumers also will remember that era when the black marketer prospered, and most of us went without our fair share of the meat. Let's not have history repeat itself in this case!

One Country Has Plenty Coal Only one country on earth can have all the coal it wants and that country is the United States. Once again, Europe is turning to the American coal industry to help fill her needs. The state-controlled coal industries of England and Germany just can't meet the demand.

Here at home the blizzard of 1950 took a big bite out of the nation's coal stockpile sooner than usual. In addition, demands for coal are growing greatly. But coal production will be plentiful.

Last year, that production averaged 10,000,000 tons a week. An estimated 60,000,000 tons was left in the stockpile at year's end. And if additional coal is needed, the coal industry reports that it can step up production to 12,000,000 tons a week, or even more.

The great contrast between conditions in the coal industry here and abroad can be easily explained. In England and elsewhere, coal was long run by cartels, which stood in the way of real competition. Under socialization and state control, conditions have become even worse. Management is inefficient. Mechanical and scientific improvements have come with snail-like slowness. Labor is un-

Medal of Honor to Relatives of 5 Heroes

WASHINGTON, D. C.—President Truman presented the Medal of Honor, the nation's highest award for valor, to the relatives of five American heroes of the Korean war. Mrs. Mildred Dean, Berkeley, Calif., wife of Maj. Gen. Wm. Dean; Mrs. Lavon Henry, Salt Lake City, Utah, wife of 1st Lt. Frederick Henry; President Truman; Mrs. Madie S. Watkins, Gladewater, Texas, widow of Sgt. Travis E. Watkins; Army Secretary Frank Pace, Mrs. Hazel O. Turner, Boston, Mass., mother of Sgt. Chas. W. Turner; and Edward D. Brown, Mehoffey, Pa., father of Pfc. Melvin L. Brown.

Too Late To Classify

FOR SALE—My place on Paducah highway, west part of Crowell, House, storm cellar and out-buildings.—J. B. Denton, 28-17c

Washington Newsletter

(By Congressman Ed Gossett)

Washington, D. C., Jan. 27, 1951—We dislike always being asked something. We agree with Speaker Rayburn that almost any mule can kick a barn down, while it takes a carpenter to build one. However, sins of commission are usually more harmful than sins

Weakness or Strength?

It is evident that a large and stubborn clique in this government is still fighting for all the costly proposals which would transform this country into a paternal state based on the British socialist model. The vast expense of this, of course, would simply be piled on top of a military budget which may run to \$70,000,000,000 or more. It is even argued that the strains of rearmament will in themselves make extensive "social measures" necessary.

Well, theory is one thing and fact is often quite another. And the evident fact is that the only way we can hope to pay for full-time defense without destroying the value of our money is to cut out every domestic tax expenditure that can be avoided. And we must do this no matter how it hurts, or what it does to the feelings of those who pine for the socialist Utopia.

We cannot draw a fast line between domestic policy, foreign policy, and military policy. Ever-increasing inflation, and a steady decline in the purchasing power of the dollar, could in itself undermine the military program to a disastrous degree. The politicians talk about sacrifices. Let them start by sacrificing political programs which would sorely weaken us when we must be strong. The only ones who are really sacrificing anything are those in the armed forces.

Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, M. D., State Health Officer.

Austin, Texas.—Progress being made in the prevention and control of dental disease through scientific and proper care daily of the teeth was described by Dr. Geo. W. Cox, State Health Officer, in urging the observance of Children's Dental Health Day, February 5.

Dr. Cox said it was with children that modern dentistry has had its greatest success in preventing tooth decay. He told of the research being done by the Division of Dental Health with sodium fluoride in preventing tooth decay—both by fluoridation of community water supplies and the application of sodium fluoride to surfaces of the teeth by dentists.

A control test showed that in one Texas city where the water supply was fluoridated, the rate of decayed, missing and filled teeth among six year old children dropped 47 per cent in 2 1/2 months. In a nearby city where no fluoride was added to the water supply the rate remained at eight decayed teeth per child.

The Texas State Health Department recommends that teeth be brushed after every meal to remove particles of food which may cause decay-producing acids. Brushing teeth a few minutes after eating candy is especially important because acid which attacks tooth enamel is formed by action of bacteria on carbohydrates, especially sugar in a few minutes.

Dr. Cox said children's 20 first teeth should be given the best of care to permit the children to chew properly, to promote facial development and to preserve the space for the 32 permanent teeth which will come in later. Children should pay their first visit to the dentist when all 20 first teeth are in and then see him each six months thereafter.

National Dental Health Day is a splendid time to resolve to do your utmost every day to see that children follow simple dental health rules and are given treatment as required for the preservation of their teeth.

Sincerity is the crowning grace of all culture.

Fire Means Loss! UNLESS—

You Are Insured. Could you meet the heavy demands of a fire in your business? If you have adequate insurance, you have no cause to worry. Insurance is the sensible way to protect yourself against accidents of all kinds.

Hughston Insurance Agency

of omission. We must certainly not drive our country into national socialism (a first cousin of communism) under the pretense of emergency. Everything proposed these days is in some way or another tied on to the defense program. The President has just urged Congressional leaders to immediately authorize the long projected, controversial St. Lawrence seaway and power project. He states the project would open a seaway for moving iron ore from Labrador to our steel plants in the West, furnish additional power, etc. The project would also cost at least a billion dollars and would require five years to complete. It certainly could not be of great aid in the present emergency. Furthermore, it could probably be destroyed by one bombing raid when completed, and in the event of war, it seems to me this is one gigantic spending proposal that we should forget about, at least for the present.

Again, raising an additional 16 billion dollars in taxes is going to require increasing income taxes on people in the lower brackets. Many of them are now hard pressed to meet family budgets. It seems to me that civilian spending should be cut to the bone and that in some way or another the military should be forced to use more good judgment and economy in the manner of their expenditures. War, and war preparation is of course, waste, but it does not have to be the excessive waste to which we have grown accustomed.

Recent newspaper headlines proclaim—"Asia-Arab Bloc in U. N. Opposes United States." This is the bitter fruit of our blunders in underwriting, subsidizing, and creating the sovereign nation of Israel. We spent 100 years of economic and missionary work in building good will among the Asian-Arab countries, and apparently threw it away in one fell swoop. The Moslems, and those allied with them religiously and sympathetically, compose almost one-half of the world's people who control almost one-half of the world's land area. We infuriated them when we helped to drive a million Arabs from their native lands in the Middle East. Thus far, we have kept the Arab nations pretty much in line because of tremendous oil subsidies. However, you cannot kick a fellow in the face and make him your friend by giving him \$100.

Marriner S. Eccles, long-time member of the Federal Reserve Board, gave some potent testimony to a Congressional Committee this week. Among other things he suggested a 44-hour work week without time and a half for overtime. This seems a reasonable request. Many government agencies could easily do their work with their present employees if they

went on a 44-hour work week would hurt this time, 90 per cent of government offices are closed on Saturdays. I have contended that the 40-hour week during the recent war was an insult to American industry and character. Industrial strikes, slow-downs, feathering, and other inexcusable practices in time of war, adding BILLION DOLLARS in the cost of World War II. These practices, if continued in time, will wreck our economy and will cause us to ourselves.

The best mind in Washington feels that Russia would attack the United States if they can build up sufficient and naval power. Most think this would require a few years. This does not mean a few Russian planes could drop bombs on American soil. One real danger right now is that Russia may attempt to take the Ruhr, thus greatly limiting her industrial capacity. If it is impossible that Russia now effectively and disarm attack our homeland. We time to do this job right, should take it in our stride.

YOU'LL LIKE OUR SERVICE

Your watch should be kept in perfect running condition at all times. Because of this it should be inspected regularly and often. It will pay you every cent to let us do the work. Our service is prompt, efficient, economical assuring you of complete satisfaction. Try us next time. You'll be pleased with the results.

Jumbo Brake Shows Chevrolet Advance

This mammoth model of Chevrolet's new passenger car brake reveals the mechanics which build up braking forces and reduce requirements of pedal pressure. In evidence are the actuating hydraulic plunger and the system of springs and links between the two brake shoes and linings. Released, the entire assembly floats free. In operation, however, the anchor (top center) holds assembly stationary. One brake shoe acts to retard the other, multiplying friction and inducing a process called "self-energization."

PERSONALS

We drill water wells. — Tom Greening or W. L. Webb. 26-4tc

Mr. and Mrs. Grover Cole spent the week end visiting relatives and friends in Breckenridge.

See Norge before you buy.—Hays-McLain.

Mr. and Mrs. J. B. Meason and daughter, Kay, of Hamlin spent Sunday here visiting relatives.

Mrs. Milti Taylor of Marysville, Calif., visited two days of last week in the home of her aunt, Mrs. T. W. Cooper, and husband.

Will take off a hatch of baby chicks on Tuesday, Feb. 6, and Tuesday thereafter. Will buy hatching eggs, heavy preferred. — Moyer Producers & Hatchery. 28-1tc

Mr. and Mrs. C. W. (Will) of Dallas spent a short time here Saturday afternoon visiting with friends of Mr. Lindsey. Mr. Lindsey attended the Crowell in the early 1900's when his father, the late Rev. C. E. Lindsey, was pastor of the Crowell Methodist Church. Mrs. Lindsey, 85, lives with C. W. and his in Dallas.

Self-Feeding Salt and Cottonseed Meal to Cattle More Popular

Although livestock men differ in opinion as to the value of self-feeding a mixture of salt and cottonseed meal to cattle—particularly to breeding animals—the practice is growing in popularity. The practice is aimed at reducing the amount of labor normally required for feeding supplements to range cattle. Mixing a high percent of salt with protein supplement or grain limits the amount of feed consumed when a mixture is fed free-choice. The value of this method of feeding depends on whether or not cattle suffer ill-effects from a high intake of salt over a long period of time, says Joe Burkett, County Agent.

An experiment was conducted at the Texas Agricultural Experiment Station, College Station, during the winter of 1949-50 to compare the results of hand-feeding two pounds of cottonseed meal daily with self-feeding a mixture of salt and cottonseed meal. Thirty-five Angus, Hereford and Shorthorn cows were used in the test. They were divided into two groups as nearly alike as possible with respect to age, breed, weight and expected date of calving. The groups were run during the winter on two 200-acre Brazos county upland pastures. An abundance of dry winter forage was available, and the groups were alternated every two weeks to reduce the effect of the different pastures.

One group of 18 cows were hand-fed two pounds of cottonseed meal per head daily in feed bunks. The other group of 17 cows was given free access to a mixture ranging from 15 to 35 per cent salt and 85 to 65 per cent cottonseed meal. Water was obtained from a stream about a quarter of a mile from the feeding location. In order to limit the daily consumption of cottonseed meal to about two pounds, the beef cattle specialists increased the salt content of the mixture as the cows consumed more feed. As feed consumption dropped off later in the spring, the salt content was reduced.

The self-fed group consumed an average of 2.19 pounds of cottonseed meal and .95 pounds of salt per day over the 107-day test period. The hand-fed group re-

M-Sgt. and Mrs. Wayne M. Canup and sons of San Antonio spent the week end visiting Mr. Canup's mother, Mrs. G. M. Canup, and other relatives. They were accompanied by Mrs. D. M. Mills of Lamesa, Mrs. Wayne Canup's mother.

Legion Volunteers Assures New Hope for Texas Hearts

The 1951 Texas Heart Fund campaign to raise \$324,000.00 in February, got an extra boost when American Legion Department Commander Bill Elkins pledged the Legion's participation in the Heart Campaign.

"There is a critical need to return Heart patients to jobs and useful living," Mr. Elkins said. "The national emergency places demands not only on the military but all civil forces. The economic cost of heart disease is staggering in the terms of loss of life, absenteeism, disability and loss of gainful employment. I have urged all Texas Post commanders to give their fullest cooperation in raising funds to aid in arresting heart diseases."

Over 750 American Legion Posts and their Auxiliaries throughout Texas were alerted by Commander Elkins. The February Heart Fund Drive will find the Legionnaires and their ladies busy distributing thousands of the red plastic heart-shaped coin collectors to community business houses and other locations, and staging a number of special events that will reach a climax during American Heart Week February 11-18.

John Ben Sheppard, State Chairman for the 1951 Heart Fund, received two pounds of cottonseed meal per day over the period.

Since the dry winter forage was low in nutritive content and somewhat unpalatable, the cows did not consume enough to maintain their weight. The average loss in weight per cow was about the same for both groups, 155 pounds.

Thirteen calves were dropped in the self-fed group and 12 in the hand-fed group. The calves from the sale-fed group averaged 162 pounds at 79 days of age, while those from the hand-fed group averaged 164 pounds at 85 days of age.

Five cows of the salt-fed group scoured periodically. One cow started scouring January 16, was too weak to weigh January 27, and died February 6. No scouring was observed in cows of the hand-fed group.

The specialists concluded from this experiment that self-feeding mixtures of salt and cottonseed meal may cause scouring and death losses of breeding cows when the salt intake is one to one and one-half pounds per day and the pasture and water conditions are similar to those existing in this trial.

However, some think that this system of feeding supplements might possibly be practical under ideal conditions of feed and water supply. More experiments with the use of salt-cottonseed meal mixtures are now being conducted.

Cold Korean Weather' Silhouettes Soldiers

Men of an infantry division of UN forces are shown as they recently sought to locate enemy forces not far from Seoul, Korea.

cited the Legion for their splendid cooperation in raising thousands of Heart dollars during the 1950 campaign. Mr. Sheppard said, "I deeply appreciate Commander Elkins' pledge of cooperation. The Legion's organized assistance will again be of great value in making our Texas campaign a success."

The Texas Heart campaign will get underway February 1. Most of the money raised will remain in the community where it is donated to be used for research, education and community service as related to the problems of heart disease.

County Agent Advises Treating Cotton Seed

High cotton yields are usually produced from fields where good, early stands have been obtained. Re-planting is an expensive job and it can often times be avoided by treating the seed before they are planted, says Joe Burkett, County Agent.

He points out that the scarcity of good planting seed in many areas and the present emergency that faces cotton producers makes the problem of getting a good stand on the first planting mighty important in 1951. Cottonseed treatment is an inexpensive form of crop insurance for treating materials cost only a few cents per bushel. Treating kills disease germs on the seed, protects the seed and seedlings from diseases which may be in the soil and gives a better stand of cotton.

Burkett says the two worst cotton seedling killers are angular leaf spot and soreshin. In Texas, angular leaf spot ranks next to root rot as the number one hazard in cotton production. It first shows up on the leaves of the young seedling and appears as a small, green, water-soaked spot that resembles a bruise. If damp weather sets in after the seedlings

come up, the disease spreads over the entire plant and unless the planting seed was chemically treated before planting, many of the plants may be killed. The disease effects the fruiting habits of the cotton plant and carries through to the older plants where it appears as angular spots on the leaves and as bacterial rot on the bolls.

Soreshin is detected as a brown diseased area on the stem of the cotton seedling either above or below the ground line and it causes a shriveling of the plant tissues which kills the plant.

At the Temple Agricultural Experiment Substation, Burkett says that cottonseed treated with either two or five per cent cesaran gave from 25 to 30 per cent better stands than untreated seed. The plants showed less angular leaf spot and the final production per acre averaged 50 pounds more of lint cotton per acre. Seedlings from treated seed often are twice as large as the seedlings grown from untreated seed during the early stages of growth.

Sardines are packed closely in a can because the fish are cheaper than the olive oil in which they are packed.

 I wish to express my thanks to the Crowell Volunteer Fire Department and to all the people who helped extinguish the fire on my farm on Tuesday. I deeply appreciate the help given me.
 Curtis Ribble.

TURBINE DRILLING HOLDS PROMISE FOR FUTURE
 Turbine drilling for oil is a new development which appears to have a promising future. In this operation, hydraulic power is transmitted to a turbine at the bottom of the hole instead of mechanical power being fed from the top. Drilling power can thus be kept constant from top to bottom in contrast to other methods in which the power diminishes steadily as the hole gets deeper. Other advantages claimed for turbine drilling are: faster, straighter and clearer holes; less wear on drill pipe; and fewer fishing jobs for lost equipment.

CARD OF THANKS
 I wish to say "Thank you" to the friends who remembered me with cards, flowers, gifts, letters and visits while I was in the Quanah hospital and since being brought home. The remembrances at Christmas time were appreciated so much.
 Mrs. G. M. Canup.

CARD OF THANKS
 It is with deep appreciation that I say "Thank you" for the remembrances of every kind sent me while I was in the Galveston hospital and since coming home. The cards, telegrams, flowers, letters and gifts of every kind are cherished by me and my family.
 Mrs. J. A. Stovall.

THIS IS "ROCKET"-LAUNCHING WEEK AT YOUR OLDSMOBILE DEALER'S!

NEW! GAS-SAVING "ROCKET"
 "ROCKET 98" . . . The most exciting Oldsmobile—the most magnificent Oldsmobile ever built goes on display today in our showroom! New beauty, new comfort, new gas economy are all new features of this great Oldsmobile! Look over the sparkling new lines of the new Holiday Sedan pictured above. It's designed for sheer beauty outside—for spacious comfort and luxury inside! The rugged new chassis and suspension system provide a softer, smoother-than-ever "Rocket Ride." New Oldsmobile Hydra-Matic Drive* is even easier to operate! But best of all, the brilliant new gas-saving "Rocket" Engine gives flashing performance at minimum gasoline costs. Feature for feature, this is the finest Oldsmobile ever built! You are cordially invited to come in this week to see and drive the great new "Rocket 98" Oldsmobile for 1951!

 BUT this cold weather turns up your toe nails and makes your hair stand on end in luckier than most though for the drawer in Mrs. Sloan's desk that in inhabit is well lined with papers those home economics girls probably wish they could go to the north pole where it warmer for their room dropped to a temperature of 12 degrees Monday.

Besides the icy winds breezing about to make things worse students will probably be wearing the sacks tied with broom weeds next year for this problem of no rain in Foard county for several months is stunting the growth of money making crops like wheat and cotton.

Old Frank Dobie said in the Fort Worth star telegram Sunday that we ain't seen nothing yet for oldtimers quite an ancient Indian who claimed to have lived through a drought that dried up all the waterways in the paleo pinto country two or three holes in the brazeo river to drink at one of these holes the Indians had to fight off deer wolves and other animals crowding the water guess it will be that way with us and peace river and any other little living varmint left about this country over the week end I went to fort worth with the ffa boys so I sure am sleepy after I see all these eyes, joline lanier f I ballard clifford ohr laverne owens rouse todd home during mid term im going to crawl under the radiator and take a little snooze all you wildcats better grow a new coat of fur because the mercury is dropping if you want to see me ill be in my igloo leo

English IV interviews have been handed in. Since the class found the interviews very interesting, the "Wildcat" is presenting some of them. The first one this week is on Sim Gamble of the Thalia community who was interviewed by his granddaughter, Jean Gamble.

SIM GAMBLE
 Sim Gamble, son of Mr. and Mrs. John Rufus Gamble, was born on January 25th in 1876. He is born in Hillsboro, Texas, which is in Hill County. Sim, who was oldest of ten children, later moved to Hamilton County in the year of 1878 with his mother and father, where his father was engaged in sheep raising. When Sim became eight years of age, he started to Martin Gap School in Hamilton County. The reason the school had this particular name was that it was built between two mountains. He attended this school until he was nine years of age. While in Hamilton County, there were five brothers and one sister born to the Gamble family. Later in year of 1887, they moved to Hardeman County, which was later divided into Foard and Hardeman. Before his father left Hamilton County, he sold all of his sheep and bought a herd of cattle. They drove this herd of cattle from Hamilton County to Hardeman County. When they arrived in Hardeman

County, which was a month's journey, they found it to be open country. There were no fences of any kind. They saw antelope, buffalos and a few wild mustang horses on the prairie every day. When they first settled, they settled a half-mile of the farm where he now resides. There Sim went to the old Margaret school for about one-half of the term. He later attended school in what they called a half-dugout school. Later they built a school building on the Gamble land and named it the Gambleville School which was still standing until about a year ago. Sim only attended school through the sixth grade. He was about thirteen years of age when he finished the sixth grade, and he wanted to work for himself, so that he could have a little more money than he was allowed.

During Grandfather's young life his first punishment was a whipping. As I said before, they herded sheep in those days, and one day while Sim was herding a flock of sheep which were his father's, he herded them into another man's flock of sheep. At the time he knew he was doing wrong, but wanted to do it for meanness. His father found out what he had done and whipped him with a big board. He still has the board.

His first falsehood was when he was about five years of age. One of their Jersey cows had a calf and hid it. They searched for it about two days, and during this time Sim told them it was hid in a certain place. At the time he was telling his parents this, he knew it was not in the certain place, but told them that anyway. When they questioned him about telling this fib, he replied, "I was getting tired of helping you look for the calf; I wanted to help you find it and get it over with."

Sim's first embarrassing moment was when he was about sixteen years of age. He was attending church service on Sunday morning as he always did. That particular morning he was sitting by Mrs. Steve Bell. She had a small baby and had changed his wet diaper. After she had put the dry one on, she slipped the wet one in Sim's suit pocket. After the services were over, he walked out with the wet diaper banging partly out of his pocket. The people began laughing and it embarrassed him. He did not attend services for about three or more following Sundays. In Sim's earlier part of life he never had a store-bought pair of trousers until he was fourteen years of age. The first pair of pants he ever had was made from one of his mother's old coats.

The transportation during that time was on horseback or an ox-wagon led by three oxen. Grandfather's first trip out of Texas was with his father on business into Oklahoma. He did not make another trip out of Texas until he had married and had three children. The trip he made after his marriage was also made in an ox-wagon, borrowed from Morgan Perebee. The trip took them about fourteen days. The next trip that he made was after he

bought his first car. It was a 1913 Model T Ford. He did not make many more trips even though he had a better way of transportation.

Sim's early occupation was centered around the work of a ranch hand. He first worked for Uncle Bob Bell. While with Mr. Bell, he rode wild horses and did odd jobs around the ranch. Later he worked for Uncle Jim Russell. He did the same type of work as he did for Mr. Bell. Sim broke wild horses and rode wild cattle. He enjoyed doing work that was centered around ranch and farm life.

Sim met his wife at a funeral. He was a pall bearer to one of his school mates. Her real name was Sarah Ann Ingie, but she did not care for this name; therefore everyone began to call her Annie. She had many friends. Even though she did not take much part in church work or other organizations, she was always ready to lend a hand. Her friends always turned to her when they needed help. She was a person of good humor. Sim and Annie went together for three years before they married. They were both twenty-one and were also cousins. They were married in the old Methodist Church of Crowell in the year of 1897. Sarah Ann Ingie died in May, 1947. Grandfather married Miss Minnie Wood of Thalia in 1949. They make their home on the farm where grandfather has always lived.

Sim's later occupation was farming and raising cattle. The reason he chose this for his occupation was that he had been reared on a farm, and his father raised cattle. He also liked to do this type of work. In that day and time a man had to work in the fields with an old walking plow. Before Sim had made a homestead, his father planted big fields of corn and grain, but before they could make a crop, wild hogs would ruin what they had. They really had many hardships.

Sim's grandparents were named Mr. and Mrs. Will Gamble. Annie's grandfather was named John Gamble. Will and John both were one of the first to be a member of the first Masonic lodge of Thalia. Sim's parents were Mr. and Mrs. John Rufus Gamble. He was also a member of the Masonic lodge, but of later years.

BOBO THE MAGICIAN ENTERTAINS STUDENTS AT SOUTHERN ASSEMBLY WED.

Hokus Pokus! Presto Changol! Bobo the magician presented as one of the Southern Assembly programs, entertained Crowell Elementary and high school students Wednesday, January 24, with acts of magic and comedy. Surprisingly, Bobo is his real name, derived from the old French name, Beaubeaux. Specializing in sleight of hand comedy, Bobo fascinated the students with his dexterity in handling cards, balls, coins and thumbtacks. Disappearing rabbit and scarf acts mystified the audience while audience participation added much to the fun and interest of the show. The students, especially those in the elementary grades, enjoyed the show very much. Bobo and his charming assistant, Mrs. Bobo, are being used by Southern Assemblies four successive seasons. This alone indicates his popularity as a magician throughout the south and southwest.

WILDKITTENS BREAK EVEN WITH PAPOOSES

The Crowell Wildkittens basketball team broke even in two games with the Quannah grade school Papooses the past week. The Wildkitten cagers led by Gaylon

Whitley, came out with a 26-22 victory over the Papooses here on Monday night of last week. The Quannah team, composed of five boys averaging 5 feet, 11 inches in height, defeated Crowell 35-23 at Quannah on Thursday night.

Top scorers for Crowell were Billy Hopkins with eight points, Gaylon Whitley and Gordon Graves with six points each, and Bill John Rader basketing three. Buddy Sellers scored 12 points for Quannah.

Other boys representing the Crowell Elementary team are: Gerry Knox, Ronny Fox, DuWayne Elliott, Mike Wishon, Merl Nelson and Robert Kincaid.

The Wildkittens have won six out of eight games played thus far this season. Gordon Erwin is their coach.

SENIORS OF THE WEEK

Let's listen in on a telephone conversation to get the lowdown on the boy and girl of the week! O. K.
 "Hello."
 "Hello, Mary Alice, this is Frankie. What are you doing?"
 "Oh, I'm just sitting around. Why?"
 "I just wondered if you had heard who the boy and girl of the week are. Have you?"
 "No, I haven't. Who are they?"
 "Well, I'll tell you about the girl first and you try to guess who she is. She is a charming brunette with hazel eyes, dark brown hair, and an olive complexion. She is well known around CHS as an excellent 'jitterbugger' and her favorite pastime is spent in dancing or skating. For information on California, see this senior, because she spent three and one-half months last summer there visiting with her mother. Fried chicken and chicken fried steak rate tops on her list of foods. Now can you guess who this girl is?"
 "I think I know who she is, but tell me some more."
 "She doesn't have any particular pet peeve, and she enjoys reading fiction books while listening to her favorite music—popular. During the third period, she takes typing, her preferred subject. Her nickname is 'Sweetpea.'"
 "Oh, I know who it is. That couldn't be anyone else but Anna Rea Owens."
 "Right! Now for the senior boy of the week. He's easily distinguished from other seniors because of his red hair, brown eyes and broad shoulders. This versatile boy lettered four years on our football team, and he has been a member of the winning baseball team for three years. He is called 'Home-Run Booger,' because during his sophomore year he hit a home-run that won district for CHS."
 "That could be Jimmy Rasberry

but go on." His favorite food is steak broiled in butter. He likes to read western novels and likes almost any music.

You may think that Peter Lorre is here, but it's just Booger Rasberry imitating him. Oh! I've told you who the senior boy of the week is."
 "My! That was interesting. Call me again soon. Bye."
 "Bye."

ARCHER CITY EVENS UP WITH GYM JAMES

The Archer City volleyball girls defeated the Gym James here Friday night by winning two out of three games.

The Gym James had defeated the Archer City team two weeks ago, and after the game Friday night, it evened up the two teams in conference play.

The following girls saw action in the games: Betty Barker, Frankie Mabe, Mary Bergt, Geraldine Schmittou, Jozzell Thomson and Peggy Weaver.

CHS CAGERS WIN EIGHT STRAIGHT GAMES

The Crowell High School Basketball team won their eighth straight game Friday night by smashing the Archer City Wildcats 52-12.

The "B" team played the second and fourth quarters and outscored their opponents while the starting five played the first and third quarters.

The Wildcats' scoring was evenly divided with Jon Sanders and Bubba Bell making ten and nine points respectively, while Roy Whitley and Martin Langham tied with eight points each.

Chillicothe is expected to give the Wildcats a hard time at Chillicothe tomorrow night. The Wildcats barely defeated the Eagles in the Wildcat gym the last time they met.

The Chillicothe game is the fourth district tussle for the Wildcats.

PINK! PINK! PINK!

Just picture yourself aboard Southern Pacific's new streamliner, the Sunset Limited, travelling along as swiftly and luxuriously as modern streamline trains can manage; in fact, you are on a luxury liner on wheels.

Your view is of the sunniest route possible, from New Orleans to Los Angeles for a dreamy vacation on the coast.

As the "Sunset Limited" glides on, before your eyes pass some brilliant sights—Houston rising suddenly from level plains, the endless carpets of bluebonnets just before reaching San Antonio, sunny Phoenix, Palm Springs and then comes evening bring breath-taking sunsets and inspiring a

brand new color which will be at the height of fashion come spring. And that color which Harper's Bazaar raved so about in this month's issue is Sunset Pink.

There are three pretty shades of Sunset Pink — Mountain Sunset (pale), Desert Sunset (medium), and Valley Sunset (deep pink). I think that I will do the Bazaar a favor here and say that the dresses and fashions that they feature in the January issue are as brand new and stylish as the Sunset Pink I've been talking about.

Now here's the news in the 1951 fabrics: look for stripes, stripes, and more stripes and look for weaves too. Gay, crisp, sharp, stripes now tiny and now boldly broad—and weaves combining cottons with satin, and organdy with taffeta.

Yes, spring is bringing with it all kinds of exciting colors, fabrics and styles.

FFA BOYS DON 10-GALLON HATS, COWBOY BOOTS; ATTEND FAT STOCK SHOW

Dust off your boots and brush up your cowboy garb, the day of the Fort Worth Fat Stock Show is here again. The order of the day, Saturday, Jan. 27, was to load your billfold with sufficient funds and head for the VA building at 2:00 a. m. where 26 FFA boys loaded on a school bus and were Fort Worth bound.

The bus, driven by George Fox and Allan Taylor alternating, stopped several times along the way to enable sleepy-eyed boys to eat breakfast and refresh themselves.

Arriving in "Cow Town," the boys went with their respective ways with eyes open to the Stock Show attractions and energy plus readiness for an all-out good time.

According to the boys' choice, they watched the prize calves being judged, took in the big indoor rodeo at Will Rogers Coliseum, and ambled around gazing at the many exhibits. Some went to a show in downtown Fort Worth, while others watched the square dancing exhibition or strolled around the carnival grounds.

Saturday night the boys made camp at the Northside Gym, where they spread out the bed rolls they had brought from home. Many once-energetic boys who had not slept the night before leaving, fell asleep against their will, while other tired boys resisted the temptation of sleep and made merry far into the night.

Sunday the boys made preparations for their return trip and arrived in Crowell around 3 p. m. penniless and fatigued, but looking forward to next year's Stock Show trip.

Those who profited from trip were the following: Greening, Billy Abston, Cates, Jimmy Hallmark, Hopkins, Glyndon Johnson, Johnson, Arthur Lee, James McBeath, Jim Pagan, Leon Peckack, Pogue, Billy George, C. Sanders, Fred Barker, Cates, Boyce Cox, Billy Carrol Polk, George Geaslin, Gene Bob Jones, Teague and Joe Don.

The boys were accompanied by their sponsor, Marvin Myers.

WELCOME TO CHS, MARY

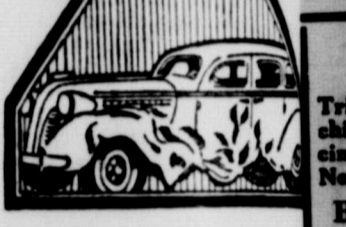

Put on your best smile, up your manners, and Mary B. Carroll to CHS.

Most of the boys are with this nice looking little Mary B. Carroll with a whistle please—those aren't your manners).

Five feet, one inch tall, has innocent looking blue and short curly hair. She is Crowell from Abilene and is living with her uncle and aunt and Mrs. Walter Thomas, sophomores are the lucky to add Mary to their class.

Chicken, algebra and Wayne rate high in her life and we are sure Mary will high in the interests of CHS.

EAST TEXAS' BIRTHDAY

The fabulous East Texas oil field, reputedly the biggest reservoir of crude oil in North America, will be 21 years old in 1951. It was in 1930 that "Dad" Joiner brought in the first well in this field which, since its birthday, has produced one out of every 16 barrels of oil brought from the ground in the world.

More salt is present in the Atlantic than in the Pacific Ocean.

French is the official diplomatic language of the world.

SHOW BUSINESS
There's no business like show business—and the dizziest of them all is the dance-band business. For instance, a recent issue of Cosmopolitan magazine points out that Vaughn Monroe is the top money-maker, Guy Lombardo gets most for personal appearances—but the most influential name in the band world is Glenn Miller, who died seven years ago. "Though Harry James received over \$40,000 for six days at the South Dakota Corn Festival last fall," says the article, Gordon Jenkins sells the most records. Ray Bloch is the television king, with five shows a week running. Explaining the phenomenon of Glenn Miller, the author says his was the most successful band in history, taking in more than \$2,000,000 in a single year. "Except for a few specialists," he adds, "every dance band in the U. S. has one acknowledged ambition: to replace Miller's band." The article points out that five of Glenn's "boys" are among the most prominent bandleaders of today. They are: Ray Anthony, Miller's trumpeter; Ray McKinley, the drummer; Hal McIntyre, alto saxophone; Jerry Gray, arranger; and Tex Beneke, who was selected to lead the band after Miller was shot down in an airplane. After Monroe and Lombardo, the article lists Xavier Cugat, Harry James and Sammy Kaye at the top of its dance-band ratings. In its "near the top or rapidly rising" section, Tex Beneke, Ralph Flanagan and Ray Anthony hold the first three places. Bloch, Al Goodman and Horace Heidt are billed as "too booked or too rich to be available," and the "prestige and specialty" category is headed by Duke Ellington, Louis Armstrong, and Benny Goodman.

MESHED
World War II turned new spotlight on Meshed as a station on the east Iranian route between India and Soviet Central Asia. Truckloads of supplies for Russia rumbled over the old camel trail, now a motor highway, that stretches from rail's end, at southern Zahidan, to Meshed, and thence to the Soviet border.

IN OLDEN TIMES
In colonial New England, sheep blood and melted snow were among the liquids considered excellent quenchers for special purpose iron.

THE WILDCAT

(Continued from page 8)

WILDCAT WHISPERS

Hi-de-ho, everybody! Did you all have a nice week end? Myra Don and Maurine did, because Rouse and F. L. were home. We saw Ann Haynie and Bob Edwards, and Pat Owens and Charles Howard Bursey together Saturday night. Everyone hates to see Melba and Geraldine move, especially Kildee and Bubba. Marcia has a new "feller." His name—Ted Brown. They were together Friday night. With them were Faye Black and Billy Johnson. Posey and Martin were enjoying the sights of Truscott Sunday afternoon (What sights?) An old two-some that were together Friday and Saturday nights were Tommie and Booger. It seems as if Joyce Ford and Helen Ribble are always talking about "Fly Boys." What about it, girls? Where did Elwin get that crazy leopard skin cap he wears? I wonder what he will think of next? Bessie Franklin was with Lawrence Norris Friday night. Wanted — A good trip — Senior Class. For rent — My seat in American History — Robert Brock. Wanted — More and better men — Pat Owens. Found — My true love—Wanza (Spears) Parks. Help Wanted — A senior boy to help with homework. — Iris Abston. Something old: Jim Paul and Jean. Something new: Jean Gamble and Jimmy Woods. Charlie Ketchersid and Lareta Lyons enjoyed their week end. They went to San Antonio to see Lewis Hunter and Bobby Lax. You saw in the paper last week where Norma Mathews was wearing a Vernon sweater. Well, this week it's a senior ring. Good work, Norma. Please, PLEASE put scandal in Locker 77. Cat's Tail.

MIGRATION OF LAND PLANTS INTO SEA WATER EXPLAINED

About 60 species of flowering plants have "gone to sea." Like the whales and the seals among animals, they have abandoned the land and become thorough-going marine organisms. For the most part they have remained in shallow water. The higher plant, even more than the mammal, seems to be tied to the land and it is highly probable that any ever originated in salt water. Only lower orders of plant life, such as algae and fungi, can have lived always in the seas. But the marine migration of the land plants has played an important part in the economy of sea life. Eel grass, abundant everywhere along temperate shores, is the favorite food of waterfowl. Another migrant from the land furnishes the food of the manatee, or sea cow, an essentially vegetarian animal. Most of these plants grow in dense patches in submarine fields, affording shelter for many kinds of animal life. A few other land plants have just "stepped in the water." Presumably they became accustomed to salt-impregnated soil near the shore for countless generations before venturing farther. There is some evidence that the plants which went to make up the great coal deposits grew at sea level and not far from the shores of ancient oceans. There is no evidence, as to when the seaward migration of the higher plants took place.

NEW BAYLOR BEAR

Waco, Texas — Baylor University's bear mascot population had increased by one (net) at last count during last week. Triplet cubs were born recently to Josephine, the most prolific of Baylor's two female bears. Their cannibalistic father and big brother grabbed one each for an unscheduled luncheon before help arrived. The third is reported doing nicely, with the exception of two missing toes—indicating that rescuers Tommy Lochrode of Houston and Ben Ferrell of Tyler got there just in time to prevent total annihilation. The event was a surprise repeat performance of annual January tragedies which started in 1949. Josephine delivered twins in January of that year, but Joe, the father, devoured both. Chita delivered her firstborn in January, 1950, and it met with the same fate. Barney and Bailey, the celebrated twin cubs born to Josephine in January, 1950, were saved simply because alert keepers had placed the expectant mother in a solitary maternity pen. It was Chita who had been given the privileges of the solitary pen this year in anticipation of her again becoming a mother. And meanwhile, Baylor administration personnel is becoming worried about additional mouths to feed.

ANCIENT BATHTUBS

The bathtubs on the ancient island of Crete were far more lavish than those of today and decorated with figures of animals and flowers. Before 2000 B. C., the Cretan civilization had indoor plumbing, running water, and "modern looking" buildings with many windows. Onions contain an oil, similar to that used in tear gas bombs.

FOARD CITY PAULINE WHEELER

(Continued from page 8)

Mrs. Roy Fox of Crowell visited Mr. and Mrs. J. L. Farrar last Tuesday afternoon. Mrs. J. M. Chilcoat and Tommie Smith of Truscott spent several days last week with Mr. and Mrs. H. R. McLain and sons. Mr. and Mrs. George Brown visited their son, Clark Brown, and family in Crowell Sunday afternoon. Rev. and Mrs. B. R. Nall and children of Benjamin visited in the home of Mr. and Mrs. John Wheeler and children Friday night. Mr. and Mrs. Roy Daniels and children entertained a large group at their home Friday night. Games, music and refreshments were enjoyed by all. Martha Athey spent Saturday night with Rozella Denton of Crowell. Fate McDougle spent the week end in Fort Worth attending the Fat Stock show. Wanda Myers of Truscott visited in the home of her grandparents, Mr. and Mrs. Jim Weathered, Saturday. Mrs. Glen Shook and Mrs. Lee Lefevre visited Mrs. G. M. Canup in the home of Mr. and Mrs. Roy Barker of Crowell on last Saturday. Mrs. Canup was recently dismissed from the Quannah Hospital where she had been since being injured in a car accident in early December. Mrs. Bob Roach and son, Bobbie Kay, of Waco returned to the home of her parents, Mr. and Mrs. Jim Weathered, after spending a few days last week with her sister, Mrs. Wilson Myers, and family of Truscott. Luke Marlow visited his mother, Mrs. J. N. Marlow, of Crowell Sunday. Mrs. E. Swain and Mrs. C. T. Schlagal of Crowell spent last Thursday with Mr. and Mrs. Clyde Owens. Earl Stummer of Medicine Mound visited Luke Marlow Thursday night. Bill Marlow of Crowell and Luke Marlow visited Mr. and Mrs. Delmar McBeath and children and Mr. and Mrs. Oscar Marlow and children, all of Thalia, Sunday afternoon. F. M. Rader submitted to an operation in the Crowell hospital on last Friday afternoon and is reported improving satisfactorily. Kenneth Halbert, accompanied by other members of the V. A. class of Crowell, spent Monday in Fort Worth attending the Fat Stock Show. Rip Welch left last Thursday for a visit with relatives in Anna and Dallas. Mrs. Jodie Brown and daughter, Pat, returned home last Tuesday from a month's visit in the home of her son, Pete Brown, and wife of near Andrews. Mr. and Mrs. Monroe Athey were week end visitors in Amarillo. They were accompanied by Amarillo by Mrs. Herman Athey and Mrs. Cotton Gambin and children, all of Amarillo, who have been visiting in their home for a week or so. Blake McDaniel attended the sales barn in Quannah Friday. Mr. and Mrs. George Brown visited in the home of Mr. and Mrs. G. R. Webster Sunday. Mr. and Mrs. J. M. Barker and

ATTEMPTED SUICIDE

Judy Garland, who was suspended by her studio last summer after walking out on a rehearsal, disclosed today some of the reasons which prompted her to attempt suicide. "All I could see ahead," she said, "was confusion. I wanted to black out the future as well as the past. I didn't want to live anymore and I wanted to hurt myself and others." Judy blames her troubles on a series of physical and nervous afflictions, according to an article appearing in a recent issue of Cosmopolitan. She has always been very sensitive and suffered from insomnia since childhood. As a result, she started to take sleeping pills. "They can be a tremendous strain on the nervous system," she confesses. "Besides I was having troubles with my studio and no doubt about it, my physical condition didn't help." One benefit, however, of an eight month convalescent period after her breakdown, was a reconciliation with her movie director husband, Vincente Minnelli. While acknowledging the professional help which she has received from actor Mickey Rooney, she also has some critical comments on Hollywood people in general. "I won't name names, but there have been people in Hollywood who sometimes make it extremely hard for me to do what I was desperately trying to do—find myself."

In describing the attitude which prompted her to take her life, Judy says, "People like me don't grow up easily; they bounce. One day they're adults with a head full of wisdom, and the next day they're stubborn children who have to be led by the hand." Judy now plans to try radio and television. She also hopes to appear soon in a Broadway musical.

HYPOGLYCEMIA

Hypoglycemia, while not a contagious disease, affects as many as 95 per cent of all pigs farrowed, report University of Illinois veterinarians. Mr. and Mrs. Jess Autry and Mrs. Roy Ferguson were visitors in Wichita Falls Tuesday.

FARMERS...

With conditions as they are now, we are all interested in cutting our cost of operations. You can cut yours at least one-half by letting us install a Liquid Butane Conversion Kit on your tractor. Talk to the men who have changed.

Miles Neill Weds California Girl

Mrs. Sim Gamble has received announcement of the marriage of her nephew, Miles Neill, to Miss Lynn Brown, both of Monrovia, Calif., which took place on Dec. 23rd in the home of the Baptist pastor in Colorado Springs, Colo. Only a few of the friends of the groom in Camp Carson were in attendance.

The bride is the daughter of Mr. and Mrs. Albert Kline of Monrovia while the groom is the son of Mr. and Mrs. Truett Neill, also of Monrovia, and formerly of Foard County. Mr. Neill resided in the home of his aunt, Mrs. Gamble, and attended Crowell High School in 1945.

Shower Given to Compliment Bride

Mrs. R. J. Owens, Mrs. Dan Callaway, Mrs. Harry Traweck and Miss Helen Rutherford attended a recent shower for their niece and sister, Mrs. Ray Bays, held in the home of Mrs. Hewitt Simmons of Gilliland with Mrs. Hewitt, Mrs. Grady Duncan, Mrs. Arnold Reeves, Mrs. John Kinnebrew and Mrs. Orville Burgess as joint hostesses.

Mrs. Hewitt greeted the guests at the door. Mrs. Dwight Burgess presided at the guest register. Games were played, being directed by the hostesses.

Miss Rutherford poured punch which was served with cookies to about forty-five guests. Mrs. Bays was the former Miss Eva Jane Rutherford, daughter of Mr. and Mrs. Jessie Rutherford. She left last week to join her husband who is stationed at Chanute Field, Ill.

CO-LABORERS' CLASS

At the regular social and study meeting of the Co-Laborers Sunday School class of the Methodist Church which met in the home of Mrs. T. B. Klepper, twenty-five members were present. Mrs. Carrie Hart and Mrs. R. R. Magee were joint hostesses with Mrs. Klepper.

Mrs. A. R. Sanders was lesson leader and opened the meeting with a sing-song with Mrs. Paul Shirley playing piano accompaniment. Mrs. Sanders gave a chapter in "Women of the Scriptures." She talked of Deborah, Lydia and Miriam. Mrs. J. W. Bruce outlined an article from "World Outlook" on the Deaconesses. Mrs. Gordon Cooper also assisted with the program with articles from "Clear Horizons."

Following the business meeting conducted by Mrs. W. C. Erwin, class president, the hostesses served refreshments to those present. Another sing-song was enjoyed to close the meeting.

ADELPHIAN CLUB

The Adelpian Club met January 24 with Mrs. Hubert Brown, the president, in charge. The biennial election of officers was held with the following ladies being elected to serve: Mrs. W. B. Johnson, president; Mrs. Winston Simmonds, vice president; Mrs. H. N. Ekern, recording secretary; Mrs. Dwight Campbell, corresponding secretary; Mrs. J. C. Prosser, treasurer; Mrs. L. A. Andrews, parliamentarian; Mrs. Clinton McLain, federation counselor; Mrs. E. C. King, reporter. These officers will be duly installed at the last meeting in May.

Mrs. Merl Kincaid, state chairman of Youth Conservation, was in Austin attending a meeting of the State Board of the Texas Federation of Women's Clubs. Mrs. Kincaid appeared on the program with a report of the White House Conference which she attended in Washington, D. C. in December. Mrs. Dick Todd and Mrs. Nelson Oliphant were hostesses and served a lovely refreshment plate to twenty-four club members.

COLUMBIAN CLUB

Mrs. S. T. Crews was hostess to the Columbian Club members on Wednesday afternoon, Jan. 24. Mrs. N. J. Roberts was leader for the afternoon's program which was in the form of a forum. Thanks to the daily newspapers and the radio, women of today are quite familiar with the affairs of state and nation, world news, in general, as was evidenced by this group of sixteen women.

They agreed that taxes were too high, 18 years too young for the draft, price control came too late and two terms are long enough for the president to hold office. Further adjustments will come at a later meeting.

Delicious refreshments were served by the hostess and the next meeting will be with Mrs. W. R. Womack.

THALIA P. T. A.

The Thalia Parent Teacher Association met in regular session Wednesday afternoon, Jan. 17.

C. R. Steele was in charge of the program. Frankie Cribbs gave the welcome address. A number of songs were sung by students of Mr. Steele. Judy Johnson gave the closing speech.

Mr. Steele gave an interesting discussion on the subject, "The Value of Report Cards." Mrs. McBeath gave a report on the lunch room. She stated that the cost of groceries having advanced so much, it had been necessary for her to serve increasing amounts of meat substitutes instead of raising the price of lunches.

The PTA voted to buy meat one day a week for the lunch room. Mr. Steele's room won a book for having the most mothers present for the meeting.

THALIA IDLE HOUR CLUB

The Idle Hour Club met with Mrs. Jesse Lewis on Thursday afternoon, Jan. 25. As hostess, Mrs. Lewis served a very delicious refreshment plate.

The afternoon was spent in visiting and in needlework. Fourteen members were present. They are Mrs. Annie Shultz, Mrs. Eva May Woods and Mrs. Lee Whitman of Vernon, Mrs. Katy Taylor, Mrs. Georgia Wood, Mrs. Blanche Sims, Mrs. Blanche Tole, Mrs. Meryl Wright, Mrs. Eva Cates, Mrs. Velma Scales, Mrs. Fay Whitman, Mrs. Willie Self, Mrs. Jesse Lewis and Miss Irene Doty.

The club meets again with Miss Irene Doty on Thursday afternoon, Feb. 8.

BAPTIST WMS

The Women's Missionary Society of the First Baptist Church met Monday afternoon in the home of Mrs. Glen Goodwin.

Mrs. T. W. Cooper gave the lesson from the Mission Study book on the life of Dr. Truett. After the lesson, the hostess served a delightful plate of refreshments to the ladies present.

The WMS will meet at the church next Monday, Feb. 5, for the regular business meeting. All committee chairmen are asked to have their reports up-to-date and be prepared to make them.

TRUSCOTT SUB-DEB CLUB

A meeting of the Truscott Sub-Deb Club was recently held in the Truscott Community House. Mrs. Q. D. Williams gave a talk on "Silverware, China and Ceramics."

After the program, the hostesses, Elba Caddell and Nettie Black, served refreshments to the members present.

The next meeting will be held on Feb. 10.

ARCHITECTURAL ALLOYS

The building field in 1950 continued to utilize nickel-containing stainless steels for many architectural and structural components. During the year additional buildings employing stainless steels for curtain wall construction have been erected. Fabricators of architectural parts have recognized stainless steels as a building material and various prefabricated parts are now being produced. The selection of this material for external uses exposed to the elements, such as roofing, window frames, spandrels, panels, doors, gutters and downspouts is growing. Standard items of hardware are also being made of stainless steels.

On March 21 and September 23, day and night are of equal duration in every part of the world.

Home Demonstration Notes

MARY DEEB BROWN

Last Wednesday, January 24, the Foard County Home Demonstration Chairman, Mrs. Willie Garrett, and the president of four Home Demonstration Clubs went to Paducah for a training meeting held by Miss Bonnie Cox, Organization Specialist. Miss Cox gave us all a great deal of help on conducting a club meeting and correct usage of parliamentary procedure. The following club presidents attended: Mrs. S. C. Kuehn of the Riverside Club, Mrs. C. R. Moore of the Margaret Club, Mrs. Darwin Bell of the Vivian Club and Mrs. Archie Campbell of the Gambleville Club.

On Thursday, January 25, sixteen women representing the different counties of District 3 met in the Adelpian Club House for a District Texas Home Demonstration Association meeting. Mrs. E. S. Dockery, district vice president, and Miss Fern Hodges, District Agent from Vernon, were also there. The Home Demonstration Club women of Foard County served lunch to them to make money for council. All of you who helped are to be thanked and commended for the work you did.

Sim Gamble Given Birthday Dinner at Home on January 25

Sim Gamble was honored on his 75th birthday with a dinner given by his wife at their home east of Crowell on Thursday, Jan. 25. Other honor guests were Ed Cates of Crowell and O. M. Grimm of Thalia.

A delicious dinner was served buffet style with others bringing covered dishes. The birthday cake furnished by Mrs. Gamble was blue with pink flowers and the lettering, "Happy Birthday Husband," was done in brown. The cake was cut by Mr. Gamble and served with ice cream as dessert for dinner.

The afternoon was spent in visiting and relating incidents of boyhood days. Three of Mr. Gamble's four children, one brother and one sister were present.

Those who enjoyed the occasion were: Mr. and Mrs. C. C. Lindsey, Mr. and Mrs. Mack Gamble, Mr. and Mrs. Walter Johnson, O. M. Grimm, Mr. and Mrs. Sim V. Gamble, Mr. and Mrs. Joe Johnson, Mr. and Mrs. Walter Ramsey and daughter and Mrs. Inez Gamble of Thalia; Ed Cates, Mr. and Mrs. Willie Garrett and son and Mrs. Zola Greening of Crowell; Mr. and Mrs. J. E. Brock of Farmers Valley, and the honoree and hostess.

Others who called during the afternoon were Mr. and Mrs. Edgar Johnson and son, Danny, of Vernon and Misses Jean Gamble and Patsy Hammonds.

Last Chance to Enter GI Classes Next July

Veterans have until July 25 to apply for education under the GI Bill of Rights, according to announcement by officials of the Southwest School of Printing at Dallas.

Public Law No. 346 provides that a veteran who desires to enroll must be in training under this bill before the July date and the training must be completed by July 26, 1956.

There is no time limit on application for education by disabled veterans under Public Law No. 16, but the deadline for completion of government education is the same.

The Southwest School of Printing is owned and operated by the newspapers and commercial printing firms of the Southwest. Since the war it has devoted its facilities to the training of veterans in the printing trade.

School officers point out that the next class will start April 2, and that this will be the last class before the veterans' deadline date. The school director is Ray Abel, and the address is 3800 Clarendon Drive, Dallas 11, Texas.

Orphaned by Fire

Chicago, Ill. — Nurse Margaret Frye holds baby daughter, born last Thursday, of fireman Henry Dyer, who was killed by falling wall while fighting a spectacular \$1,500,000 warehouse fire recently. She was seen only once by her dad. Three other firemen lost their lives in the blaze.

Its nine-foot wing spread makes the condor the largest bird that flies.

MYF District Meet in Vernon Monday

The Vernon District Methodist Youth Fellowship held its district meeting on Monday night, Jan. 29, in the form of a banquet at the First Methodist Church in Vernon.

The invocation was given by Rev. Jack Riley in the chapel, before the group went into the dining room where the lovely dinner was served.

After the meal, the welcome was given by Mary Newth of Vernon and a response was given by Sarah Smith of Childress, district president. Zona Donley of McMurry College at Abilene gave on conducting a club meeting and correct usage of parliamentary procedure. The following club presidents attended: Mrs. S. C. Kuehn of the Riverside Club, Mrs. C. R. Moore of the Margaret Club, Mrs. Darwin Bell of the Vivian Club and Mrs. Archie Campbell of the Gambleville Club.

The main speaker of the evening was Juri Nou of Estonia, who told about his experiences during the war and how he came to be in McMurry College. After his talk the benediction was given in closing the meeting.

Those attending the banquet from Crowell included Maurine Youree, Rebecca Calvin, Peggy Weaver, Joyzell Thomson, Barbara White, F. L. Ballard, Charles Gafford, Mike Wishon, Jack Wishon, Ward Whately, Jean Whitty, Marcia Kincaid, Frances Kincaid, Caroline Bursey, Virginia McKown, Clouvonne McKown, Shirley Webba, Mrs. Claude Brooks, Elaine Brooks, Rev. Aubrey C. Haynes, George Ferguson, Jimmy Stinebaugh, Jean Hughton, Billy Bell, Sue Meason, Dale Keith Jones, Jerry Knox, Jackie Walker, Jim Paul Norman, Robert Kincaid, Bessie Franklin, Essie Franklin, Jane Bruce, Billy John Rader, Gail Knox, Bobby Davis, Neva Lou Potts, Dana Loy Roberts, Barbara Fairchild, Don Kidd and Anna Rea Owens.

NICKEL-BEARING VARIETIES

In the United States food processing equipment, including blanching and bottling machinery, and canning, dairy and meat packing equipment, have required large tonnages of stainless steels with practically all of it the nickel-bearing varieties. The growing favor of concentrated and frozen foods, and especially fruits and fruit juices, has required the installation of a great deal of stainless steel food processing equipment. The brewing industry has also seen some recent very large installations of stainless steel fermentation tanks which used over a million pounds of stainless steel for one brewery.

Jack Dempsey held the heavy-weight boxing crown for seven years.

Youth Banquet Held at Christian Church

Approximately forty young people and sponsors of the Youth Group of the Christian Church met at the church on Monday evening for a banquet and meeting as part of National Youth Week observance.

The ladies of the church served a delicious banquet, over which Noma Kelly, president of the local Senior Endeavor Society, presided. Rosemary Moss and Melba Ward led the group in the singing of choruses and hymns; George Morgan played an accordion solo and was accompanied by Noel Wilkins; David Bayless, accompanied by Mrs. J. Fred Bayless, played a trombone solo.

The special feature of the evening's program was a message by Walter Mansell, Minister of Public Relations, Midwest Christian College, Oklahoma City, Okla.

PURE NICKEL COINS

During the early part of 1950, India continued the issue of coinage in pure nickel and cupro-nickel, a program which had been carried on since the end of the war.

The Burmese Government in 1950 issued pure nickel in the half and quarter rupee coins, making a total of 126 pure nickel coins in forty-three countries since the adoption of the first pure nickel coinage by Switzerland in 1881.

To Be Brief

Los Angeles, Calif. — Pat Hall, who designed it, off a bare and brief with polka dot pique with repellent chintz trim. For more modest, that piece of material in her hand (see wraps around the middle).
