## Paducah Voted in District 1A-9 at Meeting Tuesday

Paducah replaced Newcastle in the District 1A-9 football lineup, when superintendents of all schools in the district met Tuesday in Iowa Park to elect officers and draw up the 1953 schedule.

Grady Graves, superintendent of Crowell Schools, was elected as chairman for the coming year, and W. S. Thomas, superintendent at Holliday, was named secretary for the group.

Newcastle was assigned to Class B competition when the enrollment there dropped below the minimum set for Class A schools. Paducah, a member of District 2A-3 this year, was voted in and designated to take over the Newcastle schedule of conference games.

District 1A-9 is now composed of the following schools: Archer City, Chillicothe, Crowell, Henrietta, Holliday, Iowa Park and Paducah.

## New Car Dealer in Crowell Gets Award for Safety Effort

Presentation of a Highway Safety Award for contributing to traffic safety has been made to Borchardt Chevrolet Company in Crowell by the Texas Automotive Dealers Association, the state organization of new car dealers.

The award is in recognition of the local dealer's lending an automobile for high school driver training during the 1951-52 school year to Crowell Consolidated Independent School District.

C. B. Smith, Austin, State Safety Chairman for the dealer association, described this contribution to safe driving by the local dealer as a significant service to the community, the state and the nation.

The safety award is signed jointly by officers of the Automotive Industry National Safety Committee, and State and National new car dealer associations.

In Texas alone last school year, more than 250 members of the authorized dealers association loaned cars to schools in their community where "behind the wheel" instruction is given in high school training.

It is estimated by E. A. Kinsel, Beaumont, president of the state association, that this represents an investment of more than \$500,000 which Texas new car dealers have in a "revolving" fund devoted to safety education.

## Crowell High School Wildcats Win District 1A-9 Championship by Defeating Newcastle 51-0 Last Friday

The Crowell High School football team became the District 1A-9 champion last Friday night by virtue of its smashing 51 to 0 victory over the Newcastle Bobcats, last year's second place winner in the State race. The game turned into a riot before halftime with the Wildcats out in the lead by 38 points. Coaches Thayne Amonett and Gordon Erwin used mostly reserves during the last

half of the score might have been more lopsided. Newcastle is going back to class B football another year.

Coach Thayne Amonett and Superintendent Grady Graves will meet the Grapevine school officials Saturday morning in Wichita Falls for the purpose of determining a site and working out other details pertaining to a bi-district play-off contest for next week.

Three touchdowns were scored in the first quarter with Ginger Johnson traveling 26 yards, Jim Paul Norman running 60 yards after catching a ten-yard pass thrown by Don Gobin, and a brilliant 80-yard run by little Raymond Halenak. As usual, all of these runs were started by sharp blocking in Crowell's strong line composed of Jim Norman and Jimmy Everson at ends, George Scott and Billy Abston at tackles, Billy Latimer and Buddy Caddell at guards, and DuWayne Elliott at center.

The second quarter found Johnson going wild on sprints of 50 yards, 24 yards and 37 yards for touchdowns. Two of these placed Johnson in the clear by Gobin's passes. Wayne Borchardt intercepted a pass and made a beautiful 20 yard return to get one of them underway.

Johnson went 68 yards for a tally in the third quarter before retiring for the evening. Gerry Knox, substitute fullback, went five yards for the final touchdown of the game in the fourth quarter. Extra point conversions were turned in by Norman and two by Elliott.

Jackie Stringer, Newcastle quarterback, turned in an outstanding game that contributed to the nine first downs registered by the visitors. He turned an ankle in the third quarter which caused him to leave the game. Howard Eddleman, center for the Bobcats, and the other returning regular from last year's squad, also looked good. Crowell's entire team blocked and tackled in a magnificent manner and there should not be any stars mentioned.

The Wildcats will journey to Henrietta tomorrow (Friday) night to tangle with the most improved club of the circuit. The Bobcats have continued to improve since the beginning of the season and finally won their first conference game last Friday night over the Holiday Eagles. They have the only team of the district which has a weight advantage over the Wildcats. This game will not have any bearing on the district race but the Crowell fans will want to go along and support the first Wildcat team to win a district championship since 1945.

Pre-induction examination by armed forces for 35 registrants on Dec. 1, 1952. Induction call on Dec. 12 is for 35 registrants. Any person having information or know the addresses of any one following registrants, is requested to call telephone 18, local board office in Vernon:

Frank Mitchell, Marcelline Leija, James Jimmy Conley, Preston Williams, Frank Jackson, Percy Goodwill, Vernon Brigham.

## ROTARY CLUB

Out-of-town visitors attending the Wednesday noon luncheon of the Crowell Rotary Club in the banquet room of the DeLuxe Cafe were Rotarians Joe Anderson, Vance Favor and Bud Boring of Quanah.

The program was in charge of Irving Fisch, president-elect for 1953, and consisted of the highlights, given by Mr. Fisch, of the district conference held in Fort Worth the first of the week, and two-minute talks by Rotarians who attended the conference. They were Herbert Edwards, Henry Ferguson, Tom Woods, Clinton McLain and Glenn Goodwin. District Governor Nominee for 1953, Grady Halbert, also made a short talk expressing his appreciation for the loyalty and support of the Club and the honor that has so recently been given him. He also expressed his gratefulness for the unending hospitality extended to him and Mrs. Halbert by the Fort Worth Rotary Club.

The Crowell committee of pastors is urging all Christians to give their Thanksgiving services their hearty support.

Citizens of Crowell and Foard County are invited to attend Union Thanksgiving services at 9 o'clock Thursday morning, November 27, at the First Baptist Church.

Rev. M. A. Walker, Methodist Church pastor, will bring the Thanksgiving message; Rev. Bedford Smith of the Christian Church and Rev. Warren Everson of the Assembly of God Church will read scripture and give the invocation. Joe Ward will have charge of the song service.

The Crowell committee of pastors is urging all Christians to give their Thanksgiving services their hearty support.

### Simple Rules of Safety Would Prevent Hunting Accidents

Most hunting accidents could be prevented if hunters would observe the simple rules of safety with firearms. "Trigger happy" and careless hunters, says R. E. Callender, wildlife conservation specialist for the Texas Agricultural Extension Service, not only endanger the lives of every other hunter in the woods but also cause much damage to wildlife.

Practicing safety with guns in the fields or woods then, says the specialist, is just a good conservation practice and applies to both humans and wildlife. It is also very important at this time that hunters be doubly careful with fire. A wildfire can easily wipe out not only the wildlife of an area but destroy vegetation that is so badly needed at this time for livestock, says Callender.

He says records kept of hunting accidents show that two-thirds of them are caused by humans in the line of fire; mistaking humans for game and hunting with the safety catch off on the rifle. He points out that good sportsmanship is just as important as using the right gun for the right game, hunting only in season and not taking more game than can be used even though the bag limit may permit a larger take. Bird hunters, he says, should use a trained dog to retrieve crippled birds. The rights of others are always respected and permission is always secured before going onto another's property.

Here are Callender's suggestions for making the hunt a safe one. Treat every gun as if it were loaded; never carry a loaded gun in the automobile; be sure there are no obstructions in the gun barrel or action; carry the gun so that the hunter always has control of the direction of the muzzle,

even if he should stumble; never pull the trigger until sure of the target and never point a gun at anything you do not intend to shoot.

Loaded guns, says Callender, should never be left unattended and hunters should always unload guns before climbing over a fence or into a tree. And he adds, bullets fired at flat, hard surfaces, or at objects on the surface of water may ricochet and hit objects not thought to be in the line of fire. Last but not least, he says, gunpowder and alcohol should never be mixed for the results can be disastrous.

And finally, believes Callender, the intelligent hunter is always thinking about how he can aid in conserving and even building up the wildlife resources of his favorite hunting areas. By being careful, preventing accidents and fires and by always being the good sportsman, wildlife resources can be conserved and improved and relations between the landowners and the hunter can be given a big boost in the right direction, says Callender.

**HOLD IT!**  
from Moody Bible Institute, Chicago

It's very small in size, but great in power. In most instances it is constantly on the go. Through it, friends are won—and lost. It is able to cause doors of opportunity to open, or to bring down

misfortune and embroil trouble. In most cases it has man under its control. It's the ever-mischievous wagging tongue.

Now, wait a moment. Were you just thinking, "Well, I'm one whose tongue doesn't rule. I control it pretty well." Are you sure? Wasn't it just the other day you said something cutting and entirely out of place? And remember that secret you were to tell no one, and you told it?

The Bible says, "Out of the same mouth proceedeth blessing and cursing. . . these things ought not to be. Doth a fountain send forth at the same place sweet water and bitter?" (James 3: 10, 11).

Today we hear so much about being a Christian, and living as a Christian, about going to church, helping others materially, donating our time to Christian effort. All this is well and good, but let us not forget that there is still another way in which to show forth Christian testimony—by the words we speak.

"Who is a wise man and endowed with knowledge among you? Let him show out of a good conversation his works with meekness of wisdom" (James 3:13).

### HEALTH LETTER

From Texas State Dept. of Health

"The only way to avoid the useless waste of life due to traffic accidents is to prevent the accident," reads a warning issued by Dr. Geo. W. Cox, State Health Officer.

"It is not a question of who is right and who is wrong after the accident has occurred," he said, "and automobile accidents never happen merely because of 'bad luck'—there is a definite cause for every one of them, although it is not possible to determine the precise origin of every mishap."

"Leaders of the safety movement agree that the most fundamental approach to the solution of our national accident problem lies in the education and training of the individual. Safety education includes the training of individuals to avoid accidents to themselves and to prevent accidents to others. It involves the acquisition of a certain fund of information, the ability to apply this information to concrete situations, and the building up of habits which will make the application of knowledge to situation automatic."

"The dangerous curves and intersections on the highways of this State are distinctly marked, and automobile drivers can assist greatly in the reduction of deaths from automobile accidents by carefully observing these warning signs."

"Many accidents could be avoided if motorists would drive below the legal speed limits when tired, sleepy, in rainy weather, or when ice conditions exist. One should adhere closely to the law regarding the dimming of lights for approaching cars. It is an old saying, but true, that those who drink should not drive."

"The consequences of an automobile accident are so disastrous, that only when we have done everything in our power to avoid such accidents, can we consider ourselves, or expect others to consider us, blameless in the case of an accident."

"When each individual does all that he is able to do toward avoiding an accident of any kind, then, and then only, will our traffic accidents be reduced."

### Our Widened Outlook

There was a time, not very long ago, when the people of Foard County were not much interested in what happened outside of the United States and, if you go back some years, there was a time when nothing much mattered except what happened within gun-shot range of their homes.

Times have changed and with them, the outlook of our people. Whether we like it or not, we cannot remain insensible to what happens in the world, because the economic consequences are felt in the sale of our products and the state of our business.

The development of rapid transportation through the means of the automobile and the airplane, has done much to widen our outlook. The dissemination of news, through the newspapers, the radio and television, has heightened our interest in the happenings beyond our local borders. Today, as never before, there are well-informed people in every hamlet and crossroads in the United States.

This does not mean, of course, that, as a people, we have what one might call an intelligent, world viewpoint. Our thinking, expressed in national action, often continues to be local. There is a vast number of people who believe that the United States is not yet a part of the big world in which they and so many other peoples live. Yet, there are signs that a new understanding is becoming manifest.

### HEART MESSAGE SAVES BOY

Chicago—Hand massage of the heart of a four-day old baby boy was credited with saving the child's life. The baby's heart stopped beating while he was undergoing an operation in a New York hospital for a diaphragmatic hernia. Surgeons immediately made an incision in the baby's chest and began massaging the heart by hand. A heart beat, detected within a minute, returned to normal within two minutes. No brain injury because of the stopped heart has been noted in the child, now seven months old.

### Drouth Increases Dangers of Fire

Hallowe'en was no joke for Texas Forest Service employees who battled wild forest fires seven days a week throughout October. Most of the fires were caused by careless smokers.

Approximately 70 per cent of the 1952 forest fires in Texas occurred in October. Forest fires like nothing better than a dry fall following a dry summer. Poor visibility due to smoke and numerous accidents hampered fire control activities.

Forest fires have no respect for property or life. At least nine houses were destroyed in the two-day period Oct. 27 and 28. Barns, fences, hay crops and livestock were also lost in the wild forest fires. Even the smallest fire kills little trees, trees needed to supply forest products for the next generation.

Texas Forest Service officials were discouraged by weather reports which promised no relief. Land owners were cautioned to discourage hunting on their property during the current drouth. If hunting is permitted, hunters should be cautioned to refrain from smoking. Use of warming fires should be discouraged. Brush burning or burning of fields should be postponed until a safer period. Chaperone your cigarette; don't let it go out alone.

### Spray Rugs with DDT for Moth Protection

A simple spray treatment with a 5 per cent DDT solution will protect your rugs and carpets from damage by moths and carpet beetles.

Since wool rugs and carpets attract clothes moths and carpet beetles throughout the year, it is well to realize that these insects recognize no season in a well-heated home.

J. C. Gaines, entomologist for the Texas Agricultural Extension Service says experiments with this treatment at the United States Department of Agriculture laboratory at Savannah, Georgia, have proved successful. Results, the specialists say, show the 5 per cent DDT solution spray will protect rugs and carpets from damage by moths and carpet beetles for more than a year.

To protect your rugs, the specialist says, apply a 5 per cent DDT oil spray uniformly over both top and bottom surfaces, sufficient to moisten the fibers. You can buy

### Dr. Cox Says Every School Should Have a Health Program

Every school should have a definite health program. Situations such as, the kind of drinking water, arrangements for the school lunch, the lighting, seating, ventilation and cleanliness of the schoolroom, and the personal practices of the teachers and children are the basis of the school health program, said Dr. Geo. W. Cox, State Health Officer.

Every school has tremendous opportunities to promote the health of its pupils and of its community. From early childhood to early manhood and womanhood, most children are enrolled in schools and are under the supervision of school staffs for a substantial part of the day for approximately half the days of the year. The conditions under which they live in school, the help which they are given in solving their health problems, the ideals of individual and community health which they are taught and the information and understanding that they acquire of themselves are factors which operate to develop attitudes and behavior conducive to healthy, happy and successful living.

Schools alone, however, cannot enable children to attain all the desirable goals of individual and community health. Considering the magnitude and multitude of the diverse and continuing efforts that must be made to satisfy the health needs of children, many people and groups, in addition to schools and health departments, should be interested in promoting health.

Parents have a prime responsibility. Physicians, dentists, nurses, social and welfare workers organizations, such as medical, dental nursing societies, and voluntary health agencies should all lend their support to local and state health departments in their effort to secure better health not only for school children but the community as a whole.

A common household spray under a variety of trade names, but check the label describing the ingredients for the 5 per cent DDT oil contents.

Mr. Gaines says a hand sprayer does a good job of applying the spray to the rugs and carpets. "Be sure to moisten them uniformly on the top and bottom to get longer lasting effects of the 5 per cent DDT oil spray," he adds.

### FALLS 3 FLOORS, BLACKS EYE

Birmingham, England — Peter Dangerfield, 2, fell from a third-floor window of his home, 30 feet to the ground and escaped with a black eye. His fall was broken by a clothesline, which bounced him into his 4-month-old brother's baby carriage and toppled him onto the cobbled yard.

First blood shed in the American Revolution was in Massachusetts.

### COST OF LIVING

As if the average householder didn't already know it, the government has reported that costs reached another new high in mid-August, the third month they have set a new record. On the basis of the advance in August, about 500,000 will get automatic wage increases.

Newspapers, in the form of daily gazette, were known to the Romans.

**HOW FIRE INSURANCE makes school safer FOR YOUR CHILD**

Your child is safer in school today—because of the fire-safe building code written by The National Board of Fire Underwriters. Over 500 cities and towns have adopted it. Several states are using it as a model. And thousands of copies are distributed, as a public service, to individuals and civic groups.

This is only one of the public services performed by capital stock fire insurance—a private enterprise—of which the insurance agent is an important part. His professional advice is yours for the asking. Phone me about your insurance—for, in these high-cost days, too little insurance protection for your home and belongings can be costly.

**November 17 to Dec. 25 Christmas Seal Month in Texas**

A bright little scrap of paper which challenged mankind's deadliest enemy almost half a century ago will reach more than a million Texans through the mails this week.

Ed Bomar moved to his ranch this week.

P. T. Gamble was here from Thalia Monday.

Richard Lynn made a business trip to Benjamin this week.

Born Nov. 8, to Mr. and Mrs. J. N. Bryson, a fine boy.

The White Front Restaurant's building was moved this week by Jim Prince to the street opposite the postoffice.

Norwood & Spengle have secured the contract to build six houses in the Orient Heights addition to Crowell on the east side of town.

It is the Christmas Seal. And it has powered the campaign of tuberculosis associations throughout the nation to bring under control the disease which has taken more human lives than all others combined.

Governor Allan Shivers has designated November 17 to December 25 as Christmas Seal Month in Texas, calling attention in his official memorandum to the "needless waste of human life and resources" caused by TB and its "staggering" cost to Texans.

It is the forty-fourth annual sale in Texas.

One man, just launching his career in medicine, was directly responsible for the first Christmas Seal Sale in the state. He is Dr. Z. T. Scott of Austin who still serves the TTA as treasurer.

Doctor Scott, now retired from active practice, relates that he became interested in the tuberculosis problem as a medical student around the turn of the century. It had cost the lives of several members of his family.

He read of the Christmas Seals sold in Delaware to keep open a tiny sanatorium caring for a few tuberculosis patients. That was Christmas 1907.

People were learning then, he explains, that the disease could be cured, that it need not necessarily mean a death sentence.

"When I read of the Christmas Seal," he recalls, "I thought here is a way . . . a way to get funds to do something about this disease."

Meanwhile on a train en route to Washington in September 1908 a group of Texans headed by the state health officer, Dr. W. M. Brumby of Houston, and bound for a meeting of the International Congress Against Tuberculosis, had organized the Texas TB Association.

The infant association found strong support in the person of Dr. Scott. A man of action, he went to an Austin bank and borrowed the money to put on the first Christmas Seal Sale in Texas. That was 1909.

So began the efforts of the TTA to educate Texans about TB and to slow its inroads.

Dr. Brumby has said that during those years the U. S. Bureau of Vital Statistics reported 173 of every 100,000 persons in Texas dying of tuberculosis.

"The tiny Seal proved a powerful weapon," Dr. Scott says. "The death rate has been brought down to 24 per 100,000. From 1908 to 1922 there have been 10,000 deaths from tuberculosis in the state last year needless."

"Nobody need die of tuberculosis," he says. "Nobody should die of it. It is preventable and are dying of it, spreading the disease, paying for it—at the rate of more than seventeen and a half dollars a year."

**LAUGH AND THE WORLD LAUGHS WITH YOU**

Laugh and the world laughs with you; weep and you weep alone. A famous expression heard almost everywhere, but actually how many people stop to think

what this means to them. This could help determine what kind of personality and attitude you develop in your own life. The person who invariably is quick to see the funny side of an incident and who has a cheerful outlook on life should be admired by everyone. He has learned a lesson which few people learn in a lifetime: that a happy person magically infects others by his attitude. While on the other hand there is to be found the individual who is never satisfied and always "looking down his nose." This person is probably one of the most unsatisfied people to be found anywhere because he has not learned the valuable lesson of "happiness." Happiness is easily gained by a pleasant outlook on life. Is it worth it?

**FFA GREENHAND INITIATION FEATURES EXCITEMENT**

Twice the night of the initiation when all through the house, not a creature was stirring save a new initiate screaming his head off

as he is put through the stiff grind of an initiation before he could become a member of the FFA Chapter. Last Thursday night the Crowell FFA Chapter had its second meeting of the year, having thirty-six of its members present. The only business was the discussion of the banquet which is going to be held at Vernon. At this banquet the district Sweetheart will be crowned. Billye Bell, as we all know, is the sweetheart for this chapter and we are all very sure that our sweetheart will be chosen for the district.

After the discussion the moment we had all been waiting for was at hand, the initiation of the Greenhands. The old hands had a gay old time as the initiates were put through the procedure of doing several different things that a committee of our oldest and wisest members had thought up. See one of the new members for the inside story of the initiation.

After all this excitement, the FFAs, along with the new hands, retired to the gymnasium where a basketball tournament was held. The new members had their moment of glory when they defeated the older and more experienced hands for the championship. There were five teams entered in the tournament, and all of us had the time of our lives. We are sure that this year is going to be a successful one for our chapter because of the splendid cooperation already being shown in the further development of the club.

**KINCAID AND KELLY CHOSEN SAFEST DRIVERS**

Frances Kincaid and Buddy Kelly were chosen by C. B. Shackelford, city marshal, as the safest girl and boy driver for the month of November. These titles were ceded to the two by Gail Knox and Bobby Davis who reigned as safest for the month of October.

Taken completely by surprise (as were some of their friends) Frances and Buddy thought at last the day had come when upon returning to their respective cars, found Shackelford awaiting them, ticket book in hand. The "ticket" however, turned out to be a free pass to the show much to the decided relief of Frances and Buddy.

It is the belief of the "Wildcat Staff" that these titles which are conferred monthly upon two of Crowell's younger generation of drivers serves a two-fold purpose. Not only does it help promote safer driving from the high school set, but it could be showing the parents that we teenagers can be safe drivers.

**SPEECH STUDENTS MUMBLE MEMORY WORK IN HALLS**

Every year about this time memory work fever hits the Speech Department. Students wander around aimlessly in the halls mumbling about the "poppies growing in Flander's Field" and "living

in a house by the side of the road being a friend to man."

Just a few of the poems the young toilers must memorize are: The Unknown Soldier, In Flanders Field, The Barefoot Boy and How Much Land Does a Man Need, and many others.

Now speech students will just have to overlook this temporary poetry madness and dub it as one of those necessary evils we all have to endure.

**BAND PARTICIPATES IN HOMECOMING PARADE**

Crowell's Wildcat Band was one of the thirteen high school bands in Texas invited to participate in Midwestern University's homecoming parade held Sat., Nov. 15 in

downtown Wichita Falls.

It was necessary for the band buses to leave at the crack of dawn Saturday morning in order to arrive, find their parking lot, and assemble in their designated position in the parade by 9 o'clock.

The parade, which started at ten o'clock, was the largest, most colorful one that the university has yet sponsored. Thousands of people lined the streets to review the bands and floats which were led by the Midwestern Indian Band as they made their way 11 blocks in the downtown section from the starting point.

During the performance the Wildcat Band played alternately the marches, "Queen City" and "Washington Post."

At noon the Crowell Band was one of the first bands to be served a free barbecue dinner at the University cafeteria.

After the noon meal, the band members returned to their buses and were driven to Coyote Stadium to see the football contest between the Midwestern team and New Mexico A&M.

The game proved to be an exciting one, however, contributing to the entertainment was the pregame ceremonies and the Midwestern Band's performance at the half.

According to an earlier agreement, immediately following the halftime show, the slightly weary

band commenced their journey. The day, though, was a profitable, fun-filled one for all who participated.

The band buses were driven by Allen Taylor and George

**Built with features usually reserved "for big trucks only" — that's why GMC's last longer!**

THERE'S extra value in a GMC pickup, stake or panel truck because there's extra quality in the way it's built—a long list of heavy-duty features that are usually reserved by other manufacturers for their "big trucks only."

First, there's the sturdy, truck-built valve-in-head engine—protected against wear and breakdown by the same features you find in the big 200-H.P. GMC's: Tocco-Hardened crankshaft, airplane-type main and rod bearings, full-floating piston pins

and rifle-drilled connecting rods carrying full-pressure lubrication all the way to the piston pins.

There's extra stopping power in a GMC's burly brakes, extra strength in its deep truck frame—extra comfort in a GMC's longer "pillow-action" springs, extra ease in a GMC's recirculating ball-bearing steering.

They're features usually reserved for "big trucks only"—yours in GMC at no extra cost. You won't find a better truck on the market!

## HANKINS SPEAKER AT ASSEMBLY

Rev. M. F. Hankins, pastor of the Assembly of God Church, spoke to a student assembly last Thursday, Nov. 14.

One of Crowell's newest and youngest preachers, Rev. Hankins was introduced by Henry Black who stated that the young minister came to us from Holiday. Since his relatively recent arrival in Crowell, Rev. Hankins has been largely responsible for completing the new church of which he is pastor and which was begun by Rev. Warren Everson nine years ago.

The assembly program was started by a high school girls' quartet who sang Lead Me On, Precious Lord, Joan Fox, Jackie Rasberry, Virginia Tamplin and Nell Johnson composed the quartet.

David's words, "Thy word is a lamp unto my feet and a light unto my pathway" was the pastor's first scripture for thought. His appeal was for the young people to come to know their Creator better through His words which are found in the most perfect of all books, the Bible. "Remember thy Creator in the days of thy youth" and "I have written unto you young men because ye are strong" were Rev. Hankins' next quotes from the Bible which seemed to speak directly to a young audience.

The story of the three young men, Shadrach, Meshack and Abednego who, by their undaunting courage and steadfast belief, set an example of an exalted faith in their Creator, was made amazingly real by the pastor's words.

To those young men and women who see only the prospects of a third world war and find no hope for the future, Rev. Hankins had these words to say, "The future is as bright as the hope and the faith inside."

The assembly was brought to a close with prayer.

## BAND AND TYPING COME FIRST WITH DON BROWN

Are there just some days when everything goes wrong, you lose your best girl, or flunk a six weeks test? You won't be "down in the dumps" for long if you stay around Don Brown for about five seconds. This friendly 5 foot 10 in. senior is known for his cheerful attitude and wonderful sense of humor.

Like most seniors, Don has no really favorite subject, but during his high school career, band and typing have both interested him immensely.

Does he look like the book collector type? No? Well, that's his hobby with dog and horse books topping his list of favorites.

Being the only senior boy band student, brown haired, brown eyed Don has quite a time with the lower classmen on band trips. A very talented first cornetist, Don says of taking band, "I get a charge out of it." And we think that, knowing Don, there just isn't much he doesn't "get a charge out of."

## ASK WILMA COLUMN

Dear Wilma: I correspond with several boys. I'd like your advice on what to salutate my salutation with. Can you help me—Lety.

Dear Lety: If your letter is gay, not too personal, newsy, you can easily sign it, "Solong, oohlong Joe, I gotta go!" If your letter is a little more on the serious side, you might sign yourself, "Always" instead of "Love."—W. W.

Dear Wilma: When do you think a boy should be allowed to kiss you? How many dates? Is it first date too soon?—Little Nell.

Dear Little Nell: I think your attitude is terrible! Allowed! A kiss is a way of expressing an emotion, of liking someone, not a payment for so many dates. It is very rare that a girl with social sense will kiss her date goodnight the first time they go out. If you really like the boy, the second or third date is all right (eager beaver). Whatever you do, be sincere.—W. W.

MARY DEEB BROWN

Try to invite everyone you talk with to make a special effort to attend our Achievement Day this Saturday, November 22.

This week the Vivian Club women are reupholstering their chairs. Mrs. Clyde Bowley and Mrs. Johnny Marr attended the training school in Crowell and they are in charge of the work at Vivian.

When we think of Thanksgiving we think of Pumpkin Pies. Here is a recipe for Pumpkin Gingerbread that is a little unusual. I think you will enjoy trying this.

**Pumpkin Gingerbread**  
1/2 cup shortening.  
1/2 cup sugar.  
1 egg.  
1 cup sour milk.  
1/2 cup cooked pumpkin.  
1/2 cup molasses.  
2 1/4 cups flour (sifted).  
1 tsp. soda.  
1/2 tsp. salt.  
1 tsp. ginger.  
1 tsp. cinnamon.

Cream shortening and sugar. Add egg and mix thoroughly. Blend molasses, sour milk and pumpkin. Sift the dry ingredients together. Add the molasses, mix to the egg mixture and blend. Add the dry ingredients and beat until smooth. Pour into greased 9-inch square pan. Bake in 350 degree oven for 30-35 minutes.

## BUSINESS BRIEFS

A recent advertising survey, noted by the Chamber of Commerce of the United States, indicates there are about 27,500,000 radio-equipped autos; 20,000,000 of these auto-radios were purchased in the last seven years. And when people leave their cars for hikes or out-door sports, they switch on their portable sets. All of which challenges the notion that out-door activities keep people away from their radios.

Wanted—One tall, handsome boy. If interested call 225-W. Only unmarried or unattached males need apply.

## ROBERT'S RIB TICKLERS

Dear Cousin Wild Cat: Don't you think that Jet is the last word in airplanes?—Breeze Brain.

Dear Breeze Brain: Of course not. The last word in airplanes is jump.—Wild Cat.

Dear Cuz Wild Cat: What is the largest room in the world?—Wrong.

My Dear Wrong: Room for improvement.—Wild Cat.

Wear Wild: What do you call a man who drives a car?—Si Lence.

Dear Si Lence: It all depends on how close he comes to me.—Wild Cat.

**WEST SIDE H. D. CLUB**  
 "If your family is fond of home made breads, but you feel like it takes too much time to make, you can use the new action quick method and make loaf bread in about the same length of time it takes to make buns (not the quick type)." Mrs. Mary Brown, acting Home Demonstration Agent, explained to the ladies of the West Side Club when they met with Mrs. C. R. Bryson on Nov. 11.

Mrs. Brown made a loaf of bread and set it in a warm place to rise while she served a loaf already baked and cooked to the ladies with their noon meal.  
 Those present were Mesdames Henry Edgin, Oscar Gentry, Henry Ross, E. A. Dunagan, G. H. Kincheloe, Jack Lyons, M. O'Connell, J. L. Kincheloe, Mrs. Brown and the hostess, Mrs. Bryson.  
 The club will meet on Nov. 25 with Mrs. Donald Norris and each club member is urged to remember the Achievement day and bake sale Saturday, Nov. 22.

**ADELPHIAN CLUB**  
 Members of the Adelpian Club met at the club house on Wednesday, November 12, with Mrs. M. A. Walker and Mrs. E. Girsch as hostesses. At this time the club had its annual art program, which was under the leadership of Mrs. W. B. Tysinger.

**GAMBLEVILLE H. D. CLUB**  
 "Use the least amount of flour possible in making light bread," Mrs. Mary D. Brown, acting Home Demonstration Agent, stated to members of the Gambleville H. D. Club meeting in the home of Mrs. Clarence Orr, November 7. Mrs. Brown made a quick recipe for white bread. Common difficulties in bread making were discussed. For best results, Mrs. Brown urged that bread be removed from pans as soon as it is taken from the oven.

Following the films, Mrs. Johnson introduced Mrs. Tysinger who gave a most interesting talk on painting, present and past. There were on display a number of Mrs. Tysinger's paintings which she has done most recently. The club members and their guests, Mrs. Mike Rasberry and Mrs. C. R. Seale, thoroughly enjoyed this program and exhibit.

Famous quotations were given as the roll call was called. Mrs. A. B. Calvin conducted the business session. Mrs. Clarence Garrett, treasurer, reported the amount of money made from the bakery sale at the hobo stew.  
 Plans for Achievement Day were discussed. The club voted to change the next meeting date to the first Friday in December.  
 Refreshments were served to Mesdames J. C. Prosser, A. B. Calvin, Clarence Garrett, Archie Campbell, Cecil Carroll and the hostess.

**COLUMBIAN CLUB**  
 Mrs. Van Browning was hostess to the Columbian Club at her home near Truscott on Wednesday, Nov. 12.  
 Mrs. John Ray was leader for the afternoon. The group of states brought up for discussion were Kentucky, Tennessee and the Carolinas, these known as the South Eastern Atlantic States.  
 Mrs. Ray told of the beauties and wonders of the state of Kentucky.

**THALIA P. T. A.**  
 The Thalia P. T. A. met Wednesday, Nov. 5. Mrs. Bill Cates gave a very interesting talk on "The Blessings in Every Home." Mrs. C. C. Campbell expressed her thanks to all who helped in making the Hallowe'en Carnival a success. It was voted to buy new suits for both the boys' and girls' basketball teams. Also the P. T. A. is getting a mixer for the school cafeteria.

**WEINER ROAST**  
 Nineteen Boy Scouts, accompanied by Scoutmaster Marcus Mills, Scout Committeemen and Dads, enjoyed an outing last Sunday afternoon at the Elmo Todd ranch near Truscott. After hiking, the boys and adult leaders gathered around a campfire for a weiner and marshmallow roast.

**THANKSGIVING SERVICE**  
 Minister Bedford W. Smith of the First Christian Church will preach his annual Thanksgiving sermon on Sunday evening, Nov. 24, at the 7:30 service. The church will also participate in Union Thanksgiving services Nov. 27 at the Baptist Church. Mr. Smith, who came to Crowell last Aug. 1, reports the second high Sunday in Bible School at the church was last Sunday when 106 were present.

**New 1953 Plymouth Goes on Display Today**

The 1953 Plymouth will be presented to the public throughout the United States on Thursday, Nov. 20, Leon Speer of the Speer Motor Co., announced this week.  
 "Advanced engineering and styling make the new Plymouth more than ever before the outstanding car of the low-priced field," Mr. Speer said.  
 The 1953 Plymouth models will be on display at Speer Motor Co. show rooms on East Commerce St. The 1953 Plymouth is the most completely new Plymouth to be

presented to the public quarter-century since the model rolled off the assembly line. Plymouth Motor executives predict motorists will be delighted with the new exterior, the luxuriously harmonized interior, increased horsepower and of engineering innovations of the 1953 line which goes today.
