McLAIN FARM EQUIPMENT

The man with 248,404 different names

Idly toying with pencil and paper, we just figured out what it would cost to buy yourself a certain electric manufacturing company. Complete with factories, machines, raw materials in the bins, and so forth.

Write your check for 2 billion dollars, please. (That's at recent price per share quoted on the Stock Exchange.) But don't send the check to the company. It doesn't own the stock.

You'd have to buy back the stock in bits and pieces from 116,000 women share owners. And 83,000 men. You'd have to get in touch with about 25,000 trustees and guardians. And a few thousand insurance companies, universities, hospitals and pension trusts to buy back the stock they own.

We wouldn't blame these people if they didn't sell to you. They don't have to, you know. Maybe they want the stock for the same reason you do.

Not even a thousand millionaires, each putting in a million dollars, could "own" General Electric. The "man" who owns General Electric has 248,404 names. There are that many owners on the books.

Simple mathematics can shoot a large round hole in the childish misconception that America's basic companies are owned by a few lucky people.

Suppose there were the fantastic total of 100,000 millionaires. Even they couldn't buy the "people-owned" businesses on which America depends for goods. But already six and a half million individuals have a direct investment in America's production.

The only thing bigger than America today will be America tomorrow. And the only collection of people rich enough to finance this growth and share in its success is the public.

You can put your confidence in—

New Hunting and Fishing Licenses To Be Issued Sept. 1

Fishing and hunting licenses for the new fiscal year beginning September 1 will be distributed soon, according to the License Clerk for the Texas Game and Fish Commission.
 He said the supplies, totaling over one million separate licenses, will be shipped to approximately 1,800 county clerks and licensed deputies in 254 Texas counties by August 20.
 Both hunting and fishing licenses must be renewed for the new fiscal year which begins at midnight, August 31.
 First sizeable demand for the hunting licenses will center around the north zone mourning dove season beginning September 1.
 The twenty-eight different kinds of licenses cover all phases of hunting and fishing, ranging in cost from fifty cents for a duplicate license to \$200 for a wholesale fish dealer's license.
 The License Clerk said a new addition to the hunting licenses, which is expected to prove popular in the coastal areas, calls for a \$5 five-day, non-resident license to hunt migratory waterfowl.
 Heretofore, non-residents desiring to hunt ducks and geese had to buy a regular \$25 non-resident hunting license.
 This new non-resident hunting permit is in conformity with the previously arranged five-day non-resident fishing licenses for \$1.65 or a season's non-resident fishing license for \$5.25. Resident fishing licenses are \$1.65.
 The main hunting permit costing \$2.15 is the popular one for resident Texans because it covers both big game and small game.

Far more miles per gallon on the trips YOU take!

On long trips, short trips, all trips, you get far greater gas mileage out of a '53 Chevrolet. It offers important savings in everyday driving over everyday roads!

Out to the golf course. Off for a week-end of fishing. Half across the country on a full-scale vacation. Wherever you go—however you drive—you're going to get there on a lot less gasoline in a fine new Chevrolet.

The truth is, this year's Chevrolet owners are enjoying the most important gain in economy in Chevrolet history. Plus more power. Faster acceleration. More "steam" for the steep hills.

That's the beauty of Chevrolet's two great high-compression engines—the new 115-h.p. "Blue-Flame" engine in Powerglide* models, and the advanced 108-h.p. "Thrifty-King" engine in gearshift models. They squeeze much more out of regular gasoline—more miles, more pleasure.

Along with this greater gas mileage, you get lower over-all upkeep costs. And Chevrolet is the lowest-priced line in its field. Drop in and let us show you how you'll be better off in every way with a 1953 Chevrolet!

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and Bel Air models at extra cost.

News items below were taken from the issue of the Foard County News of Friday, August 24, 1923:

After a long dry spell of several weeks, Foard County received rains last Saturday morning and Monday that amounted to 3.60 inches which was general over the county and will double the cotton yield, it is said. The cotton crop had suffered severely from the lack of moisture.

About 40 Rebekahs from Crowell went to Quanah Wednesday night, 18 of whom entered the contest with degree teams from Childress and Vernon. This was Crowell's first time to enter the contest, Childress' third and Vernon's second.

J. L. Orr made more than a ton of maize per acre on his farm northeast of Margaret which consisted of 30 or 35 acres.

If plans are not changed a rodeo will be held at Crowell on September 12 and 13.

The first bale of cotton for 1923 was brought to Crowell Tuesday by W. M. Telford and was raised on the Roy Todd farm near Foard City. It brought 22 and 7-8 cents per pound, being bought by M. F. Crowell.

Miss Willie Woods is here from Abilene visiting relatives.

Miss Bevie Jewell Ringgold returned Sunday from a visit with her brother, C. B. Williams, and family in Clarendon.

Mrs. Jesse Atkinson and son, Chandler, and Mrs. Walter Howell of McKinney will arrive in Crowell today for a visit in the home of Mr. and Mrs. T. M. Beverly.

Will Young came in last Thursday from Houston where he is employed in the postoffice and is spending his vacation with his parents in the Vivian community.

Tanner Billington accidentally swallowed kerosene last week while siphoning the oil from one barrel to another. He has been confined to his bed with temperature 102, but is improved.

Miss Mildred Cogdell returned Sunday from Waco where she had been visiting relatives.

by VERN SANFORD
Texas Press Association

Austin, Texas—On one point, both sides were ready to agree: it was all politics.

District Judge C. Woodrow Laughlin of Alice was hauled into a special hearing to determine whether he should be ousted from his job.

Laughlin, the first witness in his own defense, admitted that he had received the support of George Parr, Duval County political boss, in his election.

Opposed to Laughlin was Jacob S. Floyd, Alice attorney and long-time anti-Parr leader.

Floyd's son was killed last year from ambush—some say the killer made a mistake and was aiming for the father.

Eleven South Texas lawyers are asking Judge Laughlin's removal from office.

Testimony is being taken by District Judge D. B. Wood of Georgetown. The evidence will be turned over to the State Supreme Court, whose responsibility it will be to determine whether or not Laughlin should be ousted.

Texas' drought situation was fairly well mixed up.

Secretary of Agriculture Ezra T. Benson added 12 counties to the Texas disaster area.

At the same time, showers were falling over most of the state and in some areas flood conditions prevailed.

To sum up the situation, it seemed safe to say that the drought was being beaten by two factors: emergency relief measures and rain.

Into the courts went the question of where the state is going to buy its tires.

Low bidder was Pennsylvania Tire Company, Jack Ritter, representing that company, got a temporary restraining order preventing the State Board of Control from buying tires from any other company.

Ritter said he had information that two members of the board intended awarding the contract to General Tire & Rubber Company.

Two State Senators entered the

controversy. They were Johnnie E. Rogers of Austin, sales manager for Ritter's oil company; and Jarrard Secret of Temple.

General has a tire factory in Waco, which is in Secret's district.

A number of bills passed by the last Legislature were to go into effect August 28.

Among these were two affecting the motor transportation industry.

One bill provided that any truck found to be carrying a load in excess of that for which it was registered must be re-registered so as to pay fees in accordance with the load actually hauled.

The other bill required that copies of leases be filed with the Department of Public Safety on equipment operated by persons other than the registered owner and that the name of the operator (the person having the truck under lease) must be shown on the side of the vehicle.

Both of these measures were sponsored by the trucking industry. James E. Taylor, executive director of the Texas Motor Transportation Association, said they were part of the industry's self-policing program.

Also effective was legislation amending the workmen's compensation law authorizing insurance companies to pay for the services of a chiropractor when insured persons suffer back or spinal injuries.

Going into effect September 1 is a law providing for the testing of seed as to their germination qualities and purity.

The law also gives the commissioner of agriculture additional authority in regulating seed inspections.

Named as president of the Texas Public Employees Association was George L. Carver, assistant manager of the planning survey division of the Texas Highway Department.

Carver replaces David B. Irons, who resigned his position as assistant attorney general to head up the justice department's internal security section under U. S. Attorney Herbert Brownell Jr. in Washington.

Joseph N. Murphy Jr. of the health department will take Carver's place as vice president of the state employees association, and H. Morris Stevens of the treasury department was elected a member of the board of directors.

"Be your brother's keeper," Liquor Administrator Coke R. Stevenson Jr. advised Texas package store operators at their convention in Houston.

Most people who sell alcoholic beverages want to be respected members of the community, Stevenson said, but one lax operator brings discredit to all.

Sell the cheater, Stevenson admonished, on the fact that a clean, well-operated shop means more profit to him. "And that if he continues to violate the law his days as a package store operator will be numbered."

The administrator told his listeners that "I want to work with you toward the goal of a well-regulated, well-ordered industry."

Revision will take place September 1 in the Highway Department, State Highway Engineer D. C. Greer announced, "in the interest of economy and efficiency."

Some positions will be abolished, Greer said, and some divisions will be merged, while some new divisions will be created.

The changes were made necessary, Greer declared, because proposals for more financial support of the highway department failed in the last Legislature.

Meanwhile, the Texas Highway Commission began a series of meetings with corresponding bodies representing other states.

The first of these sessions was scheduled at Texarkana August 27 with the Arkansas highway commission. Others were to follow with the commissioners of Oklahoma, New Mexico, and Louisiana.

Integration of interstate highway plans will be the topic before the meetings.

The State of Texas will end the year with money in the bank. Comptroller Robert S. Calvert estimates that there will be \$25 million in the general fund at the end of the fiscal year September 1. This is the state's "petty cash" account. There are millions in other accounts, such as the highway fund, unemployment compensation fund, permanent school fund, and many others.

Short Snorts: Officials of the U. S. and Mexico met at Laredo to talk about the meeting of the two nations' presidents for the Falcon Dam dedication in October. . . . King Paul of Greece has sent a Greek flag to Governor Allan Shivers, who shipped a Texas flag to the king two years ago. . . . The state will be covered by a radar net, set up and operated as a defense measure by the U. S. Weather Bureau, the Department of Public Safety, and the state civil defense organization. . . . The Texas State Guard Association will have its 11th annual convention in Fort Worth December 11-13.

Lyndon Johnson
Receives Praise
from Colleagues

Glowing tribute to the work of Senator Lyndon B. Johnson, Senate Democratic Leader, was paid by his fellow-Senators, both Democrats and Republicans, in the closing hours of the recent session of Congress.

The Texas senior Senator's leadership was hailed by a number of his colleagues as the factor which brought about enactment of several proposals sponsored by President Eisenhower.

Senator Richard B. Russell of Georgia declared Senator Johnson "has demonstrated in this session that he was a great American before he was a great, loyal, and devoted member of the Democratic Party."

Among those acclaiming the Texas' work during the session was Senator William F. Knowland of California, Republican Leader, who said: "The Senator from Texas has been cooperative, and has put his country ahead of any narrow partisanship."

Senator Johnson has "a remarkable capacity for finding the middle ground," said Senator Albert Gore of Tennessee, who added: "As quickly as any man I know, he can reach the heart of an issue; and as efficiently as any man I have ever known, he can hold the friendship, esteem, and loyalty of those with whom he finds himself in disagreement."

"In every instance," declared Senator George A. Smathers of Florida, "he has put the welfare of our Nation above the welfare of our own party, and in so doing has given the party the best possible leadership."

SANTA FE CARLOADINGS

Santa Fe carloadings for week ending August 14, 1953, were 23,151 compared with 23,432 for the same week in 1952. School Cottons

have new fashion faces

These pretty pretenders look like wondrous wools, beautiful brocades, gentle suitings and silks. But they're really washable cottons, some soft as cloud-drifts, some polished as moonlight. Boleros, weskits, fan pleats, and French-flavored fashions some with back interest. All will look as fresh after laundering as a flower washed in dew. All with the Kate Greenaway pocket, when it doesn't show it plays hide 'n' seek in the skirt seam.

Today's best buy...

...in drive power...styling...safety and
control...in true money's worth!

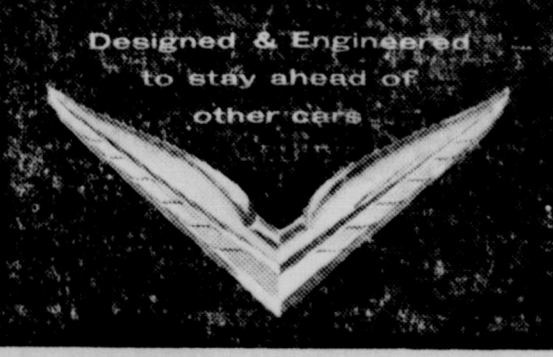

RIGHT NOW, if you are driving one of these new
Chryslers, you already know that *never in your entire
life* have you invested your dollars more wisely!
You possess, and live with, a car of such prestige
and quality that no other... regardless of price...
can compare with it in basic goodness. *You drive a
car, right now, which thousands of motorists... hate
are planning to step up to the Chrysler level... hate
their eye on and want.* For its "years-ahead" engineer-
ing. For its delightful, easy obedience to its driver's
directions. For its graceful and gracious beauty in
motion and at rest.
You drive the one car that has given American
motorists most of the really new driving advantages
—first, Full-time Power Steering, Power Brakes,
Hemispherical combustion power that extracts more
power from each drop of gasoline. Shock absorbers
so new in concept that they do *twice the job* that
ordinary types do.
You drive the car that gives you additional fea-

tures, still unavailable or available only at extra cost
on most other cars... like Safety-Turn wheels...
Independent parking brake... turn signals...
Fluid-Matic transmission... undercoating... elec-
tric windshield wipers... air cleaner and oil filter.
You drive a car that... or do you? Perhaps you
are just in the "thinking stage" about a new car.
If so, we invite you to stop in and discover, by
driving this great car yourself, that nowhere else
will each dollar you spend be so well spent!

Games were played and ice cream and cake were served to the following guests before attending the show:

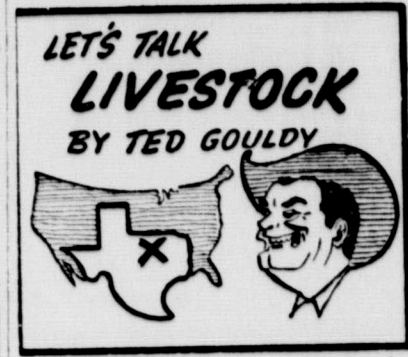

Danny McAnally, Bill Graves, Thomas Crowell, E. H. McCoy, John Wishon, Jimmie Rader, George Moss, Roy Ford, Monte Churchill, Bill Young of Fort Worth and Gary and Don Green of Houston.

Home Demonstration Notes

MRS. MARY D. BROWN

On September 1 and 2 I will be in Wichita Falls for a plan of work meeting. At that time I will get new ideas to use during the demonstrations next year. Sometime in September the yearbook committee will meet to make final plans for next year's yearbook. If you have some particular program that you want to have included, be sure to tell the yearbook committee chairman in your club about it now so that we can make our plans ac-

ordingly. Many of you have been asking about the fall dress revue. It will be held in connection with our annual achievement day and it will be sometime late in October or early in November. The final decision will be made at the September Council meeting so you will know about it in plenty of time to make your dress and enter.

Fort Worth — Corn Belt observers, according to an article compiled by Homer Hush in Wallace's Farmer this month, seem to be coming around to the view that June was the "low" time for cattle. This thrusts into the discard the idea that late Fall would be the better buying time for feeders.

Corn Belt observers, Hush reports, also feel that rains in the drouth areas will "strengthen the hands" of the cattle growers. Yep! There's no argument there.

In fact, on the basis of Monday's cattle trade, it looks like the stocker and feeder buyers were unlimbering and more orders were on hand than was the case for the past couple of weeks. At Fort Worth Monday there was the biggest cattle and calf run since July—about 8,500 head. Twelve markets had 139,000 cattle and calves.

Despite this big offering, stockers and feeders sold strong to unevenly higher at Fort Worth. Some of the just fairly good kinds, that had to sell for slaughter a week ago, sold well to stocker buyers, a decided improvement.

Slaughter steers and yearlings were steady to weak. Slaughter calves ruled firm. Cows were steady to 50 cents lower, and the larger portion sold steady. Some buyers tried to buy cows sharply lower by 50 cents to \$1 per hundred and complained that cows here were higher, grade for grade, than at other major markets.

Salesmen successfully resisted these bearish offers. Bulls closed

50c lower. Good and choice fed steers and yearlings drew \$18.00-21.50 and choice to prime drylot cattle are quotable dollars above that range. Common and medium butcher stuff sold from \$11.00-17.00; with ratty yearlings from \$8.00-10.00.

Fat cows drew \$9.50-12.50; canners and cutters sold from \$6.50-9.50. Some straight barreled western or Brahman type cutters are quotable over \$9.50.

Bulls sold from \$8.00-12.50. Good and choice fat calves cleared at \$14.00-18.00; and common and medium butcher sorts sold from \$10.00-13.00, with culls from \$7.00-9.00.

Good and choice stocker steer calves drew \$14.00-18.50 with stocker steer yearlings from 16.50 downward. Stocker steers drew \$17.00 down. Stocker cows changed hands at \$8.00-14.00.

Hogs were 25c lower and topped at \$25.75-26.00 at Fort Worth. Sows drew \$19.00-22.00.

Sheep and lambs drew generally steady prices. Medium, good and choice fat lambs sold for \$17.00-21.00, and fancy fat lambs of the right weights in load lots were quotable higher. Cull lambs sold down around \$12.00.

Stocker and feeder lambs drew \$13.00-15.00. Fat yearlings drew \$14.00-17.00 and old wethers sold from \$7.00-10.00. Slaughter ewes cashed at \$5.00-6.50. Solid-mouthed breeding ewes cashed at \$7.00-10.00. There has been active demand for ewes suitable to go back to the country and each shipment to Fort Worth has been sorted very closely to sift out ewes of suitable ages. Most of the ewes are in canner flesh, which is making them weigh correspondingly lighter for the buyers.

Some substantial rains in some of the principal sheep country recently as well as the rapid development of some volunteer grain pasture grazing, is helping the outlook on sheep.

Health Letter

Texas State Department of Health, Austin, Texas, Geo. W. Cox, M. D., State Health Officer.

"Texas health officials are making every effort to improve the sanitary conditions of public eating places, and in addition schools are conducted to instruct food-handlers. Moreover there are laws, rules and regulations requiring the uses of approved equipment and methods in such establishments. Nevertheless, one of the

most forceful influences for sanitation is not being used and this is the public's unfavorable reaction toward dirty and insanitary places," states Dr. Geo. W. Cox, State Health Officer.

"The public cannot do the job entirely, nor can health departments bring about desirable and essential practices without the help of the public. As for hygienic practices, persons serving food and drink should be clean; should not cough and sneeze over the utensils and material served; should keep their hands away from their mouth and nose, hair and face; should handle all utensils by the outside instead of putting their fingers on the inside of service utensils. These are conditions a person can see, and unless these safeguards are practiced, disease may result."

Also, milk served can be appraised by the patron. Texas law requires that a milk bottle cap state grade of milk and whether it is raw or pasteurized. However, if milk is brought to a patron in a glass, he cannot know whether it is from a graded supply or whether it is raw or pasteurized, but if served properly in its original container, with covered cap and legal label, the patron can secure from the label the information he should have before ever being willing to drink strange milk.

The patron should note sanitation conditions in food establishments. Are the floors, walls, ceiling clean? Are tables and counters clean? Are pies and other ready-to-serve foods protected from dust, dirt and flies? Are flies prevalent?

"Be assured that what can be seen as a patron at the table or counter usually will be many times better, cleaner, and safer than conditions in the kitchen and other places out of sight of the patron," Dr. Cox warns.

INITIATED INTO PSI CHI

Mrs. E. C. King of Crowell was initiated as a member of Psi Chi, national honor society in psychology, in a beautiful candlelight ceremony this summer, held in the home of Dr. Anna Martin, head of the psychology department of Highlands University, Las Vegas, N. M., according to a social item appearing in the Las Vegas Daily Opener.

Eligibility is based upon honor point average, interest in the field of psychology, and good personality adjustment. Psi Chi is national in scope and is sponsored by the American Psychological Association.

Mrs. W. F. Pittman, former resident of Foard County, who suffered a fractured hip several weeks ago, is reported to be in critical condition in the home of her daughter, Mrs. C. R. Patterson of Morning Port, La.

Mr. and Mrs. E. C. King returned home last Thursday from Las Vegas, N. M., where Mrs. King has been doing graduate work in summer school. Mr. King had spent a ten-day vacation there.

Colorado has a greater number of high mountain peaks than any other state in the U. S.

42 PARTY
Mrs. J. H. Minnick entertained two tables of guests at a party in her home Tuesday noon.

After the games, in which W. R. Ferguson was high winner, the hostess served delicious ice course to Mrs. Ferguson, Carrie Hart, R. G. Gerson, Carrie Hart, R. G. Gerson, C. W. Thompson, Crews, F. E. Flesher, A. B. Whitman, and T. B. Klepper.

Picadilly Weepers were moustache and long, whiskers worn by fast men of England in the 18th century.
