Extensive Re-Arranging of Rialto Theatre Auditorium Nearly Completed; Side Aisles and "Cry Room" Added

During the last seven days and nights the Rialto Theatre has taken on a "new look." Extensive rearranging of the auditorium was done in an effort to bring the theatre up to what is considered the proper and modern method of seating.

The center aisle was eliminated and the seats moved to the center of the floor space, providing an aisle down each side wall. From a safety standpoint, there is now almost twice as much aisle space as before. From a viewing standpoint the patrons now may move to the center of the rows of seats and remain undisturbed all through a program. People moving up and down the aisles will not disturb patrons watching the picture nor will anyone's view of the picture be interrupted.

Still to be finished this week is the Baby Cry Room in the rear of the auditorium. When finished it will have eight seats arranged in pairs of two leaving floor space for mothers to move around with crying or restless children. The front facing the screen will have a large plate glass window so mothers may see the screen and a speaker from the sound system will be installed in the room bringing the sound exactly as in the regular auditorium.

A. L. Kelly handled all the carpenter work and O. W. Davenport was responsible for the plastering in the lobby and auditorium. Several local laborers worked almost day and night to move the seats and yet provide aisles and secure seats for the regular showings last Monday, Tuesday and Wednesday. Nolan Henson of Oklahoma City laid the new carpeting in the balcony, balcony stairs, lobby and auditorium aisles.

Roy Hanson is owner and manager of the local theatre.

## A PIONEER'S STORY

Fredricka Zelema Eubank Weatherall, born on January 27, 1878, became a Texas pioneer when only a year old. She was the second oldest youngster in a group of eight children, four boys and four girls.

Having a unique experience that few now living can match, Freddie, as she is called, crossed the Mississippi River by ferry in 1879 on the way to Texas. As she related, "We rode a train as far as the river and then ferried over." George Eubank, father of the family, and a prominent Tupelo, Miss., farmer, heard of the golden opportunities that Texas

offered; consequently, he packed up his family, leaving all furniture except the feather beds, and came to Texas.

The first years in the young giant of a state were not easy. Mrs. Weatherall recalled that her mother had to wash and iron their one white tablecloth on Saturday so that it would be clean for Sunday.

After the family got a new start in what is now Lavon in Collin County, Freddie's father served as peace officer for fourteen years of the thirty he lived in that part of the country. He first was justice of the peace, then constable, next sheriff, and then as duties at home became heavier, he served as sheriff's deputy. Reminiscing, Mrs. Weatherall said "My father was a true peace officer all his life, smoothing over conflicts and helping others."

The only formal schooling for Freddie was what would now be about nine years in a one-room school house at Copeville, Little Creek, and finally Lavon. A school day never passed that Freddie failed to walk the two miles to school, crossing a running creek by a foot log. The only grades the children received were in deportment. When asked what sort of grades she made in that capacity, she said and blushed a little, "I was just too mischievous to go to the top, but I still wasn't one of the worst."

Having parents that frowned upon dancing, Freddie, as a teenager, never danced, but she said that they did play games similar to our square dancing. Two that they played were "snap" and "rouser." Perhaps the very center of social life for the young people was the twice-a-year visit of a Presbyterian circuit rider, Brother Hornbeak, who held services in the little school house. The group sang and visited with one another during the all-day meetings.

Freddie had an abundance of beans, but she lost her heart to Adam Weatherall, a young Collin County farmer. The couple went together for three years. After a year's engagement, they were

married in Freddie's home on her birthday, Jan. 27, 1897. The dress she wore was of sheer white wool, entirely handmade.

A year after their fourth child was born, the Weatheralls came to Foard County, this being 1909. The fifth child, Catherine, who is my mother, was born in Foard City. Freddie's first impression of the county can be simply stated, "It was a bunch of mesquites, some dust, but plenty of good fresh air."

The family lived for a number of years on the farm that Mrs. Weatherall still owns. She recalled the days of the cook shack during harvest. The women cooked in the shack right out in the wheat field under broiling hot sun for the threshers. They always had good meals, and once a week the men were served ice cream. Then came the depression. While many were starving, the Weatherall brood always managed to eat well, due to the foresightedness of Freddie who canned food all summer for the winter.

The first real blow, so hard for a mother to bear, came when the second son, Orval, was killed in the North Canadian River near Watonga, Okla. In spite of the pain of losing a son, they somehow managed to forget and resumed living a normal life.

Finally after the fat and lean years of farm life, the aging parents moved to Crowell, where Mrs. Weatherall now lives. It was in 1947 that the golden half-century of married life was celebrated by the couple. Five years later, on Nov. 28, 1952, Mr. Weatherall died, leaving his wife to carry on in his place.

Mrs. Weatherall, whose steely gray hair belies her seventy-six years, is still very active, being able to do some housekeeping and cooking.

She's had a good life, perhaps rough in a few spots, but as she says, "I wouldn't take any amount of money for a minute of it."

## PRACTICE LIKING PEOPLE

How many teen-agers have ever stopped to think why they disliked someone? Very few, or even maybe none.

Is it because they're different? Is it jealousy? Or is it just plain stubbornness?

Instantly a boy or girl mentally rebels when he comes in contact with someone "different." Because they are "different" doesn't make them outcasts. Learn about them. It could be that their way of life is definitely superior instead of inferior to the accepted one.

But perhaps jealousy has caused more heartbreak than any other weakness. Is the new girl more beautiful than any one in the "crowd"? Is that new boy the

football player type? Does jealousy ever solve anything? Like them, Give them a break like any human being deserves.

Or it might be that the person said something that was taken to exception. Maybe they didn't mean it as it was understood. Broad-mindedness, not stubbornness, will take one to the peak of popularity.

No matter how mean, hateful or degrading a person can be, practice liking people and looking for the good in them.

The Bible says: "Rejoice with those who rejoice, and weep with those who weep."

## BAND COPS HIGH HONORS AT MEMPHIS

After weeks of practice and hard work, the Crowell High School Band attended a contest at Memphis, Saturday, March 20. From the twenty-one bands that participated, six were in our class. The band placed fourth in concert and sight reading in their class, which was exceptionally well, because first and second place winners, Dimmitt and Haskell, will move to class AA next year.

Eleven members of the band presented solos and nine of these placed first. They were as follows: Bobby Davis, baritone; Elizabeth Davis, saxophone; Sy Moore, cornet; James Choate, trombone; Billye Bell, Frances Kincaid, Sue Meason, Billye McCoy and Nelda Brooks, twirling; George Morgan, cornet, placed second; and J. C. McCoy, cornet, placed third.

Crowell won the highest percentage of first places on solos than any other band that participated.

**Highway Accidents Take Nine Lives During February**

Captain K. B. Hallmark Jr. announced this week that sixty-six accidents in the month of February cost the people of his North Texas district \$99,900.00 in property damage and nine human lives, in addition to sending 25 people to hospitals for injuries in those accidents.

In this district of the Texas highway patrol there were only six fatal accidents but they resulted in the death of nine people, with Wichita County leading the district with one fatal accident and three traffic deaths. Wilbarger County followed Wichita a close second with two people dead in one fatal accident and also two people injured in January, but ground was lost in fatal accidents as the district had six fatal accidents killing nine people compared to January with three fatal accidents and seven people killed. The district spent almost \$30,000 less on property damage during the month of February than in January. The district also

spent \$4,000 less in February of 1954 than in February of 1953 comparing February of 1953's \$44,078 with February 1954's \$39,900.

Captain Hallmark says that again speeding violations led his district in being the number one traffic violation and his 17 patrolmen arrested 251 and warned 582 for the offense of speeding. Improper passing was second with 25 people arrested and 65 warned for this violation. He points out that state-wide, the 3 leading traffic violations are speeding, drinking drivers and wrong side of the road or passing violations. The 17 patrolmen contacted a total of 2,209 violators of which only 465 were arrested and 1,744 were warned. Of the warnings 532 were for violation of the inspection law and the captain warns that of the total of 95,363 vehicles in his district, only 40,277 have been inspected leaving approximately 58 per cent to be inspected between now and April 15, the deadline, and urges that all who have not had their cars and trucks inspected do so now to avoid the last minute rush and avoid being penalized, as his men will arrest violators after the April 15 deadline and that violators can be fined from \$100 to \$200 for that offense.

In contacting 2,209 violators in February the 12 patrol cars in the Wichita Falls district were driven over 60,000 miles and the patrolmen encountered many different tasks in attempting to serve the people of North Texas. For example one patrolman came to his sergeant with the problem of what to do, as he had arrested a midget driving a regular sized car while intoxicated and wanted to know if he should charge the midget with being "half drunk" as he was only half size.

Captain Hallmark says that although his men are working many hours both day and night in attempting to assist the traveling public and make the highways safe, that accidents are on the increase in 1954, as he points out that his district has had almost as many people killed in traffic accidents in the first two months of 1954 as were killed in six months of 1953. Sixteen people have been killed in the Wichita Falls district in two months of '54, while only 18 were killed in the first six months of 1953.

**News from the Congress**

by Congressman Frank Ikard

For some time there has been growing dissatisfaction with our program of foreign economic aid. This program has undoubtedly been of some benefit as far as immediate results were concerned; however, it has had more than its share of the extravagances and busts. It cannot be kept as a long range program for the simple reason that we cannot afford it. In addition to this, it fails to meet our need for many reasons, the most important of which are that: (1) in many instances it is based on the premise that friendship can be purchased; (2) it does not take into consideration that the conflict in which we are engaged with the Soviets is a conflict for the minds of men and over a way of life that may last for two or three generations, and (3) it puts our representatives abroad in the position of telling the people of other countries that their way of doing things is wrong and that they should follow the American example which many times is impossible to sell to the people of other countries. If we are to ultimately win this conflict, we must find some way to permanently instill in the hearts and souls of the people of the world the ideas that have made this country great. We must somehow let them know the feeling of free men, the effectiveness of free institutions, and the happiness of an individual who possesses freedom of mind and body. We could accomplish this very desirable result in a way that would be more effective in the long run and be a whole lot less costly to us, by selecting outstanding young people in the countries of the world and let them come to the colleges and universities in this country. We could bring them to the smaller colleges and universities in the South, Southwest, and Midwest where they could learn firsthand the advantage of the Democratic way of life and where they could study our great institutions. By selecting outstanding young people who had qualities of leadership in the fields of medicine, law, science, farming, business, and labor, we could be assured that when they returned home their country would have enlightened leadership that was devoted to the cause of free men. It is interesting to know that the Russians are at this time educating thousands of the Indonesians in Russia and her satellites. With this in mind, it becomes clear that the Communists do not need to defeat the French in Indochina by military aggression this year or the next, but by educating the future leaders of that country and by sending them home to assume positions of leadership, they can eventually wear France and her allies down. The number of young people from Indochina being educated in this country are less than one hundred; so you can readily see how badly outnumbered we will be over the long run.

A program such as this would also have the advantage of very effectively destroying the Communist line of propaganda for a person that had spent a year or two in this country studying and had come to know Americans and their ways, could, when he

**Candidate for Lt. Governor Blasts Telephone Company**

Austin, Texas — C. T. Johnson, Democratic candidate for Lieutenant Governor, has charged that Southwestern Bell Telephone Company has rate increase requests pending in 64 counties despite the fact that phone income has reached an all-time high.

Johnson declared that "the company's return on its net investment for 1953 hit 6.3 per cent compared to a favorable average of 5.31 per cent for the past five years; and there's no telling what it will be for 1954."

"By their gouging tactics the company contributes to inflation," he asserted, "and thus the company indirectly plays into the hands of those who seek to undermine our economy."

Johnson added that the company is obviously not satisfied with "a more than fair" 6.3 per cent net return but still wants more as shown by the rate increases sought in 64 counties.

Bobby is just one of thousands of Texas youngsters who benefitted from dollars raised by the Texas Society for Crippled Children through Easter Seal campaigns.

Millions of appeal letters containing the bright blue and yellow Seals were sent to Texas homes, inaugurating the 21st annual campaign.

"Crippled children are our greatest undeveloped natural resource," said Martin M. Ricker, Executive Director of the Texas Society.

"There are other Bobby's who want to walk and ask for only the opportunity to lead a useful life," he further stated.

"You can do your part in helping Bobby and thousands of other Texas youngsters by using Easter Seals."

The Texas Society was chartered in 1934 and has 92 affiliated county societies operating 23 treatment centers.

pears that stormy meetings are developing over this issue with Speaker Reuben Senterfitt pitted against supporters of the plan presented by Governor Shivers.

Another indication of the tempo was a 10-hour filibuster by Senator Jimmy Phillips of Angleton. Peculiarly enough it came about during a committee meeting.

Despite the filibuster, which lasted until 2 a. m. the Senate Finance committee approved an \$11 million state building program. Phillips was the only vote cast against it.

Senator Harley Sadler of Abilene commented: "This is my first experience at seeing a filibuster in a committee. It seems so foolish and childish to take the time of a 21-member committee because of the real or imagined objection of one member, and punish other committee members by a lot of asinine questions."

That threatened march on Austin by the thousands of old folks seeking more pensions . . . fizzled. Only two showed up. Cyclone Davis of Dallas, a persistent candidate for public office, and an 88-year-old Austin man.

Davis announced a gathering on the capitol steps, but he and his aged cohort, plus one page boy and one reporter, made up the crowd.

Oil news brought two cheering notes to the state's financial picture and to legislators seeking revenue to meet current salary and building problems.

Comptroller Robert S. Calvert reported that \$11 million more than he had anticipated nine months ago now is in sight from crude oil sources for the next two years.

Last summer's increased taxes from oil is the result of a 25-cent hike in oil prices, Calvert said. For the past year, oil has paid the state more than \$10 million a month.

Another factor that brightened the picture was boosted oil production. It has been on a long downward trend.

Allowable for March was above that for February by 159,000 barrels per day, and further climbs are in sight.

Legislative committees have been studying tax plans to raise the money for teacher and state employee salary increases and for construction work at state institutions.

In the House of Representatives the revenue and taxation committee, headed by Representative D. H. Buchanan of Longview, held a hearing Monday on increasing the state tax on beer.

There were two proposals of this nature. One, by Representative Joe Pool of Dallas, would increase the levy from the present \$1.37 to 10 per barrel. That would bring in an additional \$35 million more per year, according to Pool.

Representative Joe Kilgore of McAllen, handling Governor Shivers' tax plans, introduced the other beer bill, which would hike the tax to \$2 per barrel and raise \$3 million more from that source.

On Tuesday afternoon, the committee had scheduled a hearing on a franchise tax bill, by Representative Kilgore, raising the present levy from \$1.25 per \$1,000 of corporation assets to \$2. Increased revenue here would be an estimated \$8.6 million.

Wednesday afternoon was set aside for a committee hearing on Kilgore's proposal to tax natural gas. About \$14 million would come from this source.

There were many other proposals, but those just mentioned were the first to be considered by the tax committee.

In the Senate, the education committee unanimously approved a compromise plan, endorsed by the governor and the Texas State Teachers Association, to increase teachers' pay.

School leaders told the com-

mittee that where teachers already receive the \$2,854 minimum required by the bill, districts could use additional revenue for other purposes.

Representative Tom Joseph of Waco introduced a bill that would provide a minimum pay raise of \$350 for teachers and \$100 for merit raises. Local school boards would determine how to distribute merit pay hikes.

House Speaker Reuben Senterfitt said the Joseph measure came close to his ideas about a "realistic approach" to the teacher-pay problem.

Two anti-communist bills were discussed Monday by the Senate civil jurisprudence committee.

Senator Rogers Kelley of Edinburg is author of the two measures. They were proposed by the Texas Industrial Commission, appointed by the governor to study subversive influences in Texas.

One of the bills would outlaw Communists in Texas and the other would establish a Communist Review Board. A 20-year prison sentence is provided as penalty for Communist Party membership.

Senator Kilmer Corbin of Lubbock introduced in the Senate a resolution designed to stop payment of state funds to Duval County and its independent school districts until financial affairs there are audited.

State and federal agencies have, for some time, been investigating the financial affairs of the county and school districts, as well as the income tax reports of George B. Parr and others.

State Auditor C. H. Cavness, one of the investigators, revealed that numerous records were missing.

C. Woodrow Laughlin of Alice and his attorneys have indicated they will appeal to the U. S. Supreme Court last week's historic ruling by the State Supreme Court which removed Judge Laughlin from office.

Laughlin was elected Judge of the politically turbulent South Texas 79th District Court in 1952 with the help of Duval County's George B. Parr. The judge was found guilty of dismissing, without lawful authority, a grand jury which had indicted him on two counts and which also was investigating his brother, County Commissioner W. M. Laughlin.

**Save Soil, Water:** Principal points of an upstream water control bill Congressman Bob Poage introduced in the House and I introduced in the Senate are included in legislation passed recently by the House.

It provides for Department of Agriculture cooperation with a state, or any political subdivision authorized by the state, in carrying out such flood prevention projects as correct land treatment, gully plugs, detention dams, and the like. Object is to stop water close to the point where it falls—this is as needed.

Fort Worth—The largest run of sheep to arrive at Fort Worth this season was on hand Monday, and the run was the biggest since June 1953. Orders for sheep and lambs from all parts of the country were reported during the day and trade was active after a rather slow start.

Prices were favorable despite an offering of nearly twice as many sheep around the major marketing circle as last Monday. Milk fed lambs were strong to 50 cents or more higher, and the top of \$26 was \$1 above the best so far this season. Shorn old crop slaughter lambs were about steady with the close of last week in a very uneven trade. Yearlings were strong to \$1 higher and topped at \$19, a new high for the class for the season. Older sheep were fully steady.

Cattle trade was again highly uneven with trade slow and prices steady to weaker on most kinds. It was another session in which the buyers were apparently under no pressure for supplies and there were some soft spots in the prices of virtually all kinds.

Butcher hogs were 50 to 75 cents higher and topped at \$26.50, while sows were steady to 50c lower at \$23.50 downward.

Good and choice milk fat lambs cashed at \$23 to \$26 and cull to medium offerings cashed at \$16 to \$22. Shorn old crop fat lambs bulked at \$19 to \$21.50, when good and choice, while one lot of lambs with No. 1 pelts topped at \$22. Cull to medium kinds sold from \$12 to \$18.50. Yearlings and two-year-old wethers sold from \$14 to \$19, and old wethers sold from \$11 to \$14. Slaughter ewes sold from \$6.50 to \$9.50, a few higher. Old bucks sold from \$4 to \$6.

Good and choice slaughter steers and yearlings cashed at \$18 to \$22, and individual club calves topped at \$24 to \$25. Common and medium slaughter steers and yearlings sold from \$13 to \$17, with some cutter grades down to \$10.

Fat cows cleared at \$10.50 to \$12.50, a half load of outstanding high yielding cows at \$13.50. Canners and cutters cashed at \$7 to \$10.50. Bulls sold from \$10 to \$14.50, odd head to \$15.

Good and choice slaughter calves cleared at \$16 to \$19, with a few fancy fat calves to \$20. Common and medium offerings

sold from \$13 to \$16, and culls sold from \$10 to \$13.

Good and choice stocker steer calves and stocker steer yearlings cashed at \$16 to \$19, and heifer calves and heifer yearlings sold around \$2 to \$3 under comparable steers. Stocker cows cashed at \$16 to \$13.

Good and choice butcher hogs weighing 190 to 260 pounds sold from \$26.50 to \$26.75, while lighter and heavier weights sold from \$24 to \$26.25. Sows cashed at \$21 to \$23.50.

I wish to express grateful thanks to my friends who were so nice to me while in the hospital and at home, for the flowers, cards, letters, gifts, food and visits.

Such kindness will ever be cherished. May God bless each of you.

Fort Worth—The largest run of sheep to arrive at Fort Worth this season was on hand Monday, and the run was the biggest since June 1953. Orders for sheep and lambs from all parts of the country were reported during the day and trade was active after a rather slow start.

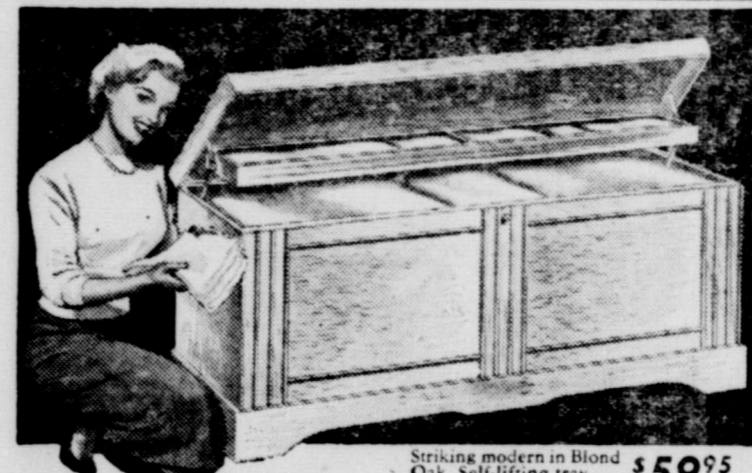

Prices were favorable despite an offering of nearly twice as many sheep around the major marketing circle as last Monday. Milk fed lambs were strong to 50 cents or more higher, and the top of \$26 was \$1 above the best so far this season. Shorn old crop slaughter lambs were about steady with the close of last week in a very uneven trade. Yearlings were strong to \$1 higher and topped at \$19, a new high for the class for the season. Older sheep were fully steady.

Cattle trade was again highly uneven with trade slow and prices steady to weaker on most kinds. It was another session in which the buyers were apparently under no pressure for supplies and there were some soft spots in the prices of virtually all kinds.

Butcher hogs were 50 to 75 cents higher and topped at \$26.50, while sows were steady to 50c lower at \$23.50 downward.

## POPULATION SHIFT

The advice of Horace Greeley's "Go West young man," seems to be still being followed today. A study, recently released by the Census Bureau, showed that states in the West had the greatest population growth in the last three years. Nevada gained 24.5 per cent, Arizona 20.7, California 14.2, New Mexico 11.1, Colorado 9.9, Wyoming 9.2, Utah 8.9, and Texas 8.9. In the nation as a whole the population grew during 1953 by an estimated 2,700,000, placing the population well over the 160,000,000 mark.

## DAILY HOUSE CLEANING

One day a visitor to a certain public school was horrified at the condition of the average pupil's desk. After asking the teacher for permission, he announced that he would give a prize to the pupil whose desk he found in the best order when he returned. "But when will you return?" some of the children asked. "That I cannot tell," was the answer.

A little girl who had been noted for her disorderly habits announced that she meant to win the prize. "You!" her schoolmates jeered. "Why your desk is always out of order!"

"Oh, but I mean to clean it the first of every week."

"But suppose he should come at the end of the week?" someone asked.

"Then I will clean it every morning."

"But he may come at the end of the day."

For a moment the little girl was silent. "I know what I'll do," she said decidedly, "I'll just keep it clean."

As Christians, it's easy for us to clutter up our lives with little things of daily living. . . thus we are in much the same position as the little girl with the untidy desk. We look forward to the eventual return of the Lord Jesus, yet we forget that He Himself has told us, "Watch therefore, for ye know neither the day nor the hour wherein the Son of man cometh" (Matthew 25:13).

The only way we can keep our lives in order is to keep in constant touch with the Saviour. Oh, yes, we should have a good house-cleaning every day when we spend time in meditation and prayer. But it is also necessary to take care of each little matter as it arises. Did we say an unkind word? We should tell the Lord we're sorry right away. Did we think an unclean thought? We should take it to Him in prayer quickly. Did we yield to temptation? We should ask His pardon immediately.

It is only by such constant attention to detail that we can live fully in the Christian life. It is only by such consistent daily housecleaning that we can be assured of being spotless and ready at His return!

## Shower Given at Thalia Honors Rev. and Mrs. Bob Oglesby

A miscellaneous shower was held at the Thalia Methodist Church Friday night honoring Rev. and Mrs. Bob Oglesby. The couple's class was hostess for the shower with Mrs. Homer McBeath registering names in the bride's book. Miss Dana Loy Roberts furnished music. The refreshment table, which was the center of interest, was covered with a white Madeira cloth. White carnations with green foliage and tall white candles in silver holders were used as the centerpiece for the table with a crystal punch service completing the table appointments.

Mrs. Carl Morris presided at the punch service. Mrs. Beverly Gray assisted with serving duties. Mrs. Fred Gray sang "I Love You Truly," accompanied by Mrs. Beverly Gray. A mock wedding was given by the children of the primary, junior and intermediate departments. A poem written by Mrs. Maggie Capps for the bride and groom, was given by Mrs. Grover Moore.

ews Jr., Mrs. B. A. Whitman and Mrs. Robert Hammonds. Out-of-town visitors at the shower were Rev. E. E. White of Childress, Rev. and Mrs. Russell McAnally, Mr. and Mrs. Sherman McBeath and Mr. and Mrs. Robert Long of Crowell.

### ADELPHIAN CLUB

The Adelpian Club met March 17 with Mrs. Virgil Johnson, club president, presiding. Mrs. Ray Shirley was hostess for the meeting and served a delicious salad plate.

Mrs. C. G. Graves served as forum chairman in presenting the timely question: "Why Should Women Serve on Juries?" Miss Florence Black, Mrs. Doyle Kenner and Mrs. Tom McCandless assisted the chairman in the discussion. This is an amendment coming up for consideration in November.

Jury service for women is an important civic function. It is a form of participation in the processes of the government. It is a responsibility that should be shared by all citizens regardless of sex. Jury service for women serves a dual purpose. First, it discharges an obligation that is basic to good citizenship and the welfare of the community. Second, it affords them an opportunity to acquire a working knowledge of the court they support and of methods by which the laws are enforced.

The right to share in the enforcement of the law should not be denied women, for like other citizens, they share in the economic life of the nation, the responsibility for family support, and the ownership of property. The above comments were some of those mentioned in the forum. The concluding statement was: "Let us not permit Texas to be the last state to recognize and avail herself of this potential source of intelligent and willing jurors."

Dunagan, financial chairman, reported a balance of \$173.79 in the bank with one check of \$23.50 outstanding, leaving \$150.29.

Mrs. Fred Traweck, EEE chairman, gave the following recommendations from her committee:

1. Each club woman read at least one book during the year.
2. Hold Achievement Day in the fall.
3. Each club have one educational exhibit at this Achievement Day.
4. Hold Dress Revue on May 8.
5. Assist with 4-H Dress Revue.
6. Invite more visitors to club.
7. Include more young married women in clubs.

Concerning the dress revue, Mrs. Traweck gave the following recommendations:

1. Should be a tailored dress, may be cotton, linen, rayon, etc., but it should be interfaced. If there are buttonholes they should be bound and all belts should be made without metal eyelets.
2. Hat, bag, shoes and gloves will be part of costume.
3. Dresses will be judged and each entrant will receive her score card to study.
4. There will be no 1st, 2nd, and 3rd prizes. Each woman who enters will receive a small entry prize.
5. Clubs should vote on whether or not they want to pay \$2.00 to enter dress revue. Then the club having the largest percentage of members entering wins the \$14.00.

Mrs. Tom Callaway, THDA chairman, reminded all club members of the THDA district meeting in Seymour March 24 and asked all clubs to return them to her by May 1st.

Council voted to have the next meeting on the second Saturday of April to avoid the Easter holidays.

## Home Demonstration Notes

MRS. MARY D. BROWN

As you know, we had council last Saturday. Only 13 of the 23 members were present. If you are a member of council you should make every effort to be present at all meetings. It is at council that we make county plans and coordinate the work of all the clubs. If you are absent from council then your club is not fully represented in making these plans.

The EEE committee recommended that the H. D. Clubs have their Dress Revue on May 8. However, I just received word that the 4-H girls may have their district 4H elimination in Wichita Falls at that time, so we will need to plan our dress revue for May 1 or May 15. At any rate, it would be a good idea to start looking for material and a pattern now so that you will be ready.

Easter will soon be here and many of us think of—

### Hot Cross Buns

You can no longer buy them for "one a penny, two a penny," but they are still great Lenten favorites. Have you had them freezer style? For 4 dozen buns: 2 cups milk, 1/4 cup shortening, 2 eggs, 1 cup sugar, 1 lb. vanilla, 1 tb. salt, 1 cake yeast, 1/4 cup lukewarm water, 8 cups flour, 1 tsp. cinnamon, 1 tsp. allspice, 1/4 tsp. cloves, 2 cups currants.

Scald milk and add shortening, stirring until shortening is melted. Cook Beat eggs. Stir in cooled milk, sugar, vanilla and salt. Soften yeast in lukewarm water and add. Sift flour with spices and stir into yeast mixture to make a soft dough. Add currants. Turn dough onto a floured board and knead until smooth and elastic. Place in greased bowl, spread melted shortening over dough and cover with a cloth. Let rise until nearly doubled in bulk. Turn out on a floured board and knead. Form into smooth balls—about 2 inches in diameter. Brush with melted butter, cover and let rise until almost doubled in bulk. Before baking, make a cross on top of each roll by snipping dough with scissors. Bake in a hot oven (400 degree F.) for about 15 minutes or until brown. When cooled, package in desired container, freezer paper or foil. Freeze.

When ready to serve, remove from the freezer an hour or two before serving and let the rolls defrost in the freezer wrappings. Just before serving, add a cross of powdered sugar icing. If you
