

THE FOARD COUNTY NEWS

AND CROWELL INDEX

THIRD YEAR

NUMBER 11

CROWELL, FOARD COUNTY, TEXAS, THURSDAY, SEPTEMBER 9, 1943

\$2.00 A YEAR EIGHT PAGES

Men in Service

Edward Taylor, son of W. E. Taylor, of Margaret, was among seven Texas young men, aviators, who graduated August 15 from the Blytheville Army Air Field with commissions as second lieutenants and rated as pilots in twin engine bomber aircraft. Lieut. Taylor has been at home visiting his father and other relatives. He is a 1935 graduate of Crowell High School and attended St. Mary's University in San Antonio.

The War Department announces the European Theatre of Operations of the United States Army that Lieut. Ernest F. Gloyna has been promoted from second lieutenant to first lieutenant. Lieut. Gloyna is the son of Mr. and Mrs. Herman Gloyna of the community and is a graduate of the engineering department of Texas Tech.

Edward Roark of Camp Perry, Texas, is here on leave visiting his parents, Mr. and Mrs. H. C. Roark, and other relatives. He will report for duty at Camp Fannin, Tyler, when his leave has ended.

Miss Curtis L. Nelson of the Engineering Department of Nashville, Tenn., arrived here last week on a 12-day leave to visit his parents, Mr. and Mrs. O. H. Nelson, and family. She has been in the Army since January. Mr. and Mrs. Nelson are another son, Oscar Bar Nelson, who is a second class metal mechanic in the Navy and is serving in the South Pacific.

Pvt. James E. McKown, son of Mr. and Mrs. Clarence McKown of Altus, Okla., former Crowell resident, who has been on active duty in Australia, has been returned to the United States and is now at the Hoff General Hospital in Santa Barbara, Calif. Another son, Leland T. McKown, who has been in the service for three months, is stationed at Camp White, Ariz.

Lieut. Albert M. Cox, who was among the hundreds of fighters and bomber pilots graduating from Army Air Fields in Texas and Southern Oklahoma under the supervision of the Army Air Corps Central Training Command at Randolph Field, Texas, is at home visiting his parents, Mr. and Mrs. W. M. Cox. He graduated at Big Pass on August 30.

A release from the Army Air Corps Technical School at Amollo, states that John Nagy has completed his course as an aviation mechanic in the school there and that he is ready for duty in airplane maintenance. Nagy was formerly Foard County Agent before his entering the Army.

A/C James A. Welch has been classified as a pilot, having completed his pre-flight training at Santa Ana, Calif. He is now stationed at Wickburg, Ariz.

Cpl. Robert E. Lee is now in Orlando, Fla., where he is with the Anti Aircraft. Mrs. Lee and small son, John Robert, left Monday for an indefinite visit in Houston with her sister, Mrs. D. H. Huffstutler, and family.

A/C Joe Wells has recently completed the Army's Primary Flight Training Course at Thunderbird Field, No. 1, at Glendale, Ariz., and has commenced his basic flight training. Joe is the son of Mr. and Mrs. J. S. Wells, of Weinert, former citizens of Crowell. He is married and his wife lives at Weiner.

Pvt. Joe Mark Magee spent Saturday night and Sunday at the home of his parents, Mr. and Mrs. R. R. Magee. He returned to Fort Sill, Okla., where he is stationed, Sunday afternoon.

W. P. Hord, who is attending college at the Southwestern University at Georgetown under the U. S. Marine V-12 program, spent the week-end here visiting his parents, Mr. and Mrs. S. B. Hord. He returned to college Monday.

Pvt. Milton Dunn, aviation mechanic of Altus, Okla., spent Saturday night here in the home of his grandmother, Mrs. H. J. Watkins.

Cpl. and Mrs. Weldon E. Hays of Fort Worth visited his mother, Mrs. H. E. Hays, and family Sunday.

Pvt. Addie Briscoe of the WACS, spent a three-day leave here in the home of her parents, Mr. and Mrs. Elmer Briscoe. She left Tuesday afternoon for Big Spring where she is stationed.

Sgt. Bailey Rennels has recently been moved from Kelly Field, San Antonio, to Pyote, Texas, according to a notice received by his wife in the Riverside community. His present address is Sgt. Bailey Rennels, classification specialist, APO No. 4857, Seat-

Red Cross Cyclist

A bicycle is Miss Kathleen Kennedy's mode of transportation as she goes about her duties working for the American Red Cross in London. She is a daughter of Joseph P. Kennedy, former American ambassador to Britain.

Total of 568 Pupils Enroll in Crowell Schools

The enrollment on the opening day of school on Monday, Sept. 6, showed a decrease from last year. In the three departments, there were 568 pupils enrolled this year, against 575 on the first day of last year.

There were 189 pupils in the primary department, 142 in the intermediate department and 237 in the High School, making a total of 568 in all departments.

High School assembly was held Monday morning in the High School auditorium with all High School pupils and several visitors present. Supt. I. T. Graves made a timely talk of encouragement and urged that special stress be placed upon application to school duty this year in view of the stress of the times.

The outlook for a successful term of school is bright and an even greater attendance is expected in the next few days.

DRY HOLE

The Texas Company W. H. Nichols No. 1, 8 miles southeast of Crowell, has been abandoned as a dry hole at a depth of 5,770 feet. The well was finished last week without a showing of oil.

Cpl. Robert E. Lee is now in Orlando, Fla., where he is with the Anti Aircraft. Mrs. Lee and small son, John Robert, left Monday for an indefinite visit in Houston with her sister, Mrs. D. H. Huffstutler, and family.

A/C Joe Wells has recently completed the Army's Primary Flight Training Course at Thunderbird Field, No. 1, at Glendale, Ariz., and has commenced his basic flight training. Joe is the son of Mr. and Mrs. J. S. Wells, of Weiner, former citizens of Crowell. He is married and his wife lives at Weiner.

Pvt. Joe Mark Magee spent Saturday night and Sunday at the home of his parents, Mr. and Mrs. R. R. Magee. He returned to Fort Sill, Okla., where he is stationed, Sunday afternoon.

W. P. Hord, who is attending college at the Southwestern University at Georgetown under the U. S. Marine V-12 program, spent the week-end here visiting his parents, Mr. and Mrs. S. B. Hord. He returned to college Monday.

Pvt. Milton Dunn, aviation mechanic of Altus, Okla., spent Saturday night here in the home of his grandmother, Mrs. H. J. Watkins.

Cpl. and Mrs. Weldon E. Hays of Fort Worth visited his mother, Mrs. H. E. Hays, and family Sunday.

Pvt. Addie Briscoe of the WACS, spent a three-day leave here in the home of her parents, Mr. and Mrs. Elmer Briscoe. She left Tuesday afternoon for Big Spring where she is stationed.

Sgt. Bailey Rennels has recently been moved from Kelly Field, San Antonio, to Pyote, Texas, according to a notice received by his wife in the Riverside community. His present address is Sgt. Bailey Rennels, classification specialist, APO No. 4857, Seat-

Rainfall Recorded at Crowell State Bank 15.67 Inches

A dry spell of two months in which this section suffered an extreme heat wave, was broken last Wednesday night with a good rain all over the county. The amount recorded at the Crowell State Bank was 1.22 inches. The precipitation was heavier in some parts of the county and lighter in other parts. It ended the extreme heat wave and will be of great benefit to crops which had suffered greatly for the lack of moisture during July and August, during which time there was no rain at all.

Since 1936 the rainfall as recorded at the Crowell State Bank follows: 1936, 18.97 inches; 1937, 25.04 inches; 1938, 26.76 inches; 1939, 17.77 inches; 1940, 18.08 inches; 1941, 29.83 inches; 1942, 24.55 inches, and up till this time in 1943, 15.67 inches.

In 1936, one of the most extreme dry years in the history of this country, most of the rain received during the year fell in September, 13.10 inches. During that year no rain was recorded in January, February and March, and June, July and November. April had 2.15 inches and May 1.39 inches, August .02 of an inch, October 1.10 inches and December .43 of an inch.

With a good season in the ground at this time, farmers can prepare their land for the fall sowing of wheat. It will also be of great benefit to young feed crops and will be of some benefit to the cotton crop, the extent of which cannot be estimated at this time.

Quanah to Have 3rd War Loan Rally at 10 o'Clock Saturday

The kick-off rally for the 3rd War Loan drive in Hardeman County will be held in front of the Palace Theatre Saturday morning at 10 o'clock. Two moving picture stars, Johnnie Mack Brown and Raymond Hatton, will appear on the program.

People of neighboring communities are invited to attend the rally and enjoy the program, although they will not be expected to buy bonds away from their home county. There will be no admission charge.

CEMETERY REPORT

Mrs. N. J. Roberts has the following to say concerning the condition of the cemetery and the funds:

"Wednesday completed the cleaning program at the cemetery. This has been quite an undertaking and has been a task requiring much time and expense. There has been no little praise over the general appearance of the entire grounds and all interested friends will be highly gratified at seeing this work well done."

"Since the last report, the following donations have been received:

A. D. Campbell	\$10.00
I. O. F. Lodge	11.00
Mrs. I. B. Middlebrook Jr.	2.50
E. P. Bomar, Sour Lake	2.00
Mrs. I. M. Cates	10.00
A. Y. Beverly	5.00
Mrs. Jim Shook	1.00
Mrs. T. W. Cooper	1.00
Mrs. Will Ferguson	2.00
Jess Langford	1.00

"Please remember this is our only means of support. If it is not convenient to see Lee Black at the Bank or Mrs. Roberts, drop your contribution in the post office."

British War Workers Taking Spa Cure

A new British policy for war workers gives them treatment at leading spas. Left: A mother of seven children uses an hourglass to time herself as the Droitwich Springs in England. Right: Wrapped like mummies, these workers are shown at the famed saline baths.

Crowell High School Football Team Will Have First Practice Scrimmage with Vernon Lions Friday Afternoon

The Crowell High School Football Team will journey to Vernon tomorrow afternoon for a practice scrimmage with the Vernon Lions, a class AA team, to end its second week of training. The Wildcats will open their season here next Friday night, Sept. 17, at 8:30, with the Floydada Whirlwinds.

Crowell has one of the heaviest teams that it has ever had with the first eleven averaging 164 pounds, but on the other hand the Wildcats schedule with teams outside the district is about as tough as can be for a class A team. They are playing two class AA teams, Quanah and Childress, and their other games are with some of the strongest class A teams in this section of the State. Neocoma won its region last year; Wellington won bi-district championship; Floydada tied for district honors; Seymour was runner-up to Stamford for district cham-

New Pastor for First Christian Church Arrives

Rev. G. O. McMillan, who has accepted the pastorate of the First Christian Church here, arrived last week from Little Rock, Ark., where he has been pastor of the Base Line Christian Church. Before serving in Arkansas, Rev. McMillan was pastor of the First Christian Church in Honey Grove.

Rev. and Mrs. McMillan, with their son, O. L., are making their home in an apartment at the home of Mr. and Mrs. C. C. McLaughlin. They have another son, Tom, serving in the Navy.

Rev. McMillan assumed his responsibilities last Sunday and is asking the co-operation of all members in the operation of the church and invites the public to all services.

ROTARY CLUB

Henry Ferguson was in charge of the program for the Rotary Club Wednesday at noon. Coach Grady Graves gave a talk on the

Third War Loan Drive Opens Today; Foard County's Quota is \$157,600 and Workers Are Now Active in Campaign

At a meeting of the county committeemen in the district court room Saturday afternoon, plans were completed for the campaign to raise Foard County's quota of \$157,600 in the Third War Loan. County Chairman George Self presided at the meeting and the drive is expected to start in a most satisfactory manner. Although the campaign opens officially today, Chairman Self announced Wednesday that the Black community had already bought its quota in the amount as announced in The News last week.

Chairman Self had the following to say Wednesday in regard to the campaign:

"If we all do our part September will become a memorable date in our timetable for victory. Give this question a thought at your dinner table tonight. Is there anyone missing? Give this question a thought while at work. Is there anyone missing in your office or at your workshop?"

"Of course, there is. From your home, your neighbor's home and from your places of work there are many faces and voices missing. They have taken their places on the fighting fronts or in training camps. They are giving life or limb; they are undergoing ordeal after ordeal to protect all that you are or hope to be. If you want a simple, direct

Legislator Issues Release Relative to Affairs of State

Claude Callaway, representative from this district in the Forty-Eighth legislature and one of the twenty-one members of the Appropriations Committee of the House of Representatives, issued the following statements in a news release from Austin last week. Mr. Callaway returned home the latter part of the week. The article follows:

"There are today one thousand fewer political jobs in public offices in the State of Texas than there were yesterday. This may sound strange but it is due to the fact that the appropriations made during the Forty-Seventh session of the Legislature for the biennium ended on August 31, 1943, and the appropriation bills which were made by the Forty-Eighth Legislature become effective on September 1, 1943, and are for the following two years.

"As there was much comment in the daily press during the last session of the Legislature about the tremendous saving in State spending and the appropriations made by the Forty-Eighth Legislature and having been in a position to know just where the economy took place, and knowing that there was a tremendous saving, for I was on the Appropriation Committee of the House of Representatives. The committee was composed of twenty-one members which was divided into four sub-committees; namely, Committees on Judiciary, Eminent, Educational and Departmental appropriations, and for 90 days my committee spent most every hour that the Legislature was not in session, before we met every morning and after we adjourned in the evenings, and until eleven o'clock most every night, hearing some department of our State Government on

(Continued on Page Five)

'Mary the Man' Malta's Air Raid Heroine

White haired, tall and deeply tanned, is Miss Mary Eilat, Malta's only woman air raid warden whose rescue work during bombardments brought her the nickname of "Mary the Man." She is shown tending a huge block of masonry while searching for victims. Her efforts saved many lives in the dark days when Malta was "the most bombed place in the world."

answer to the question: "What is my part in the Third War Loan?" here it is: "Do everything in your power to back the attack with War Bonds. Take every penny you do not need for necessities—such as rent, food, health—and put it into War Bonds."

"The Treasury Department has set a personal goal for every working American. Buy at least an extra \$100 bond above your regular war bond buying during the Third War Loan."

"That \$100 war bond is the extra something you will be getting back of the invasion of Hitler's Europe and the Japanese-occupied Pacific Islands."

"While Europe and the South Pacific may seem far away places to you, always keep in mind that boys from Foard County are there."

"Think of invasion in terms of the son or brother or father or uncle or dear friend, who is actually facing the Nazis, Fascists and the Japs."

"The Third War Loan is a campaign primarily for us as individuals. Each one of us must decide the matter of how far we are willing to go to back up Americans in uniform."

All Schools of County Opened Monday, Sept. 6

Judge Leslie Thomas, County Superintendent of Schools for Foard County, announces teachers for the various schools of the county, all of which opened on Monday morning.

Mrs. A. G. Bell will teach at Four Corners; the Thalia teachers are, Mrs. Howard Bursey, principal, Mrs. D. R. Magee, Mrs. Ed Huskey and Miss Gussie Todd. The Margaret teachers are Miss Emma Bell Hunter and Mrs. Jimmie Hembree; Riverside, Mrs. Bailey Rennels, principal, Mrs. Ira Tole, Mrs. John Ray and Mrs. Sam Kaehn.

Gambleville, Black, Vivian, Foard City, Claytonville and Good Creek are contracted to Crowell Independent School District, and the High Schools of Margaret, Thalia, Riverside and Four Corners have been transferred to Crowell.

Much Knitting to be Done for Red Cross to Reach Quota

Upon the return of Mrs. J. A. Stovall, the Red Cross knitting has again been turned over to her. Mrs. H. Schindler and Mrs. D. R. Magee have served in her absence. In checking up on the work done and the work required yet to complete the quota for Foard County, it is found that much knitting will have to be done in the near future, though a great deal has been carried on through the summer months.

Besides the garments which have been finished and turned in to those in charge and in addition to the garments for which thread has already been issued, there are 75-V-neck sweaters to be made, 91 mufflers, 32 olive drab helmets, 33 navy blue sweaters and 31 pairs of gloves.

The number of pieces yet to be made to complete the quota will require the co-operation of all the knitters who can possibly do more knitting. If there is thread in charge will appreciate it very much if it is made into garments and turned in and, if there are any other ladies who desire to knit, the thread may be had from Mrs. Stovall or Mrs. Schindler.

It is desired that the quota may be attained at an early date so that a further assignment may be undertaken, for, after all, this is a service which can be rendered on the home front and in the home, and it is as necessary and important as any other service.

ONE MAN INDUCTED

The local selective service board had a call for only one man on August 30, which was filled by Walton Wallace, who was inducted in Lubbock on that day. He will report to Fort Sill, Okla., for his basic training and assignment.

A call was made on Thursday, Sept. 2, for two colored men which was filled by Willie Mills and Alton Landon, however, they were transferred to other boards for induction.

Items from Neighboring Communities

RIVERSIDE (By Mrs. Cap Adkins)

Cpl. and Mrs. Weldon Hays and Lt. Frank Carelli, all of Fort Worth, spent the week-end visiting in the home of Mrs. Hays' father, R. Huskey, and family. Mrs. Vera Owens of Ft. Worth spent the week-end here visiting her father, R. Huskey. Mrs. Otis Tole and baby son were moved from a Vernon hospital to the home of Mr. and Mrs. Sam Tole Saturday. Mrs. J. C. Taylor of Thalia spent from Friday until Sunday with her daughter, Mrs. Joe Johnson, and family. Mr. and Mrs. Elvy Turgle of Five-in-One were dinner guests of Robert Garrett and wife Sunday. Mrs. Jady Tole and daughter, Carolyn, and Mrs. Ben Hopkins and children, Jimmie and Bennie Lou, spent Wednesday night and Thursday with Mrs. Tole's parents, Mr. and Mrs. Grisham, of Quanah. Mrs. J. L. Rennels and Mrs. Bailey Rennels spent Friday afternoon with Mrs. E. L. Derr of Chillicothe. Mr. and Mrs. Luther Tamplin and family of Crowell spent Sunday in the John Bradford home. Mary Evelyn Adkins returned home Thursday after an extended visit with her aunt, Mrs. E. A. Speer, and family of Archer City. Judie Simmons and son, Kenneth, left Wednesday for their home in San Diego, Calif., after a visit with his sister, Mrs. T. J. Cox, and Mr. and Mrs. H. H. Hopkins. Mr. and Mrs. Houston Adkins and daughter, Roxiana, of Thalia were dinner guests of Mr. and Mrs. Ben Hopkins Sunday. Mr. and Mrs. Cap Adkins and mother visited with Bill Anderson and family of South Lockett Thursday. Mrs. Will Tamplin spent Saturday and Sunday with her daughter, Mrs. Tuck Ingle, and family of Margaret. Mr. and Mrs. R. G. Whitten spent Sunday with friends of Odell. Mrs. Hibit Grisham left Sunday for her home at Byers after a visit in the home of her parents, Sam Tole and wife. Ben Bradford spent Thursday and Friday with relatives at Abilene. Mr. and Mrs. Dave Shultz and family were dinner guests of her parents, Mr. and Mrs. E. V. Cato, of Thalia Sunday. Mr. and Mrs. Melvin Barnes and son of Gainesville spent Sunday and Sunday night with her parents, Mr. and Mrs. T. C. Pope, and family. R. C. Johnson and family of Crowell visited in the D. M. and Dave Shultz homes Sunday afternoon. Bennie Lee Bradford of Abilene spent the week-end with her parents, Mr. and Mrs. Ben Bradford, and family. Ensign Otis Tole left Sunday afternoon for Kansas where he is stationed, after spending a few days with his family and parents. Mr. and Mrs. C. Sitton and Mrs. Roy Sitton and baby of Five-in-One visited in the Kebe Short home Sunday afternoon. Jady Tole and family spent

TOWN and FARM in WARTIME Prepared by OFFICE OF WAR INFORMATION

(A weekly news digest prepared by the OWI rural press section.)

Ration Reminder Gasoline—In 17 states of eastern shortage area A-6 coupons are now good. In states outside the eastern shortage area A-7 coupons are good through September 21. All gasoline coupons in the possession of car owners must be endorsed with the owner's license and state of registration. Fuel Oil—Period 5 coupons in old rations remain good through September 30. Period 1 coupons in new rations are good through December. Occupants of oil-heated homes are urged to return their applications for next year's fuel oil to their ration boards promptly and when issued new rations to place orders with their dealers for summer fill-ups. Sugar—Stamp No. 14 good for 5 pounds through October. Stamps 15 and 16 good for 5 pounds each for home canning purposes through October 31. Shoes—Stamp No. 18 is good for 1 pair through October 31. Stoves—Consumer purchases of rationed stoves must be made with a certificate obtained at local War Price and Rationing Board. Meats, Fats—Red stamps X, Y and Z good through October 2. Brown stamp—becomes good September 12, and remains good through October 2. Processed Foods—Blue stamps R, S and T, expire September 20. Y, V and W now good, expire October 20. Farmers' War Bond Quota Farmers have a war bond quota of 1 1/2 billion dollars in the 15 billion dollar third war loan drive which begins September 9 and continues through the month. During the campaign, canvassers expect to call upon at least 3,600,000 of the nation's 6 million farm homes. Farmers' income figures point to big bond subscriptions. It is estimated that their cash income from marketings will be 19 billion dollars this year. To Start Using Ration Book III The first brown "point stamp" in War Ration Book III will become valid September 12. This stamp, A, is good for 16 points through October 2. Brown stamps will become valid on successive Sundays and will always expire on the Saturday nearest the end of a month. They will be used for rationing meats, fats, oils, canned fish, cheese, canned milk, and all other commodities now rationed with red stamps in War Ration Book II. The small stamps bearing pictures of field guns, tanks, ships and airplanes are not yet in use. Anyone who has not received Book III may obtain one by applying to his local ration board. Farm Items Under Price Control Used hay loaders, side delivery rakes, and manure spreaders were recently placed under specific price control by OPA. This ruling applies when these items are sold by any persons, such as farmers or auctioneers. Maximum prices will be determined on the following basis: 85 per cent of the price of the machine when new, if the equipment is less than one year old, and 70 per cent of the price of the item when new, if the equipment is one year old or more. Overseas Christmas Mail More than 10 million individual Christmas parcels for overseas soldiers are expected in the mailing period, September 15 to October 15. The Army Postal Service will need the full co-operation of the mailing public if packages are to reach soldiers in time. The public is asked to be sure to put the correct overseas mailing addresses on the packages and to wrap them securely, but in such a manner as to permit inspection prior to their dispatch. Every overseas package must be opened, inspected, and re-wrapped at the port of embarkation. The Army Postal Service and the U. S. Post Office Department strongly urge that packages be mailed September 15 or immediately thereafter. Father Enlists After Sons Die A 54-year-old Wisconsin farmer whose two marine sons gave their lives in the war against Japan, is now a marine private doing guard duty somewhere with his companion sentry, a powerful Doberman-Pinscher dog. Private Frank W. Winterling said it was only natural for him to enlist in the branch of the service in which his sons died in order that his daughters, Jane and Kate, might continue to enjoy "the advantages that were guaranteed to me under our system of government." One of Private Winterling's sons, Marine Corporal Joe N. Winterling, died at Bataan, and the other, Marine Sergeant Frank E. Winterling, died at Guadalcanal. Ration Point Changes Reflecting an improvement in civilian meat supplies, the ration cost of most lamb and bacon cuts, sirloin steak, and rib roasts has been reduced from one to two points for September. In addition, several variety meats also have lower points. Creamery butter increased two points to 12 points per pound. Country butter, however, has been assigned a value of six points per pound. The purchasing power of meats-fats stamps in September will be a little larger than in August because the decrease in meat point values more than cancels the higher ration cost of creamery butter. Big Demand for Straw Farmers in the straw-producing areas will be urged to make straw available to strawboard manufacturers to enable them to keep up with very heavy requirements for shipping containers for military forces and essential civilian uses. The War Production Board is co-operating with the War Food Administration in a program designed to increase straw collection in

TRUSCOTT (By Irene Myers)

Mr. and Mrs. Bill Nichols and family moved to Olton Thursday, where Mr. Nichols will be employed at the gin. Mrs. Jack Whitaker is visiting in the home of Mr. and Mrs. Everett Storm in Clovis, N. M. Mr. and Mrs. J. D. Carroll and daughter of Crowell visited George Myers Sunday. Mr. and Mrs. Jim Crowning and Mr. and Mrs. Marion Chowning spent the week-end with Mr. and Mrs. Oscar Whitaker and daughter at Dalhart. Mr. and Mrs. Orval Myers and daughter visited Mr. and Mrs. William Ryder and children at Gilliland Sunday. Marjorie Browning of Wichita Falls spent the weekend with her parents, Mr. and Mrs. Van Browning. Mrs. Jess Bryant visited her son and wife, Sgt. and Mrs. Bill Bryant, of Frederick, Okla., last week. Mr. and Mrs. S. E. McRoberts and T-Sgt. and Mrs. Bill Theodore of Clovis, N. M., visited Mr. and Mrs. T. T. Berg and other relatives here last week. Wayne Young of Wichita Falls spent the week-end with his family here. Mrs. Fred Bufkin of Benjamin visited her sister, Mrs. Orval Myers, last week. Mrs. Dallas Binion and son of Kings High visited her parents, Mr. and Mrs. Adcock, last week. W. L. Dandridge, district meter man of the West Texas Utilities Co. of Quanah, was here on business Tuesday. Mr. and Mrs. A. S. Tarpley spent the week-end with their daughter and family, Mr. and Mrs. Lawrence Abbott, in San Angelo.

FDR says:

Payroll savings is our greatest single factor in protecting ourselves against inflation.

QUESTIONS AND ANSWERS

- 1. What new name has been given to the French liner, the Normandie, that is being raised after having turned over on its side in North River, New York, something over a year ago. 2. Where was the recent meeting between Churchill and President Roosevelt held? 3. When is the next federal income tax return due? 4. What family not related to the President of Mrs. Roosevelt have been making their home for some time at the White House? 5. What is the name of the President of the Philippine Islands? 6. The town of Randazzo has been mentioned frequently in the recent war news. Where is it? 7. Richard Julius Hermann Krebs was recently ordered to report for military service at Camp Upton, New York. For what is Krebs known in the news? 8. Of what European government in exile is Eduard Benes the president? 9. The rich Ploesti oil refineries were recently bombed by American airmen. Where are they located? 10. What movie actor plays Tarzan parts? (Answers on page 3.)

midwestern states. Due to heavy rains and flood conditions this spring, much of the available straw crop was destroyed. State and County War Boards are expected to assist strawboard manufacturers in locating available straw.

Blunder Will Not Be Repeated

"In spite of a 1944 program designed to achieve the greatest food production in U. S. history, good soil conservation practice can be followed," recently declared Judge Marvin Jones, War Food Administrator. "Thus," Judge Jones said, "the U. S. can avoid the tragic blunder of the other war when land was plowed up without regard to its fitness and the soil was allowed to wash and blow away without any adequate means to prevent it. That blunder," Judge Jones promised, "will not be repeated."

Nurse Corps Funds Approved

Funds have been approved to provide complete tuition, fees, stipends, maintenance and uniforms for an anticipated 10,175 student members of the U. S. Cadet Nurse Corps. Over 500 state accredited schools of nursing have applied to the U. S. Public Health Service for participation in the program. To date, 67 have been approved.

More Lumber From Farms

A program to increase sharply the production of forest products from farm-owned woodlands as part of the nationwide drive to meet wartime military and essential civilian needs for lumber was announced recently by the War Food Administration. It is estimated that 3 1/2 million farms have woodlands, most of which can yield marketable products. Minimum national requirements for lumber in 1943 total 36 billion board feet. Of this amount, 2 1/2 billion board feet are needed for boxing and crating agricultural products.

Add To Navy Chaplains' Corps

Although more than 1,500 Chaplains, U. S. N., "means a global service of religion to the fighting forces—from Alaska and Sicily to the South Pacific, and aboard the ships of the fleet on all the oceans. We must minister to more men under a greater variety of difficult situations than ever before."

Prunes and Raisins Rationed

Dried and dehydrated prunes and raisins were restored to rationing September 5. Values were placed at four points per pound. Allocations of dried prunes and raisins to Government agencies will be large. However, the balance of raisins and dried prunes available from the year's production for civilian distribution is expected to be over 90 per cent of the average annual civilian supply for a five-year period preceding rationing.

Southern Workers Help Save Wheat

More than 3,500 domestic agri-

cultural workers have been transported to the midwest and spring wheat areas since August 1. This is part of the Government's Farm Labor Program, the War Food Administration said, and was done to help meet emergency harvest war crops. The workers were recruited in four southern states with the assistance of county agricultural agents. During the past few weeks, the WPA said, 1,650 workers were moved from Arkansas to North Dakota; 1,200 from Oklahoma to Wyoming, Montana, North Dakota, and South Dakota; 650 from Mississippi to North Dakota; and 200 from Alabama to Ohio. The workers will be re-needs and save vitally-important

turned to their home states time to help with the cotton vest, which gets well under in September.

"Home Front Pledge" Drive

A nation-wide, co-operating campaign by home-makers merchants to hold down the cost of living and combat blackouts is being conducted by volunteer civic committees in more than 100 communities through a "Home Front" pledge. One million pledges have been signed already. Those who agree (1) "I will pay no more than top legal prices" and (2) "I will accept no rationed goods without giving up ration stamps

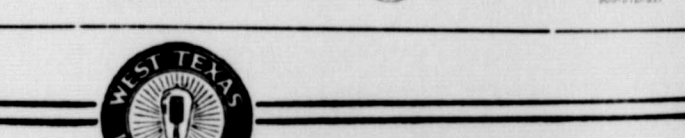

Ever think about Running a Factory?

If you've ever run a farm or dairy or store, there are a lot of things about running a factory that you'd find pretty familiar. Things like working any and all hours, training green help, planning for months ahead without letting the planning interfere with the job of the moment. These are the responsibilities of management. And the peculiar American ability to meet and lick these problems means a lot today, both on the food-producing and weapon-producing fronts.

Ability to manage isn't picked up overnight. For good management is a skill just as much as good workmanship—learned the hard way. It won't be forgotten overnight, either. For it is these men who, on farm and in factory, have actually produced the things from which our high living standard is derived, who can and will, by working together, give every American a more abundant life in the peacetime years to come. General Electric Company, Schenectady, N. Y.

BUY WAR BONDS GENERAL ELECTRIC

"THANK GOODNESS! Here's one thing that hasn't changed!" Reddy: You're exactly right, Lady! Every other civilian electric has been affected because of the war, but not electricity! It's still on hand every moment to make life easier and more pleasant for you! Lady: Did you say, "easier"? Reddy: Yes, that's what I said. You see, Lady, we realize what an important and patriotic person you are, with your Red Cross work, the Motor Corps, besides that very vital job out in the kitchen. Lady: But it's the least I can do for the war effort. Reddy: Of course, it is, and your electric company is now serving Army Training Camps and war-time industries, but it has also pledged itself to go right on serving you. Electric refrigeration keeps the food for your family safe and healthful; electric cookery retains vitamins and other valuable food elements essential to good health. Then there is your sweeper, iron, washer, and many other electric appliances, all at your finger tips to save your time and lessen the labor. Lady: Whee, that's a big job! Reddy: You bet it is, but it's our contribution to the War and to you. All of it adds up to friendly, dependable service at low cost. Lady: And that sounds mighty good to me and my budget—and it's more than you can say about most items, since the war began. West Texas Utilities Company

Third War Loan Campaign

To the people of this community: The Third War Loan drive depends on you. Would you take a free ride on a wounded soldier's back? That's exactly what you would be doing if you did not do your duty in the Third War Loan.

Every civilian counts in this kind of war. Every civilian must make his energies and his dollars work for victory.

Keep in mind that while our national goal is in the billions of dollars, this money is being borrowed from you and you and you. You are, as an individual, the deciding factor in how great a part Foard County has in this great drive. An extra \$100 War Bond becomes an extra rifle, extra bullets and extra fighting power of every type. Let us all do our very best.

Some believe that when the President demoted Vice President Wallace for his part in the Jones-Wallace controversy he brought to an end Wallace's political future. There is speculation that if the President is a candidate for a fourth term that his running mate will not be Wallace.

The Bible says Methuselah lived nine hundred and sixty years. If Methuselah had had a chance to get the vitamins he needed he might not have been cut off in his prime.

HISTORY

Constitution Day—September 17, 1787. The Constitution of the United States was signed September 17, 1787, by the delegates to the convention called to draft it. The delegates had met in Independence Hall, Philadelphia, in May and deliberated in secret sessions for four months preceding the signing of the document. George Washington was president of the convention and Benjamin Franklin, James Madison, James Wilson, Alex Hamilton, Gouverneur Morris and other distinguished men of the time were among the delegates. After its ratification by the required number of states, the Constitution was taken to New York which was then the seat of the government. Later it was taken to Philadelphia when that city became the capital and finally to Washington when Congress declared that city the permanent capital. In 1921 President Harding ordered the original copy which had been kept in the State Department deposited in the Congressional Library where it now is. The anniversary has been observed more regularly in Philadelphia than in any other city due perhaps to the fact that it was here that it was drafted. In 1914 the National Security League was founded to promote instruction in the matter of the Constitution. Plans were made to teach the meaning of the Constitution in the schools. In 1919 the League was active in forty states. Under its guidance the day was observed in twenty-two states and one hundred cities that year. In 1934 the League charged that the Democratic President and Congress were engaged in setting up disregard for the Constitution. As a result the American Library League was formed directed at this specific thing. The observation in 1934 was devoted to criticizing the administration though a few speakers defended its recovery legislation insisting that it was constitutional. A national celebration of the one hundredth anniversary of the completion of the Constitution was held in Philadelphia on September 15, 16, and 17, 1887. The day has never become as generally observed as have other important dates in the country's history.

Seed Treatment for Smut Control

College Station, Sept. 6.—The heavy losses which Texas wheat growers suffered a decade ago from infestation of "stinking" smut have been reduced to a minimum by the A. & M. College. According to E. A. Miller, lead Extension Service, control was achieved through seed treatment. Oats and barley also are subject to smut.

The chief symptoms of this fungus disease are the darker green color of the leaves and heads of the plants, and the offensive odor of the smutty heads. The diseased kernels are filled with a sooty powder consisting of millions of spores. During threshing most of the kernels pop open and the spores are scattered over healthy seed. If such seed is planted without being treated, the spores may germinate with the wheat, especially if weather and soil are rather cool at planting time. The parasitic threads of the fungus grow up with the plants and at heading time infest the young kernels.

Miller cautions that successful control has not eradicated the disease. Therefore seed should be thoroughly cleaned and treated before being planted unless the farmer is certain that it is not infected.

Chemical treatment consists of cleaning the wheat by fanning or otherwise to remove the smut balls and treating the seed either with two ounces per bushel of 50 per cent copper carbonate, or one-half ounce per bushel of ethyl mercury phosphate called impropyl cerasan. Barley and oats may

be treated with a similar amount of improved cerasan, or a mixture of one pint of commercial formaldehyde and 10 gallons of water. The solution is sprinkled uniformly over the seed while it is being shoveled from one pile to another on a clean floor or wagon box.

The job may be done in a commercial seed treating machine or home made container with a tight fitting lid.

What We Think (By Frank Lazon)

In my opinion there is considerable danger that certain interested groups will make an effort to induce the Allies to recede from their condition of unconditional surrender as laid down at the Casablanca conference. Already one hears whispers, suggestions and murmurs that the ultimatum be softened and that Italy be allowed to have some concessions.

If any departure or any concessions are made in the case of Italy the precedent will be established and these same groups will begin to work to secure a similar relaxation on Germany.

The arguments presented are really plausible and it is in their plausibility that the danger lies. Let's look at some of the arguments. First there is the one that loss of life among the armed forces would be ended. Then there is the argument that if the war continues these countries will be further devastated and the problem of rebuilding them made much greater. Then there is the argument against mounting expense and costs. Peace, they argue would put an end to much of this.

In themselves, as they stand these arguments are all plausible, all sound, all obviously sensible, but the catch lies in the fact that they are not sincere. They are merely being used as a "frost" window dressing for something else. That something else is, of course, to spare Germany as much as possible and bring her out of the war without having even really been brought to the point of surrender.

If this can be accomplished the German ideology of invincibility will not only be preserved and national morale along with it, but sufficient resources by which she can again place herself in a position to threaten the peace of the world under a leadership equally as mad as Hitler's.

Unconditional surrender simply means that the Allies will dictate the terms. Under it they will be permitted to go into the conquered country and root out the German war machine and impose such conditions that Germany will never be able to threaten the peace of the world again. This is what Germany fears and this is what the friends of the Nazi supremacy theory fear.

It is for this reason they are marshalling the plausible arguments in favor of a relaxation of the terms of unconditional surrender.

Some people may be honestly fooled by these efforts. Some may believe that they are sincere and open and in good faith. The members of the American Legion and those who fought in the last war know better. They know it was because of the failure of the leaders of the Allies to read between the lines that a false armistice was called when the job should have been completed—an armistice that lasted for twenty-five years, just long enough to permit the Nazi horde to rearm and try again to seize and enslave the world.

We were duped, miserably and shamefully duped them, let's not permit ourselves to be duped again. Let's not betray the men in the service by selling out the thing they have so dearly and heroically bought for a mess of pottage. Let's hold to the true course of unconditional surrender and fight it out this time if it takes all next year and the next. This time let's win the peace as well as the war.

Persons who enter the armed forces must turn their ration books in to their local rationing board. In the case of the death of the holder of a ration book the book should be turned in to the local ration board.

Seventy-nine daily newspapers ceased publication during 1942. Thirty-seven of the 79 suspended outright while 13 merged with other papers. The remaining 29 either went to semi-weekly or weekly publications.

30 YEARS AGO IN THE NEWS

Items below were taken in whole or in part from the issue of The News of September 12, 1913:

The News man and family returned Sunday afternoon from a 1,500 mile automobile hike through North Texas, Oklahoma, Kansas and Missouri, and found most of the country dry and the crops parched.

A team hitched to Hays & Razor's ice wagon made a wild dash down the streets yesterday morning, came near colliding with a buggy occupied by a woman and two small children, and turning, made a mad dash for the front of Allee-Henry's store. The team leaped upon the concrete pavement which is about two feet high. The wheels of the wagon striking the pavement squarely, the team broke themselves loose from the wagon, which alone prevented them from crashing into the plate glass. About the only damages sustained was two broken singletrees.

The public schools of Crowell opened under the most favorable conditions Monday morning. Every teacher was in his place, and a large number of pupils eager for knowledge marched in for classification.

Thalia Items—W. P. Banta must have used his dynamite, as his prophesy came true for once this year. This section was visited by local showers Sunday night, Monday and Tuesday.

H. J. Croone, who lives south of town, had the misfortune to lose his left little finger by getting it caught in the cogs of a binder while cutting feed at Sam Anderson's last Friday. The finger was cut completely off, but the wound is healing nicely.

Although heavy showers have been visiting this section of the state for the past few days, what appears to have been the daddy of them all, fell out at the west edge of town Wednesday at noon. Although it only sprinkled in town, some of the small draws at the edge of town, were bank full and several hundred yards wide. Just south of town the water rose quickly and covered the railroad tracks. About the middle of the afternoon Crowell was visited by what old residents say was the hardest rain that has fallen in this city in a number of years. It simply poured, streets were solid sheets of water, and residents on lower ground were completely surrounded. Hogs that had been confined in pens floated out to higher ground.

J. W. Cook has sold his fine farm near town, and with his most excellent family, will leave this week for Springdale, Ark., which is situated in a narrow valley, and is in the heart of the great fruit belt of the state.

Many of our farmers are, or going to sow their cotton land in wheat. A few acres will make excellent pasture, besides may yield a fine crop of wheat the coming season.

J. D. Johnson has sold his farm to J. R. Russell and in turn purchased the J. W. Cook place.

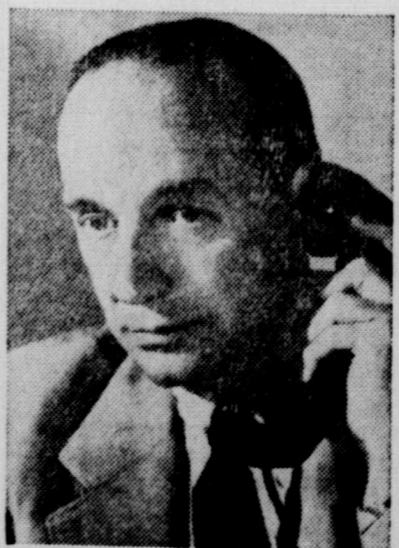

H. L. Kimsow, who holds a position on the Knox County Journal with Prof. J. H. Hollingsworth, has traded his residence property in Crowell for residence property in Knox City and will remain permanently in that city.

W. J. Moore, who left here some time ago for Waxahachie to accept a place in a school, has returned to Crowell and is again at his former place in the public school building.

Phillips Petroleum Constructing New Furnace Black Plant

Construction of a furnace black plant for the manufacture of a new type black was announced by Phillips Petroleum Company of Bartlesville, Okla., this week. The new plant, which will produce approximately 22 million pounds of the new type black per year, is

OPA Price Deputy

James F. Brownlee, who was appointed as OPA deputy administrator in charge of prices. He formerly was director of transportation of the War Foods administration and has been connected with several business firms before taking a government post.

NOAH DIDN'T WAIT FOR THE RAIN BEFORE HE BUILT THE ARK

Hughston Insurance Agency

Phone 238 Crowell, Texas

being built as a private enterprise by Phillips adjacent to the Phillips designed and operated Government butadiene manufacturing plant in the Texas Panhandle. Full scale production is anticipated before the close of the year.

Thirty to forty pounds of black are required in the compounding of each 100 pounds of synthetic tire rubber, and this new type furnace black called "Phillblack" is the result of years of intensive research by Phillips to develop a black particularly adapted to the manufacture of synthetic rubber automobile tires.

One of the chief problems with synthetic tires (prior to the discovery of Phillblack) is their tendency to run "hot." This new type carbon, in addition to materially helping to solve this problem, imparts to the rubber high tensile strength and good resistance to abrasion. Of special importance are the "easy processing" characteristics it imparts to synthetic rubber, ordinarily difficult to process.

Gruelling road tests have been run during the past year on synthetic tires manufactured with

Phillips new type black. Passenger car tires were run 100 miles at 60 miles per hour before they were re-treaded and the testing continued for another 100 miles.

The Phillips process gives very high efficiency of carbon reduction from the feed of hydrocarbons.

Phillips Petroleum Company begins its commercial scale production of Phillblack as a natural growth of its consistent and aggressive program of research in the field of producing new materials from petroleum and natural gas.

3RD WAR LOAN DRIVE FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

She has been accepted by the National Girl Scouts as Executive Secretary in that area. If you need an odd size tube, we will make you one, any size, any shape. We also have a good supply of used tubes on hand - most any size. Cooper Tire Shop, E. A. Fox Station. Mr. and Mrs. Denzil McBeath and small daughter, Joyce, of Abilene spent the week-end in the home of Mr. and Mrs. J. K. McBeath, on account of Mrs. McBeath's illness. Mrs. J. L. Gamble and daughter, Miss Bessie, returned Wednesday of last week from a visit with relatives at Morenci, Ariz. They were accompanied home by a daughter and sister, Mrs. Jack Kempton. Mrs. F. C. Bledsoe and her mother-in-law, Mrs. A. O. Bledsoe, of Brownwood came in last Wednesday for a few days' visit with the former Mrs. Bledsoe's mother, Mrs. W. M. Randolph, and family. A baby daughter was born on August 24 to Lieut. and Mrs. James A. Joy in a Shreveport, La., hospital. Lieut. Joy is an instructor in the Army Air Corps at Barksdale Field, La., and is the son of Mr. and Mrs. C. C. Joy. George Cates, grandson of Mrs. A. E. McLaughlin, has recently visited his mother and brothers and sisters, at Covina, Calif. George is with the Merchant Marines and this was the first time he had been at home for four months. He is now a storekeeper.

Buy your paint and wall paper needs here, we have it. W. R. Womack. Buy your Christmas cards early from the Rebekah before supply is exhausted. Killen Moore of Vernon, assistant manager of the Waggoner Estate, was here Tuesday on business. We can repair any size tire from 4.40 to 36x11.36. Cooper Tire Shop, E. A. Fox Station. Miss Mary Hughton of Wichita Falls spent the week-end here in the home of her parents, Mr. and Mrs. M. L. Hughton. Mrs. R. M. Abbott of Fort Worth was here last week on account of the illness of her mother, Mrs. J. K. McBeath. You can buy a fire extinguisher for your car for only \$1.25. You may save your car. W. R. Womack. Mrs. John Dye of Olton, sister of Mrs. J. T. King, visited here from Sunday until Thursday in the home of her sister. Don't throw that tire and tube away because it is blown out. We can repair it like new. Cooper's Tire Shop, E. A. Fox Station. Dr. Tom Ray Roberts left Wednesday night for Dallas following a visit of one week in the home of his parents, Mr. and Mrs. N. J. Roberts. Mr. and Mrs. P. L. Bowers of Dallas visited Sunday night and Monday here with Mrs. Bowers' mother, Mrs. Charlie Loyd. J. M. Patton of Pampa visited in the home of his brother, G. H. Patton, and family, from Thursday until Saturday of last week. Better see your Ration Board now if you intend to buy heaters. We have a limited number of gas and distillate heaters. W. R. Womack. Mrs. J. E. Plummer and two daughters, Misses Ona and Laura Sue Plummer of Waxahachie, were guests in the home of Mr. and Mrs. G. H. Patton last Thursday. Best fishing season of the year is now here. We still have lines, lures, hooks, swivels, plugs, flies, sinkers. W. R. Womack. W. C. Dunn of Kingsville arrived here last Thursday to spend the week-end visiting his mother, Mrs. H. J. Watkins, and husband. Mrs. J. T. King, who recently submitted to an operation in a Vernon hospital, was removed to her home Saturday and is reported to be making satisfactory improvement. Lay your Inlaid and Congoleum floor covering before it gets any colder. We have it. W. R. Womack. G. D. Owens of Southland was here the latter part of last week visiting in the home of Mr. and Mrs. W. H. Tamplin and looking after his farming interests in this county. Mr. and Mrs. Paul Shirley made a trip to Austin last week to take their daughter, Miss Margaret Claire, who will attend the University of Texas during the coming year. Bring your tractor tires and tubes. We can vulcanize them. Cooper Tire Shop, E. A. Fox Station. Miss Mayme Lee Teague left Monday afternoon for Hot Springs, Ark., where she will make her home. She has been accepted by the National Girl Scouts as Executive Secretary in that area. If you need an odd size tube, we will make you one, any size, any shape. We also have a good supply of used tubes on hand - most any size. Cooper Tire Shop, E. A. Fox Station. Mr. and Mrs. Denzil McBeath and small daughter, Joyce, of Abilene spent the week-end in the home of Mr. and Mrs. J. K. McBeath, on account of Mrs. McBeath's illness. Mrs. J. L. Gamble and daughter, Miss Bessie, returned Wednesday of last week from a visit with relatives at Morenci, Ariz. They were accompanied home by a daughter and sister, Mrs. Jack Kempton. Mrs. F. C. Bledsoe and her mother-in-law, Mrs. A. O. Bledsoe, of Brownwood came in last Wednesday for a few days' visit with the former Mrs. Bledsoe's mother, Mrs. W. M. Randolph, and family. A baby daughter was born on August 24 to Lieut. and Mrs. James A. Joy in a Shreveport, La., hospital. Lieut. Joy is an instructor in the Army Air Corps at Barksdale Field, La., and is the son of Mr. and Mrs. C. C. Joy. George Cates, grandson of Mrs. A. E. McLaughlin, has recently visited his mother and brothers and sisters, at Covina, Calif. George is with the Merchant Marines and this was the first time he had been at home for four months. He is now a storekeeper.

Champ 'Chute Rigger

Celia Berg, 23, of New York City, a former dancer, won the Eastern Parachute Rigging championship over contestants from the WACS, WAVES, and Marines. She won by rigging a chute two tenths of a second faster than WAVE Myra Jean Clark.

Mrs. S. T. Crews left Wednesday night for Houston where she will visit her daughter, Miss Mary Sam Crews, and New Gulf, where she will visit another daughter, Mrs. Lee Crews, and family. Bertha Jeanette and Alton Johnson returned Sunday from Quantah where they visited their grandmother, Mrs. Eva Ashford, and other relatives. Jimmie Ashford brought them home and Mrs. Ashford came with them to visit in the home of her daughter, Mrs. A. L. Johnson. Mr. and Mrs. A. W. Lilly were here the first of the week from Oklahoma City on business. They were accompanied by their son, Lt. Bob Lilly, infantry reserve officer. While here Mr. Lilly sold his property one block east of the square, a house and garage apartment, to Mr. and Mrs. F. H. Crews. Herman Blevins, who has been employed by Hane-Razor Grocery for a number of months, is now in Fort Worth, working at Consolidated Aircraft factory. His wife and son will join him in Fort Worth soon. They are now with her parents in Margaret, E. Byron Davis has accepted a position as clerk in Hane-Razor Grocery.

Legislator--

(Continued on Last Page) their budget for the coming two years. "As the Public Press has stated there were reductions in these major appropriations of some thirteen million dollars. However, part of this reduction was taken up by the increase of \$1,800,000 here in Old Age Assistance, and by an increase of one and one-fourth million dollars in the Rural Education Bill, making approximately five million dollars increase in these two items for the biennium. This taken from the total of thirteen million dollars left a net saving of approximately eight million dollars. "I might state also that of the total thirteen million dollars there was about eight million dollars reduction in the departmental appropriation bill of which I was one of the five members who wrote that bill. Therefore, I find myself in a very unusual predicament this morning as I am again in Austin, serving on the Joint Legislative Committee on Rural Education and will be here most of the week, and here when the new budget which eliminates 1,000 jobs in the several state departments become effective. "I did not realize that so many people in Austin knew me. In fact, they had never paid much attention to me while I had been serving in the Legislature, but as this tremendous change takes place, they are reminded that I was one of the five men who was directly responsible for this tremendous reduction in the budget. Naturally many of these people who have heretofore been employees could not help but feel that I was at least partially the cause of them being without a job. However, it is very gratifying to me to see the wonderful spirit that is being manifested by the heads of the many State Departments. Without exception, it seems to me that each of these department heads realize that we are in a Total War, and that every department, like every busi-

ness in the State, should release everybody who is not absolutely essential, and let them take their place in a more direct war program. "I want to compliment the heads of the many State Departments for this wonderful spirit, and the fine co-operation that they are showing at this zero hour when the change must be made. After having talked with these department heads for many hours during the Legislature on our economy program, I can see no reason why public service will be interrupted, nor that any public servant will be overworked by this economy move. "It might be of interest to our people to know that our deficit in the General Fund reached an all-time high last fall of thirty-one million dollars. When the Legislature went into session this has been reduced to twenty-seven million dollars. This date we find that this deficit has been reduced to around twenty million dollars. With the economy program that we have in our State Government now, I see no reason why this deficit should not continue to decrease to where it would reach an extreme low of fifteen million dollars within the next twelve months, and at the same time I do not think that inquiry will be able to see where its service has decreased or been interrupted. "After all, I have come to the conclusion that the Legislature of

THE 3rd WAR LOAN DRIVE STARTS - TO BACK THE INVASION!

3rd WAR LOAN

15 BILLION DOLLARS (NON-BANKING QUOTA)

What you will be asked to do—

MARK WELL the date—Thursday, September 9th. For on that day, you must answer to your country's call.

On that day, the 3rd War Loan Drive opens. To you—and to every other true American—a clarion call goes forth to rally to the support of our flag.

You will be asked to back our fighting forces to the very limit of your resources. You will be asked to go ALL-OUT FOR INVASION by investing in EXTRA War Bonds—more War Bonds than you perhaps think you can possibly afford.

To meet the national quota, every individual in the country who earns a wage or draws an income or has accumulated funds must invest, if he possibly can, in at least one EXTRA \$100 War Bond. Those who can, must invest more—thousands of dollars' worth more. Each and every one must do his full part.

Scrape up the money from every source you can... turn in all the loose cash you carry with you... dig out what you had tucked away "just in case." Go without pleasures, luxuries, even necessities this September. And give our fighting men the things they need to fight with—and win.

These men are throwing everything they have into this fierce invasion push. They are giving their blood, their lives. No one can put a price

on such courage, self-sacrifice, devotion. But you can show you're with them to the WINNER! You can say it with Bonds... EXTRA Bonds this month.

World's Safest Investments

For this 3rd War Loan, you will be offered your choice of various government securities. Choose the one that fits your requirements.

United States War Savings Bonds Series "E"; gives you back \$4 for every \$3 when the bond matures. Interest: 2.9% a year, compounded semiannually, if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1,000. Redemption: Anytime 60 days after issue date. Price: 75% of maturity value.

2 1/2% Treasury Bonds of 1964-1969; readily marketable, acceptable as bank collateral. Redeemable at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated September 15, 1943; due December 15, 1969. Denominations: \$500, \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Price: par and accrued interest.

Other securities: Series "C" Savings Notes; 7/8% Certificates of Indebtedness; 2% Treasury Bonds of 1951-1953; United States Savings Bonds series "F"; United States Savings Bonds series "G".

BACK THE ATTACK—WITH WAR BONDS

KNOW TEXAS

A Garland Adair, Commission...

Texas occupies all the continent of North America except the part set aside for the United States, Mexico, and Canada...

Texas is bounded on the north by twenty-five or thirty states...

If Texas were chopped off from the rest of the United States...

Texas is so big that the people of El Paso sneer at the citizens of Texarkana, Texas...

It is one hundred and fifty miles farther from El Paso, Texas...

The United States with Texas off would look like a three-headed Boston terror.

Unless your front door is eighteen miles from your back door...

Other Texas landlards have whole mountain ranges on their ranches. One has forty miles of navigable water on his farm...

Texas has such a unique landscape that she is the only state to voluntarily surrender her sovereignty as a nation to join the United States of America.

Not content with merely celebrating her centennial of independence in 1936, her people are proud that they are now named with Uncle Sam's children in 1946...

Texas has enough land to supply every man, woman and child in the world with a tract of five feet by twenty and have enough left over for the armies of the world to march around the border five abreast.

If the alfalfa grown in Texas were baled and built into a highway, it would reach the poles.

If all the hogs in Texas were one big hog, he would be able to dig up the Panama Canal in ten days.

If all the steers in Texas were one big steer, he could stand with his front feet in the Gulf of Mexico, one hind foot in the Hawaiian Bay and the other in the Indian Ocean, and with his tail in the mist from the Aurora Borealis.

Let's all follow America's patriotic leadership, buy bonds, do our bit and best, and help Texas and Texans win the war sooner.

Two Minute Sermon

(By Thomas Hartwell)

Each in His Own Sphere: The story is told of an evil man who through mistake got into a steamer loaded with Sunday School boys and girls instead of on a similar line loaded for men and women also bound for a destination. Asked by one of his friends later what kind of a time he had in such unusual company, he said, "I had a terrible time. I was bored and unhappy all day." Such a situation is not to understand. He had nothing in common with those with whom he was by chance associated. Their life, their pleasures were all entirely foreign to him. The story illustrates a point. I think those who have no use for God and the things of the church during their life time cannot expect to enjoy the life beyond this, among the people. They will be out of place in such association. They have not lived it in this life and will not be able to live it in the life to come. Death does not change the spirit of man. It merely transfers it from his earthly body to the spiritual realm and in so doing transfer his spirit will find the same level in the life to come that it had on earth.

If every housewife in the nation saves as little as two tin cans in one week, it would mean enough scrap steel to make the steel used in the hulls of three heavy cruisers, and the tin used in 200 marines.

Prepared tin cans take up one-fifth as much space in shipment as unprepared cans.

AGRICULTURE
(D. F. Eaton, County Agent.)
Use Protein Efficiently
Since the most effective conservation of limited protein supplies must be left with the producer, it is important that protein concentrate feeds in their unmixed form be available at all times to ranchers and farmers, suggests County Agent D. F. Eaton.
Guides to efficient use of protein feeds issued by the A. & M. College Extension Service point out that any individual stockman's need for protein concentrates will depend on the kind of livestock being produced, the amount and condition of available pasture and roughage, and the amount and type of home or locally grown grain available.
And, in any event, the producer should use protein feeds only as they are necessary to meet the basic requirements of digestible protein according to feed standards in common use, livestock specialists say.
To aid farmers and ranchmen

CHURCHES

Christian Science Church
Sunday services at 11 a. m. Wednesday evening services at 8:00 o'clock. Sunday School at 10 a. m. Sunday, September 12, 1943. Subject: "Substance."

First Christian Church
Greetings to all friends of the First Christian Church. We are glad to be here and to serve with you. We like the town. We love the people. We shall be glad to meet all of you at the Sunday services. Bible School 10 a. m., John E. Long, Supt. Classes for all. Preaching services 11 a. m. and 8:30 p. m. Subject for morning sermon: "Five Outlets of Power." G. O. McMillan, Minister.

St. Joseph's Catholic Church
Time of Masses: October-April (inclusive), 1st Sunday at 11:00, 3rd and 5th Sundays, 9:00, May-September (inclusive), 1st Sunday at 10:30, 3rd and 5th Sundays, 8:00.

Truscott and Gilliland Baptist Churches
Preaching services are held at Gilliland on the first and third Sundays, and at Truscott on the second and fourth Sundays. A most cordial welcome is extended to all. Delightful Christian fellowship. J. W. English, Pastor.

Assembly of God Church
Services Tuesday and Friday nights, 8:30 o'clock. Sunday School 10 a. m. Morning service 11 a. m. and Sunday evening service 8:30 p. m. Every one is invited. WARREN EVERSON, Pastor.

Crowell Methodist Church
It seems to be an accepted privilege, though no one knows by what authority, that people attend church less during the summer months. However, we have been very grateful for the way in which many of our people kept right on attending despite the extreme heat of this summer. Now that fall has come and one can attend in more physical comfort, do yourself justice by keeping that pledge you made yourself to return to your Sunday School and church as soon as the weather offered more comfort. Do it this Sunday or you might find yourself like Felix, waiting for a more convenient season. We all need the church these days no less than our churches need us. Think it over. These are closing out days for the Sunday School work this fiscal year. Our Sunday School calendar runs from October 1st until September 30th, of the succeeding year. All officers and teachers are now being selected for this next year. We volunteer for service in our nation with just pride. Why not let it be known that you are available for service in God's work in the local church? It would be greatly appreciated. The church is not a myth but an organization with real parts resting on real people for support. It is not only an honor but genuine service to humanity to hold official position and use one's talents for the betterment of mankind. The church affords a channel of service as well as a means of blessing. I say again that we need the church but the church also needs our sacrificial support. H. A. LONGINO, Pastor.

harvesting peanuts. In the main commercial growing areas of Texas it is the general practice to windrow the vines with a side delivery rake, says E. A. Miller, agronomist for the A. & M. College Extension Service. Afterward they are forked into medium sized piles and allowed to cure for several days before being threshed. But stacking into shocks or placing the vines in rows bottom upward after shaking out the dirt by hand, is a better safeguard against rain damage. With either method, Miller says, it is necessary to cure the threshed peanuts by stacking them in bags in the open. A good method is to make a rick one sack in thickness running north and south. In this way both ends of the sacks will be exposed to the sun during the day. They should be supported off the ground on poles, and piled loosely to permit air circulation. Coverage against rain also should be provided.

Early Turkeys For Fighters
Texas turkey growers have been asked to give their active help in assembling enough birds so that American boys fighting overseas will have their usual holiday dinners. Texas is the nation's number one turkey producing state. The Quartermaster Corps and the War Food Administration have asked American farmers to market two million pounds of turkey through September 15. It is the opinion of George P. McCarthy, poultryman of the A. & M. College Extension Service, that Texas should be able to furnish about three hundred thousand pounds around September one. The turkeys will be sent to every battle front in the world where Americans are fighting. But the first lot must get there in plenty of time for Thanksgiving. Getting the turkeys ready will mean more work for farmers. Flocks completely stopping the growth of cotton stalks is satisfactory.

Harvesting and Curing Peanuts
Curing is the second stage in

Christian Science Services

"Substance" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, September 12. The Golden Text is: "The earth is the Lord's, and the fulness thereof" (I Corinthians 10:26). Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Many, O Lord my God, are thy wonderful works, which thou hast done, and thy thoughts which are to usward" (Psalms 40:5). The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "God's thoughts are perfect and eternal, are substance and life" (page 286).

to the army and their removal from the flocks will conserve feed. He recommends that farmers begin now and select early hatched birds along with all old turkeys on the farm. Separate the fastest growing ones from the less rapidly developing young stock and feed them up so that they can be available for shipment early in October for Christmas dinners. This would help the larger turkeys develop faster and give the smaller ones the chance they need to gain size and weight. It is estimated that over the entire season, Texas should have close to forty-five million pounds of turkey available for marketing. This would be equivalent to about three million birds.

Our fighting men are doing their share. Here at home the least we can do is put 10% of our income in War Bonds for our share in America.

Weekly Sermon

By the Rev. Harold L. Lundquist, D. D., Member of Faculty, Moody Bible Institute, Chicago.
God's Care of His People
Confidence, contentment, assurance, safety, security—all expressing the deep desires of the human heart—characterize the blessed Shepherd Psalm.

Let us think of Psalm 23 as describing the journey of life. We find that we may go forth—
1. In the care of a sure guide (vv. 1, 2). Nothing is more important in going through unfamiliar land than a competent guide. Life's journey is through a land unknown to us. If I am in the Lord's flock He will guide me, care for me, and give me the joy of green pastures and still waters.

Sometimes we become too busy and too important to take the rest we need, and the Good Shepherd has to make us "lie down," by the force of sickness, or trying circumstances. Why do we make it necessary for our Shepherd to thus deal with us?
2. With every need provided (vv. 3-5). Dr. J. H. Jowett says that man has three enemies: the sin of yesterday, from which he cannot get away; the temptation of today, made more powerful by the pressure of the clever and insidious seducer Satan; and the fear of death, which awaits him tomorrow. Can the Good Shepherd meet these enemies for me? "Yes," comes His answer through the psalmist.

For the sin of yesterday there is the restoring of the soul. He cleanses from sin, gives peace through His Word, joy through a hymn, comfort in the fellowship of a Christian friend. For today, "He leadeth me in

the paths of righteousness for his name's sake." The world offers many by-paths, and makes them seem to be the right way, but my heavenly Guide will lead me in the way of righteousness. But tomorrow, or on some tomorrow, I must "walk through the valley of the shadow of death." Even there I need "fear no evil." The Good Shepherd is as much with me in that valley as He was with me "beside the still waters." Why will anyone do without this Christ who is the Good Shepherd? Every need finds its full satisfaction, enemies and discomforted, the oil of gladness anoints our heads, and our cups run over as we go on—
3. To a destination certain and blessed (v. 6). We know we shall come to that journey's end with safety, because He will bring us there, to go in and out no more forever.

Do you know Christ as the Shepherd of your soul? If not, come to Him today.

Notice to Subscribers

Owing to the fact that the Government is requiring all newspapers to cut down on their use of newsprint, and also the fact that newsprint is advancing in price, The Foard County News will not offer a bargain price of \$1.50 per year during the fall months, as it has been doing for many years. Conditions will force us to charge the regular price of

\$2.00 per year in Foard and adjoining counties, including Zone 1, and the price outside the local territory will be as follows
\$2.50 per year
\$1.35 Six months
.75 three months

This problem has been facing us for several months and was considered from every angle before the decision was made to charge the regular price for yearly subscriptions in the county and adjoining counties and to raise the price on papers going to distant points. We do not believe our friends and customers would want us to take subscriptions and conditions become such that it would make it hard for us to carry out the contract. When we take a subscription for a year we are making a contract with some individual to send him the paper for a year, regardless of what may happen. That's the reason it is necessary to be cautious at a time like this when general conditions are so uncertain.

Some daily papers have ordered agents not to take orders for any new subscriptions; however, renewals will be accepted.

We appreciate the excellent subscription business extended to this paper the past year—it has met with our fondest expectations during the past few years, for which we are deeply grateful. We expect to put forth every effort possible to print a weekly newspaper worthy of the patronage it now receives and it is on this basis that we solicit the renewal of subscriptions.

Respectfully yours, THE FOARD COUNTY NEWS

--SOCIETY--

Luncheon Opens Club Year for Adelpian Club

Mrs. W. B. Tysinger, Mrs. J. E. Stover, Mrs. J. E. Long and Mrs. Q. V. Wingham were hostesses at a luncheon on September 1st at the Adelpian Club House, opening the new club year's work.

Attractive tables with flags representing the United Nations were arranged in the main hall where a delicious three-course luncheon was served.

Miss Margaret Long, Miss Joyzelle Tysinger and Miss Mary Beth Chevington, daughters and granddaughter of the hostesses assisted with the serving.

Mrs. A. Y. Beverly presided over the meeting. Out-of-town guests were Mrs. W. S. Douglas of San Angelo, a member of the State Board of Texas Federation of Women's Clubs and speaker for the afternoon and Miss Chevington.

Mrs. S. T. Crews, Mrs. R. L. Kincaid and Marcia Kincaid also were guests. Mrs. Virgil Smith, a new member, was introduced.

Marcia Kincaid was guest artist and played three piano numbers: "Minuet in G," "Hark, The Vesper Bells," and "Little Girl Dancing."

Mrs. Merl Kincaid, incoming president of the club, made the welcome address, stating the plans for work for the new year and listing the importance of women's work in the war effort as individuals and as clubs.

Mrs. Douglas made a most informing address on "Art in Mexico." One important reason given for the importance of Mexico Art is because of its two-fold gift of the Indian to Spanish talents.

New officers and executive board members were introduced and a social hour of visiting was enjoyed by the members and guests, after which the meeting adjourned until September 15.

Columbian Club Begins Activities with Breakfast

The initial meeting of the Columbian Club for the year 1943-44 was in the form of a delightful breakfast at the home of Dr. and Mrs. R. L. Kincaid on Wednesday morning, Sept. 1, with Mrs. Kincaid as hostess.

The guests were received at the door by Mrs. S. T. Crews, the incoming president of the club. At quarter tables, places were marked for twenty-six guests. The officers and committee chairmen sat at the dining-table which had for a centerpiece an artistic, oblong arrangement of flowers in the club colors, white and gold. Yard flowers were used in the further decoration of the entertaining rooms.

Mrs. Kincaid was assisted in serving by Miss Mary Self and Mrs. Marion Crowell, who were her guests, also.

Following the delicious breakfast, Mrs. C. W. Thompson, vice president, presented Mrs. Crews, who gave the address of welcome which included a short resume of the work done by the club last year and an outlook for the coming year.

The hostess introduced as her guests, Mrs. W. S. Douglas of San Angelo, who is a life member of the Board of Texas State Federation of Women's Clubs, Mrs. Robert Goodfellow of Moody, Mrs. M. S. Henry, Mrs. Merl Kincaid, Mrs. L. A. Andrews and Mrs. J. R. Beverly.

Mrs. Douglas extended greetings from the State Federation and spoke briefly on club work. Mrs. A. E. McLaughlin told of her impressions of California following a summer vacation to that state. She told of many interesting places she visited. Miss Elizabeth Elliott spoke on "Taming the Weather," an interesting explanation of what has already been done to change climates, rivers, etc., and what may yet be done to average the living conditions of any section of country.

The regular course of study of the club will begin on September 15, in a meeting at the home of Mrs. Hines Clark.

B. & P. W. CLUB

Regular bi-monthly meetings of the Business and Professional Women's Club were resumed last Thursday, Sept. 2, when the club met at O'Connell's. Fifteen of the twenty members answered roll call. The meeting was opened with an enthusiastic sing-song. Year-books outlining the year's study were distributed. Programs following the general topic, "Winning the War and the Peace," promise to be interesting.

Mae Solomon was leader for the program concerning "Solving the Manpower Shortage." She was assisted in the discussion by Blanche Hays, who stated that during the present crisis, women were expected to do their part in

solving the manpower shortage and that more and more fields were being opened to women.

Elizabeth Elliott conducted a parliamentary drill.

The next meeting of the club will be a covered dish dinner at the home of Mrs. Bevie Brooks on Sept. 16. The annual Bosses' Banquet, which had been slated for this date, has been postponed until a later date.

Family Reunion at Wesley Home

The ninth consecutive reunion of the Taylor, Ross and Wesley families was held on Sept. 4, 5 and 6 at the George Wesley home at Riverside. There were one hundred and twenty-two registered at the reunion, sixty-five of whom were relatives.

All meals were served picnic style. Mr. and Mrs. Walter Taylor of Wichita Falls had charge of the games. Horse shoe tournaments for the men were held.

On Sunday morning, Rev. R. I. Hart, pastor of the Margaret Methodist Church, preached.

Those who attended included: Rayburn Ross, S. C. Norman, Okla.; Mrs. Nena McGill, Dallas; Mr. and Mrs. J. D. Mahoney, Quindora; Mr. and Mrs. John Taylor, Margaret; Mr. and Mrs. Walter Taylor and family, Wichita Falls; Baker Taylor, Dallas; L. C. Taylor and son, Bob, Amarillo; Mr. and Mrs. W. T. Ross and son, James, Willow, Okla.; Miss Elizabeth Ross, Dallas; Cpl. Walter T. Ross, Houston; Mr. and Mrs. J. L. Carson and family, Olton; Mr. and Mrs. John M. Lomax and family, Lone Wolf, Okla.; Mr. and Mrs. Henry Ross and daughter, Rebecca, of Crowell; Mr. and Mrs. J. C. Prosser, Crowell; Mr. and Mrs. Raymond Ross and family, Flomott; Mr. and Mrs. J. O. Malone, Margaret; Mr. and Mrs. Ross Malone and son, of Margaret; Mr. and Mrs. C. W. Ross and daughter, Edwina, of Margaret; Mrs. Orville Watson, Wichita Falls; Mr. and Mrs. John Wesley and family, Iowa Park; Mr. and Mrs. F. A. Moore and son, Margaret; Mr. and Mrs. George Wesley and daughter, Margaret; Mr. and Mrs. M. O'Connell, Crowell; Mr. and Mrs. Murl Trout and daughter, Mable; Lt. Garland Taylor, Colorado; Miss Kathryn Ross, Dallas; Oral Wharton, O. C. Wharton, Icyphine Wharton and Dorothy Wharton, Chillicothe; Mildred Ford, Wichita Falls; Mr. and Mrs. W. A. Dunn, Margaret; Mr. and Mrs. Roy Ayers and family, Margaret; Miss Ruby Summers, Willow, Okla.; Mrs. Melvin Moore and son, Crowell; Mrs. Jimmie Hembree, Margaret; J. L. Hunter Sr. and daughters, Margaret; Mr. and Mrs. S. B. Middlebrook Sr., Miss Joyce Ann Middlebrook, Margaret; Mrs. Frank Mabe and daughter, Crowell; Mr. and Mrs. Lon Preist, Margaret; Miss Opal Priest, Wichita Falls; Mrs. J. H. Roberts, Dallas; Mrs. W. T. Dunn, Mr. and Mrs. J. S. Owens Sr., Mrs. J. S. Owens Jr. and son, Mrs. Raymond A. Bell and son, Mrs. Verda Bell, H. A. Wesley, Mr. and Mrs. Jim Ewing, Mrs. L. Kempf, Miss Ethel Kempf, Tom Anderson, Rev. R. I. Hart and sons, C. F. Bradford, Billie Bond, Vee Bond, Mrs. Clois Orr, O. C. Allen, Bobbie Joe Hunter, Jerry Priest, Margaret; Mr. and Mrs. W. B. Vantine, Medicine Mound; W. J. Ayers, Crowell; Virginia and Mildred Tamplin, Mr. and Mrs. John Bradford, all of Crowell; Mrs. J. A. Sanders, Lubbock.

Yanks Hunt Little Men Who Weren't There

For the first time in this war, Japanese forces fled from a base without offering any resistance, and American troops took over the Aleutian island of Kiska pictured above. This victory frees the North American continent from an immediate Japanese threat. The enemy at one time was reported to have 10,000 troops on Kiska. As in the Sicilian campaign, the area was shelled and strafed heavily by ships and planes. On 15 occasions naval surface units stood off shore and poured 2,300 shells into Japanese positions. Within 14 days various types of Allied planes raided Kiska 106 times, subjecting Japanese forces to the heaviest bombings carried out against them so far.

1943 Cotton May Be Stored on Farm and Secure Gov't. Loan

College Station, Aug. 30.—Some South Texas cotton farmers are losing as much as \$15 per bale because they are unable to get this year's cotton crop in the Government loan, Geo. Slaughter, chairman, state AAA committee, said this week.

For that reason, he points out, concentrated effort should be made by all cotton producers to secure facilities for storing a part of the 1943 crop.

Almost all warehouses already are packed and many will be unable to take additional cotton this year, he said.

Encouraging farm storage, Slaughter said, farmers are permitted to store cotton on the farm provided structures meet requirements specified by the Commodity Credit Corporation. According to CCC, structures must protect the cotton from damage by rain, snow, flood, ground water, poultry and

livestock and provide reasonable protection against loss by fire and theft.

County AAA committees, who administer the farm-storage phase of the program, may approve structures for storage which are not located on the farm.

A farm-storage allowance of 10 cents per bale per month or fraction of a month will be allowed producers storing cotton on the farm, provided the cotton is delivered to CCC in satisfaction of the loan, Slaughter said and added that if the collateral is repossessed by the producer, no storage allowance will be paid.

Cotton producers are being encouraged throughout the state to contact county AAA offices and find out particulars of storing cotton on the farm this season.

Under this year's program, the basic loan rate in Texas approximates 10.90 cents per pound but will vary in different parts of the state.

If the shoe fits these days you are lucky—if you have the right ration stamp.

Farmers-Ranchmen Urged to Construct Fireguards on Land

Farmers and ranchmen of Foard County were urged this week to plow fireguards to prevent the burning of badly needed range grasses for livestock feed.

In making the announcement, J. D. Miller, Administrative Officer for Foard County AAA, said that farmers and ranchmen can use their range building allowance to construct fireguards around their pasture.

Fireguard construction according to AAA specifications of not less than 10 feet in width, will be paid for at the rate of five cents per 190 linear feet, Mr. Miller said.

He added that farmers and ranchmen who are not familiar with the specifications for constructing fireguards can get full information by calling at the county AAA office.

The shortage of livestock feeds to produce the badly needed meats for war purposes makes it imperative that all grass be conserved insofar as possible.

Kindergarten Will Open Sept. 20

Mrs. Q. V. Wingham announces that she will re-open her kindergarten at her home on Monday morning, Sept. 20, 9:30 o'clock.

The insignia of the new U. S. Cadet Corps, U. S. Public Health Service, is worn on the upper left sleeve of the Corps Uniform.

Monday morning, Sept. 20, 9:30 o'clock.

Mrs. Wingham teaches kindergarten at her home on year.

Discovering of New Oil Pools by Phillips at Highest Level

The drilling of exploratory wells on its undeveloped oil properties is at the highest level in the history of Phillips Petroleum Company, according to Frank Phillips, Chairman of the Board. The company is drilling to extend the limits of existing pools, its exploratory crews are testing many areas where geological data indicate the possibility of crude oil, and wells are being drilled deeper and in more unproved areas than ever before. The results of these activities have been successful and have increased the company's total underground reserves this year, in contrast with decreasing reserves for the industry generally.

During the first seven months of 1943, the Company discovered ten new oil pools in addition to new producing formations in existing pools. Wells drilled by others on the outskirts of established fields also added to the company's indicated reserves in these fields. New pools were discovered in four areas in Kansas, one in West Texas, three on the Gulf Coast, and two in Illinois. Additions to reserves in proved fields included several important areas in West Texas, the Texas Panhandle, New Mexico, the Gulf Coast, Mississippi, Arkansas, Kansas, Oklahoma and Illinois. Wells drilled by others which increased the Company's reserves substantially were located in several fields in West Texas, North Central Texas and Oklahoma. The company also acquired recently 26 drilling blocks of 205,000 acres in Western Kansas and 17 blocks of 240,000 acres in West Texas where there are favorable producing prospects from the new Ordovician formation.

Another important part of the natural resources of Phillips Petroleum Company is its natural gas reserves. Sales from these have been substantially increased over 1942 level.

Joachim Bosen of Boerne says: "When I consume too much food, or think of Adolf Hitler I think of Mein Krampf."

Public Sale!

Having sold my farm 3 1/2 miles east of Crowell on paved highway, I will sell at the farm at public auction to the highest bidder at 1 o'clock,

FRIDAY, SEPT. 10, 1943

the following:

- One 22-36 I. H. C. wheat tractor.
- One McCormick-Deering, 16-runner, 10-inch space wheat drill.
- One new 5-ft. Avery 26-inch disc plow.
- One June-Watts, 2-row go-devil.
- One 3-section, 70-tooth, drag harrow.
- One 2-row stalk cutter.
- One 8-ft. wheat binder.
- One 2-row lister-planter, horse drawn.
- One 2-row knife attachment for engine.
- Two 1-row horse cultivators.
- Two 4-wheel cotton trailers.
- One 2-wheel stock trailer.
- One wagon water tank, one round stock tank.
- One 14-ft. heavy feed trough.
- One each, seed fork, scoop, post hole digger, wire stretcher, sledge hammer, and other small tools and wrenches.
- A lot of used woven wire and few fence posts and chain harness.
- One dresser, one dining table, one chest of drawers, one iron bed and springs and mattress.

Two shoats.
125 AAA Buff Minorca Pullets.
