\$500 to Be Raised in Foard County's Cancer Crusade

The need for more research funds in the cancer control program was explained today by Mrs. A. G. Magee, Crusade chairman of the 1951 Cancer Crusade, who said that 25 cents of every dollar raised here goes toward financing research in science for the causes and all cures of cancer.

The American Cancer Society's Crusade will seek \$500 in this county during the program now well under way. Capable workers have been chosen to assist in the Crusade, and have started their work of distributing educational literature and fund-raising in all sections of the county.

"Of every dollar contributed here," Mrs. Magee said, "a quarter goes to finance nearly 300 research projects at the nation's leading institutions.

"The chief object of this research is to find means of controlling cancer. Causes of cancer may never all be known, but it is entirely possible that we shall find means of cure or control of even the most advanced cases, which today are often most helpless."

"In addition to research, your contribution supports national and state programs of cancer control," the chairman explained. "Nation-wide education for public and physicians, compilation of statistics, medical fellowships, scientific motion pictures, exhibits and administration will consume fifteen cents of each dollar. The Texas organization retains sixty cents of each dollar for its own broad program providing the citizens of this area with educational materials, service to the cancer patient, support of tumor clinics, cancer information centers, volunteer activities, and other essential aspects of the fight against cancer."

Mrs. Magee showed an educational moving picture to the High School students on Wednesday morning of this week and also showed one to the Colored School Wednesday night.

Films relating to the Crusade will also be shown at the Rotary and Lions Clubs next week, and to several Home Demonstration Clubs.

Successful Sale Held at Auction Barns Monday

The first auction sale held at the sales barns of the Crowell Livestock Commission Co. Monday under the management of Lester Roberts and Sam Elliott was attended by a large crowd with approximately 450 head of cattle in the stock pens. Most of the cattle were sold at auction with very few pass-outs, it was reported.

The new operators are well pleased with the first sale and wish to thank everyone for the splendid cooperation in making the opening sale a success. The market was steady to strong and bidding was active on all classes. They reported plenty of butcher buyers, but needed more butcher cattle.

The auction yards will be open any time to receive cattle and a yard man will care for them, the management announced.

**Is Backache
Kidney Trouble?**

BY DR. JUNE M. COOK

Many people have the idea that backache is caused by kidney ailment, and they take something to purge the kidney but many times the backache is persistent even after such measures are taken. In reality very few backaches are caused by the kidneys for only in rare kidney diseases is there any pain whatever in the back.

Pain or backache between the hips and in the lower part of the back is caused by pressure on spinal nerves caused by a misplaced spinal joint, and to be permanently rid of the persistent, nagging backache, the cause of the weakness must be dealt with. A man, aged 30, consulted a local Scientific Chiropractor recently about a backache he had experienced several years. Through Chiropractic examination revealed decided curvature of the spine, pinching vital nerves in lower part of the back, which was basic cause of pain.

The spine was straightened by Chiropractic adjustments. Patient noticed relief on the second day and at end of 8 weeks, patient was dismissed with all backache gone.

Remember that few backaches are caused by the kidneys but are basically caused by misplaced spinal joints and your Chiropractor specializes in correction of these conditions.

(One of a series of articles published in the public interest to explain and illustrate the practice of Scientific Chiropractic, written by Dr. June M. Cook, Chiropractor, whose office is located at 308 E. Commerce St., Crowell, Texas, Telephone 117).

been deeply critical of President Truman. Most of them demand the impeachment of Truman and the firing of Acheson.
No one has been more critical of the bungling of our foreign affairs than I. The Morgenthau Plan, the Teheran, Yalta and Potsdam conferences, our Palestine policy, and then Secretary Marshall's trip to China, were all major diplomatic tragedies, and sowed seeds of strife, confusion and conflict. Some or all of these were directly responsible for the Korean debacle in which we now find ourselves. It has been my contention that the pinks and reds within this country, supported and sustained by organized, minority pressure groups of the same hue, have been principally responsible for both our major domestic and foreign difficulties. The tragedy has been aided and abetted by many well-meaning, high-minded American citizens, by intellectuals and humanitarians and others frantically seeking for a peace formula and for a way to avoid another world conflict—a strange coalition, some seeking to save and some to destroy our great country.

The President had the authority to fire General MacArthur. The proud, strong-willed General did much to force his hand. Those who grieve because of this crisis must remember and must uphold the sound American principle of civilian superiority over the military. To impeach the President is an impossible remedy. Article II, Section 4, of the Constitution states: "The President, Vice-President and all civil officers of the United States shall be removed from office on impeachment for a conviction of treason, bribery, or other high crimes and misdemeanors." Many of us strongly agree with MacArthur that Formosa must never be surrendered to the Reds and that UN membership must however, grave doubt exists even among many MacArthur supporters as to the wisdom of his policy of "an all out war on China." It is thought by many that an invasion of Manchuria or a transporting of Chiang's forces by us to the mainland of China would set off an all out war against China, if not an all out world war. We are told that many war lords within China are now fighting Mao who would fight with him against Chiang.

In all American top bracket leadership, civilian and military, MacArthur has stood out as a strong, positive character. Most Americans are grieved when a strong, positive character is liquidated by smaller, less positive ones. They feel that the negative has eliminated the positive. However, many of those who now acclaim MacArthur strongly condemn many of the things for which MacArthur stands. There are many inconsistent, incongruous elements in the present furor. The great American tragedy is not the firing of MacArthur, but the absence of strong, positive American leadership in the State Department and in the Executive Branch of the government. The President had the authority to fire MacArthur and he cannot be impeached for it. His greatest mistake, however, was in venting his spleen so devastatingly against our Number One soldier. At least, MacArthur should have been left in full control of Japan. His administration of the Japanese Islands has been one of the bright spots in a dismal post-war world.

A lot of MacArthur scuttlebutt is heard around the Capitol these days. Congressman Rankin still reminds us that MacArthur served on the courtmartial that cashiered General Billy Mitchell. Some still cuss him for leading an attack against the bonus marchers in 1932. Some claim that MacArthur was successful in the Hawaiian Conference with President Roosevelt and Admiral King in the early days of the war in having his way. Mr. Roosevelt and Admiral King are said to have insisted on bypassing the Philippines, but the General said no. He has not been as successful in dealing with Acheson and Truman.

I shall support a resolution to invite General MacArthur to ad-

ever, many of those who now acclaim MacArthur strongly condemn many of the things for which MacArthur stands. There are many inconsistent, incongruous elements in the present furor. VOTE FOR STUDENT OF YOUR CHOICE

A democracy is built upon giving every person a chance to voice his opinion in public affairs. He is given a chance to voice his opinion by casting his vote for whom he chooses.

By not exercising this privilege, he lessens the strength of a democracy and becomes governed by means which he resents, because of his own indifference.

Let's all be democratic and vote in the election for mayor and other city officers May 23. Even though these are only honorary offices for two days, we should get real practice in the democratic way of life.

Students running in this election are the following: mayor, John Thomas Diggs, Jimmy (Grin)

Stinebaugh, Buster Laquey, Glynndon Johnson, Jimmy Tom Cates, and Virginia McKown. For city aldermen: Glen Jones, Don Reynolds, B. A. Smith Jr., Elwin Setliff, H. L. Ayers, A. L. McGinnis, Kenneth Fox, Noma Kelly and Norma Mathews. For chief of police: V. W. Latimer, Don Brisco, Wayne Shultz, Charles Wishon, Rosemary Moss, Hack Norman, Bubba Bell, R. C. Sanders and John Greening. For city clerk: Eva Rae Geaslin and Bobbie Abston.

Cast your ballot choosing the candidate who measures up to your specifications.

BOOST YOUR BASEBALL TEAM

In CHS there are about 200 students enrolled. Yet, at the last baseball game, less than 25 students were present.

Why do schools even bother with exchange sports activities since they not only take a lot of time but cost a lot of money? The answer to this question can be stated very simply—for the pleasure of the students.

Who are the players playing for? They aren't playing for themselves. They are working their hearts out for the students of CHS.

Don't the students realize this? They must not or their showing at the games would be considerably different.

Any team can have good players, but it takes the backing of their fellow classmates to put a team into the winning circle. This was proved during football season.

Why not prove it again during baseball season? Make the team feel the students are really pulling for their victories.

Through the loyalty and spirit of the students come winning teams. It's up to you!

FRIDAY NIGHT ACCIDENT BRINGS SYMPATHY FROM ALL

Since the unfortunate accident last Friday night, all CHS students have pondered perplexedly. More than that they constantly express their sympathy to Fred and to the entire Barker family, everyone is happy that Fred is improving.

We miss Fred, R. C. Hack and Glynndon. We hope to see all back in school as soon as possible.

THANKS

The Senior Class is deeply appreciative of the assistance it has been given in obtaining shrubs for landscaping the high school campus.

The following type of shrubs have been planted: six pfitzer junipers, two golden arborvitae, two baker pyramidalis, pyracantha, Wavy leaf ligustrum, nandinas, japonica, yellow jasmine, coral berry, armor privet, lilac, forsythia, pampas grass, lantanas, lilies, iris, cannas, salvia, and artemesia.

The class especially wishes to thank all students who helped, and the following ladies who donated shrubs and flowers: Mrs. Merl Kincaid, Mrs. Frank Flesher, Mrs. Charlie Gafford, Mrs. P. H. McLain, Mrs. J. H. Shults, Mrs. C. C. Fox, Mrs. Claude McLaughlin, Mrs. Karl ten Brink, Mrs. Albert Duragan, Mrs. Jack McGinnis, the nurseries in Vernon, Mr. Black, Mr. Myers and Mrs. Mary D. Brown.

CARE OF SUMMER WEAR

I've been talking a great deal lately about the new styles and fabrics for spring. Now I've rounded up a few handy tips for their care.

Since cotton dresses are taking the lead, a few clever suggestions from the fabric experts are in order: one warns not to let your dresses get too soiled before washing because frequent washing keeps dresses looking new. Wash extra soiled places like collars and hems first. Moisten the spots with water, apply soap directly to the fabrics and rub with fingertips or a soft brush. This loosens stubborn dirt and eliminates necessity for scrubbing when you wash the whole dress.

Be careful to wash dark or brightly colored cottons separately to prevent the transfer of their color to other dresses. When pressing dark cottons, turn them wrong side out as you would pique to prevent shine.

A timely hint for owners of knitted skirts comes from another fabric expert. Reverse your knitted skirts at each wearing to prevent "pocketing" when your skirts get a lot of "sitting" wear. This will keep their trim, original lines.

Make these hints a part of your daily routine and they will help much in prolonging the life of your summer clothes.

EDITOR'S CHOICE

The teachers have reached the verdict and the fatal decision is "guilty." She's been caught red-handed in the act of skipping classes.

Short brown hair, amber eyes, a cute little 4 feet 11 inches describes our fugitive from justice, Jeanie Gamble, a vivacious senior from the city of Thalia.

Her favorite pastime is riding around with her best friend, Pat Hammonds. Her favorite food is catfish and french fries. Rory Calhoun and June Allyson top the list as her favorite actor and actresses.

She loves to listen to "You're Just in Love" while dreaming of that certain boy (of course, we couldn't say who).

Jeanie has a lovely personality, and her participation in numerous activities is evidence enough of her popularity among the students and faculty of ole CHS.

Along with being guilty of skipping classes, we find this criminal guilty of just being a wonderful little girl.

EDITOR'S CHOICE

When you notice a black haired, green eyed gal moving down the hall at a leisurely pace humming "If" and she strikes you as being quite a person and someone you would like to know, you have just met Peggy Truscott, a lucky senior girl from Truscott.

As you may have guessed, she loves to sing and is currently billed as one of the "Cackle Sisters."

Peg has her favorite friends, peevies, and pastimes, but only a few can be mentioned. She likes palming around with the "gang from Truscott," eating french fries and fried chicken and "gabbing;" she also enjoys any movie as long as it features June Allyson or John Wayne.

As for future plans, Peggy is undecided because of the war, but someday plans to walk down the well-trod aisle with that certain "Swabbie" and settle down in some naval port—maybe San Diego.

SPORTS REVIEW OF BASEBALL

The 1951 edition of the CHS baseball team came through the Grapefruit League season victorious, and Coach Erwin's sluggers are rapidly gaining momentum as they eye the conference schedule.

Probably the most important factor in the Wildcats' previous victories is the fine pitching jobs turned in by "Ace" Whitley in the two encounters with the Paducah nine. Whitley struck out a total of 31. Dragons and allowed only 4 hits. However, he has received some excellent support from his teammates in these games.

Jim Paul Norman seems to be in midseason condition and is hitting the ball well. Martin Langham has the inside track for the keystone bag. The shortstop's position is well manned by Grin Stinebaugh, and Jon Sanders is holding down third base (hot corner). Don Gobin is holding the catching duties for the local nine.

The outfield has only one letterman back in hard-hitting Clinton Marlow; however, the other two fielders, Hack Norman and James Hall, have received valuable experience in these exhibitions.

CAFETERIA SPOTLIGHTS

The cafeteria is still thriving regardless of the high cost of food. Upholding your school cafeteria will mean better lunches at the low cost of only 30c for adults and high school students and 25c for the younger children.

An added attraction for the cafeteria is the menus that are placed on the bulletin board each week.

The cafeteria wishes to extend its thanks to the Mead Bakery and Mr. Guy Hill for the small tasty sugar cookies that were served in the cafeteria Monday.

Showing the cafeteria workers appreciation for their efforts will enable them to keep trying to please everyone with a variety of food for each day in the week.

The menu for this week is as follows: Monday, fried ham, cream potatoes, green beans, lettuce and cranberry sauce, whole apricots and cookies.

Tuesday, corn meal muffins, pinto beans, cheese and crackers, spinach, sweet potatoes, apples and cookies.

Wednesday, sausage, whole cooked potatoes, English peas, peanut butter and crackers, carrot strip, Jello with fruit cocktail, and cookies.

Thursday, boiled ham sandwich, potato chips, fresh apple and cup cakes.

Friday, salmon croquettes, butter beans, hominy, fresh tomatoes, graham crackers with peanut butter and honey.

THANKS AGAIN, GOOD MERCHANTS!

Working days for seniors are here. For the last two Saturdays, seniors have been adding their muscle and brain power to the business houses of Crowell, Truscott and Thalia. This is done with the cooperation of the business men

making it possible for the seniors to have a nicer senior day.

The seniors wish to thank the business men for their kindness and cooperation on this project.

WILDCAT WHISPERS

Hi, everyone! Isn't this the most wonderful weather? Every year when the temperature rises and the grass gets green 'n people start fallin' in love, 'n so on, I always get the biggest thrill out of it. 'n wonder why spring can't last 365 days every year. But by the time I almost get it figured out, it is summer. 'n then I start to wonder what could possibly be more beautiful than summer... 'n so on.

Spring fever really spreads rapidly throughout the student body with sunbathing and tennis. But spring is just sorta that way. All the senior girls are trying to get that sun-tan look before going to Galveston. All you have to do to get one is lie in the sun and bake at about 350 degrees a few hours. You can always find Mary Cates and Wanda Jones practicing tennis with a few freshmen going, girls! "Take me out to the ball game" (Continued on Page 7)

take me out to the fair, buy me a new dress. I sang a group of girls while watching the CHS baseball team wrap up a few runs. Some of the girls watching their fellows play were Jean H., Bobbie Abston and Posey Autry. Course there were a lot of other girls boosting the players' morals too!

Speaking of stars of baseball, we couldn't exactly boast a "Casey at the bat," but what a wop of a pitcher Roy Whitley is!

Martha Ohr is pining for a boy by the name of Bob Haynie.

Suggestion of the week: why doesn't Clinton Marlow ask a girl for a date? (Pd. Adv.)

James Denton and Myrna Loy Riley are building up another case. Another freshman couple you can see a lot of walking down the halls is Raymond Haleneck and Mary Werley. "Locker Loves!"

You can usually find Don Gobin telling Marcia K. what the "Deal" is between periods.

What is it that's so interesting at Bobbie S's locker that keeps Roy W. so interested? We might investigate the matter.

"Toni R." makes sure that Laverne S. doesn't get lonesome between periods.

The Thalia boys and the Truscott girls are getting very friendly. Poor Crowell is left in the middle.

Crowell, Texas, April 19, 1951 THE FOARD COUNTY NEWS—7

Seen together Wednesday night were Faye Black, Charles Wishon; Pat Owens and John Potts.

Another new couple are Jean Jones and Walter Caddell.

Buddy Caddell and George Ann Davis make an extremely good-looking couple.

George Scott and Billy Love are seeing a lot of each other.

We are very glad to see Jimmy Jones and Mary Rader seeing eye to eye again. Good luck, kids!

We are sorry to hear of the accident Friday night. We're all pulling for you, Fred. We hope Hack, Glyndon and R. C. will be returning to school soon.

The house is open for nominations for Don Brisco a girl. Don't rush him too much, girls.

'Auld Lang Syne' to ya . . . see you around in the same column next Friday.

MARGARET H. D. CLUB

The Margaret Home Demonstration Club met Friday, April 13, with Mrs. Hugh Shultz as hostess.

After the business session was over, Mrs. Ray Brown gave a demonstration on making lamps and lamp shades. She made one out of hail screen about one-fourth inch mesh, but she stated that one-inch would be better as an extra hole would not have to be made in the top to put the shade on. She taped both top and bottom

with bias seam tape. She then demonstrated how to cover it. She also said the lamp should have a white lining. She then showed how to make the shaped one with a seam on each side and to make ruffles for top and bottom. Use elastic, sewing the ruffling on it. Then it can be removed for dusting. She showed different types and colors of tapes to use in making the shades.

She showed how to cut a bottle if one wanted to make a lamp out of it and all the different at-

Home Demonstration Notes

MARY DEEB BROWN

Last Thursday, Mrs. Tate, Mrs. Bowley, Mrs. Bell and I went to the District THDA meeting in Wellington. It was an excellent meeting and these ladies will give their report at Council which meets at 2:30 Saturday afternoon in my office. If you are a council member be sure to come and if you are not a member, then try to come anyway as we are always very glad to have visitors.

Also, April 29-May 5 is National Home Demonstration Week and we should make some definite plans for celebrating this.

On May 2 the hospital in Wichita Falls will have open house and we would like to have some women from this county to go and be able to tell us first hand how we can help with the work there. Many things we throw away could mean so much to the patients there and we need to know just what these things are. I believe they use strings, quilt scraps, old furniture, etc., in their therapy work and most of us throw these things away.

Also at Council we need to discuss final plans for the 4-H dress review to be held May 12, so do try to come.

SEW-N-SEW CLUB

The Sew-N-Sew Club of Foard County met last Thursday. The club welcomed back an old member, Mrs. Joe Roper, who recently moved back to Foard City from Henrietta.

Refreshments were served by the hostess, Mrs. Kenneth Halbert, to: Mrs. Clarence Garrett, Mrs. James Sandlin, Mrs. J. C. Rader, Mrs. Bob Myers, Mrs. Gene Owens, Mrs. Joe Roper, Mrs. Marlin Thompson, Mrs. R. J. Owens and Mrs. Harry Traweek.

ST. JOSEPH'S STUDY

The M. O'Connell home was the scene of the meeting of the St. Joseph's Study and Discussion Club last Sunday night.

Charlie Drabek directed the lesson, after which Mrs. Rudolph Pechecek led in the opening prayer. Interesting discussion among the members occupied an hour after the lesson.

Mrs. A. G. Magee was co-hostess with Mrs. O'Connell for the occasion and they served a dessert course to the twenty members present.

Mrs. Housewife WE KNOW YOUR MOTH WORRIES

Our business is handling fine fabrics. We know the destructive power of the tiny moth larvae. Over our counter daily come costly woolsens, fine furs, silks, velvets and other animal fabrics. We see the paths the moth cuts... the tattered edges, the gaping spots, the little pin pricks that grow... and grow... and GROW. Whether it's a \$3,000 fur or a \$30 suit, we see the value disappearing.

Today, Science has an answer to the moth menace. Housewives couldn't kill all the moths, so Y-A-D-E chemists mothPROOFED the fabric. We're glad we've got Y-A-D-E...
