Governor Daniel Urges Voters To Okay Water Amendment

AUSTIN — Gov. Price Daniel today urged eligible Texans to go to the polls on Nov. 5 and vote for the water development amendment, which is Proposal Number 3 on the ballot.

"The urgent need of dams and reservoirs in the state is evident to everyone," Daniel stated. "Proposal Number 3 will make possible such projects. It is a self-financing plan and the water amendment does not call for and will not necessitate any tax."

Daniel pointed out that all of the state's public officials are backing the proposal. "Furthermore the amendment has been endorsed by a multitude of state associations and other organizations, newspapers, manufacturers and chambers of commerce."

Actively supporting the water amendment are the East Texas Chamber of Commerce, West Texas Chamber of Commerce, South Texas Chamber of Commerce, Rio Grande Valley Chamber of Commerce, the AFL-CIO, and the Texas Manufacturers Association.

"Here is Texas' opportunity of a lifetime," the governor added. "Here at our finger tips is a potential \$600,000,000 for water projects to be paid out of revenues."

Texas' chief executive also cited the flood damages and the tremendous loss of lives and property that have resulted from uncontrolled waters.

"Why should Texas continue to suffer millions of dollars in property damage every year? Why should good water that can be used by cities, by industries and by agriculture be allowed to flow unrestricted off our rich lands and on into the Gulf of Mexico?"

"The recreational advantages that would follow the addition of more lakes and reservoirs naturally will be of interest to hunting and fishing enthusiasts as well as those who enjoy boating and other outdoor sports, but most important to the State are the financial aspects of the program. And they are vitally important," Daniel stated.

Then, as if to answer all questions, he summed up his remarks with the statement that "the water development amendment, which is third on the Nov. 5 ballot, is a once in a lifetime opportunity for Texas and all Texans to have what is greatly needed and without taxes. For this is a self-financing program that not only will pay itself out, but eventually may mean millions of dollars in revenue to the State."

While discussing the water amendment the Governor also tossed in his recommendations of the other two proposals appearing on the Nov. 5 ballot.

"It is my sincere hope," he concluded, "that Texas voters also will approve the two other proposals - the old age pension increase and the state employees retirement plan."

Daniel will make a statewide TV and radio broadcast on the

night of Nov. 4 in support of all three amendments.

He will make a special broadcast to the agen citizens of Texas, in behalf of the old age pension measure on Friday afternoon, Nov. 1, and will urge all to go to the polls and cast their votes for all three amendments.

Baird Trims Woodson, 14-7

Baird's Bears planned the first loss of the season on the Woodson Cowboys, 14 to 7, Friday night in the Bear's Den.

It was a hard-fought contest all the way, with both clubs showing stout defensive play. Baird's Norman Smith put his team in front midway in the first quarter with an 80-yard sprint around his own right end for a touchdown. Jimmy Barnes booted the point after touchdown.

The scoring ceased until the third quarter when Roger Corn darted across for a score from four yards out. Corn had set up the counter on a 35-yard run a play earlier. Barnes again kicked the extra point.

Woodson, which had won four in a row, couldn't muster its score until late in the final quarter. With only one minute left in the game Halfback Owen Dale Woodward hit off tackle for the Cowboy's lone six points. A pass from Brown to Reeves accounted for the extra point.

After their tally, Woodson tried an on-side kick, recovered the ball, but Gary Gilliland intercepted a Cowboy aerial to end the game.

SWEET N' SOUR

By A. Dill

"Dull November brings the blast, — Then the leaves go whirling past."

That's how the old nursery rhymes sizes up our brand new month, but it surely misses the boat here, because West Texas Novembers are anything but dull. This is the time of year when roadsides are ablaze with scarlet and gold leaves, the wild briars put on crimson berries and nature's autumn style show is at its very best.

A day to look forward to in November is the 23rd. That is the time set for the Delphian Club's annual Art and Hobby Show. This year's exhibit will include painting in oil, pastels, water colors and crayon, crafts, hobbies, ceramics, hand work, collections and any kind of art work, including paper sculpture, etc. The exhibit will be held in the Legion Hall and divisions will be made, adult, high school and grade school entries. Remember that date, Nov. 23, from 2 till 5 p. m.

Good news dept. — Mrs. Lena Irwin, who is recovering from a broken hip, was able to leave the hospital this week and is with the Peck Aults now, so all you friends can call up for a chat or stop by for a visit.

Mrs. J. T. Lawrence returned from Dallas this week where he was shopping for more items for the Christmas gift display.

One of the prettiest places in this or any other town is Eunice Brock's beautiful new home. It is just one of the most attractive of houses.

Have you ever seen anything much prettier than pyracantha berries? They vary from gold to mandarin orange and even crimson -- and nowhere are they prettier than in the J. T. Towler yard, worth anyone's time to go and see.

Good to see -- Mrs. Sally Eastham back in Baird for a visit. We do hope she gives our best wishes to the "Fort Worth branch" of Home Town when she goes back and tells each and everyone of those Bairdites there "hello" from all of us here.

We had a special phone call this week from a very special gal -- Jean Lambert Evans from Austin, Jean and Donna Carter Ryan (Houston) came out to visit Miss Charlie Lambert and to make that October birthday she had just the happiest one ever. And speaking of birthdays, November one is Donna's day and we wish her happiness, now and always.

Want to see something really pretty? Ask Sonny and Billie Jean Wristen to show you their English bulldog puppies. They are perfectly beautiful little thoroughbreds. The Wristens are fairly well supplied with dogs for counting the family of terriers, they now have eleven puppies should feel wealthy.

But we don't know how Ralph Short feels -- he ain't got no dawgs at all but he has three cats. There are three kittens, black and white and blue that need homes. Do you need one? Best wishes to N. L. Dickey, recuperating from illness -- hope this finds him much improved and that he'll be up again in nothing flat.

Here are some November birthdays we want to send best wishes to -- Elaine Henry will celebrate this month and so will Evelyn Smalley, Tommy Bearden has a November birthday and there'll be a birthday cake for Billy Bollinger this month, too. Our friend Mack Sutphen will be every bit of ten years old this month and Lloyd Ray Hughes comes in for a big Happy Birthday wish because he is ten this month too. Bessie Vines has a November birthday and so does J'm Jackstone. Vicky Finley is a Novemberer and that goes ditto for Karen Jones and Linda Jean Schaffrina. Guess who else has a birthday? Well, it's a double barreled one at the Higgins house Tommy and Johnny have a thirteenth one coming up this month. Raymond Allman will celebrate in a few days and so will Patricia Musselman. Richard Danielson is a November child and so is Edwina Reese.

Ronnie Ault is scheduled for a birthday cake this month and on the fifth, Shine Henry Griffin up in Snyder will be huffin' and puffin' out candles. November is Pat Bounds birthday and if you know of more won't you please let us know?

58 FORD COMING NOV. 7

Nothing newer

AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Tigris, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris courtesiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford . . . has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

pieces of torn rags, smelly oil
and cleaning rods.

The reason being that hunt-
ing season is only two weeks off
and it's time to get the ol' "30-
06" out of the closet or off the
mantle and start cleaning it so
as to be ready on the first day
to get that big buck you know
is just waiting for you.

Just how many Americans
and Texans are going to blow
their heads off with an unloaded
rifle is a matter of conjecture,
but it is hard statistical fact
that the death rate from fire-
arms jumps up from an average
of about 150 deaths per month
to over 250 in October.

In November, when hunting
starts in earnest, and normally
sane men start blasting away
at one another on deer leases or
contriving intricate methods of
suicide such as climbing over
barbed-wire fences with their
rifles off safety, the figure
climbs to 340 deaths more or less.

In Texas 169 persons died
from firearm accidents last year.
It is only reasonable to assume
that half of these were attribut-
able to hunting mishaps of one
kind or another.

However, death from firearms
is not the only way to die during
hunting season. A good many
hunters slip and fall over precip-
ices while gazing off into the
distance instead of watching
their steps on unsure ground.

Some get killed before they
get to the deer lease in their
frantic effort to get there fast
combined with a few warming
drinks on a chilly pre-dawn
morning drive.

Common sense, starting with
cleaning the rifle until you
bring the deer meat home all
wrapped up in foil, will save a

lot of heartbreaks in a good
many Texas homes this hunting
season. Why not try some?

Cultivated Grass Big Money Maker

Cotton and grain sorghums
are major money makers in the
Texas Panhandle but a third
commodity looms on the horizon
whose possibilities are just now
being explored.

That commodity is cultivated
grass.

A few farmers have been reap-
ing large profits from grass as
a seed crop. Indian grass grown
on a farm near Morton produced
12,500 pounds of seed on 14 acres
which sold for \$1.25 a pound in
1955.

Two acres of Blackwell switch
grass in Hockley country threshed
400 pounds of seed at \$1.25
per pound, grossing \$250 an acre.

These, and other trial plots,
point up the fact that grasses
may soon become an important
part of every crop rotation. Al-
though the price of \$1.25 per
pound will not hold up long with
successive good crops, those few
far sighted farmers gambled on
grass and it paid off handsomely.

In spite of the high prices, the
growers had no trouble selling
all the seed raised. From a total
of around 800 acres in grass seed
production in the Panhandle in
1956, the acreage is expected to
increase by leaps and bounds.

Most growers agree that the
price of seed will nosedive after
a few more big crops. This may
be a "left-handed" blessing for
all concerned, however.

At present, the cost of buying
and broadcasting this seed on

over-grazed rangeland can run
as high as \$15 per acre. For
many ranchers today, this cost
is prohibitive. Cheaper seed of
good quality will be in even
greater demand than at current
price levels.

Some growers have proved
that grass will fit into money-
making rotations. A farmer may
grow a seed crop and get sev-
eral months grazing as well. He
can graze the grass in summer,
pull off the livestock and make
a seed crop. Or he can make a
crop, water heavily and have
grazing all through the winter.

Most plots of grass were in
the irrigated sections of the
high plains. The growers plant
the grass seed in a small ridge,
cover is very shallow and irri-
gate. Previously, planting in the
bottom of the furrows proved
only moderately successful since
even light rains would wash the
dirt and bury the seed too deep.

Grass farming is sound, prof-
itable, and will bring the soil
back to its original fertility. The
days of fabulous profits may be
numbered but the prediction is
that grass will spread year by
year over many parts of the
country as a money crop.

Brake Inspection Regulations Changed

Homer Garrison, Jr., Director
of the Texas Department of
Public Safety, announced today
a change in motor vehicle in-
spection regulations so as to no
longer require the removal of a
wheel in order to inspect the
brakes of vehicles.

In an effort to prevent acci-
dents which might occur due to
brake failures, the Department's

earlier regulation had required
that the wheel be removed for
the principal purpose of deter-
mining the percentage of thick-
ness of the remaining brake
lining. Inspections stations had
difficulty in making these in-
spections due to the fact that
there was no accurate way of
determining the original thick-
ness and the decision in each
case was left to the inspecting
mechanic who had no satisfac-
tory guide to follow.

The change in regulations,
which resulted from action of
the Public Safety Commission,
does not affect the remainder
of the inspection of brakes,
which will still be required to
have the performance ability re-
quired by statute.

Col. Garrison announced that
this change in the regulations
was made in the interest of fair-
ness to the inspection stations
and to the motoring public.

Help Needed For 550 TB Patients

SANATORIUM—Help is needed in the area served by McKnight State Tuberculosis Hospital to provide an adequate Christmas for the 550 patients there who will spend the yule season in the hospital.

Volunteers in the area provide a Christmas gift shop which allows patients to do their shopping and mailing free of charge. The shop will be conducted Dec. 2-6 this year so that gifts from patients to their families will have time to reach their destinations.

Now in its fourth year the Christmas gift shop has done more than provide gifts for patients and their families. It has cut the number of patients leaving the hospital in December against medical advice from 47 per cent of discharges in 1954 to 10 per cent in 1956.

By providing the patient with this privilege of giving, he is better able to accept hospitalization during the Christmas season. No money changes hands in the shop, but patients are given gift certificates which they use in exchange for the merchandise they select. The issuing of gift certificates by volunteers helps take the edge of charity for the patients.

Volunteer workers who can give their time at the hospital as well as cash and miscellaneous gifts are on the wanted list for this project. Suggested patient gifts are cotton underwear, robes, hose, men's stretch socks, toilet articles, manicure sets, costume jewelry, stationery, pens and stamps. Suggested family gifts are household linens, kitchen cutlery, plastic dishes, malleable toys. For boys and girls shirts, billfolds, socks, fountain pens, underwear are just a few of necessary items. Mrs. J. L. Richmond of San Angelo, shop chairman, asks that donors get their gifts in by Nov. 15.

Mrs. J. C. Williams and Cheryl Ann, and Mrs. W. B. Graddy of Big Spring, visited Mrs. Jess Williams over the week end. Mrs. Graddy also visited her father, Dee Pool.

Bobby Estes is spending two weeks in North Dakota and Montana buying rodeo stock.

Jackie Stanley visited Mr. and Mrs. Shiri Frazier in Fort Worth Sunday.

Mrs. Lanham Falls, of Bowie, visited relatives and friends here recently.

Mrs. Bess Driskill is visiting her sister, Mrs. George Simons and Mr. Simons, in Okmulgee, Okla.
