Ralph Thayer September 11 Floyd County

General Services Held in Lockney Monday Afternoon

Ralph Thayer of the Valley community in Floyd County, daughter of Mr. E. T. Evans of Floyd County, passed away at her home in Lockney, Tex., Friday afternoon at 3:30 o'clock, after a lingering illness.

She had been in a Dallas hospital for several weeks and returned to the home of her father a few days before her death.

Funeral services for Mrs. Thayer were held in the First Methodist Church at Lockney Sunday afternoon, Sept. 13, at 4 o'clock, Rev. Burgin Watkins, pastor, officiating.

Survivors include her husband, Mr. E. T. Evans, and three children, Mrs. W. R. Danforth, Mrs. W. R. Dandridge, and Mrs. E. T. Evans Jr.

Football Game Friday Night Nets Crowell \$352.97

Officials of the Crowell Schools released Monday the financial statement for the Crowell-Seymour football game played here last Friday night, Sept. 11. Receipts for the game totaled \$352.97, with Crowell's share \$158.55. An itemized statement follows:

Receipts
269 reserve tickets at \$1.00 each, \$269.00; (this does not include 197 optional tickets sold for the season); 708 other adult tickets at 75c, \$531.00; 453 student tickets at 35c, \$158.55; total receipts \$958.55.

Expenses
Expenses for the game include: officials, \$108.00; ball, \$15.00; marking off field, \$5.00; guards for fences, \$10.00; total expenses, \$138.00.

Seymour's share was \$466.78, with their share and the expenses totaling \$605.58.

Total receipts of \$958.55 minus total expenses of \$605.58 netted \$352.97 for Crowell.

H. E. Davis Dies Here Friday, September 11th

Funeral Services for Retired Farmer Held Saturday

Last rites for H. E. Davis, pioneer Foard County resident, were held at the Methodist Church Saturday afternoon at 3 o'clock, conducted by Rev. W. B. Fitzerald, pastor of the Thalia Baptist Church, assisted by the Methodist pastor, Rev. Russell McAnally, and Bedford W. Smith, minister of the First Christian Church.

Mr. Davis passed away at his home in Crowell early Friday morning following an illness of several weeks. He had recently undergone an operation in a Wichita Falls hospital.

Interment was in the Crowell cemetery with Womack Funeral Home in charge of arrangements.

Survivors include his wife, Mrs. M. E. Davis, and three children: Mrs. J. H. Jones, Mrs. M. E. Jones, and Mrs. M. E. Jones.

REV. BOB WILLIS

Rev. Bob Willis to Conduct Revival at Local Church

Rev. Bob Willis of Corpus Christi will be the evangelist in a revival meeting to be held at the Assembly of God Church beginning Monday, Sept. 21, and continuing through Sunday, Sept. 27, it was announced this week by the pastor, Rev. M. F. Hankins.

The evangelist is the Assemblies of God Youth director of Texas. A hearty welcome is extended to everybody. Bro. Hankins stated.

Rialto Manager Thanks Patrons for Polio Contributions

Alvie Smith, speaking in behalf of both himself and the moving picture industry, extended a sincere "thank you" to the movie patrons in this locality for the fine response displayed during the Warm Springs Gonzales Foundation drive held at the local theatre during the past several days.

Mr. Smith stated that "the liberal contributions received during this time definitely reflects the wonderful attitude of the people in this community toward such worthy causes as this."

THALIA CEMETERY REPORT

Mrs. Cap Adkins, secretary-treasurer of the Thalia Cemetery Association, reports the following contributions:

Mrs. M. E. Moore and Odessa, \$5.00; Mr. and Mrs. Richard Johnson, Crowell, \$5.00; Mrs. M. A. Oliver, Carlsbad, N. M., \$3.00; Jim Marlow, \$5.00; Mr. and Mrs. John Williamson, Crowell, \$5.00.

FOOLS DOCTORS

Easton, Pa.—Told by doctors that she "would never live to grow up," Mrs. Mary Frances Paul fooled them all by celebrating her 100th birthday recently. Mrs. Paul admitted that she was "very frail" in childhood.

Three Seismograph Companies Locate in Crowell

Three seismograph companies have moved into Crowell and are currently operating in this territory. The Southern Geophysical Company of Fort Worth and the National Geophysical Company of Dallas established headquarters in Crowell during the week end; the Rayflex Exploration Company of Dallas has maintained offices in the Ray Jonas building since August.

Employed by these three units are some 43 men, 17 of whom are moving their families to this city. Party chiefs for the respective crews declared Saturday that most of the employees have already set up residence in Crowell.

G. H. Zwiebel Jr., party chief for National, announced that their offices will be in the Rock building owned by Mrs. A. Y. Beverly. Southern Company's headquarters are in Mrs. Eunice Jones' home, according to party chief John R. Harmonson.

Home-Coming Set for Thalia Baptist Church September 27

A homecoming is being planned for the Thalia Baptist Church on Sunday, Sept. 27, and a basket lunch will be served at the noon hour, followed immediately by a short program when the quilt, which was placed under the pulpit twenty-five years ago when the new church was erected, will be removed and placed on display in the church.

In 1928 when the late W. A. Reed was pastor of the Thalia Baptist Church, a new building was constructed. The Woman's Missionary Society of the church secured a large number of names to be put on a quilt. The quilt was finished and on Sept. 24, 1928, was placed under the pulpit to remain there for twenty-five years.

The public has a cordial invitation to attend these services. The program will appear in next week's issue.

Crowell Wildcats Defeat Seymour Panthers 7-0 Here Last Friday in First Game of Season for Both Teams

The Crowell High School football team won its initial game of the season here last Friday night when it defeated the Seymour High School team by the score of 7 to 0. Both teams were outstanding on defense and neither could make much headway on the offense. However, had Seymour ever scored, the Wildcats could probably have opened up some more in the last half.

The drive that resulted in a touchdown for the home team came about the middle of the second quarter when Joe Don Thompson pounced on a Panther

fumble on Seymour's 44-yard line. This yardage was picked up mostly by a 14-yard pass from Gordon Graves, quarterback, to DuWayne Elliott, left end; a 12-yard run by fullback James Pittillo; and a five-yard plunge by James Denton. The conversion was kicked by Elliott. Crowell's line composed of Elliott and Jimmy Everson at ends; Thompson and Jackie Walker at tackles; Buddy Caddell and C. T. McDaniel at guards; and Robert Kincaid at center deserves much of the credit for opening up holes to make this drive possible. Other Crowell boys playing in this contest were Wayne Borchardt, Gerry Knox and Don Smith. Joe Don Thompson and Buddy Caddell stayed in the Seymour backfield much of the time that the Panthers were on the offense. Along with Denton, Pittillo and Elliott, it was hard for the 2A-4 champions to get rolling. Denton came up behind Junior Beall on a 39-yard run to stop a Seymour drive for a touchdown on Crowell's seven-yard line in the fourth quarter.

Other outstanding players for Seymour were Ronald Vickers, Eugene Baccus and John Styles.

Rayland Gets First Bale 1953 Cotton on August 25th

The item in the News last week concerning R. L. Hudgens ginning the first bale of 1953 cotton at the Thalia Farmers Co-Op. Gin, the second at the West Texas Gin Co. at Margaret and the third at the Crowell Farmers Co-Op. on Friday, Saturday and Monday of last week, respectively, was correct, but the article was in error when it stated that the first bale ginned at the Thalia Co-Op. on Friday was the first 1953 bale of cotton for Foard County.

Roy Martin, manager of the Aubrey Lockett Gin at Rayland, states that he ginned the first bale of the 1953 Foard County cotton on Tuesday, August 25, and paid 40c per pound for it. The bale was owned by L. A. Keischneck, who lives one-half mile west of Rayland. The cotton was ginned free of charge. At the time Mr. Hudgens had his first bale ginned at Thalia Sept. 4, the Rayland gin, which is located on the boundary line between Foard and Wilbarger Counties, had ginned ten bales from the Foard crop. Mr. Martin stated.

The News regrets having made this error, but is glad to correct it. Thanks to Mr. Martin for calling our attention to it.

18-Months-Old Child Hit by Automobile

Sarah Beth, 18-months-old daughter of Mr. and Mrs. Pete Collins of Midland, former Crowell resident, was hit by an unknown automobile driver last Thursday afternoon late and received severe concussions. However, at last report, she was recovering satisfactorily.

Mrs. Andrew Calvin and Mrs. T. L. Collins, sister and mother of Mr. Collins, went to Midland immediately, accompanied by Fred Collins. They returned home Sunday accompanied by Mr. Calvin, who went after them.

GRANDDAUGHTER DIES

Shirley Kay Wallace, six weeks old daughter of Mr. and Mrs. Harold Lloyd Wallace of Henderson, Nevada, and granddaughter of Mrs. Laura Wallace of Crowell, passed away at the home of her parents in Henderson Sept. 5.

Survivors other than the parents are two brothers, Jimmy and Billy, two grandmothers, Mrs. W. D. Sawyer of Electra and Mrs. Wallace of Crowell; two aunts, Mrs. C. E. Rodgers of Crowell and Mrs. Sim Eagleson of Brunswick, Ga.

ROTARY CLUB

Visitors at the Wednesday noon luncheon of the Rotary Club of Crowell were Rev. Aubrey C. Haynes of Seagraves and Pic Lamour of Graham.

Mr. Lamour, speaker for the program, was introduced by Luke Archer, program chairman. Past District Governor and editor of the Scandal Sheet of the Graham Rotary Club, Mr. Lamour gave a very impressive and interesting talk on Vocational Service.

Thanksgiving Day has been proclaimed every year since Abraham Lincoln began the custom.

Soil Conservation News of District

Lower Pease River Soil Conservation District, Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

This is the season for planting legumes as a part of a good conservation program. All cropland that has been in cultivation very long needs legumes planted on it to improve or maintain the productivity of the land. In addition to soil improvement, legumes furnish winter and spring grazing and in some cases are used for profitable cash crops.

Leslie Thomas, who is a co-operator with the Lower Pease River Soil Conservation District, recently planted 30 acres to hairy vetch in a mixture with oats and approximately 15 acres to vetch in rows as a part of his coordinated soil and water conservation plan. Mr. Thomas applied 100 pounds of 45 per cent superphosphate per acre where he seeded vetch. The phosphate is essential for legumes such as hairy vetch and Austrian winter peas as they are heavy users of phosphate.

Grady Halbert, chairman of the local board of supervisors, plans to seed 95 acres to Austrian winter peas on his farm near Foard City soon. He also plans to apply about 200 pounds of 20 per cent superphosphate per acre.

Mrs. Bert Self plans to seed 42 acres to Austrian winter peas on her farm east of Foard City as a part of her soil and water conservation plan with the local district. She has applied phosphate to this acreage in preparation for seeding.

Anyone interested in obtaining a legume seeder or fertilizer distributor may contact Bud McLain, local implement dealer, who is custodian of the local Soil Conservation District's equipment.

Mrs. A. L. Davis has recently completed construction of two miles of terraces on her farm northeast of Foard City as a part of her soil and water conservation plan.

Paul Shirley and Mike Rasberry have started construction on about four miles of terraces on their farm west of Crowell. Mr. Shirley is a co-operator with the local Soil Conservation district.

Bill Owens Buys Auto Supply in Munday

Bill Owens of Crowell closed a business transaction last week with I. V. Cook of Munday whereby Mr. Owens became owner of the Cook Auto Supply in that city.

Following inventory last Wednesday, the former Crowell automotive jobber opened the enterprise under the name of Bill Owens Auto Supply. During his eight-year tenure in the supply business, Mr. Owens has acquired a vast knowledge of the business and become well known to auto garage owners and mechanics over this section.

The Owens family will establish residence in Munday within the next few days.

LIONS CLUB

Cloyce Rainwater, field scout executive for this district, was the principal speaker for Tuesday's noon-day meeting held in the Men's Down Town Bible Class room. Program chairman J. C. Autry presented Mr. Rainwater, who capably addressed the large Lion delegation in the procedures associated with scouting.

Ed Frank Roddy attended this meeting as a visitor.

Second Football Game of Season to Be Played Here Friday Night; Crowell Wildcats to Meet Matador Bullfighters

The Matador Bullfighters come to Crowell this Friday night to give the Crowell High School Wildcats their second game of the season.

It is reported that the Bullfighters have their strongest team in ten years. They have ten starters back from last year and have a team weight average of 165 pounds per man. They held the strong Spur 2A team to a 13 to 12 score last week and had the ball down on Spur's one-yard line when the game ended. Coach Ray Hopkins was Coach Thayne Amnett's roommate in college and coached with him at Ralls one season. This game means much more than just another exhibition contest for these mentors.

Dewayne Martin, 180-pound fullback, was one of the best backs that the Wildcats ran up against last season. Matador's ground play netted ten first downs against the strong Spur team last week.

Coaches Thayne Amnett and Gordon Erwin are making only one change in their lineup from the one that started against Seymour last week. Wayne Borchardt received a leg injury that will keep him out of the starting assignment. James Pittillo will be shifted to the backfield and C. T. McDaniel will be used at guard.

Probable starting lineups for the Crowell-Matador game for Friday night follow:

Former Crowell Man Makes Hole-in-One

"Twas no trick at all," says Eli Smith, referring to the 150-yard hole-in-one he shot recently on the Shamrock Country Club course, according to a news dispatch appearing in the Amarillo Daily News on Sept. 7. Friends of the popular West Texas Utilities Co. manager in Shamrock declare it definitely "was something" because Eli has only one arm—the left one. He cheated par by two strokes when he aceed the number three hole using a spoon. He is one of the city's better golfers. He backhands the club from his right side with his left arm. For many years he has been doing with one arm what many men have a hard time doing with two.

Mr. Smith graduated from Texas Christian University in 1925 where he was an outstanding athlete. He was manager of the utilities office in Crowell until 1936, going from here to Chillicothe for seven years before going to Shamrock in 1943.

Top Films Scheduled for Rialto Starting October

The Rialto Theatre has recently received next month's movie selections. Alvie Smith, manager, stated that the local cinema was fortunate in again scheduling some top-flight film production for the movie-goers in this city for the month of October.

Featured movies coming to the Theatre in October, "Take the High Ground," a re-production and a world premiere in El Paso the latter part of the month, starring Richard Dix and Karl Malden; "Newlyweds," with Gene Tierney and featuring Clark Gable and U. S. correspondent work behind the Iron Curtain; "By Light of the Silvery Moon," Doris Day and Gordon MacRae in another musical comedy; "Team Wife," a romantic comedy with Cary Grant and Deborah Kerr; "Column South," Audie Murphy and Joan Evans in a suspenseful movie depicting frontier life during the Civil War; "Battle of Britain" in an action-packed production; "Trouble Along the Coast" in which John Wayne portrays the role of a college football coach in a comedy-drama release.

Boys Meet Tonight Monday Night

The Boy Scout meeting night has been changed from Thursday Monday night starting next Monday, but they will meet tonight 7:30 p. m. at the Veterans building. A number of new boys are enrolling. It is time to send the charter renewal, so all former and would-be Scouts are urged to attend. Bedford Smith, committee chairman, stated Tuesday afternoon.

Plans are underway under the leadership of committeeman Elmo Wald and others to take the boys to Wichita Falls on a Saturday swimming session soon. Swimming instructions will be available for the boys at that time.

DOWN TOWN BIBLE CLASS

Special music for the opening program of the Down Town Bible class Sunday morning was furnished by Cecil Driver with his electric steel guitar, Mrs. H. B. Sanders, guitar, and Mrs. W. W. Ammons, pianist.

Out-of-town visitors were M. Willis of Wylie, Joe Welch of Sherman and Clifford White of Quanah.

There were approximately forty-five men present with the teacher, Leslie Thomas, delivering a forceful lesson, using as subject, "Daniel Purposed in his Heart."

Home Demonstration Notes

MRS. MARY D. BROWN

Council will meet this Saturday at 2:30 p. m. in my office. At that time we will discuss plans for the Dress Revue and Achievement Day to be held this fall so make every effort to attend. Most of you will be electing new club officers soon, so remember a club can be no better than its officers and everyone should make an effort to do her part. If you are elected to an office, then try to fulfill it well and carry out the duties attached to that office. So many of you have asked about the roll recipe for freezing that I've decided to use it as our recipe for the week. It makes about 4 dozen rolls which are only partially baked. When ready to serve them, you just finish baking and they taste just like rolls made that morning. 2 pkg. dry yeast, 1 cup warm water, 2 cups scalded milk, 1/4 cup sugar, 10 cups flour (approx.), 1/2 cup melted shortening, 5 tsp. salt. Soften yeast in warm water and add 1 tsp. sugar. Set aside. Put two cups of scalded milk in a large bowl and add the salt and sugar. Stir to dissolve the sugar and salt and cool to lukewarm. Add yeast mixture. Mix in just 6 cups of the flour. Then

add the melted shortening (which has been cooled). Add about 4 more cups of flour. Then turn out on a lightly floured bread board and knead until smooth and glossy. Put dough in greased bowl. Cover with clean, damp towel and let rise. When about double in bulk, punch down. Knead again (on floured board) and divide dough into four parts. Each part will make one dozen rolls. Shape into rolls and put into baking pans. Let rise in warm place until about 3/4 the size of regular rolls. Bake pan rolls in slow oven (275 degrees) for 40 minutes. Remove from oven and let stand for about 20 minutes. Then turn out and cool completely. Wrap in freezer paper, in meal-sized numbers and store in your freezer. To serve: unwrap the rolls and place on an ungreased baking sheet. Then 7 or 8 minutes in a 450 degree oven and they are ready for the trip to the table.

Chicago (American Peoples Encyclopedia News Service) — The American public spent \$5.2 billion on tobacco and tobacco products last year, according to a report in the 1953 Yearbook of the American Peoples Encyclopedia. This was an increase of approximately \$300 million over 1951. Cigarette and cigar consumption accounted for all of the increase in sales, according to the report. Sales of pipe and chewing tobacco and snuff all registered declines from the previous year's sales figures. Total cigarette production last year was estimated at 430 billion, a three per cent increase over the preceding year. Cigar output was up four per cent to 6,000,000 — the highest total since 1930. The 97 million pounds of pipe tobacco produced during the last

year was about four per cent low figures for 1951. Each off about one per cent the preceding year. The snuff in the United States declined about 30 per cent last 30 years. Earliest New England were built of thick planks of logs as is generally believed.

NEW SAFETY STICKER LAW NOW IN EFFECT!

The New Safety Law is now in effect and we have the new Safety Stickers ready for your car or truck. The law has been modified from last year and it now includes the following items to be checked: LIGHTS, HORN, WINDSHIELD WIPERS, REAR VIEW MIRRORS and BRAKES.

The law says that each motor vehicle that is operated on the public roads of Texas shall bear one of these Safety Stickers after Sept. 15th, 1953. Any motor vehicle that does not have a Sticker may be stopped by any Peace Officer in the State. The Sticker is just as essential as your number plates.

The charge is only \$1.00 for the sticker with twenty-five cents going to the Department of Public Safety. We are required under the new law to report to the Department of Public Safety, the cars we issued them to, plus the amount we charged for adjustments and repairs.

We invite you to bring your motor vehicle to us today for your new Safety Sticker. We do the testing on the latest model brake-testing machine and set your lights not by guess, but with the Weaver light testing equipment. We do it right. It costs no more.

Come early and avoid the rush. May we serve you?

YEARS SPENT IN CHS LAY FOUNDATION FOR CHARACTER BUILDING

The school remains a great stimulant among all American cities, especially the small towns. Nowhere else in the world can you find such wonderful free democratic schools as we have.

here in our own United States. Although all of the above is true and we realize our own parents have voted bonds and paid taxes because they are interested in our having the best education possible, there are some who try to study as little as possible, some who think it is clever to cheat and some who waste time by unnecessary mischievous pranks. It seems odd that these people do not realize they are forming their own character. Their classmates will remember who was dependable, who could be trusted. Older people notice and hear comments of the students.

ARE YOU BUILDING A RECORD THAT YOU WILL BE PROUD OF, OR ARE YOU KNOCKING YOURSELF OUT IN THE FIRST LAP?

THIS, THAT AND THE OTHER

Is everyone happy that dear old CHS has come to life again? We're rolling along in the third week of school now. We're sure that after a long lonesome summer, everyone was ready to see all the smiling faces of their friends and teachers! First, we want to compliment Mr. Huskey for his faithful service this summer, which was keeping the lawn green and pretty. He is also responsible for many other improvements around our school.

Has anyone noticed that an addition has been made to the band hall? There are two attractive rooms for practicing (not reading comic books) and one for the

band director's office. The entire band will also be decked out in new hats this year. The question of white shoes and gloves is still being discussed. Among the many other improvements around the campus, we notice that the windows have been painted and repaired, the stadium has been painted with reserve seats marked off, and parts of the inside of the main building have been re-done with paint and varnish.

Now, let's take a look at the activities of our teachers this summer. Congratulations to Mrs. Hulse, Coach Amonett, and Mrs. Davis who received their masters degrees from Midwestern University. To achieve this outstanding honor we all realize that it took many long hours of hard work and study. Mrs. Manard went to Colorado and kept house. Mrs. Kenner took a tailoring course in Lubbock, attended an area conference in Coleman, attended a state conference at Dallas, and went to Colorado. Mrs. Sloan attended a B&PW convention in San Antonio and stayed home. Mr. Taylor worked at the school house and loafed. Working for Mr. Gribble, driving the bus to Quanah, and loafing filled Mr. Erwin's summer days. Mr. Welch took a trip to Chico to visit his wife's parents, worked for Mrs. Womack and worked on his house. Traveling seemed to interest Mrs. Elmo Todd. She went to Oklahoma City, South Texas on business, and to New Mexico on a pleasure trip. Mr. Rickard worked with the Commercial Credit Corporation in Natchez, Miss., and fished. Mr. Black made a tour of New Hampshire, Vermont, Quebec, Canada, Niagara Falls, Cape Cod, Boston and New York. Working and fishing occupied Mr. Graves' summer.

Well, the seniors are proudly displaying their new rings that arrived last Tuesday. They sure are pretty. Congratulations. See everyone at the ball game Friday night. Yea Wildcats! Beat Matador!

KING ADDED TO FACULTY
 Mrs. E. C. King, a friendly personality, adds sparkle to her job, for she is a very enthusiastic member of the Crowell Elementary School faculty. She

teaches English in the 7th and 8th grades, and is also librarian. Mrs. King received her BA degree from Highlands University and will receive her MA next summer. For the past seven years she has taught in the Thalia school.

When asked whether she would choose a different profession, she said, "Although I love homemaking, teaching comes first for I can help more people." She was initiated this summer as a member of Pi Chi, national honor society in psychology.

Mrs. King is at all times willing to help or advise any of her students.

HOME ECONOMICS STUDENTS RECEIVE CREDITS FOR PROJECTS

Has anyone ever discovered that those lazy summer months can really be fruitful? First, second and third year homemaking students found during their vacation that they could do housework, cooking and sewing and actually get one-half credit for school out of the deal.

Besides learning to become neat housekeepers and expert and adept cooks, these versatile girls learned some useful crafts in the process. For example, every Thursday during June, Nita June Carroll, Nancy Hallmark, Kay Rasberry and Nan Sue Shultz attended school here in Crowell, and learned to make beautiful ear screws by combining "flower centers," glue and earscrew backs. Aside from this, the girls averaged about one hundred and 35 hours on their planned projects. Several of the many activities accounted for credit were housekeeping, ironing, cooking and sewing.

Students participating in projects were Carolyn Bell, Betty Bartley, Charlene Borchardt, Carolyn Bursay, June Carroll, Francysne Coffey, Zonell Eddy, Barbara Fairchild, Clara Fenske, Joanne Fox, Norma Hall, Nancy Hallmark, Geraldine Hrabal, Patsy Hunter, Gail Knox, Patsy Mechell, Donna Norris, Jeanine Pennergraft, Carol Pogue, Katie Sue Polk, Kay Rasberry, Ann Riethmayer, Nan Sue Shultz, Gloria Smithwick, Vida Jean Tarver and Arleta Teague.

General consensus of opinion of

several mothers interviewed was summed up when one remarked, "Besides being great help to me by relieving me of household duties for three months, my daughter has learned countless 'do's' and 'don't's' about homemaking and life in general. These will be invaluable to her both now and in the future. She really learned to work and truly liked it."

THREE ACT PLAY TO BE PRESENTED BEFORE CHRISTMAS

The drama class of the Crowell High School is working on a 3-act teen-age comedy, "Ever Since Eve" in which Edward Howard as Johnny Clover runs into many difficulties as editor of the Preston High School paper. When the sponsor Miss Willard, played by Charlene Borchardt, appoints Francysne Coffey (his childhood playmate Susan Balke) as his assistant. Matters are further complicated by Spud Erwin, his pal and Gerry Knox in real life, who falls in love with Lucybelle Lee (Roma Jan Spikes) a jessie Southern belle. Lucybelle plays up to Johnny to get her "lil old poem" published although she finds Preston Hughes, played by Gordon Graves, more interesting. Betsy Erwin, Spud's younger sister, keeps the excitement up throughout. Robert Graves as the very proper high school principal, adds much humor as do Mr. and Mrs. Clover, played by Aldon Garrett and Carolyn Bursay. Officer Simmons played by David Jackson has to handle a rather ticklish situation assisted by Mrs. Clover. Others in the play are football boys: David Jackson, Don Kidd, Gerald McAnally and Billy John Rader.

IT HAPPENED AT HOOVER DAM

With 25 other people and two guides, my family and I took the elevator down 628 feet to the power room under Hoover Dam. Everyone was asked not to touch anything; however, a twisty 12 year old girl had to touch everything she saw. Finally one of the guides took out his handkerchief and cut through the hem. When she stooped over to touch one of the big generators, he tore the handkerchief from her and she thought she had ripped her peddle pushers so she straightened with a quick jerk and backed against the wall with a rather embarrassed look on her face. We finished the tour about 200 yards away from where she was still standing and going around in circles trying to find the ripped place. Heading back toward the elevator, she brought up the rear. When we walked out of the elevator the guide said, "You didn't really rip your pants. I just wanted to see if you could stand still."

FIRST SOUTHERN ASSEMBLY PRESENTED FRIDAY

A very interesting folk song program, the first of our Southern Assembly Shows, was given last Friday morning to the students of both the high school and grammar school.

Terry Golden, ballad singer and humorist, gave the students a glimpse of life in other countries as well as our own through his renditions of their ballads and folksongs.

Mr. Golden, who accompanied himself on the guitar, made the program even more interesting by his humorous quips and the short background stories about every song.

The singer called his wife out on the stage and they danced three old-time dances, the polka, put your little foot, and an old version of the waltz.

As a special attraction and finale to a fine program, Mr. Golden then called Zonell Eddy, Frances Kincaid, Sue Meason, Billye McCoy, Chun Gafford, Wayne Borchardt, Gerry Knox and Buddy Caddell up before the audience. When these students were arranged on the stage, Mr. Golden proceeded to teach them a square dance. This resulted in many laughs at the expense of those on the stage, but they learned fast and did well. We wish to say thank you, Terry Golden, for an interesting and humorous program.

NEW SENIOR RINGS ARRIVE

Shining, polished black enamel with the year, 1954, and a large C in gold, is the predominate emblem on the senior rings of 1953-54. This, with the owner's initials inlaid in white gold on either side of the C, is very outstanding against a gold main body of the rings.

Senior students chose their favorite ring among all the others last December. A class meeting was held with a representative of Herff-Jones of Indiana, manufacturers of the rings, and this year's ring was chosen.

Many of the boys' rings are slightly different with a large red stone in the center. The majority of the girls' rings are without stones with intricate engraving in still.

SINUSITIS

We are having spectacular results with sinus conditions that failed to respond to other forms of treatment. We usually find the cause of most sinus conditions similar to those of Asthma and Hay Fever. All respond swiftly under proper Chiropractic care.

MIGRAINE HEADACHES

Lady, 45—This patient spent one week every month in the hospital due to the severity of her condition. Under Chiropractic care the headaches became less severe and in four months time stopped completely. Since starting under Chiropractic care she had not thought about going to the hospital with a headache.

All migraine conditions who have given Chiropractic a fair trial have been pleased with the results. Neuritis and sinus headaches also respond swiftly under adjustments.

ASTHMA—HAY FEVER

- Girl, 12—Had asthma 7 years. Case well in two weeks. No recurrence in past year.
- Girl, 13—Had asthma two months. Case clear after six weeks at our clinic.
- Man, 67—Asthma 7 years. Case clear after 10 weeks health service.
- Lady, 26—Asthma and Hay Fever 5 years. No attacks in past 16 months.
- Lady, 80—Asthma 30 years. Case well in eight weeks. No attacks since taking Chiropractic adjustments.
- Lady, 37—Asthma, Sinusitis and Hay Fever 17 years. Case clear after 12 weeks service.

* Above are a few case histories taken from the files of the Rose Chiropractic Clinic. Chiropractic offers the only known cure for Asthma. If you have Asthma consult Dr. Rose as soon as possible and be back on the road to good health.

ANGINA PECTORIS (Nervous Heart)

- Man, 72—Angina 22 years. Noticed relief after very few adjustments. Gained strength swiftly.
 - Man, 63—Angina 2 months before starting under Chiropractic care. Case near normal in three months.
 - Lady, 33—Angina condition well after four months Chiropractic care.
- * Other Angina patients are still under service at the Rose Chiropractic Clinic and making good progress.

ARTHRITIS, RHEUMATISM (Chronic and Acute)

- Lady, 50—Hands and fingers nearly paralyzed, joints swollen. Condition had existed for six years. Under Chiropractic care at our clinic she recovered fully in three months time. No trouble with hands for past 16 months.
- Lady, 56—Arthritis of the Spine was making life miserable for this lady until she discovered Chiropractic. Spinal X-rays taken one year after she started taking adjustments revealed a breakdown of calcium deposits between the vertebra and the removal of spur and nodular growth from vertebra.
- Lady, 67—Rheumatism of the knee made this patient's leg stiff. Under Chiropractic care the leg was as good as new in less than three months time. Patient reports no trouble with knee in past nine months.
- Man, 33—Rheumatism and Lumbago caused this patient to walk in a stooped position most of the time. After a course of Chiropractic adjustments patient walks and feels better than he had in years.

A. A. Gregory, M. D., wrote:
 "Under Spinal Adjustments, acute diseases are cut short and chronic diseases recover which have been believed to be incurable."

All case histories shown here are taken from the files of the Rose Chiropractic Clinic and are placed here to show the extent of Chiropractic.

NEURITIS and NEURALGIA

These diseases are caused by a direct nerve pinch. Hundreds of cases have been handled at our Clinic. Cases last from one hour to several months. Chief factors involved which determine how fast patient will get well are: 1. Age of patient. 2. Severity of nerve pinch. 3. Length of time condition has existed.

STOMACH — COLON DISORDERS

Lady, 29—Severe vomiting, 10 days. Hospitalized one week. Losing weight rapidly. This patient was very weak when Dr. Rose accepted the case. Patient started to retain food after second adjustment. In four days patient was able to come to the clinic. Dismissed after two months.

Man, 59—Gastric Ulcers, headaches, dizzy spells. Part of this man's stomach had been removed to relieve pains from ulcer, but pain continued. Under adjustments at our clinic the headache and dizziness were gone after one week. All signs of ulcer and pain gone in two months. Six months later patient was still feeling like a new man. Several other ulcer cases have been given the same permanent relief.

PARALYSIS

Chiropractic has been recognized as the foremost healing profession in obtaining lasting results on paralysis cases.

Girl, 16—Facial Paralysis (Bell's Palsy). Couldn't open mouth, smile or close right eye. Sharp pain at base of brain. Following the first adjustment, patient could use mouth freely. Following second adjustment pain in neck and head stopped. In two weeks time patient could smile naturally and in four weeks could close right eye. Patient dismissed after four weeks.

Man, 65—Paralysis, right wrist. Also had rheumatism and couldn't raise hands over head. In less than two months wrist returned to normal and now has full use of arms and shoulders.

Boy, 5—Partial Paralysis of leg. Condition believed due to Polio. After two months care at our clinic has improved greatly, runs and plays, acts normal in all respects.

HIGH BLOOD PRESSURE

Chiropractic has a standing record of high blood pressure cases which have been restored to normal under adjustments. Approximately 75 per cent of the high blood pressure cases handled at our clinic have been returned to normal.

- Man, 67—Blood Pressure 186. returned to normal in 8 weeks time.
- Lady, 27—Hypertension, 198. Returned to normal in two weeks time.
- Lady, 41—Hypertension, 179. Returned to normal in four weeks time.

* If you have high or low blood pressure contact your chiropractor and see for yourself the amazing results that can be obtained under proper chiropractic care.

RUPTURED DISC

Many cases have entered the Rose Chiropractic Clinic with a condition which has been diagnosed as ruptured disc. We have been successful in returning over 90 per cent of these cases to perfect health. We have recommended operations for less than 5 per cent of these cases.

The usual cause of these symptoms is a pinched nerve and a misaligned vertebra. If It's Nerves—See Your CHIROPRACTOR!

Larry says he likes to relax while listening to the radio, especially if he is hearing popular music. His favorite song is simply "Oh."

It has always been his ambition to travel to foreign countries and study the people and their customs. His future isn't altogether clear yet. CATS NUDDGE PANTHERS 7-0

The Crowell Wildcats opened their 1953 schedule with a hard-fought victory over Seymour.

The Cats' lone tally came midway in the second period, with James Denton topping a 44-yard drive with his five yard sprint to paydirt.

The Panthers' most serious threat came in the fourth quarter when Jr. Beale, 190 lb. full-back, scampered forty yards to the Crowell eight. But from there the Cats' defense, sparked by Buddy Caddell, tightened enough for the ball to go over on downs.

Good blocking in the line was shown by Joe Don Thompson, Jackie Walker and Jimmy Everson, while Buddy Caddell, James Pittillo and Gerry Knox stood out on defense. Hard runs were submitted by backs James Denton and James Pittillo. Crowell will meet a strong Matador club in Wildcat stadium Friday night at 8 p. m.

THE WILDCAT PURRS

Hi guys and gals! We really started the football season off with a big bang last Friday didn't we?

Seen after the game were Billy and Glyndon, Zonell and Grin, Gail and Tilly and Sue and Gerry. Did my eyes deceive me, or was it really Barbara Fairchild with Joe Don after the game?

Roma Jan and Jackie, Gordon and Billy are real old steadies.

aren't they?
Seen over the week end were J. M. and Carolyn Kay and Boyce and Peggy.

Beat Matador!
Who is Kenneth Oliver's dream date? Could her initials be J. F. Jimmy and Nelda are seen quite often lately. A new steady, perhaps?

Butch Abston has eyes only for LaRue Diggs.

Karen Hall and Edward Howard would make a nice couple, don't you think?

Shirley, do you still have the taffy on old Hook?

Congratulations to the football boys. They really did a fine job Friday night!

Yea Wildcats!
This Smith-Huskey deal is really getting bad, huh?

Billye McCoy is really getting interested in Quannah. Which one will it be, Francis Strader or John McCrary?

Clouds are forming over the Coy-Charlene affair, but into each life some rain must fall.

Heads or tails, which will it be, Jerry or Grin, Zonell?

Who was that in the car with you Saturday night, Gerry?

Janis and Tony are a nice couple.

Shirley, what's this we hear about Saturday night?

George Ann and Cleve sure had fun last week end.

Aren't the senior rings pretty? Seen Sunday night were Shirley and Truman and Gena and Alfred Prince.

Did all the kids have fun at Shirley's slumber party Friday night?

Beat Matador!
Has anybody noticed a cute new red head around CHS? Her initials are Jo Helen Aly.

Who was Oleta riding around with Sunday afternoon? Sure looked cute.

Leonard and Dorothy are still true.

How come Paul and Shirley had their pictures on the bulletin board?

Steady couples are Jeanine and Rudy, Henry and Nancy, and Rufus Whitman and Gwendolyn Tucker.

Gaylon and Charlene were seen together Friday night.

We miss Barbara Luckie around CHS. Especially Gaylon Whitman. Well, that's the Cat's whiskers for this week. See you next Thursday.

Frances approached the pearly gate and spoke to Saint Peter.

"Do you know if my husband is here? His name is Smith."

"Lady, we have lots of them here, you'll have to be more specific."

"Joe Smith."

"Lotsa those, too, you'll have to have more identification."

"Well, when he died, he said that if I was ever untrue to him, he'd turn over in his grave."

"Oh, you mean 'Pinwheel Smith.'"

After being a bachelor for several years, Robert G. had finally found a bride, but she nagged so much that Robert took to the bottle. One night he came staggering home and his wife met him at the door. "Before you begin," he warned her, "I want you to know that I have been sitting up with a sick friend." His wife replied, "What was his name?" Robert gave this question deep thought, then said triumphantly, "He was so sick he couldn't tell me."

Mrs. Davis strolled calmly out into the street after a cop had flagged her to stay on the sidewalk. "Lady," he roared, "Don't you know what it means when I hold up my hand?"
"I ought to," she snapped.
"For the last 35 years I've been a school teacher."

NOTICE

TO the Stockholders of the Panhandle and Santa Fe Railway Company:

You are hereby notified that the Board of Directors of Panhandle and Santa Fe Railway Company have called a meeting of the Stockholders of the Company to convene at the principal office of the Company in the City of Amarillo, County of Potter, in the State of Texas, the 16th day of November, 1953, between the hours of 8 A. M. and 5 P. M., to consider and act upon a proposition to authorize the execution by the Company of a Mortgage or Deed of Trust to be called a General Income Mortgage or Deed of Trust, or by such other name as may be determined, on certain of its railroads and properties now or hereafter owned, to secure bonds to be issued in series from time to time to be used in paying, funding, or refunding the indebtedness of the Company for bonds assumed by, or for moneys advanced to, it, or for expenditures made on its behalf, for the acquisition or construction of its railroads and properties and additions or betterments thereto, and indebtedness constituting a lien on its railroads and properties now or hereafter owned, and to provide funds for the future extension of, and additions and betterments to, its properties, for the purchase of equipment there-

for, for the reimbursement of its Treasury for expenditures so made, and for other lawful purposes; such bonds to be issued at such time, in such amounts, of such series, and at a lawful rate of interest, payable at stated period, to the extent that the net income of the Company may be adequate therefor (except that the installment of interest due October 1, 1955, shall be payable whether or not earned, and that such bonds shall become fixed interest bonds on the first day of January following any default by The Atchison, Topeka and Santa Fe Railway Company under its General Mortgage or Adjustment Mortgage, both dated December 12, 1895, and shall continue to be fixed interest bonds during the period of such default), and maturing on October 1, 1955, and to be subject or not subject to redemption, tax free or not tax free, convertible or not convertible into the shares of capital stock of the Company, subject or not subject to sinking fund provisions, and containing such other terms and conditions as may be determined or prescribed by the Board of Directors; so limited in amount that bonds at any time outstanding, together with all the then outstanding prior or debt of this Company and the par value of its then outstanding shares of capital stock shall not exceed the sum of \$46,400,000 plus the amount expended after December 31, 1952, for the acquisition, construction, or extension of railroads and railroad property, and for additions and betterments to such railroads and properties now or hereafter owned by the Company; such Mortgage or Deed of Trust to contain also such terms and conditions as may be prescribed or authorized by the Stockholders at said meeting; and to authorize the immediate issuance under said Mortgage of two bonds for \$9,000,000 and \$11,984,000, respectively, or such sum not exceeding said amount as may be approved by the Interstate Commerce Commission; said bonds to be dated July 1, 1953.

Give Me Subsidy!

In a recent speech, Dr. U. G. Dubach, professor of political science at Lewis and Clark College, Portland, Oregon, made this cogent observation: "We want the budget cut, but we don't want cuts for appropriations affecting Portland."

He added that this generation, unlike that of Patrick Henry's time, has a philosophy of "Give me subsidy or you can't have my vote."

Dr. Dubach thus characterized the worst disease that now affects the body politic. The idea that government economy is for the other fellow, never for us, is rampant. It is a commonplace for local chambers of commerce and

A two-edged crusade by the Texas Democrats against the Loyals and the Republicans is now officially begun.
Governor Allan Shivers called the signal at Mineral Wells and urged his kind of Democrats to the struggle immediately.
There are two aspects of the campaign—first, domination of the elections next year; and second, control of the party machinery in the presidential year of 1956.
Every observer at the Mineral Wells session of Texas Democrats interpreted Shivers' remarks to mean that, if necessary, he will run for governor again to gain the objectives.
"If 1952 was the year of decision for the Democratic Party of Texas," Shivers said, "1954 will be the year in which the decision is ratified—or rendered empty and meaningless."
"It is the simple fact of political life that victory is never secure. It must be won again and again—and yet again, for each test is a new game, and there is no prize for second place."
As Shivers spoke, his supporters in many parts of the state were reorganizing their forces at precinct level to carry on the fight next year.
Opposing campaigns were also moving—those of the Loyal Democrats and of the Republicans. Not in modern Texas history has there been so much political activity so far ahead of the elections.
Speaking along with Shivers at the Mineral Wells gathering of the State Democratic Executive Committee was Wright Morrow, national Democratic committeeman from Texas, who is not recognized by National Chairman Stephen Mitchell.
Morrow said he supported Eisenhower last year because the Republican nominee "came nearer embracing the true Democratic principles."
"We," Morrow told the group, "are the real Democrats."
Jack Porter of Houston, Republican national committeeman for Texas, conferred in Denver with President Eisenhower about building up a strong GOP in this state.
daughter of Five-in-One visited her parents, Mr. and Mrs. Joe Richter, Sunday afternoon.

Following the confab, Porter said, "the president impressed me with being in hearty accord with the building of a strong Republican party in Texas."
Also discussed between the two was the president's visit to Texas next October for the dedication of the new Falcon Dam.

While Shivers was making up his mind whether to call a special session of the Legislature, there was considerable improvement in the drought situation.
All but 48 counties in the western third of the state were cut off the emergency list by the State Drought Disaster Committee. Originally, 152 counties had been included.
No more orders for emergency feed will be taken from the 104 counties that were removed from the list.
Rains that brought relief to a considerable part of West Texas were given as the reason for reducing the area to remain within the drought designation.
Drought relief was Shivers' consideration in the matter of whether to call a special session.
Rains helped in many counties, the governor said, "but sections where the worst drought hit haven't been helped much. There's nothing out there to help. The grass roots are gone."
—tpa—

Another problem for the special session was that of increasing teachers' salaries, but little progress has been made along that line, Shivers said.
He thought the matter ought to be settled, but "not a lot can be accomplished at a special session unless a compromise can be worked out ahead."
Meanwhile, the State Comptroller notified the Board of Education that there was a net cash balance of \$2,966,134 in the available school fund on August 25.
Promptly, the Board voted Texas schools an additional dollar per head for the past school year, 1952-1953. That raised the per capita apportionment to \$69.
—tpa—

Created by the last session of the legislature, the Texas Commission on Alcoholism has begun to implement its plans to tackle the question of problem drinkers. "Alcoholics are people who can be brought back to sobriety," Roy German, speaking for the commission, said in a talk here.
Education of the public, he added, will help more and more people to understand that an alcoholic is a person who can be helped.
Through the cooperation of local groups, German declared, the commission is determined to carry on its program of informing the public about what alcoholism is, what the methods of treatment are, and what can be done in the line of prevention.

Two top road experts will team up to carry on a highway transportation research program for Texas.
They are Thomas H. McDonald, recently retired as head of the U. S. Bureau of Public Roads, and Gibb Gilchrist, former chancellor of the Texas A&M system and for many years state highway engineer.
Work of these two will be sponsored jointly by the college and the state highway department.
—tpa—

Expenditures of \$17,585,000 will alleviate to some degree crowded conditions in the state's hospitals and special schools.
"The tragedy of it is," said Rufus Higgs of Stephenville, "we just don't have the money to do what we ought to do." Higgs is a member of the board which governs the institutions and is publisher of the Stephenville Empire-Tribune.
Some of the buildings to be replaced under a two-year construction program are nearly a hundred years old.
About \$10 million of the money for building will come from a cigarette tax passed by the legislature. The other revenue is for special appropriations to take care of emergency needs.
—tpa—

As hearings drew to their end in the ouster case against District Judge C. Woodrow Laughlin of Alice, the defense called as a witness the judge's brother, W. M. Laughlin, Jim Wells county commissioner.
Among charges against the judge is one that he dismissed a Jim Wells county grand jury last January to forestall an indictment against his brother.
On the stand, however, the commissioner testified that he was never worried about being indicted because he did not think he had done anything wrong.

Want to lease some of the Texas tideands? The School Land Board is getting ready to auction off leases to some of this property about December 1.
On September 1 the board leased four tracts at an average of \$128 per acre.

Upheld by an attorney general's opinion was the state boxing law which prohibits bouts between whites and Negroes. The opinion commented that the law's purpose is to prevent situations which might lead to race riots.

HOT ASPHALT KILLS MOTHER
Hollywood, Calif. — Mrs. Lenora Kunz, 31, was fatally scalded and her year-old baby suffered third-degree burns over most of his body, when an out-of-control dump truck overturned, spilling its steaming load into their convertible. They were almost buried in the tarry substance and were freed by police and bystanders with their bare hands. The truck driver suffered only cuts and bruises.

In The News . . . 30 YEARS AGO

News items below were taken from the issue of the Foard County News of Friday, Sept. 14, 1923:

The graduating class of Crowell High School promises to be one of the largest in the history of the school. Thirty-three young men and women are enrolled in the class.

W. B. Griffin has already marketed four bales of cotton from his 110 acres and has hardly made a beginning. He expects to make a quarter of a bale to the acre at least.

A baby boy, Thomas Alton, arrived at the home of Mr. and Mrs. L. A. Andrews, Friday of last week.

Miss Una Self and J. Reid Williams of Loveland, Colo., were married at the home of the bride's parents, Mr. and Mrs. J. H. Self, Wednesday evening, Sept. 12.

Mrs. F. W. Burna of Houston arrived in Crowell yesterday to visit her sister, Mrs. C. R. Ferguson.

Tom Beverly Jr. left Wednesday for Sherman to enter Austin College. He graduated here the past term.

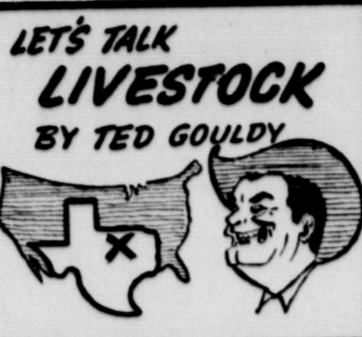

Miss Cassie Dockins has been here from the Knox City Sanitarium for the past two weeks nursing her brother, Glen, who has been in a serious condition since being operated for appendicitis.

H. D. Lawson and T. F. Lambert were here from Rayland Wednesday. Worms are not hurting cotton badly, they say.

H. L. Kimsey and family made a trip to Knox City Sunday. Eight years ago they were making their home in that city and last Sunday was their first visit since they left in 1915.

The Columbian Club held its initial meeting of the year with Mrs. Hines Clark as hostess Wednesday afternoon, Sept. 5.

Mrs. G. D. Self entertained with a 42 party on Monday afternoon, Sept. 10, honoring Miss Una Self.

Cattle and calf prices broke sharply at all major market centers Monday as the season's largest offering, nearly 150,000 cattle, arrived. Grassers, fat cows and stockers suffered the biggest declines.

The downward swing of prices followed the sharp rise of the previous week when virtual starvation runs of livestock brought about by the Labor Day holiday had lifted prices sharply in all categories.

Suspension of the drought disaster feed program in many counties last week helped crystallize the thinking of many cattle owners that it was time to put some cattle in the bank.

Many well informed people in the livestock and packing business are anxiously watching percentages of slaughter of cows and heifers and expressing concern. They feel that no real inroads have been made into the big numbers of cattle and that on the basis of present slaughter figures, the cattle population is still rising.

State PMA Boss Claude McCan gave a fair indication of the change of climate in PMA and the Department of Agriculture generally with his statement last week on the drought disaster program. He said: "This is a disaster program, not one aimed at giving people some cheap feed."

At Fort Worth Monday, good and choice fed cattle were scarce, selling from \$18 to \$21.50, with plain and medium grassers largely from \$10 to \$15.50, and some dairy breeds down to \$8. Fat cows \$9 to \$11.50, and canners and cutters \$6 to \$9.50, some high yielding brahmas and Western cutters at the higher figure. Bulls drew \$8 to \$12.

Good and choice fat calves \$13 to \$17, few heavies \$17.50. Plain and medium butchers \$10 to \$13, culls \$7 to \$10. Stocker steers calves mostly \$10 to \$14.50, few \$17.25. Stocker steers and yearlings \$10 to \$15.50. Replacement cows \$8 to \$12.

Time changes everything. Long cussed and discussed as the scourge of the pork industry—lard is now a hero! Seems the hungry Germans under the Communist heel really love the lard the United States is giving them.

USDA has asked bids on around 15 million more pounds. Late purchase at near 16 cents per pound highest in some time for lard. They do say the East Germans dare death or torture to get a couple of pounds of pure lard.

Hogs climbed 75 cents at Fort Worth Monday. Topped at \$26. Sows again selling at season's high of \$23 to \$24. (Lots of lard in those packing sows). Some sows up to 600 pounds sell to \$22.50 or better.

Sheep and lambs active and fully steady at Fort Worth Monday. Advances of last week were held in the strong trade. Fat lambs \$15 to \$18, lower grades \$8 to \$15. Stocker and feeder lambs cashed at \$10 to \$15. Slaughter yearlings sold from \$10 to \$13. Old wethers drew \$6 to \$7. Slaughter ewes sold from \$5 to \$8.

Many sheep and cattle men are anxiously awaiting developments on wheat field pastures. Looks like lots of wheat will get up but grazing will depend on whether more rains come or not this month. There could be lots of stock feed in the wheat belt if moisture conditions improve.

The Louisiana Purchase almost doubled the size of the United States.

Crude Cottonseed Oil Mixture Controls Spinose Ear Ticks

A cheap, effective and fairly easy to apply for controlling the troublesome spinose ear tick has been developed by the USDA's Bureau of Animal Industry. Crude cottonseed oil, kerosene and lindane are used in the mixture.

According to Joe Burkett, County Agent, one part of kerosene is added to 2 parts of crude cottonseed oil—the oil as it comes from the mill. This mixture should be allowed to stand for at least 24 hours for the kerosene thin the oil and causes finely ground cottonseed hulls to settle. The liquid should be carefully drained off and to each 4½ pints, 4 ounces of a 20 per cent lindane emulsifiable concentrate should be added. This makes a solution containing approximately one per cent lindane.

The ingredients mix readily and the solution can be applied with a small garden sprayer—the type with a built-in pump for maintaining air pressure. The spray nozzle should have a

smooth, rounded tip, about a half inch in diameter, which will cause no injury when inserted in the cattle's ears, says Burkett.

Ranch tests show that the solution destroyed all the ear ticks which came in contact with it and that reinfestation in the treated ears was prevented for a period of at least 30 days. No blistering or injury to the ears was noted, says Burkett. Approximately 20 gallons of the mixture were required to treat 2,500 head of cattle—about an ounce per animal.

In the tests, the nozzle tip was adjusted to discharge a cone spray with a diameter of about 2 inches at a distance of 3 inches from the nozzle. The nozzle tip was inserted into the ear and the spray immediately released. The cone-shaped spray covered the interior surfaces of the ear and the necessity of handling the ears during treatment was eliminated.

Hob-nobbing actually means touching glass together when drinking.

Texas' Prison Rodeo to Start on October 4th

Huntsville, Sept. 5 — The annual event that has been headlined by newspapers and magazines throughout the Southwest as "The Battle of The Outlaws" — Texas' 22nd Prison Rodeo will again get underway here at the Prison System's main unit on Sunday afternoon, October 4th.

The prison's rodeo manager Albert Moore has stated that, as always, he is picking only the very best of the performers, from the many prisoners who will try out to compete for the rodeo, and only the wildest stock that the prison's herds afford for them to mount when the show opens.

With the pick of the penitentiary's 7,600 inmates doing the riding and only the wildest of its more than 12,000 head of cattle and hundreds of horses chosen for the performers, there will be enough action to satisfy even the most critical rodeo fan.

The galaxy of added feature acts booked for the '53 show are among the best to be found performing at rodeos throughout the nation. Buff Brady, World Champion Trick Rider and Roper heads the list. Don Wilcox, another trick and fancy roper will assist Brady. The Lamb Sisters, Ted and Betty, of Dallas, well-known trick riders; The Head Sisters, more Texas girls from Campbell Hunt county, with two trained bulls; Jay Siler, Emmet, Idaho, with two trained dogs and the widely known Harris County Sheriff's posse—all will appear between inmate riding events.

Something new and definitely different will be a parachute jump by inmate Barney Thurman, ex-paratrooper of World War II now serving a three year sentence. Thurman will attempt a spot jump—landing inside the arena—at each of the four big shows, October 4th, 11th, 18th and 25th, this year.

With the rodeo shaping up to be as big, wild and extravagant of thrills as ever, it's safe to say that the 22nd annual presentation of the prison show will be the best yet.

Young Men Offered Many Opportunities in Printing Industry

High School graduates of last June and other Texas young men have been reminded by Pat Taggart that they still have time to enroll for the fall General Printing Course at the Southwest School of Printing in Dallas.

Taggart is business manager of the Waco News-Tribune and the president of the School, a non-profit institution supported by the printing and publishing industries of the Southwest to provide printing training for young men entering the industry.

Robert Gleason, general manager of the Southwest School of Printing, has announced that registration of the new class and training will start October 5, and has urged young men planning to enroll to submit their application to the School by September 20.

Taggart and Gleason pointed out that many recent high school graduates still have time to participate in the 16-month printing course before being called into military service.

"A young man who receives his training for a printing career prior to entering military service will have a definite advantage over his untrained fellow servicemen, both while in the armed forces and afterwards when they both seek employment," Gleason emphasized.

Needs of the printing industry for more trained printers are increasing rapidly, declared Taggart, who predicted the need "will continue to be great as the industrial expansion of the Southwest continues."

"The fact that a strong need for trained printers exists is shown by the number of requests the School receives from printing employers seeking trained men," Gleason said. "Regularly, these requests far exceed the number of School graduates."

Requests for reserved seats are already coming in to the Prison ticket office and mail orders are being given immediate attention. Tickets may be secured by writing: Prison Rodeo Ticket Office, Huntsville, Texas, stating the number of tickets required, the date for which they are desired, and enclosing a check or money order for \$2.40 for each ticket.

Keep the Crop Residue - Humus Cycle Going

Humus is most valuable to growing crops when it is breaking down. This fact, says Joe Burkett, County Agent, was established by

research conducted at the USDA's Beltsville Station in connection with work on the maintenance of soil organic matter.

The use of nitrogen in the decaying process in order to increase the amount of humus was one phase of the problem studied. In the past a common belief was that the nitrogen should be added when the woody crop residues were turned into the soil. The recent studies, points out Burkett, show that adding nitrogen does speed up the formation of humus but that no more humus is formed from straw, stalks or green manure regardless of whether the nitrogen is added at the time the residue is turned under or months later when the next crop is planted.

The researchers consider it is usually better to add the nitrogen to the crop rather than to the residue. The chance of loss by leaching is lessened and, too, the crop residue may act as a holder of the nitrogen formed as a result of normal biological activities in the soil. This conservation may thus actually reduce the amount of commercial nitrogen needed.

How much nitrogen is needed to do the humus building job? Burkett recommends from 20 to 30 pounds of nitrogen for each ton of the dry material turned under. The objective is to raise

the nitrogen percentage of the residue turned under to about two and one-half per cent based on the dry weight. Nitrogen is not wasted, points out Burkett, for it becomes a part of the mellowing soil and is slowly released to the growing crops as the decaying process takes place, some of the effect being delayed for two or more years.

These tests also showed humus supplied from green crops was about as long lasting as that from straw or stalks. Because green crops decompose rapidly, many have thought that humus from this source was pretty well used in three to six weeks. This research, says Burkett, shows that 30 to 40 per cent of the green manure carbon was still in the soil after a year which is nearly equal to that left by straw or cornstalks.

Clay soils are known to maintain humus more easily than do the sandy soils and the research workers found that this is due to the presence of colloids in the clay soils. The colloids — very fine parts of the soil—combine with the nitrogenous material of the decomposing plants and hold it in the soil in relatively stable form. Thus the humus becomes a part of the soil.

This piece of research work is just further evidence of why it is so important to keep a supply of humus coming along. It helps hold nitrogen and other plant food and moisture in the soil and makes the soil easier to handle. These factors mean larger crops and more residues, and more cycle we don't want to break down for it is of utmost importance to our agricultural production efforts, says Burkett.

How much does government business cost you as a taxpayer? The following statement by Professor O. Glenn Saxton of the federal government last week helps provide an answer:

"With federal projects now producing one-eighth of our total (electric) generating capacity, the probable tax revenues lost exceeded \$30,000,000, and the loss to state and local governments approximated \$600,000."

Mongolia's great desert is encircling the world.

Missing Chapters in the Schoolbooks

A high-school teacher writes us: "Please send me 50 copies of your booklet, *Adventures Inside the Atom*, for use with my students." Another wants material on new inventions. Or booklets on jet planes.

New things happen in science faster than textbooks can be revised.

New words puzzle our ears and eyes before these words are in dictionaries . . . atomic-pile reactors, silicones, jet engines with "afterburners," UHF television. Some problem for teachers, that.

Last year over 100,000 letters from schools hit our desks at General Electric asking for things in print on "what's new."

Just to give you an idea of how this adds up, one booklet, *Adventures Inside the Atom*, has been requested to the tune of five million copies since 1948.

Adventures in Jet Power, also handled in comic-book treatment, has since 1946 gone into eight printings.

This may surprise you: a new booklet, *Why Study Math?*, will run over a million copies this year. (It answers that question Junior is always raising.)

Nobody is happier than we are to know teen-agers have a lively appetite for what's buzzing in the world around them.

After all, whether they know it or not, our young people in school today will be the scientists and engineers of tomorrow. They can't know too much.

TIME LOST BY ACCIDENTS
Chicago — A million workers would have to toil more than a year to make up for the time lost in 1952 due to occupational accidents, according to the National Safety Council.

"Accident Facts," the Council's statistical yearbook just off the press, shows that the time lost last year as a result of work injuries amounted to 250,000,000 man-days. This includes not only time lost by the employees who were injured, but also that lost by those who stopped work to help the injured or out of curiosity.

Fifteen thousand workers were killed and 2,000,000 injured in 1952, according to the Council, but last year still was one of the safest years in history for the nation's industries.

On a pipe organ, the short pipes produce the high notes.

Bible Knowledge Helps Win a Crown

In Bellevue, Ohio, the 15-year-old vocabulary queen of the local high school owes her crown to her Bible knowledge.

Karen Hassinger was one of four girls left in the contest when the moderator asked for the definition of "abase."

The other three girls were quickly eliminated. But Karen replied, "I'm not sure, but I know what Christ said: 'And whosoever shall exalt himself shall be abased; and he that humbly himself shall be exalted.' So I think the word means—to bring down."

Karen was right! The text she quoted is found in Matthew 23: 12. "Abase" as used here does mean to "bring down." It is a good thing to know the meaning of the word, but much better to practice that meaning.

The Word of God also says: "Humble yourselves in the sight of the Lord, and He shall lift you up" (James 4:10). Again: "Humble yourselves therefore under the mighty hand of God, that He may exalt you in due time" (1 Pet. 5:6).

The first king of the first Gentile world empire said of the Lord: "Those that walk in pride He is able to abase" (Dan. 4:37).

"Pride goeth before destruction, and a haughty spirit before a fall" (Prov. 16:18). Longfellow may have had that proverb in mind when he wrote: "Pride goeth forth on horseback

Grand and gay,
But cometh back on foot,
And begs its way."

The Lord Jesus "humbled Himself and became obedient unto death, even the death of the cross"—and that for our sakes. It is pride of the worst type to think salvation may be obtained in any other way than by grace through faith, without works.

Parking's a pushover with Ford Power-Steering

It's a brand new Ford "Worth More" feature—costs up to \$40 less than any other power steering in its field and it's the newest and finest power steering.

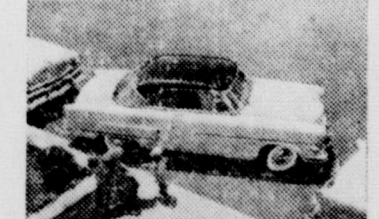

With one finger, while the car is standing still, a woman can turn the steering wheel. No longer will rough road ruts "throw you". Should ever a tire blow out, power steering assistance helps you to keep safe straight-line control. Ford Power Steering does up to 75% of the work; and it has a more natural "feel" than many others. You don't have to change your driving habits radically. The steering gear ratio is the same as without power steering and the hydraulic system gives you just the right assistance when you need it.

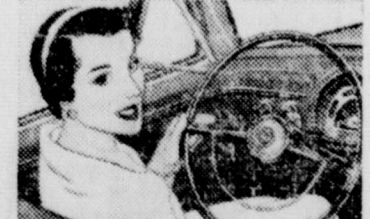

No change in driving habits! You could drive off in a Ford with Power Steering with absolutely no radical change in the way you ordinarily drive a car. . . just a lot less effort!

"Wheel Shock" reduced! With a hydraulic "cushion" between your steering wheel and the front wheels, Ford Power Steering noticeably reduces "wheel shock" on rough roads.

Parking is a pushover with Ford Power Steering. In fact, all driving is a lot easier and so much more relaxing. You can easily turn the wheel with one finger while the car is standing still.

You're safer! Even if a front tire should blow out, Ford Power Steering comes to your assistance . . . gives you the "muscle" to keep the car under control. That's really extra security!

Tea Given to Honor Pioneer Women of First Christian Church

The Woman's Missionary Society of the First Christian Church honored the pioneer women of the church with a special program and a tea given on Monday afternoon, Sept. 13, at the church.

Guests were greeted at the door by Mrs. Gerald Knox and she and Mrs. Jack Spikes presented each with a red carnation and Mrs. James Sandlin and Mrs. Darwin Bell escorted them to special pew marked by red satin ribbons. The auditorium was decorated with arrangements of yard flowers.

Words of greeting and welcome were extended by the society president, Mrs. J. M. Crowell. The singing of old hymns requested by the guests of honor was directed by Mrs. Joe Ward. Piano accompanist was Mrs. Bedford Smith. A prayer was offered by Mrs. Roy Steele. A lovely devotional was given by Mrs.

Crowell. Her thoughts on "The Nameless Ones" stressed the importance of making a life instead of a name. A solo, "It Pays to Serve Jesus," was rendered by Mrs. Zelma Hulse. A period of reminiscence was conducted by Mrs. N. J. Roberts and Mrs. F. H. Crews. Following a benediction, the guests assembled in the church annex for tea.

Hostesses for the tea were Mrs. J. M. Crowell, Mrs. Bedford W. Smith and Mrs. John E. Long. The tea table depicted conditions of the early days when most of the pioneer families arrived in this area. First, a covered wagon bearing the names of states from which many of them came, Kentucky, Tennessee, Mississippi, Missouri, Alabama, followed a roadway of narrow green ribbon which led to a large map of Texas of green cardboard, centering a table laid with an heirloom white cloth of "battleground" lace over a full gathered skirt of green. The map was surrounded by typical scenes, for example, to the

north were seen small figurines of Indians and tepees, soldiers and Indian fighters on foot. Cowboys mounted on horses preceded the covered wagon. Before them an open Bible was beside the road which led to a miniature white church signifying that it was always uppermost in the minds of the early settlers that they would build a church when homes were established. The small white church indicated visions which were duly accomplished in the new country. Other table decorations were cacti, bordering the southwest toward Mexico with figurines of Mexican baskets and other typical articles. Small pieces of ore picked up in New Mexico were also found in the decorative scheme.

Delicious refreshments were served. Mrs. Alyene Graham poured punch and Mrs. Gerald Knox, Mrs. Darwin Bell, Mrs. James Sandlin, Mrs. Bedford Smith and Mrs. Jack Spikes assisted in serving.

Mrs. Van Browning of Truscott was a guest. Those present were Mesdames R. L. Kincaid, N. J. Roberts, F. H. Crews, J. H. Shults, F. A. Davis, J. W. Harris, Grover Owens, Bert Mathews, J. R. Merriman and T. W. Bursey. Unable to attend were Mesdames G. C. Morgan, Pete Moody, H. E. Davis, J. T. Ferguson, Joe Whitfield, Allen Fish, J. Ferguson, L. D. Fox, Frank Cates and S. T. Knox.

Mrs. Fred Glover Complimented with Shower at Thalia

Mrs. Fred Glover, the former Miss Lana Short, was complimented with a lovely bridal shower Friday, Sept. 11, in the Thalia Baptist Church, by the W. M. S.

The guests were greeted by Mrs. Mack Edens, who introduced them to the honoree, her mother, Mrs. Kebe Short, and the groom's mother, Mrs. L. P. Glover.

Mrs. Dalton Thompson, cousin of the bride, secured names for the guest book.

The serving table was laid with a blue tablecloth decorated with a lovely arrangement of white satin, greenery, blue bows and crystal holders with blue candles which carried out the bride's chosen colors.

Mrs. W. B. Fitzgerald, Mrs. Billy Hammonds, Mrs. Bill Cates and Mrs. Mack Gamble presided at the crystal service.

Mrs. Cap Adkins and Mrs. Sim V. Gamble presided at the gift table where many beautiful and useful gifts were displayed.

Mrs. Walter Ramsey played appropriate piano music throughout the afternoon with Mrs. W. B. Fitzgerald singing three numbers.

Several guests from Crowell, Foard City and Quanah were present.

Truscott Bride Honored at Shower and Reception

Mrs. Jack Brown, a recent bride, was named honoree at a reception given by her mother, Mrs. Edgar Jones. This post-wedding courtesy was given Saturday afternoon, Sept. 5, at the Jones home near Truscott.

Mrs. Q. D. Williams of Floydada greeted the guests and presented them to her mother, Mrs. Jones; the bride; Mrs. Jack R. Brown, mother of the groom; Mrs. C. R. Jones of Vernon, grandmother of the honoree; and Misses Mary Ann Brown and Norma Jones.

Mrs. Chester Pogue registered the guests at the white and gold bride's book. Music was played by Miss Carol Beth Pogue. In the dining room, Mrs. Odell Williams served at the crystal punch bowl. At the opposite end of the table, the groom's aunt, Mrs. Ike Harvell of Vernon, served coffee from the silver service. The white Madeira embroidered linen covered table was centered with a modernistic pink and silver flower tree with pink carnation blossoms.

Mrs. W. R. Owens and Mrs. H. P. Gillespie assisted in serving the pink and silver decorated tea cakes and other party dainties. Members of the house party wore carnation corsages.

Another party honoring Mrs. Brown was the kitchen pantry shower given by Mrs. Marion Hord and Mrs. Odell Williams. This party was given in Mrs. Williams' home near Truscott at 8 o'clock Friday evening, Sept. 4.

Fall flowers decorated the entertaining rooms. Mrs. Q. D. Williams of Floydada, sister of the honoree, registered the guests in the bride's book. During the informal evening friends of the bridal couple presented them with an assortment of canned goods.

RIVERSIDE H. D. CLUB

"I find that the packaged cake mixes you buy are dry when baked," said Mrs. Sam Kuehn as she gave a demonstration on "Quick Mix Cakes," when the Riverside Home Demonstration Club met in the home of Mrs. Herman Schwartz with Mrs. John Zuhn as hostess on Tuesday afternoon, Sept. 1.

The meeting was opened with the club prayer and the Lord's Prayer. Most of the club members expressed their pleasure that they will have meat cookery as they answered the roll call with "What I would like in club next year."

Mrs. Kuehn distributed leaflets of "Quick Mix Cakes" recipes and made the "mix easy cake" as her demonstration.

For its officers, the club voted that the same ones serve another year. They are Mrs. John S. Ray, president; Mrs. Roy Ayers, vice president; Mrs. G. M. Moore, secretary-treasurer. Mrs. George Wesley was automatically elected as council delegate. Mrs. James Bowers was voted as second council delegate.

Each member is asked to bring the recipe of her favorite cake to next meeting in the home of Mrs. George Wesley, Sept. 22, at 2 o'clock.

Delicious refreshments were served to one visitor, Mrs. Herman Schwartz, and members, Mesdames: Cap Adkins, James Bowers, Ben Hopkins, Monroe Karcher, G. M. Moore, W. A. Mussetter, John S. Ray, Ewald Schroeder, R. G. Whitten, George Wesley by Mrs. Kuehn and the hostess, Mrs. John Zuhn.

GARDEN CLUB

The Crowell Garden Club held its initial meeting of the 1953-54 year at the home of Mrs. R. J. Thomas, Friday afternoon, Sept. 11, with Mrs. Thomas and Mrs. L. Kamstra as hostesses.

New members present were Mrs. Chas. Lowe and Mrs. Lee Roy Statser. New officers present were Mrs. J. T. Brooks, treasurer; Mrs. Glen C. Fox, vice president; and Mrs. L. A. Andrews, president.

The program with projects for the year's work were presented by Mrs. Fox.

The color wheel and its importance in table decorations was stressed by Mrs. Andrews.

Timely Tips for Fall planting were gleaned in the club's round table discussion.

Plans for the year's small flower show to be held in October were decided upon.

Delicious refreshments were served to eighteen members.

WEST SIDE H. D. CLUB

"To produce a perfect cake every time, three things must be practiced: level measurements, sifting flour before measuring, and correct oven temperature," stated Mrs. Mary Brown at the West Side Club meeting, Sept. 8 in the home of Mrs. John Teague.

Mrs. M. O'Connell, Mrs. Henry Ross and Mrs. G. H. Kincheloe were selected to serve as a nominating committee.

The next meeting will be Sept. 22 with Mrs. C. R. Bryson.

Mrs. Teague served a pleasing plate to the following guests, Mrs. R. H. Tanner and Mrs. Brown and the members, Mesdames J. L. Kincheloe, Oscar Gentry, T. W. Cooper, Walter Thomson, E. A. Dunagan, Tom King, L. Kamstra, Jack Lyons, C. R. Bryson, M. O'Connell, R. J. Roberts and G. H. Kincheloe.

HENRY CIRCLE

The Henry Circle of the W. S. C. S. of the Methodist Church met for a social meeting in the home of Mrs. Foster Davis on Monday afternoon, Sept. 7. Mrs. Irving Fisch was co-hostess with Mrs. Davis.

Mrs. A. B. Calvin was leader of an inspiring devotional using "Love" for her subject. Mrs. J. C. Prosser was lesson leader on the theme, "Jesus Ministry to Village People." She explained and told of the working of two W. S. C. S. projects, one in Old Mexico, the other in Louisiana. Mrs. Dwight Campbell gave an article entitled "The House that Saved Lives."

The hostesses served a tempting refreshment plate to fifteen members and one guest.

At a social function, the U. S. President enters the room ahead of his wife.

President McKinley was the first to toss out the ball at the beginning of baseball season. recipes and cook books, kitchen gadgets and utensils. Dessert and coffee were served.

JUNIOR COLUMBIAN CLUB

The Sub-Junior Columbian Club met September 9 in the home of the hostess, Patricia Todd. Doris Cates led a very interesting program which dealt with clothing and the choice of colors.

At the close of the program a delicious refreshment plate was served to the members and sponsor, Mrs. Kenneth Halbert.

The next show and tea conducted in the Adolphian Club house with the Junior Adolphians, their mothers and sponsors as guests.

A marriage ceremony uniting Cruz Quintero and Miss Julia Valez of Gilliland was performed Saturday morning at 10 o'clock in the County Judge's office.

Judge Leslie Thomas pronounced the marriage vows for this young couple who were accompanied by a host of friends who comprised the wedding party. Shortly following the ceremony the couple departed for a honeymoon.

Judge Leslie Thomas pronounced the marriage vows for this young couple who were accompanied by a host of friends who comprised the wedding party. Shortly following the ceremony the couple departed for a honeymoon.

JUNIOR ADELPHIAN CLUB

The Sub-Junior Adolphian Club met on Wednesday, Sept. 9, at the Adolphian club house. The program was led by Mrs. Bert Ekern. Mrs. Mike Rasberry gave a talk on the subject, "How to Make a Speech." Joann Fox presented the club with the song, "I Believe," as a vocal solo.

Ice cream and cake were served to the club by the hostess, George Ann Davis.

VIVIAN H. D. CLUB

One of the causes of cake failures is "too hot an oven or too much flour, which cause a cake to have a cracked top or hump or blisters on top," stated Mrs. Mary Brown to the Vivian H. D. Club which met in the home of Mrs. Maude Rasberry of Crowell on Thursday, September 10.

Mrs. Brown also enumerated seven other cake failures and causes of each as she made and served the standard 1-2-3-4 cake. If a recipe calls for cake flour and you wish to use regular flour use two tablespoons less but if a recipe calls for regular flour and you wish to use cake flour use two tablespoons more, continued Mrs. Brown.

Club opened with the Lord's Prayer led by Mrs. T. W. Cooper and roll call was answered by
