Culture Census Facts About Farmers

The average Texas farmer is a man of 49 years of age and has owned the same farm for 12 years, according to a report of the 1950 Census of Agriculture received by Supervisor James Milton of the Census Bureau district office at Fort Worth. The report is a preprint of the 1950 Census of Agriculture, Volume II, Chapter I, presents data on age, residence on farm, work off farm and other income of farm operators. The preprint is available from the Superintendent of Documents, Government Printing Office, for \$1 per copy. Farm owners, on an average 11.4 years older than tenants, according to the report which states the average age of farm owners as 49 years and the average age of tenants as 42.6 years. Among operators reporting on number of years of residence on the farm, owners averaged 16 years and tenants averaged 6 years.

Health Letter

State Department of Health, Texas, Geo. W. Cox, State Health Officer

As a note of the approach of the great patriotic national day, July 4th, which this county has celebrated for one hundred and seventy-seven years, Dr. W. Cox, State Health Officer, calls the attention of the citizens of Texas to some of the dangers of careless celebrating. On the 5th of July, one reads of the appalling number of accidents which occur over the Fourth. It is not alone the wounds resulting from explosives that injure our death toll. Injuries from automobile accidents, splinters and other penetrating objects in which dirt may be carried into the skin, heighten the danger of tetanus or lockjaw. Wounds should be promptly treated by a physician. If the day's pleasure includes

How's Your Buying Power?

This is an era of big wages and big salaries. But, after the ravages of taxes and inflation are taken into account, our take-home pay and our buying power is, in many cases, much lower than it was in allegedly less prosperous times.

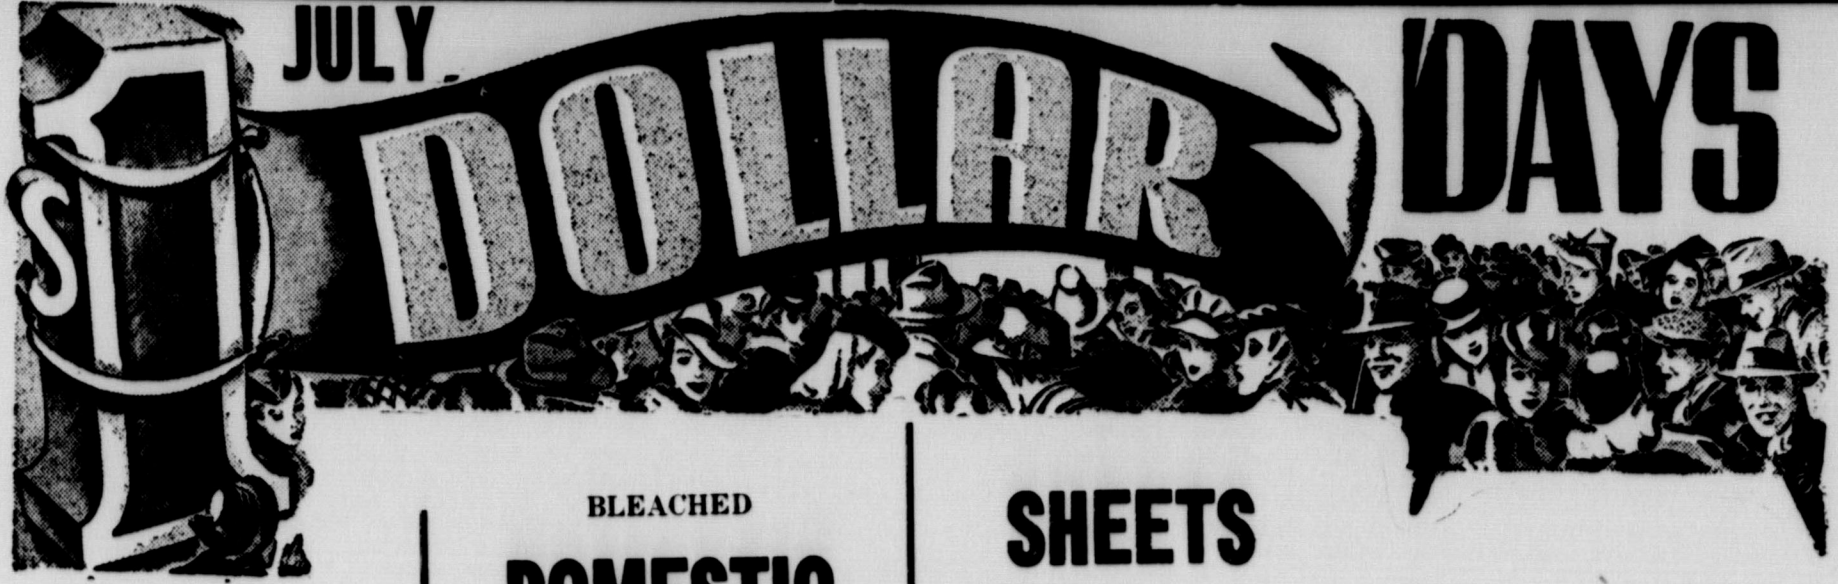

The Foundation for Economic Education recently publicized an interesting example of this. Back in 1950, baseball star Ted Williams was given the most lush contract in the game's history—an estimated \$125,000 a season. The prior high was the \$80,000 paid to the legendary Babe Ruth. So, on the face of it, Williams was earning more than half again as much as Ruth.

However, after the deduction of federal income taxes (and without making allowance for any other taxes) it turns out that Ruth's 1931 take-home pay was \$68,535, while Williams' take-home pay was down to \$62,028. And when a further computation is made, and that take-home pay is translated into actual buying power, it is found that Williams' real income was but a little more than half of Ruth's.

Some people will answer that they aren't concerned with the financial experience of people in \$80,000 or \$125,000 income brackets. But taxes bite deep into the medium and low income groups too—after all, the federal income tax rate starts at 22.5 per cent and goes up very fast from that bottom. And certain kinds of indirect taxes, which constitute a large part of the selling cost of food, clothes, housing and everything else, often hit the man of moderate means harder than the man of large means.

The point is this: The current drive to cut government costs, balance the budget, and bring about tax reduction is in everybody's interest.

A swim, caution should be used and no attempt made to do more than your strength will permit. If a drowning takes place, artificial respiration should be started at once and continued until a doctor arrives. Automobile accidents have usually one of three causes—exceeding the speed limit, driving on the wrong side or failing to grant the right of way. It can be seen that the chief factor in auto accidents is the judgment of the driver. Caution should guide the holiday activities so that the day may be remembered with joy instead of sorrow.

Youthful Texas Stock Raisers to Vie for \$15,801 in Prizes

Youth Texas cattle, pig and sheep raisers have a \$15,801 premium pie waiting for them at the junior livestock shows during the 1953 State Fair of Texas in Dallas, Oct. 10-25.

Representing an increase of \$896 over the 1952 total, the current premium is expected to draw in more junior exhibitors than last year's total of 776. Ray W. Wilson, the fair's livestock department manager, reported.

All 1953 junior shows, with the exception of the pig classes, have substantial gains in cash awards. Biggest increase is \$600 for the commercial steer show, which will bring the 1953 total to \$3,600.

Other livestock premiums provide \$3,445 for dairy cattle, \$3,085 for fat steers, \$3,237 for swine, \$1,015 for the Negro boys' pig show; \$1,069 for sheep, and \$350 in herdsman awards.

Dates of the 1953 junior shows are Oct. 17-21 for dairy cattle and Oct. 19-24 for all other livestock.

The judging program follows: Guernsey, Holstein and Jersey cattle, Oct. 19; Milking Shorthorn cattle, Oct. 20; sheep, Oct. 21; swine, Oct. 22; fat steers and commercial steers, Oct. 22; and Negro boys' pigs, Oct. 23.

Judges will be James Grote of San Antonio, steers; John H. Jones of College Station, commercial steers; Stanley Anderson of Lubbock, pigs; and W. G. Kammlade of College Station, sheep.

Two auction sales will climax the shows. The grand champion steer, lamb and barrow and all fat steers will be sold Friday, Oct. 23, at 9:30 a. m. in the Livestock Arena. Fat lambs and barrows will be sold the following day at the same time in the same place. Last year's junior auction sales brought in \$154,220.32.

Texas Longhorn Cavern Is 3rd Largest Cave in World

Texas Longhorn Cavern, third largest cave in the world, is finally about to come of age as one of the state's prime tourist attractions. H. H. Galloway, manager of the cavern, declared this week.

Cavern visitors will total more than 250,000 long before the cave's 21st anniversary as a public showplace. Mr. Galloway predicted after studying attendance figures for past years. In fact, the quarter-millionth visitor probably will pass through the famous Sam Bass entranceway some time in July, he said.

When the cavern was first opened for public inspection by the State of Texas back in the fall of 1932, after four years of development, few people even knew about it except the folks who lived in this area—like Mr. Galloway and his boyhood friends who used to play hide-and-seek in the dark reaches of the cave.

"We were a little bit off the beaten track then," recalled Mr. Galloway, who is also president of a bank, former mayor and a director of the Burnet Chamber of Commerce.

But today heavy tourist traffic streams down U. S. Highway 281, a direct Canada-to-Mexico route. And many tourists take time out to visit the cavern, reached by a paved road which enters Longhorn Cavern State Park at a point four miles south of Burnet.

"We're getting people from every state in the union now," Mr. Galloway said, "and you'd be surprised how many Texans visit the cavern and are amazed when they see what a spectacular natural wonder it is."

"We figure it's really unusual when a Texan is amazed at something that's in Texas." This summer, Mr. Galloway estimates that more than 5,000 tourists and resorters a month will visit the cavern.

Two miles of the cavern have been developed and modern illumination installed to bring out all its natural subterranean beauty. Guides relate all of the cave's romantic legends of Indians, desperadoes and buried treasure.

Visitors are royally entertained and filled with cavern love at the same time.

OUR NEW TEXAS LAWS

By John Ben Shepperd Attorney General of Texas

In a previous article mention was made of six of the eleven proposed Constitutional Amendments which will be voted upon by the people in November, 1954. The five proposals not previously covered are:

(1) Permitting the Legislature to determine the salaries of certain officials. The Constitution now sets the amount.

(2) Raising the limit of welfare expenditures for aged, blind, and needy children.

(3) Prohibiting the State from lending credit of the State to any individual, or corporation, etc., for toll roads.

(4) Requiring each county of less than 10,000 population to have a Tax-Assessor and Collector, beginning January 1, 1955.

(5) Permitting employees of the State and political subdivisions to be under the old age and survivors insurance of the Federal Social Security.

A Small Claims Court with reduced expenses and costs was created to handle claims up to \$50; or, where a dispute is over wages or salaries, the claim can be as much as \$100. The Justice of the Peace serves as the judge of this court.

There were also a number of new laws concerning juries and jury service. Only dentists, doctors, and attorneys in active practice may be exempt from jury service. (formerly 21 different occupational groups could be excused). Jurors in the county and district courts and grand jurors will now receive between \$4 and \$5 per day, the exact amount being set by the county commissioners' court.

The commissioners' court may also provide that jurors in felony cases be fed and lodged by the sheriff in addition to receiving pay for their services. Changes were also made in the amount of fees collected by justices of the peace, the county courts and county courts at law.

When stock is found running at large they can be impounded and the owner required to pay a new fee for the keeping of the animals. The fee is graduated from 15c to \$1 per head per day depending upon the type animal and whether impounded by a public pound or private individual.

It is now a criminal offense for cattle to be on a state or national highway. The provisions for stock law elections were also revised to permit elections concerning the confinement of a particular class of animal.

A number of changes were made in local government. A total of 125 laws were passed dealing with counties and county officers while 52 laws were passed dealing with municipalities; and 54 bills dealt with schools and universities. Bills on water, municipalities,

counties and schools made up a little more than 50 per cent of the total number of bills sent to the Governor for signature.

It is interesting to note that up to this time the Governor has vetoed only 7 bills that were sent to him by the Fifty-Third Legislature. In 1951, he vetoed 35 bills and in 1949, he vetoed 4 bills. As this is written, there are only 37 bills on the Governor's desk awaiting his action. By June 16th, he must sign them or file them and let them become law without his signature or veto them.

The major bills which are awaiting his action as this is written are:

Two bills creating 5 additional district courts; three bills making changes in the teacher's retirement system; one revising laws relating to mutual assessment and farm mutual insurance companies; providing a statute of limitation of 4 years for the collection of delinquent personal property taxes; several bills relating to local government and increasing the power of the county commissioners' court; one setting the salaries of court reporters and several bills increasing the powers of school districts.

In these articles I have attempted to list the bills which, although important, have almost escaped notice. I cannot close without noting that of the 41 bills submitted to our office for opinions, almost half were held void for legal reasons.

I would recommend that the following steps be adopted by the Legislature to avoid legal pitfalls:

(1) Submit all bills to the Legislative Council or other technical agency by November 15 before the January sessions, so that they could be printed and checked before the session by members and by the Attorney General.

(2) Print all debate by the members for late reference by the Legislature, the courts and the Attorney General. Only in this manner can the true legislative intent be determined.

(3) Take a two-week mid-session recess to return home and consult voters in the districts on major issues.

(A copy of any bill which you

Commander of U. S. Salvation Army Dies

Commissioner Ernest I. Pugmire, Commanding Officer of The Salvation Army in the United States for the past nine years, died June 24 of a heart attack while walking to catch a subway to his New York office, according to word received in Dallas by Lt. Col. John A. Morrison, Texas Divisional Commander of The Salvation Army.

Commissioner Pugmire's active career in the organization which he headed in the United States, covered almost half a century of religious and welfare service to the needy and down-trodden.

Just a few months ago, he visited Texas as a speaker for The Salvation Army's annual meeting in Dallas and to inspect the program being carried out in this area.

Praising the warm support of the people of Texas for their cooperation in the development of a varied Salvation Army program, he said: "Our purpose wherever we are is quick response to need, whatever that need may be—from a Texas City explosion to an Ohio River Flood, from a poor man on the street, or a woman in a hospital, to a boy who has run away from home."

His many assignments during his career included the command of the Southern territory of which Texas is a part.

Colonel Morrison said that a successor to Commissioner Pugmire will be appointed by General Albert Osborne, International Commander of The Salvation Army.

CONFUSION REIGNED

Mineola, N. Y. — Hospital officials were astonished to discover that two infants, born the same day in Nassau Hospital here, had the same names, Thomas Donahue, and their mothers the same names, Margaret Donahue, and that the families, although unrelated, live in nearby Westbury, N. Y.

might desire may be obtained from the office of the Secretary of State, Austin, Texas.

FREE MEN AND FREE ENTERPRISE WIN IN WORLD OIL PRODUCTION

Oil production figures from countries where the oil industry is nationalized show an amazing downward trend. In 1901, Russia was the world's foremost oil producer with 51 per cent of total production. By 1952, Russia accounted for only 7.6 per cent. Argentina presents a similar production toboggan, producing 1.2 per cent in 1943, and now only .6 of one per cent. The side of the picture is that Venezuela, where production is still in effect, rose to 9.7 per cent of the oil in 1952, and to 14.4 per cent in 1953. The United States with 28.6 per cent of production in 1952, a free man and free enterprise continually built up total U. S. production to 50.8 per cent of the world

Mr. and Mrs. Elmer Smallwood of Matador visited Mrs. Jack Roden and her mother, Mrs. Sarah Pruitt, Sunday. Mrs. Smallwood will spend this week with her mother.

Mr. and Mrs. Earl Hysinger of Olton visited her parents, Mr. and Mrs. W. R. McCurley, Sunday.

Mr. and Mrs. George Pruitt and sons of Crowell visited his mother, Mrs. Sarah Pruitt, Sunday afternoon.

Sharon Wharton of Dallas is visiting her grandparents, Mr. and Mrs. J. H. Taylor.

Mr. and Mrs. Herman Blevins and sons of Fort Worth visited her parents, Mr. and Mrs. C. T. Murphy, and his parents, Mr. and Mrs. W. T. Blevins, in Truscott over the week end.

Carol Marie Orr of Vernon visited last week with Mr. and Mrs. Joe Orr.

Mr. and Mrs. Helen Monkes and children took Rev. Frank Turner to Vernon Sunday night where he left for his home after conducting the revival at the Methodist Church here.

Labor Unions Fight Socialism

At its 6th Constitutional Convention, held this spring, the CIO Utilities Workers Union reaffirmed a resolution unanimously adopted at the 1950 convention which reads as follows: "No federal agency should construct or operate, except for national defense or where private industry fails or refuses to provide adequate service, any project the sole purpose of which is the generation of electric energy."

The convention also went on record in favor of a pending Congressional bill which would authorize five heavily-taxed, publicly-

regulated and private-owned power companies to undertake a \$400,000,000 hydroelectric development at Niagara Falls. Socialist-minded groups in and out of the government are attempting to block passage of this bill, and to induce Congress to vote for tax-subsidized government development of the project.

Other unions, both CIO and AFL, have formally passed similar resolutions and expressions of policy. And they haven't done this out of any love for the utility industry or any other commercial enterprise. They have done it because wise union officials and members know that under socialism, the cause of free and independent labor is doomed just as

surely as the cause of free and independent enterprise. If government is to own the machinery of production, it is going to run the men and women who use the tools. Whatever their other differences, labor and management have an equally vast stake in the fight against socialism.

Women are not eligible for Rhodes Scholarships.

Freedom Is The Issue

The nation's medical schools face a problem. More money is needed if they are to do their tremendously important job properly. That fact was recently recognized by President Eisenhower, when he opened a \$10,000,000 campaign within industry and the medical profession which is designed to help the schools overcome deficits threatening their programs.

Some people urge that the government should put up the necessary money and subsidize the schools. The President demolished that idea in a letter to the head of the National Fund for Medical Education in which he said that the medical school problem "should be solved through private, rather than governmental means. Excessive reliance on government violates the essential principle of our free enterprise system. It falls, then, upon American business to assume a greater share of the responsibility for maintaining the institutions essential to our national health."

It should be obvious to all that government financing of medical education would involve government direction of how and where the money was spent. The eventual result would be more and more government dictation of the whole medical care picture — which would set the stage perfectly for socialized medicine. All who believe in freedom should fight such a program.

Since Andy Jackson's Day

According to a recent AP story, "The United States spends more money forecasting the weather now than it cost to run the whole government during Andy Jackson's Administration."

That fact isn't cited as a criticism of the weather service. But it is a striking example of how government has got out of hand, and how vital it is that every non-essential activity be eliminated and every possible nickel cut from the budget.

Stop Taking Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, never take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses seem needed.

Get sure but gentle relief when you are temporarily constipated. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. No salts, no harsh drugs. Dr. Caldwell's contains an extract of Senna, one of the finest natural vegetable laxatives known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's 30¢ size today. Money back if not satisfied. Mail bottle to Box 280, New York 18, N. Y.

Taking It Off The Animal

The Wall Street Journal recently printed a letter from one of its readers which casts an interesting light on the beef question—and the farm situation in general. The correspondent said, "The recent break in the cattle market can be partly attributed to the set price of corn and other fattening grains. When set prices are made on grains and cotton seed products and no set prices on the live animal, there is only one way that a reduction of price can be made and that is to take it off the animal."

What this means is that cattle producers find themselves squeezed between depressed livestock prices on the one hand and high, government-supported feed prices on the other. That is an extremely serious matter to the thousands of farmers and ranchers on whom we depend for our beef supply. And it is of direct, personal importance to the entire consuming population because of its possible disruptive effect on future beef production.

It is to the great credit of the cattle people that, despite the very severe breaks that have taken place in livestock prices, they haven't run to Washington in search of subsidies or any other kind of tax assistance. But the current situation proves just how unsound and discriminatory our agricultural policy is. Secretary Benson is now working to reorganize that policy, in the longer-term interest of the farmer, the taxpayer, the consumer, and the free enterprise economy alike. More power to him!

The Pendulum Swings

For 20 years there has been a drive to promote the growth of central authority at the expense of private enterprise and individual opportunity. Profound changes have been wrought in the character of our economic and political life. Call it socialism or whatever you like, it's a fact that the federal government in competition with private industry has a \$130,000,000,000 stake in loans, insurance, factories, railroads, electric systems, ships and countless other things.

Now the pendulum is swinging in the opposite direction and the pressure is growing for a contraction of government ventures into fields once reserved for private business and finance. RFC, the biggest lending agency, probably will be liquidated or greatly modified in 1954. Federally-operated Inland Waterways Corporation, the second biggest barge line in the U. S., is up for sale.

Twenty-six synthetic rubber plants will go to private industry. Federal power development is being cut and there is talk of selling or leasing existing tax-exempt federal electric power facilities to highly taxed private industry.

With its recourse to the tax rolls and public credit the federal government is the one competitor with which private industry cannot be expected to compete. This trend away from government in business gives a new lease on life to our personal freedoms and opportunities. Economic freedom is the base upon which we have built our political freedom.

Spring Change-Over British Style

"Great Britain's socialist government has taken the wraps off gasoline service stations, after thirteen years of operation under bureaucratic regulation.

"The 'service' station, as we know it in the capitalist United States, disappeared in England when the socialists took over.

"As a result, many dealers charged for checking tires. Drivers had to clean their own windshields, and wait, according to Thomas F. Brady, correspondent of the New York Times, for a grudging attendant to detach himself from a cup of tea in the back room to pour a few gallons of petrol into their tanks at 48 cents a gallon."

"Today, the sweet uses of competition have once again put the customer in the driver's seat. The customer is the most important person is the slogan of the train-

In The News... 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, June 29, 1923:

Ragsdale Lanier returned last Sunday from a visit with the W. W. Fox family in Norman, Okla.

The elevator men say wheat is testing from 55 to 61 and the average will place the bulk of the crop in the No. 2 class. Nine cars shipped this week were all in the No. 2 class. There seems to be no real sorry wheat and it is far better in quality than last year.

At a meeting at the City Hall last Thursday night a volunteer fire company for the city was organized and a full set of officers elected. Purpose of this organization is to increase the efficiency of the fire force here. Officers elected were R. D. Oswalt, president; Oscar Boman, secretary and treasurer; T. V. Rascoe, fire chief; Thomas Hughston, assistant fire chief; Q. R. Miller, second assistant chief.

Frank Meason moved his meat market to the new Ringgold building this week.

Tom Beverly Jr. is assisting with the work at Ferguson Bros. cold drink fountain.

Miss Frances Clark is rapidly recovering from an operation for appendicitis which she underwent at the sanitarium last week.

Miss Maye Klepper came in Wednesday from Dallas to visit relatives.

Mrs. H. W. Norwood and son, Charles, of Vernon, Mrs. S. H. Puryear of Taylor and Tommy Clark Beaty of Wichita Falls are guests in the home of Dr. and Mrs. Hines Clark this week.

Practically all cutting and binding of wheat in the county will be finished this week and threshing will be in full swing next week. Some threshing has already been done.

R. B. Clifton was here Saturday from Vernon looking after his studio.

Mr. and Mrs. C. Q. Crawford and small daughter, Rosemary, returned last week from a visit in South Texas.

NEW FABRICS DEVELOPED

The plastics and fibers brought into existence with petroleum's help have provided designers and craftsmen with new ideas and possibilities for products. Decorative fabrics have been developed featuring an elastic-fabric backing that can be wrapped around corners for upholstering furniture. For heavier duty, other synthetic textiles like nylon, orlon or rayon, combined with coatings of natural or synthetic rubber or plastics, have been used to make tarpaulins for trucks or boats. Also manufactured from oil-derived chemicals, these materials are said to be unusually tear-resistant, waterproof and lightweight. New products and processes are discovered daily in the laboratories of America's oil and chemical industries.

Kerosene replaced whale oil as a means of illumination.

ing courses which competitors were quick to provide. Ironically, the training of dealers includes the training of American service station operation showing how it is done—in a capitalist country.

"This change-over to competitive selling received as much attention in the House of Commons as if steel, coal and banking had been restored to private operation.

"In our eagerness here to ask Washington to take on more and more of our business activities, we forget that the consumer ultimately pays. He pays in higher taxes, he pays in loss of attention and services.

"When you take the individual incentive out of any job and pass it on to the desks of public office holders, it becomes a routine, lifeless and costly activity.

"Individual reward for individual merit has made this country what it is today." Condensed from the magazine "Service."

MCCARTHY 'ASSASSIN'—Lou Boritz (above), 43, army veteran identified as a trained communist terrorist, is named in Washington by FBI undercover agent Joseph Mazzei as man picked by Reds to assassinate Sen. McCarthy, Wisconsin Republican heading Senate committee probing subversive activities.

News from the Congress

by Congressman Frank Ikard

Washington, D. C., June 26, 1953 — The Agriculture Committee has been holding hearings all week with regard to the drought situation in the Southwest. I have attended all of these meetings in addition to conferring with the Secretary of Agriculture and others urging that some immediate program be adopted for relief to the farmers and ranchers in the critical drought area. Testimony before the Agriculture Committee has emphasized the great need for a program that would make available feed, sufficient credit, and a plan to stabilize the price of livestock. One of the suggestions that has been growing in favor is a plan that would provide for the Government's buying a number of cattle, and after it has been processed, selling the beef abroad for foreign currency. By doing this, we would be trading our beef for foreign money. This program, if adopted, would be substituted for the one that is now in effect whereby our Government is spending about two and a fourth billion dollars a year buying the money of foreign countries. Another thing that has been stressed is the fact that all the problems connected with the drought will not be cured with one good rain but that the ranges and farms are in such condition now as a result of the drought that it will take them three to five years to get back to normal even with good rains. It is sometimes hard to make people here realize that it is necessary that something be done to relieve the condition in the drought area because of the fact that if the distressed conditions are allowed to continue, it might possibly bring about a break in our whole economy for we cannot long continue to go on with the price of cattle

so low and the price of labor and manufactured goods remaining so high. However, I think this proposition is seen a lot clearer now that it was three or four months ago when some of us first started working on a program for relief to the drought area, and we have been led to believe that by the first week in July that the programs will have been announced and that they will go into effect immediately. I am going to make every effort to be in the district sometime around the first of July in an effort to talk to as many of the farmers and ranchers as I can so that I may get their ideas about this situation and so that I can be of more help in securing the passage of necessary legislation to bring about a proper program.

Visitors from home this week were Mr. and Mrs. James B. King, Mr. and Mrs. William L. Donnell, and Mrs. Leoti Deaton of Wichita Falls, Dr. Sam B. McAllister of Denton, Tony Fenoglio Jr. of Nonaka.

BIRTHDAY PARTY

The sixth birthday for little Miss Rosa Lee Woods of Fort Worth was observed with a party given by her sister, Mrs. Connie Williams, at her home in Trustcott last Friday at 3 o'clock.

Games provided entertainment for the young guests who presented the honoree with a lovely collection of gifts.

With duties of entertaining the guests, the hostess was assisted by Miss Jo Woods.

Refreshments of cake and Cokes were served to the following: Sandra Hord, Donna Haynie, DeWayne Hannan, Buddy Lee Myers and Judy Woods, and Mesdames Betty Hord, Martha Haynie, Helen Myers and the hostess.

The Retail Revolution

It is reported that 56 per cent of all the nation's retail outlets are in communities with populations of less than 20,000. And it's

Never Go Places Without World-Wide... TRIP ACCIDENT INSURANCE... —3 DAYS TO 6 MONTHS— \$5,000 Death and Dismemberment Benefit. \$250 Accident Medical Expense Benefit. up to \$25,000 Death and Dismemberment Benefit. \$1,250 Accident Medical Expense Benefit. —SEE US FOR THIS LOW-COST PROTECTION—

Hughston Insurance Agency

a certainty that modern retailing's contribution to rural and small-town living would be hard to exaggerate.

Many of us can remember the heyday of the old-time "emporium." It enjoyed pretty much of a monopoly in its community. Stocks were severely limited, and often depended on the whims of the proprietor rather than the desires of the consumer. Prices were frequently established on an all-the-traffic-will-allow basis. The consumer could like it or lump it.

Then, along with better roads and vastly improved commercial and private transportation, came the beginning of the new era in merchandising. The chain stores pioneered the then - revolutionary mass-distribution idea, which held that very small unit profits would result in satisfactory total profits if enough goods were sold. Other kinds of stores followed the lead and thought up attractive innovations of their own.

Now, in even very small towns, we can buy the same brands and

kinds of merchandise sold in New York or any other metropolis, and approximately the same price. And that has been one of the biggest factors in the rise of our present living standards. In the ark with Noah there were four women—his wife and wives of his three sons. The first Bible printed in America was printed in the language.

Ed Roddy returned home Sunday from Coffeyville, after spending a few days in that city. She was accompanied home by her son, Ed Roddy, who has been in Toledo, Ohio, for the month.

Agents Caution Housewives Not to Overload Washer

For best results in your washing machine, don't overload it with too many large pieces of clothing. Mrs. Mary D. Brown, County Home Demonstration Agent, says this advice comes as a result of an extensive study made at the Ohio Experiment Station. Findings from the study indicate proper loading is important for successful laundering in any washing machine. Research included washing 20,000 pounds of soiled clothes from 32 different families in 5 different automatic washers and a reliable, well-known conventional or non-automatic washer for comparison. During the study 75 women reported machines that would not remove soil and the trouble often was found to be overloading. Ten self-service operators reported overloading as their greatest problem with

cylinder-type washers. Manufacturers of the cylinder or agitator-type washers rated the load capacity as 9 pounds and the pulsator washer as 8 pounds. The Ohio study showed that all washers did a better job with a 7½ or 8-pound load. This indicates it is wise to weigh clothes before putting them into the washer until the 8-pound load becomes easy to estimate. The agent says the research also indicates a combination of large and small pieces is practical and satisfactory for family washing. Combinations of small items washed well because they could move freely, but a load of sheets, for example, gave trouble. In agitator-type washers a load of sheets could not move freely. They billowed around the agitators, and turned over so slowly that the mechanism seemed to work continuously only on part of the washing. For best results, the research indicates a typical assortment for an 8-pound load: 2 sheets, 2 pil-

low slips, 2 bathtowels, 2 men's white shirts, 2 luncheon cloths, and about a pound of teatowels or other small items. In the typical family wash there will be two such loads, then a third load of dresses and undergarments, and finally a load of colored or badly soiled items that must be washed separately from the white clothes. So called "closet dramas" are those designed to be read, but not acted.

\$100 DOLLAR GETS YOU 300

Remodel

Your Home for Better Living.....

When you think of remodeling, consider this fact: Every dollar you spend for home improvement increases the value of that home by three dollars, according to nationally-known authorities. Let us help you!

PANEL BOARD
Want a glamour room for a budget price? We stock several styles of panel board that has an expensive look but costs little more than standard wall board. Add a coat of paint to ceiling, and presto, you've transformed a dreary room into something bright and new!

ENCLOSED PORCH
For more delightful summer days and evenings, enclose your porch. So smart! So practical! So economical! Gives your home a lovely appearance, too. Glass panes can be substituted for screens for winter living, if you desire. Come in or call for estimates on your porch.

PICTURE WINDOW
Living room need a face lifting? Then add a picture window. You'll enjoy refreshing summer breezes and cozy winter afternoons by your window. And what could be more flattering to your home than nature's own beauty right inside your living room?

NO MONEY DOWN
36 MONTHS TO REPAY

LET US HELP YOU

We can furnish hundreds of ideas and suggestions to help you improve your home. Our services include finance information, and contractors if desired. Make just one stop for all your needs.

CICERO SMITH
Lumber Co.

were week end guests of Sgt. Schroeder's father, Ewald Schroeder, and Mrs. Schroeder.

Leroy Bice, who is attending school in Wichita Falls, spent the week end with his parents, Mr. and Mrs. Henry Bice.

S. B. Farrar and Jim Moore and son of Thalia spent the week end with Mr. and Mrs. Jessie Moore in Kansas.

Mr. and Mrs. Albert Petrus and daughter of Bomarton visited her sister and family, Mr. and Mrs. Johnnie Matus, Monday of last week.

Mr. and Mrs. Monroe Karcher, Mrs. Johnnie Matus, Mr. and Mrs. August Rummel and LaVoy and Mrs. Ewald Schulz attended funeral services for Prit Elton Reinich at St. Paul's Lutheran Church in Vernon Sunday afternoon.

Mrs. W. W. Kinney and daughters of Fort Sill, Okla., visited Mr. and Mrs. Charley Gray Thursday afternoon.

TWO KILLED IN PRISON RIOT—Through bars, convicts jeer officials after 7½-hour mutiny in New Mexico state penitentiary at Santa Fe is put down with the slaying of two felons by a deputy warden.

Grass Roots Opinion

Emporia, Kansas, Gazette: "The nation's total 1953 tax bill will be as much as the wages, rents, interest and dividends received by all of us during the January 1 to April 22 period. You can read that again but the experts say it is correct. Obviously economical government and eventual tax reduction are in your personal interest."

Fairfax, Minn., Standard: "The Federal debt now totals \$250,000,000,000, which means that the average Federal mortgage on each family is \$5,860, in addition to state and local debt mortgages. We will never be able to reduce our debt mortgages and tax liability until government cuts wasteful spending and keeps expenditures within the limits of its income."

Canyon, Texas, News: "We have always taken the position that taxes could not be reduced until we had reached the point where we were willing to cut out a lot of foolishness in public spending. If and when we have reached that point, we may expect tax reductions sometime in the future."

Medford, Mass., Mercury: "A twenty-year backlog can't be cleared in a few months. The government structure reared in the 'dizzy deals' can't be pulled down and put together again overnight. The tax load supporting it can't be cut while the administrative superstructure is being remade

Markham Spencer and Miss Jo Ann Wright Exchange Vows

Markham Spencer, son of Leo Spencer of Crowell, and Miss Jo Ann Wright of Amarillo, daughter of Mr. and Mrs. S. C. Wright of Glazier, Texas, were united in marriage on Saturday, June 20, in the chapel of the First Baptist Church in Amarillo.

The ceremony was performed by Rev. Carl Bates. Music was provided by Mrs. Eda Dye, organist.

Mrs. Emmett Hall was matron of honor and J. R. Jameson Jr.

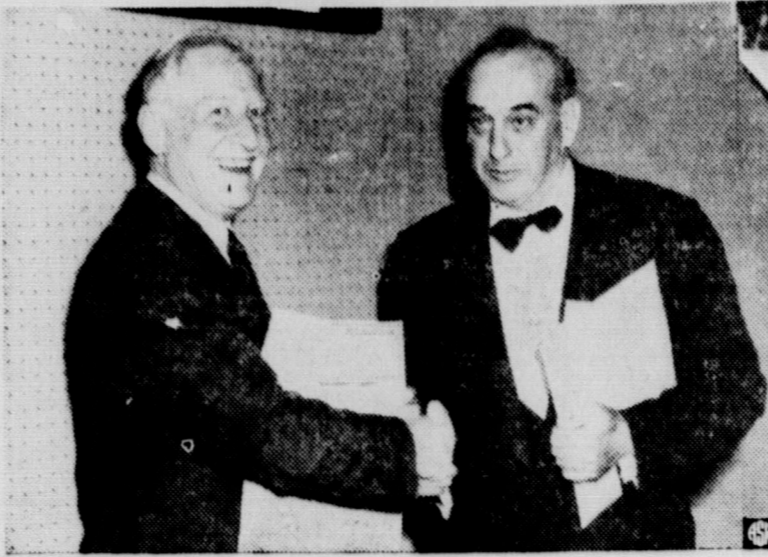

of Lubbock was best man. Ragsdale Lanier was interpreter and Emmett Hall served as usher.

The bride, given in marriage by her father, wore a navy blue silk suit with which she wore white accessories. Her bouquet was of white carnations carried on a white Bible. Mrs. Hall wore navy blue sheer with white accessories.

A reception was held at the home of Mrs. E. M. Dye, following the marriage. Mrs. Ragsdale Lanier cut the wedding cake and Mrs. Nelson Oliphant, sister of the groom, poured punch.

The couple left immediately for a wedding trip to Colorado after which they will reside in Amarillo

Wins Top Prize in GM Contest

Harlow H. Curtice, left, president of General Motors, presents the \$25,000 first national award to Robert Moses, New York City Commissioner of Parks, in the General Motors Better Highways Awards essay contest. The presentation was made recently at a banquet in Detroit. Mr. Moses proposed that federal, state, and local governments spend a total of five billion dollars a year on highways for the next 10 years—almost double the present rate. He presented a tax program which he said would raise the necessary fund.

at 1619 South Van Buren, Apt. 8. Mr. and Mrs. Spencer were both educated at the School for Deaf in Austin. He is employed by the Canada Dry Bottling Works and she is in the bookkeeping department of American National Bank in Amarillo.

Attending the wedding from Crowell were Leo Spencer and Mr. and Mrs. Nelson Oliphant and daughters, Carolee and Ronnie Sue.

Home Demonstration Notes

MRS. MARY D. BROWN

As you know Council met this last Saturday for its June meeting. At this meeting all clubs were reminded to choose a new program of work which they are interested in to take the place of the Cereal Programs which will be finished this year. Suggested programs were Kitchen Improvement, Bedroom Improvement, Yard Improvement, Home Meat Demonstration, and Home Poultry Demonstration. Each club should decide on one which interests them most and then the yearbook committee will plan for the one program that most of the clubs are interested in.

All of the clubs were also reminded to start now in planning their exhibits for the Annual Achievement Day.

It was decided to have the annual encampment at Lake Pauline some time during the first week of August with final plans to be announced later.

After council meeting adjourned, Mrs. Tom Callaway, THDA chairman, called a THDA meeting for the purpose of electing 3 delegates to the State THDA meeting to be held in Galveston in October. Delegates elected were as follows: Mrs. Ewald Schroeder of the Riverside Club, Mrs. Tom Callaway of the Foard City Club; and Mrs. C. R. Bryson of the West Side Club. Miss Myrtle Fish of the Vivian Club was elected as alternate.

Our recipe this week for Baked Deviled Eggs with Mushroom Sauce.

Six hard cooked eggs, cut in half, lengthwise; 2 tablespoons mayonnaise; 1 teaspoon prepared mustard; dash salt and pepper; dash Worcestershire sauce; 1 can (1 1/4 c.) condensed cream of mushroom soup; 1/4 cup milk; 1/2 cup shredded sharp, processed cheese.

Blend egg yolks, mayonnaise, mustard, salt, pepper and Worcestershire sauce; stuff into egg whites. Place eggs in a small shallow baking pan. Blend soup and milk; pour over eggs; sprinkle cheese on top. Bake in a moderate oven (375 degrees F.) about 30 minutes or until lightly browned. Makes six servings.

Mrs. C. D. Campbell Honored with Tea

Mrs. Dwight Campbell entertained with a delightful tea in her home on Saturday, June 27, to honor her daughter-in-law, Mrs. C. D. Campbell, whose marriage to Mr. Campbell took place in Houston on June 12.

Guests were received at the door by Mrs. Clyde Russell, who presented them to the honoree and the hostess, Mrs. Durwood Sanders registered the guests in the bride's book.

Ushered into the dining room, where the table, covered with a shell pink damask cloth, was centered with a beautiful bouquet of pale pink asters with baby's breath and plumosa fern flocked with pink. Pink candles in crystal holders flanked the arrangement.

Mrs. Lewis Sloan poured frosted punch from a crystal service. Miss Florence Black, Mrs. Ota Kenner and Mrs. Roy Barker assisted in serving punch, dainty cookies, nuts and mints.

Other members of the house party included Mrs. U. C. Rader, grandmother of the groom, and Mrs. C. P. Sandifer, his great aunt.

Johnnie Baker Is Honored on Birthday

Mr. and Mrs. O. N. Baker honored their son, Johnnie, on his birthday anniversary with a social and dinner at their home in the Foard City community Tuesday evening, June 23.

Dinner was served buffet style after the group had sung "Happy Birthday." The pretty birthday cake was served with ice cream to the following: Mr. and Mrs. Dick Crosnoe and daughter, Violet, of Crowell, Mr. and Mrs. Tom Callaway, Mr. and Mrs. R. E. Sparks, Mr. and Mrs. W. M. Cox, Mr. and Mrs. Fred Traweck, the host, hostess and honoree.

Johnnie received several nice, useful gifts.

VIVIAN H. D. CLUB

The members of the Vivian Home Demonstration Club met in regular session at the Leslie McAdams camp for their summer recreation in the form of a picnic Thursday, June 25, at 7 o'clock.

A picnic lunch was served and an hour or more was spent in visiting.

Those present for the occasion were: Mr. and Mrs. Clyde Bowley, Mrs. Leslie McAdams, Mr. and Mrs. Otis Gafford and son, Jimmy Mack, Mr. and Mrs. Ernest Boren and son, Dwayne, Mrs. M. E. Boren, Mrs. Dick Carroll, Mrs. Hartley Easley, Mr. and Mrs. Johnny Marr, Mr. and Mrs. Warren Haynie and daughter, Joylyn, Mr. and Mrs. Allen Fish, Mr. and Mrs. Chester Hord and sons, Kent and Billie, Mr. and Mrs. R. L. Walling and son, Danny, Mr. and Mrs. James Sandlin and

TRUSCOTT H. D. CLUB

The Truscott Home Demonstration Club met in regular session at the community house Thursday afternoon at 3 o'clock.

After the business session Mrs. Jack Brown gave an interesting talk on cake batters and the reasons for cake failures, and how to prepare cakes and pies for freezing.

The next meeting will be held at 3 o'clock Thursday, July 9, with Mrs. Rex Traweck as hostess. Mrs. Georgia Perkins, the agent, will be there.

Refreshments were served to 13 members.

daughters, Judy and Sherry, Mrs. J. W. Carroll, Albert, Egbert and Herbert Fish, Mrs. Dee Gilbert and granddaughter, Myra Nell Gaudin, Misses Myrtle, Bernita and Neoma Fish and R. G. McAdams and James Grady McDaniel.
