Postal Employee from Paducah Local Officers of Being Kidnapped Illinois and Released Near Crowell

Alarm was broadcast from Friday evening for the capture of three men who had supplied a Cattle County Sheriff Glenn Shook that they were in a prison during an escape through Tennessee, Kentucky and Arkansas, and left him in his automobile seven miles east of Crowell.

Before notifying local officers of the abduction, Smock drove to his home in Paducah.

After hearing Smock's description of the men, Deputy Shook issued an alarm for the capture of the trio.

Smock said one man known as Joe, had black hair, brown eyes, was about 6-feet 2 inches tall, 210 pounds, about 35 or 40 years of age, and wearing brown trousers and jacket and a white short sleeved shirt.

The second man, called Mack, was about 35, 185 pounds, six feet tall, with black hair, brown eyes, wearing a tan jacket, brown trousers and a white shirt.

The other man in the threesome was blonde, blue-eyed, 28, about five feet six and had a dimple in his chin. Smock described his apparel as a loud colored sport shirt and a blue jacket.

According to the temporarily kidnapped victim, both "Joe" and "Mack" were armed.

Local officers reported no information concerning the alleged abductors.

Large Crowd Sees Roping Contests Here Last Sunday

Despite the torrid temperatures, over 150 people were on hand for the Crowell Roping Club's invitational calf roping contest held at the local roping arena Sunday afternoon. Some 26 contestants, representing roping clubs from Vernon, Electra, Altus, Kamay, Paducah, Quanah, Archer City, Crowell, and one performer, Dub Shrode, from Sulphur Springs, participated in the event.

Each roper was allowed to rope two calves, and the prizes were awarded to the contestant having the best total time for roping two calves.

Prizes Awarded

First and second place honors went to two members of the local club, Danny Reynolds (Dodson Ranch) and Eli Wallace (Quanah) with times of 30.1 and 30.8 seconds, respectively. Rusty Bradley of Kamay and Emil Kester of Odell took third and fourth place honors by posting times of 30.9 and 39 seconds. Rodeo belt buckles were presented to these men by the Crowell Roping Club.

Members of the host club who roped Sunday afternoon were Rusty Russell, Howard Ferguson, Bill Robertson, Conney Shrode, J. C. Everson, Clarence Hamby, J. H. Gillespie and Gerry Knox. Sherman McBeath served as arena director and time keepers were Otis Gafford and Jackie Hickman.

Club Thanks Merchants

President John Cogdell expressed the club's sincere thanks for the merchandise given the club for prizes. The businesses who contributed goods for this cause included:

McClain Super Market, Wm. Cameron & Co., Wehba's Cash Grocery, City Cleaners, Lowe Motor Co., Humble Station, Hi-Way Market, Brooks Auto Supply, Cicero Smith Lumber Co., Adkins (Continued on page 4)

Out-of-County Rates on Subscriptions to Be Raised Sept. 1

On account of the high cost of newsprint and rise in postage rates, the News is being forced to raise the subscription price on papers going outside of Foard and adjoining counties to \$3.00 per year, effective Sept. 1, 1954. This step is being taken after long consideration, and not until it was inevitably forced upon us. In fairness to other departments of the business it should have been done sooner. Postage rates on papers going out of the county continue to rise, and the farther away the subscriber lives, the higher the rate, and in all probability the postage rates will never be reduced.

Rates on these subscriptions for less than one year will be 40¢ per month, \$1.20 for three months, \$1.80 for six months, and must be sent direct to the News office.

Subscribers could help us lessen the expense of handling these subscriptions by notifying us at least a week in advance of a change in address. If new address is not known that far in advance, then notify us to stop paper until new address is established, and the copies missed could be supplied and in that way the subscriber would not miss an issue. Copies of the paper going to the wrong address are destroyed and notices sent to this office at a charge of 3¢ per notice.

Cooperation of our subscribers in this particular problem will be greatly appreciated.

Football Training to Begin Monday, August 23, for Crowell Wildcats; Nine Lettermen Returning from Last Year

With the conclusion of the pre-season all-star football games scheduled for Friday night at the Oil Bowl Classic in Wichita Falls, local sports fans are eagerly awaiting the presentation of the 1954 edition of the Crowell Wildcats.

Fall training for the charges of Coaches Thayne Amnett, Gordon Erwin and Glen Taylor is slated to begin next Monday, August 23. Due to the elimination of spring training in Class

A this year, training is allowed to start one week earlier than was the case last year.

This year's edition of the Wildcats, minus seven starters from the 1953 team who won 9 games while dropping only one, again face a tough schedule. The local lads tangle with Matador, Quanah and Memphis in non-conference tilts before meeting Iowa Park, Holliday, Chillicothe, Lockett, Paducah and Henrietta in district play.

First Game with Matador

Matador plays host to the CHS eleven in the first game of the season on Sept. 17. The Cats' first home game is with the Quanah Indians here on Sept. 24.

Despite the severe losses from graduation, Crowell has nine lettermen returning. These include Duane Boren, end; Jackie Walker and Don Smith, tackles; C. T. McDaniel and Edward Daniel, guards; Robert Kincaid and Don Kidd, centers; Gordon Graves, quarterback; Gerry Knox, half-back; Reserves from last year's team, "B" team boys, and freshmen up from the grade school team, will fill the vacancies. These boys include Gerald Houck, Ray Gibson, Jimmy Thaxton, Joe Calvin, Edward Howard, Nelson Abston, Floyd Bice, Johnny Wehba, Roy Don Payne, Prentiss Gidney, Billy Everson, Ray Thomson, Louis Rettig, Jerry Pittillo, Sonny Cates and James Doyal.

In addition to these boys, several other boys have indicated that they plan to report.

Coach Amnett expressed hopes this week that these boys will make an effort to report in good condition since a short time exists before their first scrimmage with the Floydada Whirlwinds here on Saturday night, August 28.

Grass Fires Keep Fire Department Busy This Week

Motorists Requested Not to Throw Lighted Cigarettes from Car

The Crowell Volunteer Fire Department reported three fires during the past week. All of the fires were grass fires, and were extinguished immediately after being reported.

Tuesday morning, the local crew was called to a grass fire near the railroad at Margaret. The department responded quickly and put out the flames before they contacted several tanks of butane on the railroad tracks.

Late Saturday night and Sunday afternoon, small crews of firemen fought grass fires on the Margaret highway and north of Crowell.

Officials of the department warned motorists to be careful and not throw lighted cigarettes and matches from vehicles. They further emphasized that this notice is especially important since the dry weather has made grass and weeds highly inflammable.

Emergency March of Dimes Drive Started Monday; Urgent Need for Funds Cited by Campaign Director

Increased polio incidence and treatment techniques for patients have conspired to make costs soaring this year.

Bird, Foard County Emergency March of Dimes campaign director, said Wednesday.

The ironic combination," Mr. Bird explained, "is one of the reasons why the National Foundation for Infantile Paralysis has found it necessary to launch an emergency appeal for August 16-31."

Field surveys by the National Foundation showed the following developments in 1954—the 17th year of the organized fight against polio:

1. More lives are being saved today, but the cost of survival is greater. Only 4.8 per cent of all reported polio cases died in 1953, compared with a death rate of 11 per cent during the five-year period 1948-52. Thus last year, about 390 people lived, who in earlier years would have died. But they required more extensive and expensive care and treatment as a result. The patient aid bill for 1953 was \$29,734,000, large in history. It may be even larger this year.
2. More polio patients need help today, so it costs more. There were 67,000 holdover patients from 1953 and earlier years still needing March of Dimes help this year. Incidence of polio for the first half of the year is one-third higher than the average for the last five years. There may be 40,000 new cases this year, with hospital costs higher than in 1953. Treatment for polio patients in hospitals is one-third higher than the average of all hospital cases. (Continued on page 8)

Force Plane "Dunking Pond" for March of Dimes Drive

In an effort to benefit the current drive of the Emergency March of Dimes, the Crowell Lions Club will operate a dunking pond in Crowell on Saturday, August 28.

Mike D. Bird, chairman of the local campaign, stated that the Lions are going all-out to support this cause. The club will contribute all of the proceeds to the drive.

The pond, the same as used at the annual school carnival, will feature some outstanding personalities, Mr. Bird pointed out.

Of course, it's all in fun, and the proceeds will benefit an organization that has in the past rallied to the needs of Foard County's polio victims, and will continue to take care of our polio-stricken in the future, through contributions.

Texas Comes First with ALLAN SHIVERS

by VERN SANFORD Texas Press Association

Austin, Tex. — Charges and countercharges flew fast as the race for governor rounded the turn for the final lap.

Judge Ralph W. Yarborough, quick to accuse Allan Shivers of misdeeds, found fault with state printing contracts awarded to the Times Publishing Company of Mission because Shivers had been a stockholder in the company in 1946.

From Attorney General John Ben Shepperd came the retort that "I have investigated the whole transaction and there is nothing wrong with it." The contracts, Shepperd said, amounted to only about one per cent of the state's printing business and it went to the Mission firm on the basis of low bids.

Another Yarborough charge was that Shivers had withdrawn the Rangers from politically-hot Duval County.

This statement, said Ranger Captain Alfred Y. Allee, was "utterly untrue." Captain Allee testified that the Rangers are still in Duval County.

And Colonel Homer Garrison, director of the Texas Department of Public Safety, asserted that no request had been made to pull the law officials out of George Parr's domain.

Yarborough's political promises, came in for attack. When he pledged himself, if elected, to support a Galveston County project—a \$5 million bridge across San Luis Pass—a statement came from John S. Redditt of Lufkin.

Redditt, former chairman of the state highway commission, former state senator, and former president of the Texas Good Roads Association, said: "In all my experience the Texas Highway Department has operated without this kind of political interference from the governor, the Legislature, or any other source. This policy has given Texas the nation's finest roads per dollar expended."

Yarborough Campaign Otherwise, in his campaign speeches, Yarborough promised to build 40 new dams in South-Texas. Charged that a "vast army of

state employees" had been forced to leave their jobs and campaign for Shivers.

Proposed the creation of a new Texas water board and advocated the investment by the state of \$400 million in water conservation projects.

Charged that Shivers spent \$2 million in his first primary campaign.

Shivers Campaign In his campaign appearances, Shivers:

Rapped Yarborough for being "the only man I know of in Texas who has cast doubt on Texas' tidelands claim to the 10 1/2 mile limit."

Charged that Yarborough misled Negro voters in the first primary by announcing that he was for segregation and then later stating his opposition to the U. S. Supreme Court's segregation decision.

Told Port Arthur listeners in a public rally that people who represent Communist-dominated unions and opposed the present state law outlawing the Communist Party are supporting Yarborough.

Received praise from B. A. Stufflebeme, Grand Prairie member of the State Prison Board, for cooperating to make the system "one of the best."

Big Vote Anticipated Absentee balloting reports from over the state indicate a good possibility of the August 28th Democratic run-off primary bringing a heavier turn-out than did the first primary, according to various county clerks.

In Austin, Travis County absentee ballots were coming in at a rate approximately five times that of the July primary, according to County Clerk Emilie Limberg.

A Short Ballot Texas voters August 28th in the Democratic run-off primary will have one of the shortest run-off ballots in years.

Only two state-wide run-off races, the gubernatorial contest between Allan Shivers and Ralph Yarborough, and the Supreme Court race between Alfred M. Scott and Fawcett Brewer.

There will be 21 district races composed of two runoffs for Congress, one for district judge, three for district attorney, and fifteen for state representative.

New Bridge Texas Governor Allan Shivers will be the chief speaker at August 21 ceremonies opening the \$2.5 million surfside highway bridge at Brazosport.

The bridge is the only fixed span over the Intracoastal Waterway. It has a 78-foot vertical and 201-foot horizontal clearance for water traffic.

Road Bids Bids for construction on 288 miles of state roads were scheduled to be opened by the State Highway Department Tuesday and Wednesday with estimations running around \$9 million.

Bids were to cover some 182 miles of farm roads and 106 miles of state and federal highways. A large portion of the total cost will go for expressway construction.

tion in Austin and Dallas.

Farm Income Up Texas' farmers earned more during January-June of this year than during a like period last year although farm prices were declining, the University of Texas Bureau of Business Research has reported.

The bureau said that farm income was running nine per cent over that of the first six months of 1953. Increased revenues from cotton and cattle were primarily responsible for the increase, the bureau said.

Soil Conservation News of District

Lower Pease River Soil Conservation District, Lower Pease River District Board: W. C. Howard, Grady Halbert, O. T. Holmes, O. H. Brandon, H. L. Ayers.

This week Jess Irvin completed two miles of large ridge type terraces and a drainage ditch on his farm 6 miles west of Quanah. Bob Womack has completed approximately two miles of terraces on the Summers farm that he operates 2 miles west of Quanah. Edgar (Slick) Milligan has completed three and one-half miles of terraces on his farm 7 miles south of Quanah. Terrace lines were run for J. E. Compey this week. His terraces will be constructed during the next ten days.

All the above terraces are different from those run in the past in that they are much wider and smoother. Contractors, this year, are working in the outside cut so that a farmer can plow in the channel easier.

Terraces are being constructed on the above farms and others to reduce the loss of water and soil. After the big rains last spring many fields had gullies cut so deep that they could not be crossed with a tractor. Fields where the soil is shallow had more subsoil and rocks showing after the heavy rains. Terraced fields, after the heavy rains last October, had moisture stored twice as deep as fields not terraced. The exception to that was where the land had been chiselled or deep rooted legumes turned under.

Most of us have realized a long time. That is that the consumer of food pays a lot more for the processing and marketing of the food item that he buys than he does for the raw agricultural product that goes into it. For instance, this report shows that farm prices advanced 29 per cent between 1946 and their peak in 1951. While the farm prices were taking this 29 per cent rise, retail food prices advanced 45 per cent between 1946 and 1952. Since 1951, the farmers' prices for his agricultural products have fallen 20 per cent or almost back to the 1946 level. In sharp contrast, however, retail food prices held on within a fraction of their 1952 peak. In June of this year, farm prices declined 4 per cent while retail food prices advanced 0.5 per cent. So far, almost none of the lower prices that the farmers have been receiving for their products since 1951 have been passed on to the consumer in the form of lower food prices. If further price declines should come in farm prices, the consumer could expect little benefit unless the recent tendency to increase marketing and processing charges are curbed.

Examples of what the farmers' real share in the finished product is are pointed out in the report. For instance, the average price for a one-pound loaf of bread has increased since 1948 from 13.8c to 17c. During this same period of time the price of wheat has declined 32 per cent, and the price of bread has advanced 23 per cent. The farmer gets 2.7c for the wheat that is in this one-pound loaf of bread. Another example is that a 5c peanut candy bar contains about 1/2 worth of peanuts, and if the confectioners got their peanuts free, it would not change the price of the 5c candy bar, even though a few more peanuts might be added.

A \$3.95 cotton shirt contains 30c worth of cotton. That is what the farmer gets. Cutting back the price of cotton has meant no

change in the price of the shirt. The report goes on to show that out of every dollar spent for food in this country, 5c goes for imported foods such as fish and other products not produced on American farms. Out of each dollar spent by the American housewife for food produced in this country, 56c goes for processing, marketing, and transportation charges. The farmer receives 44c, and of this 44c, approximately 20c goes to the purchase of tractors, plows, trucks, gasoline, fertilizer, and other supplies required for modern farming. Thus, the farmer and his family have about 14c out of each dollar spent for food for their work and their investment.

LET'S TALK LIVESTOCK BY TED GOULDY

A stocker and feeder calf show and sale sponsored by the Texas Aberdeen Angus Association will be held at the stockyards at Fort Worth Friday, Sept. 3, but when the sale starts there will be no auctioneer chanting the sing-song cry of the bids. All of the calves and yearlings in the sale will be sold at private treaty in the same way stock is sold each day at the big market.

The sale will be unique in many other ways. It will be the first breed association sale of stockers and feeders to be held on the huge stockyards at the Fall season of the year. The show will be devoted to loads and half loads, but larger or smaller lots will be seen.

The "blacks" have become increasingly popular with many Southwestern cattlemen and this is the first gathering of its kind to be held at a major market in this part of the country.

Big Cattle Run Monday

Slaughter cows were lower at Fort Worth Monday, with fat cows showing the most decline. Bulls held steady. Grassy slaughter steers and yearlings also slipped in price. Slaughter calves were around 50 cents a hundred and more lower.

The buyers offered much lower bids on the opening rounds and salesmen made a long tough day of it by resisting the lower bids stoutly. Over 132,000 cattle and calves were reported Monday at the nation's major markets and this was the heaviest run in several weeks.

Stocker cattle and calves enjoyed a fairly reliable market at steady prices at Fort Worth, despite the pressure from the huge runs over the nations.

Hog Prices Higher

Hog prices staged a good rally of 50 cents to \$1 per hundred at Fort Worth Monday and top butcher hogs sold at \$24 to \$24.50. The top of \$24.50 was the best price in several weeks for butcher hogs.

Less attractive butcher hogs sold from \$20 to \$24. Sows drew \$14 to \$19, or around 50 cents above the previous close.

Lambs Top \$20 to \$21

A fancy string of about 350 lambs averaging 94 pounds from Pecos County topped at \$21 at Fort Worth Monday and other good and choice fat lambs cashed at \$17 to \$20 as the opening session of the week got underway to a stronger market.

Yearlings and older sheep sold fully steady to strong with fat yearlings \$10 to \$12, and slaughter ewes drew \$4.50 to \$6.

Very good demand for breeding ewes of good ages and quality was again noted.

Market Helped

The apparent better tone on livestock demand and on prices reported at Fort Worth during the past ten days has been the result of some cooler weather in the East and Midwest that increased the consumption of meat. Another factor was the reported showers in the Midwest and Eastern sections of the country that served to bolster the stocker and feeder demand.

Stocker and feeder calves and yearlings are currently selling around \$2 to \$4 above prices a year ago at mid-August at Fort Worth. Enough demand for stockers and feeders has been apparent to keep the slaughter buyers hustling to get the numbers they needed most of the time and this has prevented any attempt to lower prices drastically.

Prospects of a good feed crop from many sections of the Plains and Panhandle portends some good demand for feeders this Fall, if conditions remain favorable.

REVIVAL AT THALIA

A revival meeting will be held at the Thalia Church of Christ beginning next Sunday and ending Sunday, Aug. 29, Minister C. H. Casada has announced.

W. L. Wharton of Brady will do the preaching and services will be held at 10 a. m. and 8 p. m.

Building of Roads Should Not Be Issue in Governor's Race

Marshall Formby of Plainview, member of the Texas Highway Commission, this week expressed deep concern that Ralph Yarborough, candidate for Governor, is reported promising roads and bridges in parts of Texas, in an effort to garner votes.

Formby is a Plainview attorney and owns interest in several West Texas radio stations. He was appointed to the commission in February, 1953.

Formby said that Yarborough's recent promise to build a \$5,000,000 highway and bridge in Galveston county and along the Gulf Coast, if he were elected Governor, is an example of political promises that would eventually harm the fine Highway Department in Texas. His full statement follows:

"I am deeply disturbed when I hear of the dozens of promises that Mr. Yarborough is making to the people offering to build new roads and bridges in various parts of the state.

"For more than a quarter of a century the Highway Department has been completely free of political road and bridge building. The Texas Highway Department has built roads and bridges based strictly on merit and need.

"Texans everywhere take great pride in the Highway Department, stressing the fact that there are no politics in it, and for the good of all Texas I sincerely hope that they can continue to have that pride.

"The present Commission has not spent one dime on a political road or bridge since I have been a member, and I know that the three members would never vote 15 cents to fulfill any political obligation.

"I have been a member of the Commission for 18 months and during this year and a half Governor Shivers has never once requested me to spend one dime on any particular road or bridge, but has insisted to me that every expenditure be based strictly on need and merit as far as the money would go.

"To my mind, that is the only way a highway department can be run. Texans must see that this condition continues to prevail."

Free Enterprise

"It is due to the play of free enterprise that the United States has prospered above all other nations," says the Oregon V. "This prosperity is felt in purchasing power of all our nation. To stifle it by withholding all of our natural resources for exclusive development is to retard economic progress and development and diminish the prospect that would ensue."

The factual record backs up. Keep it in mind next time you hear socialist arguments for government monopoly of water, energy, mineral resources, atomic energy for peacetime use, or anything else.

YOUR SENATOR REPORTS

by **Lyndon B. Johnson**
U. S. SENATOR

Farm Legislation: By a narrow margin the Senate voted down the farm price support bill reported by the Agriculture committee and instead passed the "flexible" support bill favored by the Administration.

The committee bill, which I favored, would have maintained price supports on basic crops at 90 per cent of parity. The Administration proposal, which I voted against, sets these supports on a "sliding scale" of between 82½ per cent and 90 per cent of parity.

To my way of thinking, the legislation simply means that when the farmer does not need help, he will be guaranteed 90 per cent of a fair price. When the farmer does need help, his income will be lowered to 82½ per cent of a fair price.

Dangerous Theory: There is a basic assumption behind this "flexible" price support theory which I cannot agree. It is the assumption that there are economic problems which can be solved by lowering the income of one segment of our population. This seems to me a fallacious theory. I do not believe that lower income for Texas farmers will promote prosperity for residents

of Texas cities any more than I believe that a low income for industrial workers promotes farm prosperity.

I believe firmly that prosperous farmers mean prosperous factory workers just as prosperous workers mean prosperous farmers. I believe also that prosperity in the fields and in the factories promotes the prosperity of business.

Blow at Unity: It is unfortunate that the campaign waged by the Department of Agriculture on behalf of its farm program has been of such a nature as to divide the American people. It has turned—or sought to turn—city folks against country folks.

Farmers have been pictured as bloated plutocrats, driving into the city in their gold-plated Cadillacs to pick the pockets of the consumer. In the minds of many, the farmer has become a profiteer—a man who sells and sells at fantastic, exorbitant prices.

That is a result of the work of the high-powered press agents in selling the theory of "flexible" farm price supports.

Not a True Picture: We know in Texas that this is not a true picture of the farmer.

We know that our farmers have been hard hit by drought—by falling insect depredations—by falling prices. Everywhere you go in Texas, you find farmers deeply uneasy about the future—many of them convinced that the Agriculture Department has become their enemy instead of their friend.

The uncertainty with which they regard the future is certainly understandable.

Summing Up: It is my considered opinion, based on what I consider convincing evidence, that flexible price supports will not solve the problem of farm surplus. It will mean lower consumer prices—will not mean prosperity.

I believe their immediate effect will be to lower farm income by taking away the floor upon which agriculture relies to prevent disaster and hardship. I believe their long-range effect will be to set a dangerous precedent which could be harmful to our entire national economy.

That is why I voted against the Administration bill.

Food Dollar: When the American housewife spends a dollar for food produced in this country, 56 cents goes for processing, marketing, and transportation charges. The farmer receives 44 cents, approximately 30 cents of which goes to buy tractors, trucks, plows, gasoline, and other supplies required for the modern farmer.

In other words, the farmer and his family have about 14 cents out of each consumer dollar for domestically produced food for their cost and investment.

The farmer's share of the consumer dollar has dropped in recent years and months with the decline in farm prices. Retail food prices have remained at about the peak levels of 1952.

Work to Do: As this is written, a number of important pieces of legislation are awaiting action by the Senate before adjournment. I am anxious to get home to Texas, of course, but I believe any bill affecting the lives of American people should receive just as careful consideration during the closing days of a session of Congress as at any other time.

My aim is to do the best job I can of representing the people of Texas in the Senate. I do not feel that a good job can be done too hastily. The last-minute rush must not be allowed to result in sloppy and ill-considered legislation.

News Receives Letter from Ed Gossett

The News received a letter this week from Ed Gossett of Dallas, former representative to Congress from this district, who is taking his first vacation in 20 years at Estes Park, Colo. He is extremely interested in the Governor's race and expressed the following opinions concerning the two candidates:

"The issues are between the left and right wings of the party, between the liberal and conservatives. I think Shivers' defeat would be a tragedy. I know it would kick all Southern conservative Democrats in the teeth. It would greatly encourage the Herbert Lehman, N. Y., radical wing of the party."

He stated that Yarborough got 95 per cent of the Negro and C. I. O. vote throughout Texas. In two solid Negro boxes in Dallas, Yarborough received an over-

prospect is a possible \$33,500 for patient aid.

3. Those who need help most need it for severe, long-term or respirator patients. Of \$734,000 spent for patient care last year, more than \$20,000 went for the care of long-term patients. There are 2,000 long-term patients now living in lungs; as many more new respirator cases may be expected year. A long-term respirator patient can cost \$20,000 in year.

4. More old cases go back hospitals for new, improved treatment. In the first three months of this year, reports from hospitals showed 1,706 old cases were re-admitted to hospitals. Of these, 502 came back for orthopedic surgery; 552 returned for intensive rehabilitation; 617 came back for improvement in convalescent care; 35 for other types of treatment.

5. Polio hits more older people today. Polio is no longer a disease of children. The age onset is going up, and the portion of respirator patients increases with the age of patient. Last year, of all patients reported to the National Foundation, per cent were age 20 or over.

"Facing these facts," Mr. concluded, "it is obviously impossible to cut back financially in field of patient care. That's the Emergency March of Dimes during August 16-31 must succeed. The thousands who are seriously disabled and now depend upon their fellow Americans generosity constitute a public trust that must be fulfilled."

whelming majority of 586 to 414 in 3 solid white boxes. Shivers received 1,596 votes to 1,000 for Yarborough.
