Bates visited relatives in Quanah Sunday. Edna Eubank of Frederick, Okla., visited her mother, Mrs. Bruce Eubank, and other relatives and friends over the week end. Mr. and Mrs. Raymond Hannan and son of Wichita Falls and Mrs. O. L. Hinds of Dallas took Mr. and Mrs. Horace Haynie home Sunday. They spent last week visiting in Wichita Falls. Visitors recently in the home of Mr. and Mrs. Horace Haynie were Mrs. Haynie's sister, Mrs. L. D. Taff, and husband of Snyder. Mrs. B. L. McMurry and children of Wichita Falls visited Mrs. Frank Adeock awhile Sunday. Nancy remained for a longer visit.

DETERGENTS USED FOR HEART AILMENT  
News comes from the New York Heart Association that detergents, the basic chemicals of which are oil-derived, are being used with success in the treatment of atherosclerosis, a form of hardening of the arteries. The reason is simple: Atherosclerosis comes from fatty deposits in the walls of the blood vessels, and detergents, often called "soapless soaps," cut fats and greases. New uses are made every day of petroleum and petroleum products for the benefit of Americans.

CARD OF THANKS  
I wish to express my appreciation to the hospital staff and to their kindness and care in the hospital. Also to my ones and friends for their card, and gift. May each one.

*In all these important ways...*

**Chevrolet's farther ahead than ever!**

The striking new Bel Air Sport Coupe. With 3 great new series, Chevrolet offers the widest choice of models in its field.

<b>... IN POWER AND PERFORMANCE</b> Chevrolet's entirely new 115-h.p. "Blue-Flame" engine (teamed with Powerglide*) is the most powerful in the low-price field! In gearshift models, you get the advanced 108-h.p. "Thrifty-King" engine. Both give brilliant new performance and greater economy.	<b>... IN STYLE AND LUXURY</b> The sleek, low-slung beauty of this fine new car provides one more reason for Chevrolet's truly amazing popularity. The new Fisher Body provides roomy luxurious interiors, modern appointments and colorful, fine-fabric upholstery that can be matched only in costlier cars.	<b>... IN EASE OF DRIVING</b> Entirely new Powerglide automatic transmission, with faster getaway and greater economy, eliminates the clutch pedal completely. And Chevrolet's new Power Steering* does 80% of the work... lets you squeeze in or out of tight spaces with wonderful new ease.	<b>... IN ECONOMY AND VALUE</b> Chevrolet now brings you the most important gain in its history! And, you save substantial amounts on over-all upkeep, too. Yet with all its wonderful new things, Chevrolet remains the lowest priced line in the low-price field!	<b>... IN FIRST PLACE POPULARITY</b> Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show Chevrolet over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.
--	---	---	--	---

\*Optional at extra cost. Combination of Powerglide automatic transmission, and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering is available on all models.

**MORE PEOPLE BUY CHEVROLETS CHEVROLET THAN ANY OTHER CAR!**

### Who Is Boss of the Executive Branch?

Who is boss of the Executive Branch of the government? The obvious answer, of course, is that the President has this power, and discharges it through his cabinet members and other top-level appointees. That is theoretically true. But, in actual practice, the situation isn't nearly as simple for clear-cut.

In one of his Newsweek columns, under the significant title of "The Shackles of Victory," Raymond Moley wrote: "A conquering general who turned statesman, the Duke of Wellington, once said that 'nothing except a battle lost can be half so melancholy as a battle won.' Another victorious general turned statesman, Dwight D. Eisenhower, is probably thinking something exactly like that. For this warrior who hurled armies across Europe is beating futile blows against the rubber wall of bureaucracy."

He cannot as of this date administer his government because he lacks the very vitals of control. He can and has appointed a group of what are technically called top policymaking officers. They, like the President, are Gullivers bound down by Lilliputians, without whom they can know nothing and do nothing but because of whom they cannot effectively carry out the policies and promises of their party.

Mr. Moley went on to cite some examples. According to him, Secretary Hobby has some 30,000 employees under her, but when she took over she had only 16 available job openings. Secretary Weeks supposedly runs 55,000 people, but he could fill only 4,000 jobs, most of them of an extremely minor nature. Secretary Benson found that he could immediately replace only 500 of his more than 55,000 workers. Matters seem to have been similar

### Census Bureau Has New Application Form

A revised application form for use of persons seeking to establish proof of age or citizenship through personal Census records is now available at the Census Bureau's district office in Fort Worth, according to District Supervisor James M. Hamilton, Room 2134, 300 W. Vickery St.

The revised form is designed to encourage applicants to use the Censuses of 1880, 1900 and 1920, if possible, when requesting searches of the voluminous census records. Officials point out that information from these censuses can be furnished more rapidly because the records for these years have been card indexed. Because of the comprehensive index, information can be provided in most instances if the applicant furnishes only his name, the name of the city or county and state in which he was living and the name of the head of the household in which he was residing. Searches of the card index of these censuses can be conducted five times faster than by the conventional method of looking through the original records.

Persons needing information from the Censuses of 1910, 1930, 1940 and 1950—if residing in a city at the time these censuses were taken—should furnish the house number, name of the street, city, county and state, and the name of the parent or head of the household with whom living. If residing in a small town, they should give all available information as to cross streets, road names, name of township in which residence was located and any other available pertinent data. Rural residents are asked to furnish the rural route number and also the distance and direction of the residence from the nearest town.

in the other branches and departments.

As Mr. Moley pointed out, the vast army of hold-over government employees includes many people of high ability and integrity. But it is an obvious fact that the great majority of them got their jobs because they had served the opposition party well, and it would be unreasonable to expect them to feel any real enthusiasm for the man who finally defeated the forces of the New Deal and the Fair Deal.

That this poses a tremendous problem to the Eisenhower Administration goes without saying. It stands in the way of rebuilding the Republican party through the disposition of patronage. Patronage is a word in bad odor in many quarters, but it stands for one of the salient and basic facts of political life, regardless of what men or what party happen to be on top. Patronage, which simply means jobs, is one of the roots of party strength. Honestly

### In The News . . . 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, June 20, 1923:

Mr. and Mrs. L. G. Andrews visited their son, Charles, and wife in Vernon Sunday.

—o—

Vivian people report a 4-inch rain in that community Saturday afternoon.

—o—

The Hi-Way Garage has changed hands this week. W. A. Woodard selling to Claude Barry and Roland Moseley.

—o—

Mrs. A. H. Clark and daughter, Elizabeth, of Oklahoma City came in Tuesday of last week to visit relatives. Mr. Clark came Sunday night.

—o—

The last few days of last week and Sunday and Monday of this week were about the hottest days ever experienced in Crowell. Scattered showers over the country had the effect to temper the heat.

—o—

The new gin being constructed by the Farmers' Co-Operative Society is rapidly nearing completion.

—o—

Miss Leona Young of Dallas and Miss Jessie Hutchison of Houston are visiting in the home of Mr. and Mrs. N. J. Roberts.

—o—

Joe Ward's wife is reported as being ill from typhoid. Their child, who has been ill with the same disease for three weeks, is slowly improving.

—o—

Roy Todd left Monday for his farm near Tahoka. He was accompanied by Misses Gleyenn and Gladys Brian and Frances Blake—Mrs. who are visiting relatives in Tahoka.

—o—

J. T. Gaines and family of Capitan, N. M., visited his brother, A. C. Gaines, and family the first of the week.

—o—

Mrs. Walter Ross and children of Margaret left yesterday for Stephenville to visit relatives.

—o—

Lat Johnson, pioneer resident of the Thalia community, is reported to be seriously ill.

—o—

F. G. Ferguson, pioneer resident here, has been seriously ill for several weeks and his condition grows worse each day.

and wisely used, it can create vigor and efficiency within the government.

Little by little, of course, the faces behind the government desks will change. But it will be a slow process—much slower than the top Administration officials apparently realized when they took over.

### News from the Congress

by Congressman Frank Ikard

Washington, D. C., July 17, 1953 — The instructions to the county drought committees as to how they must administer the emergency feed program have been sent out of the Department of Agriculture here. These instructions state that: "To be eligible for feed at reduced prices a farmer or stockman must (1) have less than a 30-day supply of feed to supplement the roughage for the foundation herd to be maintained, except that such feed may be made available for cattle other than those in the foundation herd when such cattle, other than feeders in feed lots, will be marketed not later than September 30, 1953; (2) not have the financial ability to remain in business and maintain his herd in a relatively satisfactory condition in view of present drought conditions, unless he can purchase feed at prices substantially below prevailing market prices. Feeders in feed lots are not eligible. To avoid any undue hardships, county committees should use reasonable discretion in carrying out these instructions."

These instructions appear, in many respects, to defeat the whole purpose of the program. In the first place, it provides that feed may not be made available for cattle other than the foundation herd, after September 30, 1953, and according to the instructions, the foundation herd consists of cows, bulls, nursing calves, and such heifers as may be kept to replace over-age and other undesirable cattle. This very obviously denies feed for steers after September 30. This, of course, will mean that unquestionably large numbers of steers will be sent to the market around September 30, if not sooner, which is the very thing that should be prevented. It is also apparent that this will work an undue hardship on the small cattleman who has a few cows and a few steers, for it will mean that he will be unable to get feed under the drought relief program for his steers after September 30 if he keeps them, while he can get such feed for his cows. In many instances, the only chance the stock-

man has for recovery is to be able to carry over his steers until next year in the hope that marketing conditions will be better. If he cannot do this, it will mean he will have to take additional losses and the market will be further glutted with unfinished cattle.

Another provision of the regulations provides that the cowman in order to get feed, must not have the financial ability to remain in business and maintain his herd in relatively satisfactory condition. This, of course, is very broad and in many respects in meaningless language. If it is to be interpreted that a person has to, in effect, take a "pauper's oath" a great hardship will be worked. It could be interpreted that anyone with an equity or credit, no matter how small or meager it is, could not participate in the program. Such an interpretation could only lead to further economic disaster in the drought area and to a greater marketing of cattle, which, I repeat, is the very thing this program is supposed to try to prevent.

I am very fearful that the regulations as they now stand will defeat the whole purpose of the drought relief program.

This week, the House passed a bill that would set aside a room in the Capitol building for prayer and meditation by the members of Congress. This action has been long overdue. I know this room can and will be put to good use by both the members of the House and of the Senate.

Visitors from home in my office this week were: Roy A. Box of Jacksboro, F. M. Doyle of Deatur, Al Ellis, Enos Burt, Mrs. Doug Allen and Mrs. Dorothy Ellis Barr, all of Wichita Falls.

#### Dates for Fall Game Harvest Are Shaped

Dates for some of the major game harvest seasons not set by state law were shaped by the Game and Fish Commission, meeting in Houston last week in regular quarterly session.

The Commission recommended that the United States Fish and Wildlife Service divide Texas into north and south zones for the 1953 waterfowl season. It asked for a north zone shooting period beginning October 30 and a south zone season beginning November

**Ever see so much fuss just to chill an orange?**

It's the best way there is today to refrigerate a "reefer"—but Santa Fe is developing an even newer and better way to do the job

In 60 seconds flat, the giant ice-crushing machines Santa Fe recently installed can fill the bunkers of a refrigerator car with five tons of ice!

They are the newest and fastest machines for icing cars yet devised. And Santa Fe "reefers" are the most efficient type of refrigerator cars now on the rails.

These refrigerator cars and icing machines have carried the technique of ice refrigeration to the ultimate of present day knowledge.

**WHAT ABOUT TOMORROW?**

We can't be sure, BUT—Santa Fe is now experimenting with a newer way to refrigerate cars automatically for hauling foods which may require temperatures as low as 25° below zero.

30 new experimental refrigerator cars designed by Santa Fe, built in its own shops and each with a capacity of 128,000 pounds of frozen foods, are now being utilized in the movement of frozen foods.

Each of these new cars has its own thermostatically-controlled diesel-driven compressor-type refrigerator unit. It carries 400 gallons of fuel (almost the exact amount Lindbergh used to fly the Atlantic). It can maintain sub-zero temperatures all the way from California to New York.

**BENEFITS FELT ALL ALONG THE LINE**

All along the line, people and communities feel the benefits of this building new wherever it actually occurs on the Santa Fe—and day-after-day, something new is done to make "America's New Railroad" a little better.

The millions of dollars this newness costs Santa Fe doesn't cost you a single penny in the taxes you pay.

## Home Demonstration Notes

MRS. MARY D. BROWN

Council met this Saturday, July 18, at 3:30 p. m. in my office with 13 members and 3 visitors present. Five of the six clubs were represented. Miss Mae Bell Smith, Acting Organization Specialist of College Station, was present for this meeting.

Council voted to have raffia winding as their craft at camp this year and August 5 and 6 were the dates decided upon. Council voted to go to Lake Pauline again this year.

Miss Smith gave a short talk on the Purpose of Council, and the meeting adjourned on time.

I hope that each one of you will try to go to camp this year. We always have a wonderful time and it does all of us good to get away from home once in a while. You will receive a letter telling you what you will need to bring, what time we will leave, etc., in plenty of time for you to make plans to go with us. So let's all go and play together.

### WEST SIDE H. D. CLUB

"Good manners make for better club meetings" was the consensus of the round table discussion conducted by Mrs. S. H. Ross at the West Side Home Demonstration Club meeting July 15 in the home of Mrs. S. E. Tate.

It was discussed that one's manners are judged as good or bad, regardless of one speaks or remains silent. It was also brought out in the discussion that good manners are practical applications of the Golden Rule.

To finish out the club year, Mrs. Walter Thomson was elected to hold the office of president, and Mrs. C. R. Bryson was elected vice president.

Mrs. Walter Thomson will be hostess for the next meeting, which will be July 28. It will be a social with everyone bringing their handwork.

## Texans Contribute Over 2 1/2 Million to 1953 March of Dimes

Texans contributed more than \$2,577,000 to the total of \$51,500,000 raised in the 1953 March of Dimes. It was announced in Dallas this week by Basil O'Connor, president of the National Foundation for Infantile Paralysis. Corroborating the Lone Star totals was Robert J. Smith, Oscar County chairman of the annual polio fund raising drive in Texas. This total, based on reports from 3,069 volunteer campaign chairmen, represents a new record, being 24 per cent higher than the previous record total raised in 1952. Mr. O'Connor said. Last year, when \$41,492,695 was contributed showing a figure of 27 1/2 cents per capita donation for the United States, Texas raised more than \$2,190,000 for a per capita

WIFE 'WANTED BABY,' SO KIDNAPS ONE — Mrs. Mary Catherine Blair (right), 18, explains in Oceanside, Calif., police station why she stole 2-months-old Charles Dayton Jr. from buggy. "I always wanted a baby," she tells Mrs. Dorothy Dayton, 29.

## Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, M. D., State Health Officer.

A farm-to-farm, ranch-to-ranch survey of Texas water resources is now underway in an effort to gauge drought effect on public health.

The State Department of Health conducted a similar survey earlier this year on incorporated cities and towns, but it failed to show the status of privately owned water sources, such as farm and ranch tanks and private wells.

Information is being sought by questionnaires sent from the State Health Department to all county judges. When complete, Dr. Geo. W. Cox, state health chief, says a compilation sheet will be made showing:

Towns with ample water supplies; towns with impending shortages; number of wells and tanks and the amount of water available from them; how much water is being hauled and from where; steps rural organizations are taking to relieve their shortages; to what extent is land being irrigated.

1953 in the past, the course of the disease cannot be predicted. All chapters of the National Foundation, however, are prepared to assist the unknown thousands who will need March of Dimes help this year, he added.

showing of slightly higher than 28 cents. The 1953 figure, nationwide, shows an average of 34 cents per person.

"The new record shows that millions of parents and children who fight against polio realize the crucial stage of this battle has been reached," said Mr. O'Connor. "They know that recent progress in scientific research and the continuing increase year after year of polio cases make their responsibilities greater than ever before."

In paying tribute to the more than 2,000,000 March of Dimes volunteers who conducted the fund raising crusade in 100,000 communities throughout the nation, Mr. O'Connor said, "Without their unselfish efforts, the American people would not have been so acutely aware of the increasing responsibilities of the National Foundation. Obligations imposed by five years of heavy outbreaks of the disease plus increased expenditures for new developments in the field of research have made larger sums vitally necessary for the fight against infantile paralysis."

"Despite larger public contributions each year," he continued, "the National Foundation for Infantile Paralysis has ended the last four years with outstanding bills, mainly to hospitals, of from three and one-half to seven million dollars. Thus, for this period of time, each succeeding March of Dimes has been, in effect, mortgaged for such an amount before any new cases were reported in the new year."

Thus far, in Texas, polio incidence has shown a decrease over the 1952 record high. As of June 6, 513 cases had been reported compared to the 1952 figure of 582 for the corresponding period. Throughout the United States the outlook is not as good as for the Lone Star state. California, Nevada, Utah, Colorado, Arizona, Alabama, North Carolina, Missouri and the east north central and middle atlantic states have shown increases far beyond the record highs of 1952.

Mr. O'Connor added that in

## Texas Trends

dallas fashion center

Transparent as a window pane is this redingote of imported organdy by Leiter of Dallas. It gives an illusion of cool comfort in the hottest weather. A glazed cotton check is used for the sheath, sundress, the deep hem and wide front facings of the sheer coat. Brown, navy and black with white. Sizes 10-18, retailing about \$18.00.

15 CHILDREN FACE 2ND EVICTION IN 5 WEEKS — Frank Lambros (center), holding gelina, 10 months, faces eviction with wife (not shown) and 15 children. His mother-in-law in Chicago family when they were evicted five weeks ago—now faces eviction with them for law violations. Landlords don't want so many children, Lambros says, so they trudge the streets finding a place to live.
