## Red Delegates Leave Special Appeal Being Made by Red Cross for Flood Area

Hilton H. Gilliam, National Red Cross representative, was here Wednesday visiting the Crowell Red Cross Chapter. Mr. Gilliam announced the fact that a special appeal is being made to raise at least \$5,000,000 to aid flood vic-tims of Kansas, Missouri, Oklahoma and Illinois. A total of 11,-591 families have already registered for long-term Red Cross assistance and this figure is expected to increase.

President Truman, in a special appeal, has asked the American public to give generously, at least \$5,000,000. In addition to all that the constituted authorities can do to help restore normal life in the affected communities, there is a vital job to be done by the Red

John C. Wilson, Red Cross assistant general manager, has just returned from the scene, and he says the effect is more like a tornado than a flood.

Money for the relief of the flood victims will be raised through the local Red Cross chapters.

Originally the dollar was sub-divided into halves, dimes, and cents; there were no quarters.

The medical fraternity lege is that of being in the cost more described by the mopolitan and international environment of the country's capital executive vice president of the International Brotherhood of Many of the students live in Mexican homes where they not

In some respects, the testimony of General Wedemeyer was the In some respects, the testinony of General Wedemeyer was the most positive and interesting of all. General Wedemeyer was a all. General Wedemeyer was a in the balance along with all the tional guarantees. Any system in the balance along with all the tional guarantees. Any system of Houston before going to Mexicolar to the same harmonic structure and goes beyond our traditional guarantees. Any system of Houston before going to Mexicolar to the same harmonic structure and goes beyond our traditional guarantees. Any system of Houston before going to Mexicolar to the same harmonic structure and goes beyond our traditional guarantees. for years, forecast much that has happened. Now Wedemeyer thinks that we are making a ghastly mistake in spending our manpower and resources in Korea In his "America is already well and resources in Korea In his "America is already well and the destroy our liberty."

Ica to see if freedom can survive. The says he things would lead to a dangerous socialistic trend and cannot be tolerated. Such a system would destroy our liberty."

It is often argued that the daily life. take in spending our manpower and resources in Korea. In his own words, "I don't believe we are getting at the right enemy at all." In his view, the real enemy is Russia and it's time we faced up to that fact and took appropriate action—even though that action would involve a calculated risk of all-out global war. He would have us break off relations with Russia and the satellite countile. The word of inflation. The 1940 down the road of inflation. The 1940 dollar is worth only 47c. The national debt nearly exceeds the national income. A child born to-day immediately assumes a personal debt of over \$1,800.00 before it has opportunity to fill its what he considers the rights of what he can practice in his destroy our liberty."

It is often argued that those who oppose socialized or government-dominated medicine are sint the road of inflation. The 1940 dollar is worth only 47c. The national income. A child born to-day immediately assumes a personal debt of over \$1,800.00 before it has opportunity to fill its what he considers the rights of what he can practice in his daily life.

American rabbits do not dig the holes they live in; European the problems of the creation who nave no concern for the problems of the common man. That certainly doesn't apply to Dave Beck, who fights hard for what he considers the rights of what he can practice in his daily life.

Should be the classroom, he can practice in his daily life.

American rabbits do not dig the holes they live in; European who have no concern for the problems of the common man. That certainly doesn't apply to Dave Beck, who fights hard for what he considers the rights of who oppose socialized or government-dominated medicine are sint the classroom, he can practice in his daily life. tries and establish economic block-

ades around their areas. Then he said one more thing which was not nearly so widely reported as were his views on the military phase of the struggle. He said that we must also use moral force. Of this, David Lawrence wrote, "The most important recommendation of all . . . was General Wedemeyer's proposal that the United States organize its psycho-social warfare on a broad scale. This means the pledge of economic help to our friends, the communication to the peoples of Russia of the truth about American intentions, and the sending of military missions to all those countries, large and small, whose armies could possibly form a part of the defense of the free world

. . . Surely the genius of America in the field of communications should be given the chance to demonstrate what has long been believed by many of us-that moral force can be of greater value than military force in prevening war.'

A very large number of people, looking at the appalling world of today, will wholeheartedly support that idea. Something resembling it may very well mark the next phase of our changing foreign policy .- Industrial News Review.

GRASS ROOTS OPINION

Miss Virgie Newton, who had been visiting her cousin, Mrs. C.

W. Thompson, for two weeks left Wednesday for her home in Gainesville.

Mansfield, Onio, News - Journal ticians to meet this situation? Not ticians to meet this situation? Friday, Sept. 14, and Sunday, Sept.

16.

The Executive Secretary reported increasing hunting pressure, plus weather hardships on both whitewings and mourning doves, as major factors in the curtailments tentatively fixed by the Federal authorities.

Cottam also indicated a ne-zoning waterfowl policy by the Fish & Wildlife Service because of the precedent provided by such a concession to Texas. He pointed out that several states seek a zoning arrangement, some of them, like Delaware, being just a fraction

### Better Facilities Being Prepared for Texas-Okla. Fair

Iowa Park, Aug. 1 (Spl.) — New facilities are being installed in the auditorium at the Texas-Oklahoma Fair to afford a seating capacity of approximately 2,000 for "Top Hats 'n Spurs," a topnotch musical comedy revue and Durward Cline and his orchestra of Dallas which will be playing

nightly Sept. 25-29.
Rejuvenation of the auditorium is a part of the \$10,000 expansion program now underway on the T-O Fair grounds in preparation of the state o tion for their fall showing Sept. 24-29. Also included in the program is erection of a new building to house agricultural, community and Four-H Club girls exhibit. The arena is taking on a "new look" to provide better facilities for the quarter horse show; a permanent ticket booth is being installed at the front gate; a smooth floor is being run in the industrial exhibits building; the quarter horse barns are being rearranged to afford better accom modations; racks, pens and stalls are being changed in the livestock building to allow better display space for the expanded junior livestock division and many other features are being added for the comfort and safety of the exhibitor and spectator.

tor and spectator.

Members of the board of directors recently announced there will be no admission charge to the midway, but a front gate admission will be aboved as wellmission will be charged as usual.

## NO GOOD

Farhington, Me. — M. E. Knapp tied his two fine hunting dogs to a tree for the night. They slept soundly. To Knapp's disgust, the next morning he found a small racoon perched in the tree right above the dogs.

## UNDERCOATING

try would have attained its pres-

We have recently installed the necessary equipment to undercoat your car. This is the modern way to protect your car underneath and under the hood.

It will make your car run noiseless, giving you much better acoustics. Keeps out dust, dirt and water, and will protect the underneath of your car.

It will harden around bolts, nuts and cotterpins and keep them from working loose. One application will usually last the life of the car. Your car cannot rust underneath when it is undercoated.

We have already done many cars and people who have it are certainly well pleased. Why not let us undercoat your car?

The price is \$20.00 for small cars, and \$25.00 for larger cars.

Let us figure with you today!

### Adequate Rural Fire **Protection Sought** by West Texas CC

Abilene—The West Texas Chamber of Commerce is trying to determine whether adequate rural fire protection can be secured on a voluntary basis without resort.

fire protection can be secured on a voluntary basis without resorting to creation of a new taxing agency.

James F. Melton, manager of the taxation and legislation department of the WTCC, has asked managers of local chambers of commerce of the 132-county remanagers of local chambers of commerce of the 132-county region to report creation of any voluntary protective association, how they were created, and their ability to solve rural fire problems.

One of five constitutional amendments to be submitted to Texans in November 1951 would

amendments to be submitted to Texans in November 1951 would open the way for creation of rural five prevention districts and authorize maximum tax levy of 50 cents per \$100 valuation to finance them.

our lives in bed and asleep.

We Americans don't get mad easy.

But when we do, look out!

We pitch in and turn out guns, tanks, planes and ships faster than anybody on earth.

But nobody boots us into line. No commissars. No bayonets. No slave labor. We just get to work because we've got something to work for ... our liberties and our individual freedoms.

And back of our men and machines is electric power - as much as all the rest of the world has.

It's steady, dependable power - the kind produced only by free men - the kind that helped perform production miracles in World War II. Today, the business-managed electric companies have doubled the supply of electric power available before that war - and they're stepping it up all the time.

Yessir, we have power - with more on the way and we know how to use it. That's a good thing for everybody to remember right now. And it's a good thing for some people here at home to remember that America's tremendous electric power was developed by the free enterprise system which has made America greater than any other nation.
