A BUSY MAN

Winnett, Mont. — If Fred Story, 40, isn't a busy man, he should be. He is: Winnett water commissioner, collector city licenses, city policeman, deputy sheriff night marshal (making rounds until 2 a. m.), county ambulance driver, city street worker (with one helper), electrician for himself, insurance salesman. He used to be fire chief but he quit that job—no time for that. He gets a salary of \$250 a month for all his jobs.

WILDCATS OUTSHINE 'PETE'

Pete the Python, a dangerous 18-foot snake that escaped from the Forest Park Zoo over two weeks ago, has caused less excitement in Fort Worth than did the activities of the local football team in the last two games played in Wildcat Stadium.

In each of the last two games, Crowell has come from behind in the last two minutes of play to put the "bite" on the foe. One more game like these and every Crowell fan may die from heart failure.

Wildcat rooters will journey to Iowa Park next Friday night to see the Wildcats try to wrap up another victory in their mighty coils.

Iowa Park can only field 11 men at a time. Crowell can also field 11 men. That gives us a 50-50 chance of beating the Hawks. These are better odds than Pete had, and he came back with his

skin still on his back. We're going to Iowa Park. Y'all come, too.

EXPRESS THANKS

The students of Quanah High School expressed their thanks to the Crowell school for the wonderful hospitality which they received in Crowell Sept. 24.

DRAGONS SACRIFICE SOCIAL LIFE TO PERFECT TEAM REQUIREMENTS
 by a Dragon

Note: The following article is from the Sept. 30 "Paducah Whirlwind." According to the Wildcat Staff, they believe that our boys are following the same rules and are doing a better job than any team to date.

Home wasn't built in a single day. Neither is a winning football team.

Members of the Dragon team, which spectators may tend to take for granted, put in many long hours to produce their topnotch brand of ball.

The next time you drive your best girl home from school, circle Dragon stadium and you will see a heavy workout. The claps of thunder do not indicate rain. That was the fall of some poor B-team member driven to the ground by one or more of the hard-charging veterans of the main string.

While many are enjoying Cokes at the local drug store or even getting up needed homework (that they actually could have done in study hall when they were reading magazines), the Dragons are learning new defenses and new plays, attempting to beat next week's opponents.

Non-athlete members of the school may enjoy a late movie during the week, not the "gladiators of the gridiron." Strict training rules force the team into bed before 10 o'clock each week, midnight on Saturday.

Other restrictions include no candy or other sweets between meals, no carbonated drink at any time, no fried food, no cold

water or other cold drinks after a workout until after a meal—and finally, only one goodnight kiss when the Saturday night date comes to an end.

Of course, if the girl believes in the Troutman-Higdon program, it makes it easier for the athlete to train.

ANNUAL STAFF ATTENDS AMARILLO WORKSHOP

Four members of the Roundup staff, accompanied by the sponsor, Mrs. Doyle Kenner, and her husband left bright and early Saturday morning for Amarillo to attend a yearbook workshop sponsored by the Newsfate Publishing Company.

The group arrived at the Amarillo Junior College in time to register at 9:30. Introductions were made, and a general discussion was held in the auditorium. At 11:00 individual classes were held. Mrs. Kenner went into the business management class; Davis Cates met with the art and layout photographers' class, and Frances Kincaid and Betty Bartley met with the copy preparation class.

After classes adjourned at 12:25, a free lunch was served in the new student center on the campus.

After lunch, the classes were re-assigned, and at 2:30 the workshop was adjourned.

The group then went on a short window shopping spree in downtown Amarillo before starting the long journey home.

'CHARACTER TRAITS IMPORTANT IN LIFE,' BROTHER ALY SAYS

In an inspiring message to CHS students, Tuesday, Sept. 28, Rev. C. T. Aly stressed character training through the life of the Biblical character, Samuel, along with many other statements.

He said that our Maker's intention was for us to make our lives worthwhile as Samuel did. Samuel was dedicated to God at birth by his mother who was a sincere and prayerful woman. He answered God's call to him and became a useful prophet of God and an outstanding example of integrity. This brings to mind the fact that dishonesty is a principle, not a fact. Samuel was true and sincere in religious training, and neither his public nor private life was marred by unworthy acts. You are living today, and your influence counts whether it is in the school room, football field, basketball court, or social life.

Samuel ceased not to pray for others, and when his life's journey ended, many people mourned. What are you now? What will cause people to miss you when you're gone? Every person's in-

fluence will be felt by someone.

JUNIORS TOP ANNUAL SALES

Seniors . . . seniors! Have you no shame? In one of our most worthy projects, the annual sale, the freshmen have almost tied your meager efforts, and the sophomores and juniors have whizzed by!!

A careful record has been kept of the progress of the annual sale and the following are the results: 57 per cent of the seniors, 83 per cent of the juniors, 75 per cent of the sophomores, and 54 per cent of the freshmen.

Seniors, all of your "fond" old memories of CHS will be preserved in the annual this year. A fine record to show your innocent off-spring years later. A book possessing places (parts containing old bean's pictures) will make your spouse turn green with jealousy. Anyhow, buy an annual!

As some did not know the deadline was so near, the time has been extended to Oct. 15. Remember this is the final date.

BAND WINS HONORS AT FAIR

Every hour at the fair brought new thrills. At 2 o'clock Tuesday, the CHS band students scrambled into the buses and headed eastward for a busy day at the Texas-Oklahoma Fair held at Iowa Park.

Upon arriving, the band put on their uniforms and lined up for the marching event. They marched to the fair grounds and prepared to participate in the concert playing. The band won fourth in both events.

Our twirlers, Frances Kincaid and Billye McCoy, twirled while the band played their concert pieces. Frances brought back a second place and Billye a third.

With the ending of the concert, the students changed clothes and rushed to the midway for a good time. Winning a teddy bear was one of the feats that almost everyone attempted. The thrilling rides which were composed of the merry go round, ferris wheel, hammer, tilt a whirl, roller coaster, merry mix up and the air-planes were ridden by most of the CHS students.

At the hour of 8 o'clock, the buses loaded for their journey home, arriving in Crowell at 9:30 p. m.

RADER PREFERS FOOD, LOAFING

Short blond hair, blue eyes, a pleasing personality, and a big smile for everyone characterizes Billy John Rader, senior in the spotlight for this week.

Billy John was chosen secretary for the senior class. At this he has proved himself dependable and capable.

Billy John's happiest moments could be spent playing basketball or watching a good exciting football game, but they are not. You will find him first to the table since eating makes him happiest, especially when fried duck or quail await him.

He also enjoys listening to popular music. Sh-Boom, however, rates first with him.

Billy John likes to spend an afternoon watching a good movie with Jane Russell, his favorite actress, but looks forward to the day when he will have absolutely nothing to do except loaf.

EX-STUDENTS COLUMN

Just a little note from and to some of our old CHSites.

Guess who??

Who made top English class at Tech? Paul Cooper!!

Who was tops in Spanish in CHS and is now an excellent student in her English class? La Sororita Genevieve McDaniel.

Who is the "Benny Goodman" of the Tech band? David (New Notes) Jackson.

Who hasn't written the Wildcat Staff? George (Illiterate) Ann Davis.

Who are sporting bright shiny new "hurr" haircuts? Robert Graves, J. C. Kincheloe and James Denton.

ABSENT LAST WEEK

Last week there were nine students who were absent from school one or more days. Sickness kept Jim Kennedy, Lula Scott and Wanda Murphy from school, while Floyd Bice and Johnny Kajs missed a couple apiece while working. Those who missed for other reasons were Jerry Cates, Don Kidd,

Dana Roberts and Dwain Orr. Doris Smith missed one-half a day because of sickness, Larry Rader, Bud Hammonds, Jerry Cates and Gaylon Whitley also missed one-half a day during the past week.

BAND GIRLS ARE DUCKS AT LIONS' CARNIVAL

Gales of laughter were heard from spectators who watched the band girls take a dip in the Lions Club horse tub in the ducking pond.

The girls who participated in the ducking were Frances Kincaid, Betty Bartley, Sue Meason, Gail Knox, Doris Cates and Billye Bell. Many efforts were made to duck these girls.

When the ball hit the target, the action started. The girls fell from the stool and into the water for a good, cold soaking! But what a worthy purpose, as the Lions use the money to buy glasses for children who cannot afford them and to help crippled children.

seven yards for Crowell's in score. Ray Gibson, extra pitcher, added the conversion tie the game.

A short while later with minute left in the game, Gray Thaxton who ran twenty-five yards added the extra point to make the score 14-7.

The game ended as Crowell gained the ball on a side kick. Outstanding on defense were Smith, Edward Daniel, C. McDaniel, Jackie Walker, Duane Boren. The Wildcats' (Continued on Page 7)

1954 Agricultural Census Begins Soon

When a stranger walks up to your farm this month, act kindly sir, he may be a census taker.

The Bureau of Census this month begins its 1954 Census of Agriculture and each Texas farmer will answer about 100 questions regarding their land, crops, livestock, farming methods, expenses, labor and equipment.

Robert W. Burgess, bureau director, reports it will require 30,000 enumerators to check the more than 5,000,000 farms and ranches in the United States. And it will all be done during October and November.

After the enumeration is complete, the Bureau will total the figures and release them. It keeps individual farms and farmer's secrets by releasing only totals for a county or larger areas.

The census taking commenced October 4 in the High Plains counties and in the citrus belt of extreme south Texas. Enumerators will begin asking questions on the Edwards Plateau October 18 and on the Rio Grande Plains October 25. The canvass of east, central and far West Texas farms will start November 3.

"The 1954 census will collect information from every farmer in the United States, make it available as totals to the public—and keep secrets of individual farms and farmers at the same time," Burgess says.

Since 1920, an agricultural census has been taken every five years.

DOLLARS TO DOUGHNUTS

Dollars to doughnuts are pretty steep odds. No steeper, though, than the odds against your financial success unless you start to save some money . . . and keep everlastingly at it! How about reversing those odds? Here's how: Start an account here. Deposit a fixed amount every pay day. Don't let anything stop you. You'll then be a "dollars to doughnuts" favorite to win through to the best things of life. As a matter of fact, you can't miss!

How far ahead of Edison are you?

Just 75 years ago, Thomas A. Edison created the first practical electric light bulb.

It was a feeble thing and a luxury at first. Who would have guessed then how many ways you'd be using electricity today—to save time and effort, to make living more pleasant.

You're putting more new electrical "servants" to work year after year. That means you're going to need still more electricity.

The West Texas Utilities Company and the other business-managed electric light and power companies are building for that addi-

tional electric power you'll want tomorrow and in the years to come.

No matter how far ahead of Edison you are—today or tomorrow—you'll have all the low-priced electric service you want. Here in West Texas your electric service company will continue to provide plenty for home, farm, business and industry.

YOUR ELECTRIC RATES HAVE STAYED LOW
In fact, in homes served by WTU, the average cost of a kilowatt-hour of service is 22% LESS than it was ten years ago!

"Never Appreciated Until They're Gone," Says Ed Murrow

(Editor's note: The following was part of a broadcast by Edward R. Murrow, noted CBS radio and television news commentator, on Dec. 1, 1953, during the New York newspaper strike.)

This is an appropriate time to reflect upon the continuing phenomenon of the daily newspaper. There was a time, about 20 years ago, when certain enthusiastic persons — with more enthusiasm than judgment — thought radio news would kill them off. A city without newspapers serves to remind everyone that press, radio and television are basically complementary. But the newspaper is more tangible . . .

"But a newspaper is like your youth—never appreciated until it's gone. It is essential even for those who deal in radio and television news to be able to read, even though at times they may have difficulty reading their own copy aloud.

"It is not as great a calamity for a community to be without newspapers as it was before the advent of radio and television. But a community must commune, and newspapers are a mainstay of communication. Without press or radio, a community would be stunned as by a stroke of paralysis. With the press silent, the paralysis is only partial. But in free countries newspapers are something more than mere communicators. They are an essential part of the community's freedom.

"So a community without newspapers or with censored newspapers is less than free. This is an old story to us, and there was probably a time when the press was more powerful than it now is. We still talk, and rightly, about the freedom of the press as one of the foundations of our national life. But it is well to remember that freedom through the press is the thing that comes first.

"But most of us—disregarding the secondary uses of newspapers probably feel that we couldn't be free without the newspapers, and that is the real reason we want the newspapers to be free. Even in a controlled society, where every effort is made to make people think the same thing at the same time, there must be newspapers."

Country Newspaper

I am a country newspaper. I am the friend of the family, the bringer of tidings from other friends; I speak to the home in the evening of summer's vine-clad porch or the glow of the winter's lamp.

I help to make this evening hour; I record the great and the small, the varied acts of the days and weeks that go to make up life.

I am for and of the home; I follow those who leave humble beginnings; whether they go to greatness or to the gutter, I take to them the thrill of old days, with wholesome messages.

I speak the language of the common man; my words are fitted to his understanding. My congregation is larger than that of any church in my town; my readers are more than those in the school. Young and old alike find in me stimulation, solace, comfort. I am the chronicler of man's existence.

I am the word of the week, the history of the year, the record of my community in the archives of state and nation.

I am the lives of my readers. I am the country newspaper. —Bristow Adams in Canton Sentinel.

Automobile Accidents Increase at Night Time

"When the glow goes, whether you're strictly by hoof or on wheels, dig yourself the most, man, and cut that chassis juice or you'll be real gone!"

This cryptic bit of advice in teen-talk was given this week by Col. E. B. Tilley of Houston,

President of the Texas Safety Association, and Services Advisor for the Gulf Oil Corporation.

Roughly translated, it means, "When you walk or drive after sundown be cautious, take it easy, if you want to stay alive."

While Col. Tilley used the current vernacular of young people, his comment is intended for people of all ages, he said.

"Nighttime is dangerous in traffic," he said. "The National Safety Council estimates that the mileage death rate in an average year is two to three times as great at night as in daylight."

"This is the reason," he said, "for the special emphasis given to the theme 'Night Traffic Hazards' in the October traffic safety program being conducted locally by the Texas Safety Association, the Texas Department of Public Safety, and the National Safety Council."

"The month-long program has been planned," he said, "to help people become more aware of the hazards encountered in driving and walking near traffic after sundown, and to teach them safe practices when they must travel at night."

"Actually," he said, "more people are killed in traffic accidents during the hours of twilight, darkness and dawn than are killed in such accidents during daylight."

"And this fact seems even more significant when it is considered that less driving is done during the hours of darkness."

The high traffic death rate at night prevails in both city and country, according to Col. Tilley.

"In 1953," he said, "more than half of all urban and rural traffic deaths occurred at night."

President of the Texas Safety Association, and Services Advisor for the Gulf Oil Corporation.

"The best advice in any traffic situation," he said, "is contained in the Octogenarian: 'Cut Your Speed Dark.'"

"Neither drivers nor pedestrians can see as well after sundown," he said, "and they must compensate for their reduced vision by increased caution if they are to avoid accidents."

Surprise Birthday Party Honors Mrs. Chapman of Thalia

Mrs. Bertha Chapman of Thalia was honored on her 73th birthday with a surprise party in the Thalia Methodist Church parlor Wednesday, Sept. 29, at 3 o'clock. The birthday song was sung to Mrs. Chapman as she entered the church parlor and Mrs. Percy Taylor took pictures throughout the party.

Snadragons decorated the registration table and Mrs. Ed Huskey registered the fifty guests.

The refreshment table was covered with a lace cloth over green with the white tiered birthday

cake and complemented with an arrangement of pink zinnias and greenery. Mrs. C. C. Lindsey and Mrs. Leotis Roberts presided at the pink crystal punch service and Mrs. M. C. Adkins served the white cake which was decorated with pink candles. Mrs. H. W. Gray, sister of Mrs. Chapman, made the birthday cake.

The honoree received a number of useful and appropriate gifts from the following people:

Mrs. S. J. Boman, her sister, and Mrs. W. M. Rake of Vernon; and from Thalia, Mesdames Jessie Gamble, Texas Ford, Beatrice McCarty and sons, Roy Shultz, Vera Kindt, Leotis Roberts, M. C. Adkins, Eula Elliott, E. J. McKinley, Cap Adkins, Raymond Grimm, O. M. Grimm, Ruth Abston, Robert

Hammonds and daughter, Merle Moore and daughter, L. H. Hammonds, J. K. Langley, Leroy Henry, J. D. Tucker and daughter, J. C. Taylor, Percy Taylor, and And Maggie Hammonds, H. W. Banister, W. J. Long, Ben Hogan, Maggie Wheeler, Ed Huskey, H. W. Gray, Lee Sims, Faye Whitman, T. R. Cates, Fred Gray and daughters, J. L. McBeath Sr., C. C. Lindsey, Fred Brown, Robert Long and daughter, Homer McBeath, Bob Oglesby, Walter Johnson.

J. A. Stovall and Mrs. Lona Folkner United in Marriage

County Clerk J. A. Stovall and Mrs. Lona Folkner of Rising Star were quietly married in Mrs. Folkner's home in that city last Friday afternoon at 4 o'clock, with Minister G. A. Dunn Jr. performing the ceremony.

Mr. and Mrs. Stovall arrived in Crowell Monday afternoon and will make their home on North 5th Street in a home recently purchased by Mr. Stovall.

ADELPHIAN CLUB

Miss Dorothy Erwin was hostess to a regular afternoon meeting of the Adelpian Club on Sept. 29.

Mrs. Virgil Johnson, president, conducted the business session and followed it with a very informative and interesting talk on "Our Texas Indians." A silver donation was made by the members to be used for an Indian girl scholarship which is a project of the Seventh District. The outstanding talk of the program was made by Judge Leslie Thomas on "Laws for the Protection of Women." It was very instructive and enlightened his audience in many ways of business that confronts women very often at a crucial time of their lives. It was followed by an open forum discussion that presented many phases of the question.

During the social hour the hostess served a very delectable and luscious plate of refreshments.

Plans were made to accept the invitation of the 1904 Club of Quanah to an open meeting at the Lake Pauline club house in October.

COLUMBIAN CLUB

The Columbian Club met on Wednesday, Sept. 29, in the home of Mrs. Roy D. Fox. A brief devotional and prayer were offered by Mrs. D. R. Magee, chairman of American and Religious Education. During the business session, presided over by Mrs. V. W. Browning, the counselor for the Sub-Junior Columbian Club, Mrs. Kenneth Halbert, reported on the activities of that organization and announced plans for the forthcoming style show with the teen-club members as models.

Leader of the program for the day, Mrs. Bert Self, introduced Mrs. Grady Halbert, who had chosen for her discussion, "Prelude to Pioneering in Texas," a report on the conditions prevailing in our state prior to colonization. A map showing the location of the various Indian tribes in Texas and their influence upon early missionary and colonization efforts was explained. It was interesting to note that the nomadic Indian was far more resistant to civilizing influences than was his brother living in permanent settlements and engaging in domestic labor.

It was Mrs. Roy Barker who took up the story from there, giving interesting insights into the life of Stephen F. Austin and his influence upon those who followed him in his father's (and subsequently his) dedicated plan of colonization. Miss Mary Sam Crews added up-to-date items concerning the Perry family, descendants of Austin's sister, who still own the original Stephen F. Austin property.

Some twelve members and three guests, Miss Crews, Hollis and Seth Halbert, were served plate refreshments by the hostess.

HENRY CIRCLE

Mrs. J. C. Prosser and Mrs. Andrew Calvin were hostesses to the Henry Circle Monday in the home of Mrs. Prosser. Mrs. Jack Walker gave a story of a ditch digger and his singing "I'm a Child of the King" while he works. Since we are carrying a meat demonstration, I will be able to pass along to you many of the things given at this program.

We will have a meeting of all E. E. E. Club chairmen next Wednesday morning, Oct. 13, at 9:30 o'clock in my office. At that time we will discuss the plans for our Achievement Day which will be held Nov. 20. If you are E. E. E. chairman of your club, I know that you will want to attend so that you can discuss with us the exhibits, etc.

Since I have many calls on how to freeze foods here are some tips on how to make your frozen foods successful.

Freezing is a real time-saver when preparing meat dishes such as meat loaves, stews, and casseroles—if you follow a few suggestions for success. Do — leave vegetables and macaroni slightly undone for freezing. Otherwise, they will be soft when re-heated. Vegetables which are fully cooked are also likely to have less color and flavor or be off-flavor. Do — freeze meat pies or turnovers with pastry crusts unbaked. Crusts baked after freezing will have fresher flavor and be more flaky and tender than those baked and then frozen.

Do — cool the main dish quickly. Set the uncovered pan of food on ice or in ice water. Quick cooling stops the cooking and helps to keep the natural flavor, color, and texture of the food. It

Home Demonstration Notes

MRS. MARY D. BROWN

As you know, I attended the annual Extension Agent's conference in College Station last week and I really feel that I brought home many worthwhile ideas. One that I particularly enjoyed was "meat in the family meals." Since we are carrying a meat demonstration, I will be able to pass along to you many of the things given at this program.

We will have a meeting of all E. E. E. Club chairmen next Wednesday morning, Oct. 13, at 9:30 o'clock in my office. At that time we will discuss the plans for our Achievement Day which will be held Nov. 20. If you are E. E. E. chairman of your club, I know that you will want to attend so that you can discuss with us the exhibits, etc.

Since I have many calls on how to freeze foods here are some tips on how to make your frozen foods successful.

Freezing is a real time-saver when preparing meat dishes such as meat loaves, stews, and casseroles—if you follow a few suggestions for success. Do — leave vegetables and macaroni slightly undone for freezing. Otherwise, they will be soft when re-heated. Vegetables which are fully cooked are also likely to have less color and flavor or be off-flavor. Do — freeze meat pies or turnovers with pastry crusts unbaked. Crusts baked after freezing will have fresher flavor and be more flaky and tender than those baked and then frozen.

Do — cool the main dish quickly. Set the uncovered pan of food on ice or in ice water. Quick cooling stops the cooking and helps to keep the natural flavor, color, and texture of the food. It

also retards growth of bacteria that may cause spoilage.

Don't add a cheese or crumb topping to a casserole before freezing. Such toppings are best added when the food is reheated.

Don't — hold main dishes too long in frozen storage. For economical use of freezer space and tip-top quality, two or three months is long enough to hold main dishes in frozen storage.

Our recipe this week is for

Pear Pickles
1 gallon pears, 2 quarts sugar, 1 pint water, 1 quart cider vinegar, 2½ sticks cinnamon, 2 tablespoons whole allspice.

Kieffer pears or firm juice pears are good pickling pears. Wash the pears, peel, cut in half or quarter and core. Boil the pears for 10 minutes in water to cover. Boil water, sugar, vinegar, and spices tied loosely in cheese cloth. Add the drained pears and let stand overnight in the syrup. Next morning, drain off syrup and boil down until thick. Add pears and cook until tender. Do not stir but keep under syrup. Pack hot into sterilized jars. Cover with syrup, seal, and store in a cool, dry place.

When to Defrost Home Food Freezer

When your home food freezer needs defrosting, don't put the big job off. A clean box actually leads to more economical operation and longer life of the unit.

It's difficult to set up a regular schedule, so defrost when the sides of the box become frosted with one-half inch of ice or more, says Mrs. Mary D. Brown, County Home Demonstration Agent.

Mrs. Brown explains that ice acts as a blanket over the refrigerating coils. The heavier the coating, the longer the machinery must run to produce a zero degree temperature, the best temperature for keeping frozen meats, vegetables or fruits.

Plan to defrost when the food supply is low. During hot weather, defrost in the early morning, the agent says. Take care not to let

the food stuffs begin to thaw. This will lower their quality.

Two corrugated boxes placed one in the other with the outer box packed with newspapers for insulation will keep foods several hours. A wool blanket spread over the boxes gives even more ideal holding conditions.

With the contents of the freezer removed, disconnect the electricity and open the door or lid. On warm days the ice will melt quickly, but an electric fan blowing into the box will speed up the process. Use only water from the faucet for cleaning a defrosted freezer. Never use warm or hot water.

When the frost is melted, dry the box, start the motor, the freezer to cool about an hour, replace the food and the job is done, Mrs. Brown concludes.
